### Montreal Stock Market.

IN AN EXTREMELY DULL MARKET WAR EAGLE IS THE ONLY FEATURE SELLING OFF SHARPLY ON LARGE SALES.

This morning has been a record breaker as regards dearth of business and general inactivity. But five issues were traded in, sales being mostly confined to the mining shares, there being only 350 shares of the standard stocks changing hands. What sales there were in these last, however, were at advanced figures as compared with yesterday's close. Canadian Pacific improved  $\frac{1}{2}$  p.c. to 96 $\frac{1}{2}$ , and Montreal Street advanced 2 p.c. on slight dealings.

In the mines War Eagle attracted most of the attention. The stock declined in jumps of 1 p.c., to 358 $\frac{1}{2}$ , and large blocks came out at the low figures. It looked like liquidation resultant on a bear raid. It is a matter of surprise that the remainder of the mining list was not affected to some extent, but far from being so, Republic and Montreal-London, the only other shares traded in, showed advances of  $\frac{1}{2}$  p.c. each.

Canadian Pacific—125 shares of this stock were disposed of at 96 $\frac{1}{2}$ , an advance of  $\frac{1}{2}$  p. c. from last night's close, no doubt due to the slightly better feeling in London, the price this morning on that board being 98 $\frac{1}{2}$ . The bid was firm at 96 with 97 wanted.

Montreal Street Ry.—This stock sold at 329 for a lot of 50 shares, but this transaction hardly reflected the actual feeling on the stock, as the bid was 1 p.c. under at 328 with 329 $\frac{1}{2}$  wanted.

Toronto Ry.—A small block of this security was marketed at 1.5 $\frac{1}{2}$  a decline of  $\frac{1}{2}$  p. c. from yesterday. Simply nothing has been done in the stock for some days past, though its strength is exhibited in the bid which was 115 $\frac{1}{2}$  with 115 $\frac{3}{4}$  asked.

Twin City—Sales to the amount of 155 shares took place at 66 in this stock, and although this is a decline of  $\frac{1}{2}$  p.c. from yesterday, the stock shows firmness. The bid was 66 with 66 $\frac{1}{2}$  wanted.

War Eagle—Some fairly large blocks of this stock came out at the decline which took place this morning. The opening sale was 500 at 362, from which quotation the price fell rapidly to 358 $\frac{1}{2}$ , which was the closing figure for the session. Eleven thousand shares were traded in, the bulk of the business being done at the lower figures.

The net decline from yesterday was 7 $\frac{1}{2}$  p.c., and the bids at the close did not betray a very hopeful feeling, being 353, with 359 wanted.

Republic scored an advance of  $\frac{1}{2}$  point on dealings to the amount of 4500 shares, selling at 124. The bid was 123 $\frac{1}{2}$ , and 125 was asked for it.

Montreal-London also advanced  $\frac{1}{2}$  point on 5000 shares to 51, but the bid at the close was rather weak at 49, with 51 asked. These constituted the total dealings for the session.

**MONTREAL MINING EXCHANGE.**

The demand for mining shares is at a low ebb. The hopes of many buyers have been so rudely shaken by the constant supply of treasury and pooled shares, and the drooping of prices under the pressure of such sales, that they have become disgusted and only buy on big drops. Bullion was the card this morning and on dividend talk was advanced in price but no sales were effected.

Republic was easy and sold off slightly. Golden Star declined to 64½ ex-div. closed at 64 to 62. Slocan Sovereign was also disposed to weakness. Montreal Gold Fields sold at 18 and closed at 19 to 16. Business was slack.

I have some special offerings on hand, and I will repay the investor to keep in close touch with me. Commissioner H. L. Pease, my Republic representative arrives in Toronto within the next fourteen days. Upon his arrival we shall take pleasure in laying a promising proposition before the investing public. Associated with us in the undertaking—which is by the way in the neighborhood of the great Mountain Lake—are General Manager James P. Harty of the Republic, Jim Blain, and Lone Pine, mines, Thomas Clark of Republic, and other experienced mining men. Among the lower priced Republic stock list just now I can recommend Kindeer, Jumbo and Golden Lion Little Four Consolidated. Particulars upon application.

