M. CLEMENCEAU WINS FIGHT FOR HIS GOVERNMENT'S LIFE; MORE RIOTING IN WASHINGTON

Fall of Boret is Seen as the First Move to Break the Hold of the Tiger Upon the People of France.

OPPOSITION CENTRED ON POST-WAR POLICY

Government's Economic Policy Declared to be the Real Cause Which Forced Boret's Resignation from Cabinet.

Paris, July 22.—(Havas.)—Premier Clemenceau's fight for a vote of confidence opened this afternoon in the Chamber with a statement by Deputy Francois Fourrier...

M. Francois Fourrier, opening the debate, recalled the meeting on Friday when the vote of the food policy showed the Government to have a minority.

After criticizing in detail the economic policy of the Government, M. Francois Fourrier took up the foreign policy. He advocated a more intimate alliance with Italy, and concluded by asking the Chamber to say if it endorsed the Government's errors, which, he declared, compromised the fruits of victory.

M. Joseph J. B. Noulens, the new Food Minister, in reply, outlined the Government's economic policy. He told of measures taken to increase the supply of wheat and sugar, and asserted the Government could not be taxed with lack of foresight.

M. Clementel, Minister of Commerce, emphasized the necessity of maintaining control of wheat and sugar throughout the world and announced that the Allied governments had decided to organize conferences in which neutral nations should take part, to reach conclusions on the critical economic situation throughout this world and to submit these findings to all governments.

Vote of Confidence. Paris, July 22, (The A. P.)—The Chamber of Deputies gave a vote of confidence in the cabinet of M. Clemenceau this afternoon by a vote of 272 against 181.

Premier Clemenceau on leaving the chamber said: "This is a mere skirmish. The real battle is coming."

The premier was cheered as he departed, many officers surrounding him and shouting "vive Clemenceau," and "long live the father of victory."

Amidst the cheering, the premier was interrupted by a group of Socialists, in which Jean Bon and M. Yarnes were conspicuous.

The House laughed and was dismissed. Strutting up and down the tribune, the premier hesitated, stopped and then continued:

"You wanted me to make war. I have made war. You wished me to make peace. It is harder to make peace than it is to make war. It is a question of confidence. I have obtained all that France could desire and many things that France could not hope for."

THE YORKSHIRE MINERS TO FIGHT TO A FINISH

London, July 22.—A despatch to the Evening News from Bradford, Yorkshire, today announced that pumping would cease in the remainder of the Yorkshire coal mines this afternoon.

The correspondent adds that the defiance of the Miners' Federation by Herbert Smith, president of the Yorkshire Miners' Association, in declaring that the miners would fight to a finish, creates a sensation in Bradford.

Despite All Civil and Military Precautions Taken Rioting Between Whites and Blacks Broke Out Again.

SEVERAL RIOT CALLS SENT IN AT 10.50

Heavy Reinforcements Ordered from Fort Meade to Assist the Police to Prevent a Repetition of the Riots.

President Takes Hand in Plan to Stop The Rioting

Washington, July 22.—Rioting by whites and negroes in Washington the last three nights was the subject of a half hour conference between President Wilson and Secretary Baker late today at the White House.

Washington, July 22.—Despite all precautions taken by civilian and military authorities, rioting between whites and negroes broke out again tonight in Washington, and a report reached the police at ten o'clock that a white man, a home defence guard, had been shot and instantly killed in the northwest section.

Shortly after ten o'clock three riot calls were sent in simultaneously from the northwest covering an area of about three squares. A squadron of cavalry, marines and infantry was thrown about one block in which considerable firing had been going on.

Several riot calls were reported to have been exchanged with blacks.

Heavy reinforcements have been ordered from Camp Meade to assist the local police and the military proceed guard in Washington to prevent a repetition of the race riots of the past three nights.

SAME OLD TUNE WITH A DIFFERENT NAME

THINKS A WORLD REVOLUTION IS SURELY COMING

Bela Kun, Deposed Head of Hungarian Soviet Gov't, Declares Such a Catastrophe Inevitable, But Hungary is Willing to Make Peace.

London, July 22.—Bela Kun, deposed head of the Hungarian Soviet government, is quoted in an interview by the Reuter correspondent at Budapest under date of July 18, as saying that he was convinced world revolution was inevitable but, in the meantime, Hungary was willing to make peace with what he termed the capitalistic nations.

"There has been much talk about an Entente ultimatum to Hungary, but none has been received, and I doubt if it ever will be. If it does come, however, the Soviet Government is prepared to adopt a courageous policy."

The Hungarian government will never admit that the Entente has a right to interfere in Hungary's internal or domestic affairs. The new government has nothing to do with Hapsburgs.

A Socialist Government was impossible in Hungary, according to Bela Kun, and that was realized by the Socialist leader.

Vienna despatches, under date of July 19, reported the removal of Bela Kun as head of the Budapest Soviet government. He was replaced by a group of three men, who, it was said, were convinced that the Allies were too weak or unwilling to intervene forcibly in Hungarian affairs.

Letts and Members of the Bolshevik party are placed behind attacking regiments of the red army, according to the intelligence reports. Red army officers, it is said, are given the right to shoot without trial disobedient soldiers. Uprising in cities and villages are continuing and are being drastically suppressed by the Bolsheviks.

Hungary is said to be general in the cities and epidemics are reported to be causing thousands of deaths daily as there are no physicians or medicines.

LESSONS OF WAR REVIEWED BY SIR GEORGE PERLEY

Peace of the World Will be Assured by Continuing Close Friendship Happily Established Between U. S. and British Empire.

Ottawa, Ont., July 22.—Sir George Perley, Canadian High Commissioner in London, with Lady Perley, arrived in Ottawa at noon today. They will remain in Ottawa for some little time before leaving for a holiday.

"To my mind," said Sir George in conversation with a representative of the Canadian Press, "perhaps the strongest act brought home to us all by the war is the strength and influence of the English-speaking peoples when they work and pull together. We all hope for the success of the League of Nations, but I believe the first essential to the peace of the world is the continued close friendship now so happily established between the United States and the British Empire."

"We are all proud of what Canada has been able to do in the war. We are proud of our fighting forces and by the way our organizations were carried through. No word can express our admiration for the patience and devotion of our women, and the way in which our people at home backed up those at the front. The test came to Canada unexpectedly, and I doubt if any of us realized how great her strength really was, or how fine an effort could be made by a country with such a small population. The feelings uppermost in our minds today should be keen rejoicing that victory is ours with us after our bitter struggle. Grateful thankfulness should be ours that we have been able to do our share honorably, and enduring pride in the gallant deeds of our brave troops which will be an inspiration to all generations of Canadians."

It was decided to hold the next convention in Montreal.

PARLIAMENT TO CONSIDER ITS NAVAL POLICY

The Next Regular Sitting of the House Will Likely be Called Upon to Discuss After the War Naval Preparations—Jellicoe Here in Autumn.

Ottawa, July 22.—Naval matters are likely to engage the attention of Parliament to some extent at the next regular sitting of the House which will open during the winter months. Some time ago Admiral Jellicoe was named by the Imperial government to confer with the governments of the overseas Dominions as to the best policy for them to adopt in the light of what was revealed by the war.

Admiral Jellicoe will be a visitor to the Dominion this autumn, when the matter of after-the-war naval developments will be discussed by him. It is not likely that any concrete conclusions will be arrived at in time for the announcement by the government of a permanent naval policy at the special autumn session to be convened early in October, but it is regarded as more than likely that legislation dealing with the matter, will be introduced at the winter session. There is little disposition to speculate here as to what the permanent naval policy of the Dominion will be, but in view of the ability of modern submarine craft to operate at great distances from their home bases, it is thought that provision will have to be made for an adequate system of coast defence.

CANADIAN NAT'L SHOE RETAILERS IN SESSION

Toronto, Ont., July 22.—Government regulation of the price of hides, and embargo on Canadian skins for export to the United States, was the solution of the high price of footwear in Canada, offered by Joseph D'Amour, tanner and shoe manufacturer of Montreal, in an address delivered before the convention of the Canadian National Shoe Retailers' Association here today.

Officers were elected as follows: Vice-President, H. W. Halsey, St. John.

