

### STORSTAD CAPTION SUPPLEMENTED BY OFFICIAL INQUIRY STARTS TODAY

#### Owners of Collier Appear Confident That They Will Be Able to Present Strong Case — Eighty Witnesses to be Called — Legal Battle Will be Vigorous.

Canadian Press Despatch. QUEBEC, June 15. — With practically all the witnesses in town except the captain and crew of the Storstad, an expected down by the Richelieu an Ontario boat in the morning, the stage is set for the official investigation into the disaster in which the C.P.R. Empress of Ireland was sunk more than a thousand lives were lost. It is open in the courthouse under the presidency of Lord Mersey, the distinguished English jurist, tomorrow morning.

So far as the gathered popular opinion seems to favor the side of the Empress, and the bulk of expert opinion that of the Storstad. Altho the representatives of the latter were reticent, it is the general idea that they consider they have a strong case. There are probably two main points on which interest will centre, these being the question of the international rules governing collisions, or rather the prevention of them, and the action taken by the captain of the Storstad subsequent to the calamity.

It is understood that on both these points the representatives of the Storstad owners think that they have a strong case. It is said that their contention will be that when the Empress of Ireland and the Storstad first sighted each other the latter was off the starboard bow of the C. P. R. liner and that therefore, according to the principal rules of the Geneva Convention, it was the duty of the Storstad to keep her course, passing port to port and red light to red light. Instead of that, it is said the Storstad struck the Empress on the starboard, or green light, and that the onus of proof is likely to be on the owners of the Empress.

As for the question of the Storstad crew away after the fatal accident, the opposing story will in all likelihood be that the crew of the Empress was kept her engines going full speed ahead in order to fill the gap, but that the rate of speed at which the Empress was going was the cause of the disaster.

As for the question of the Storstad crew away after the fatal accident, the opposing story will in all likelihood be that the crew of the Empress was kept her engines going full speed ahead in order to fill the gap, but that the rate of speed at which the Empress was going was the cause of the disaster.

Authorized supplying water to properties 500 feet or less outside the city limits.

Approved promotions in the assessment department.

Decided to expropriate 12 acres in Eglinton known as the Miller property, north of the city east of Dufferin, for playground purposes.

### NEWS OF WARD SEVEN SNEAK THIEVES BUSY

After a lapse of several weeks, complaints are again coming in to No. 9 police station of the theft of builders' tools and supplies from unfinished houses. This time it is from the southern section of the ward that the thefts are reported, in the Keele street district, and it appears as if an organized gang is operating in the district.

A considerable quantity of builders' hardware, such as locks, hinges, door plates, etc., were reported as missing from time to time, and the police are striving to identify the pilferers. Much material has been traced which has been reported as missing from unfinished houses.

As for the question of the Storstad crew away after the fatal accident, the opposing story will in all likelihood be that the crew of the Empress was kept her engines going full speed ahead in order to fill the gap, but that the rate of speed at which the Empress was going was the cause of the disaster.

### EXPLICIT AGREEMENT TO BE READY SOON

#### Street Railway Purchase Awaiting Consideration of C. N. R. Lawyers

### DELAY IS EXPLAINABLE

#### Agreement Terms Will Be Laid Before Council for Their Information.

When city council met yesterday the early afternoon sun was beaming; when they rose the stars were twinkling in a cold sky over the city. No chance to launch into a long and heated debate. Everything from grammar to the ferry company's proposed re-election was considered. Several important moves were made, but less time was taken for these than for debate in public, some that should never have come before the council at all.

Some members of council who thought street railway purchase was a foregone conclusion, because it had not been mentioned in the House, were surprised to find that the subject was brought up by the Mayor Hocken.

### POLITICAL INTELLIGENCE

#### Bob Gamay has been nominated for the fifth time for a seat in the legislative assembly by the Conservatives of Manitoulin. His opponent, Rev. Mr. Wilson, a clergyman and a Conservative, was at the convention, and seems to have been subjected to rather vituperative denunciation. It appears that Mr. Gamay was sailing into his opponent when the latter entered the hall. But we were told by the Recorder, evidently a Gamay paper, go on with the story.

