To Prepare to Meet Very Keen American Competition.

Not Only in the United Kingdom Foreign Market.

CHICAGO, May 20.—Captain Wyndham, British consul at Chicago, in his annual report, just issued, says:
"Many American houses are planning to extend their export trade. With their increased manufacturing capacity we may look for them to turnish keen competition in the United Kingdom and its colonies as well as in foreign countries."

The report also refers to the enormous amount spent by merchants for newspaper advertising and praises the results obtained, asserting that some concerns have doubled their business in this way.

Dan Littlejohn and Johnny Taylor will leave Thursday night for Halifax to complete their training for their bouts with Alf. Snelling, of Quebec, and Johnny McIntyre, respectively, in the Armories on the 25th.

YOUNG CORBETT. TOUNG CORBETT.

ST. LOUIS, Mo., May 19.—Young Corbett easily disposed of Jack Keefe of East St. Louis here tonight, knocking him out in the third. Keefe started out well and kept Corbett encouraged Keefe in the second round, going to the floor once. In the third Keefe sailed in with great determination. A right to the stomech and a left wing on the jaw by Corbett ended hostilities, Keefe being completely knocked out.

McGovern has done little work since
he returned from San Francisco, but he
is always in the best of condition, and
the couple of weeks' time which remain
will fit him for the fray.

The weight is to be 124 pounds, give

weigh in at 3 o'clock on the day of the
contest.

The weight will just suit McGovern, and in fact both boys should be strong and be prepared to fight to their best advantage.

advantage.

Attell has for a long time been trying to get on a match with McGovern, for the little Westerner believes that he can defeat any of the featherweights and he looks upon McGovern as his particular star.

Attell has been hard at work in Buffalo for the past week. He is training falo for the past week.

victory he is nevertheless very cautious.

On the other hand, McGovern looks for an easy victory. Attell is not the strong, rugged fellow that Corbett is, and the former champion figures that he can chop him down long before the limit of the bout has been reached.

McGovern is practicing his old-time rushes. He is not at all worried over the cleverness of his oponent. McGovern has always depended upon the punch to get the decision. He has little regard for one who depends upon his science. This was shown in his battle with Frank Erne at Madison Square Garden when he plunged through the Buffalo boy's guard, landing rights and lefts that carried him to victory via a short routs.

CANADA AND GERMANY.

The Question Raised in the British House of Commons.

LONDON, May 30.—Replying to a question in the house of commons to-day, the under foreign secretary, Lord Cranborne, admitted that communications were passing between the foreign office and Germany regarding the latter's imposing of differential duties against Canada. The under secretary declined to furnish information as to whether the foreign office had indicated the possibility of Great Britain retaliating by imposing special duties on German imports into the United Kingdom, saying he could not make any further statements at present.

and 21, upon the unorending Jewish population of that city by a mob which was officially incited and officially protected.

"The London Times states that the number of Jews killed was between 60 and 70, nd the number of those injured, men, women and children, is estimated at about 500. Most of the Jewish stores, workshops and houses were ransacked and piliaged, and the greater part of a community of thirty thousand has been rendered homeless and penniless. These crimes have been committed in Christian Russia by a Christian rabble, supported and participated in by Russian officials.

This barbaric holocaust, which has taken place in a populous city of one hundred and forty thousand inhabitismts, appeals for redress, not to the Jews throughout the world, but to the civilized world; not to those professing the religion of the slaughterers, It is a crime against civilization and Christianity as well. Whenever Russian horrors reach American ears, we constantly hear about the long standing friendship between Russia and the United States. If we look beneath the surface, which is not necessary, when Russia is concerned, we will find that, underlying courtestes to our naval officers and psoftwae diplomatic professions of friendship wiff be found a purpose to accentuate hostility towards England.

"The Russia today has nothing in common with the United States and she would, if she could, caviar our declaration of findependence out of existence and wipe liberty from the face of the globe. The graphic forecast of her policy by England's greatest diplomatic, Stratford Canning, is verified in one day.

heat a track record was another equalled at Morris Park yesterday.

The most important race was the Claremont Handicap, at six and a haif furlongs, in which John Boden's three-year-old daughter of Hastings and Lady Rosemary ran the best race of her career by carrying 104 pounds and defeating Lux Casta, four years, 123 pounds; Lady Uncas, six years, 95 in pounds, and nine others. Rosetint ran the distance in 1.19 1-2, thus taking a quarter of a second off the track record, made by Lady Uncas in 1961.

