RAILWAY DISASTER AT ST. POLYCARPE

Chicago-Montreal Train Crashes Into Cornwall Local—Six Men Killed and Five Injured as Result of Switch Failing to Work

(Special Dispatch to The Freeholder) Montreal, Dec. 28.—Six men are dead and another at an early hour this morning not expected to live as the result of a bad railway wreck on the C.P.R. line at St. Polycarpe Junction on Saturday night.

The Chicago-Montreal express, through the failure of a switch, crashed into the Cornwall local, which runs from Cornwall to St. Polycarpe, telegraphing the rear cars. Five people were also seriously injured and another slightly hurt while the other passengers got a bad shaking up.

There is an interlocking switch at the junction to protect the movements of the Cornwall local, but it was not working at the time of the accident.

Immediately upon the report of the accident reaching the city an auxiliary train with the assistant general manager and the general superintendent on board was despatched to St. Polycarpe. The former personally took charge of the rescue work.

The inquiry into the cause of the accident is being held at Cornwall this morning and is in the Hotel Dieu suffering severe injuries to his back and breast.

DALHOUSIE MILLS

Christmas Entertainment

The Christmas entertainment and tree of the congregations of Dalhousie Mills and Cote St. George were held in the church here on the evening of Thursday, Dec. 21, and was quite a success.

Address to Rev. J. Matheson

An interesting item on the program was the reading of the following address by Miss Durkin, teacher at Glen Robertson:

Most Reverend Sir: We, the undersigned members, as representatives of your congregation, take this opportunity of expressing our heartfelt gratitude towards yourself for the constant and unflinching kindness and sincere interest you have shown to all members of your flock since your arrival amongst us.

THE 240TH BALL

The dance given in the Music Hall on Christmas night by the 240th Bn. was attended by about 50 couples.

CRUSHED OUT

We are again very reluctantly compelled to hold over a quantity of interesting country correspondence received this morning for which there was positively no room this week.

THE CHRISTMAS MESSAGE

Christmas! Time of Peace, and all the world at war; Thunder, clouds and darkness unillumined by the Star That awoke the Shepherds, led the Wise Men, shone with lustre bright Upon the Bethlehem stable on that far-gone Christmas night; And Angel voices, sweetly singing, tell the wondrous world Of Rending Peace.

Forget this awful warfare that never seems to cease, And come with reverent fancy to see the Prince of Peace; Despite the lowly stable, with oxen standing by, A subtle, softening sympathy, our hearts seem to decry; And Angel voices, sweetly singing, tell the gladdened world Of Happy Peace.

To saddened hearts this Yuletide those Angel voices sing in the face of tumult their peaceful message bring. Tho' German Kultur's cruelty our hearts and hosts of Heaven would in horror cease to sing And ne'er to coward nation that cheering message bring; For not to those manly spirits do those guardian Angels tell Of Honest Peace.

To loving mother-hearts the tenderest song is sung, To hearts that war-toll's rigour with anguish deep hath wrung; Than that which calmly forth the hero spirit And bled for King and Country for the rights and hearths of all; And Angel voices proclaim with pride and triumph "No greater love than this."

No greater love. The hosts of heaven declare it; No greater love since centuries began Than that which calmly forth the hero spirit And marks with stamp indelible the rights and hearths of all; And Angel voices, attuned to music of the spheres, Sing forth of life eternal, and bid mothers dry their tears.

Daniel H. Munro, A Glengarry Boy Pays Supreme Sacrifice

Universal regret was expressed on all sides when it was learned that Daniel H. Munro had been killed in action. Nothing was learned as to his death except the mere fact that he had been killed in action on November 18, when so many of our brave Canadian lads were cut down. Pte. Munro was the second son of H. W. Munro and Mrs. Munro, Apple Hill. His boyhood days were spent on his father's farm, where he was a general favorite among his many friends. Eighteen years ago he left home for the west spending most of that time near Nelson, B.C. He enlisted with the 82nd Bn., at Calgary, leaving on May 13 last for overseas reaching Liverpool on May 28. Thence he was called to France in September and since that time he has been in the trenches when duty called him and during all the discomforts and hardships of a soldier's life Pte. Munro never complained. By his manly and upright bearing, his unassuming manner and quiet good humor he won a warm place in the hearts of his many friends. While we are proud of him as a hero, we cannot but sorrow when we know the supreme sacrifice he has made in giving his life for the cause of justice and truth.

He is survived by his father, H. W.

Munro, his mother, two brothers and four sisters, namely—W. A. and B. Munro, Mrs. D. A. Sutherland, 700 Gouling Street, Winnipeg; Mrs. Simon Cameron, Maxville; Mrs. C. C. Munro, Monckland; Miss Florence at home, besides a host of friends who join in extending to his family and relatives their most sincere sympathy.

A memorial service in honor of the late Pte. Munro was held in Zion Presbyterian Church, Apple Hill, on Sunday evening, Dec. 17 and was attended by a large number of sympathizing friends and neighbors of the deceased. Service was conducted by the pastor, Rev. Mr. McIlraith, who took as his text Timothy 2nd epistle, Chap. 2, v. 3, "Thou therefore endure hardness as a good soldier of Jesus Christ."

Rev. Mr. McIlraith after speaking very finely on this text read some lines of poetry composed and written by W. A. McIntosh of Strathmore, a neighbor of the late Pte. Munro.

Dedicated to Daniel H. Munro, who fell fighting in Flanders for his country's cause:

He was a private in Flanders,
Who bravely faced a grim foe
For the blood of old Scotland cours'd
freely
Through the veins of this gallant
Munro.

A clean living soldier and patriot
He died that his country might live
and he fell from the rule of a tyrant,
I ask you what more could man give?

No more he'll stand guarding the trenches
His greetings are all at an end,
He died nobly, bravely, fighting,
His country's cause to defend.

No more will the bugle awake him,
He has fought his last battle so well
That his name will ring down the ages
Let history unite for to tell.

He sleeps his last sleep with the heroes
Who fought for their freedom and right
To vanquish the cruel oppressor,
Who in hideous crime took delight.

