WAR SUMMARY

THE DAY'S EVENTS REVIEWED

REVERTING to infantry action after lengthy and careful preliminary work, mainly consisting of correct observation and of pointing by heavy shell fire the German positions to a pulp, the French swept forward to further conquests of territory north of the Somme yesterday afternoon and before they rested on their arms they had cut the trunk highway between Peronne and Bethune for a considerable distance south of Combles. This road connects Peronne with Bapaume by the first line of German trenches on a front of three and three-quarter miles. Perceiving that the way was clear for further offensive action the Gallic troops then swept forward over Hill 145 into Marriers wood, and next captured the whole system of German trenches as far as the above named road. To the south of this front of advance and close to the Somme the French advanced to and up Slope 76, west of Feuillacourt. Fifteen hundred prisoners were brought into the French clearing stations.

The result of this action brings the French almost within two short marches of Peronne from the north. They are also established close south of Combles and they have cut off its communications with Peronne. The next procedure on this section of the front will probably be the capture of Combles either by the French or the British or by both combined. After that the allies may wheel to the right and secure Peronne, and use it as Combles as base for a sweep over the watershed between the Somme and the Oise, and the Scheldt and the Sambre. All things point to extremely heavy

Her crew was saved by the Dutch steamer Drakatau, of Amsterdam. Lloyd's also reports the sinking of the Norwegian steamer Furu, of 2025 tons gross, of Berger and Frødoere, of 1618 gross tons, of Farstad.

FEDERAL PROBE INTO DISASTER IS NOT LIKELY

Liability for Collapse of Quebec Bridge Rests on Contractors.

BIG DEPOSIT IS HELD

Million Dollars of Company's Funds Guarantee Government Against Loss.

By a Staff Reporter. OTTAWA, Ont., Sept. 12.—Contrary to expectation there was no meeting of the cabinet this afternoon. It had been thought that the Quebec bridge disaster would be discussed. Sir Robert Borden intimated, however, that the matter had not yet been taken up by the government.

It is quite probable that the government will make no move in the affair, as it seems to be considered generally that the contractors are wholly responsible and that it is their business to finish the contract. The contract as arranged between Hon. George F. Gurnea as minister of railways and canals in the late government and the contractors, is acknowledged to cover the question of responsibility adequately. There is also a heavy cash deposit in the hands of the government, which is understood to be one million dollars.

The contractors will hold an investigation of their own. One of the outstanding facts in connection with the bridge catastrophe is coming to light in connection with the two great cantilevers, which are the main parts of the bridge, and the extended arms of which were put upon them as the span between them, the span that fell into the water on Monday. Each of these cantilever arms pointing to the center was put upon them as the span between them, the span that fell into the water on Monday. Each of these cantilever arms pointing to the center was put upon them as the span between them, the span that fell into the water on Monday.

KING DEEPLY REGRETS DISASTER AT QUEBEC

Chairman Smithers of G.T.P. Also Sends Message of Sympathy.

By a Staff Reporter. OTTAWA, Ont., Sept. 12.—A cable from King George, dated Windsor Castle Sept. 12, to the Duke of Connaught, says: "I am deeply concerned to hear of the Quebec bridge disaster, and sincerely trust that the loss of life is not heavy."

A cable was also received from A. W. Smithers, chairman of the G.T.P., expressing sympathy on behalf of the board of directors, to which Sir Robert Borden replied.

GREEK CABINET CRISIS CANNOT BE AVERTED?

Members of Zaimis Ministry Tell Premier Situation is Hopeless.

ATHENS, Sept. 12, via London.—Several members of the Zaimis cabinet called at the palace this morning and insisted that it was impossible for the ministry to remain in office. The belief is now held in official circles that a cabinet crisis cannot be averted.

TROUPE GAVE LIBERALLY TO CAMPAIGN FUNDS

Capt. Sprague Tells of Collections Just Prior to Federal Election.

CORROBORATES STORY

Contractor Carter's Testimony at Winnipeg is Borne Out.

WINNIPEG, Sept. 12.—Capt. D. E. Sprague, formerly a lumberman in Winnipeg, told the commission investigating the erection of the Manitoba Agricultural College, this afternoon, that in the three days which preceded the federal election in September, 1911, he collected \$7500 from three men, Carter, Hall and Alginier, for the Dominion Conservative campaign fund.

