SEMI-WEEKLY EDITION

FARMERS GATHER AT MODEL FARM

Large Crowd Took in Excursion to Lacombe Tuesday—What is Being Done at the Farm.

To do the pioneer work in agriculture, to experiment with all the forms of vegetable growth...

In the early days when agriculture was getting a footing in the province every farmer did his own experimenting...

Two years ago the Dominion department of agriculture established a farm at Lacombe with the object of teaching by actual experiments...

It is well stated that the farmers of the province get in touch with the results that have been attained...

Realizing the necessity of a provincial department of agriculture organized an excursion to Lacombe...

The large crowd arrived shortly before twelve o'clock and had lunch on the grounds...

Early in the afternoon they were divided into groups of five and headed by an experienced assistant were taken on a tour of inspection over the farm...

The day they assembled in an open air hall, where the most instructive speeches were made by Superintendent Hutton...

Winnipeg, July 20.—The day of the twenty-first day of July and the month is rapidly passing away...

There is only a little over a week of it, and when the month has grown old and feeble there is likely to be seen an uprising of the bear...

which is the earliest the Orloff and Poland give evidence of being the earliest and the most prolific. The amount of seed to the acre ranges all the way from 1 1/2 bushels to 2 bushels to the acre. It is thought that best results are obtainable from the 2 1/2 bushels to the acre.

Peas are also the subject of investigation. Several varieties are growing quickly and every plot but one has been inoculated. This is an advance as no inoculation was attempted on the pea plots last year. Attention is given in another quarter to different grasses, and with winter rye. One plot of the latter has reached a height of five feet. Twenty-eight varieties of potatoes have been grown with a view of experimenting as to distance apart and depth of seeding.

In another section of the farm are some of the hardy apple trees. Thirty varieties of hardy apple trees are doing well for their first year and some of them appear to be well able to stand the climate. Of the ornamental trees the best success is obtained with the product of the farm's own nursery. The trees are all always of questionable variety. This year Mr. Hutton is in a position to distribute seedlings of Caragana, Manitoba Maple and other trees. These make very desirable ornamentation to the farm.

The First Object Lesson. "I would like every farmer to know the advantages of the value of alfalfa," said Mr. Hutton to a Bulletin representative. "The land should be sown over with the packer after breaking and summer fallow and very often alfalfa seeding. This makes an ideal seed bed as it renders the soil more capable of retaining moisture. The reason for the winter killing in fall wheat this spring has been due more to lack of moisture than anything else. The advantages of the value of packing is that it has produced an increase of 27 per cent in the production of a field of oats."

There is also the alfalfa question, said Mr. Hutton. "If we can get farmers growing alfalfa properly the fodder question will be forever solved. On July 13, 1939, a plot of alfalfa which was inoculated yielded 4150 tons of dry hay and a field of the same size not inoculated yielded 3949 tons. Alfalfa is estimated to have 2 per cent more protein than timothy and five tons of alfalfa are said to be equal in nutritive value to 20 tons of timothy hay and to 4 1/2 to 5 of grain."

The speeches of the day, which were delivered from an improvised platform built by the exhibitors, were cringing to the province by the establishment of the experimental farm. Emphasis was placed on the necessity of growing early maturing grains and of cultivating the soil so as to retain all the moisture possible. As the first annual excursion to the Leacock experimental farm, the day was a great success in every way. All who were present expressed in some way or other their appreciation of what is being done at the farm of agriculture and returns home to do missionary work for the farm. The second annual excursion next year the attendance will be greatly increased.

FIVE CANADIANS MADE POSSIBLE

(Continued from Page One.) King's prize with Pte. McOae, 7th Argyll Highlanders, and these two men who so far lead the crack shots of the empire, will shoot off for premier honors tomorrow.

Corpl. Albert Sprinks, who has thus brought further renown to the Canadian marksmen, is unattached and must not be confused with his brother, Corporal W. D. Sprinks, of the same regiment, who is a member of the official Canadian team. A special prize is given the competitor making the highest aggregate score in the first stage of the King's prize, namely, the N. R. A. bronze medal, and the R. R. A. bronze badge, and it is for these that the Canadian and the Highlander shoot off tomorrow. Several other Canadians have made high aggregates, and these are included in the final grand total for the King's prize, the representatives of the Dominion will enter in the second stage on Friday, and shoot each at 300 and 600 yards, with better prospects than in any recent years. Following are the complete Canadian scores in the wild part of the first stage of the King's prize, seven shots at 600 yards, and 30 shots at 300 yards.

