Military Equipment Moved From Bruges, Turcoing and Roubaix—Prisoners Indicate General Desire to Surrender

With the Allied Armies in Belgium, Wednesday, Oct. 16—(By the Associated Press)—Bruges, Turcoing and Roubaix have been captured of all civilians and the Germans have removed their military establishments from these cities.

All submarines have been hastily removed from the U-boat base at Ostend and it would appear from information captured German naval bases along the Belgian coast are either being moved, or being made ready for instant removal, probably in the rear of the German mine fields in the North Sea.

Four new divisions have appeared in the Flanders battle. All the prisoners captured complain bitterly that they are being compelled to continue fighting steadily without rest. Many of them have been continuously retreating since August 8. A large number recently admitted that they packed their kits ready to surrender when they believed they were to be attacked.

SORROW TODAY IN MORE HOMES

Several Of Our Soldiers Have Given Lives

Pte. B. F. Ramsey Succumbs To Wounds—Pte. C. E. K. Jones and Pte. W. Givan Killed—Others in Casualty List

To Mrs. Louise F. Ramsey of 27 Murray street this morning came news of the death of her son, Pte. Bertie Frederick Ramsey, in the war. A few days ago he had been reported wounded and missing on August 28. Letters had since gone forward to various places overseas in effort to glean further news of the young soldier while the family clung to the hope that he might still be alive and would be among the returning ones when the war ends.

News dispatch that hope for a despatch from headquarters in Ottawa states that Private Ramsey now is officially reported "died of wounds on August 28."

He had gone overseas with the 11th Battalion, existing when only nineteen years old, leaving his position in the King street office of T. McAvity & Sons, Ltd. He was in England but a short time when he was sent to France to join the New Brunswick battalion. He was in the battle of Vimy Ridge and there was wounded in the shoulder by shrapnel. In March of this year he returned to duty after convalescing in various hospitals. And now he has given his life.

Private Phillip Gougen of 74 Chapel street, North End, has been reported missing by the Ottawa authorities, the date of his disappearance being Sept. 30. Private Gougen enlisted with the Canadian Engineers and his letters tell of doing sapping and tunnelling work at the front. He used to work at the mason trade here and also a shoemaker with the Dominion Coal Co. plant on the harbor front. His wife and six small children live in Chapel street.

UPRISING AGAINST HUNS IN NORTHERN ROMANIA

Paris, Oct. 17—Outbreaks against the Germans have occurred in Northern Rumania, in the province of Moldavia, says a despatch to the Journal from Zurich. The population suddenly assumed an openly hostile attitude to the German authorities, according to the address which come by way of Bucharest.

Important Centre Falls Before Might of British

Our Soldiers Away Again This Morning on a New Drive on the Behain-Lecateau Front, Southwest of Cambrai and Good Progress is Being Made

London, Oct. 17—(From Reuters to C. P., Ltd.)—The British have captured Lille.

British Headquarters in Flanders, Oct. 17—(Reuters)—The Germans on leaving Lille, which was captured today by British forces, did not set fire to the buildings in the city or cause any explosion.

A NEW DRIVE

London, Oct. 17—Field Marshal Haig's forces this morning began an attack on the Behain-Lecateau front, along the Selle River, southwest of Cambrai. Satisfactory progress was reported by the British commander in his official statement.

SLIGHT ENEMY SUCCESS

London, Oct. 17—During the night the British gained ground southwest of Lille, capturing a few prisoners. The Germans have been counter-attacking to the north of here and in strong local thrust at Haussy, in the region south of Valenciennes, pressed the British back in the western edge of the village.

BRITISH IN CONTROL

London, Oct. 17—British forces entered Courtrai during yesterday's fighting, according to a statement issued at the War Office today. More than twenty villages were captured by the Allied forces in Belgium during the day.

The text of the official statement follows: "On the 16th, despite the stormy Belgian, British and French troops continued their attacks between Dismude and the Lys River. Brilliant assaults over a front of thirty-one miles enabled them to advance an average depth of more than three and a half miles. The Belgians crossed the Yper River north of Dismude and occupied Schooek. The British crossed the Lys, pushing beyond Menin to a depth of several kilometers on the right bank.

"Throughout was captured by the Belgians. Lichtevelde and Ardoy were taken by the French, while the British captured Menin. According to the latest report British troops have entered Courtrai.

"Twenty villages were delivered from the enemy. No figures are available regarding captured prisoners and booty."

GAIN OF 57 CASES IN THE CITY; TOTAL NOW IS 274

Today's Reports on the Influenza Situation; Permits for Certain Meetings

At half past two o'clock this afternoon the Board of Health reported 57 cases of influenza in the city. This is an increase of fifty-seven cases in twenty-four hours. All cases recorded at the health office are definitely characterized as belonging to the epidemic, though of varied degrees of severity. Some of the cases are mild and not attended with the so-called Spanish influenza.

Prior to noon today the Board of Health had only 224 cases on its books. The substantial increase indicated was made by the early afternoon return of Inspector McConnell, who is canvassing the local situation quite thoroughly. Permits for Essential Meetings

Hon. W. F. Roberts said today that he was issuing special permits for meetings having to do with pressing executive matters in connection with federal, provincial and civic business. It was not possible in the afternoon to issue permits for meetings through individual officers or representatives. Committee sessions and executive meetings were necessary, so to meet these contingencies, permits are being issued. The permit, however, particularly in the case of meetings, is not attended by anyone having a case of influenza in his or her home.

In forty-eight hours the Department of Health under the local government expect to have a clear and concise idea of the influenza situation in every parish in the province. Far-reaching arrangements are on foot that will submit to the minister of health and his officers a comprehensive view of the health map. These reports will be detailed surveys of the epidemic's progress in each parish in the province—a scheme of co-operation in which the county secretaries and parish councillors in every section of New Brunswick are heartily assisting.

INDICATIONS OF BIG WITHDRAWAL BY THE GERMANS

Possibly Give Up 35 Miles On Front in Belgium

FOUR JUMPS TO THE REAR

That is Information Reaching Our Headquarters—Enemy Run Short of Supplies—Believed Lille Left Intact

With the Allied Armies in Belgium, Oct. 16—(By the Associated Press)—The withdrawal of the Germans from the Lille-Douai sector may become more rapid daily. Information which is considered reliable indicates that the enemy contemplates retiring for at least thirty-five miles on this front, probably splitting his flight into four jumps to the rear.

This evacuation has become necessary since the Allied victories in the Cambrai area. Because of the defeat inflicted upon the Germans in Flanders a retreat has now become a movement of great urgency. Enemy artillery in the Lille area is now being moved back five miles from the front.

Here as everywhere else along the central British front, the Germans are leaving their cannon either on or near roads so that they can be moved at a moment's notice. Prisoners say the Germans are constantly uneasy, never knowing when or where an attack is coming or when they will be called upon to fight their lives.

