GERMANY NEGOTIATING FOR CLOSER TRADE WITH CANADA

Trade Arrangement of Far-Reaching Importance May Be Outcome of Overtures From Kaiser's Country—Would Open Big Market For Canadian Foodstuffs.

OTTAWA, March 28.—(Special).—The most important proposal for the changing of Canada's trade relations with foreign countries since the United States' reciprocity agreement, has just come from Germany.

Germany wants closer trade relations with the Dominion of Canada, and your correspondent can state authoritatively that overtures have been made to the Borden Government on behalf of the fatherland by Dr. Karl Lang, imperial German consul for Canada, with headquarters in Montreal. During the past few weeks Dr. Lang has made no less than three visits to Ottawa on this mission, and has called on Premier Borden, and interviewed a number of the cabinet ministers as well as many of the members.

Altho the surtax against Canada has been removed, the maximum tariff is still in force against the Dominion. In a word, Dr. Lang proposes that Canada be placed on the minimum tariff schedule, on the understanding that concessions be made to Germany. Coming from a protectionist country, Dr. Lang appreciates the fact that Canada must protect its manufacturing interests, but he claims that there are hundreds of articles which Canada does not manufacture at all, or very little, which could be placed on a low tariff basis.

Market for Natural Products. He points out that there is a wonderful opportunity for Canada's agricultural products on the German market, as last year they imported no less than \$500,000,000 worth. Canada now practically supplies none of this. The total exports to Germany were only a little over two millions. The imports of wheat alone into Germany reach one hundred million dollars a year.

At the present time, Great Britain and all her other colonies are on the minimum tariff list, so that the concession Germany proposes would only

MR. MILLER IS ELUSIVE

But Parliament Will See That He Explains Peculiar Transactions.

OTTAWA, March 28.—(Special).—An unlooked-for development has occurred in the enquiry of the public accounts committee concerning payments made to the Dominion Light and Heating Company of Montreal for light fixtures furnished to the marine department.

R. C. Miller, one of the chief witnesses and former president of the company, failed yesterday to appear before the committee and instructions have been given to the authorities in Montreal to find him.

It has come to the knowledge of the committee that the telegram calling him to appear before the committee, and the registered letter sent afterwards, have been delivered to him.

If Mr. Miller does not appear before the committee at its next sitting on Saturday morning he will be arrested and brought forcibly before that body by order of the Dominion Parliament.

The enquiry was brought up in the first case by the statements of Mr. Miller, that he had to pay heavy commissions to obtain government orders.

Hon. Richard McBride, who again has won a sweeping victory in British Columbia.

WOMEN'S VOTES REJECTED BY COMMONS

British Parliament, Which Formerly Was Willing to Concede Franchise to Million Woman, Reverses Attitude Because of Window-Smashing Tactics.

LONDON, March 28.—(Can. Press).—By a vote of 222 to 208 the house of commons to-night rejected the conciliation bill, which was before the house on its second reading. This measure aimed at conferring the right to vote upon every woman possessed of the household qualification and would enfranchise 1,000,000 women.

The announcement of the result was received with deafening cheers. Last year a similar bill, introduced by Sir George Kemp, passed the second reading stage by a vote of 255 to 88 on a non-party division and was referred to a committee of the whole house, making no further progress. The astounding reversal in the views of the members which has since taken place is attributed to the strong resentment aroused by the window-smashing tactics of the militant suffragists.

The bill is a private measure, not backed by the government, and in recording their votes the members were not restrained by party considerations. Cabinet Was Split.

The debate presented the novel spectacle of members of the cabinet taking opposite sides. The prime minister strongly opposed the bill on the ground that there was no evidence that it was desired by a majority of either the men or the women of the country, and in his opinion the proposed change would be injurious to the best interests of women and fraught with the gravest consequences to future good government.

Sir Edward Grey, the foreign secretary, on the other hand, gave it his opinion that the enfranchisement of women would neither injure the state nor the home, but would benefit both, as had been proved in all countries where it had been tried.

Crowds of suffragettes were awaiting the result of the vote outside the house and strong forces of police were held in readiness for emergencies.

No Nationalists in Favor. Altho there is no doubt that resentment over the window-smashing resulted in the transfer of many votes which otherwise would have been given in favor of the conciliation bill, an analysis of the voting shows that its defeat in the final instance was directly due to the attitude of the Nationalists, not one of whom voted in its favor. Forty-one of the Nationalists voted against the bill and ten abstained from voting.

McBRIDE SWEEPS B. C. ON RAILWAY POLICY

Returns Indicate That Meagre Opposition Has Been Wiped Out Altogether—Only Few Ridings Remain to be Heard From.

VANCOUVER, B. C., March 28.—Premier "Dick" McBride has swept British Columbia again. Just from complete the Conservative victory is cannot be determined to-night, but the returns received indicate that the opposition, which at dissolution consisted of one Liberal and two Socialists in a house of 42 seats, will be wiped out. All seats thus far heard from have gone Conservative on McBride's popular railway policy.

In Vancouver the five Conservatives lead by 1000. The year W. J. Bowser, A. H. B. MacCowan, Dr. M. A. McGuire, Harry Watson and C. E. Tisdale.

In New Westminster final returns give Gifford, Conservative, 1010, and Kennedy, Liberal, 385.

Others elected:
Nelson—McLean, Con., 528; Wright, Ind., 196; Harrod, Socialist, 177.
Rossland—Campbell, Con., 338; Taylor, Lib., 168; Casey, Socialist, 96.

AN AWFUL MISTAKE

FARMER BORDEN: Here, by jing, I be'n sellin' eggs for \$4,000,000 to Uncle Sam when I should have put 'em under the hen and raised chicks that would have been worth \$46,000,000 to me.

CHILDREN STOLE MORE THAN \$100

Eighteen Youngsters Picked Pockets, Snatched Purses and Robbed a Drunken Man.

In connection with the juvenile court school teachers are sometimes the detectives who gather in the grist for the mill. Yesterday there were 18 children before Commissioner Starr to answer charges of what would be termed picking pockets, purse-snatching and highway robbery among adult offenders. The charges involved the theft of over \$100 and the pocket-picking and purse-snatching were all done in the Eaton store Saturday last. The highway robbery occurred before a moving picture theatre near the big store.

Two of the youngsters had escorted an intoxicated adult into a side street and there each had relieved him of a five-dollar bill which was sticking out of his pocket. In the purse-snatching, one woman lost \$28 and another \$24; others lost \$18, \$15 and \$14, respectively. The thefts were discovered when a boy attending the public school pulled out a bunch of money when looking for a pencil. The teacher saw it and called up Commissioner Starr. The result was a corral of the 18 kids. They acknowledged the thefts and all but three were put upon a daily probation with the promise that they would help the kids' judge from looking sly by living up to their promise of reformation. The other three were committed to the Children's Shelter pending a further investigation.

GET BUSY, OH YOU ALDERMEN!

The city council in its wisdom, perhaps in its lack of information, saw fit the other day to refuse to the mayor the power to employ a traffic expert to advise Toronto how to deal with her local street railway problems, including tunnels and the entrance of radials—in fact, with any question dealing with passenger service, local or general. We believe if the matter had been fully explained to the council, authority would have been given. Why the case was not better presented to the council we do not know. We prefer, however, to say that it was a case of lack of information rather than any disposition to play the game of the traction interests. But The World wishes to tell the city council that the local traction problem is one of the most important before the city, and that it cannot be handled thru other than experts. We are now spending a lot of money in a municipal system of surface lines in the outlying sections of the city, and these outlying lines must be connected up—perhaps by a tunnel. We have also to find means for the entrance of the various radials. We are also asking for legislation up at the Queen's Park in regard to radials and surface lines and our representations have largely failed because we had no expert evidence to offer. As a consequence the city has been thrown out of court three or four times this session already.

In the meantime, however, somebody connected with the radials is about to start to bore a tunnel under Toronto, presumably for the entrance of radials, but substantially it will be an underground street railway system, and it will be in operation, if we do not secure advice, before the city can do anything or before the city will recover its charter 10 years hence.

If Mayor Geary is in earnest in regard to the traffic expert, and if our chief counsel, Mr. Drayton, is in earnest in asking for a traffic expert, and if the council does not comply with such a request, we would advise these gentlemen to resign office and to put the responsibility on the council. We prefer, however, as we said before, to believe it was thru lack of information that the request was denied. The city gets nearly one million dollars a year from the street railway in percentages from the street car system, and it can well afford to spend one hundred and fifty thousand dollars for expert advice. Let the mayor and Mr. Drayton present their case again at the next meeting of the council; in the meantime, let the members of the city council and the board of trade read the information in last night's Star that a company controlling a radial franchise proposes to bore under the city. The city will wake up some morning and find that there is not only a tunnel under and across the city, but one also will be bored near Yonge-st., running north and south. Whoever owns these tunnels will be ready to take over the traction business of Toronto before the present franchise expires, and to hold it for themselves forever—the city will have lost its most valuable asset, because of municipal indifference.

May Adjourn on Saturday

OTTAWA, March 28.—(Special).—If it is possible now that parliament may adjourn by Saturday night. Splendid progress is being made in the house, and only a few bills remain to be disposed of. The senate, by dint of working morning, noon and night, have succeeded in catching up with the commons, and this afternoon, with the passing of the Grain Act, cleared their slate, and are waiting for more bills from the house.

Fernie—Rosa (Con.).
Comox—M. Malson (Con.).
Cowichan—W. H. Hayward (Con.).
Delta—A. J. Mackenzie (Con.).
Dewdney—W. J. Manson (Con.).
Greenwood—J. R. Jackson (Con.).
Islands—A. E. McPhillips (Con.).
Kamloops—J. P. Shaw (Con.).
Lillooet—A. Macdonald (Con.).
Saanich—B. M. Eberts (Con.).
Slocan—Wm. Hunter (Con.).
Ymir—J. R. Schofield (Con.).

VANCOUVER, B. C., March 28.—(Later.)—With news from Columbia. Esquimalt and Newcastle yet to hear from. Conservatives are elected in all other ridings. Pooley, a Conservative, is leading in Esquimalt. No Liberal has apparently been elected anywhere.

CONDITIONS AT MIMICO NOT TO BE TOLERATED

SUPERINTENDENT MAY SOON RETIRE

Report on Mimico School Enquiry, It is Understood, Will Suggest That Many Radical Changes Be Made, Including Segregation of Feeble-minded and New Parole System.

Altho the report of the commission which was appointed to investigate the system of management of the Victoria Industrial School at Mimico, and specific charges of cruelty made by the mother of a boy who was confined there, has not been presented, it is understood by The World that it will be in the course of the next few days. It is understood also that one of the suggestions to be made is that Chesley Ferrier, the superintendent of the school, be allowed to retire. It will be suggested that all delinquent boys at the school be placed in separate cottages, with special attendants and treatment, so that they will not mingle with the other boys. A different system of parole may be proposed, and it is understood also, that Commissioner J. E. Starr of the Juvenile Court will be asked to take an interest in the school and the boys confined there.

R. C. Harris, who was a member of the commission, will go to New York State to look over some of the model industrial schools there, and from his inspection will, it is understood, make some radical suggestions as to the accommodation and treatment of boys sent to Mimico.

ITALIAN HELD AS A WITNESS

Man Who Answers Description of Ward Murderer is Detained for Identification.

Hoping to be able to locate the murderer of Mrs. Cooper, who was shot in front of her home at 180 Chestnut-st. on Monday night, the police are searching every house in the "Ward," where the least suspicion lies. Yesterday afternoon Detective Tipton came across an Italian, named Raffaele Verina, at 88 Louise-st., who answers the description given by the woman of the house, and who is being held as a material witness.

Verina had a thirty-two calibre revolver, the same size as the one which discharged the fatal bullet. A deadly looking stiletto was also found in the same house.

This morning the Berger woman will be brought from the jail to identify the man.

BAPTISTS WANT TO PAY TAXES

"Refuse to Take Money From the Coffers of the State," Says an Official.

Why are the Baptists opposed to the church union? Rev. John McIntosh says: "We believe in taxation of church property. The union does not."

"We refuse to take any money from the coffers of the state. The union does not."

"We are totally opposed to external courts of whatever nature, whether presbyteries, synods or conferences. We never will surrender the autonomy of the local church to these so-called higher courts."

"We do not believe in denominationalism, which means the creation of one big territorial church covering a whole nation."

"We don't believe in the church in Canada, but in the churches in Canada."

"The Baptists and church union are diametrically opposite as to subjects of baptism."

Hon. W. J. Hanna Recognizes Good Side of Mr. Ferrier, But Says That Nothing Can Justify Treatment and Physical Restraint of Boys As Was Brought Out at Recent Investigation.

"In this modern day, in these times, nothing can justify such treatment—such physical restraint of the inmates of the Victoria Industrial School, as was brought out in the investigation."

This was the statement of Hon. W. J. Hanna, provincial secretary, in the legislature last night in reference to the condition of affairs, the use of bracelets, shackles, manacles and bread and water diet, in Mimico Industrial School.

It was subsequent to a speech by Dr. Forbes Godfrey, who delivered many laudatory comments on the ability, character and humanitarianism of Supt. Ferrier, that the provincial secretary gave his views on the treatment of inmates in the institution.

"I agree with all that the member for West York has said regarding Mr. Ferrier as superintendent of Victoria Industrial School and principal of a Toronto school, and I agree with those responsible for the management of the school, who hold the superintendent in high regard, but I do not think the treatment of the inmates was judicious. Many great mistakes have been made by him, and I hope they will not be repeated."

A Deteriorating Effect. Dr. Godfrey introduced a bill respecting the restriction of probation, and, incidentally, mentioned conditions in the Mimico School. He had sincere sympathy with the officials of the institution. He deplored that there was no classification of the inmates because of some being more vicious than others. This had a deteriorating effect on those not very deficient mentally.

"I did not wish to mention Victoria Industrial School during the course of my remarks," said the member for West York, "but I think I should say something in regard to Supt. Ferrier, whom I have known intimately for 16 years."

"I have watched carefully his handling of the boys. I would be false to my duty as member for West York and physician for the Victoria Industrial School if I did not say something that would show you the character of the man at the head of affairs out there. Mr. Ferrier is a man the Industrial School Association cannot replace. It would be hard to find his equal in Ontario. Some of his actions may have been wrong, but I believe he has treated his charges fairly."

"I would like to make a statement to the hon. members of this house which is based on facts. It is in regard to this Spain boy, from whom the investigation arose. For two years he was learning the printing trade, but he went wrong thru evil companions. He lived in an impossible home. He came to the school and Mr. Ferrier treated him in a fatherly, kindly way. He ran away. When he returned he was told if he would stay a few months he would be liberated. But he slipped again and took with him a companion. He was brought back and admonished again."

Here Dr. Godfrey gave a clear demonstration on how to use a strap and clear idea as to what one looked at. This caused a ripple of laughter among the members. "This is the kind of a

Continued on Page 7, Column 1.

WHERE THE DOCTOR WILL BE!

All Etobicoke has its eyes on Doctor Godfrey, M.L.A., and the noble fight he is putting up in the legislature in support of joint public ownership of the Lake shore line in that township in the city. The doctor will be with voters and their rights every time as The Telegram will certainly find out. Watch the doctor make good!

THE FIRST MAPLE SYRUP.

The Donlands sugar maples were copiously dripping sap yesterday and the big evaporator in the boiling house was giving off syrup in the evening, by which time the pails and tanks were filled again; and the boiling will continue this morning. It promises a fine yield. Twelve gallons of sap will make one gallon of syrup. A good tree is good for a good quart.

The flavor of the maple as it comes off in vapor from the boiling pans, or in the fresh made syrup, is something absolutely distinct from anything else, and is as uniquely American as the birch canoe or the snowshoes of the Indian. Perhaps if you phone in an order Michie's will be able to keep you a bottle for delivery this evening or to-morrow. Mr. Jaff has ordered a bottle to express to his friend John down in Florida!