Hardly any other jockey than Burns could have ridden as light as 104 pounds and won with Rosetint, who, as usual, showed temper at the barrier and once unshipped her jockey. The start was not a good one, McCue, on Highbinder, being left at the post, while several others got away lengths behind the first four.

PUBLIC PLAY GROUNDS.

The city of Toronto has reco tions which our own people may well take to heart. The Globe says:—

tions which our own people may well take to heart. The Globe says:—

The absence of places in which children may play is one of the chief draw backs to life in a large city. Outdoor amusements are an absolute necessity for all young people, and it is not to the city's credit that they have not been provided long ago. It is useless to try to keep the children off the streets where they are liable to moral contamination and exposed to physical danger unless other places more suitable than the streets are provided for them. Many of our public schools are almost destitute of real playgrounds, and not single school has one at all commensurate with the requirements of the pupils. While some of the city parks are not badly adapted to serve as playgrounds, the chief dependence must be on smaller areas scattered over the city. Had these been procured long ago, as they should have been, the cost would have been comparatively trifling; now at the very best the expense must be very heavy. It may not be necessary, and if not necessary crainly it would not be advisable, to enter on the systematic expropriation of the necessary areas. With a fund to draw upon, the policy of the council should be to buy up suitable places as soon as they come into the market, and to bid for such a are not actually offered for sale. The assessment department can ensity keep in touch with the development of land values and the course of city settlement.

JAUNTY MR. TARTE.

Hon, J. I. Tarte is the most jaunty and cheerful of Canadian politicians. A motion was recently made to strike his name from the list of honorary presidents.

The members of the provincial government will come to St. John tonight and tomorrow a meeting of the luna; to adjunct the will be held. Boston Herald of Sunday: The notation of the seed of the see

replied:—
"I consented some two years ago to become one of the honorary presidents of your club. I have not the least objection that my name should disappear from your association. Do not feel at all put out about it, as I will second Mr. Riopel's motion. You crase me, I crase myself, we crase ourselves from your roll of honorary presidents. More than that, I extend you my best wishes into the bargain for your happiness, prosperity and long life."

What could be more soothing than such an assurance? Mr. Tarte not only forgets but forgives, and wishes his critics a long life and a happy one. For himself, he remains unruffled, and full of the milk of human kindness. Whether it is Mr. Blair who pictures him as having been engulfed without leaving a ripple, or the Marcil Club which forgets his past services, Mr. Tarte pursues the even tenor of his way with a sublime disregard for the opinions of his late associates. Who knows? Perhaps he consoles himself with the reflection that he laughs best who laughs last, and that there is still a laugh. flection that he laughs best who laughs last, and that there is still a laugh coming to Mr. Tarte.

MR. CHAMBERLAIN'S SPEECH.

Mr. Chamberlain's great speech at interest throughout the United Kingdom and the colonies. While some expressions of distinct disapproval are published the general feeling appears to be favorable to the views of the colonial secretary. It is of course explained that no immediate results nay be looked for, since the campaign of education has not reached a stage that would warrant legislation. A few critics, who are obviously free traders of the old school, predict disaster as the result of any attempt to carry out Mr. Chamberlain's ideas. On the whole, Mr. Chamberlain and the advocates of preferential trade may be well content. The spirit of the times is in favor of closer union, and a re-adjustment of fiscal relations, between the mother country and the colonies. The problem is one of vast significance, and the British people are slow to change. But the empire is moving in the direction of the sewerage on the construction of the octiveen the mother country and the colonies. A meeting is fixed for 3 o'clock Friday afternoon of the aldermen, board of trade and trades and labor council to discuss harbor improvements.

Rev. Norman La Marsh of Calais, Me., will preach in Fairville Methodist church on Sunday 24th, at 11 and 7.

On Monday 25th, Mr. La Marsh will lecture on Success and Failure. Mr. La Marsh is an eminent speaker.

George Robertson, M. P. P., and Louis Ceste, C. E., are conferring with the board of works this afternoon, relative to the dry dock.

W. H. Reed, and his son, C. S. Reed, of Exeter, England, were in the city yesterday en route to Chatham to visit the Dominion Pulp mill, of which company Mr. Reed, senior, is president.

Meetings will be held tonight by the Ship Laborers' Union' and the Ship Laborers' Society to consider the question of amalgamation, which has been under discussion for some time, and favorably considered by many members.

winnipeg, May 19.—A Rattleford despatch says Rev. Mr. Barr has returned there and complains of slow progress in the work of locating the colony, and claims the land should be all re-surveyed, as the old survey is nearly obliterated. The feeling against Barr is very strong. At a meeting held in the camp near Battleford on Saturday afternoon, a unanimous resolution was passed deposing Barr from the leadership, and Rev. Mr. Lloyd as chaplain of the colonists, and a committee was appointed to act in his place. The government will be asked to appoint a commission to co-operate. Mr. Barr at first positively declined to step aside, but has changed his mind since, and handed in his resignation in writing.

