VOL. XXXIII—No. 11,882

TWO FIREMEN BADLY INJURED WHEN ADELAIDE ST. CHEMICAL COLLIDED WITH STREET CAR

Motorman and Passenger Also Hurt at King and Simcoe Streets When Fire Engine Was Struck by Belt Line Car—Traffic Tied Up For an Hour.

In a collision last night between a Belt Line car and a chemical fire engine from Adelaide Street station, two firemen were seriously injured and several others badly shaken up. The incident happened at the corner of Simcoe and King streets a few minutes before eight o'clock.

Altho Edward Tanner, driver of the engine, was picked up in an unconscious condition, he soon recovered. The police ambulance was required to take Jack McCracken to St. Michael's Hospital, W. K. Markham, 41 Bank street, was severely cut about the face and head while applying the brakes of the street car. It is not known to what extent Engineer W. J. Walker is injured, but he is able to be around. As a result of the impact, two horses were slightly hurt, the front of the street car was wrecked, the engine damaged and traffic tied up for an hour.

Met at Corner. When an alarm from the foot of John street was received, Chemical No. 8 and the water tower followed the hose reels. The engine turned into Simcoe street and just as the front part of the engine reached the tracks, a west-bound Belt Line car, travelling at a rapid rate of speed, crashed into the side of the apparatus.

So great was the impact that the car bounced backward and swerved completely around, until the front end pointed towards the south.

The engine was carried several yards to the west. Another east-bound car had run half-way across Simcoe street about the same time, and the engine was caught between the two.

Firemen Were Thrown. Driver Tanner was hurled beneath the front trucks of the Belt Line car, which revolved almost an inch from his head. Engineer Smith alighted on the concrete walk, some yards away. Between the two cars the three horses plunged and tumbled in vain attempts to regain their feet. No way could be found to free the animals and rescue the driver until the cars were moved.

Finally the east-bound car was backed, and the horses got to their feet. Ed. Tanner was taken out, bruised and bleeding. When the emergency police ambulance arrived, in charge of Plainclothesman Norton, Tanner had regained consciousness.

Jack McCracken, who lives at 54 Metcalfe street, was found lying in a corner of the car near the stove by another passenger. He was taken in the ambulance to St. Michael's Hospital, but later returned home. His shoulder, arms and back were injured.

Cut by Glass. W. K. Markham, 41 Bank street, motorman of the street car, had his face and head badly cut by the flying glass. The others injured proceeded home.

"Doc" Sloan sustained an injury to his knee when he was kicked by one of the horses.

Sloan states that the bell of the engine was ringing all the way south on Simcoe street. He happened to be just below King street and was attracted by the sound. The motorman claims to have been unaware of the proximity of the engine and was not traveling very fast.

TWO BUILDINGS WERE DESTROYED

A Spectacular Blaze Caused Heavy Damage to Railways and Tied Up Western Traffic.

A fire which threatened the John street bridge and which for nearly two hours held up all incoming trains from the west and westbound outgoing trains, gutted the car repair shops of the Grand Trunk Railway and the Pullman Car Company's storage sheds, at the foot of John street last night. The fire broke out shortly before 8 o'clock and was not put out until both buildings had been burned to the ground. The loss, which amounted to between eight and ten thousand dollars, is about equally divided between the railway and the Pullman Company.

The buildings affected were situated almost directly under the John street bridge. The spectacular blaze which ensued gave rise to the report that the John street bridge was afloat, and full turnout of the reels responded to the alarm.

By order of the fire chief all train traffic was suspended, and lines of hose run across the tracks from the bay north and from Front street south. Several lines were also run along the John street bridge, thus enabling the fire to be fought from above.

On account of the inflammable nature of the buildings, which were only frame structures, and the strong wind from the east, the building blazed furiously.

In the case of both buildings, the principal loss will be the contents, the buildings themselves not being of much value. The contents of the car shops were composed of tools, etc., and in the Pullman Car Company storage sheds bed linen was kept. The cause of the fire has not been ascertained.

The incoming trains from the west which were held up by the fire were as follows: Grand Trunk, Hamilton, due 8:17 p.m.; Detroit, due 10 p.m.; Buffalo, due 9:50 p.m.; and London, due 10:15 p.m. The C.P.R. trains affected were No. 22, from Chicago, and the Vancouver train. The westbound trains from Toronto were also held up until the blaze was out.

The Return of "My Hero." Two of the most popular songs that light opera has favored us with are "Every Little Movement Has a Meaning All Its Own" and "My Hero." The latter returned to the Princess this week when Miss Rena Vivienne, prima donna of "The Chocolate Soldier" company, sings it in a delightful manner.

DEFER R. AND O. STOCK ISSUE UNTIL GIVEN APPROVAL OF RAILWAY BOARD

OTTAWA, Feb. 11.—(Special).—By agreement, the third reading of the bill authorizing the Richelleu & Ontario Navigation Company to increase its capitalization from ten million to fifteen million dollars, has gone over until Friday.

Tonight Mr. W. F. Maclean (S. York) gave notice of an amendment prohibiting the company from issuing its additional capital "until the company shall obtain an order from the railway commission of Canada authorizing such issue, and the amount thereof, and stating that, in the opinion of the commission, the use of the capital to be secured by the issue of such stock is reasonably required for the said purposes of the corporation."

"For the purpose of enabling it to determine whether it should issue such an order, the commission shall make such enquiry or investigation, hold such hearings and examine such witnesses, books, papers, documents or contracts as it may deem of importance in enabling it to reach a determination."

POLAR EXPLORER'S HEROISM IS HELD IN HONOR BY NAVY ADMIRALTY PAYS TRIBUTE

COBALT MAKES A NEW RECORD

Largest Shipment of Bullion in Dominion's History Was Made Yesterday.

COBALT, Feb. 11.—There were 183 bars of bullion, each weighing about 86 pounds, and worth from \$600 to \$700, thrown into the express van this afternoon at Cobalt. This represents the largest shipment of bullion that has ever left the Cobalt camp at one time, and also sets a record for the Dominion.

The 183 bars contained 305,997 fine troy ounces of silver, and were worth the present market price \$123,807.

It came from the following mines: Crown Reserve, 15 bars, 15,581 ounces, value \$9455; Nipissing, 76 bars, 214,208 ounces, worth \$132,807; Dominion Reduction, 72 bars, 79,200 ounces, worth \$45,405; total, 163 bars, 305,997 ounces, value \$137,267.

All this silver will sail in the hold of the steamship "Coriscan" from St. John, on Friday, for the London market.

The required united effort of all the railway employees at the Cobalt station to move one of the trucks on which the silver was loaded, and there were altogether three truck loads. The train was delayed 15 minutes while the silver was being loaded.

The insurance on this amount alone from Cobalt to London, was about \$1500.

Constancy and Resolution With Which Duty Was Carried Out Will Be Preserved as Fine Tradition—Offers to Open Funds For Dependents Come From Many Sources.

LONDON, Feb. 11.—(Can. Press).—The committee of the British Antarctic Expedition will issue an appeal for a fund to provide for the relatives of the dead explorers. Among those signing the appeal was Lord Strathcona.

The admiralty tonight issued an official expression of its profound regret at the loss of the heroic officers, saying:

"The circumstances under which Commander Scott and his comrades lost their lives prove with what constancy and resolution they carried out the duty for which they volunteered. The lords and commissioners of the admiralty consider that their loss should be regarded as if they had been killed in action, and their story will be remembered with honor by the navy."

Nothing has been decided as to what steps the government or the admiralty will take, but confidence is felt that ample provision will be made.

The lord mayor of London has asked of the first lord of the admiralty, Mr. Churchill, whether he will open a fund, Mr. Churchill's reply has not yet been given, but the lord mayor says: "It should be found necessary to open a fund the Mansion House will raise worthily to an occasion which affects us all."

Debt to Posterity. The Daily Telegraph, which has opened a fund for a national memorial to Capt. Scott and his dead comrades, says:

"We owe it to ourselves and to posterity to place on record in some worthy, substantial and enduring form our sense of the glory of these men and of the undying glory they have shed on the British name."

Among the first subscribers to this fund are Rear-Admiral Peary and Baron Rothschild.

The London papers publish tributes from the European sovereigns and explorers and scientists of internationalities to the heroic devotion of the explorers, and expressing sympathy for their families. These tributes are especially numerous from America.

The general feeling expressed is that no honor is too great to be rendered to the dead heroes, and that, therefore, whatever is done by the government should not interfere with the spontaneous generosity of the public in behalf of the wives and families of those who sacrificed themselves in the nation's honor and service.

NO WORD FROM MRS. SCOTT. HONOLULU, Feb. 11.—(Can. Press).—Mrs. Robert Scott, traveling toward New Zealand on the steamer Aorangi, to meet her husband, probably knows tonight of his death, altho the short range of the Aorangi's wireless which reaches only 300 miles, protects her grief from the world.

The wireless offices here have a stack of messages, received by cable, for Mrs. Scott; but all efforts to get an answer from the Aorangi, since news of Captain Scott's death was received, have been unavailing. This does not mean, however, that the vessel's wireless has not picked up some of the messages sent out.

The Aorangi will reach New Zealand via Tahiti and Samoa on February 27, and barring chance communication with some passing liner, no news may be received from her before that time.

Dineen's Furs for Men. Men's furs are costly for coats, caps and gauntlets, also driving rugs and robes. These are the general lines in Dineen's furs for men. The fur-lined coat at \$27.50, regular \$50 value, and the other lines are similarly reduced in price. There is a wide variety to select from in show-rooms, W. and D. Dineen Company, Limited, 140 Yonge street, cor. Terrence.

EXHAUSTED, STARVING ON AWFUL ICE WASTE FIVE BRAVE MEN DIED SEALS AND BLUBBER WITH A FEW BISCUITS FOOD FOR SIX MONTHS

Thrilling Picture of the Horrible End of Capt. Scott and His Comrades Given by Capt. Amundsen—Furious Wind, Lack of Food and Sickness From Scurvy Added to Indecrivable Suffering of the Party.

CHICAGO, Feb. 11.—(Can. Press).—A thrilling picture of the probable manner in which Robert F. Scott and four of his companions met death on the ice barrier close to the earth's southern extremity, was painted verbally by Captain Amundsen, discoverer of the South Pole, who is in Chicago today.

