Adjourn to Save Rupture Between Britain and France

British Reject French Plan to Exert Force in Ruhr District in German Reparations Matter

London, Dec. 11.—It was learned today that adjournment of the premier's conference tonight for eight days in order to avert an open rupture between Great Britain and France over the question of German reparations has been virtually decided upon.

The British cabinet, it was said, rejected the measures of force for the Ruhr district upon which Premier Poincare insisted.

Premier Bonar Law informed Premier Poincare, it was learned, that British public opinion was overwhelmingly opposed to any military measures against Germany.

The conference will probably resume its session in eight days in London or Paris.

It was said in French circles that the imminent adjournment was merely a manoeuvre to prevent an open break among the allies, particularly between France and Great Britain, and that there was little likelihood of finding a common basis of agreement between Britain and France.

It was further pointed out that, in spite of Premier Poincare's desire to cooperate with the new British Government, he has been forced largely by the political situation at home to demand concessions at the price of any concession to Germany.

The meeting of the premier's conference scheduled for this noon was postponed until 4 p.m. It was expected that in the meantime private interviews would take place among the premiers in an effort to save the conference from the fate which seemed this morning to be inevitable postponement.

HOME SITUATION CAUSES CHANGE

The utmost pessimism as to the outcome of the premier's conference was apparent today among members of the French delegation as they awaited word from the British cabinet meeting which was called to consider a list drawn by Premier Poincare for the occupation of the Ruhr as a guarantee for a German moratorium.

Premier Poincare spent the morning in his hotel with little to do but await the outcome of the cabinet meeting. The political situation in France is giving the premier considerable anxiety.

It had much to do with the firm attitude he adopted yesterday, after showing a conciliatory spirit throughout the Saturday meetings.

The National element in the French Chamber of Deputies resented reports from London that Poincare was showing a willingness to discuss guarantees which they regarded as fundamental. The premier therefore reverted to his previous attitude.

The Belgian delegation continued its effort today to find a middle course by which France could be given what she wanted and at the same time prevent the imposition of military penalties.

Hope Lies with U. S.?

It was said in an authoritative quarter that the chief hope of bringing the British and French together, during the period of adjournment to which the conference now seems doomed, lies with the United States. It was said by this authority that Great Britain will probably ask the U. S. Government if it is willing to cancel the French debt to the U. S., provided Great Britain in turn cancels the French debt to Great Britain and at the same time enters a definite agreement with the U. S. Government ultimately to pay the British debt to the U. S.

This suggestion was made informally last evening to a certain important American now in London, and it will probably be presented directly to Mr. Hughes, the U. S. secretary of state, in the course of the present week.

SIXTY AUTOS DESTROYED IN SARNIA GARAGE

Sarnia, Ont., Dec. 11.—Fire early this morning destroyed the garage of Charles McFee here, and sixty automobiles in storage, with a total loss estimated at \$100,000.

VIOLATED THE GRAVES; STOLE THE COFFINS

Atlanta, Ga., Dec. 11.—Thurman Jones, a negro undertaker, has admitted to the police that he is a coffin snatcher. He confessed how he had, for nearly a year, made a practice of visiting the local negro cemetery at the dead of night with an accomplice for the purpose of disintering the bodies so that he might later sell the coffins which they had been buried. He said he always reburied the bodies.

HELD IN QUEBEC ON CHARGES OF STEALING AUTOS

Quebec, Dec. 11.—(Canadian Press)—John McCarthy, aged 24, North Andover, Mass., and Otto Shadick, aged 20, of Methuen, Mass., wanted in East Massachusetts on a charge of having stolen two or more automobiles, are under arrest here.

WESTFIELD PARSONAGE

In an account of the opening of the new Sunday school building at Westfield, printed in a morning paper, W. S. Stephenson was credited with building the parsonage. This was incorrect. Mr. Stephenson is building the church, but the parsonage was erected by Frank H. Gilliland.

MAINE YOUTH KILLS FATHER IN MIS-TAKE FOR DEER

Bangor, Maine, Dec. 11.—Harvey Chubbuck of Carroll, was shot and killed on Saturday by his son Halsea, who mistook his father for a deer. According to the young man, his father stepped from behind a tree after he had jumped a deer. The tragedy occurred in Hancock county where the big game shooting season was prolonged until December 15, with the shooting restricted to county residents.

FOR SALARY REVISION IN CIVIL SERVICE

Convention Desires This in Preference to Bonus—Effort to Enlarge Federation.

Ottawa, Dec. 11.—As a result of a civil service federation convention whose sessions concluded on Saturday, an effort is to be made to bring all organized civil servants into the federation. This is to be the first task of the new executive which is headed by Major D. J. McKenna, M.P., and also as an officer of the past president, J. C. O'Connor.

The convention went on record as desiring salary revision on a percentage rather than a bonus system which has been followed since 1919. A deputation from the federation wished to have the bonus continued until the former would be possible.

Ottawa, Dec. 11.—At the eighth annual convention of the Dominion Public Works Federation the question of salaries was discussed. A deputation had waited on Dr. King relative to a revised salary schedule in place of the present salary augmented by a cost of living bonus. They asked that a referendum be taken as to whether the present salary augmented by a cost of living bonus or return to a straight salary basis.

The officers elected were: President, T. G. Mathison, Toronto; first vice-president, Fred Jacques, Ottawa; second vice-president, Wm. McKay, Victoria; third vice-president, H. S. Cox, Winnipeg; fourth vice-president, B. Carr, Halifax; secretary-treasurer, S. McGarry, Montreal; assistant secretary, J. H. Rogers, Toronto.

FACE STORMY TASKS

Others Against Vice-President of Miners in Education District—Magistrate's Dictum.

Edmonton, Dec. 11.—Wm. Ryan, vice president of District No. 18, U. M. W. of America, was found guilty in the city police court on Saturday, on a technical charge of vagrancy and sentence was reserved until other charges of assault, intimidation and obstructing of labor to secure a betterment of their conditions.

The charge against Ryan was that he accepted W. J. McPeak and a miner as they were diving towards the mine and that Ryan, opening the door of the car in which they were passengers shouted: "Have you any scabs in here?"

In finding the accused guilty, Magistrate McLeod said he was in entire sympathy with all the lawful attempts of labor to secure a betterment of their conditions.