Northern extension and the Beersylle railway.

The Kent Northern Extension will be forty-two miles long and will run from Kent Junction to Chipman, there connecting with the New Brunswick Coal & Railway Company's line to Fredericton. Mr. Brown said last night that with these two lines completed and with steamship connection, Richibucto to P. E. Island, a passenger could entrain at Fredericton and be on the Island in five hours. There would also be good opportunity for freight business. The charter has been granted and subsidy would be considered later. He hoped to see the line in operation eighteen months from now.

The other road—the Beersylle—will run from Adamsville on the I. C. R. six or seven miles to the Beersylle coal mine, the property of the Imperial Coal Company. Charter and subsidy have both been granted and Mr. Brown expects that coal will be carried over the road four months from now. He was in this mine a week ago and says it is a good property. The coal is of excellent quality and conditions are such that mining operations are not difficult. He thinks when under way 200 tons a day can be takes out and it is estimated there are 6,000,000 tons in the field.

ST. JOHN MEN IN IT.

The reorganization of the Lake of the Woods Milling Company, which is being promoted by David Russell, is about completed. The purchase price has been paid and the stock of the new company has been doubly subscribed. The capital of the new company is \$3,500,000, arranged as follows: One million dollars, bonds; \$1,500,000 seven per cent. preference shares, and \$1,300,000 of common stock.

A number of St. John capitalists are heavily interested, among whom are John H. Thomson, William H. Murray, James H. Doody, John Russell, fr., and others.

The management of the company will probably remain in the hands of the old officials, but certain changes will be made in the board of directors; new directors will be elected to represent the new interests.

MANITOBA SCHOOLS AGAIN.

OTTAWA, May 19.—It is stated that the visit of Archbishop O'Brien, of Halifax, and Bishop McDonald, of P. E. Island, to Ottawa, has something to do with a proposed conference of all the archbishops and bishops of Canada in this city at a future date.

The business that would come before this conference would be in connection with the famous Manitoba school question.

It is understood that the apostolic delegate, Mgr. Sbaretti, has expressed a desire to have an assembly of this kind in the capital for the purpose of looking into the many details of separate school education in Manitoba with a view to securing for the Catholics of that province rights similar to those enjoyed by other parts of the dominion.

BEEF GETTING HIGH.

(Ottawa Journal).

In an interview with Harry W.

wholesale butchers of this city, Mr.
Crouch states there is a great scarcity
of cattle throughout the country. The
past few weeks cattle here and elsewhere have been steadily advancing in
price, and the future outlook is for
still higher prices. Mr. Crouch predicts an immediate advance in price of
meat throughout the city, as it is impossible for butchers to continue selling at present prices without entailing heavy loss.

FLOUR FOR JAPAN.

FLOUR FOR JAPAN.

(Ottawa Journal).

The work of Wm. Hutchison, Canada's commissioner to the Japan exposition is beginning to tell. A cable was received yesterday by the deputy minister of agriculture, from W. H. Burns, the secretary to the Canadian exhibit at Japan, ordering 15,000 tons of figur from Canada. Mr. O'Halloran, the deputy minister, telegraphed Mr. Hutchison of Moosejaw to stop over in the west and arrange for the order being supplied.

It will be remembered that Mr Hutchison took Ottawa bakers with him to demonstrate the superiority of Canadian flour over all others. He has not been long in succeeding to do this.

FREDERICTON NEWS.

FREDERICTON, May 19.—The York County Teachers' Institute will convene at the High School here on Thursday and Friday of this week. An interesting programme of addresses and papers has been prepared, Friday sternoon the out of town teachers will be the guests of the city teachers at an outing by steamer Aberdeen to Currie's Mountain. A feature of the Institute will be an address by Prof. W. M. Tweedle, M. A., professor of English and German at Mount Allison University, on Robert Browning, Friday evening, under the auspices of the Fredericton Teachers' Association.

The members of the local government arrived in the city last evening, and held a meeting last evening and another this morning. The Board of Education is meeting this afternoon. Routine business is being transacted.

John Tapley and Arthur Rowan, two well known young drug clerks, were tendered a dinner last night on the eve of their departure for Winnipeg, Man., to engage in business. They were also presented with valuable suit cases as a mark of esteem by their friends.