"It is hard to say just what happened," said the Norwegian explorer, "but we can imagine, perhaps, also it is horrible. We know, of course, that it happened about the 78th parallel, and that they were down on the barrier and not on the plateau. And just about there our positive knowledge stops."

"Certainly they were exhausted and starving. It may be they had some scurvy among them—who can say? At any rate they were not in a fit condition to meet the terrible blizzard when it came."

"Not that blizzards are unusual. Scott was prepared for them, for he was no amateur. One may always expect blizzards in that country. But there they were—those poor forlorn fellows—straggling along without even poles to draw their sledges, for they had sent back their last ponies when they had reached a point 180 miles from the pole on the journey southward."

Awful Waste of Ice. "They were drawing their own sledges, weakened so they must have been. They had no dogs and that was a mistake, I am afraid. And always before them there stretched that awful waste of ice. Can you see it? It is that ice stretched tight across the country in long, glassy undulations—stretching away so far and white that the eye cannot bear to follow it."

"And across the frozen surface sweeps the wind, furiously. The great flat expanse offers a terrible sweep for the blast, and there is no protection except what a man is liable to build for himself."

Captain Amundsen passed a hand across his eyes.

"And there they died," he said, softly. "Of course, Evans had died already. He fell on the ice, but the others must have died within a short time of each other. Oates went bravely, you know, out into the blizzard that his sickly condition might not hinder the others. That was a great sacrifice, but it did no good."

Brave Man. "I cannot read that last message of Captain Scott's without emotion. I never met him personally, but I know he was a brave man."

"And to think," added the captain, in a hushed tone, "that while those brave men were dying in the waste of ice, I was lecturing in warmth and comfort in Australia."

Captain Amundsen denied that he had suggested that the men who met death might have fallen into a crevasse.

"It is ridiculous," he asserted. "To think that five men would fall into a crevasse."

Prof. H. J. Cox, weather forecaster, who had listened to the Norwegian adventurer's narration, broke in: "Shackleton nearly met the same fate, you know."

Nearly Met Death. "Yes," said Amundsen, "Shackleton had a hard time getting back. He nearly met death. He turned back

Can You See It? "They were drawing their own sledges, weakened so they must have been. They had no dogs and that was a mistake, I am afraid. And always before them there stretched that awful waste of ice. Can you see it? It is that ice stretched tight across the country in long, glassy undulations—stretching away so far and white that the eye cannot bear to follow it."

And across the frozen surface sweeps the wind, furiously. The great flat expanse offers a terrible sweep for the blast, and there is no protection except what a man is liable to build for himself."

HUGE MEMORIAL SERVICE ON SUNDAY

Fitting Tributes Will Be Paid to the Memory of Scott and His Companions in Massey Hall When Mayor Hocken and Prominent Citizens Will Participate.

The great volume of feeling which has been aroused in Toronto, owing to the disaster of the Scott expedition, is likely to find suitable expression in a great memorial service to be held in the Massey Hall on Sunday afternoon, from 3 to 4 o'clock.

His worship the mayor, C. W. Brent, vice-commodore of the R.C.Y.C., and Stanley Hickey, sec-treasurer of the Dominion of Canada Branch of the British and Foreign Sailors Society, have approved of the arrangements being made.

Owing to the fact that the Terra Nova was being the pennant of the Royal Yacht Squadron, local yachtmen are very deeply interested.

At the request of the commodore, whole of the lower gallery of the Massey Hall has been placed at the disposal of the club for Sunday afternoon service, and members will be admitted up to 4:30 on showing their club tickets. All other parts of the hall will be free and open to the public.

Members of representative bodies desiring platform tickets should apply to Rev. Alfred Hall, 80 East Gerrard street, chairman of the committee, who is in charge of the arrangements.

Those Taking Part. The family of Dr. G. S. Wright, who is one of the expedition, has expressed great appreciation of the proposed service, and will be represented at it. Rev. John McNeill of Cooke's Church, and other prominent city ministers will take part.

Suitable musical arrangements will be made.

Thru Commissioner Hammond of the Boy Scouts, arrangements are being made for the attendance of about 60 boys to act as ushers thruout the building.

The offertory, which will be taken, after defraying expenses, will be placed at the disposal of the mayor.

just in time, in the very hour, in fact, to save his life. And he was only 111 miles from the pole.

"Can you think of the disappointment in that case? Only 111 miles from his goal. Yet it is a long distance. When there are railroad tracks and Pullman cars and comfort and cheer, 111 miles is nothing. There in the frozen south it is thousands of miles."

Capt. Amundsen made it plain that the fate of Scott and his sides would not deter him in his plans for a north polar expedition, beginning next year.

"Why should I hesitate?" he asked. "These affairs are very sad, but they are really uncommon. It is not what one man expected as perhaps some of you may think. No, I shall start, and I believe I will be successful."

Cares Not for Poles. "What do you care about the north pole now, captain?" was asked. "Nothing," said the explorer, swiftly. "I do not seek the pole. I may not even reach it. I do not care whether I do. These stories that I am actually seeking the pole are untrue. I am going north only on a scientific expedition—chiefly to study air and ocean currents. If I am close to the pole and conditions are favorable, I will go there, not otherwise. The story that I will take an aeroplane is untrue; it is ridiculous."

Capt. Amundsen sent the following telegram about the Scott tragedy: "Commander, Terra Nova, Lytleton, N.Z.: Deep sorrow, loss comrades. Congratulations success expedition." "Kinsey, Christchurch, N.Z.: Convey deep sorrow Mmes. Scott and Wilson, loss husbands. Magnificent battle."

Primitive Existence Was Led by Exploring Party, Who Lived in an Igloo and Suffered Great Hardships—Large Cross Now Marks Spot Where Scott and His Companions Lost Their Fight Against Blizzard.

Copyrighted in the United Kingdom by The Central News, Ltd., London. Registered in the department of agriculture, copyright branch, Dominion of Canada, by The Canadian Press, Limited, Quebec and Ontario, morning paper section.

CHRISTCHURCH, New Zealand, Feb. 10.—On November 5, Surgeon Atkinson brought his party to Hut Point, and there received the welcome news that the entire northern party, consisting of Lieut. Campbell, Surgeon Leveck, Mr. Priestly, the geologist and seaman Abbott, Browning and Dickinson had returned in safety to the expedition's base at Cape Evans on the 7th of November.

"Campbell's party, which had been picked up at Cape Adare and landed for a short sledge journey in January, 1912, returned to Terra Nova Bay on February 17, expecting to be picked up by the Terra Nova. The ship has detailed in last year's despatches that they met with conditions approaching the coast that were quite insuperable and were forced to leave Lieut. Campbell and his party to make their own way back to Cape Evans, some 200 miles away. The journey could not be attempted until the sea was properly frozen over. Disappointed at the non-appearance of the ship, Campbell set to work on the first of March to prepare to winter, duly considering the resources at his disposal.

He selected for the home of his party, a snowdrift and into this they cut and burrowed, eventually completing an igloo, the dimensions of which were thirteen feet by nine. This they insulated with seaweed. Whilst the igloo was in course of construction, every seal that appeared was killed, for the shortage of food and fuel was the most serious problem that had to be faced.

Campbell and his companions led a primitive existence here for six and a half months. Their diet was seal meat and blubber, sked out with a few biscuits and a very small quantity of cocoa and sugar. They only had their summer sledging clothes to wear and these were soon saturated with blubber which penetrated to the skin. Their meteorological record shows winds which were almost constantly of gale force. Temperatures were not recorded, their thermometer having been broken. Sickness in the shape of acute enteritis attacked the party and weakened them to such an extent that a start for Cape Evans was not made until Sept. 30.

Found Some Food. "Even then the condition of Petty Officer Browning gave cause for grave anxiety, but on arrival at Cape Roberts the party fortunately but unexpectedly found a food depot, left by Griffith Taylor. The change to biscuits restored Browning to health in a remarkably short time.

"The northern party's trouble ended now and they made good progress to Cape Evans. This party was fortunate in picking up Prof. David's specimens on Depot Island. The most remarkable feature of this journey was that the entire party lived thru an Antarctic winter and actually sledged 230 miles on the stores and equipment left for one month's sledging. The appearance of seal after the winter had once

Only Three More Days to Secure Everybody's Cyclopedia

BRITAIN IS DEEPLY STIRRED BY SCOTT'S PATHETIC APPEAL RESPONSE WILL BE PROMPT

Premier Asquith, Plainly Filled With Emotion, Gives Pledge That Dying Request Will Not Fall on Deaf Ears—Whole Nation Eager to Pay Tribute to Heroes.

LONDON, Feb. 11.—(Can. Press.)—The tragedy of Captain Robert F. Scott's Antarctic expedition was referred to today in the house of commons by Premier Asquith. Speaking with evident emotion, he said:

"We all at this moment are under the deep impression created by the reading of the last message of the world left by Capt. Scott, one of the most moving and pathetic utterances in the annals of discovery."

The premier, who was so deeply moved that his words were almost inaudible, added that the only official information in the hands of the government was that contained in a brief letter received today from Lieut. E. R. G. Evans, of the Royal navy, who was second in command of the ill-fated expedition.

Will Care for Dependents. The message read—"I regret to announce the death of Captain Scott and Petty Officer Evans on March 29, and February 17, 1912, respectively."

Mr. Asquith's statement indicates that the British Government will take care of the dependents of the dead members of the expedition. Otherwise a Mansion House fund will be opened.

Of the five explorers who perished, Capt. Scott, Dr. Edward Wilson and Petty Officer Evans were married. Capt. Scott's wife, Mrs. McQueen, is now in the city.

The merchants and ship owners of Cardiff, from which port the polar ship, the "Terra Nova" sailed, are arranging to erect in their city a statue to the hero.

Brief and pride in the simple narrative of high courage, endurance and sacrifice given in Captain Robert F. Scott's farewell message to the world, written with his companions in the Antarctic and snow are competitors for dominance in the feelings of the British people today.

"It is a white and not a black mourning we wear for these gallant souls who have done and dared so greatly."

