BARNABY RIVER MAN KILLED SUNDAY BY OCEAN LIMITED

A sad and shocking accident occurred Sunday afternoon on the C.N.K. near Barnaby Station at 4:29 o'clock. The unfortunate man was Abraham Thompson, a Norwegian by birth but a resident of Barnaby River for 29 years. It is thought that the man sat down on the track and had fallen to sleep, as when the engineer of the Montreal Bound Ocean Limited rounded a curve a short distance away, he saw a man on the track apparently asleep. He immediately blew the whistle and applied the brakes, but the distance was so short in the next instant the train struck and literally ground the man to pieces.

When the train was stopped and the body picked up, it was found that both legs, one arm and the neck and back were broken, and the head badly crushed, while bones were protruding through the flesh in many places.

The body was brought into Newcastle and Coroner F.J. Desmond was summoned to view the remains. Engineer Morrison and Fireman Melanson, both of Moncton gave their testimony, which showed that the whistle had been blown as usual for the crossing as the train was nearing Barnaby River; also that when they saw the man the whistle was again blown and that everything had been done to stop the train in time, but the distance was too short.

In view of this evidence Coroner Desmond decided that an inquest was unnecessary and gave the body in charge of Maher Bros. of Chatham, who took the remains to their undertaking rooms and prepared it for burial. The funeral was held from Maher's undertaking rooms in Chatham yesterday afternoon at 4 o'clock to Riverside Cemetery, the Rev. F.A. Littlejohn officiating.

Abraham Thompson, the victim of the sad accident, resided in Barnaby River for some 29 years and was employed by Mr. Richard Gill of that place. He was a faithful employee and highly respected by all who knew him. He was 49 years of age, unmarried and his father is Andrew Alexander Thompson who resides in Norway.

TRAVELLING FAST

"Foreign" cars coming to town have been travelling lately, at a high rate of speed. A few days ago a car coming down King's Highway at a killing rate, suddenly applied the brakes and a pedestrian was asked "Is this Blackville?" "No sir. By the looks of things you came through Blackville and didn't see it."

FUNERAL OF LATE ROBERT A. N. JARVIS

The funeral of the late Robert A. N. Jarvis took place Friday afternoon from his late home and was very largely attended, representatives from all walks of life being present. It was under the auspices of Northumberland Lodge No. 17 F. & A.M. and the Masonic burial service was conducted at the grave.

Rev. W.J. Bate, assisted by Rev. F.H. Littlejohn of Chatham conducted the service at the home and the Methodist choir assisted by Mrs. Theodore Bell and G.Y. Mersereau of Chatham were present and sang the following hymns: "Abide With Me," "Unto the Hills" and "Asleep in Jesus"

The pallbearers were—LeRoy White, P. Russell; Waldo Crocker; Harry McLean; S.A. Gremley, and Chas. Rae. The chief mourners were Ambury Jarvis, Newton Jarvis, Theodore Jarvis, Gooderich Jarvis, John Copp, Jack Copp and Allan Allen Alexander.

The floral tributes were very beautiful and were as follows:—Broken Circle, "Daddy"—Wife and children; Broken Circle—Mr and Mrs. Newton Jarvis and family; North Devon, Crescent—Mr. and Mrs. John Copp, Miss Jennie Copp, Jack Copp; Wreath—Mr. & Mrs. H. Austin MacNeill; Flat Bouquet—Mr. and Mrs. Duncan Williston and family; Crescent—Mr. & Mrs. Arthur Copp; Crescent—Mr. & Mrs. Hiram Copp, Chatham; Wreath—Mr. & Mrs. Allan Williston, Blackville; Wreath—"Bob"—Mr. & Mrs. Thos. Petrie, So. Brewer, Me; Spray of American Beauty Roses—Mr. & Mrs. F.A. Gilbert, Hampden Highlands, Maine; Basket of Roses—Mr. & Mrs. Walter Davis, Misses Lois Theall and Marie Lloyd, So. Brewer, Maine; Flat Bouquet—Mr. & Mrs. Guy Mersereau, Chatham; Spray—Mr. & Mrs. Geo. Masson, Moncton; Spray—Mr. and Mrs. H.H. Stewart, Sunny Brae; Wreath—Mr. & Mrs. P.J. Maloney, Rogersville; Cross—Mr. & Mrs. Percy Brown; Spray—Mr. & Mrs. F.T. Pritham, Fredericton; Bouquet—Mr. & Mrs. Thos. Davis; Bouquet—Hudson and Elmer Taylor; Spray—Mr. & Mrs. Thos. Jeffrey and family; Masonic Emblem—Northumberland Lodge No 17 F. & A.M.; Wreath Mens' Club of Methodist Church; Wreath—"The Daily Gleaner" Fredericton; Wreath—"Telegraph-Journal and Times" St John.

Interment in Miramichi cemetery

JUNIOR TENNIS TOURNAMENT

Members of the Newcastle and Chatham Junior Tennis Clubs will play a friendly tournament on the courts here Wednesday afternoon and a return tournament will be played in Chatham on Saturday afternoon.

FIREMEN TO HOLD DANCE, WEDNESDAY AUGUST 20th

The Newcastle Fire Department intend holding another Social Dance in the Town Hall on Wednesday, August 20th. Their last dance held here on Circus night was a grand success in every particular, not only from a social standpoint but also from a financial one. The money raised by the firemen in this way comes back again to the citizens of the town in the way of purchasing fire-fighting apparatus, which otherwise would have to be purchased with town funds, which necessarily would have to be borne by the citizens in the way of taxes. Last month the Fire Department was able to procure a motor truck, which will be a great improvement over the old method of attending fires by means of horses and hose reels. The department wishes to be able to make a further payment on this truck in order to keep the appropriation for the Park and Fire Committee on the right side of the ledger and there are a few minor items which they require to put the equipment in first class shape. To provide these wants the firemen intend holding a dance in the Town Hall on Wednesday evening, August 20th and while securing the necessary funds they at the same time give their patrons an enjoyable evening at a very low price of admission.

Everyone who attended the Firemen's Dance on July 17th thoroughly enjoyed themselves and were well satisfied in every respect. The firemen are even going to attempt to beat their last dance and if they do so "they have to go some." Nevertheless they intend trying, so you may be assured of having a real good time. Like their last entertainment, there will be dancing on the upstairs floor and the old-fashioned dances on the downstairs floor, such as lancers, quadrilles etc. Two orchestras will be engaged to furnish the music and one admission fee will entitle the holder of the ticket to enjoy dancing on either floor. The price of admission will be the same as before—Ladies 50 cents and Gentlemen \$1.00. Be sure that you purchase a ticket whether you attend or not as it is all for the good of the town, but the firemen would much prefer to have you attend. Don't forget the date and make no other appointment for Wednesday, Aug. 20th.

BEAVERBROOK COMING TO NEWCASTLE

Quebec, Aug 9—Lord Beaverbrook who arrived here yesterday on board the Empress of France and is a guest at the Chateau Frontenac with his two sons Hon. Max Aitken and Hon. Peter Aitken and his daughter, Hon. Janet Aitken. Regarding his plans in Canada, Lord Beaverbrook said he intended to remain here for a few days and then proceed to Newcastle, New Brunswick.

Lord Beaverbrook arrived at Campbellton on the Ocean Limited yesterday from Quebec on his way to Newcastle.

P. S.

It's getting to be a regular custom now when orders come in from the West for a P.S. to be added, asking for some of Moll's Cake to be included in the carload lot of chocolates. A car for Vancouver leaving tomorrow is an example.

When a jam of logs was removed at the Millview factory Bedford Basin, an ardent angler on the staff was successful in capturing more than a dozen salmon.

The Trilby of today is an enticing biscuit in sandwich form, chocolate type.

Harry Granfield Gives Tanlac Full Credit

"My health has undergone such a wonderful improvement that I must say Tanlac is an unusual medicine and tonic," states Harry Granfield, 153 Haverty St., Toronto; Ont. "For two years past I have been troubled with indigestion to such an extent that I felt unfit for anything. My nerves became all un-done and my sleep was unsound. My energy had about all left me and I would tire out easily. "Since taking Tanlac I have a wonderful appetite and my stomach

never troubles me any more. My sleep is sound and restful and I get up mornings with renewed energy and really feel like active work for the first time in two years. I am strong for Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

TANLAC VEGETABLE PILLS for constipation, are recommended by the manufacturers and distributors of Tanlac.