# NEW YORK EXCHANGE.

IN THE LATTER PART OF THE SESSION A DECLINE SETS IN LED BY SUGAR, WHICH CONTINUES TO THE CLOSE.

New York, June 22.

Opening prices from London showed considerable weakness, the declines extending pretty well throughout the list. Since then, however, the market in that quarter has recovered quite sharply, American railroads being well in the lead. Prices are about up to our close and in one or two cases, slightly higher. The reason given for this rally was the news from Paris, that the new French Ministry had been formed. The political disturbances in France were given yesterday as a reason for London's selling of 25,000 or 30,000 shares in our market. The Bank of England rate of discount is unchanged at 3 p.c.

Our market yesterday, although remarkably dull, acted very well till the last half hour, when the continued weakness in Tobacco shares resulted in demoralization throughout the list. This weakness started with a break in Con. Tobacco and extended a sympathetic break in American tobacco which at one time carried the price 7 points below highest of the day. The reasons given for the break in Con. Tobacco were first, the rumors of dissensions in the management of the company, and talk of an opposition to be formed at an early date, and of a suit which the Attorney-General of Ohio is going to bring to restrain the company from doing business in that State. The selling of the common stock was significantly large, several blocks of 5000 shares coming on the market.

Elsewhere in the market there were few movements that deserve any special mention. B. O. was weak throughout the entire day, considerable disappointment being shown at the recent earnings of the Co. President Cowan said the large decrease in net earnings which the Company will show for the year ending June 30th, is the result of extraordinary expenditures brought about by the rehabilitation of the road. He said that during the year a large number of old engines and cars standing upon the books of the Company at a high valuation have been abandoned and that all of these have been charged to operating expenses. It was said that the B. & O. Co. was going to issue some new stock for the acquisition of the B. & O. south-western. This also was taken as a bear factor.

Of railroad earnings coming to hand, Northern Pacific makes a favorable showing increase of \$72,340 for 2nd June. There is considerable bull talk on Northern Pacific, but there is very little doing in the stock.

The market is of a very professional nature and is so narrow that any one special movement like that in the Tobacco stocks yesterday is likely to affect the majority of the list.

New York, noon June 22.

This morning's market was extremely narrow and dull, and more of the influences bearing on prices, are in the room. The market was purely professionally, and after a few minutes of activity around the opening it has lapsed into this state of dullness. At the opening there was quite a little show of strength in various parts of the room.

London was a moderate buyer on the better political outlook abroad. Commission houses had a few buying orders and there was a moderate covering of shorts on part of traders who sold stocks last night.

The last was practically the case in Con. Tobacco which opened  $\frac{1}{2}$  above last night. The trading in this stock is of little significance, very few large blocks having changed hands. The prices however, remains steady around the opening figures A. M. T. was also fairly steady, the principal feature in this stock being dullness. After yesterday's excited movement in it, it was natural to suppose that there would be some activity to-day. It was 10 or 15 minutes after the opening, however, when the first trade was made. There is nothing new in the tobacco situation and although the room is still full of bearish rumors with regard to outlook, speculative sentiment takes a much more favorable view of things than it did yesterday.

Of the other stocks which have been at all active, A.S.W., F. S. Sugar and B.R.T. have absorbed most of the speculative attention. The buying of wire it considerably better than the selling but it is not likely that there will be any very pronounced move in the stock till something is known concerning the outcome of the directors meeting to-morrow.

Traders took occasion to buy a few of the Vanderbilts and attempted a bull move in them, basing their action on Mr. Vanderbilt's return. All of the Vanderbilt's are fairly steady but are now extremely dull.

Atchison pfd. is strong in this morning's market, on better corp reports along the line, and consequent covering of shorts.

There is considerable short interest in this stock, it being one of the few stocks which is in good demand in loan crowd.