If men organize to better their conditions, that is their business. On the other hand, if a man wishes to work he is entitled to do so and should have the protection of the law if he keeps within the law.

NEW POLICE UNIFORMS

An issue of new winter caps has been made to the members of the police force. This completes their winter uniforms and the members of the department now present a neat appearance.

As Hiram Sees It

"Say," said Mr. Hiram Horbous to the Times reporter, "this old town seems to be waking up. The 'sons' are coming back every day. That there City Council started in doing things, an' along comes this here hydro commission an' sets things going an' the Board of Trade an' City Council has kicked an' made up an' the Board pints out a lot o' things to be done when he reached the burning house. It was too late to make an entry. Mr. MacDonald was forty-eight years old. The children were Mrs. Catherine, 74 John, 6, and Jeannette, 5."

STREET CLEANER'S WIFE TO COME INTO FORTUNE OF MILLION

Elizabeth, N. J., Dec. 11.—(Canadian Press)—Eugene Berue, sixty-three, a street cleaner, continued to ply his broom yesterday, despite the information that his wife's brother, Michael Kelly, a Kansas real estate operator, had died, leaving them an estate valued at \$1,000,000. Berue says safety first is his motto, and he will continue to work until he has the money in his hands. Then, he says, he may quit. He and his wife are the only relatives of Mr. Kelly.

RAZOR IN FIGHT ACROSS THE BAY

Three Whites and Three Negroes in a Road House Fray Near Digby.

Digby, N. S., Dec. 11.—Louis Simpson was badly slashed with a razor, and two companions, Moses Simpson and Horton Stark, Jr., were beaten in an affray between the three white men and three negroes, Seymour and Lloyd Barton and John Miller, at a roadhouse just outside the town limits, on Saturday night. Loyd Barton was arrested and the police are searching for his companions.

SHIPPERS TO USE SUMMER TRACK

Decision Because of Prevalence of Icebergs in North Atlantic Steamship Lanes.

Washington, Dec. 11.—Owing to the constant prevalence of icebergs in the North Atlantic steamship lanes, the double track route of the regular liners has been shifted to the summer or southern tracks, normally followed after February 1.

The routes recommended by the Hydrographical Office, Navy Department, and according to announcement made at the station at C魁bec did not answer calls. The ships were left at Los Andes but apparently extended no further south than Valparaiso.

SANTIAGO AND MICHIGAN SHAKEN BY EARTHQUAKE

Santiago, Dec. 11.—Strong earth shocks were felt in 112 morning. The tremors later about half a minute. Strong earth shocks were felt in Michigan and Ontario, and officials said that communications north of the latter town had been interrupted.

POPE'S ALLOCATION

In his allocation the Pope said he would exhort the Brussels conference to consider the sad condition of many of the world's peoples. He held that such meetings as that of Genoa and Brussels were useless unless justice was tempered with charity.

He deplored the privileged position held by the Jews in Palestine, which he said was dangerous to Christians. He declared that large Catholic interests there were not being properly safeguarded and that Catholic rights must be safeguarded not only against the Jews and infidels but also against the non-Catholics, to whatsoever sect or nation they may belong. He concluded with an eulogy of his predecessor, Pope Benedict XV.

FALLS 33 FEET, COLORED WOMAN SLIGHTLY HURT

Toronto, Dec. 11.—Mrs. Elizabeth Prescott, a colored woman, fell backwards last night from a third story window, thirty-three feet above the concrete sidewalk, crashing down head first upon it. She was admitted to the hospital, suffering from nothing more serious than a cut nose and minor lacerations of the legs.

CONFERENCE ON TUESDAY

Continue the Discussion of Maritime University Federation

Meeting to be Held in Halifax—Resolutions Which Have Already been Adopted in Connection With the Project.

Halifax, N. S., Dec. 11.—(By Canadian Press).—The third conference of the universities, colleges and governments of the Maritime Provinces and Newfoundland will open here tomorrow to pass a scheme of university federation which, in the personal judgment of representatives of all the institutions involved, and formally chosen as such, is a workable plan. Out of the conference, and with this plan as a basis, it is hoped will grow a final scheme for submission to the constitutions of the universities involved.

The publication of a report by the Carnegie Foundation commissioners, Dr. William S. Learned and Dr. Kenneth C. Mills, following their investigation of the situation as regards higher education in the Maritime Provinces excited widespread interest among educationists. In effect the report proposed that the various universities at present operating under tremendous financial handicaps in the Maritime Provinces, should move to Halifax, set up a central university qualified to receive government aid, preserve their own names and identities by functioning as constituent colleges, and with their endowments unimpaired, be further relieved of the burden of teaching the more expensive courses. As regards Dalhousie University, Halifax which, with its present \$3,000,000 plant and endowment, would form the nucleus of any scheme of federation, it was suggested that it should hand over its professional schools of medicine, law and dentistry, already established, to the central university, or should give up everything it possessed, save only its name, which should designate the new central university.

The plan, it was pointed out, was merely an adaptation of the scheme of union obtaining at Oxford and Cambridge which, instead of attracting new students to the various colleges, has gradually reduced the number of students on a denominational basis. The institutions involved in the plan, with their respective endowments, follow:

Acadia University, Wolfville, N. S. King's University, Windsor, B. C. Mount Allison University, Sackville, N. B. A Presbyterian college. A Roman Catholic college. A Roman Catholic college, non-denominational. Dalhousie University, non-denominational.

Following the publication of the Carnegie report, a conference representative of King's, Mount Allison, Dalhousie and the Roman Catholic Archdiocese of Halifax was held here on July 7, at the call of King's College. The conference elected the Chief Justice of Nova Scotia as chairman and Mr. G. Fred Pearson, secretary.

Dr. W. S. Carter, Chief Superintendent of Education, left this morning for St. Stephen to address a meeting of the parents' and teachers' association.

Harvey Mitchell, Deputy Minister of Agriculture, and C. F. Bailey, superintendent of the Dominion Experimental Station at Fredericton, will leave tonight for Amherst to attend the winter fair. Hon. D. W. Messersee, Minister of Agriculture will leave on Tuesday.

