Trustees Who Went on a Four.

Yesterday The World met a couple of public school trustees, who were highly amused at the report of the proceedings at the Separate School Board meeting the night before. They caid very earnestly that they would attend the next meeting of the Roman Catholic educationists in order to get pointers on how to raise a row.

And there promises to be a big row at the next meeting of the Public School Board, and the cause thereof will be the recent visit of a deputation to learn something new about school buildings, ventilation and heating. They were Chairman Herbert Kent, Trustees Somers, Hastings, Oliver, Downard and Superintendent Bishop. They proposed visiting Detroit, Cleveland, fallo and Rochester in the order named and the expenses were not to be more than \$500. The deputation have been back some weeks after also visiting Washington and other cities outside of the proposed route, but they have not yet reported and there are no indications of when they will. Some of the trustees who did not go on the junketing four are wrathy and promise to make it warm.

One made the remark that the information that the school and returned and superintendent of published to the already large number of philanthropists and other fakirs who live and fatten on the Canada Gazette that in the preceding nise months the large number of 231,442 emigrants had left Great Britain for Canada, an increase of 43,260 over the same period of the previous year. sort. It was all very well to say that the Northwest was a great and glorious country; no doubt it was, but there was nothing left in it which would benefit the farmer. The country which the crofters had left was a far greater and more glorious country than the Northwest was or ever would be. July 6. Dan condemns Sir Charles Tupper for attending a state-aided colonization Society meeting in England. He also asserts, and not for the first time, that Mr. Donaldson, the Toronto agent of the Dominion Government, "is not very particular as to the truth when other language will answer his purpose better."

July 21. Your committee very much regret to be obliged to record that despite reports to the contrary by government agents in Canada, whose situations and big salaries are dependant upon the continuance of the present immigration policy of the Dominion as well as the equally unreliable statements of unscrupulous and untruthful contractors whose sole object is so to overcrowd the labor market and lower wages, work in all the building trades and amongst wage-earners generally is more depressed than it has been for many years past. In the same report Dan goes for the judges and stigmatizes their decisions as "swash-buckler judgments."

Aug. 3. He satirically and depreciatingly speaks of the "much-lauded Northwest."

Probably Some of Dan's Own Kidney. Aug. 18. The Pensioner directs attention to the fact that "a set of barefaced schemers en-joy a pleasant and profitable time each sumjoy a pleasant and profitable time each summer in crossing the Atlantic and traveling through Canada at the expense of the Canadian taxpayer. These people figure in the Dominion public accounts as delegates; but whom they represent or by whom delegated if not by the Dominion Government your committee could never learn." Further, he adds: "Canada cannot and does not furnish employment at living wages to her own people." He then gives the lie direct to published letters of John Lucas and Lionel Yorke, presidents respectively of the Toronto Builders' and Contractors' and Federated Contractors' Associations.

Sept. 21. Dan in this report tries to be funny. He suggests that the dog-collectors go around with their net and capture the 2-legged unlicensed "curs" who do the city's plumbing. Police Magistrate Denison also gets a rub: "this overpaid police official and his impertinent remarks." Dr. Barmado's statements are dubbed "utterly false."

Nov. 2. This day's report contains a coarse personal attack on Mr. Pardoe of The Globe on account of an article on the Rosedale drives scheme. "Second fiddler on the staff," "the malevolent Billingsgate of this knight of the shears and paste-pot," are the elegant terms

March 15. 1889. Secretary Nichols of the Canadian Manufacturers' Association is branded a liar. He "fabricated" a statement respecting a labor trial for the purpose of pleasing "such masters as his are." Anon he returns to the attack and says: "The egotistical secretary hypocritically said."

April 5. The Pensioner kicks against the three Toronto members—E. R. Clarke, H. E. Clarke and John Leys—because they voted for the pension to ex-City Treasurer Harman. May 3. This Mentor censures the Dominion Government for aggravating the situation of the labor market by granting an increased sum for emigration. This action is regarded as "an answer of direct hostility to the representatives of your body and the other labor organizations throughout Canada.

The Wicked Bominion Government. The Wicked Dominion Government.