- Corp. Copping, Montreal, 30
- Sgt. Maj. Creighton, Toronto, 64545-33
- Corp. Forrest, Vancouver, 29
- C. Sgt. Freeborn, Hamilton 55545-34
- Pte. Gougeon, Winnipeg, 55535-32
- Sgt. Maj. Huggins, Hamilton 55545-34
- Maj. Jones, P.E.I., 35555-31
- Sgt. Kelly, Toronto, 31
- Sgt. Kerr, Toronto, 28
- Corp. McInnis, Edmonton 55525-32
- Capt. McVittie, Toronto, 55445-33
- Sgt. Marsden, Winnipeg, 45554-33
- Sgt. Mitchell, Hamilton, 54555-34
- Lt. Morris, Bowmanville, 35555-32
- Sgt. Richardson, Victoria, 54545-33
- Sgt. Russell, Ottawa, 43545-31
- Lt. Smith, Chatham, 28
- Sgt. Smith, Ottawa, 55555-32
- Corp. W. D. Sprinks, Toronto, 30
- Sgt. Stack, Toronto, 54445-32
- Corp. A. Sprinks, Toronto, 55545-33
- Sgt. Blackburn, Winnipeg, 29
- Staff Sgt. Bayles, Toronto, 27
- Sgt. Brown, Toronto, 26
- Corp. Albert Sprinks 103, Sgt. Mitchell (Hamilton) 102, Capt. McVittie (Toronto) 101, Col. Sgt. Freeborn (Hamilton) 99, Sgt. Huggins (Hamilton) 98, Sgt. Stack (Truro) 97, Sgt. Kelly (Toronto) 97, Lieut. Morris (Bowmanville) 97, Sgt. Richardson (Victoria) 97, Sgt. Russell, (Ottawa) 97, Sgt. Major Creighton (Toronto) 96.

In the three hundred competitors taking the highest places in the first stage are eligible for the second stage, and six more Canadians whose scores reached 30 have still a chance of get-

ting into that stage as they have to shoot off with 96 others who made the same aggregate in the first stage. These are as follows: Lieut. Smith, Chatham; Sgt. Stack, Ottawa; Pte. Gougeon, Winnipeg; Sgt. Kelly, Toronto; Sgt. Bayles, Toronto; Sgt. Blackburn, Winnipeg.

The following Canadians who shot in the first stage have not qualified for the second stage: Corp. McInnis, Edmonton, 94; Major Brown, Toronto, 94; Sgt. Marsden, Winnipeg, 93; Sgt. Kerr, Toronto, 92; Corp. W. D. Sprinks, Toronto, 91; Capt. Forrest, Vancouver, 89; Corp. Coppin, Montreal, 89.

In the Armourers' competition, open to all, Major Jones Peowal, P.E.I., secured tenth place and 1 pound. In the "All-Comers" aggregate, made up of the best aggregate scores in the Alexandria, Daily Graphic, Daily Telegraph and Graphic competitions, Sgt. F. S. Richardson added another decisive win to the Canadians taking the challenge cup and gold medal.

In this competition and 2 pounds; Sgt. Stack, Truro, sixty-first place and 2 pounds; Sgt. Blackburn, Winnipeg, sixty-second place and 2 pounds; Sgt. Kerr, Toronto, sixty-third place and 2 pounds; Sgt. Bayles, Toronto, seventy-fifth place and 2 pounds; Corp. Coppin, Montreal, seventy-ninth place and 2 pounds; Sgt. Major Huggins, Hamilton, eighty-first place and 2 pounds; Sgt. Freeborn, Hamilton, will represent the Canadians in the team shoot for the National Challenge Trophy.

Australia Wants Squadron. Melbourne, July 15.—Mr. Cook, the minister of defence states that he is thoroughly in favor of a local squadron provided it becomes Australia's section of the imperial navy. The officers of the squadron should be employed in building swift cruisers for the protection of Australian trade so much the better. They could train Australian sailors who work in conjunction with the local destroyers.