HOW TO BORROW

There are three principal ways of borrowing. You may borrow on your note, you may deposit collateral with the bank or you may borrow on your accounts receivable by assigning them to the bank. The latter method is not considered to be as good practice as either of the others and is not used very much by the average small business man.

By far the most popular method of borrowing is on your note, either signed only by yourself or indorsed by some responsible person to whom the bank can look for payment. In the event that you cannot pay it yourself. The proper way to borrow on a note is this:

Decide first why you need the money and make sure that the need is real. Determine how much money you will need and estimate as closely as possible just how long it will be before you can pay the money back. Then prepare a careful financial statement of your business.

This statement should contain an itemized account of your resources, such as cash on hand and in bank, accounts receivable, notes receivable inventory at cost, work in process not delivered, furniture and fixtures, machinery, real estate etc. including everything of value that could be converted into cash if necessary.

On the other side of the statement you must include every liability such as bills payable wages due, notes payable, trade acceptances payable, capital stock of the company and every other payment which must be made.

The important thing to remember in making out a statement of this kind is not to kid yourself and not to try to kid the banker. It's a comparatively easy matter to pad a statement and make it look one hundred per cent. But if the banker does not find it out the falsifying will go against you in the end, for such practice is not only against the law but prevents the banker from giving intelligent judgment—and intelligent judgment is what you need more than you need the money.

Take this statement to your banker and lay all your cards face up on the table. Tell him everything, truthfully. Don't evade; don't fib.

Be free and frank in all your dealings. Your banker probably will ask a lot of questions that may seem more or less personal. Answer them. All he wants in sufficient knowledge of your problem to be able to help you.

FALSE ECONOMY

Excessive economy is equally as disastrous to the welfare of a country, its business and future prospects as the lack of thrift. In order that some may save, it is equally as necessary that others must spend. If all want to save, and none spend, the result will be that none will be able to save, as little or no business will be transacted.

More spenders have succeeded in a big way than the very careful savers. Our great mineral resources have been developed by the former class. If they depended on the latter class they would still be undeveloped. Also our great industrial enterprises were developed by men who spent vast sums and banked their faith that the money expended would bring in equally big returns.

Several classes of citizens are all more or less dependent on each other. The grocer determines to save money, resolves not to buy any new clothes during the year, and then discovers that his customer, the clothier has the same determination to save and tells him that, in order to save money he (the clothier) is going to live on oatmeal and the very cheapest foods. If the housewife decided to buy no new clothes; to make the worn-out tablecloth and curtains do another year; if the farmer resolved to buy no new implements; if citizens generally were to decide that they would not paint or build, what would be the result? A complete stagnation of business; the closing of factories; a reduction in the price of all farm products, a depreciation of property values and meagre railway traffic.

As it is just a step from the sublime to the ridiculous, such a step is taken when economy becomes parsimony. How much better would be a policy of moderate spending. If a man can well afford three suits of clothes a year, why buy only one this year, instead of the usual number? This expenditure leaves money in the hands of the retailer; manufacturer, mechanic and farmer and helps to promote comfort and general welfare.

A NEW HARDWOOD INDUSTRY

Proposed to be Established in Gloucester

Fredericton, Aug 6—Industrial development in Gloucester county in connection with which restoration of the steel rails on the railway to the Drummond iron mines, not far from Bathurst, was requested of the Provincial government when Angus McLean of Bathurst, appeared before the cabinet yesterday, is not the re-opening of the mines but a new hardwood industry.

The veil of secrecy was thrown about Mr. McLean's long confidence with Premier Veniot and his colleagues yesterday, but it was hinted afterwards that the restoration of the rails was required for the re-opening of the mines. The real purpose, it has since been learned is to establish a hardwood industry. Railway facilities are necessary for hauling hardwood supplies to the place of manufacture.

If the new hardwood industry in Gloucester County develops into a reality, it will mark another important step in the development of New Brunswick's hardwood resources, which are apparently, to be extensively exploited in the northern counties of the province. Some time ago it was reported that the Fraser Companies, Ltd. would establish a hardwood manufacturing plant at St. Leonards and there have been other prominent proposals under consideration by various lumber interests.

HUGE PIPE ORGAN

What is described as the largest orchestral organ in the world is to be installed in Hollywood Bowl, a natural open-air amphitheatre in the foothills of Hollywood. It is said that the organ will have pipes as long as 64 feet, with enough lumber in one of them to build a bungalow and that the vibration in the bass chambers will have so great an intensity that if it should strike a human being without interfering tones, it would knock him unconscious.

Crime In Canada Considered

Ottawa July 31—Crime in the more serious categories is somewhat on the decline in Canada while offences that are less grave are on the increase, according to a tabulation on criminal statistics just completed by the Bureau of Statistics covering the year 1923.

Convictions for murder declined from 19 to 15 while for manslaughter the convictions last year were 38 compared with 45 in 1922. Shooting stabbing and wounding convictions totalling 157 in 1923, show an increase of 38 over the previous year. Offences against the liquor laws have increased; while for drunkenness they are about stationary, taking the Dominion as a whole.

There were 47 murder charges during the year compared with 56 in 1922. Convictions were secured in 15 cases as against 19 the year before. There were five cases but no convictions in the three Maritime Provinces.

In drunkenness Ontario among all the provinces has the unenviable distinction of heading the list of convictions. The number grew from 10,963 in 1922 to 11,370 in 1923. In Quebec they declined from 7,103 to 6,260 in 1922 and 1923 respectively. There were slight declines in the Maritime Provinces, Alberta and British Columbia. For the whole of Canada the figures for the two years are remarkably similar, totalling 25,565 in 1923 as compared with 25,045 in 1922.

The simple, sure way to keep that schoolgirl complexion

Youthful complexions are becoming the rule—even in middle life and later years. For millions now follow a simple rule—a method you, too, may easily employ.

Do this at night

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin. Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the

pores. Rinse—and repeat the washing. Then rinse again. Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare

palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive.

All dealers carry Palmolive Soap. Try it for just one week. See how it does improve your skin. Note well the name and wrapper. Palmolive is never sold unwrapped.

Costs so little that you may enjoy it for the bath also.

Made in Canada

Volume and efficiency produce 25c quality for

Palm and olive oils—nothing else—give Nature's green color to Palmolive Soap.

A Person of no Importance

It has often been said that a groom at a wedding is like the fifth wheel to a wagon, only worse—a thing of no importance. Rather in the way, as a matter of fact. Here is a living example of the truth of this statement. Before me lies a half column account of a wedding. We know where it happened; we know the bride's full name. We read that the church was beautifully decorated with white peonies and daisies and palms and ferns. The bride, we note, wore a sleeveless georgette dress, trimmed with bands of crystal beads and rhinestones and ostrich plumes and all that sort of thing. We also note that the bride's mother, looked charming in another georgette gown—we wonder what they all wore before georgette came in; but never a word about the groom. No, not one single, tiny word. He may have been present and he may not. Anyhow he might just as well have stayed away; he and the old man and the rest of the mere males. Weddings have no place for them.

"Best Thing in the World For Delicate Girls"

Mrs. John Bennett, Boggy Creek, Man., writes: "My little girl had organic nervous trouble, could not sleep, had severe headaches and fainting spells. This went on for three years, and three doctors helped her very little. After reading of what Dr. Chase's Nerve Food had done for others, I got some for her. She is now so well that she is like a different child. She is fourteen years old and looks the picture of health."

"We have used Dr. Chase's Nerve Food for different members of the family, when recovering from 'flu' and scarlet fever, and it has always helped them."

Dr. Chase's Nerve Food

60 cts. a box of 60 pills, Edmanon, Bates & Co., Ltd., Toronto

THE BOTTOM DROPPING OUT OF THE REVENUE

The bottom is dropping out of the revenue all right. When the Government first announced its revenue changes in the Budget Speech, Hon. J.A. Sobb expressed the view that they would mean a total loss of \$24,000,000. During the course of the session some other changes were made so that finally the Acting Minister of Finance thought that the loss might total between \$25,000,000 and \$26,000,000 for the year. The loss in customs revenue he placed at \$1,225,000.