Sleep on Pride of Canada, you patriot,
Sleep on midst the turmoil and strife
The day of redemption is dawning,
Not in vain have you laid down your life.

NOTED FOOTBALLER GONE

Don Brophy of Ottawa—Killed While Flying in England

A large number of friends in Cornwall and Ottawa will learn with deep regret of the death of Lieut. John Bernard (Don) Brophy, who started his training at the Toronto School of Aviation in October, 1915, and went overseas the next month, completing his course in France. He did good service in England until last November, when he returned to England for home defence and was engaged in that service when he met his death at Kirtlington-Lindsey. Lieut. Brophy was only 25 years of age, and enjoyed an enviable reputation as a football player, being a member of the McGill team in 1914, and previously with the Ottawa Interprovincial team. He was for a time in the Canal offices in Cornwall and was a frequent visitor to Stanley Island.

TURNED DOWN

Brother of "Foghorn" McDonald Not Accepted for Canadian Engineers

But for a slight injury from which he will take a few weeks to recover, a brother of the famous war hero, "Foghorn" McDonald, would have enlisted with Lieut. H. J. Kirby, of the Signal Training Depot, says the Ottawa Free Press.

Angus McDonald was apparently an interesting personality as his noted brother, for he came all the way down from Winnipeg to join the Engineers. He is a mining superintendent by occupation and thoroughly familiar with underground operations.

When the doctor told him that he had "water on the elbow" from an injury a few days ago, he protested vigorously that it didn't hurt him, that he could do as big a day's work as any man in Canada and that he would pay any doctor's bills necessary to fix it up.

"I've paid a specialist \$305 already," he said, "and I know there is nothing wrong with it. All I have to do is bandage it up and let it heal."

The doctor explained that such an injury came under the "unfit" classification until it was entirely healed, so the brother of "Foghorn" McDonald, a fighting Glengarry Scot, has to wait.

"They've shot my brother all to pieces," he informed Mr. Kirby, "and I'm going over there to get even. Can't you fix it up somehow?"

It was hard to get him to take "No" for an answer and it took a long time before a man was rejected so reluctantly. He is possessed of a magnificent physique, and his outdoor life in the Northern Ontario mining camps was assurance that hardships would not inconvenience him. McDonald was in such deadly earnest that there is little doubt of his getting his arm fixed as quickly as possible.

FRANCE DELIGHTED

Lloyd George's Answer to German Peace Proposals Produces Great Impression—He is Heralded as a Hero

Paris, Dec. 21.—The impression produced here by Lloyd George's speech fully equals that made by Briand's declaration and the Senate debate. Baron d'Estournelle's speech says: "Lloyd George in his admirable speech is faithful to his past. All his life he has desired peace. Before the war! went several times to Germany, as I did, to exhort the Germans to peace. To-day he is unable to accept the terms of the German peace proposals. He is not the man to give up the past by making known the reparations it owes its victims; as regards the future by giving the guarantee it owes the world."

Jean Finot, Editor of Le Reveu, says "there is a collective conscience of France, let it prove it regards the past by making known the reparations it owes its victims; as regards the future by giving the guarantee it owes the world."

TIGHTENING THE SCREWS

Legislation to be Introduced in the Ontario Legislature Prohibiting Publication of Liquor Advertisements in Ontario Papers

The flooding of the columns of some newspapers in Ontario with advertisements of Quebec, New York and Michigan liquor houses, has caused the new Provincial Secretary, W. D. Macpherson to intimate that legislation will be introduced at coming session prohibiting such advertisements, which are manifestly calculated to interfere seriously with the intention of the Legislature to make Ontario a dry province. With their ears to the ground, the Toronto Mail and Empire, the leading Conservative organ, and the World, which in a general way supported the Government, have given notice that they will carry no more liquor advertisements, they being heretofore among the chief offenders.

Liquor advertising was barred from the columns of The Freeholder some months ago.

GREAT CHANGES IN QUEBEC

Sweeping Amendments to License Law

Quebec, Dec. 21.—The Mitchell bill to amend the Quebec license act was distributed Tuesday night, when the measure was studied in the local House, and contains some sweeping amendments to the law as well as some heavy taxation. Besides a large reduction in the number of licenses, the bill provides for the abolition of the bar, prohibition of treating, introduction of cafe system, prohibition of the sale or giving of liquor to soldiers or sailors in uniform as long as the war lasts, limitation in the hours of sale of liquor from 9 a.m. to 9 p.m., except on Saturdays, when the sale must stop at 7 p.m., separation of grocery and liquor trade.

As has been justly remarked, it takes a man to grow whiskers, but it is a sad fact that a man never seems to have hair enough to cover the top of his head and his chin at the same time.

NEWSPAPER CHANGE

Ottawa Free Press Absorbed by the Ottawa Journal—A New Morning Paper in the Capital City

With the first day of the New Year the Ottawa Free Press will cease to exist as a separate entity, having been absorbed by the Ottawa Journal. A new paper, the Journal-Press, will be issued from the Journal premises, morning and evening, William Findlay and Norman Smith of the Free Press being associated with P. D. Ross of the Journal in its publication. The new paper will be Conservative in politics, as the Journal has always been, and it won't be so much of a jump for the Free Press, which while generally Liberal has squinted very noticeably in the direction of Toryism, lending color to the general opinion that Hon. Bob Rogers took more than a friendly interest in its sayings and doings.

The change has come about on account of the high cost of publishing papers nowadays, and the fact that Ottawa is hardly large enough for three daily papers. Mr. Findlay and Mr. Smith took over a tough proposition in the Free Press as it was a dozen years ago, but have made it one of the best evening papers in the Dominion, its arrangement of news especially being most attractive and its despatches full and trustworthy.

For the present at least, the Liberal party will be without an organ in the Capital City, but in the natural sequence of events the Citizen will probably fill the breach, as it has been a long way from a Tory paper for a number of years.