The closing words of Capt. Scott's epic: "We lived I should have said, to tell of the hardship, the endurance and the courage of the men and women who have stirred the heart of every Englishman. These rough notes and our dead bodies must tell the tale, but surely that is a great and rich country like ours will see that those who are dependent upon us are properly provided for."

Response Is Prompt. Steps are on foot already to respond to his appeal to the nation by assuring a comfortable future for those dependent upon the men who, while awaiting certain death, could still write that they did not regret their journey.

Capt. Scott's interest in the welfare of his dependents was emphasized by practically the last business he transacted before he left to join the expedition in New Zealand. This was the sale of his house.

He declined to make any private profit from the transaction and decided that the total receipts should go to increase the financial fund for the men who had undertaken to share with him the dangers of the Antarctic region.

It was, therefore, arranged that all sums paid by newspapers throughout the world for the story of adventure should be distributed among the members of the expedition as a surprise bonus on their return to England.

Mrs. Scott is assured of a good pension from the British Government. A Memorial Service. A memorial service for Capt. Scott and his companions is to be held in St. Paul's Cathedral on Friday. Many flags in all parts of London are flying at half-mast.

Telegrams from all parts record the profound regret, mingled with pride, felt throughout the British Empire, while messages of sympathy have reached the government in considerable numbers from foreign states.

The following cable message was sent to the Royal Geographical Society of London: "Heartfelt sympathy in heroic death of Capt. Scott and his comrades. Their names will be the southern cross of Antarctic exploration. (Signed) Thomas H. Hubbard, president."

Dr. Wright is Safe

Dr. C. S. Wright of Toronto, who went with the Scott Polar expedition as chief chemist, is safe. This fact was ascertained by the receipt by Dr. Wright's father of the following cable:

Christchurch, N.Z., Feb. 11.—"Will be home in June. Am coming via Vancouver. "Charlie."

MODERNISM WANTS HALF THE BIBLE

"But We Want Complete Book," Says Canon Hague.

SOCIETY HELD MEETING

Stories Told of Christian Martyrs in Heathen Lands.

"Modernism wants a Bible with half the Book of Genesis, part of Revelation and the Book of Job left out, but we want the complete Bible, absolute, eternal and inspired," said Rev. Canon Dyson Hague at the largely attended Upper Canada Bible Society's annual meeting, at Association Hall Monday night, N. W. Hoyles, K.C., presided.

Rev. J. Banfield, the Toronto missionary, who is home from Nigeria, was received with great applause, when introduced as the translator of the Bible into the language of a people who at his first visit had no alphabet or written language.

The first Christian martyr in the Philippines supply, said Rev. W. A. Brown, superintendent of the International Sunday School Association. He went into the Philippines in 1862, and was killed by a native heathen in 1862.

The annual financial statement showed total receipts of \$70,577.41, an increase of \$888.27.

Officers Elected. President, N. W. Hoyles, K.C., L.L.O. Vice-presidents, His Honor John Morrison Gibson, K.C., L.L.D., Huston Clarke, M.A., Mortimer Clark, K.C., L.L.D.; Hon. S. H. Irvine, K.C., Isaac Moore and H. G. Hawkins.

Heavy Ocean Travel. The year 1912 is not to be outdone by the year gone by in the way of ocean traveling. Last season was the busiest for many years, but this coming year promises to outdo everything.

In 1911 and 1912 the steamship companies operating from Montreal to New York found great difficulty in accommodating the huge number of applicants, and no one was permitted to refuse people to book together. 1913 promises to be no exception, the number to cross the Atlantic this year being estimated at 1,000,000.

The premier replied that the appointments were opposed to the continuance of the senate, yet while it was perpetuated, they desired a man appointed who could speak with authority for the masses of the people.

The speaker said that while labor organizations were opposed to the continuance of the senate, yet while it was perpetuated, they desired a man appointed who could speak with authority for the masses of the people.

EXTENSIVE WORK PLANNED BY C.N.R.

Hundreds of Miles of New Railway to Be Built.

ESPECIALLY IN THE WEST

Main Development Will Be Hundred-Mile Line in Manitoba.

The announcement of the Canadian Northern Railway's construction program for 1913, was made yesterday. Hundreds of miles of new line are to be constructed and as many men as the C.N.R. are able to secure will be given work with the construction.

In Manitoba, a stretch of a hundred miles, beginning five miles east of Portage la Prairie and extending to near Steburn, will be the main development. The Inwood-Fisher River route will be graded forty miles.

The construction in Saskatchewan will include a line from Sturgis for a distance of forty-four miles towards Hudson Bay. A like distance of line will be constructed on the Cranston Branch. The line through Travelbourg toward Swift Current, will have more than fifty miles added to the present grade. The McRorie-Outlet line will be extended nearly thirty miles east of that point and about twenty miles west of it. The Regina, Moose Jaw, and Yorkton branch are also included in the program.

Alberta is to see many miles of C.N.R. line constructed this summer. The Camrose southwest branch is the principle one, and sixty miles of new line on this will be constructed. About fifty miles will be undertaken on the Edmonton-Calgary line. The line south of McLeod in the Peace River and work on the Calgary-Lethbridge branch will also be undertaken. The linking up of the Brudenell and Vermilion connection and the tapping of the Brazeau coal fields are to be rushed. The Peace River branch is to have a station made on it. The Calgary-Saskatoon branch is now practically completed and service will be established on this line within a few months.

Ontario Fire Prevention Association is the title of a new organization brought into existence for the purpose of reducing the fire losses in Canada. This association is an offshoot of the Canadian Manufacturers' Association, and will have a Dominion-wide influence.

Bank Act Revision Warm Issue

OTTAWA, Feb. 11.—(Special.)—The banking and commerce committee will sit on Thursday and Friday of this week, and the revision of the Bank Act will occupy a great deal of time, as a number of witnesses will be called, and the parties interested will be given a hearing. The probability is that the committee will take up the bill on Feb. 15, and devote Wednesday, Thursday and Friday of each week to its consideration, until a conclusion is reached.

ROUT OF TURKS WAS COMPLETE

Ten Thousand Are Reported Wounded in Conflict at Bulair—Were Seized With Panic.

SOFTIA, Feb. 11.—(Can. Press.)—More detailed accounts of the Bulair battle show that it was a complete disaster for the Turks, 2500 of whom were killed by the Bulgarians and another 2000 Turkish dead left lying scattered over the battlefield. According to reports received here nearly 10,000 Turks were wounded. The Turkish disembarkation of two divisions at Charkei occupied two days. At 6 o'clock on the morning of the third day the Bulgarians fiercely attacked the Turks in the afternoon, finding themselves in danger of being surrounded, the Turks fled in a panic. They regained the shore with difficulty, pursued by Bulgarian infantry and artillery. Their re-embarkation was effected in great disorder under the protection of the Turkish warships. When the remnants of the Turkish forces were aboard the ships, the fleet steamed away.

NO POLITICS IN AIDING FARMING

Hon. Martin Burrell So Tells Quebec Cattle Breeders—Wants Co-Operation.

MONTRÉAL, Feb. 11.—(Can. Press.)—A large attendance of members was registered at the annual meeting of the General Stock Breeders' Association of Quebec yesterday held here today.

Hon. Martin Burrell, Dominion minister of agriculture, and Hon. J. E. Caron, minister of agriculture for Quebec were the guests of honor, this afternoon.

Mr. Burrell said the government had fulfilled its promise, that it would substantially aid agriculture for a five year period. The government provided for the spending of \$10,000,000 in ten years to supplement the work of agricultural education now carried on by the province. The greatest need of the Dominion, was trained men to instruct the farmers how to more profitable, and in this way raise the status and improve the general condition of the most important class, which was the very foundation of Canada's prosperity. The Dominion department hoped to operate a system of agricultural education in the various provinces. In this political consideration would be eliminated, and the improvement of agriculture, which would give a marvellous impetus to the whole country.

Mr. Caron heartily endorsed Mr. Burrell's views as to the aid to be extended to agricultural education, and expressed the hope that the Dominion grant should be applied, not to instruction only, but also to practical experience. He urged an encouragement of better conditions.

ABSTRACTION TO PREVENT STRIKE

NEW YORK, Feb. 11.—(Can. Press.)—The threatened strike action of 34,000 firemen on the 54 railroads east of the Hudson River, is being prevented by the intervention of the government officials tonight for them to avert it by mediation if possible. Acting under the provisions of the Erdman Act, President W. S. Carter of the Brotherhood of Locomotive Firemen and Engineers, telegraphed Judge Martin A. Knapp of the commerce court and G. W. Hanger, acting commissioner of labor, at Washington, requesting them to mediate in the crisis which has arisen between the firemen and the railroads.

Elisha Lee, chairman of the conference committee of railroad managers, announced that the railroads would accept the services of Messrs. Knapp and Hanger as mediators.

Mr. Carter's telegram came after the close of a stormy meeting between the managers and the firemen. At this meeting Mr. Carter advised the managers that he had been authorized, by the board of directors, to grant an increase in pay—not as much as they demanded, but something—and also offered to arbitrate, but the railroads refused to arbitrate before a commission of seven men, claiming it unfair to leave the decision so far-reaching a matter to the odd man in the board of three asked by the firemen.

These demands Mr. Carter offered to arbitrate under the Erdman Act, before a board of three men. The managers agreed that the firemen were entitled to an increase in pay—not as much as they demanded, but something—and also offered to arbitrate, but the railroads refused to arbitrate before a commission of seven men, claiming it unfair to leave the decision so far-reaching a matter to the odd man in the board of three asked by the firemen.

KINGSTON ROAD SHOULD BE WIDE

Eighty-Six-Foot Street Favored by Riverdale Business Men.

MORE WARDS ENDORSED

Representation in City Council Then Would Be More Proportionate.

Jubilant was the tone of the Riverdale Business Men's public meeting last night. The new \$200,000 road with the city limits to eighty-six feet, in consequence of the certainty that both sides of the road would be widened in the near future, and this desirable improvement would then cost double the present outlay.

CONTRACTS LET FOR NEW SCHOOL

Entire Cost of Technical Building Will Be Two Millions.

PLANS ARE APPROVED

Will Be Explained at Special Meeting Soon to Be Called.

Toronto's new technical school will cost \$1,250,000 for building, \$250,000 for site, which, with architects' fees, and equipment, will approximate the \$2,000,000 mark.

