Several of Injured Are Likely to Die, and Casualty List is Believed to Exceed One Hundred—During Saturday Night's Reign of Terror, Attempts at Incendiarism Are Made and Large Drapery Store is Burned—Elaborate Military Precautions Fail to Prevent Fierce Exchange of Rifle and Revolver Fire Between Unionists and Nationalists.

Londonderry, June 20.—(Associated Press.)—Five persons were killed, ten others seriously wounded, several of them probably mortally, and about 100 others were less seriously injured during a period of desperate rioting in this city Saturday night.

The rioting was a continuation of the disorders of Friday night, when Nationalists and Unionists were engaged in clashes for several hours and the danger zones, but notwithstanding its presence the disorderly elements held away for some time.

In many instances persons who were suffering from minor wounds went home without receiving treatment. The authorities have no record of the number of such cases. Among the wounded are several shipyard workers with bad gunshot wounds.

ELABORATE PRECAUTIONS

The authorities had taken elaborate precautions in view of the expected renewal of the disorders. The military, fully equipped, took positions at the head and foot of Bridge street, which is the Nationalist quarter, and on Lisle road, between these localities, to keep the rival factions apart.

The hopes that these precautions would lead to the preservation of peace, however, were not fulfilled, and another night of terror resulted. These latest scenes of rioting, which left the city absolutely terror-stricken, were said to have originated in what at first appeared to be a minor squabble between Unionists and Nationalists at the junction of Longtower street, in the Nationalist quarter, and upper Fountain street, the Unionist district, these two streets being separated only by Bishop street, the scene of bloodshed for many weeks during periods of rioting.

PANDEMONIUM REIGNS

From shortly after 9 o'clock until 11 o'clock pandemonium reigned. A shot fired from one party into a crowd of rival partisans developed with ominous speed into violent rioting.

SCORES HIGH HEELS, ALSO MODERN DANCE

Condemned by Toronto Doctor in Addressing Wentworth Women's Institute.

HEALTH BUILDS NATIONS
Hamilton, June 20.—Why should we stand in abeyance to any man? asked Mrs. L. Watson, the newly-elected president of the South Wentworth Women's Institute, in her address on the work of the coming year, delivered at the afternoon session of the convention held in the Y.W.C.A. yesterday. She emphasized the importance of women's work in the home and the school, and said there should be a woman on every school board in Wentworth.

The greatest work ahead in the reconstruction of Canada was the prevention of unwholesome diseases, declared Dr. Margaret Patterson, Toronto, who spoke on the fourfold life, physical, mental, social and spiritual. She said women were the guardians of the nation in the matter of health, which was the foundation on which the nation was built. She condemned the high-heeled shoes worn by women and the modern dance.

LEAGUE OF NATIONS ENDORSED BY LABOR AFTER SHARP FIGHT

Irish Vote Was Strongly Hostile and Fate of Resolution Seemed Uncertain.

HARD TO KEEP ORDER
Montreal, June 20.—Despite an outburst of bitter feeling against the league of nations principally because it was believed to be of British design and for British benefit, the convention of the American Federation of Labor closed at 7 p.m. Saturday by placing itself on record as endorsing the league of nations by an overwhelming majority.

Particularly bitter was the Irish vote, and it seemed at times that motion to endorse might be defeated. President Gompers broke his gavel in trying to maintain order, and was himself called to "time" for overstepping the speech limit. The eloquence of Vice-President William Green swung the meeting around and in the end the endorsement by the convention of the league of nations was made almost unanimous.

A policy of "hands off" as regards Mexico was unanimously adopted by the convention. Denver, Colorado, was chosen as the convention city for 1921.

Campaign at Washington. The federation has sent President Gompers and the executive council to Washington to plunge into the task of fighting labor's battles for the next twelve months. The firm move will be to obtain from the Democratic party at its convention in San Francisco, incorporation of labor's demands in that party's platform. The executive will also press the carrying out of the federation's non-partisan political policy as approved at the convention. The general points outlined by the labor convention were:

1. Ratification of the peace treaty governing ownership with democratic control of railroads.
2. Curb on profiteering and high cost of living.
3. Tailing of food and clothing profiteers.
4. Right to strike and abolition of compulsory arbitration and anti-strike legislation.

5. Right to vote in Mexico by the United States government.
6. Endorsement of the Irish republic.
7. Right of collective bargaining.
8. Advance in wage wherever necessary to maintain the United States standard of living.
9. Shorter working day, if necessary, to prevent unemployment.

THE COMMITTEE TOOK UP VOTES

\$160,000 for pensionaries. Votes passed rapidly. Within a few minutes the committee passed the pensionary estimates and further adopted a vote of \$27,081,786 for pensions. Of the latter, \$25,825,676 was for active militia pensions and for pensions arising out of the war. Current estimates for \$5,150,000 were then passed, and the vote of \$1,600,108 for excise also carried.

Just before adjournment nine divorce bills were adopted in five minutes. It was announced that the division bill would be taken up on Monday.

OPPOSE MORE INDEMNITY

Edmond Proulx (Prescott) opposed any increase in seasonal indemnity to members of parliament and he also thought judges should be able to get on with their present salaries. The soldiers had fought overseas for \$1.10 a day. The financial condition of the country, he said, did not warrant increases, especially if it was impossible to grant bonuses to soldiers. Estimates of \$7,538 for administration of justice were then passed and adjourned.

Campaign at Washington. The federation has sent President Gompers and the executive council to Washington to plunge into the task of fighting labor's battles for the next twelve months. The firm move will be to obtain from the Democratic party at its convention in San Francisco, incorporation of labor's demands in that party's platform. The executive will also press the carrying out of the federation's non-partisan political policy as approved at the convention. The general points outlined by the labor convention were:

1. Ratification of the peace treaty governing ownership with democratic control of railroads.
2. Curb on profiteering and high cost of living.
3. Tailing of food and clothing profiteers.
4. Right to strike and abolition of compulsory arbitration and anti-strike legislation.

