VOL. XXXI—No. 11,297

Reciprocity Means a Dollar on Every Sheep Raised in Ontario

The Globe and Star Admit It But Say It Means Cheap Mutton.

Sir Wilfrid and The Globe Said the Wider Market Meant Higher Prices.

This Is Not So — It Is Absolutely Untrue as to Sheep — and Some Other Things.

On Thursday The World reported that on the day previous 289 sheep from the United States had been sold at a profit on the Toronto live stock market, notwithstanding that they had paid a duty of 88 cents each. We told the Ontario farmer that reciprocity would take off this duty (25 per cent.); that in consequence the Canadian live stock markets would be flooded with American sheep; and that as a further consequence American prices would rule the Canadian market; that reciprocity meant a dollar less on every sheep Mr. Canadian Farmer had to sell. [We reprint The World's item of Thursday in the adjoining column.]

To this, two answers have been made: The Toronto Star admits the thing is true, but says these sheep were of a special kind, small ones for the summer market, when consumers want little legs, and that conditions over in the United States just now are abnormal! [See Star's article in adjoining column.]

Now, neither of these statements is true. The cold fact is that it paid the Canadian butcher to bring them in, and he is bringing a lot in these days—and he'll bring all he needs if reciprocity obtains, unless the Canadian farmer comes down to the American price. The average American price per sheep is a dollar lower than the Canadian price!

The Globe's answer, stripped of all its twisting [and we reprint its article] is that the Canadian consumer will get cheaper mutton; and then asks The World which horn will it choose—cheap mutton for the consumer, or high prices for the farmer!

We are not called on to answer the question. What Sir Wilfrid Laurier and The Globe have been pumping into the farmer was that reciprocity would give him the American market, and that the wider market was a better one than the home one—that the Canadian farmer would get a better price for his products! The World joined issue, and was able to show from the facts that insofar as sheep are concerned The Globe was guilty of misleading the farmer.

We still assert that reciprocity means a loss of at least a dollar average on every sheep he has to sell—that the wider market (United States) is a dollar lower than the Canadian! The Globe admits this, but says the consumer will get the benefit. Will he?

We have, therefore, proved our case by the admission of The Globe itself.

But let us give you, Mr. Farmer, some further information on this important point:

The Star pretends that the sheep brought in and referred to by The World were of an unusual kind, and just a few, anyway, for a special purpose, and that abnormal conditions prevailed in the States!

From enquiries made by The World of the commission men on the Toronto stock market, it was learned that in the past three months over 18,000 sheep were brought into Toronto from the Buffalo market, where the price averages \$1.00 per head less than on the Toronto market!

Among those who brought in sheep was one leading firm doing business both in Buffalo and Toronto, and whose imports alone were over 8000 since the 1st of March! Dunn & Leavack brought in over 3000; the Harris Abattoir Company brought in 3200; McDonald & Halligan 3000. And all these did this business because the sheep were cheaper in the United States, and they could pay the duty, which would average over one dollar apiece, and still undersell the Canadian farmer! Not only has this taken place, but they are doing it every day. One firm has a shipment of 570 on the way which will be offered on the Toronto market this coming week!

Now, these men are not living on theory. They are doing business and if you ask any one of them they will tell you that the reason they are doing it is because the American price is one dollar less than the Canadian price, and this means—and The World asserts it again—that, when reciprocity passes, the price for sheep in Toronto will be the same as the American price, the same as the wider market; and, therefore, reciprocity means a big injury to the Canadian farmer who has sheep to sell. The Globe has deceived them as to higher prices for sheep in the States. Reciprocity means that the American farmer can run the Canadian farmer out of the Canadian market!

And to go a step further, let us publish the following, which The World's live stock reporter presents to you, Mr. Farmer, for your consideration:

Mr. E. Maybee of the commission firm of Maybee & Wilson stated that should reciprocity come into effect, Buffalo prices would prevail on the Toronto market for sheep and lambs. And this means that the farmers of Ontario would be getting less by one dollar per head.

That's what Brother Maybee has to say to you, Mr. Farmer. Mr. David McDonald of the firm of McDonald & Halligan stated that his firm had brought into Canada about 3000 American lambs and sheep during the past three months, and that if reciprocity came it would mean a difference of easily one dollar per head from present prices to the Ontario farmer.

McDonald is a pretty good witness, Mr. Farmer. He's in business; not in politics.

Farmers and Reciprocity

Live Stock Prices on Toronto Market.

From The Toronto World, July 27.
Nearly every day now live stock from the United States is brought into Toronto, the Canadian duty paid thereon, and then sold against Canadian animals.

Yesterday 289 sheep from the States were sold on the Toronto market at 81.5 cents a pound. They weighed 64 lbs and brought \$3.62 each. The duty was 88 cents. Canadian sheep brought 15 cents less, and the American sheep were preferred. That is, American sheep of better quality, can be brought into Toronto, pay freight, 25 per cent. duty, and compete with the home animals! Sheep on the Buffalo market sell for from two to four and a half cents.

With the duty off, and reciprocity with the States, the Toronto Live Stock Market would be flooded with American sheep, and prices would drop about a dollar a head! What is true of sheep is true of hogs and cattle. It is up to the Ontario farmer to bear this in mind. With say 70 sheep and 40 hogs a year this means a straight loss of \$50 a year, a sum sufficient to pay his annual taxes.

What is all the talk for reciprocity compared with these facts against it? Ponder it over, Mr. Farmer.

THE INVASION OF U. S. SHEEP WAS DUE TO UNUSUAL CAUSE

Not an Ordinary Condition of the Market and Will Not Harm Farmers Here—A Weight of Lamb the Ontario Farmer Desires Supply Here.

From The Toronto Star July 27.

Toronto has been invaded for many years by American tourists and American delegates to international conventions here, and has lived thru it without loss of either honor or sleep. But a new invasion has come, and there are those who are terribly alarmed and can hardly sleep at night. These new invaders also come from the United States, but international courtesy forbids any comparison between them and said tourists and delegates, for the latest peril takes the form of sheep. Their blessings are sending cold shivers down people's backs and arousing them to shout against reciprocity.

These invaders marched right across the border into the western market and brought a higher price than Ontario sheep.

"Now, Mr. Farmer," says the opponent of reciprocity, "if American sheep can do that, what else have to pay duty to get in here you can see what you will be up against if reciprocity goes into force."

The fact is that the American sheep did bring slightly higher prices yesterday than the Ontario sheep, but for that there is a reason which, tariff or no tariff, will affect the holder when he goes out to buy his leg of lamb in the summer time. He insists on a small one. The family is smaller, perhaps, than in the winter, and anyway they eat less meat. Butchers therefore, find it easier to handle smaller sheep, and are therefore willing to pay a little more for the United States farmers raise smaller sheep than do their competitors in Ontario, and therefore their sheep have an advantage even on the Toronto market, especially at this time of the year. The prices they bring do not, so authorities on the live stock market say, represent the ordinary run of the market.

"As far as live stock prices in the United States and Canada go," said one prominent dealer, "it is only in sheep where the average price would be lower in the United States than in Canada. That is due to abnormal conditions over there. This condition of large sheep ranches have been closed out, and that has thrown an unusually large quantity of sheep on the market, and brought down the prices over there."

WHICH HORN OF THE DILEMMA?

Globe editorial, July 28: The News dwells at length on the imaginary woes of the city dwellers under tariff relief, their food supplies hurried up to meet the demand, leading them to pay exorbitant prices. Sometimes our contemporary impales itself on the other horn, and says the farmers will be deprived of their present good prices by the competition of American produce, but this is the special province of The Toronto World. This advocate of obstruction declares that "with the duty off, reciprocity will take the duty off—the Toronto live stock market would be flooded with American sheep, and prices would drop about a dollar a head!" This predicament, seemingly direful for the farmer and satisfactory to the city consumer, is made on the strength of the fact that 289 sheep from the United States were sold on the Toronto market at five and a half cents a pound. At an average weight of sixty-four pounds they brought \$3.62 each, and the duty was eighty-eight cents. This is used as an argument to convince the Canadian farmer that the price reduction through tariff relief would mean a loss of \$60 a year on twenty sheep and forty hogs. It is being declared that what is true of sheep is also true of hogs and cattle.

During the year ending with March, 1910, the Canadian farmers sold sheep in the United States to the value of \$587,696. On these they, or the people who bought them, paid \$108,519 to the United States Treasury. This will be remitted by the tariff relief agreement. Some of the benefit will fall to the United States consumer and some to the Canadian sheep-raiser. The buyer will get more mutton for his money and the seller more money for his mutton—a thing which Professor Leacock, who brings a big air in political economy, thinks impossible. The World and The News accept his guidance. During the same year the sheep imported into Canada from the United States were valued at \$11,022, and on these the American farmers or the Canadian consumers paid \$22,573 to the Canadian Treasury. This sum, too, will be remitted, performing the wonder of giving the Canadian consumer more mutton for his money and the American farmer more money for his mutton. The greatest benefit to both

FORCE OF HABIT

The Colonel, an Enthusiastic Golfer, is Induced by His Friends to Play Croquet. But the Rolling Passion Overcomes Him.

UNHAPPY LOVE AFFAIR CAUSE OF FATAL LEAP

Frederick Bourne of 166 Mulock Ave. Jumped From Steamer and Was Drowned.

"Goodbye everybody!" called Frederick Bourne, 30 years, a passenger on the Chippewa yesterday afternoon, and jumped from the rail at the rear of the quarter deck as the steamer entered the eastern gap at 2:40 on her way to the city from Lewiston, N. Y., where he had gone on board.

Bourne was a laborer and lived with his parents at 166 Mulock-avenue, West Toronto. He was about 30 years of age.

About six weeks ago he received a letter from a young lady in England, to whom he was deeply attached. Since that time he had shown symptoms of acute melancholia. He started for England on Wednesday night in the hope, it was supposed, of effecting a reconciliation and the cause for the change of plans that made him start to come back to Toronto is not known.

Bourne attended the Presbyterian Church at the corner of Royce-avenue and Perth-avenue, and was a member of the Sons of England. As the man struck the water the cry of "man overboard" was raised and Capt. Malcolm backed the big steamer to the spot as soon as possible which was done in a short distance as she was steaming slowly thru the gap. The tug Nellie Reed, which was passing thru the gap, also came to the rescue. The man did not sink at once and two life buoys and a chair were

thrown to him, but he refused to make any effort to save himself. Just as a deckhand of the Nellie Reed was about to secure him with a pile pole, he threw up his hands and sank. Nothing in his behavior had called attention to the man before his leap from the rail and he was not recognized by anyone on the boat. The body was recovered at 7:45 last night by Matt Kryord and the police patrol boat.

The buyers and sellers of all kinds of food will be the mutual relief from obstructions that now make it easy to tie up both to the middlemen. It is the packing-houses on both sides of the line that are making violent efforts to perpetuate the obstructions.

When relief is effected the men who raise live animals for the market will be in less danger of being pinched by temporary local glut in the market, and consumers will be less likely to suffer thru temporary shortages. These abnormal fluctuations, now used with free attention to warn buyers against low prices under freedom, afford opportunities for middlemen, but seldom benefit either producer or consumer. The World is now warning the farmers against abundance and cheap imports under freedom. Next day it will probably choose the other horn, and warn the city people against the high prices to follow the free export of food supplies. But the people are beginning to think that they understand the buying and selling game quite as well as the obstruction builders at Ottawa or Washington.

The Modus Vivendi.

