

THE WORLD'S HOME MAGAZINE FOR WOMEN EDITED BY LAURA E. MCCULLY, B.A.

The Woman's Periodical And How It is Filled

The average periodical designed by the publishers for the feminine public is a positive disgrace to modern civilization. Old "reliable" papers that we all recollect from childhood are growing less interesting from year to year, and the cause is one and very simple. They "talk down" to their women readers.

women like to read about fashions, an occasional little political squib, and more than a daughter, wife, mother, and so on, and has her wider interests as well as man, like, for instance, to read well-written book reviews, and an occasional little political squib, with comment on the scientific, artistic and progressive subjects of the moment. Such things make her feel her life is not a mere domesticity less life.

The editor, who wishes to make his magazine a success ought to remember that to be specific let us just take a case or two. "The Ladies Home Journal" is a very popular paper. Barring slang used without quotation and freely in occasional remarks by the editor, its editorial tone is exceedingly progressive. But several departments of the paper are given far too much room. Social customs, for instance, are written upon by a very dubious authority, and the editor suggested may be proper in the lower middle class, but people of culture do not do them even if they happen to be poor. Another thing is this: The patterns of the journal are not always practical, tho attractive. Now the intention in thus criticizing a paper of great general circulation and worth is in our estimation the perfectly proper one of trying to point out that it would be better if these magazines devoted more attention to matters which are outside of a pattern agency, or an estimate book, or even a beauty doctor's practice. It is very hard to keep everything high-class when so much is attempted. Of course

We have purposely left out of the discussion the fashion magazine, pure and simple, and the magazine which lays no claim to literary standing. "The Woman's Home Companion" is like The Journal, a really expensive gotten up and important magazine. Yet in many ways it has the same faults. These magazines should remember that a woman is something more than a daughter, wife, mother, and so on, and has her wider interests as well as man, like, for instance, to read well-written book reviews, and an occasional little political squib, with comment on the scientific, artistic and progressive subjects of the moment. Such things make her feel her life is not a mere domesticity less life.

Personal

One of the most fashionable weddings of the season in London, Ont., took place in St. Paul's Cathedral Saturday afternoon, when Miss Marjorie Campbell Gibbons, daughter of George C. Gibbons, K.C., of that city, was married to John Leith Counsel of Hamilton. Over a hundred guests from London and other parts of Canada and the United States were present. The floral arrangements were particularly artistic in the profusion of ferns and chrysanthemums, heaped about the chancel and in the window niches. From the door to the chancel the effect of green masses and testoons of flowers about the windows was oddly beautiful. Added to this, the handsome dresses of the lady guests and the delicate white of the bride and the bridesmaid's gowns contributed to an impressive array of color. Such as old St. Paul's has seldom seen. The driveway leading to the church was lined with spectators. At 2.30 the bride, dressed in the most beautiful of white, trimmed with panels of chiffon and cut velvet, with full tulle and orange blossoms, entered the church upon the arm of her father. The bridesmaid, Miss Evelyn Campbell of Winnipeg, Miss Mary Campbell of Toronto, Miss Leslie Smith of St. John, N.B., and Miss Mary Gladstone of Hamilton, wore dresses of white point d'esprit trimmed with satin, with hats to match, and carried large bouquets of chrysanthemums. Fred Waddy of Toronto acted as best man. The service in the church was choral in nature. Rev. Canon Dunn officiating. The bride's going-away gift consisted of a brown tulle hat with plumed hat to match. After the ceremony the bride received at her father's home beneath a marriage bell of white flowers. The main body of the drawing room was decorated in pink flowers. Mr. and Mrs. Counsel left on a special train for Hamilton. The bride will be spent in New York, Philadelphia and other American points, after which their residence will be made in Hamilton.

