French Obtain Objectives To The North of Verdun

Nearly All Lost in Last Year's Great Battle Re-Gained—Artillery Fire Envy of the Enemy—Austrians Admit Further Loss

Paris, Aug. 23.—The French objectives north of Verdun appear to have been attained. If the offensive were continued fresh artillery preparation would be necessary. The German counter-attacks yesterday against dominant positions such as Dead Man Hill and Hill 344 proved to be costly failures, leaving the French masters of the points they held before the beginning of the great battle of Verdun last year with the exception of Hill 304, which as yet is in the enemy's hands.

These who believe in the theory that cannon fire brings on rain always refer to the offensive of the allies in support of their contention, as they have frequently been hampered by downpours after a day or two of fighting. In the present instance, however, the argument has failed. Although the firing on the Verdun front has never been equalled there has been no rain since Friday.

Projectiles fired by a French battery which was silencing enemy batteries at a depot of asphyxiating gas. It burst, silencing three batteries. "No troops could have got through our barbed wire," said one.

Paris, Aug. 23.—The number of prisoners taken by the French in their offensive on the Verdun front has been increased to 7,688. The French last night captured a fortified German position north of Mortfont Farm. The prisoners included 186 officers and 600 men. The captured material listed includes twenty-four cannon of all calibres and more than 20 machine guns, in addition to nine cannon which were destroyed.

Germany's Lying Report. Berlin, via London, Aug. 23.—The supplementary report from German headquarters today reads: "In Flanders the British attacked east of Ypres, which began this morning extending over a fifteen kilometer front. The German army suffering heavy losses.

Before Verdun up to the present time there has been no fresh infantry fighting. The artillery firing remained strong. "Bomb attacks by our aviators on fortified towns on the English coast today were successful. In the east there is nothing of importance to report."

Battalion Commander Prisoner. Paris, Aug. 23.—Among 600 prisoners made in the hollow recesses of Dead Man Hill was a battalion commander with his staff, including Count Eugene Bernstorff, nephew of the former German ambassador to Washington.

Further Austrian Admission. Vienna, via London, Aug. 23.—The war office communication issued last night says the Italians have captured the village of Vrb, east of Cassole, but that the Italians were repulsed in their efforts to move further eastward in this region. East of Gorizia the Italian attacks also were halted. On the Carso Plateau a titanic struggle is in progress.

Rome, Aug. 23.—Furious fighting continues on the Isonzo front. The war office announces further gains for the Italians on both the northern and southern wings.

Austria Loses Very Heavy. Udine, Italy, Aug. 23.—Enemy losses during the first two days in the new Italian advance are calculated at 30,000 in killed, wounded and prisoners.

PERU MAY ENTER THE LISTS AGAINST GERMANY. Ultimatum Over Sinking of a Sailing Vessel. Amsterdam, Aug. 23.—The Berlin Vossische Zeitung announces that Peru has sent an ultimatum to Germany. The Hamburg prize court recently refused damages to the owners of the Peruvian sailing vessel Lorton, which was sunk by a German submarine on the February 5 off the coast of Spain. The reason assigned by the court was that the Lorton, when stopped and asked for her nationality, hoisted the British flag. It is also alleged that the Lorton was carrying contraband for England.

The Vossische Zeitung says that, in view of the threatening tone of Peru's note the imperial German chancellor has ordered the Hamburg decision referred to the upper prize court at Berlin for final adjudication.

GERMANY'S DOOM FROM HUN LIPS

Maiden Speech of New Foreign Secretary

Amsterdam, Aug. 23.—"A policy based on might alone and not on right is doomed to failure from the beginning," was the interesting admission made by Dr. Richard Von Kuehlmann, German imperial foreign secretary in his maiden speech to the main committee of the Reichstag yesterday. The new secretary, according to a telegram from Berlin, dwelt on the tremendous responsibility in assuming office "when the country is beset by the mightiest of enemies without aid and grave difficulties within."

