GREAT COAL STRIKE SETTLED! LET EVERYONE GIVE THANKS! RIVAL PARTIES AGREE TO ROOSEVELT'S SIX ARBITRATORS

President Mitchell Has Called a Meeting of His Executive Committee and the Strike Will Be Called Off and Mining Resumes—Secretary Root Makes Official Announcement—Sixth Member Represents Labor-Union.

BULLETIN.

Washington, Oct. 15.—The strike is settled. Secretary Root announced at 1 o'clock that a common ground of agreement had been reached. The President has named a commission of six persons as an arbitration commission.

President Mitchell has called a meeting of the Executive Committee and the strike will be called off and mining resumed in two or three days.

Some of the members of the commission were named by Messrs. Sargent and Mitchell at their conference with the President to-day and in later meetings to-night. Mr. Sargent officially represented the miners' union leader.

SIXTH REPRESENTS LABOR.

Wilkes-Barre, Pa., Oct. 15.—President Mitchell arrived here from Washington at 1.35 this morning. The Associated Press bulletins of the outcome of the Washington conference were read to him. He was immediately congratulated, but said: "Your congratulations should be held until we see who the sixth representative on the commission is. I understood before I left Washington that there would be a sixth man and that he would represent labor. The whole matter will be settled before the latest meeting of the three executive boards of the anthracite region at their meeting in the morning. I will wait up to see the full statement issued by Mr. Cortelyou."

In reply to the question if he would comply with the President's request that coal mining be resumed immediately, he said he said he would make a more definite answer when he knew more about it.

DEATH RATHER THAN ARREST.

Theft of \$225 From His Employers Prompted E. H. Cleveland to Take His Life.

WAS SOUGHT BY DETECTIVES

Unrequited Love First Given as the Cause—No Trace of Stolen Money.

Fear of arrest on a charge of robbing his employers, and not unrequited love, appears now to have been the real reason for the suicide of E. H. Cleveland at the New Carlton Hotel on Tuesday morning, Oct. 7. At the time Cleveland shot himself he was being sought by Detective Slamin, to answer a charge of stealing the sum of \$225 from the firm of John Kay, Son & Company.

The sum mentioned in the warrants represented money that had been in the firm's safe on the night of Oct. 6, and was missed the following morning, when Cleveland failed to take his accustomed place at his desk. Enquiring among the office hands revealed the information that Cleveland was in the office at the opening time, and had hurriedly left without making any explanation. The firm made further investigation and being satisfied that Cleveland had taken the money, the warrants were issued for his arrest. Detective Slamin went hurriedly to Cleveland's home, but he had not been there. Suspecting that his man might leave the city, word was sent to the officers at the Union Station to watch outgoing trains, and while Detective Slamin was scouring the city word came to the Detective Department that his man had sought death rather than arrest. Detective Slamin was one of the first to reach the hotel, but a search of the dead man's clothing did not

AT WHITE HOUSE.

Washington, Oct. 15.—President Roosevelt to-night resumed consideration of the strike situation, taking it up in the light developed as the result of his two conferences during the day with Mr. Mitchell, president of the Mine Workers' Union. He went out for a long drive after those conferences, and, on returning, met Carroll D. Wright, Commissioner of Labor, and Mr. Sargent, Commissioner of Immigration. The latter is a personal friend of Mr. Mitchell, and, as a former labor leader himself, had talked freely with the head of the Miners' Union. He gave the President the benefit of his views, and Commissioner Wright was able to communicate some information that has come to him as the only sentiment in the mining regions.

Two Strangers Appear.

Later, two strangers to those about the temporary White House called and were shown upstairs at once. It was reported that these gentlemen were Messrs. Robert Bacon and George W. Perkins, member of the banking firm of J. P. Morgan & Co. The conferences with the four gentlemen named lasted from 7 to 8 o'clock, and then the President walked to Secretary Hay's to dinner, while his two visitors, whose names were not announced, went to the Arlington Hotel. Messrs. Bacon and Perkins are stopping there, having arrived to-day. They did not register, however, and no cards would be taken to their rooms, so it was impossible to learn anything of the situation from them.

Morgan's Partner.

About 10 o'clock President Roosevelt reentered the White House, accompanied by Secretary Root, and they immediately took up the consideration of the settlement of the coal strike. Later a stranger called, answering to the description of one of Mr. Mor-

ROOSEVELT DID IT.

ARBITRATORS.

Washington, Oct. 16.—The members of the Strike Settlement Commission are: Brigadier-General John M. Wilson, E. W. Parker of Washington, D. C., connected with the Geological Survey, Judge George Gray of Delaware, E. E. Clark of Cedar Rapids, Iowa, Thomas H. Watkins of Scranton, Pa., Bishop John L. Spaulding of Peoria, and Carroll D. Wright.

Messrs. Sargent and Wright returned to the White House, and were shown into Secretary Cortelyou's office, their visit being in accordance with an understanding when they left about 9 o'clock that they should return later in the evening.

Sixth Member.

The first sign of a breakup of the conference was at 12.55, when Secretary Cortelyou came from the conference room, and announced that an official statement on the strike situation would be made public soon. Shortly after 1 o'clock, Secretary Root came out, laughing and happy, and spread the glad tidings that a common ground of agreement between the operators and miners had been reached, and that the strike was practically settled.

It was learned that the chief feature of the agreement was the adoption of a sixth member to the Arbitration Commission, the surmise following as a matter of course that the additional member would be more particularly a representative of labor. It was said at the same time that, now an agreement had been arrived at, the President would insist on an immediate resumption of work at the mines, and that he had reason to expect his advice would be followed promptly. Messrs. Bacon and Perkins, partners in Mr. Pierpont Morgan's banking firm, were present at the final conference, as were representatives of the operators. When the gathering broke up, all present were in very good humor, and there was a general exchange of congratulations.

OFFICIAL STATEMENT.

Washington, Oct. 15.—The following official statement announcing the close of the strike was issued at the White House at 2.30 a.m.: After a conference with Mr. Mitchell and some further conferences with represen-

tatives of the coal operators, the President has appointed the members of the commission to enquire into, consider and pass upon all questions at issue between the operators and miners in the anthracite coal fields.

Brig. General John M. Wilson, U.S. Army, retired (late chief of engineers, U.S.A.), Washington, D.C., as an officer of the engineer corps of either the military or naval service of the United States.

Mr. E. W. Parker of Washington, as an expert mining engineer. Mr. Parker is chief statistician of the coal division of the United States Geological Survey and the editor of The Engineering and Mining Journal of New York.

Hon. Geo. Gray, Wilmington, Del., as judge of a United States Court.

Mr. E. E. Clark, Cedar Rapids, Iowa, Grand Chief of the Order of Railway Conductors, as a sociologist, the President assuming that for the purposes of such a commission the term sociologist means a man who has thought and studied deeply on social questions and has practically applied his knowledge.

WHEN THE STRIKE IS OFF.

Wilkes-Barre, Pa., Oct. 15.—Following is a summarized statement of the present conditions at the mines and the conditions that will immediately follow a resumption of work: Number of strikers in this region, 86,000; number of strikers in other fields, 55,000; number of men now at work, 8000; number of mines now being operated, 37; tons of coal now produced daily, 30,000; number of mines that could be opened in three days, 140; tons that can be produced daily after three days, 140,000; number of mines that can be opened within two weeks, 215; daily production, in tons, can be increased within two weeks to 220,000; total number of mines, 257.

SETTLED FOR CANADIANS.

The coal strike was settled, not for Thanksgiving Day in the United States, which falls on Nov. 27, but out of deference to the fact that today is Thanksgiving Day for all loyal Canadians.

GETTING TO BE A POPULAR KIND OF TURKEY

RICH MEN CAUGHT MILLIONS

Quick Fortunes Made by Rockefeller Sage and Gould Buying Cheap Stocks.

SMALL CLIQUE REAP ROYAL HARVEST

Market Broken by Banks Was Available Only to Friends of Banks.

New York, Oct. 15.—Vast profits have been made in Wall-street since Saturday by bankers and professional bargain hunters. It is said that Russell Sage, John D. Rockefeller and J. P. Morgan have made the bulk of them, as these habitually keep large quantities of ready money free for use on such occasions.

Followers of these men also reaped the harvest, but the heavy winners were limited in number to perhaps two hundred persons.

The peculiar condition prevailed of rich men being without credit for stock buying purposes, altho their mercantile credit was unimpaired. James Stillman, George J. Gould, E. H. Harriman, Alfred K. Vanderbilt, Henry Claws, George H. Baker and Jefferson Levy are some who shared heavily in the profits. James R. Keene is said to have bought enough cheap stocks on the break to make him more than even on the big losses he is alleged to have taken in his pool issues.

