Something over three years ago the School Board of this Village engaged the services of a man named J. F. The students of Bowdoin College, Maine, have refused to take part any longer in military drill. Two classes, the juniors and sophomores, have been almost unanimous in signing a paper agreeing not to drill again, and the freshmen have joined with them in a resolution that the suspension or expulsion of one will be considered the arruption of the significant time to their credit, considering all the consideration of expulsion of the first the to the order than the suspension or expulsion of the first that the house of the suspension or expulsion of the first that the first the house of the suspension or expulsion of the suspension or expulsion of the first that the house of the suspension or expulsion of the first that the house of the suspension or expulsion of the first that the house of the suspension or expulsion of the first that the house of the suspension or expulsion of the first that the house of the content that the suspension or expulsion of the first that the had a wife live to the correct the cost o

led the affair very gingerly, and allowed Mr. Cullen to "resign," which was thought by many at the time to be not much to their credit, considering all the circumstances of the case. And so they left together; she turning her back on a comfortable home and loving friends, to follow the fortunes of a comparative stranger.

Not much was heard of them since that time until this week, when certain information has been received to the effect that Miss Scott died at Guelph on Monday last, and that there was an air of mystery connected with her sickness and death. Cullen was teaching school at Guelph, and she had been represented as his sixter-in-law, and housekeeper, and is said to have been shamefully treated. A clergyman who came out from Scotland with her, accidentally heard of her death and went to the faneral to learn if it was the same person he supposed it was; he was refused permision to see the corpse, but learned more than is pleasant to tell. We believe steps have been taken to bring Cullen's character and conduct before the Guelph School Board, when we hope he will not be allowed to "resign" but will be dismissed with the diagrace which should attach to a man that could be guilty of grossly ill-treating a woman who braved all for his sake.

Hamilton and the W. G. & B. R.—
We notice that at the meeting of the Hamilton Council on Tuesday night, a resolution was passed, authorizing the sale of the \$120,000 stock in the W. G. & B. R. Held by the Corporation, to the Great Western Railway, at 60 cents in the dollar. We believe that this removes the last difficulty in the way of opening the Southern Extension of this road for travel and traffic. In the expectation of this much desired event, we understand that gangs of men are now employed going over the road, and putting things in shape for work, and we fondly hope that by the 15th of next month, trains will running regularly over it.

The Pope-Macdonald Letter. The evidence of Lieut. Colonels letcher and Bacon, J. Simpson and lessenger Arless, Post Office Clerks, dessenger Arless, Post Office Clerks, and McGrath, salcon keeper, was aken on Tuesday with regard to the new phase in the Pope Macdonald letter affair, brought about by Boyes' confession. McGrath stated that Boyes was greatly chargined when he saw the letter published, and supposed Mr. Voung, whom he desired sed Mr. Young, whom he desired a political friend to place on his ard against the new political move, Pope, and thereby obtain a hold on late Administration. Another e stated that Boyes informed him arly this month that he had written to Mr. Dorion, stating that if a pardon was promised, he would divulge who had taken the Pope-Macdonald letter. An answer was to be sent to the Herald by the 25th May inst. If no answer was then received, he would make a full confession in writ-

NEW YORK MERCHANTS ON RECIP-ROCITY .- A special meeting of the bers of the New Yo Exchange was held on Wednesday, to get an expressio .: of opinion on the proposed renewal of the Reciprocity Treaty with Canada. The meeting was largely attended. The Hon. Mr. Brooks in the course of his remarks, stated that according to official records, there was a balance of ninety-one million dollars in favor of the States while trading with Canada and other British Colonie's during the twelve years of the old Treaty, and that the manufactures to those Colonies during the same period were greater than to a dozen countries on this continent and in Europe. One tobacco firm in New York used to sell \$2,000,000, worth penually to Canada during the exist BISCUITS, BUNS, CAKES, CANDIES, ence of the Treaty, but has done comparatively nothing since 1866. Mr. A. Baxter followed in support of the proposed renewal, and resolu-tions calling on the Senate to favour if were passed unanimously.

Last Sunday a child died from eating some of this sugar. The attention of the authorities has been called to the matter. "It is given to me to see these things clearly; but I fear the people will not believe in them till they have actually arrived. And yet how can they fall to read the signs of the times? Look at the great temperance revival sweeping over the country. It means that there is something in the air that stimulates men and women to a strange exaltation of the moral faculties. We see the same thing intensified in North Carolina, in the region where the earthquake is shaking the country. History tells us that these spiritual disturbances are closely connected with the unknown force that produces the earthquake and the volcano. The earthquake is close at hand, and it will surpass that which terrified the people in 1775. The breaking out of a volcano in North Carolina may probably avert to some extent the ruin that is otherwise impending, but, nevertheless, our whole Atlantic scaboard is to be shaken to its foundation, and New York city is to be destroyed, either by the earthquake or the equally terrible tidal wave.