Dr. Von Kuehlmann said the following program: "First the maintenance of cordial relations with her allies and, second, with the neutrals whose rights and necessary conditions of existence we shall be most careful to respect as far as is compatible with our military and our own military needs." To arrest further defection of important neutrals is an extremely serious and important task confronting us. We can solve it successfully only by observing the principle that in politics might counts but also right, and that only if we base our confidence on both can we both hope to achieve lasting results.

Dr. Von Kuehlmann eloquently emphasized the necessity of studying enemy psychology so that "when the other side holds a trump card, on the other hand no hard words should be uttered when there are indications that the ice was breaking on the other side and more conciliatory feelings became manifest with respect to the property loss in an appeal for truce in the army and navy."

Further Evidences of Part in Heavy Fighting of August 15—News of Wounded Received Today. That officers of famous New Brunswick 29th Battalion, other than those before noticed, have suffered wounds in the heavy fighting of August 15, is now known. Lieut. W. A. MacDougall, of Debec, N. Lower Rates and a Cash Discount on Water Bills

Water Assessment, Filed Today, Shows Total of Ten Per Cent Less Than Last Year and Citizens May Save Another Ten Per Cent by Paying Before October 3

The amount to be collected for water taxes this year will be ten per cent less than last year's total. This has been accomplished by the reduction of the rate from one-fourth to one-fifth of one per cent. In addition to this reduction there will be a saving of an extra ten per cent to all citizens who pay their bills before October 3, the recommendation for a discount of that amount having been passed by the common council. The total amount to be collected this year, less the discounts allowed for prompt payment, is \$104,008.85, as compared with \$179,748.85 last year. If the rate had not been changed and the new assessment values had been adopted, the tax bills would have shown an increase of about five per cent, instead of a reduction of ten per cent.

Insurance companies are interested to the extent of \$2,000,000 to \$3,000,000. The destitute are being cared for by the Entente artillery authorities. The British having 10,000 in their charge. Food and fresh water are very scarce.

The whole sea front from the customs house to the famous white tower, with its fine buildings including the famous Church of St. Dimitri and several other churches and mosques was destroyed. Three enemy airplanes flew over the city and dropped bombs while the fire was burning.

Savage Teutons Bomb Two Hospitals On Verdun Front

Ten Wounded Men, a Woman Nurse and Nineteen Male Nurses Killed; Wounded Germans Were Among Patients. On the French front, Aug. 23.—(By the Associated Press)—Incendiary bombs dropped by two German aviators on two hospitals behind Verdun on Sunday evening killed ten wounded men, one woman nurse and nineteen trained male nurses. They wounded forty-nine male nurses and inflicted further injuries on patients suffering from wounds received in battle, many of whom rushed naked into nearby fields in an attempt to find shelter from the bombs which were being rained down. Meanwhile the German aviators circled about in the air for half an hour, firing their machine guns at hospital orderlies who were endeavoring to extinguish the flames. The nurses had just finished bandaging 180 wounded Germans who

had been brought direct from the battlefield and had gone to bed when the bombs were dropped from a height of only 800 yards. The dead Cross signs were painted prominently on the roofs and the Germans knew of the hospital, which had been in existence for more than a year. The correspondent, after inspecting the hospital, visited a camp at which German prisoners are assembled. He estimated that there were more than 600 officers and men. The correspondent was permitted to interrogate a large number of the prisoners, many of whom are eighteen or nineteen years of age. They all declared themselves most contented at being out of the war. On the way, other smaller camps containing hundreds of prisoners were passed.

The Laertes called at Cape St. James, Indo-China, and secured an armed guard.