5. Right to vote in Mexico by the United States government.
6. Endorsement of the Irish republic.
7. Right of collective bargaining.
8. Advance in wage wherever necessary to maintain the United States standard of living.
9. Shorter working day, if necessary, to prevent unemployment.

A LOVELY REGION

One hundred and forty-five miles north of Toronto lies the "Lake of the Bays Region," one of the most attractive of the summer playgrounds in the "Highlands of Ontario." It is 1,000 feet above sea level, is immune from hay fever, has good boating and fishing, and is supplied with some of the best summer hotels in Canada.

Among which is "Bigwin Inn," accommodations for 600 guests. For descriptive literature with list of hotels, rates, maps, etc., apply to any Agent of Grand Trunk or write to C. E. Hornung, D.P.A., Toronto, Ont.

THE COMMITTEE TOOK UP VOTES

\$160,000 for pensionaries. Votes passed rapidly. Within a few minutes the committee passed the pensionary estimates and further adopted a vote of \$27,081,786 for pensions. Of the latter, \$25,825,676 was for active militia pensions and for pensions arising out of the war. Current estimates for \$5,150,000 were then passed, and the vote of \$1,600,108 for excise also carried.

Just before adjournment nine divorce bills were adopted in five minutes. It was announced that the division bill would be taken up on Monday.

OPPOSE MORE INDEMNITY

Edmond Proulx (Prescott) opposed any increase in seasonal indemnity to members of parliament and he also thought judges should be able to get on with their present salaries. The soldiers had fought overseas for \$1.10 a day. The financial condition of the country, he said, did not warrant increases, especially if it was impossible to grant bonuses to soldiers. Estimates of \$7,538 for administration of justice were then passed and adjourned.

LEAGUE OF NATIONS ENDORSED BY LABOR AFTER SHARP FIGHT

Irish Vote Was Strongly Hostile and Fate of Resolution Seemed Uncertain.

HARD TO KEEP ORDER
Montreal, June 20.—Despite an outburst of bitter feeling against the league of nations principally because it was believed to be of British design and for British benefit, the convention of the American Federation of Labor closed at 7 p.m. Saturday by placing itself on record as endorsing the league of nations by an overwhelming majority.

Particularly bitter was the Irish vote, and it seemed at times that motion to endorse might be defeated. President Gompers broke his gavel in trying to maintain order, and was himself called to "time" for overstepping the speech limit. The eloquence of Vice-President William Green swung the meeting around and in the end the endorsement by the convention of the league of nations was made almost unanimous.

A policy of "hands off" as regards Mexico was unanimously adopted by the convention. Denver, Colorado, was chosen as the convention city for 1921.

Campaign at Washington. The federation has sent President Gompers and the executive council to Washington to plunge into the task of fighting labor's battles for the next twelve months. SUPREME COUNCIL IS MEETING TODAY

Japanese Ambassador First to Arrive—Versailles Treaty Main Topic.

Boulogne, June 20.—Tomorrow's meeting of the supreme council here will be held in the Chateau de la Bella, on the site of the ancient Chateau de Trie, where the French and British plenipotentiaries in 1559 signed the treaty by which England gave Boulogne back to France. This fact adds to the sentimental interest which Boulogne takes in the conference.

First of the participants to appear was Viscount Chinda, the Japanese ambassador to Great Britain, who came in on the noon boat from Folkestone. Later Paul Hymans, Belgian foreign minister, and M. Jasper, Belgian minister of the interior, arrived from Brussels. The French delegation with the exception of Premier Millerand, Finance Minister Francois-Marsal and Marshal Poch, was expected to arrive during the evening. The French premier and his party, with Premier Lloyd George of Great Britain, will come here tomorrow morning on a special boat arriving about nine o'clock. The first session of the council will be held soon afterwards.

The British and French premiers, with their respective entourages, will be housed at a new hotel, built on a palatial scale, where extraordinary measures will be taken to ensure respect for their privacy. As one step to this end, the management of the hotel has ordered the cancellation of all bookings of rooms there made by press representatives.

The conference is expected to deal principally with the subject of the execution of the treaty of Versailles, with the subdivision of reparations thereunder. The presence of a large number of military delegates who arrived today to consider the decisions reached by the council of ambassadors in Paris, however, is taken as indication that the question of the disarmament of Germany will be another subject discussed.

Three of the five commissioners are at present touring the west. They will return to Ottawa next week.

Re Tuttle.—For John Tuttle moved for order for a custody of infant, J. M. Godfrey for Mrs. Stoup in possession of infant under agreement contra. Judgment: I find it impossible to feel sure as to the proper disposal of the custody of this child upon the material placed before me. I think it would be desirable to know what Mr. Keise has to say as to certain happenings that he was more or less intimately connected with and his view as to the suitability of the home for the infant. If counsel concur, a statement or affidavit from Dr. Ross of sufficient. I also will require a statement or affidavit from Dr. Ross of sufficient. If it can be obtained, as to the circumstances surrounding the death of the other child. I would like to have more information as to the character of Mrs. Tuttle; the information I have is distinctly conflicting, and I find it impossible to determine with any degree of certainty, as to which deponent should be the guardian. The application for the infant stand adjourned, for the present, and I will take it up again at a date to be fixed when I am sitting in weekly court in July. I would like to avoid trial of an issue if possible.

The relief work for which these sums have been granted by the treasury is carried on by about 15 societies depending on voluntary contributions and to a great extent on unpaid workers. The area in which relief is carried on covers Poland, Czechoslovakia, Vienna, Budapest, Serbia, Bulgaria, Montenegro, Asia, Minor, Caucasus and Syria. Applications for grants are also expected from organizations which have recently started operations in Russia.