ASHBRIDGE'S MARSH TO BE A SECOND PITTSBURG

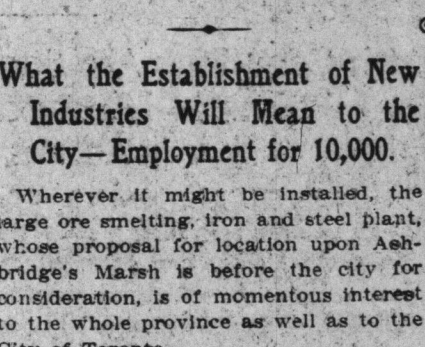

What the Establishment of New Industries Will Mean to the City—Employment for 10,000. Wherever it might be installed, the large ore smelting, iron and steel plant, whose proposal for location upon Ashbridge's Marsh is before the city for consideration, is of momentous interest to the whole province as well as to the City of Toronto.

Perchance the magnitude of its importance has not, as yet, been fully appreciated by the general public, or even the city fathers. The utilization, on such a scale, of what is perhaps the ore's greatest resource, as a raw material, which a country can have, is necessarily, as stated, momentous. It enters to-day to a greater extent and into more of the arts than any other. This resource has remained buried so long that a resolve to uncover and use it may be considered a bold enterprise.

Now a plant is proposed that will smelt some 1,400 tons of ore daily. As a yield of 50 per cent. metal and the daily product of the province, say, 150 feet, show about 42,000,000 tons in sight and indicate an almost unlimited supply.

There are 65 different costumes, complete, a dozen hats, a profusion of costly furs and silks, acres of linen and piles of dainty lingerie. Message From the King.

At "La Plaza," Jarvis-street, in the pretty rooms of the Women's Art Association, a reception was given on Saturday last by the Daughters of the Empire in honor of His Majesty's birthday. Tea was served after a short musical program. The wives, sisters, daughters and relatives of the Grenadiers and Highlanders form an interesting chapter and were present in numbers on Saturday. The turnout was excellent, and the place filled. Among prominent workers in the movement who were present were the following: President, Mrs. Nordheimer; officers, Mrs. Davidson, Mrs. Clark of Hamilton, Mrs. McKenize Alexander, Mrs. Albert Gooderham, Mrs. George, Mrs. Gosse, the honorary president of the Ontario Chapter, Lady Clark was also present; Lady Moss, Mrs. Goldwin Smith, Mrs. Arthur Van Koughnet, Mrs. Hal Oster, and many others were also here. The work of the order is summed up best by saying that its purposes are to unite women of the empire in a band of common fellowship. Its activities are of the very widest nature, and include such as these (in which the order has recently engaged): the erection of a consumptive hospital in Ottawa, supplying flags to schools, maintaining school children's cottages in hospitals and Western Toronto, the erection of a monument

FORBIDS MIXED MARRIAGES.

Mgr. Bruchesi Warns Catholics About Relations With Protestants. MONTREAL, Nov. 9.—(Special.)—The fact that the Roman Catholic Church is opposed to mixed marriages and that it allows them only upon special dispensation being obtained, is well known, but the recent announcement that the general rule is to be strictly enforced here has brought special attention to this important question. A retreat for young ladies was held in the Church of Notre Dame during the past week, and among other advice given to those attending the religious exercises was a warning to be very prudent in their relations with Protestant young men, and to be on their guard against courtship on the part of the latter, as his grace the archbishop was quite decided to refuse all dispensations for mixed marriages between Catholics and Protestants.

NOTE AND COMMENT

Montreal Varsity Wins from Queens

After conducting this department for the past many years, the writer, in announcing his retirement this week, desires to thank the many club secretaries and others who have assisted him in the work. From less than a column daily to two pages sometimes, The World's sports have kept pace with the general progress of the times in volume at least. Not the smallest help came from the gentlemen of the composing-room, who have made this paper appear from a typographical standpoint, even if it were otherwise lacking. After a short and needed rest, the writer hopes to again resume newspaper work.

GREAT RUNNERS. The West End Y.M.C.A. are to be congratulated on their great victory at Montreal on Saturday. No better than third choices for the Star trophies, the team surprised nearly everybody and showed the speed and stamina that secured the honor. The crowd is described as the greatest that ever assembled in the old city on the St. Lawrence, and the positions were determined long before the finish. With Longboat leading, the runners on the last mile were aptly forced to an Indian file, as the throng of spectators prevented anything like one man jumping ahead of another. The whole thing must have surely impressed the Federation, that tried to spoil the affair of its own insignificance, and to envelop the power of the C. A. A. U., undependable whose sanction the race was held.