FALL OVER CLIFF TO DEATH IN WATER. NEWFOUNDLAND COLLECTS FURS FOR ALLIED ARMEN. St. John's, Nfld., Aug. 23.—The need of furs for the equipment of armen in service in Europe and of the men in the trenches during the winter has resulted in the despatch of a Newfoundland sealing steamer to Hudson Bay. The steamer chosen for this purpose has been employed by the admiralty during the last two years conveying munitions to Europe. It is now on its way with supplies for the fur trading companies on Hudson Bay and it is expected that it will bring back a large stock of furs, before ice closes navigation in northern waters. A missionary ship which plies along the Labrador coast will collect furs gathered in the various mission posts there and bring them to this port.

FORMER REFORMATORY HARDLY RECOGNIZABLE

Re-education Classes for Returned Soldiers to be Conducted in 16 Industries at Guelph M.C.H.

Guelph, Ont., Aug. 22.—September should see occupation of the former Ontario government institution which was turned over to the Military Hospitals Commission as its chief re-education centre in Ontario for disabled soldiers.

The old dormitories in the main building are undergoing transformation. The appearance of those portions already finished would emphatically belie the stranger an assertion that the building had once been a prison. All bars and screens and iron doors have been removed by the oxy-acetylene torch.

Redecoration in cheery hospital units. The new wings at Guelph, which are so altered the appearance of the cells that it is predicted there will be no competition among the patients for the privilege of occupying private rooms.

Of course the number of these private rooms is small, as most of the former inmates slept in thirty and forty bed dormitories with large bay windows. These also have been removed. While casual hospital beds have been substituted for the sleeping accommodation and first class toilet and bathing equipment has been added.

The kitchen could not be improved, but the dining room has been altered in appearance. A cheery recreation hall is also being added.

The great advantage of the institution is its industrial equipment. Sixteen separate industries, including agriculture, dairying, planning mill, furniture shops, metal shop, shoemaking, etc., are in full swing on absolutely commercial lines, and it is in these shops that the commission through its vocational training staff, hopes to re-educate in new occupations those men who have been disabled in such a manner that they cannot work for their former calling.

About eight hundred soldiers at a time will be cared for at Guelph, owing to the difficulty of men with disabilities learning new industrial occupations, it is anticipated that in some cases patients may remain there for possibly two years before they are able to take positions. In most cases, however, not many months will be required for instruction.

The 800 acres of farm land adjoin the grounds of the Ontario Agricultural College and arrangements have been made whereby the staff of that institution will co-operate in the instruction work.

NEW NATIONAL ARMY OF U. S. STARTS FOR CAMPS NEXT MONTH

First Movement Begins September 5 and Totals 200,000—Big Task For Railroads

Washington, Aug. 22.—Plans which the railroads are making to move recruits of the new national army and the National Guard forces to training camps, the largest troop movement ever undertaken in this country, were outlined by Fairfax Harrison, chairman of the railroads, at a meeting here today.

Mr. Harrison said altogether 687,000 men will have to be transported to cantonments in various parts of the country. An idea of the magnitude could be obtained, he added, from the fact that to move one field army of 80,000 men requires 6,229 cars made up into 360 trains, with as many locomotives and train crews.

"The first movement will start September 5," stated Mr. Harrison. "Between that date and September 20, the railroads will complete the entrainment of 200,000 men, or approximately thirty per cent of the total number scheduled to be moved by the various training camps."

"It is expected that a second movement of approximately 200,000 men will begin on September 19, continuing for four days thereafter, and a third movement of the same size on October 3."

"Meanwhile, in addition to moving the 687,000 recruits for the national army, the railroads have been asked to supply transportation for the 800,000 members of the National Guard to their training camps. This National Guard movement has already started and will continue in increasing volume until all have moved."

WATER AND SEWERAGE

It has been found necessary to carry the water main renewal in Prince William street farther than expected. The plans showed the ten inch main from St. James street running to the Three Lamps and it was intended to make the connection with the new main there. It has been found that there is a street of about 280 feet of six inch pipe from the three lamps to a point in St. James street and this will be renewed along the pipe cleaner is being used in Brussels street today and when it reaches the junction with Union the work of the cleaners will be completed for this reason. Another week will be required to complete the water main renewal in Sheffield street.