TWIN SISTER STORY READS LIKE FICTION

San Francisco, Cal., June 20.—His English bride, 18 years old, told him she was not his wife at all, but was the twin sister of the woman he married while with the American expeditionary forces abroad. Arthur J. Eller set forth in a suit for divorce filed here recently.

Eller's complaint stated that he married in Liverpool, Nellie Lenahan, a hospital worker whom he met in France. He returned to the United States with his contingent and his supposed bride followed. Soon after joining him here, he alleged, she told him her twin sister was his real wife, and left him for New Orleans.

POINTS FOR PUBLIC TO KEEP IN MIND

Ottawa, June 19.—(By Canadian Press).—With reference to the board's sugar order, summarized in morning newspapers, the board of commerce this morning suggests that the public should keep in mind three points, first that 23 cents per pound plus freight, if any paid, is the maximum price to be charged the public. It can only be charged by those whose total stock consists of sugar purchased at an average cost of 21 cents per pound.

Secondly—Other retailers must not charge more than 2 cents per pound over the average cost of all stock in hand. In many cases this averaged cost will be so low that they can sell at prices several cents below 23 cents per pound.

Thirdly—The principle of averaging the cost of all stocks on hand applies to wholesalers as well as retailers; so that considerable quantities of sugar now held by them must be released at prices which will enable retailers to continue to sell below the 23 cent maximum.

MERCHANTS DISSATISFIED.

Ottawa, June 19.—"We are thoroughly dissatisfied with the new order of the board of commerce regarding sugar," said Mr. E. M. Trower, secretary of the Retail Merchants' Association. Mr. Trower added that a committee from the Dominion council of the association would wait upon the board on Monday morning and lodge a protest with W. F. O'Connor, K.C.

SAY FOOD PRICES STAY UP ONE YEAR

Opinion of Visiting British Delegation—Condemns Canada's Luxury Tax.

Winnipeg, June 20.—There will be no reduction in prices during the next twelve months or two years, was the opinion expressed by representatives of Draper's chamber of trade of the United Kingdom, who are visiting here today. They describe high prices to a world shortage of materials, the fact that the supply is not equal to the demand, the freight rates due to a shortage of shipping and the demands of labor for shorter hours.

They condemned the luxury tax on the principle that, while all right in theory, it was impracticable in operation, because it curtailed business and altogether presented a vexatious problem.

They praised the system of store management in operation in this country and characterized it as ahead of the system they have in the old country.

FORWARD MOVEMENT FINANCIAL RESULTS

At the recent meeting of the Anglican Synod of the Diocese of Toronto a full report of the forward movement financial results was presented by the diocesan organizer. Brought up to date as of May 20, the figures are as follows: Outside city subscribers, 8927; amount subscribed, \$178,413.75; city subscribers, 24,889; amount subscribed, \$320,731.33; total subscribers, 33,816; amount subscribed, \$778,245.13; amount paid in, \$364,487.74. These figures analyzed indicate the following: 1. That 49.7 per cent. of the whole amount subscribed has been paid. 2. That the average per capita is \$25.48. 3. That the surplus of objective is \$188,757.40. 4. That the amount of this returnable to the diocese is \$125,466.74. 5. That allowing for a shrinkage of 10 per cent. for deaths, alteration of circumstances, etc. (deducted from surplus), the amount reasonably to be expected returned to diocese by the end of the two years over which the payments extend, is \$100,408.40. 6. Aid to this amount received from the appeal for "diocesan local needs" in the movement itself, \$75,000. Total receivable by the diocese, \$175,408.40. As to the disposition of this surplus, the recommendation of the executive committee was adopted to the following extent: For superannuation and widows and orphans, \$75,000; to be added to capital; for Episcopal endowment fund, capital, \$25,000; for immediate "follow-up" work, \$50,000. The recommendation of the executive as to allocating a sum not exceeding \$50,000 as a loan fund to the parishes and missions was referred back for further consideration. It will be noticed that all the money so far allocated, except \$50,000, is added to capital. Doubtless the remainder will be similarly dealt with. The recommendation that the income on the above \$50,000 be used to augment small stipends of clergy will be considered by the executive.

Morom, reported on the financial condition of the order, which is in a healthy state, with net cash assets of over \$11,000. The legislation was of a constitutional nature, the most important being the appointment of a committee to draft a platform embodying the Protestant principles of the order. The committee will report to the executive council before publicity is authorized. By unanimous vote the chapter-general decided that no member of parliament either local or Dominion, can hold executive office in a commandery of the order. MONDAY MORNING, JUNE 21.

Bringing Down Prices.

The American Federation of Labor prescribes as a cure for the high cost of living the organization of wholesale and retail stores under co-operative ownership and control. It is not a new prescription, but for some reason it does not work out on this continent with anything like the success that has attended co-operative commercial movements in the mother country.

Relief to the public must largely come through governmental action. This may be achieved by reducing the volume of currency and by contracting credits. But experience shows that any violent contraction of the currency of the country means a great loss to many people. If the purchasing power of the dollar is doubled it means that every dollar finds his burden doubled.

What the people really want is to have the government punish undue extortion and unfair profiteering. Men who hide and hoard the necessities of life in order to make their prices high should be exposed and punished. Joseph when he was in control of Egypt made the government of that country the great hoarder and profiteer, and eventually the people of the country were reduced to slavery.

No one expects the Dominion government to bring about a general fall of prices, but they do believe that the government should prevent the old common law crimes of forestalling, engrossing and regrading which have been denounced by statute for centuries. Under whatever names these practices appear they all amount to the same thing, namely that commodities are monopolized by certain persons or corporations and then sold to the consumer at extortionate profit.