The general list is extremely dull, but displays a quiet undertone of strength.

### NEWS OF THE MINES.

Vancouver, B. C., 22.—The Dorothy Morton mine, up the coast, crushed 1395 tons last month, which yielded \$13,130. Since the mill started crushing last December, the yield has been about \$50,000.

An Australian has bonded claim owned by W. J. Yarks, on Lynn Creek, just above Moody and opposite the east end of the city. The amount of the bond was \$10,000, and \$3000 has been paid on it.

Riot Act had to be read at Columbia the other day, over trouble connected with the big hotel there.

A notable event in the progress of Vancouver to future prominence as a mining trade centre, was the beginning of work yesterday by Mr. Pellow Harvey, as the provincial government-assayer. As a result some \$70,000 worth of Klondike gold dust and nuggets, is now being satisfactorily assayed and otherwise treated. The returned Klondiker was en route for Seattle to have his precious metal assayed in that city, but hearing that the British Columbia Government has established an assaying office in Vancouver, thought he might save himself trouble and risk by visiting Mr. Harvey's office. The Official assayer had another interesting visitor this week. On Monday a man deposited seven pounds of quartz at his office for assaying, and stated that he had about fifty tons on the dump awaiting the result of the assay. Mr. Harvey treated the quartz, and from the seven pounds they obtained \$140 worth of gold. The man declined to disclose the location of his property, except that it was situated in this province.

#### FONTENOY.

Victoria, B.C., June 21.—The Fontenoy Gold Mining and Milling Company held their first general meeting of shareholders yesterday. The Fontenoy mine, Camp McKinney, whose stock is held by strong western syndicate, is rapidly acquiring a reputation as an early bonanza. The base ledge running through the property, north and south, has been thoroughly exploited. Two shafts sunk upon 500 feet, 65 feet in depth respectively, proved the ledge to be six feet wide in northern, and seven feet wide in southern portion.

Assays gave as high as \$120 per ton in gold, silver and lead, and none lower than \$40 per ton. The machinery, now being put in place, will enable the work to be done on these shafts, and by next week a drift will be commenced from the northern shaft to cut Cariboo Camp McKinney ledge at a depth of one hundred feet. A thirty-

foot shaft has been sunk in Cariboo ledge, above where the drift will strike it, and there is five feet of good-looking blue quartz in the bottom. Over 300 tons of ore, taken from the shafts of the base ledge, is lying on dump.

CHICAGO MARKET.

INDICATIONS THAT LIQUIDATION HAS CEASED IN WHEAT—PRICES ADVANCE TO-DAY.

Chicago, June 22.

European cables showed a slight improvement this morning and wheat opened at a small advance over yesterday's close. Some long wheat came out near the opening causing fractional declines for the moment, but there was every indication of good buying on all recessions. The later cables were a distinct improvement showing a ½ per cent. gain over those of the morning. On this there was a steady advance from 74½ for July to 75½, and in the other options proportionately. It looks as if liquidation was about over for the present, and wheat should sell at higher figures shortly.

Corn continued firm and closed at an advance over yesterday of ½ to 1 p.o. Oats also firm. The pit is very bullish on account of small receipts.

Provisions declined slightly from yesterday's prices, the market having been somewhat overbought recently. Higher prices are predicted however.

Wheat—Continental markets are weak and lower, and seaboard clearances have fallen off, being only 737,000 bushels yesterday. Primary receipts continue liberal, being 1,060,000 against 786,000 last week, and 131,000 last year. There is a moderate demand for cash wheat from millers, but export limits are generally out of line. Weather is generally favorable throughout the spring and winter wheat belts, and in places winter wheat is turning out better than expected. Reports from Russia are more favorable to the crop.

Country offerings continue fairly large. While the wheat market may have reactions from time to time, we think the tendency is towards lower prices.

In corn the situation is better. Country offerings are light and cash demand very good. Oats held steady, the offerings being very light.

A strong hog market and good outside buying is sustaining the price of provisions.