As the market was deliberately broken by the banks, only those persons who knew the bankers' plans in advance could take advantage of what was coming. The bankers' trust is the most powerful and dangerous of the elements in Wall-street traders have to contend with.

WELSH COAL FOR CANADA.

Vessel, With 7000 Tons, Will Arrive at Quebec To-Day.

Montreal, Oct. 15.—A despatch from the operator at Farna Point to-day, states that the Manchester Engineer, one of the Welsh anthracite fleet, with 7000 tons of coal for Quebec and Montreal, had gone ashore, but had got off without much damage, and had passed inwards. The vessel, consigned to Messrs. Furness Witty & Company, was due yesterday, but will reach Quebec to-morrow night, and Montreal later.

SPIRIT OF THE DAY.

It is a good thing to give thanks unto the Lord and to sing praises unto Thy name, O Most High.—Ps. XCII.

Let us come before His presence with thanksgiving.—Ps. XCIV.

FROST TO-MORROW.

Meteorological Office, Toronto, Oct. 15, 8 p.m.—Showers have occurred today in Quebec and in Eastern Ontario, while in other parts of the Dominion the weather has been fine. The winds have been strong southwesterly on the Great Lakes and fresh southwesterly and wet on the seaboard.

Probabilities. Lakes—Fresh westerly and north-easterly winds; fair and cool; frost Friday morning.

TORONTO HUNT'S GYMKHANA.
Also Polo Pony Races on Oct. 27.

The Toronto Hunt races and gymkhana, to be held on the club grounds on Saturday, Oct. 25, promises to be both interesting and successful. The polo pony events include many very interesting races, and for the hunt events an excellent steeplechase course has been laid out, of which the spectators will have full view. There are no prettier grounds for sporting meetings in America than those of the Toronto Hunt, surrounded as they are by beautiful trees and overlooking from their cliff the water of the lake. Mr. Stewart Houston is the hon. secretary, to whom all communications should be addressed. Admission will be open to members and the general public at the popular price of 50 cents. Races will be on sale at Tyrrell's book store on and after Monday next. Events: 2:30 p.m.—Polo pony competition—each competitor to ride 200 yards to a given point, and from that point drive a polo ball back to starting point; first man and ball over the line wins. 2:50 p.m.—Polo pony scurry; 300 yards dash; best two out of three heats without dismounting—all riders must run in first two heats; riders are requested to return straight back to starting point, so that there may be no delay whatever. 3:15 p.m.—Half-bred hunters' steeplechase for horses owned and to be ridden by Toronto Hunt members; riders need not necessarily be the owners; riders allowed 100 lbs.; gentlemen having ridden and never won a race of any description allowed 5 lbs.; having never ridden in a race allowed 10 lbs.; no other allowances; about 1/2 mile. 3:45 p.m.—Obstacle race—Competitors to jump a bank, go thru a paper screen, jump a hurdle, go between posts without dismounting, and over other obstacles; distance about 1/2 mile. 4 p.m.—Handicap steeplechase—Horses owned and to be ridden by Toronto Hunt members; riders need not necessarily be the owners; riders allowed 100 lbs.; those who have never ridden in a race allowed 7 lbs.; entries to close at 6 p.m., Oct. 23; weights to be announced in morning papers of 24th inst.; declarations due noon, same day; about 1/2 mile. 4:20 p.m.—Polo pony races—Competitors to pick up six potatoes at a distance of 30 yards apart, and place them in a basket; dismounting to pick up each potato. 4:50 p.m.—Qualified hunters' steeplechase—For horses qualified in the years 1901 and 1902; gentlemen who have ridden and never won a race of any description allowed 5 lbs.; those who have never ridden in a race allowed 10 lbs.; extra 150 lbs.; thoroughbred to carry 10 lbs. extra; about 1/2 mile; for the D'Alton-McCarthy Memorial Plate (challenge cup). 5:15 p.m.—Bonneet and skirt race—Competitors to jump a hurdle, dismount and pick up bonnet and skirt, according to number of points on, remain on ground, jump another hurdle, go round a post and gallop in.

Hounds Meet Twice To-Day.
The hounds will be sent after a wild fox this morning and the Toronto members will take an early start at 9 o'clock at Sullivan's on the town line of York and Scarboro. The regular Thanksgiving day meet will be at 2:30 p.m., at Birrell's Hotel, York Mills.

High Park Golf Club.
The High Park Club will host the annual club matches, mixed foursomes, this afternoon. On Saturday the annual fall match with the Highland Club is to be played.

IT LAYS A STILLING HAND ON PAIN.
For pains in the joints and limbs and for rheumatic pains, neuritis and lumbago, Dr. Thomas' Electric Oil is without a peer. Well rubbed in the skin absorbs it, and it quickly and permanently relieves the affected part. Its value lies in its magic property of removing pain from the body, and for that good quality it is unequalled.

"Cavendish" Raincoats
SPECIAL—\$20.00.

Whatever the weather there is great demand for this splendid line of smart English tailored-made Waterproofs, doubtless because they do double duty as light top-coats and raincoats. This very special price makes them A1 value.

PLUNGED OVER EMBANKMENT.

Boy and Horse Fall 30 Feet and Neither Was Hurt. New York, Oct. 15.—Joseph Groth of Union Hill, N.J., went driving with his nine-year-old son on Sunday night, and left the boy to hold the horse while he went to talk with a friend. A passing automobile frightened the horse, which broke away and went running down the Hudson County Boulevard. It plunged over a thirty-foot embankment near Flower Hill Cemetery, and when Groth got to the foot of the embankment he found his boy, horse and buggy suspended like Christmas toys from a tree. The tree was only a short distance from the foot of the embankment, and neither the team nor its occupant sustained serious injury when the limb from which they were suspended broke.

DOG-BITTEN HORSE MAD.

New York, Oct. 15.—Bitten by a supposed rabid dog, a horse belonging to Louis Drew, a grocer of Paterson, N. J., was being driven Saturday by Mr. Drew's son, who noticed the horse appeared irritable. When the boy tried to tie the animal to a post in front of the store it snapped at him and curled back its lips in vicious fashion. The boy telephoned to Mr. Drew, and the latter sent a veterinary surgeon to examine the horse. When he arrived the animal was foaming at the mouth and had torn the skin off its shoulder with its teeth. The surgeon muzzled the animal and removed it to his stable. He says this is the first case of hydrophobia attacking a horse that is on record in Paterson.

DROVE CHISEL INTO HIS HEART

Peculiar Accident Due to Bursting of Emery Wheel. New York, Oct. 15.—Isaac Price, a Russian workman in the umbrella handle factory of Berkson Bros., at 215 Grand-street was instantly killed yesterday by the bursting of an emery wheel. Price was sharpening a chisel on the wheel, which flew into a thousand pieces. The chisel was snatched from Price's hands and the sharpened edge was driven into his heart. Price lived but 201 Henry-street with his wife and several children.

BUTTERFLIES AT SEA.

New York, Oct. 15.—Butterflies falling to the deck like confetti at a French fete, with locusts and land birds, too, in considerable numbers—two such showers were passed through the staunch Boston barque Antioch, Captain C. H. Hemmingway, which arrived yesterday on a voyage from Buenos Ayres. Laden with hides, the Antioch set out from the Argentine port twenty-five days ago, and the voyage was an uneventful one until she reached a point about five hundred miles north-east of Puerto Rico, when the skipper observed a curious cloud away to the windward, which as it drew near the ship was a confusing mass of color to the eye. Not until the barque was well into the cloud, seeming to hover but a few feet above the water, was its composition noted. Then a motley collection of gaudy colored butterflies, brown and green locusts and sombre and gay plumed small birds settled on the barque's rigging and deck. The crew was amazed from cabin boy to captain. The brisk breeze soon drove most of the visitors away, also several of the birds remained with the vessel for hours.

LARGEST OIL CARRIER AFLOAT.

Standard Company's New Steamship Arrives in New York. New York, Oct. 15.—The new Standard Oil steel tank steamship New York, largest of her kind afloat, arrived last night from Shields, making the trip in twelve days, which is unusually swift for an oil carrier. She is 428 feet long between perpendiculars and can carry 8800 tons on twenty-five feet draught. She was built at Jarrow by Palmer's Shipbuilding Company. She has sixteen oil-tight compartments and a hold forward forty-one feet long for general cargo.

Canadian Preference League.