ST. PAUL REGATTA CLOSING EVENTS
Winnipeg Eight Trained in Two Lengths Behind the Winner But Her Crews Took Other Events
St. Paul, Minn., July 18.—Winnipeg took three events out of the four, the senior bantam, senior singles, and junior fours, in the latter half of the international regatta at St. Paul, Minn., and Western Canadian Rowing association on the Mississippi river here today. St. Paul won the fourth event, the senior bantam, and the Winnipeg third. Port Arthur and Kenora were not represented in this race as they had only sent Bantam and Junior fours. The result of the senior eight was a big surprise. Since Winnipeg had taken nearly every event in regatta, it was not at all unlikely that her crew would trail in last and several lengths behind the winner at that. From St. Paul, Minn., the crew of a length for the first half mile, rowing 42 strokes. St. Paul was closing behind, at 40 strokes and Winnipeg at 38 strokes. Beyond the half-mile mark the St. Paul crew crept steadily ahead and led by two lengths at the finish.

NEW ACT NEXT SESSION.
Minister of Public Works Informs Good Roads Convention of Important Change in Law.
Hon. W. H. Cushing, minister of public works, attended the good roads convention at Leacock, Ont., at which he made the statement that the government intended to pass a rural municipalities act during the next session, which would provide for the formation of rural municipalities with power to borrow money and spend it as they see fit upon roads and other local improvements.

Disapproves of Act.
"The government recognizes," said Mr. Cushing, "the need for local improvement act has outlived its usefulness and that it will be of little avail to attempt to patch it up. A new act will give rural municipalities the same powers as are at present possessed by towns. Government money will in future be confined principally to expenditure in new districts and settlers in older localities will be expected to attend largely to their own needs. The government expenditures in older districts will in future be curtailed."

"Specifications have been prepared by my department," said Mr. Cushing, "but they have not been lived up to. As to the expenditure of government money in future, I can not say whether it will be handed over to the local authorities, as recommended by the convention, or whether it will be disbursed by the government itself."

Local Member's View.
Mr. Tolford, M.P. for Leacock, declared that the building of good roads was too heavy a burden for the rural municipalities to undertake. He thought that narrow tires were the great enemy of good roads and favored the appointment of road inspectors who reside in the various districts of the statute labor system.

Resolutions Passed.
The convention passed the following resolutions after considerable discussion:
1. Resolved that this convention is of opinion that good roads are accompanied by systematic drainage as the greatest need of the farmers of the country and that the government should better the conditions of those who are engaged in farming and tend to a more general settlement and cultivation of the rich farm lands of the country.

2. Resolved that in the opinion of this convention the expenditure of public money upon roads, bridges and

drains should be managed upon business principles and entirely removed from party politics.
3. Resolved that this convention is of opinion that such government works should be constructed by the system of tender and contract, and that no government money should be expended on public works except under said system.

4. Resolved that the government be requested to publish statements showing the amounts of public money allotted to and expended in each constituency since the formation of the province.
5. This convention is of opinion that the foregoing provisions for the construction and improvement of roads, bridges and drains should be part of the statute law of the province.

6. Resolved that a copy of the resolutions passed at this convention be forwarded to the government of the province.
7. That the government of Alberta at next session of parliament give consideration to the following: (1) To all local governing bodies to borrow money for the purpose of constructing and maintaining roads, such money to be expended in accordance with and under the sole control of said local governing body and that the government guarantee the municipal debt of such bodies.
8. The money which at present are expended by the government in road construction to be granted to the local governing bodies the amount of each individual grant being based on the current taxation of said local governing body.

Local Association Formed.
A good roads association was formed in the constituency of St. Paul and two representatives and the council from each township and the good roads committee of the Board of Trade. The officers of the association will be the president and secretary-treasurer. The following are the members of the association: J. B. Hamner, B. Charest, W. Heatly, J. Hamner, G. Belter, F. D. Falkenburg, W. Buckle, Jno. Wahl, C. W. Sanders, C. E. Sanders, W. J. Dent and D. C. Britton.