EASTER HATS.

It's all the talk of the town is Easter and Easter Hats for men and women, but principally men. The Dinesen Company are showing some of the newest designs by the world's best makers in stiff and soft felt and these are now on sale. Ask to see the new blocks by Henry Heath, maker to His Majesty the King, and by Dunlap of New York.

RICHARD CARLE AND SOME GIRLS

In "Jumping Jupiter," the most successful musical comedy, which will be at the Princess next week.

Day's Doings YORK COUNTY West Toronto North Toronto East Toronto

It appears as tho the York County Highways Commission were entering upon a year of unexampled diligence by contrast with the season of 1911, as the instructions now issued call for ten big gangs of men and the expenditure of large sums of money. This will be good news to the people along the line of travel and will serve in a large measure to allay the impatience aroused by the do-nothing policy of the past.

Edgar A. James, highway engineer, has had a busy winter supervising the preparation and placing of material, and so this fact is largely due to the forward condition of things generally in this connection.

In all there will be ten gangs busily employed and while the starting point of these has not yet been fully determined, some of them have been planned out by Mr. James and the commission as most likely to expedite the work in general.

One roller and outfit will begin operations at the Village of Unionville, heading toward Markham Village, and later Stouffville. Another will start at Concord, in Vaughan Township, and work toward Maple, while yet another will lay siege to the historic old Village of Woodbridge, with Kleinburg and the intervening district as the scene of their operations.

The decision of the commission to carry on the work simultaneously over the "good roads" area in York County will serve to keep everybody in good humor, remove all local jealousy, probably complete the whole of the work and, incidentally, expend all money appropriated, \$300,000 in all. This is, of course, taking into account the amount expended last year in preparatory work on the Kingston-road, Lake Shores, Davenport and other roads. A feature which will help to make the present improvement is the fact that a good deal of money will be distributed locally as the work progresses among the farmers and in the villages for team and manual labor, as well as in the purchase of gravel and stone where obtainable. A good deal of this had to be secured from outside points, shipped in and stored at the most convenient points.

NORTH TORONTO.

NORTH TORONTO, March 28.—(Special.)—The greatest enthusiasm was manifested at last night's meeting of the St. Clement's Cricket Club, Eglington. There was a good turnout and after the election of officers and the transaction of routine business, luncheon was served at the home of Mr. Macey, where the meeting was held. The officers elected are:

President—Rev. A. G. Fidler.
Vice-president—Rev. A. K. Griffin.
Hon. vice-presidents—H. Waddington, A. D. Radcliffe, F. Grundy, A. Worth, W. M. H. Norris.
Captain—C. Middleton.
Sub-captain—L. Manton.
Secretary—A. R. Lawson, 20 Erskine-avenue. Telephone Main 2511.

HELEN DARLING

And some of the Egyptian maids in "The Flirting Princess" at the Royal Alexandra next week.

HALF MILLION U.S. MINERS TO STRIKE

Hope of Signing New Agreements With Anthracite and Bituminous Workers Before Midnight Sunday Almost Abandoned — Conferences Will Be Resumed To-day.

CLEVELAND, O., March 28.—(Can. Press.)—Little prospect of settling the bituminous coal miners' wage dispute to prevent a strike next Monday and the shutting down of practically all mines operated by union men was seen by the operators and union officials to-day after they had conferred for hours and had failed to agree.

The lack of any steps toward an immediate settlement and the fact that only three more days intervene before both the anthracite and bituminous wage scales expire were said to make it almost certain that a widespread stoppage of coal production will begin next week for an uncertain period, and a strike involving about 500,000 men, may ensue.

The situation to-night was: The miners in the anthracite fields of Pennsylvania will quit Sunday midnight, because their agreements with the operators expire at that time, and no new agreement, even if it were being considered, could be put into effect in time to prevent the suspension. The union officials declare the suspension virtually will be a strike.

For Lack of Agreement. The contracts of the miners in the bituminous regions also expires on Sunday at midnight, they probably will suspend because they have no new agreement on which to continue.

Officials of the union assert if a strike in both classes of mines is called it will entail a loss of pay to the men of approximately \$1,000,000 a day.

A conference, held in the hope that a strike, or even a suspension in the bituminous mines, might avert, was without result up to to-night. The operators and miners of Western Pennsylvania, Ohio, Indiana and Illinois, who are trying to fix a wage and working scale, not only for their own districts, but also as the basis for all other unionized bituminous districts, then adjourned until 9 o'clock to-morrow morning.

Great Government Irrigation Dams. On Shoshone River, in Wyoming, a tributary of the Bighorn, which in turn is tributary to the Yellowstone, is located the Shoshone Dam, the highest structure of its kind in the world, 228 feet from foundation to capstone.

This structure was erected by the government to impound water for irrigation on the arid lands in the valley of the Shoshone River below.

Another great structure of a similar kind is located on North Platte River, in Wyoming, which joins the Missouri River near Omaha, Neb. This is known as the Pathfinder Dam, and was also erected by the government to impound water for use in the irrigation of lands in Wyoming and Nebraska.

Another notable engineering structure in the drainage basin of the Missouri River is the Belle Fourche Dam, erected across the river of the same name in South Dakota by the government to impound water for irrigation.

This dam is an earth embankment, 155 feet high and one and one-fifth miles long, containing 1,600,000 cubic yards of earth fill. This is the largest earth dam in existence.

Cancel Delivery of Cars. NEW HAVEN, Conn., March 28.—(Can. Press.)—Notice is being served on the New York, New Haven and Hartford Railroad Co. and other New England roads by coal carrying lines west of the Hudson River to discontinue the fuel delivery of empty cars to be taken to the mines for coal. The reason assigned by the coal carrying roads for this action is in anticipation of a strike in the mines after March 30.

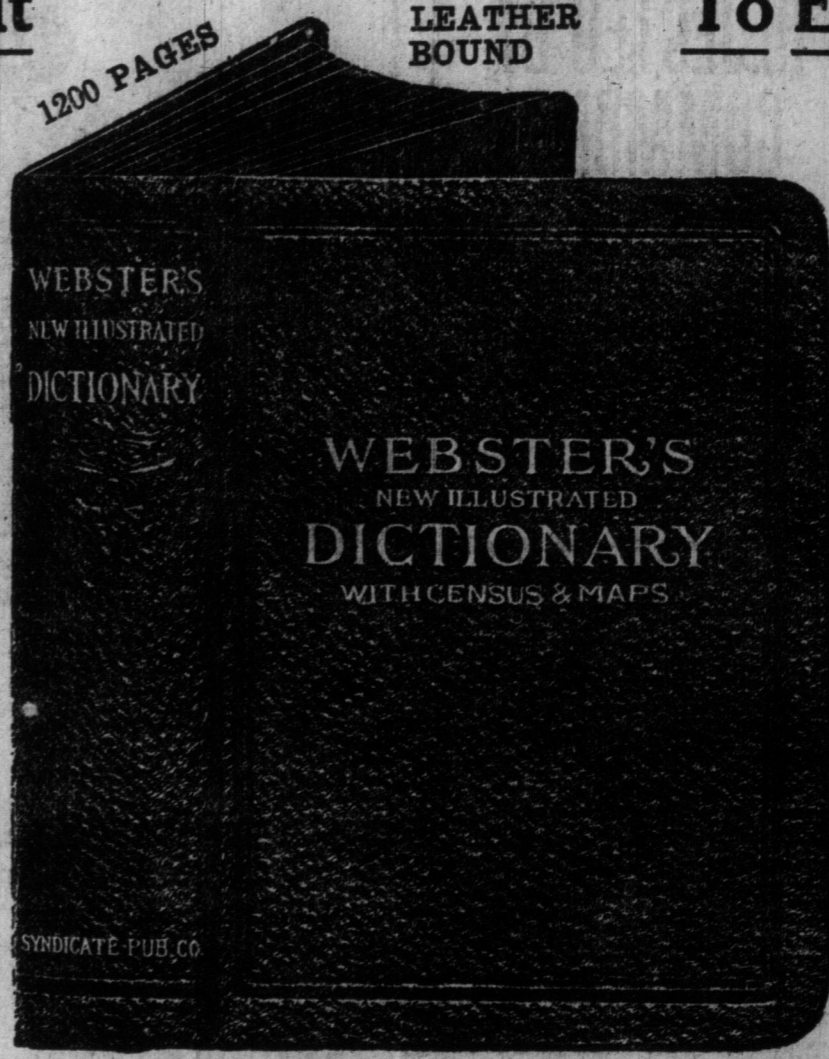

Storing Up Coal. READING, Pa., March 28.—(Can. Press.)—The Reading Railway Company, which carries the largest tonnage of anthracite in the hard coal regions, is sidetracking the fuel at various points between the mines and the water. The big storage yard at Port Richmond, Pa., is stocked to the limit of its capacity. From now until Saturday night, when the suspension is expected to take place, the greater portion of the coal mined will be held in the cars.

OSHAWA IS GROWING
Industrial Side of Growing Town is Shown in The Sunday World.

The phenomenal interest that is being manifested in regard to the industrial expansion of the Town of Oshawa is pretty safe evidence that things are booming in that burg. Toronto will have to look to its laurels as the premier manufacturing city on Lake Ontario if Oshawa continues to progress as it has done. In this issue of The Sunday World there appears a picture page representative of the coming city. These pictures largely represent the industrial side of Oshawa, and will convey to the onlooker better than columns of printed matter the magnitude of the leading industries located there. Extra copies of the Sunday World can be secured in Oshawa thru The World agents, Messrs. Henderson Bros. and T. E. Hallett.

OUR PRESENTATION OF A \$4.00 DICTIONARY

You Need It Everybody Needs It To Every Reader of the World

The One Who Knows is the One Who Wins

A Satisfying Dictionary, Up-to-date, a Condensed Encyclopedia.

Magnificently and Completely illustrated with Monotones, Commercial Charts and Colored Plates which cost thousands of dollars.

No other Similar Dictionary ever printed contains such a wealth of new ideas, or so many valuable aids to a thorough mastery of the English Language.

Requires that You simply CUT OUT and Present Six Coupons printed elsewhere (daily), clipped on consecutive days, and the expense bonus amount here set opposite any style selected (which covers the items of the cost of the packing, express from factory, checking, clerk hire and other necessary expense items).

And Receive Your Choice of the Three Books

The \$4.00 WEBSTER'S New Illustrated DICTIONARY (like illustration) is bound in full limp leather, flexible, stamped in gold on back and sides, printed on Bible paper, with red edges and corners rounded; beautiful, strong, durable. Besides the general contents, as described elsewhere, there are over 600 subjects beautifully illustrated by 3-color plates, nearly 50 subjects by monotones, and 16 pages of valuable charts in two colors, and the 1911 Canadian Census. Six consecutive coupons and the **98c**

The \$3.00 WEBSTER'S New Illustrated DICTIONARY is exactly the same as the \$4.00 book, except in the style of binding— which is in half leather with olive edges and square corners. Six consecutive dictionary coupons and the **81c**

The \$2.00 WEBSTER'S New Illustrated DICTIONARY is in plain cloth binding, stamped in gold and black; same paper, same illustrations, but has all colored plates and charts omitted. Six consecutive Dictionary coupons and the **48c**

Any Book by Mail 22c extra for Postage

Description of Webster's New Illustrated Dictionary With 1911 Canadian Census

This most convenient and latest of all Dictionaries is based on Noah Webster's Dictionary, revised and brought up to date by the most recent American and English authorities, designed to meet every demand of a modern and reliable Dictionary.

It includes all words in the English language that do not properly belong to a Dictionary of Technical Terms. In fact, its recent publication and careful revision enable it to define and treat a large number of words of recent coinage that cannot be found in any other Dictionary, no matter how cumbersome and pretentious.

Surprising results are obtained in looking up the spelling, pronunciation and definition of a host of words which have been incorporated into our language only yesterday, as it were. Take, for instance: Aero, Aeroplanist, Aviator, Aviator, Biplane, etc., introduced as a result of recent aeronautical activity—also such new words as: Brainstorm, Billiken, Cordite, De-natured, Dummie, Joy Ride, etc.—also Okapi, an animal allied to the Giraffe, and brought into prominence through Ex-President Roosevelt's explorations in Africa—also Hookworm, Lettergram, Nickelodeon, Stovaine, Hangar, Equilibrator, etc.

Thus the evidences of painstaking revision are found on every hand.

NEWS BULLETIN.

Sent Out By the Central China Famine Relief Committee, Shanghai, China, Feb. 13, 1912.

China Making Progress in Altruism. One of the most encouraging things about the work of famine relief in China is the change in the attitude of the people themselves. Ten or fifteen years ago the officials actually opposed the work of relief, and put all sorts of difficulties in the way of those who were carrying on the work. There have been many cases of those who were utterly indifferent to the sufferings of the people, and who cared only for their own profit.

At present, conditions are far from ideal, but the progress made has been tremendous. Now, there are many officials who take an active part in famine relief, and large numbers of the local gentry take a real interest in the welfare of their people.

Best of all is the attitude of the new government. The day seems to have come when the Government will take upon itself the responsibility for the relief, and final prevention of famine.

Meanwhile help is needed this year. No matter how much the government is able to do, there will still be need for all the money that America can give. Contributions may be sent thru any bank to the International Banking Corporation, New York or San Francisco, which will cable them to the treasurer of the Central China Famine Relief Committee in Shanghai.

The representative of Authors & Cox of Toronto, makers of Artificial Limbs, Trusses, Deformity Appliances and Supporters, will be in our city at Room 52, Hotel Cecil, to-morrow.

Views of Berlin

To those who have never visited the thriving City of Berlin, Canada, a glance at some views in this week's issue of The Sunday World will be convincing that it is a manufacturing city as well as a live distributing centre for the surrounding country.

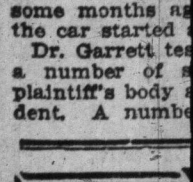

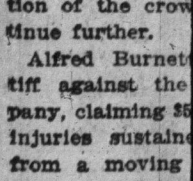

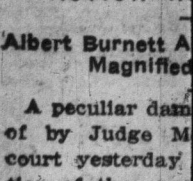

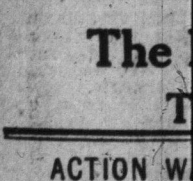

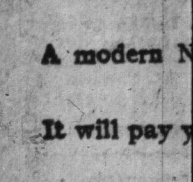

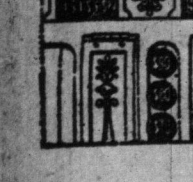

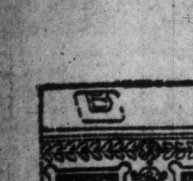

GERTRUDE HAYES With Barney Gerrard's "Follies of the Day" (1912 model), at the Star next week.

GEORGE HANLON, JR. As "Pico" in the spectacular production of "Fantasma" at the Grand all next week.

FIVE Cash Mercha

CASH

FIVE PARTS of a National Cash Register which benefit Merchants.

The Indicators

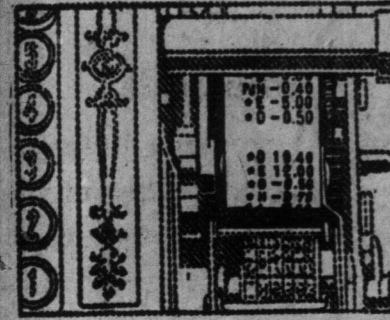

When a sale is recorded a bell rings. This draws the attention of everyone to the amount which the figures at the top of the register show. The publicity of each record helps enforce the correct handling of your money and accounts.

The Adding Counters

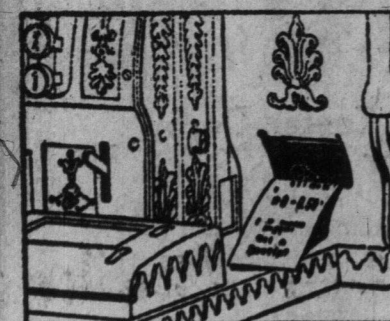

The same amount, which the indicators show, is added on total-adding wheels inside the register. This added record enables you to prevent losses.