The Fredericton Trotting Park Association held a meeting last evening in the county building, which was attended by a large number of horsemen. Ed. Moore, J. S. Scott, D. McCatherin, A. B. Kitchen, D. E. Hanlon, T. H. Colter and John R. McConnell were elected directors. These gentlemen will acquire a controlling interest in the stock and start the sport on a new basis. It is proposed to have an interprovincial meet during exhibition week.

Grand Master Trueman of St. John, paid an official visit to the Sackville Masons tonight and is expected in Moncton tomorrow.

High Gray was today committed for trial on a charge of stealing a bicycle belonging to a man named Leblanc, a school teacher at Boudreau Village. The wheel had been damaged and left by the roadside awaiting its owner's convenience. Gray passing along appropriated it. He told the court he supposed as it was broken down the owner had no further use for it, but previously Gray had told the officers who found the wheel in his possession that it had cost him \$20.

A UNIQUE ENTERTAINMENT. Japanese Tea in Trinity Was a Pro-nounced Financial and Artis-tic Success,

tic Success.

The Japanese tea and sale held in Trinity church school-room yesterday afternoon, under the auspices of the Young Women's Guild of Trinity church, turned out a success both in point of attendance and in artistic effect. The school-room was tastefully decorated with Oriental trappings and the tables were profusely spread with Japanese knicknacks and curlos.

Tea was served from three o'clock in the afternoon to seven in the evening in Oriental fashion, the waitresses being attired in Japanese costumes, and off and on during the afternoon and evening, musical selections, particularly Japanese, were rendered by Miss L. Nase and Miss E. Payne.

Two tables proved especially attractive, the candy table, in charge of Misses Holt, M. D'Cue and Mollie Chesley, and the table of Japanese novelties, in charge of Misses L. Langan and G. Patton. Both tables were liberally patronized.

A little Norwegian lad was a pretty lonesome little immigrant one day this week. The little fellow, who is twelve years old, came all the way from Norway alone with a label on his coat reading: "Going to his mother, Johanna, at Yorkton." The lad had no money when arriving at Winnipeg, and at the station the hat was passed around with the result that about \$5 was raised for him, and he went on his way cheered up. He could not or would not tell anything of his mother or where she lived. He only knew he was going to his mother at Yorkton.

TONIGHT'S EVENT.

TONIGHT'S EVENT.

There will be a constant procession of military men with their wives, children and best girls to the Opera House after supper this evening to hear and see the grand concert and exhibition of realistic war scenes, fancy drill, first class band programme and fancy and high order singing. The number of tickets sold for the event give good grounds for the belief that the popular playhouse will be filled to its capacity. And it will be a pretty sight, too, for all the military men who are going to attend will wear their uniforms. At a full dress rehearsal held last evening everything went swimmingly and a smooth and interesting show is promised from the start. The 62nd Regimental band will play in front of the theatre prior to the rising of the curtain. The evening's entertainment will include a choice number of popular airs by the band, some excellent vocal numbers, the drills above referred to, the living pictures of war and a grand galaxy of choruses and song by the men. AT THE HOSPITAL.

There is considerable complaint among a number of city clergymen about the new regulations regarding visitors to the General Public hospital. It appears that on different occasions these clergymen have gone to the hospital to visit patients who were members of their congregations. Upon these occasions they have been refused admission and their attention has been called to the new regulations which permits no one to enter excepting within certain hours or certain days.

The secretary of the hospital board explained to the Star that this regulation is not intended to keep ministers or any one else in particular out of the bospital, but has been found necessary for the benefit of the patients. There were many people who used to crowd the hospital, not always for the purpose of seeing friends but often out of mere curiosity, and this became so persistent that it was the cause of much injury to the patients. Scores of people walked from ward to ward gazing at the sick ones, and the consequent excitement had a bud effect.

Then the new regulation was brought in which prohibits visitors, excepting from 4 p. m. to 5 p. m. on Mondays and Thursdays. Even at these times crowds are not admitted, and those who visit the hospital must do so for the purpose of seeing only the patients in whom they are interested.

On other days no one is admitted but should a patient ask for a clergyman notice will at once be sent to him. While the board did not wish to be strict in this matter it has been found impossible to draw the line and say who shall be admitted and who shall not. In aimost every church and society there are committees appointed to visit the sick and it clergymen were admitted in other than the regular hours the members of these committees might also claim some rights, and this would make things as bad as ever.

It has been noticed that since the new regulation was made the patients
