STOP A MINUTE AND CONSIDER.

You are starting out upon a new year and it is necessary that you start right. We have frequently used this space to urge upon you the pay-as-you-go system of conducting your affairs. Begin now. This system is the sure road to better circumstances. If you want to live on Easy Street, this road leads to it. When you buy on credit your dollar is only worth eighty or ninety cents, the balance going to the man who lends you his money. When you buy for cash your dollar is worth one hundred cents and passes at face value anywhere. This store stands for cash and lowest prices, qualities considered. The broadest principles of merchandising are introduced here. Good goods. Best service. The money-back store if goods are not as represented. We are continually throwing out inducements to cash buyers, and this month will give one day's total sale for the largest purchase during the month. If this has not caught your eye, make a list of your purchases and try it. You get good value, even if you don't get the prize.

NEEDED IMPROVEMENTS

On Steamers of their lines.
Improvements to Wharves
Promised.

The Miramichi Steam Navigation Co. held its annual meeting in the Council Chamber, Town Hall, Chatham, on Tuesday afternoon. Hon. John P. Borchill was chosen chairman and M. S. Hocken secretary of the meeting.

President Borchill read the Directors' annual report which showed the affairs of the company to be in a good position. The "Alexandra," which cost nearly \$16,000, had absorbed the balance on hand last year and the money received in payment for the "Nelson," and also a little over \$908.22 of the current revenues of the season; and nearly \$19,000 was borrowed on her account, at five per cent. The earnings of the "Alexandra," "Miramichi" and "Sybilla II." for the season, including the salaries, were, however, sufficient to meet all expenses, and leave a margin of profit, the loan by the bank still remaining.

The general results of the year's business, the directors said, were not as good as they would like to show, owing to large expenditures for repairs, and they found that the necessity for practically rebuilding the "Miramichi" and putting a new boiler in her, would require a further outlay of \$4,000. Approving reference was made to the completion of the Bay du Vin and Burnt Church wharves by the Dominion Board of Works.

As to the financial position of the Company, it was shown that the assets were more than \$1,000 over the liabilities. In view of the heavy expenditures of the past year and of those recommended on the "Miramichi," the directors suggested that no dividend be declared.

There was a long discussion on Company business matters and methods, and suggestions originating with members of the directorate were approved. It was ordered that the directors have the "Miramichi" rebuilt in accordance with their recommendations, and authority was given to them to effect a loan not exceeding \$4,000 in connection therewith.

After a discussion of the methods of account-keeping heretofore followed, and in view of the company's growing business and interests, the directors were empowered to employ a competent accountant to reorganize that branch of the business.

The election of directors for the current year resulted as follows:

Messrs. J. P. Borchill, M. S. Hocken, W. B. Snowball, R. Flanagan, John Fraser, John McDonald and W. C. Winslow.

Messrs. D. G. Smith and Geo. Stothart were appointed auditors.

The subject of the public wharf at Loggieville was brought up, and it was shown that its river frontage was inadequate, while obstructions in its immediate vicinity were a source of danger to the Company's steamers. The new steamer "Alexandra" had one propeller there. President Borchill said he had made these matters the subject of correspondence with Hon. Mr. Blair and the Minister of Public Works and in response to request of the former, had forwarded sketch plans of the locality.

Mr. Winslow said he understood that the resident Dominion Engineer had been instructed to make plans, etc., and it was understood that Mr. Borchill's efforts in the matter promised to result in the necessary improvements being made.

Mr. Borchill said that the Minister of Public Works had promised that the rocks which were a source of danger to steamers and other vessels approaching the Burnt Church wharf would be removed.

At a meeting of the directors held after the general meeting Hon. J. P. Borchill was re-elected president and W. C. Winslow, vice president.

Severe Fire at Dalhousie.

Two Houses Destroyed; Others
Damaged—Only One Building
Insured.

Dalhousie, Jan. 19.—Houses belonging to James S. Harquail and Mrs. Hector Nadeau were destroyed by fire on Sunday evening. (Dr.) Disbrow's dwelling occupied by Postmaster Johnson, and Doctor Rawley, was badly damaged and the occupants suffered some loss in moving their furniture; also F. B. Troy, who occupied a fourth building. The fire originated in the Nadeau building which was occupied by three poor tenants, who lost all they possessed.

The only insurance is on the Harquail building. Great praise is due to those who fought the fire through a cold gale of wind.

HELLO! HELLO!

Newcastle Telephone System
is the

MOST UP-TO-DATE

On the North Shore—New
Instruments and good
Service.

Newcastle has a telephone service of which it should be justly proud, and which it ought to appreciate, although, we are sorry to say, it does not appear to. Instead of installing instruments for their own use, there many who use their neighbors. Is this just and right? If all such would install instruments the present subscribers would have the benefit of a larger service and the managers would also have a larger income to make needed improvements.

We would suggest that the town government consider the advisability of installing instruments in both the Power House and the Town Clerk's office. At the present time in case of fire a man would have to be dispatched to notify the engineer at the power house when to start and stop his pumps, and there is now no way of telephoning to the town hall from a distance when fire is discovered. This is only in case of necessity that such telephones would be useful, not mentioning the convenience it would be to these having business with the town clerk to be able to do such, when possible, over the phone and a hundred and one ways it would be useful. We trust the matter will be taken up at the next meeting.

This last fall the management have been to considerable expense in running a line and installing machines from Newcastle to Redbank and this line has proved of great convenience to the inhabitants along its route. Phones have been placed at the following places:

Strathadam—Mr. Robt. Adams' residence.

Huthison's Boom—Mr. John McCole's residence.

Whitneyville—Somers' P. O.

Boom Road—Mr. Wm. Forsythe's residence.

North West Boom—At Boom Co.'s office.

Redbank—Sullivan's store and White's hotel.

THE SALE IS MADE.

George Moffat's Property
Changes Hands.

PRICE WAS \$200,000

Transfer to the Dalhousie
Lumber Company,
Limited.

For \$200,000 the extensive lumbering property of George Moffat in Restigouche county and Quebec has been purchased by the Dalhousie Lumber Co., Ltd., composed of St. John capitalists.

The purchase was completed and the transfer made at Dalhousie on Saturday last. A. P. Barnhill and A. H. Hilyard conducted the matter for the St. John interests. Messrs. Barnhill and Hilyard returned from Dalhousie last evening.

The property purchased is a fine one and includes a large lumber mill and a shingle mill at Dalhousie, an excellent logging privilege, one of the best in the province, capable of handling 6,000,000 feet of lumber besides timber leases in New Brunswick and Quebec some 500 square miles in extent.

Those who make up the new company, for which incorporation has been asked of the N. B. legislature, are James Manchester, George McKean, A. H. Hilyard, Henry Hilyard and Joseph T. Knight, all of this city. Their capitalization is \$250,000. They will carry on the business as previously for the present and it will likely be extended in the future. The head office of the company will be at Dalhousie.