VALESKA SURRATT AT THE STAR THEATRE

Seeing Her in "The Victim" Lives No Wonder Why Women Like the Movies

The mid-week attraction at the Star Theatre this week is "The Victim" in which Valeska Surrott portrays the role of a girl against whom fate raises its overmastering power. Her struggle is terrific but she wins. Her father wrongs her in his trail of sin and suffering into her own life and threaten to wreck her happiness. She wages a fearless fight and wins against almost insuperable odds.

It seems that Miss Surrott's sole ambition is to be well dressed; in fact she verifies this in the following lines. This is what she says: "If I had twenty thousand gowns And twenty thousand gorgeous hats, And coats and gloves to match their hues, If I had twenty thousand minks And furs to line my every suit, If I should then be satisfied, I'd like to know with all my heart If I should then be satisfied."

Miss Surrott has personality. That elusive charm which is rarely attained on the screen has been captured by the noted actress of William Fox dramas. The distinctive characteristic which brings its possessor into the first rank of stars is owned by Valeska Surrott, the woman of a thousand emotions.

"The Victim" will be continued tomorrow. You're sure to like it. Monday's feature will star Marguerite Snow and William Courtenay.

### BURNS CAUSE HER DEATH.

Moncton, Aug. 22—Little Dora Aulrey, aged two and one-half years, who was terribly burned last evening while playing with her young brother in the yard near their home, Archibald street, died in the hospital here today. She was the daughter of Alfred T. Aulrey, C. G. R. brakeman, who was out on the railway when the accident occurred. The child was discovered with her clothing on fire. Policeman Killen, hearing cries for help ran to the assistance of those who were trying to rescue the little one, and it was thought last night had succeeded in saving the child's life but, today, she succumbed to her injuries. The cause of the accident is not definitely known but it is thought the children were playing with matches.

At the last session of the inquest into the circumstances of the death of H. L. When Hamm Brothers' store, Main street, was broken into recently, a large piece of chewing gum, well chewed, was found on the premises. ### Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seemed clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Eps-Opto tablets. Drop one bottle of water and allow to dissolve. This liquid bathes the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Notes: Another prominent Physician to whom the above article was submitted, said: "Eps-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and are prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good drug store. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family. It is sold in Canada by Wasson's Drug Store and other druggists.

PRICE FIXING. In Canada we are told frequently that the government cannot interfere with the law of supply and demand, or the pressure of competition. But in periods of great national stress that is just what is required—interference with the selfish competition and manipulation that places upon the poorer consumer a load too heavy for them to carry.

The High Commissioner for New Zealand recently made a statement regarding the frozen meat trade of the Dominion, his object being to clear New Zealand, and incidentally Australian farmers, ship-owners, and agents, from unfair charges of profiteering.

The German has long ago been convicted, not only of garbling, but of deliberately falsifying reports of fighting. Today's despatches add to other indications "Reporting" yesterday's battle near Ypres, in which the British made notable gains, the Berlin official statement says the British attack "failed."

The casualty lists again give evidence of the presence of a noted New Brunswick battalion on the firing line on the western front, and the British War Office reports show that the traditions of the Great War, Ypres and other war events and places are being upheld.

Austrian admissions of Italian successes are significant. When the enemy concedes something of gain to Allied forces it means much more than is admitted. The Italian drive is proving tremendously effective.

The Standard today refers to the systematic manner in which the food controller is going about his duties. The controller will be better satisfied if they could see some results.

Food control in Canada is as yet little more than a war phrase. What's the matter with Hanna?

THE LOCAL GOAL SITUATION. People in the maritime provinces wish to know whether they have had as much coal as they could use.

CHANGE IN RUSSIAN COMMAND. Petrograd, Aug. 22—General Leitchinsky has been appointed commander on the northern front, succeeding General Klembovsky.

NEW HOSPITAL READY. Coburg, Ont., Aug. 23.—The two new wings and large dining room which are to increase the Ontario Military Convalescent Hospital to a 400 bed institution are almost ready to be opened.