The Sales-Strip

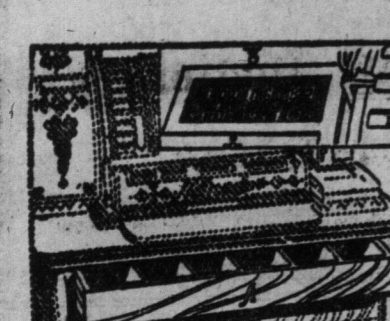

The register prints on the sales-strip the same figures which the indicators show. From it you can know every transaction occurring in your store regardless of where you may be. This printed record enables you to settle disputes and trace sales.

The Printed Receipt

This printed receipt, showing the amount of sale, goes to the customer when the sale is recorded. The receipt, in connection with the added and printed records, enables you to get all your money, therefore all your profits.

Clerks' Individual Counters and Cash Drawers

The individual counters tell how much each clerk sells. In connection with the separate cash drawers, they make each clerk responsible for his own transactions. You can judge the value of each clerk in your employ, because you have accurate records to measure each one's ability, honesty, accuracy and industry.

A modern National Cash Register is easy to operate, does so much and costs so little.

It will pay you to investigate how a National will benefit your business. Send for booklet.

The National Cash Register Co.
Toronto Office, 285 Yonge St.

ACTION WAS DISMISSED

Albert Burnett Admitted That He Had Magnified His Injuries.

A peculiar damage case was disposed of by Judge Morgan in the county court yesterday which at the discretion of the crown attorney may continue further.

Alfred Burnett appeared as plaintiff against the street railway company, claiming \$500 damages for alleged injuries sustained by being thrown from a moving car on College-street some months ago. Burnett said that the car started as he was boarding it. Dr. Garrett testified to the finding of a number of severe bruises on the plaintiff's body as a result of the accident. A number of other physicians testified in rebuttal that the man was in no way seriously injured.

Under cross-examination Burnett gradually admitted that he had magnified his own hurts unnecessarily, whereupon the trial judge took the case from the jury and dismissed the action.

ELECTRICAL HAZARDS.

"A Talk on Electrical Hazards" was the subject of Inspector Estico's of the Canadian Underwriters at a meeting of the Insurance Institute at McConkey's last night.

Doc Miller will hold down right field for the Boston Pilgrims. Miller is a Canadian and a full fledged medical doctor, a graduate of Toronto University.

Joe Tinker, of the Cubs, is furnished with a motor in each of the cities on the plaintiff's body as a result of the accident. A number of other physicians testified in rebuttal that the man was in no way seriously injured.

GOVERNMENT NOT READY TO ADOPT MARRIAGE ACT

Dr. Forbes Godfrey's Bill Aiming at Prevention of Marrying Idiots Was Withdrawn Last Night at Request of Provincial Secretary—Much Important Legislation was Ground Out Yesterday.

Two physicians occupied the spotlight in the legislature last night. Dr. Forbes Godfrey, West York, introduced two bills aimed at the prevention of the marriage of idiots and imbeciles and had a noble supporter in Dr. McQueen, Liberal member for North Westworth. Both stated they would vote in favour together with the proposed legislation. They fell.

Hon. W. J. Hanna and Sir James Whitney were present in the presentation of bouquets to the physician members, but the provincial secretary explained that such legislation would not possibly be adopted this session. The government was not in readiness to adopt the measures provided in the bills. Dr. Godfrey and his supporters withdrew both bills.

His amendment to the Marriage Act was intended to prevent insane persons from marrying and to compel the issue of a license to secure a certificate from a qualified physician as to the sanity of the parties. He also believed that tuberculars was a further ground for the act should be amended in such a way as to prevent tuberculars people marrying. Another good thing to amend so much breeding of insanity was to compel three weeks residence by the parties in the municipality where the license was applied for.

A Commendable Feature. There was one commendable feature in connection with the Marriage Act in Toronto. This was the fact that a contract of marriage was practically indissoluble. "There is a great necessity in the law," that is, when anyone has enough money to buy a license a person is always ready to do the deed. During the past three years there had been 1624 marriages and 1719 divorces. The number of marriages was 1719 and the number of divorces was 1624. The number of marriages was 1719 and the number of divorces was 1624.

Hon. Mr. Hanna spoke of the seriousness of the problem facing the government. He agreed with a proposal making it necessary for the contracting parties to live three weeks in the municipality where the license was applied for prior to its issuance. In his second bill, designed to prevent procreation of idiots and insane persons, Dr. Godfrey provided for showing that insanity in the province was on the increase. During the past three years there had been 1624 marriages and 1719 divorces. The number of marriages was 1719 and the number of divorces was 1624.

W. Proudfoot, Centre Huron, had great praise for the capacity of the Ontario Railway Board and its unreserved appreciation in proposing the second reading of his bill to place the construction of bridges under the supervision of that body. But, on the request of Hon. Dr. Reaume, he withdrew his bill.

Mr. Proudfoot proposed to amend the Municipal Act and thereby better the construction of bridges within the province. His bill provided for a highway or railway bridge with a greater span than 20 feet, erected by a municipal corporation, and the supervision of the board. Many bridges were constructed and torn down, thus entailing a considerable expense. He always found the Ontario Railway Board a very good business institution, despite opposition to the contrary. The board was thoroughly competent and capable, and he believed that there was no justification for the attack upon it.

Hon. Dr. Reaume said that to place the construction of bridges under the supervision of the board would detract from the authority of the public works department. He agreed with Mr. Proudfoot that the board was useful, had done good work, but the original idea in creating it was more for judicial purposes than for administrative power. The bill was withdrawn.

Didn't Go Thru. The bill to regulate the death of tires on wagons and other vehicles, introduced by A. M. Rankin, Frontenac, side-tracked thru the efforts of the government to act immediately. There had been many complaints about the narrow widths of tires causing considerable damage to roads. A convention had adopted resolutions to the effect that there should be a quick remedy to the present state of affairs.

Hon. W. J. Hanna declared that the bill should not be given its second reading, because it had been introduced too late in the session. And those affected by the proposed legislation wanted to state their views. The bill was presented to the house, and already manufacturers and dealers were petitioning to have their bill withdrawn until next session. Mr. Rankin acquiesced.

Inspectors Get Raise. That public school inspectors will receive an increase of remuneration from \$2000 to \$2500 per annum was the gist of an amendment to the Public School Act. The raise of salary will run over three years with an additional \$100 each year. The bill, which was introduced by Hon. Dr. Pyne, also provided for vacation schools during the summer if school boards desire to establish them.

Makes Law Clear. Hon. W. H. Hearst presented a bill to amend the Land Titles Act, affecting owners of mineral lands. Under an Act passed in 1908 minerals reserved to the crown under patent, therefore granted for farm lands, were released, so that the settler became the owner of the minerals. In some cases, as well as the surface, in some cases these lands had changed hands, subsequently to the date of the original passing of the Act. The bill provides that the owners of the minerals must be registered under the provisions of the Land Titles Act. It only relates to lands registered under that Act, and is for the purpose of making the duties of local masters of titles clear.

Toll Gates Disgrace. It is a perfect disgrace that we should have toll roads in the Province of Ontario," declared Sam Clarke, West Northumberland, when the bill of Hon. Dr. Reaume respecting them was being considered in committee. The minister of public works was asked by Mr. Clarke as to the number of toll gates in the province, to which he replied that he couldn't give a definite number, but there were only a few. "They should be stamped out," quoth Mr. Clarke.

W. K. McNaught's bill with respect to cities with more than one street railway giving the company the running rights over the other lines, was given its second reading. It is provided in the bill that if the two corporations are unable to agree as to the nature of the facilities and the interchange of traffic to be afforded the matter should be determined by the railway board. The bill goes to the railway committee for further consideration.

People Have the Say. Hereafter no telephone company, Bell or independent will be able to get an exclusive franchise without the consent of the people. This is the effect of a bill introduced by Hon. J. B. Lucas, which was considered in committee. The proposed legislation had been before the house for some considerable time, but the acting provincial treasurer brought out an amendment regarding "exclusive franchises" yesterday. One purpose of the bill is to prevent the nature of the contract being entered into by the company and the municipality. A franchise may be granted with the approval of the municipal board, but it shall not be exclusive unless endorsed by the voters.

ROWELL POLICY ENDORSED BY WOMEN

Toronto District W. C. T. U. Passed a Resolution Complimenting Opposition Leader on His Courageous Stand—Demand for Domestic Help Exceeds the Supply.

Great enthusiasm over Mr. Rowell's "banish the bar" plank was expressed at the Toronto District W. C. T. U. meeting yesterday. The following resolution was adopted unanimously:

"The Toronto District W. C. T. U. strongly commends the courageous stand taken by Mr. N. W. Rowell in bringing forward a policy which, in our opinion, means an advance step in the temperance cause. This organization has always stood for the total prohibition of the liquor traffic, but no argument can be advanced as a plea for the open bar. It is an evil, ever and always, and any legislation that will abolish it will be endorsed by all white-ribboners."

Especially do we commend the removal of the matter of law enforcement from political influence, as the laxity of local officials is conceded to be one of the greatest existing weaknesses.

"The regulation and inspection of all houses of entertainment is in our opinion a necessity to safeguard not only the comfort but also the moral welfare of the general public."

"We ever stand ready to give not only our endorsement, but our pledged support to any party that will further our aims. We know neither sex, creed, nor political party in the furtherance of the foregoing ends."

Mrs. Ward, district president, was in the chair. The meeting was a thoroughly representative one of the 28 unions of the city. The morning session was devoted to the reception of reports.

Demand for Help. Mrs. Worrall, superintendent of the home, 618 and 620 Ontario-st., stated that the demand for domestic help always exceeded the supply. The home was always open to respectable girls. Miss Roberts, travelers aid department at the Union Station, reported that she had assisted over 200 persons this month, and is always ready to assist strangers and other travelers at the station requiring help.

At the afternoon session Dr. Margaret Fattersworth gave an address on the needs of mothers and teachers educating children on moral lines.

The organization of three new W. C. T. U.'s this month was reported, making the total 28.

It was decided to co-operate in the organization of a union at the Humber. It is expected that the Willard Hall on Gerrard-st. will be completed by Oct. 1. The furnishing committee expects to have it furnished by that date.

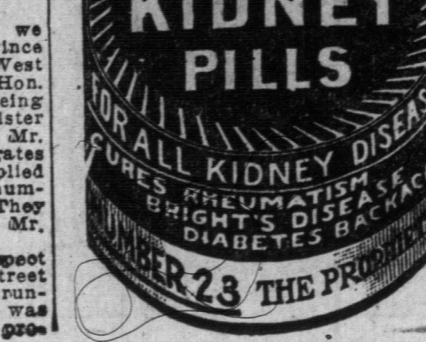

Pay 50c. and Own An Organ. Any one who will pay the old firm of Heintzman & Co., Ltd., 193-195-197 Yonge-street, fifty cents a week may obtain an organ of leading manufacturer in first-class condition, and at a price from one-half to one-third the original charge. These organs are marked at from \$15 to \$65 each.

Partially Opened Door. The Canadian products admissible into Germany at conventional tariff rates are restricted to those mentioned in the schedule attached to the temporary convention of 1910 and consist of animals, calcium carbide, fish, fruits (fresh) at certain seasons, grain, meal of grain (excepting oatmeal), leather, leatherwares, meats, condensed milk, paper and materials for paper, grass and clover seeds, wood, spirits (wood spirits only). It will be seen therefore, that there is a great range of Canadian products not entitled to entry into Germany at conventional tariff rates, including practically all manufactures.

Germany's trade with Canada immediately increased after the abolition of Canada's sursur.

A Balance of Trade. In the year ended March 31, 1911, Canada imported from Germany goods valued at \$10,987,199, an increase of \$2,100,000 over the previous year and of four millions over the year before that when the sursur was in force.

Canada got a very small increase of export trade with Germany under the new arrangement, however, our exports to Germany in the year ended March 31, 1911, being only \$2,663,017, an increase of only \$162,000 over the previous year.

CAN'T ROB PUBLIC TO RAISE WAGES

Chairman of Interstate Commerce Commission Replies to Claim of Locomotive Engineers.

PITTSBURGH, March 28.—(Can. Press).—Six hundred railroad officials from the principal transportation centres of the country, attended the annual dinner of the Traffic Club of Pittsburgh here tonight. The principal address of the evening was made by Charles A. Froudy, chairman of the Interstate Commerce Commission, who in discussing the relation of the commission to the railroads and the public said:

"Suppose organized railway labor makes a further demand for increased wages and that the railways accede to this demand. The railroad commission for leave to advance its rates on this account. What now is to be the answer of the commission? If this increase in wages is unjustifiable, and if on that account an increase in rate is allowed, it results that the general public, including all other forms of labor, is required to pay what is unjust and unreasonable. Must the government not therefore be satisfied, not only that the added wages are paid by the railroads, but that they are necessary and properly paid?"

The speaker expressed the opinion that it should be impossible for a strike to be declared by organized labor upon any inter-state railroad until the question had been submitted to arbitration.

Railroads Make Denial. NEW YORK, March 28.—(Can. Press).—The conference committee of the managers of fifty eastern railroads issued a statement tonight denying that their refusal to grant the demands of their locomotive engineers for an increase in wages was due to the inability of the roads to obtain an advance in freight rates.

The statement followed a declaration of Warren Stone, grand chief of the Brotherhood of Locomotive Engineers, published today, attributing to the roads that reason for their position in the wage controversy, and stating that "the public needs an object lesson to convince them that the roads are entitled to more pay for the freight they carry."

Germany Negotiating. Continued From Page 1.

Place Canada on the same basis as the rest of the empire. It is understood that no definite answer has yet been given to the proposals, which are under consideration and whose importance is not disguised.

Trade Relations With Germany. The Canadian Government imposed a surtax of 8 to 15 per cent upon imports from Germany on Nov. 28, 1903. This remained in force until March 1, 1910, when it was rescinded by an order in council as a result of negotiations carried on between Dr. Karl Lang, Imperial German consul for Canada, and the Hon. W. M. F. Leitch, minister of finance.

The convention by which the agreement to rescind the surtax was effected contains these clauses:

(1) "This agreement is a provisional one, and the question of a general convention for the regulation of commercial relations between Germany and Canada shall be deferred for consideration at a time that may be found mutually convenient."

After a reasonable time, a commercial convention such as is contemplated by the next preceding clause has not been entered into, then either of the principals herein represented may, at its option, terminate, terminate or cancel the respective concessions granted in pursuance hereof on giving to the other two months' notice of intention so to terminate or cancel."

A Quid Pro Quo. By terms of this convention, Germany granted to certain Canadian products admission into Germany at the conventional tariff rates of duty, on condition that the removal of Canada's sursur upon German goods. The situation created by the signing of the convention continues to exist, no subsequent commercial convention, such as is contemplated by and referred to in the provisional convention having been entered into. There was some talk at the last session of the last parliament of negotiations being attempted with such an end in view, but the dissolution of parliament and the change in government stopped such negotiations which Germany now desires to resume.

Partially Opened Door. The Canadian products admissible into Germany at conventional tariff rates are restricted to those mentioned in the schedule attached to the temporary convention of 1910 and consist of animals, calcium carbide, fish, fruits (fresh) at certain seasons, grain, meal of grain (excepting oatmeal), leather, leatherwares, meats, condensed milk, paper and materials for paper, grass and clover seeds, wood, spirits (wood spirits only). It will be seen therefore, that there is a great range of Canadian products not entitled to entry into Germany at conventional tariff rates, including practically all manufactures.

Germany's trade with Canada immediately increased after the abolition of Canada's sursur.

A Balance of Trade. In the year ended March 31, 1911, Canada imported from Germany goods valued at \$10,987,199, an increase of \$2,100,000 over the previous year and of four millions over the year before that when the sursur was in force.