WHAT'S HAPPENING AT THE FRONT

Very Little Definite News About Work of Canadians

When a newspaper finds fault with the system by which news of the Canadian army in the war is almost entirely excluded from Canada, it is a habit with a good many to shake their heads solemnly and assume that there are excellent reasons for the course that is being followed. If a thing is being done, then there must be good reasons for doing it.

It is splendid to possess confidence like that—a sure confidence that every body who has anything to do is doing it, and that everybody who is doing nothing ought to be doing nothing.

In this case we have no such confidence. We do not believe that some master mind fully considered Canada's position—her armies at the front and in England and her other operations at home—and worked out a system that is in the best interests of this country and which best serves the military interests of the Empire and the Allies. We do not believe that a system was worked out at all, but that the position of affairs is due to a lack of organization. To the position Canada is in as regards news of the war we have not been brought by some wise pilot, but to it we drifted.

When Canada was asked, like Australia and New Zealand, to appoint an Official Eye-Witness to view the war and report upon it to the people at home, a journalist with a knowledge of his business was not appointed. Sir Max Aitken was in England collecting appointments and he collected this one. He did not want it as a task, but as an official footing, a springboard to jump from in his climbing. He got it and used it as it would serve his turn. He held other appointments—as they will serve his other turns and lately he has been made a Baronet for what service, the Lord only knows.

There is plenty of news that could and should be furnished the people of Canada, but it does not come. Officers and men on leave, messengers and couriers of every kind, do not reach Canada daily from the front as is the case in England. We are cut off from all that. Yet we are supposed to know all that. Yet we are supposed to know all that. Yet we are supposed to know all that.

The work of our troops at Courcellette, Regina trench, Dreux redoubt has not been told in any fitting way. The men at the front have no idea that their deeds are being kept as dark secrets from the people at home. "The papers" they write "will have been full of the big gains we have been making during the past week." People here scarcely know what the men refer to when they write thus. When Frederick Palmer stated in his lecture in Mass. that the Canadians had the credit of introducing the trench raid, now so much resorted to by both sides along the Western front, thousands in his audience had not heard of this before.

If the people of this country are to have their attention turned to the war—and who does not know the imperative need for this?—it is urgently necessary to open all the windows and let news of the war recound throughout all Canada.—Toronto Star.

A WELL MANAGED TOWN

Candidates for Municipal Honors Give Account of Stewardship at Public Meeting Last Night

The public meeting held in the Music Hall last evening for the discussion of municipal affairs was fairly well attended, all listening with interest to the men who dealt with the town's business during the past year.

Mayor-elect Chevrier on rising expressed his thanks to the electors for honoring him by placing him in the Mayor's chair for the year 1917. The electors, he said, have the opportunity of choosing a splendid council for the coming year and one which should give the town good government.

As chairman of the Road Committee during the year just closing, Mr. Chevrier gave an account of the work done by his department. In all there were built 16 blocks of road, made up as follows:—

Graded and gravelled—Ninth Street, four blocks; Bedford Street, one block; Third to Fourth; Adolphus Street, Second to Third; Seventh Street, one block; Pitt Street to Augustus Street; Fourth Street, Sidney to Amelia, one block; Edward Street, half a block; Albert Street, half a block; Gloucester Street, Second to Third Street, one block; Marlborough Street, Second to Third Street, one block; York Street, Second to Third Street, one block; Augustus Street, Fourth to Sixth Street, two blocks; William and Duncan Streets, cinders; Second Street, Pitt to Amelia, tarvia.

The total estimated cost of this work was \$4,874.

The following extras were allowed for: Bridge at Canada Mill, estimated, \$1,600; 1,800 lineal feet of curbing at \$1.50 per foot, \$2,700; general repairs, cleaning, etc., \$500; making a total of \$5,674.

In connection with these expenditures there is to be collected \$500 from the Canada Mill, portion of cost of bridge, and \$311.50 from the Street Railway, portion of cost of road, making a total of \$1,311.50. The total amount spent to date by the Road Department is \$6,754.82, and from this amount is to be deducted \$6,134.56, making the total expense to the town for the year for road purposes \$620.26, which is \$1,014.04 under the estimate.

This is caused by the lack of material and help, the water and sewer extensions requiring all the labor available, thus making it impossible to carry on some proposed repairs to the roads.

In speaking about the programme for the next year, Mr. Chevrier sug-

gested that the Industrial Committee and the Board of Trade get together as early as possible in the year and use every endeavor to get new industries in the town.

On the subject of roads, he strongly recommended use of tarvia, and for next year believed it would be wise to construct a tarvia road on Second Street from Pitt to Cumberland. With the increasing auto traffic the old style gravel road does not stand up and the cost of up-keep is too great, whereas with the tarvia road, while the original cost is greater there is practically no maintenance cost. In support of this contention he said that a few years ago the town adopted the plan of building nothing but granite sidewalks instead of the old wooden board walks, and had never deviated from it and the results were satisfactory, good permanent walks resulting. He would like to see the same plan adopted in regard to roads, as it would be a most economical procedure. While he did not believe Pitt Street could be paved next year, he advocated such a proposition, and any work done should be arranged with that end in view.

Some criticism had been made of the tarvia road on Second Street. In dealing with this criticism Mr. Chevrier said that the expert sent by the Tarvia Company did not believe it wise to roll the road before putting on the tarvia, and in consequence a few low spots resulted, but these would be fixed up in the spring with out difficulty and at practically little expense. It cost \$1000 more to build these two blocks in tarvia than it would have cost to build them in gravel. The first cost there was a saving of at least \$100 on each street owing to not having to roll the gravel down and water it. The road is now in good for at least 15 years and there is no maintenance cost.

In closing Mr. Chevrier wished one and all a Happy and Prosperous New Year.

Councillor William Pollock made an exhaustive explanation of the town's financial condition, which he claimed was exceptionally good, and that very few Ontario municipalities could make such a good showing. He thanked the ratepayers for their continued confidence and would serve them willingly for another year if they chose to re-elect him. The following figures, which tell their own story, were submitted by Mr. Pollock:—

The Province levied one mill on the \$ for war purposes. The County Council also levied one mill for same purpose, while the town's grants for these objects during the year 1916 amounted to \$1600, or about 3/4 of a mill on the \$ of assessment—a total of 2 1/2 mills for patriotic purposes.

