ITALIANS Clear Out Last of Austrians AMERICANS Have a Million Troops in France GERMANS Hear War Aims From Kuehlmann Lloyd George Appeals for Settlement of the Irish Question

LAST AUSTRIAN REARGUARD IS COMPELLED TO SURRENDER

West Bank of the Piave is Completely Reoccupied by Italians, Who Gain Ground Also in the Monte Grappa Sector.

Rome, June 25.—Italian troops yesterday forced the last rear guard of the retreating Austrians to surrender and completely reoccupied the west bank of the Piave, the war office announced today.

On the mountain front between the Piave and the Brenta, in the Monte Grappa sector, the Italians vigorously attacked the Austrians, inflicting heavy losses upon the enemy and gaining considerable ground.

MILLION AMERICANS AT FRONT AND A MILLION TRAINING AT HOME

Third Million Will be Ready to Fill the Gaps as the Divisions Sail for Field in Endless Stream.

Washington, June 25.—The first division of the American army landed in France one year ago tomorrow. In the twelve months that have since elapsed this division has grown to an army in size, and by July a million men all told will have been sent forward.

Behind this million another million men are in camps and cantonments, equipped and eager to move, and behind these a third million will rapidly fill up the gaps left at home as the divisions sail for the front in an endless stream.

Secretary Baker estimated today that between 65 and 70 per cent of the men already shipped are combatant troops in the strictest sense of the word. The first division has now been expanded to a fighting force of 650,000 men, backed by an organization of the supply and transport lines that it takes 250,000 men to make effective.

American troops are now holding sectors of varying lengths in at least six places on the battle line. The real American sectors, however, lie on the right flank of the great battle front.

IRISH PROBLEM NOT INSOLUBLE

Lloyd George Says Parliament Can Carry a Just Measure.

PLOT BY SINN FEIN

Evidence Cannot Be Published, But a Conspiracy Existed.

London, June 25.—In the house of commons today Premier Lloyd George urged the need of settling the Irish problem because it was increasing the difficulties not merely of the British Government but of the United States Government in conducting the war.

Mr. Lloyd George said that the Irish problem was the most baffling that had ever come under the consideration of the government or of parliament. It had become a major problem that had more time to consider it than the present one. It was causing much difficulty and perplexity to the government.

Dealing with the evidence of the conspiracy, Mr. Lloyd George said it was the evidence of a conspiracy that was being conducted in 1916. It was not for some time, and then recovered. The government realized the significance of what was going on.

The difference this made, the premier continued, was that the attack on the British Empire was growing in Ireland and in Ireland was positively antagonistic.

Mr. Lloyd George said it would be an act of folly to try to force home rule through these conditions. He regarded the action of the Sinn Fein and others concerned in the plot in attempting to deal a deadly blow at that moment of great peril by challenging the whole supremacy of the British Empire.

Whether fully aware of the measure of self-government until this emotion had subsided, the folly of abandoning every attempt to secure Ireland's consent to imperial rule, he said.

He added that he still was hopeful of the possibility of a settlement of the Irish problem during the war.

Nobody could imagine, the premier continued, that any one charged with the tremendous problems committed to the government's care was going to seek for trouble by trying to effect a settlement in Ireland, or of any domestic problem, unless it is forced upon them as a war problem.

The allies were fighting for the principle for which Ireland has struggled, he said, and he hoped Ireland was prepared voluntarily to take her share in the struggle at any time. It was the duty of the government of Ireland of all before it to take any further action in the matter, to see that Ireland had the opportunity of entering the struggle voluntarily.

Lieut. Donald Hardwick led an advance squadron ensuring the continuation of the advance that he himself was seriously wounded. Lieut. Lieut. Richard Mills penetrated the enemy's advance lines with the utmost skill and fearlessness. Capt. Joseph Stratford continued to attack, although greatly outnumbered and consolidated the position.

Lieut. Samuel Williams fixed a machine gun when he had only a few men to hold the position and after the capture of many prisoners and several officers, he himself completely broke the enemy counter-attack.

TROTSKY AND LENINE ARE URGING CIVIL WAR

Advocate Sending of Parties to Organize Villages Against Rich Peasants.

Moscow, Wednesday, June 25.—The central executive committee and the Moscow executive committee met yesterday to consider the critical food shortage, and were addressed by Nikolai Lenine and Leon Trotsky, respectively the Bolshevik premier and war minister, who urged that civil war against rich peasants and village food speculators was the only means for obtaining bread for the starving cities.

Lenine urged that the fight against hunger must be a thorough centralized struggle carried on by broad masses, composed of workmen and the red army, sent by the central soviet to villages to organize the poor peasants in their campaigns against rich peasants.

Trotsky said the Red army was unable to fight properly because of lack of food and that the counter-revolutionists of all sorts were using hunger as a weapon to defeat the soviet.

He said the counter-revolutionists had encouraged the Czech-Slovak troubles, which were aggravating the food shortage by stopping Siberian grain and encouraging the movement of General Semenov in Siberia and General Krasnov's insurrection in the Don region.

