## GREEK MINISTRY FALLS

And There Are Fears That the Country Will Be Rent by Rebellion.

The Mob Breaks Open Gunsmith Shops and Arms Itself With Weapons.

ATHENS, April 27.—(Midnight)—The fall of the ministry is now regarded as a certainty.

London, April 27.—A dispatch to the Daily Mail from Paris says the Greek cabinet has resigned.

Popular feeling points to a revolution in favor of a republic. The citizens are greatly excited at the revolutions made by former Minister Ralli as to conduct of the campaign. To-day large meetings were held in Constitution square and other places of public resort, and fiery harangues have been delivered by well-known orators in denunciation of those who would betray Greece. This afternoon five hundred men formed themselves into a volunteer body, forced their way into the gunsmiths' shops, armed themselves with rifles and revolvers and paraded the streets in front of Mr. Ralli's residence. Several deputies addressed them, exhorting them to remain calm and to await the progress of the events. Finally they proceeded to the royal palace where, after making a demonstration, they dispersed without further disorder, but the incident has made a great sensation.

LARISSA, April 27.—Headquarters of the Turkish army in Thessaly.—Nobody ever saw more perfect discipline as when the victorious Turks occupied Larissa. The peace was not disturbed in a single quarter of the town. Several cases are already doing business. Practically the whole Greek population fled the town. One of the few persons who remained says that there was a continual exodus throughout Saturday. Only a number of volunteers remained, who, the moment the regular troops had gone, began pillaging the stores and also liberating the criminals from the jail. The released prisoners joined in the looting and the volunteers afterwards began to shoot the civilians, who throughout the preceding week had been maltreated by Greeks whenever they appeared on the street. The Greek soldiers are furious at the Khilafat and the Greek National Congress. They seized all the members of this organization there, and, as they were very young, they inflicted a misfortune upon us. The Greek prisoners are well treated by the Turks, and a Greek officer who had been supplied with coffee and cigarettes remarked: "We were always told the Turks were barbarous, but I should like to see more of this sort of barbarity among our own people."

A Greek newspaper published here is full of the most gross misrepresentations. At the moment the Turks were entering the plain of Thessaly, it announced that the Turks were in full retreat and declared the Greeks would die to the last man before they would allow a single Turk to enter the country. The Turks have sealed up all the banks, business houses, and other places containing money or other valuables, and have placed armed guards over them.

LARISSA, April 26 (delayed in transmission).—Perfect order prevails here, and both life and property are in complete security. The shops, therefore, are reopening.

It is stated that before the Greeks fled Prince Constantine, the Greek commander-in-chief, begged them to remain and face the enemy, but they refused, and a regular massacre of the Greeks ensued.

PARIS, April 27.—The correspondence of the Temps telegraphs: Prince Constantine will remain with the troops in Thessaly, but he will do so merely as a matter of form and will not be influenced by the bundles of war. The correspondent does not believe King George will go to the front.

CONSTANTINOPLE, April 27.—As to the campaign in Epirus, it is not thought here that it is now in danger of being attacked by the numerous Albanians, owing to the efforts of the palace officials, here combined with the efforts of the Albanian chiefs, the multitudes are said to have submitted, although the outbreak at first caused serious apprehension at the Yildiz Kiosk.

CONSTANTINOPLE, April 27.—The Turkish government, acting on the recommendations of the ambassadors of the powers, has authorized the Greeks in the service of the consulates, hospitals, foreign missions and post offices to remain in Turkey. All other Greeks, however, are ordered to leave the empire.

ST. PETERSBURG, April 27.—In political circles pleasure is expressed at the Greek defeat, as it is looked upon as calculated to avert dangerous complications in the Balkans, which might have jeopardized the peace of Europe.

## JUST TO COIN MONEY

Senator McLean Will Move for the Establishment of a Canadian Mint.

Iron and Tobacco Men Protesting Against the Changes in the Tariff.

OTTAWA, April 27.—An extra of the Canada Gazette was issued to-night containing a proclamation fixing June 23 as the day for celebrating the Jubilee.

The Senate resumed this afternoon after the adjournment of the day.

McLean, of British Columbia, gave notice of motion that it is desirable and expedient that the government should at the earliest possible moment establish a mint in Canada for the purpose of coining all the gold, silver and copper currency necessary to meet the commercial requirements of the country.

In the house today Controller Esterson said that the only country he had decided as coming within the scope of the reciprocal clause is Great Britain and Ireland.

Mr. Reid introduced a bill to-day which is a copy of the United States Interstate Commerce Law.

Representatives of iron and tobacco industries had a further interview with the government to-day, protesting against the tariff.

Col. Prior moved for papers relating to the dismissal of Dr. Duncan as quarantine superintendent at William Head.

As a Conservative member had to-day it was agreed that the tariff on construction to Canadian industries, and rendered it impossible to obtain preferential trade with Great Britain. No amendment will be introduced, but the bill will be resolutely fought in committee.

## A SCORCHER.

Shipping, Grain Elevators and Merchandise Burned at Newport News.

Nearly Two Million Dollars' Worth of Property Destroyed in a Short Time.

Newport News, Va., April 27.—Fire broke out at six o'clock at the Chesapeake and Ohio Railway Company's yard, and before the flames were under control several million dollars' worth of property had been destroyed.