May 4. Dan's latest:

Your committee in noting a paragraph that appeared in a recent issue of The Globe newspaper, which, while referring to the arrival of a body of immigrants at the sheds, said that "during the week three hundred applications for farm laborers had been made to the secretary of the Immigrant department." No doubt the informant was the said secretary, or rather the agent in person, with the design of conveying the impression that there were not men enough to be found throughout the country to supply the demand for laborers, but it must not be forgotten that when he fails in that story his vocation and salary must go, and also that such reports are necessary to justify the immigration policy of the Dominion Government; neither should it be forgotten, the more especially as it happens to be true, that farmers are ever on the alert to secure immigrants only and because they are ready, as a rule, and because they are so advised before leaving home, to work for any wages they can secure "multi they learn the ways of the country," and in total ignorance of the equally potent fact that it is hard to again raise to a fair living rate the wages they have been instrumental in lowering. The same paragraph also makes the statement that "other laborers are also groutly in demand, cont meteors and others being unable to secure men conduct."

writer of the words just quoted had no personal knowledge of their truth, for they certainly lack that essential element. A short advertisement in the city papers on the part of contractors would readily meet answer from many more men seeking work at fair wages than would be required. It may be true, however, that there is a scarcity of men who are willing to work for less than a living rate of wages.

Young Farm Hand Who Didn't Know he Judge McDougall held county judge's crim inal court yesterday when James Sisson, a 24-year-old farm laborer of Whitchurch, was year-old farm laborer of Whitchurch, was tried and convicted on the charge of bigamy. There was evidence produced to show that on July 11, 1888, he was married to Munie Ida Porter, daughter of Jared Porter, by the Rev. John Morgan, and that at Aurora on April 16 of this year he was married to Mary Smith by Rev. Henry McDowell. Sisson's excuse was that his first wife had gone away from him after someone had been "putting bad into her head." When she left him and did not come back, he thought there was no harm in marrying again. His Honor said that this crime was becoming too prevalent and he sentenced Sisson to two years in the penitentiary. Families leaving town for the summ

Condition of Farm Animals Better Than Could be Expected. The Bureau of Industries has just issued

bulletin on the prospects of the Crops and Live Stock in Ontario. The statements are based on the information derived from 700 correspondents throughout the Province. FALL WHEAT. There is a remarkable and most gratify-

ng contrast in the tenor of the fall wheat reports this year compared with those reeports this year served in the spring of 1888. This years crop was put in during one of the best seed-ing times within memory; the winter was mild, and the spring early—in some sections too early—for the wheat was uncovered and left subject to damage by the repeating freezing and thawing weather of March. But most favorable that have been received since the gathering of crop statistics was com-menced in Ontario. Less winter-killing is menced in Ontario. Less winter killing is reported than has occurred for many years past, and the acreage that has been plowed up is insignificant. Lambton is the only county which complains seriously upon this score, and in parts of that county the ground was bare in January. Other complaints of winter-killing are confined to mere mentioning of the smothering of wheat under snow banks near fences and of the heaving of the plants on low and wet land since the spring banks near fences and of the heaving of the plants on low and wet land since the spring in as set in. The great winter wheat counties of Simcoe, Grey and Bruce report in a very favorable strain. The Middlesex reports are satisfactory except one from Lobo, and from McGillivray and Biddulph where it is stated much has been plowed up. Essex reports are very good, as are also those of Kent, Perth (except one from the township of Downie), Oxford, Haldimand, Brant, Wentworth, York, Ontario and many other counties. In the northern counties, the wheat, though looking in excellent condition, has not made much progress lately owing to the coldness of the weather. Throughout the reports is to be noticed testimony to the efficacy of drainage, even in a season such as the pre-

The crop has been singularly free from insect ravages. The wireworm is mentioned only a few times as having been destructive, while the Hessian fly is only named once in the whole series of reports, and on that octhe whole series of reports, and on that oc-casion only in order that it may be men-tioned that the county (Lambton) seems to be getting free from the pest.

WINTER RYE. This is a very important crop in Northumberland, Durham, Prince Edward and a few other counties. Wherever it is grown extensively, the prospects are reported good for an extraordinary crop. Especially good reports come from the townships of Haldimand, Hamilton, Murray, Percy and Amellichweit

From the province as a whole the reports relating to this crop are very bad. Owing to the prolonged drouth, which existed in the east, north, centre, and part of the west, the east, north, centre, and part of the west, the "catch" last summer was unusually bad. What little germinated stood a very poor chance against the long continued dry weather. The early spring has been against the plant. It is reported as destroyed by heaving in many places. Still there are a number of reports describing the clover crop LIVE STOCK.