BIG GERMAN RAIDER SEEN

Norfolk, Va., June 25.—Reports of the Federal Bureau of Investigation that a German raider in West Indian waters were brought here today by masters of the ship "Black Sea" from America. The ship is said to be of the cruiser type, of a rakish build and clean lines. The fact that the raider made no effort to attack at least two vessels which sighted her, led the captain to believe that she is a "mother ship" for submarines which recently were operating off the Atlantic coast.

Foreign Secretary Tells the Reichstag of Enemy's War Aims, and Says Victory for Entente Allies is a Dream.

Amsterdam, June 25.—Germany's war aims were briefly set forth, the idea that she desired to secure world domination thru the war disclaimed, and the responsibility for the conflict primarily placed upon Russia, by Dr. Richard von Kuehlmann, the German foreign secretary, in a speech to the reichstag in Berlin yesterday.

While declaring that what was desired for the German people and their allies was "a free, strong, independent existence" within the boundaries drawn for them "by history," the foreign secretary said Germany would have to decline to make any prior concessions by stating her position as to Belgium in a way which would bind her without similarly binding Germany's enemies.

Referring to the responsibility for the war, as he viewed it, Dr. von Kuehlmann said:

"I do not believe any responsible man in Germany, not even the emperor or the members of the imperial government, even for a moment believed they could win the domination of Europe by starting this war. The idea of world domination in Europe is Utopian, as was proved by Napoleon."

After declaring that the revelation that had been made showed Russia as the power which planned and desired the war, with France abetting her, and England's attitude strengthening the Russian desire for conflict, Dr. von Kuehlmann again declared that Germany had not entertained any belief that this war could lead even to the domination of Europe, and much less that of the world.

What Germany Wants. In introducing his statement of the German war aims, the foreign minister said:

"I consider it necessary to say quite simply and in a way easy for all to understand, what our positive desires are."

"We wish for the German people and our allies a free, strong, independent existence within the boundaries drawn for us by history. We desire overseas possessions corresponding to our greatness and wealth; the freedom of the sea, carrying our trade to all parts of the world."

Regarding Belgium, the foreign secretary said: "We must decline to make, as it were, a prior concession by giving a statement on the Belgian question which would bind us without in the least binding the enemy."

With reference to the peace question, Dr. von Kuehlmann quoted former Premier Aquili's speech of May 16, in which he said that the British Government would not turn a deaf ear to a peace proposal if it was not couched in ambiguous terms.

"We likewise can make the same declaration," added the foreign secretary, "knowing it to be also our policy."

"Once the moment arrives — when I care not to prophesy — that the nations which are at present locked in battle will exchange peace views, one of the preliminary conditions must be certain degrees of mutual confidence in each other's honesty and chivalry."

"For so long," continued Dr. von Kuehlmann, "as every overture is regarded by others as a peace offensive — as a trap or as something false for the purpose of sowing disunion between allies; so long as every attempt at rapprochement is at once violently denounced by the enemies of a rapprochement in the various countries, so long will it be impossible to see how any exchange of ideas leading to peace can be begun."

"Our position on the battlefields, our enormous military resources, the situation and the determination at home permit us to use such language. We hope our enemies perceive that in view of our resources the idea of victory for the entente is a dream."

Aland Island Fortifications. The foreign secretary said an agreement had been reached whereby the fortifications on the Aland Islands, in

SECRET OF ITALIAN VICTORY IN QUICK COUNTER-ATTACKS

Their Infantry at Times Was Opposed by Five Times Its Number, Yet Austrians Were Driven Back.

Italian Headquarters in Northern Italy, June 25.—Italy's victory has been one of science over blind courage. The Italians from the start had more artillery against them, but their fire was always accurate and quick, while the Austrian fire was diffused.

The Italian infantry at times were opposed by five times their number, yet the Austrian troops were driven back, despite their splendid courage, which the Italian commander-in-chief, General Diaz, has called "unfortunate valor."

The secret of the Italian victory seems to lie in immediate counter-attacks, which were carried out wherever the enemy showed himself, local counter-attacks being followed up by counter-offensives all along the line.

The general feeling at headquarters is that, tho the victory has been great, there are yet harder days ahead of the defending forces.

The Austrians now on this side of the Piave either are prisoners or else are candidates to become prisoners," was the way an officer smilingly summed up the military situation this morning.

The resistance of the Austrians on the lower Piave, from Capo Sile to Fossalta, was very strong. For days they had the advantage of the natural fortifications of the dykes, which stood up from the river bank from eight to twelve feet, and furnished an almost impregnable defence. Even here, however, Italian patrols harassed them sorely.

NINE WOMEN THROWN FROM MOTOR TENDER

Nine women were slightly injured late last night, when a tender belonging to the British Acetones, Ltd., overturned as it swerved suddenly to avoid hitting another motor car at the corner of King and Sumach streets.

The car was going south on Sumach street when the driver, Thomas Hicks, noticed another motor car approaching from the opposite direction. In an endeavor to avoid hitting the other machine, Hicks is thought to have turned suddenly, throwing the occupants who were going to work on a late shift, out on to the road.

CANADIAN BIRDMEN GET MILITARY CROSS

Four Are Gazetted for Destroying Enemy Planes and Making Reconnaissances.

London, June 25.—Four Canadians of the air force were today gazetted for the Military Cross.