Executive committees: Maritime Provinces, W. L. Tuttle, Halifax; C. T. Hughes, Charlottetown, and L. H. Sibley, Jr., Moncton.

It was decided to hold the next convention in Montreal.

PROHIBITION WINS SWEEPING VICTORY IN U. S.

By a Vote of Three to One Enforcement Bill is Passed by the House, Carrying Drastring Provisions and Penalties.

PRESIDENTIAL VETO IS FEARED

The Bill Now Goes to the Senate Where Many of Its Restrictions May be Modified or Stricken Out.

Washington, July 22.—By a vote of nearly three to one, the House today passed a bill for prohibition enforcement, with provisions and penalties so drastic as to bring from the men who framed it the prediction that it would forever suppress the liquor traffic on American soil.

Exactly one hundred members—62 Democrats and 38 Republicans—refused to support it. Against this even hundred the prohibitionists, putting up a solid front to the very last, polled 287 votes. The measure now goes to the Senate where many of its restrictions may be modified or stricken out. The cloak room rumor persisted that all of this legislative work might end on the shoals of a presidential veto, although the general view was that it would be signed as passed.

The bill as it passed the House provides: After January 25, 1920: Every person permitted under the law to have liquor in his possession shall report the quantity and kind to the commissioner of internal revenue. This applies to chemists, physicians, etc.

After February 1, 1920: The possession of any liquor, other than as authorized by the law, shall be prima facie evidence that it is being kept for sale or otherwise in violation of the law.

It will not be required, however, to report, and it will not be illegal to have in one's possession liquor in a private dwelling, while the same is occupied and used by the possessor as his private dwelling, and the liquor is used for personal consumption by the owners, his family or his guests.

The possessor of such liquors, however, bears the burden of proof that the liquor was acquired and is possessed lawfully.

Intoxicating liquor is defined as a beverage containing more than one half per cent. of alcohol.

Liquor for non-beverage purposes, and wine for sacramental use may be sold under specified regulations.

Denatured alcohol, medicinal preparations (including patent medicines), unit for beverage purposes, toilet articles, flavoring extracts, and vinegar are exempt.

Registered physicians are authorized to issue prescriptions under strict regulations for the use of liquor in cases where it may be considered necessary as a medicine.

Liquor advertisements of all kinds are prohibited.

Sale, manufacture or distribution of compounds intended for use in the unlawful manufacture of liquor is prohibited, together with sale or publication of recipes for home manufacture.

INTERNED GERMANS SHIPPED FROM AMHERST TUESDAY

Five Hundred Were Placed Aboard a Special Train for Quebec Whence They Will Sail for Germany.

Amherst, N. S., July 22.—The Internment Camp presented a busy scene this morning when five hundred and fifty of the German prisoners, who have been in detention since the early stages of the war, boarded a special fifteen car train, and took their departure for Quebec, from which port they will eventually embark for Germany.

It was not generally known about town that the detachment was leaving today, and consequently a mere handful were on hand to witness the removal of the Hun. They were under armed escort and boarded the cars in a very orderly manner. That they were all bubbling over with happiness was evidenced by the faces wreathed in smiles of contentment.

The Germans and other alien prisoners were brought to Amherst in 1915, and represent sailors, marines and civilians. Austrians, Turks and Bulgarians are included among the number who have been detained at the camp, but those leaving this morning are Hunns alone, composed of the crews of the Kaiser Wilhelm Der Grosse and other German ships captured on the high seas.

There are now left in the Internment Camp about 350 prisoners. It has not been announced as yet when the remaining number will be deported.

VERA LAVELLE SURRENDERS TO TORONTO POLICE

The Woman Connected With the Sensational Frank McCullough Case Comes Out of Hiding and Tells Her Story.

HAS NOTHING TO FEAR NOW

Claims She Has Never Left Toronto Since Her Escape from Jail and Was Frequently on the Street.

Toronto, Ont., July 22.—Vera De Lavelle, the woman in the sensational Frank McCullough case, while awaiting trial on a charge of aiding McCullough to escape from the death cell at Toronto jail, herself escaped from jail on May 29, this afternoon surrendered herself to Detective Walter McConnell. Accompanied by her counsel, B. Horkins, of the firm of Robins, Phelan and Godfrey, she reached police headquarters at two-thirty-five p. m. in terror of returning to the jail, where her lover paid the death penalty and she chose the City Hall as the place of her surrender.

"Take me any place but to the jail. It would break my heart to put me in the place where they took my lover's life," she said. "Even now I cannot think of it without a shudder, and in my mind, I can see my brave boy being led to his death."

Further she said: "I just could not stand it any longer. I made up my mind that I was no criminal so here I am back to face it all."

"To hide in Toronto is easy. I could have stayed away by myself indefinitely and had a good time all the time. Why I had a good dinner at a downtown hotel, and I have had all the ice cream and things like that I wanted. I was always oppressed with a feeling, nevertheless, that I may be taken some time when I was out and I didn't want to embarrass my friends."

"Then why do you come back now?" "I said I am no criminal. I have never been in any trouble. I want to go ahead and lead my own life without all that constant worry that you have done something of which you are ashamed. I don't think I have done anything mean or cruel against the law. I don't think there is a woman in Toronto, if she had been in my place, would have done one bit different, provided she loved Frank the way I did."

Frank McCullough, who was hanged on June 13 for the murder of Acting Detective Frank Williams of the Toronto police force, escaped from the city jail a few days before the first day set for his hanging, May 2nd. He was at large almost three weeks before being recaptured and returned to the death cell in the jail, part of the time he was out and Vera lived together as man and wife.

Toronto, July 22.—Vera De Lavelle, sweetheart of Frank McCullough, who was hanged for the murder of acting detective Williams, is to surrender herself to the police this afternoon, according to her counsel Mr. Horkins. It is stated that Vera never left town since she escaped from the jail while awaiting sentence for acting as an accessory after the fact in McCullough's case. The plans for the surrender were agreed upon today by Mr. Horkins and the police. Arrangements under way to have the girl tried tomorrow by Judge Costwether.

DEFENDANT ON STAND TODAY IN DIVORCE CASE

Plaintiff Apparently Has So Far Failed to Substantiate Allegations in Libel.

Special to The Standard.

Fredericton, July 22.—All the evidence in the FitzRandolph case was in when the court adjourned this afternoon with the exception of that which is to be given by the defendant, Mrs. Charles FitzRandolph. She will be called when the court opens tomorrow morning and will probably be on the witness stand for several hours.

At this afternoon's session of the court the reading of the evidence of Frank Worrell, which was taken under a commission in Ontario, was completed. His evidence dealt largely with the golf club incident and he deposed having an improper relation with the defendant, but said all the members of the party were very drunk.

Miss Jeanie Bearison, who had assisted Mrs. FitzRandolph at her house in looking after the children, said she had never known the defendant to be guilty of any improper conduct at the house further than drinking.

HOOVER BOARD FINISHES RELIEF WORK IN POLAND

Careful Surveys Show Country Will Be Able to Feed Itself in Future.

COLONEL GROVE WINS GOVERNMENT'S PRAISE

Only Sufficient Personnel to Supervise Care of Orphan Children is Left in Warsaw

Warsaw, Monday.—The work completed by the American Food Administration's commission for Poland has declared itself of importance. The head of the commission, Colonel William R. Grove, left for Saturday for Paris on his way to the United States where he will return to duty in the American army. All that now is left in Poland of the last harvest season is the seed for the next year's crop. It is estimated here by Mr. Hoover, the Food Administration's chief, that the Polish government, children's relief work whereby one million children are fed daily by the American Food Administration.

Artificial High Prices Broken.

The policy of the Food Administration was to use the earliest shipments to break the artificially high prices prevailing and to bring the market to the market that were being held. This Col. Grove succeeded in doing, so that soon after his arrival, though a real shortage continued, the more alarming aspects of the situation began to disappear. It is recognized here that Colonel Grove's action was an important factor in carrying Poland through the Bolshevik peril and on numerous occasions the Polish government has paid him warm tributes for his foresight and energy during that crisis.

300,000 Tons of Food Brought In.