Deputy-Reeve Hermlston, Dr. Munro, George Bergeron, J. Miller, A. C. Fetterly, R. Smith, W. C. R. G. Relyea and P. J. Lally spoke briefly.

The Mayor opened his address by referring to the retiring of Pohn Quig, engineer for many years at the pump house, who resigned his position this year on account of an accident and consequent inability to perform his duties. He stated that Mr. Quig was one of the oldest, most faithful and most reliable servants of the town and wished him long life and happiness.

The Mayor then went on to refer to some of the statements made by Jacob Miller and corrected various misapprehensions which might have arisen from some of Mr. Miller's remarks. In particular he defended the assessors of last year from a charge of injustice to Mr. Miller personally. He also referred to the matter of the North End and the extension to the waterworks mains to points in the town where it was impossible to obtain a 10 per cent. revenue on the outlay, and explained that in the case of the first matter the remedy lay with the ratepayers, who, however, had never petitioned for a sewer in the North End, and in connection with the second matter that the town by law made an extension impossible. He then referred to a statement made by A. C. Fetterly that he was in favor of proceeding without delay to pave four blocks on Pitt Street. The Mayor pointed out that the cost of this work would be at least \$50,000 and that it would be impossible to provide funds for the construction of such a pavement except by one of two means—the proposition on the part of the ratepayers to raise the money for doing this and a similar road work, but in view of the fact that the Dominion Finance Minister and practically every financial authority were continually advising strongly against new borrowings by municipalities, and that the rate of interest on debentures was now about six per cent., in addition to which material and labor were now at their high set point and practically unobtainable, he was opposed to any such scheme, at least until the war was over.

So far as his own candidature for the office of Reeve was concerned the

So far as his own candidature for the office of Reeve was concerned the

Mayor stated that he was governed by two considerations in qualifying for the office, the first of these being to see through the improvements at the pump house which he was probably more familiar than any other member of the Council except Mr. Hermlston, Chairman of the Water Works Committee, who was retiring at the end of the year, and the second in order that he might use his voice and influence in the County Council to obtain some consideration for the town in the matter of the Good Roads movement.

The Mayor concluded by stating that there was no ring or cabal or clique in control of the Town Council, and that the business of the town was done by the members of the Council with the same degree of interest that they would give in their own affairs. He invited the closest possible scrutiny of ratepayers to elect the very best men to form the council of 1917.

MILLE ROCHES

A Worth-while Christmas Gift

The employees of the Provincial Paper Co. were made happy on Dec. 21 by a generous Christmas gift from the Company, in the shape of a cheque for a sum equal to five per cent. of their earnings for the year 1916. In view of the increased cost of living the Company felt impelled to share with those who had contributed so materially to an exceedingly prosperous year, a portion of the profits. Such generous action is decidedly creditable to the Company as a rejoinder to the assumption that "Corporations have no souls." Besides promoting the best of good feeling between employees and employers it will no doubt result in an increased activity on the part of all concerned during 1917.

Lauber-Loezy

A pleasant event took place at the home of Nelson Loey on Wednesday last week, when his daughter, Miss May, became the bride of Herbert Lauber of Moultonette. The ceremony was performed by Rev. Mr. Snell in the presence of a few friends. The bride, who was given away by her father, had as her bridesmaid Miss Ada Lauber, Harry Loey assisting the groom. The bride wore a white silk blouse and carried a bouquet of roses. The bridesmaid was similarly attired. A leather-seated chair was ridden in the bride by her girl friends in the paper mill, where she was employed, and there were many other useful presents. Mr. and Mrs. Lauber took the afternoon train for Montreal, and returned on Tuesday, being warmly congratulated.

TO THE ELECTORS OF THE TOWNSHIP OF CORNWALL

Ladies and Gentlemen: Having been requested by a large number of the ratepayers of the township to come before you as Councillor for the year 1917, and not being able to see you all personally, I am taking this means of asking you for your support, which was given my father, the late James L. Groves, who served the township faithfully and with the best of his ability for several years, and I, if elected, will endeavor to do the same. I remain, Yours truly, ERNEST C. GROVES.

TO THE MUNICIPAL ELECTORS OF THE TOWNSHIP OF CORNWALL

Ladies and Gentlemen:—

At the request of a large number of the ratepayers of the Township I have accepted nomination for another term as Reeve of the Municipality, if there were respectfully ask you for your votes and influence to secure my election on Monday next. I have had the honor to serve you for several years both at the Township and Counties Councils and I feel that I can consistently give you my support on the merits of my record. I have taken an active interest in the Good Roads scheme adopted by the Counties' Council and one reason for my acceptance of the nomination for re-election is my desire to watch the interests of the Town ship in carrying out of that project. Should you honor me with your confidence by re-electing me I shall devote myself faithfully, as in the past, to the service of the Municipality.

Again soliciting your votes and influence and wishing one and all a Happy New Year. Your obedient servant, P. A. NOLAN.

MAKE IT

Nuyler's

FOR NEW YEARS

¶ In giving Chocolates as a Christmas Gift, you want to be sure you are giving the BEST, and you want the recipient to feel that she is getting the BEST.

¶ Therefore make it *Nuyler's*

¶ We know that the trademark *Nuyler's* on Chocolates means in the Candy Market the same as STERLING in the Silver Market—the utmost in quality.

¶ Therefore make it *Nuyler's*

¶ It is not, however, sufficient for us to say this, we want to tell you why *Nuyler's* to-day occupy the enviable position they do in the hearts of every Candy-lover.

HERE ARE THE REASONS:

- 1—HUYLER'S Cocoa Beans are carefully selected and blended as a tea merchant blends teas, to get the desired flavor.
- 2—HUYLER'S use nothing but Creamery Butter, Fresh Eggs, Sugar, Chocolate and Vegetable Extracts in the manufacture of all their confections.
- 3—HUYLER'S use no Corn Starch and no Amaline Dyes or injurious chemicals.
- 4—HUYLER'S use absolutely no Paraffin.
- 5—HUYLER'S goods are made in a light, bright, sanitary factory, which is kept spotlessly clean, and inspected regularly by the Health Department.

