

The World has heard of important administrative changes in Ontario and in Toronto in connection with the Canadian Pacific. It is said that J. W. Leonard, general manager of eastern lines, is to come to Toronto, with the rank of vice-president, and take general supervision of the extensive improvements that are on the pro-gram for almost immediate execution. These include the rushing of the new wheat line from Victoria Harbor (Georgian Bay) to Bethany (a mile

side of Peterboro), over a hundred miles of standard construction, and all of which is either completed or under contract. Sir Thomas Shaughnessy has declared that this is of first im-

Next is the lake front line from To cobourg, Belleville, and then bearing north to the present Toronto-Montreal line at Bathurst, this side of Smith's Falls. The line from Bethany to Smith's Falls is to be double-tracked for the wheat line. It is now double-tracked from Smith's Falls to Montreal.

Then there are the extensive im-provements at Toronto. These include a new station at North Toronto, with terminal yards in that locality and a terminal yards in that locality and a double-tracking east from Yonge-street to where the new lakefront line branches off to go to Pickering. This junction will in all likelihood be be-tween Leaside and Agincourt. All the viaducts of the Don and Don ravines In York Township have to be rebuilt and double-tracked.

matters which are proper subjects of joint regulation, and that such regulation would be mutually advantag-eous to the interests of both countries. It is equally plain that the regulation to which international carriers should be subjected is substantially similar to that provided for interstate carriers of the United States, as the same are defined and summarized in a draft of a proposed treaty between the United States and Canada, which is annexed hereto, and made a part of this report. The intended effect of such a treaty would be to subject international car-riers, within the limits outlined, to obligations and requirements corres-nonding to these new improved units bonding to those now imposed upon the interstate carriers of this country.

It is claimed by Mr. Henry Holgate Montreal, who has made an estimate for the Guild of Civic Art, that the nian of the guild would not cost as much as the straight line from Bloorstreet to the Danforth-road. This is mere conjecture, and others might figure it out quite differently. But even if the guild's plan did cost a little less money, this is a matter of no moment For that saving the road would have many a winding and turning. There would be more time lost every day in making the journey than would pay for the extra cost a thousand times over. It is this habit of running on the cheap plan that has ruined so many public undertakings in our city. Le us build for the future. Let us build on the straight. MONTREAL, Jan. 1.-(Special.)-A priest from the arch-diocese of Kingston is authority for the statement that the coming archbishop to succeed Mgr. Gauthier, transferred to the diocese of Ottawa, will be no other than the Rev. Gerald McShane, parish priest of St. Patrick's Church in this city, and a very prominent member of St. Sulpice. It has been ascertained that Father McShane's name was one of the three sent to Rome, when it be-

came known that Mgr. of Kingston was to be Mgr. of Ottawa, but, as far as can be learned, no action has yet been taken by the Vatican authorities towards filling the vacant see. It can-hot be denied, however, that the whole not be denied, nowever, that the whole city, ecclesiastically speaking, is talk-ing about the alleged nomination of the cure of St. Patrick's to the arch-MANVERS TOWNSHIP-Reeve, Jo-scph Hickson; deputy reeve, James R. Armstrong; councillors, S. W. Sisson, diocese of Kingston.

diocese of Kingston. At his reception to-day, Father Mc-Shane, asked if he was going to Kings-ton, smiled and said: "I am too happy here," but here the conversation ended. If Father McShane were to leave St. Patrick's, he would be succeeded either by Father Donnolly of St. Anthony's, Father O'Reilly of St. Patrick's, or Father Thomas Heffernan. When Father Martin Callaghan left St. Pat-rick's, there was a god deal of trouble over the succession, as Father Mc-Shane was a young man, but in every way he proved himself worthy of the way he proved himself worthy of the high position to which he was called by Mgr. Bruchesi.

ST. JOHN, N.B., Jan; 1 .- The opening of the new year in St. John was marked by a riot in which probably 400 men and boys took part before it was over. The trouble started at midnight, when a glee club on King-square was interrupted by a crowd on mischief

bent. A policeman hove in sight and flour ished his revolver at the disturbers, which so incensed them that they made which so incensed them that they hade a rush and threw the bluecoat thru a plate glass window on King-st. Just then a street car, trying to pass, drew the mob's attention, and they promptly wrecked it, and beat the motorman and conductor badly. Two other cars and their crews were treated similarly. The crowd, now becoming thoroly warmed up, marched down Charlotte-street, breaking plate glass windows and street arc lights as they went. The crowd met resistance when they struck a section of the city largely populated by negroes, and a pitched battle en-sued, but no one is reported seriously injured.

Not an arrest was made during the riot, but the police were busy to-day hunting up the names of the culprits, One hundred and thirty-one person died violent deaths in the city during and say they have secured one hundred so far.

A. M. Orpen is authority for the statement that the Metropolitan Club's opening bouts will be pulled off next Thursday, as arranged.

Joe Jeannette, who is to meet Sam Langford in Boston on Jan. 10, is training for the bout, and his manager says that Joe has fully recovered from his recent illness. Jeannette is a boxer who never dissipates and takes excel-lent care of himself. Langford will get into condition with Dan Flynn and Bob Armstrong as sparring partners.