During the period of more than six months that the commission was here approximately 300,000 tons of food was brought in by it through the port of Danzig and distributed through the country. For a considerable time it was extremely difficult for the commission to keep abreast of his problem because in the spring the Polish army almost weekly was making some fresh advance, thus widening the territory for which it was necessary to make provision. The difficulty was met by a huge increase in the amount of food over that originally contemplated.

Textile Industry Re-established.

Besides having charge of the importation and distribution of food in Poland, Colonel Grove also directed the bringing in of supplies which the country needed for re-establishment of its textile industry. When the Germans evacuated in November they took away from Lodz alone twelve million kilos of cotton, in addition to machinery of the mills. Under Colonel Grove's direction five million kilos of ready-made has been delivered at Lodz from America and additional shipments are enroute.

(Adds to Beauty.) A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. This simple treatment cannot cause injury, but care should be exercised to get real delatone.

STONE CUTTER HOLDING UP WORK

Reason Given by Commissioner of Public Works for Delay in Re-Erecting Market Square Fountain is That Contractors Can't Procure Services of a Stone Cutter.

The question was being asked last evening if there were any stone cutters in the city who would work on the Market Square fountain. A few weeks ago the fountain was dismantled by employees of Stevens & Stevens, the contractors, and a stone cutter was seen at work a couple of days, since which time nothing has been done to wards the re-erection, and the excuse given by the Commissioner of Public Works for the delay was due to the inability of the contractors to secure a stone cutter. In the meantime the fountain remains a pile of stone near an excavation, and the prospects look bright for it remaining in the same conditions for some time to come unless the services of a stone cutter can be procured, or the Commissioner of Public Works awakes to the fact that the excuse given for the delay is weak and this contract should have been completed some days ago. The Prince of Wales will pass this section of the city next month, and perhaps this alone might move the Commissioner into action similar to his starting of repairs on Prince William street, which is in a district where, like many miles of other city roads.

DEAL OF IMPORTANCE.

A deal of some importance in local publishing circles was completed yesterday when The Maritime Retailer, a trade paper published for many years, was purchased by W. P. Paterson, S. K. Smith, publishers of The Business Review. Beginning with the August edition the two papers are to be merged into one under the name of The Business Review and Maritime Retailer and continue under the management of Mr. Smith. It is understood a considerable change has been made in the transaction. Both papers have been popular with the retail trade and the new and larger journal starts with a call for patronage and subscription list surpassed by few such publications in Canada.

TRAVELLERS MUST BE VACCINATED

Agent of Steamship Line Receives Letter from Surgeon General in Washington—Says Restrictions Only Temporary Inconvenience.

A. C. Currie, local agent for the Eastern Steamship Company, has received a letter from Surgeon General Rupert Blue at Washington in which official states that the restrictions regarding vaccination of all persons going to the States approved by the Province applied to travellers crossing at Vancouver and Calais.

It further said that vaccination was at the most only a temporary inconvenience and that it was important that all should work together in seeing that the regulations were enforced. It was particularly important that the crews of all vessels and steamers from Maritime Province ports should be vaccinated before entering American harbors. There was intended to be no discrimination against the Atlantic provinces, nor any regulation in excess of what the situation demanded. So far there appeared no necessity of imposing the order all along the Canadian border.

(New York Herald.) "Who won the war?" is about as unprobable a question as the old, "Who won the Battle of Waterloo?"

The Field Marshal would be less than human if he were not jealous of the reputation of his own army. At the same time, he has never broken his habitual silence but to praise all those to whom praise is due. Besides, he has refused the honors offered to himself because he is not yet satisfied that the men whom he commanded have been properly provided for.

Accounts of the work being done by Miss Ruby Peters were also heard with great interest. Miss Peters is now superintendent of the large and up-to-date American hospital near Nanjing. BATH ENJOYS PEACE DAY FESTIVITIES

Made it a Special Day to do Honor to the Returned Men

Bath, July 21.—This community will in the future be able to point with pride to the fact that in regard to the proper observance of Peace Day, the citizens of the parishes of Kent and Winklow led the county.

The celebration had the oddest beginning at the start. Under ideal holiday conditions, the people went to the complete satisfaction of all.

Not only did they celebrate the return of peace, but they also celebrated the return of the local heroes, who were the guests of honor for the day.

The celebration was well trained public speakers concentrated on a note of welcome. The Knowles Orchestra provided a musical treat.

The soldiers were provided with a fragrant supper contributed by a generous public. A grand parade was one of the features.

Men in khaki led the procession. Four floats, carried in connection, added to the fine display. Relatives of dead soldiers, riding in cars provided for that purpose, had their place in the procession. All the usual sports and refreshments were provided. Nothing was omitted.

The best hymn was reserved for the evening, which was the announced by the chairman of the Finance Committee, after consultation with a representative audience, that he would submit to that committee the proposition that a Soldiers' Memorial Drinking Fountain be erected. The proceedings terminated with the singing of the National Anthem, after which a bonfire marked the end of a perfect day.

There can be no beautiful healthy, well-developed steady nerves without iron. The iron from the blood of cheeks—their charm and attractiveness—depends on the amount of iron in their system. Iron is easily assimilated. It does not burden or injure the liver, nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, sagged women. CRP. KONOWAL, V.C. MUST FACE THE MURDER CHARGE

Ottawa, July 22.—That William Artick came to his death as the result of wounds inflicted by Corporal Philip Konowal was the verdict of the coroner's jury in Hull today in disposing of the tragedy that occurred on St. Demetres street late Sunday afternoon.

Following the verdict Konowal was taken to the jail and tomorrow morning he will appear in the police court charged with the murder of Artick.

Much consideration was shown Konowal at the inquest, and as he walked out Coroner Davies shook hands with him and gave him a word of cheer.

Konowal took everything very quietly and remarked that his fringed Artick was far more upset than he was himself.

The St. John Standard

ST. JOHN, N. B., WEDNESDAY, JULY 23, 1919.

CANADIAN GRAVES.

The Hythe (England) Reporter of June 21 contains an extended account of decoration day proceedings carried out by the school children of Folkestone and adjoining centres at the graves of Canadian soldiers in Shorncliffe Cemetery a day or two previous. This was the third occasion of this nature, and apparently the sentiment which first impelled the people of that district to this tribute is as deep as ever. The report reads: "With the passing of years and the rising of a generation which knows nothing of the horrors of war, it may be that the loving enthusiasm of the children to take part of laying floral tributes to the graves of the Canadians in Shorncliffe Cemetery will gradually diminish; but so far as the picturesque and moving ceremony on Wednesday afternoon was concerned there was no noticeable difference."

All civic officials were present, together with many staff and regimental officers and a great crowd of soldiers. Some twenty-five hundred children participated in the programme, which also included several appropriate addresses, and music by military bands. The report continues: "Imagine a peaceful spot on a hill, with the sunlit bay in the distance and meadows of varying shades of green and brown all around. A part of this soldiers' resting-place lies in a slight hollow, with a grassy slope to the north and east. Here are about four hundred neat mounds, looking pathetically bare in the June sunshine. "They have business-like little wooden crosses to identify the heroes within. We think of them and remember that once they were little babies, guarded from every harm; and then they were little boys playing at war. At last they became men and real soldiers. They all said 'good-bye' to someone, and went off with a laugh. "They will never cross the ocean again, and someone is heart-broken. "Soon came the children with their flowers. "Many a cottage garden has been stripped of its choicest blooms. Those who have no gardens have given their treasured pennies eagerly to teacher to purchase flowers. Roses, sweet williams, pinks and all the dear old-fashioned blossoms one can think of, have been carefully arranged and a loving little message tied on with many a little girl's favorite piece of ribbon. "At first our attention is turned from the sentiment of it all by the sight of Mayon and his robes, aldermen, boy-scout bands and a seemingly endless procession of boys and girls. In they flock from every quarter, until the place is absolutely crowded with them and with the hundreds of spectators. "There is a guard of honor, and a Cavalry band; there are speeches, and enormous wreaths from clubs, societies, and private individuals. The camera man is very busy. "Then do the children leave their places on the desolate graves. "It is wonderful! As if by magic, the bare neglected mounds are transformed into a blaze of color and sweet press. It has been done so quickly; it is now entirely changed—so alive! It is like the living souls of the dead heroes showing themselves suddenly; arming desolation into life and beauty, and filling the eyes with tears."