MADRID, July 28.—Premier Canalejas outlined to-night the main features of the Franco-Spanish modus vivendi entered into in order to prevent clashes in the vicinity of Alcazar Morocco, between Moorish troops, commanded or uncommanded by French instructors, and Spanish troops.

The agreement defines a line around the city of their own sides of which the Spanish and Moorish troops must keep. It also stipulates that diplomats and officers passing thru the Alcazar region on their way to Fez are entitled to carry arms and have a small escort, but that ordinary travelers shall require a special passport. In addition Spain agrees not to enlist deserters from the Moorish army for police duty.

Premier Canalejas announced that instructions in accordance with the modus vivendi have been forwarded to Spanish commanders in Morocco.

Chas. Moreing, arrived at the Northern Ontario headquarters on Pearl Lake yesterday, and all work done so far is being inspected.

Railway building is the main feature to the work in Tiedale, and within thirty days mines will be able to get sidings for the shipment of provisions and building material. The government wagon road from South Porcupine to Pearl Lake is about completed.

A twelve-drill compressor plant for the Pearl Lake Gold Mines has been ordered and shipment will be made by the first freight into the Dome sidings.

The work of blasting out the basement for the McIntyre stamp mill started yesterday. The new power house is nearly completed.

WESTERN COAL OPERATORS ACCEPT MAJORITY REPORT

Don't Like It, They Say, But Don't Want Responsibility of Coal Famine.

OTTAWA, July 28.—The minister of labor has received a telegram from Mr. Lewis Stockett, president of the Western Coal Operators' Association in which the operators announce their acceptance of the majority report of the board of conciliation and investigation, of which Rev. C. W. Gordon, D.D., was chairman. The statement of the operators on this point is as follows:

"We feel that the majority report of board is anything but a fair proposition, taking into account the financial standing of a large number of companies involved, and also taking into consideration the financial interests at stake. We also feel that the acceptance of same will work a hardship on the large capital investment which may take years to overcome. In this connection we might refer in passing to the fact that the report states that one of the facts disclosed by the investigation of the board was that probably two-thirds of mines in the association have operated during the past two years at a loss. We realize, however, that the public have to a very large extent to be considered.

GOLD BRICKS BY NEW YEAR'S PLAN OF GREAT DOME MINES

Forty-Stamp Mill and New Cyanide Plant to be Rushed to Completion—Porcupine Camp Fascinates Real Investors.

FORQUHAME, July 28.—(From Our Own Men.)—A gold brick as a New Year's souvenir is what the Dome Mines plan to-day.

Railway sidings will be completed into the mill site, within two weeks, over which new machinery will be taken as the beginning of another forty-stamp mill and cyanide plant. L. H. Timmins, accompanied by Jas. Budd, arrived yesterday at the Hollinger. Clearing of the timber on the Campbell veteran lot proceeds with a view to placing logs on sale there when the surveys and the roads are completed. Bewick-Moreing directors, headed by

REST OF SESSION WILL BE SHORT

Not Many of the Members Will Return to Ottawa After the Week-End—Motion of Censure on Wasteful Expenditure of Public Money.

OTTAWA, July 28.—(Special.)—The last day before the week-end adjournment proved to be another day of perfunctory interest within the commons, but of very keen concern outside the chamber. Persistent rumors of the previous day that Friday night would see the final dissolution buoyed up the interest to the highest tension, and many of the members expected their week-end to become into a permanent release. This optimistic notion was not dispelled until the close of the house at a late hour.

But while the fifty or sixty members who left Ottawa last night for their own constituencies are not officially relieved of their parliamentary duties, the balance of the session is known to be so short that very few of them will return. The house is in the afternoon divided on the following motion: moved by Capt. Tom Wallace (Centre York), seconded by Major J. A. Currie (North Simcoe), that "while the growth and development of Canada demand an expenditure of public money, which shall at once be farseeing, systematic and general, every such expenditure ought to be designed and carried out in the public interest and not for partisan purposes or for the aggrandizement of party followers; this house regret that in many cases the government have departed from this wholesome rule and principle and have used and applied public money for purposes that were not in the public interest."

Status of Dominion Navies.

Sir Wilfrid Laurier at the opening of the house last night in his report of the conference between the colonial premiers and the admiralty as to the status of Dominion navies.

Hon. Mackenzie King tabled a special report on comparative prices in Canada and the United States just prepared by the department of labor, dealing with the products in farm, forest and mine. "It is made up of actual market prices, week by week, for the past five years," the minister said. It will be published as a report of the department of labor.

"How long has the preparation of this work been going on?" asked Melghem of Portage la Prairie.

"For considerable."

"Am I to understand that the government sent out experts to get these statistics?"

"Yes. Special officers of the department have been engaged in compiling them."

Dr. Sproule suggested a royal commission to inquire into the cement merger.

Sir Wilfrid replied that he had hoped to have the matter looked into before this. "However, my honorable friend's suggestion of a commission is a valid one," he said. "We cannot get the house to make progress we will have to see what can be done."

The case of the Farmers' Bank was brought up by the leader of the opposition.

"Since the government has refused a royal commission to investigate the failure of this bank I would suggest that it would be a reasonable and proper proceeding if copies of reports and evidence brought before the committee on liquidation should be brought down," he said.

"The failure of the Farmers' Bank is being investigated by the court," replied Mr. Fiedling. "I have no reason to doubt that it is being done thoroughly. However, I have no objection to the bringing down of any documents."

"I have a few words to say with reference to the Farmers' Bank," said E. B. Osler (West Toronto). "With reference to the issue of the certificate I understand that the finance minister

England's Diplomatic Victories. England's greatest victories have been won on the field of diplomacy, and England's champions, on that field, have always entered the contest arm-in-arm with an English silk hat. These days it is usually in fact almost always a Heath silk hat. Heath makes hat for royalty. Heath's stores are conspicuous in London for the pairwings of royalty and the nobility. And a Heath silk hat is the crown of the diplomatic service. This trouble about Morocco will be smoothed at a conference of the silk hats, and England will say—underneath a silk hat—that Gibraltar is going to be the only naval base dominating the entrance to the Mediterranean. The silk-hatted diplomats from England will say this in a quiet, smooth manner. Their attitude will be smooth and formal—as smooth and gentlemanly as the silk hats they wear. They will Heath the matter. Heath is the great maker of base dominating the entrance to the Mediterranean. This means in all the world. And we are the exclusive agents for Heath hats in Toronto. Just as soon as Heath hats are out in London we get a shipment. Our last arrival of Heath hats is two weeks old. When you want a silk hat why worry about the style of it? Come in and buy a Heath. Then you have the style absolutely right, and, as we said before—Dineen's are the exclusive Heath agents in Toronto, corner Yonge and Temperance streets.

EATON'S DAILY STORE NEWS

Hair Dressing, Manicuring and Chiropody Sections on 2nd Floor, Yonge St. Annex

A Few Suggestions of the Savings the Great Midsummer Sale Offers

Scotch Wool Art Squares Specially Low Priced for the Midsummer Sale

Bedroom floor coverings, that were several dollars more each. Only a few weeks now till Exhibition visitors will begin to arrive! Are you preparing your house to receive them? How about new carpet to make them look more attractive. For a bedroom floor a Scotch wool art square is most desirable. Few carpets give better service and satisfaction and few carpets are more suitable in design and coloring than these.

Come Monday morning and select a bedroom carpet from among this lot, reduced in price for a quick disposal. They're in attractive patterns and color effects, in a 3-ply weave. The patterns are floral and conventional in a good range of colorings. 3 x 3 1/2 yds. and 3 x 4 yds. Nearly a half off regular prices of some. Sale price, any one 9.80

Remnants of Straw Matting, 9c

We cannot promise to fill 'phone or mail orders. Ends left from the past few days' selling in lengths up to 12 yds., enough to do a hall or small room, or for verandahs and summer home floors. Some are worth three times this price. A good selection is offered, but the first here has best choice. Sale price, per yard 9

Navajo Rugs for Dens

Navajo Rugs in patterns copied from the Navajo Indian blankets, and good reproduction of the Indians' handwork as regards design and colorings, useful rugs for dens, living rooms, summer homes and for use in canoes. For canoes they can be folded to the required size; all greatly reduced for the Midsummer Sale; size 2 ft. 3 in. x 4 ft. 6 in. Sale price 1.25 Size 3 ft. x 5 ft. Sale price 2.00; 4 ft. x 6 ft. Sale price 8.50

Small Mottled Axminster Rugs

Made from the ends of yarns left at the mill, a patterned rug in the same quality would be twice the price, useful for bedrooms, sitting rooms and living rooms to save the carpet, ends fringed and unfringed; size 27 x 54 in. Price 1.25

English Tapestry Squares, Low Priced

Sturdy floor coverings in floral, conventional and oriental designs, in shades of red, green, fawn and brown, something in this lot suitable for almost any room in your home, made from clean yarns, and colored in good dyes; size 2 1/2 x 3 yds. Price 4.75; size 3 x 3 1/2 yds. Price 7.25; size 3x 4 yds. Price 8.50

Moravian Fibre Rugs

Moravian Rugs, splendid for dens, living rooms, bungalows and summer homes, of any room where an oriental effect is desired in an inexpensive floor covering, made from selected vegetable fibre, most proof, sanitary and reversible, oriental designs and colorings in useful sizes:

Size 2 ft. 2 in. x 4 ft. 4 in. Price .75	Size 5 ft. x 8 ft. Price 3.00
Size 3 ft. x 5 ft. 5 in. Price 1.25	Size 6 ft. x 9 ft. Price 4.25
Size 3 ft. x 9 ft. Price 2.15	Size 7 ft. 6 in. x 10 ft. 6 in. Price 6.50
Size 4 ft. 7 in. x 6 ft. 6 in. Price 2.25	Size 9 ft. x 12 ft. Price 8.25

New Curtains and Draperies to Make the Home Beautiful

Here are new and dainty materials for curtains and trills and all these little softening effects that go to make home more beautiful. From far across the sea come new goods you'll be wanting when you begin putting the house in order after vacation time is over. Here's lace-edged canvas, fancy nets for making sash window curtains and frilled edge muslins, for making covers for bureaus, dressing tables, washstands, etc., or for dainty valances and trills for bedrooms. The biggest display and the choicest assortment of such materials the department has ever shown. Come and make your selection when the goods are first shown—come on Monday—all great values, per yard 12 1/2 to .75

Colored Art Silkaine

New Art Silkaine, 36 in. wide, the design includes floral, stripe and conventional effects in a full range of colors, suitable for curtain draperies, screen fillings, cushion and comforter coverings, per yard 15

Lace Curtains, \$1.00 a Pair

Nottingham Lace Curtains, 50 in. wide, 2 and 3 1/4 yards long, white or ivory in a good range of designs, including curving with plain floral and medallion centres, and pretty borders; extra good quality laces and well finished; very suitable for bedroom or sitting room, per pair 1.00 —Third Floor.

A Maker's Balance Stock of Men's Suits to Go at \$6.99

Be here early Monday morning, men, to share this unusual value giving. Here's another chance the Midsummer Sale offers men to get a good suit of clothes for little money. Come Monday and take advantage of this. Materials are cassimere finished tweeds and solid worsteds in stripes and fancy mixtures in light, medium and dark shades of grey, fawn and brown. They're nearly all three-piece suits, but in the lot are a few two-piece suits in homespun and flannel finished tweeds. Suits stylishly tailored and lined and trimmed with serviceable wearing materials. It's the balance stock a manufacturer had on hand and which we secured at an unusual reduction. That's why we're offering them at nearly half what many of them would sell for if bought in the usual way; sizes from 34 to 44 and all have been marked for a quick clearance 6.99 —Main Floor—Queen Street.