Revised tenders were reported on by special committees to the advisory committee of the board of education yesterday afternoon. They were unanimously approved.

The accepted tenders were: Norwich Elevator Co., elevators, \$1,082,700; General Fire Extinguisher Co., heating and ventilation, \$48,900; Fred Armstrong Co., plumbing, \$25,000; Turner Elevator Co., elevators, \$5,000; Estimate for wiring, \$5,000.

Total \$1,225,200. The building will be of Credit Valley stone, with Indiana red stone trimmings. It will take two years to erect.

On motion of Trustee Shaw a meeting will be arranged, to which the board of education and representatives of the board of trade will be invited, at which the plans will be shown and described by Principal McKay.

IT'S FORGET'S TURN TO BE AGGRESSOR

Wants Stay in Banque Internationale Proceedings—Explains Seizure of Funds.

MONTRÉAL, Feb. 11.—Another preliminary skirmish in the battle between Sir Rodolphe's attorneys and the ex-shareholders of La Banque Internationale took place in the practice court today, on presentation of 18 motions on behalf of Sir Rodolphe, asking that a delay in proceedings be granted in order to enable him, as plaintiff, to secure the testimony of the manager and accountant of the Paris office of the Forget house.

Messrs. Perron, Taschereau, Rivest and Genest, acting for Sir Rodolphe, explained that the action of their client in putting a seizure on the funds of the French shareholders in the hands of J. E. Martin, K.C., was based purely and simply on information supplied him by those in charge of the Paris branch of his firm. Hence, they argued, it was essential that the officials who supplied such information should be examined.

Alme Geoffroy, K.C., opposed the various motions, qualifying them as destined for the sole purpose of bringing about a delay in the proceedings. Sir Rodolphe, he said, having failed in his attempt to fall back on his privilege as a member of parliament to exempt him from appearing, now saw fit to seek a delay of proceedings by having the case adjourned until such time as certain witnesses, resident in France, could be called.

THREE WATER EXPERTS EXPLAIN THEIR CHOICE OF SCARBORO

Possibility of Pollution at Scarborough Was Just One-Fourth of Island Menace—Large Reservoir Defended—It Would Be an Insurance Against Turbid Water in Taps.

"We have come to explain our choice of a location for the new waterworks, and not to defend it, because it needs no defense," declared the trio of water experts and members of the water commission appointed by the city council to decide upon a favorable location of a waterworks site, which would be a source of more satisfaction than the Toronto Island has been hitherto.

These men, Messrs. Sing, Willis, Chipman and Islam Randolf, claimed that the tendency of currents is westward on the north shores of the lake, and the location of the sewage disposal plant to the west, was sufficient argument in favor of the choice, which is far enough east to be immune from all sources of contamination. In reply to Controller McCarthy, Mr. Randolf stated that any contamination of Lake Ontario within Toronto's immediate environment was purely domestic, and the pollution of the water by shipping and other communities was, in so far as being a possible menace to Toronto, because of the height of the shores above the level of the lake. Fourthly, because of the fact that no factories can be made financially successful if located there on account of the high land, no wharfage facilities nor transportation. Under these circumstances there can be no fear of sewage or other sources of pollution entering the ocean, the Scarborough intake between the two points mentioned.

Better Pumping System. He ridiculed the suggestion of certain people, to the effect that "water will not run up hill," and explained that the idea of reserving 100,000,000 gallons of water for emergency was unnecessary for a city the size of Toronto. "Under the system employed of pumping water from the island, a greater expenditure is entailed than by adopting our recommendation," he declared. "You have to take your water up 250 feet in all by more than one operation, while we take it up 370 or 380 feet and contain the city with 200,000,000 gallons of water per day."

The arguments put forward in favor of the large reservoir are: That a reservoir always has a store of water in reserve, ready to meet any emergency, such as the breaking down of the pumps, the sudden demand for extra water, such as fire occasions, and in that relation it is a valuable insurance against fire loss. That the reservoir gives an opportunity for selecting the quality of water—assured as to fire delivery. It was claimed that water held in the compartments, if slightly turbid when first pumped, will clarify by sedimentation; the clearer water can be turned into the mains. In the event of storms stirring up the lake, the pumps can be temporarily stopped and the stored water used until the worst agitation has subsided.

Currents Are West. Islam Randolf, the American expert, reiterated what he has said, but went further into detail, explaining in more simple language the more potent factors which brought about the selection of Scarborough. He said that the location of Scarborough is the best site for the pumping station. "He stated that Lake Ontario waters are purer than any other waters of the great lakes, or any inland lakes within a reasonable distance of Toronto, which have been taken into consideration as a possible means of supplying Toronto with water. The choice of a site at Mimico was useless, he declared, on account of the currents going westward on the south shore of the lake, turning at the easterly end and coming west from that point, passing Toronto in the latter direction. "It needs no argument to prove why we settled on a point east of Toronto in this regard," said he.

Rock at Scarborough. After deciding that Lake Ontario is the best source of supply, he said that the general make-up of the lake bottom upon which it was proposed to place the intake pipe, must also be taken into consideration. "You have had unlimited trouble in this regard at the island, but the possibility of danger from turbidity was 100 feet, as this was two miles from the shore at Scarborough. "Under these circumstances," he continued, "it would be water in every way fit for human consumption, but with the excess of caution, I recommend filters."

Prepare for Fire. "It has been urged that pumping water up hill to let it run down again is utterly foolish; so it is, that is the only objection, but we had much more in view. We impound two days' supply of water at Scarborough, which without the intervention of pumps, will cause the water to flow into the city through mains which have a greater capacity than the ordinary demand upon them requires. This makes it possible to meet any such excessive demand as would be created by a great conflagration."

He explained that the Scarborough plant would be a little more expensive than perhaps another location would entail, but the danger of contamination would be less there. "You get a flexible supply always ready to respond to any sudden demand upon it for any cause. "You get a pressure which is so constant that it can never vary in excess of ten pounds per square inch. It is my belief that the head pumped against for the greater portion of the time will be 80 feet less than the 365 feet which is now stated. Moreover, the economy can be effected by the use of electricity in place of steam or of producer gas engines in place of electricity will reduce the cost to the city at Scarborough, just as it will at John Street, and bring the relative costs nearer together."

If you want the best water, you will go to Scarborough for it. "If you want the highest insurance against fire losses, you will adopt the Scarborough reservoir. "If you want to guard against interruptions due to the rupture of main between intake and shore, adopt the crib with tunnel leading from it to the shore pumping station. "If you want to minimize the evil effects upon the water supply produced by storms, adopt the Scarborough project."

All the New Victoria Records. The new Victoria records of each month, quickly as they are issued, are added to the very wide selections already to be found in the Victoria Parlours of the Old Firm of Hertzman & Co., Ltd., 153-155-157 Yonge street, Phone Main 6587.

Closing Distribution

Five Big Volumes, \$1.98

Coupons Redeemed Every Day This Final Week

On account of many of our readers being unable to present their coupons on the two days (Friday and Saturday) heretofore reserved for distribution, the World will now accept the coupons any day this final week as long as the present supply lasts.

The greatest bargains in books ever placed before the people of Toronto. Five handsome volumes of Everybody's Cyclopaedia, bound in English cloth, for the small sum of \$1.98.

THE price of the large Cyclopaedia Sets is usually so high, from \$50 to \$100, that they are invariably sold on the installment plan. The publishers of "Everybody's Cyclopaedia" took advantage of these facts, and from a revision of all these various large and good cyclopedias they have compiled all that is good—all that is necessary—and have merely eliminated or condensed that which would be of interest only to a specialist or technical student.

The coupon below must be presented with each order.

CLIP THIS COUPON

The Toronto World EVERYBODY'S CYCLOPEDIA -DAILY COUPON- This coupon, if presented at the Head Office of The Toronto World, Toronto, or at the Branch Office, 15 East Main Street, Hamilton, on any day this final week will entitle the bearer to receive one volume of Everybody's Cyclopaedia (regularly selling at \$1.98) For \$1.98 MAIL ORDERS, ADDRESS THE WORLD, TORONTO, CAN. The Sets are too bulky to be sent by mail, but out-of-town readers can have them for the \$1.98, the set to be sent by express, shipping charges to be paid by the receiver. CUT-UP TOWN READERS need not wait until the days of distribution, but send orders any day of the week and shipments will be made promptly on the distribution days.

LONDON, Feb. 11.—(Can. Press.)—The tragedy of Captain Robert F. Scott's Antarctic expedition was referred to today in the house of commons by Premier Asquith. Speaking with evident emotion, he said:

"We all at this moment are under the deep impression created by the reading of the last message of the world left by Capt. Scott, one of the most moving and pathetic utterances in the annals of discovery."

The premier, who was so deeply moved that his words were almost inaudible, added that the only official information in the hands of the government was that contained in a brief letter received today from Lieut. E. R. G. Evans, of the Royal navy, who was second in command of the ill-fated expedition.

Will Care for Dependents. The message read—"I regret to announce the death of Captain Scott and Petty Officer Evans on March 29, and February 17, 1912, respectively."

Mr. Asquith's statement indicates that the British Government will take care of the dependents of the dead members of the expedition. Otherwise a Mansion House fund will be opened.

Of the five explorers who perished, Capt. Scott, Dr. Edward Wilson and Petty Officer Evans were married. Capt. Scott's wife, Mrs. McQueen, is now in the city.

The merchants and ship owners of Cardiff, from which port the polar ship, the "Terra Nova" sailed, are arranging to erect in their city a statue to the hero.

Brief and pride in the simple narrative of high courage, endurance and sacrifice given in Captain Robert F. Scott's farewell message to the world, written with his companions in the Antarctic and snow are competitors for dominance in the feelings of the British people today.

"It is a white and not a black mourning we wear for these gallant souls who have done and dared so greatly."

The closing words of Capt. Scott's epic: "We lived I should have said, to tell of the hardship, the endurance and the courage of the men and women who have stirred the heart of every Englishman. These rough notes and our dead bodies must tell the tale, but surely that is a great and rich country like ours will see that those who are dependent upon us are properly provided for."

Response Is Prompt. Steps are on foot already to respond to his appeal to the nation by assuring a comfortable future for those dependent upon the men who, while awaiting certain death, could still write that they did not regret their journey.