As a matter of fact it has been expected that the Spanish influenza would be a great factor in the German retreat, but apparently orders for this movement were postponed because the German high command wished to save as much as possible of the materials of war, which are becoming increasingly short. All prizes are being complained of a lack of supplies.

Lille itself will not be destroyed, but the cause for this is unknown. According to President Wilson's note has not yet had time to reach the Germans at the front. It is not improbable that the German command is beginning to realize the horror that would sweep over the world if beautiful Lille should be levelled. The city, however, will be sure that prisoners' statements that the city would be spared are correct only when they themselves are in Lille and find it undamaged.

FOUR YEARS AGO FIRST CONTINGENT REACHED ENGLAND

In a letter received by Mrs. E. A. Young, head of Field Comforts, West St. John, mother of a soldier of the first contingent, wrote that just four years ago today the men of that contingent have been received from mothers and the list will be open all this week.

The War Is Lost, Says Berlin Newspaper

Amsterdam, Oct. 16—"The war is coming to an end and in such a manner as no man in Germany desires," said the "Vorwoerter," of Berlin, on Monday. "Let us say it candidly," the newspaper continues, "during all these terrible four years the aim of our efforts and sacrifices was to prevent such an end."

SHOW SIGNS OF MAKING STAND AGAINST FRENCH

Germans Assisted by Weather and Condition of Roads

SISSONS-RETHEL LINE

Americans Occupy Important Little Village of Grand Pre, Convergence Point of Railways Used to Feed German Army

With the French Army on the Alsace, Oct. 16—(By the Associated Press)—Favored by the bad weather and the bad roads, which are slowing up the advance of the Allied supply lines, the Germans appear disposed to make a stand for the time at least, on the line from the region north of Soissons to Reims.

General Debeney's forces have made a slight advance west of Angoulcourt, passing the Serre, and arriving before the trenches which the enemy is still holding with the aid of a well sustained machine gun fire to stop their forward movement. The German artillery has also increased its activity in this sector.

North of Soissons the French troops are now along the line from the advanced position prepared there as a secondary line of retirement from the Hindenburg line.

EARTHQUAKE IN PORTO RICO HAS KILLED HUNDRED

New York, Oct. 17—With more than 100 persons dead and thousands without shelter, food or clothing as a result of the earthquake which shook the entire island on Friday, the government of Porto Rico today appealed to Congress and the American Red Cross for assistance in a cablegram received here and forwarded to Washington.

H. B. RAINSFORD DEAD

Clerk Of N. B. Legislature For Thirty Years—Historic Record of Family

Fredericton, Oct. 17—Henry Bartlett Rainsford, clerk of the New Brunswick legislature since 1888, died at his home here this morning in the eighth year of his age. Heath followed paralysis which occurred recently. He had also held the office of clerk of the peace and divisional registrar of births and marriages for York. For upwards of twenty years he was secretary-treasurer of York county. He was a son of the late Henry Bartlett Rainsford and a grandson of the late Andrew Rainsford, first receiver-general for New Brunswick. The late Captain Charles Rainsford of the 104th New Brunswick Regiment, which won glory in the war of 1912, was an uncle, as was also the late Thomas Rainsford, who was provost marshal in charge of Napoleon at St. Helena.

FREDERICTON REPORT ON THE EPIDEMIC

Fredericton, Oct. 17—Reports from physicians to the board of health indicate that cases of influenza and similar disease in Fredericton number between 125 and 150.

Relatives here have been notified of the death of John P. Meahan in Lynn, Mass. He was a former resident of Fredericton. Death resulted from Spanish influenza.

HERBERT W. SMITH DEAD

Herbert W. Smith of Glen Falls, aged thirty-nine years, died this morning after an illness of two weeks. Mr. Smith, who had been employed with the Atlantic Sugar Refinery, leaves his wife, one son, Frank, his parents, Mr. and Mrs. John W. Smith, five brothers, Earl, Percy and Fred in Boston, Arnold in France, George of this city, and one sister, Miss Cynthia, in Boston.

ALBERT MARCHING TO ATTACK OSTEND

London, Oct. 17—Belgian forces, under command of King Albert, which crossed the Yser River, are marching on Ostend.

The Belgians also made progress in the region north of Thourout and advanced in the direction of Thiell.

Abdication; Surrender

London Papers See This as Germany's Course

ASTOUNDING NEWS OF CONDITIONS REACHES ENGLAND; GREAT CIVIC UPEHAVAL BEGINNING; END OF KAISER RULE COMING

London, Oct. 17—Rumors relative to the course Germany may take toward replying to the note from President Wilson form the main feature of this morning's papers. Some are convinced that Germany's unconditional surrender is coming.

Although the statement issued at the foreign office last night shows that yesterday's rumors were premature, extra ordinary reports concerning internal conditions in Germany are printed. Some newspapers take it for granted that Emperor William will abdicate. The Express says that for some time he has been sending his valuables to Holland.

Some editorials express the view that the disappearance of the emperor is imminent. "It is a mere symbol and a figurehead of what we pledged to destroy," says the Telegraph. "It is what will be substituted for his insane and disastrous rule that matters."

Alteration of the German constitution, by which civil power would be admitted to a share in the control of the matters pertaining in the war, is a subject of utmost importance. By this alteration the emperor would cease to be the supreme war lord.

"The story," says the Daily News, "means broadly that the Kaiser has surrendered to President Wilson and is equivalent to an admission that all is lost. SURRENDER NEAR?"

The Express claims to have trustworthy information that Germany's surrender is imminent, adding: "Semi-official information of an astounding kind has reached England, indicating a deep crisis in political position in Germany. This is even more serious than the military situation, and is responsible for the coming debacle. A great civil upheaval is beginning. The Socialists of Germany, fearing anarchy is about to obtain and desiring to save the country from Russia's experience with the Bolsheviks, have prepared a scheme of government to take the reins so that when the Kaiser abdicates in order that it may exercise an immediate steadying influence."

CHANGE IN POLAND

Basel, Oct. 17—There is an official publication in Lublin newspapers reaching here stating that Austria is ready to suppress military occupation of Poland and hand over the civil administration to the Polish government so soon as it is ready to undertake the task. Until then, the item continues, Austria will do her utmost to assist in the reconstruction of the state, placing government employees at its disposal whenever necessary. In return Austria counts on Poland to export to Austria surplus food and raw materials.

The Frankfort Zeitung says the transfer will begin soon, but that it will be slow, on account of a lack of Polish officials. All services connected with the war, such as food supplies and munition making, will remain in the hands of Germany and that consequently military occupation will continue.