Men's Straw Hats to Be Hurried Out at 50c

Rush to get a new Straw Hat to finish the season. There are so many styles and shapes you should surely be satisfied. Sailor hats with wide brim and narrow brims and high and low crowns, and negligé hats with large crowns and medium width flexible brims, hats in split straw and Canton braids. Usually many of them would cost twice as much, all are big value! Sale price 50

Leather Varsity Caps, 29c

Boys' Leather Varsity Caps, in tan and chocolate shades, lined with satin, well made throughout at much less than the regular price. Each 29

Outing Hats, Very Low Priced, 25c

Men's and Boys' Outing Hats, of white linen and duck with soft crowns and wide and narrow stitched brims, all washable, and all extra good value, at 25 —Main Floor—Queen Street.

THE T. EATON CO. LIMITED

Monday the Fourth Day of the Big Special Selling of Neglige Shirts

Dressy and Fashionable Shirts, All Priced 50c Have you seen these negligé shirts we're offering for half a dollar? We've never offered better value for the price nor have we ever given such an opportunity to select from so many styles of shirts or so many different patterns or materials.

The shirts are the balances of this season's stock carried by several large manufacturers. We secured them at a figure that allows us to join the big special selling event. Stylishly made shirts that fit correctly, mercerized goods and Scotch zephyrs, some with pleated fronts, all with neat attached cuffs; sizes 14 to 17 1/2. Sale price 50

Men's Underwear, 25c

Men's Summer Underwear, finely knit, smooth finished balbriggan, in the natural cream shade, bound edges, long sleeves and ankle length drawers, drawers strongly finished at the waist, French neck; sizes 34 to 36, good value, shirts or drawers, per garment 25

Drill Working Shirts, 59c

Men's Working Shirts, made of strong serviceable drill, in a khaki shade, roomy shirts made with attached collar, pocket yoke and trimmed with pearl buttons, our own make; sizes 14 to 17 1/2. Price 59

REV. C. L. INGLIS APPOINTED

Rector of St. Mark's to Be Chief of Clergy of Toronto. While Bishop Sweeney has not yet announced the appointment of Rev. C. L. Inglis to the office of chief of the clergy of the Diocese of Toronto, it is known that his new duties commence in the fall and will consist of looking after the spiritual welfare of inmates of public institutions. Rev. Inglis has the past 32 years been rector of St. Mark's Church. Rev. Canon Green of Orillia has been mentioned as an associate. Rev. Green has had considerable experience in this kind of work and would be of invaluable assistance to Rev. Inglis. The clergy are also expected to aid in the propaganda.

A FAREWELL PARTY.

Mr. and Mrs. A. M. Secord of Woburn, who with their son and daughter, are about to remove to Toronto, are to have a little surprise on Tuesday next in the way of a farewell party, which has been arranged for 8 o'clock on that evening. It is expected that between 200 and 300 persons will be present. Alex. McCowan, M.L.A., and other prominent local people will be among the visitors.

Mr. and Mrs. Secord have been resident at the Woburn postoffice for 18 years, and Mr. Secord's father, was born there 61 years ago. The Secord graveyard, where none but members of the family are buried, is a well-known spot on the Markham road, between Scarborough Village and Woburn.

Mr. and Mrs. E. H. Gourlie have purchased the premises, including the mill, the postoffice and the store, and will continue the business. Mr. Gourlie is an old newspaper man, who has been connected in the past with The Globe, The World and The News. He will undoubtedly find a wide field in his new sphere, and is certain of the successful career that follows close attention to business and courtesy. Mr. Gourlie looks forward to making many new friends on Tuesday evening.

PROTECTION AT CROSSINGS

Railway Board Orders Watchmen at Entrances to High Park. Pending the return of Chairman Leitch in September, Commissioners Ingram and Kitson of the Ontario Railway Board yesterday deferred their decision on the city's application for a limitation of the speed at which the Toronto and York Radial Railway cars might travel on the Lake Shore-road at Sunnyside. An interim order was granted that watchmen be placed at the dangerous crossings in question. In spite of the protestations of H. Howitt it was decided by the board that the city should pay the wages of these watchmen in the meantime, the question of final payment being allowed to stand over till the city's application is finally disposed of.

Mr. Howitt's objection was based on the ground that the city was prevented by bylaw from employing men at less than \$2 per day, while the company could employ men for a much less figure. The vice-chairman contended, however, that the public would be ensured of greater safety by civic watchmen than by watchmen in the employ of the company.

ENERGY IS THE WHOLE THING.

Energy in most instances spells success; to be energetic you must feel well; one way to feel well is to eat moderately, keep regular hours, and your stomach in good condition. You yourself can attend to the eating and sleeping part of the program, and St. Leon, the world's greatest medicinal water, will look after the stomach. If you take a long drink of it twice daily, if you want to see the testimonials we have from Toronto's most eminent medical men all you have to do is drop us a card. St. Leon Water, Limited, 111 1/2 King-street, E. M. 1221.

VAST TIMBER RESOURCES

Ontario Has Upwards of 250,000,000 Cords of Pulpwood. The removal by the United States of the duty on wood, pulp and paper from Canada, will have some sort of bearing on the output from Ontario, which is of vast proportions. It is estimated that there are at least 250 million cords, the majority of which is tributary to Lake Superior, via the Nipigon River or to the line of the National Transcontinental. "If there were 100 mills grinding pulp

More Light on Porcupine.

During his visit to the Timiskaming country, Chairman J. L. Englehart of the T. and N. O. intends to inquire thoroughly into the entire situation there, and see how the needs of the people are being attended to. Mr. Englehart will be gone about a week.

Detective Goes West.

At the request of the authorities of Regina, Provincial Detective Miller left yesterday for that city to assist in preventing the possibility of lawlessness during the exhibition there.

CARLING'S GOLD MEDAL ALE & PORTER

For Sixty Years Canada's Finest Brands

These famous brands are brewed exclusively by the old English methods, as adopted by BASS & CO., and GUINNESS & CO. Our Ale, Porter and Lager are recognized as the greatest health-giving tonics on the market to-day.

The Toronto World

THIS CERTIFICATE, with 25 others of consecutive dates, (Sundays excepted) if presented at the business office of THE WORLD, 40 Richmond St. West, will entitle the bearer to one WORLD COOK BOOK absolutely free. If the Cook Book is to be sent by mail, send the necessary certificates in an envelope, also inclosing 14c in stamps, to the Cook Book Editor, care of Toronto World. Not more than one Cook Book will be given to one person. This is an opportunity for every good housekeeper to become possessed of the very best Cook Book on the market. It is of convenient size, substantially bound, and is designed for utility. Caution:—Not more than one coupon bearing the same date will be accepted.

COTTON MILLS SOLD.

ST. JOHN, N.B., July 28.—It became known on the streets to-day that the control of the cotton mills in St. John has passed over to the Dominion Cotton Co. with headquarters in Montreal, the latter company purchasing the capital stock at a price not made public. Work in the mills will be continued and probably improvements will be made for their more effective working.

Merchants Are Wrathful.

Yonge-street merchants have been called upon several times lately to spend ten or fifteen minutes scraping an advertising sticker off their shop windows. Fraternities running excursions have adopted this new way of

making known their intentions.

Their knock-advertisement has been pasted on the plate glass fronts in most conspicuous places.

Uister and Home Rule.

In The Sunday World this week Captain James Craig, M.P., for East Down, replies to an article by Wm. Redmond, M.P., which appeared in The Sunday World two weeks ago on the question of Uister and Home Rule. The other side as given by Captain Craig sets forth the attitude of Uister men toward the Redmond idea of home rule.

The Morning World is delivered before breakfast to any address in Toronto or suburbs for twenty-five cents per month. Phone M. 5308.

TWELFTH INNINGS' WIN OVER THE SKEETERS

Toronto Used Three and Jersey City Four Pitchers—Kocher's Timely Hit Won Game.

The Leafs defeated Jersey City 3-2 after one of the most interesting struggles this season. The contest went 12 innings and was full of exciting plays. Fitzpatrick made a circus catch in the 12th innings that was not only of the sensational order, but was a deciding feature in saving the game.

Each team used three pitchers, while Jersey City put in an additional catcher and a pinch hitter. Del Mason started for the Skeeters and met with a warm reception. Besides walking two batters he was hit for three sacrifices, one of which was a homer, for three runs in the initial innings. He, however, improved as he went along and he looked at very foolish move to take him out for Fritz, who did not last an inning, and undoubtedly was the turning point of the game. The only Rubo Kissinger pitched to one batter at the close of the seventh and then just as the performance was at the end. He did very well for a few innings, but was hammered hard in the twelfth.

Bachman started for the Leafs and was completely punned by the Skeeters. The sign of a hit being made off him till that inning, when he was touched for three sacrifices, one of which was a double and, along with a base on balls, counted three runs. An error and a couple of fly balls tied the score in the sixth. McCoy then took up the box honors and the Skeeters forced to the front on a double sacrifice on balls, followed by a clean single. Mueller then tried and, while he got himself in trouble on a couple of occasions, nevertheless performed creditably.

The Leafs scored three in the first. Fitz walked and stole second. O'Hara flew out to centre, and Delahanty was an infield out. Jordan drew base on balls and then along came Acting Manager Bradley with a homer over Delahanty's head. Kocher and Smith had singles and Fitz popped to Brown. Bachman doubled in the second, went to third on a fly ball, followed by a clean single. Mueller then tried and, while he got himself in trouble on a couple of occasions, nevertheless performed creditably.

He scored himself on Brown's slow roller to the pitcher. Toronto was retired in order in their half. In the sixth the Skeeters tied it up. Delahanty scored second and Delahanty was safe on Smith's error. Fitz advanced on O'Hara's sacrifice. Delahanty scored on Fitzpatrick's single to left, but a beautiful throw by Bill O'Hara caught Delahanty at the plate. Leafs went out in order in their half.

In the seventh, with McGeeley twisting, Butler was hit out of Boston. He dropped a safe one in right field for two bases that Delahanty could not get up to. Brown walked, and Delahanty scored. Mason and Delahanty's infield out scored Brown. Delahanty's sacrifice fly was put in for the Skeeters in the eighth. Delahanty scored and Delahanty was safe on Smith's error. Fitz advanced on O'Hara's sacrifice. Delahanty scored on Fitzpatrick's single to left, but a beautiful throw by Bill O'Hara caught Delahanty at the plate. Leafs went out in order in their half.

With Mueller pitching Jersey City got into the eighth and a fourth. Errors by Shaw and Bradley were costly in the ninth. Both teams batted hard and it was not until the twelfth that the Leafs could finally win. Just as Bradley had hit for the Skeeters in the eighth as a pinch hitter and batted for Kissinger.

In the twelfth O'Hara, the Skeeters, singled past short as a starter. Delahanty hit right, putting Jersey City in a tight spot. Jordan singled off Mueller. Delahanty walked, the pitcher evidently not wanting to take the pitcher's stance. Delahanty walked, the pitcher evidently not wanting to take the pitcher's stance. SATURDAY MORNING, JULY 29, 1911

A BLUNDER TO BE REMEDIED.