Y. M. C. A.

Rev. Mr. Dickie addressed the meeting on Sunday afternoon last. There was a fairly good audience and the speakers earnest talk was listened to with close attention.

The debate which was to take place on Friday night failed to materialize, as not one side showed up. An effort will be made to bring it off on Friday the 23rd. All interested will please take notice.

A business meeting of the association will be held on Tuesday night the 27th. All members active and associate are earnestly requested to be present as matters of vital importance are to be discussed at this meeting.

The meeting on next Sunday will be in the evening. Rev. A. F. Brown will be the speaker. Meeting to open at 8.30.

SMALLPOX.

The Outbreak at Rogersville
Under Control.

OVER A HUNDRED CASES.

Quarantine Being Raised
From Houses—Outlook
is Hopeful.

Years ago, the fact that smallpox existed in a town or village was enough to create a panic, and shut the afflicted locality off from all communication from the outside world. Now, although the disease has to be carefully handled and certain houses quarantined and the patients isolated, there is not enough dread of this disease to make the carrying out of proper restrictions impossible. The inhabitants go about as if it was not in their locality, and in this respect the board of health has had more or less trouble with the mild outbreak of this disease at Rogersville. At first, or until the inhabitants were made thoroughly conversant with its nature, it seemed impossible to make them realize the importance of obeying the rules as set forth by the Board, but we are glad to state that everything is now progressing favorably and if no new cases develop in the meantime, the quarantine will be raised.

Since the outbreak of this epidemic there has been one hundred and thirty three cases all but one being in houses at first quarantined.

Quarantine has been raised from six houses, including the Premier hotel, and no new cases have developed during the past two weeks. The work of disinfecting and fumigating is being carried on as thoroughly and rapidly as possible.

This quarantine has been a great setback to the bustling village of Rogersville and all will be glad when it is at an end.

Dominion Atlantic Sheds and Wharf destroyed by Fire

Boston, Jan. 19.—Practically all the fire fighting apparatus in the city proper was called to Long Wharf early today to combat a fierce blaze which broke out in the spacious sheds of the Dominion Atlantic Railway Company (the Yarmouth & S. S. Line). The sheds and most of the contents were destroyed and part of the wharf was burned to the water's edge. Several vessels were hauled out into the stream and escaped serious injury.

COAL DUTIES.

The remission of the coal duties in the United States, in order to meet temporary conditions, is an act which naturally excites much attention in Canada. Congress was apparently moved by two considerations. It sought to cheapen coal for the consumer. It sought also by making coal free of duty to facilitate its admission into the country and thus to help in frustrating the knavish tricks of the dealers, who, taking advantage of the present state of affairs in the hard coal mines, are preying upon their fellow creatures. In many Canadian quarters there is assumption that Canada will or must follow the example of the United States; but, of course, the protectionist or the man interested in coal mining is not readily convinced. The Toronto Globe, which is still the chief organ of the Liberal party in the West, seems to assume that as a matter of course there will be a remission of the Canadian duty in whole or in part. After pointing out that the mines of British Columbia will at once feel the benefit of the change by extending their market in the United States, it says that it is now within the power of the Governor General-in-council in accordance with the reciprocity clause in the Canadian coal tariff to reduce the duty to forty cents per long ton, two-thirds of the present rate, and adds that it remains for parliament to complete this provision by following the good example of Congress. "It is not argued that we should remove the duty because the United States has done so, but because it would be of great advantage to Canada," is its observation. Probably, if the United States takes off the duty and kept it off Canada, in her own interest, will be compelled to do the same. Soft coal—aside from its home uses—enters so much into the matter of transportation and consumption that the United States user of it, securing it at a cheaper rate than the Canadian will get ahead of the latter, who will be handicapped by the duty. Sir Thomas Shaughnessy, interviewed on the subject, shows that the removal of the duty will cause a large saving to the great railway which he manages; but he modestly declares that if it be the interests of Canada to keep on the duty he has nothing to say against it. Perhaps the independent observer would remark that if Sir Thomas's railway can be largely benefited by the removal of the duty the country can be, and that if there be a preference in the matter it may as well be in favor of the railway and the country as of the eastern mine owners. Mr. Pearson, of Halifax, also interviewed upon the subject, is not at all certain that taking the duty off will be of any advantage to the country. Mr. Pearson is a mine owner. So far as this part of Canada is concerned—that is to say the province of New Brunswick—the coal tax is objectionable. The fuel which is to warm and nourish the people and keep them in condition to enable them to meet the rigors of winter ought not to be taxed at a time when we are boasting of our surplus revenues—or indeed at any time. Anthracite, which is so largely consumed in the west, is free because the West insists upon having it so. Soft coal is taxed to satisfy the Nova Scotia miners who wanted it taxed. The tax is just sufficient to enable them to keep out British coal, their only competitor. This coal could be landed cheaply at all the ports of Canada, and at figures, that compelled the Canadian miner to sell his coal at

a cheaper rate than he otherwise would sell it. The tax imposed—so far as it favors the eastern producers—falls very largely upon eastern people, for there is a point west beyond which Nova Scotia coal cannot be profitably carried. This point is probably Montreal. Soft coal is used in western Canada, although hard coal, which is free of duty, much more largely consumed. The soft coal used in the West is generally a high grade article, cleaner, with less of dust, ashes, and the like, than Cape Breton coal, and the tax levied upon it is much less having regard to its value, than the tax paid by the eastern consumer.—Globe.

A GREAT ENTERPRISE.

Canadian capitalists are reaching out with great enterprise and much skill and knowledge after foreign opportunities. Sir William Van Horne's great venture in Cuba seems to have been planned with care, and executed with remarkable courage, since large outlays were made and immense financial responsibilities incurred before any legal rights or franchises had been obtained. The Mexico enterprise of which Mr. Ross is the leader, with Sir William Van Horne, Senator Cox, Mr. Pearson and others as backers is another daring departure. Mexico city with its suburbs is said to contain about a million people. The state has enjoyed a stable government for many years and capital is by no means shy of Mexican investment. Mexico city is said to be situated on the bed of an old lake surrounded by mountains, which are without waterfalls. The absence of water power has been the greatest drawback to the industrial progress of the city. Ninety miles away is a small range of mountains where there are small rivers. The engineering advisors of the Canadian company decided that it would be possible to convey the water of these three rivers across the intervening hills and valleys to the capital. It had then to be ascertained whether the enterprise would be profitable, and on this point Mr. Ross and his associates satisfied themselves. Finally it was necessary to raise the millions of money required, and to obtain from the Mexican government the concessions and franchises necessary. Mr. Ross was equal to the first task. The other was entrusted to Mr. C. H. Cahan, the Halifax lawyer who had performed similar services for some capitalists in Trinidad and Demerara in connection with street railways. Mr. Cahan has after

OUR INDIANS.