Canada got a very small increase of export trade with Germany under the new arrangement, however, our exports to Germany in the year ended March 31, 1911, being only \$2,663,017, an increase of only \$162,000 over the previous year.

EATON'S

This Classy Gunmetal Calf Boot, \$5

Here's an admirable boot to wear to business. Note its good points—the shape, stylish, yet not extreme, the new Rhino full raised toe, giving ample space for the toes to lie flat in a natural position, the medium heel, the neat toe cap, the short camp, the nice dull gunmetal finish. And—what one cannot tell from the illustration—it's of a very desirable Spring weight; sizes 5 1/2 to 11, in popular widths. Price \$5.00

TORONTO BOARD OF TRADE WANTS NEW WELLAND CANAL

Not Satisfied With Appropriation Voted By Dominion Government, and Passed Strong Resolution Asking For a Definite Policy.

Urging the government to announce a definite policy and reconsider the present appropriation regarding the proposed reconstruction work on the Welland Canal, the Toronto Board of Trade at their meeting yesterday afternoon unanimously passed a resolution, copies of which were sent to Right Hon. R. L. Borden, the Hon. F. Oochrane, Hon. A. E. Kemp, Hon. George Foster, Sir Edmund Osler, E. Bristol and Claude Macdonell.

The members were of the opinion that as yet this problem has not received the serious consideration which it merited from the present government, and it was advocated that a substantial beginning be made with the work this coming summer. The resolution is as follows:

"Whereas, whilst recognizing that the government came into office only six months ago, and that during the interval ministers have had to become familiar with the work of the departments, settle many difficult and perplexing problems, and deal with a session of parliament,

"And, whereas, we still have to express our profound regret that no serious appropriation has been made, nor any definite or comprehensive measures taken for reconstructing the Welland Canal,

"And, whereas, every year of delay means probably a permanent settling of trade in other channels and diversion from the natural waterway across the continent of traffic which should pass thru Canadian channels, building up Canadian ports and enriching Canadian communities,

"And, whereas, a reconstructed Welland Canal would greatly facilitate trade between the east and west, and by water competition materially reduce the charges for transportation of products from the west to the ultimate markets and the rates on manufactures and merchandise for the western population.

"Therefore, be it resolved, that we respectfully request the prime minister, the minister of railways and canals and the cabinet to reconsider the present appropriation and at this session to definitely announce the policy of a Welland canal, and to secure a vote of a sum sufficient to guarantee a substantial beginning of the work this summer.

"And further be it resolved, that we respectfully state that in our opinion no inconclusive action on the part of the government in this direction will meet the hopes of the overwhelming majority of the people of the Province of Ontario.

"F. E. Morley, Secretary."

Are You Going to Buffalo? If so, remember the C. P. R. excursion from Toronto, Saturday, March 30. Only \$2.75 return. Tickets valid leaving via 9:30 a.m. train, and good returning from Buffalo until Monday, April 1. Fastest time to Buffalo. Finest equipment, including parlor car, up-to-date coaches, and the popular chair-seated smoking car. See that your ticket reads C. P. R. Toronto city office, 16 King-street east.

MEIGHEN SPEAKS AT BERLIN. BERLIN, March 28.—(Special)—Arthur Meighen, M.P. of Portage la Prairie, delivered before the Waterloo County Canadian Club here to-night an able address on "The Younger Pitt."

The stirring times of the early part of the eighteenth century were to be repeated, he declared. In this hour, Britain was facing a social revolution, and recent developments showed how the camp right at home. The mighty dollar was playing this time a very important part, and England was facing a dark hour. Capital and labor were antagonistic and the results would shake the United Kingdom.

Give Your Taste Free Rein

EVERY man has preferences in clothes, just as every man has a personality which some clothes express and others hide.

One of the great advantages of the Fit-rite Tailoring System is that in its range of styles and fabrics you can find the exact combination that YOUR taste favors as best suited to your own characteristics.

Courteous, experienced tailors will aid you in making this selection, and the mirror will verify your choice.

The new Fit-rite store at 382 Yonge Street (Corner of Gerrard) offers Toronto's well-dressed men better facilities for clothes-selection than they have previously enjoyed.

CLOTHES FOR MEN

You owe it to your own appearance to investigate this service. You can do so without fear of being lured into extravagance. Fit-rite Suits and Overcoats range in price from \$15 to \$35.

The New Spring Garments Are Ready For Your Inspection

Riverside Boxing Bouts.
The Riverside Athletic Club will hold a big benefit smoker in aid of their senior baseball team, in their club rooms, 38 Strange-street, on Monday, April 1, 1912.

when the following boys will box 3 rounds apiece: Hitchin v. Godwin, Williams v. Judge, Johnson v. Pyley, Lansdowne v. Lansdowne, Carr v. Carr, Nurse v. Jackson, a Princeton left-hander; Lester Long, late of Lafayette University, and one McCreezy, star pitcher of Pennsylvania State College last year.

Cracken, Battling Corlies v. Kid Eversill. The final bout of the evening will be between Bob Day and Chummy Banks. Between the bouts Mr. W. Sturgess, Harry Jones and the National Male Quartet will render the services.

JUDGE MONK IS WINNER CHARLESTON HANDICAP

Favorite is Beaten by 7 to 2 Chances—The Card For To-day.

CHARLESTON, March 28.—Judge Monk upset calculations in the handicap today, defeating Guy Fisher, the favorite.

FIRST RACE—Two-year-olds, purse \$300, maiden fillies, 4 furlongs:
1. Miss Edith, 115 (Peck), even, 2 to 3 and 1 to 5.
2. Pretty Molly, 115 (Wilson), 3 to 1, 3 to 1 and 3 to 5.
Time 1:23 1/2. Dainty Daffo, St. Avano, Lady Ribbin, Seal Brown, Marie T. and Beth Stanley also ran.

SECOND RACE—Three and four-year-olds, purse \$400, maidens, 6 furlongs:
1. Col. Brown, 106 (Peak), 7 to 1, 7 to 6 and 7 to 10.
2. Jack Ellis, 106 (Davenport), 7 to 1, 3 to 1 and 3 to 5.
3. Lucky George, 105 (Gould), 3 to 1, 4 to 1 and 3 to 1.
Time 1:23 1/2. Grace Mc. Andra, Josa, Motherkins, Counting Boy, Jim Milton, Arbutus, Fantasia, Sculpture, Chiptank and Gilbert also ran.

THIRD RACE—Four-year-olds and up, purse \$200, conditions, 6 furlongs:
1. Martin W. Littleton, 101 (Peak), 5 to 1, 5 to 3 and 7 to 10.
2. Granite, 107 (Kestner), 2 to 1, 6 to 5 and 7 to 10.
3. Marjorie A., 105 (Bruce), 6 to 1, 2 to 1 and 4 to 5.
Time 1:13 3/4. Right Easy, Sea Cliff, Electioneer and Pharaoh also ran.

FOURTH RACE—Three-year-olds and up, purse \$200, handicap, 1 1/4 miles:
1. Judge Monk, 8 (Ambrose), 7 to 2, 7 to 10 and 1 to 5.
2. Guy Fisher, 107 (Wilson), 3 to 1, 1 to 4 and 4 out.
3. Crackerbox, 85 (Foreythe), 15 to 1, 4 to 5 and 7 to 5.
Time 1:48 3/4. Beauoup, Mockler and Bob R. also ran.

FIFTH RACE—Three-year-olds, selling, purse \$200, 7 furlongs:
1. Pardon, 107 (Foreythe), 7 to 1, 3 to 1 and 3 to 2.
2. Dipper, 85 (Lounsbury), 15 to 1, 6 to 1 and 3 to 2.
3. Bay of Pleasure, 107 (Turner), 10 to 1, 7 to 2 and 6 to 5.
Time 1:33 3/4. Tack, Pierre Dumax, Excubitor, Brossseau and Monsieur X also ran.

SIXTH RACE—Four-year-olds and up, purse \$300, selling, 6 furlongs:
1. Elizabeth Harwood, 114 (Hopkins), 3 to 1, 3 to 1 and 1 to 6.
2. Tariffy, 105 (Ambrose), 10 to 1, 3 to 1 and 3 to 2.
3. Rash, 105 (Fain), 10 to 1, 3 to 1 and 3 to 2.
Time 1:14 3/4. Warner Griswell, Stanley S., Mon Ami, The Royal Palace, Peter, William, Paul Maw, Tippy, Capsize and Sabo Blend also ran.

SEVENTH RACE—Purse \$300, for 2-year-olds and up, one mile and seventy yards:
1. G. M. Miller, 111 (Schwebig), 3 to 1, 1 to 4 and 4 out.
2. Ramona, 105 (Miller), 5 to 1, 6 to 5 and 1 to 2.
3. Tay Pay, 105 (Koerner), 7 to 1, 6 to 5 and 1 to 2.
Time 1:45 4/5. Commoner's Touch and Elbart also ran.

On Saturday evening next at 8:30 in the armory the series of the Queen's Own Rifles and Royal Grenadiers will meet in an indoor ball game for an over supper. Each team has defeated the other once this season, and as both teams are a lively game may be expected. A large number of the members of both regiments will be on hand to root for their respective team.

The Q.O.R. team will be picked from the following members: Gilchrist, Gerry, Eadsdon, Dempster, Coleman, Graham, Matthews, McLaren, Forsyth, Murton, Frith, Thompson, Whittingham and Atkins.

The World's Selections BY GENTLEMEN

CHARLESTON, S.C., March 28.—The entries for to-morrow are as follows:

FIRST RACE—Two-year-old maidens, colts and geldings, purse \$300, 4 1/2 furlongs:
Jack of Hearts, 112 Sammy Small, 112 Calma, 112 Auto Run, 112 Frank Hudson, 112 Furlong, 112 Flabbergast, 107 Zwingli.

SECOND RACE—Three-year-olds, purse \$200, selling, 7 furlongs:
Vesper, 105 Princess May, 105 Loathly Lady, 105 Motherkins, 105 Grace Mc., 105 Cliff Top, 111 Diamond Buckle, 111 Gagnant, 111 Flirt, 111 Working Lad, 94 Middinette, 102 Trance, 103 Mexicana, 105 Sir Alvison, 103 Ivabel, 105 Asplint, 103 Carlton G., 109 Hoffmann, 103 Suffragist, 109 Ella Bryson, 111 Union Jack, 113 Merrick, 110.

THIRD RACE—Three-year-olds and up, purse \$400, selling, handicap, mile and eight furlongs:
Grif., 90 Helene, 96 Lampel, 96 Nadu, 107 Console, 97 Foot, 103 John Furlong, 116.

FIFTH RACE—Four-year-olds and up, purse \$200, selling, 6 furlongs:
Rue, 98 Miss Jonah, 103 Stare, 102 Irish Kid, 105 Pretend, 107 Westpoint, 108 Chilton Squaw, 106 Premier, 110 Star Blue, 110 Love Watches, 110 Jacobus, 112 Wanderer, 112 J. H. Houghton, 115 Magazine, 117.

SIXTH RACE—Three-year-olds and up, purse \$300, selling, mile and sixteenth:
Plant, 107 Princeps May, 97 St. Rando, 105 The Wanderer, 105 Stalwart Lad, 96 Swarthill, 101 Cutchobunk, 101 Sweet Owen, 102 Pedigree, 101 Otdio, 102 Dohy Bultman, 103 Sabo Blend, 107 Peter Swanson, 105 New Star, 108.

SEVENTH RACE—Three-year-olds and up, purse \$300, selling, mile and sixteenth:
Gagnant, 94 Kaufman, 94 My Gal, 96 Semi Quaver, 97 Flanagan, 101 Richey, 101 Bang, 101 Naughty Lad, 101 War. Griswell, 102 Prog, 103 Peter Swanson, 105 New Star, 108 Kilderkin, 105 Red Robin, 108 Merman, 105 Low Hand, 105.

Weather clear; track fast.

To-day's Entries

Gallery of 500 See Miss D. Campbell Beaten in Semi-Final

PINEBURST, N.C., March 28.—Miss Dorothy Campbell of the Hamilton, Ont. Golf Club, British and Canadian champion, was defeated to-day by Miss Kate Van Ostrand of the Jefferson Country Club in the semi-final round of the women's event of the United North and South America Amateur Golf championship. Fully 500 people followed the play.

In to-morrow's final Miss Van Ostrand meets Mrs. J. Raymond Price of Oakmont, Pa., who won from her clubmate, Mrs. W. C. Fowles, jr., the wife of the 1910 national champion, 6 and 4.

In the consolation competition Miss Van Ostrand made a brilliant play against Miss Myra B. Helmer of Middletown, only to lose the 18th and decisive hole by missing her second shot. Miss Helmer's opponent to-morrow is Mrs. Frank Hayes of Englewood, who defeated Mrs. J. H. Horner of Oakmont, 8 up and 8 to play.

Lacrosse Gossip

President Forth of the C.L.A. says there is no foundation of fact for the statement sent out by the O.L.A. that the Weston, West Toronto Shamrocks, and St. Helen's Clubs had decided to play in the O.L.A. He adds: "Manager Law of the Shamrocks and Norton, Fisher of Chelburne are candidates for the C.L.A. council. Weston decided nothing at its meeting, but refused to consider a motion to join the O.L.A. St. Helen's Club has not yet held its meeting."

Fair Buying Cheaper Horses Maher's Exchange

Fair buying of the cheaper horses featured yesterday's sale at Maher's Horse Exchange. The attendance was very good and the bidding at times was lively. The offerings were large and of great variety, but the best of the stock did not seem to be in very great demand. The market is still dull and the shippers state they are not able to make any money on their shipments, but have to live in hopes of a brighter future.

Trinity College of Hartford has joined the ranks of the lacrosse enthusiasts.

Practice will be held every afternoon on the athletic field. It is probable that the team will have no coach, but will depend upon Capt. Port for instruction. A schedule of about five games will be arranged with teams in the east. The vague of lacrosse in such colleges as Dartmouth, Yale and Harvard, is thus showing in the smaller colleges, and Trinity is one of the first of these to fall into line with an organized team.

St. Griffiths is expected here next week to buy up all the players that Con Jones wants in the west, or at least as many as he can get.

St. Griffiths is expected here next week to buy up all the players that Con Jones wants in the west, or at least as many as he can get. Jimmy Hewitt is in the city from Vancouver. He talks enthusiastically of the lacrosse prospects on the coast. He looks for the greatest year in the history of the game. As to the alleged war, the coast people knew the men that they wanted, Jones is spending \$20,000 in grounds at Brockton Point, where he will play his games this year, and will not stop at salaries to make the season a financial success. Vancouver wants three home men and a goal tender. Bun Clarke, he says, has signed a New Westminster contract and for the first time this latter club will be run as a straight professional club, the co-operative system being done away with.

RICORD'S SPECIFIC

FRIDAY MORNING, MARCH 29, 1912

THE SHOE MACHINE MONOPOLY.

The investigation into the business methods of the United Shoe Machinery Co. by the board of investigation appointed under the Anti-Combines Act has disclosed to the public what has been known to everybody in the trade for years. The company constructs a large number of machines which are necessary for the manufacture of shoes, and these machines are so articulated that the shoe manufacturers would naturally purchase them all or at least a considerable number of them.

However, there is another side to the question. The manufacturers complain that the company is a monopoly, and ties them up in such a way that they must for all time be its patrons. Every manufacturer must sign an agreement not to use in his factory any machine made by an independent concern. Should he do so, the Shoe Machinery Company can, and will, under the agreement dispossess his factory by taking away all their machines, leaving him unable to go on with his business.

This is a species of bondage, although this particular company does not at present seem to be a hard master. All the board in this case can do is to express an opinion that the company has violated the criminal code, and then it is up to the Quebec Government to begin a criminal prosecution. Under the Anti-Combines Act no duty is cast upon the federal government, except the duty of paying the bills. Is it not about time that the federal government looked after the enforcement of federal laws? The investigation seems to be dragging its slow length along merely to defer the necessity of any action under the criminal code, by the Quebec Government, and to prevent discussion in the Dominion Parliament.