MR. FORD AS A WITNESS.

The Ford libel suit against The Chicago Tribune has for the past ten days or more been a source of ever increasing joy to the people of the United States. This man Henry Ford, a mechanic of some ability, a money maker of renown, and organizer of a great industry, who went out of his way to pose as one of the leaders of the nation, who had ambitions to the Senate, who, through paid employees, preached peace, and even at one time undertook a mission to Europe to stop the war, has been revealed on his own confession in open court as the dupe of his own desires, an uneducated pretender, self-seeker and wholly ignorant in many of the subjects upon which he sought to instruct the American people. He has declared under oath that anarchy in his opinion is bomb-throwing and overturning the government, and has stated that his action against The Tribune, based on an editorial headed "Ford is an anarchist," was not taken to protect his reputation, but to force newspapers like a correct use of headlines. The article to which Mr. Ford objected he had not carefully read—on his own admission—but he had noted the heading and proposed, as part of an educational campaign, to insist that all publishers should be compelled to bear out in the body matter of articles printed, the statements in headings. Mr. Ford does not read the newspapers. He sometimes glances over the headlines. He did not arrange his peace mission. The peace propaganda so widely distributed in his name was never read by him, but was prepared

at his request by Mr. DeLavnigne, signed by Mr. Ford, and distributed through the United States with the prestige of the Ford name. In his evidence the automobile king admits that he knows nothing in the objectionable editorial excepting the headline which touches on anarchy, that he is ignorant of most things, that he knows nothing about history and cares less for that sort of bunk, that the Ancocks were a very small people, that war is murder, that the United States soldiers who served overseas were paid murderers, but that he would be willing to organize another war for the purpose of putting an end to all wars, that an idealist is one who helps to make profits, that Benedict Arnold was a traitor, that treason is anything against the government, and that the newspapers and the bankers were responsible for the war. Mr. Elliott G. Stevenson, representing The Tribune, has had the plaintiff in the case on the stand day after day and, in spite of the feeble objections of Ford's lawyers, has extracted from him without very much difficulty such confessions of personal ignorance of national affairs as have made this mechanical genius the butt of almost as many jokes as are related of the ear which he buds.

ANOTHER REIGN OF TERROR.

What remains of Hungary appears to be in the throes of another revolution, this one more bloody than the last and equally futile in so far as the establishment of any permanent form of government is concerned. Following the collapse of the Dual Monarchy, Count Karolyi organized an administration which appeared at first to meet with some success and to exercise a form of authority over the bewildered people. His tenure of office was comparatively brief, for with the breaking up of the army the disorderly elements, uniting among themselves, secured control of the situation and recently have acted more or less under the guidance of Bela Kun, to whom Karolyi handed the reins. This official personage, upon assuming leadership, at once got in touch with the Soviet Councils of Russia, for while his so-called government was not ostensibly of Bolshevik make-up, its tendency was in that direction. However, in catering to that particular element, Bela Kun has over-reached himself and has brought about such dissatisfaction that his rule has deprived him of the support of his military friends. So long as something remained to be done by the remnants of the Austrian army which afforded play for their energies, discontent was held in check and there was some excuse for spending money with a free hand. The cessation of hostilities against the Czechs and Rumanians closed that avenue of activity and threw on the country additional thousands of unemployed soldiers, irresponsible and always on the lookout for excitement. These, under scattered leadership, have banded together and in close association with the Russian Bolsheviks have recently brought about in Budapest a sort of revolution which has driven Bela Kun from power, although it has not as yet succeeded in overcoming his Communist supporters through the provinces. By reason of the prevailing antagonism between these two groups, all the more bitter because of the similarity of their principles, Hungary faces a period of rioting, bloodshed and waste, similar to that which swept Russia and which even now continues unchecked in some districts. The allies are not greatly concerned over the fate of Hungary, nor is it probable that any united action will be taken, unless something unforeseen develops, to check the prevailing disorder and to assist in the establishment of a permanent and responsible form of government. That misguided nation must learn the lesson for itself and in the meantime to come, when the country is given over to anarchy, it will pay the penalty of misguided ambition and misplaced trust in the word of Germany.

OUR BIG DAY.

Preparation for the reception to be tendered His Royal Highness the Prince of Wales are proceeding. A committee of citizens in co-operation with the City Council is arranging the local programme in which it is anticipated both Federal and Provincial Governments will co-operate to some extent. Indeed the arrival of the Prince in St. John will be made the occasion of his welcome to Canada. Apart from this national greeting St. John, representing the Province of New Brunswick, will be expected to do its utmost toward making the royal visit a success. A very gratifying feature in connection with this incident will be the public expression of appreciation to be tendered New Brunswick's returned soldiers, and, although this undertaking involves a great deal of work and careful preparation, it is not too big an enterprise for this city to handle. Possibly, if the nature of the welcome is well advertised, if transportation arrangements are satisfactorily made, and if accommodations can be secured—all of which problems

may be overcome through the efforts of an active committee—we will have eight or ten thousand of our boys from out of town as guests of the Province in St. John for a day or two in August. In this matter it will be well to remember that we are not endeavoring to bring our soldiers here for the purpose of having them entertain us. Whatever programme may be suggested should be with the object of providing amusement and entertainment for our visitors. Naturally the presence of these men will tend to intensify the enthusiasm of our greeting to the Prince, and possibly His Highness may desire to review or to meet in some other manner those who have returned from overseas. This is a point on which the wishes of the Prince of Wales and, in so far as possible, the feelings of the men themselves, should be considered. However, with the committee of citizens now in charge and with the co-operation of the interested Governmental plans the whole undoubtedly be the big event of the year in this city should go forward smoothly and satisfactorily. Suggestions of value will be acceptable, but to make the gathering what it should be the heartiest support of people of all classes is desired.

WHAT THEY SAY

Predict Transformation.
Detroit Free Press: Regular trans-oceanic communication and travel by dirigible will mean great changes in the United States. Cities like Detroit, Chicago and St. Louis will be to all intents and purposes "ocean ports." And as the dirigible develops they will become more and more world commercial shipping centres. That will mean the construction not merely of hangars but also of "harbors" of refuge which will provide shelter so that dirigibles may land in high winds and be safe after casting anchor. And this will be only the beginning of a growth that will transform the whole business face of the land.

The One Big Union.
Toronto Saturday Night: It is something that Canadians, especially Canadian trade unionists, should keep well in mind, that the One Big Union is the cornerstone of the L. W. W. movement, and when we consider the countless murders, attempted assassinations and deeds of robbery, arson and violence which have been proven elements, uniting among themselves, secured control of the situation and recently have acted more or less under the guidance of Bela Kun, to whom Karolyi handed the reins. This official personage, upon assuming leadership, at once got in touch with the Soviet Councils of Russia, for while his so-called government was not ostensibly of Bolshevik make-up, its tendency was in that direction. However, in catering to that particular element, Bela Kun has over-reached himself and has brought about such dissatisfaction that his rule has deprived him of the support of his military friends. So long as something remained to be done by the remnants of the Austrian army which afforded play for their energies, discontent was held in check and there was some excuse for spending money with a free hand. Legal Status of the Billboard.
Manchester Journal: The lower courts have made a variety of decisions as to the status of the billboard. These decisions have been pondered by the Supreme Court of the United States, and an opinion has been handed down which is now final in law. The Supreme Court holds that a billboard in the residential district of a city may be a nuisance, and the city may in the exercise of its police power prohibit it, even though it stands upon private land.

The Feeling Exists.
Woodstock Sentinel-Review: The committee on the high cost of living admits in its report that there are individual cases of profiteering. Well, why not get after these individual cases? It might not lower the cost of living materially to do so; but it would be an evidence of good will toward the consumer. The reason why there is so much dissatisfaction at present is not merely that the cost of living is so high, but there is a general

A BIT OF FUN

Even a miser is generous to his faults.

No wise woman trusts a man who trusts to luck.

"Dear John," wrote Mrs. Newby from London town, "I enclose the hotel bill."

"Johnson," said the vicar's wife, more in sorrow than in anger, "I'm sorry to see you're paying into our club this year."