CORRESPONDENCE.
THE AGRICULTURAL COLLEGE
Editor Bulletin:
Sir,—The excellent statement of the good principles upon which a faculty of agriculture should be included in a modern university is given in your editorial column of July 17. It causes me to feel that any special contribution I can make regarding the experience of a single state is of little value. However, I will create evidence sometimes appeals more effectively than the generalizations based upon it, perhaps your readers will be interested in the account of my recent interview with D. E. W. Hilgard, Emeritus Professor of Agriculture in the University of California and expert in the College of Agriculture. Professor Hilgard has spent practically all of his life in the service of agriculture and is generally looked upon by the college as the leading authority on most topics connected with that important industry.

Just a word here on Dr. Hilgard's main work as an agricultural expert. It has been in the line of soil analysis, a peculiarly technical science which requires the highest specialized training of the university man in order to secure accurate results. When Professor Hilgard began his work in California 20 years ago and talked of soil analysis, he was regarded in the farming districts as an aimable lunatic. Today, however, the laboratories of the university have added millions of dollars to the annual income of the state, his lunacy is considered to have been more practical than the sanity which condemned it.

Professor Hilgard informed me that the College of Agriculture has been operating as an integral part of the university for forty years, during thirty-five of which he had himself presided over the work of the college. He was surprised to know that it should have been stated "that the union was a failure and had had to be dissolved. It was true that occasional attempts at separation had been made, but they had always been connected with some local "practical" politics and had never been endorsed by the sound thought of either the rural or urban population. The faculty of the College of Agriculture were dreamers, romancers, and not "practical" men; (2) that the students graduated from the College of Agriculture and went into any profession rather than agriculture; (3) that the students of the College of Agriculture were looked down upon by the other students. With regard to (1) I have before me a letter from Prof. Alfred Atkinson of the agricultural college in the question of establishing the institutions of higher education is just now before the people of the province of Alberta. It is an important question and ought to be dealt with slowly, in order that no serious mistakes may be made. The suggestion that comes to those connected with taking up a problem of this sort is that it will be more economical and effective if the institutions of higher education in the province of Alberta. It is an important question and ought to be dealt with slowly, in order that no serious mistakes may be made. The suggestion that comes to those connected with taking up a problem of this sort is that it will be more economical and effective if the institutions of higher education in the province of Alberta. It is an important question and ought to be dealt with slowly, in order that no serious mistakes may be made.

THE EDMONTON BULLETIN

(SEMI-WEEKLY) DAILY-Delivered in City, 40 per cent. By mail, per year, \$3. By mail, per year, \$2.50. All subscriptions in advance. BULLETIN CO. LTD., DUNCAN MARSHALL, Manager.

THURSDAY, JULY 22, 1909.

A GOOD MAN GONE.

News of the death of Dr. McIntyre, M.P. for Strathcona, will bring sincere regret to friends numbered by the hundred and by no means confined to the political party with which he was affiliated. As a citizen and a man Dr. McIntyre richly deserved and certainly had the esteem of those who knew him, regardless absolutely of whether or not they agreed with his views on public matters.

Strathcona is not the only sufferer by his departure. The West at large sustains a distinct loss. The late member bore a deserved reputation as one of the hardest workers in the House of Commons.

AS TO 'PHONE INTERRUPTIONS. The superintendent of the city telephone system assures the Bulletin that it was erroneously informed as to subscribers being cut off without warning while changes in wiring were being made.

A STRIKE OR A CONSPIRACY. The opinion seems to be growing in Nova Scotia that the strike in the Sydney mines is an ingeniously contrived scheme for tying up the Nova Scotia mines while the operators of Pennsylvania capture the Montreal market, the largest market open to the Nova Scotia mines.

THE DISASTROUS FOURTH. Following is a sample of the fate which overtook the celebrants of the national holiday across the border. If Canada approves the results we have only to continue to allow the free and independent use of the firecracker and other instruments of death and destruction on our days of national celebration.

EDMONTON BULLETIN. THURSDAY, JULY 22, 1909. The time will come, under prudent policies, when none exceeds them in value. The foreign trade of Canada amounts to about \$650,000,000 a year, and the people watch its increase as if the national life depended upon it.