CHAPLAIN TELLS OF ADVANCE BY N. B. BATTALION

Was on the Firing Line With Nova Scotian Unit  
SERVICE FOR 26TH

Touching Reference to Late Lieut. Col. McKenzie, Who Had Not Missed a Parade Service Since Coming to France

A graphic story of the beginning of the big advance in August, from the viewpoint of a chaplain serving at the advanced dressing stations with a brigade of which the 26th Nova Scotia Battalion is a unit, is related in a letter from Rev. A. J. MacDonald, formerly minister of St. Andrew's church, Lunenburg, N. S. Captain MacDonald tells of meeting Lieut.-Col. A. E. G. McKenzie, C. O. of the push, a little while before the latter's death. The letter is as follows:  
26th Canadian Inf. Bn., France, September 9, 1918.  
Editor of The Witness:

Dear Sir:—Since becoming attached to the fighting 26th Battalion, we have had such a strenuous time of it that it is only now I can gather my wits together to write you a brief line.

It took me a long time to get to the front, but when I got here it was good fortune to come at the time when the Canadians were putting on one of their biggest shows. I joined the battalion on July 24, from whom I received a real Highland welcome, both officers and men. A few days later movements began which culminated in the attack of August 8 and 9 east of Amiens.

The censor will not permit me to disclose these movements, but sufficient to say that the Canadians went into the fray confident of victory which was not only made a disposition of his chaplains as seemed to him best. Some were placed on a burial party; some to attend at the advanced dressing stations; some at the main dressing station, and the rest were to remain with their units.

It was my task to attend at the advanced dressing station, and the excitement as troops were getting into the line and doctors and orderlies were coming in, together with the shells that were constantly falling about, sleep was out of the question. At 4:20 (zero hour) I came from the dressing station to my first experience—repeated often since—and I really was in wonderland. It was not long until the walking wounded began to come in and later the stretcher cases. The Hun prisoners began to pour in. Of course they were all dressed and wounded. That old half shattered building was a busy place. The Y. M. C. A. was ready on an occasion to give capable management of Capt. Guy McKenzie (Pine Hill) and the cups of coffee and tea or coffee formed my nourishment. I was busy from 4:30 to 5:30 p. m. that I began to realize I was tired. I went down to the styffe cellar and threw myself on the floor for an hour for rest. When I came back, the great crash was over and about 9 p. m. rested for the night.

The same experience was gone through next day at another station about five miles farther up the line. Only on the evening of that day my men were held of some good steak which he cooked for me and I ate with great relish. The push had died down by this time, and I joined my battalion which was then holding the front line.

Without much breathing space, we are next found attacking the Hindenburg line east of Arras. The disposition of the chaplain is to be with the 26th Battalion and on Aug. 27 and 28 I went over the top with the boys. Passing through the barrage we were in a trench and partly over open ground—was no fun for a man of my age. Before proceeding to the trench I reached a dugout after a while, where we had some measure of safety, but I had no time to rest. I was ordered to a lake. Only that the dirt caused by the shells tearing up the ground formed my only protection. Before proceeding to the trench I reached a dugout after a while, where we had some measure of safety, but I had no time to rest. I was ordered to a lake. Only that the dirt caused by the shells tearing up the ground formed my only protection.

I have only time to mention a Sunday night or two. On July 28 I had my first service with the 26th. I met in a building, dark and dingy, but overcrowded. The singing rather well, the attention was all that could be desired, and I had great joy in declaring my message. An hour later I gave the same message to the 26th Battalion and its gallant company, who hailed from Campbellton, N. B., stated he had not missed a parade service of his battalion since coming to France. He seemed delighted and was very appreciative. It is with deep sorrow I record his death which took place at the little village of Chesley while leading his men into action on August 26.

The other service I wish to mention was that held on Aug. 4 (Anniversary day) where the two battalions mentioned above met together in an open field, and we were going into action, and its spell was over 26th Battalion service afterwards well seated on the grass, was of a very solemn and uplifting nature.

Space will not permit me to add anything further, but later, with your permission, I may give a few more items. I have said nothing about the courage, dash, magnificence of these men. It is the constant wonder of all who behold them, but of this later.

A. J. MACDONALD,  
Chaplain.

A HEART TO HEART TALK

Men of St. John! It isn't the money that is involved in the intricate that should make the Victory Loan appeal to you. It isn't the interest that you are going to get out of your money.

It's the good that you can do with your money—the blood, and the tears, and the anguish of soul that you can save—the blood of the soldier who is offering his life on the firing line for you—the tears of the anxious mothers, and wives and children at home—the anguish of those who are crying for food and know not where to seek it.

Involved in it is the purity of womanhood, the protection of the children who are now alive, the safety of the babes who are yet unborn, the whole future of humanity.

Put the blood and the tears, the anguish and suffering of countless thousands—the things that are priceless—the balance against your money, and you will realize that the most you can give to the Victory Loan is all too small.

INCREASING IN SERIOUSNESS IN NOVA SCOTIA

Five Hundred New Cases of Grip In Day—Halifax Stores to be Closed at Six O'clock

Halifax, N. S., Oct. 17.—Dr. W. H. Hattie, provincial health officer, said today that the influenza situation throughout Nova Scotia was increasing in seriousness, and that it was quite unable to meet the many demands for nurses and doctors. Up to noon today, 500 new cases, many of them serious, had been reported. The disease is epidemic along the southwestern shore of Nova Scotia, the Clare Shore, the Parrsboro and the Miramichi rivers, and Cape Breton. The situation among the troops stationed in Nova Scotia is not so serious, but generally speaking, in Cape Breton. The influenza situation among the troops stationed in Nova Scotia is not so serious, but generally speaking, in Cape Breton.

At a meeting of the Halifax Board of Health today it was decided to close all business houses at six o'clock and to regulate the hours during which restaurants may operate. Representatives of the military and naval forces were present and greater cooperation in the fight against the disease was decided upon.

Further, so many provincial physicians are themselves down with influenza, that it is necessary to call in the assistance of the military and naval forces. The regular manager in that town has been taken seriously ill with Spanish influenza.

The influenza has made great inroads in the lumber camps. In the vicinity of Napadogan some camps have suspended operations. The regular manager in that town has been taken seriously ill with Spanish influenza.

GAIN OF 57 CASES IN THE CITY; TOTAL NOW IS 274

(Continued from page 1.)  
will soon have before them a complete view of the provincial epidemic.

In his brief statement to the county secretaries and councilors, the minister of health dwelt upon the importance of knowing exactly how the malady was introduced into the province through lack of systematic segregation and treatment.

Now the health department by organization and with vested authority will check the disease early in the week. The health department has notified that two cases of smallpox have come to Fredericton from re-contruction camps near the city.

General Gouraud's army, on the south bank of the Aisne southwest of Reims. The Germans are shelling the French frontier. The British are preparing to reinforce their line strongly with machine guns.

After their long struggle for mastery in the Argonne woods, the Americans moved several companies of infantry to the Aisne river, which cuts across the northern end of the woods south of Grand Pre and under cover of heavy artillery fire moved almost without stopping, along the eastern flank of the position and into the town.

On the western side the French have advanced along the roads, making possible a junction of the American first and second armies.

Good Success Near Laon.  
Paris, Oct. 17.—On the entire front of the Oise and the Herre, where the Germans are being driven back, the French last night maintained contact with the enemy, according to today's War Office report. There was somewhat pronounced machine gun and artillery activity.