There is a big scandal in connection with the existing war measures act which regulates in a similar way the export of sugar. Certain American export buyers made deals with a Montreal sugar refinery to deliver to them quantities of refined sugar. These Americans say that a prominent official of the refining company went to Ottawa and tried to get the government to allow them to export the sugar.

There are members of the house ready to say that similar things might be done with the new bill. The committee will review this case; it may be anticipated by the export of this immense amount of sugar being allowed. The profit involved is about two million dollars to the American firms who made the deal.

DRURY REVIEWS SESSION'S WORK

Essential, He Says, for Public Good, That There Be No Class Government. SPEAKS AT DUNDAS

Tells Wentworth Farmers to Be Ready for a Federal Election.

Dundas, June 19.—The work accomplished by the government of Ontario at the recent session was reviewed by Premier Drury this afternoon before a large assembly of farmers of this district, at a picnic held under the auspices of the Wentworth U.F.O.

It is essential for the public good that the government should not be a class government, the premier said. "Farmers as a class could not control permanently the province of Ontario, nor could farmers and labor together, if their powers were used selfishly. The government should be for the benefit of the people, and to curb the thief, whether he steals a dollar, a timber limit or robs 100,000 people.

The public services have been growing year by year, and the government had added to those already existing, instituting the department of health, despite the fact that there were many who declared that it would be economy to reduce the services. "We must see to it that the proper revenue is collected, and that the taxes are levied upon those who best can pay them."

Temperance Bill Private. The government had not lacked in courage, it may be that we have rushed in where the old parties feared to tread," the speaker said. The temperance measure would go to the people free and untrammelled, not as a government measure, but as a private bill.

Altho he believed the Ontario government to have done good service, its powers were limited, and there were matters of great moment to the farmers which could only be dealt with by the Dominion parliament.

"So I say, keep your powder dry. Be ready for the next Dominion election."

IRRIGATION PROJECT IN ALBERTA URGED

Lethbridge, June 19.—That the Dominion government stands ready to go to the extreme limit in aiding in the financing of the Lethbridge northern irrigation project, covering the territory in southern Alberta, where the crops were so badly blown out last week, is indicated in a special despatch to The Herald from Ottawa.

Strong resolutions have been wired to the provincial and Dominion premiers by the boards of trade and farmers' organizations in the south, urging that the two governments co-operate to finance the construction of the project until such time as the bonds can be sold. Many of the farmers in the area covered by the project have had all their crop blown out, and are in need of work to tide them thru the year.

JUDITH OF BLUE LAKE RANCH

By JACKSON GREGORY.

CHAPTER III. (CONTINUED).

"And one thing I tell you, senior," he added, confidentially. "Her papa was a wild devil before her. Her mamma sees grow up on the ranch, and when she marry the senior, Sanford was like a wild boy. And my senorita, she sees the cross between a wild devil and a sweet saint, senior! Madre de Dios! I would go down to Hell for her to bring back fire to warm her little feet."

Lee went thoughtfully on his way to the bunk-house. The cook, an importation of Bayne Trevors, a big, upstanding fellow with bare arms covered with flour, was putting on the breakfast to which a dozen rough-garbed men were sitting down.

"I've got orders for you fellows," said Lee from the doorway. "The boss of the outfit, the real owner, you know, just blew in. Up at the house. Says you boys are to look around to take orders straight from headquarters. You, Benny," to the cook, "are to have a man's-size breakfast ready in a jiffy."

Naturally Benny led the clamor with a string of oaths. What in blazes did the owner of the ranch have to show up for, anyway?—he wanted to know. He accepted the fact as a personal affront. Who was this owner's demand? Ward Hannon, the foreman of the lower ranch, where the alfalfa fields were.

Bud Lee explained gravely that the newcomer was some sort of relative of old Luke Sanford, who had recently acquired a controlling interest in the ranch. Ward Hannon grunted contemptuously. "The Lord deliver us!" he moaned. "Eastern jasper! One of the know-all-about-it-brand, huh, Bud?"

"I'll bet he combs his hair in the middle and smokes cigars out'n a box!" The putty-headed loons can't even roll their own smokes. "Don't believe," hazarded Lee indifferently, "from the looks of our visitor that—that the owner smokes anything!"

"Listen to that!" grunted Ward Hannon. "Softly, huh?" "Well," Bud admitted slowly, "looks to me like a girl, you know?" "Wouldn't that choke you?" demanded Carson, the cow foreman, a thin, lanky little man, gray in the service of "real men." "Taking orders from a fool easterner's bad enough, but old man or young, Bud?"

"Just a kid," was Lee's further dampening news. And, as he nonchalantly buttered his hot cakes, he added, carelessly: "Something of a scrapper, tho'. Just put two 32 callers into Trevors." They stared at him incredulously. Then Carson's dry cackle led the laughter.

"You're the biggest liar, Bud Lee," said the old man, good-naturedly. "I ever focused my two eyes on 'll say an even bet there ain't nobody showed a-tall up this morning!" "You, Tommy," said Lee to the boy at his side, "shovel your grub down lively and go hitch Moly and old Pie-face to the buckboard. That's orders from headquarters," he grinned. "Trevors is to be hauled away first thing."

Tommy looked curiously at his superior. "On the level, Bud?" he asked doubtfully. "On the level, laddie," was the quiet response. And young Burkitt, wondering, but doubting no longer, hastened with his breakfast.

The others, looking at Lee's sober face questioning, fired a broadside of further information. "Lordy! 'I've told you boys all the news," he announced positively. "Lordy! Isn't that an awful for this time of day? The real boss is on the job! Trevors is winged; you are to stick around for orders from headquarters. If you want to know any more'n that, just go up to the house and ask your blamed questions."