The annual report of the Department of Indian Affairs is just to hand and from it we take the following extracts:

BURNT CHURCH BAND.

The population of this band is two hundred and twenty, decrease of ten in the year. There have been seventeen deaths and eight births. One woman married and left the band. Of the total population, sixty six men and sixty women. There are forty-nine children of school age. In the spring these Indians carefully cleaned and lime-washed their dwellings and removed from their premises the filth and garbage accumulated during the winter. Their houses present a neat and clean appearance. There has been no epidemic during the year, but consumption has carried off an unusually large number.

Page Metal Ornamental Fence
Handsome, durable and low-priced. Specially suitable for front and division fences in town lots, cemeteries, orchards, etc. Retail for 20 CENTS PER RUNNING FOOT. Just about the cheapest fence you can put up. Write for full particulars. Use Page Fence and Poultry Netting. The Page Fence Co., Limited, Walkerville, Ontario. Montreal, P. Q., and St. John, N. B.

These Indians nearly all engage in sea-fishing. They also do some farming, but owing to the extreme drought last season, a very small crop was harvested. They also manufacture Indian wares.

The dwellings are generally comfortable, but small. There is a church and a school-house on the reserve, and the Indians have under construction a building to be used as a council-house and other purposes.

The greater number of these Indians have no stock. About a dozen of these Indians are supplied with farming implements.

They have one school on the reserve taught by Miss Bessie Dalton. Some of the Indians take an interest in the education of their children; others do not. Many of these live too far from the school to send their children, particularly in the winter season.

These Indians are more industrious than some of the other bands, but sickness has done much to keep them back this last year. A few have made some progress during the year. In this respect I might mention Noel Ginish, who has a farm with a good dwelling and outhouses, and is supplied with farming utensils, machinery and stock.

EEL GROUND BAND.

The population is one hundred and forty-four, an increase of five for the year. There have been six births and four deaths. Three Indians from outside have joined the band. The men number fifty three and the women thirty-six. There are twenty-three children of school age. These Indians have also been careful to remove all refuse matter and garbage gathered around their dwellings during the winter. Nearly all

have cleaned and lime-washed their houses. The health of the band has been good, except in the winter and spring, when there was a great deal of sickness, chiefly pulmonary and bronchial troubles.

Many of these Indians engaged in the lumber woods last winter and in the spring they made good wages stream driving. They also receive employment in the mills and lumberyards during the summer season. Fishing, farming and the manufacture of Indian wares are also engaged in.

Their dwellings are small. They have a church and a lock-up on the reserve. Very few of these Indians have any stock.

The school-house on this reserve was burnt a short time ago. The fire was caused by a bush fire in the vicinity. The school desks and furniture were saved and removed to a room in the chief's house, where the school has since been conducted. Miss Lucy B. Walsh is the teacher.

I regret I cannot report much progress during the year. These Indians are in very much the same condition as they were last year.

RED BANK BAND.

The population is forty-nine, a decrease of one since last year caused by the death of an Indian boy by drowning.

The health of these Indians has been good. In the spring their dwellings were thoroughly cleaned.

These Indians are engaged chiefly in farming, fishing and lumbering. Some of them make good wages acting as guides for sportsmen hunting and fishing on the upper Miramichi river. The dwellings are small but comfortable. There is a church on the reserve.

A number of these Indians own horses, but very little other stock. Four of these Indians are supplied with farming implements.

Very little attention is given to education.

The members of this band are amongst the most progressive Indians in this agency. Chief John Tenas who has recently been re-elected, sets a good example to this band in this respect.

BOARD OF TRADE.

In another column will be found a notice of a meeting of the Board of Trade to be held in the Town Hall this evening.

At this meeting numerous questions of much interest will be discussed and it is hoped that every business man who has the welfare of the town at heart will be present.

It is not necessary to have been a member of the old Board of Trade to be eligible to attend this meeting, all that is necessary is that you be in some business or profession in the town of Newcastle, and we hope the meeting will be well attended.

Among the questions to be discussed are: Re-adjustment of Insurance Rates of the town.

The formation of a company for the establishment of some manufacturing industry.

The dredging of the Northwest Miramichi.

The proposed railroad down the South shore of the Miramichi to Tracadie.

And many other questions which should have been discussed and settled before this.

True bills have been found against Supt. Woodbridge on four counts, Geo. Ernest Powers on four counts, and Norman Woodbridge on one count. These cases have resulted from the recent Deaf and Dumb Institution investigation. The three guilty parties have, through the laxity of New Brunswick's administrators of justice, been allowed to place themselves beyond the reach of justice, at least for a time.

Coal now enters the United States free of duty. An effort is being made by Upper Canadian politicians to have coal put on the Canadian free list, but the proposal is meeting with keen opposition in the Maritime provinces.

Dominion Atlantic Railway's Mild-Winter Cruise to West Indies.

At the request of D. A. R. patrons the mid-winter cruise of the R. M. S. Prince Arthur to the West Indies has been postponed until Wednesday, Feb. 11, 1903.

Mr. Wm. Stewart of Chatham spent New Years with friends here.

Miss Nellie Brown paid a visit to her home last week.

Mr. and Mrs. John McKenzie paid a flying visit to the Forks last week.

School has begun again in the Broad-albano settlement and it makes things look a little more lively.

We are glad to hear that Mr. James Dunn is recovering from his illness.

BATHURST.

We have had what we might call a touch of our old fashioned winter weather during the past week, at which considering the splendid winter we have enjoyed up to that date, no person should grumble. Since Sunday night, eleventh instant, we have had a succession of blustery snowstorms which have drifted into the roads on the most sheltered places along the coast and made travelling somewhat heavy. On the whole, however, no great quantity of snow has fallen and lumbermen report that there are scarcely three feet at any place in the woods, perhaps not over two feet on the levels, so that there is nothing to interfere with good work in the woods.

The Carquet Railway, though somewhat delayed once or twice by storms has done good work this winter, and if reports are correct traffic is fairly good on the line.

The Municipal Council has been in session during the past week, adjourning on Saturday evening. We hope to be able to give the readers of the Advocate a synopsis of the work of the annual meeting in our next week's notes, in the meantime we may say that some of the most important matters taken up outside of the usual accounts, were the making provision for the indebtedness caused by the loss of the grammar suit and the balance remaining due on the smallpox accounts. In order to provide for these two matters the Council decided to issue municipal bonds to the amount of five thousand dollars, which will bring the bonded indebtedness of the county up to about forty two thousand dollars or thereabouts, not such a large amount after all for a county with the population and resources of Gloucester and taking into consideration the splendid public building recently erected, and the bad luck the county had in the loss of a considerable amount through its late Secretary Treasurer, we consider the people of Gloucester county have reason to congratulate themselves.