Capt. Scott's interest in the welfare of his dependents was emphasized by practically the last business he transacted before he left to join the expedition in New Zealand. This was the sale of his house.

Horses Fail to Sell At the Repository

An extra large number of good fresh horses were offered at the Repository auction yesterday, but the demand was only limited. Over three hundred head went under the hammer, and the buyers only took slightly over a third of this number. Western purchasers and car-load buyers were not in evidence for some unexplained reason, and trade was confined mostly to city buyers and others from the district. Mr. D. K. Bennett shipped out a full carload (nineteen horses) to Broderick, Sask.; M. M. Webb, Hamilton, picked up three of the best draught horses at \$225 each; W. G. Buckley, b.g. \$200; J. J. McLaughlin, Ltd., g.g. \$272.50; the Cosgrave Brewery, chestnut mare and gelding, a grand pair, \$600; Borthwick Bakery, a fine grey gelding of the delivery class, \$222.50; City Dairy Co., b.g. \$207.50, and ch.g. \$190; White & Co., black mare and gelding, \$300; Ontario Paving Brick Co., pair, b.g., \$575;

Cosgrave Brewery, g.m., \$265; W. T. Merry, pair, b.g., \$290; J. Ryan, g.g., \$220, and b.m., \$225; H. Struthers, b.g., \$225; J. Struthers, ch.g., \$225; N. Catalano, g.m., \$160; White & Co., b.g., \$210; Dale Furniture Co., b.g., \$215; W. C. Graham, four brown geldings, heavy, \$1000, and b.g., \$255; F. Glass, Queensville, br.m., \$200; J. B. Dart, b.g., \$140; C. Adams, blk.m., \$95; W. Linton, pair, blk.m., \$450; D. Messer, b.m., \$247.50; J. Bach, b.g., \$170; F. Musgrave, blk.m., and blk.g., \$190 each; R. Whitaker, b.m., \$120; J. P. Johnston, Sundridge, b.g., \$100; W. Teal, b.g., and br.m., \$400; J. R. McKinnon & Sons, br. pony, \$110.

sound horses, \$100 to \$150; secondhand city horses (about forty sold), at \$30 to \$50. Toronto Cribbage League The following are the cribbage scores for the week ending Feb. 8: Sons of England B beat S.O.E. Hampermouth 21-15; Queen City beat Davenport Albion, 20-16, and Midland Counties A beat Sons of England A, 22-14. — Standing of Teams—

Team	Won	Lost	Pct.
S.O.E. B	8	2	.727
Midland Co. A	8	2	.727
S.O.E. A	7	4	.636
Queen City	5	5	.500
Royal Grenadiers	4	5	.444
Midland Co. B	4	6	.400
Davenport Albion	4	7	.364
S.O.E. Hampermouth	2	9	.182

NOT A PLOTTER SAYS FIELDING

Prefers Laurier Naval Policy, But Isn't in Position to Give It Assistance

LONDON, Feb. 11.—(C. A. P.)—Hon. W. S. Fielding replies this morning to the allegation made in The Telegraph on Monday that he is working in close association with several Radical members on this side to defeat Borden's naval proposals when they are introduced in the commons.

"The naval proposal of Laurier, presented to the Canadian Parliament in his recent speech," he says, "is an expansion of the one which, with my cordial co-operation, he adopted several years ago, which was first set forth in a resolution unanimously passed by the Canadian commons, and thus became the policy of the whole Canadian people."

VERVILLE, ABBOTT, ROY, ASKS A PLEBISCITE ON QUESTION OF GIFT OF THREE DREADNOUGHTS

Speaking For Workingmen, He Urges That They Be Given Privilege of Expressing Opinion Either Thru Referendum or General Election—Move May Prove More Embarrassing to the Opposition Than to the Government.

OTTAWA, Feb. 11.—(Special)—The event of the day was an amendment to the resolution of the prime minister providing for the contribution by Canada of three dreadnoughts to the naval forces of the empire, proposed by Mr. Alphonse Verville, the Liberal member for Maisonneuve, Montreal.

Disappointed in Foster.

Mr. Pardee (West Lambton), who followed, read extensively from the speech delivered by Hon. Geo. B. Foster on March 29, 1909.

Alleges Pact with Bourassa.

Mr. Borden and Mr. Foster, in that heart of hearts, still preferred a Canadian navy to contribution. They were declared, to be fatally weakened by the desertion of 150 artillerymen, who today opened guns for the administration forces.

Mr. Verville's Amendment.

Mr. Verville (Maisonneuve) is not a militarist. He said the working people all over the world were prepared to hear the argument, but would not permit a war for which there was no good reason. He favored expending the \$5 million dollars in Canada if any such thing could be done.

Mr. Carrol's Expression.

Mr. Carrol (St. John's) expressed the opinion that the policy of contribution would tend to produce a bad result in the appearance of an armed force, but that it would not be a bad result if it were a good result.

5% of Canadians Have Catarrh

Easily Contracted by Long Standing in Cold Ground, or by Sitting in a Cool Place When Fatigued or Overheated.

You may not have thought of giving a name to the unpleasant symptoms that affect your throat, nasal passages, or bronchial tubes.

"Personally I can also recommend Catarrhons for colds, throat irritation and Catarrh. It is a wonderful medicine."

There is no remedy so certain and safe as Catarrhons, but being a good remedy it is imitated. Beware of the substitutes.

FEDERAL ATTACKS ARE DEBILITATED BY REBELS

Heavy Artillery Fire Exchanged in Streets of Mexico City—Onslaughts on Diaz's Position at Arsenal Being Met With Deadly Volleys.

MEXICO CITY, Feb. 11.—(Canadian Press)—In spite of the friendly offer of Francisco de la Barra, the former provisional president, to act as mediator, and over the protest of the diplomatic representatives of the foreign powers, President Madero ordered an attack on Gen. Felix Diaz and his forces, even tho he knew that this would entail a terrific bombardment of the capital.

Deserting Diaz.

"Gen. Aureliano Blanquet is not here and is not coming, probably because he is needed to control the Zapatista forces, who might otherwise improve the opportunity to enter the city. We now have 4000 men, and more available if necessary, with plenty of artillery."

Duel at Close Range.

The heaviest line of fire was along Balderas street, the cannon of the opposing forces shooting across only four blocks pointblank. The federals at the north end of the line used a battery of guns brought from Cuernavaca.

Seized Y.M.C.A. Building.

Early in the morning Diaz appropriated the edifice, routing the foreigners from their rooms and the dormitories, and supplanting the occupants with machine guns and squads of riflemen. Soon from the numerous windows and the roof-top the muzzles of automatics were pointed, later to be played with deadly effect on the ranks of the federals.

GARMENT WORKERS THREATEN STRIKE

The United Garment Workers held a meeting in the Musicians' Hall last night to decide what encouragement should be given the forty strikers who worked for Mr. Kurtz in the contractor, Messrs. Randall & Johnston, Ltd., 71-73 York street.

INJURED FOOT CURED.

"I speak for Zam-Buk because it cured me of a terribly bad foot," says Mrs. Alice Berryman of 190 John St. Her foot was so swollen that she could not walk.

POISONED FINGER HEALED.

"How is it that Zam-Buk is so popular?" It is because it is superior and different to other salves. Contrast them! Most salves are nine-tenths animal oil or fat.

FRANCE PUTS PRESSURE ON BULGARIA

PARIS, Feb. 11.—(Can. Press)—Bulgaria refused to accept the powers that foreigners are allowed to leave Adrianople, the French Government has made further representations to Bulgaria, the most pressing character, demanding that French residents be authorized to quit the city immediately.

ROYAL Baking Powder Absolutely Pure

Royal Baking Powder is indispensable to finest cookery and to the comfort and convenience of modern housekeeping. Royal Baking Powder makes hot breads, cakes and pastry wholesome. Perfectly leavens without fermentation.

Full instructions in the "Royal Baker and Pastry Cook" book for making all kinds of bread, biscuit and cake with Royal Baking Powder. Gratis to any address.

ROYAL BAKING POWDER CO., NEW YORK

Lane Wilson, published a warning to all Americans, urging them not to go unnecessarily into the danger zone. From hundreds of buildings floated the flags of foreign nations, and early in the day a crowd of foreigners congregated in the cable office, sending reassuring messages to relatives and others abroad.

The struggle of Diaz to overthrow the power of President Madero resulted in the most remarkable scene ever witnessed on the western continent. Street fighting has occurred in Mexico at times past, but a battle in which the contending forces employed heavy artillery at a range frequently of less than half a mile in a densely populated city was a new and startling spectacle.

Mobilized in Central Square. The government mobilized its forces in the Alameda, the great central square of the city, but every approach to the streets leading to the arsenal was covered by the rebel guns. At every angle, field guns were stationed which gave promise of a heavy artillery duel. Both sides virtually were ready when the firing began, but the first shots which precipitated the general fighting were accidental.

A group of persons insisted upon crossing a street and a small detachment of federals fired. A machine gun sprang into action and the battle was on. Gen. Blanquet was seen on the federal line, but soon the report was circulated that he had joined Diaz. Gen. Huerta, in command of the federals, and Gen. Angeles displayed their loyalty by forcing the attack.

A large contingent of Rurales did excellent work moving ammunition and participated in one disastrous charge prior to 2 o'clock. Gen. Huerta had ordered a flanking movement down Bucarell street, the part of the Rurales being to cover the placing of a battery of guns. The Rurales moved across an intersecting street, but before the guns could be run into position a heavy rifle fire swept thru their ranks, and they fell back in disorder. The artillery failed to hold its position.

Up to this time four attempts had been made to take by assault the position of the rebels, but they were repeatedly repulsed. Gen. Angeles found it necessary to shift his position from time to time, without material loss. Gen. Diaz had further fortified his positions by digging trenches across the streets, and notwithstanding the rain of shrapnel his losses were comparatively slight.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto.

Further applications of Zam-Buk gave me more ease, so that I could get a little sleep. In a few days the nail came off, but when the Zam-Buk seemed to reduce the inflammation quickly I continued its use until the end of it had brought about a complete cure.

Did you ever ask yourself: "How is it that Zam-Buk is so popular?" It is because it is superior and different to other salves.