Well, the chickens are now coming home to roost and much larger numbers than Mr. Kobb thought was possible. The Budget speech was made one week after the opening of the new fiscal year and it is found that the loss in revenue during the first four months has actually \$20,000,000 on customs and excise. That is to say, Mr. Robb has lost during this time about four-fifths of the total amount he thought he would lose during the whole 12 months.

If the loss of revenue continues at the rate that has been maintained during the first four months of the fiscal year, instead of losing \$25,000,000 or \$26,000,000 the Government will lose \$60,000,000 in Customs and Excise. There is no doubt about this. The returns speak for themselves.

The customs collections supply a good example of how far out Mr. Robb was in his estimating. He expected that the loss might be \$1,225,000 for the year. During the first four months it was actually \$4,781,000 or nearly four times what he thought it might be for the whole twelve. If the rate of loss during these four months is maintained, the loss instead of being \$1,225,000 for the year will be over \$14,000,000. Of course it is impossible to say just what will happen but it is now known that in less than six months the Gov-

Say "Bayer Aspirin"

INSIST! Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 24 years.

Safe - Accept only a Bayer package

which contains proven directions Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monasieticacidester of Salicylicacid

ernment will lose in revenue as much as it expected to lose during the whole of the year.

This is an example of scientific tariff-making as understood by the King Government. This is an example of the careful adjusting of taxation to the back of business. There never was a worse example of hit-and-miss financing. If the Government had merely shut its eyes and slashed the revenue with a knife it could hardly have done worse. And it is under such conditions that business is expected to prosper.

The situation would not be so bad if expenditure were being reduced in like manner. But it is not. As a matter of fact it is higher than it was during the first months of last fiscal year. With rapidly declining revenues on one hand and higher expenditures on the other—where will the country land?

In the Budget speech the Government assured the country that stringent economy would be practised, and as an evidence of this it said: "Look at the estimates, they call for an expenditure of only \$400,000,000 this year against \$446,000,000 last year." But don't forget the camouflage. In the first place there was an additional \$6,600,000 in the supplementaries; then \$20,000,000 for branch lines; nearly \$14,000,000 for a bridge and a viaduct in Toronto and Montreal and \$5,000,000 for Vancouver Harbor. In other words the Government secured the authorization not of \$400,000,000 but of an expenditure of \$446,000,000.

SUCCESSFUL ASCENT OF MOUNT GEIKIE

Required a Steady Effort of 26 Hours

The successful ascent of Mount Geikie by Cyril G. Wates, Edmonton, Alberta; M.D. Geddes, Toronto Ontario; and Val A. Finn, St. Louis; Mo., early in July was a prodigious effort, necessitating twenty-six hours of continuous climbing to make the ascent of 10,854 feet and the return to camp in the Geikie meadows.

The party left Jasper Park Lodge on July 9, and proceeded over the Barbican Pass to the Geikie meadows from where they commenced to reconnoitre the base of the mountain, in order to survey their objective they climbed to the top of the Barbican peak, 8,000 feet high from where they could get a good view of the west face of the Geikie. They found that it would be impossible to ascend this side and on a later journey, that the north face would also defy any attempts to scale it. They therefore planned their ascent on the southeast side of the peak.

They rested for two days and on July 14 at 2:30 o'clock in the morning they began their ascent. They proceeded up a steep snow gully and up rock chimneys until finally they reached a tremendous crack in the face of the slope. Following this crack they found it led straight through to the heart of the mountain and emerged tunnel-like on the north face to where the mountain dropped a sheer three thousand feet to the floor of the Tonquin Valley. They were forced to retrace their steps. Farther up the mountain they found their way blocked by a huge chasm which could be crossed only by a snow bridge, a drop from which meant instant death. They took the chance and by lying full length on the bridge and working their way across with elbows and knees, distributed their weight in such a way that the bridge held and they crossed in safety. Higher up their climb was made perilous by rotten rocks which gave way beneath their weight and threatened to hurl them and tons of rock down the side of the mountain. Within three hundred feet of the top they found themselves on a little seven-foot ledge where the last attempt on the mountain ended in 1923. Creeping along this ledge which encircled the south side of the mountain they were able to gain footholds in the face of the cliffs and reach the top. It was four o'clock in the afternoon when the party found themselves on the peak. Here they rested for a short time before commencing their descent, the greater part of which was accomplished in the moonlight. They arrived back in their camp at 4:30 o'clock in the morning of July 15th after a steady effort of twenty-six hours.

THERE IS A REASON

When 95 per cent of the newspapers of Canada and 98 per cent of the Canadian people are in favor of prohibiting the export of unmanufactured wood from Canada—when practically all the outstanding men of the country are in favour of an embargo—when the Government's own Pulpwood Commission, in its report, states that "Canada is dissipating her woods capital more than any other nation in the world" and further, that "definite, radical and constructive steps are of transcending importance if Canada is to protect and further develop her forest industries—when the Chief Forester of the United States, Col. Wm. B. Greeley, tells us that Canada has no more than sufficient wood for her own needs, that wood shortage is world-wide, that the only country that the U.S. can possibly look to for any relief is Siberia, and further, that even that country, if the wood were available could not supply the U.S. with 25 per cent of its annual requirements—when pulp and paper mills are clamoring for locations to build new mills in Canada, fourteen having already applied to the Minister of Lands & Forests in Ontario (several wanting locations in Quebec, four in New Brunswick and three or four in Nova Scotia)—and the Government at Ottawa still declines to prohibit the export of raw wood, there must be a reason and a very potent reason and it is now high time that the voters of Canada demand what that reason is. What great influence is it that is being exercised with the people's representatives at Ottawa, representatives who were employed by the people of Canada to look after their interests, and not the interests of American paper manufacturers.

Recently I received an illuminating letter from a prominent American from which I will here quote just one passage:

"The people of the United States ought to feel as much interested in the preservation of the forests of Canada as in the preservation of the forests of the United States. Climatic influences know no boundary line. Economic results produced by those influences are neither kept in nor kept out by lines on the map. The whole continent of North America is vitally interested in the preservation of Canadian forests—and the work that you are doing should have universal support without regard to politics, selfish business interests or any other consideration."

It is time for the Canadian people to realize what is going on and demand that their representatives at Ottawa immediately pass an order in council prohibiting the export of unmanufactured wood from Canada under the power which was given to them by Parliament itself and to immediately rescind the iniquitous and secret ten-year exemption order which was passed without any authority from Parliament and which is consequently ultra vires.

Annapolis Royal, N.S.; Aug 1, 1924

SAWS MADE FROM PAPER

Among the multitude of uses to which paper is put, is that of making circular saws. These saws are used in making veneer and fine furniture, and are manufactured in an English factory. Thin plates of wood cut by these saws are so firmly finished that cabinet makers do not have to plane them at all

before they are used. Such saws were originally shown at English exposition and were driven by an electric motor. They are manufactured from a special type of compressed drawing paper. Compressed paper of such hardness has been made in England that it has even been utilized in place of building stone.

Mounted Mountaineers Pow-Wow at Yoho

Above, Starting on the first Annual Ride. Below, Chief Walking-in-the-road picks out a few odd peaks for a fair Trail Rider.

Early last July a small party of riders was encamped on the plateau which lies between Tu-bling Creek Glacier and the gap in the Vermilion Range of the Canadian Rockies known as the Wolverine Pass. The day was warm and conducive to sleep, and, because on this account one of the party dozed and dreamed and later caused the other members of the party to enthuse over his dream, there gathered in the Yoho Valley of British Columbia a week since, two hundred and six prominent Canadians, Americans and Europeans, calling themselves Trail Riders of the Canadian Rockies. Each had qualified for membership in the Order by riding at one time or another not less than fifty miles through the Rockies on horseback.

This unique gathering, recording as it did the first attempt to form an association of mounted mountain climbers was characterized by Dr. Charles W. Walcott, head of the Smithsonian Institute of Washington and honorary president of the Trail Riders, as a step which will prove one of the greatest international attractions. The attendance at the First Annual Ride of the Trail Riders exceeded by far the most sanguine hopes of the organizers, but, unfortunately, Yoho Camp, that beautiful village of chalets a mile above the sea, had been reinforced with twenty Indian teepees and a huge Sun Dance Lodge which had been erected as camp headquarters by Stony Indians under the supervision of Chief Walking-in-the-road.

Only one trail rider left this camp with what could be termed a legitimate grouch. This was Dr. Walcott who believes that bears stole the side of mutton which was hanging at the back of his chalet when he last saw it.