COAL. In Canada we are told frequently that the government cannot interfere with the law of supply and demand, or the pressure of competition.

RECENT WEDDINGS Roberts-Wilson. At the home of the bride's parents, Mr. and Mrs. J. O. Wilson, 48 Kennedy street, Miss Mildred Alice Wilson was united in marriage by Rev. Dr. D. Hutchinson, to Roy C. Roberts, son of Mr. and Mrs. David Roberts, of Kennedy street, last evening. The bride was dressed in white satin with pearl trimmings and princess lace. She also wore a veil and orange blossoms and carried a large bouquet of bridal roses. She was given away by her father, John O. Wilson. Her aunt, Mrs. (Dr.) Wilson, officiated at the piano and played the wedding march. The guests from out of town were, Mr. and Mrs. Dr. Wilson, of St. Stephen; Mr. and Mrs. W. Humphrey, of Cambridge, Queens county; Mr. and Mrs. Bull, of Woodstock, and numerous other friends. The wedding presents were very numerous and beautiful. The bridal pair will leave tomorrow morning on a yacht cruise up the river to the Narrows and other points. On their return they will reside in the city. MacAllen-Vroom. A very pretty wedding was solemnized last evening at 7 o'clock at Stone church, when Archdeacon Crowfoot united L. MacAllen and Miss Jennie Vroom in holy matrimony. The bride was given away by her brother, Mr. Gillead. Mr. MacAllen is employed by the C. P. R. at Quebec, but comes to the city during the winter season. The bride is a very well known young lady of the city and was employed with Reid and Archibald, engineers and contractors. The young pair will leave on the Digby boat for Nova Scotia this morning where they will spend a few days, returning to the city on Saturday. Hayes-Doherty. A wedding of interest was solemnized at St. Francis Xavier church, Sussex, Monday morning at 10 o'clock when Rev. J. J. McDermott united in marriage Mary Teresa, eldest daughter of Mr. and Mrs. James Doherty, of Rockville, and Warren B. Hayes, of Moncton. Miss Alice Doherty, sister of the bride, acted as bridesmaid while the groom was supported by his brother, Urban J. Hayes. Sullivan-Allen. St. Michael's Cathedral, Chatham, was the scene of an interesting ceremony Thursday afternoon when Lily Allen, daughter of Sergeant and Mrs. Robert Allen, and Fraser Sullivan, son of Mr. and Mrs. James Sullivan, of Newcastle, were united in marriage by Rev. M. O'Keefe. West-Archibald. Hopewell Hill, Aug. 22.—(Special)—The home of Mr. and Mrs. Luther Archibald at this place was the scene of a very pretty wedding this evening when Miss Mary E. Archibald, Mr. and Mrs. Archibald's eldest daughter, was united in marriage to Clifford C. West, one of the young men of the village, son of the late W. A. West. The ceremony took place at 8 o'clock and was performed by the Rev. Richard Opie, pastor of the Methodist church.

Light Breakfasts Thoughtful people these days are urging economy in eating, and many are even advocating "no breakfast." The "no breakfast" plan may agree with some, but most people feel better and work better on at least a light breakfast. A great many have found that a liberal dish of Grape-Nuts, served with cream, milk, or fruit juice, furnishes ample morning nourishment, is easily digested, and promotes buoyancy and clearness of mind. Grape-Nuts contains all the nourishing goodness of wheat and barley, including the vital mineral salts of the grain, and is a most delicious food. British Gained More Ground In Their Attack Yesterday

London, Aug. 22.—The British troops, attacking fiercely again today, have captured important strategic positions for a mile along the Ypres-Menin road, to a depth of nearly a third of a mile, and further to the north carried forward their front about a half a mile over an extent of two and one-half miles.

The fighting, according to the official report from British headquarters tonight, was of the most desperate nature, the prisoners taken bearing a small ratio to the losses inflicted on the Germans.