The story is told that a well-known member of parliament, who is very near-sighted was out walking in the outskirts of the city and happened to forget his glasses. The regulation breeze was blowing at sixty miles an hour, and it proceeded to take the member's hat with it. He chased it madly down the road and every time he caught up with the hat it seemed to whisk out of his way. A citizen who was leaning over the fence yelled: "Hey! What you doin'?" The member yelled back: "Can't you see I'm chasing my hat?"

"Go on," the citizen replied. "Your hat is over there under that hedge. That's my little black hen you're chasing."

USE OF BEER AND WINES IN ITALY SHOWS INCREASE

London, Nov. 20.—(By Mail)—The consumption of beers and wines in Italy shows a marked increase since the war, says an official return quoted in The Westminster Gazette. Venice heads the list of cities and towns, its total consumption for the last twelve months being equal to about 5,000,000 English imperial gallons.

The people in northern Italy drank one-third as much again as those in central Italy and those in southern Italy a third less than the people of central Italy.

For the islands the return shows a great drop compared with last year. Sardinia was particularly abstemious, practically all of its wine being sold to Continental buyers.

London, Nov. 22.—(By Mail)—Today, nearly a year after the passing of the bill giving women holders of the diploma of Doctor of Law the right to exercise the profession of advocate, a Belgian woman appeared for the first time in court as an advocate, says the Brussels correspondent of "The London Times."

A barrister, accused of having attempted to kill a woman, chose as his defender before the Assize Court of Brussels Mlle. Paula Lamy, a young woman advocate to twenty-seven. The entire bar attended to see her debut.

IRELAND GOES FREE

(New York Tribune)

It is a striking fact that two poets, William Butler Yeats and George Russell, are to sit in the first Senate of the Irish Free State. Here is a good symbol of that mystic beauty which has led Irish patriots onward to their present success, the actual launching of Ireland as a self-governing dominion.

The prayers and good wishes of Americans will follow the new ship of state. It has been through stormy waters in its years of trial. Rebellion still stalks its decks. Open water and fair winds still lie below the horizon. But it is the strength of a people bred in mysticism and the speech of poetry that the courage thrives on disaster. Only Irishmen could persist in a blind, misadventure as do the followers of de Valera; only Irishmen could fight and fight still below the horizon.

After all, a little more poetry might not hurt some governments we could think of. George Russell, better known to his readers as "AE" is a student of land tenure, the greatest expert upon Ireland's vexed agricultural problems, as well as the creator of mystical verse among the best that modern Ireland has produced. Ireland can be expected to mix poetry with her laws as long as she is Ireland. But who knows that she may not some day reach a state all the better therefor and, confounding all her prosaic critics, live as end the fairy stories, happily ever after?

Multiple Value In A Cedar Chest

Fragrance and freedom from moths and other apparel destroyers, and a dinky place to keep things—that is what you give in a cedar chest. And you give to yourself a bit when you decide on our prices—they save you.

If you can find the match of the forty-inch chest shown here at \$23.25 at this price—take it! And so with the other sizes, ranging in price from

\$17 to \$60

By two-year government test the cedar chest has proven deadly to insects and pleasant in odor. Cedar is known as the wood eternal; the cedars of Lebanon are famous in history, and here you have their counterpart in Tennessee Cedar. You won't find their equal quotations.

It may be said that the City Power Commission by its works it is the kind of commission St. John has been looking for, and one that will do the city credit.

United States, as a result of a vigorous and sustained fight the death rate from tuberculosis is declining, but it is still far too high. In the thirty-four states where registration is carried out the rate last year was 99.4 per 100,000, compared with 114.2 in 1920.

TUBERCULOSIS.
It is gratifying to know that the death rate from tuberculosis in New Brunswick is lower than in any other province east of Ontario, and that everywhere the rate is being reduced.

man who came to the island originally as a soldier on the Casco, the yacht in which Stevenson made his cruise of the South Sea Island. Having contracts to write up his travels, Stevenson chartered the yacht and sailed from San Francisco in June, 1888. Fakarava was one of the first islands which he visited.
The Stevensonians plan in the next few days to pay off the debt of hospitality against Stevenson for the freedom of the island of Fakarava by showing the relative of Donat argue his two companions as much as possible of Manhattan.

RESTORE DYING FAITH OF LABOR, CAPITAL IS TOLD

Convince Workers They are Being Treated Honestly, Unrest will End, Westinghouse President Says.

(New York Tribune.)
Capital must prove its "reason for being" to restore labor's dying faith in the present industrial order, E. M. Herr, president of the Westinghouse Electric and Manufacturing Company, declared last night at the joint forum of the American Society of Mechanical Engineers and the American Economic Association at the Engineering Societies' Building.

This faith, Mr. Herr said, can be restored only when capital or management convinces the workers that they are being treated honestly and without "chicanery" and by the substitution of the "rule of reason and intelligence for force, and so endeavor to restore in America the freedom of the individual, to be employer or employee."

Mr. Herr asserted "there is more liberty and consideration for the workers than ever before," but that nevertheless an underlying labor unrest and distrust, born of "fear and misunderstanding—fear of coercion, unemployment, sickness—and a lack of mutual confidence as between employer and employee," exists and that it "is the duty and responsibility of the management to prove its reason for being, and that the collective result of the combined efforts of management and workers is a fine and great thing."

"If they can feel that this is the case," added Mr. Herr, "most men will cheerfully accept it."

Discussing the wage question, Mr. Herr said that while manufacturers wish to see their employees receive a wage "with reasonable working hours, will toll cheerfully which will support them in comfort," this is only possible "when economic conditions will permit, as wages are not and cannot be based on the cost of living," adding that the "employee must live in accordance with his income and responsibilities and exercise frugality and care in his expenditures."

Mr. Herr urged the spread of the shop representation plan. He said this method "along simple, plain lines that can be lived up to" has succeeded. He pointed to the fact that more than 800,000 employees are now working under this plan.

The collection for the poor, taken last Sunday in the Cathedral for the work of the St. Vincent de Paul society amounted to \$1,229.86, which was larger than usual.

Dr. and Mrs. T. A. Pincock, who were married this summer in St. John and set out for a mission field in China, were delayed in Shanghai by an attack of appendicitis suffered by Dr. Pincock. He is now recovering.

Peter McKenna, veteran locomotive driver between here and Moncton, has retired under the pension provisions following a service of more than twenty years.