MONTREAL CONVENTS ARE OFFERED AS HOSPITALS  
Montreal, Oct. 17.—Six large nunneries in Montreal have been placed at the disposal of the provincial health authorities for the accommodation of influenza cases by Archbishop Bruchesi. The deaths of six soldiers were reported from the military hospital today.

NEW YORK BELIEVES HEIGHT OF PLAGUE THERE IS PASSED  
New York, Oct. 17.—Health officials expressed hope today that the peak of the Spanish influenza epidemic here had been passed. Reports up to 10 a. m. showed a decrease of 350 in new cases during the past twenty-four hours, the number being 4,729; deaths from influenza and pneumonia, 828, were ten fewer than yesterday.

WILLIAM DORAN DEAD.  
William Doran died this morning at the residence of his aunt, Mrs. John McCann, 82 St. Patrick street. He was twenty-four years of age and had been all the doctor for some time. He leaves his father, a returned soldier of the 56th Battalion; one brother, Frank, in France, a number of his relatives, and two sisters, Misses Margaret and Nellie, both of Los Angeles. The funeral will take place on Saturday afternoon.

FURTHER SERBIAN SUCCESS.  
London, Oct. 17.—Serbian troops, continuing their energetic campaign for driving out the Austro-German forces remaining on Serbian soil, have captured the town of Alexinat, on the Morava River, fifteen miles northwest of Nish. Fifty-two guns have been taken in the lightning beyond Nish.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, OCTOBER 17, 1918

## Will Accept But With Reservations

Amsterdam, Oct. 16.—The Nieuwe Rotterdamse Courant, has withdrawn its statement made in a special addition, reporting the capitulation of Germany and the abdication of Emperor William.

This step was taken, the newspaper says, because it was unable to obtain any confirmation of the report.

London, Oct. 16.—Reuter's Limited learns that the German reply to President Wilson is expected to be communicated immediately and that it is likely to constitute a general acceptance of the President's conditions.

According to news received here through diplomatic channels from Holland the reply will be an acceptance of President Wilson's terms, with some stipulation to the effect that the interests of the German people must be respected.

Amsterdam, Oct. 16.—Emperor William has issued a decree saying that martial law in Germany can only be administered by an agreement between the civil and military authorities, according to a report received here.

Germany's federal council has accepted the proposed amendment to the constitution, article 2, making it read: "The consent of the federal council and the Reichstag is required for a declaration of war in the empire's name, except in a case where imperial territory has already been invaded or its coasts attacked."

Section 5 of article 2 is amended to read: "Treaties of peace and treaties with foreign states which deal with affairs coming under the competence of the Imperial law-giving bodies require the consent of the federal council and the Reichstag."

### "Not Immediately Attainable"

Amsterdam, Oct. 16.—The semi-official North German Gazette of Berlin says: "President Wilson's reply has partly carried the discussion farther and partly extended it.

A fresh counter attack by the German government, therefore, is necessary, so that the bringing about of an armistice and the inauguration of peace negotiations are not yet immediately attainable."

### Not Another William

Paris, Oct. 16.—According to a source of information not without value, Berlin is considering how Emperor William can disappear without endangering the dynasty, says a despatch from Geneva to the Temps. One solution being considered, it is said, is the abdication of the emperor in favor of his grandson, William, the eldest son of the German crown prince, with the emperor's brother, Prince Henry, as regent.

The Journal Des Debats yesterday mentioned editorially the possibility of such a plan but it condemned it as unacceptable.

## Allies Everywhere Defeating Enemy

New York, Oct. 16.—The Associated Press tonight issues the following: "Hostilities are proceeding without cessation, and, as in days past, the forces of the Allies everywhere are defeating the enemy. In Belgian Flanders, the British, Belgian and French troops under King Albert are sweeping forward for further material gains in the process of driving the invader from Belgian soil; on the front in France, the British, French and Americans are hard after the Germans and are making progress, although slowly, as a result of the strenuous defence that is being offered.

In Albania the Entente troops are well to the north of Durazzo on the Adriatic Sea, and in Serbia a considerable distance beyond Nish, with the enemy falling back toward the frontier of Austria-Hungary.

In the Palestine theatre the British cavalry has driven far to the north and northwest of Damascus, having reached Tripoli, near the Mediterranean coast, forty-five miles north of Beirut and Hama, eighty-five miles north of Damascus.

In Flanders, Thourout, at the head of the railway leading to Bruges, and numerous villages to the south have been taken, while Courtrai, the junction point of the railway to Ghent, is almost entirely surrounded. Large numbers of prisoners and many additional guns have been captured by the Belgian, French and British troops, who are carrying out the operation.

To the south of this region the Germans are continuing to withdraw, closely followed by the British, who are within two and a half miles and three and three-quarter miles of Lille, respectively southwest and west of the city.

In the Champagne regions, where the French and Americans are driving their way northward, Reims, the important junction point for the railways running to Metz and other points inside the enemy-held territory, is all but captured by the French. Eastward the Americans also have again pressed slightly forward.

### VICTORY WITHIN GRASP

Ottawa, Oct. 16.—"Conscious of lurking dangers in the present situation from a battlefield denuded with the blood of their comrades, the men who may die in the battles of tomorrow expect and pray that our young nation shall raise its voice and exert its full strength to defeat the devilish endeavors of German diplomacy. Complete victory is within our grasp. Let us save it so that the blood of our bravest and best shall not have been shed in vain, and that generations yet unborn shall know that the sacrifices we consent to make and the bitter sorrow we have endured have not been without justification or purpose."

# Polarine

FRICITION REDUCING MOTOR OIL  
"Makes a good car better"  
For Cylinder Walls  
KEEP your cylinder walls like new—unscored and as smooth as glass with a film of oil that withstands heat and cold and maintains effective lubrication. Scored cylinders cause poor compression, wasted power, lost efficiency that impairs both the performance and the actual value of your car.  
DELIVERY OF FULL POWER depends on a gas-tight piston-to-cylinder contact. Correct lubrication is therefore most essential. It reduces friction to a minimum, prevents overheating, protects the cylinder walls against scoring and so keeps power from leaking past the pistons.  
Polarine has the right body to lubricate every moving part of the motor with a protective film that minimizes wear and friction. It lessens carbon troubles—does not gum in summer nor congeal in winter. It keeps cars in smooth running order the year round.  
Polarine is made in two grades—Polarine and Polarine Heavy. It is supplied in one-half, one and four gallon sealed cans, also in 12 1/2 gallon steel kegs, barrels and half-barrels.  
There are also Polarine oils and greases for effective transmission and differential lubrication.

A TENSE MOMENT

Baron Burian, Austrian foreign minister, admits that the Central Powers cannot get a decision by force of arms. Vorwärts, the Berlin Socialist organ, said on Monday: "The war is coming to an end, and in such a manner as no man in Germany desires."