The text of the statement reads: "Successful operations were undertaken by our troops this morning to the east and northeast of Ypres for the capture of a series of strong points and fortified farms lying a few hundred yards in front of our positions astride the Ypres-Menin road, and between the Ypres-Roulers railway and Langemarck.

"Bitter fighting has taken place at all points. The enemy again launched repeated counter-attacks, which suffered heavy losses from our artillery and machine gun fire.

HIGH GROUND CARRIED IN BITTER FIGHT.

"The struggle was particularly fierce in the neighborhood of the Ypres-Menin road, where the enemy fought desperately to retain command of the high ground. Here our line has been advanced to a depth of about 500 yards on a front of about a mile.

"A position giving important observation to the eastward was captured by us, and our troops established themselves in the western portion of Inverness Copse. Further north our line has been carried forward on a front of two and a half miles to a greater depth of over half a mile.

"The garrisons of the captured farms and strong points resisted with the greatest stubbornness. In many cases isolated positions were only reduced after fighting lasting throughout the greater part of the day.

"In these operations we captured over 250 prisoners, but by reason of the obstinate nature of the fighting the prisoners taken bear more than a usually small proportion to the total losses inflicted.

"The number of prisoners taken by us in the course of yesterday's fighting in the neighborhood of Lens is 194, bringing the total in this neighborhood since the morning of Aug. 15 to 1,378. In the same period we also captured in this area 34 machine guns and 13 trench mortars, so far counted.

"Yesterday there was again great activity in the air on both sides. Severe fighting took place. Twelve German airplanes were brought down by our machines. Five others were brought down out of control. Twelve of our airplanes are missing."

Threaten Closure at Ottawa

Ottawa, Aug. 22.—The house spent practically the entire day in committee on the Military Voters' Bill. This was the third day the measure has been under consideration in committee, and still little headway has been made. The opposition has continued to put forward objections to the loop holes in the bill for manipulation of the soldiers' votes by partisan returning officers. The government has adhered to its determination to pass the bill practically in the form it is introduced.

There is some talk by the more reckless partisans on the government side of the house of forcing the bill through under the closure rule. Should this prove to be the case it will be the first time that closure has been invoked to secure the passage of a bill since it was passed in 1914, to facilitate the adoption of the Naval Service Bill to give \$35,000,000 for Dreadnaughts. The opposition, however, is not scared by the threat. The effort to secure necessary safeguards will be continued tomorrow.

There were no developments in the political situation today. Premier Borden is now awaiting some hopeful message from the western Liberals with whom he has been negotiating. They have gone back to Winnipeg to talk things over, there with their colleagues. Meanwhile the premier's followers in parliament are predicting another failure and are chafing at the continued "inaction and indecision" of their titular leader.

May Commandeer Coal Schooners

Ottawa, Aug. 22.—Sir George Foster in the commons today in his review of the coal supply indicated that both the United States and Canada might be put on "coal rations." In any event a call would be made on all interests in economic in the use of coal. The fuel controller, C. A. Magrath does not fear a coal famine if proper economy is used.

For the maritime provinces Hon. J. D. Hazen intimated that schooners might be commandeered for coal transport as an adequate fuel supply for that part of the dominion.

Hon. Dr. Pagsley asked regarding arrangements for sending coal to Halifax and St. John, where a coal famine was feared on account of lack of transportation.

Hon. J. D. Hazen replied that for some time past efforts had been made to get vessels to carry coal to Halifax and St. John, but war conditions had caused great difficulty, freights having jumped from \$1.50 to \$6.00 a ton, while only small quantities were coming in schooners.

Another difficulty was no facility for carrying the quantities of coal at either Halifax or St. John.

On Monday a meeting had been held at Montreal at which the high prices of coal were discussed. Mr. Magrath was present with various transportation men, and the general opinion was expressed that there was no danger of a coal famine, while coal transportation was largely a question of schooner transport.