—HUYLER'S could substitute in so many lines of raw material that they could cut the cost of manufacturing down fifty per cent., but HUYLER'S business has been built up on quality. In other words their motto has been "HOW GOOD CAN WE MAKE IT?" not "HOW CHEAP CAN WE MAKE IT?"

7—HUYLER'S guarantee every package you buy, and will cheerfully replace any package that is not perfectly satisfactory. Each package contains a Guarantee Slip, bearing this guarantee, and each slip bears a number showing when the box was packed.

NATIONAL SERVICE REGISTRATION

Name of Every Man Fit For Military Duty to be Secured

The Director-General of the National Service has been charged with the duty and responsibility of making investigations and formulating plans that will in some measure provide for those adjustments in our national life, necessary for the maintenance of the agricultural and other basic industries of the Dominion, at that high point of production and efficiency so absolutely essential to the successful prosecution of the war, while continuing unimpaired the indispensable public services of the country.

Public notice is hereby given under the authority of the "War Measures Act, 1914," that during the first week in January, 1917, an inventory will be made by the post office authorities of every male between the ages of 16 and 65, residing in Canada.

National Service cards and addresses envelopes for their return to Ottawa have been placed in the hands of all postmasters for distribution amongst the persons required to fill in such cards. Every male person of the prescribed ages is required to fill in and return a card enclosed in an envelope within ten days of its receipt.

One of the published questions is: "One of the 24 questions, whose nature is now pretty generally understood, has been received."

The accompanying circular explains that the National Service Board of Canada has been charged with the duty and responsibility of making investigations and formulating plans that will in some measure provide for those adjustments in our national life, necessary for the maintenance of the agricultural and other basic industries of the Dominion, at that high point of production and efficiency so absolutely essential to the successful prosecution of the war, while continuing unimpaired the indispensable public services of the country.

To lay the foundation for this work an inventory of the man-power of Canada must be made quickly and at a minimum cost. This inventory it is proposed making the first week in January next, in making it the National Service Board ought to have the hearty co-operation of all loyal Canadians. Notwithstanding the peace proposals the war is far from being over. It is more likely to last for years yet, and to tax to the full the utmost resources in men and means of every portion of the British Empire.

Upwards of 150,000 letters have also been despatched by the National Service Commission to chief magistrates, lawyers, doctors, clergymen, school teachers, heads of fraternal societies and associations, members of Parliament and of Legislatures throughout the whole Dominion, asking for their co-operation in the registration of the man-power of Canada, on the cards to be distributed by postmasters.

School teachers are asked to call their pupils together and explain the claims of National Service Board and to carry word home to their parents. Mayors, Reeves, etc., are asked to take all practicable municipal measures to forward the work and hold public meetings.

His Excellency the Governor-General will issue a personal appeal for general co-operation. It is expected that fully one million and a half replies will be received from the adult males still left in Canada, each one signifying in present

TEACHING SOLDIERS' WIVES

Scope of Canadian Patriotic Fund Widened

Aside from looking after the immediate financial wants of the dependents of Canadian soldiers, the officers of the Canadian Patriotic Fund have, where practicable, widened the scope of their energies so as to embrace the moral and social welfare of those whom the exigencies of war have thrown into their keeping. In hundreds of cases soldiers will return from the war to better wives and to better homes. The Fund workers are grappling at the very roots of the social problem when they disregard the effect and at once seek the cause. A purified home is not an atmosphere for degradation and crime. The Canadian Patriotic organization aims to lift its charges not only above such conditions, but to give them a better home. The Fund workers are grappling at the very roots of the social problem when they disregard the effect and at once seek the cause.

In thousands of homes throughout Canada women are being taught domestic science, the care of children, buying and the keeping of household accounts. Charity is not bestowed on these dependents. They are simply given an opportunity to become better citizens, the effect of which while obscure for the moment, will yield rich results in generations to follow. When the Patriotic Fund is supported by those of us who cannot fight we are helping ourselves not only the recipients.

A LOST ARMY—WHERE IS IT?

Already there is in progress a roll-call of the Canadian soldiers in England and each officer and man is asked why he is not physically fit, and is in condition for front-line service, he is marked to proceed there, and the routine work at headquarters is to be done by disabled soldiers or by girls or civilians unfit for service. There is a lost army somewhere, and we look to General Turner to find it. According to the official figures, Canada has sent 250,000 men overseas. Where are they? If the four divisions in France were up to strength—which they are not, and have not been at any time during the campaign of this year—that would account for 50,000 men. The official figures give our total casualties since the war began as 60,000. Even if we assume that all these became unavailable for further service—which is not true of most of them—there remains to be accounted for an army of 110,000 men. Where are they? No considerable portion of them are training in England because battalions recently arrived there are furnishing drafts for the front without receiving further training than what they received in Canada. What disposition has been made of the 110,000 men not included in the nominal 60,000 casualties? Many were not physically fit, and should not have been accepted for enlistment, perhaps, but how many? Surely not enough were rejected and sent back to come anywhere near account for this lost army of 110,000 officers and men.—Toronto Star.

Talk of coalition Government comes too late. Coalition might have produced a strong national Government in 1914.

occupation and whether he would be available for other form of national service, it being necessary or advisable.

These replies will be collected by a large staff at Ottawa and the inventory of the men names will be made with a view of securing its best distribution and utilization. This work, it is estimated, will take fully four months. This is an outline of what the National Service Commission proposes to do. It seeks to take stock of the National Service in this way, and enable it to judge whether a man is doing service now in the best manner possible and ascertain his willingness to serve in some other capacity if required. It is hoped it will receive hearty co-operation from all who have been asked to help and that when the cards are received through the postmasters they will be promptly filled out and returned.