A soldier was telling his friends of his experiences out in France, and among other things they discussed the difference between the beers of the respective countries.

Troubles A Plenty. "You should try to cultivate a spirit of optimism," said the tireless moralizer.

A BIT OF VERSE

Safe, safe, and far from thunder of the sea
We have forgot that over leagues of sea
Our sons went forth to share with England's fate
The battle that should leave us bond or free;
We have forgot that there were foes within
That spared us not, so they could England harm;
They never ceased, with furtive cynic grin,
To sap our strength and seek to still our arm.
The fight is done, and England victor stands;
Patient, unshaken under countless blows;
She looks to us still to uphold her hands—
And lo, she finds us comforting her foes!

THE BEST QUALITY AT A REASONABLE PRICE

Glasses Strengthen Eyes

One of the many benefits of glasses is that they make the eyes stronger. The reason for this is easily understood.

Exercise strengthens a muscle. Strain weakens it. In near-sighted, farsighted, astigmatic and other defective eyes, the muscles are under constant strain. Properly fitted glasses end that strain, permitting the muscles to work normally and become strong instead of weak. We are experts in fitting glasses to correct eye strain. Every facility of science is at your service here.

ARRANGEMENTS FOR PATRIOTIC DEMONSTRATION WERE DISCUSSED

At Meeting Yesterday Committee Were Appointed to Look After Programme for Soldiers' Day and Welcome to Prince of Wales—School Children to Take Part—Housing Accommodation and Sports Programme Considered.

Arrangements for the patriotic demonstration on Soldiers' Day, the 14th of August, and for the welcome to the Prince of Wales on the 15th, were discussed at a meeting held in the Board of Trade rooms yesterday afternoon, with Mayor Hayes in the chair, and committees were appointed to prepare the programme of entertainment for both days and to organize various features of interest.

General H. H. McLean said they should arrange for a concourse of school children arrayed on benches on the slope of Prince William street at Reed's Point to welcome the Prince on landing on Canadian soil. The children could wave flags, and sing a verse of God Save the King, or O Canada. This would be a form of welcome which would, he thought, be very pleasing to the Prince.

Mrs. G. A. Kuhring said that having the Prince welcomed by the school children in some such fashion had been discussed with Dr. Bridges before his departure to England, and the School Superintendent favored the idea, and said it could be made a success. There would be no doubt about the interest of the children. They could stand on the slope arranged in rows and wave flags if seats were not provided. It had been suggested that when the Prince landed, the children would sing the Doxology, assisted by a number of church choirs, as a token of thanksgiving for his safe arrival on our shores, and then sing a patriotic verse. It was proposed to select 500 or 600 from the different schools, who would be trained in advance for their part in the programme of welcome.

General McLean—An excellent idea. E. S. Ritchie, who was secretary of the meeting, suggested that the children should be dressed so that they would present a picture of an animated Union Jack.

Walter Golding said he had been thinking of having a school children's assembly in front of the Imperial Theatre. It was decided to ask the cooperation of Dr. Emery and the school authorities in carrying out this part of the programme.

A communication from Premier Foster stated that the railways would probably grant passes to returned soldiers who wish to come to St. John for the celebration. Major McLeod, president of the G. W. V. A., said it was estimated that seven or eight thousand soldiers would take advantage of the occasion to come to St. John to meet former comrades in arms, welcome the Prince, and take part in the rejoicing at the return of peace. Mayor Hayes, General McLean and Major McLeod were appointed a committee to inter-

view the railway authorities and see what arrangements could be made to provide free transportation for the returned soldiers. The matter of providing housing accommodation caused considerable discussion. The idea is that many citizens will be glad to open their homes to returned soldiers, and receive them and their wives, if they bring them along, as guests. The problem of accommodating civilians who may come to St. John to welcome the Prince and take part in the demonstration was admitted to be difficult. Somebody suggested that a register be opened of parties willing to take in visitors as guests. The hotel proprietors were finally advised to get together and see what arrangements they could make to look after civilian visitors. Mrs. Kuhring, Mrs. Powell and Mrs. Mulcahy were named a committee, with power to add, to look after the housing accommodation of returned soldiers, and arrangements will be made to have beds in the Exhibition Buildings.

The formation of a Hospitality Committee was considered, and it was decided to appoint the chairman of all the sporting organizations in the city to this committee. The heads of all such organizations are requested to meet in the Mayor's office at 2:30 o'clock Thursday afternoon.

Among the organizations which are asked to co-operate in making the procession a success are the R. K. Y. C., the St. John Power Boat Club, the Boy Scouts, the various Improvement Leagues, the Rotary Club, the Y. M. C. A., the Polymorphs, the Salvage Corps and the Walter Golding was instructed to form a Publicity Committee to advertise the demonstration and welcome, and arrange for printing a programme of proceedings.

RETURNED MAN WAS ROBBED

For many months past there has been complaints made that some returned soldiers have entered houses in the city, drank liquor, went to sleep only to awaken and learn that they have been robbed. A few nights ago a returned man entered a house in the city with two women companions. He had been inebriated and soon fell asleep. Later on he was awakened and the women turned him out on the street. Shortly after leaving the premises he learned that he had been robbed of forty dollars. He made a complaint and Inspector Robert Crawford of military headquarters took up the case. The inspector called at the house and after some trouble the women admitted they had the money and turned it over to the officer. The returned man was quite satisfied in getting his money and refused to prosecute.

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 25 Times a Day. Dysentery manifested itself with varying degrees of intensity, but in well marked cases the attack is commonly preceded by some amount of diarrhoea, which gradually increases in severity, and is accompanied with griping pains in the abdomen. The discharge from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resembles those of ordinary diarrhoea, soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with, or consisting wholly of blood. Never neglect what at first appears to be a slight attack of diarrhoea or dysentery may set in.

Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry. Mrs. Jno. V. Tanton, R. R. No. 8, Warford, Ont., writes:—My daughter was taken down, two years ago, with dysentery, and I could find no help for her until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and ate something different to what she was used to. She had as many as twenty-five movements a day, and mostly blood. We had the doctor several times, but no relief came until we used 'Dr. Fowler's.' I could not get it in the house for a good bit. I was sure and got 'Dr. Fowler's' when you ask for it. Price, 25c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

New Brunswick Championship to be Decided—Meet Nova Scotia Later.

The annual tournament of the New Brunswick Tennis Association will be held on the courts of the Rothsay Tennis Club during the week commencing August 11th. The event is a contest of men's singles, ladies' singles, men's doubles, ladies' doubles, mixed doubles. The following clubs have indicated their intention to take part in the meet: Woodstock, Hampton, Sackville, Rochesay and the Westfield Outing Association. Though the Fredericton and St. John Tennis Clubs have practically become dormant, it is possible that they will provide some entries.

The last tournament was held in August, 1914. The winners that year were: Ladies' singles, Mrs. H. R. Babbitt; ladies' doubles, Mrs. H. R. Babbitt and Miss E. Schofield; mixed doubles, Miss M. Robertson and A. Fraser-Campbell; men's singles, J. Chipman; men's doubles, T. M. McAvity and A. Fraser-Campbell.

The Nova Scotia Lawn Tennis tournament will take place this year on the Waegwatic Courts, Halifax, on the same dates than the New Brunswick tournament is to be held. The Nova Scotia Association has issued invitations to the winners of the New Brunswick tournament to play the Nova Scotia champions on the Waegwatic Courts on Monday, August 18th. It is customary for this maritime play-off to be held turn about in Nova Scotia and New Brunswick. The last meeting was on the courts of the St. John Tennis Club in August, 1914, when the Nova Scotia players won four out of the five events. Miss Cole defeated Mrs. Babbitt, 6-1; Miss Cole and Miss Redman defeated Mrs. Babbitt and Miss E. Schofield, 6-1, 3-7, 6-3; Miss Lydard and W. N. Rice defeated Miss Robertson and A. Fraser-Campbell, 6-2, 2-6, 6-3; W. W. Wiswell beat Chipman, 6-2, 3-6, 4-6, 9-7, 6-4; McAvity and Fraser-Campbell beat Wiswell and Foster, 8-6, 6-8, 6-1, 10-8.