We wish you all a most Happy New Year, and trust that yours may be a generous portion of Toronto's growing prosperity in 1911.

To-day the New Year brings to you all a Civic Duty - a Home Duty-that you can discharge with the ballot. When this duty is presented at the Ballot Box, take the opportunity of being a Greater Torontonian and vote for all the by-laws that will develop a Greater Toronto.

Cast aside any petty inclination to vote for only that by-law which affects your particular part of the city; but be broad-minded and vote for the general development of the entire city-East, West and North.

The Toronto of Yesterday expanded to the Toronto of To-day, because the Torontonians of Yesterday acted upon their vision of a Greater Toronto.) Greater Toronto of To-morrow depends upon YOU broad-minded men to provide the bridges, the roads and all improvements for the city as a whole, and not as a fraction.

Don't allow a tiny tax cinder to prevent the eye from viewing the larger and more beautiful city, wherein your property will be greatly enhanced in value and convenience.

Meet the New Year at the Ballot Box To-day, and wish your City of Toronto, Prosperity and Growth, by voting for Better Roads, Bloor Street Viaduct, Overflow Sewers, Increased Hospital Accommodation, Street Railway Extension, and an Improved Harbor for 1911.

from proceeding with distress and sale of plaintiff's (tenant's) goods. Judgment: In this case three questions are raised. The first question depends upon a disputed question of fact. This cannot now be determined. The second ground is one the landlord can remedy, and the third ground is one resting upon a legal proposition by no means clear or indisputable. Under these circumstances it would clearly not be "just and conveni-ent" to grant an injunction and deprive the landlord of his security, if in the end he turn out to be right, unless some other equally good security is substituted. Re-plevin is a cheaper, more just and more convenient remedy. The motion must therefore be dismissed. Costs to the de-fendant in any event.

Divisional Court. Before Mercedith, C.J., Teetzel, J., Sutherland, J. Stratford Public School Board v. City of Stratford-R. T. Harding (Stratford), for pluintiff. R. S. This was an action by the Strat-ford Public School Board and Thomas Ballantyne, a ratepayer, to quash bylaw Ballantyne, a ratepayer, to quash bylaw No. 1999 of Strafford, for the raising of taxes for the year 1910, or an injunction restraining the defendants from proceed-ing to levy and collect the public school taxes under said bylaw, and for a declara-

which the board made its requisition, but the appellant ratepayer stands on a dif-ferent footing, for undoubtedly if his con-tention is well founded a higher rate has been imposed upon the public school sup-porters than would have been necessary if the \$3000 had been applied as he contends it should have been applied. If, however, as was conceded, the effect of the agree-ment and the act confirming it, is to re-leve the railway comment upon nament ment and the act confirming it, is to re-lieve the railway company upon payment of the \$3000 from all liability for the taxes, including school rates, for which it would otherwise have been liable, the applica-tion which has been made of the \$5000 ap-pears to us to have been a fair and rea-sonable one. In our opinion the school rates come within the general language of the agreement. We see no reason why rates come within the general language of the agreement. We see no reason why effect should not be given to the agree-ment, according to what was manifestly the intention of the parties to it, and to what appears to us the plain meaning of the language which they have used to ex-press that intention. Appeal dismissed with costs.

NO NEW PEERAGES.

LONDON, Jan. 1.-Much surprise will be occasioned by the absence from the New Year honors issued to-night of any new peerages. The po-litical prophets had predicted an un-usually large list of peerages, the names of the Right Hon. Richard B. Haldane, secretary of war, and others having been mentioned. Some Con-pervative papers have talked of the appointment of as many as twenty or thirty new peers.

appointment of as many as twenty or thirty new peers. The omission is susceptible of two possible explanations. Either the King would not sanction, or Premier. As-quith was reluctant to recommend, the dreation of peers while the difficult question relating to the house of lords remained unsettled. Doubtless many Unionists will jump at the conclusion that the prime mainister failed to ob-tain the required guarantees from the King, but it is considered more rea-sonable to suppose that the govern-ment recognized the futility of creat-ing new peers while the question of the drastic reform of the upper cham-ber, with the possible abolition of the intreditary basis, was in the air. MURRAY-KAY, LIMITED Two Sales of Surpassing Interest Commence To-morrow Kay's January Murray's January White Goods Sale Furniture Sale

THE TORONTO WORLD

As the months go by, the coming of certain days and seasons is looked forward to with eager anticipation, and the events connected with them are welcomed and participated in with never-failing enthusiasm.

To women, at least, the Annual White Goods Sale is an event as well established, and, in its way, as notable as Christmas, Thanksgiving, or the Summer Holidays. They look forward to it as THE TIME. OF THE YEAR for the purchase of their personal needs or family require-ments in the thousand-and-one articles that come under the comprehensive title, White Goods.

The necessity for looking far ahead and making adequate prepara-tion for events of this kind is fully realized by this house, and we were never better prepared to meet the utmost requirements of our clientele than in this year of grace, 1911.