Mayor Brown's castigation of Controller Church would drive any other man in any other circumstances than city hall politics into the Switcom security of private life. Unfortunately the standards of our public life have not reached the ideal where such things are not tolerated, and there are still men who think it clever, loudly to profess one thing, while setting ready to do exactly the contrary, and there are even men willing to aid and abet such doings. The pity of it is that a great city like Toronto should be in any degree at the mercy of such men.

However, all is not lost that is in danger, and it is inconceivable in face of the expression of public opinion on the streets yesterday that the council should not return to its original attitude on the question and endorse the proposed annexation. All the progressive and public-spirited men were in favor of it. Ald. Anderson is perhaps an exception in this respect and he will probably find it difficult to explain his attitude when other questions of annexation come up. If North Toronto is not to be annexed the same arguments will apply with redoubled force to any other area recently suggested for annexation. That the arguments had no real weight does not affect the question of consistency.

Ald. Maguire and Ald. Dunn represent a past generation. It is natural in Ald. Dunn who remembers Muddy York, and probably regrets the ancient days. It is an attitude of mind in Ald. Maguire who is unable to act in the public interest when corporation problems are involved. Men like Ald. McCausland, who vary their views from day to day according to the last man with whom they have talked, are like Controller Church, products of our system and as such must be accepted. We trust, however, that some of the dissenters will realize that it is more important to consider the future of the city, even at the risk of agreeing with Controller Spence, than to provide favorable conditions for the corporations to operate in when attempting to gain control of franchises to the detriment of the public.

Controller Spence's summary of the argument in favor of annexation would have convinced reasonable men, but of course the question was not settled by reason of Controller Church would never have disregarded all his cherished convictions at the last moment, nor Ald. Fehlan displayed the ridiculous set of his conscience, which he tried to save his conscience.

Controller Spence's report that the annexation of North Toronto was needed for the purpose of securing taxes that would help to offset the deficiencies from territories recently annexed and bearing special assessment, was no more than the truth. North Toronto will be a source of revenue, not an expense, to the city. In common decency, as Mr. Spence declared, the aldermen representing these special territories should have voted for the annexation of North Toronto. In the town itself the contest was between those who wished to remain suburbanites and pay low taxes and those who desired to enter the city and pay higher rates for city privileges. Many of the North Toronto residents paid business tax in Toronto, and wished to assume full city responsibilities.

The secret enemies of the civic street railway and the hydro-electric power scheme had their sympathizers among the dozen who voted against annexation. Mayor Brown has given this assurance that he hopes the hydro-electric contract will go to the city, but Controller Church and The Telegram will have some explanations to make if it is lost, or the civic railway situation become further complicated and entangled in the north.

We believe Mayor Geary of the charge that he was a party to Controller Church's betrayal, and he has no doubt he will join the remaining controllers in an earnest effort to remedy the situation. Above every possible disadvantage that can be imagined, for there are none in reality, stands the supremely important and necessary protection of the city's future franchise interests in the north, which annexation alone can secure.

TRUE CANADIAN RECIPROcity.

In a series of articles that have been appearing in The American Magazine Mr. Albert Jay Nock has been holding Canada up as an object lesson for the United States. The latest of these is titled "True Canadian Reciprocity—What Canada Has to Give Us," and it contains much shrewd and observant

On the Possible Invasion of Morocco

Once again the trump of battle sounds over Africa's ancient state: Once again in contending nations are they far horizon. From a century's peace awakened rudely at the call of war. See the bearded, white-robed warriors near the sacred banners far. Are the banners of the Prophet swung on high for servile slaves. O'er His sepulchre for aye, Christians, rise from out your graves. Rein again your matchless war steeds, draw the bright Damascus sword. Teach the Christian nations warring fiercely, ye are of the Lord. Ye who fall within the vineyard, leave the vine and press the oil. It is meet that ye should suffer, that your blood should drench the soil. Shall the olive branch be trampled 'neath the iron hoof of power? God of Nations, Father, hear us! Be Thou ruler in this hour! July 23, 1911. —W. A. Silverwood.

comparative criticism. What struck Mr. Nock very forcibly during his peregrinations from coast to coast of the Dominion was the fact that among the more than two hundred and forty transplanted Americans he interviewed, representing all trades and professions and many coming from cities that he knew, "not one of them as much as asked one question about his old home." Contrasting this with the other circumstance that the transplanted eastern people whom he met in United States Pacific Northwest, who not dissatisfied nor homesick, yet kept a little tender spot for their old home. Mr. Nock set himself to examine the causes of this different temper. He found it in this, that United States civilization is not interesting, while the civilization of Canada is interesting. Canada, Mr. Nock considers, appears to have at the present time, many advantages over the United States. She has enough natural resources held as public property to insure (with wise administration) a continuous and distributed material well-being for her people. She has a running start towards a true democracy and a sound economic system, begun in her policies of taxation, conservation, immigration and land. Her third advantage is in her position as an integral part of the British Empire which prevents her from being provincialized and Mr. Nock was continually struck with the world-outlook in the common conversation of Canadians. Next he found that this provincializing process is helped by the immense volume of east and west trade. Canada's fifth advantage, Mr. Nock places in her large and influential admixture of French population. One can go but a little way in Canada, he says, without feeling her debt to the palmitate touch of Latin manner that beautifies her civilization. Lastly, he thinks Canada has kept all the benefits of the monarchical system without any of its drawbacks. "The only value of a monarchy," he comments, "is its influence in tempering social life, raising its general tone and purging its vulgarity. This influence of the monarch's relation to England is evident throughout her social life."

Criticism after this fashion is both interesting and suggestive, especially as coming from so philosophical and impassioned a traveler as Mr. Nock shows himself to be. Finding that in answer to his enquiry for the reason of Canada's advanced policies he invariably got the answer "The United States," he pleads for reciprocal free trade in all the elements of a civilization that will permanently satisfy all the instincts and demands of the human spirit and that the United States and Canada should declare a friendly warfare "for the greatest prize of all—the opportunity of teaching the rest of the world how to live."

This is an inspiring call, but it presupposes that each country shall retain its distinctive individuality. Without that there can be no exchange of ideas—identified the civilization of the Dominion, which Mr. Nock found so interesting, would have the characteristics of the civilization of the United States, "dulness and immense tedium." Regarding the immense disparity in the populations and present development of the Republic and the Dominion and without the difference in language and customs which protects nationality, the greater must necessarily absorb the lesser unless subjected to a sufficient measure of restraint. If the movement of trade east and west has aided in making Canada a nation and has prevented her provincialization, its diversion north and south cannot but tend to injure the operation of these processes and influence her distinctive civilization.

BOUND TO RECONSIDER ANNEXATION.

The defeat in the city council of the motion in favor of the annexation of North Toronto is at the worst only a temporary setback. The council is bound to reconsider it the moment the board of control sends it back, and this will certainly be done. But what strikes one more than anything else in this discussion is the lack of faith exhibited by the council of the city in a greater Toronto. Half of the council has joined the ranks of the "Tiny Tors" for a little Toronto.

Surprising most of all was the conduct of the two members for ward seven, Messrs. Anderson and Baird, who represent the old Town of West Toronto, which was a recent annexation. West Toronto was in bad shape financially, and was at its wits' end to get a water supply. Since the annexation took place it has boomed in many ways; it has increased greatly in population, the values of lands have

gone away up, factories are locating there, and it is altogether a new and progressive place compared with what it was a few years ago. Yet these two aldermen denied to North Toronto—which is in a much better shape financially than West Toronto was—what North Toronto desired. And the same thing may be said of the aldermen representing No. 1 Ward, more than two-thirds of which was annexed only two or three years ago, and already feels the benefit of annexation. Still more, the men in No. 1 Ward joined with the aldermen in the west to deny fair treatment to North Toronto. And yet it was the people in the west, and who defeated the Bloor street viaduct that will get so much for the east.

THE NAVAL AGREEMENT.

When Canada and Australia recognized the obligation incumbent on each to participate in the burden of imperial maritime defence and resolved to do this by creating separate fleets, the question of their control could have but one answer. As in the case of the land forces so with the naval, both must be and remain subject to the parliament and government of the state raising and supporting them. The controversy that occurred in the Dominion was not so much concerned with this as with the exaggerated emphasis laid on the possibility that the empire might be involved in war for a cause which one or other of the British self-governing states was unable to support. Since all are involved in an imperial war the right to refuse co-operation means nothing else than the right to secede and assert absolute independence. This latter right has long been tacitly admitted, and the Manchester school of British Liberalism believed and openly declared that the time would come when the then English-speaking colonies would drop from the parent stem and launch forth separate but friendly nations.

Disruption of the empire, however, has always been distasteful to men of wider vision. To one of these a federation appeared to offer a way of escape from the difficulties caused by the growth of national spirit in the Dominions and their claim to full autonomy. But whatever may ultimately be possible, their determination to suffer no abatement of their full self-governing power has proved an insuperable barrier to any form of federation. Thus gradually evolved, however, the conception of a co-partnership without formal agreement working thru consultation and co-operation as has been practically in evidence in the imperial conferences.

The retention of the navies of the empire under individual state control and their co-ordination for imperial defence has now been embodied in the agreement reached at the last conference. It affords an excellent example of the methods by which the British Empire has reached its present stage. Meeting immediate problems in a practical, commonsense way it will stimulate both national and imperial patriotism and by so doing will add to the strength of the united empire.

A jockey who pulls a horse in a race on the field of sport is warned off the course. A similar rule would be of service in the field of civic politics.

8310 to Muskoka Lake; 8210 to Muskoka Wharf and Return, Saturday, July 29. The Grand Trunk Railway System offers a popular excursion, via the favorite way, viz., Muskoka Wharf, to all points on the Muskoka Lakes, passing Lakes Simcoe and Couchiching, the Severn, and the delightful ride from Gravenhurst, via Beumaris, Port Carling and Rosseau, Royal Muskoka, Cleveland, Port Cockburn, All points may be visited for above price, and tickets will be valid returning until August 1 inclusive. Muskoka Wharf tickets, July 21. The "Muskoka Express" leaves Toronto 12:30 noon. Select the Grand Trunk route and no other. Tickets and full particulars at all ticket offices, northwest corner of King and Yonge-streets. Phone Main 4399.

A PECULIAR CASE.

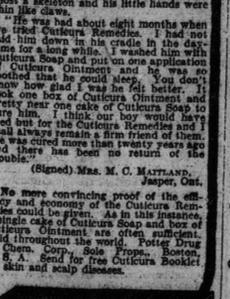

CHATHAM, July 28.—(Special).—Thos. Cox was fined \$25 in all the morning for applying liquor to an Indian listed named Joseph Houli. The case is a peculiar one. Cox claimed that he and a man named Fidler bought a barrel of beer, of which they each had a drink. They left the remainder of the barrel on a bench, where Houli afterwards found it and without permission drank of it. The magistrate held that the negligence of Cox in leaving the liquor where the latter might find it constituted an offence. Mayor Bracklin, solicitor for Cox, may appeal the case.

Baby Nearly Died with Itching Rash

Mrs. M. C. Matland, of Jasper Ont., tells in the following letter of her child's remarkable cure by the Cuticura Remedy. "When my boy was about three months old he had broken out with a rash which was very itchy and a misery to him. We tried everything we could but he got worse and then he had a fever. He got so bad that he came near dying. The rash would be all over his body. He got so bad that he had to be put in the hospital. I had to put my fingers on his hands to keep him from tearing his skin. He was almost a skeleton and his little hands were thin like claws. "It was about eight months when I had him down in his cradle in the daytime for a week. I had not used Cuticura Soap and put on one application of Cuticura Ointment and he was cured. I took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think the Cuticura Ointment cured him. He was cured more than twenty years ago. There has been no return of the trouble."