Out of the tail of his eye he saw the swift approach of Bayne Trevors. The general manager's face was black with rage, and thru that dark wrath showed a dull red flush of pain. Trevors walked with his two arms lax at his sides. "Give me a cup of coffee, Ben," he commanded curtly, slumping into a chair. "Hurry!"

Benny looking at him curiously brought a steaming cup and offered it. Trevors moved to lift a hand; then his face twisted further in pain. "Put some milk in it," he snarled. "Then hold it to my mouth. For then no man there could longer the mad tale Bud Lee had told them. Down from Trevors' sleeves, a broadening trickle of blood. Trevors set his teeth and waited patiently at last cooled the coffee and held it, draining the cup. "Get this coat off me," he commanded. "Curse you, don't tear my arms off! Silt the sleeves!"

Benny's big, razor-edged, butcher-knife cut away coat and shirt sleeves. And at last, to the eager gaze of the men in the bunk-house, there appeared a broadening trickle of blood. Trevors set his teeth and waited patiently at last cooled the coffee and held it, draining the cup. "Get this coat off me," he commanded. "Curse you, don't tear my arms off! Silt the sleeves!"

CRAFTSMANSHIP IS REASON FOR BRITISH QUALITY OF PRODUCT

Says John Weir, Wealthy Shipbuilder — Y.M.C.A. Work Going Strong.

POOR BOYS CHANCE

"What is the fundamental deciding factor that has gone to make British goods so much superior in quality to those made in other countries?" This is a question that American and Canadian manufacturers have been asking themselves for years. A general answer was given to The World last night to this query by one of England's wealthiest and most prominent shipbuilders, Mr. John Weir. Mr. Weir is one of the principal owners of England's oldest shipyards, namely, the plant of R. & H. Green & Silley Weir, Limited, London. The name of the plant is Blackwall Yard, East London, which was first opened for shipbuilding in 1812. The yard has more than 800 years of experience in the construction of that historic place.

"Craftsmanship," said Mr. Weir, "is the one big reason for British superiority of product; a great, all-consuming pride on the craftsman's part in his work. It is a question of long years of training, of thorough knowledge of his trade, an understanding of every angle of his particular work, which has gone back to the time of the first generation. A father will be a craftsman in some particular line; his sons will be brought up to take an interest in it, and on reaching the right age, if they chose, will serve as apprentices at the same trade."

"Yes, but what is Canada's and America's future as shipbuilders?" asked The World reporter.

Cannot Compete.

"Well, your chances are the very best. You have all the raw material necessary, and geographical position, but I do not think that you will be able to compete with us; at least not for some years yet. One of the greatest reasons for that is that we can build cheaper. Labor is not as high, and then we are already established, while you have yet to make your name. Then again, as I said, we have the trained craftsmen."

Mr. Weir's visit to America was in connection with the International Y. M. C. A. boys work conference, held at Blue Ridge, North Carolina, recently. He is in Toronto for a few days on his way back to England. Mr. Weir is a "boy" work you are apparently thirty years ahead of us," he admitted. "I thought we had done some wonderful things over there, but my visit to this country has opened my eyes. You are doing more for the boy than we are and it is from you that we must learn."

CHARGE THAT BECK "JUGGLED" IS UNTRUE

Manager of London-Port Stanley Ry. Makes Report Contradicting Graham.

London, Ont., June 20.—In a report prepared by General Manager J. E. Richards of the London and Port Stanley Railway, the charge made by Vice-Chairman Graham of the Ontario Railway Board, that Sir Adam Beck juggled the returns to the Dominion government of the London and Port Stanley, is proven untrue. It is shown that the return referred to by Mr. Graham was made by the London and Port Stanley Company, of which the mayor and city clerk, by virtue of their offices, are president and secretary respectively, and from whom the London and Port Stanley Commission, of which Sir Adam is chairman, receives the road.

They are two distinct and separate bodies.

TWO CARS DERAILED; ONE MAN INJURED

David Green, 496 Jane street, was cut about the head and badly shaken up last night when two street cars crashed together at the intersection of Queen and Bathurst streets. Green was a passenger on one of the street cars, and was cut by flying glass. He was taken to the Western Hospital. A southbound Bathurst car, in charge of Motorman F. T. Burroughes, 122 Argyll street, ran into an open switch at Queen street, running headlong into a northbound car driven by E. Perry, 71 Oxford street. A few other passengers on the car were shaken up. Both cars were derailed and badly damaged.

TORONTO MEN VISIT PARK.

Mr. P. W. Ellis, chairman of the Queen Victoria Niagara Falls Park Commission, is continuing his plan of introducing the educationists of Toronto to the beauties of the Niagara district. The guests of the commission during the past week-end included the city school inspectors, the party comprising Chief Inspector E. H. Cowley, G. H. Armstrong, W. Bryce, W. H. Elliott, N. S. MacDonald, D. D. Moshier, G. K. Powell, J. W. Rogers, R. W. Doan, I. P. Collier and Lt. Col. Bro. Rogation. The itinerary embraced Butler's Landing, Brock's Monument, Lundy's Lane, the Niagara Glen, Fort Erie, the Niagara power plants and other points on the park boulevard system.

MOTOR CAR STOLEN.

George Clark, of Montreal, was arrested last night by Detective Ward, charged with stealing a motor car from behind the General Hospital. The car is owned by Abo Morrison, 112 Lee avenue. Clark, according to the police, was trying to start the car when Ward captured him.

Charged with theft of three motor cars from John Jamieson, 635 College street, was arrested by Detectives Crowe and Johns. The tires were stolen from H. Morgan's garage.

CAMP LOCKSLEY READY.