GOOD BUSINESS FOR CITIES.

A citizen proposing to build himself a fine residence on the outskirts of a city, would probably buy more land than he needed for residential purposes. He would not unreasonably want a voice in the selection of his future neighbors, and he might properly conclude that he was entitled to a share in the increased value of the real estate contiguous to his improvement. In the same way a university or other institution selecting a site would endeavor to purchase sufficient land for some future selling at a profit. Why, therefore, should not a municipality, about to widen a street, establish a park or erect a fine building, expropriate a zone of contiguous land for resale in the future? The European cities have been doing this for years, and The World has already urged the adoption of this policy by the City of Toronto.

Hitherto it has been a notorious, if common practice for private individuals or companies to acquire lands adjacent to proposed public improvements in order to reap from them the large unearned increments which would accrue from the city's expenditures. That has, moreover, been done largely by politicians or their friends who enjoyed advanced knowledge of the municipal action, and who, therefore, had a great advantage over all other

speculators. It is obvious that if the city itself were empowered to acquire a zone surrounding the site of its own improvements such practices would be prevented and the municipality itself would secure the increment, which in its case would not be unearned.

It is a fact that some European cities have long practised this system with fortunate results. They have in certain cases derived sufficient profit from the increase in value of the excess lands thus taken to pay the whole cost of the improvements. That is to say, by expending a million dollars in the creation of a park a city has increased by that amount the value of the zone which it owned around that park and which it subsequently sold at that profit. That is a perfectly legitimate operation and is not even open to the moral reproach of the unearned increment, since the increment is earned by the very body which receives it. It would be difficult, we think, to show convincing reasons why a municipal corporation should not be permitted to profit from its own enterprise at least as much as private corporations and persons are permitted to profit from the enterprise of others.

DRUNKEN MOTOR DRIVERS.

A woman was seriously injured yesterday, and will probably die thru being run into by an automobile in charge of a drunken chauffeur. The handling of machines by intoxicated persons is easily the most dangerous and terrible thing that has arisen in connection with motoring. The penalty for being drunk while in charge of a motor car which exists in the Ontario act governing the operation of motor vehicles is not nearly heavy enough. No fine, no matter how high, should be the punishment for this offence. Six months in the common jail is not too much for any man found drunk while operating an automobile, even though he may not have done any damage.

A drunken man in charge of a motor car is just as dangerous as a lunatic with a can of nitro-glycerine, or a hardened murderer with an automatic pistol, and should be treated accordingly. Every motorist and every man interested in the welfare of motoring should do his best to bring to the attention of the authorities any cases of intoxicated persons operating machines.

AND HER NAME WAS MAUD.

Miss Malone seems to have been entirely within her rights when she stood up at the Roosevelt meeting Tuesday night and asked the question whether she favored votes for women. It is hard to realize why such disorder should have followed upon the interruption. The crowd seems to have sympathized with Miss Malone, and roundly hissed the police when they removed her from the banquet hall. In view of the fact that the women in six states have a vote at the coming presidential election, it will not do to cut off female interrupters at public meetings too summarily. However, the colored declares that he favors giving the ladies whatever they want, and thus joins President Taft in referring the question of votes for women to a plebiscite of women.

BRITISH POLITICAL RUMORS.

As it appears, instead of modern facilities for communication enabling earlier and more reliable judgments to be formed regarding British political affairs, they have rather tended to the formation of opinions far from justified by the actual events. Not so very long ago, as report had it, Sir Edward Grey, secretary of state for foreign affairs in the imperial cabinet, was on the verge of disappearance in order to establish the claim of Mr. Lloyd George to the reversion of the premiership. That particular legend got its quietus when there was conferred upon him the honor of the garter, a precedent for which had to be sought in days that now seem distant. Still later, Mr. Asquith's resignation was loudly heralded, again with the intimation that his mantle would descend to the chancellor of the exchequer. Now it is Mr. Lloyd George's turn to be slated for political extinction, but whether this last report has any better basis of fact remains to be revealed.

Very likely there have been and are differences in the British cabinet. That would be an extraordinary company of men of exceptional parts who saw eye to eye in each and every detail of policy. Admittedly, there may arise questions, involving a principle so fundamental that compromise is impossible and either one view or the other must prevail. But in the great majority of public questions, Liberal cabinet differences arise, not of principle but of expediency. The result is a step, a little further perhaps than the Whig element in the Liberal party favors, and not so great as the Radical element desires, but sufficient for both to unite upon and carry. But for such reconciliations progress would be, if not impossible, at least at long intervals more revolutionary and less stable. Compromise at any moment is antipathetic to the Radical temperament, but British history demonstrates that it accomplishes more, with less disturbance and greater expedition than the temper that requires all or nothing.

Whether this other method, whereby the course of reform broadens slowly down from precedent to precedent, can be maintained in the British Isles is in these later times open to doubt. Symptoms are not lacking of a growing in-

TRUST FUND Investments

The prompt payment beyond question of interest and principal at maturity must be the paramount consideration when investing Trust Funds.

The Bonds issued by the Canada Permanent Mortgage Corporation meet all the requirements, and are a legal investment for Trust Funds.

We should like to send you a specimen Bond copy of our Annual Report and all particulars. Your name and address on a postcard are all that are necessary.

Canada Permanent Mortgage Corporation

Toronto Street - Toronto

Established 1888. 12345

patience on the part of progressive reformers, over the slowness of change. But it is evident enough that, even in the British Liberal party, of to-day, whether in or out of the house of commons, a considerable section still balk at sharp departures from the established order. Mr. Lloyd George, whose health is none too robust, may have become disheartened because the majority of his colleagues refused to specify a minimum wage for miners, while willing to give statutory effect to the principle and to leave the actual wage to be fixed by local boards. But, if possible, it is hardly probable, and the chances are that this latest rumor will go the way of its predecessors and leave the cabinet united in forwarding the measures to which this session of parliament is devoted.

Public opinion in Ontario will strongly endorse the protest of the board of trade against the ridiculously small appropriation proposed for the improvement of the Welland Canal. This important project ought to be taken up in a whole-hearted manner and pressed to early completion. Needless delay in an undertaking imperatively required in the national interest cannot be justified.

MINERS' RESOLUTION.

Editor World: If you are in any way in sympathy with the strikers of The T. Eaton Co. will you kindly publish free in a conspicuous corner of your paper, the enclosed resolution, as being unanimously adopted by the Porcupine Miners' Union, Local No. 145, Western Federation of Miners, and others.

James D. Clancy, sec'y-treas. Whereas the T. Eaton Company of Toronto has proven itself unfair to organized labor by its treatment of its employees, and whereas a strike is now being conducted by the Garment Workers in Toronto, against the unfair conditions imposed by the T. Eaton Co., therefore be it resolved by the Porcupine Miners' Union, No. 145, of the Western Federation of Miners, that all working men be asked to consider these conditions and their obligations to each other, and to stand by the interests of the workers in this strike, and that we extend to the strikers an endorsement of their action toward the said T. Eaton Co. Resolved further that the editors of The Toronto World, Mail and Empire, Toronto Globe, Evening Telegram, Toronto Star, Jack Canuck, Ontario Weekly, and The Miners' Magazine be asked to publish these resolutions upon being furnished with copy of same.

Peter Cleary, E. Danis, J. C. Nichol, Dan Julien, D. Thompson, committee.

BIG EYES OUTWARD NOT INWARD

Editor World: They were all borrowing my World yesterday morning (March 26). After reading the evening records I admit being "foozled." Am just dropping this line to you to comment upon the fact that after all it looks as if Toronto people were dragged into looking "in" to the past of a thriving town instead of "out" to what we can be and really should be.

Recalcitrant.

VICTORIA CHOIR GREAT CONCERT

One of the best choir concerts ever presented by a church chorus in this city was that given by the Victoria Presbyterian Church choir last night in the church, Annetto-street. The scribe had difficulty in gaining admission at eight o'clock, so great was the crowd; in fact, a hundred people stood throughout the entire program. "Here by Babylon's Wive," "The Bell of St. Michael's Tower," dramatic episode from "Old Trygvason," "Beauty's Eyes," "The Hundred Pipers," "The Glow Worm" (with solo, chorus and obbligato), "In the Shadows," for first and second alto and soprano, and a fine arrangement of "Rule Britannia" were the choir's numbers, and in all of these they made a distinct conquest of the audience. The choir sings with sincerity, perfect balance, much beauty of tone and distinct enunciation. Mr. Donald MacGregor has brought the choir "up front" during his stay at Victoria Church, and no down-town choir are so-day in any way in advance of this West Toronto chorus of about sixty-six or seven voices. The classic recitals by Owen Smyly and the soprano solo by Miss Willa Helson were magnificently rendered, as also the organ solo, "Fantasia," by the church organist, Miss Edith Dickson. P.T.C.M., Dr. Harvey Robb played the piano accompaniments with his usual skill. Mr. MacGregor conducted with authority and ease.

At Osgoode Hall ANNOUNCEMENTS.

March 28, 1912. Judge's chambers will be held on Friday, 29th inst., at 11 a.m.

Master's Chambers.

Before Cartwright, K.C., Master. Taylor v. Toronto Construction Co., F. Morrison (Hamilton) for plaintiff. W. C. Chisholm, K.C., for defendant. Motion by plaintiff for an order changing venue from Hamilton to Guelph, so that the action may be tried there on April 9 next. Judgment: The motion is made really to correct if possible the oversight in not serving the notice for trial in the time required by the rules. But that which cannot be done directly cannot be done indirectly. I am not aware of any case in which a motion by plaintiff to change the venue so as to expedite the trial and correct his own mistake has been successful, unless dismissed. Motion by plaintiff for an order nisi, with costs to defendant in any event. Nipissing Mining Co. v. Nova Scotia Silver Cobalt Mining Co.—Phoenix (Beatty & Co.) for plaintiffs. Motion by plaintiff for an order nisi, with costs to defendant for judgment. Judgment granted.

Wilder v. Starr—Walsh (Singer & S.) for plaintiff. Locke (Masten & Co.) for defendant. Motion by defendant for an order striking out name of defendant and substituting that of Sentinel Publishing Co. Enlarged until 30th inst.

Rice v. Marine Construction Co.—A. R. Lewis, K.C., for defendant. F. Aylesworth for plaintiff. Motion by defendant for an order changing venue from Farry Sound to Toronto. Enlarged one week.

George Taylor Hardwood Co. v. Nova Scotia Silver Cobalt—W. J. Clarke for plaintiffs. J. Montgomery for defendants. Motion by plaintiffs for an order for judgment. Order made. Atkinson Marble and Granite Co. v. Dougherty—F. McCarthy for defendant. J. E. Jones for plaintiff. Motion by defendant for an order transferring action from the county court of Norfolk to the county court of Wentworth until 29th inst.

Carver v. Peley—O'Brien and three other actions—H. S. Murton for plaintiff. G. M. Clark for defendant. Motion by plaintiff for an order for the defendant to deliver up to the plaintiff all the papers and documents of the defendant company, by George Angus as special examiner. Order made. Costs in discretion of sitting officer. In re Kline Bros. v. Dominion Fire Insurance Co.—J. D. Falconbridge for defendants. Motion by defendants for an order for judgment, with costs for purposes of suit. Order made.

Single Court.

Before Latchford, J. Plaintiff v. Gilles Bros., Ltd.—W. L. Scott (Ottawa) for plaintiff. J. Sinclair, K.C., for defendant. Motion in weekly court at Ottawa for an injunction restraining the defendant, John Burwash, from acting as arbitrator in arbitration proceedings between plaintiff and defendants, by consent turned into a motion for judgment on the whole case. Judgment: Objection taken to the appointment on the ground that his employer, Lachlin Bros., are directly and pecuniarily interested in the result of the litigation and that he will be biased against the plaintiff's claim. In capable of fairly trying the matters in question in this arbitration, and of making a fair award between the parties. The contention is, in my opinion, met and overruled by the evidence before me. Plaintiff's case fails and I direct that judgment be entered for defendants, with costs. Plaintiff must also pay the costs of motion made before the issue of the writ.

Before Middleton, J.

Business Systems v. Regal Manufacturing Co.—J. A. Macintosh, for plaintiff. G. D. Kelly (Ottawa) for defendant. Motion by plaintiff for an injunction. At request of parties motion enlarged for three weeks.

Beck v. Burnham—H. T. Beck, plaintiff, in person. Motion by plaintiff in person continuing the injunction here in restraining defendant from cutting or removing any timber from lot 24, Illustration B, in the Township of Scarborough. Order continuing the injunction to the trial or other final disposition of the action.

Cantelon v. Petrolia Wagon Co.—H. E. Rose, K.C., for plaintiff. F. W. Harcourt, K.C., for defendant. Judgment approved and judgment for plaintiff for \$900. Money to be paid into court and the question of apportionment reserved.

Duggan v. Keyes—J. J. Coughlin, (Stratford) for plaintiff. R. T. Hardin (Stratford) for defendant. An appeal by defendant from the report of Judge J. A. Barron, to whom the matters in dispute were referred for trial, and a motion by plaintiff for judgment on the report. Appeal dismissed with costs and judgment for plaintiff with costs.

Danbrook v. Farmer—J. G. Smith, for plaintiff. J. D. Bissett, for defendant. An appeal by plaintiff from the judgment of the local judge at Woodstock for immediate possession. The motion turned into a motion for judgment and judgment granted by local judge vacated, defendant let to defend, and injunction restraining defendant from cutting any timber until trial. Costs in the cause.

Trial.

Before Teetzel, J. Dunlop v. The Canada Foundry Co.—J. F. Hellmuth, K.C., and D. L. Hart for plaintiff. G. H. Watson, K.C., and B. H. Ardagh, for defendants. An action by James Dunlop, an infant, for \$1000 damages to plaintiff by a steel girder falling on him and crushing and breaking the bones of one of his legs, alleged to have been caused by the negligence of defendants or of those acting on behalf of the defendants. Judgment: In my opinion there was no evidence to justify finding of liability at common law, nor do I think the answers of the jury to the questions submitted, entitled to be placed to judgment at common law. The jury assessed the damages at \$1700. If there was a common law liability and \$1500 of liability only under the Workmen's Compensation Act, the jury answers to the fifth and sixth questions entitle plaintiff to judgment under the Workmen's Compensation Act, and also their answers to questions nine and ten. Judgment for plaintiff for \$1500 and costs. Thirty days' stay. Kennedy v. Kennedy—J. Blecknell, K.C., and W. A. Baird, for plaintiff and defendants. Robert and Joseph A. Kennedy, E. D. Armour, K.C., and A. D. Armour, for defendant. J. H. Kennedy, W. M. Douglas, K.C., for Suydam Realty and Henry Suydam. T. P. Gait, K.C., and A. J. R. Snow, K.C., and W.

A. Proudfoot for other defendants. An action for determination as to whether or not the provision contained in the will of David Kennedy, deceased, is good or void, as creating or tending to create a perpetuity.

Judgment: I am of the opinion that the gift in question is void as creating or tending to create a perpetuity. Whether or not the defendant, James H. Kennedy, in the exercise of his discretion as evidenced by the deed poll, has acted honestly, I am unable upon the evidence to say, because the actual amount of the fund in his hands or the necessities for upkeep and maintenance were not disclosed in evidence before me; so that if it should be held that my judgment as to the total invalidity of the gift is not maintained, the plaintiff and other next of kin should be at liberty in another action, if so advised, to contest the good faith of James H. Kennedy in the exercise of the discretion as evidenced by the deed poll. I think the trustees may make title to the purchaser of the estate free from the charge of an annuity of \$400 to the plaintiff, but the proceeds will be charged with the annuity. The judgment will be made nisi, declaring that the gift of the residue is void as creating a perpetuity, and that the lands embraced therein may be sold free from plaintiff's annuity, declaring that the proceeds of the sale are charged therewith, and that as to the whole residuary gift there is an intestacy, reserving to the plaintiff and other next of kin in the event of it being held that the gift is void, the right to impeach in another action the good faith of the defendant, James H. Kennedy. In the exercise of his discretion as evidenced by the deed poll; (2) That the action be dismissed, with costs against defendant Suydam and the Suydam Realty Co., and (3) Except as to those costs, the costs of all parties shall be paid out of the residuary estate. Thirty days' stay except as against the defendants the Suydams.