Capt. Sprague said he was given a cheque for \$5000 by Mr. Carter on Sept. 18, 1911. He cashed this on Sept. 20, and the \$5000 was given to him in a second cheque for \$2500. They were payable to him, and he signed vouchers made out in the name of the Sprague Lumber Co. His recollection was that he saw no person in regard to these contributions, except members of the local Conservative finance committee, and he thought he gave some of this to Mr. Boyd. He knew at this time that Carter had a contract with the government, and this, he said, "might have influenced my ideas as to the amount of his contribution." No books were kept of these contributions.

KITCHENER BATTALION OFF FOR CAMP BORDEN

Expect to Go Overseas Before Camp is Broken Up.

Special to The Toronto World. KITCHENER, Sept. 12.—Officers and men of the 118th Battalion left this afternoon for Camp Borden, where they will remain until training for overseas duty. The members of the bombing section which captured the camp honors in Toronto last Friday had their leave extended one day, and will return Wednesday. It is not known when the battalion will leave for overseas, but it is expected that it will be some time before camp is broken up on Oct. 15.

BRUSSELS PAID BIG FINE

BERLIN, Sept. 12, via London, 11 p.m.—The report current abroad that the 2,500,000 fine imposed on the City of Brussels, because of the street scenes attendant on the departure of Cardinal Mercier, had been revoked is denied. The announcement made that the payment of the fine was completed Aug. 30.

FRENCH SMASH WAY FORWARD ON NEARLY FOUR MILE FRONT

BRITISH GUNS FIRE FOE SHELL STORES

Destroy German Gunpits in Artillery Duels South of Ancre.

AEROPLANE GYRATES

Damaged in Collision, Hun Machine Ascends Out of Control.

Special Cable to The Toronto World. LONDON, Sept. 12.—Intermittent shelling of the British front south of the Ancre is reported by the British official communication on the fighting in France today. The British guns retaliated by heavy bombardments, destroying some German gunpits and setting fire to one of their ammunition stores.

Two large conflagrations were also caused in the ammunition depot of the enemy at Grandcourt by British shells last evening.

In the aerial fighting the remarkable incident of a German aeroplane being damaged and ascending upward out of control beyond the clouds is noted by Gen. Haig. The foe's machine collided with a British machine and then commenced its ascent.

The British official statement of tonight from general headquarters reads: "The general situation is unchanged. There was intermittent hostile shelling on the front south of the Ancre. Our artillery destroyed some enemy gunpits and set fire to an ammunition store. During the past 24 hours some 50 prisoners have been brought in."

"In the course of aerial fighting one of our machines, which returned safely, collided with a hostile aeroplane which fell out of control and disappeared in the clouds. Today a hostile machine was brought down in flames in our lines near Pozieres. Two of our aeroplanes failed to return."

"Yesterday evening our heavy artillery caused two large conflagrations in the enemy's ammunition depot at Grandcourt. There was some hostile artillery activity during the night against our lines between Delville Wood and Mouquet Farm. Otherwise there were no developments."

IMPOSTOR TRICKS TRAIN PASSENGERS

Man Posing as Customs Inspector, Gathers in Cash Near Buffalo.

FRAUD NOT SUSPECTED

Brantford Man One of Seven Victims of Ingenious Hold-Up.

BUFFALO, Sept. 12.—Seven passengers on a C. P. R. train were victims of a peculiar robbery as the train entered the U. S. today. The train had been stopped for the custom inspection when a man walked into one of the coaches and began questioning the passengers. Of Mrs. Jesse M. Ardill, of New York City, he demanded "How much money have you got?" Mrs. Ardill opened her purse and the man counted \$110. He returned \$60 to the woman, saying that he would have to keep the remainder as a "deposit." He wrote a receipt for the money as "paid over to the U. S. customs at Buffalo."

In like fashion the man got \$38 from Edward Crockett, of Brantford, Ont. Five others in the car also gave up money, but their names were not obtained by the police.

The robbery was not discovered until the train pulled into the Buffalo station, when Mrs. Ardill asked the conductor what she should do with her receipt. The passengers gave a good description of the man, who they had supposed was a customs official.

MAYOR TRIES IN VAIN TO SETTLE CAR STRIKE

Neither New York Companies Nor Men Will Agree to Arbitrate.

CAMPAIGN OF FORCE

Labor Organizer of State Hints at More Serious Outbreaks.