At this point Mr. Wilson entered the hall and Mr. Gamay repeated his statement for the benefit of the reverend opponent, and challenged him to a duel. Mr. Wilson walked to the platform and taking a bundle of letters from his pocket, he explained that he had written Mr. Gamay regarding some things that were going on in the constituency, and in reply he had received the letter which he had just read. It contained about two or three lines, stating that if such conditions were true, he would be very sorry, but could do nothing by correspondence. Mr. Wilson then took his seat.

"You see, gentlemen, that this letter does not contain one line or even a word intimating that Sir James or any other member of the party would like to have this man as a candidate," said Mr. Gamay, and the statement was followed by cheers and loud applause. Mr. Wilson then stated that this man has been making respecting this letter as false as they can be made. He knew that this tender-foot had no such letter as he has been claiming, because he has a copy of the letter written by Sir James, and I have a copy of the letter he wrote to Sir James. After giving his opponent a dressing down in his usual style, Mr. Gamay proceeded with a further discussion of the work of the government.

Down at Peterboro the Conservative candidate also seems to be having some trouble with his clerical friends. It is to be wondered at because Mr. Soden and Mr. Rowell as well as Mr. Kennedy are all in the same boat. There was some altercation at the nominating convention over which Mr. Kennedy presided, and Mr. Soden and Mr. Rowell were both present. The incident is thus delicately narrated by the Peterboro Review, which, if not edited by Mr. Burman, M.P., certainly brings from time to time a trace of his cynical humor. The Review says in effect that politics is a game and if clerical friends wish to get in they must abide by the rules. To quote:

"The opening meeting in the open house of Mr. Soden's campaign was an enthusiastic one and developments made it particularly interesting. A modestly interesting address and made his position on the temperance question and other issues clear, while Mr. Soden, Mr. Duff spoke in vigorous, convincing periods, of the great work of the Whitney government and the soundness of Conservative administration.

### SOCIAL DEMOCRATS SEEK FIVE SEATS

#### Party Nominates Standard Bearers in Forthcoming Elections.

#### ONE IS A MINISTER

#### Rev. W. E. S. James Will Run for Seat B, Toronto Northwest.

The following seats will be contested by Toronto Social Democrats: Seat A, Toronto N.W.; J. A. Colombo; Seat B, Toronto N.W.; Rev. W. E. S. James; Seat A, Toronto N.E.; I. Bainbridge; Riverside; T. E. Black; West York; M. D. Armstrong.

J. Colombo is an Italian who has lived in Canada for more than 20 years and has been closely connected with the socialist and labor movement for most of the time.

I. Bainbridge is a member of the Stonecutters' Union and a delegate to the Toronto Trades Council.

Rev. W. E. S. James is a Methodist minister at Holstein, Ont. Some time ago he started the Methodist world against the low wages paid to country ministers. He was born in Essex County, little more than 30 years ago, and is a Catholic and a member of the Christian Union, as well as a delegate to the trades and labor council. This is his first attempt to run for any office. He is considered one of the best labor speakers in Toronto.

M. D. Armstrong, the organizer of the party, is looked upon as the best debater and speaker of the social democratic party. He was defeated for the office of alderman in West Toronto last January. The contest was a close one, and he and otherwise, have been in the city for a meeting next Saturday, and the Rev. Edward Ellis Carr, Ph.D., editor of the Christian Social, will reply to the attack made upon the Socialists by P. W. Collins last Friday.

Ex-Mayor Evanson of Prescott is running as an independent temperance candidate against G. Howard Ferguson as member for Deenville, and independent Conservative candidate is Thomas Hodgson, who is running on a temperance platform in North Victoria.

In view of the general claim of a general victory by our Liberal friends it would be interesting to know just what ridings they expect to carry. The registration in Toronto seems to indicate that the Liberal party are well organized, and will get out the party vote. Just now at any rate the unbiased observer would not predict any Liberal success in York County. The government may lose some seats on the bilingual school issue in ridings where the French vote is predominant or a considerable number. In other districts factional fights may prevent the return of the government, and cause a great divide. But reports from over the province do not indicate the overturn of the government.