Messrs. W. B. McMurrich, E.C., B. A. Wills, George H. Hees, Frank E. Hodgins, K.C., and George H. Roberts, constitute a committee which is at work preparing plans for the organization of the Canadian Preference League. The object of the new organization will be to stimulate a national spirit and to do something in a practical way to increase the prosperity of Canada.

A Thought for Thanksgiving.

Thursday, Sept. 16th, 1902, is kept as a day of thanksgiving for the many blessings that have come to us during the past year, and for the abundant harvest which has just been reaped throughout the country. This year we undoubtedly have reason to be grateful for the great prosperity which is being universally felt, and which means so much to a growing country like ours. But while we are giving thanks for these favors, let us stop to consider if we are taking precautions to insure a continuation of this prosperity. Are you personally laying something aside for your welfare? Will your dependants be provided for should anything happen to you? Or is the prosperity of yourself and family entirely dependent upon your life? If so, it is clearly your duty to secure a policy from the Imperial Life Assurance Company of Canada, Head Office, Toronto. With an Imperial policy in your strong box, you need have no fear of the future.

U.S. GENERALS DINED.

King Edward and President Roosevelt Toasted by Anglo-U.S. Club. London, Oct. 15.—The Pilgrim's Club, the newly organized Anglo-United States organization, gave a luncheon to Generals Corbin, Wood and Young today at the Carlton Hotel. Major-General Sir William Nicholson, who occupied the chair, toasted King Edward and President Roosevelt. War Secretary Brodrick proposed toasts to the United States army and the visiting generals, praising the former and expressing his pleasure at seeing such distinguished representatives of that service. The United States generals replied. Ambassador Choate and Anthony Hope spoke of the value of such meetings in fostering good relations between the two countries.

G.T.R. Restrained.

At Osgoode Hall on Wednesday, Mr. Justice Moss granted the order asked by the Schomberg & Aurora Railway Co., to restrain the Grand Trunk Railway from interfering with the company's business, and to force the defendants to replace a portion of track at King Village belonging to the plaintiffs and torn up by the company. Judge Moss said he had no hesitation in granting the order, and that the defendants had acted in a high-handed and illegal manner.

Simply Laid to Rest.

Ottawa, Oct. 15.—The funeral of Sir John Bourne this afternoon was largely attended. The arrangements were of the most simple character. His desire had been for a private burial, but Lady Bourne gave in to the wishes of Hon. L. P. Brodeur, Speaker of the Commons.

Police Court Record.

Annie Duggan, for robbing James Fleming, a South African veteran, was fined on Wednesday sent to jail for three months. Charles Markle was charged on the evidence of Catharine Sweeney with receiving part of the stolen money. He was discharged. As he left the Court House, Markle promised the woman who had given evidence against him that on the first opportunity he would put a knife into her. Mrs. Whited, police matron, overheard the remark, and Markle was brought back into court. He was convicted of threatening the life of a witness and sent to jail for sixty days.

To Thwart a Plot.

Buda-Pesth, Hungary, Oct. 15.—A workman having informed the police that a plot is on foot to blow up the Hungarian parliament, by placing a bomb beneath his chair, the detective force on duty at the House has been increased.

Case to Go on.

Winnipeg, Oct. 15.—The court resumed this morning the application of the Lisgar election trial petitioners for an adjournment in order, if possible, to produce the missing witness, Mrs. Everett.

Suit Against Railway Companies.

Albany, N. Y., Oct. 15.—A hearing was given this afternoon before Attorney-General Davies on the application that proceedings be commenced against the Pennsylvania Railroad Company, the Delaware and Hudson Railroad Company, and other coal-carrying companies, on the grounds that they are violating the anti-trust laws of the State.

Flaming Emerges Revised.

The Flaming Emerges Revised.—Constant application to business is a tax upon the energy, and if there be not relaxation and depression are sure to intrude. These come from domestic troubles. The want of exercise brings on nervous irregularities, and the stomach ceases to assimilate food properly. In this condition Parmentier's Vegetable Pills will be found a restorative of fine power, restoring the organs to beautiful action, dispelling depression, and reviving the flagging energies.

Railway Men Blamed.

Pittsfield, Mass., Oct. 15.—The finding in the inquest following the accident in which President Roosevelt's body guard, William Craig, was killed, here last September, filed today, says that the "Unlawful acts of James T. Kelly, conductor, and Euclid Madien, motorman," of the electric car which ran into the President's carriage, "contributed" to the death of Mr. Craig.

Case to Go on.

Chicago, Oct. 15.—The great-pickers combine will be launched Dec. 1, if the money market is easy, says The Chronicle.

Case to Go on.

Winnipeg, Oct. 15.—The court resumed this morning the application of the Lisgar election trial petitioners for an adjournment in order, if possible, to produce the missing witness, Mrs. Everett.

Suit Against Railway Companies.

Albany, N. Y., Oct. 15.—A hearing was given this afternoon before Attorney-General Davies on the application that proceedings be commenced against the Pennsylvania Railroad Company, the Delaware and Hudson Railroad Company, and other coal-carrying companies, on the grounds that they are violating the anti-trust laws of the State.

Forcing Down Fuel Prices Soft Coal Quoted at \$8.50

City Closed Deal With Two Dealers and Offered It for \$8.75 But This Price Was Promptly Met—Further Decline Probable and Citizens Reap Benefit.

Hamilton, Oct. 15.—William Mullis, dramatic critic of The Evening Times, and Miss Mabel M. Buckingham, daughter of William Buckingham, James street, butcher, were married to-night by Rev. J. E. Hickey. George Taylor was the best man and Miss Minnie Buckingham assisted the bride. The happy couple left for Montreal.

Freebooter Fair.
The annual fair of the Freebooter Agricultural Society was held to-day at Freeton George McLaughlin, Brantford, was starter and judge of the ring events. F. J. Pradick's pig won the green trot; Smith Bros' Tramping Tatters got first money in the three-minute and the 2:35 trot. A large crowd of Hamilton people attended the fair. Heady Malcomson, 103 Fair fair king, did a big business with his sweetbreads.

Want More Money.
The local bricklayers have decided to ask the bosses for an increase of 5 cents an hour—from 50c to 55c. Bricklayers are greatly in demand, and the men anticipate no difficulty in securing the increase. The higher rate is paid in Toronto and London. The printers are also moving for an increase of pay for job printers, and weak hands. They also want shorter hours.

To Double the Factory.
The George E. Tuckett Tobacco Company has decided to duplicate the present cigar factory building, which was only recently erected. The new structure will be 100 feet, and four stories high, with basement.

Two Weddings.
At Zion Tabernacle this afternoon, Miss Lottie Andrews, daughter of Mrs. Andrews, 125 Peter-street, was united in marriage to Harry Tolton of the firm of Tolton & McKay, Toronto. The ceremony was performed by Rev. T. Albert Moore. The bride was attended by her sister, Miss Alice Andrews. A. B. Crawford was best man. After the ceremony the happy couple left for Buffalo, New York and other eastern cities. Mr. and Mrs. Tolton will reside in Toronto.

A wedding took place this afternoon at the residence of George Stoddart, 223 North Park-street, when his daughter Edna was united in marriage to L. Danforth. The bridesmaids were Miss Alice Melburn of 477 and Miss Agnes Mackenzie of London was the flower girl. The best man was John Mack. Rev. Neil MacPherson officiated.

For the Plaintiff.
Judge Monk today gave judgment for Thomas Kilvington in his suit against the city for damages for legal distress and cost of payments made on bank pavements. His Honor found that the former tax collector, William Monk, had undertaken to allow the plaintiff certain overpayments on the last instalments, and gave judgment for the reductions claimed, costs and \$3 damages for legal distress.

Playing a Game.
The coal dealers have started to play a game on the city since it bought 1000 tons to sell to the citizens. Up to to-day the dealers asked \$10 a ton for the best soft coal. Yesterday the Mayor closed a deal with two of the dealers, and offered the coal at \$8.75 a ton, to include delivery.

Now the coal men have discovered they can sell for less than \$10 a ton, and are ready to let it go at \$8.75, while one of the fraternities offers it at \$8.50, and carried in. Thus do the guileless coal patrons get back at the wily Chief Magistrate. There is a likelihood, however, of the city going the distance several points better, and making them drop their prices still more.

Two or three of the druggists already have it on sale, but before the end of the year everyone will have it.

Police Points.
When the case of G. H. Davis, charged with defrauding R. S. Fraser, tailor, of \$28, was called at the Police Court to-day, an evidence was offered, and the prisoner was discharged.