We mentioned in recent notes that several of the stores in Bathurst have been broken into at different times during the winter and small quantities of goods taken. The sequel of this business is that a young man named Thibideau is now behind the bars of the county jail charged with burglary. The butcher shop of Fenwick Brothers was recently entered and some beef, hams, and smaller articles stolen, and the same night as Mr. Alec. Stout was going along the lower end of Water street, having been sitting up with a sick friend he noticed ahead of him a man hauling a loaded handcart. Thinking it was someone stealing firewood, which is a frequent occurrence of late also, he followed the sled which was hauled into a lane leading to the beach near Gt. St. John's fish-house. Hearing of the breaking into of the butcher shop the next day Mr. Stout mentioned this to Messrs. Fenwick who proceeded to the place indicated and found their beef, hams, and some of their smaller goods. Enquiry elicited the fact that this young Thibideau had given some things to a girl of his acquaintance, and the rings having been examined were at once claimed by Mr. Fred. O. Landry whose shop was also entered some time ago. We understand a quantity of liquor and tobacco was also found which is supposed to belong to Mr. Jacob White and some goods belonging to other parties. It is to be hoped that this will be the end of the business, for a bolder and more successful series of burglaries have seldom been successfully carried out and if it is true that they were planned and executed by a boy it is time the criminal was sent to a place where he can be broken of his habits while yet young.

Our drive what parties still continue—Mrs. D. T. Johnston gave a number of her friends a very pleasant evening on Wednesday last. Mrs. Henry Bishop

carrying away the prize after the usual keen competition.

Messrs. A. G. Bishop and Harold Givvan of the Royal Bank treated their young lady friends to a driving party on Tuesday evening last. The party was chaperoned by Mrs. R. McDonald, and entertained after the drive by Mrs. Henry Bishop, and the young people report a good time.

We are glad to report that Mr. Herbert Ramsay, who has been very ill is steadily recovering.

We understand that the marriage of Miss McGinley to Mr. Edward Quigley will take place on the 21st inst. Miss McGinley is one of Bathurst's fairest and most popular young ladies and Mr. Quigley is indeed the subject for congratulation.

The many friends of Mr. Walter Scovell of St. John are glad to see him again on the old route with a new house, and wish him all manner success.

Messrs. Joseph Hendersen, Michael Power and Wm. J. Laplante have been appointed assessors for the Parish of Bathurst for the coming year.

Mr. Chaplin is visiting friends in Campbellton this week.

Miss Lena Stacy has been visiting her friend, Mrs. John McAvity in St. John for the past week.

Miss Regina Burns is visiting friends in Woodstock, N. B.

It is reported that Mr. A. G. Veniot is the successful applicant for the position of junior of the Custom House and Post office at Bathurst.

The thanks of the young people of Bathurst and vicinity are due to Councilor Samuel Bishop for having secured the consent of the Council that another grand ball may be held in the new county building. The date of the entertainment has not yet been fixed but it will soon be decided upon and it is hoped the ball may be as successful in every way as the one given last winter.

The End of Uncle Sam.

Some of the Berlin newspapers—the most important ones—keep asserting the United States that there is not, never was, and never shall be any intention of questioning the Monroe Doctrine, and that Germany's designs in South America do not extend beyond the collection of that little bill from Venezuela. Some of the London newspapers abuse the Germans, and all of them insist that Great Britain should do nothing to endanger the Anglo-American tacit alliance. French, Russian and Italian newspapers give similar assurances of a desire for continued peace. Probably most of them are in earnest.

Meantime a Pan-German newspaper gravely forms a European combination for the dismemberment of the United States and divides the loot. It is worth reading: Germany will have to consider in good earnest the possibility of a conflict. Should the Germany, Austria, Italy, France and Russia jointly decide upon radically solving the American question England will also be one of the party. And there will be rich spoils; the forty-five states and the six territories would afford abundant compensation for the costly armaments. The powers will not be at a loss to partition the United States and treat it as a territory of colonization.

There we see the end of Uncle Sam. This is solving the "American question," with a vengeance. And doubtless many of the Pan-German newspaper's readers believe the spoiling of the Yankees is quite likely to be accomplished some day.

The Editor's Mail.

To the Editor of the Advocate,
Newcastle, N. B.

Dear Sir:—
I understand that Mr. Jas. Rundle, a Rabbit Shot of some reputation, has been blowing considerably lately of his prowess as this style of game. I am not given very much to egotism, but when it comes to the above mentioned sport, I think I can make your Champion look like "thirty cents" on a day's shoot, and to show that I mean business, I enclose a challenge for a match with him. I have three medals which I have won as a Rabbit Shot, and I understand he has a mug which he won in a similar contest at some time or other (probably Canada). Now, I will put my medals, and they are good ones, too, (not leather) up against his mug. Mass medals and money at Bathurst any time.

CHALLENGE.
I hereby challenge Jim Rundle to a match at Rabbit Shooting at a place to be mutually agreed upon. Should he see fit to accept, match to be one day's shooting, and for all medals and other prizes which either of us have obtained at such sport, and also from \$5 to \$25 a side.

JACK CONNELL.

U. S. CONSULS.

Acted in South Africa as Agents of
Clan Na Gael.

PAWTUCKET, R. I., Jan. 16.—Before an audience made up of members of Irish invited by the Sarsfield Association to a reception Col. John Y. F. Blake, leader of the Irish brigade in the Boer war tonight, the guest, Col. Blake, made what he claimed to be the first statement on his part as to the financial assistance given to Irishmen in the field by societies in this country. The statement came as a surprise, especially to the members of the Clan Na Gael who were in the audience and upon the platform, as Col. Blake's statement was directly addressed to that organization. Col. Blake's statement in part is as follows:

"Statements have been circulated to the effect that the Clan Na Gael appropriated \$10,000 with which to bring home the Irish brigade from South Africa. The people now are enquiring about the expenditure of that money. As I have refused to be handled by certain people in New York, malignant stories have been circulated about me since I returned to this country, and it is only recently, especially since I arrived in this section that these stories have been brought to my notice. Some of the officers of the Clan Na Gael say that the money was given to me. I understand that \$4,000 was first sent to bring home a detachment of the Chicago ambulance corps. I can state positively that that is not the fact. The Boer government paid the passage of the detachment from Delagoa Bay to New York and supplied each man with an additional \$20. Shortly after the detachment left Delagoa Bay the \$4,000 was received by U. S. Consul Hollis at Delagoa Bay, but as the detachment sailed before the money arrived Mr. Hollis returned the money to the parties who sent it and got his receipt. After the hostilities ceased I wrote a letter to Hon. John F. Finerty of Chicago, ex-congressman and an old friend, and requested him to forward me \$3,000 if he could raise it, from South Africa. I told him that the money would be paid back in full with interest. Some time after writing that letter to Mr. Finerty, I, being a prisoner of war, was allowed by England to leave South Africa. I took 22 men to U. S. Consul General Gordon of Johannesburg and gave Mr. Gordon a power of attorney, that as if the money came from Mr. Finerty, the United States consul could use it in sending the men back to America. I borrowed \$750 from a personal friend in South Africa and started for Cape Town on Sept. 9, 1902. I received word from U. S. Consul Gordon that the money was received all right. I sailed away from Cape Town on Sept. 10. I arrived in New York on Nov. 12, and there the members of the detachment met me and told me that the \$3,000 had been received by U. S. Consul at Pretoria right after I left. I was surprised to find that the \$3,000 had been received from the Clan Na Gael instead of from Mr. Finerty. I found on my return to this country that certain men had sent the \$3,000 in order to make trouble for Mr. Finerty and to make amends for their own inaction and opposition to sending men to South Africa. Out of the \$3,000 the men of the detachment informed me they received second class passage and each took \$25 expenses, and that U. S. Consul Gordon returned \$131 to the Clan Na Gael. I know nothing of what became of the other \$4,000 which was sent previously and returned to its owners by Consul Hollis."