There is a possibility that Mr. Chipman will be on hand to defend his title. Mr. Fraser-Campbell has expressed his intention to be here during the meet, though, owing to wounds received during the war, he will be unable to take an active part. Inquiries about the tournament should be addressed to C. F. Inchausti, Box 504.

Wild Gains In American Favor

Has Met All Corners and Shows All the Earmarks of a Champion.

New York, July 22.—America now has offered up two of its leading heavyweight contenders to the cause of Jimmy Wilde, only to have the British flyweight sensation tumble the lesser obstacles into the balance. By his defeat of Pal Moore, of Memphis, Wilde retains supreme among the contenders for the crown now worn by Pete Herman. And it is quite likely that English admirers of the little pugilist will make it more than worth while for Herman to journey to London to decide how far Britain is to be commended among the pygmies of the ring.

When Joe Lynch returned to America meaning that he had been robbed in his struggle with Wilde, in that the referee had dubbed Wilde the winner after fifteen rounds, many listened to Lynch's tale of woe with some belief. London boxing critics even objected to the decision, and opined that Lynch should have had nothing more than a draw. But now with Moore on the losing end, it follows that the Britisher will be accorded his just dues.

He undoubtedly is a scrapper of considerable parts. He has waged consistent warfare against any and all comers, and has been so persistently successful he must have the ability of a champion. He is deserving of a chance at Herman's title. Herman cannot be forced to travel to London to mix with Wilde, but Herman hardly could find a purse of such proportions as might be offered for a world's title engagement at the National Sporting Club of London.

LITTLE BITS OF SPORT CHATTER

The New Brunswick Tennis Association will hold its annual tournament at Rothsay, beginning August 11. It is expected that the champions of New Brunswick will meet those of Nova Scotia on August 18 in Halifax. The last big tournament here was in 1914.

J. Fred Belyea, in his efforts to revive rowing, deserves the support of the community. The Belyea family has always been closely associated with the activities of the water front, and Fred Belyea knows the rowing game. Those who can secure instruction from him should consider themselves very lucky.

Sergeant Norman Bridle has presented a handsome silver cup to the G. W. Y. A. as a trophy for football competition. St. John should see some good sport in this branch this season.

The promoters of the sports at Moosepass on August 2 expect to have a fine lot of events. It is understood that many will take part. Those with athletic ability should take a hand, and others should give encouragement with their presence at the sports.

Clifford Wiswell, who was Maritime Tennis Champion in 1914, is expected to compete in the events this year at Halifax. Wiswell went overseas with the 6th C. M. R. and was transferred to the 5th C. M. R. when his original unit was broken up. While in England he took part in many of the important tennis tournaments. He has kept himself in condition by rigid training, and was always ready to take part in a match. During the present year he entered in some champion events. His presence in the games here should be a great stimulant to tennis.

It is expected that horse racing will again be in full bloom in Ontario. Legal authorities have come to the conclusion that racing is legal in that province. It is hoped that the race tracks will soon open. His presence in the games here should be a great stimulant to tennis.

The races of the St. John Power Boat Club scheduled for last evening had to be called off on account of the unfavorable weather conditions. It is intended to run them off on the first fine night.

Will Decide The Soccer Champs

Arrangements for Deciding Best Association Team in Canada.

Craig Campbell of Montreal, president of the Dominion Football Association has wired Secretary Edward Spence, of Toronto, announcing that both the British Columbia and Alberta football associations had been admitted to affiliation with the governing body and that being the case he suggested that the Connaught Cup series be played at Montreal on August 11.

He would like the British Columbia and Alberta meet in an eliminatory game. New Ontario meet Manitoba and Ontario meet Quebec, and the winning teams play off.

It is felt that his suggestion is practical in all but one phase. Soccer officials do not think it would be wise to have only three teams in the semi-finals and final, which would permit one team to reach the final through a bye, and they also point out that in the event of Ontario and Quebec coming together in the eliminatory series as President Campbell suggests, and Quebec happened to be defeated, there would not be half the interest in the matches.

With this in mind, an alternate proposition has been suggested by the Socials for their games against play off as suggested, but that Ontario and Quebec should enter the semi-finals without meeting, thus giving four teams for the semi-finals and assuring the appearance of a Quebec team in the series.

St. John Pitcher Stays In Halifax

Elliot Has Been Signed by the Socials—Abusive Fans Must Stop Insults.

Special to The Standard.
Halifax, July 22.—Elliot, the St. John man, who pitched his team to victory over Halifax on Saturday, will locate in Halifax and has been signed by the Socials for their games against the Standards, and will more than likely be a member of the all-Halifax team against the outsiders. Elliot is a right hander with speed, but is lacking control. He turned in a good article against Halifax and yielded only eight hits.

Some fans who patronize the professional games on the Wanderers grounds and who insist on insulting the players, will hereafter be under the watchful eye of the policemen who are paid to keep order at the local park. During the past few games fans, who overstep their privileges as ticket holders, openly insulted the players. In Saturday's contest one infielder was the target of abuse and had the policemen been on their job they would have ushered the offenders out of the park. The local managers decided that they would call on the policemen to eject any person insulting the players.

JACK CLEMENTS BACK.
Sergeant Jack Clements, who won the heavyweight title of the Canadian Army in England last February, has arrived in Fredericton. He is still suffering from injuries received overseas. After a short visit to his wife and family at Campbellton he will return to Fredericton for further treatment. As soon as he is well again, Sergeant Clements expects to take a chance at the Canadian heavyweight title. Friends in New Brunswick will watch with interest the career of this promising boxer.

Westminster Gazette: Admiral Von Scheer criticizes our strategy in the early days of the war. The German fleet was not ready, and could have been destroyed in the first week. We doubt it. What was there behind the defenses of Kiel and through the canal? But the short answer to the Admiral is that in those early weeks the British fleet was engaged on more urgent business than that of securing the passage of the British Army to France.

Cue Experts Are For Clean Game

Billiardists Unite to Stamp Out Evils of Gambling—Organizations Formed.

Billiardists of Illinois will meet for the purpose of organizing the Illinois Billiard association.

The object primarily will be to eliminate the evils generally associated with so-called "pool rooms," in which a few tables have been a cloak for various forms of gambling.

The roomkeepers who conduct reputable rooms realize the gambling octopus may throttle their business of gambling.

Early this year every billiard table in Texas, including those in private homes and churches were temporarily put out of commission by the passage of a bill aimed against gambling. Since then state organizations with memberships ranging from 50,000 to 100,000 have been formed in Texas, Arkansas, Missouri, Indiana, and Michigan. Illinois will follow suit.

The association will be formed under the auspices of the National Billiard Association board of which Tom Foley of Chicago is president. It will have a bureau to investigate conditions in the billiard rooms and will assist the civic officials in closing rooms where gambling is permitted.

In addition to the legislative side, the state association plans to promote football Union, notices have been sent out calling a meeting of the executive to be held at the club house of the Montreal Amateur Athletic Association on Saturday afternoon, July 26.

With the decision of the Montreal Amateur Athletic Association to return to the union, the schedule this season as originally played in "Big Four." Hamilton Tigers, who are even now arranging for practices; Arzonans; Toronto; Ottawa and the Winged Wheelers.

Toronto Rowing and Athletic Association, as well as the Parkdale Canoe Club, have been members of the Ontario Rugby Union, will apply for membership in the Inter-Provincial. Should these clubs be admitted, membership it will mark the finish of the senior series of the Ontario Union, one of the oldest rugby bodies in Canada.

The Toronto clubs have signified their intention of suggesting changes to the playing rules, which will make them practically the same as the intercollegiate so that all rugby football in Canada will be played under one code of rules.

At the meeting a board of officials will likely be appointed, as in the intercollegiate, and the schedule arranged for the season.

SMOKE Master Mason ITS GOOD TOBACCO

Master Mason is made from choice tobaccos, fully matured, mellowed by age and pressed into a solid plug, so as to preserve all the moisture and fragrance of the natural leaf. Convenient, handy, easy to carry, it makes the sweetest, coolest, smoothest smoke you can find.

