NEW CONTINENT IS DISCOVERED

Russian Explorers Find Large Body of Land to North of Siberia.

ST. MICHAEL, Alaska, Oct. 11.—(Can. Press.)—The Russian Government steamer "Taimyr" and "Wargatch" under Commander Wilkity, which has been engaged in Arctic exploration north of Siberia for three years, arrived here today for coal. Captain Wilkity reports the discovery of a body of land to the north of the island of Wrangel, extending beyond latitude 81 north and longitude 102 east.

NEW YORK, Oct. 11.—(Can. Press.)—The reported discovery of a new and extensive body of land in the Arctic recalls the theory of Dr. Rollin A. Harris, the tidal expert of the United States Coast and Geodetic Survey, that some such land existed in the unexplored regions north of Canada, Alaska and Eastern Siberia. It was to test the validity of this theory that Arctic explorers for many years back and at many points within the Arctic circle, the search for St. Michael's land would indicate that the Russian explorers have skirted the supposed new continent from a point near that at which Stefansson hopes to find the land half way around his starting point in Beaufort Sea. Dr. Harris estimated the extent of the land at about 500,000 square miles, and the statement of the Russian explorers is in substantial agreement with this.

OF STEAMERS BEARING VOLTRURO'S SURVIVORS TO PORT

Rescue Ships Reached Scene Quickly, But Were Unable to Give Succor Because of Storm—Boats Launched From Burning Steamer Smashed or Upset by Waves.

LONDON, Oct. 12.—(Can. Press.)—Not since the Titanic sank has Europe been so shocked as by the burning of the steamer Voltruro in mid-Atlantic, with a loss of 150 lives, and a fleet of steamers summoned by the Voltruro's call for help, some of which are bound eastward and others westward.

The Voltruro sailed from Rotterdam on Oct. 10 for Halifax and New York. According to the official statement, she carried 21 first-class passengers, 538 steerage and a crew numbering 97. The rescue ships reached the scene of the disaster in plenty of time. The steamer was spotted by the British vessel, the British ship, because of the storm, the rescue ships were unable to reach the burning steamer.

The Voltruro was a large passenger steamer, built in 1908, and was carrying 559 passengers and crew. She was bound for Halifax and New York. The ship was seen by the British vessel, the British ship, because of the storm, the rescue ships were unable to reach the burning steamer.

Building a Cold-Frame

The building of a serviceable cold-frame, fairly large, and suitable for the needs of a small garden, should not be a tremendous undertaking. The whole problem depends upon the providing of an under-bed that will supply a sufficient amount of continuous heat to encourage proper root-growth; the enclosing of the whole bed with low walls, warm enough to keep in this under-generated heat, as well as that which is to be drawn from the sun; and, lastly, a top covering of glass, arranged in such a manner that the pit will act as a small green-house, heated by artificial means.

NURSERY
CONDUCTED BY Eliza Murray
Early Lessons
Mothers are afraid of educational movements. They hesitate to undertake the education of their children at home, because they have not time for course study. That is so foolish for the real teacher of the first lessons a little child receives needs the spirit far more than the knowledge.

The World Comedians at the Grand.
Can you imagine "Mutt and Jeff." The World characters of cartoon fame, are playing on the Grand stage a new play, "The World Comedians at the Grand." Can you also stretch your fancy to these same individuals endeavoring through the aid of divers disguises, such as a series of melodramatic and thrilling situations, and not feeling the responsibilities of their millions of admirers and friends? If you can you will get a fair idea of the attraction at the Grand stage on Wednesday and Saturday matinee.

EDUCATION FOR OLD AND YOUNG
Everybody Desiring to Keep Up With World's Progress Should Read

There are but few people who realize the amount of knowledge one gains by reading a day, not necessarily for the purpose of gaining education, but with a desire to keep up with the current events of our own little world, which will act as a small green-house, heated by artificial means.

MONDAY MORNING OCT. 13.

STILL ON THE DOWN GRADE.
What a wretchedly bad case The Telegram has against Mayor Hooken is evident from the necessity it has to use misrepresentation and even direct falsehood in order to make any case at all. People who read no other paper than The Telegram may be misled for a while, but it cannot continue for ever. Exactly similar tactics were used against the hydro-electric proposals some years ago. Calculations were manipulated in the most brazen way, and "experts" and "engineers" were brought forward anonymously to propound the most absurdly untrue statements. It was solemnly assured that power would cost at least 75 per cent more under hydro methods and that Hon. Adam Beck had some sinister design in promoting the hydro proposals.