Richard Lyons was asked to settle with Edward Doherty for the loss of the latter's coat, or go to jail for month.

Minor Mention.

NOT IN EMPLOYERS' UNION.

Names of Two Firms Were Given Without Authority.

Mr. James P. Murray, president of the Employers' Association of Toronto, writes to The World:

"Through a misunderstanding a list of gentlemen whose names were given to the Executive Committee of the Association of Toronto, newly organized last evening. A few of the gentlemen whose names are on the list were not present, and it was only tentatively to their being given that their names were mentioned in forming the Executive Committee. It was the Executive Committee's desire to embrace all the sections of industry and employment in the city, so some were named who were not present. No name should be given to the fact of their names appearing on this provisionally-appointed Executive Committee of the newly-organized association. Two firms—the Messrs. Hays and Co. and the Ontario Percha and Stubber Co.—desire it to be made known that they are not in any way taking part in the present movement. Asking you to kindly give due prominence to this letter, and further, if it is requested that if other papers have copied these names, that they will please give space to this explanation."

East Toronto.

Joseph Possey, conductor on the Scarborough line, and his mother, Mrs. Possey, were taken suddenly ill thru partaking of poisonous mushrooms. Dr. Webster was called, and his patients are now out of danger.

The adjourned meeting of the Council took place, last night. Present: Reeve Dr. Walters, Councilor Joseph A. McMillan, George Oakley, J. Berry. The principal business was to award the current for street lighting under the power house and lamps for supplying the current for street lighting in the newly annexed portion of the town. The United Electric Co. and the Canadian General Electric Co. were the only tenderers. The contract was awarded to the Canadian General Electric Co.

The East Toronto Gun Club are getting ready for their annual deer hunt. The members, Dr. Walters, Dan Lloyd, Harry Bisset, George Christie, George Walters, J. L. Tidsherry, intend leaving on the 20th inst. to their usual hunting grounds north of Bracebridge.

Chief of Police J. L. Tidsherry has been granted leave of absence. County Constable Simon Kennedy has been appointed acting chief.

Coal By the Pall.

New York, Oct. 15.—The crowds at the depots where coal is being sold to the poor at 15 cents a pall were larger than ever yesterday morning. At Barker's yard in Water-street, 125 palls were sold by the pall before 10 o'clock in the morning. About 500 persons were in line at a yard in Delancey-street when the doors were opened yesterday morning. At the other depots on the East and West sides similar throngs gathered. In one or two cases the coal came out before all were served and several hundred had to go home with empty palls after waiting for more than two hours.

Petition of a Widow.

Mrs. Holmes, widow of Sergt. W. H. Holmes, who died in South Africa during the campaign, has applied to the Dominion authorities for a pension for the maintenance of herself and child. Col. Pinaut, Deputy Minister of Militia, says he will gladly forward her application to the War Office if she can produce a medical certificate that her husband died from disease contracted in South Africa, and suggests that the Soldiers' Wives' League of this city look into the case to see if such a certificate can be obtained.

Faithful Even in Sickness.

Sioux Falls, S.D., Oct. 15.—While approaching Sioux Falls with a Rock Island passenger train, Chasney J. Fox, the engineer, was stricken with apoplexy. Although dazed and scarcely able to retain his seat in the cab, he succeeded in running his locomotive for a mile, until the Sioux Falls station was reached. He died at the city hospital last night.

The Pianola and the Performer

THAT THERE exists a strong desire among the public for some means of producing music otherwise than playing it by hand admits of no doubt. The success of the PIANOLA proves that. As a well-known musical critic said, the important point is not the amount of mechanical invention, but how much command the intervening mechanism gives the performer over the tone-producing part of the piano. The PIANOLA is an instrument for executing the finger work part of piano-playing, and is simply an amplification of the keys of the piano. The PIANOLA always renders the technique of any composition correctly, and by means of levers the performer exercises complete control over expression. He is responsible for the individual conception of the music just as he would be in ordinary playing, and, being able to devote his whole attention to this, the result is equal musically to the performance of a great pianist. You are particularly invited to call and see the PIANOLA, or to write for Catalogue.

About Furs.

The following is from The News Magazine of Saturday, October 11:

"This is the season when the shops and windows are so filled with novelties that the average woman is at a loss to know what she needs, or, rather, wants, most. Thinking, perhaps, that a few hints regarding furs and winter cloaks would be most helpful, The News this week shows some of the latest and handsomest designs, chosen from the W. A. Murray's well known and reliable fur department.

"In the first cut is something entirely new. The huge boa and grandmother's muff are of black cross fox, the muff finished with fox head and one long, fluffy tail.

"The centre figure shows a stunning little coat of Persian lamb in Russian style, the collar and revers of royal ermine, which is so much used this year, not, as formerly, only on dress occasions, but also for street wear.

"The handsome and rich effect produced by the ruff and muff shown in the last cut must be seen to be appreciated, but certain it is that nothing more stylish could be purchased. It has the flat stole effect so popular, and the long ends divide into two strands. Hugo tails ornament the collar and the muff."

Stylish Fur Neckwear at Little Prices.

Here are five splendid styles in Fur Neckwear. A pleasing feature in connection with each of them is the extreme reasonableness of price—mind you they're beautifully made furs—every skin was carefully selected by a fur expert. We therefore recommend the goods with confidence, knowing them to possess unquestionable merit.

- No. 206—Stylish Neckscarf, of rich, natural Alaska Sable, with 8 full bushy tails, chain fastener, special, each \$10.00
- Same Scarf, in blended Alaska Sable, at \$8.50
- No. 207—Stylish Shawl Collar Scarf, finished with 4 large tails, chain fastener, each \$12.00
- Same Scarf, in finely blended Alaska Sable, special \$10.00
- No. 208—Very Handsome Alaska Sable Scarf, choice head and tails, special, each \$16.50
- Same Scarf, in finely blended Alaska Sable, each \$10.00
- No. 209—A Beautiful Natural Alaska Sable Scarf, of choice selected skins, finished with 10 tails and chain fastening, special, each \$16.00
- No. 210—Beautiful Mink Scarf, made with four tails and eight legs, special \$20.00
- This same Scarf in Stone Marten at \$20.00

The "Arch Support" of a "Dorothy Dodd" Shoe.

When your foot is tired from long walking or standing, you rest it most by holding it in your hand and compressing it firmly around and beneath the instep. That is exactly what the "Dorothy Dodd" Shoe does for you all the time. It is like a soft hand firmly grasping the "waist" of the foot and supporting the arch. You will never realize how much of your daily fatigue can be relieved until you try a "Dorothy Dodd." A "Dorothy Dodd" retains can be relieved until you try a "Dorothy Dodd." Other shoes bend at every step you take, thereby tiring the foot. Why be foot-miserable when the remedy is so simple! "Dorothy Dodd" Shoes cost you

\$3.75 Pair.

A Beautiful Fur Jacket, \$115.00.

The Jacket is worth one hundred and fifty dollars. It is beautifully made of No. 1 lustrous, silky and Persian Lamb, with deep storm collar and broad lapels of choice Stone-Marten, lined throughout with black Duchesse Satin, a clear saving for you of thirty-five dollars, sizes 34, 36 and 38 bust—only two jackets of a size—special to clear, each \$115.00

Sample of Lovely Silks, Dress Goods and Fancy Flannels Sent by Mail.

Our Mail Order Department will gladly forward samples to any address in Canada. The advantages of samples are, of course, appreciated by thousands of out-of-town customers—still we think it possible to extend the system so that thousands more may have the privilege of choosing from this store's beautiful fabrics. You are, therefore, cordially invited to write our Mail Order Department for samples.

THE TORONTO WORLD

A ONE CENT MORNING PAPER (33 YONGE STREET TORONTO)

TIME TO THINK!

Canadians have much to be thankful for and something to give them pause on this Thanksgiving Day.

We have had abundant crops all over the country, our farmers are prosperous and are getting, or should be getting, out of debt; our manufacturers are busy and their employees all in receipt of good wages, our fishing population have had a fair year, those interested in lumbering have nothing to complain of, and the mining business, if it received a setback in some directions, has made substantial progress in others. Our great railways are being steadily extended and their business is increasing. All our banks are increasing their capital or thinking of doing so. The national treasury is in a healthy condition, and all the provinces, the inclined to be extravagant, seem to be able to pay their way. None of our municipal organizations even are in distress over their finances, although some of them are complaining of unwise expenditures.