Riding was, of course, the order of the day, and many of the riders, enchanted by the scenery, fell far behind the main group and lingered on the heights till night fall. In the evenings the mountain enthusiasts gathered in the Sun Dance Lodge to talk over the day or to sing and dance and otherwise amuse themselves. After the white-mans pow-wow on the second night a real Indian pow-wow was danced by Chief Walking-in-the-road and Chief Buffalo-child Long Lance, to the accompaniment of Indian singing and the beating of tom-toms by a group of Stony braves.

Altogether the first annual pow-wow of the Trail Riders of the Canadian Rockies was a huge success, and the organizers believe that henceforth the Canadian Rockies will receive the recognition and appreciation which is their due.

Irish Crisis Off Until Autumn

London, Aug 6.—Confident that they have staved off an Irish crisis until autumn at least, J.H. Thomas and Arthur Henderson, Labor cabinet ministers, returned today from Dublin nearly exhausted with their labors in vain trying to arrange a boundary settlement. The actual situation will be outlined in today's Government statement in the Commons.

Thomas and Henderson breakfasted with Ramsay MacDonald after which Thomas conferred with Lord Londonderry at the Colonial office.

It is understood that yesterday's boundary conference was unproductive until Thomas took the floor and announced the limit of British concessions.

If the position of President Cosgrave of the Irish Free State becomes desperate in the meantime he promised that Parliament would be convened earlier. Cosgrave accepted this proposition.

The boundary crisis with both the north and south of Ireland governments under severe pressure, came to a head last week after delegates from Ulster and the Free State were quite unable to agree. The dispute is over the dividing line in the vicinity of the Boyne, both sides claiming additional territory.

Editorial

KNOWING ACCIDENTS
It is distressing to contemplate the saddened homes over the week ends because of a loved son or daughter cut off in the flush of life in a drowning accident. And so much of it needless! Few indeed are the instances where the victim could swim. The moral is obvious: If you can't swim keep away from the water; learn to swim, if you insist on water sports. Swimming is natural to human beings. Anyone can learn. Fear is the first emotion to be stilled.
The average parent is responsible for so many children fearing the water. In a terror based on a mistaken love for the child, parents display this fear and in general manifest the dread of a devoted mother hen when she sees the ducklings she has hatched and is mothering, having the time of their young lives in the water.
In the old days, lads were taught the useful accomplishment of swimming by the simple process of being thrown overboard, usually off the end of a wharf, "clothes and all" where the big fellows were swimming. The youngster more often than not in dresses, spluttered, choked, gasped—and manfully, dog-pawed ashore, with vigilant able swimmers as escort. Then he calmly

DELIGHTFUL CAMP HELD BY SCOUTS AND CADETS

The Newcastle Scouts and Cadets under Captain Doucett of Bathurst, Earle MacDonald, Asst. Scout Master and Waldo McCormack, Cadet Capt. and Scout Troop Leader, spent a delightful week under canvas at Manderson Beach, near Loggieville from July 28th to Aug. 2nd. Fifty boys enjoyed the outing made possible by contributions received from citizens of the Town of Newcastle. The weather was delightful during the entire week and the boys conducted themselves in a most creditable manner. Mr. Russell Ward of Bryenton, N.B. acted as cook for the camp and the boys proclaim that the cook was the best scout in the camp. The food was fit for a king and was always ready when the boys were ready. Russell has endeared himself to the Scouts and Cadets and may rest assured that when next they hold a camp, he will have to make his arrangements to be on hand as the boys say they will not accept excuses.

Each day during the camp, physical training was indulged in as well as bathing, boating, games etc. under the supervision of one of the officers. The discipline of the boys was such as to do them credit and during the whole camp, it was unnecessary to punish one of them. C.B. was unknown in this camp.

On Thursday July 31st a field day was held in which the boys engaged themselves in sports. On Friday the corps paraded to Loggieville to the home of Dr. and Mrs. McKenzie who the boys most hospitably. During camp Dr. McKenzie of Loggieville and Dr. Bell of Newcastle made daily visits to look after the health of the boys. On Saturday camp broke up and the boys returned to their homes thoroughly satisfied with the outing and loud in their praises of the officers and their many friends who helped make the camp a success. The Scouts and Cadets take this opportunity of thanking Dr. J.B. McKenzie who permitted them the use of his grounds at Manderson Beach, Mr. H.M. Russell of Loggieville who secured a drum for the

stripped and learned to swim right. Fatalities in those days were few and far between. All could swim like fish. It is a loving duty for every parent to avail themselves of the opportunities everywhere, to have their children taught to swim.

corps' bugle band and other kindnesses extended; A. & R. Loggie Co. for use of stove and cooking utensils, also for the use of trucks etc. Dr. J.A.M. Bell, Rev W.J. Bate and W.H. Teed who assisted in procuring tents for the camp; F.E. Locke for his deep interest in the welfare of the boys and to the citizens who so kindly contributed funds for the camp expenses and those who so kindly gave the use of their cars to convey the boys to and from camp. Captain Doucett was a great favorite of the boys and it is hoped he will be able to enjoy next year's camp with them. Major A.L. Barry and Cadet Captain Waldo McCormack and Asst. Scout Master Earle MacDonald are to be congratulated on the great success of this first camp held by the Scouts and Cadets. The Bugle Band under the direction of James Chambers was the life of the camp and kept the boys in good spirits. The following is a statement of receipts and expenditures for the period of the camp:

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of the little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

WHAT WAS IT ABOUT?

Sometimes when things turn upside down and inside out and look dark brown, I rush outdoors and gaze into the topless sky's eternal blue—so calm and cool—so still and deep—with soft contented clouds like sheep. I shade my eyes and stare and stare. Then go back into the house, and there begin to wonder what I was in a stew about.—Nancy Byrd Turner.

Mr. Hedley V. Parker of New York is visiting his sisters the Misses Parker.

Large Stumpage Payments Made

Large payments of stumpage due the province on lumber cut upon the Crown Lands of New Brunswick are being made at the Department of Lands & Mines during the weekend. August 1st is the due date for stumpage payments, but inasmuch as one month's grace is given before interest is charged upon delinquent payments, the amounts keep coming in to the Department of Lands & Mines during the whole month of August.

So far no information has been given out by Acting Deputy Minister G.H. Prince as to the amount of receipts but it is understood that they have been substantial. Estimates for the present year tabled in the Legislature showed \$1,000,000 as the anticipated receipts in stumpage, but in addition the final payment on the bonds imposed in 1913 upon license holders is also due this year. Of the bonus 50 per cent was payable in 1913 and the remaining 50 per cent was payable last year, but from representations from the limited holders the government spread the payment of the final 50 per cent over two years making 25 per cent due last year and an equal amount due this year. It is understood that representations have recently been made that there should be a further extension of the final payment in view of conditions in the lumber industry and a definite announcement in that respect is expected next week when the government meets.

WHAT'S GOING TO HAPPEN?
A sale of Tremendous Importance to Every Man, Woman and Child in this community, is about to transpire. Preparations have been quietly proceeding for some time. People around have been asking "What's Going to Happen". The whole story will be placed before you in a day or two. McFarlane of Pittsburg, Pa. arrived in town on Friday from a trip to the Sevegie and left Saturday for Fredericton, enroute to their homes. Mr. Wolfe is vice president and editor of Sporting Life published in Pittsburg, Pa.

OBITUARY

R. A. N. JARVIS

The death of R. A. N. Jarvis occurred in the Miramichi Hospital at 5:30 o'clock last Wednesday morning from blood poisoning. During the week previous a pimple developed on the side of his face, and while shaving he took the top off it. On Saturday morning he attended the funeral of the Hon. John Morrissy but soon after his return home he had to go to bed. During the week-end his condition became so serious that he was removed to the hospital for treatment. During that night he got decidedly worse but rallied somewhat and asked that his family be sent for.

Mr. Jarvis was 33 years of age born in Houkton, Me on Feb. 2, 1891 and was educated in the schools of Fredericton. He has lived here for the past 15 years. He was engaged in newspaper work and was a correspondent at Newcastle for several newspapers including the Times-Star and the Telegraph-Journal of St. John. Mr. Jarvis was named acting American consular agent at Newcastle some time previous to 1922 and in October of that year was appointed consular agent, and he held that office at the time of his death. He also was a member of the pilotage commission of this district. He was a Methodist in religion and a member of the Masonic fraternity.