SEE THIS GAME.
The ball tossers of the Customs House are scheduled to meet a team from the Evening Times on the Queen Square diamond this evening at 7.15 o'clock. Keeley and Barbour will form a battery for the Customs men while McEachern and Bartlett will work for the newspaper players. It was learned late last night that Woodrow Wilson would not be present to pitch the first ball, but it is expected that the game will get started some way. No announcement of an umpire has yet been made but probably an African dodger will be procured. The contest will be staged under the terms of the Migratory Birds' Act which gives protection to all non-game birds.

Liverpool, July 22.—Virtually all the

day were unable to leave their docks
because of a strike of dock gate-men
in sympathy with the men engaged on
the dredges who are out. By the
end of the week it is feared that the
30,000 dockers in Liverpool will join
the strikers.

NORTHUMBERLAND
LIBERALS ARE NOT
VERY ENTHUSIASTIC
Very Few Out for Con-
vention — Resolutions Ignore
Local Government — The
Hon. Peter Failed to Honor
Convention With His Pre-
sence.

Special to The Standard.
Newcastle, July 22.—The Liberal
convention here this afternoon could
not be called a grand success. There
were about fifty delegates in repre-
sentation of the followers of John Morley.
Old-time Liberals like John J. P.
Barnhill, P. M. Twiss, George Hales,
Thomas Parnor and others were
conspicuous by their absence, while
Dr. McGrath, M. L. A., was not in evi-
dence.

D. J. Buckley presided with An-
thony Adams of Chatham as master
of ceremonies. Resolutions regretting
the death of the late Sir Wilfrid Laurier,
and in appreciation of the work
of our soldiers overseas were passed,
but the local government, evidently,
is not viewed with favor as they were
not endorsed by the convention. The
president said the meeting had been
called at the request of Mr. Morley,
and announced that all Liberal Union-
ists were welcome to the fold.
Speeches were delivered by Hon. Robert
Murray, Dr. Moore, John Morley and
Andre Arsenault.

The delegates selected for Ottawa
were D. V. Allan, D. P. Sullivan and
James Robinson, the latter being ap-
pointed in his absence. Alternates,
W. B. Stewart, Andre Arsenault, Dr.
W. T. Ryan.
The president expressed regret that
no Liberal Unionist could be found to
go to Ottawa.

The resignation of the president and
secretary were then accepted and John
Vanderbeck and W. A. Skidd were
elected in their stead.
Hon. Peter Veniot although in town did
not attend.

AROUND THE CITY

WARM—FOGGY

GOVERNOR DIMBLEY. The steamer Governor Dimbley with 250 passengers and a good freight arrived from Boston at noon yesterday.

THE TRIP POSTPONED. The proposed river trip planned for officers of the Dominion Customs Association yesterday was postponed on account of the inclement weather.

SUNDAY BLASTING. Residents of Riverside complain of Sunday blasting carried on in that district by employees of the Provincial Government. It is stated that heavy blasts have been set off on Sunday evening as people were coming from church.

HAD HEAD INJURED. A man named Thomas Hurley, who had been ill for a long time, died yesterday morning and was cut out of the head. He was sent by Sergeant Joseph Scott to the hospital in the ambulance. In a short time he was able to go to his home.

ARRIVED HOME. Three members of the V. D.'s arrived home from overseas yesterday morning—Misses Edith M. Schofield, Doris DeVeber and Dorothy Thomson. Quite a number of friends assembled at the depot and gave them a hearty welcome. They have been serving in English hospitals for about two years.

TENDERS CLOSED. Tenders for the resurfacing of curbing on German street closed yesterday. Commissioner Fisher advised that paving operations on German street will start as soon as a supply of asphalt is available. The supply contracted for by the city to be delivered not later than June 1st is reported to be on route here and nine carloads are due soon.

FROM WEST INDIES. The Royal Mail Steamer Packet liner Chiteno arrived in port yesterday morning from Bermuda and the British West Indies. She had in addition to mails, ninety-four first class, twenty one second and forty-eight third class passengers, also 1,500 tons of raw sugar for the Atlantic Sugar Refineries and 1,200 puncheons of molasses.

A ROYAL SALUTE. According to orders received at local Military Headquarters from Ottawa, H. R. H., the Prince of Wales will land at St. John at 10 a.m. on August 14th. A Captain's Guard of Honor will be drawn up at the place of landing and immediately on the arrival of the Prince a 21-gun salute will be fired from Queen Square by two gun crews composed of War Veterans furnished by the G. W. V. A. of St. John.

STARTED SOMETHING. It is stated that the approaching visit of the Prince of Wales is one reason for the commissioner of public works to commence paving German street. A citizen remarked last evening if it takes a proposed visit of one of the royal family to start the city fathers making much needed repairs it would be an excellent idea to arrange for a daily visit of some distinguished person and remarkably short time the old Loyalist city would be worth looking at.

RETURNING SOLDIERS. Charles Robinson, secretary of the Returned Soldiers' Commission, received information yesterday that the U. S. Essequibo would probably arrive at Portland on Thursday evening with twenty-four invalided soldiers on board for this district. Mr. Robinson stated that the men would proceed at once directly to the hospital and not to Fredericton. The S. S. Regina is expected to arrive in Halifax today with four officers and seventy-one other ranks for Military District No. 1. It is expected that this is the last large number of men to come to this district, although there may be small numbers come from time to time for two or three weeks yet.

THE POLICE COURT. Sergeant Stevens and George Dickson were charged with running into and damaging an automobile. They acknowledged their guilt and paid \$10 each. Two drunks were remanded, Florence Albert charged by her husband with abusive and insulting language. The matter was adjourned in the police court yesterday morning and the case dismissed. C. A. McLenahan, charged with not obeying the signal of a traffic policeman, was remanded until witnesses could be secured. The case against Eliza Bentley, charged with allowing a horse to stand in the street without a strap, was not over till Wednesday.

HOSPITAL COMMITTEE. The Hospital Committee of the Provincial Red Cross held a meeting yesterday morning at the Red Cross rooms, at which considerable business of importance was transacted. Plans were made to continue the work of placing the sick soldiers at the Base St. John and the Lancaster Hospitals. Bills were presented amounting to more than \$100 for automobile hire to furnish oxygen for sick soldiers during the month of June. Considerable discussion followed, and as several members thought patriotic citizens should relieve the organization of paying for this out of its own funds, attention was also called to the fact that contributions of flowers to those hospitals had greatly fallen off. At present it was announced that two or three kept up the practice of sending flowers to the soldiers, who indeed are very appreciative of them. The committee hopes that these hints of difficulties in their work will prove all that is necessary to get both automobiles and flowers.

PERSONALS. Miss Mary McDevitt of Shediac, N. B., is spending a few days with her aunt, Mrs. William O'Keefe, Union street.

LOCAL CUBAN CONSUL PRO TEM GIVES INTERESTING INTERVIEW

Senor Guillermo de las Cuevas Was for Several Years Cuban Chancellor at the Consulate in Rotterdam, Holland—Was Head of Cuban Consulate at The Hague, Netherlands, from 1916 Until Last April—May be Appointed to Consulate at Brussels.

In the temporary successor to Senor Machado, who is now recuperating at Stamford, Connecticut, the Cuban charge de affairs has placed at St. John a most genial and gifted gentleman in the person of Senor Guillermo de las Cuevas, for several years Cuban chancellor at the consulate in Rotterdam, Holland.

Though possessed of a fluent command of Italian, Portuguese, Flemish, French, German and Spanish, the new consul has but a halting knowledge of English, but in this respect is fortunate in securing the able assistance of Senor Andre Bonada, whose keen eyes, quick action, prompt decisions and mastery of the English tongue would make him a natural leader of men.

Senor de las Cuevas was appointed to the head of the Cuban consulate at The Hague, Netherlands, in June 23, 1916, and remained in office until April 2, 1919, when he undertook a trip over the battle area and returned to America for a much needed rest.

At The Hague, where he was stationed for a considerable time, there were interned all the British who were prisoners of war, and he is of the opinion that the Flemish and Dutch society folks could not do enough for the brave men kept captive. The English soldiers were the guests at practically every important function, the natives opening their homes and hearts to the defenders of righteousness. At Rotterdam, however, where many of the Germans were interned, there was not much revelry, and the Hun officers there interned were treated with but the scanty consideration that was required by the diplomatic relations.