NEW YORK, Sept. 12.—After Mayor Mitchell and the public service commission had taken steps late today to terminate the transit strike in this city, by urging that it be immediately declared off, and that both sides arbitrate their differences, plans to continue and extend the strike were discussed tonight at a meeting of the united labor conference of central bodies of greater New York.

Following the conference, Hugh Frazer, New York state organizer of the American Federation of Labor, issued a statement as follows:

"The consensus of opinion among the members of the various organizations represented was that the railroad officials must be met with the sort of force they are applying to the men."

Frazer declared that the United Hebrew Trades were represented in the conference for the first time. These trades, it is said, have a membership of 200,000.

FINAL MAINE FIGURES ADD TO G. O. P.'S LEAD

Vote Largest in History of State and Result Quite Conclusive.

PORTLAND, Me., Sept. 12.—The largest vote in the history of Maine was cast at the district school yesterday. The total vote will approximate 150,000. The figures have not been approved since 1850, when the total was 147,802.

The receipt today of the vote from the border and a few isolated towns increased the plurality of Polignac, Maine, by a vote of about 4 to 1, gave popular approval to the state law limiting the employment of women and children to 54 hours a week.

Ally's Storming Columns Capture Trenches, Hill, Slope, Wood and Redoubts to Main Highway to Combles From South.

Special Cable to The Toronto World. PARIS, Sept. 12.—Resuming their forward drive with great dash and spirit the French, continuing the battle north of the Somme River today, carried first line German trenches on a front of six kilometres (3 3/4 miles) north of the Somme, and then pushed on and cut the road between Peronne and Combles and Bapaume and Bethune, taking more than 1500 prisoners.

The French started their infantry attacks at 12.30 o'clock this afternoon, and before the hour of one they had captured the whole of the German first line trenches confronting them. Next they drove eastward and captured a succession Hill 145, Marriers Wood and the whole system of trenches as far as the road between Peronne and Combles. They held by nightfall a section of this highway between the scenery of the district south of Bouchavesnes.

Further to the south of this they also pushed their lines up Slope 76, west of Feuillacourt.

Take Many Officers. Among the prisoners brought in are many German officers. This latest success puts the French fairly close to Combles, cuts the German communications between Peronne and Combles and gives the French a great advantage point for wheeling southward along the bend of the Somme and turning Peronne from the north.

The artillery action was continued with great violence south of the Somme, but no infantry came out to fight today.

The text of the French statement reads: "The battle continued today north of the Somme. Our infantry delivered a vigorous offensive on a six kilometre front between the district south of Combles and the Somme. The attack started at 12.30 in the afternoon and developed rapidly, thanks to the spirit of our troops, who in less than half an hour captured the district south of Combles and the district south of Bouchavesnes. Further south we pushed our lines on to Slope 76, west of Feuillacourt."

"Up to the present the total number of prisoners reaches 1500. These include numerous officers."

"South of the Somme the artillery fighting was violent in various sectors without infantry action. There was an intermittent cannonade on the remainder of the front."

An investigation started by the coroner after an accident in the Bronx, New York, in which two persons were killed and many others injured when a car got beyond control of an inexperienced motorist crashed into an automobile, revealed that many of the strikebreakers had been employed previously as truckmen.

Traffic on virtually all surface car lines affected by the strike was suspended again tonight. Subway and elevated train service continued about normal.

The attitude of the Interboro Rapid Transit Company officials was endorsed this afternoon at a directors' meeting.

Woman Led Attack. Spasmodic disturbances occurred throughout the city during the day. Cars were stoned and passengers driven to the streets. A woman led an attack on two Third Avenue surface cars. The windows of the cars were broken. Two policemen, with drawn revolvers, held the mob back until reserves arrived.

President Shonts of the Interboro Rapid Transit Co., announced tonight that he will not accept the recommendation of Mayor Mitchell and the public service commission, to call off the strike and arbitrate the differences between the railway companies and the labor union.

MORE OFFICERS HAVE ARRIVED AT HOSPITALS

Lieut. Dyas of Toronto, Wounded in Neck, is at Manchester.