DICTIONARY HAS MANY IMITATORS

Few people realize the dangers lurking in substitutes and counterfeits. We have a Dominion law that protects us from the dangers of impure foods. The government is ever vigilant in guarding us against spurious coins and currency. But we are left to our own resources in the matter of choosing our apparel, our literature and our means of learning, and many times are we deceived by having foisted upon us something of this character that is detrimental to our physical growth and development.

The only protection we have is to guard against substitutes and imitations. It stands us in hand to beware of counterfeits of any and all kinds. As a means of encouraging education, The World presents Webster's Illustrated Dictionary. As soon as the success of this great distribution was assured cheap imitations of The World Dictionary were offered to the public at seemingly low prices. But must be remembered that counterfeits are costly at any price. Some un-

O.K. A Royal Brew! A good many men say that "Gold Label" is the finest Ale that we have ever brewed. It's all a matter of taste. If you prefer a rich, old, creamy ale—that proves its quality by its delightful flavor—just try "Gold Label." Every bottle sealed with an easily opened "Crown" stopper. O.K.'s "Gold Label" Ale "The Beer that is always O.K."

MICHIE'S GLENERNAN SCOTCH WHISKY A Blend of Pure Highland Malts BOTTLED IN SCOTLAND EXCLUSIVELY FOR Michie & Co., Ltd., 7 King St. W. TORONTO

scrupulous publishers have taken their old dictionaries that are out of date, changed the title pages, pasted in a few pictures and other irrelevant matter, and now offer these to the public with the claim that they are of late compilation, because this year's date is on the title page. As a matter of fact, they are printed from old plates that served their usefulness years ago, and as our language is ever changing they are utterly unreliable and useless. It is said that imitation is the sincerest flattery. The World's successful educational campaign is doubtless envied by those who wish they might have thought of such a plan first. But there is only one Webster's New Illustrated Standard Dictionary, and it is presented by The World. There is only one way to get it, which is explained under the dictionary coupon on another page, and we trust all of our readers will avoid imitations and get the genuine as offered only by The World.

Be Suspicious

BE suspicious of that of which nobody is proud. Be suspicious of the mere low-price argument offered in favor of an article with no reputation, no backer, no guarantor. Better buy the thing you know and can trust, than an article unbranded and unvouched for.

- The branded shoe, made by a maker with a reputation, is a safer shoe to buy than the one made in an unknown factory by an unknown maker. That in which much money has been invested to make or keep it good is worth more than that on which nothing or but little has been spent. Peace of mind is worth something, just as quality is. Buy peace of mind. When you buy anything worth while buying, buy that of which you know—from advertisements, or from other dependable acquaintance. Buy the article with the "money back" guarantee—with the pledge of a known name behind it.

Put your faith in the advertisements appearing in good newspapers. Beware of the article that cannot stand the spot-light of publicity. The commodity an advertiser backs with his own money is something worth your buying.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 508 Lusden Building. Enquiry involves no obligation on your part—so write, if interested.

strip that was used on him," said he. "It was this long and this wide and was about as thick as one-third of my finger."

More Officers. "I would suggest to the government the necessity of a larger number of officers and a larger grant for the institution. Such would better conditions somewhat."

When it was found that young Spain could not be locked in, bracelets were the next expedient. They were not the bracelets, big iron things, that have been pictured by the press. He was given bread and water for one day and a half. He was then given sweetmeats, and he had a rattling good time."

He admitted that some other means should have been used. "We do not approve of such methods. The government should do something to assist the city to better conditions. Segregate the boys or do something with those who are not fit to be there."

Again Dr. Godfrey impressed upon the members that young Spain was not hurt mentally or physically. He went to church the day after the bracelets were removed. "Give them some other methods out there if you wish to improve things," he said. Boy after boy has been running away since the bracelets were dropped. They run away at all hours, principally during the night.

"Reserve your judgment carefully in regard to the conditions and to the superintendent. There is no more humane man. This is why I offer word for a man who has been maligned by the press of the province."

No other members mentioned the matter.

NEW ZEALAND'S CABINET AT ODDS. WELLINGTON, N. Z., March 28.—(C.A.P.)—Thomas Mackenzie has succeeded Sir Joseph Ward as premier. There is no other ex-minister in the cabinet, which is fairly representative and includes two prohibitionists, one brewer and no Laborite. Owing to dissensions over the allocation of portfolios, brief life is prophesied for the government.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto.

STRUCK BY CAR. John Kilday Will Probably Die as Result of Injuries.

John Kilday, 284 St. Helen's-avenue, was probably fatally injured by a street car yesterday afternoon at the white bridges on Dundas-street.

The old gentleman, 70 years of age, attempted to cross the road in front of a Dundas-street car which was climbing the bridge grade at a low speed. He became confused when directly in front of the car and went back and forward, not knowing which way to go. He was thrown to the ground and picked up unconscious and taken to the Western Hospital, where he was still in a very critical condition this morning.

THE BURNS SOCIETY. Chief Inspector James L. Hughes addressed a gathering at the Robert Burns Society on Saturday evening last night. In his remarks the speaker advocated a closer study of the famous poet's character along the lines of his evolution as a thinker and a poet living many years in advance of his time.

Fire Broke Out Again. After smoldering since Monday afternoon, some of the debris at the car barn in King street broke out into a blaze at 1 o'clock this morning. Fire wagons from Lombard street station responded to a telephone message. No further damage was done.

DRIVE ORDER BEYOND SUBSIDY TOT.N.O.

But Bill to Grant \$2,000,000 Went Thru — Hon. Mr. Cochrane's Strong Defence.

Mrs. Mary Hayden Was Run Over by a Motor Car in Charge of Joseph Radnor, Who Was Too Drunk to Appear in Police Court, But Will To-day.

Injured so badly that her recovery is very doubtful, Mrs. Mary Hayden, 16 Denison-avenue, lies in St. Michael's Hospital as the result of having been struck at the corner of Queen-street and University-avenue yesterday morning, as she was on her way to work at Eaton's, by a motor car driven by Joseph Radnor, a Cumberland-street, and occupied by four other men, who made their escape.

Radnor and his party had evidently been out for an all-night joy ride, and coming south Spadina-street, suddenly after 7:30, zigzagged in front of a Belt Line car in charge of Motorist Albert Smith, and suddenly stopped in order to avert an accident. The street car was crowded with passengers, and the senger remarked that the motorist must have been drunk or they would not have been driving in such a reckless fashion.

Without slackening their speed, they made their way in a westerly direction, and going to the corner of Queen-street and University-avenue, and without a second's warning threw Mrs. Hayden into the middle of the car, striking her on the head, and she is feared, fracturing her skull.

Radnor had still a sense of decency about him, and pulled his car up at the corner of Simcoe-street. After several minutes of manoeuvring he turned around and conveyed the woman to St. Michael's Hospital, where at an early hour this morning it was feared she would succumb at the moment. The exact extent of her injuries is still unknown.

Radnor is being arraigned at 10 o'clock this morning at the court house, so much that he continued to do so even after disposing of his male passengers and taking on the woman whom he had injured. As he passed Queen and Yonge-streets, Mrs. Hayden regained consciousness for a half-minute, and, screaming in a most frantic manner, attracted the attention of Constable Ericson, who was on duty at the corner. Seeing that the chauffeur was drunk and unable to manage the car, Constable Ericson, who was driving a taxicab, and just as he had taken Mrs. Hayden inside and was about to leave, he was charged with being in charge of a motor car while intoxicated.

He was unable to appear at the court yesterday morning, being still under the influence of liquor. When he appears this morning he will be remanded, possibly for a week. Should Mrs. Hayden die the charge will be changed to that of manslaughter.

Who the passengers of the car were the police are at a loss to know. Radnor positively refused to give the name of the man, and has also refused to say where they had been.

BARBERS PASS A RESOLUTION

Condemning the Government for Failing to Adopt Sanitary Law for All Shops.

At the meeting of the Toronto union barbers in the Leaning Tower last night a letter from Sir James Whitney was read, stating that the government would not do anything in regard to the sanitary regulations for barbers.

The premier's note took the meeting by surprise, as it was fully expected that a letter from Sir James Whitney would not do anything in regard to the sanitary regulations for barbers.

IN MEMORIAM. ORMEROD—In memoriam of Thomas Ormerod, who died March 22, 1909. Just three years ago you left us. How we miss you, Father dear, And remember all your kindness As we drop a silent tear. —Martha.

STRUCK BY CAR. John Kilday Will Probably Die as Result of Injuries.

John Kilday, 284 St. Helen's-avenue, was probably fatally injured by a street car yesterday afternoon at the white bridges on Dundas-street.

MAY DROP HIGHWAY'S ACT. OTTAWA, March 28.—(Special.)—The bill to amend the Highway Act, which was passed by the House of Commons and the Senate on Wednesday, has been dropped by the government.

Safe and Profitable

LOWTHER PARK

THE TALBOT ESTATE—JUST NORTH OF DANFORTH WITH A FRONTAGE ON WOODBINE

OUR FIRST SPRING OPENING begins on this choice eastern residential property on FRIDAY, MARCH 29TH.

Sale commences at 9 a.m. and continues all day.

Come early and choose from splendid level lots, in a section soon to be served by the new civic cars on Danforth. Opening prices are low, and terms are easy.

TAKE a Parliament car to the end of the line, where our representatives will meet you and motor you over the property. Information can be secured at our head office, or at our branch office, Greenwood and Gerrard, where you alight from a Parliament car at the eastern terminus.

ROBINS LIMITED

22 ADELAIDE EAST, PHONE MAIN 7171

Threatened Hon. Mr. Morine. In answer to a question by W. M. Martin (Regina) Rt. Hon. R. L. Borden said that he had received a letter reflecting on Hon. A. B. Morine, the civil service investigator, during the campaign of 1907 for the position of candidate against Hon. W. S. Fielding.

The bill to aid the construction of the Canadian Northern Railway was read a third time and passed, as was the general railway subsidies bill.

Rejected Senate's Amendments. The bill to amend the general railway subsidies bill was read a third time and passed, as was the general railway subsidies bill.

What about the National Transcontinental? enquired E. B. Carvell. "It doesn't go near the Temiskaming district," answered Mr. Sutherland.

Continuing, Mr. Sutherland declared that Ontario had been altogether too modest this, and other sessions in regard to railway subsidies. \$13,361,000 had been paid in railway subsidies last year by Ontario municipalities, as against \$4,860,000 by the municipalities of all the other provinces.

A Political Reward? If Clark (Red Deer) thought that in the past, it would soon get over it under the present minister of railways, there was something to be said for the Ontario view.

Mr. Bennett (E. Simcoe), "The majority they gave."

"I did not think," Dr. Clark answered, "that my honorable friend from Simcoe would have so readily given me the ground on which to sow the argument I was about to make. Certainly if the principle, 'to the victors belong the spoils' were to obtain, Ontario should get the subsidy."

It was absolutely indefensible, however, argued, to grant a subsidy to a road already built and paying proposition. The time was coming when the whole question of subsidies would have to be more carefully looked into.

What of Georgian Canal? E. B. Devlin (Wright) protested against the expenditure as an injustice to the other provinces, especially to his own Province of Quebec.

The government was afflicted with a surplus of \$2,000,000 and were trying hard to get rid of it, but they had nothing for the building of the Georgian Bay Canal, which the late government was just on the point of building before Sept. 21.

After fifteen years in power," interjected a Conservative member, amid wild ministerial applause.

Mr. Devlin was again proceeding to say that the late government was about to build the Georgian Bay Canal, when Gerald White (N. Renfrew) raised a storm of Conservative applause by suggesting that the late government was voting thousands for the Newmarket Canal.

E. D. McKenzie (N. Cape Breton) argued that a private owned railway would be compelled to carry the mails free. There was no provision that the T. & N. O. Railway should do so.

Ontario the Favored. Sir Wilfrid Laurier defended his own refusal to subsidize the T. & N. O. when the original application was made. He had been compelled to refuse it (his own party was in power in Ontario at the time) because it would have been an injustice to the other provinces.

Ontario, he said, had always had the lion's share of the regular provincial subsidies.

Hon. Frank Cochrane: "Did the right hon. gentleman object to a federal grant in 1884 to a provincial line from Quebec to Montreal?" This road, said Sir Wilfrid, was a

GOAL STRIKE IS BEARING FINISH

The coal situation shows a very decided improvement to-night. The minimum wage bill has passed all stages in both houses and only awaits the royal assent. Acting on the advice of Lord Lansdowne to accept the situation, painful and humiliating though it is, all the opposition amendments were either negatived or withdrawn, and the house of lords this evening passed the third reading of the bill without division.

By the unexpected rejection of the conciliation bill relating to the enfranchisement of women, the government retrieves at least a week of valuable time lost over the wage bill. The legislative machine is now clear for the budget and other important measures.

Also resumption of work were less numerous than anticipated, notably in Warwickshire—the miners deciding after all to wait for the result of the ballot before returning to the collieries—reports from every district confirming their willingness to accept the wage bill and terminate the strike. The prompt despatch of troops to scenes of outbreaks, coupled with the advice of the leaders to refrain from violence, had a wholesome effect.

No Serious Riots. Riotous strikers were in small numbers and the day passed with no serious disturbances, except at the Cadeby colliery, near Scarborough, Toronto, where the police had to make baton charges to drive off the mob, which encouraged by hundreds of women, attacked a small body of men repelling the colliery roadway. At the Brykett collieries those who wanted to resume work did so unopposed, as they were protected by a strong force of troops. The executive of the Miners' Association at Cadeby, the scene of the most serious rioting yesterday, has decided to take a ballot of their men to-morrow.

Return in Lanarkshire. In Lanarkshire about 200 men descended into the pits, this being the most extensive resumption of work at any of the collieries. The North Wales Miners' Association has recommended that the men accept the government offer of the Derbyshire Miners' Association, addressing a miners' meeting, said that they would gain nothing by remaining out, and that they had better utilize the machinery of the bill to secure their own scale of wages.

King George continues to take close interest in the situation. Premier Asquith had another audience to-day to acquaint his majesty with the progress of events.

Babies Have Itching Eczema

Itching, almost constant and well-nigh unbearable itching, is the marked symptom of eczema. The direct cause is usually friction or irritation of the skin. In babies the trouble often arises from infrequent changing of napkins.

Until you have used Dr. Chase's Ointment in a case of eczema you can scarcely realize the relief which this treatment affords. Gradually the scres are cleaned up and healed, and a new, smooth skin replaces that which has been irritated and diseased.

By keeping Dr. Chase's Ointment at hand along with the bath soap and using it whenever chafing or irritation appears you can keep baby's skin in perfect condition, save him much suffering and yourself much anxiety.

RADIAL TUNNEL INTO TORONTO

Two years ago, in May, 1910, the Dominion Government granted the Hamilton, Waterloo and Geolph Railway Company power to build a line to the city limits of Toronto and from there into the city by means of a tunnel. It was specified that this work was to commence within two years, and as the time limit is nearly up there is a well-defined rumor that the company will take immediate steps to avail themselves of their privilege. It is further rumored that W. H. Hudson, the eminent New York engineer who is visiting Toronto at the present time, is here in connection with this work. Mr. Hudson refuses to either affirm or deny this.