The Montreal Herald-Telegraph which becomes officially a Liberal newspaper today, prints the following weird despatch from Ottawa: It is reported that Hon. Dr. Resumé, who failed to secure the approval of his convention in

Windsor, is to be appointed Lieutenant-Governor of Ontario, in succession to Sir John Gibson, whose time is up.

Hon. Dr. Resumé is said to be anxious to be the first official Lieutenant of the million-dollar palace he built in Toronto as Government House. He will, if appointed, be the third Roman Catholic governor of Ontario. The Ontario Lieutenant-Gov. Crawford is the first Roman Catholic to hold the office. Sir James Whitney is understood to have been offered the post, and to have declined. It is stated on good authority that after the election Sir James will be appointed to the Canadian senate to fill the vacancy created by the death of Hon. George A. Coe.

The Guelph Mercury objects to the hydro-electric being "dragged into politics," and says: As was expected, The Toronto Telegram has dropped its independent vantage with the near approach of an election, and has run to the Tory camp for a supply of political news. Its chief mission just now is to get the hydro into politics, and preparing the hydro car as the only vehicle on which it looks safe for the Whitney outfit to go to the country.

What the voters of South Wellington are interested in just now, is that Samuel Carter, a thorough socialist public ownership advocate, and the man who proposed the resolution that gave birth to the hydro car, should be elected to Toronto to strengthen the hands of the public ownership element in the house. Mr. Hanna can look after the opposition. The hydro is passing thru a period where men of the Samuel Carter type are needed.

TOWNSHIP COUNCIL AWARDS CONTRACTS

Many Sewers and Sidewalks Will Be Completed This Year.

CITY WANTS AGREEMENT

No Sewer Connections Can Be Made Until Terms Are Arranged.

At the meeting of the York Township Council yesterday a bylaw was passed authorizing the construction of sidewalks on Earnscloffe avenue, Warren road and Baby Point, and for the laying down of sewers on Sellers and Day avenues, and the paving of Warren road.

The tenders were awarded as follows: J. Godson, for the paving of Warren road, \$2490; John Walker, for the sidewalks on Earnscloffe road, \$384; sidewalks on Baby Point, Roubay & Somers, \$900; construction of sewers on Sellers and Day avenues, Lewis Construction Co., \$640, and sidewalks on Warren road, A. Johnson, \$255.

A bylaw to raise \$80,000 for the building of a new school in S. S. No. 26, Cedarvale, and \$18,000 for the extension of S. S. No. 15, Vaughan road, was read a first time and the clerk was instructed to have it registered.

Information Needed.

A communication was read from W. McLellan, provincial engineer, stating that in view of the proposed work of the good roads commission, it was necessary that the council give further information regarding the roads in the township, and indicate on the plan provided, about 25 miles of the most important highways, also an equal mileage of secondary roads.

Agreement Required.

The Farmers' Colonization Co. made application for the right to lay down water mains on the west side of Weston road. Commissioner Harris, in a letter to the council, stated that the city would make no recommendation for sewer connections until the township council assured the city of its intention to enter into an agreement in connection with the laying of the sewers.

RIVERDALE TORIES WILL SELECT CANDIDATE

After selecting practically the same delegates for the second convention Riverdale Conservatives completed all arrangements for their meeting this evening when they will nominate a candidate to represent them in the coming election. Both Thomas Foster and Joseph Russell, the two prospective candidates, made appeals to the meeting. The convention will be held tomorrow night in Armstrong's hall, Tappan avenue.

In the meantime the temperance forces have been busy, advancing the cause of their candidate, Charles Doughey. Following his declaration that he would remain in the fight, Mr. Doughey has been putting forth every effort to rally the temperance forces.

TRAFFIC INCREASED BY DOUBLE TRACK

Double-Header Trains of Forty Cars Handled on C. P. R. Line.

GRADE MUCH IMPROVED

Passenger Service Will Be Inaugurated Early in July.