Lieut. John Edward Hamming, formerly an engineer, while endeavoring to shoot down an enemy balloon was attacked by a scout. His machine gun was twice put out of action and himself wounded in the leg, but he succeeded in firing into his antagonist, the pilot of which collapsed in his seat, the machine spinning to the ground. His own machine was greatly damaged, but he brought it down safely.

Lieut. Herbert Rae Kincaid completed a long reconnaissance under the most difficult circumstances, returning with extremely valuable information.

Lieut. John Edwards Pugh accomplished twenty bombing raids and fifteen photographic expeditions. Despite a strong enemy fire, he took 108 photographs in two days, and dropped three-quarters of a ton of bombs in five days.

Lieut. Frank Harold Taylor shot down a scout in flames, and sent another out of control. On the following day he shot down a triplane.

RAIDS MADE BY FRENCH

Paris, June 25.—The war office announcement tonight reads: "Between the Oise and the Aisne raids enabled us to take prisoners. The artillery activity was spirited in various sectors south of the Aisne, particularly in the region of Sully-la-Poterie."

"On June 24 six enemy machines were brought down or fell in a damaged condition. More than four tons of projectiles were dropped on aviation grounds in the Aisne region."

"Eastern theatre, June 24: On the right bank of the Vardar the enemy artillery shelled our batteries and bombarded our positions northwest of Nayadag. On the Serbian front enemy detachments which attempted to reach our lines were repulsed. North of the Detol we improved our positions, occupying Ormaai. In the course of aerial operations during the day two enemy machines were brought down and a third was compelled to land in a damaged condition."

the Baltic, were to be removed, but that a final decision had not yet been reached regarding the future of the islands.

"We hope and desire, however," Dr. von Kuehlmann said, "this question will be so settled that the maximum guarantee can be given that, to the advantage of all dwellers on the Baltic coast, the non-employment of the islands for military purposes may be assured for all time."

Speaking on the military situation on the Austro-Italian front, Dr. von Kuehlmann ignored the Austrian retreat across the Piave and told his hearers in the Reichstag:

"The Austro-Hungarian army has in a dash on onslaught attacked the Italian positions, achieved noteworthy successes, and has pinned down large and important enemy forces on that front."

With reference to Russia, Dr. von Kuehlmann said:

"It is impossible to believe that the great process of fermentation and wild irregular movement of conflicting forces which has displaced the equilibrium of the czaristic power released, has reached permanent equilibrium. All conditions in the former empire of the tsar must to a certain extent be described as uncertain. Our policy in view of this situation, is close observation and strict watchfulness, but as purely internal affairs are concerned, correspondingly wise reserve."

"The eleven of national fermentations within the Russian body pointed to the detachment and severance of a whole series of entities, which have partly attained to a certain independence and are partly developing toward that end."

"In Finland the battle has been decided in favor of the party which was striving for Finland's independence. The soil of Finland has been cleared of red guards, and everything points to Finland being about to develop toward a high culture which is hers in the form of an independent state."

German troops held. The secretary said that the number of German troops which participated in the battles in Finland at the latter's request was small, but they undoubtedly contributed their share in shaping events.

"By the treaty of Brest-Litovsk," Dr. von Kuehlmann said, "Lithuania and Lithuania were severed from the Russian Empire. It was from the outset clear to the negotiators that the partition of the Baltic region by the line fixed in the peace treaty was bound to create an extraordinarily difficult situation. It was hard for the Lithuanian population to endure the prospect of being cut up. The historical internal cohesion of the entire Baltic region suggested a time when peace would be possible, the possibility of a lasting separation between Lithuania, Estonia and Courland. But conditions arising from the war made it impossible on the one part, by the complete dissolution of the Russian state and, on the other, for us by the desire and necessity of arriving at certain settlement in the east, involved for us the necessity of concluding peace as it was done."

"An agreement with the entire German public we resolved to give ear to Livonia's appeal for help, and replace the reign of terror carried on by the Red Guards by a reign of peace and order. The inhabitants of these provinces, mindful of the misgovernment and terrible sufferings which they had undergone, turned to the German authorities."

"The imperial government from the east took the responsibility of a highly desirable, before finally giving diplomatic recognition to the states which detached themselves from the former Russian Empire, to come to an understanding with Russia as to the form the recognition of such states should take. This line of conduct will not be departed from."

After referring to the discussion which had taken place with the soviet government in Berlin, Dr. von Kuehlmann said that a conference was about to take place in Berlin under his presidency, at which an attempt would be made to bring about friendly agreement on all points still pending.

"I can express the hope that the discussions with soldiers' representatives and the requirements thereof and wishes of the populations there and the interests of the German people," Dr. von Kuehlmann said, "will be more closely into the future of Courland and Lithuania, which he maintained within the domain of the home department."

In the course of his address Dr. von Kuehlmann paid tribute to the neutral states which had done everything to mitigate the suffering of wounded prisoners and which had offered, if need be, the hospitality of their country for discussion between the belligerents."

He added: "Any fears that some change might occur in the strict observance of Spanish neutrality treaties to be at present in no way justified. In America some small states, under the ever-increasing pressure of the United States, have joined the enemy ranks, but no substantial changes in the position have taken place. The imperial government's policy is to do everything that can be done to render impossible the entry of further neutral states into the ranks of our enemies."