Col. Blake in his statement criticized the action of a number of men prominent in the Clan Na Gael.

EDITORIAL NOTES.

Don't forget that meeting of the Board of Trade this evening and go resolved to do your utmost to advance the interests of the town.

Newcastle and Newcastle's business men have remained dormant too long, now let us get an extra hustle on and endeavor to make 1903 the best in our history, and the commencement of an era of prosperity.

In another column we publish an article from the N. Y. Fishing Gazette which will bear investigating. Its statements in reference to the decrease in catches is correct, but has it given the right cause? At any rate it would bear looking into. If this order of progress continues in five years the Miramichi smelt fishing will be a thing of the past and a very valuable industry will be lost to our fishermen.

THE JURY CANNOT AGREE.

The Latest Phase of the Goodspeed Case.

Jury Do Not See Alike as to Boy's Guilt. Sent Back by Chief Justice for Further Deliberation.

St. Joh, Jan 13.—The jury in the Goodspeed case have announced their failure to agree upon a verdict and have sent back to the room for further discussion. They retired to consider their verdict at 23 minutes to one to-day and at 2.30 reported they had found it impossible to agree. At 2 o'clock they sent down for refreshments, saying that they were making but little progress and might be occupied the whole afternoon. A refusal of the Chief Justice to grant their request accelerated their deliberation and half an hour later they decided to give it up without parleying any longer. The Judge would not accept this, however, and sent them back for further deliberation. There is no prospect of an agreement.

GOES TO REFORMATORY.

Fred Goodspeed Gets 3 Years and 3 Months.

When the court opened this morning Chief Justice Tuck requested that Frederick Goodspeed be arraigned on the charges of breaking and entering Phillips & Foley's and David H. Kennedy's stores. Goodspeed was placed in the dock a few minutes after eleven o'clock and the indictment read to him by the clerk, to which he pleaded guilty. His Honor stated that certain facts had been brought to his notice this morning and on that account he would defer sentence till the afternoon session. It has been definitely decided by the crown officers to let the charge over which the jury disagreed drop entirely. As there were nine men for acquittal out of the twelve it would seem there was a good foundation for deciding in this way, inasmuch as if another trial was had and the same difficulty encountered it would be needless expense to this county. Then, as it is impossible to give the lad sentences of fourteen years for each offence to which he has pleaded, twenty-eight years in all, the ends of justice would no doubt be met.

Chief Justice Tuck this afternoon sentenced Fred Goodspeed to three years and three months in the reformatory. In imposing this sentence the Chief Justice said it had at first been his intention to send Goodspeed to the penitentiary and this morning he thought of that, but since then some things had been drawn to his attention, including the reformatory and he had decided to send him there rather than to the penitentiary. The Chief Justice gave Goodspeed a severe talking to, pointing out in what danger he had stood because of his bad companions. He disagreed with the action of the government in commuting the sentence of Higgins and said he believed the law should have been allowed to take its course. He advised Goodspeed not to try and get away from the reformatory, but to stay there his full time and take advantage of all the opportunities afforded him to get an education. He advised him to be a good boy and when he came out to be a good man telling him he had the qualities that could make him such.

Bridget was engaged to be married to a young plumber, Terence Dolan by name, and when, two weeks before the day set for the wedding, she fell down the cellar stairs she was in the depths of woe.

"I've broke out one of my front teeth," she wailed to her mistress, "and my teeth has been my best beauty, ma'am! Manny's the time Terence has had me show 'em to his friends and remarked how fine they were! Oh, whag'll I do? What'll I do?"

"Doll Terence all about it when he comes tonight, and I'm sure he'll say he's only glad you were not more severely injured," said her mistress, but Bridget shook her head and refused to be comforted.

"I would be better for me if I'd broke some of my bones," she said gloomily, "and maybe all of 'em."

That evening after Terence had come and gone Bridget appeared before her mistress, the gloom gone and her face set in a broad smile.

"I told him all about it," she said gayly, "and he says to me, 'What's a tooth more or less when it comes to cookin'?' he says carelessly and passed on to Cassidy's wake as if 'twas no matter at all!"

A Fish Story.

"Talk about fish and things of the sea!" said he who claimed to be a seafaring man. "Twas in the year—well, it was a good while ago and we were floating somewhere around—well, one of the oceans. One day we were heading south by south-west, latitude—I forget exactly which—when a ripple in the water suggested the presence of a shark. You can always tell a shark by its ripple. He's got one of his own. We never landed a good specimen, and when he showed his head I could well tell he was a ten footer. I always was quick and precise. A knife in the mouth, a jump, and I landed headforemost between the shark's jaws. Quick as a flash I turned around. With me knife I cut holes through his sides for my legs and arms to pass through and swam back to the ship. Well, he was a fine morsel, that fish was, and we lived on him for weeks. Is it true? Well—and he displayed a splinter from the handle of the knife.

The Racing Camel.

The ordinary camel, which will never hurry under any circumstances, has been transformed in southern Algeria into an animal so different in size, temper and appearance that it may almost be looked upon as a different race. This is the racing camel, prized for its speed. The result of many generations of careful breeding, which has been encouraged by valuable prizes, it can be depended upon for nine or ten miles an hour, which it can keep up for sixteen or seventeen hours, almost without a stop. Its value is five or ten times that of the beast of burden. The camel races are popular sport and are made exciting by the evident interest of the creatures themselves in winning.

Severe Pains in Left Kidney

Mr. Ellis Gallant, Paquetville, Gloucester Co., N.B., writes: "I feel it my duty to write you, as I have received much benefit from the use of Dr. Chase's Kidney-Liver Pills. I was taken three years ago with a pain just below the ribs of the left side, and right over the kidney. At first it did not cause me much suffering, but a year ago the pain, at times, was very severe."

"After hearing repeatedly of the value of Dr. Chase's Kidney-Liver Pills, I decided to make a trial, and after using two boxes the pain had completely disappeared and I am well, thanks to this remedy. I have also used Dr. Chase's Ointment, and found it worth its weight in gold. You may publish this letter if you like, as it may induce some other sufferer to profit by my experience."