The proposed subway, it is said, will cost in the neighborhood of \$7,000,000 and it is expected that there will be a terminal close to the city hall. An other station will probably be erected close to Boscawen-avenue, but the act specifically states that the stations must not be used for local traffic. This latter feature, however, could perhaps be easily avoided, since it is doubtful whether the law has the machinery to enforce the regulation. Nothing definite is known about the scheme as yet, but the company must act at once or secure a time extension from the government, for which application has not yet been made.

The entrance to and roads around the Metropolitan Church are very muddy, and one gets a belief, thereby justifiable, that not in the event justified, that equal mudiness is likely to prevail on the choir one is proceeding to listen to.

Societies, Etc.

The meeting of the Toronto Ladies' Golf Club takes place at the Municipal Golf Course at 5:30 o'clock in St. George's Hall. Mr. R. T. Hutcheon, M.A., will give an address on "The Golf Club" at the University College this evening. Miss Topley

The Nursery

Colds. Babies very often take cold from being too warmly clothed in the house, and then being taken outdoors into a very different atmosphere without enough additional clothing.

If the baby's nose runs, keep it clean with vaseline. Do not give him medicine, but protect him from cold air, and every three hours drop a little warm salt and water into the nostrils.

If the cough is persistent keep the baby indoors for a few days, and keep a flame sprinkled with camphorated oil on his chest and back. Once or twice a day take him in your arms and cover your head with a sheet to make a tent.

For croup, use the hot packs constantly, and keep the air of the room moist with steam. If your child breathes thru his mouth, and seems to take cold very easily, you may suspect adenoids, or enlarged tonsils, and until these are removed and adequate breathing health given him, the child's good handicapped.

Rev. John McLaurin Dead; Well Known Missionary. For many years engaged in work in the mission of the east and after experiencing long years of hardship connected with this work, Rev. John McLaurin, D.D., died at his residence, 123 Robert-st., yesterday morning.

Metropolitan Church Choir. The entrance to and roads around the Metropolitan Church are very muddy, and one gets a belief, thereby justifiable, that not in the event justified, that equal mudiness is likely to prevail on the choir one is proceeding to listen to.

THOS. WALMSLEY PASSED AWAY YESTERDAY

Well-Known Insurance and Financial Man, Member of Firm of Scott & Walmsley, Was Ill for Several Weeks--Born in Deer Park and Lived There All His Life.

After an illness of several weeks, Mr. Thomas Walmsley of the firm of Scott and Walmsley, insurance underwriters, died yesterday morning at his home in Deer Park. Born on June 13, 1846, on the site of his present home, he early showed an aptitude for business and entered the office of Alfred DeGraham. He was descended from a fine old line of ancestors, the Walmsley name being a well-known and highly respected one in Lancashire, England, for generations.

His father settled here in 1799 in Drummondville, now Deer Park, on a large tract of thickly wooded land, and started manufacturing earthenware and doing a small amount of farming.

When the call to arms was sounded for the Fenian Raid of 1866, Thomas Walmsley marched to the front as a member of the Hand-in-Hand Insurance and Fire Companies, and last February, when Mr. Scott retired from the presidency of the Queen City Fire Insurance Company and the Fire Insurance Exchange Corporation for many years, besides these interests he was connected with many other city institutions.

He was one of the founders of the Canada First party, a member of the National Club, one of the founders of The Monetary Times, and a charter member of St. John's Lodge, A. F. & A. M. A widow and a sister, Mrs. William Kirvan, survived Mr. Hugh Scott, senior member of the firm, died about ten days ago.

Mrs. Mabel Tukey, who is in ill health, fainting during the hearing, and was discharged from custody. The magistrate thought that the case against her was not nearly so strong as that against the other prisoners.

PRESENTATION TO DR. HOYLES. At the close of the lectures for the term, the gentlemen of the final year of the Law School, Osgoode Hall, presented Principal Hoyles with a cabinet containing a silver dessert service. Mr. C. B. Scott, M.A., on behalf of the final year, made the presentation address, Dr. Hoyles in thanking the students wished them the utmost success in their professional career.

GRAIN AND TARIFF BOARD BILLS WITH CHANGES, GO THRU SENATE

Alterations to the Former Measure Not Disturbing to Government's Equanimity, But Sir Richard's Tinkering With Commission's Powers Isn't Received With Relish.

OTTAWA, Ont., March 28.—(Can. Press).—The senate gave the grain bill its third reading with amendments which the government does not regard as vital, and the tariff commission a third reading with amendments which are objected to.

Senator Davis moved that sub-section E of the car rotation exception section be stricken out. This was drawn to give the grain commission authority to depart from the rotation rule in cases of congestion.

Senator Loughheed said that, while the government believed this would be a useful provision, the grain growers objected to it, and the government was willing to make a concession to them on this point.

Senator Davis' motion was adopted and the bill as amended was read the third time.

On the bill for the appointment of a tariff commission, Sir Richard Cartwright moved that, in addition to the duties of the commission prescribed

by the government bill, the following clause should be added:

Where Shoe Pinches.

"Provided always that, in all cases where any application for an increase in made to the government, the commission shall make a special report, which in the case of any industry already established, shall state the number of factories now existing and the number of hands now employed, a list of the shareholders and the number and amount of shares held by each shareholder, the dividends paid during each of the preceding ten years, the wages of hands, and the number of hours worked per diem, the total amount of goods of the kind on which such increase of duty is demanded in Canada, whether home-made or imported."

Hon. Mr. Loughheed said that the government did not favor this addition to the bill. However, as the opposition in the senate was determined to make it, the amendment might be adopted. The bill was given a third reading and sent to the commons to see what action they would take on the amendments.

The senate adjourned until Friday morning.

GAMEY CHOSEN TO INVESTIGATE

Member for Manitoulin Will Take Charge of Party to Select Route of Railway.

R. R. Gamey, the member for Manitoulin, has been appointed by the Ontario Government to take charge of the expedition that is going north to select a route for the five-mile strip of territory in Manitoba over which the Timiskaming and Northern Ontario Railway will run to Port Nelson.

Mr. Gamey has been generally regarded as the man most suitable for the work on account of his extensive knowledge of the north country, but as he had no inclination to resign his seat in the house, there was some doubt as to whether his appointment would be effected.

Sir James Whitney, however, introduced a bill in the legislature yesterday afternoon removing all obstacles from the pathway of "the man from Manitoulin" with regard to the undertaking of the work.

Just after the further supplementary estimates had been brought down, Sir James Whitney introduced an act regarding the appointment of a commissioner for certain territory. In explaining the new bill, Sir James said: "We propose to ask a member of this house to go up in charge of a party to investigate new territory, and the act is introduced in order to let this gentleman receive remuneration for his services without resigning his seat in the house."

"Would the hon. the premier have any objection to telling the house the name of this gentleman?" asked N. W. Rowell.

"I am always ready to oblige," said Sir James in reply. "He is the hon. the member for Manitoulin."

Applause greeted the prime minister's announcement.

The expedition of which Mr. Gamey is to be the leader will include surveyors, geologists and others fully qualified to conduct a thorough exploration of the territory over which the government railway will run to the Hudson Bay port. The character of the soil, the shore line and nature of the country generally will be investigated so that the very best possible route will be chosen from the 50-mile limit along the Manitoba boundary south from Hudson Bay. To cover the expenses of the exploration party an item of \$10,000 has been included in the list of further supplementary estimates brought down yesterday.

BRAKEMAN KILLED

R. Craig Fell From Train and Died in Hospital.

R. Craig, 65 Hook-avenue, a C. P. R. brakeman, fell from his train early yesterday morning at Mimico. He was hurried to the Western Hospital where he died later from a fractured skull.

Coroner Beard opened an inquest at W. A. Matthews' undertaking parlors and adjourned until April 4 at 8 p.m. in the morgue.

Man Mastered By His Business

When a man cannot forget his business when he lays his head on the pillow at night, it is time to consider the condition of his nervous system. Otherwise his business will wreck his future by undermining his health.

For a time he may keep going on stimulants, but if health is to be restored and old-time vigor brought back the nerve cells must be revitalized by such treatment as Dr. Chase's Nerve Food.

A few weeks' use of this great food cure will do wonders for any business man or woman whose nervous system has failed to stand the strain. Gradually and naturally the blood is enriched and vigor and energy are restored to mind and body. Appetite is sharpened, digestion improves, you sleep well and regain the strength which makes you master of yourself and of your business.

HON. ADAM BECK GETS A SALARY

Chairman of Hydro-Electric Commissioner Starr as Nucleus for His Untiring Work.

Six thousand dollars per annum in future is to be paid Hon. Adam Beck for his services as chairman of the hydro-electric commission. The announcement was made in the legislature yesterday when Sir James Whitney introduced an act to amend the Power Commission Act, in order to allow Mr. Beck to receive remuneration for his services and still retain his seat in the house.

"In discussing this matter from time to time with Mr. Beck," said the prime minister, "he has always deprecated the idea of receiving remuneration for what he had done, and he occupies that position to-day. I might say right here that his colleagues upon the commission, Hon. J. S. Hendrie and Mr. W. K. McNaught (North Toronto) have taken the same position. They have declined also to receive remuneration for what has been done, which reflects great credit upon them. We have come to the conclusion, so far as the chairman is concerned, that in future he shall receive remuneration. We propose with this bill to do away with the defect of the law which without this bill would render his seat vacant. The bill will provide that, notwithstanding anything in any other statute, he will be allowed to retain his seat in this house and will be paid a sum of \$6000 per annum."

CANARIES KEPT IN SMALL CAGES

Humane Society Will Endeavor to Have Birds Housed in More Commodious Homes.

That the T. Eaton Company was using small cages—too small in fact—to keep canaries in long periods was charged in the report of P. C. Laverton Harris, managing director of the Toronto Humane Society, at the regular meeting yesterday afternoon. It was claimed that many of these little birds were packed in boxes totally inadequate for the requirements. Mr. Harris stated that he had written the Eaton Company about the cruelty but had received no reply and he intended to start the machinery of the society in motion. A lady, however, suggested that Mr. J. C. Eaton had probably not received the letter and advised Mr. Harris to write a personal one to him.

Staff Inspector George Kennedy's report showed that many prosecutions were being made and convictions secured in the cases of cruelty to animals. Permission was asked by several ladies, who propose founding a cat boarding house, for affiliation with the Humane Society. The meeting carried a motion to this effect, it being shown that the movement would not conflict with the cat and dog hospital.

Miss A. George is president of the association and Miss W. Bell, who has been connected with the work for ten years, secretary.

The society placed itself on record as being in favor of steam shovels or other steam appliances for the excavation work in connection with cellars. Horses were being strained by a steep pull out of these holes even where two horses are used. It was thought that arrangements for doing the work could be made so that horses would not be strained.

Treasurer Robertson's report showed a balance. The society received notice that their lease of the office had expired and the rent would be increased. Mr. J. J. Kisko presided.

BIG BROTHERS CLUB QUICKLY FORMED

Membership List of Empire Club Turned Over to Commissioner Starr as Nucleus for Work Which Commissioner Starr Will Carry on in Toronto.

The membership list of the Empire Club will be turned over to Commissioner Starr of the juvenile court as the nucleus of a "Big Brothers Club," following his address to that body at their monthly luncheon at the St. Charles yesterday noon. Commissioner Starr explained to the members the formation of such a body of "big brothers" in New York, and the idea took hold of the meeting at once.

Toronto's kids' judge was introduced to the meeting by President Featherstonhaugh, who remarked, "Gentlemen, the man who will speak to you to-day is here." He then unfolded a page of The Sunday World, in which the judge of the juvenile court was featured.

There is often laughter at these meetings of this club. There is interest, thoughtfulness and indignation seen upon the faces of the members of this club often enough when they are listening to the addresses before them.

GLUE FOR GREASY PAPER.

Special Adhesive Required in Many Instances.

To effect a durable adhesion on greasy paper goods, a specially prepared glue must be used. Such a glue may be made by dissolving 25 parts of sugar in 75 parts of water, then adding 65 parts of slaked lime and heating the mixture for three days to 158 degrees Fahr. Then allow it to cool, pour it off clear after settling, and make up the evaporated water, in 40 parts of the clear solution soak 90 parts finely broken Cologne glue for three hours and then heat it in a closed vessel, stirring occasionally, for 10 hours in the steam or water bath. The strongly alkaline glue is then neutralized with 200 parts of oxalic acid and finally 0.1 part of dissolved carboric acid is added. Should the glue be too thick, it can be thinned with acetic acid, 10 per cent, of 90 per cent, acetic acid to the entire mass. With a glue made in the foregoing manner we can effect a good, durable adhesion on greasy paper goods. For the gluing of highly lustrous goods in the same manner, a specially prepared adhesive must be used, as ordinary glue dries out too much and cracks off. This defect can be easily remedied by adding some chloride of calcium to the glue. This greedily absorbs moisture from the air and consequently never allows the glue to dry out to a brittle condition without however, impairing its adhesive property.—Deutsche Drogerien Zeitung.

LEFT GAS TURNED ON

William Osborne, 30 years of age, 61 Jarvis-street, almost lost his life yesterday morning when his roommate carelessly turned the gas nipple without lighting the gas. Osborne was found in an unconscious condition, but by means of artificial respiration, he was restored to consciousness at St. Michael's Hospital.

SUPPORT TWO PREACHERS. Wyckwood Baptist Sunday School has undertaken the support of two native preachers in India. Secretary W. C. Senior of the Baptist Laymen's Movement for Missions, said yesterday that this was remarkable as Wyckwood was one of the youngest Baptist Sunday schools in the province.

The MACKAY Treatment

For The Cure of ALCOHOLISM

Dr. John M. Mackay's specific medicine for alcoholism is highly recommended by the clergy and was adopted by the government of the Province of Quebec in 1904.—See reports of the courts, 1904-1911.—Effective in 83 per cent of chronic cases.—Drunkenness is a disease and should be treated medically like any other. Dr. John M. Mackay's specific medicine cannot and does not fail where other means to be cured exist and where the Doctor's directions are faithfully carried out. This medicine is based on scientific principles—Removes craving for alcohol in shortest time—causes no distress or suffering to patients.—Has restored thousands of lives to sobriety and usefulness.

Dr. John M. Mackay's Medicine can be taken at home privately and without interfering with a man's occupation.—No special diet is necessary. The Treatment covers a period of 30 days, but it immediately relieves the craving for drink and enables a man to begin a new life with courage and confidence.

Inexpensive, and within the reach of every afflicted person. The Clergy, Dominion Alliance or W. C. T. U. can obtain the advantage of the medicine for the poor under a beneficent arrangement with the Government. The only treatment officially used by any government. Beware of imitations.

All communications private. Write for booklet and particulars to DR. MACKAY, 4 St. Lawrence Boulevard, Montreal, or to THE LEE-MING-MILES COMPANY, LIMITED, Leeming-Miles Building, 4 St. James Street, Montreal.

Special terms to Druggists, Medical men and Institutions.—Arrangements made with Municipalities and large employers of labor.

COMMISSIONERS MAY QUIT Appointment of Harbormaster for Montreal is Stirring Up Trouble.

OTTAWA, March 28.—(Special.)—An interesting and critical situation has developed between two members of the Montreal Harbor Board and their relations with the minister of marine and fisheries over the appointment of a harbor master in succession to James McShane, harbor commissioner, who yesterday had a consultation with the minister of marine and fisheries and placed his resignation of himself and that of his colleague, Mr. Peoffrion, in the hands of the minister of marine and fisheries, unless his terms for filling the vacant post are adhered to in appointing a new harbor master.

CORN MAKES NEW RECORD FOR THE MONTH OF MARCH

Scarcity of Fodder on Farms Inspires Further Bulge in Staple for Feed—Wheat Finished on a Decline—Oats Finer.

CHICAGO, March 28.—Corn to-day sold at the highest prices ever known for the month of March. Extraordinary scarcity of fodder on farms, owing to prolonged and severe winter conditions, was declared to be responsible.

Speculative interest centered in the corn pit. Famine in feed stuffs had become so acute that alfalfa hay in Kansas City could only be purchased to-day at the same price per pound as corn.