(Signed) Mrs. M. C. Matland, Jasper, Ont.

No more convincing proof of the efficacy and economy of the Cuticura Remedy can be given. In any instance a single cake of Cuticura Soap and one box of Cuticura Ointment are sufficient. Sold throughout the world. Price, 25¢. Cuticura, Sole Preps., Boston, U.S.A. Write for Cuticura Booklet on skin and scalp diseases.

AT OSGOODE HALL

25th July, 1911. Master's Chambers. Before Geo. M. Lee, Registrar. Re Joseph B. Whipple and National Life Assurance Co.—H. W. Shapley for the Insurance Company do Motion for an order authorizing them to pay into court \$1,000, the part of insurance money herein. Order made for payment in less costs fixed at \$20. To notify the official guardian and infant's solicitor in Vancouver v. Toronto Auction Mart, Limited—E. W. Boyd for plaintiff. No one contra. Motion by plaintiff for judgment for immediate possession of an injunction. Order made restraining defendants and each of them from cutting, reaping or otherwise harvesting the crops now growing on the land in question in the County of Lanark, and from removing or attempting to remove from off said lands any grain, straw, hay or other crops and farm produce, cattle, horses, sheep, swine, or other farm stock until 3rd August next, with liberty to file further material on return of motion.

COLONIAL REALTY AND SECURITIES CORPORATION.

Elsewhere in this issue will be found the first half year's statement of the Colonial Realty and Securities Corporation, Limited. Altho organized early in the year, it was about the beginning of May before the company could commence selling its lands and the management were gratified that after paying all expenses of organization, they were able to report a handsome net surplus. The auditors' report showing a net profit of \$72,248, or 39 per cent, on the average paid-up capital stock. At the close of the half year sales were pending and since completed, yielding a further net profit of \$48,125. Nothing has been included in the assets that cannot be readily converted into cash. The master of a dividend has been deferred until a company shall have been in operation for a year.

Sunday at 3 p.m. hear Newell at Massey Hall.

EMMETT SHOE STORE

Big Real Estate Sale in North Toronto. Eddy Gardens, Offered to the Public To-day, Splendid Opportunity For Investment. Throughout the week Messrs. J. C. Hayes & Co. have been talking to the public thru the columns of The World about their handsome property, Eddy Gardens, in North Toronto. Considerable comment throughout the city has been the result. The Eddy Gardens are located just outside of North Toronto and for suburban property it is certainly among the best in Toronto. Unlike most subdivisions heretofore offered to the public, these lots are laid out to give every purchaser a lot 80 x 250 feet. The land is most fertile, having been used for 17 years for market garden purposes. An additional feature is the presence of from 40 to 50 trees on each lot or an abundance of bearing berry bushes. The property is self-edged as an investment, and sure to increase in value. At the prices asked, viz., \$500 to \$1000, this is an exceptionally good buy. Attention is called to the fact that Eddy Gardens salesmen will meet all cars at C.P.R. crossing North Toronto, Saturday afternoon. Do not confuse other properties with Eddy Gardens. WILL GET SILVER SERVICES. Grenadiers Will Give Clifford Service and City Cutlery. The civic reception committee will likely have their testimony of appreciation to Private Clifford, taken in the form of a cabinet of silver cutlery. It is not regarded as advisable to attempt to procure him a house and lot, as it is feared that after the enthusiasm of the reception has evaporated, it will be difficult to raise a big enough balance of money by public subscription. Ald. Maguire, chairman of the reception committee, in arranging for an automobile parade to accompany the winner of the King's prize from Leaside Junction, where he will likely depart by arrangement, down Yonge street to Queen and west to University-avenue, and then to Queen's Park, where the presentation will be made to Private Clifford, and asked to co-operate. Decorations will be given on the day and the committee will provide flags for the machines. Ald. Maguire is conferring with the military to-day regarding the program of the reception and presentation. The Grenadiers have arranged to make a presentation of a solid silver service to Private Clifford. As he sails on the 24th of August, it is likely that he will arrive in Toronto about the fourteenth.

OPPOSE NEW WATER RATES.

Manufacturers Don't Like Idea of Extra Expense. It is understood that the manufacturers are strongly opposed to the proposed changes in the city's water rates. As he sits on the 24th of August, it would saddle them with too much extra expense. "It means that the manufacturers of Toronto would be called upon to pay upwards of fifty thousand dollars per year more than they do at present," said one prominent manufacturer to The World. According to bylaw, the present rates to manufacturers are 1-4 cents per thousand gallons, less twenty per cent discount. Meter rents are also charged. The proposed new rates would make the tariff 1-2 cents per thousand gallons up to one million gallons, all quantities over that to be paid for at 8 cents per thousand gallons. Discount to be twenty per cent. Meter rents to be abolished.

GLENERNAN SCOTCH WHISKY

A blend of pure Highland Malts, bottled in Scotland exclusively for Michie & Co., Ltd. TORONTO. PRETTY GOOD PRICES. CHATHAM, Ont., July 28.—(Special).—This morning the first load of alsike clover was brought on the local market by Mr. Charbonneau of Dover Township. He had thirty-five bushels on the load, which he disposed of readily at \$5 a bushel, bringing him the net sum of \$250. Kent farmers are not at all dissatisfied with the prices prevailing on Canadian markets, and many of them are availing to the fact that prices would be a great deal worse if receipts were in force. Fined for Betting. Samuel Yoffe and Dawson Bertram, two young men who had made bets

GET BACK YOUR VITALITY

OTHERS HAVE BEEN CURED. WHY NOT YOU? I HAVE A CURE FOR WEAK MEN THAT CURES TO STAY. CURED. I CAN TAKE A WEAK, FUNY MAN AND MAKE HIM A HEALTHY, VIGOROUS SPECIMEN OF MANHOOD. REMOVE HIS PAINS AND ACHES, STRENGTHEN HIS NERVES AND ORGANS, AND GIVE HIM NEW VITALITY. WRITE ME AND LET ME EXPLAIN FULLY HOW I CAN DO IT. ADVICE IS FREE. I want to talk to those people who have doctored and drugged in vain, to those sufferers who have thrown away their money on patent nostrums and other worthless treatments. You want a cure. I'll give you that. I have the grandest remedy of the age—electricity as applied by Dr. McLaughlin's Electric Belt. I can show you people who had suffered for years with rheumatism, kidney and liver complaints, debility, weakness and other chronic disorders, who never received any permanent relief until they used my Electric Belt. I don't sell my Belt with the simple assurance that it will cure you. I'll find out first if your ailment is curable by my method, and tell you whether or not it will cure you before you pay me a cent. If I can't help you I don't want your money. If you want to get well and stay well, you must help nature remove the cause of your ailment. Doping the nerves and vital with poison will have strength, vitality, new life and energy for the weak, inactive organs of the body. Electricity supplies this strength and life, and that is how it helps nature cure. Dr. McLaughlin's Electric Belt is the most successful as well as the best electric belt made. It does not shock or burn, and the current can be regulated to any degree of strength. You may have tried so-called electric belts and found them worthless, but my appliance must not be confused with those flimsy, fraudulent contrivances that were made only to sell. If my Electric Belt did not cure that my appliance has been constantly before the public for 20 years is pretty good proof that it has merit. You are here in my office. Write me about your case to-day. If you have no confidence in electricity let me treat you at my risk. I will give you the Belt on trial, with one cent of risk to yourself. Give me reasonable security and I will take your case, and you can PAY ME WHEN YOU ARE CURED. AMPLE PROOF WILL BE GIVEN YOU ON REQUEST. FREE BOOK. Write me to-day for my beautifully illustrated book, with cuts showing how my Belt applies and is of good use. The book is of good reading for men who want to be "Robust Work of God." I will enclose this copy and I will send this book sealed, free. DR. M. D. McLAUGHLIN, 237 Yonge Street, Toronto, Can. Dear Sir.—Please forward me one of your Books, as advertised. NAME..... ADDRESS..... Office Hours: 9 a.m. to 6 p.m. Wednesday and Saturday until 8:30 p.m. Write plainly.

OBITUARY.

Mrs. Thomas Elliott, 220 Markham-street, Bathing Jane Sibbald, wife of Thomas Elliott, passed away in her 74th year yesterday. Edwin H. Elliott, principal of Duke St. School, was her son. The funeral will take place Monday afternoon at 1:30 to Prospect Cemetery.

JUDGE MORSON UPHOLDS ICE-CREAM CONVICTION

Finds That the Article Must Be Consumed on Premises When Purchased Sunday.

According to a decision handed down by Judge Morson yesterday, ice cream purchased on Sunday must be consumed on the premises. The case in point was that of R. H. Webb of West Queen-street, who was recently convicted and fined \$25.00 by Magistrate Kingsford for selling on the Lord's Day a brick of ice-cream for consumption off his premises.

HAMILTON HAPPENINGS

McCURDY FLEW AT RATE OF 70-MILES EXPECTS TO USE MACHINE OF HIS OWN MAKE IN RACE TO TORONTO.

HAMILTON, July 28.—(Special.)—The second day of the aviation meet here to-night proved most successful than last night's performance, and simply astonished the 2000 people who journeyed down to the O'Neil farm to see James McCurdy, J. V. Martin and Charles Willard in the sensational air-race.

It seems to me, after a good deal of consideration, that the provision as to a stated case where the contentions of law arise before the magistrate and it becomes necessary to obtain the opinion of the high court in order to settle the matter.

FORGOTTEN OPINION

"To hold that I am not bound would not be, I think, in the public interest. If I followed my own opinion and held as I have before, that it is not necessary the article should be consumed upon the premises, it would only lead to uncertainty as to where the line and parties would not know what their rights were. It is better not, I think, to have any conflict of decision, even if it is at the expense of my own individual opinion.

EDDY GARDENS.

TO-day is the day of the big Eddy Garden sale in North Toronto. Lots are 80 x 250 feet, and are selling at \$800 to \$1500 on easy terms.

ONLY ONE MAN SAVED OUT OF CREW OF ELEVEN

Cargo Shifted, and Ship Foundered—Heroic Conduct of Sole Survivor.

HALIFAX, July 28.—The steamer John Irwin, reported yesterday to have overboard on a trip from Port Morien to Halifax, foundered and her crew of eleven, ten perished. The only man saved is W. McLeod, the mate, who on reaching Sherbrooke, to-day told the harrowing story to her correspondent.

CHILDREN MEET MISHAPS

Edw. Wood, 2 years of age, 122 Alton-avenue, was taken to the Hospital for Sick Children in the police ambulance at 9 o'clock yesterday afternoon, after an epileptic seizure in the street and broken his leg.

ONLY ONE EXAMINATION IN MEDICAL COUNCIL

Motion to Lower Fees, However, Was Defeated—Physical Census of School Children.

Two Ontario medical council examinations were cut out by the council at yesterday afternoon's session. They are the primary and the intermediate medical council examinations. The percentage to be secured at the final examination before the student is allowed to practice was raised from 50 to 60 per cent. The question of lowering the fees to be paid by the students to the council was discussed but the two examinations were eliminated, the fee still remains \$100-\$25 registration fee as a matriculant and \$75 for the final examination and registration as a practitioner. In the future the council will depend on the universities for the primary and intermediate examinations.