James L. Sugrue gave an exposition of the Workmen's Compensation Act before the St. Peter's Y. M. A. yesterday afternoon. A vote of thanks was given the speaker.

Yesterday was communion Sunday for the members of the Holy Name Society and at the 7 o'clock mass at the Cathedral there was a large attendance of the members of the society, together with members of the Y. M. C. I.

The East End Boys' Club had a happy time at the Y. M. C. A. on Saturday evening when they paid their monthly visit to the institution. A special programme of motion pictures

was arranged and the boys were given a swim in the tank. They were in charge of Walter Evans. Charles Wasson addressed the Sunday school meeting for the boys at the Y. M. C. A.

The lecture which was to have been given by John A. Barry in St. John the Baptist's church last night, was postponed on account of the serious illness of Mr. Barry's father, James Barry.

Two adjoining stores in St. James street, McDermott's meat market and Titus' home cooking shop, were broken into early on Sunday morning. Entry was made in both cases by rear doors. A bag containing slabs of bacon, two hams, bologna, beef, lard and mules, pigs and bread was found yesterday in a yard near the shops. The only things the thieves got away with were a box of chocolates and forty cents in cash.

The blessing of the colors of the Y. M. C. I. Boy Scouts took place at 8 o'clock yesterday morning at the Y. M. C. I. hall. Troops No. 19 and No. 18 assembled in the hall and Rev. Simon Oram blessed the flags, which consisted of two scout flags and two Union Jacks. Both troops then paraded to the Cathedral for the 8.15 mass and Holy Communion. The scouts were in charge of W. E. Stirling and F. X. Jennings and Assistant Scoutmasters, Thomas Kilian and Frank Killey.

John James Macaulay was arrested at his home in Carmarthen street late on Saturday afternoon and lodged in

a cell at police headquarters where he is held on suspicion of being connected with the recent break into Oak Hall. Other arrests are expected in this case. Early yesterday morning two more overcoats were recovered by the police. All the goods have now been located with the exception of two overcoats and some hosiery.

The service at the Seamen's Institute was conducted last evening by Rev. B. E. Styles and he gave an inspiring address to a fair sized audience, which included thirty seamen from vessels in port. The institute presented a fairly well filled, as there are twenty-one sleeping there. However, W. Brindle, manager of the institute, said last night that he expected the majority of these men would be signed on the steamer Canadian Victor on Tuesday.

In the course of his address at the 8.15 o'clock mass yesterday morning His Lordship Bishop LeBlanc recalled the fact that the occasion was the tenth anniversary of his consecration as bishop. Last evening His Lordship officiated at the closing of the forty hours' devotion in St. Peter's church. He was assisted by Rev. Father Coffin, C. S. S. R. Special music was sung by the choir.

A movement looking towards the formation of a community club has been made by the residents of Prince ward. A public meeting has been called for Thursday evening in Stephen's Hall, 212 Prince Edward street, and William McAndrews has been named the secretary of the committee which has the matter in hand. The objects of the club will be the promotion of citizens' interest in civic affairs and the fostering of a community spirit.

Meredith-Finley, seven years old son of Mr. and Mrs. H. C. Finley, 42 Wentworth street, crawled into an automobile while coasting on the Wentworth street hill on Saturday afternoon and sustained minor injuries necessitating several or eight stitches in his lip. His sled struck near the rear wheel of an automobile at the corner of Union street. He was taken into the car and driven to the office of Dr. J. S. Bentley and then to the hospital. He was able to go to his home about nine o'clock on Saturday night. The boy's father said last night that no blame could be attached to the driver of the automobile.

OFFERS TO GIVE AWAY FACTORY TO AVOID REPAIRS
Coloene, Nov. 20.—(By Mail)—"Factory to be given away to the date my Coloene factory to any one who will assume my rights and obligations in connection with it. This advertisement appeared recently in a local newspaper. Explaining the circumstances which led to the offer, for factory owner said: "In 1919 I rented out the property on a ten-year lease for 16,000 marks a year. Repairs, improvements and maintenance of the building were to be borne by the renter. He now has sued me for the expense of putting on a new roof, 1,500 square meters, according to expert estimate, and costing several million marks, and the provincial court in Cologne has decided I am responsible for this expenditure."

Give a Garment for Christmas

It's the feeling of the times to "Give a Garment for Christmas"

Not that it's any different from any other Christmas but there seems to be the wish for something that one can get the most use out of. Then again there's such a tremendous difference in price of wearing apparel over last year that this alone forms a pleasant surprise. You may know also that many people have been just a little timid about buying garments for themselves this season.

Your mother, sister, cousin or even wife may be one of these and would heartily welcome a pretty dress, coat, suit or blouse.

REIGN OF KIDNAPPING IS REPORTED IN CHINA

Americans Said To Be Among Victims of Gang in Honan.

London, Nov. 17.—(By mail).—The present political and administrative anarchy in China would seem to be attended by a frenzied hatred of most foreign elements, which has lately found expression in outrages against property, and even in numerous instances of kidnaping, reports a diplomatic correspondent to the London Daily Telegraph. Thus, in the province of Honan, gangs of so-called "brigands" have captured and are holding up to ransom certain American and European nationals.

WORK OF N. Y. CHILDREN'S AID

(New York Tribune)

The Children's Aid Society of New York, in its seventeenth annual report, presents with pardonable pride a report made by the department of city welfare of the society's health campaign inaugurated three years ago. The survey was made to determine the value of efforts to combat the malnutrition which prevails among the children in the congested quarters of the city.

of the Children's Aid Society that emphasize the good sense of its operations. Two hundred and sixty-five children last year were brought to the society from institutions and by social workers. Homes were found for them where they could obtain the best of care and opportunities. And they are not bestowed here and there and forgotten, but they are considered wards of the society until it is certain that their foster parents are all that could be desired.

appreciably lower than last year, although merchants are unable to predict what conditions will be within the next two or three weeks. The embargo on Christmas trees from New England is expected to limit the supply this season. Gypsy and brown-tail moths have been busy in the Northeastern woods, with such devastating results that the area has been quarantined, and the supply must come from Vermont, Maine, Canada and Nova Scotia. Trees from the Catskill and Adirondack mountains are not the kind wanted by the New York market. Comically shaped trees, well balanced, with thick branches and heavy green needles, are required.