You cannot possibly make a mistake in using Dr. Chase's Kidney-Liver Pills for derangements of the kidneys, liver and bowels. It has proven itself worthy of the most hearty endorsement of thousands of people. One pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Why did you let that collector in here? Why didn't you tell him I was out of town?

A FAMILY NECESSITY

"Owing to artificial modern life, almost everybody suffers more or less from constipation, torpid liver and sluggish kidneys, and as Dr. Chase's Kidney-Liver Pills are the most prompt and thorough cure for this derangement, they have come to be considered a family necessity. Hosts of families would not think of being without them. One pill a dose, 25 cents a box.

Who are your most prominent citizens here? Inquired a visitor.

We ain't got no prominent citizens, responded a native of the place.

Haven't got any?

Nope. We ain't never lynched nobody here yet.

HAMILTON'S PILLS CURE CONSTIPATION

I shall always be grateful to the man who invented hammocks, remarked the confirmed bachelor.

Why so? Inquired his friend.

When I was young and foolish, I was just on the point of asking a girl to marry me when the hammock we were sitting in broke down and interrupted me. I saw the girl again a few days after and that's why I am so thankful.

The Country. An Epitome of Events Gathered by ADVOCATE Reporters

TRACADIE.

TRACADIE, Jan. 5.—A good concert was given yesterday (Sunday) night, by the orphans of the convent. There was a good number of these young actors on the stage, and every one seemed to be an expert in his line.

Dr. Doron has arrived to-day (Monday), with his family from Tignish where he had gone to spend his holidays. He is to reside in Tracadie with the intention of having a drug store. We wish him every success in his needed enterprise.

Mr. James Smith, teacher, of Inkerman, is at the convent this week.

Miss Laurette Cormier is back from Carquet, where she has spent her holidays.

The merchants report a very good Christmas and New Year trade, owing perhaps to the good roads, which afforded an opportunity for the people of the vicinity in making their shopping, and our cheap cash stores.

The schools are to open on Wednesday the 7th.

A dancing party was held at the American Hotel, on New Year's eve. Many of our fair ones enjoyed a merry time. There was excellent music and singing; also tea was served to all.

Rev. F. Daniel, priest of the Lizeretto, left to-day for Pokenouche.

Mr. Alfred J. Witzell, teacher, of Carquet, was down here last week.

Mr. Edward O'Brien, teacher of the albert school, is back from Bathurst—World.

MILLETON.

Millerton, Jan. 13.—On Monday evening Jan. 4th, the Nelson Division presented Mr. Geo. W. Miller with a handsome traveling case and address on the eve of his departure to Nova Scotia. Mr. Miller was ever a faithful member of the Division and his memory will remain verdant. Mr. Miller made the following reply.

To the Nelson Division No. 49.
Dear brothers and sisters, I hereby express my thanks to the members of Nelson Division, S. of T., for the gift handed to me by Rev. MacLeod on behalf of the Division and also for the complimentary address accompanying it. I have never regretted joining the Division. It has been a place of instruction and pleasure for me and I miss the weekly meeting very much believing that I shall always remain a member. I wish you all a Happy and Prosperous New Year.

Yours fraternally,
G. W. MILLER.

WHITNEYVILLE.

There was a heavy fall of snow on Saturday evening which made the roads in a very poor condition for driving.

Miss Eliza McCormick of Newcastle is visiting relatives here.

Mr. Jared Blackmore of Cassils is spending a few days with her daughter Mrs. Gregory Dunnet.

Miss Myrtle Whitney spent Sunday at her home here. She was accompanied by Miss Mary Mullin.

Mr. Mullin Sheard spent Sunday at his home here.

Mr. Grant Forsythe who is working at the Renous Bridge spent Sunday at his home here.

Mr. and Mrs. Gregory Dunnett are receiving congratulations on the arrival of a baby-boy.

Mr. John Brooks of Newcastle paid a flying visit to this place last Wednesday.

Bass has been very scarce lately but it is to be hoped there will be some soon. The fishermen are nearly discouraged.

School has begun again, Miss O'Brien of Williamstown is teaching here and Miss Crocker of Derby is teaching in Allison Settlement.

Mrs. R. Lingley of Newcastle and Miss Laura Morrison of Chatham spent Friday with friends here.

Rev. A. F. Brown held a prayer-meeting in the Baptist Church on Friday evening last.

Miss Lounsbury and Miss Richards also visited this place last week.

Rev. J. D. Murray and Mrs. Murray have returned home after spending some time with relatives.

DERBY.

The following address accompanied by a purse of 20.00 in gold was presented to Mr. D. Harrigan at the close of the C. Endeavour

in Derby on Dec. 30th 1902. Mr. Harrigan made a pleasing and suitable reply.

Dear Mr. Harrigan,

It affords me much pleasure to represent the committee and on their behalf to present you with this slight token of their appreciation of the praises worthy manner in which you have discharged the responsible duties appertaining to your position.

You have always taken a persistent interest in our welfare and hour after hour we have tried your temper and your for bearance.

That you may long continue in the service which you have so faithfully attended is the wish of your many friends. With this souvenir let me on the part of those whom I represent wish you health happiness and prosperity in the New Year.

Signed on behalf of the Sunday School and Christian Endeavour.

SEVOGLE.

Not seeing any notes from this place for quite a while I thought I would write you a few.

The weather here now is very severe and we had quite a fall of snow which rendered the good road in a poor condition.

We are glad to see Mr. and Mrs. Jeremiah Copp who spent the summer in Newcastle, back again in their old home.

Mrs. Thomas Ashton who spent the summer in this place, is now staying at her father's, Mr. Thomas Shaddick's.

Mr. Herbert Phair & Sons are doing quite a large business lumbering on their own ground and Mr. Russell Ward of Wayerton is hauling the lumber to the river.

Mrs. Peter O'Shea is visiting her cousin Mrs. James Matchett.

Miss Maggie Esty is staying at Mr. Wm. McLean's.

Mr. and Mrs. Hiram Harris are receiving congratulations on the arrival of a son.

We are very glad that our school is going again although the majority of the rate payers were determined that it wouldn't, and we are equally glad to see our esteemed teacher, Miss Stella O'Shea with us again.

Miss Lily Esty was visiting Miss Nellie Fitzgerald last week.

Miss Mary Esty of this place is staying with her aunt, Mrs. Alfred Nowlan of Redbank.

We regret to say that Mr. Patrick Hurley lost a very valuable dog.

Miss Emma Highland of Redbank is visiting at her aunt's, Mrs. John O'Shea.

LOWER LUDLOW.

The Rev. Mr. Ramsey, Methodist minister of Boiestown, preached at Doaktown on Sunday morning at 11 o'clock and in the afternoon in the McNamee School House at 3 o'clock. He preached to a large congregation at both places.