The following motion respecting a physical census of school children was moved by Dr. Spankie and unanimously passed:

"Whereas the question of the medical inspection of schools and scholars is now prominently before the peoples of various nations; and

"Whereas the legislature of Ontario in 1907 authorized trustees, to provide and pay for the dental and medical inspection of pupils; as the regulations may prescribe, or in the absence of regulations as the board may deem proper.

Resolved, that this council, in the interests of school children respectfully recommends to the minister of education the advisability of taking a physical census of the school children, with the view of comparing the health and physical condition of children in urban and rural districts, and in the meantime, further respectfully recommends the training, as in England, of the students in our medical schools, normal schools, and faculties of education in such a knowledge of school hygiene as will enable them to recognize common defects and situations of children.

"This council further recognizes that while the employment of school doctors and nurses during all the time to medical inspection, would be the ideal plan for every municipality in the province, yet it is of the opinion that the public are not sufficiently familiar with the benefits of medical inspection to be ready to meet the cost of the same before from the insurmountable expense involved in instituting such a comprehensive system at the present time.

Lower Students' Fees.

Dr. Ryan of Kingston pleaded for the lowering of the students' fees. They ought to be as low as possible for the students, he said. There ought to be no stumbling blocks in the way of high ability students. The university fees were going up and he thought the government should take the Ontario Medical Council as a money-making concern, he said. There were ample funds on hand to pay it without the income from students. If they did lower the fees they would be thought better of by all as being the only institution that was doing so. He moved that they be reduced from \$100 to \$75. It was found that \$75 was not sufficient to cover the costs they could easily be put up to the cost figure. It would do no harm to try it for a year and if they did the public would be with them if it were necessary to raise them, for it would be apparent to all that they were trying to make it easier for the students. Dr. Spankie supported the motion. The students often found it very difficult to get the money to pay the fees, he said. The council was not hard up and it could be done. Besides, the impression they would make on the public would be worth more than the gain of a few paltry dollars.

Opposition Too Strong.

It was brought up that in other places high fees were charged merely for registering the practitioner. Dr. Ryan asserted that it was wrong to charge a fee for merely putting the names down in the roll. Now that they had lowered the number of council examinations they should lower the fees, he said. Many students worked away until they were at the end of their course with hardly enough money left to pay their fees, he said.

The motion was lost by a vote of 14 to 8.

As to the examinations, the committee reported that the examiner in surgery was an exceedingly fair paper. But they found that the examiner had been an exceedingly close marker. He had, however, been doing the students justice.

Two Doctors Reinstated.

The case of Dr. A. W. Stinson, of Cobourg, whom they considered barring from practice for the alleged performance of two illegal operations, was held over until next year. The name of W. R. Cook, which was wiped off the rolls last year for unprofessional conduct, will be replaced on payment of costs. The name of C. J. Ardagh, who was expelled from practice thirteen years ago, will be also replaced on payment of costs.

It was decided to revise the medical register because of numerous changes in abode of members, deaths and cessations of practice.

Dr. A. J. Johnson reported that a clearer statutory definition as to the persons who were qualified to practice medicine was needed. There had been 28 prosecutions and 28 convictions for illegal practice during the year. But the different decisions given by the courts did not define clearly enough who were permitted to practice, said Dr. Johnson's report.

PLATEAU AND VALLEY LANDS

New Publication by G.T.P. on Central British Columbia.

A new publication has just been issued by the Grand Trunk Pacific Railway in connection with a territory that is practically unknown. This publication deals with the Plateau and Valley Lands in Central British Columbia, and which will be reached by the main line of the Grand Trunk Pacific Railway west of Fort George and east to Hazelton, British Columbia.

The descriptive matter was secured with much difficulty by an exploration party sent out last year, who discovered the possibilities of the marvelously rich and climate-favored land referred to, and the statements made are based directly on these researches. Facts have also been secured and incorporated in this publication from government agents' reports and equally reliable sources, and every care has been taken in the compilation of the text which will be found correct in all statements.

The publication deals with the markets, mineral production, climate, settlement, soil and class of land, temperature, altitude, pre-emption, timber lands, homesteads, etc., and gives full particulars as to how to secure government lands, taxation, education, social conditions and advice to emigrants.

A new and very interesting map accompanies the book which is profusely illustrated and most interesting in every particular. The illustrations are made from direct photographs taken by the specially equipped party sent out by the Grand Trunk System last year.

Anyone desiring a copy of this publication may obtain it without cost by applying to C. E. Horning, C. P. & T. A. G. T. Ry. System, northwest corner King and Yonge-streets, Toronto, Ont.

NEW DIRECT CABLE.

LONDON, July 28.—(C. A. P.)—The text has been issued of the bill presented in the house of commons by Rt. Hon. C. E. H. Hobhouse and Rt. Hon. J. A. Pease, the object of which is to extend the Pacific cable act.

The bill is a fulfilment of the promise made by Rt. Hon. H. L. Samuel, postmaster-general to the conference on June 15.

The Australian ministers complained that the Pacific board wanted to lay a new direct cable from Australia to New Zealand, which would give the board about £14,000 a year revenue, but the British treasury refused to consent, because in future it might interfere with developments in connection with wireless telegraphy. Mr. Samuel, with Premier Asquith's concurrence, at once promised to press for the treasury's consent, as it was the strong desire of Australia and New Zealand. This bill gives the desired authority.

"Maria, what was done at the meeting of your literary club last night?"

"We found Mrs. Chulicoff-Kearney is for securing Mrs. Higgins of cheating at bridge."—Chicago Tribune.

For New Manhood Send Me the FREE COUPON

There is to-day no excuse for any man remaining weak. The vital, manly man is admired by all men as well as all women; there is an influence about him no one can resist; he knows no fear; he knows no weakness; he knows no result of debility. It is this same VITALITY which carries our young soldier to war without thought of death. Vitality reads in what you MUST have if you would enjoy a life of health, strength and manly vigor. It can give you this same life and vitality. If I can do for you what I am doing for thousands of others I can put the vigor of youth into your blood and nerves. I can make you feel young again and keep you feeling young. I can drive away all debility, weakness and dependency. You will laugh at trouble, you will tackle obstacles with the vim to win, just as all other hearty, vital men may do. I don't ask you to use drugs. I ask no change in your present mode of living; just cease a moment from then use my HEALTH BELT. All else will come. My Health Belt with suspensory attachment is the greatest nature cure and VITALITY supply that the world has ever known or probably ever will know. Nothing is taken or granted; you feel better immediately, at once, from the first time used. Wear all night while you sleep, it pours a great stream of vitality and energy into your weakened system; it is a wonder-working giant of power, made as I now make it. I am getting results of which no man ever dreamed. Just think, over ten thousand men applied to me during the month of February; I am now sending great shipments of my Health Belt to every part of the civilized world. There is a reason; I am giving you awaken mornings sparkling with bright, clear-eyed, clear-brained health; the weakness has all disappeared from your back; you are "just feeling fine." Special attachments to my Health Belt cure rheumatism, kidney, liver and stomach trouble.

Let Me Send You This Book FREE

Fill in the coupon; let me send you at once my free booklet in plain sealed envelope; it is profusely illustrated with beautiful photographs; keep it in your pocket for easy reference; read the chapter on Vitality; read the chapter on Debility; read the chapter on those subjects which interest every man, young or old, who would be strong in manly vigor. It is a word of hope, a carefully written, interesting booklet which should be in every one's possession. Therefore send to-day. If in or near the city, call at my office. Hours, 9 to 6.

DR. A. B. SANDEN CO., 140 Yonge Street, Toronto, Ontario.

Dear Sirs:—Please forward me your Book, as advertised, free.

Hot-Weather Happiness

comes from good digestion and enough outdoor exercise to keep the liver active and the pores of the skin open for the elimination of the toxins that have accumulated in the body. Keep the stomach sweet and clean and the bowels healthy and active by eating

SHREDDED WHEAT

made of the whole wheat steam-cooked, shredded and baked in the cleanest, finest food factory in the world.

Here is a Summer suggestion that is full of Health and Happiness with freedom from kitchen worry and work: Place two Shredded Wheat Biscuits in a deep plate; cover them with berries or any other fresh fruit; pour over them milk, adding a little cream and sugar to suit the taste. Delicious, nourishing and wholesome for the Summer days when the stomach is tired of heavy meats and soggy pastries.

TRISCUTT is the Shredded Wheat wafer—a crisp and tasty "snack"—the maximum of nutriment in smallest bulk. Take it with you to the Summer camp, bungalow or cottage—it is eaten with butter, soft cheese, caviar or marmalade.

MAKE YOUR "MEAT" SHREDDED WHEAT

USING GALICIA AS A BASE

Portuguese Monarchists Continue Their Activity in Spain.

LISBON, July 28.—Col. Barretto, the minister of war, is preparing to leave for the north to visit the frontier camps and discuss the actual situation with the commanders of the Republican troops. Another squadron of cavalry was detached from the local garrison and sent northward to-day. The government continues energetic representations to Spain against Galicia being made the monarchist base of the military enterprises against Portugal. The Spanish Government is supplied with a variety of information destined to support the effort to have Spain arrest the preparations and seize the arms and supplies of the monarchists. Spain replies in satisfaction terms, but thus far seemingly has been unable to intervene effectively in Galicia, which in many districts is almost of access.

The Spanish local authorities are not in a position to interfere with the movements of quiet individuals, or to inquire their purpose. Captain Couceiro and his principal adjutants of the monarchist forces are constantly changing their addresses. The whole countryside welcomes them as they buy freely and bring excitement into the dull valleys.

WORKMAN FELL TO DEATH

Robert O'Neil Fractured Skull and Died in Hospital.

Apparently losing his balance while walking on a plank on the fifth floor of the unfinished section of the Kent building at Richmond and Yonge-streets, yesterday morning, Robert O'Neil, 22 years, a laborer, died of his injuries half an hour later in St. Michael's Hospital.

He fell beside the shaft of the hoist on which he had ascended a moment before and was picked up unconscious and hurried to the hospital in a passing auto. He sustained severe internal injuries, his skull was fractured and a number of other bones were broken. Chief Coroner Johnson was notified, and an inquest will be held. O'Neil lived at 26 Crawford-street and was employed by Harry Needham, contractor.

Take a Trip to the Country with the 'Beneficial Confection!'

The delicious flavor of crushed mint leaves carries your thoughts there instantly. The pure healthfulness of the fields is concentrated in it.

No other confection is so refreshing—no other is so beneficial! It keeps your teeth sound and white—keeps your breath fragrant and cool—keeps your nerves soothed and your appetite and digestion in good shape.

It's the greatest confection success ever known!

ANNEXATION PROJECT IS SURE TO BE REVIVED

The Tie Vote Decision is Not Regarded as the Last Word in the Matter.

While the project of expropriating the C.P.R. corner at King and Yonge-streets appears to be dead enough to satisfy its most exacting opponents, the move to annex North Toronto has by no means been halted by the adverse vote of the city council. It is pointed out that a tie vote on such a matter can by no means be regarded as decisive, and on all hands it is conceded that the matter should be taken up again at an early date.

The controllers regard it as advisable to deal with the question in time for next meeting of council, and it is likely that they will again send on a recommendation to council favoring annexation. As it is very probable that a meeting of the council will be called some time next week or the week following to deal with the Humber scheme and matters affecting the subway railway, annexation is sure to be again dealt with by the controllers in a very few days.

The matter was killed in council by the vacation of one man," remarked a member of the board of control. "It hardly seems fair to accept such a last-minute decision as conclusive on such an important affair."