There is no thought, however, that American shipbuilding will cease with the war. In a forward in the anniversary number of Speed-Up, a publication relating to shipbuilding, Mr. Edward N. Hurley, chairman of the United States Shipping Board, writes: "A good many people assume that when peace comes again and the war needs for ships have been met, the 160 new ships which have been created under the United States Shipping Board Emergency Fleet Corporation will have nothing to do."

THE PEACE TERMS

One report says that the German reply to President Wilson will be an acceptance of his terms, "with some stipulation to the effect that the interests of the German people must be respected."

AMERICAN SHIPBUILDING

The United States now claims the record for a year's output in shipbuilding. The following statement in a circular sent out by the Guaranty Trust Company of New York tells the story: "The Bureau of Navigation of the Department of Commerce has made public figures showing that from September 27, 1917, to September 26, 1918, the United States placed in service 1,956,435 gross tons of shipping."

### TIT-BITS OF FOOD CONTROL

(Canadian Food Bulletin).

The Brazilian government has authorized the creation of a food administration.

The New Zealand government has made arrangements to take over the entire wheat crop at \$1.41 per bushel. Wheat prices have been continued in effect in the United States for the 1919 crop by President Wilson in a proclamation fixing \$2.20 as the minimum price at primary markets.

The National Kitchen movement in England has recently made rapid strides, and there are now established in various parts of the country 628 national, or voluntary, kitchens, many with restaurants attached.

"Five bushels of wheat will provide bread for a soldier on the firing line for a whole year. Five bushels of wheat will keep the life in two adults or three children in the reforming of Europe. It isn't a matter of money, but of actually saving human life."

Brewing operations of all kinds in the United States will cease upon December 1, until further orders, and no further unmalted grains can be purchased for brewing purposes. The food administration has been directed to issue the necessary regulations.

"Some dissatisfaction has been caused by the late orders concerning the consumption of sugar," says the Omaha World-Herald, "but the discontented should direct their criticism at the German junkies. The shortage of sugar has been caused largely by the U-boats."

Marking a new step in the development of the port of Vancouver as a wheat distributing center, the first wheat was on September 17 for the first time in history bulked and cleaned at the Canadian government elevators, preparatory to being shipped to the old country.

The Deutsche Tagesseltung states that in examining samples of bread the Chemical Institute of Research of the city of Leipzig found the following foreign bodies present: Feathers, thread, wadding, lysol, paper, wood, straw, gypsum, chalk, and lead. The bread of one large bakery unaccountably contained about 18 per cent of copper in the form of copper filings.

On May 20 the price of wheat bread in the Ukraine was about 40 cents per pound loaf, and flour 80 cents per pound.

Rationing of cheese in Switzerland has been in force since June 1. The allowance is 1/2 pound per person monthly.

The beet sugar crop of the United States is expected to be about 38,174 tons less than in 1917.

American pork exports for June totalled 1,049,200 pounds which is more than four times the pre-war monthly average.

An illustrated pamphlet on rabbit rearing (No. 80) will be sent to anyone applying for it to the poultry division, department of agriculture, Victoria, B. C.

Stocks of sugar in Paris on May 31, 1918, were about half what they were on the same date in 1917. The total amount of sugar in France is lower than ever before, even in war times.

The new British food minister, J. R. Clynes, is continuing the policies of the late Lord Rhondda with respect to the fixing and maintenance of minimum prices, production and rationing.

The Prussian state office for foodstuffs has issued orders that the government must deliver to the government from 25 to 30 eggs for each hen kept. Lately the state office has been insisting that it is to be allowed free for each member of the household.

According to a statement issued by the department of labor, the average cost of the weekly budget for an average family in Canada during the month of August was \$18.41, as compared with \$18 in July, and \$17.08 in August, 1914.

The magnitude of the organization for controlling food which war conditions have evolved in Canada is shown by the fact that the total annual turnover is approximately \$4,900,000,000. Improvements in foodstuffs over \$8,000,000 a day. This amount represents the money paid for the purchase of foodstuffs for resale.

Herr Von Waldow, president of the German food regulation board, speaking of a reception to the leaders of German trades unions, said he regretted the lateness of the harvest and that there was no sharper means than war at present used to get more foodstuffs. The corn crop, he said, was only fifteen per cent better than that of last year and the potato crop was notably worse.

No one is outside the zone of food saving. Be careful of food. It must be saved as conscientiously as last year. Regard it as your war effort.

Eat more fish all the year round; it is a wholesome brain-forming and delicious. Our food saving success in 1918 should be an incentive for greater effort in 1919.

We have learned the habit of food saving. If we continue it will become a national virtue.

It will take a long time to restore a normal food supply in the world. Conserve what you have. Food saving is patriotic.

Until every citizen eats one pound of fish a week, we shall be below the right scale.

Fish is cheap because we haven't got to fatten it. It is our best substitute for meat.

Substitutes for what are available in abundance. They must be used. Our tables will be enriched by them.

A fish diet is delicious in summer and invigorating in winter.

The patriot is the man who does what the country wants done. Food saving is patriotism.

Economize, not criticize, in national food measures.

Share in the war for right by saving the food the Allies want.

Arrangements have now been made by the British Ministry of Food for the provision of "koshier" margarine for Jews.

### RECENT DEATHS

Miss Lizette McGillivray.  
The body of Miss Lizette McGillivray, who died of Spanish influenza at the City Hospital, Boston, was being taken to Bathurst for burial, and was accompanied by H. Dureau, Rotheray. Mrs. Dureau is a sister of Miss McGillivray.

James W. Glendenning.  
The death of James W. Glendenning occurred at his home at Sussex Corner on Sunday, Oct. 6. Mr. Glendenning has been in failing health for the past four years with paralysis, but it was not thought that the end was so near. He leaves, besides his wife, eight sons and three daughters, George, Dawson and Fred, of New York; Walter and Eldon, of the United States naval forces; James, of Maine; Bertram, of Belleville, and Gilbert, with whom he made his home. The daughters are Mrs. William King, Norton; Mrs. Hindman, Houlton (Me.); and Miss Lillian, of Boston.

Albert Whitlock.  
Andover, Oct. 16—Rev. J. T. Datur, parish priest at Paquetville, about thirty-four miles from here, died at his home this evening as the result of an automobile accident on Tuesday.

Rev. J. T. Datur.  
Bathurst, Oct. 16—Rev. J. T. Datur, parish priest at Paquetville, about thirty-four miles from here, died at his home this evening as the result of an automobile accident on Tuesday.

Tuesday afternoon some of Father Datur's friends had called upon him. Their car was out of order. He volunteered to repair it and having done so jumped in and proceeded to try it out. Almost immediately he lost control of the car. Apparently the steering gear suddenly the car turned turtle and Father Datur was pinned beneath the machine.

Some laborers working in the vicinity extricated the priest. He was unconscious and was apparently seriously hurt. He was removed to his home and medical aid was summoned. His condition gradually grew worse, he passing peacefully away this evening.