Speaking of the military situation, Dr. von Kuehlmann said that victories had been given the Germans the initiative in France, and he continued, "we hope that the summer and autumn will bring to our arms a new and great success."

"The Austro-Hungarian army also has in a dash on onslaught attacked the Italian positions, achieved noteworthy successes and pinned down large and important enemy forces on that front."

When one makes a wide survey of events and must ask whether the war, according to human calculations, will last beyond the autumn of the winter, or beyond next year. There is a common idea among the people that the length of the war is something absolutely new, as if the authorities, who have lived in our time never reckoned on a very long war. This idea is incorrect."

Dr. von Kuehlmann quoted Von Moltke, who in 1859, in the reichstag, said that war could not be calculated. "Despite the brilliant successes of our arms," he continued, "there has been nowhere clearly recognizable among our enemies readiness for peace. The German government has repeatedly laid down its standpoint in declarations intended for the widest publicity. Our enemies have nothing to show that can in any degree compare with the German peace offer, with the resolution of this house, or with the reply to the papal note."

No Ray of Light. "The declarations of our enemies, especially of English statesmen, allow as yet no peaceful ray of light to fall on the darkness of this war."

Referring to Mr. Balfour's speech, in which the British foreign secretary said that Germany had unchained the war to achieve world domination, Dr. von Kuehlmann said:

"I do not believe that any responsible man in Germany, not even the Kaiser or the members of the imperial government, ever for a moment believed they could win the domination in Europe by starting this war. The idea of world domination in Europe is a Utopia, as proved by Napoleon. The nation which tried it would, as happened to France, bleed to death in needless battle and would be most grievously injured and lowered in her development. One may here apply Von Moltke's phrase, 'Wee to him who would Europe seize!'"

"At no moment of our later history was there less occasion for us to start to death in needless battle and would be most grievously injured and lowered in her development. One may here apply Von Moltke's phrase, 'Wee to him who would Europe seize!'"

"From England the reproach is constantly made that we are not prepared to bring a hint from England to state our attitude publicly on the Belgian question. On this point the fundamental views of the imperial government differ from those ascribed to us by British statesmen."

INGEROLL VETERANS REORGANIZED. Ingeroll, June 25.—Under conditions indicating much enthusiasm the reorganization of the town, at a meeting at the Soldiers' Home Club, reorganized the local branch of the Great War Veterans' Association. The secretary, Dr. F. H. Harris; vice-president, C. Brown; secretary, treasurer, A. N. Toole; assistant secretary, DeWitt Pitt; executive committee, H. Walker, B. Chaberski, J. Nesbitt, C. King, E. Wright.

German attack, but on several other sectors, notably in the Woerwo and in Lorraine, themselves have carried out successful raids and taken prisoners. The Canadians, taken prisoners, have been successful in an enterprise which netted them 22 prisoners and six machine guns. The Germans are bombarding the British front east of Amiens.

Synchronously with the defeat of the Austrians in Italy and the spirit of unrest prevalent in the dual monarchy comes another acknowledgment from Germany that this country is desirable on peace.

Through its foreign secretary, the German government has made the admission that the end of the war could hardly be expected through purely military decisions alone and without recourse to diplomatic negotiation, and that it was hoped Germany's enemies would realize that in view of the resources of the Teutonic allies, victory for the entente was a dream.

The foreign secretary was evasive with regard to the future status of Belgium, but asserted that the fundamental views of the imperial government differed from those ascribed to it by British statesmen. The aims of Germany and her allies, he said, included "within boundaries drawn for us by history," overseas possessions corresponding with their greatness of wealth and freedom of the seas to commerce.

In response to a recent speech by Mr. Asquith the former British premier, in which he said that Great Britain would not turn a deaf ear to a peace proposal not couched in amercing terms, the foreign secretary declared that Germany could make no declaration, "knowing it also to be a lie."

One of the most remarkable utterances of the foreign minister was a declaration in which he placed the onus for starting the war on Russia, with France and Great Britain next in order, culpable.

YORK COUNTY COUNCIL TO IMPROVE ROADS

A bylaw to extend the plan of highway improvement in North York was passed by the York County Council, when it met last night.

On Feb. 25, 1911, a debenture issue for \$100,000 was passed on behalf of the county. On Feb. 26, 1911, a further \$100,000 was raised by a debenture issue. The first two issues North York was not taxed for any share of this amount, but on and after Jan. 1, 1918, North York had to pay its share for highway improvement, along with the rest of the county.

Dr. John Brown, Charles W. Bishop and Dr. Byers, a returned soldier, addressed the council on behalf of the organization of the Y. M. C. A. in North York. In making his address, Bishop said that the charges of the G. W. V. A. would shortly be refunded, when a statement would be submitted to the council. Mr. Wallace wanted to know if the boys got any of the money from the fund. Mr. Bishop replied that the men got it indirectly by service. The grant was left over from the discussion.