The Telegram has adopted all the methods it then reprobated and is using them in the most unscrupulous fashion. No one, except Controller Church, is ever directly quoted. Prominent citizens, city hall officials, aldermen, experts, and the like, all strictly anonymous, are made the dummies by which the wrath of The Telegram is poured out upon Mayor Hooken. One "W. D. Midmer" has a letter on Saturday contending that the purchase of the street railway would be a death blow to public ownership, this statement being made apparently without the slightest knowledge of the terms of the proposed purchase. But the letter meanders along, and cites the example of London, to warn Toronto from using trolley cars which are rapidly passing out of use. The Telegram, by the way, on the previous day supported the building of \$500,000 worth of new lines. It is said that motor buses will drive trolleys off the streets and that trolleys in London barely pay expenses. The Telegram neglects to inform its readers that there are no trolleys in central London, but only in outlying districts; that motor buses and underground railways naturally get all the central traffic, and that there is no parallel in the conditions at all. If the street cars were taken off the district included in the Belt Line and south to the bay, motor buses might have a chance in Toronto, but The Telegram knows that the trolleys are not coming out of Toronto's central district. Nor are motor buses any good for fast transit or in a Canadian winter. Mr. Midmer says if the city "allowed some of those who are anxious to operate them here to do so temporarily, with a view to public ownership of a system, there would be no need to negotiate for a short term franchise." There certainly would not, but Mr. Midmer does not seem to know that anybody who wants to start a motor bus system tomorrow can do so, and the city will not prevent him. If it would pay, such buses would have been running long ago. As a fact they are running in the only way they have proved profitable, for summer tourist traffic, and it has not required a large number to take care of the business.

This is a sample of the uninformed argument that is being used against the public ownership of the street cars. But The Telegram has other resources of misrepresentation. In its news column announcement of the fact that Mayor Hooken will today lay before the city council such information as is available about the proposed purchase, it tries to give the impression that Mayor Hooken is acting in bad faith. A journal that distorts its news for its own ends has sunk very low.

HUDSON BAY ROUTE.
This season's experience has been distinctly favorable to the new Hudson Bay route. Quite a number of steamers found their way to Port Nelson, the selected western terminus of the new railway, without encountering serious difficulty or suffering mishap. As the straits and bay are uncharted and unlighted this of itself was no inconsiderable achievement and strengthens the belief that the Hudson Bay route will prove invaluable as an outlet for western wheat. There appears to be general agreement too that the government has chosen wisely in deciding upon Port Nelson as the seaport. Churchill, the only competing point, is a little nearer Europe, but would have been more costly in construction besides requiring a longer railway line.

Good progress has been made with the Le Pas end of the road, and part of the cargo carried by one of the steamers consisted of a complete wireless apparatus to be erected at Port Nelson. Communication will in this way be effected with Ottawa by

means of a station at Le Pas. When this national enterprise is completed it will save the western grain growers 900 miles of land transportation and several transshipments. In the interval the Dominion authorities will have a thorough investigation made into the fishing resources of the bay, which are believed to be of a highly promising character.

ALL FOR LOVE OF TOMMY.
The Star admits that a strong case can be made for the view that Controller Church is boss of The Telegram, but it still adheres to the theory that The Telegram manipulates Controller Church. The Star asks if Controller Church would permit it to take the position it does, the effect of which is to leave him a solitary unit with scarcely Controller Foster to depend upon for support, so that he is "out of it" in all things of civic importance. Superficially this may seem conclusive, but is it fair to regard Controller Church in this superficial way? We believe Controller Church must be searched deeply, very deeply indeed, to discover his true aims. He is not concerned with the mere popularity of a cause or he would never have patronized The Telegram. The Telegram itself regards him as having no other thought than representing the voters who elected him, and The Telegram has as good as said that if he did not represent the voters it had no use for him. If The Telegram discovers that Tommy has misled it, or is deceiving it, it will no longer consent to be bossed by Controller Church. But he has told The Telegram that he sways the electorate, and if it follows him, it will have the satisfaction of electing the next mayor. This was always the goal of The Telegram's ambitions, and Controller Church knew just the proper string to pull in the editorial mechanism.