MONTREAL TO ENFORCE EARLY CLOSING LAW

But Shopkeepers Who Have Been Worried in Courts May Go to the Privy Council. Montreal, July 19.—The city council resolved this afternoon by a three-quarters majority to take immediate steps to enforce the long-disputed early closing bylaw, and advertisement to this effect will be published in the city papers, with notice that the bylaw will go into effect the following day.

Boy Killed by Horse.

Toledo, July 17.—Eldon Hallberg, eleven years old, was sent last Sunday for the horse half a mile away from the door of his home. He was being so long in the stable that the call to the great beyond was close at hand.

Children Die in Montreal.

Montreal, July 19.—There was a heavy death rate among children in the city last week. It is put down to the fact that the weather was so hot and the children were not properly protected.

Died From Heart Failure.

Owen Sound, Ont., July 19.—Mrs. Thomas A. Wells, of Toronto, who was visiting relatives here, dropped dead from heart failure.

ROBBING THE LAND.

As J. Hill, the Canadian manager of one of the great United States railroads, speaking recently of the necessity for Canada conserving her resources, dealt with the question of soil exhaustion in a way that should claim attention in the West.

THE RAID ON BISLEY.

A body of Canadian troops have invaded the Bisley district and at last reports were capturing all the silverware in sight. They annexed the Mackinnon trophy on Thursday and gathered in the Kelpore cup the day after.

RED COATS ENGAGE IN MIMIC WARFARE

Colonel Edwards, With Six Companies of the 101st Regiment, Captures Old Fort on Saskatchewan Bank From Valiant Force of Defenders Under Captain MacLeod.

In all its lifetime, the Old Fort on the bank of the Saskatchewan was never besieged as it was last night between nine and ten o'clock.

Few citizens were aware of the battle which was being waged below the city. The sound of firing was heard by many, who put it down for an exceptionally well attended shoot of the Edmonton Gun Club.

Shortly after eight o'clock the regiment, headed by the newly formed bugle band, and each man well supplied with ammunition, left the Second street armory and marched in column of sections down Second street to the field by the Exhibition Grounds.

Scouts were sent in advance to protect the flanks and the lines advanced in company with the main body of the Old Fort, until signals from scouts indicated the proximity of the enemy.

Attack From Front. An attack having developed from the direction of the Port by means of which a force was supposed to have crossed from Strathcona, the bank at the cutting of the railway reserves, ing the fort was lined by reserves, who poured in a strong fire and checked the flank attack. They then resumed their advance upon the main body of the enemy.

Enemy Driven From Fort. The skirmishers, after some heavy firing and sharp shooting, drove the enemy out of the Fort into a defensive position near it, and, taking advantage of cover, advanced beyond the Old Fort towards the higher embankment near the Parliament Buildings and reinforcements being brought up a strong fire was maintained.

When the enemy were vanquished a rally signal was given and each company formed on its markets and promptly marched into the officers column. Without delay the officers sent out pickets. Sentries were posted by the pickets, patrols were sent out and the examining posts established.

TO LOOK OVER CANADA.

Distinguished Journalists to Visit the Dominion.

Western Canada is to be visited during the next two or three months by a number of distinguished journalists. Some of the Antipodean delegates to the press conference are returning home by way of Canada.

Another distinguished English journalist who will be here in August is Dr. L. S. Amery, of the London Times. He will attend the meetings of the British Science Association, and will then tour through the Dominion.

CANADIANS TOOK KOLAPORE CUP

Dominion Marksman Add Another to Their Collection of Trophies.

Bisley, Eng., July 16.—The Canadian team, after their great exhibition in the Mackinnon cup yesterday, was expected to win the Kolapore Cup today and lived up to expectations. They did not, however, have as easy a time as the Mackinnon, their margin over the Transvaal being only ten points.

All the members of the team, with the exception of Lieut. Smith, used the Ross rifle. The scores were as follows: Team: 300 500 600 T1 Canada... 298 262 246-766 Transvaal... 293 267 246-756 Natal... 294 261 246-756

They were Brothers. Murderer of the Special Constable Supposed to be Related to the Man Shot by the Policeman.

Vancouver, July 16.—That the desperado who on June 28 shot and killed Special Constable Decker at Ashcroft, was a brother of the train robber Henry who had just been shot by the constable, is a fact established by the detectives, who are still pushing along the trail left by the bandit.