Zam-Buk is actually more powerfully antiseptic than crude carbolic acid. Yet it steps instead of causing pain and smarting when put on a wound.

It heals more quickly than any known substance, abscesses, ulcers, scabs, blood-poisoning, cuts, scalds, sores, chaps and all skin injuries and diseases. All druggists and stores sell at 50c a box or Zam-Buk Co., Toronto, for price.

Send stamp for trial box.

Woman's Realm --- the Household, Fashions and Society

SOCIETY

Lady Whitney will give a reception for the members and their wives on Thursday evening in the Speaker's chambers, parliament buildings.

Mrs. Hoyle, wife of the speaker, held a reception for about 300 friends in the Speaker's chambers, parliament buildings, yesterday afternoon, when a most delightful time was spent by her guests. The rooms were lovely with hot house flowers, and the tea table was done with a mirror plate in the centre, surmounted with daffodils, and surrounded by vases of Roman hyacinths. The following girls assisted, all wearing pretty light frocks: Miss Mark, Miss Jewell, Miss Iera Jewell, Miss Donovan, Miss Hezart, Miss McPherson, Miss Ella Wheeler and Miss Clara Lamb. Mrs. Hoyle looked handsome in a gown of ivory charmeuse trimmed with Spanish lace and diamonds and pearl ornaments; Mrs. Angus Campbell, the speaker's daughter, of the speaker, also received, wearing a becoming frock of white satin with overtones of gold and silver embroidery.

The marriage of Miss Julia Cayley to Mr. Robert Laidlaw takes place at 4.30 this afternoon in St. James' Cathedral.

Mrs. Austin and Mrs. Arthurs will be the hostesses at the twilight musicale this afternoon, when Mrs. Arthurs has arranged the program. Those taking part are Miss George, Mr. T. George and Mr. Dunlop. Mrs. E. Hanna will be the tea hostess on Thursday, and Mrs. Peleg Howland on Friday.

The second Causerie Musicale will be given at the residence of Lady Walker on Wednesday next.

Mr. Douglas Warren has returned from New York.

Mrs. Ganger and her daughter, Chestnut Park, are leaving for Europe.

Miss Sarah Lansing will return to Buffalo next week.

Miss Merritt of Oak Hill St. Cathedral, gave a very delightful luncheon last week to the visiting C. N. R. officials. The guest of honor was Mr. D. B. Hanna, vice-president of the C.N.R. and other guests were Mr. Geo. S. Shaw, traffic manager, and Mr. W. F. Chapman, resident engineer. Mr. G. P. Seaton, general manager, N. S. T.; Mr. A. E. Lancaster, K. C. J. E.; Mr. W. F. Chapman, mayor, and Mrs. Merritt, Mr. and Mrs. J. Prescott Merritt, Ald. Jas. D. Chaplin and Mrs. Chaplin, Mrs. W. H. Williams and Mrs. Burgoyne, Mrs. H. G. Williams, and Miss Egoles.

Mrs. W. J. Hanna is giving a luncheon at the parliament buildings on Thursday.

Mrs. W. H. Hearst, Glen road, gave a large military euchre this week.

Mrs. Draper Dobie gives a bridge to-day.

Major Kaye, Royal Canadian Regt., and Mrs. Kaye have taken apartments at the Alexandra.

Miss Marion Hees, New York, is the guest of Mr. and Mrs. Le Grand Reed, Bincarth road.

Mrs. Wheeler gives a tea today at the Metropolitan.

Mrs. J. H. Warner of 15 Dundonald street, is giving a bridge and euchre party, Tuesday, Feb. 12.

Miss Margaret Williamson, who has been in Ottawa with her aunt, Mrs. W. Hamilton Burns, has returned to town. Mrs. Burns remaining to watch the skating contest.

The Islanders are giving a dance this evening at 8.30, at the Canadian Foresters' Hall.

The indoor baseball committee of the Q. O. R. announce a change in the schedule. Feb. 12, at 8 p.m., E. Co. 1st will play C. Co. 1st. Feb. 13, E. Co. 1st will play C. Co. 1st. These games are important, and members of both teams are asked to be on hand.

Mr. Alfred Wright has just received a cablegram from his son, Charles S. Wright, scientist with the Scott expedition from Christchurch, New Zealand, stating that he will be home in June, via Vancouver.

The Alumnae Association of University College, entertained the Women's Literary Society of University College, on Saturday evening last, in the new household science building. A very clever presentation of "The Rivalry," by members of the Alumnae Association was much enjoyed. After the play, refreshments were served. The cast was as follows: Sir Anthony Absolute, Mono McLaughlin '09; Captain Absolute, Mionie Barry '11; Pauline, Lola Sims '10; Bob Acres, Mrs. Hineck; Mabel Millman '07; Sir Lancelot O'Rienger, Lovis Aikenhead '12; Fay, Adice Hall '11; David, Doris Stupart '10; Mrs. Malaprop, Alice Rothwell '10; Lydia, Mrs. Sutherland (Marion Coats) '10; Julia, Edith Urquhart '11; Lucy, Elsie Keith '12.

Invitations are issued for the fifth annual at home of the Parkdale Adanac Club, to be held in the Metropolitan Assembly Rooms on Friday, Feb. 21.

Receptions Today. Mrs. Strathy, Walmer road, her daughter, Mrs. James Strathy, with her, also on Friday. Mrs. Geoffrey Wood (formerly London, Ont.), 88 Kendall avenue, Mrs. Rose Tillenburgh with her. Mrs.

To Renew Complexion Without Cosmetics

(From The Dermatologist). If the excessive user of cosmetics only knew the impression her artificiality really makes upon her skin, she would quickly seek means of gaining a natural complexion. Let her acquire the merciful wax habit, discarding make-ups entirely, and she will soon have the kind of complexion that women envy and men admire. It is so easy to get an ounce of merciful wax at any drug store, use it daily, the cream and wash it off mornings. And the result are so remarkable. Gradually the lifeless, artificial, and in almost invisible flaky particles. In a week or so the skin will be new, clean, clear, velvety-soft, and of color and texture. The treatment is so simple, harmless and mercifully effective, the wonder is that every woman whose skin is withered, discolored, rough, chapped, freckled or pimpled, has not already adopted it. Let wrinkled women quit pastes and massage cream, which mar their skin and more and try this more sensible treatment. Dissolve 1 oz. powdered castile in 1 pint water, wash face with a face bath. Every line will quickly disappear.

The Daily Hint From Paris

A BECOMING NIGHT DRESS.

The belted night dress is surprisingly pretty compared with the ordinary kind. This is one of the newest designs on exhibition in a Broadway shop. The wide lace frill around the neck is attached twice, forming a casing for the ribbon, which is drawn up a little and tied in front. A similar arrangement is made on the sleeves and around the body, just below the bust, a band of plain net is attached, beneath which the girde ribbon is run. This garment is cut kimono fashion and launders fat.

Ernest N. Brown and her daughter, Miss Una Brown, 3 to 6, at 219 Indian road.

Receptions. Mrs. J. R. Reynolds, 28 Starr avenue, Thursday, and not again. Mrs. Alex Robertson, 117 Kendall avenue, Thursday and not again. Mrs. Arthur W. Johnson, Mrs. Walter Godson, first, second and third Thursday in March only. Mrs. J. Stewart Lundy, 241 Indian road, not on Thursday, owing to illness. Mrs. Gordon Holland, post-captain, with Mrs. W. H. Holland, Friday, 4 to 6.30, Roxton avenue. Mrs. J. J. Main, Prince Arthur Willard Apartments, not Thursday nor again. Mrs. C. W. Harding, Young, 465 Indian road, Thursday and not again. Mrs. Wallace, Cowan avenue, South Parkdale, Thursday for the last time. Mrs. Farbox and the Misses Bogart, Dvorcourt road, Thursday. Mrs. Arthur J. Trebilcock and Mrs. John F. Lemox, 269 Palmerston boulevard, Thursday.

FOR VALENTINE DAY

The hostess who plans to entertain friends on St. Valentine's Day, whether in the afternoon or evening, at luncheon or dinner, will see to it that red is the predominating color and that the heart as well as the true lover's knot is everywhere in evidence. It is possible to use the heart design in so many ways that the matter of decorations and the serving of refreshments are made much simpler. The little heart-shaped paper cases may be bought in several different sizes; but the woman who wishes to make them will not find it difficult. The pattern of the heart is first cut. Then from not too heavy board hearts are cut; these will serve for the foundation of the boxes or cases. Strips of paper as wide as one wishes the side of the cases to be in height are cut; these are fastened to the heart pieces, either by thread and needle or pieces of gummed paper. The case is then covered with red crepe tissue paper, frilled a little and held in place with a cord of the twisted paper. For bonbons and salted nuts these are just the thing. Larger ones, lined with paraffin paper, will be excellent for ice cream or ice. If there are to be croquettes, these

IF THIS IS YOUR BIRTHDAY. Avoid company, as you can manage your present affairs, more to your satisfaction alone. The excitement of social life might cause you to miss a great opportunity. Those born today will have many strange whims. If they show a taste for any special line of study or work, they should be encouraged in it, but recreation cheerful and active, should be insisted upon often enough to balance the sometimes morbid fads of these children.

Efficient Housekeeping

By HENRIETTA D. GRAUEL (Domestic Science Lecturer)

WINDOW GARDENS

ALMOST every house has one window filled with morning sunshine where flowers will grow and bloom radiantly, providing plants for table decoration, or if you are strong minded enough to pluck your petals, a boutonniere for hubby. Success with flowers depends upon three things: selection, thorough preparation of soil and proper location. If you have only a north light you must be content with ferns and vines and by flowers already in blossom. Begonias are popular winter plants—they combine delicate blossoms with showy foliage; carnations are profuse winter bloomers, calla lilies are loved for their associations; daisies and primroses are sturdy plants, and geraniums are old friends. A monthly rose blooming regularly becomes as much loved as a live pet and its buds are longed for and cherished. Vines grow well even if not in direct sunlight. Charming pottery or terra cotta wall vases are inexpensive and combine delightfully with tender greens of the vines.

These baskets are preferred to wire ones as they hold moisture better and do not require a lining of moss. If you remember which corner of the garden holds the violets you may bring in their roots and plant them for blooming next month. Keep them in a dark, warm place, until the leaves show, then give them sunlight and they will blossom quickly.