All through the war period, and even now, the cost of food was high in Holland, the rich merchants borrowing a leaf from the book of their brothers on the American continent and charging as high as they could for everything.

After the armistice was signed, he saw the vast crowds of Belgians who were daily returned to their torn and wrecked country, and he saw the grand reception that was given at the frontier by his own folks and the Dutch as well, when King Albert and Queen Elizabeth walked from the exile of Holland to their own, freed country.

During the war period all the consulates of Latin America and Spain were represented by the official from Chile, who was the only official of that nature left in the country. The Dutch government treated the

Belgian refugees very well; built a monster barracks for them at Rotterdam, where they were able to live very comfortably. The wealthier Belgians, however, preferred to live at The Hague, where considerable social activities were always in progress.

After armistice day Dutch troops severed all intercourse with the German guards at the frontier, and the charged wires and other obstructions were removed from "the dead line." The consulates of Portugal, France and Cuba held a big entertainment for the relief of the refugees at the Tivoli theatre, Rotterdam, and a considerable sum was realized for the repatriated Belgian families.

Senor de las Cuevas was a passenger on the first "peace" train to run from Brussels to Paris, the journey which ordinarily took four hours in pre-war days, now occupying the greater part of ten hours, due to the wretched state of the road bed and the devastated condition of the country.

Holland at the present time, he says, is fearful of Bolshevism, and so all frontiers are strictly guarded and every precaution is being taken to admit no one who is even slightly suspected to be a hatter or convert to the Red religion.

Senor de las Cuevas had applied for and had received a three month furlough when the health of Senor Machado, consul at St. John, made it imperative that he take the post until another man sufficiently qualified could be secured.

"When coming to your beautiful city," said the senior through his interpreter yesterday, "I expected to see a small island, but I am greatly impressed with its size, its rugged outline, the beautiful scenery which abounds everywhere, and the keenly aggressive commercial spirit and courtesy of its people."

He made representations with several of the prominent merchants concerning imports to this country of pineapples, bananas, sugar, tobacco and cigars, and there is always a market in Cuba for Canadian potatoes.

The Cuban consul pro tem, who formerly was representative of his government to the republic of Haiti, has served so successfully in the European and Latin American consulates that he will be appointed to the consulate at Brussels during the coming autumn. "Belgium is a wonderful country," he says, "and the land where I would love to live," he declares.

A local dealer is said to be responsible for the story that the shortage is due to the fact that the Germans have hoarded up all the available supplies of paint oil. As it is only a few days since Great Britain has lifted the blockade it is difficult to see how the Germans could make sufficient purchases to affect the market, unless somebody has been trading with the enemy while it was still a serious matter to do so. It is probable that this story does not hold water.

However the situation remains that householders desirous of painting their premises will find it difficult to do so this summer.

Ship Named For Salvation Army

Capt. John H. Pratt Commands New Ship "Salvation Lass," Given Name for Good Work Army Performed at the Front—Tells of Hog Island Shipyard.

Some idea of the activity in American shipyards and the class of freight carriers that are being turned out in great lots is contained in a letter recently received by the editorial department of The Standard from Capt. John H. Pratt, well known amongst the St. John master mariners.

Captain Pratt is commanding officer of the new oil burning steamship "Salvation Lass," a new 7,500-ton freighter which is attached to the U. S. emergency fleet.

After speaking of his trip to Rotterdam in charge of a repatriated Dutch tanker, the captain says: "After the lapse of a week I was sent down here to the wonderful big yard at Hog Island, Philadelphia, to take command of the new freight steamer 'Salvation Lass,' named for the Salvation Army on account of the good work they did at the front. There was a big public celebration at the launching and the Philadelphia Salvation Army members came down and christened her. She is a 7,500-ton dead weight carrier, oil burner, with twin turbine engines and a 12-knot speed. She has all the latest nautical appliances and the accommodations are large and tasteful but I already want a ship one and a half or double the size of her, and will get one at the end of my first voyage in the 'Lass,' which is to Buenos Ayres with general cargo."

ST. JOHN NEEDS COAT OF PAINT

Visitors to the City Say St. John Should Cover Its Shabbiness—Painters Say There is Scarcity of Paint Oil.

Some people have been arguing that now the war is over and the Prince of Wales coming, St. John should get busy and give itself a coat of paint, which on the whole it needs rather badly. At St. John manufacturer who was in Toronto recently met a former resident of this city, and about the first thing the visitor did was to comment upon St. John's need of a coat of paint to cover up its shabbiness. He was here last night and there were many prospects of getting an immediate order, and the price was prohibitive.

ST. JOHN'S GREATEST MERCANTILE EVENT

Only Three Days More, Closing Saturday at One O'clock.

Saturday will be the last day of St. John's greatest mercantile event, which is Oak Hall's Annual Midsummer Sale but there are quite a few shopping hours between now and Saturday noon, so that there is ample time to get up all the available advantages of this great opportunity.

And no doubt thousands of shoppers will weed their way to this event when they realize that everything in Oak Hall is offered at a substantial reduction, that new merchandise is brought forward every day, and that the Oak Hall guarantee stands back of every piece of merchandise sold. This guarantee is not an empty phrase but is taken seriously by Oak Hall and is interpreted to mean absolute satisfaction to every customer in every transaction.

Furthermore, the Oak Hall motto of Large Volume at Minimum Profit, assures everyone of the very lowest possible price in keeping with the quality offered. So that those who take advantage of this sale are certain to obtain merchandise of a guaranteed quality at the very rock bottom price, and no doubt, there is not a person in St. John who will willingly let such an opportunity slip by, but Saturday is drawing near, so it behooves everyone to act quickly.

A MESSAGE OF THANKS. Miss Alice K. Walker, secretary of the Red Cross, has received from Noel Marshall, chairman of the Canadian executive, the following expression of appreciation of the congratulations sent him when decorated with the Legion of Honor: Dear Miss Walker: I am just in receipt of your kind telegram of congratulations. I highly appreciate the honor conferred on me by the French Government, not so much from a personal standpoint, but as a recognition of the wonderful work done by the people of Canada through the Canadian Red Cross Society. BAN AGAINST NEW BRUNSWICK MAY BE LIFTED IN 24 HOURS

Telegram from Surgeon General of States to Minister of Health Intimates He is Willing to Lift Ban Against Province Providing No Travellers from Nova Scotia Shall Pass Through N. B. Without Being Vaccinated.

Dr. W. F. Roberts, Minister of Health for the Province, received a wire from the Surgeon-General of the United States, yesterday, in response to his telegram of protest against the placing of a quarantine against New Brunswick to the extent of requiring all passengers entering the States to be vaccinated against smallpox. The Surgeon-General intimates that if conditions in New Brunswick are as represented in the telegram of protest he will be willing to lift the ban against New Brunswick, provided the Minister of Health will undertake that no travellers coming from Nova Scotia or shipboard crews from there shall pass through New Brunswick on their way to the States without being vaccinated.

Last evening the Minister had a conference with Dr. W. L. Ellis, medical officer of the American Immigration Department here, and worked out a scheme which he expects will be satisfactory to the Surgeon-General at Washington. Dr. Roberts wired the details of the scheme embodying the guarantee asked for last night, and hopes that the Surgeon-General will see his way to lift the ban within twenty-four hours.

SERIOUS SITUATION FOR THE FISHERMEN

A rather serious situation is confronting the fishermen of this province. Prices of herring have dropped to a point where it does not pay the fishermen to catch them. The two largest sardine packing plants in the province are not yet in operation, though machines are fairly plentiful. In several sections the fishermen are idle, as there is no market for their fish. With the cost of boats, nets and everything connected with fishing operations advanced over 100 per cent, some dealers are offering pre-war prices or less for herring.

The gasperone catch at St. John this year was only about 9,000 barrels. This is less than half the usual catch. The great bulk of it has been sold, and will be sold at New York houses who usually dispose of it in Hayti. The price of gasperone in the West India market is fair, but the price of herring and other fish there is off. Meantime the people of New Brunswick who do not appreciate the value of fish as food are complaining of the high prices of meat.

Friends of Mr. and Mrs. Hugh Cullinan of Fairville will be sorry to learn of the death of their little daughter, Inez Rita, aged eleven months.