He is survived by his wife formerly Miss Annie Copp of Newcastle and by three children, Ambury, Ines and Katherine; his father and mother Mr. and Mrs. Newton Jarvis of Devon; three brothers, William of Fort Fairfield, Me; Theo of Boston and Goodrich of Fredericton; and by three sisters, Mrs. John Beasley of Boston; Mrs. Percy Crouse of Devon and Miss Lillian Jarvis at home in Devon. His parents and Mrs. Crouse and Miss Lillian came here on learning of his serious illness. The funeral was held at 3 o'clock Friday afternoon under Masonic auspices, interment in Miramichi cemetery.

MRS. WM. T. MCDUGALL
Died July 11th at her home in Lockstead, Glorna beloved wife of Wm. T. McDougall. Besides her husband she leaves two sons James and John of Lockstead and three daughters Mrs. Leverett Green of Bisfield, Mrs. Albert Spaulding of Waterville; Me; and Mr. Bertram Mersereau of Blackville to mourn the loss of a kind wife and loving mother. Deceased was 73 yrs. of age.

THE DELICATE GIRL

What Mothers Should do as Their Daughters Approach Womanhood.

If growing girls are to become well developed, healthy women, their health must be carefully guarded. Mothers should not ignore their unsettled moods or the various troubles that tell of approaching womanhood. It is an important time of life. Where pallor, headache, backache or other signs of anemia are evident you must provide the sufferer with the surest means of making new blood.

Remember, pale, bloodless girls need plenty of nourishment, plenty of sleep and regular open-air exercise. But to save the bloodless sufferer she must have new blood—and nothing meets the case so well as Dr. Williams' Pink Pills. These pills increase the supply of new red blood; they stimulate the appetite and relieve the weary back and limbs; thus they restore health and charm, and bring to anemic girls the rosy cheeks and bright eyes of strong, happy girlhood.

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HON. FRANK B. CARVELL DIED SATURDAY

Hon. Frank Carvell, Chairman of the Board of Railway Commissioners of Canada, was suddenly stricken at his home in Woodstock on Saturday evening and was found dead on his farm shortly after 5 o'clock. He had arrived from Ottawa at noon and was apparently in the best of health. He set out to walk through the fields telling the members of his household that he would return at 5 o'clock. As he did not return they went to look for him and found him lying as he had fallen. They believed him unconscious and a doctor who was hastily summoned said that the position of the body indicated that he had died almost instantaneously.

Hon. Mr. Carvell frequently referred to a shortness of breath after strenuous physical exertion but he always said he was growing corpulent and required exercise. There was not the slightest warning that would indicate a fatal termination.

As he did not arrive at the appointed time it was felt that something unusual had happened as he way always known to keep appointments punctually. About 6 o'clock one of the men found Mr. Carvell

FIRST EXCURSION LEAVES FRIDAY

The first excursion for harvesters bound to the western wheat fields is expected to pass Newcastle on August 15th. It is very probable that more than the usual number of young men will leave on the excursion from Newcastle as this annual event is now used by many to enable them to have a look at the West in a way that does not cost them anything for the trip. It is probable also that many men will be through the haying operations on the farms and they can be spared for several weeks to enjoy a holiday and incidentally see the much talked of west and perhaps make a few dollars by a few weeks intensive work. Many of them will of course come back with a better appreciation of our own locality, as they will have learned by experience that many of the advantages enjoyed here are not shared by other places about which the public hears and reads more.

lying on the ground; as he thought in an unconscious state. Dr. N.P. Grant was at once summoned and a brief examination disclosed he was dead. Dr. Grant gave it as his opinion that death was caused by embolism.

MINARD'S "KING OF PAIN" LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

Mrs. A. E. LAUNDY, EDMONTON, writes: "I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain. It gives instant relief.

RESULTS OF MATRICULATION

And High School Leaving Exams North Shore Students Among The Successful

The following are the names of those students from Newcastle and Chatham who have successfully passed the Matriculation and High School Leaving Exams held in July as announced by the Education Office. In order of merit:

MATRICULATION

Division 1—Elizabeth Fried, St. Michael's Academy, Chatham; Ellen E. Fleiger, Chatham Grammar; Mary Carmel Losler, St. Michael's, Chatham

Division 2—Roberta MacIntyre, Chatham; Veni Oleskevics, St. Thomas College, Chatham; Florence Pfeiffer, Chatham Grammar; Margaret L. Hartery, St. Mary's Academy Newcastle; Dorothy King, Chatham Grammar; Helen Ullock, Chatham Grammar; Edith Gulliver, Harkins Academy, Newcastle; Vina McLellan, Chatham Grammar.

HIGH SCHOOL LEAVING

Division 11—Mary Lawlor, St. Michael's, Chatham; Helen L. Flaherty, St. Michael's, Chatham; Elizabeth F. Craig, Harkins Academy, Newcastle.

EXTENSION GIVEN FOR PAYMENTS

An extension of time of one year has been granted holders of crown lands leases for the payment of the balance due the province under the bonus for renewal arranged in 1913.

Premier Veniot confirmed that the extension had been granted. Some of the limit holders, he said had urged that they be given another year, in which to make payment, because of the condition of the lumber industry, and market conditions at the present time. About \$150,000 is involved.

Under the arrangement 50 per cent of the total bonus was paid in 1913, and the remaining 50 per cent was to have been paid in 1923. As a result of representations which were made at that time the government decided to split the payment in two parts, accepting one-half or 25% of the total last year and the remainder was due on August 1st of this year.

GREAT BRITAIN MAKES TREATY WITH SOVIET RUSSIA

After months of negotiations a commercial treaty and a general treaty have been arranged between Great Britain and Soviet Russia.

The proceedings in the Anglo-Russian Conference underwent a sudden change following the announcement made of a breakdown in the negotiations.

In explaining that a commercial treaty and a general treaty had been negotiated, Mr. Ponsonby said the commercial treaty followed the usual lines of such treaties. "We receive unconditional most favored nation treatment, and in return we admit the Soviet Union into our credit scheme" he added.

Under strong pressure from the Conservatives and Liberals the Government in the House of Commons tonight consented to adjourn the debate on the Anglo-Russian agreement. The decision was taken notwithstanding excited protests on the part of some of the Laborites.

CRIME IN U. S. A.

A murder a day for June and 177 since the first of the year is Chicago's record, according to the report of the Chicago crime commission, made public this week. May with 33 had the largest number of homicides. "The trend in murder is upward," the report states. "No country, with the exception of Italy comes near to the United States in the murderous tendency of its people. This country has twice as many murders as Italy and Chicago has nearly three times as many per capita. Many murderers escape arrest. Only about half of those indicted are found guilty and only a small portion of those found guilty suffer the proper punishment. Out of nine sentenced to be hanged last year only one was executed."

THE CHARGE OF THE LIGHT (HEADED) BRIGADE

The Toronto Globe publishes the following "with apologies to Tennyson, Longfellow, Shakespeare; Billy Sunday, MacKenzie King and all the other notable poets in our class"

Bobbed hair to the right of us,
Bobbed hair to the left of us,
Bobbed hair behind us,
Tresses assundered.

Some with a heavy crop,
Some with a light crop,
Into the barber shop,
Walked the six hundred.

Women of high degree,
Women of past fifty-three,
Determined that they shall be
One of the six hundred.

Girls not yet out of 'teens,
Girls who have that age seen,
Joined the bobbed hundreds.

Women of every class,
Mother, daughter, little lass
Sweetheart, sister, join the mass
Of the bobbed hair throng.

Clerk, stenographer, hello girl;
Waiter, maid and office girl,
Everyone caught in the whirl,
No longer wear their hair long.

Some with bangs and some without,
Some are shingled round about,
Some in curls, and some in doubt,
In case they may have blundered.

Some of them do look swell,
Some of them look like—well,
It's sometimes just not well to tell,
How looks the bobbed six hundred.

GERMAN SUBMARINE IS SMUGGLING BEER

A big German submarine of commercial type is operating off Cape Cod and flooding the Massachusetts coast with German beer and French wines it was officially confirmed at Boston last week. United States Attorney Robert O. Harris has called this latest venture in rum running to the attention of the collector of the port and has turned over what information he has to customs officers for investigation.