"I have therefore," said Hon. J. D. Hazen, "notified my deputy minister that I would be prepared to recommend the commandeering of a certain number of schooners to bring the necessary coal to the Maritime Provinces' ports at a price fair under existing circumstances and considerably less than those now charged. This I believe would be possible by acting in conjunction with the coal dealers, and would greatly reduce the cost of coal there."

DEFENDS HIGH COAL PRICES

Illinois Operator Testifies Coal Men Want All They Can Get

St. Louis, Aug. 22.—William S. Scott, president of the Missouri and Illinois Company, which leases coal mines near Belleville, Ill. testified at a hearing of the Missouri inquiry into the high prices of fuel that it was the policy of the coal men to make all they can, both in war and in peace. Asked as to his idea of a fair profit during war he said: "There is no limit. We get what we can. Everybody is doing that, including the farmer."

"Do you think that is right?" asked Assistant Attorney General Gose. "I am not qualified to say," was the reply. "I am doing all I can to get what I can."

He said the highest price he had obtained recently for coals was \$6 a ton for six-inch Cartersville lump.

"How do you justify charging \$6 for something that costs less than \$2 to produce?"

"Because you can get it. You are a lawyer and you wouldn't do a piece of work for \$5 if you could get \$10 for it," was the reply to Mr. Gose's question.

Gymkhana Was Greatly Enjoyed Delightful Entertainment Given on General McLean's Lawn at Rothersey Proves Highly Successful The Gymkhana, held on the beautiful grounds of General McLean at Rothersey yesterday afternoon, was a decided success. The grounds were kindly loaned by General McLean and the fine weather greatly enhanced the charm of the afternoon. The candy and ice cream booths, under the care of Mrs. Louis W. Parker, assisted by Miss Clara Schofield and the Rothersey members of the Loyalist Chapter of the I. O. D. E., did a smashing business all afternoon. The tea tables were set out on the terrace, well shaded by the trees, and presented a gay spectacle. Many of the guests came out on the 1 o'clock train, while several parties motored out later in the afternoon. The proceeds will be donated to the Loyalist Chapter of the I. O. D. E. to be used for patriotic purposes. The Rothersey girls who took part were: Barbara Fairweather, Hamlin Fairweather, Peggy Jones, Phyllis B. Bourne, Frances Cudlip, Sibil Fink, Elizabeth and Rachael Armstrong, Zoe Patterson, Eleanor and Ruth Foster, Catherine Mullin, Frances Robinson, Helen Blanchette, Frances Gilbert, Margaret Page. The older girls who also took part are all students of Havergal College, Toronto, as follows: Lu Robinson, Edith Schofield, Dorothy Tennant, D. Tennant, Amherst, Vivian Ross, Toronto; Helen Cudlip, Joan Foster, Althea Hasen, Phyllis Kenny, Catherine McAvity, Oda McLeod, Barbara Jack and Grace Kuhring. One of the features of the afternoon was a special dance by Miss Meta Carritte and Miss Lily Raymond. The instructor was Miss Grace Kuhring, who has just completed a special course of gymnastics and dancing at Toronto. Those who took part wish to thank Mrs. Foster, who was so kind as to allow them to conduct many of their rehearsals at her residence, and also for loaning her piano for the afternoon. The young ladies also wish to thank the residents at Rothersey who entertained them at luncheon on the days that they were at Rothersey holding their rehearsals. Cakes, which were raffled during the afternoon, were won by Mrs. Forbes White and Mrs. J. B. Cudlip. ANOTHER ATTEMPT TO END LYNN SHOE SHOP TROUBLE

Lynn, Mass., Aug. 23 - Another attempt to end the deadlock between manufacturers and employees which has kept many shoe factories here closed since April was made on Wednesday. Representatives of the state board of conciliation and arbitration came here to confer with members of the Shoe Manufacturers' Association and business agents of the union. One of the principal points of dispute is as to whether future differences shall be referred to the state board or to a local arbitration board.