If you love your child why do you let it suffer when a remedy is so near at hand? the most sanguine could have hoped for six months ago. The drouth has been so destructive that farmers in the east and north had been compelled to reduce the number of their stock in many cases to only sufficient to carry on the work of the farms. Into the worst affected countries large quantities of hay were imported. The known scarcity of feed set farmers to work to economise their resources. As one of the correspondent is al." Then the weather became most favorable to the keeping of live stock. Gentle but plentiful rains fell during the early and late fall months. The pastures yielded abundantly up to fan unusually late period. A mild winter followed, rendering it unnecessary to feed heavily in order to maintain the animal heat. The open spring enabled farmers to turn out their cattle early. Generally speaking the winter was the easiest for stock on record. The result is that food, instead of being scurce is now abundant. Hay is cheaper in Lennox now than it was in the fall, and live stock has come through the winter in better condition than for past the winter in better condition Sleeplessness is due to nervous excitement. The delicately constituted, the financier, the business man, and those whose occupation necessitates great mental strain or worry, all suffer less or more from it. In a length letter to the committee, dealing with the offer of \$4432 a year by the C.P.R. for the land south of the Esplanade sought to be expropriated by that railroad, the Otty Solicitor stated that the city received yearly from the same property at present no less than \$6356. The Assessment Commissioner held that the property was worth \$200 per foot, except that portion west of York-street, which was worth \$175. Mr. Biggar puts the entire value of the city's leased property here at \$311,875, 5 per cent. on which sum would be \$15,593. It was resolved that the Mayor, City Solicitor and Ald. Baxter proceed to Ottawa to interview the Government in reference to the affair. The committee also expressed itself as in favor of arbitration.

Is the Cure Permanent?

Mr. Doyle is the next to testify: My catarth had reached my lungs, and I had all the symptoms of approaching consumption, such as constant hawking, spitting and discharge from the throat and nose, which, during the night, dropped into the tubes of the lungs and there deposited the poisonous matter, laying the sure foundation for future trouble. The pain across the chest gave me additional alarm, and I immediately placed my case under the professional attention of specialists for my disease, and the result has been very gratifying for me. The above symptoms have not only been removed, but they also cured me of dyspepsis. The cough which I had for two years has disappeared, also that worn-out feeling and pains through the lungs; my pulse was over one hundred, and now to know that I am cured, I feel it a duty to the public to state that no symptom has returned for over three years, and I feel that I am cured permanently. "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for 9 or 10 years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach.

After suffering with chronic rheumatism for several years, I was induced to try Paine's Celery Compound, and after using sew bottles found myself greatly improved. In fact, after using three bottles, have not felt any shoumatism. Can conscientiously recommend it. Yours very truly, Mrs. P. COWAN, COWARSVILLE, P.Q. Paine's

Celery Compound "I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles."

SAMUEL HUTCHINSON, Sc. Cornish, N. H. Effects Lasting Cures.

Paine's Celery Compound has performed many other cures as marvelous as these,—copies of letters sent to any address. Pleasant to take, does not disturb, but adds digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

"By a thorough knowledge of the natural laws which govern the operations of discession and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to discase. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished trame."—Civil Service Gazetto.

AM DEVOTING MY WHOLE ATTENTION to property east of the Don, and I always have a few choice blocks for investments, or can sell you a lot for a home at \$160, only \$25 down, balance monthly. This property is only about two miles from the market. Why should you go twice the distance north or west, and pay more monoy? Eastern property only wants to be seen to be admired. It is true this part of the city has been heavily handicapped by the disgraceful mismanagement of the Don and other improvements, but its day of prosperity is sure to come. Now is the time to buy and get shead of the wave, and participate in the levelling up of prices that is sure to follow the completion of the improvements now under way. PRESTON

SUMMER RESORT & MINERAL SPRINGS PRESTON, one of the prettiest towns in Western Canada, with its boautiful, cool, shady walks and drives, its lovely valleys, with the charming little River Speed running through it until it reaches the Grand River, has long been noted for its celebrated mineral springs. The remarkable curative qualities of the baths in the most obstinate cases of 'rheumatism, kidney and liver complaints, neuralgia, skin diseases of every description, as well as its recuperative powers to the business man needing quiet and rest afterf the year's labors, can be testified by hundreds of our prominent citizens. The hotel, situated on a slight eminence in the quiet part of the town, with cool, terraced gardens, oroquet lawns, etc., is well adapted for the invalid orseeker of quiet summer repose and rest. The accommodations are most comfortable, with every modern convenience, the table first-class; billiard table and livery stable in connection; the rates lower than any other summer resort in the Dominion. Its close proximity to Toronto, with low railway rates, make it the most desirable spot in Ontarlo for our citizens to spend their summer vacadon. Preston can be reached by G. W.R. to Preston Station, by Credit Valley to Galt, within three miles, or by G.T.R. to Blair, one and a half miles. Tickets for Springs can be bought at reduced rates. Bus meets every train at Preston Station. Send for circular with rates and particulars to