The first week in July was the opening of the second annual camp of the Peel County Y.M.C.A. The camp, "Camp Locksley," is at Barrymead Farm, Clarkson, and, situated by the lake, forms an ideal position for the purpose.

The ship's principal dimensions are: Length over all, 261 feet; molded breadth, 39 ft 6 in.; depth molded, 19 ft 4 in. MOB RULE REIGNS TILLSONBURG RACES

Concession Men "Beat" It With Money—Hundreds of People in Tussle.

Tillsonburg, June 19.—Coinciding with the races this afternoon mob rule reigned at the racing park and things assumed a very serious aspect at one time. Some nine or ten concession men, said to be members of a summer carnival at St. Thomas, were operating the games of the old three-card monte game. One member refused to pay a bet and in the resulting blows were exchanged, while the concession man started the call of "Hey, rules!" and by this time several hundred persons had gathered. After a hard tussle Chief Creighton managed to arrest the offender. In the meantime the rest of the crew helped themselves to a local car and beat it with the bankroll, but were pursued by other cars and finally ran into a ditch about five miles from town. They were brought back to town and placed under arrest.

They were given an immediate hearing before Magistrate Here, and all bets were paid back as far as could be ascertained, aggregating some \$600. In the meantime another member of the gang had broken into a house near the park and frightened the women folks, driving them out of doors, but as soon as the news reached the park the mob again surrounded the house and captured the culprit in the pantry. Later \$200 in bills was found strewn around where he had thrown them to allay suspicion. The bets were repaid and the prisoners freed, but it is reported on good authority that the attorney-general will make investigations locally, as the same crew had got into similar trouble in Woodstock and Ingersoll.

IS INOPERABLE CANCER CURABLE?

Dr. Glover of St. Michael's Hospital Has Effected Improvement by Treatment.

Inoperable cancer cases have shown remarkable improvement under the treatment given by Dr. Glover, St. Michael's Hospital, and while complete cures have not as yet been registered, the authorities in the medical world have every reason to hope that Dr. Glover's new solution treatment will effect absolute cures. This was the substance of an interview given to The World on Saturday afternoon by Dr. Julian Loudon of St. Michael's Hospital, who presided over the clinic.

Goods for Use in Canada Not to Be Double-Taxed

Montreal, June 20.—Word was received Saturday by the secretary of the Canadian Manufacturers' Association that goods imported for use in manufacture in Canada would not be subject to the double sales tax amounting to 2 per cent, but only to the importers' sales tax of one per cent. The information comes direct from George S. Taylor, deputy minister of inland revenue. This ruling has particular importance for Canadian railways, steamship companies and utilities companies which import enormous quantities of materials.

CAMPING AND CANOE CRUISING.

Young men who have only two or three weeks' vacation can not spend their holidays to better advantage than on a cruising and camping trip in God's out-of-doors. A territory that is full of attractions for a trip of this kind is Algonquin Park, 285 miles west of Montreal, 178 miles west of Ottawa, and 200 miles north of Toronto.

Splendid fishing, lovely scenery, easy portages, good opportunities for the amateur photographer—wild life abounds, 2000 feet above the level of the sea. Most healthy district in eastern Canada. All the requisites for the camper may be had at reasonable prices at the "Highland Inn" general store at Algonquin Park Station, including provisions and fishing tackle, tents, canoes, cooking utensils, etc., at reasonable rates. Ask any Grand Trunk agent for illustrated descriptive publication telling you all about it, or apply to C. E. Horning, D.P.A., Toronto, Ont.

Jobs Well Worth Keeping

MORE THAN 500 employes who enlisted and went to the front have returned, and are now in the Company's employ. When they came back they were given their seniority, the same as if they had remained with us during the war, and they were paid at the increased rate of wages which had gone into effect since they enlisted.

More than 1200 other returned soldiers have entered the service of the Company during and since the war.

All of these men were perfectly free to enter any other occupation, but choose to go into street railway work.

Out of a list of 500 men now in the service, employed within the last year—

56	or 10.1%	had been bakers, barbers, painters and printers.
10	" 1.8%	" chauffeurs.
35	" 6.3%	" clerks, agents and travellers.
25	" 4.5%	" conductors and motormen.
56	" 10.1%	" drivers.
1	" .2%	" a druggist.
34	" 6.1%	" farmers.
12	" .4%	" foremen.
2	" .4%	" government inspectors.
87	" 15.7%	" laborers.
83	" 14.9%	" mechanics, carpenters and skilled labor.
164	" 29.5%	" soldiers (previous occupation not stated)

This list does not include returned soldiers who were formerly in our employ.

Following is a statement of the length of service of men now in our employ:

35 men	or 1.75%	have been in the service more than 30 years
54 men	or 2.68%	have been in the service more than 25-30 years
48 men	or 2.38%	have been in the service more than 20-25 years
92 men	or 4.57%	have been in the service more than 15-20 years
194 men	or 9.65%	have been in the service more than 10-15 years
563 men	or 28%	have been in the service more than 5-10 years
180 men	or 9%	have been in the service more than 4 years
101 men	or 5%	have been in the service more than 3 years
174 men	or 8.65%	have been in the service more than 2 years
310 men	or 15.4%	have been in the service more than 1 year
260 men	or 12.92%	have been in the service less than 1 year
986 men	or 49%	have been in the service more than 5 years

If the working conditions or the wages paid are unfair or unsatisfactory, why is it that men leave so many other occupations to become motormen or conductors?

Why is it that almost half the motormen and conductors have remained with us between five and thirty years?

The work must have advantages that union officials do not care to mention.

Convention in Chicago to Deal With Optometry, Epilepsy, Sleeping Sickness.