Mayor Brown of North Toronto has a few things to say regarding Controller Church and his right-about-face actions. The man from North Toronto regards "wobly" as a mild adjective to annex to the controller's name.

Right About Face. "Twice he visited the town, investigated things for himself and went away declaring that he was enthusiastically in favor of annexation," declared Mayor Brown. "He voted in the board of control meeting for the favorable recommendation that was sent on to the city council, and then at the last minute he casts the deciding vote against the project."

The controller favored annexation till the Telegram, which supported his appointment to the harbor commission, began to knock it, and then he promptly professed to a change of views and voted accordingly.

"The reasons he gives for a change of front are too poor to accept. He claims that annexation would not alter the situation, as it affects the railway situation on Yonge-street. Well, he knows all about that before the matter came to council. It was thoroughly explained to him before he even voted for the favorable recommendation of the board of control."

Controller Church poses as a friend of the Toronto hydro-electric system. He knows all about that before he can maintain that show, seeing that he has refused to seize an opportunity of securing for the system the lighting of thirty-five miles of streets and houses.

The stand taken by the alderman from Ward Seven was a great disappointment to me. I thought that, considering the recent way they were treated by the city they would have been fair and decent with us. We are certainly better fixed financially than West Toronto City was at the time of its annexation to Toronto."

BIG MUSICAL NOVELTY

Enville Hall Band of England Will Be at Hanlan's Point Next Week.

The coming of the famous Enville Hall Prize Band to Toronto has created some stir in musical circles because it was not thought possible that this celebrated organization could ever be brought to America. But with the co-operation of the Hanlan's Point management and the Winnipeg Exposition this event has been brought about.

The Enville Hall Band is one of the most noted musical organizations in all England. It has been in existence for over sixty years, and in its time has been the winners of more cups, trophies and medals than any other band in Europe. The band's engagement commences to-morrow afternoon and is only for one week. There is no possibility of their engagement being extended as after playing in New York and Boston they sail for home, so this will be the only opportunity Toronto musicians will have of hearing them.

Massey Hall at 3 p.m.; hear Newell on bell.

A GRAND MEDICINE FOR OLD PEOPLE

"Fruit-a-tives" Restores the Health and Strength of Youth

GRAND LIGNE, Que., Jan. 2, 1910.—"I heartily recommend 'Fruit-a-tives' to all who suffer from constipation and the painful consequences. Piles. I am now over 50 years of age and suffered for more than ten years with Constipation and Piles. I tried all kinds of remedies, but nothing cured me."

"About four years ago I received a sample of 'Fruit-a-tives.' After taking a few doses I felt that 'Fruit-a-tives' were doing me good. As 'Fruit-a-tives' were not sold here then I wrote to Ottawa for several boxes."

"After taking four boxes, I felt well—my bowels were regular—and the Piles had disappeared."

N. Joubert. By taking one "Fruit-a-tives" tablet half an hour before meals—or one or two at night—old people can correct all Stomach, Liver and Kidney Troubles.

"Fruit-a-tives," the famous fruit medicine, is mild and gentle in action—pleasant to the taste—yet no other remedy has been found to be so effective in keeping old folks in good health.

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

Passing under Bloor-street the houses numbered 62 and 64, the tube would proceed by 65 and 67 Cumberland-streets; then up to 54, 55, 56 and 53 Yorkville-avenue. At Scollard-street it would pass under 57 and 59.

The house on the other side stands on the west of the street leading to Ketchum Park would likely have to be removed. Here the subway would curve under the park, passing to Daventport road between the Aged Women's Home and the Industrial Refuge, thence to Hillgrove-avenue, overlooking Ramsden Park.

Route to Be Decided. The engineers have yet to decide how to carry the subway from this point. It may be taken thru a right of way purchased by the city, or across a viaduct to the centre of the park and then underground to Yonge-street, passing north under this thoroughfare. The expense here will be little or no advantage in choosing the route north parallel to Yonge-street.

The assessment commissioner is to report on the cost of the parallel route, while the railway engineer will report on the alternative route underground to Yonge-street.

The whole matter will be discussed by the committee in a few days and formal recommendation dealing with the route will then be sent on to city council, probably in time for the next meeting.

No Legal Action. "The statement of the bank having to take action to recover the deposit money is grossly false," he said. "The bank is by no means a spite fence. I am simply sincere in attempting to protect my own."

"Now that Bloor-street is rapidly becoming valuable since its transformation into business, the 25 foot restriction should be rescinded."

"Why should the northwest corner be restricted when the Bank of Nova Scotia located on the northeast corner of Spadina-road and Bloor is built square on the line?"

"The bank is a fact which I desire to lay before the citizens of Toronto."

Mr. Schultz added that he didn't see why he should pay taxes on ground on which no building could be erected.

WEST TORONTO, July 28.—(Special)—The funeral of the late Thomas R. Geddes, one of the victims of the recent disaster at Forquipine will take place to-morrow afternoon from Speers' Undertaking Parlors. The body will be brought to West Toronto by train in the morning from Sudbury. Deceased was a brother of M. D. Geddes of Durie-street.

The C. P. R. have begun work on the north-side of the Weston-road overpass bridge which will be of steel with concrete piers. The south side of the bridge was completed in June and several sidings are being built under it.

The A. Y. P. A. of St. John's Church are holding their summer outing to-morrow to Centre Island. The city of Toronto have served notices of expropriation on Mr. John Holden, solicitor for Dr. Aikens, the owner of the land at the corner of Keele-street and Humberdale-avenue, which is wanted for park purposes. Dr. Aikens lives in Toronto township and has been unable to agree with the city as to a suitable price.

A new concrete sidewalk is being laid on the north side of Annette-street extension from Evelyn Crey to the street leading to the Junior Chapter of the Brotherhood of St. Andrew will attend the annual summer assembly of the Toronto district to-morrow at Scarborough Bluffs.

CREDIT AUCTION SALE of mitch cows, springers, calves and horses. The undersigned have received instructions from Mr. Jas. Hook to sell by public auction at Bowser's Hotel, Cooksville, on Monday, July 31, 1911, at 1 o'clock sharp, 14 milkers, 12 springers, due about time, 12 calves, 4 horses, workhorses and drivers. The calves will positively not be sold before the sale. The whole to be sold

ALTERNATIVE ROUTE UNDER INVESTIGATION

Civic Engineers Find Few Difficulties in Way of Construction of Tubes-Up Teraulay-St.

Yesterday afternoon the special civic committee who are investigating the subway railway situation went over the proposed alternative route up Teraulay-street. With the party went George Powell, assistant city engineer and E. L. Cousins, bridge and railway engineer.

The route presented very little in the way of difficulties or obstructions as far north as College-street. In fact it presents a great many advantages, not the least of which is the absence of paving which favors the quicker and cheaper construction of the subway. The city engineers start state that property damages in this section will be comparatively light and that the amount of expensive disturbances of various interests, such as would arise were Yonge-street chosen for the route, is practically a negligible factor.

Some Difficulties. At College-street some more serious difficulties are met. The houses numbered north from the north end of Teraulay-street, dwelling houses numbered 54 and 56 are in the way and would have to be removed. Continuing towards Grenville-street two more houses would have to be taken and then the tube would take a curve eastward to St. Vincent and Grenville-streets.

For some considerable distance the route is fairly unobstructed, but the Presbyterian church, standing at the corner of Groverton and St. Vincent streets is in this way and would probably have to be removed. North of this point the subway would run under the residence of J. K. Osborne on the west side of Chapel-lane, and the Michael's College property, coming out at the south end of North-street.

North-street presents few difficulties. It is 42 feet wide and the only important buildings on it are the Baptist Church and the School of Expression, at the Bloor-street end.

Passing under Bloor-street at the houses numbered 62 and 64, the tube would proceed by 65 and 67 Cumberland-streets; then up to 54, 55, 56 and 53 Yorkville-avenue. At Scollard-street it would pass under 57 and 59.

The house on the other side stands on the west of the street leading to Ketchum Park would likely have to be removed. Here the subway would curve under the park, passing to Daventport road between the Aged Women's Home and the Industrial Refuge, thence to Hillgrove-avenue, overlooking Ramsden Park.

Route to Be Decided. The engineers have yet to decide how to carry the subway from this point. It may be taken thru a right of way purchased by the city, or across a viaduct to the centre of the park and then underground to Yonge-street, passing north under this thoroughfare. The expense here will be little or no advantage in choosing the route north parallel to Yonge-street.

The assessment commissioner is to report on the cost of the parallel route, while the railway engineer will report on the alternative route underground to Yonge-street.

The whole matter will be discussed by the committee in a few days and formal recommendation dealing with the route will then be sent on to city council, probably in time for the next meeting.

No Legal Action. "The statement of the bank having to take action to recover the deposit money is grossly false," he said. "The bank is by no means a spite fence. I am simply sincere in attempting to protect my own."

"Now that Bloor-street is rapidly becoming valuable since its transformation into business, the 25 foot restriction should be rescinded."

"Why should the northwest corner be restricted when the Bank of Nova Scotia located on the northeast corner of Spadina-road and Bloor is built square on the line?"

"The bank is a fact which I desire to lay before the citizens of Toronto."

Mr. Schultz added that he didn't see why he should pay taxes on ground on which no building could be erected.

WEST TORONTO, July 28.—(Special)—The funeral of the late Thomas R. Geddes, one of the victims of the recent disaster at Forquipine will take place to-morrow afternoon from Speers' Undertaking Parlors. The body will be brought to West Toronto by train in the morning from Sudbury. Deceased was a brother of M. D. Geddes of Durie-street.

The C. P. R. have begun work on the north-side of the Weston-road overpass bridge which will be of steel with concrete piers. The south side of the bridge was completed in June and several sidings are being built under it.

The A. Y. P. A. of St. John's Church are holding their summer outing to-morrow to Centre Island. The city of Toronto have served notices of expropriation on Mr. John Holden, solicitor for Dr. Aikens, the owner of the land at the corner of Keele-street and Humberdale-avenue, which is wanted for park purposes. Dr. Aikens lives in Toronto township and has been unable to agree with the city as to a suitable price.

A new concrete sidewalk is being laid on the north side of Annette-street extension from Evelyn Crey to the street leading to the Junior Chapter of the Brotherhood of St. Andrew will attend the annual summer assembly of the Toronto district to-morrow at Scarborough Bluffs.

CREDIT AUCTION SALE of mitch cows, springers, calves and horses. The undersigned have received instructions from Mr. Jas. Hook to sell by public auction at Bowser's Hotel, Cooksville, on Monday, July 31, 1911, at 1 o'clock sharp, 14 milkers, 12 springers, due about time, 12 calves, 4 horses, workhorses and drivers. The calves will positively not be sold before the sale. The whole to be sold

WHEN SUMMER COMES GUARD YOUR BABY

The summer months are the most dangerous of the year for the little one. The complaints of this season come so quickly that often a precious little life is beyond aid before the mother realizes baby is ill. Colds, diarrhoea and cholera infantum are all life at this time. The mother must guard her baby's health every minute.

She must be careful of his food and careful that his stomach is kept sweet and his bowels move regularly and freely. To do this nothing can equal Baby's Own Tablets—they are mother's best friend at all times of the year, but more especially in the summer, when, if given occasionally, they act as a preventive of those dreaded summer troubles, or if they do come on suddenly, the Tablets will just as quickly remove the cause and baby will soon be well again. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

STORING UP ENERGY There is more nourishment and sustaining power in EPPS'S COCOA than in any other beverage

Epps's Cocoa is a perfect store-house of vitality, restoring and maintaining strength and energy. Fragrant, delicious and warming, Epps's Cocoa contains the maximum of nourishment in Cocoa.