The additional track and bridges on the Canadian Pacific between Leaside and Agincourt (3 miles) are now in use and have greatly facilitated the movement of trains to and from the east. The eastbound all run on the south or new track and the westbound on the north or old one. The grades of the two tracks are even except with one engine on the old grade which was much heavier at the Westford cut. These longer trains run at a much improved speed as well, and there is no more waiting for right-of-way. Most of the thru freight goes from Agincourt east by the new line front line to Glen Tay, where it hits the double track of the main line east.

LIBERAL CANDIDATES SPEAK IN EARLSCOURT

A meeting of Liberals of the Earls-courts district was held last evening in Little's Hall, Rev. C. A. Mustard presiding. Among those present were W. O. McTaggart, candidate for seat B; A. B. Farmer, tax reformer and candidate for seat A; Rev. John McNeill, and others.

Mr. McTaggart who addressed an Earls-courts audience for the first time pointed to his record as chairman of the board of education for three years, and his interest in the boys and girls during their school career. His present object was to remove the greatest temptation of their lives, the liquor traffic.

Always Opposed It.

He claimed that the Conservative members had always voted against the abolition of the bar, and that they must be judged from that standpoint.

In Hensall, County of Egan, where I came from, said the speaker, "local option was passed, whilst Exeter, in the same county, would not have it. Hensall hotelkeepers would not oblige the farmers with accommodation because in three years time they expected to get their licenses, but three months ago the whole county was carried for local option."

Tax Reform.

A. B. Farmer, speaking on tax reform, abolished the bar, and votes for married women, said that a placing taxes on land values, according to his schedule, would make for higher wages and lower rents, insulating the lower classes from the effects of the downturn section with the outer districts of the city.

A six-roomed house in Earls-courts, said the speaker, taxed at present, \$38, would be reduced to \$19.50 by tax reform. The vacant lots would pay more, thus compensating the owner for building. With regard to abolition of the bar and votes for women, Mr. Farmer favored both of these reforms.

Big Rally Arranged by Fairbank Tories

At a meeting of the North Earls-courts and Fairbank Liberal-Conservative Association, held in the clubhouse, the following members were elected a committee of organization: H. J. Hill, C. T. Lacey, F. Harman, J. Badams and A. Wright.

The meeting was unanimous in protesting against the location of the polling booth for the section, which is placed at Oakwood. It is felt that a large number of voters will be unable to reach the booth from their homes, unless, as a member remarked, a man is willing to lose a day's pay.

Section No. 23, which the polling booth covers, is bounded on the south by Eversfield road, north by Eglington avenue, west by Northern tracks, and on the east by Dufferin street.

It was decided to hold a mass meeting on Thursday evening next, at which the following speakers are expected to be present and address the gathering: W. F. Maclean, M.P., Dr. Forbes Godfrey, Ald. Sam Ryding, J. G. Edwards and Rev. George Syme.

Good music by prominent local artists will be given during the proceedings.

MacDiarmid Renominated.

DUTTON, Ont., June 15.--Finlay MacDiarmid, the sitting member, was the unanimous choice of the West Elgin Conservative Association here today for the Ontario Legislature.

COUNTY IS LIABLE FOR ROAD REPAIR

W. F. Maclean, M.P., Claims That Road Commission Has Failed.

WILL INSPECT ROADS

Warden Cameron and Reeve Syme Will Make Tour of Inspection.

At the opening session of the York County Council yesterday, W. F. Maclean, M.P., appeared for the ratepayers in the neighborhood of Don road to complain of the present bad condition of that thoroughfare. Three years ago the road came under the highway commission, but still today it was in an almost impassable condition at its city end. He had been told that the county was responsible, and he wanted to direct their attention to the failure of the highway commission to carry out what was intended. The sum of \$2,000 had been allotted to cut down the Grass Hill, which was also in a bad state, but no provision had been made when the work was done for carrying away of water. It was his opinion that temporary relief should be got to look out for themselves when repairs are going on.

The County Liable.