Dr. Janette M. Kerr of Toronto, Ont., will officiate as second vice-president at the annual convention of the American Osteopathic Association in Chicago the first week in July. The most spectacular feature of the convention will be the first public demonstration of the newly-discovered method of treating the eyeball osteopathically, for the purpose of correcting errors of refraction. This will be the twenty-fourth annual session of the American Osteopathic Association. From two to three thousand physicians, surgeons and specialists will attend. It will be the most important gathering in the history of this school of practice, as the campaign inaugurated by the old school to shut out the new practitioners from all hospitals and public institutions. The first announcement will be made at this convention of the establish-

ment of an endowed osteopathic research institution in Battle Creek, Mich., to be devoted exclusively to the search for the cause and the osteopathic cure of epilepsy, under the direction of Dr. Hugh Conklin of that city, who is president of the American Osteopathic Association and who will preside over the convention. Sleeping sickness, the mysterious new fatal disease about which so much has been published lately, has responded to osteopathic treatment, it is claimed, and Dr. James Fraser of Evanston, Ill., the discoverer of the new cure, will make the first announcement of it at this convention.

Plays, Pictures and Music

"Father and the Boys"

The first of the "George Ade" plays to be given by the Robins Players will be "Father and the Boys," at the Royal Alexandra Theatre all this week commencing tonight. George Ade really needs no introduction to local playgoers, as most of them have read his different fables, starting with his famous fables in slang and continuing through his entire career up to and including "Father and the Boys," the satirical comedy written around the growing generation of boys who think they are smarter than their fathers. Of course, the boys must not be saddled with all the blame. There are lots of young girls who really think their parents are back numbers and these girls are included in the comedy, for it is really a comedy from start to finish. Tom Wise, he of the genial smile and ready wit, will naturally be seen in the title role, while opposite him, aiding and abetting in the fun, will be Edward H. Robins and the entire cast of the Robins Players. In "Father and the Boys" there is just about two and three quarters hours of "whimsical" fun that will be enjoyed by everyone, either man or wo-

man. Matinees will be as usual on Wednesday and Saturday. "The Whip" at the Grand. What is conceded to be one of the most exciting racing plays ever staged is the pictorial version of the famous English sporting drama, "The Whip," which will be the offering at the Grand Opera House all this week, with a matinee every day. "The Whip" is a masterly production. It has not one star, but six; not only one sensational scene, but scores of them. This tremendous production on the speaking stage ran for three years at the Drury Lane Theatre in London, and the stage play also had a two-year run in Australia. The motion picture, offering as it does much greater possibilities for scenic effects than the stage could possibly do, is a really wonderful offering. It is an attraction of the highest possible merit and entertaining qualities, and has been well named the greatest racing motion picture ever screened. Marguerite Clark at the Strand. The latest Marguerite Clark photoplay, "Easy to Get," is the attraction at the Strand Theatre all this week. The story centres around a bride who makes her husband pay \$5,000 and an apology as recompense for making the remark to a friend that wives are "easy to get." Moreover, she led him into a series of the strangest and funniest adventures imaginable. Harrison Ford, the attractive young leading man, plays opposite Miss Clark. The picture is a Paramount Artcraft production, "Easy to Get" commences

at the Strand at 12, 2, 4, 6, 8 and 10 o'clock. At Loew's This Week. "Romance," one of the most sensational stage successes of recent years, featuring the gifted actress, Doris Keane, will be the outstanding photodrama feature this week at Loew's Yonge Street Theatre and Winter Garden. Adolpino, the French danseur, assisted by Ethel Gilmore, the English Ballarina, presenting "The Poetry of Motion," headline the vaudeville, which also includes: Gilroy, Dolan and Corriell; Browning and Davis; Pollette, Pearl and Wicks; The Nippon Duo, and Harry Fisher and Co. "David Harum." No comedy ever written has enjoyed the lasting popularity of "David Harum," the horse-trading country ballad, whose philosophy thru life is not to worry over anything, everything will come out just as it should if you will only hustle a little and help things along. Tom Wise will be "David," which in itself is a guarantee the role will be properly handled. The entire company will be cast to the best advantage. Seats will be placed on sale Thursday morning. Hanlan's Point. The first of the visiting bands that will be heard this summer at Toronto's favorite summer resort, Hanlan's Point, just across the bay, will open its engagement this afternoon; this is Lombardi's celebrated concert band which when presented for the first time last summer at this same amuse-

ment park created more than favorable comment. The concerts will be given twice daily, afternoon and evening, rain or shine, in the band stand opposite the cafeteria, which also has an orchestra playing in full view of the diners. The ferry service will be as usual a boat every few minutes. HEAD OF BIG STORE IS UNDER ARREST. New York, June 19.—Frederick Gimbel first vice-president of Gimbel Brothers' department store, with branches in many cities throughout the United States, was arrested today by department of justice agents on a charge of profiting in the clothing Gimbel is head of the New York store. J. J. Dowdell, general merchandise manager of the store, and C. D. Slawter, clothing buyer, also were arrested on similar charges. All three are charged with making profits in clothing from 90 to 275 per cent. The warrants were served by Lester S. Kafer, special assistant to Attorney-General Palmer, heading one of the flying squadrons investigating profiteering here. Gimbel, Dowdell and Slawter were released in \$1,000 bail each when arraigned before Commissioner Hitchcock, July 6 was set for their pro-

BASEBALL

LEAFS LAND LAST FROM THE BIRDS

Bader Beat Sullivan by One Run in the Ninth on Sunday.

Baltimore, June 20.—Toronto got away with the last of the series with Baltimore this afternoon, winning out in the ninth by a count of 3 to 2, before a crowd of about 9,000 people. A day that was more suited to football than baseball and a drizzle during the greater part of the afternoon undoubtedly prevented a record attendance.