Ex-inspector James L. Hughes appeared before the York County Council yesterday to advise that a fund had been named from that body to act with the York Pioneers on the board of the Soldiers' Home. He was asked to look after the fund, and to be looked after by the board. The fund was named after the late Col. J. M. Gardhouse of Etobicoke, and the name of the fund is the late Col. J. M. Brampton

FIRST BABY CLINIC HELD AT BRAMPTON

The Presbyterian Church yesterday afternoon was the scene of the first clinic in connection with the 'child welfare week' arranged by the department of agriculture, of which J. W. Stark is representative in Peel. In one class room a member of the Women's Institute was engaged in weighing the babies, and some of the little folks acted as 'cook' in a vegetable and fruit cooking class. But the mothers who had brought their babies were only too glad to have the various ailments of the children. From the weighing room, the children were passed over to Dr. A. Lawson and Dr. Vanderlip, who were assisting Major W. S. Sharpe, M.O.H. of Brampton, at the clinic, and how many mothers know why their little ones are thin, or why they do not sleep well, and have more desirable conditions. Miss Knox, who is in charge of the clinic, is a member of the department of health, and proved a refuge to the worried mothers by her able tact and sympathy. In the afternoon another corner was devoted to the display of a model nursery, such as one as could be had in a rural home. The Women's Institute had set out a table displaying suitable to the different ages. The new-born infants to the children of the rural mothers. A simple outfit by means of which the children in country schools might have a hot addition daily to the cold lunch carried from home. The Girls' Club had a table in still another corner, displaying a simple 'ironing board' clothing that every girl or woman may have.

At 4 o'clock Mr. Stark addressed the school children, when a motion picture of the 'child welfare week' was shown. The structure of the teeth, and then the proper care of them. Other pictures calculated to teach while entertaining were given, and the youngsters went home with their heads filled with something new from the show.

About 200 children were weighed and examined, and the mothers will take advantage of the opportunity today, when the first lot of mothers took of the babies, and the mothers were assisted by the medical staff in attendance.

Earlscourt

EARLSCOURT'S WELCOME TO THE BLUE DEVILS

Arrangements have now been completed by Henry Parfroy, first president of the British Imperial Association, to give a night British Earlscurt welcome to the French 'Blue Devils' when they visit Toronto this week.

The 'Blue Devils' will march from Leaside aviation camp along St. Clair west to Lansdowne, about 2.30 p.m. on Sunday next, and a detachment of the 3rd W.V.A. will meet them at the corner of St. Clair and Dufferin. Earlscourt school children, numbering many hundreds, will line the route and will shower flowers upon the brave fellows who have fought so nobly for the allied cause.

The local branch of the Great War Veterans' Association will also be on hand to give their brothers-in-arms a real British-Canadian cheer. It was the intention of the B.I.A. to entertain the 'Blue Devils' at Royce Park, but it was found to be impracticable. This, however, will be made up by the great welcome that Earlscourt intends to give.

This is two days ahead of the usual date, but was authorized by the board of education at the last meeting, as many of the pupils had already concluded the term in connection with the examinations for promotion to the high or normal school. Justice Lennox will be asked by the board of education to appoint independent counsel to examine witnesses at the investigation to be held into school matters by that judge. An application will be made to the Dominion Government for the amount expended for occasional teachers who had to be hired to take the place of regular teachers who acted as deputy registrars.

USE SUBSTITUTES FOR WHEAT FLOUR

Proportion in Bakery Productions After July 15 Must Be One to Four.

FOOD BOARD ORDER Between July 1 and July 15 Proportion Will Be One to Nine.

Ottawa, June 25.—Compulsory use by bakers, confectioners, public eating places and private households, of substitutes for wheat flour are prescribed in an order issued today by the Canada Food Board.

In making this measure public, Mr. Thomson emphasized the absolute necessity of conserving our small stocks of wheat in order that we may share them with our allies, especially during the next four months, when their food situation will be extremely difficult.

The order defines as substitutes for wheat flour, "pure and wholesome corn, oats, barley, rice, rye, buckwheat, linseed, or potato flour, bran, shorts, oatmeal, rolled rye, corn meal, corn starch, hominy, corn grits, rye meal, rice, tapioca, or any mixture of same, and potatoes."

Four pounds of potatoes will be considered equivalent to one pound of the other substitutes.

The order provides that on and after July 1, bakers, confectioners and public eating places in making any bakery product in which the use of substitutes in certain definite proportions is not prescribed by previous orders, the food boards must use one pound of substitutes to every nine pounds of standard wheat flour.

On and after July 15, this proportion, so far as places east of Port Arthur are concerned, must be increased to one pound of substitutes for every four pounds of white or standard flour.

Restrictions on Sale. On and after July 15th, no licensed dealer may legally have in his possession for sale any wheat or standard flour, unless he also has a sufficient quantity of substitutes to meet the demands of his customers at reasonable prices.

Persons at points east of, but not including, Port Arthur must purchase substitutes in the proportion of not less than one pound of substitutes to four pounds of wheat or standard flour.

Labels. The latter expression will be a guarantee that the prescribed amount of substitutes for standard wheat flour required by the Canada Food Board have been used in making the loaf.

DOROTHY DIX'S TALKS TO CAMOUFLAGE UNATTRACTIVENESS

By DOROTHY DIX The World's Highest Paid Woman Writer.