MADE A SPLENDID APPEAL

N. W. Rowell Speaks of War Service

N. W. Rowell, leader of the Ontario Opposition, has made many eloquent appeals on behalf of service in wartime, but he has made none which ought to awaken a response more than that which he made in speaking at the Winter Fair, Guelph, last week, when he said in part:

"We must not lose sight of the fact that during these days, and the days that lie before us, there is being settled on that immense battle line, more than two thousand miles in extent, with almost forty million men engaged, the question of the whole character of civilization, under which we shall live throughout all the days that lie before us. We live in the most momentous of all times. There never was a time when human life seemed of so little value, and yet, there never was a time when human life was of such transcendent value. We may live under normal conditions, die and be buried and forgotten, and our lives may count for little, but there is no man who has a life to live today, but who could throw that life into the balance for freedom, for justice and for liberty, and help make this old world better by the sacrifice he makes. That is our privilege, and I believe Canadians will be equal to it."

Premier Hearst has made some appeals which do him credit. Sir Robert Borden has visited various places seeking to call out the manhood of the nation. Sir Wilfrid Laurier has appointed in a most forcible way his compatriots in Quebec. "Win the War First" should be the predominating thought in Canada today, just as it should be in Britain. Even there they did turn aside for a time to find fault and it would be vain to hope that Lloyd George's ministry will utterly dispel criticism. It will be judged by its deeds, but we as Canadians should get rid of this spirit to as large an extent as we can, and esteem it a privilege to make sacrifices for liberty, freedom and for justice, as Mr. Rowell has so eloquently said.

BOOZE FIGHTING IS EXPENSIVE

John Liesert, a Matilda man, was before Magistrate Collison of Trochu one day last week on a charge of abusing his wife while the worse of liquor. The charge was proved and Liesert was fined \$5 and costs—\$22 in all—and bound over, himself in \$200 and two sureties in a like amount, to leave the place within three days and to keep the peace hereafter. J. G. Harkness, County Crown Attorney, Cornwall, was present in the interest of the Crown.

"A-TANK" AT BAY The "tanks" behaved well, as is their habit. One remained for a time stuck fast. The Boches hurled themselves at it, and, yelling like maddened Red Indians, danced a scalp dance round the monster. Sublimely indifferent, the tank glared its portholes, lowered the curtains, and shut the doors, and then waited philosophically for the end of the shower, not without letting from time to time some saucy idea from machine-guns to kill incidentally, a few Boches as glanced off its carapace like on the back of a whale, and as they would have heard the whale and all its lungs roaring with homely laughter. Soon after a detachment dashed up to help the tank, which then blithely once more pointed its nose towards the enemy.

DAIRY STANDARDS ACT Generally Endorsed by Dairymen of Ontario. Writing from Miss M. Henry Glendening, who appeared before a number of the recent District meetings of the Ontario Dairy Associations on behalf of the Dairy Standards Act, passed at the last session of the Ontario Legislature, and which provides for paying for milk by test instead of on the pooling system, going into effect

April 1, 1917, informs The Freeholder that the meetings were well attended, and that on the whole the Dairy Standards Act has been very favorably received. Only three places gave a popular vote against it out of the 19 meetings held. At every meeting there was a solid vote for the continuation of the law against the importation of oleomargarine. Mr. Glendening also informs us that the Government of Nova Scotia is also moving against any change in the law respecting "Bull Butter."

WILLIAMSTOWN HIGH SCHOOL Annual Christmas Entertainment

The annual concert in connection with the Williamstown High School was held on Friday evening, December 22 in St. Andrew's Hall. In spite of the most unfavorable weather the attendance was good showing in that estimation the entertainment is held.

Great credit is due those who trained the students in the different numbers helping them to show forth their talents to the greatest advantage. The boys and girls each tried to out do the other in songs and both were heartily enjoyed. A delightful Gaelic song caught the hearts of the older Scots present.

The boys and girls each tried to out do the other in songs and both were heartily enjoyed. A delightful Gaelic song caught the hearts of the older Scots present. The drills were done with exact precision and the same might be said of the whole performance.

An item to which everyone had looked forward was the short address by Sergeant Stanley Edgar, a former pupil of the school, who has returned from the trenches and he in no way disappointed the expectations. He explained that though the Allies are winning it is a slow process, just begun and many more men have to go before the final victory. He himself has never seen a soldier up.

The commencement exercises were combined with the concert and in this connection Principal Cook, M.A., gave a short report of the school. The high average number of certificates obtained, 26 per year, the excellent attendance and honor roll were all mentioned. The latter has 66 names and there are only five boys in the school of military age. This shows the calibre of the students.

Rev. A. Gavon, B.A., chairman of the board, in presenting the medals and prizes spoke very fittingly of the excellent record made by the school and the boys at the front. He also mentioned the small cost of carrying on this school as compared with others in Ontario.

The following is the list of winners of diplomas, certificates, prizes and medals: Lower School—Maybelle Govan, Pearl Gardner, Christie Stuart, Lois Sangster, Margaret McDonald, Dorothy Buchanan, Leila Tallion.

Middle School—Maybelle Govan (two certificates), Edith Sangster, (scholarship Grant No. 1 \$300.00), Jean Govan, (scholarship Grant No. 2 \$250.00), Jessie Sutherland, Aggie Condie, Chas. Abrams, Hannah Wilkinson, Eva Sangster, Homer McQuig, Upper School Entrance to Faculty, Mrs. I. Annaberyl Mowat, Gordon MacCrimmon.

Graduation Diplomas, Junior—Edith Sangster, Jean Govan, Eva Sangster, Aggie Condie, Chas. Abrams, Hannah Wilkinson, Homer McQuig, Martin Urquhart, David Cresswell, Senior—Annaberyl Mowat, Gordon MacCrimmon.

Praise in French, Form IV—Emma Beauchamp. Medals won for obtaining the highest standing throughout the year: Form I, Silver—Eddie Powell. Form II, Silver—Margaret McDonald. Form III, silver—Mildred Tall. Form IV, Gold—Edith Sangster. Form V, Gold—Annaberyl Mowat.