The standard of living among our people, we believe, is steadily improving. They are better fed, better clothed, better housed, and are enjoying more of the conveniences and comforts of life than in the past. In some respects the moral tone is also higher. We believe there is less drinking than ever and in consequence less of the attendant evils from it. The drug habit threatens. We also believe that the everyday morality of the people is being raised in quite a number of directions, although it is a debated point whether, with all this prosperity, there has or has not been a falling off in religious and spiritual life. It has always been the habit of the poets and some of our teachers to sigh for "the good old days" and to hold forth that some kind of superior honesty and uprightness was characteristic of the people of the olden time and of poverty. This, however, we take to be purely a gratuitous doctrine. We believe that the better off the people are the more honest they are and the more truthful they are, and the more they are inclined to do right, one by the other. We believe also that morality is growing.

From a political standpoint we have many things to be thankful for. The British empire, of which we are a part, is now at peace after a long and serious war in South Africa. The imperial feeling which is binding the mother country and her colonies together is making great and notable strides, although as yet no man or party has arisen either in the old land or in the colonies competent to voice and direct public opinion in this matter. The sentiment is there: everybody feels it. But just what it is and what it will end in has, as we have said, not been voiced or directed, but it is moving, and it is moving, we believe, in the right way.

We wish we could say that everything was as satisfactory from a national point of view in our own country, and when we mention the national point of view we include the economic side of our affairs as well. We regret to confess it, but we believe it to be true, that government in this country and in the neighboring republic is going the wrong way. Our legislative bodies, whether federal, provincial or municipal, seem to be all bent on tying up the people in some way or another to the great corporations, which are becoming a menace on both sides of the boundary line. We have heard the President of the United States declare within the week that he was unable to do anything beyond exercising his personal and moral influence to settle the coal strike! He was tied up by the constitution and he was afraid evidently of the all-powerful trusts. He had, in a word, to rely on his moral influence and on a personal appeal to both sides in the great labor dispute, or falling that, to turn dictator, and, backed by the army of the United States, try and find a way out of the difficulty. He was hampered by the constitution and tied up to other-day political theories, and he, apparently, had not a twentieth-century cure for a twentieth-century evil. In view of this condition of affairs, even if the dispute is ended by the miners returning to work, one cannot help but feel that the crisis has only been postponed and not averted.

These crises apparently are becoming more numerous and more dangerous, and on a day sooner or later something of a revolutionary character must happen. No one can look with a genuine spirit of thanksgiving on the development of these great trusts and the objects that the men who control them have in view. It is not in the public interest; it is not in the interest of the people. It is not even in the interest of the human race from any point of view that the greater portion of the capital of a nation should be in the control of a very few men, that the railways of the country should be under the control of a very few men, that the production of many of the necessities of life should be under the control of a very few men, and that millions of workmen and consumers should be tied to a new kind of feudalism, that seems to be growing up in these days of modern history.

Most significant is it that while we were as people only emancipated after centuries of struggle and, having got fairly out of the thralldom and freedom having been proclaimed everywhere and the equality of man having been recognized, at this day a new condition of affairs has begun to assert itself, the marked characteristic of which is the growth of a new kind of domination by a very small number of men—a domination exercised in a most arrogant way over millions and millions of people that thought themselves free. To take an instance, it is intolerable that a few men should by their manipulation of legislatures, by their use of clever lawyers, by bribery of courts, by bribery of legislators, by the control of railways and by other means should evade the constitution of the country and should succeed in so controlling that supply of coal which God put in the ground for the good of mankind that its use is so limited and its price made almost beyond the reach of ordinary people. The American constitution declares that all men

are born equal. A better doctrine would be that all men, women and children in a country like North America, where cold and rain prevail for portions of the year, are entitled to have all the fuel they need out of the great stores which Providence put there, at little above cost price. Coal could be mined, transported and sold at a considerable profit and yet at a less price than \$2 per ton on the average from one ocean to the other. As a matter of fact its disposition has passed entirely into the hands of a few great corporations who pretend that they cannot sell it to the poor for less than \$6 a ton, and they even had the hardihood to tell the President of the United States the other day that the coal operators were not making money, but that they were running the mines at an immense loss. The real truth is that the men who own these mines also own the railways, and if the mines are worked at a loss the railways make enormous profits out of carrying the coal and in that way the public is milked to the benefit of the trusts. A beef trust is coming that threatens to control the most supply of both the United States and Canada. The coal oil trust we have known for long, and it has a record for wrong-doing that is unparalleled by anything in history. It has a record for debauching public men and legislatures, and courts, of wrecking companies and driving independent operators out of business, and in a thousand secret ways of accomplishing a consolidation that has made three or four men billionaires. The railways of the country have been loaded up with watered stock to the extent of six times, and in some cases of ten times, what they cost. Great mergers are taking place among the banks of the United States which will put the control of banking in the hands of a few. The production of steel has been consolidated, the cotton market is being manipulated, and if a quarter of the projects are successful in the way of mergers now proposed a revolution unprecedented in the history of the world will have been effected. Everyone practically excepting the man who still owns his farm will have gone into the control of these trust-giants.

Following on the heels of these enormous combinations a brood of lesser trusts are organizing in every possible field. They are working through all the cities of America. Public franchises of all kinds are being secured and the people of cities are tied up in many directions to these great corporations. These franchises, in nearly every instance, were secured by the corruption of the legislative bodies granting the privileges. The public press has been demoralized with money to assist in these schemes. We have all heard of the civic corruption turning on corporation grabs recently unearthed in St. Louis. But we need not go away from home for instances. The cities of Canada are governed by the same corrupt influences of corporations holding public franchises. The legislatures of Quebec and Ontario have been a stamping ground for the corporations, and have been debauched by them. The city of Montreal and the city of Toronto and the city of Hamilton and other places furnish instances in point. For a long time it has been the custom to say that the legislative bodies were corrupt. That may be true in a measure, but the source of the corruption has been the rich men seeking these franchises, who went out with their money to corrupt men who had votes in connection with the granting of these franchises. The charge we make, and the regrettable thing of this Thanksgiving Day, is this: that our rich men have deliberately gone to work to demoralize our political institutions to make themselves still richer and make a greater number of people contributory to their ends. And worst of all, and we say it after great deliberation, after a thorough knowledge of the facts, that our political parties have a secret understanding to aid and abet these corrupt practices. Both parties are willing to have a thing go thru, and when one party happens to get on the track of the misdoing of the other party in the case of a corporation there is always some prominent member of the party that would profit by the exposure who is ready to chloroform and to implore his own party to not interfere because some of his corporation associates would be involved! It has come to be a public scandal in this country: how at this time it is one party, how at the next time it is the other party which is choked off by the political influences from within. The campaign funds of the political parties of this country come largely from the corporations. The money that is to try the election petitions comes from corporation sources, and in every case the corporations advancing it condition it by a demand on the party receiving it that they will not be threatened by legislation injurious to their interests! The day has come when the people must sit down and think in regard to some of these things, and above all they must sit down and think on this day of thanksgiving what the future is to be as far as the government of this country is concerned and if that government is steadily passing out of the hands of the people of Canada into the hands of the rich men and into the hands of the corporations, what is to become of the people.

We had some time ago in this country a Conservative party and a Liberal party antagonizing one the other on well-defined lines; to-day we have the People and the Corporations entering upon a gigantic struggle, and whether a man was a Conservative or a Liberal in other days counts for little in this battle now beginning. Public men and political parties must form on the new issues; the old issues are either settled or very dead.

SHODDY WOOLLEN GOODS.

F. W. Hodson, Dominion Live Stock Commissioner, has recently, in a series of articles, sought to impress upon the public that the "woollen" manufacturer in Canada, Great Britain and the United States is regularly palming off upon the consumer, as genuine woollen goods, fabrics that are almost entirely cotton or shoddy. The result is that the ordinary purchaser of meltons, worsteds, dress goods, etc., falls to get either value or wear or warmth for his money. And an indirect result of the ubiquitous fraud has been universal ruin to the wool-growing industry. As long as shoddy can be sold for woollen goods, wool is not in demand.

The National Live Stock Association of the United States points out that "there are several classes of shoddy. The best is made from the sweepings of tailor shops and the emptyings of rag-bags in civilized countries. The worst, which constitutes the greater part used in America, is from the rotten, cast-off rags of beggars and the lazar and pest-houses of Europe, having in them all kinds and amounts of filth and disease. These are

gathered by ragspickers from the slums and alleys, and sent to America in shiploads, where they are purchased by a certain class of manufacturers, who, in order to take the curse off the name, term the stuff 're-used wool fibre.'"