The fire started in a grain elevator, and spread to the elevators, and the half loaded German bark J. D. Bluff was burned to the water's edge. The Norwegian steamer Solvig was badly damaged and the British steamship Clontarf completely destroyed by the flames. Several other steamers which had steamed up were able to get out of harm's way. Scores of sailors suffered burns. The flames meanwhile made their way towards the immense grain elevator, notwithstanding the efforts put forth to stop the flames. The grain elevators leading from pier 5 to the elevator took fire and burned fiercely. Finally a locomotive engine succeeded in jerking the engine from under the conveyors and they came to the ground with a smash, none too soon to save the elevator. The total loss is estimated at between one and a half to two million dollars, partly covered by insurance.

## CRUSHED IN THE ICE.

St. Johns, Nfld., April 26.—Four steamers, the Ranger, with 3,400 seals, the Hope, with 1,700, the Panther, with 900, and the Kite, with 1,000, arrived from the seal fishery to-day. All comprising the fleet are now in port excepting the Walrus and the Mastiff. The Kite went ashore at Torbay, ten miles off this place, last night in a thick fog, but she floated again at high tide with but little damage.

The schooner Andie was crushed in an ice field off St. Johns on Friday. The crew of 20 men barely escaped with their lives. They travelled three miles over a fragment of ice until they reached another vessel, by which they were brought to port.

## THEY ARE "IN ON IT."

MONTREAL, April 27.—(Special)—Montreal consuls who represent governments having treaties with Great Britain containing the most favored nation clauses, are jubilant, notwithstanding Laurier's statement in reply to Foster that the government does not intend the preferential clause to apply to Germany and countries other than Great Britain. The consuls take the ground that if the Canadian government offers special privileges of that nature to Great Britain they must be extended to these other nations.

## THROUGH A BRIDGE.

PORTLAND, April 27.—An electric car of the Mount Tabor line jumped the track this morning at East Morrison and Bridge street, and plunged through a bridge into the water. The car was deep below. The bodies have been recovered. There were thirty-four in the car when the accident occurred, three of whom were killed and the others badly bruised and cut by window glass.

## LARISSA RETREAT.

Graphic Description by a War Correspondent of the Flight From the City.

Dead and Dying Straggled the Roads—People Killed by Stampedes of Fleeing Fugitives.

ATHENS, April 28.—Describing the Greek retreat from Larissa, the correspondent of the Associated Press says:

The road was strewn over with dead and dying animals, men, women, and children. Their faces were pale, and their hands were clenched in agony. The animals, frantic with alarm, galloped about among the flying crowds, many of them fearless and deserted. Guns and ammunition wagons and carts added to the confusion. Their traces were visible in order to enable the riders to mount the horses attached to them and seek safety in flight. There were many struggles between the fleeing soldiers to kill the horses and in this manner the frightened crowd struggled on for several miles, presenting a most vivid picture of a military retreat. ## GRANT'S MONUMENT.

New York, April 27.—Never before in the history of the United States has a tribute been paid to the noble dead as when today the nation paid a tribute to General Grant. The greatest of our citizens, our soldiers and our sailors to-day stood side by side with the men of fame from almost every nation on earth and paid the last and only-remembered honor of the living to the dead. The solemn service of dedication of the Grant monument to General Grant seemed to throw a strange lull over the world through which met to witness the imposing ceremonies. The President stood bareheaded in the wind and addressed them; his voice ringing through the air and heard by every one of the vast concourse. The programme of exercises at the tomb was as follows: Hymn; prayer by Bishop J. P. Newman; hymn of thanks; "Old Netherland Folks Song"; address by President of the United States; "Star Spangled Banner"; oration by General Horace Porter; acceptance of the monument by Mayor William L. Strong; Hallelujah chorus from Handel's "Messiah"; oration by the Danmore chorus and the public Mayor Strong formally accepted from the nation the trust of the tomb.

## SENT SKY HIGH.

LONDON, April 26.—A tremendous explosion occurred on the underground railway to-day as a train filled with men from the city was making its usual stop at the Aldgate station. The glass roof of the station was blown out and the platform was strewn with debris. Many of the gas-lights in the waiting room and on the platform were extinguished, and the station was left in a gloomy semi-darkness. A general panic ensued. When comparative quiet had been restored it was found that a first class coach had been completely wrecked and that its occupants were lying around maimed and bleeding. Ten of the injured were found to be in a precarious condition and were removed to the hospitals. A number of persons who were standing on the platform were hurt. Much of the wreckage was buried against the station. The cause of the explosion is not known, but it is believed to have been the result of a collection of gas which became ignited in some way. Many persons, however, believe that the disaster was not due to accident, but was caused by the explosion of a bomb which had been placed in the station with the intention of wrecking it.

The water has risen to a height of ten feet above the normal level, and has destroyed many of the houses and barns. The people are suffering from lack of food and shelter. The water has also destroyed many of the crops and has rendered the land unproductive. The people are suffering from lack of food and shelter. ## RIVER BURSTS ITS BANKS AND SWEEPS AWAY ALL BEFORE IT WITH APPALLING RESULTS.

GUTHRIE, O.T., April 28.—A terrible flood in the Cottonwood reserve, suddenly engulfed West Guthrie shortly after sunrise. About 6 o'clock this morning the river began to rise, jumping four feet in 30 minutes. At West Guthrie, which is thickly populated, mostly by negroes, the river burst from the banks and the raging waters for half a mile swept across the valley, carrying houses, barns and fences before it. Reports of appalling loss of life as the result of the flood are in circulation, some placing the number at from one to two hundred. The property loss is estimated at from \$200,000 to \$500,000. The main residences and business portions of Guthrie proper were unharmed.