St. Lawrence Accident. Sorel, Que., July 17.—With water pouring in a deluge from her boiler, the river steamer Prefontaine of the Canadian St. Lawrence Navigation company's line last night ran stern race with disaster in Lake St. Peter.

Killed on Hand Car. Fernis, B.C., July 15.—Miss Lucy Horwood, local captain of the Salvation army, died here this morning as a result of an accident on Thursday evening. Miss Horwood had gone with several other companions for a ride on a hand car on the G. N. track, when by some means she received a blow on the back from the ascending handle of the car which broke the spinal cord. Her body will probably be removed to Barrie, Ontario, where her parents reside, for burial.

Disgusted and Quit. St. John, N.B., July 17.—A unique newspaper situation developed here today when the four city reporters of the Standard, this morning, gave up their positions, leaving only one day's paper left in a body, following a series of events which ended today also in the city editor leaving. Several reasons affecting the relations of management and the staff operated to bring the matter to this point. Temporary arrangements were made for carrying on the work. The trouble comes on the eve of a hotly contested election in St. John county for a vacant seat in the provincial legislature.

CARNAGE POSTPONED.

Pittsburg, Pa., July 19.—At eleven this morning no start had been made at Moke's works in any season to open the plant of the Pressed Steel Car Co.

JACK RYAN IS AGAIN AMATEUR. Ottawa Hockeyist Can Now Take Part in All Regatta. An affidavit was submitted by the new Edinburgh canoe club and signed by Ryan, to the effect he did not receive a cent for playing hockey, merely to play to improve his position.

GREECE WAKING FROM LETHARGY OF AGES. National Touring Foreign Countries Collecting Funds for Naval Expansion. New York, July 18.—Greece needs a larger navy. It is to have it. The young Greeks, who are many here, have been absorbing the grand ideas of liberty that your country teaches.

Strikers Orderly. Glace Bay, N.S., July 18.—Last Saturday will be recorded in the colliery districts as the most important of pay train robber Henry who had just been shot by the constable, is a fact established by the detectives, who are still pushing along the trail left by the bandit.

Transpire That Sutton and Another Officer Were to Have Fought Duel. New York, July 17.—An Annapolis dispatch to the American says that two persons of prominence who live in Annapolis and who prefer not to have their names mentioned, yesterday carried out the attack which the latter declares Adams made upon Sutton when the party alighted from the automobile.

Truaged Round the World. Berlin, July 18.—Hans Lian, who started around the world on foot with his daughter, on September 12th, 1897, has just finished his journey and reached his home in Passau. Lian undertook the journey in order to win a wager that he could push his family in a cart around the globe.

Murder in Austria. Vienna, July 16.—A telegram received here from Budapest declares Leon Ling, the Chinaman who on June 9 is supposed to have murdered Elisabeth, is in that city. The communication says that the Budapest police have received an anonymous communication that Ling was staying in a Chinese family and they at once began a search of the Chinese quarters for him.

Investors Interested in Canada. Toronto, July 18.—William MacKenzie, president of the Canadian Northland, returned today from London, England. He expressed himself as well pleased with the terms on which the large block of C. N. R. bonds were allotted. He said the money market abroad is in a healthy condition with serious interest in Canada as an investment field.

Fell From Car. Toronto, July 19.—Florence Sitchener, a young woman fell from a street car, tonight, fracturing her skull. She will probably die.

MANITOBA RETAINS ONE CHAMPIONSHIP

Winnipeg, Man., July 19.—In weather that could not be more favorable for the smashing of records, the twenty-sixth annual Dominion Athletic championship competitions were brought to a close on Saturday afternoon, marking the window of the Winnipeg Industrial exhibition.

The Eastern Athletes, among whom were several Olympic champions, did not have matters altogether their own way though they made a pretty good clean-up. The arrival of two quick policemen from Vancouver shifted the tide of some of the championships which on the opening day appeared certain for the east, westward.

Gloucester, N.S., July 18.—Last Saturday will be recorded in the colliery districts as the most important of pay train robber Henry who had just been shot by the constable, is a fact established by the detectives, who are still pushing along the trail left by the bandit.

Transpire That Sutton and Another Officer Were to Have Fought Duel.