So wide-spread has the deception become that legislation is now being sought to protect the public. With this object in view, the Hon. Charles H. Grosvenor, at the request of the National Live Stock Association, recently introduced into the House of Representatives of the United States a bill to provide for Federal inspection of mixed goods and the proper marking of the same, which is known as H. R. 6565. The purpose of this bill is to make it possible for the consumer to know what he is purchasing, by having the goods stamped, so as to indicate whether it is all-wool, or, if not, then the percentage of shoddy or waste. There is no objection made to the use of cotton waste, mungo, shoddy, etc., etc., in the manufacture of textile fabrics, when the fact is made known to the consumer, and where fraud is not perpetrated by selling these mixtures as all-wool fabrics. The bill provides for a fine of not less than \$50 or more than \$500 for each offence.

Commissioner Hodson now makes an appeal to Canadians, in the following words:

"This is a question of great importance to this country, and Canada should not be behind the United States and Great Britain in demanding that so-called 'woolens' goods shall be sold for just what they are. The manufacture and sale of oleomargarine, butterine, filled cheese and such bogus dairy products have been prohibited in Canada, and something of a similar nature should be done to protect our woolen manufacturers against the shoddy products of foreign countries, and to improve the condition of the Canadian wool-grower. The sheep industry in Canada has been steadily declining for years on account of the low prices of wool and the ravages of dogs."

Such a fraud as is revealed above demands the attention of parliament.

U. S. IMPORTS FROM CANADA.

We note with interest that, according to a bulletin issued by the Washington government, the United States during 1901 imported largely of Canadian live stock. Uncle Sam imported from all countries 146,622 head of cattle, and of these 50,000 head, or over 33 per cent., valued at \$842,462, came from this country.

While as an exporter of cattle to the United States Mexico outclassed Canada, the Dominion headed the list as a furnisher of horses for the States. Canada sent the Republic 66 per cent. of its imported horses. These animals numbered 2488 and brought \$330,452.

Canada last year supplied the States with practically all of the 331,488 sheep imported from abroad, only 2000 coming from other countries. In value these sheep ran up to \$1,200,000.

While upon the subject of United States imports, it may also be mentioned that during the first eight months of 1902 the Republic imported \$19,925,362 worth of gold, and that no less than \$11,597,252 of this came from Canada. Of course, the Yukon was the chief contributor, British Columbia also forwarding its quota.

DECLINE IN UNITED STATES TRADE.

The United States have four chief articles of export—breadstuffs, provisions, oil and cotton, and for the first nine months of 1902, these show a falling off of \$118,668,294, as compared with the corresponding period of 1901. And, besides, the United States have almost ceased to export iron and steel, and are, in fact, at present importing these very articles, as well as coal, on a large scale.

Other figures may be adduced to show that Uncle Sam's exports are rapidly on the down grade. In 1900 our country's excess of exports over imports amounted to no less than \$48,796,399; in 1901 that excess fell to \$584,559,985; for the first eight months of 1902 the excess reached only \$152,000,000, and a like decrease for the rest of the year will leave the excess for the whole of the current twelve-month at \$356,000,000, about half of what it was only two years ago.

This remarkable decline in the great Republic's favorable trade balance may be traceable to special causes, such as the expansion of the home market; but, whatever be the reasons advanced, the altered trend of trade will suffice to relieve Europe of the fear of any immediate extension of the "American invasion."

CONSERVATIVE POLICY.

"I do not believe in sending raw materials to the United States, sending Canadians after them to work in United States factories, and then sending good Canadian money to buy the goods made by Canadians from Canadian material in the United States. I believe in the development of industries along legitimate lines, and developing the coal of Nova Scotia, the lumber of British Columbia, the fisheries, the lead mines, as well as the great agricultural industries of these Western plains, and only by a policy of this kind can we build up a great nation."—Mr. R. L. Borden, at Winnipeg.

COMMUNITY OF INTERESTS.

The compromise of the coal operators to the extent of an agreement to arbitrate, after having refused to do so, is a concession to the union, and, in a degree, an acknowledgment of the rank and file of the workers. It is becoming more and more evident that the sheer weight of a body of men, united for their mutual welfare, must have a force which cannot be disregarded; and the recognition of that fact is evidence of good management in those who control the welfare of many workers. It is said that our leading native life office has already recognized the importance of a community of interests, and has voluntarily put into force a line of policy closely in touch with this modern trend. The Canada Life, we understand, now opens correspondence with a man whose policy has lapsed, and not only advises him as to how he can reinstate it, but also as to what cash value he can obtain should he be unable or unwilling to continue. This broad policy should at once and permanently dispose of that argument as to the profits in lapsed policies, and should have the more important effect of uniting those concerned in the strongest of bonds—these of mutual self-interest.

The Fur Palace of Canada!

— ONLY GOOD FURS AT THE RIGHT PRICE —

THAT name, "THE FUR PALACE OF CANADA," was bestowed upon our establishment by a prominent American who visited this city some few weeks ago. We can say with all truth that our Showrooms contain the largest collection of rare and native furs ever collected for exhibition in Canada. All our fur is specially selected by our representatives in the northern country and in London and New York. After arriving here it passes through the hands of experts and is prepared for the workrooms where it is moulded into fashionable garments by competent tailors, under the eye of a Parisian furrier.

We buy this fur direct and in such large quantities that we are able to offer you very reasonable prices in selling. This is no small subject in buying a garment this winter. If you wish to purchase a fur jacket ready to wear you will find an extensive line of them

in our cases—Alaska Seal, Persian Lamb and Electric Seal.

Many new designs in Jackets, Capes, Cloaks, Caperines and Boas are being shown this year, especially in Fur-lined Street Cloaks and in Squirrel Jackets.

We are on the threshold of winter—probably an early winter and a severe one. Get your order in at once.

Alaska Seal Jackets

This is the queen of all furs. It is the warmest fur worn for its weight. It wears well and always will be stylish. To buy to-day means that you get the benefit of low prices, and the fact that this fur is becoming more scarce every year should also tempt you to a purchase. Our Alaska Seal Jackets are known the continent over for their good quality and finish. All new designs and trimmings.

Alaska Seal Jackets
\$125 to \$250.

Persian Lamb Jackets

These are the favorite garments because of their reasonable price, stylish appearance and good wearing qualities. Our Persian Lamb was selected specially for us. If you want a jacket made you may select

the skins to be used in its manufacture.
Persian Lamb Jackets, \$75 to \$125

Electric Seal Jackets

Electric Seal, 22 ins. long, \$25.00, \$30.00 and \$35.00; 24 or 26 ins. long, \$25.00 to \$40.00.
Near Seal, 22 ins. long, \$25.00, \$30.00 and \$35.00; 24 or 26 ins. long, \$25.00 to \$40.00.
Grey Lamb, 22 inches long, \$37.50; each additional inch, \$2.50.

Caperines, Boas, Etc.

The demand for these garments has caused the makers of fashions to exert themselves and consequently there are a great many novel styles introduced this season, both in long and short effects.

Caperines in Alaska Seal, Alaska Sable, Persian Lamb, Mink, Stone-Marten, and combinations of these. Boas in all descriptions of Fox and in Black, Brown and Cinnamon Bear.

Caperine, Alaska Seal, \$65.00 to \$85.00.
In Persian Lamb, \$45.00.
In Alaska Sable, \$45.
In Electric Seal, \$18.00.
Caperine, Alaska Sable and Persian Lamb, \$25 and \$27.50.
In Persian Lamb and Electric Seal, \$12.00 to \$15.00.
In Electric Seal and Blue Opossum, \$12.00 to \$13.50.
In Electric Seal and Columbia Sable, \$12.00.
Alaska Sable Scarf, \$8.50 to \$12.00.
Boa, in Alaska Sable, \$18.00 to \$25.00; in Mink, \$25.00 to \$35.00; in Stone-Marten, \$25.00 to \$30.00.

CHARGE NOT WELL FOUNDED

Statement That Toronto Grain Inspectors Are Careless Refuted As Groundless.

BOARD OF TRADE WILL TAKE ACTION

Only Change in Certificate Must Be Lower, as Grain Cannot Improve in Transmission.

The jealousy of the grain inspectors of Winnipeg and Fort William toward the Toronto grain inspection department has broken out again. This time it has made its appearance in the nature of a report from C. C. Cartie, warehouse commissioner for Manitoba, to the Department of Grain and Commerce at Ottawa.