Our Portrait is of Mr. E. F. WHEELER, of 22, Regent Street, Balby, Doncaster, England, who writes—

"About two years ago I had a nasty wound break out in my big toe. I had it attended to for about three months, but during that time it had spread to all the toes, with the result that I had to undergo an operation, but with no avail. Then, after another operation, as it did not get any better, I thought I would give your 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since."

Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Scabies, Swellings, Rheumatism, Gout, should realize that lotions and ointments can but give temporary relief—to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

TRAINING OF JUVENILE INDUSTRIAL WORKERS

The Need for Active Co-operation of Employers and Employes With the Vocational Schools.

The primary reason for the existence of vocational schools and classes is the need for a special type of education and training for the boys and girls who enter industrial occupations from the elementary and secondary schools. Statistics show that over 80 per cent of Canadian children leave school before completing a high school training and that approximately one-half of these are employed between the ages of 12 and 18 years. The province of Ontario has recently extended the compulsory full-time school attendance to 16 years and part-time attendance is compulsory until the age of 18 years, with certain exceptions. Every province is endeavouring to regulate boys and girls in the schools during early adolescence and to provide special part-time and evening classes for those who are forced to work. Opinions differ concerning the nature of the work to be given in these special classes and in the full-time day schools, but it is generally agreed that for those children who enter industrial occupations the work of the schools should supplement the training received during employment and should provide technical or industrial as well as cultural instruction. It is evident that if this be true, it is necessary for the schools to work in close co-operation with industry as represented by employers and employes.

It is a well-known fact that every employe must receive some form of training for the work which he is required to do. In the so-called unskilled or semi-skilled occupations, the training may last for a few hours only or it may be extended over a period of several months, occupying a short period each day or week. In many cases this training consists of standing by and watching other workers or asking questions and receiving demonstrations from neighbouring workers, but, nevertheless, much of the employe's time during certain periods is occupied in learning the job. In many of the larger industrial plants, special provisions are made for the training of all employes, and in some cases the industry undertakes to provide cultural and vocational training for the workers and their families. Training facilities provided by industrial plants include: special instruction to beginners; foremen and skilled workers, vocational schools and special training departments for beginners and those seeking advancement; apprenticeship courses, evening classes, correspondence schools, business correspondence instruction, etc. Collectively these facilities offer as large a variety of courses as is to be found in the schools under public control. Some industrial corporations assist their employes to obtain training and education from one or more of the following types of schools: special trade schools, privately endowed schools, correspondence schools, business colleges, publicly controlled evening schools, and part-time classes.

In very few cases, however, are special efforts made to supervise the training of young industrial workers and to provide a system of training which ties up the school work with the industrial work.

10. The functions of the public schools should be clearly defined.

11. The practical training provided by industries should be carefully graded and supervised.

12. There should be a co-ordinating agency between the school and industry for the purpose of vocational guidance, employment, follow-up, transfer, and general supervision of welfare.

ETIQUETTE AND MANNERS

(Toronto Globe.)

But etiquette and manners are not the same thing, any more than are conduct and deportment. A book may teach etiquette, which is purely external, a thing of rules. Manners are something finer, a thing of the spirit. They are different even from manner. Many a person has an imposing manner without real manners. The first is usually an affectation, which deceives nobody; the second is an emanation of mind and character, which comes from within and cannot be imposed from without. Education cannot impart it nor wealth buy it. Many of the poorest and humblest who know nothing of etiquette have natural manners that Norman blood might envy. And many who are perfect in the rules of etiquette are bores and will never be anything better.

WILL DEPOSIT \$25,000 TILL IT IS TWO MILLION

Cloyd M. Rice of Elizabeth, N. J., who died on November 26, left a will directing that the income of his \$25,000 estate be paid to his wife during her life time, and that at her death the principal be placed on deposit in a New York bank until it reaches \$2,000,000, at which time the total is to be used for the building of a home for the children of native born Masons.

Standard interest tables reveal the fact that if the money is placed at 6 per cent, compound annually, the \$25,000 will reach the \$2,000,000 mark shortly after the beginning of the seventy-fifth year. At the end of the seventy-four and three-tenths years, the sum will have grown to \$1,998,923.60, and at seventy-five and three-tenths years the total will be \$2,019,963.14. The will was accepted for probate last week.

HOME OF THE SEQUOIA

In Mariposa Grove There are 490 of These Big Trees.

In the famous Mariposa big tree grove in the Yosemite National Park there are 490 large Sequoia trees. This is the greatest number in any individual national park locality and there has made the Mariposa grove the best known of the twenty-seven groves in Yosemite. In the valley there are only a few Sequoias and most of them have been planted within the last 25 years. The giant Sequoia grows in scattered communities along the western slope of the Sierra Nevada at altitudes of 5,000 to 8,000 feet. The late John Muir advanced the theory that these groves originally occupied the fertile western flanks of the mountain range which were never covered by the great glaciers when they filled all the main canyons.

The patriarch of the Mariposa Sequoia is the grizzly giant, and the ancient tree is surrounded by a dignified family group. Further up the slopes are the additional 884 trees in the grove and, still standing in a sheltered spot is the picturesque cabin built by the celebrated pioneer, Galen Clark about sixty years ago.

The oldest record of which there is any definite record was 3,148 years old. It is believed that some of the oldest trees now standing were saplings from 1,500 to 2,000 years before Christ.

Twenty thousand years ago, when the last glacier retreated from Yosemite Valley, it deposited a terminal moraine, a crescent shaped dam of rock and gravel and scimitar, which the El Capitan moraine may be seen today just north of its retreat that are found at the lower end of Yosemite Valley. Little Yosemite and Hetch-Hetchy valleys also owe their level character to the sedimentation of glacial lakes, as do many of the high mountain meadows in the Sierra.

One of the most attractive birds in Yosemite is the western evening grosbeak, which returns to the valley late in August and early in September, often spending the summer in higher altitudes. They are very partial to the ripening coffee berries. Black wings with white patches and black tail, are set off in the male by the peculiar yellowish green of body, above and below, and the yellow of forehead and rump. The bill is also greenish yellow. The loud ringing call, which may be heard in the morning, is often an accompaniment of the presence of this beautiful bird.