Father Datur was a man thirty-eight years of age and weighed in the vicinity of 350 pounds. He was exceedingly popular in the community and regret at his death will be widespread. No arrangements have yet been made for the funeral.

Father Datur was for three years parish priest at Paquetville, previously being at Acadieville. His parish came under the jurisdiction of Chatham diocese.

Moncton, N. B., Oct. 16—Mrs. Ross McFee died this morning after a short illness from influenza, followed by pneumonia. The body was taken to Petticoat this afternoon, where interment takes place.

William Dugan, aged forty-one years, an employee of the C. G. R. paint shop, died this morning after a short illness from influenza, followed by pneumonia. He is survived by his wife and two children.

James Edward Davis, son of Mr. and Mrs. James Davis of Edmundston, N. B., passed away on Sunday after a brief illness from pneumonia. He was twenty-eight years of age.

Robert Torrens of Medford, Mass., died recently from pneumonia. Besides his wife one son and two daughters, he leaves a family.

### EMPLOYING MORE WOMEN

The McAvity Ammunition works in the Exhibition Building are now giving employment to fifteen women. As the newly made extension is opened up for work a few more women will be given employment each week until there are about seventy-five employed with two matrons in charge.

The management has received a very large number of applications from women, as many as twenty-five in one day, and the number of applicants for positions supply the desired number for this plant. The building has been fitted up specially for the part of the women employed and a large rest room is bright, sunny and very conveniently placed.

Women have proved themselves good ammunition workers in the plant on the Marsh road and the number of applicants for positions proves that those who are now doing the work speak favorably of it.

### MONEY IN VESSELS

(Maritime Merchant)

The Hon. W. E. Foster, premier of New Brunswick, gave the "Merchant" an interview published in our last issue, in which he expressed great confidence in the outlook for Canadian sailing vessels. Mr. Burns was in the employ of the C. G. R. for the last twenty years.

Charles F. Burns, auditor of disbursements of the C. G. R. at Moncton, died very suddenly last evening while retiring. Mr. Burns was in the employ of the C. G. R. for the last twenty years.

Mr. Warren this week and he told us that he believed the next five years would see every shipyard in the province with as many orders as they can handle. And his expectations are based on this. The world's traffic will be enormous; not only freight but passenger traffic as well. Millions of people on this side who have never been to Europe will be bent on going there if any way of crossing is obtainable, and what is true of the North and South American continents will be almost as true of other countries outside the present war zone. Now the world's fleet of passenger ships is all but destroyed and for a long time shippers will be busy bringing the passenger ship supply back to normal and as a result progress with freight boats will be retarded. And of course there will be an enormous shortage of the latter tonnage. Shortage of number of tramps still afloat will have

to be scrapped or laid up, for they had no repairs for four years and are even now in a very bad way. Of course the situation mentioned will be overcome in course of time, but changing is that it will take time and before it comes our maritime provinces shipyards and vessel owners will have their chance. "I quite agree with Premier Foster that the 500 ton schooner at present is a good prospect," said Mr. Warren. "I wish I had about twenty of these vessels today, for if I had I could charter the whole lot within twenty-four hours and at prices that would pay a very good profit." The "Merchant" is glad to give publicity to this encouraging news. Overseas transportation is undoubtedly one of the things which will be greatly needed when the world gets back to normal and with the facilities we have in the provinces for supplying sailing ships of a certain class our people should be doing pretty well for themselves if they are alive and ready to take advantage of their opportunities.

**DOMINION SHOULD SHARE IN BENEFITS.**  
(Birmingham Gazette.)

It is evident that much of the money now being made in Canada out of the war is invested in farm land. That is plain from the annual report of the Hudson's Bay Company. Here is a table of the average prices per acre paid for farm land in Canada during the last thirty-five years:

1882	.....	£ s. d.
1903	.....	1 3 9
1911	.....	2 1 7
1915	.....	3 5 11
1916	.....	3 8 3
1917	.....	3 13 6

This indicates the increasing price of land in Canada, and not a little of the improvement is due to the development of railways in the dominion.

TO EXPEDITE SENDING OUT TO OUR MEN AT THE FRONT

TO EXPEDITE SENDING OUT TO OUR men at the front the power that will relieve them and throw the enemy into confusion and press them back. Every ton of shells, every consignment of guns, every crate of gas-masks, every cargo of rails and sleepers that reaches the front without hitch, every ship that leaves the slips and sets out on its voyage, is a direct blow to the German menace.

How the Workers Help

The dockers and the riveter, the shell-maker and the chemical worker, the worker in the factories and in the fields, who put through wars, their maddest ambitions more than satisfied by the crushing of small nations, the corruption of other nations, and the anarchy of Russia—started out on a new and still more arrogant offensive.

The Draughting of Slaves

So inflated with pride have the Kaiser and his Junkers become, every cargo of shells, every consignment of guns, every crate of gas-masks, every cargo of rails and sleepers that reaches the front without hitch, every ship that leaves the slips and sets out on its voyage, is a direct blow to the German menace.

If the Tyrants Won

If such tyrants became triumphant on the western front what a hell would be before us! Even with victory attending with the addition of an indemnity to be paid to an enemy, the burden upon labor would amount to an overwhelming slavery. Taxes for indemnity payments and for enormous armaments would be chained to our backs and to the backs of our children and their children. With food still at high prices our whole position would become intolerable. The greater part of that whole burden would necessarily be assumed by industry and industrialism.

TO INCREASE COAL OUTPUT.

Fuel Administrator Garfield has started a drive for increased coal production. He asks that from now until April 1, there be produced 12,284,000 tons of bituminous coal and 2,080,000 tons of anthracite every week. This is a weekly increase of 1,701,000 tons of bituminous and 212,000 tons of anthracite over the average of a year ago. To accomplish this he has requested the directors of production, "in consultation with the district managers, production committees, miners and operators, to figure out and establish weekly production quotas for each individual mine," and he adds that these quotas can be assured by the "definite pledging of each miner to assume his equitable portion of his mine's allotment." He concludes that "it will greatly hearten our forces abroad to learn that every miner has volunteered to carry out his part in this definitive programme."

SERIOUS FOR OUR EXPORT TRADE

(Maritime Merchant.) In a previous issue we referred to a ruling made by the governor-in-council at Ottawa which increases the duty on Canadian railways, and the effect of this change as applied to sugar on the sugar refineries of the Maritime provinces. We are glad to say that the rates as applied to sugar have since been amended, though they are still somewhat higher than before. The refiners have expressed a willingness to accept the modification of the rate which has been made, but with the hope that more liberal treatment will be given them when the question of the cost of carrying refined sugar from St. John and Halifax to western ports is a very important factor in their cost of production. THE CASUALTIES

Chatham, Oct. 16—Hon. Robert Murray has received word from Ottawa that his son, Lieutenant Robert Murray, is officially reported wounded slightly and is remaining at duty.