I have received a letter from a girl, in which she writes: "I am 20 years old. I am not pretty. I am not clever. I have no talents. It is possible for a girl who is just utterly ordinary and commonplace to make herself attractive and admired—to acquire what is called charm?"

Yes. It is nothing but stupidity and laziness that makes a woman unattractive in being as ugly and dull as she was born. It may be true, as the Bible says, that no man can, by taking thought, add a cubit to his stature.

Good looks are, of course, a woman's one best bet. The first thing that we notice about a woman is her appearance. The first question that a man ever asks about a woman is whether she is beautiful or not.

Many a woman whom we regard as beautiful has not really a trace of beauty or a single good feature. She is merely a woman who knows how to control her hair, who has taken the trouble to acquire the fine art of make-up, and who is always dressed in tasteful clothes.

This news comes just at a time when the general public is rather in a state of confusion.

Trotting Opening at Port Huron

WARHOP'S BENDERS BAFFLED LEADERS

Binghamton Suffer a White-wash in First Game of the Series.

Howley's Hopes opened the home stay in the proper fashion. The Leafs stepped into the leading Binghamton outfit yesterday just as if they were tailenders and smeared them with a pretty dose of kaisoime. Jack Warhop was the artistic decorator. The underhand twirler had the league leaders eating out of his hand at all stages, and not once did they cross the plate. The Leafs got to old Sam Frock for eight hits and three runs. The visitors gathered in five widely-scattered bingles.

King Lear is with us again, and it can be said that he looked nice at the middle station. Wagner is still among the missing, and Anderson worked at the short field stop. He did not make the best job in the world of tossing them to first, and four misplays went his way. Duke Reilly from the A. A. makes a very handy man in the left. His dukeship got under the high ones in the driving eastern rain in handy fashion, and the titled gentleman delivered a hit. He also runs the bases like a real player, and we are glad to see he is willing to take a chance.

The fans were so busy watching Warhop mowing down the leaders that they did not have much time to look over the rest of the outfit. One little incident that failed to slip through the Whitehouse mammoth home run. The policeman outfielder drove one into the right-field bleachers for the circuit in the eighth, and let us tell you here that it was some hit. A gale was blowing out of the east, and Whitey drove the ball right into the teeth of this hummer and landed it up in the bleacher. He also grabbed off a single during the afternoon.

JOHNNIE WARHOP PITCHER DE LUXE

Aided by Excellent Fielding He Shut the Bingos Out Cold.

Yesterday the Leafs put up as nice a game of baseball as one would want to see, and Dan Howley in deserving of a million dollars worth of congratulations, because he had them working like a pennant-winning outfit from their first appearance on the field, and even in practice he kept them "up and at it" every minute. In fact, it was quite the best practice that we have personally witnessed this season, and from the stand the fans felt that they were ready to lick any aggregation in the league, so that their shutting out the leaders was not at all surprising, but nevertheless it was most gratifying, and once again we would like to hand all the praise to Daniel; also with the vote of thanks might go good wishes for the rest of the season.

Jack Warhop, boy, what speed he had, and how he did make those birds knock out of the park. Why, he had them eating off his hand, and apparently he was not trying his very hardest either, but he was really ready to lick any aggregation in the league, so that their shutting out the leaders was not at all surprising, but nevertheless it was most gratifying, and once again we would like to hand all the praise to Daniel; also with the vote of thanks might go good wishes for the rest of the season.

TWO GAMES TODAY

The mid-week holiday baseball fans haven't had one real good chance this season to watch the Leafs perform. Either the rain has spoiled the proceedings, today, however, if fine weather prevails, they should make up for lost time. In addition to the game of the price of one they will be able to look over the league leaders in a doubleheader. Thursday there will also be a doubleheader with Binghamton. Friday will see big proceedings at the Island Stadium. The Sammies, who will pass thru Toronto on their way to an eastern port, will stop over here for a game with the local Veterans at the Island Stadium. Three hands will be on hand to deliver the rain. The S.P.A. will look after the handling of the soldier hospital cases, who will also be the guests of the Toronto club. Reserved seats and combination tickets for all games are on sale at Moody's.

The Woodchicks will practice on Wednesday evening at Willowdale Park. All players are requested to be on hand.

SUBURBAN POINTER WINS THE FEATURE

At Opening of Short-Ship at Port Huron—The Summaries.

Port Huron, Mich., June 25.—The feature of the opening day of the Michigan "short ship" trotting meeting, which was held this afternoon under ideal conditions, was the victory of Suburban Pointer in the 2 1/2 mile pace for a \$1000 purse. The gelding won the event after five heats made the pace, the Pointer being allowed to jog until he was ready. In the third Gray sent his horse to the post, but the Pointer made the pace, the Pointer being allowed to jog until he was ready. AL COLLINS WILL RACE AT TOLEDO

Trainer Al Collins loaded the good trotter, Shamkin, 2:15 1/4, by Jim Todd, Hillcrest track Monday. Windsor, Ont., from where he will later start for Toledo, Ohio. Shamkin is owned by J. Gorman, of this city, and last season he won the Grand Circuit meeting at Toledo, Ohio, by a mile and a half, to obtain a fast record before the close of the season.