In this report Mr. Cartie is quoted as having asserted that the sale of Canadian grain is materially interfered with abroad by the carelessness of the inspector and his assistants at Toronto. He alleges that on a recent trip to Europe he found much Canadian grain selling at several points below what the Toronto reinspection certificates called for.

Complaint Not Well Founded.

Edward Adamson is grain inspector at Toronto. At present he is out of the city. His deputy explained that there is very little Manitoba grain inspected in Toronto; therefore, the complaint could not be well founded. The Manitoba grain, which is inspected here, comes in with its grade certificate, as indicated by the inspector from Winnipeg or Fort William, as the case may be. Any reinspection made here would not permit a higher grading than that on which the grain was shipped in. The only change in the certificate would have to be lower. The rules permit this on the theory that the grain may deteriorate in transit from the west to Toronto, and it cannot be improved by the transmission.

Board of Trade May Take Action.

The Board of Trade discussed the cable criticism at a meeting Wednesday, and decided to secure a formal copy before taking any action. In substance, the cable report charges that Manitoba grain inspection is uniform and regular, and that certificates showing a shipment to be No. 1 hard or No. 1 northern, when issued at Winnipeg or Fort William, are found to be correct grading when the grain reaches the foreign port, whereas at Toronto the grading is carelessly done, and sometimes the Manitoba grain is tampered with here, or mixed with inferior grain, which is given a false grading. The jealousy is said to be based largely upon rivalry of certain Manitoba elevator companies against those further east. The report is calculated to do Toronto inspected grain much harm, but there is not thought to be any truth in the charge.

Undetected Crime in Canada.

Editor World: An editorial published recently in a city newspaper, in which the opinion was expressed that undetected crime is increasing in Canada, brings up the question of the value of our criminal statistics as at present compiled. A recent report of the statistics of the Dominion Government congratulates the people of Canada on a marked decrease in the number of convictions for serious crime, having to be inferred from the fact that serious crime is decreasing. In the absence of any information as to the number of crimes actually committed, a statement of the number of convictions obtained is valueless, inasmuch as it is just as likely to indicate inactivity on the part of the authorities in the enforcement of the law as inactivity on the part of the criminals in the violation of it.

In order that our criminal statistics may be reasonably complete, and that we may know what progress is being made from year to year in the detection of crime throughout Canada, we should have a classified table showing the number of crimes committed annually, as well as the number of convictions obtained, and where, as is frequently the case, a number of people are convicted for complicity in the same crime, the number in each case should be clearly stated. Each conviction does not necessarily represent a separate and distinct crime. Care should be taken to have the report scrupulously accurate, and not framed with a view to making a good showing from the standpoint of those responsible for the keeping of crime within reasonable limits.

Complete statistics carefully compiled along the lines indicated would be specially interesting during the next few years, for which great things have been predicted by its advocates, and the writer will be more than pleased if the results should be such as to remove entirely the doubts by which he is troubled regarding the effects of this particular measure on the future conduct of our criminal population. William Stark, City Hall, Toronto, Oct. 15, 1902.

Second Mollieux Trial Begins. New York, Oct. 15.—The second trial of Roland B. Mollieux charged with the murder of Mrs. Catherine J. Adams, was begun this morning in the criminal branch of the Supreme Court before Justice J. S. Lambert of Freedom, N.Y. The proceedings were marked by the unusual fidelity with which the jurors were obtained, six tall men having been accepted and sworn before the court adjourned at the former trial it took twelve days to get the first juror.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaints, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering and frequently valuable lives. This cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaints.

WILL INTEREST EVERYBODY

Or at Least Everyone Who Suffers From Catarrh.

Catarrh in its various forms is a national disease, and the fact that nearly everybody suffers from it more or less leads many to neglect its proper treatment.

The old style of treatment with douches, bladders, sprays, salves, etc., supply give temporary relief, and everyone who has used any of them knows how useless they are, and their inconvenience is such that very few have the time or patience to continue their use.

A radical cure of catarrh can only be obtained from a treatment which removes the catarrhal matter from the blood, because no one will dispute that catarrh is a constitutional or blood disease, and local applications can have no effect except to temporarily relieve local symptoms.

A new remedy which has been remarkably successful in curing catarrh is a pleasant-tasting tablet, which is taken internally, and acts upon the blood and mucous membrane.

It is composed of antiseptic remedies like Red Gum, Blood Root and similar cleansing specifics, which eliminate the catarrhal poison from the system.

The tablets, being pleasant to the taste, are dissolved in the mouth, and thus reach the throat, trachea, and finally the stomach, and clear the alimentary canal.

They seem to give a healthy tone to the mucous membrane, and it is really remarkable how soon they will clear the head and throat of the unnatural and poisonous catarrhal secretion.

Snart's Catarrh Tablets are undoubtedly the safest, most palatable, and certainly the most efficient and convenient remedy for any form of catarrh.

Money in Dead Letters. Washington, D.C., Oct. 15.—The annual report of the dead letter office for the past fiscal year, submitted to day by Acting Postmaster-General Wynne, shows that over 9,000,000 pieces of mail matter of all kinds, an increase of nine per cent. over last year, of the letters and parcels opened, 50,830 were found to contain money to the amount of \$28,100 and 50,831 committal papers with an aggregate face value of \$1,990,028.

Samartian's Watch Recovered. Lebanon, Pa., Oct. 15.—Percy Diefenbach had returned to him to-day his gold watch, which he had given up as lost forever. The watch was returned by August Pfeiffer, who found it underneath the collar of his child, that he had returned. Diefenbach had dug the grave for the child as an act of kindness towards her, and in doing so the watch must have dropped from his pocket.

THE DAY AT THE CITY HALL

Assessment Commissioner Fleming Says Cottagers on Eastern Sand-bar Are Trespassers.

LAUNDRYMEN WANT TO BE TAXED

Another Effort to Close Out Chinese Competition—Meeting of the Island Committee.

The Island Committee met Wednesday afternoon and received the opinion of the City Solicitor that the bylaw passed this year taking a portion of Island Park for building purposes was quite legal.

Assessment Commissioner Fleming said he had some applications for camping lots on the sand bar, but would not grant them until he knew what sort of buildings were to be erected.

Ald. Richardson thought that the sand bar, east of the eastern breakwater, should come under the control of the Island Committee, instead of the Property Committee. This matter stands.

Says They Are Trespassers. Assessment Commissioner Fleming, reporting to the Board of Control of the shacks and other dwellings erected on the eastern sand bar from Woodbine-avenue west, said there were 35 persons located there, and they were all trespassers.

Anxious to Be Taxed. The effort of the "white" laundrymen to have a \$50 license fee placed upon all laundries in the city, was before the Board of Control again Wednesday. Frank Cook told of the anxiety of the laundries to pay the \$50 to the city and Hamilton, Canada, on behalf of the Celestials, opposed it, repeating that it was simply a scheme to shut out competition.

Separate Cells for Prisoners. The recommendation of the Property Committee in regard to the remodeling of No. 1 Police Station, was left over pending a report on the cost of individual cells, as desired by the Prisoners' Aid Association.

Cheaper Light at the Hall. The board accepted the tender of \$2300 for a new 25 kilowatt generator, supplied by the Canadian General Electric Company, and a McEwen steam engine.

More New Buildings. The building permits issued Wednesday were: P. Terry, brick dwelling, Euclid-avenue, near Leinster-street, \$2500; W. W. Vickers, brick dwelling, Leinster and Leburnum-avenues, \$5000; R. Hill, vestibule, 120 St. George-street, \$1000; Thos. Brown, brick dwelling, Chiswick-avenue, \$2000.

CITY FUEL IS ON THE WAY

First Lot of Wood Has Been Shipped, and Distribution May Commence Saturday.

PUBLIC BUYS LITTLE FROM DEALERS

Fall Supply Ordered by City May Be Required to Keep Prices at Fair Figures.

The first civic fuel reported actually shipped to Toronto was heard from by Street Commissioner Jones Wednesday. He received notice that two cars of dry hard wood had been billed to the civic wood yards. Mr. Jones has not received any advices from the railroad company touching the time of arrival, and does not think deliveries will start before Saturday.

With this exception, the fuel situation remains practically unchanged. The local dealers are delivering a great deal of soft coal, but no wood. The people are evidently determined to wait until the civic supply arrives before they invest in any wood.

There is a growing feeling that in spite of the fact that \$24,000 of city funds is tied up in fuel contracts at present, the full quantity ordered will be required to keep local dealers from hoarding up prices before the normal condition is reached on the local market.

In the meantime the city officials are not disturbed over the prospect of a possible loss to the municipality.

Fish and Game Exhibit.