It was Mr. Maclean's desire to show the warden how the commissioners had made the county liable to action. He also complained of the failure of the arbitrators in the regard to the south portion of the Don road, which was the only road to the city, and which was absolutely impassable, and he urged the council to stimulate the commission in some way.

Who live in this district," said Mr. Maclean, "are thus compelled to pay for the repairs we get nothing for them." "Why shouldn't every road be made passable when repaired?" "The public have got to look out for themselves when repairs are going on."

The council were notified that the Winter Fair of the Ontario Provincial Association will be held at Guleph from December 5th to 19th.

The Ontario Municipal Association wrote asking the co-operation of the council in the work of the society, and stated that their convention would be held on St. Louis street and 2nd.

The authorities of the Muskoka Hospital for Consumptives announced that they would accept, consumptive patients free of charge, but requested a voluntary contribution from the council.

Grand Jury's Report.

The report of the grand jurors of the county was read. It stated that the jurors had visited the Central Prison and had found it a hive of industry, and one that was a credit to the county. They recommended the enlargement of the quarters for women at the city hall.

The department of education in a communication stated that the sum of \$2,187.75 had been granted to the public schools in the county.

At the invitation of the Industrial Home Commission the council will pay a visit to the institution on Thursday next.

Moore Avenue Bridge.

A petition was read praying for the construction of a steel bridge at Moore avenue, between the city and the township, and requesting that it be determined by arbitration.

### Jays of Moving.

It is simple enough to decide to move. It's not so simple to find where you're going to move. Before we had a comparatively simple time of it, for a friend had just vacated an apartment which Mary liked very well indeed—the one we are just leaving. This time it was not quite so easy.

Mary and I began a delectable campaign of house-hunting. My woman's intuition is a mysterious and trying thing. Mary vacillated from one feverish fit of enthusiasm to another. Each succeeding flat was "the best yet," until she had seen a dozen. Then she would immediately catalogue with glowing cheeks as we wandered desolately through the rival flats. After two weeks of house-hunting I began to grow impatient.

"Why in the world do women like to be moved?" I asked. "I said, 'that out of this dreadful parade of houses we ought certainly to find something that would suit our pocketbook and our tastes.' Let's go over the whole thing and we've inspected and solve the problem by the process of elimination."  
"Yes," said Mary, "let's take a few more."

### Summer Comfort Hints

By LUCREZIA BORI

Prima Donna of the Metropolitan Opera Company, New York

Special arrangements have been made with Senorita Lucrezia Bori, the famous prima donna soprano, who has graciously consented to give a series of lectures on the subject of "Europe and New York on account of her remarkable beauty and artistic attainment, to write for this paper a series of articles on beauty. There is probably no authority her equal in the world of the newest and most approved methods of attaining and preserving 'the divine right of woman.'"

My well-loved friend Lucrezia Bori, who is a bronze-shod, high-heeled foot after the other. She sagged pitifully. Her mouth had a sad droop. Her eyes were half-closed and empty of light. Her voice was weak and toneless. She dropped listlessly into the chair and announced in a little, tired voice that she was "half-dead with the heat."

"You look it," said I promptly. (No woman likes to be agreed with when she acknowledges she is not looking her best.)  
"And," I continued, "you are not a beautiful half-corpse. Why don't you come back to life? Get a fresh supply of energy, my dear, and make a new start. We all need to replenish our energy when summer begins."  
In spite of her talk about "never being able to endure hot weather," she finally agreed that my viewpoint was sane, and I hope to make my readers converts to the same idea.

### Useful Hints for the Housewife

By Ann Marie Lloyd

In winter the curling steam from soupy potatoes, the fragrant odor from the uncovered joint, the rich brown gravy, are all attractive, but in hot weather—ugh!

Here are some practical hints which may help. None is expensive.  
First, the art of the setting to a meal, and should be made to look as cool and as attractive as possible. Make it look "inviting" in every sense, with flowers, fish and ferns. Little ferns are cheap enough. Regularly watered, occasionally repotted, and given two or three drops of castor oil four times a year, they are a permanent possession.  
Now for the food. Have you tried cold soup? It must be well strained, free from fat, of medium thickness. This makes a most satisfying summer dish.  
Cold meat is not attractive, and stewed hashies are worse—in summer! After a joint has appeared once it is best to

### My Old-Fashioned Mother and Yours

By Winifred Black

Copyright, 1914, by Newspaper Feature Service, Inc.