The victory of Wilson of Peterboro over Coley at the Armory Saturday night was popular in those quarters, where new runners are always welcome. The youngest kept with the Irish-Canadian crack right to the last lap and then jumped so far to the front that it was impossible for Coley to catch up.

WINNING INDIANS. This is a great year for the Indians. Longboat's row of victories may be larger but no less marked than the Carlisle Rugby team's. Their latest victory was on Saturday over Uncle Sam's biggest university, the despatch from Cambridge reading: "The string of ten previous defeats was taken out to-day by the victory of the Carlisle Indians over Harvard by a score of 25 to 15. For versatility the play of the Indian team has not been equaled on Soldiers' Field since the new rules went into effect. Cross-passes, dodged kicks and forward passes followed each other in rapid succession, until the Harvard players became bewildered and utterly unable to stop the advance of the Indians toward their goal. The visitors scored twice in the first half and twice in the second, all four times on straight, clever rushing to the goal lines. The Harvard's score was made by two touchdowns and a goal from placement. Harvard missed one goal from touch-down, but little Mount Pleasant, the Indian quarter-back, kicked three goals out of four attempts.

TWO UMPIRES. Silk O'Loughlin, one of the most popular umpires who ever gave a decision in the Eastern League, is the most disliked of officials by the players in the American League, while Jack Sheridan is the most respected. The ball players do not like O'Loughlin because he's an actor. Crowds go out to see him work watch his actions and hear him shriek his decisions. His acting adds to the amusement of the crowds, but it makes the player look like a subordinate attraction, especially as Silk is not at all reticent in calling a player so that everybody can hear him. That he is absolutely fearless and honest is shown by his record. Sheridan is far more of a czar on the diamond than O'Loughlin. Only he is always the umpire and never the actor. He says a thing once. There is no argument. His whole manner speaks that Jack Sheridan, umpire, has shown that if they kick he crosses his arms as Napoleon looks down at them and emits a growl of scorn. It is like a giant manifest looking down at a barking pug dog.

New baseball legislation is promised, and it seems likely that hot-bated games of five, six and seven innings, with which double-headers were often played out last season, will not be allowed in the American League next season unless the games are called on account of darkness or bad weather.

JOHN'S CHANCE. Owen Moran, the English bantam, is making a favorable impression at San Francisco. In speaking of Gunner Moore, Moran gave the heavyweight a chance against Tommy Burns on what he heard regarding the Canadian. "If Burns has the least sign of a streak in his make-up, Moore will beat him," said Moran. "It is a husky ball player, weighing 218 pounds and steps in and fights from the jump. It takes a stiff jolt to make him slow up, as he has a bulldog jaw and is as Napoleon looks down at them and emits a growl of scorn. It is like a giant manifest looking down at a barking pug dog."

At the annual meeting of the Amateur Athletic Union, announced to take place in New York shortly, it would like to suggest three important matters for the delegates to consider, says Bob Dunbar in the Boston Journal. First, the matter of college athletes competing for colleges should be thoroughly gone into and some definite and simple rule made. Second, patch up all differences with the Canadian A. A. U., so that there may be a mutual understanding. Third, make some arrangements where proper elimination trials may be held to select the very best possible material for the Olympic team which will visit England next year.

Irish-Canadians Are Second and Halifax Harriers Third—Longboat Easily First With Adams Second.

MONTREAL, Nov. 10.—Tom Longboat won the Montreal Star's King's birthday road race, which was held on Saturday afternoon on the mountain course, a distance of 15 miles, under the auspices of the Independent Harriers' League. A vast crowd of spectators, estimated at between 150,000 and 200,000, witnessed the race. The roads were in very heavy condition, being very muddy, but Longboat finished the course in very good time—1 hour 26 minutes and 55 seconds. He had the race easily in hand all the way.