AT THE LION

Our Weekly Arrivals of Goods make things Lively at THE LION! Trade better than Ever!

Over Thirty Thousand Dollars worth more Goods sold this Spring than last, and there will be more in the future, for we are determined to keep prices down in spite of increase in the tariff. Every one remarks the great business doing at THE LLON. Of course it must be so,—our stock is larger than any six stocks in Guelph, and our prices so much lower, and the people find out these things, and go where they get the best value for their money.

We have received a specialty this week of over one thousand dollars worth of Double Ballou's Kid Gloves direct from French makers, that we will sell at one dollar a pair; elsewhere you pay from \$1.25 to \$1.50 for the same.

Also, French Silks in all the newest shades in plain, striped, and shot, at \$1, worth \$1.50 a yard.

Another lot of lovely Dress Goods in Plain Lustres, Zenobin Stripes, Australian Crapes, and Folka Spots.

59 Boys' Suits just received to suit little chaps from 4 to 10 years old at \$3.50, \$3.75, \$4.00, \$4.50 and \$5.00 a suit.

Our Agent advises that next steamer will bring us 100 pieces Linen Tasso Dresses that he has bought very cheap. The goods are worth 25 cents; we will sell them at 12½ cents. The next Allan steamer will bring them.

The Ladies' Aid Society, in connection with the Wesleyan Methodist Church, have decided on opening refreshment tables, next to Mr. Strathy's store, on the first of July. As the ladies had tables in the same place last year, all who visited them at that time will need no invitation to go back again, as excrything was of the best, and in apple-pie order.

Some of the farmers in this neighborhood who thought of ploughing up their fall wheat a few weeks ago, now expect to have more than thirty bushels to the acre.

Patmore Bros. are making arrangements for the erection of a monstrous building on Arthur street, where they intend going extensively into the manufacture of carriages, buggies, and all kinds of light work. As they intend using steam, combined with the latest improvements in machinery, they will be able to turn out work equal to any establishment in the Dominion.

Mr. W. W. L. La Penotiere has just completed an excellent map of this village. He intends to have a number littingraphed.

Adjourned Teachers' Meeting.

At the preliminary Teachers' Meetingheld in the Wellington Hotel on the 23rd inst., for the purpose of nominating a representative for the Council of Public Instruction, it was resolved to hold the meeting adjourned, to meet again in Fergus on the 5th proximo. The reason for this adjournment arose chiefly from the fact, that owing to some misunderstanding with regard to the date of meeting, the number of teachers present was not so large as would be desirable to secure satisfactorily the object of the meeting. In view therefore of the meeting of a Teachers' Association which takes place in Fergus on the 5th proximo, it was deemed advisable to adjourn to the date and place above stated.

It was also resolved, that as a large number of teachers are likely to be present. Dr. Sangster be invited to hold a Teachers' Institute during the 5th and following days, and that Mr. Boyle, of Elora, communicate at once with Dr. Sangster in reference to the proposed Institute.

As Rev. Jas. Kilgour, P. S. I., has kindly consented to grant the teachers

Institute.

As Rev. Jas. Kilgour, P. S. I., has kindly consented to grant the teachers in his division of the county a holiday, should Dr. Sangster find it convenient to hold an Institute in Fergus, it is hoped that as many teachers as possible will avail themselves of the advantage-of attending lectures which have been received with so much enthusiasm in almost every county throughout the Province.—Com.

The Fashest Steamer in the World.
—Such is the title claimed by her builders, in England, for a boat they have just built to the order of the Government of India, for service in the Orissa canals. The dimensions of this extraordinary little vessel are:—Lergth 87 feet; beam 12 feet; draught of water 3 feet 9 inches. The speed contracted for was 20 statute miles per hour. The hull, the working parts of the engines, and the propellers (Thorncroft's patent) are of Bessemer sted, and the woodwork of toak. The official trial of the boat was made on the 14th ult, under the inspection of Col. Haig, R. E., Chief Engineer of the Bengal Irrigation Works, and the results were:—With tide, 25.08 miles per hour; against tide, of 24.61 miles per hur. In another official trial, subsequently, it was shown that the boat could keep up a speed of 22 miles per hour without losing steam. These speeds are extraordinary enough in themselves, but when it is considered that they are attained by a boat only 87 feet long, they become absolutely wonderful, and far beyond anything yet accomplished.

The General Assembly of the Canada Presbyterian Church, will be held in Ottawa on Tuesday next, in Knox Church. The Kirk Synod will meet at the same time in St. Androw's Church. It is altogether likely that a union between the two Presbyterian churches will be effected during their meeting.