South Nelson, N. B., Oct. 16—Mr. and Mrs. Patrick Walsh, of Nelson (N. B.), have the sympathy of this community in the death of their eldest son, Matthew Walsh, who was killed in action, Oct. 17, 1918.

At the residence of the bride's parents, Mr. and Mrs. John Stears, Lancaster avenue, yesterday afternoon at 4 o'clock, a quiet but pretty wedding took place when their eldest daughter, Alice Marion, was united in marriage to the Rev. Sterling W. Stackhouse, son of Mr. and Mrs. James A. Stackhouse, of West St. John. The ceremony was performed beneath a floral arch, in the presence of immediate relatives and friends and was solemnized by the Rev. H. H. Sampson.

Wounded Third Time. Newcastle, Oct. 16—Pte. Charles Starford Macdonald, son of Mr. and Mrs. John Macdonald, of Newcastle, has been wounded the third time. The last was severe gunshot wound in his back, October 2. He was taken to hospital in Manchester.

Major McLaughlin Wounded. Woodstock, N. B., Oct. 16—That Major Guy C. McLaughlin was severely wounded in action on October 12 was reported by relatives here today. He was among the first to leave here after the break of the war and has been through severe fighting since going to France. He was attached to the 1st Battalion, 1st Canadian Infantry, and was killed in England. Lt. R. H. Hocken.

Lieutenant Richard H. Hocken, son of former Mayor H. H. Hocken, M. P., of Toronto, has been killed in action.

The Ontario List. The names of twenty-five new Brunswick men appear in the midweek casualty list. They are as follows: Wounded—W. C. Phillips, Douglastown; J. A. Parcells, Grand Falls; M. S. Brewer, Zealand Station; A. J. Giddard, Darlington; J. S. Wetmore, Campbellton; Lieut. J. D. Whittaker, St. John; H. A. Henderson, St. John; Lieut. C. Noble, St. John; P. J. Richard, Chaplin Island.

Killed in action—W. F. Dillon, St. John; H. W. Sullivan, Campbellton; H. Ducrest, Petit Rocher; F. J. Hamilton, St. John; M. Carter, Dalhousie; A. Moren, St. John; A. J. Mahoney, Sussex; C. Anderson, Baillie; A. Lapoint, New Mills; A. D. Smith, Galloway; J. A. London, St. John; J. A. Gallahan, Durham; R. Lawson, St. John. Wounded and gassed—V. A. Noble, Tracy Station.

Capt. R. A. Major, M.C., now in a convalescent hospital in England, in a letter home, pays a high tribute to his late commanding officer, Lieut. Colonel A. E. G. McKenzie, D.S.O., of the famous 28th New Brunswick battalion.

He writes: "The colonel was indeed a splendid man, always used good judgment in the field, and was absolutely fearless. In fact it was in disregard of his own safety that he got about seven bullets in him. He went on ahead under fire to encourage the men, when a machine gunner got a range on him. He had never before received a scratch. On August 8 when I was last wounded, there were four of us together and within ten minutes all were hit except the colonel, who, however, three weeks later, met his heroic death."

RECENT WEDDINGS

Grant-LeLachur. Mr. and Mrs. Peter McDonald's residence, Charlotte street, Fredericton, was the scene of a pretty wedding yesterday morning, when Dr. J. S. Sutherland united in marriage Miss Gladys Christie Grant, daughter of Gordon A. Grant, lately of Southampton, now residing in Fredericton, to Louis LeLachur, son of Mr. and Mrs. John LeLachur, of St. John. The bride wore a navy blue suit with a set of black fur, a taupe hat, trimmed with blue, and carried a bouquet of American beauties. Up to the time of her marriage, Miss Grant was a member of the staff of the Bank of Montreal, St. John. Mr. LeLachur is a returned man, having returned from overseas in August, 1918. Among the numerous presents received were a mahogany lamp, presented to her by the staff of the bank where she was employed, and silver tea service and tray were presented by the members of the department of soldiers' civil re-establishment, Fredericton, of which the groom is a member. Among the out-of-town guests were the Rev. Mr. Sutherland, Fredericton, and the Rev. Mr. Sutherland, Fredericton, and the Rev. Mr. Sutherland, Fredericton.

Stackhouse-Stears. Growing Old Together

THIS aged couple, mellowed by time and the experiences of life, are happily growing old together.

They are happy because they are healthy. Life is still full of interest to them, and they are wide awake to new ideas.

These are the kind of old people that everybody likes. For, in spite of the years, they are cheerful and optimistic.

It is only natural that the blood should get thin and vitality wane as age advances, but there are ways of keeping up the quality of the blood and maintaining health and vigor.

Very many men and women have found in Dr. Chase's Nerve Food exactly what they need to restore energy and strength and keep them healthy and happy.

There can be no doubt that this treatment contained exactly what was required to build up Mr. Leard's system.

We are constantly receiving so many letters of this kind that we can, with the greatest confidence, recommend people of advanced years to put Dr. Chase's Nerve Food on trial...

Here is another interesting letter. This time from a lady:

visitors. But when I explained that I was a Canadian war correspondent anxious only to do homage to a sacred relic the Canadians had helped to save, he smiled and waved aside formalities. Immediately within the door I stepped over a heap of plaster and broken stone, wherein a shell had shattered a small piece of the east corner. About me in the tremendous arches and spaces were only five people, a Frenchman and four Australian officers, and a priest walking thoughtfully up and down conversing with another French soldier. There was little of ruin in sight, but the dust of mouths lay there, the gashes of dismantled paintings and images, and one great pile of sandbags in the centre, where had been held the service of gratitude. Gilt and colored frames many yards square were tilted against the walls as they had been left when their valuable contents were removed. The small alcoves, once so elaborate, were locked behind their iron fences and littered with frames and pedestals.

Wonderful for the Blood! Cures Sallow Skin, Headache, Languor and Tiredness

You don't need to be told how you feel—blue, sort of sickish, poor appetite, vague pains, tired in the morning. This condition is common at this season. Fortunately there is prompt relief in the power of Dr. Hamilton's Pills. Thousands have been so utterly depressed, so worn out as to be dependent, but Dr. Hamilton's Pills always cured them. I can speak feelingly on the power of Dr. Hamilton's Pills, writes C. T. Fearman, of Kingston. "Last spring my blood was thin and weak. I was terribly run-down, had awful headaches and a gnawing empty feeling about my stomach. I couldn't sleep. I sprang my blood with Dr. Hamilton's Pills—they did me a world of good." TOMBSTONE OF TODAY.