ISLE OF PINES TREATY REVIVED AFTER 18 YEARS

Washington, Dec. 11—After an eighteen years' sleep in a Senate committee room pigeon-hole, the Isle of Pines treaty with Cuba, submitted to the Senate by President Roosevelt, emerged from its retirement last week and was reported favorably by the Senate Foreign Relations Committee. Action was requested by Secretary Hughes. The treaty relinquishes any claim of the United States to the island, which is about fifty miles off the Cuban mainland.

MOTHER-IN-LAW OF N. S. PREMIER DIES IN NORTH SYDNEY

(Canadian Press Despatch.)
Sydney, Dec. 10—Mrs. John B. Moore, mother-in-law of Premier Geo. H. Murray, died yesterday at North Sydney, after a long illness. Besides her daughters, Mrs. Murray and Mrs. T. J. Armstrong, she is survived by two sons, C. B. Moore, a leading business man of Sydney, and Capt. L. A. Moore, master mariner of North Sydney. Mrs. Moore was born at North Sydney in 1833.

OPENING THE BLACK SEA.

(New York Tribune.)
The Straits question at Lausanne is confused because of the peculiar past status of the Black Sea. That sea was shut off by practice and treaty from other European waters. After the Crimean War the Western powers forbade Russia to maintain warships in the Euxine. This restriction was afterwards violated by Russia. But Russian warships have not been allowed to pass out through the Straits; and the waterway was also closed against warships of other powers seeking ingress. In 1914 Turkey sought to regulate the admission of the Goeben and the Breslau by pretending to shut them from Germany. No Allied war vessels were permitted to pass the Dardanelles forts in the trail of the German fugitives. Is the Black Sea still a closed sea? If it is, ought it to remain so? The question is more complicated than it seems. Many states now have a Black Sea frontage or outlet, Rumania, Bulgaria and the Caucasus republics are concerned, as well as Turkey and Russia. Among all these Russia is the only naval power. It is perfectly plain why Russia contends for the old theory of non-intrusion and why she is willing to forget the fact that Turkey was the jailer who kept the Western Allied fleets from coming there. Her resume in 1915, 1916 and 1917, she believes that the new Turkey will be a benevolent Turkey, willing to let Russian warships out at a pinch, and determined not to let other warships in.

The only sea route to Bulgaria, Rumania and the new Caucasus states lies through the Dardanelles. Why should this route be controlled by a single power? The Western Allied view and the American view are that one-power control is out of the question. The Turks did not build the passageway. Nature made it. Should it not be relatively as open to use by all nations as the Strait of Gibraltar or the Strait of Otranto?

The fact that Constantinople, the Turkish capital, lies on the shore of the narrow Bosphorus may have to be taken into account. The Western European nations are apparently willing to allow Turkey to keep protective limitations on the right of free passage for foreign war vessels. Italy would probably be pleased to shut Russian naval power permanently out of the Mediterranean. But a control which rested with Turkey alone would ignore the sacrifices of the war and restore to America its always stood for wide recognition of the freedom of the seas. She could not logically take a different stand at Lausanne, where free use of the Black Sea is one of the most vital subjects under discussion.

DECIDE TO FINISH SURVEY OF CITY

Additional \$8,000 is Recommended by Common Council Committee

Final Decision Tomorrow—Another \$1,000 Voted in the Trifts Investigation—Town Planning Scheme Ready for Approval—City Buys West Side Lot.

The Common Council in committee this morning recommended a vote of \$8,000 to complete a survey of the city being made under the direction of G. G. Murdoch, in addition to \$23,000 already voted for this work; authorized Commissioner Thornton to increase his expenditures from \$10,000 to \$24,000 in connection with the effort to clear up the murder of Frederick H. Trifts; decided to purchase for \$400 a lot of land in West St. John which No. 6 fire station stands; decided to take up town planning matters at tomorrow's council meeting, and dealt with two questions regarding relief. The Mayor presided and all the commissioners, G. G. Hare, city engineer; Duncan G. Lingey, city chamberlain; and G. G. Murdoch were present.

The first matter considered was a proposal to increase the appropriation for a survey of the city from \$23,000 by an additional \$8,000 to complete the work. The Mayor explained that the first estimate was \$27,000, but the direction finding station at Red Head. The Apple River fog alarm plant job has been completed and the alarm was started on Friday at midnight.

Mr. Murdoch explained that it was a difficult job to estimate on account of the great mass of detail. He said there was only about a week's field work to be done to complete the survey; it remained only to do the plotting of the data.

Commissioner Wigmore thought it would be wise economy to stop the work now. Commissioner Frink agreed in this regard.

Mr. Murdoch said the detail of the proposed extra expenditure included the salaries of two men at \$175 a month; one man at \$150 and one at \$125 a month.

Commissioner Thornton thought that the city should know that this would be the final cost of the work.

Commissioner Frink asked if, in the event of the amalgamation of St. John with East St. John or Beaulieu, it would be necessary to employ Mr. Murdoch again. Mr. Murdoch said that he had complete plans of both localities which would be available to the city free of cost.

Commissioner Frink moved that an additional sum not to exceed \$8,000 be voted to pay for the completion of the work, the amount to be paid from the 1922 assessment. This carried.

To the Mayor, Mr. Murdoch said he would submit details of the proposed additional expenditure before tomorrow's meeting. He said he felt that the plans would pay for themselves many times over.

Referring to an application by Dr. J. Roy Campbell, K. C. for the sale of a lot of land in West St. John on which No. 6 fire station was located, Commissioner Thornton stated that he had received a deed of the property but understood that the matter had not been finally disposed of. He said the lot was 40x100 and the city paid \$24 years. At the property belongs to the Elizabeth Bentley estate. Dr. Campbell had gone to the trouble of getting an order from the Supreme Court for the execution of the deed.

LOCAL NEWS

L. R. ROSS RETURNS

L. R. Ross, terminal agent of the C. N. R., returned home this morning after a three months trip to the Orient.

ASKS ABOUT US

A letter has been received by R. E. Armstrong, secretary of the Board of Trade from Pennsylvania requesting information about St. John.

HERE FOR WINTER

Three members of the C. G. M. M. winterport staff arrived in the city on Saturday from Montreal. They were R. Parker, timekeeper; F. Armstrong and J. Gauthier. With the arrival of R. Armstrong and R. Robb, who are due tonight, the staff will be up to its full winter complement.

