THE FIFTY-FOURTH ANNUAL REPORT OF THE MONTREAL GENERAL HOSPITAL.

The Annual Meeting of the Society of the Montreal General Hospital was held on the 16th May, 1876, the President, Peter Redpath, Esquire, in the chair, when the Secretary read the following report:

GENTLEMEN OF THE CORPORATION OF THE MONTREAL GENERAL HOSPITAL:

I have the pleasure of presenting you with the Report of the proceedings of the Board of Governors for the year which terminated with the month of April last.

The financial year ends with April, but for a few years past it has been prolonged into May, with the view of including all subscriptions, and this year there has been unusual difficulty in getting in all the subscriptions and the work is not yet completed.

The "Ordinary Expenditure" of the year has
 been\$38,206 24
 And the "Ordinary Income"..... 30,199 48

Shewing an excess of expenditure of.....\$8,006 76

The income of the year falls short of last year's
 by which is thus explained..... \$10,547 00

Last year the Provincial Grant for two years
 was included, which accounts for \$4,000 00

The receipts from Employees last year exceeded those from that source this year by \$4002 00

The receipts from Church Collections last year also exceeded those of this year by.... \$387 00

The interest on Bonds and Mortgages was less this year than last by..... \$895 00

Receipts from private pay patients less than last year..... \$964 00

\$10,248 00

The extraordinary receipts for the year amount to \$8,987 12

but of which has been expended for repairs, additions and on account of property purchased, \$7,410, 35. The number of persons treated in the Wards of the Hospital during the year was one thousand nine hundred and sixty-five (1,965) precisely the same number as in last year; there were fifteen thousand six hundred and ninety-three, (15,693) prescriptions for out-door patients a reduction of thirty-three from the number of the preceding year.

Nothing very striking in the class of diseases met with in the Hospital has been observed during the year. Typhoid fever, which has been gradually increasing in frequency of late years,

still holds the highest place amongst those affections which, from depending very largely upon external conditions are often called preventable diseases. While the average number of annual admissions of that disease during the last decade has been 57, there were 107 cases admitted during 1874-75 and 98 during 1875-76.

Small Pox cannot be judged of reliably as that affection has not been received into the Hospital for the last six months.

Scarlet fever of mild type has been rather prevalent, and 24 cases of it have been under treatment; diarrhoea and erysipelas have maintained their wonted average, while dysentery has fallen considerably below its usual range of frequency.

The Governors have the satisfaction of reporting that the Small Pox department of the Hospital was entirely closed last fall, provision for that class of patients being now made by the civic authorities in isolated buildings in a suitable locality and some distance from other houses. A source of considerable danger is thus removed from this Hospital, and the arrangement must prove a great advantage to the citizens generally.

The building which had been occupied by the Small Pox patients was allowed to remain unoccupied for months, and then, after having been thoroughly disinfected and cleansed, two excellent wards, furnishing space for at least twenty-four beds, were prepared in it for the reception of ordinary patients, and a number of these were lately removed from the Richardson wing into it, in order to permit certain important alterations to be made in the wards which they vacated. These alterations are still in progress, but the improvement in the arrangements is already very manifest. Three wards on each of the first and second floors have been converted into one by the removal of partitions, two additional windows have been opened on each floor in the Dorchester Street front, supplying much additional sunlight and ventilation; new water closets constructed upon an improved principle have been put upon each flat, and the baths have been more conveniently placed. By these means, the sanitary arrangements have been greatly improved, the comfort of the patients increased, and their more speedy recovery promoted. But it must not be supposed that these changes meet to any very great extent the requirements of a modern hospital. The Governors trust that the

citizens of Montreal will not lose sight of the necessity of erecting entirely new hospital buildings, as soon as a returning prosperity warrants an appeal for the necessary funds.

The Lady Superintendent and a staff of four trained nurses from the Nightingale School, in St. Thomas' Hospital, London, whose engagement was reported at the last Annual Meeting, arrived from England last fall, and entered upon their duties early in October. The results attending this enterprise have been most satisfactory, not only in the superior quality of the scientific nursing, but in the improving influence upon the other nurses of the practical teaching of the specially trained nurses.

It is also hoped that the original intentions of the promoters of this enterprise will ere long be realized in the establishment of a training school for nurses in connection with this institution—the importance of which can hardly be over-estimated.

The pleasure derived from a contemplation of the work done by the trained nurses has been seriously marred by the untimely death of one of them—Martha Elizabeth Rice, from fever. While recording their appreciation of her services, the Board tender to her parents and friends in England their sympathy in this very painful bereavement.

Three of the Life Governors have been removed by death during the year—the late David Torrance, Esquire, the late George Ferrier, Esquire, and the late George H. Frothingham, Esquire, all of them old friends of the institution, and the last named a recent member of the Committee of Management. The following gentlemen have been enrolled on the list of Life Governors, during the same period; The Hon J. J. C. Abbott, Q.C., and Frank Bond, Joseph Hickson, George Macrae, Q.C., P. Q. Perley, Thomas W. Ritchie, Q. C., and Samuel Waddell, Esquires.

The Governors gratefully acknowledge the kind interest shewn in the prosperity of the Institution, by the following gentlemen who have acted as Collectors during the year: Messrs. W. B. Cumming, John Stirling, Nathan Mercer, George S. Brush, Wm. Stephen, A. Ewan, R. W. Shepherd, George Graham, Wm. Whinfield, N. B. Corse, C. D. Proctor, Henry R. Gray, J. Fogarty, William Dodd, James Goulden, Joseph Phelan, James Moore, James Lillie, E. Rennick, D. Lyons, T. Cawthorn.

The following legacies have been received during the year:

All of which is respectfully submitted,

R. P. HOWARD,
Secretary.

MONTREAL, 16th, 1876.

The following gentlemen were then elected Governors for two years: Archibald Ferguson, R. B. Angus, A. T. Paterson, Jackson Rae, Thos. Kershaw and O. S. Wood, Esqs.

On the motion of Mr. Alexander, seconded by Mr. Arnton, it was resolved:

That the By-laws and the amendments to the By-laws, finally passed by the Board of Governors at the meeting of the 26th April last, being now submitted to this Corporation, are approved and adopted as By-laws of the Society of the Montreal General Hospital, and that the By-laws at present in force, to which these amendments have been made, be repealed.

The Annual Meeting of Governors was held on Thursday the 18th May in the Governor's hall, Peter Redpath, Esq., President, in the chair.

The Meeting proceeded to elect officers for the year, Messrs. Hampson and Cleghorn acting as Scrutineers. On the report of those gentlemen the Chairman declared the following officers to be duly elected:

It was finally moved by Mr. Andrew Robertson, seconded by Mr. Greene, and resolved :

That Messrs. Peter Redpath, Sir A. T. Galt, Charles Alexander, Justice Torrance, F. W. Thomas, and J. H. Winn, be a committee to meet the ladies who are interested in establishing a training school for nurses, and to report to a meeting of the Governors.