Mr. Herbert Long had the misfortune to cut his foot very badly while working for Mr. Lynch on Big Clearwater. He was then moved to Boiestown where he was under the care of Dr. Irvine, but he is now moved home. He is not able to sit up in bed from the effects of the cut.

Mrs. Alice McCloskey of Boiestown made a flying visit to Carrols Crossing one day last week.

Messrs. Peter and Richard O'Donnell are doing good work at bringing out bark to the Railway line to be shipped aboard of the Canada Eastern train. They expect to finish hauling this week.

The Rev. Mr. Clarke, Presbyterian minister of Doaktown, preached at Carrols Crossing on Friday evening. He is much liked by all who know him.

Messrs. Alexander and George O'Donnell are doing extra work on Burnt land brook for Mr. Richards of Boiestown. Our cook Mr. Earnest Miner is doing good cooking.

A BOY DID THE TRICK.

He Caused a Fatal Train Wreck.

Serious Coasting Accident—Pugilist May Die as Result of Knockout.

Cumberland, Md., Jan. 16.—An eastbound express train on the Baltimore & Ohio R.R., which left here at 4:20 o'clock, struck two freight engines on the main track at the east end of the yard. Engineer Sims, fireman Moran, and Smeering of the passenger train, and engineer Butler, of one of the freight engines, were killed. None of the passengers were injured.

A messenger boy who was in the telegraph office threw the signal without the knowledge of the operator, giving the passenger train a clear track, when it should have been blocked. This caused the wreck.

Scranton, Pa., Jan. 16.—Eight young persons coasting on a long sled on the Mulberry street hill last night were hurled against a telegraph pole by the sled striking a smaller sled. All were seriously injured, and three probably will die.

Chicago, Jan. 16.—Fire destroyed a large manufacturing block to-day at Canal and Madison streets, causing a loss estimated at \$100,000. Guests of the Grand Central Hotel adjoining were panic stricken and many fled in a scant attire to the street, but the hotel was not injured. Among the heaviest losers are the Simmonds Mfg. Co., P. F. Gump & Co., Eureka Mfg. Co., and the Western Brass Work.

New York, Jan. 16.—The commissioner of immigration at Washington has appointed five female

inspectors to look after certain young women who arrive here from Europe and are alleged by representatives of the Women's Christian Temperance Union to be met at the docks by "deceys" and lured to disreputable houses.

San Francisco, Jan. 16.—The condition of Frank McConnell, a pugilist who was knocked out by Spider Welch in a prize fight last night, is extremely critical to-day. He has not recovered consciousness. McConnell is a sailmaker and is said to have been the sole support of his mother and four small children.

Watertown, N. Y., Jan. 16.—Joseph Goker aged 35 of Ottawa, Ont. employed by the old Sterling Iron and Mining Company of Antwerp, was blown to pieces last night by a premature explosion of dynamite while preparing for a blast. The man's head and limbs were literally torn from his body.

Paine's Celery Compound

Will Banish Your Neuralgia.

Read The Strong Testimony of a Gentleman Who Failed With Doctors and Ordinary Medical Prescriptions.

Neuralgia, rheumatism and a general rundown condition, result directly from an impoverished and famished nervous system.

Paine's Celery Compound quickly corrects this faulty condition. Being a true nerve food and restorer, it builds up the nervous system and fully sustains it. While Paine's Celery Compound is working at the root of disease (the nerve center), bracing and building up the weakened and irritated parts and purifying the blood, neuralgia, rheumatism and pain are expelled forever from the system. Dr. Phelps' wonderful prescription for every health and happiness into thousands of homes; it is what you need for your present troubles; it makes sick people well and strong. Mr. William Gentry, West Union, Que., writes as follows:

I have had several attacks of neuralgia. It kept on increasing—getting worse, and I tried all the doctors for help, and took all kinds of medicine and I got so at last that I could not sleep at night. I saw an advertisement of Paine's Celery Compound and I went and bought a bottle, and it cured me of all pain, and I now rest as well as ever before in my life. I would not be without Paine's Celery Compound if I had to pay fifteen dollars a bottle for it.

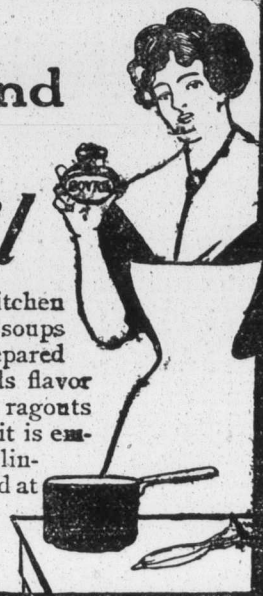

So you have decided to spend the summer in the country this year? No, sir; I have not. My wife has decided it.

The county council is in session.

Sunday night was a bitterly cold one.

We want fifty loads of green and dry wood at the Advocate office at once.

Congratulations to Mr. and Mrs. James Parks of Redbank on the arrival of a son, on Jan 3rd.

One of the oldest inhabitants of the Miramichi, an Indian aged about 95 years, fell on New Year's day and fractured his hip.

Ladies' combination Rubbers and overstockings only \$1.00 at McMillan's Shoe store.

We have received a number of very pretty calendars among which are ones from John Ferguson, Esq., Confederation Life and The Shoemaker Co., of Philadelphia.

Rev. Mr. Forbes will address the prayer-meeting in St. James Hall on Wednesday evening. His subject will be Foreign Missions. It is hoped that a large gathering will meet him.

The Advocate extends to the County Councilors at present meeting in Newcastle the use of its office at any time. They can look over our exchanges, write letters or reports or sit and have a comfortable chat. Come in and bring your work and pipes with you.

The regular annual business meeting of the Southwest Boom Co., was held in the office of the Secretary, Newcastle on Thursday, January 16th. Allan Ritchie was chosen President and Messrs. E. Hutchison, W. B. Snowball, Jas. O. Fish, Wm. Richards, W. A. Park, R. R. Call and T. Lynch were appointed directors. Nothing but routine business was transacted.

Is there any way we can impress on the minds of our readers that unless their names accompany any personals or notes that we cannot publish them. Nearly every week interesting notes and news are consigned to our waste basket.

The officers and non-commissioned officers and men of the 12th Field Battery, Col. Maltby, commander, will be pleased to learn that they have taken fourth place in general efficiency in the Dominion. Considering the advantages enjoyed by this battery they are to be complimented on the standing as there were sixteen competitors, many having facilities not possessed here. The points were 420 out of a possible 504. A total of 477 was the highest mark.

The market for alewives is very unsatisfactory, the price being less than one-half what it was two years ago. The catch this year was not unusually large, and the fact that the dealers are not making profits is due to the conditions of the Southern markets. St. John, N. B., dealers have been selling at \$2, and as they were barreled earlier in the season when the price was higher, they cost considerably more than this figure. There is very little demand for alewives other than for export, the local taste not favoring them except when fresh or smoked.—N. Y. Fishing Gazette.