WHERE did you go on Mothers Day? To church, to hear a sermon about the good old-fashioned mother and an attack on the bad new-fashioned ones? I did, and it made me cross.

Maybe it's because I had a good old-fashioned mother myself and loved every hair in her head and every line in her tired face and every freckle on her busy hands—hands that were never too busy to stop and do something for a naughty, foolish, self-willed little girl.

An old-fashioned mother, who may not have had all the aims and the ology of child culture at the tips of her fingers, but who knew the ins and outs of every quirk of the brain of every one of her own children—and knew it by the intellect of the heart, which is so much mightier than the mere intellect of the brain.

### The Good Night Story

Bearskin :::: By VERNON MERRY  
ONCE upon a time there was a poor soldier who could find nothing to do when the war was over. One night, after he had spent all day looking for work, he went out into the forest to sleep because he had no money to pay for a bed.

While he slept there came an Evil Fairy, who woke him up and said: "Show me that you are brave and I will give you a chance to gain great wealth."  
"Put me to the test," pleaded the soldier.  
The Evil Fairy did not answer, but pointed behind him. Turning around the soldier saw a great bear. He took up his gun and shot the bear dead. "You are brave," said the Evil Fairy. "Now prove you can keep a promise. All you have to do is gain great wealth in seven years, to sleep in the bear's den. After the Evil Fairy had disappeared the soldier began to repent of his bargain, but he had to keep a promise. And every time he put his hand into the pocket of the green coat he found it filled with money.

TUESDAY MORNING, JUNE 16.

CLEAR UP THE TWO BIG ISSUES.

Mr. Rowell stands to make a bid of votes because of his abolition-of-the-bar plank. He has appealed to the temperance vote and to the churches on this plank and told them that he has done his duty when he took the stand...

But other men, equally earnest, are concerned about the use of the French language in the schools of Ontario. They are demanding that only English be used. Where is Mr. Rowell when this great issue? Sir James Whitney says he is for English in these schools.

Mr. Rowell does not get into clear water on this issue—he may stand to lose all he is likely to gain from his temperance plank.

Sir James Whitney has two positive statements: I have reduced the licenses and enforced the liquor law so that Ontario is nearly all white or dry (as per my map) and I am for English teaching in all our state-aided schools.

Mr. Rowell is against drinking in bars, and he has yet to make his position clear in regard to the language question in the schools. He should clear it up so that all the voters may understand.

MAKE THE SENATE RESPONSIBLE.

The newspapers all over Canada seem to be nearly unanimous in the belief that the senate should be either abolished or made responsible to the people. They agree that public opinion demands that reform, but they fear that neither political party will ever disengage itself from the patronage attaching to an appointive senate.

A great deal has already been done under the city, and the park commissioners have kept in view for years the desirability of a belt of boulevard encircling the city and connected with all the main parks. The work of the harbor commission has taken account of the same conception and contributed to its fulfillment.

That careful thought will have to be given to the details of senate reform is clear enough, but details should be easily settled when the principle is so generally conceded. At any rate the public may be pardoned for questioning the intention of the government to deal with senate reform in the near future when it is seeking power to increase the size of that body by nine.

This is the argument for procrastination and delay. The people are soothed with the assurance that an expensive and dangerous nuisance will soon become more expensive but less dangerous. But the power to strike down representative institutions and to strangle the will of the people, as expressed by a general election and by the house of commons, will remain unimpaired.

The constitution of Canada should not be incapable of amendment. The people of the United States have at last succeeded in amending their constitution so that U. S. senators are

lected not by the state legislatures but by the people, and by the people in the widest sense of the word, for state-wide primaries name the party candidates. We should neither be unwilling nor unable to make more democratic and more Canadian the constitution given to us a half a century ago.