Montreal Champion Enters Tennis Tourney

The list of local entrants to the Red Cross tournament of the Toronto Tennis Club guarantees an interesting week's tennis, and the local experts have to play their best if they are to stay in the running. The Montreal champion, J. V. Yessy, the Montreal city champion, and always a strong tournament player, and who was a feature at the Toronto state championships at Burlington, Ontario, is expected to be here. It is also announced that the Winnipeg champion is en route, in order that they may familiarize themselves with the grounds before the tournament begins. While the tennis on Saturday, the opening day, will be worth coming a long way to see, a special feature of the program will be the presence of the Lieutenant-Governor and Lady Hendrie, who will unfurl the club's service flag, showing over one hundred and twenty-five military leaves.

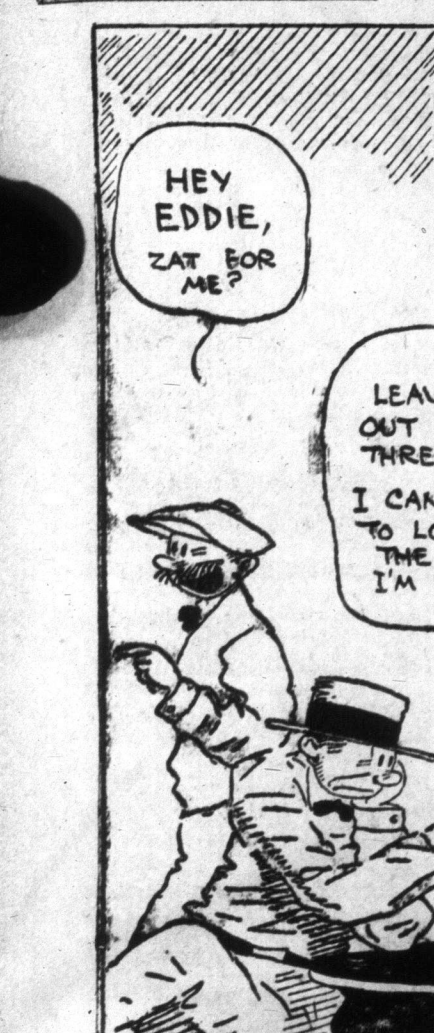

WELL-KNOWN DRIVERS AT EXHIBITION PARK

Some of the most famous racing cars on the continent, as well as drivers, will gather here Saturday for the S.P.A. meet at Exhibition track. Disbrow is bringing his famous 100 horse-power Christie and a Simplex, Chevrolet, a Buick, and a Ford. A Duesenberg, Waldo a Duesenberg special, and Chevrolet a Buick. D'Allen will handle Bob Burman's famous Keaton racing machine. With cars like these in the arena it is surprising that the track records are bound to go by the board and world's record figures should be approached. Miss Ruth Lewis and the airplane in which she will race Chevrolet will be in town tomorrow afternoon. The S.P.A. received word yesterday that war tax on tickets for the meet would be remitted, because the profits go to the various soldier fund-raising activities fostered by the Sportmen's Association.

ABILITY PLIABILITY RELIABILITY

"ACME" Soles have "walked" into favor with the public. The tremendous increase in the demand for them proves that.

Outside of Dunlop Traction Tread Tires, no other product emanating from our factories has quite equalled the furor created by "Acme's" advent into Soledom.