LONG SAULT POWER Exceeds the Value of \$400,000,000. It is Claimed—The Franchise Recovered by the State of New York is Valuable as That of Niagara Falls.

Albany, N.Y., Dec. 15.—The value of the Long Sault Development Co. water power franchise on the St. Lawrence River recovered by the state of New York, under a decision of the United States supreme court, exceeds the value of \$400,000,000, conservation experts declare.

Attorney General Egbert E. Woodruff, who made the fight in the courts for the recovery of this franchise, says it is "the richest water power prize in the world."

Under this decision the state again assumes complete possession of the Long Sault Rapids, which in themselves constitute a water power as great and potential as Niagara. Control of the rapids has been made an issue in the courts since 1912, at which time the state began an action to declare unconstitutional the grant by the legislature of 1907 to the Long Sault Development Co., giving it exclusive control of the St. Lawrence river at that point.

This decision unless a new grant is obtained from the legislature, which is a remote possibility, effectually disposes of any hope of the Long Sault Co. ever to obtain any further rights in the St. Lawrence or any opportunity to present his case before congress or the Canadian government.

Estimates of the value of the Long Sault Rapids as an electric power producing agency made by the conservation experts range from a minimum of \$400,000,000 to \$1,000,000,000. It is estimated that sufficient power could be produced by these rapids to turn every wheel and light every municipality in the state of New York.

Deputy Attorney General Lewis pointed out to the United States supreme court that the Long Sault project was "the greatest water power development ever exploited under one charter." Inducting the possibilities of this development, there would be left undeveloped in the state all told, only 400,000 horse power, (300,000 horse power from undeveloped rivers and streams and 100,000 horse power from the surplus waters of the canals). He also indicated to the court that the Long Sault Co. had within its grasp control of power twice as large as the combined power development on both plans of the Long Sault Development Co., which are now upset by this decision, the rapids were to be harnessed so as to develop 700,000 horse power.

The decision is interpreted to mean that the supreme court felt that the prior decision of the state court of appeals was correct in law and rendered after full and impartial consideration of the company's alleged rights.

Conservation experts declare that the Long Sault rapids must be a national reservation of the state of New York hereafter enters upon. Canadian conservationists are greatly helped by the determination of the court case, as plans have been under way in Canada for some years to save the water power capable of generating of the Canadian side for governmental purposes.

INTERNATIONAL FERRY The ferry steamer New Etobicoke of Morrisburg is being extensively overhauled and improved this winter and her owners, McCallum & Mowat, propose to give a service between Morrisburg and Waddington equal to any ferry along the river. Three automobiles can be taken over at one time and the tops need not be taken down. Car owners will be glad of this information.

Doing Our Bit

All of us cannot fight. All of us—men, women and children—can do something towards winning the war. Are we seeking that "something," or are we evading it? Are we looking for the "bit" we should do, or trying to forget it?

Take the Canadian Patriotic Fund. It has been created to care for the families of our soldiers in those cases—and those only—where need exists. Experience has shown that this means in two families out of three. Up to December 1, 1916, the people of Canada have given \$16,500,000 to the Fund.

That is generous giving, isn't it? But the country is still at war; our armies are still growing; the soldiers' families are still in need; the Fund still must be maintained. And what do we find: in every part of the country men crying that they have given enough to the Fund—that Government should now take the burden.

Given enough! When the Canadian led in the trenches is dead-tired, ready to drop in his tracks, does he chuck his job, declare he has given enough, and call on Government to get another man? Given enough! Is there a man in Canada has given enough if women and children are in need while he, the stay-at-home, has a dollar to spare?

No! This Fund, above all funds, has a claim on every citizen who is not himself a pauper. The fact that Government has not assumed responsibility for it is the fact that makes every man responsible for it—even if he thinks the Fund should be maintained by Government moneys.

Government should not control, because 1. Government would have to treat all alike. The Fund helps only those in need. If Government paid the families of each soldier the average sum paid by the Fund the extra burden on the country would be between eight and nine million dollars yearly.

2. By paying the average sum those families in districts where cost of living is low would receive more than they need; those in high-cost areas would be paid too little.

3. Costs of administration would be enormously increased. This work is now done, for the most part, by willing workers without cost. Of every hundred dollars subscribed, Ninety-nine Dollars and Forty-six Cents go to the families! Never was a voluntary fund so economically administered.

4. The work would suffer. There would be no more of the friendly, almost paternal, relation now existing between the administrators of the Fund and the families. Government works automatically. The Fund's visitors are friends in need, therefore friends indeed.

5. Taxation would be unequal, for some counties and some provinces are already taxing their people for this Fund. Are they to be taxed again by the Federal authority?

6. The richer classes would be relieved of work they are cheerfully doing. They are now bearing, and bearing because they have the financial power and the patriotic willingness, the larger share of the burden. Why take from them this task, and give it to all, rich and poor?

7. The Fund blesses him that gives. It is a vehicle for public spirit—a channel for patriotic endeavor. The work of administering it has uncovered unknown reservoirs of unselfishness and sacrifice. Men and women have thrown themselves into this work because they found in it the "bit" for which they looked—their contribution to winning the war. Why stay their hand and stifle their enthusiasm?

8. Last, but not least: Government control means raising the money by selling Government bonds. Government bonds mean future taxation. And that means that the returning soldiers will pay, through long years, a large share of the cost of caring for their families—a cost we, the stay-at-homes, pledged ourselves to bear.

SHEN AND WOMEN OF ONTARIO! Bend your backs once again to this burden. If you live in the rural districts so to it that your county councils make grants worthy of the counties and of the cause. If in the towns, start campaigns for individual subscriptions. And, personally, taxed or not taxed, give as you can afford, give as your conscience tells you is your duty, your wartime part, in this day of national sacrifice.

The Fund requires \$12,500,000 for 1917. Of this Ontario is asked to raise \$6,000,000, being the estimated requirements of Ontario's families. If there is no local Fund to which you can subscribe, send your gift direct to the Canadian Patriotic Fund, 71 West Street, Ottawa.