WILL BE REPEATED

At a meeting of the teachers of the Fairview Superior school at noon today it was decided to accede to requests and to repeat a concert given recently by the pupils. It was found impossible to accommodate the crowd when it was first given.

PHYSICAL INSTRUCTOR

The Victoria Y. M. C. A. of Victoria street Baptist Church has been fortunate in securing the services of E. D. Howard, a former sergeant-instructor in the C. E. F., as physical director. After an hour spent in more or less strenuous work on Friday night, refreshments were served and committees were appointed to secure additional athletic equipment and to perfect plans for the winter activities.

MARINE DEPARTMENT NEWS

The Marine and Fisheries Department at Ottawa is calling for tenders for a foundation for an extension to the residence of the Atlantic Biological Station at Andrews. B. Mooney and Sons have been awarded the contract for the erection of a wooden dwelling in connection with the direction finding station at Red Head. The Apple River fog alarm plant job has been completed and the alarm was started on Friday at midnight.

NEWS FROM REV. MR. KUHRING DISTRESSING

A member of St. John (Stone) church received a letter very recently from Paul Kuhring, son of Rev. Canon G. A. Kuhring, formerly pastor of Stone church, telling of his father's condition. He says that the doctors have given up hope of his recovery and do not expect him to live for more than six weeks or three months at the longest.

CONCERT AND PIE SOCIAL

A very successful concert and pie social was held in the Pleasant Point Sunday school on Friday evening under the auspices of the Golden Rule class. Although a stormy evening a large crowd was present and quite a number of pies and baskets were sold. W. E. Hamm acted as auctioneer. The proceeds amounted to \$18.70, which will be used toward the class room fund.

Mr. Arbo acted as chairman, and the programme was as follows:—Speech—Mr. Arbo. Recitation, "Little Jole"—By Lena Roberts. "I'm Tying the Leaves So They Won't Come Down"—By Sylvia Solo. "The Ties that Bind"—By Mrs. E. O. Arbo. "Whispering Bill"—By Mrs. E. O. Arbo. "Trials of a Twin"—By Harvey Arbo. "Young Charlotte"—By W. E. Hamm. "Changing Color"—By Walter Poley. Moving picture film—Shown by the "G. H. C." "Just a Whyrin' for You"—Harry Straight.

Conferred by James Northrop and Leonard Stevens, assisted by Mrs. Hamm and Mrs. Ryder.

APPOINTMENTS BY BANK OF MONTREAL

The Bank of Montreal announces the appointment of J. H. Gillard, as superintendent of the Montreal branches; J. W. Spears, as superintendent of subsidiary branches, Montreal, and James Anderson, as assistant superintendent of Ontario branches, with headquarters in Toronto.

Mr. Gillard has had some twelve years' experience in the work of inspection, and for some time previous to his present appointment had been inspector of Ontario branches, with headquarters in Montreal.

Mr. Spears has had varied experience elsewhere. For some time prior to March of this year he was assistant superintendent of Ontario branches. Since that time he has been attached to the head office in Montreal.

Mr. Anderson was formerly superintendent of Ontario branches of British North America, and since the absorption of that bank has been at the head office of the Bank of Montreal.

Other appointments announced by the bank include those of A. S. Minton and G. S. Hensley, as inspectors in charge of the foreign department at the head office.

Mitchell's personal responsibility for the amount involved.

Town Planning Matter.

The Mayor read a letter from W. F. Burditt, chairman of the Town Planning Commission, saying that the scheme was now ready for the approval of the Lieutenant-Governor-in-Council and enclosing a suggested resolution for the Commission to pass. He summarized the activities of the commission since its inception in 1914 and pointed out that with the adoption of the scheme the city could control the manner in which land was laid out for building purposes in selected areas.

The proposed resolution was that the Commission be authorized to publish a notice of the city's intention to make application to the Lieutenant-Governor-in-Council for approval of the town planning scheme as it affects the area in question.

METAGAMA RUNS INTO STORM; WIND 100 MILES AN HOUR

Wireless Aerials Blown Down—Boats Damaged

Steamship Went to Assistance of Vessel Sending Out S. O. S. Calls and Heard of Another One Limping Along—Local Passengers.

The Canadian Pacific steamship Metagama docked at Sand Point this morning after an eventful voyage from Glasgow. Enroute she encountered a severe storm during which the wind reached a velocity of 100 miles an hour. When the storm was at its height the wireless aerials were blown down and the life boats damaged, but as soon as the wind abated the apparatus was put in order again.

Last Thursday during a strong blow the Metagama picked up an S. O. S. call from a French tramp steamer the Chatter Auguste C. Blond, which sent out its position as lat. 48.20, long. 44.40. This was only about twenty miles from the position of the Metagama and Captain Evans immediately put about and started to her assistance. They reached the position given about noon, but the survey ship the steamer. Another message was received saying that "the S. S. Golden Gate brings us assistance." Still another came giving a corrected position which was 216 miles away, and saying that the S. S. Nella Nielson was standing by and taking of the crew as the steamer was being abandoned.

That same night a message was picked up from the S. S. Craguet asking for her position. She was enroute to St. John's Nfld., and her steering gear was slightly out of order.

The Metagama crossed off the Island last evening and docked at an early hour this morning. She had 886 passengers on board, 670 men and 216 women, in addition she had 760 bags of mail of which thirty-one were for Maritime Province points. The passengers were welcomed with reference to the ship's condition. With reference to the ship's condition, Mr. Cooper said that the ship was in excellent condition and that the passengers were in good luck.

Mr. Cooper, a newspaper man of Toronto, was among the passengers. He had been on a visit to England and Scotland and while there got in close touch with conditions. With reference to the ship's condition, Mr. Cooper said that the ship was in excellent condition and that the passengers were in good luck.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

SOME STOCKS MAKE RECORDS

Specials Bid Up in Wall St. This Morning - Nothing Sensational in Montreal.

New York, Dec. 11.—(10:30)—Bidding up of special stocks coinciding with short selling in some of the standard issues, particularly the rails, featured the irregular opening of today's stock market. National Lead was pushed up five points to 129 1/2, a new high record of the year, and weak prices also were established by Westinghouse Air Brake and Piggly Wiggly.