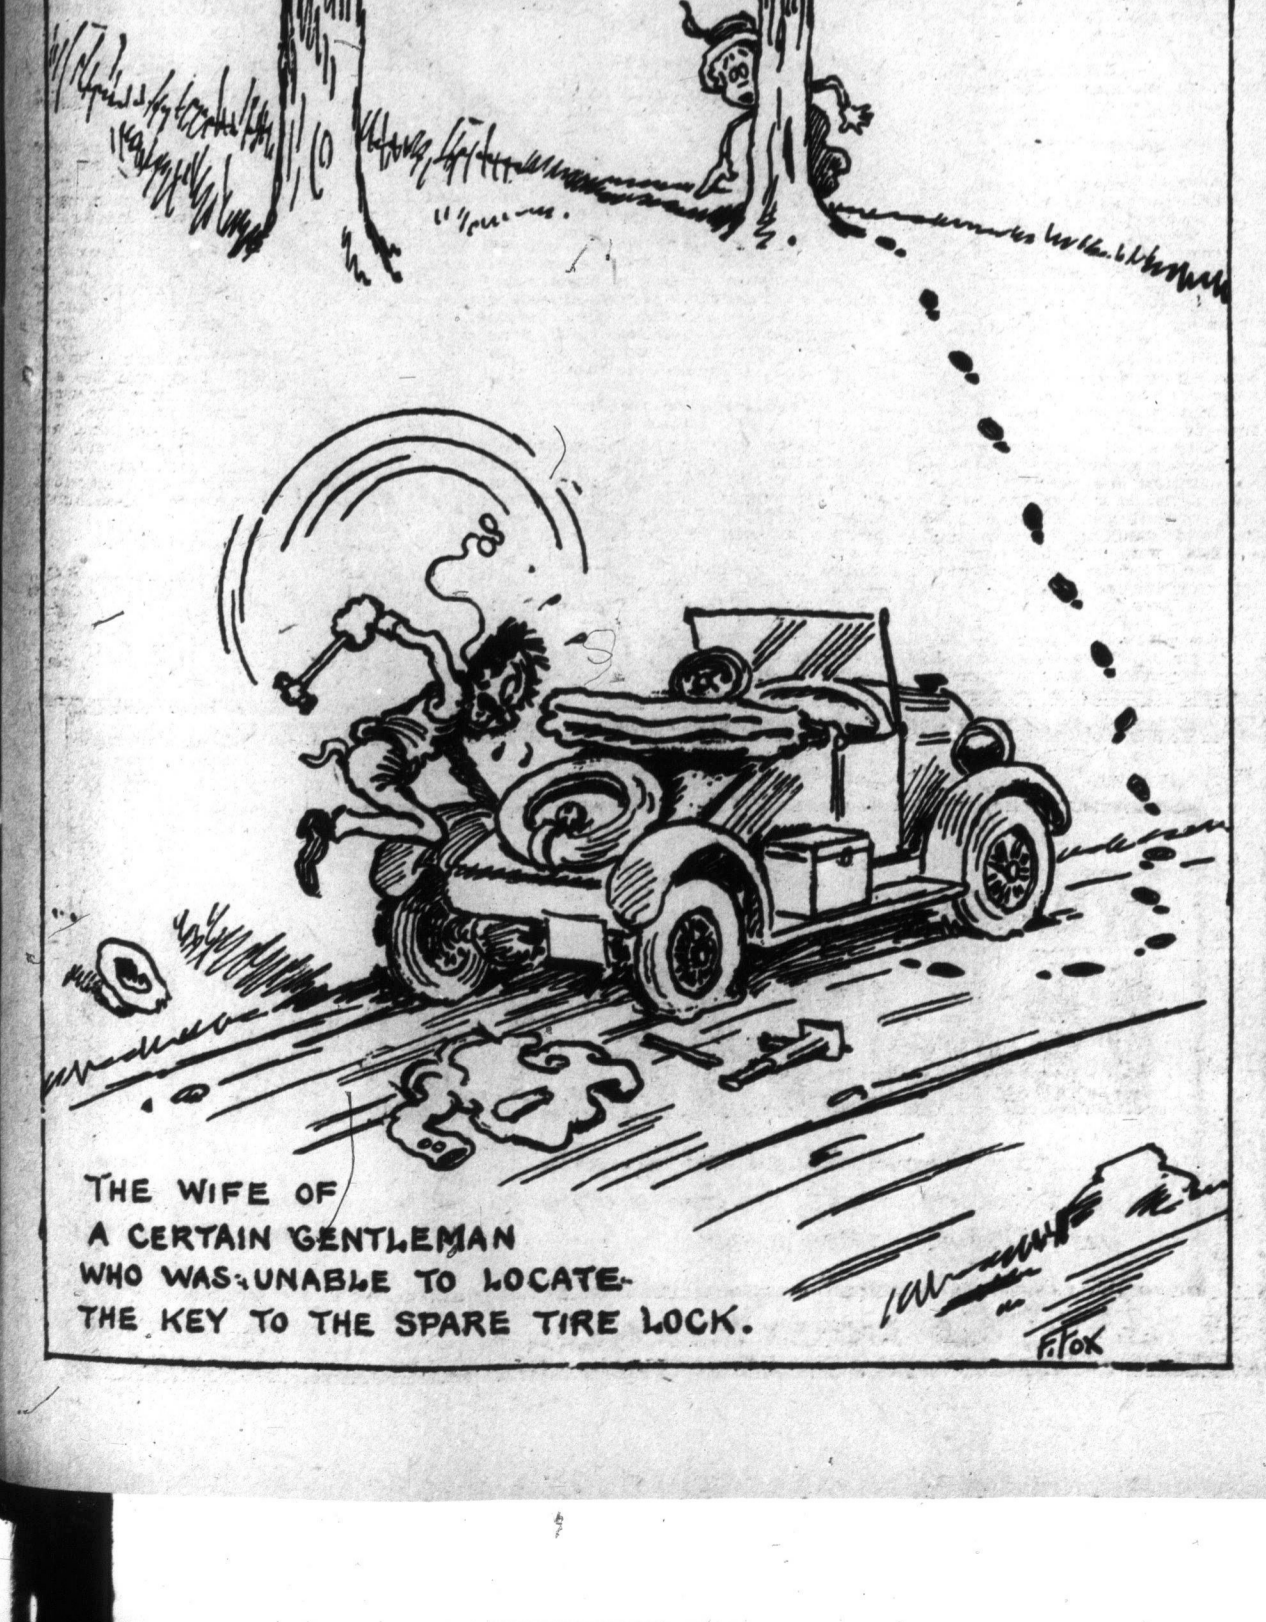

In a field so new and so radical, only one fact could account for such an unusual success in such a short time—Ability, Pliability and Reliability.

Ability of "Acme" Soles to outwear leather. Pliability of "Acme" Soles in actual use, by those who search for boot and shoe comfort. Reliability of "Acme" Soles when the count is being made of Squeaks and Cracks.