Sullivan and Bader were the opposing pitchers and the wildness of the local man which kept him in a hole more or less all the time, was the difference which gave the Canucks the game. The fact that the set was close from start to finish made it interesting, also it was practically devoid of features, except Lefer's home run smash in the fourth round.

Manager Duffy switched Blackburne to third place in the line-up and dropped Whiteman down to sixth, in as much as Whiteman tallied two of the Leafs' runs, the change proved efficacious.

The Leafs and Birds both threw chances away to score in the opening round. Each team got two singles, some rather more senseless than during base running on the part of Spencer and Malsbrough. The opportunity was missed by the Leafs when the home run was scored, with one out and the bases full. Whiteman was dead-headed and came all the way home when Gonzales doubled to left, Gonzales stole third, but Sanchez fanned and Boley threw out Bader. O'Rourke singled to open the third round. After the next two men popped he stole second. He went to third on a wild pitch, but was out trying to score, Egan to Malsbrough. The Birds evaded the count in the fourth when Lefer slammed one over the left field fence.

They failed to make the most of their lead and went to the front in the fifth, although they failed to make most of their opportunities. Gonzales singled to right and went to third when Sanchez popped one in Bill Hodson's territory for a base. Bader singled to center, Gonzales scored and Sanchez stopping at second. O'Rourke bunted, but thought the ball was foul and did not run, with the result that the Birds chalked up a double play, Egan to Malsbrough to Lefer. Spencer then lined to Lefer.

Baltimore again led it up in the seventh. Boley got a two base hit when his high fly got away from Riley in the wind. Bishop sacrificed and Boley Egan came thru with a single to right that scored Boley.

NEW YORK STOCKS DULL AND HESITANT

Large Decrease Shown in Federal Bank Reserves at Week-end
New York, June 20.—Specialties were almost the only prominent features of today's dull and wholly unimportant stock market session.

ENGLISH HOLDERS STOPPED MERGER

Amalgamation May Be Better Than Putting on a Mortgage
In connection with the suggestion of H. B. Wills that the Vipond-North Thompson mine amalgamate with the North Crown Gold Mines, it may be of interest to the Canadian shareholders to point out the merger of the Thompson-Krist and Porcupine was unnecessarily delayed in order to place the matter before the English shareholders of the Vipond.

MARKET IS DULL EVEN IN MONTREAL

B. C. Fish and Quebec Ry. Make Small Demonstration
Montreal, June 19.—While dullness and uncertainty were still prominent on the local stock exchange this morning, B. C. Fish and Quebec Railway gave a demonstration of strength, Fish which recovered seven points yesterday, this morning advanced to 5 3/4. It later reacted to 5 1/4, then opened at 5 1/2 and advanced to 5 3/4, later dropping to 5 1/4 and then firming to 5 3/4. Laurentide, which was better, gained from 10 3/4 to 10 1/2, while Abitibi firming from 7 3/4 to 7 1/2.

ANOTHER FLURRY IN B. C. FISHING

Shares Advanced to Conform More to the Dividend Paid
OTHER SHARES STEADY
B. C. Fishing had a further flurry in the market on Saturday and evolved as the only speculative feature for the short session. The spurt in this stock has put it back more in conformity with the dividend that has been paid, but opinion here is not unanimous as to the continuation of the present rate. Small dealings were made in Brazilian, Cement and Steel Corporation in the speculation class and there was slightly better support for Steamships preferred. The withdrawal of the merger interests had no immediate effect on the market. Paper stocks were quiet here and in Montreal and realizing sales promoted easier prices. The Toronto market was about typical for the session of the year.

SATURDAY TRADING LIGHT IN MONTREAL

Brompton Active, But Reactionary—Quebec Railway Shows Strength
Montreal, June 20.—Saturday's trading on the local stock exchange was quiet, the least inactive stocks being Brompton, Quebec Railway, Abitibi, B. C. Fishing and Laurentide, the first two with dealings in excess of 900 shares, and the remainder with dealings of from 400 to 500 shares. Brompton continued the reaction of last week, and closed down a point 1 3/4. Quebec Railway showed strength, moving up from 25 1/2 to 25 3/4, with a net gain of 3/4 points. Western Canada, which has long been listed in Steamships common, Ogilvie, and Toronto Railway, up a point, at 40. Weakness was shown in Canadian Hochelega, Asbestos, Sugar and Spanish River. Total trading: Listed, 5884; bonds, 118,700.

COBALT SHIPMENTS

Thirteen cars of ore aggregating in weight 1,041,476 pounds, over 470 tons, comprised the official shipments from the Cobalt camp this morning, according to information received today by Hamilton B. Wills over his private wire from Cobalt. Seven of the cars were by mortgage as now suggested. The Vipond section of the mine was the American and Canadian interests present the matter to the Vipond board of directors at the time of the shareholders' meeting without jeopardizing the property by mortgage as now suggested.

New York, June 19.—The actual condition of clearing house banks and trust companies for the week shows that the reserve held is \$2,847,370 below legal requirements. This is a decrease of \$41,946,850 from last week.

Suits \$25.00

Little to pay for such firm, close silk as you'll find in these — for such smartness of style, for such summer-long comfort. Besides, they are very simply laundered and come from the tubbing like new.

Belted styles, with snappy Tuxedo collars, patch pockets and novelty buttons. Some have pleated backs. Sizes 14 to 20 years. Extra value at 25.00.

Misses' \$39.75 to \$49.75
Coats \$29.75

You know—the soft velour and silvertip coats you have been wanting, but which your purse could not easily afford — here they are at a saving of from \$10.00 to \$20.00 on the original price. Snappy sports coats, too, in novelty fabrics.

Some are full-lined, others half-lined with silk. Sizes 14 to 20 years in the lot. Shop early today for best choice, at only 29.75