Mr. Harris said that he had been informed that the cape district was "being flooded" with beer, ale and wine from the submarine. The report coincides with reports from New York that mysterious submarines had been spotted lying in the Hudson by airplane pilots.

Federal officials here say the government maintains a flying base at the tip of the cape and it is possible that planes will be used to search out the supposedly foreign submarine.

The proposition that a submarine can effectively cross the Atlantic to dump foreign liquors through the blockade is substantiated by the successful trips from Germany to the United States by the freighter Deutschland and the war craft U-53 during the world war.

It is also pointed out that the financial resources of rum running combinations are equal to the equipment and maintenance of freight submarines. It is well known that the combinations control transatlantic steamers at an expense possibly greater than that of an underwater freighter. The reports have created excitement in official circles and awakened interest in the plans the government may take to meet this new threat.

ALL WAS LOST LIFE

Lord Beaverbrook, the multi-millionaire who owns almost as many London newspapers as the late Lord Northcliffe once possessed, said at a dinner, on his recent visit to New York: "A certain millionaire, I am not mentioning any names—bought a London Journal not long since. He is, or at least, he thinks he is a 'purist' and one of his first tasks was to post up a notice that the word 'balance' must never be used in his new journal's columns. 'Re-ma'nder' was the proper term. Well a day or two later the millionaire was horrified to read in his beloved sheet an item to the effect that 'John Jones, a window cleaner, fell from a sixth story window in the Strand yesterday afternoon. The poor fellow had lost his remainder.'"

WHAT FOREST LOOK- OUTS ARE DOING IN N. B.

That an ounce of prevention is better than a pound of cure is being amply borne out by the results which are being obtained from the campaigns for the prevention of forest fires in New Brunswick.

Prohibition of indiscriminate slash burning, and regulation of forest travel, to important steps which have been taken towards the prevention of forest fires in this province, are believed to be largely responsible for the lack of serious forest fires in New Brunswick this year in spite of the long periods of continued dry weather.

Despite the fact that forest fires have so far not been serious this season the Department of Lands & Mines through its forest service is constantly prepared to cope with any situation which may arise insofar as human activities can accomplish anything. Just what is being accomplished by the lookout system that has been established in the way of locating fires is shown by an incident contained in the reports regarding fires which reached the Department in the last month.

The lookouts at the towers of St. Quetin and Mount Carleton recently registered a heavy black smoke to the northwest of their locations. Both lookouts immediately reported the angles were plotted and the location read from the map, gave two miles north of the Pollard Brook, a branch of the Patapedia, on the inter-provincial boundary between New Brunswick and Quebec. Crews were despatched to investigate and returned with the information that a party of fishermen had built a large smudge on the beach to keep the mosquitoes away. The smudge had made the smoke which had been spotted by the lookouts who believed it to be a fire breaking out. The same party moved down the stream some distance and made another smudge which the lookouts also spotted late that afternoon. And one lookout was 36 miles away and the other was 56 miles distant.

The gentleman responsible for the smudge fires was a lessee of fishing waters and when the matter was brought to his attention he forwarded his check for the amount involved in the investigation together with a letter in which he complimented the government upon the care with which the forests are guarded.

Automobile Dollar Buys More

Based on the 1913 dollar as a standard it is possible to get more automobile value for the money today than it was 10 years ago.

When one takes the average prices of automobiles, gasoline and tires, it is found that these automotive products cost less today than before the war even though the purchasing power of the dollar in general has shrunk considerably.

Today one can purchase 111 cents worth of automobile, 101 cents worth of gasoline and 123 cents worth of tires with his 1923 dollar.

This fact, in the opinion of the National Automobile Chamber of Commerce, which has compiled figures from the records of various governmental and private statistical groups, is one important reason for the great activity in automobile buying.

Better highways and the general use for motor transportation account for a large share of the increase in motor vehicle registration, but this has been further augmented the industry feels, by the fact that the public realizes that a dollar will buy more in motor products than in most other lines.

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will you need have no compunctions of conscience.

**Shop Where You are Invited
to Shop**

Furthermore, the current models of motor vehicles and the present type of tires are far better than ten years ago even at the lower prices prevailing today.

The pre-war dollar is worth only 61 cents today in the general cost of living. It is worth but 51.8 cents in clothing, 68.5 in food and 61.3 cents in rent.

The automobile industry has met the problem of higher labor and materials and taxation expenditures by the economies of large scale production, reducing prices, in the confidence that the public would respond to exceptional value.

The output of 4,000,000 vehicles this year 50% ahead of any preceding year, has justified that confidence.

Back of this Guarantee
A Flour of Genuine Quality.

Robin Hood Mills Limited have won the confidence of the people of Canada and this confidence is more valued than even the enormous investment in mills and milling properties.

The high standard of Robin Hood Flour is maintained by Experimental Mill, Test Bakery and Laboratories, and every bag is backed up with this "Money-Back" Guarantee with its 10 per cent penalty and behind which is the entire resources of a great milling organization.

Duke of York
Not Coming Out

London, Aug 6—It is learned by
the Canadian press that there is
absolutely no foundation for the sug-
gestion that the Duke of York will
accompany the Prince of Wales on
his forthcoming trip to the United
States and Canada, on which the
Prince sails for New York on
August 23rd.

MAN'S SKULL MENDED
WITH SECTION OF SKIN

Success of two unusual operations
in which a section of a man's shin-
bone was used to fill a hole in his
skull, with the subsequent recovery
of his speech, was announced at the
Ann May Hospital to-day.

John Hansen, forty-five, of Man-
squam, a year ago was struck on the
head by a policeman arresting him
for being drunk. A part of Hansen's
fractured skull as large as a half
dollar was removed last October after
the injury had caused him to lose
speech. Later he partly recovered his
speech, but Dr. B. H. Garrison of
Red Bank, who performed the opera-
tions, decided pressure on the spot
was preventing complete recovery.
Last week the section of the shin-
bone and a section of fat tissue from
Hansen's abdomen were grafted in-
to the hole.

Hansen's power of speech is now
entirely restored, except for a slight
lisp, which is expected to pass away
within a month.

A Problem Which
Confronts U

At a recent conference of the Can-
adian Association of Child Protec-
tion officers, the question as to what
to do with our unfit was freely dis-
cussed. In the main, our criminal
and general incompetents are coming
from two sources; those who enter
our ports with their criminal in-
stincts already well developed, such
for instance as that group of Ital-
ians who were recently tried and
sentenced to death on the charge of
murder in connection with the Ho-
chelaga Bank car hold-up in Mont-
real. And in the second category
come those who are born in this
country of parents tainted in their
mental or physical make-up or in both.

In addressing the meeting men-
tioned above, Mr. K. C. McLeod re-
ferred to two well-known and even
historical examples of what good
and bad blood mean to a nation.
From one couple in New England
there were after seven generations
1,394 descendants, and out of that
number no less than 1,295 were
college graduates and practically
all were fine citizens. From the
other couple, after seven generations
there were approximately the same
number of descendants, and they
were nearly all criminals. Of the
whole number only twenty had ever
learned trades and of that number
ten had learned their trades in a
State penitentiary. Mr. McLeod felt
that the proper thing to do in
this matter was to have had the
State function in this matter and
see to it that these criminals
did not reproduce their like.

Sooner or later we must realize
that the State can no longer afford
to take care of mental units, and
moreover that those who are of un-
questioned character should not be
allowed to reproduce their kind. Mr.
McLeod complained, and rightly,
that if we paid as much attention to
the class of children reared as we
do to the class of live stock pro-
duced the whole question would be
solved in one generation.

In the speaker's opinion there
were two ways to attack the problem.
The first was to sort over the under
capacitated children and pick out
those who could be socialized; and
the second was to take those who
could not be socialized and chloro-
form them. Then he would take parents
who produced that type of child and
make it impossible for them to add
to the country's population of unfits.
A little attention along that line
he felt, would speedily solve Cana-
da's problem in that direction.

Mr. McLeod felt, that in view of
the popular opinion swinging against
institutionalism and against the
high taxes which had to be paid to
keep up such places of detention,
it would be well if some drastic ac-
tion were taken.—(Saturday Night

PREDICTS LOT
OF DISASTERS
IN AUGUST

Railroad disasters, explosions
with loss of life and a volcanic eru-
ption are predicted for the next
three weeks by the Rev. Arthur

Brooks, an assistant Minister at
St. George's church in Stuyvesant
Square, New York who makes fre-
quent astrological predictions. There
will be a total eclipse of the moon
August 14th and partial eclipse of
the sun August 30th.