HOME RULE FOR CITIES.

Among the causes that have retarded city development on this continent, is the fact that cities have been controlled by legislatures and courts instead of by an administrative board, permanent in character and employing expert advisers in the various lines of municipal activity.

Great cities present peculiar problems which cannot be realized without personal knowledge of their character. If cities are placed under the control of legislatures, largely composed of representatives of rural districts, or of the smaller urban communities, where similar conditions have not developed, the result is almost certain to be disastrous.

LINKED PARKS. Having had an excellent holiday trip the members of the board of trade who went to see Buffalo, Cleveland and Detroit have returned with some good ideas about city development. The point to which they paid most attention was the park and boulevard arrangements of these cities. They appear to have been impressed with the adequacy of our parks, but realized the necessity of having the park system linked up as it is in other cities.

#### LACROSSE NOTES.

Four local O.A.L.A. teams made trips out of town on Saturday, but only one of them returned victorious, and that was the Beavers. This team made their debut in the intermediate series when they defeated Stratford by the score of nine to three in a very snappy game. The play was very strenuous in places with the result that several of the Beavers bear marks of the struggle today. This is a fine start for the east enders and if they stick together they should just about land the group honors. The winners lined up as follows: Gallagher, Dunsmore, Hugh Clay, W. Halset, LeFouquet, H. Haight, Patton, Wilson, Dunn.

Robert Simpson opened their season when they took Markham into camp at the wrong end of a four to two score.

Middlesex next three weakened teams on Saturday play, but none of them was strong enough to win. Two of them played a man short.

Parthalia all but came back in their game with Riverdale. The west enders made their rivals eat all the way to win by the score of four to three.

Another doubleheader will be staged at the island next Saturday. Beavers and Robert Simpson Co. meet in the first game, and as both of these teams have won their initial games the battle should be a good one, altho the store team being at home are slight favorites. The Toronto journey to the island to meet their old rivals the Tecumsehs, and it looks as if the Indians were traveling at the pace just now that would put them out in front of the blue shirt. Both teams are tied for second place.

Rosedale go to Montreal next Saturday where they tackle the Shamrocks, who gave Cornwall a beating Saturday last. The two losers of the opening fixtures will come together in Cornwall and Joe Lally's boys hope to break into the win column.

Young Toronto left Saturday night for New York on their annual trip, and they will play most of the best American teams before they come back.

The Oriole Lacrosse Club will hold a practice on Cottenham square Tuesday night, and request all of their players to be on hand, and any others wishing to join a good fast intermediate team.

# BEAVERS BEATEN BY RED SOX

## CLEAN HITTING WINS FOR BEAVERS

### Ashen and Auld Staged Pitching Duel, But Red Sox Man Weakened.

Despite a high wind that blew across the diamond at the island yesterday and made it uncomfortable for both the players and the handful of fans that turned out, the Beavers and the Brantford Red Sox put up a good article of ball. The Red Sox scored a five-to-two victory by unblinking some good, honest hitting. It was a great pitching duel between Auld and Ashen for five innings, but after striking out the first two batters in the sixth round Ashen weakened, and the Beavers fell on his offerings with a will. Two singles and a homer shoved across three bases, and Ashen lost his cunning in the eighth, the Beavers slugging out four hits for two runs. An error and a triple were responsible for Brantford's only run.

Buck Freeman, home run hitter extra-military in the old days at the island, was a welcome visitor. Buck is holding down an Ample job in President Fitzgerald's organization.

Yesterday's fixture went along nicely in the first five sessions with both pitchers striking out men at regular intervals. After Auld and Trout had whiffed in the sixth, Burrill poked into left, and the sixth, Burrill stole, and then Ott singled to score him. Ott moved up to second when Burns batted the ball. Killis leaped onto the right field fence, and the count was three. Shultz popped out.

In the eighth, it was turned into a run when Burns tripped to right, center, and the pitching was fair. The high wind made the pitchers' work a little easier, but outside of this it was well worth the cold trip across the bay to watch. The same teams will play again at 2 1/2 p.m.