Canadian Associated Press Cable. LONDON, Sept. 12.—The following are in hospitals in France: Major Ashplant, with shell wounds in ear and neck; Capt. Cosby, shell shock; Lieut. Dyas, shell shock; Chaplain, Major Wood, slightly wounded; Lieut. Dyas, who was shot in the neck, is at Manchester. Lieut. Hamman, shell wound in the back, is at Tidworth. Lieut. Dineen Co. VON HINDENBURG BELIEVED TO BE PREPARING TO STRIKE HARD

ALLIES' COURSE CLEAR

General Attack on All Fronts Best Means of Aiding Roumania.

LONDON, Wednesday, Sept. 13, 3.05 a.m.—The Times military correspondent in an article today accuses the probable strategy of Field Marshal Von Hindenburg, the new German chief of staff, under the caption "Roumania's Danger."

The writer expresses the belief that the German leader will adopt a defensive policy in the west, and gather an important army for an attack on Roumania in an effort to repeat Germany's performance against Serbia. "We allies," says the correspondent, "must in this case come to the aid of Roumania with all our might. This does not mean that we should allow our strategy to be deflected, but rather that the settled plan of the allies should be pursued with increasing vigour and determination. To fly about the world to any point where Von Hindenburg is beyond us is an act of folly. The best means of helping Roumania is by continuing on all fronts our general attack with increasing means, and increasing obstinacy. Our main efforts must be on the principal fronts where our main armies stand."

INTERNATIONALS IN SWITZERLAND

PARIS, Sept. 12.—Premier Briand announced today that the French government had decided to accept a proposal to intern in Switzerland all prisoners of war who were parents of three or more children and who have been in captivity for eighteen months or more. The proposal is under the consideration of the Swiss government.

Let the Eureka Electric Cleaner Do Your House Cleaning

One of The Very Best of Its Kind, With Several Special Features That Make For Efficiency, Speed and Convenience

NO HOUSEWIFE dare profess to be up-to-date unless she owns an electric cleaner. Ease, thoroughness and speed in household cleaning are its magic charms. The old-time toil of sweeping and dusting vanishes with its use. The only question that arises is—which cleaner to buy?

Wherefore it behooves us to draw attention to the "Eureka"—proven by practical test and official award to be one of the most satisfactory cleaners on the market. Here are some of its special and particular features:

The convenient button switch by which the electricity is controlled. It is on the handle. You simply press this button lightly forward to start the machine, and draw it lightly backward when you wish to stop. The curve in the handle. It fits the natural position of the hand when drawing the machine back and forth.

The Eureka runs on rollers. The entire machine rests on three rollers, permitting it to glide over the floor, with the least possible effort to the person operating it.

An exclusive Eureka feature—the unique simplicity of the connection of the hose attachment. In exactly 10 seconds you can change from cleaning carpets to cleaning mattresses, curtains, etc.

The Eureka weighs but 10 pounds. You can carry it up and down stairs with but little effort. The Eureka may be attached to any ordinary light socket, with direct or alternating current. The price is \$42.50. With attachments for the cleaning of upholstery, curtains, pillows, etc., \$7.00 extra.

WEDNESDAY MORNING, SEPT. 13.

Finish the Bridge.

Canada, with undimmed eyes, must face the future of the Quebec bridge. The second catastrophe in the building of that bridge comes as a shock to the national pride of the Dominion.

The cause of Monday's catastrophe must be ascertained. It may have been some defect in the building apparatus, it may have been some latent defect in the imported steel of the span.

The contractors say that the hanging girders and all the hoisting apparatus are still in perfect order, and that if another span were ready it could be lifted in position within twenty-four hours.

If Canadian prestige has suffered thru the disasters of 1907 and 1916, that prestige should be regained and our national loss should be repaired by triumphantly completing the bridge.

Whether at the time the project of the bridge was conceived, there was sufficient traffic in sight to justify so gigantic an undertaking, we need not now stop to consider.

A Curious Breakdown

Dr. Johnson, in defending the principle of a hereditary monarchy, said that the people, if left to choose their own ruler, could never decide who was the best man for the place.

Any one who travels thru what is called the Middle West, cannot but be impressed with the fact that Charles E. Hughes will be elected president in November.

While the Democratic party is by no means united in its support of President Wilson, the German-American vote is for Hughes to a man, but the pro-vote is by no means solid for Wilson.

X'SKUCE ME

THE SYNOD OF ONTARIO

By DR. QUILL.

BY DR. QUILL.