Wheat sagged in view of the spring-like weather which has been advancing northward steadily and because of the beneficial rains that had fallen over much of the winter crop country in the last 24 hours.

Good Wheat Weather. Wheat sagged in view of the spring-like weather which has been advancing northward steadily and because of the beneficial rains that had fallen over much of the winter crop country in the last 24 hours.

Provisions climbed to top levels this afternoon for current active deliveries.

Northwest Receipts. Receipts of wheat in cars at primary centres were as follows:

European Markets. Liverpool wheat closed 1/4 lower than yesterday, and corn unchanged to 1/4 lower.

Prima Beans. Receipts of wheat in cars at primary centres were as follows:

Argentine Estimates. The weekly Argentine estimated shipments with usual comparisons, follow:

ST. LAWRENCE MARKET. Receipts of farm produce were 200 bushels of grain and 9 loads of hay.

Grain and Produce. Local grain dealers' quotations are as follows:

Winnipeg Grain Market. Wheat—Op. High. Low. Close. Prev.

Manitoba Flour—Quotations at Toronto are: First patents, \$3.90; second patents,

Minneapolis Grain Market. Wheat—May, \$1.04; March—Close, \$1.04.

Winnipeg Grain Market. Wheat—Op. High. Low. Close. Prev.

Manitoba Flour—Quotations at Toronto are: First patents, \$3.90; second patents,

Minneapolis Grain Market. Wheat—May, \$1.04; March—Close, \$1.04.

Big Party Leaves Toronto for North—Rea at New Low Record

SENTIMENT DISRUPTED BY ABRUPT DECLINE IN REA

Porcupine Stocks Show Disposition to Sag—General List Holds Up Well—Rea Takes a Sudden Drop on Adverse Rumors.

World Office, Thursday Evening, March 28. An abrupt decline in Rea, which broke thru all its previous low records on selling, inspired by unfavorable news from the mining camp, had a weakening effect on the market to-day and turned sentiment into a bearish mood. Stocks, however, held up in good stead in the majority of instances, and while the market was given over to the bears throughout the session, changes generally did not turn into anything material.

MINTYRE STAMP MILL MAKING BIG PROFITS

Output Should Average \$60,000 per Month—Development Work Proceeds Apace.

Porcupine, March 27.—(From Our Man Up North).—There tests from the last clean-ups at the McIntyre stamp mill, following the shutting off of the electric power, shows that the 10 stamps were hammering out gold at the rate of \$60,000 for the month. In fact the management expected that the last two weeks of the month would see the average of something better than \$3,000 a week jumped to many times that amount.

THE FAMOUS DOME STAMP MILL

The opening of which will be celebrated in Porcupine on Saturday, which has been declared a public holiday in the camp. The public will be allowed to go thru the mill, and also to inspect the underground workings of the mine between 9 and 4 o'clock.

CHINESE FAMINE FUND

Subscriptions are now beginning to come in for the China Famine Fund. The appended list is forwarded from the office of the Presbyterian publication, The Lieutenant-Governor of Prince Edward Island has called a first instalment of \$400 direct to the United Churches of the island.

PORCUPINE HANDBOOK

DIRECTORY of the Northern Ontario Gold Fields—Porcupine and Swastika. Complete statistics of all the mining companies, maps of each township, record of discoveries, geological report, etc.

The Investor's Ready Reference Price 25 Cents Per Copy. The Porcupine News Depot 40 Richmond St. West Toronto, Ont.

MONTREAL'S BIG DAY

Starting C. N. R. Tunnel Will Be Function of Gilt-edged Type. MONTREAL, March 28.—(Can. Press)—When the first sod is turned, inaugurating the construction of the Canadian Northern Railway's tunnel under Mount Royal, a public ceremony will be arranged for by the management of the road, at which a number of prominent Canadians will be present.

OFF TO PORCUPINE

A big deputation of mining men, parliamentarians, best and brokers left Toronto last night for the Porcupine camp, to be present for the big celebration of the opening of the Dome shaft on Saturday. The day has been declared a public holiday, and a big time is expected.

PEARL LAKE SHAFT IS DOWN 400 FEET

Porcupine, March 27.—(From Our Man Up North).—The 400-foot mark in the main shaft has been reached and passed at the Pearl Lake Gold Mines, and the station in the shaft comes at this point, and a cavity large enough to be used for storage purposes is being made in the shaft-house is completed, and the cement base for the power plant is nearly finished. Two boilers of an immense size are to be driven by a small boiler. The compressor is electrically driven.

HOLLINGER WILL SINK TO DEPTH OF 400 FEET

Management Elated at Results in Winze—Stamp Mill to Open April 30. Porcupine, March 27.—(From Our Man Up North).—Strength and volume are shown in the ore body now being opened in the winze at the very heavy vein at 200-foot level, in the main shaft, at the Hollinger mine. The management is extremely well pleased with the results from the new tap on the leads. The water is now down 25 feet and will be rushed to a new level, the 400-foot depth.

FIRST GOLD RECOVERY AT DOME STAMP MILL

Famous Property on Producing Basis—Complete Battery of 40 Stamps in Operation. Porcupine, March 27.—(From Our Man Up North).—The Dome stamp mill has reached the acme of its capacity, yesterday 40 stamps, the whole eight batteries, being set in motion for a six hours' run. During the time three batteries only were in motion on account of pumping difficulties, water not being supplied thru the electrically-driven pump because of the blowing out of a cylinder head. The bad break is not yet repaired, water sufficient to operate two and three batteries, and even up to six, at times, was furnished thru a duplicate set of pumps at the power plant.

THE RED CURTAIN COMEDY

The banquet hall of the King Edward Hotel has often resounded with hearty laughter; but one is easily amused at a banquet. Crude wit and newspaper reporter representing the people of Canada, who will have to pay for it, were included in the cast, and appeared on the program as first and second citizens.

KAISER INTERESTED IN PANAMA CANAL

Advices Having It Heavily Fortified and Widening It for Dreadnoughts. NEW YORK, March 28.—(Can. Press)—Geo. W. Goethals, chief engineer of the Panama Canal and chairman of the canal commission, returned here to-day from abroad, with an account of an interview with the German Emperor, in which the Kaiser expressed vigorous views as to the desirability of strongly fortifying the canal against attack.

THE RED CURTAIN COMEDY

Well, it seems that the United Shoe Machinery Company has been leasing its machines to the shoe manufacturers under a lease or license which forbids the manufacturer to deal with any independent contractor and the board was appointed to find out if such leases or licenses were in fact exacted by the Shoe Machinery Company. Of course they are, nobody disputes it. Even the board must have learned it year ago, but the board is merciful to the lawyers and the other pie diem artists in its entourage. Hence the board must travel around to learn again what it already knows. It got the same information fifteen times over on Wednesday and went back for more yesterday. But little was forthcoming. The only witness available was Mr. Alfred Minister, of Minister, Miles & Company, shoe manufacturers of Toronto. He spoke well of the trust and all its works.

RISE IN WHOLESALE PRICES

OTTAWA, March 28.—This morning Mr. Crothers tabled a special report on wholesale prices with special reference to the high cost of living. It shows that prices now are considerably higher than ever before, the advance in 19 years having been some 45 per cent. The rise in retail prices in the year was five per cent, and in wholesale prices 2 per cent.

Wood, Gundy & Co. London, Eng. Toronto, Can.

WALL ST. GLOOMY OVER HIGH FINANCE IN STEEL

Thirty Million Dollar Bond Issue Affects Sentiment Adversely--Market Shows Hesitant and Reactionary Tone--Smallest Trading of Week.

NEW YORK, March 28.—For the third successive session today's stock market recorded further hesitation and reaction, with dealings the smallest of the week.

Another factor that contributed to today's heaviness, is the approach of April 1, with its uncertainties regarding the domestic coal situation. There is less optimism respecting a satisfactory outcome of these differences, both in the anthracite and bituminous fields.

On the curb one of the Standard Oil subsidiaries, the Standard Oil Co. of Kentucky, furnished the sensation of the day. The stock opened at 70, the rise overnight of 150 points, advanced in small lots to 100, from which it suddenly fell to 50, and the last actual movement principally represented a squeeze of the shorts.

Charles Head and Co. to J. E. Osborne (33 Melinda-street).—The reaction which set in yesterday on the announcement of the Steel Corporation's further operation in high finance was continued to-day. Prices at opening were generally higher in sympathy with a better market reported from London.

DIFFUSION IN STOCKS. The foregoing paragraph calls attention to the record of shareholders of the principal Wall Street corporations, and here accurate statistics are happily obtainable. The compilation of the Wall Street Journal for the year 1911, puts the number of shareholders of the United States Steel Co., which heads the list, at 120,000. Then in order follow the Pennsylvania Railroad with 89,760, American Telegraph and Telephone with 41,128, Atchafalpa with 30,000, The Union Pacific comes far down the list with but 19,892. Of special interest to Canadians are the Canada Cement Co., which is credited with 4500 individual shareholders, Dominion Text Corporation with 4000, Twin City with 3522, Montreal Power with 2192, and Detroit United with 1860. Dominion Canners has only 650 shareholders.

SILVER METAL AND MINES. The advance in silver metal prices to the highest level attained in a number of years, and the maintenance of the quotation at a figure well in advance of the record of the past couple of years, has not had any appreciable effect on the values of the Cobalt stocks. This is, of course, attributable to the restricted public interest in those securities. Across the border, however, the mining markets have taken a decided turn for the better as a result of the upturn in metal prices. The following table shows the comparative price levels of half a dozen of the Tonopah stocks. Tonopah, it is to be said, is a silver mining camp of greater or less prominence in Nevada.

March Jan. 1911 1212 1912. Montana Tonopah ... \$.88 \$.73 \$2.45. Belmont ... 5.82 7.75 10.60. West End48 .29 1.67. Jim Butler23 .29 .48. Missipah Ex.50 .70 1.40. Tonopah Ex. ... 1.12 1.97 1.97.

Senator Lorimer Holds Seat. WASHINGTON, D.C., March 28.—The right of Senator Lorimer of Illinois to his seat in the United States Senate was upheld to-day by the special investigation committee.

Toronto General Trusts Corporation DIVIDEND NO. 63. Notice is hereby given that a dividend of Two and One-half Per Cent. upon the paid-up capital stock of this Corporation has been declared for the current quarter (being at the rate of Ten Per Cent. Per Annum), and that the same will be payable on and after MONDAY, THE 1ST DAY OF APRIL NEXT.

Toronto General Trusts Corporation DIVIDEND NO. 63. The transfer books will be closed from Saturday, the 23rd, to Saturday, the 30th day of March, both days inclusive. By order of the Board. J. W. LANGMUIR, Managing Director.

The Robert **SIMPSON** Company Limited

CERTIFIED ROUTE OF THE CANADIAN PACIFIC'S LAKE FRONT LINE

The above cut is reproduced from the map-plan filed at Ottawa for the Canadian Pacific Railway's lake front line from Toronto to Belleville, and on to Montreal. The older surveys made within the past three or four years have all been abandoned between Port Hope and Toronto, and the line more or less changed. The line that has been finally adopted is the line with the cross-bars on it in the cut above. It leaves the present main line midway between Agincourt and the siding known as Sherring, which lies on the border line between Scarborough and Markham, and then goes due east and southerly to Whitby and onward. This new line when built will be the main line.

A careful look at the map shows that the line first filed at Ottawa left the main line midway between Leaside and Wexford, and was between the Grand Trunk Railway and the Canadian Northern. All this, however, has been abandoned, and the line leaves, as said before, about two or three miles east of Agincourt, and goes a good deal nearer to Whitby than was at first proposed. It runs right thru Oshawa, some distance away from Bowmanville. It crosses the Canadian Northern just east of the line dividing the two counties of York and Ontario. Another feature of the above map is that it shows how the Canadian Northern proposes to come into Leaside and on to North Toronto, but whether this plan of the Canadian Northern has been

filed yet or not The World does not know. Work on the line east of Agincourt will be begun in a few days, and at other points along the line. It is more than likely that the present line from Agincourt to Toronto will also be double-tracked, and will have additional bridges and improved grades. There is also some talk of the Canadian Pacific and the Canadian Northern both using the line of the Canadian Northern, as set out in this map from where the two lines cross at the line between York and Ontario into Leaside and North Toronto. This line would also have to be double-tracked. It would involve a big new bridge over the east Don, some place on Donlands farm, between St. Clair and Eglinton-avenues.

KILLED BY ELEVATOR

Israel Zinger Crushed to Death in Jordan-street Warehouse.

Israel Zinger, 144 Williams-street, was instantly killed by an elevator at Grand & Toy's warehouse on Wellington-street. Just how the accident

occurred is unknown. The elevator man was working at a bench and the first he knew of the man's presence was when he cried out. The hoist had come down and crushed the Hebrew's chest. The man was a rag picker, and an hour after the body had been removed to the morgue, his horse was found standing on Jordan-street. An inquest will be opened at noon by Coroner Myer.

Poisoned by Mud Cat.

KINGSTON, March 28.—(Special.)—Herbert Johnson, colored, servant of Dr. Vrooman, Nanapanee, is in the hospital in a very serious condition. A mud-cat ran its horns into his left thumb, and blood-poisoning set in.

Setback for Anti-Gamblers.

PROVIDENCE, R.I., March 28.—A bill to establish a state police force, which the Republican platform in the last campaign advocated as a means to

suppress gambling, was defeated in the house to-day by a vote of 48 to 28. Gov. Pothier, who recently began a crusade against gambling, had favored this bill. The representatives from practically every town and city watch the governor or has visited in the course of his crusade, voted against the bill.

Forty thousand wireless telegrams reached the coast of Great Britain last year.

EXIT THE PHOSPHORUS MATCH.

WASHINGTON, March 28.—(Can. Press)—The bill by Representative Hughes of New Jersey, Democrat, virtually taxing out of existence the phosphorus match industry in the United States, was passed to-day by the house after a heated debate. The vote, 163 to 30, was remarkable in that Minority Leader Mann was the only Republican

who joined the Democratic opposition to the measure. The high death rate among workers in the phosphorus match factories of the country inspired the bill. Besides imposing a prohibitive tax on phosphorus matches, heavy fines and penalties are provided for violations of the law. The exportation or importation of the matches also is forbidden. The main features of the law will go into effect on July 1, 1913, if the bill passes the senate.

Owls Invade Niagara Falls.

NIAGARA FALLS, Ont., March 28.—(Special)—With a membership of nearly 300, a nest of the Order of Owls was instituted here to-night. The statutory degree was administered by visiting Owls from the American side. News will be instituted in St. Catharines and Welland shortly. It would require 2,000,000 years for the sea water of the world to flow over Niagara.

GREAT PRE-EASTER SALE OF FINE BLOUSES

From France, England, and New York, which for intrinsic value and perfect styles has never been equalled.

The diversity of style almost baffles description, but everywhere are superb creations in heavy Duchesse and Satin De Chene, Ninon, Oriental Crepe, Charmeuse, delightful shadow laces, as well as in heavy Irish Guipure, changeable chiffron, taffeta, and the most perfect lot of fine hand-embroidered French sheer batistes, it has ever been our pleasure to show. All these are made after the most approved spring 1912 styles, and the choice (400) is so great that every customer can be assured of finding something to her taste.

The lowest regular selling price for any of these blouses would be \$6.50, the highest \$15.00.

They vary from 34 to 42 inches, but of course, not all sizes in all styles.

Almost every conceivable color and combination of colors is presented, as well as a very liberal choice of all black and white and ivory lace blouses.

A special staff of salespeople and every facility for quick and satisfactory service are arranged for.

See Yonge street window Friday for a slight indication of values, but the whole 400 are most excellent, representing to the very highest degree the art of blouse-making. Saturday 3.95

YOUR CHOICE ON SATURDAY for \$3.95

For Simpson's Boot Sale See Other Page in this Paper.