A forestry, fish and game exhibit will be held in Toronto shortly, under the direction of R. V. Follett, vice-president and general manager of the Forestry, Fish and Game Association of Chicago. Associated with Mr. Follett are the following Toronto gentlemen: B. E. Walker, E. R. Wood, Col. Pellatt, A. E. Ames, Senator Cox, A. Jarvis, H. P. Dwight and Dr. Oronhyatka. Mr. Follett arrived in the city Wednesday evening, and is making headquarters at the Queen's.

Mr. Follett has many specimens of live moose, caribou, deer, elk, fish, birds and other wild things of field and stream, which will be on exhibition. The fishery will be handled in co-operation with the Canadian government. It is a singular thing that almost of the live specimens of wild animals to be shown in this exhibit were secured in Canada, where Mr. Follett has spent his summer for the past 19 years making collections.

This Will Do Good.

Montreal, Oct. 15.—The St. James Gazette to-day expresses the satisfaction of all the army reformers at the addition of Lord Strathcona, Canadian High Commissioner, and Sir Frederick Darley, Lieutenant-Governor and Chief Justice of New South Wales, to the war commission, not because they themselves are army experts, but because they will ensure frank evidence from the colonial officers, who saw the British army at work in South Africa. The whitewashing report of the Remounts Committee made the British public supremely anxious that the lessons of the war be fully learned by the War Office.

Baptists Elect Officers.

Montreal, Oct. 15.—The Baptist Union of Ontario and Quebec assembled in convention here to-night with several hundred in attendance. Mr. A. McVee of Windsor, Ont., the retiring president, in his annual address, referred to the importance of the Baptist denomination, which, from comparative obscurity, had forced itself into recognition among the Christian forces of the country. He advocated greater union and solidarity and urged an effort to consolidate all bodies more or less intimately related to the Baptists, so as to prepare for a union. The following officers were elected: President, Rev. J. L. Gilmour, Montreal; vice-president, R. D. Warren, Georgetown; second vice-president, Rev. E. E. Tait, St. Catharines; secretary-treasurer, Rev. P. K. Dayfoot, Port Hope.

Practical Sympathy Shown.

Chester, Pa., Oct. 15.—Rev. Joseph Timmins, pastor of St. Michael's Roman Catholic Church, took up an offering on Sunday towards the assistance of the coal striking miners. In his sermon, he said: "The miner needs help, and we are justified in giving assistance promptly. Whatever we may give will surely come back to us."

Wilde Play is Forbidden.

Berlin, Oct. 15.—The ministry of the interior has forbidden the production of Oscar Wilde's "Salome." The Association for the Production of Untrammeled Theatrical Representations, which is financing what is called the "modern buche theatre" (modern stage theatre), also desires to produce "Salome."

PRESSMEN REFUSE TERMS.

Midnight Conference With the Typothetae at a Deadlock.

New York, Oct. 15.—The difficulty between the Pressmen's Union and the employing printers, or the Typothetae, remained practically unchanged yesterday, although each side predicted an adjustment which would permit the printing of the November magazines, now the most pressing work on hand.

The Typothetae held a meeting in their rooms at 220 Broadway last night. All the leading job offices were represented. After a conference which lasted from 8 until 10 o'clock it was decided to summon the officers of the Pressmen's Union so that, if possible, an amicable settlement might be reached. The strikers were holding a meeting at their headquarters only a block away.

At the conference the employers expressed their willingness to agree to the demands of the men as far as an increase in wages was concerned, but refused to yield to the strikers' request that all non-union men employed by them be discharged. The strikers refused to accept these terms. At midnight no satisfactory agreement had been reached.

Just how the pressmen hope to win they did not make plain. The only assertion yesterday was that they had practically a monopoly of the good workmen. Henry V. Boyce, counsel for the Typothetae, said that was by no means the case. He also said that the pressmen had already broken one contract and were now asking the employing printers to break their contracts with the successfully imported non-union men. This Mr. Boyce said, the Typothetae would never do.

"We are all standing together," he said, "and will continue to do so. We want a settlement with the union and want to get our old men back, but we will not get them back by treating our new men dishonorably. We can't arbitrate any such issue as that."

WHERE JUDGES ARE ASSASSINATED

One Killed From Ambush as He Was Riding on the Highway.

Booneville, Ky., Oct. 15.—Judge Allan Hyden, County Judge of Owsley County, was killed from ambush near here this morning as he rode to town to attend court. The assassins were hidden in a group of bushes on the roadside and as Judge Hyden approached they opened fire on him. One bullet entered his head and another his heart.

Judge Hyden fell with his foot hanging in the stirrup. He was dragged for some distance. The weapons used were rifles and there were two of the assassins. They made their escape on foot across fields.

When the county officials heard of the crime they telegraphed at once to several places to secure bloodhounds. It is believed that political enemies killed Judge Hyden. His election was secured only after a hard fight.

MONTREALER'S SUICIDE.

Albany, N.Y., Oct. 15.—Richard Kieley, Jr., of 2305 St. Catharine-street, Montreal, committed suicide here today by jumping from a bridge into the Erie Canal.

Ten Men Lost.

Ashtabula, O., Oct. 15.—Nothing has yet been heard of the life-boat with ten men, which put off from the steamer C. B. Lockwood Monday evening, just before the latter foundered fifteen miles off here.

Three Estates in Surrogate Court.

William Harvey Cox owned No. 15 Bowman-street and No. 75 Lewis-street, each worth \$900. He died recently, having willed this and \$100 in personalty to his wife and children. John Hates, who died last month, left all he had to his wife. He owned No. 640 Palmerston-avenue, worth \$100, and had \$100 worth of household goods. James Kerr, barrister of this city, died in Colorado last August. He had his life insured for \$3000 and \$100 in personal effects. The estate goes to the widow and children.

Arthur Simonski Guilty.

Arthur Simonski of Spadina-avenue was tried in the Criminal Sessions on Wednesday on a serious charge. The complainant is Annie Beatrice Williams, an attractive mulatto girl who is said to be the child of Chas. Ford, who was tried and acquitted of the murder of Frank Westwood. The girl was employed as a domestic in the home of Simonski's mother when the offence is said to have been committed. Simonski was found guilty and remanded for sentence.

Wall Street Securities Spend an Un-eventful Day, Closing at About Best Prices.

CABLES STRONG ON LOCAL MARKET

Other Local Issues Steady and Firm—er-Market Quotations, Notes and Gossip.

World Office, Wednesday Evening, Oct. 15. Spots of strength were noticeable in the local market to-day, with activity confined, however, to two or three stocks. It seems to be generally conceded now that news of more than ordinary bearish character will have to be forthcoming to reduce values to where they were early in the week, but on the other hand few can be found who expect prices to advance except by a slow process. Cable was for some reason unusually active and strong to-day, and the reported sales were in the neighborhood of 150 shares. From early sales at 17 1/2, the price advanced to 17 3/4, and closed at 18. N. S. Steel was firm in the coal and steel section, and gained nearly 2 points in the quotations between opening and closing. Dominion Coal and steel were comparatively inactive. Steel was bid up nearly a point, to 55, but coal closed to 128, with a closing sale at 125. Other issues were quietly steady, with an improved under tone.

Values inclined to more firmness at Montreal to-day, but the market lacked energy. Cable was strong, and moved from 17 1/2 to 17 3/4, closing at the latter to 18 1/2. C. P. R. held steady, with smaller transactions than usual. Toronto Railway and Twin City were dealt in at small advances from Tuesday.

At Boston to-day Dominion Coal closed 128 bid, and Dominion Steel 55 bid and 55 asked. Closing quotations of Superior at Philadelphia were 22 to 22 1/2.

For the first week of October earnings of 43 American roads increased 6.96 per cent.

Erie is reported to be planning an entrance into Pittsburgh.

St. Paul. It is reported, will secure access to the Pacific Coast over Union Pacific and will not build.

Joseph says: The best advice are that the mines will be reopened, and in full blast by Monday next. Buy Pacifics, Pennsylvania, tractions, or People's Gas on little dips, but do not attempt at first to make speculative plunges. Big short interest in Atchison, also Erie and Denver.

It is generally believed the arbitrage strike settlement efforts will be successful. It would be difficult to hold the strikers together now that the opportunity is presented to go back to work. It is rumored that \$30,000,000 to \$35,000,000 of

government bonds will be offered to Secretary Shaw, N. Y. News.

London, evening: The market for American railroad shares closed on the curb firm at best figures of the day.

The rate of discount of the Bank of Bengal was to-day raised from 3 to 4 per cent.