Lilies of the valley, too, may be brought in and soon their bell-like flowers will delight you with their subtle perfume. Flowers only tell the season by the temperature, so it is not difficult to force these spring beauties. In growing house plants, have a few young, healthy ones that will grow satisfactorily and bear many flowers, in preference to a number of old plants with only leaves.

No matter whether your window is filled with costly flowers or with the most common plants you will do all you can to make them flourish. Water them with a small sprinkler; some need a drink every day, others a few times a week. Begonias and geraniums do not like water on their leaves, while ivies revel in a bath. Warm soap suds put on with a sponge

Ten drops of ammonia to a cup of warm water is a splendid tonic for weak plants. Pains usually have a place in indoor gardens; they are gross feeders and their favorite food is castor oil. Four it around the roots of the plants and two or three teaspoonfuls for smaller ones will give a fine dark color and a rich gloss to the leaves, as well as increase their growth. Dust should be removed from the leaves of palms and rubber plants with cloth moistened in milk.

may be molded into hearts. The heart-shaped cakes are not at all difficult to make. Make a fat loaf cake and from the cake cut the heart-shaped little cakes with a cookie butter. Ice them and decorate with cherries or red icing.

If there is a vegetable salad, cut the vegetables into heart-shape pieces; this is not hard, if one of the tiny cutters is used. Sandwiches, of course, should be heart-shaped, make heart-shaped peppermints. An excellent peppermint is made by adding to the beaten white of an egg two teaspoonfuls of water and half a teaspoonful of oil of peppermint; stir in as much confectioner's sugar as is necessary to make a fondant; this can be easily molded into shape. These candies may be colored with red vegetable coloring paste.

A luncheon menu, which a hostess has planned for the coming Valentine Day, is this: Melange of Fruit in Heart-shaped Cases. Cases. Love Apple (tomato) Soup; Heart-shaped Cheese Wafers. Shrimps with only Heart Timbales. Heart-shaped Chicken Breasts on Toast. Heart-shaped Mashed Potato Cakes, Browned. Heart-shaped Cream Cheese or Lettuce. Heart-shaped Snowdrifts. Ice in Heart-shaped Cases. Heart-shaped Cakes. Coffee. There is not one of the dishes difficult to make, and yet they are such as to permit the carrying out of the heart idea in every course.

SOCIAL WORKERS MAKE PROGRESS

Work in the Ward Has Increased at a Wonderful Rate.

TEACHERS ARE NEEDED

Students Have to Stop in Order to Continue Studies.

Miss E. B. Neufeld, head worker of the Central Neighborhood House, 84 West Gerrard street, informed The World last night that the social work in the ward had increased so fast since the beginning of the year that the settlement workers had found it necessary to secure larger premises. A house at 82 Gerrard street, just beside the building being used at present, has been secured, and at a meeting of the night school work, and in the morning there will be a house-warming when all the workers are invited to the settlement to attend the night school had been astonishing.

Night School Open. The night school is open to all those who wish to learn to speak English. Since the beginning of the year more than five hundred persons have enrolled for the course, and there has been an average attendance of 125 in the month of January. The age of the majority of those attending is from 15 to 25 years, and none of them were born in Canada. The sessions are held on Monday, Wednesday and Thursday evenings, and nine rooms of Elizabeth street public school are being used. The teachers are all volunteers, and there are about one hundred of them. Many of them are Varsity students, but as their examinations are not many months away some have found it necessary to give up the work. Extra teachers are now needed.

Speak in Six Months. The Roberts system of teaching English is the one being used. In it there are three series of English—domestic English, industrial English, and commercial English. There are charts and leaflets and the sentence

WINDSOR TABLE SALT

Grocers are firm friends of Windsor Table Salt. They like to sell it, because it is pure and clean and good. Ask any grocer for his best salt, and he will give you Windsor Salt every time. Not because it costs more—it does not—but because the grocers know that Windsor Table Salt pleases their customers.

method is used. The sentences all have a practical value, the idea of the course being to provide the foreigner with a knowledge of English that will be useful to him in his business. According to the reports of the teachers hundreds of those taking the lessons will be able to speak English in six months.

Social Meetings. The neighborhood is also conducting a series of social meetings, where civics are discussed. Last night one of these meetings was held in the Elizabeth Street School. The meeting was supposed to be for adults only, but the mothers and fathers came out with a trail of little children behind them and soon filled the hall. The children expected another moving picture show, but they were disappointed, for the entertainment turned out to be an address by James Simpson on the subject, "How to Become a Canadian Citizen and Why." Mr. Simpson's remarks were well received by the older persons in the gathering. The children, too, were pleased, and were all remarkably quiet.

THE BOY'S CHANCE TO MAKE GOOD

What we should impress upon our boys is that that which counts most is character and manhood, and that every boy has an equal chance to become a useful, respected citizen, if he is faithful, industrious and honest. He may make money, but the mere making and hoarding of money is the poorest test of real success. It takes in spite of the fact that some people take a pessimistic view of the present time, impress upon the boy—your boy or any boy with whom you come in contact—that his chances in life are not so bright as they seem to be. In the field of honest endeavor and earnest effort, right thinking, right living, are not less, but greater than ever before. The quality most needed for boyhood is the courage to do right, because it is right, and to stand against evil in spite of ridicule and sneers.

There are various things one must keep in mind in dealing with the boy who is a little unmanageable, who has departed from the straight and narrow path of filial duty. In the first place don't lecture and storm at him. He may be frightened out of his wits and made impossible any confidence. You cannot get the good will of the boy by employing methods of violence simply because it takes more time and patience to use kindness and sympathy. And don't give the impression that what he has done in the past can never be lived down. It is your business to help him to forget and to establish a future so filled with things to do, things to enjoy, that the boy will have no time for looking backward. And again, do not forget that your training may be responsible for the shortcomings; so, if lecturing is to be done, lecture yourself for having allowed other things to take your mind away from the boy and his needs.

The gospel of work should be preached by every parent—the gospel of the work which works not from mercenary motives only, but for the joy of the work itself, and for the best way of doing it. That is the boy who is bound to win out—not the clock-watcher, not the whiner nor the one who never gets what he is worth. A hard time as well as a good time should be the lot of every boy. Finite difficulties which in the overcoming bring success and happiness.

VALENTINE ROLLS.

Make rolls from the following recipe: One quart of flour, one table-spoonful of butter, one and one-half level table-spoonfuls of sugar, one table-spoonful of mashed potato, one-half compressed yeast cake dissolved in one-half cup of cold water, scant pint of milk and one egg. Knead until it forms a soft dough, put into heart-shaped balls and bake when light. Serve, freshly baked, with heart-shaped balls of butter for a Valentine's Day luncheon or supper.—Harpers' Bazar for February.

SOCIALIST LEADER ASSASSINATED.

VIENNA, Feb. 11 (Can. Press).—Franz Schumacher, a member of the lower house of the Austrian Parliament, and a Socialist leader, was assassinated tonight by the Christian Socialist and Labor Leader Paul Kunschak. Kunschak followed Schumacher from a political meeting to the Northwest Railway station, where he shot him with a pistol. The motive is said to have been revenge.

HOUSE Cleaning

ELECTRICITY IS THE LOGICAL ILLUMINANT

THE best reading light for everyone is supplied by electricity. Your house can be wired so cheaply, and the cost for current is so small, that there is no reason why you should deny yourself the pleasure and comfort of having electric light in your home. With electricity in your home you will have a cleaner light, one that is healthier and more convenient than any other kind. A representative from this office will call at your home and explain in detail just what must be done and how much any reliable contractor will charge for the work. No charge or obligation.

Write a note, or call up ADELAIDE FOUR-O-FOUR.

MONEY IS NEEDED FOR GOOD ROADS

Fort William Deputation Asked For Share of Government Grant.

If a 40-mile strip of road were built in the vicinity of Fort William, five townships would be opened up. This statement was made to G. W. Bennett, colonization road superintendent, by a deputation from Fort William which visited the parliament buildings yesterday. The visitors asked for a share of the grant to good roads, and told of the hardships endured by settlers who had to walk a trail 40 miles long to get supplies. Mr. Bennett promised to report on what he could when plans for roads in that vicinity were under consideration.

WILSON'S INVALIDS' PORT WINE

"Nothing more excellent than the juice of the grape was ever granted by God to man."

Sickness is Costly

Your purse suffers—but infinitely more your body suffers—loses vitality that can never be regained. Think of it! And the prevention is so simple.

To forestall that possible drain on body and mind and nerve, to "keep fit," try taking Wilson's Invalids' Port Wine, a wine-glassful before or between meals—three glasses a day for your health's sake! It is a powerful, nutritive restorative of the disease-resisting forces of the blood and a remarkably efficient febrifuge. Doctors know!

PRICES OF GRAIN

INCLINED TO SAG

Plentiful Moisture in Winter Wheat Believed to Downturn in Corn.

CHICAGO, Feb. 11.—Wheat today eased off under the influence of plentiful moisture throughout the winter crop belt, except Nebraska and Kansas. The market closed 1-4c to 1-2c down. Corn lost 3-8c to 5-8c net, oats finished 1-2c to 3-4c off and provisions at an advance of a shade to 7-1-2c, with pork just below \$20 all round.

Notwithstanding that conditions of the crop, prices at first were strong because India still needed more rain. Speculators, however, did not wait long for signs of the selling, as exporters declared no foreign demand existed for shipments from the U. S. Ocean freight broke, but failed to alter the outlook. Big rural offerings of wheat southwest started at the bulls. So, too, did reports that the flour trade at Minneapolis could scarcely become worse.

Talk of alleged dearth of wheat protection had little effect and there seemed to be no rally from the power in the pit when the last bell closed the steps.

Corn collapsed on account of heavy receipts and revival of exports served only as a temporary check. The concern that was the strongest support of the market last week headed the selling today. Oats fell with corn, despite free milling by shorts.

Twenty dollars a barrel for hark brought much profit-taking by packers. In consequence the provision market broke, but prices were again bid up by brokers who had other products for sale. Restricted slaughtering, due to difficulty in obtaining a sufficient supply of hogs, formed the basis of the rise.