We have just had placed in our office, a new long distance telephone, so our friends can call us up when they have anything of a newsy nature for the Advocate. Also so our merchants can let us know their needs, when they will be carefully attended to. Our number is 414-69.

Richmond Review: The report of the Board of health submitted to the Council shows that there have been five hundred and thirty cases of smallpox in Kent county during the year. About three hundred cases were attended by Dr. D. V. Landry and the rest by Dr. Keith. They report that the disease is now pretty well under control, ten houses only being under quarantine in Wellington and one in Welford. It is more than a month since any new cases have broken out. The total expense on account of smallpox up to the end of the year is in the vicinity of \$8,000. Complaints laid before John Hutchinson, J. P., at Buctouche against several citizens of the town for violation of quarantine regulations came up for hearing last Friday. The parties acknowledged the offence and were each fined \$20 and costs. The costs were paid and fines allowed to stand.

It was 19 degrees below zero yesterday morning.

Mr. William J. White who married Miss Clara Sheehan of Barnaby River, was a native of Newcastle, N. H., not N. B., as in our last issue.

The mercury was said to be 22 degrees below zero Monday morning and the wind was blowing from the northwest which made the weather piercing cold.

Mr. Wm. Mitchell, of Mitchell & Russell, met with an accident last Friday whereby two of his ribs were broken.

The smelt fishery of the Maritime Provinces has been fairly good up to a few days ago, and the prices attained generally satisfactory. Ten carloads have been shipped from Richibucto, N.B., already this season, besides a large number of smaller lots. P. E. Island has also forwarded quite liberal shipments. Considerable complaint is made by fishermen at the manner in which the smelt fishing is being prosecuted on the Miramichi. It is claimed smelts are becoming exhausted in this particular locality, and attention is drawn to the very limited catch of the last few seasons as compared with that of ten or fifteen years ago. At the mouth of the river barriers of nets are said to be erected extending for miles across from the islands to the mainland, the nets being set close and forming a fence, preventing the entrance of fish. The law is that no net shall be set at a less distance than 200 feet from the one adjoining.—N. Y. Fishing Gazette.

BOARD OF HEALTH. VS. DR. BOURRETT.

The County Board of Health have been greatly impeded in their efforts to control the smallpox scourge in Rogersville by reason of the peculiar and careless methods of an unlicensed French doctor who has been practising there. This unlicensed practitioner, Dr. Bourrett, has been visiting smallpox patients, and, notwithstanding notice from the Secretary of the Board of Health that he must report all suspicious cases to their adviser, Dr. McDonald, he has failed to report them, and has failed to take the prescribed precautionary measures to disinfect and fumigate his own apparel, thereby endangering others and greatly increasing the risks of contagion to the community. The Board have quarantined Dr. Bourrett and all other inmates of the Poirier Hotel, Rogersville, for 21 days. Special constables are guarding the hotel night and day.—Chatham World.

ANOMALY AT ROGERSVILLE.

The Kent County Board of Health liberated Thaddeus Arsenau, his family and house from quarantine on the 6th inst. Dr. Bourrett, who attended him, is yet to quarantine with his family, Poirier's family and their residence. Why? Such an anomaly is inexplicable. The three special constables are yet watching the microbes day and night, for fear they might escape the Poirier house and fly into "glass houses." Surely they must be dealt with terror by this time, if not drowned in fire water, Poirier hotel is under the jurisdiction of the Northumberland Board.—Times.

Editor Times: Finally Mr. Bourrett, quarantined for twenty-one days, the full penalty, for having attended one case of supposed smallpox in Kent county, is liberated. He comes out of the ordeal with flying colors, with a new feather in his cap having restricted to one single case the disease in the Arsenau house and prevented contagion outside without special constables. He has accomplished what no other doctor has yet been able to do since the disease appeared. He well deserved punishment for having thus put some of his charitable brethren in the shade. The three special constables, who so faithfully and so heroically saved the city of Rogersville from the terrible bug bears, have left with their laurels.—Cor.

GOV. TILLMAN IN JAIL.

COLUMBIA, S. C., Jan. 16.—Lieut. Gov. Tillman took things quietly and calmly during the day in the county jail, where he had a comfortable room on the second floor. He had some new furniture brought to his place of confinement and made himself comfortable. Some visitors called on him, but most of the day he spent in consultation with his lawyers, Congressmen Geo. W. Croft, former Judge O. W. Buchanan and Coleman L. Blaise.

Two of his counsel gave out the following statement prepared by Mr. Tillman in response to a telegram from a New York newspaper:

"I can only say that when the truth of the unfortunate affair is known, my friends, as well as the people, will know how thoroughly I was justified in acting as I did."

"The statements already published in the papers are untrue, and at the proper time I will be prepared to show. Beyond this I do not care to make any further statement."

INFORMATION WANTED.

Alexander Fraser Dies at Waiki, Auchland.

Small Estate Left for Heirs

The Advocate has received a communication from the Public Trust office, New Zealand containing the information that Mr. Alexander Fraser, supposed to be a native of Canada and to whom the Advocate has been sent by a Montreal friend for a number of years, died at Waiki, Auchland, on June 27th, 1902, and that office holds in trust a small sum of money and some jewelry for his heirs.

The Advocate will forward any letters to said office if stamps are enclosed.

Northumberland Politics.

The Chatham World always ready to publish rumors has the following: "There will, we are sure, be an opposition ticket in the field for this county. The strong feeling against the government demands it. It is probable that Dr. Morrison, T. W. Piatt and George Watt will be on the ticket. The names of several good men including Ald. Murdoch, are mentioned as likely to complete the ticket in case Mr. Morrison should adhere to his purpose of not entering the local contest as a candidate."

The Advocate asked Mr. Morrison if this was correct and that gentleman assured us that he had not given the matter a thought and he had never expressed himself as being a prospective candidate or did he authorize any one to make such a statement in his behalf.

EDITOR GONZALES

Dies from the Effect of Shooting by Governor Tillman.

COLUMBIA, S. C., Jan. 19.—Editor Gonzales, who was shot last Thursday by Lieutenant Governor Tillman, died today. Late this afternoon an inquest on the body was held after which the body was taken to the residence of the deceased. Tillman received the intelligence without any expression and showed no emotion one way or the other. He refused to make a statement. To-night the whole city is in mourning and telegrams of sympathy have been pouring in from citizens, north and south.

This Always Tells It

Read the character of a drug store in the record of its prescription department. All that a drug store is or does or aims to do, finds expression there.

The accurate filling of prescriptions with drugs of known purity, and at just prices, is the first and highest mission of a pharmacy. A large prescription business is the highest testimonial a store can have; it implies confidence on the part of both public and physicians.

Such a business we have. We want you to benefit by our splendid service, and we promise to make the price right.