Children thrive on "EPPS'S."

FENCE NOT FOR SPITE DECLARES R. H. SCHULTZ

He Also Terms Certain Assertions As to Disposition of Property "Grossly False."

R. H. Schultz, whom residents in the vicinity of Bloor-street and Spadina-road charge with erecting a spite fence because of friction, declares that such is not the case and that certain assertions made by people of the locality are not correct.

"The restriction compels building to be kept back 25 feet from Spadina-road, not 20 feet," he said, adding that the price of \$20,000 said to have been paid him for a section of the land by Dr. and Mrs. Sutton was incorrect.

Mr. Schultz said he knew absolutely nothing about the 25 foot restriction being on the property until the Bank of Nova Scotia made him the offer. The bank purchased the property from him subject to municipal restrictions and "no legal action."

"Any recourse other than to accept the property, but after Mr. Schultz learned of the restriction, which was managed by the bank's purchase, he told the bank that in case they wished to withdraw their offer he would forthwith return the deposit money of \$1000."

"The statement of the bank having to take action to recover the deposit money is grossly false," he said. "The bank is by no means a spite fence. I am simply sincere in attempting to protect my own."

"Now that Bloor-street is rapidly becoming valuable since its transformation into business, the 25 foot restriction should be rescinded."

"Why should the northwest corner be restricted when the Bank of Nova Scotia located on the northeast corner of Spadina-road and Bloor is built square on the line?"

"The bank is a fact which I desire to lay before the citizens of Toronto."

Mr. Schultz added that he didn't see why he should pay taxes on ground on which no building could be erected.

Pay Rent Into Your Own Pocket

The man who pays rent to a landlord is paying out money he will never see again. Be your own landlord, put the rent money into your own pocket. Over a thousand families have already taken home-sites in the

PARSONS ESTATE

where they have built themselves cosy little cottages. They have the pleasure of living in homes that they own; the money they used to pay in rent now pays for the house and lot. As values of property increase, the owners of these little homes become more and more wealthy.

Don't You Want a Home--NOW?

We have such an easy plan for you that you should act at once and

Choose a Lot on Saturday

By our plan, you can select a lot and take possession of it on payment of \$10 down. If you move your family to the lot and live on it while you build your house in your spare time, you save rent, and have more time and money to spend on building.

Go out and look at the lots in Parsons Estate Saturday afternoon. Take Carlton street or Lansdowne avenue car to terminus. Our automobiles will meet the cars from 1.30 p.m. to 5 p.m. If you wish to walk, go up Dufferin street, north to the property. Representatives there to give full information.

Lots are \$5 to \$14 per foot
Terms are \$10 Down and \$5 Monthly
If you cannot go to see the lots, write for information and for our free book.

Dovercourt Land, Building and Savings Co., Limited

24 Adelaide St. E. Tel. M. 7280

PARSONS ESTATE

100 ACRES—About 1000 under cultivation. Balance bush and pasture, in which is a splendid stream and a never-failing spring; the soil is a choice clay loam. The kind that never bakes. The frame house, with stone cellar, barn is about 35 x 40. In good repair, has comfortable stables underneath for six horses and twenty cattle; there is an implement shed, 30 x 25 and an open shed and pig sty, 30 x 40. This property is situated on a good road, within five miles from Toronto; bus line runs from the main line from church, school, postoffice and store. The creamery wagon calls for the cream at five o'clock; if you want a tidy stock farm at a very moderate price, arrange for us to show you this. Price, \$25,000; terms, five down, balance easy. Philip & Beston, Whiteville, Ont.

ONE HUNDRED ACRES—Good stock and grain farm; fair buildings; abundance of water; lot 8, Con. 3, Markham; 2 1/2 miles east of Thornhill. Apply Egan & Co., Limited, 26 Victoria street, Toronto.

25000—BEAUTIFUL farm, 30 acres at Cookville, on Dundas road and Hurontario street; large, twelve-room house and good outbuildings. Apply Egan & Co., Limited, 26 Victoria street, Toronto.

W. A. Lawson's List. FARMS FOR SALE by W. A. Lawson, 102 Church street, Toronto.

1/4 ACRES—Eight miles from Toronto; quarter-mile from electric car and Kingston road; good soil, all available; nice spot for country home; six hundred and twenty-five acres.

1/2 ACRES—Four two blocks from electric car on Kingston road; close to village; splendid soil, very suitably adapted for fruit or market garden; fifteen acres.

MR. MARKET GARDENER, we can show you some of the best propositions offered to-day for your purposes. Good soil, splendidly situated, and the price is decidedly right.

10 ACRES—Five miles from Toronto; close to postoffice and school; near new electric line; soil, superior clay loam; easily worked, all under cultivation and clean; a beautifully-lying piece of land; twenty-five hundred acres.

30 ACRES—Sixty-five miles from Toronto; near Cobourg; close to postoffice and school; clay and sandy loam; good soil, all under cultivation and clean; three acres of orchard; plenty of water; good fences; nicely wooded about buildings; brick and roughcast house, seven large rooms; two barns, drive house, ten horse and pigsty, all in good repair; twenty thousand.

50 ACRES—Eight and half miles to St. Lawrence Market; close to postoffice, school and church; rich clay loam; all under cultivation and clean; well watered and fenced; eight-roomed brick house, up-to-date in every respect; bank barn, drive house and henery; stables for twenty-five head stock; ten thousand.

100 ACRES—Scarboro; four miles from Toronto; close to postoffice, school and church; rich clay loam; all under cultivation and clean; three acres of orchard; plenty of water; good fences; nicely wooded about buildings; brick and roughcast house, seven large rooms; two barns, drive house, ten horse and pigsty, all in good repair; twenty thousand.

IN HOCK

Young men with meagre salaries evolve financial makeshifts abhorrent to their prudent elders. Said one young sprig of boarding house gentility to another who expected to seek new quarters upon his return from a two-months' trip on the road: "What are you going to do with all this personal truck that is cluttering up your room? It will cost you anything a dollar a month for storage." "Not in the way I am working things," said the man who was going away. "I have purposely refrained from buying board for four weeks and the landlady will hold my stuff. Of course I shall square up when I come back and get it again, and in the meantime she will give it free storage."

SAVED BY ITS TICK

The last thing the woman did was to put four rings in the clock on the mantel. "So thieves won't get them," she said. "I should think that would be simply inviting thieves to run away with them," said her friend. "That is a handsome clock, and thieves like a clock." "They do," said the woman, "but they will never steal this clock. It ticks too loud. No wise thief will run away with a clock that goes like a thrashing machine. It isn't the alarm about his person that he is afraid of, for he can stop the clock, but the occupants of the flat are likely to return before he gets safely away, and if a long-ticking clock is gone they will miss it the minute they step inside the door, and maybe give him a hot chase for his plunder."

FOR SALE

\$2000—Wallace Ave., neat 4-roomed dwelling with good lot, fine position for stores. S. W. Black & Co., 28 Toronto Street.

Mining Market in Quiescent State With Small Price Changes

Mining Market in Resting Mood And Prices are Generally Shaded

Porcupine Stocks Turn Decidedly Quiet, With Slightly Easier Trend—Another Reaction in Cobalts.

World Office Friday Evening, July 28th, 1911. The Porcupine stocks turned decidedly quiet in the local mining market today, and outside of a generally firm aspect to prices, there was little of interest in the dealings.

WHAT A GOLD OUTPUT MEANS. The signs all point to an almost immediate output of gold to a surprising amount in New Ontario. You can almost say now that New Ontario is to be another South Africa.

ENGLISH INTERESTS IN PORCUPINE. PORCUPINE, July 27.—A Bewick-Moreing party has arrived here. The party consists of Sir William Bell of London, England, and Mr. Graham Fien of the head of a very influential mining house in London.

A NEW GOLD FIELD. QUEBEC, Que., July 28.—News received from Beauveville, in the county of Beauve, announces that the Dominion Gold Fields Co. is making first-class gold in the vicinity of this city.

Toronto Stock Exchange Curb. Beaver 100 100 100 100. Dome Ext. 100 100 100 100. Crown Res. 100 100 100 100.

Standard Stock Exchange. Apex 100 100 100 100. Beaver 100 100 100 100. Cobalt Lake 100 100 100 100.

MR. NORDHEIMER BETTER. Samuel Nordheimer, who met with an accident at the corner of King and Yonge-streets on Thursday, about 6 p.m., was not so seriously injured at first thought.

BEAVER CONSOLIDATED. GIBROUX CONSOLIDATED. MCRINLEY-DARRAGH. NIPISSING. NEVADA VTAH. TONOPAH BELMONT. And of other camps.

Geo. W. Blakie & Co. Members Toronto Stock Exchange. BUY AND SELL All Porcupine Shares.

HOLLINGER EXTENSION MINES LIMITED

(Incorporated under the Laws of the State of New Jersey) AUTHORIZED CAPITAL \$1,500,000 TREASURY 500,000

DIRECTORATE EDWIN A. BENSON, Mechanical Superintendent Pullman Car Company, Chicago. FREDERICK L. SIMMONS, Second Assistant Auditor Pullman Car Company, Chicago.

The Company is organized to take control of the claim immediately adjoining the Hollinger Mine on the north. This claim is known to contain the extension of at least one of the Hollinger veins.

Full information will be furnished by W. MURRAY ALEXANDER, or USSHNER, STRATHY & CO., 46 King Street W., TORONTO.

PRICE OF SILVER. Bar silver in London, 214d oz. Bar silver in New York, 80c oz. Mexican dollars, 50c.

Closing Quotations. Cobalts—Bailey 4 47 4 47. Beaver 170 167 200 166. Buffalo 124 124 125 124.

WATCH ELDORADO. Our advice from Porcupine report that active development operations will be resumed at once. Two shafts are going down on a splendid vein, which is widening and is already six feet in width.

A. J. BARR & CO. Members Standard Stock and Mining Exchange. 43 Scott Street, Toronto.

 - (7) Men's Boots, Blucher, solid and strong; heavy sole; sizes 5½ to 11. Monday 1.98
- Phone orders filled.

August in the Simpson Store

In the course of a few days, two important sales will be launched at the Simpson Store—two in which the people of Toronto have always taken a great interest.

The first is the AUGUST FURNITURE SALE. Since our close alliance with the best Canadian factories was made, no Toronto store has been able to offer better values in Furniture. Now, after months of preparation, we have brought together a stock of clean, dependable Furniture, that will be a revelation to our Fifth Floor visitors, and we have marked it at prices that will stand any comparisons they care to make.

The AUGUST HOSIERY SALE is the second event of importance for the month. We are now clearing what our buyer says will be the most attractive Hosiery values European mills have ever contributed, and that is saying a great deal, in view of the good sales we have held in the past.

In addition to these August Sales, the month will be made particularly interesting to the discriminating women of Toronto by new importations of SILKS and DRESS GOODS. What is undoubtedly the finest showing that this, Canada's premier department of Silks and Dress Goods, has ever made will be ready for your inspection next week. Women will do well to secure novelties that appeal to them at an early date, even if they have to put them aside till styles are definitely settled.

A visit to the Simpson Store early in the week will give you a foretaste of good things to come.

The **SIMPSON** Company Limited