Mr. Brooks predicted the nomi-
nation of Mr. John W. Davis.

"August will be marked by a series
of railroad disasters, also explosions
underground in mines and loss of
life at sea because of explosions on
ships. A volcanic eruption is likely
to take place in the vicinity of
Mount Vesuvius, Mount Etna and
Mount Stromboli. Relations be-
tween the several nations will be
severely strained, and they will be
brought to the verge of display of
both military and naval strength.
However, cautious diplomatic pro-
cedure may avert the danger of ac-
tual warfare.

"The partial eclipse of the sun
which takes place at 8:37 a.m.
(Greenwich mean time) on August
30th in the first part of Virgo is
taken to indicate the death of a king
or some person in high governmen-
tal circles. It will tend to dis-
turb political affairs in Persia, Asia
Minor and East Africa."

Support The Schools

In all this welter of opinion and
comment on economy in govern-
ment it is well that we retain a
healthy sense of values. That the
tax burden is a heavy one in these
critical and stressful days goes
without saying. But so long as we
continue to pay golden tribute to
automobile manufacturers to filling
stations, to moving picture places;
to ice cream parlors; to cigar stands,
and to hosts of other dealers in
luxuries there is but little sanity or
good citizenship in any movement
that looks toward a curtailment of
school revenues. So long as this
government purposes to be a
government of the people, for the
people and by the people, just so
long must this government have
and loyally support, at no matter
how great a sacrifice, its public
school system. So there should be
no thought of reduction in teachers'
salaries, or other retrenchment
which would impair the efficiency
of our schools. Perhaps we should
declare a holiday in the voting of
bonds for public buildings, for road
building and for other forms of
material improvements but whatever
course we may be forced to make
along these lines, it should not be
permitted to interfere with the es-
sential and indispensable work of
any community which, when all is
said and done, is that community's
best investment.

FRUIT TREATMENT
FOR CONSTIPATION

Quick and Permanent Relief
By Taking "Fruit-a-lives"

What a glorious feeling it is to be
well! What a relief to be free of
cathartics, salts, laxatives and purga-
tives that merely aggravate consti-
pation and are so unpleasant to take
and so weakening in their effect!

What a satisfaction to know that
the juices of apples, oranges, figs and
prunes will absolutely and perma-
nently relieve constipation. By a
certain process, the juices of these
fruits can be concentrated and
combined with tonics—and it is these
intensified fruit juices that correct
constipation, relieve headaches and
biliousness, and make you well and
keep you well.

"Fruit-a-lives" are sold every-
where at 25c. and 50c. a box—or sent
postpaid by Fruit-a-lives Limited,
Ottawa, Ont.

Good And Bad
In All Of Us

If our faults were put in one side
of a scale and our merits on the
other side, which would go down, or
which words would the scale be
evenly balanced?

While we are alive people study
us and emphasize our faults.

When we are dead our merits are
over praised.

Criticism while we are living
spurs us on. Praise after death may
stir up ambition in the young, but
it does us no good.

A wise man said: "The world re-
wards the appearance of merit often
or than merit itself."

The same famous writer of max-
ims says there is much merit
never recognized, but never any
real recognition without some merit.

Many a man considered by some
siders by others an angel of per-
fection.

To criticize a man while he lives
is to spur him on to greater efforts.

Ridicule which blasts and withers
weak souls—and harsh criticisms,
which is supposed to have killed the
poet Keats, but did not—are the
best tonics for a strong character.

Benjamin Disraeli went through
all stages of ridicule and criticism
in the House of Commons in Eng-
land. He was a Jew, and that
was against him in those days. He
was dandy with curly hair, and a
failure and full of defects is con-
versy fancy waistcoat of crimson and
gold. They laughed him down, and
made it impossible for him to con-
tinue his speech.

He said as he took his seat: "The
day will come when you will hear
me."

Later as Prime Minister he made
Queen Victoria Empress of India, he
represented England in the famous
Berlin Conference and returned
"bringing peace and honor."

He also brought with him the
beautiful Island of Cyprus which
he added to the British Empire, ad-
hering to the good old English mot-
to "Always pick up a little some-
thing when peace is made."

Those who criticize should remem-
ber Disraeli's saying "It is much
easier to be critical than to be
correct."

Here and There

Radio stations are to be established
near Montreal and Vancouver as
links in the Empire wireless station
program as the result of arrange-
ments just completed between the
British Government, the Department
of Marine and Fisheries of Canada
and the affiliated Marconi com-
panies.

The Manitoba Pulp and Paper
Company will, it is understood,
shortly establish a plant at St. Boni-
face, near Winnipeg, Man. The
company plans to expend \$3,600,000
of its \$5,000,000 capital on imme-
diate operations, and to build a 200-
ton newsprint mill, employing about
700 men.

Canada's trade is growing at a
faster ratio than ever before, de-
spite the war. She now sells to 100
and buys from 77 countries. Her
total foreign trade, in the calendar
year 1923, reached \$1,918,264,789,
an increase of 16 per cent in one
year, and her interchange of com-
merce increased 70 per cent between
1913-14 and the past year.

John B. Thompson, noted sports-
man and writer on the out-of-doors,
widely and popularly known by his
pen name of "Ozark Ripley," is
visiting the Canadian Pacific bung-
alow camps in Ontario, giving
demonstrations of his skill as a fly
and bait caster, as well as free
casting lessons to guests and infor-
mal talks on fishing and other out-
door subjects.

Creating a new record for the 15
years it has been in business, the
Saskatchewan Co-operative Eleva-
tor Company will have handled 59-
000,000 bushels of grain through its
commission department in the 1923-
4 season, it is announced. The es-
timate of grain handled through
terminal elevators for the 1923-4
season is 68,000,000 bushels.

The steel superstructure of the
new Ste. Anne de Beaupre Basilica,
which is to replace the destroyed
edifice at the famous shrine, has
now been completed and it is ex-
pected that by next July the ex-
terior of the church will be nearly
finished. It is not anticipated, how-
ever, that the building will be en-
tirely ready until July, 1926. In
the meantime, thousands of pil-
grims continue to visit the shrine
and several miracles have been re-
cently reported.

Figures issued by the Department
of Agriculture for the Province of
Quebec show that there has been
a marked improvement in the con-
dition of farmers of the province
over last year, due to good crops,
to such an extent that, instead of dis-
tributing grain seeds to the value
of over \$125,000 as was the case last
year, only \$60,000 worth was neces-
sary to meet this year's require-
ments. Hon. J. E. Caron, Minister
of Agriculture for the province,
basing his anticipations on present
crop prospects, expects a still fur-
ther improvement in the near fu-
ture.

"Never has the opportunity for
Canadian business in the Orient
been so good as it is today," said
Allan Cameron, Oriental Manager
of the Canadian Pacific Railway,
in Montreal recently. "It is true
that the general volume of business
in China and Japan is somewhat be-
low normal owing to both local and
world conditions but if Canadian
manufacturers and producers now
fail to make an effort to secure the
large share of Oriental trade that
would naturally come to them, the
opportunity will pass and someone
else will get the business."

Following its success at the Brit-
ish Empire Exhibition, the Cana-
dian Pacific Railway is arranging
unusually fine displays for fall ex-
hibitions in Canada. At Toronto,
the exhibits will include a Northern
Ontario hunting scene, having a
painted background sixty by six-
teen feet, a feature of which will
be moose and deer moving through
the forest and an attendant guide
to give information to enquirers. A
full-sized model of the front of a
Canadian Pacific engine and other
displays illustrative of the Com-
pany's many activities will also be
shown in Toronto. Wonderful elec-
trical models depicting Canadian
winter sports, round-the-world
cruises, etc., are slated for Quebec,
Sherbrooke, London and North Bay.

Local and General News.

A CUP OF MORSE'S TEA will change a frown into a smile, sparkle the eye, quicken dull thought and drive care into the limbo where it belongs.

CLOSED FOR TWO WEEKS
My dental office will be closed until about August 18th.

J. D. MACMILLAN,
Newcastle, N.B.

WARM WEATHER
The humidity on Thursday registered 96, a very high and unusual registration for the Miramichi. The result was that Thursday seemed the hottest day of the season.