The Bird Cage Opera House, the Casino restaurant, the Red Light saloon and the Tucson stage office remain as relics of Tombstone's one-time glory as

a mining camp. These old buildings were once the scenes of the pioneer Arizona mining camp, but are now occupied by bats and are slowly falling into decay. The Bird Cage Opera House was the most famous in the territory. It is a rambling, two-story structure with the glass in the rough board front broken by the elements. A long bar occupies one end of the building, while the piano player's raised platform faces it at the opposite end. It was on this platform that the famous sign hung which read: "Do not shoot the piano player. He is doing the best he can." A gallery extends around three sides of the opera house and the stage occupies the fourth side. On this stage the most famous variety performers from San Francisco appeared in the old days. Lithographs announcing their coming still hung on the walls of the opera house, the ink still bright upon them. A dumbwaiter connects the bar with the gallery above, where drinks were served at tables placed in each of the little rooms which open on to the big dancing floor. Many killings have occurred in the Bird Cage and it has been the scene of a number of western stories of frontier life.

At the Can-Can restaurant steaks once sold for 75c each, and men waited in line to be served, at the height of the Tombstone gold boom. The Red Light saloon was a gambling house, and the discarded roulette and Faro layouts may be seen stacked in the rear of the big building with its broken bar and mahogany fixtures. The stage office is an adobe building with a coral flanking it, and it was there that the stage from Tucson pulled in each day and the early settlers received their mail from the outside world. Another relic is the monument erected to Ed Scheffelin, the founder of Tombstone.

Amiens After It Was Saved

By Lacey Amy, special correspondent of The Times. With the Canadian Forces, France, d towns of France—a spirit for each something unseen, but felt keenly, something breathing quietly lest it be heard, something pervasive but modest; urge to hide, yet ever ready to emerge from broken doorways and hidden rooms of a country of homes. Ypres is but a country of a spirit that lives in spite of ethane grips its fate against its burden pain. Arras bleeds at a hundred snes, but thinks not of surrender. A lie of peace or a retreating foe. Amiens lives with finger on lip, tiptoeing about its empty homes on silent, impudic guard. Once torn by day by ruthless shells, now shrinking by night from the vicious bombs of a charged enemy, but once more to breathe without error of being heard. It is a deserted city. When the German drove so close to its borders that his guns dominated its life and traffic it retired out of range and prayed for relief. The citizens simply shuttered their windows, closed their doors and bolted heavy, and left the rest to Providence and the allied arms. And now that Providence has used ve allied armies to gain that relief the city scarcely believe it. They run their eyes from afar and wonder, and salute to hope that the menace of the an is removed save under the mantle of night. A fortnight ago I passed through Amiens. The great drive in which the Canadians shared was just beginning, or three months the city had slept. Not house seemed to be open, not a store of a street rang with a sound except the wheels of military traffic on its way and little of that German big guns audigly dropped explosives over a collection of homes whose existence could ever burn anyone, whose destruction ever profit. There was no life to destroy, no gains to record. It was the try of destruction rampant in breasts which have thrived on it for four years. And now the city is free. The enemy beyond the range of any but his long-range guns. For all the danger there is by process of legitimate warfare Amiens might be at work by day and resting by night. But the streets are still lifeless. In a run of several miles on two days ago I saw only two doors open save those few where lived the

**COUNCIL MUST ADOPT DEFINITE PAVING POLICY**

**Either Make Contributions The Rule or Else Refund COMMITTEE MEETING**

**East St. John Water Supply Discussed—More Liberal Terms For Mispec Lease—Half Pay For Veteran Ferry Employee**

The city is nearing the time when a show-down will be necessary with regard to the paving policy to be adopted for the future, according to the intimations given at a meeting of the common council committee this morning. Commissioner Fisher asked the members to be prepared to decide on the policy of securing contributions from property owners for permanent pavements and the mayor remarked that it would be necessary either to make this policy general or else return the assessments collected from the property owners in Union street.

Mayor Hayes presided and Commissioners Fisher, Bullock and Hilyard were present.

When the meeting opened A. R. DuPres, chief engineer for the St. John Dry Dock and Shipbuilding Co., Ltd., asked that steps be taken to ensure an adequate water supply for the Courthouse Bay works during the winter. Since the work was started the water supply has been secured through the pipe laid across the flats by Horton Grimes & Company. Owing to its exposed position, this pipe has frozen up each winter, causing considerable trouble and inconvenience, and he wanted to be sure of a better supply this year.

Commissioner Hilyard explained that the contractors on the excavation for the water main extension on the Red Head road are required to complete their work by the middle of December, and he was satisfied with the progress they were making. The department is laying the pipe as the trench is ready for it, and they will have the main completed practically at the same time as the digging.

Commissioner Fisher announced that he soon would bring in his programme of street paving for next year, and asked the council to be prepared to discuss a paving policy, and to settle the question whether the property owners are to be called upon to pay a portion of the cost.

The mayor said that the city must either refund the money paid by the Union street property owners or else proceed with a policy of levying on other property owners in the same way. Commissioner Hilyard told the committee that the applicant for purchase of a building and lease of land at Mispec, had asked that the lease be made for five years instead of one, and that the period of notice to quit be made six instead of three months. A recommendation to this effect was carried.

An application from John Casey, declared on the ferry service for more than twenty years, for full pay during an illness of 115 days, with a recommendation from the ferry superintendent for at least half pay, was submitted by Commissioner Bullock. The motion that Mr. Casey be paid \$152.95 at the rate of half pay, was adopted and the committee adjourned.

**Lieut. F. X. Jennings Writes of Pleasant Sensation of Marching Over Ground Won from Enemy**

The overseas mail brings a cheery letter to Mrs. F. X. Jennings of East St. John from her son, Lieut. F. X. Jennings, in France, under date of Sept. 23. He speaks of the pleasant sensation of marching mile after mile over ground which only a few hours before was in the hands of the enemy. He writes of the German soldier as a untidy person. "His dugouts which he has occupied," he writes, "sometimes before his bed has had a chance to get cold, are strewn and littered with the most chaotic collection of rubbish, empty bottles and tin cans, to add to the general untidiness, all the equipment, clothing, blankets, etc., which he sacrificed in preference to his hide."

Speaking of the Allies' success in the war, Lieut. Jennings expresses the opinion that "this winter and the spring will see us much nearer home." He mentions having received a letter from his brother, Ned, recently in the casualty list again, stating that he was feeling much better. He expected to see his brother soon.

**CITY UNDER THE ACT**

The case, like other employers of labor, comes within the scope of the Workmen's Compensation Act and must contribute its share to the general fund. Commissioner Fisher has received a copy of the employers' payroll statement calling for information regarding the total wages paid per month, accompanied by a letter from J. A. Sinclair, chairman of the board. Mr. Sinclair points out the necessity for co-operation and adds that if the first assessment proves to be too great or too small the difference will be adjusted in the next annual assessment.

**DEATH OF MRS. FRANK JORDAN**

Many friends will learn with sincere regret of the death of Mrs. Frank Jordan, which is announced today. She had been ill since last March, and the end was not unexpected. She is survived by her husband and one son, Luther. Mrs. Jordan was a daughter of William McMullin, and besides her parents there are two brothers, Gilbert and Stanley. She has a circle of friends. The funeral will take place on Saturday at half-past two, from her parents' residence, 172 Bridge street.