Twelve dollars a barrel for hark brought much profit-taking by packers. In consequence the provision market broke, but prices were again bid up by brokers who had other products for sale. Restricted slaughtering, due to difficulty in obtaining a sufficient supply of hogs, formed the basis of the rise.

GRAIN AND PRODUCE

Local grain dealers' quotations are as follows:

Ontario oats—No. 2, 35c to 34c per bushel, outside; 33c, track, Toronto.

Manitoba oats—No. 2 C.W., 41c; No. 3 C.W., 40c, lake ports.

Ontario wheat—No. 2, 95c to 94c, outside; inferior grades down to 70c.

Manitoba wheat—No. 1 northern, 95c; No. 2 northern, 94c, track, lake ports; feed wheat, 90c, lake ports.

Manitoba flour—Quotations at Toronto are: First patents, \$4.30, in cotton 10c more; second patents, \$4.20, in cotton 10c more; strong bakers, \$4.60, in lute.

Rye—No. 2, 65c to 70c per bushel, outside, nominal.

Peas—No. 2, \$1.15 to \$1.20, nominal, per bushel, outside.

Buckwheat—\$1c to 50c, outside, nominal.

Barley—For malting, 55c to 60c (47-lb. sack); for feed, 40c to 50c, outside, nominal.

Corn—No. 2 yellow, 87c, track, Toronto, all-rail shipment.

Milled—Manitoba bran, \$13 to \$20, per cwt. shorts, \$12 to \$22, Ontario bran, \$12 to \$20, in bags; shorts, \$23 to \$23, car lots, track, Toronto.

Ontario flour—Winter wheat flour, \$3.95 to \$4.05, seaboard.

Toronto Sugar Market. Sugars are quoted in Toronto, in bags, per cwt., as follows:

Extra granulated, St. Lawrence, 4c 60. do. Redpath's, 4c 60. do. Acadia, 4c 60. Imperial, granulated, 4c 60. No. 1 yellow, 4c 60. In barrels, 5c per cwt. more; car lots, 10c less.

Winnipeg Markets. Prev. Open. High. Low. Close. Wheat—30 1/2 30 1/2 30 1/2 30 1/2

Chicago Markets. J. P. Hickey & Co. Standard Bank Building, report the following prices on the Chicago Board of Trade:

Wheat—Open. High. Low. Close. Prev. May 94 1/2 94 1/2 93 1/2 94 1/2

European Markets. The Liverpool market closed unchanged to 1/4 higher on wheat, and 1/4 lower to 1/2 higher on corn. Paris wheat closed higher. Antwerp wheat lower. Berlin wheat lower, and Budapest 1/2 lower.

European Visible. The visible supply of wheat in Europe this week is 79,592,000 bushels, compared with 7,106,000 bushels last week, an increase of 85,000 bushels.

World's Visible. The world's visible supply of wheat decreased 1,145,000 bushels last week, according to Bradstreet's weekly estimate. Corn increased 2,125,000 bushels, and oats increased 1,215,000 bushels. The details follow: Wheat, U. S. and east of Rockies, increase, 20,000 bushels; U. S. and west of Rockies, decrease, 1,045,000 bushels; U. S. and Canada, decrease, 1,846,000 bushels; Africa and in Europe, increase, 100,000 bushels.

Primaries. Wheat—Yester. Wk. ago. Tr. ago. Receipts, 745,000 bushels, 713,000 bushels, 471,000 bushels, 462,000 bushels.

ST. LAWRENCE MARKET. Receipts of farm produce were 1400 bushels of grain, 1300 of hay, and one load of straw.

Wheat—One hundred bushels sold at 95c to 96c.

Straw—One hundred bushels sold at 60c to 65c.

Hay—One hundred bushels sold at 12c to 13c.

Beans—One hundred bushels sold at 10c to 11c.

Peas—One hundred bushels sold at 11c to 12c.

Barley—One hundred bushels sold at 10c to 11c.

Oats—One hundred bushels sold at 9c to 10c.

Apples, per bag, 10c to 15c to 20c 25c

Apples, per bushel, 1.00 to 1.50 to 2.00

Cabbages, per bushel, 1.00 to 1.50 to 2.00

Carrots, per bag, 0.75 to 1.00 to 1.50

Turnips, per bag, 0.75 to 1.00 to 1.50

Hay, No. 1, bush, 1.15 to 1.25 to 1.60

Hay, No. 2, bush, 1.00 to 1.10 to 1.20

Hay, No. 3, bush, 0.80 to 0.90 to 1.00

Hay, No. 4, bush, 0.70 to 0.80 to 0.90

Hay, No. 5, bush, 0.60 to 0.70 to 0.80

Hay, No. 6, bush, 0.50 to 0.60 to 0.70

Hay, No. 7, bush, 0.40 to 0.50 to 0.60

Hay, No. 8, bush, 0.30 to 0.40 to 0.50

Hay, No. 9, bush, 0.20 to 0.30 to 0.40

CATTLE MARKET

BARELY STEADY

Sheep, Lambs and Hogs All Sell at Higher Prices.

Receipts of live stock at the Union Yards were 122 cars—2193 cattle, 1279 hogs, 21 sheep and lambs, 160 calves and 80 horses.

Considering the moderate receipts of cattle, and especially those of choice quality, trade was sluggish. Prime, well-finished cattle were barely steady, the top price reported for one load of cattle being \$1, while the best load on the market a week ago brought \$7.15. Common and medium cattle were inclined to be easy.

Owing to light receipts of sheep, lambs, calves and hogs, prices were firm and higher in each of these classes, as will be shown by the many sales given below.

Exporters. One load of 29 car lot of 8 cattle, 1140 to 1280 lbs. each, of export quality, sold at \$7; four loads, 1200 to 1250 lbs. each, at \$6.95.

Butchers. Choice butchers, \$5.40 to \$6.75; loads of good, \$4.35 to \$5.25; medium, \$3.60 to \$4.70; common, \$4.50 to \$5.25; cows, \$3.50 to \$4.25, and a few extra quality cows, \$2.50 to \$3.75; bulls, \$2.75 to \$3.50, with a few extra quality at \$5.50 to \$5.75.

Stockers and Feeders. One Stocker, 1140 to 1280 lbs. each, were quoted at \$4.75 to \$5; feeders, 807 to 850 lbs. each, were quoted at \$5.25 to \$5.25.

Only about a dozen muckers and sprayers were reported on the market. Prices ranged from \$10 to \$12 each.

Veal Calves. There was a lot of poor quality calves and few good ranges. The market was all the way from \$4 to \$10 per cwt. See the many sales given below.

Sheep and Lambs. Sheep were firm and lambs were higher. Sheep, ewes, sold at from \$5.50 to \$6; lambs, \$4 to \$5.50, according to quality.

Hogs. Selects, fed and watered at the market, sold at \$8.50 to \$9, and \$8.50 to \$9, cars.

Representative Sales. BRAZILIAN LEADS GENERAL DOWNTURN Toronto Market Responds Readily to Acute Weakness in Wall Street.

C. P. R. ON TOBOGGAN Numerous Declines in General List—Money Stringency Occasions Alarm.

The acute weakness in Wall Street and the uneasy feeling in the London and other European exchanges occasioned some apprehension in the Toronto stock market yesterday.

The market showed weakness right from the start, and wound up with a number of fairly large declines in evidence.

The general list followed the lead of these two issues, and generally evidenced an inclination to sell off whenever selling put in an appearance.

The investment issues held up, in marked contrast to the general favorites. Dominion Bank was stronger at advance of over a point.

Toronto moved up from eleventh to tenth place in the standing of the cities of the continent in point of bank clearings last week.

Toronto moved up from eleventh to tenth place in the standing of the cities of the continent in point of bank clearings last week.

C. P. R. LEADS IN MONTREAL BREAK Premier Railway Shares Drop Almost to October's Level—Declines General.

MONTREAL, Feb. 11.—Local stocks today yielded to a combination of adverse influences, uncertainty in London, a bad break in New York and continued stringency in the Canadian money market.

On Jan. 31, the Montreal Power broke to 230 7-8, a decline of 2-7-8 from closing prices on Monday.

TEMPORARY LULL IN MINING MARKET Speculative Enthusiasm Somewhat Abated—Merely a Pause For Breath.

Such erratic changes as a six point advance in Timiskaming, an upturn in Apex and Jupiter, the establishment of a new low record for the month on Hollinger and Dome, Extension and small declines in Beaver and City of Cobalt, plainly evidenced the irregular tone in the mining market yesterday.

The general list was highly irregular. Hollinger sold down to 8 1/2, and at one time was on offer below that figure.

WHEAT PIT NEXT POINT OF ATTACK
Violation of Anti-Trust Law Alleged by United States Government.

GRAIN PRICES ARE FIXED
Quotations Arbitrarily Established While Exchange Is Closed, It Is Charged.

CHICAGO, Feb. 11.—(Can. Press.)—The Chicago Board of Trade, the great grain exchange of the United States, has been charged by the federal government in a civil anti-trust suit filed here today, with violating the Sherman law by arbitrarily fixing, during the hours the exchange is closed, the prices of wheat, corn, oats and rye to be received in Chicago.

The government's position in equity is that the United States district court has issued a temporary restraining order to prevent the board from continuing an alleged unlawful conspiracy to destroy competition and restrain interstate commerce.

The following are named as defendants in the suit: Board of Trade of the City of Chicago; Edward Andrew, president; Frank B. Rice and Albert J. DeLoach, vice-presidents; J. E. Cunningham, David S. Lister, Leslie G. Gates, John Carden, Robert McDaniel, Joseph Simons, Adolph Gerstmann, Benjamin S. Wilson, L. Harry Freeman, George B. Quinn, John A. Rogers, John R. Mann and W. L. Gregson, directors of the board.

The suit charges that the board has conspired to fix the price of wheat, corn, oats and rye to be received in Chicago, and that the board has conspired to restrain interstate commerce.

The government alleges that the board has conspired to fix the price of wheat, corn, oats and rye to be received in Chicago, and that the board has conspired to restrain interstate commerce.

Rich Strike at the Timiskaming

In print, the most elastic and bombastic word is "value." Just now you are pelted with "values" as though they were "Confetti." Hold tight to this thought—value is merchandise that is propped by reputation.