CHATAUQUA
Chatauqua opened in Chatham on Wednesday and concludes this evening. Large audiences are enjoying the program and many from Newcastle have enjoyed the entertainments.

HAY ABOUT ALL IN
The hay is now about all in. It has been garnered under ideal conditions and in prime condition, though in some sections the crop was light. Potatoes are reported to be in excellent condition with other crops light in some sections. Rain in greatly needed.

HOW PUNCTUATION HELPS
"That that is is that that is not is not is not that it is." These words, as they stand, read like a rambling incoherent talk of one bereft of reason. By the magic of punctuation, however, they are transformed from a senseless jumble to the following logical and grammatical expression of thought: "That that is, is; that that is not, is not. Is not that it? It is."

EWING CIRCLE GOSSIP
There was some discussion at the Sewing Circle this week about the delights of a holiday trip to England. The wife of the Radio Operator, who has lived nearly all her life in Boston, said that she would like to go just to see what kind of coffee one gets over there. She had heard that they used the very finest quality at Buckingham Palace. The wife of the new Bank Manager stated that when her husband was in England, he did not find a coffee anywhere that tasted more delicious than LUXOR, which is the kind used in the homes of all Circle members at the present time.

OIL ON THE STREETS
The first experiment of oiling the streets of Newcastle was tried out during the past month on a portion of King's Highway. It was not the oil usually used for this purpose but some refuse oil and grease which was found available. Previous to its application the street was full of swirling dust which the oil quickly allayed. Since its application we have had hot weather and wet weather, yet today after a month's duration, not a particle of dust is raised on this portion of the street by auto, team or wind, which proves conclusively that oil is the solution of the dust nuisance.

COMPLAINTS ABOUT DOGS
Persistent complaints are being made that dogs are doing damage to gardens and destroying flowers on which the owners have spent considerable time and expense. It would seem that the time had arrived when dogs in town will have to be kept off the streets if the movement to beautify homes by means of flower gardens is to be encouraged. There will be some opposition to this restriction, but those who oppose it should consider the damage done by dogs to the lawns and gardens of the city. The dog is a nuisance wherever they roam.

GENERAL SATISFACTION
Anyway, there is general satisfaction and a reason for being thankful for the improvements being made on the streets this season.

CARD OF THANKS
Mrs. R.A.N. Jarvis and family wish to thank their many friends and relatives, for kindness shown and sympathy extended, during their recent sad bereavement.

ENGAGEMENT ANNOUNCED
The engagement has been announced of Miss Jean Annand of Halifax and Mr. John R. Nicholson of Vancouver, B.C. formerly of Newcastle. The wedding will take place in Fort Massey Church, Halifax, on August 22nd.

BUILDING GRAVEL STREETS
The Public Works Committee of the Town Council have a large crew of men and teams at work building gravel streets about town. Pleasant, McCullum, Castle and Henry streets have been covered with gravel and in a few days these streets will be rolled.

SUPPLYING AT NEWCASTLE
Rev. W. J. Kirby arrived in Newcastle on Saturday's Limited and will supply the pulpits of the united churches—Baptist, Methodist and Presbyterian for three Sundays. Rev. A.W. Brown, pastor of the Methodist Church is visiting his home in the Old Country and Mr. Kirby is taking his work in this field.

NEW FIRE MOTOR TRUCK
The Newcastle Fire Department expects to complete the body of their new motor truck this week and when finished it will present a fine appearance. The firemen have been hard at work every evening for the past two weeks getting the truck fitted up and the town will soon be equipped with one of the best and most up to date motor fire trucks in the province. The firemen are to be congratulated on their enterprise and achievement.

MONEY SPENT AT HOME
Money spent at home circulates in the home town. This is well known, but few people have any idea how many hands a bill passes through in the course of an ordinary business day. With the object of tracing the adventures of currency, the Mayor at Calgary recently tried out an interesting experiment. He posted a five dollar bill on a board which had a notice on it asking each person accepting the bill in payment for goods or accounts, to endorse on the card his particular business. The bill passed through 61 different hands in ten days, finally being returned to the Mayor. Thus the circulation of this \$5.00 bill in Calgary in 10 days liquidated operations aggregating \$305. And this bill would not have paid one dollar of home indebtedness if it had been sent away from the town.

BAND CONCERT TONIGHT
The Newcastle Concert Band will render the following delightful program of music tonight from the band stand. This is the first open air concert of the season and will be heartily enjoyed and appreciated by the residents.

- 1—March, "Middy"—Alford.
- 2—Waltz, "Through the Night"—Logan.
- 3—Overture, "Impromptu"—Walter.
- 4—The Frog, "Peculiarly"—Bell.
- 5—Waltz, "Thoughts"—Alford.
- 6—Overture, "Bridal Rose"—Lavelle.
- 7—March "Merrymakers"—Roy Ed.
- 8—Waltz, "Temptation"—Alford.
- 9—Overture, "Pomp of the Sea"—Alford.
- 10—March, "The Moon"—Hall.

WHY HAVE THE KING

DOING GOOD WORK
The street repair work is progressing and the superintendent and his men are doing a good job.

BLUEBERRIES SCARCE
Blueberries seem to be scarce although they are plentiful in the woods. Perhaps the kids are too lazy to pick them nowadays for their mothers to make puddings and pies.

SOCIAL DANCE
An enjoyable dance was given last Friday evening in the Town Hall, by the Gough-Carter orchestra. A large attendance was present and the music and dancing were much enjoyed.

MIKAMICHI HOSPITAL
The Secretary begs to acknowledge receipt of \$1.25, amount earned by an entertainment organized by the following children: Isabel and Florence Stables, Vera Dickson, Jean Forsythe and Alice Stohart. The Nurses' Home Committee much appreciate this donation, as well as the spirit that prompted it.

NORTHUMBERLAND WRIT TO WAIT
Writs for by-elections in West Hastings, Yale and Northumberland N.B. will not issue until after the elections, now in progress, come off in September 2nd, in St. Antoine, of Montreal and Rimouski.

SUCCESSFUL PICNIC
The picnic held last Wednesday afternoon by St. Mary's congregation on the old Convent grounds was most successful from every point of view. A large attendance was present and all enjoyed themselves immensely. The net proceeds amounted in the vicinity of \$1350.00.

Wanted
A maid capable of doing plain cooking and general housework. Apply to:—
MRS. JAMES STABLES
Newcastle, N.B.

Milk Tenders Wanted
Tenders for the supply of milk to the Miramichi Hospital will be received up to and including August 23rd, 1924.
The average amount of milk to be supplied daily is about 15 quarts, which may be made in one delivery or morning and evening, at the option of the Tenderer.
33-2 (sgd) David Ritchie.

Estate Notice
All persons indebted to the Estate of Patrick Hennessy, late of Newcastle; in the county of Northumberland, Merchant, deceased; are requested to make immediate payment to the undersigned Executrices. Dated this 8th day of August, A.D. 1924.
Maria Hennessy, Executrix
Anastasia Duffy, Executrix.

NOTICE To Our Subscribers
We are revising our Mailing List and all subscribers in arrears are respectfully asked to pay the amounts due on their paper. Look at your address label, and if it does not read 1925 you owe us something and we would be pleased to have your remittance at once.

UNION ADVOCATE

HARVEST SPECIALS ON AUGUST 15th.

Canadian National Making Every Effort to Provide Comfortable Journey For Harvesters

Four special trains will leave Moncton on Friday, August 15th bound for the West carrying harvesters to garner in the crop of golden grain. Three of these will operate by the main line North picking up harvesters enroute. Intending harvesters from Newcastle will join special passing Newcastle at 9:30 a.m.; 7:15 p.m. and 9:30 p.m.

The fare to Winnipeg is \$22.00 plus 10¢ per mile to points beyond in Manitoba, Saskatchewan and points named in Alberta. The harvesters will travel in comfort. The equipment of the special will be the most modern type of convertible berth colonist cars, and there will be attached to each train the latest style of large lunch counter cars on which the harvesters can obtain hot meals, or lunches as preferred. Harvesters are advised to purchase tickets via Canadian National Railways, no matter whether final destination is a point on the Canadian National Railways or not. There are special low fares returning.

Ask nearest Canadian National Railway Ticket Agent for further information.