Almost every conceivable make of White Goods, in Linen, Cotton, and Silk and Cotton, are represented in this sale, either ready for use, as in Table Linens or Lingerie, or by the yard.

We have planned for this year a sale to surpass a long series of simi-lar past events, fully realizing that it can only be done by offering thorough-ly dependable goods at prices that will be instantly recognized as Remarkably Low.

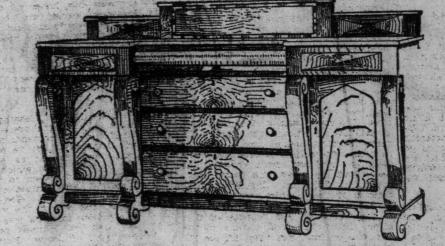

Inspection and comparison will show that goods marked at from one-third to one-half less than regular prices are not uncommon during this sale.

JANUARY 2 1911

A Colonial Sideboard in Crotch Mahogany.

Kay's January Furniture Sale, always an event of prime interest, will this year surpass all previous efforts of the kind. First, because our reputation for giving unequaled values, and for living up to both the spirit and the letter of all we advertise concerning these annual events has gained for us many new friends, and, second, because our stocks this year embrace larger and more varied assortments of reliable furniture than ever before.

Our January Furniture Sale is unique, in that it is not concerned with goods made or purchased for "sale" purpose, but only with our regular stocks of first-quality furniture, every piece of it carefully selected for the best trade in Canada. And Note This: Every piece of it without exception reduced in price during January.

We depend on this sale to clear our stock of broken lines, odd pieces, and, generally speaking, of all furniture that has exceeded a brief time limit. On such articles the reductions are of a very radical character, ranging from 20 per cent. to 50 per cent., but the sale is not confined to these. Every piece of furniture in stock-small or large,

Limitations of time, news paper space, and adjectives preclude any attempt to do justice to this feature of our January White Goods Sale.

To a very wide circle of ladies it is sufficient to announce that we are fully prepared with Sale. These garments are all large assortments of white undergarments to meet their most exacting requirements, and

That the holiday season is not yet past was manifest at the Union Sta-tion Saturday afternoon. Both gates were open upstairs and the general appearance of the waiting room minded one of the average street car at rush hours, so jammed was it. DownStains it kept the station offi-easy busy keeping the large crowd, easy to greet friends, from blocking

up the pasageway out. The arriving trains were covered with ice and snow; telling of last night's battle with the elements. All were large, some being in two sections. The majority of them were on time or with. in half an hour of it.

INCREASED CUSTOMS RECEIPTS.

At Port of Montreal.

BURNED THE POOR HOUSE.

MONTCLAIR, N. J. Jan. 1.—This town concorated the advent of the new year last night by burning the poor house and the pest house in two great municipal bonfires. Both buildings were saturated with oil, touched off and then carefully watched by firement while a detail of police kept the crowd at a safe distance.

> MAKE TORONTO A WONDER CITY BY VOTING FOR ALL BYLAWS

We have held many of these Semi-Annual Sales in the past, but never such a sweeping movement of stocks as the present one. Owing to building operations we are positively forced to move large quantities of stock quickly in order to accommodate the contractors, who have already begun tearing down the walls to start the new building. The sale is doubly interesting for this reason, and is fruitful of opportunities that no man should overlook. It will be short, sharp and decisive. The reductions are positively the lowest possible, consistent with good tailoring and stylish garments. It affords the one great opportunity of the year for men to secure the finest fabrics from the best looms in the world, made to measure at reductions from original prices averaging 15 to 40 per cent. Early buyers will have the best choice, so we advise you not to delay. Prices will not

reflecting generally on the course adopted by the mayor, and dealing vaguely with charges of collusion on he part of the chief magistrate. On Friday Mr. Murphy was the au-

port, and stating among other things that the relations existing between himself and the mayor were friendly. His latest production launched on Saturday night, and which is no hing more or less than the common, ordinary roorbach, charges his worship with lining up with the Howe-Reid-Ball et al company, and with, in short, be-ing recreant to every promise and trust ing recreant to every promise and trust reposed in him. The mayor is espe-dally scored for his attitude on the sewerage question, and generally with allying himself with the large property owners of the town as against the small.

The charges levelled against Mayor Brown by Mr. Murphy are so void of reason as really not to merit any con-sideration. No man who ever occupied the mayoralty chair in the Town of North Toronto has kept himself more scrupulously aboof from all alliances than A.J.Brown. He has been approached with a view to this end, but has steadily refused and stands to-day absteadily refused and stands to-day ab-solutely untrammeled. One thing he has never done is to deliberately in the face of public opinion, and the openly expressed wish of the ratepayers, thrown down a bylaw when once en-dorsed by the electorate. The action of Mr. Murphy introduces a new phase of municipal code of hon-min borth Toronto, and one to which

r in North Toronto, and one to which he right thinking men of the town will never subscribe. Statements and in-nuendos handed out at the last mo-men, and these absolutely false and misleading, will not adversely affect A. J. Brown's candidature. The World has from time to time criticized some of the mayor's actions on some points, This-eleventh hour underhand attack is not such as an honorable rival would inaugurate.