It was a quarter to 11 Tuesday morning, Sept. 12, 1916, when the procession entered Christ Church Cathedral, Hamilton, and the first synod of the Ecumenical Province of Ontario was opened.

The cathedral is a noble house of worship. It dates back to 1842, when it was opened. Dean Geddes was the first rector. The baptismal font is a memorial to the honored pastor.

The act of this second synod had to do with religious education in public schools, with the subject of the extension of the state of the church and other matters.

The Bishop of Alberta, Dr. Thornloe, being senior in office, presided as metropolitan and speaker of the synod.

He said in part: "This book of Hebrews was intended to console the Hebrew Christians who were persecuted."

The Index Finger. If there be any truth in the old saying that "his name goes, so goes the Union," the Democrats will find food for serious thought in yesterday's election.

well qualified to meet any civic deputation. There would always be mutual sympathy and unity of aim. Hence he wished the acting mayor to carry back to the city council the assurance that the synod is with them in every good work of the kind.

The archbishop named Canon Tucker, the former prolocutor of further reply to the city's deputation. This is a very popular member of the synod and speaks with a real silver tongue.

The archbishop immediately began his charge to the synod. He stated that there was no rule whereby such an address is authorized, but he held it to be his right, if he desired it, to address them.

The prolocutor appointed Canon Kitchin, Ottawa, to be his deputy, and Canon McDonald, Brockville, Ontario, and out on two dangerous officers' patrols at 9.40 p.m. to 12.30 a.m. the night of the 14th-15th, and led an unsuccessful

But it is by committee, where all five are brought together. There are five members on the committee, and one was granted in response to the meeting in Huron diocese. This has to do with the emergency due to extension of work in the rapidly developing portions of the diocese.

The number of delegates varies with the number of resident clergymen in each diocese. It has a right to three of each order. The remaining are taken at the discretion of the synod.

After the synod prayer for divine guidance there was a very happy hour, in which the city of Hamilton sent its act of respect for the synod.

The Anglican Synod, by its constitution, must meet every three years, or more frequently if so desired.

WAR LOAN DOMINION OF CANADA

5 1/3 %

As with the previous Loan, we predict a great success for this issue. During this period of stress our Government needs our help and counts upon our patriotism. But a chance is given investors of placing their money in securities of the highest grade, upon terms the liberality of which will, perhaps, not be fully realized until the return of normal times.

If this Loan were issued to yield 4%, instead of about 5 1/3%, the price would be 105.41, instead of 97.50. A 4% yield (the basis on which Dominion Government bonds sold so recently as 1914) would mean a price of 111 for the present issue.

We will forward your application, procure your allotment and render other services free of charge to you.

CANADA'S WAR LOAN RECORD

All War Loans heretofore issued by Dominion of Canada have, within a very short time, shown material appreciation in value.

The new Domestic Loan is offered at 97.50, but as the Government will pay a full six months' interest on April 1st, 1917, and as payment can be made in instalments, there is a profit in interest of .60% to be considered, making the ACTUAL COST 96.90%, YIELDING OVER 5.30%.

The present price of the Fifteen-year Loan, issued a few months ago in New York, is 99.50.

The Minister of Finance is therefore giving the Canadian Investor the opportunity of purchasing each \$1,000 Bond at \$26.00 less than the market value of a similar issue in the United States.

PUBLIC INTERESTED IN ADVANCE OF CALUMET

The listing of Calumet and Montana on the Toronto and New York exchanges has caused unusual interest. The company is the owner of the property formerly known as the Air-gold mine in Cobalt. With ample capital, the new company has been working with satisfactory results for many months, and the veins now uncovered are very promising. As the company's shares are selling at a value of \$10, the shares are selling on a \$1 par basis at only seven cents. This represents with the stock still in the treasury a valuation of only about \$160,000 for the mine. Ten years ago \$200,000 was paid for the property before any development work mentioning had been undertaken. The stock is being well bought in Minneapolis and the west, where some of the directors are held in high esteem.

OPHIR EXPECTED TO CUT VEIN SHORTLY

The buying of Ophir during the last few days has been caused by the fact that the management expect to cut the vein near the contact in the next few days. Should the vein at this point show silver the stock would undoubtedly sell at very much higher prices.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97 1/2

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917. THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97 1/2, payable as follows:—

- 10 per cent on application; 30 " " 16th October, 1916; 30 " " 15th November, 1916; 27 1/2 " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars. In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.