Public utilities, motors and copper were moderately active. Pacific Gas, Brooklyn Edison, Mack Truck, Pierce Arrow Pfd, Utah and Butte and Superior being the most active. Conflicting movements took place in the oil group, California Petroleum breaking points and Houston and Royal Dutch one each, while Pan-American, Texas Company and Marland improved fractionally. St. Paul issues were the principle targets for selling pressure in the rail division, other conspicuous weak spots in which were Chesapeake and Ohio and Union Pacific. Wool worth and National Biscuit Pfd were conspicuously strong. Foreign exchanges opened steady.

Montreal Exchange. Montreal, Dec. 11.—(10:30)—Nothing sensational transpired on the local stock market this morning. Bull and bear traders appeared to be marking time, each waiting to ascertain what the other was doing. The general tone, while firm, could not be termed buoyant. Abitibi was unchanged at 85 1/2; Bronington unchanged at 94 1/2; Laurent common likewise the same at 90 1/2, and the preferred, up a quarter at 94 1/2. Abitibi was strong, selling three quarters stronger at 64 1/2, while Bell Telephone registered a similar advance to 118 1/2. The rights of the latter were the same at 20. Consolidated Smelters advanced into new high ground by touching 27 1/2, after closing at 27 1/2. MacKay was up a half to 114, as was also Steel of Canada at 37 1/2. Montreal Power was unchanged at 10 1/2.

The Dollar. New York, Dec. 11.—Sterling exchange steady. Great Britain, 4.83-8. France, 7.15. Italy, 5.04. Germany, 20.20. Canadian dollar, 5-16 to 2-8 of one cent discount.

CANADIAN CAR AND FOUNDRY REPORT (McDougall & Cowan's Private Wire) Montreal, Dec. 11.—The annual report of the Canadian Car and Foundry Co. shows operations resulted in net loss of \$698,682 for year ended Sept. 30, although financially strong and working capital well maintained. President views future with more assurance than last year.

FINANCIAL NOTES. Montreal, Dec. 11.—Cables 4.83 1/2. London, Dec. 11.—Bar silver 31 1/2-164 an ounce. New York, Dec. 11.—Foreign bar silver 64.5-8.

WHEAT TODAY. Chicago, Dec. 11.—Although wheat touched a new high record for the season today in the early dealings, the market soon underwent a setback.

ALMOST IMPASSANT PERIOD OF YEAR

(A. E. Ames & Co., Montreal) The period between November 30th and January 1st ranks as one of the most important, from the standpoint of numerous dividends and interest payments, throughout the whole year. It is estimated that the interest on Canadian and Industrial Bonds payable on December 1st reaches a total close to twenty million dollars. The dividends on the various issues maturing during the period are also considerable.

STORE POSTS RULES FOR WINDOW TRIMS

McCreery Store Evolves a "Creed" for Its Display Men. On the walls of the display department of James McCreery & Co., New York, is posted a list of fundamentals containing some poignant reminders and suggestions for the employees who have charge of trimming the store windows. Some of them are: "Show windows are the best advertising space in the building. "Show windows should be a feature, handsome rather than pretty. "Space is valuable. Therefore, to use space most economically and effectively, use your own merchandise as the basis for each window that it shall be a simple arrangement of easily graded effects. "Do not put a window together next to a bridal costume. "Each group of windows should be so arranged that one of two effects is produced. "They should harmonize. "They should act as foils for each other, each doing its own part and emphasize the other. In other words, harmonize or agreeable contrast."

Iron, Steel, Metal and Machinery. In its summary of the iron, steel, metal and machinery markets Canadian Machinery and Manufacturing News, Toronto, has the following comment in its Dec. 7 issue: "That present price movements in pig iron parallel in the last hundred years, is the observation of a Pittsburgh statistician. Commenting on the fact that the production was higher in November than in October, and that the 40,000-ton rate is higher by more than 20 per cent, than that of the six months prior to Oct. 1, he points out that, as the world progresses, there have been numerous advances. IMPERIAL THEATRE TODAY PRESENTS

Cynthia Stockley's British Story Based Upon a Chain of Society Happenings in the Great Career of Cecil Rhodes the Diamond King

"PINK GODS AND BLUE DEMONS"

Featuring the Eminent Screen Stars
Bebe Daniels, James Kirkwood, Anna Q. Nilsson and Raymond Hatton

THIS IS AN ANGLO-SOUTH AFRICAN DRAMA of exclusive type, breathing the air of high political and wealthy circles. Cynthia Stockley has evidently presumed to build her powerful story upon the Cecil Rhodes romance of fabulous riches in diamond mining, introducing charming women, dignified British military officers, unscrupulous diamond thieves—black and white—and Penryn Stanlaw, English director, gives the action a setting of the elaborate and faithful quality.

Whom the Players Portray:

Lorraine Temple—Wife of British military officer, born with an insatiable passion for diamonds—to her great peril—
—BEBE DANIELS
John Quench—Diamond King of South Africa, almost cruel as a master but a thorough gentleman. Undertakes to cure Mrs. Temple—
—JAMES KIRKWOOD,
Lady Margot Cork—Sweet-mannered widow who infatuates John Quench but repels him for his supposed cruelty—then
—ANNA Q. NILSSON
Jim Wingate—Mine superintendent who himself is caught stealing diamonds and undergoes the surgical recovery of gems
—RAYMOND HATTON

Louis Barney—Unscrupulous diamond broker with designs on Mrs. Temple an middle-man for diamond-mine thieves. High-handed ADOLPHE MENJOU
Col. Pat Temple—English officer of generous young wife who returns unexpectedly to find most compromising circumstances
—GEORGE COWL
Little Dick Cork—Four-year-old son of Lady Cork for whom the austere empire-building Diamond King has a genuine love
—WEB ARTHUR TRIMBLE
Mark Escher—Mine superintendent who himself is caught stealing diamonds and undergoes the surgical recovery of gems
—GUY OLIVER

Will Meet Carpenter.
Paris, Dec. 9.—Battling Siki has accepted the challenge for a return match with Georges Carpentier, conditional upon his relinq. tenent by the French boxing federation. He says he is willing to fight for "glory only" this waiving all the money demands for which he has hitherto held out. In sporting circles, however, it is generally conceded that the fight cannot possibly take place until the boxing federation has completed its investigation of Siki's charges that he had agreed to a "frame-up" in order to get Carpentier into the ring the first time.