Fifty Men Recruited for B Company During Three Weeks Recruiting

(Contributed by the Battalion)

Our ambition has been to obtain 50 men before the New Year; we have them. Eighteen men were sent to Kingston last week for their uniforms, etc. These men have returned and are now busy recruiting for B Co. in their respective localities. Fifteen others were outfitted in Cornwall and this week a dozen additional uniforms were received at Cornwall and are being issued to the men as they sign up. Hundreds of men who should be wearing the kilts and Balmoral kilts are still going about in civilian clothes. Why is this?

Watch for the Balmoral, with feather and large Queens University Highlanders' badge—there is something distinctive about them. The following names have been added to the Honor Roll of B Co., since the list last published:

Frank Ellis, Iroquois; J. H. Johnston, Iroquois; S. R. Fitzgerald, Merrickville; F. S. Wallace, Iroquois; Wm. Armstrong, Arnprior; E. Hamilton, W. Murray and B. Wylie, Brimston Corners; K. Jackson, Iroquois; P. Cummings, Spencerville; John Watson, Merrickville; Edward Jenkins, England; J. Higgins, Scotland; Wm. Eligh, Spencerville; Charles Roberts, Iroquois; W. Walters, Mountain; Angelo Sisty, Iroquois; R. Brennan, Summerstown; J. W. Kelly, Cornwall; J. E. Moss, Cornwall; G. C. McCutcheon, Cornwall; W. C. Lancaster, Lancaster; Herbert Lawson, Lancaster; David Cameron, Finch; Wm. McDonald, Lancaster.

Major Cameron and the other officers are now settled in their headquarters in the Lalonde Block, Pitt Street. They are engaged upon the completion of their plans and will begin their great campaign for recruits throughout the United Counties on January 2.

When it is stated that they have enrolled over 50 men in the vicinity of Cornwall alone, we may rest assured that the 500 men required for this unit from the United Counties will be raised within a very short time. Appropriate advertising matter is being distributed throughout the Counties and great patriotic meetings will be held, at which pipes from the Highland Pipe Band will be present.

Only two or three Non-commissioned Officers have been appointed who are essential to the work on hand and this will mean that there will be quite a large number of positions to be filled by the men enlisted. This should be a great inducement to the young men throughout the district.

The officers wish to thank the citizens of Cornwall for their good wishes and valuable help rendered. We understand that a strong Citizens' Committee is to be formed to co-operate with the officers in this work.

CORNWALL CANADIAN CLUB

The annual meeting of the Cornwall Canadian Club will be held in the Council Chamber, Town Hall, tomorrow (Friday) evening, at 8 o'clock. A full attendance of members is requested.

WE THANK YOU

As we cross the threshold of a New Year, we wish to thank those who have honored us with their confidence and trade during the year that is gone.

We strive always to protect and promote the interests of our friends and customers in every way and we are gratified to note the generous response which this policy brings.

During the coming year we shall make every effort to serve you even better than we have in the past.

We extend to all sincere wishes for a Happy and Prosperous New Year.

COMMERCIAL COLLEGE NOTES

Many Applications For Graduates

For the hundreds of Christmas Cards and other pretty remembrances sent by former graduates, the Principal of the C. C. desires to express thanks, through the medium of the College Notes.

The "sentiments and good wishes are heartily reciprocated. The College Office is open every day to receive applications and to answer inquiries regarding the Winter Opening which takes place on Tuesday, Jan. 2, 1917. Over 100 positions filled during the past term and over that number left unfilled owing to lack of material.

A Commercial Education is essentially the result of a course of study in the management of practical business affairs. It includes a thorough knowledge of bookkeeping and its various applications. It thoroughly teaches penmanship, the means of recording all business transactions. A very important item is correspondence by which so large a volume of the world's business is now carried on. Knowledge of Commercial Law is valuable; the business man should know his rights and how to protect them. In addition to this he should have thorough training in shorthand, touch typewriting, English and Arithmetic, for these play important parts in the commerce of the world. Every man or woman equipped with this training is qualified to do battle with the keen minds already in the business world.

CHRISTMAS ENTERTAINMENTS

St. John's Christmas Tree
The very disagreeable weather on Friday night did not in any way interfere with the success of the annual Christmas tree and entertainment of the St. John's Sunday School, the Sunday School room being crowded with pupils, parents and friends. J. C. Macfarlane acted as Santa Claus and his appearance was greeted with cheers by the youngsters, who were made happy when he and his helpers gave out presents. A program in which the classes and members of the school took part was rendered.

During the evening Rev. Hugh Munroe was presented with a handsome leather chair by a lady and gentleman of the congregation as a mark of appreciation of his kindly acts by him during the year just drawing to a close. The chair was occupied by J. G. Harkness, superintendent.

Yesterday evening in Trinity hall, the Trinity Church Sunday School entertainment was given. There was a very good audience present of parents and friends of the children, all of whom were much interested in the programme given by the children, also the lantern lecture given by Rev. Mr. Nettum.

The prizes were given at the conclusion of the lecture—a list of the prize winners will be given next week. During the evening Mr. Nettum presented an address on behalf of the Sunday School teachers and pupils to H. Yates, who for 36 years has been superintendent of the school, and who is now retiring from office. His resignation is presented Mr. Yates with a suitable token of their regret at his resignation, but owing to delay, it will be presented later. Mr. Yates very briefly thanked the school for the appreciation of his efforts.

Those taking part in the programme were:—Chorus, Tiny tots of Mrs. White's class; Tabernacle, Christmas Scene—Elizabeth Gray, Gladys Loney, Olive Kinghorn, Lorna Goudie, Emily Kennedy, Elsie Fuller; Song—Dorothy Kyle, Highland Kings—Lea Kyle; Chorus, "One Cold Winter Night"—Bertson Auty, Reginald Kyle, Charlie Runions, Grenville Harley; Chorus, E. Gray, G. Loney, L. Goudie and O. Kinghorn.

W. C. T. U.
A meeting of the members of the W. C. T. U. will be held in the parlors of Knox Church tomorrow (Friday) afternoon, at 8 o'clock.