Unless one understands how much The Telegram loves "Tommy," as it affectionately calls him in private, the resenting with jealous wrath any such familiarity on the part of outsiders, like Mayor Hooken, the sacrifices The Telegram is prepared to make for Controller Church are unintelligible. In all the ardor of its young affection for "Tommy" The Telegram has made many sacrifices, and allowed itself to be bossed most dreadfully. But when the dream of love is over, and The Telegram awakens to find what a gay deceiver "Tommy" really is, there will be a lively settling of accounts.

The Star must not be misled by superficial ideas such as that hatred of Mayor Hooken has led The Telegram to abandon its common sense. The true motive is love for "Tommy."

THE CITY ARCHITECT.
Alderman McBride has arranged a little campaign in opposition to the board of control's recommendation of Prof. Wright for the position of city architect. Ald. McBride's campaign is not for the advantage of the city nor the credit of Mr. Price, whose promotion to an office for which his qualifications are scarcely adequate, will not really benefit him. The intention is the promotion of Ald. McBride's influence in ward politics, and the aldermen who are considering the interest of Toronto will act accordingly.

THE MONTREAL STREET RAILWAYS
An Effort to Be Made to Get an Extension of the Franchise—Another Stage in the Newspaper War.

For some time The Herald has let no opportunity pass of warning the citizens of the attempt which will be made by the Montreal Tramways Company to get an extension of its franchise at the coming session of the legislature. We have asserted, time and again, that the company would make a great show of granting "concessions" to the citizens and, under cover of the appearance to be liberally bestowed by its dupes and agents in the city hall and among the local newspapers, would rush thru the legislature a measure granting it the one big thing upon which its existence depends.

Every day is bringing us further evidence that our view of what is about to be done is correct. On Thursday we drew attention to a despatch from Quebec announcing a very short session of the legislature, to be opened on Nov. 11, and to be concluded before Christmas, pointing out that such conditions of haste and hurry were ideal ones for the company's purpose. The same day brought still further and more conclusive evidence that the stage is being quietly set for the little game of grab to be pulled off at the last moment.

Under today's headlines there appeared that day in an afternoon paper which makes a point of conducting carefully arranged "attacks" on the Tramways Company, always begun after the battle is over, a flaring account of all the good things the company was prepared to do for the city, chief among which was to be the creation of a whole new subway system, of which the company was "prepared to undertake the whole financial burden," and least of which was to be the cleaning away of snow and the mending of pavements. Sandwiched in between was the very thing which The Herald has pointed out as certain to be "conceded" sooner or later, the doing away with the present double-fare abuse for people living in the suburbs. Last, but not least, and carefully tucked away at the bottom of all these glittering promises, which took the form of a pseudo interview with an anonymous alderman, was to be found this highly significant passage: "I would not personally be surprised if this (the demand for an extension of franchise) will be the course the company pursues. I suppose it is not to be expected that the company will undertake all of the expected improvements unless it gets an extension."

Of course it is not. In order to get a franchise extension which it vitally needs, the Montreal Tramways Company will promise anything. The little "feeler" published in its friendly newspaper is merely sent up as a trial balloon to see how the wind blows. If the "concessions" snow cleaning, et al., promised by the company are not received with boundless applause by the people, the company will promise still more. There is, in fact, no limit to the length it is prepared to go in the way of promises. The "intervew" with the alderman is a mere sham, and the only thing that will be paid for a subway system to rival that of New York, but to operate it free of charge in perpetuity—in return, of course, for an extended franchise.

The whole solemn farce is so utterly and stupidly apparent that we wonder the company and its friends do not try something new. The people of Montreal who have suffered under the company, will remember that we went all thru this business of "concessions" just before the last grab was made. They know perfectly well just how brazenly the company broke its word on the last occasion. They are not likely to be hoodwinked in the same stupid way a second time.

LIMIT INQUIRY TO FIVE YEARS BACK
Dr. Edwards, M.P., Says This Will Eliminate Many of Charges.

KINGSTON, Oct. 12.—(Special.)—As a result of the decision of the government to restrict the prison reform inquiry to five years back, Dr. J. W. Edwards, M.P. for Frontenac, says the inquiry will prevent the hearing of two-thirds of the charges he has preferred against Deputy Warden O'Leary and Dr. Daniel Phalen. Dr. Edwards scored the government severely for making the restriction, and states that the investigation held seventeen years ago under the old government was no record of the officials twenty years back. Dr. Edwards avers that when the commission resumed its sessions on Tuesday he will have something to say.

Dr. Edwards has made formal charges against H. H. Wilson, hospital provost of the penitentiary, charging him with gross and wilful neglect of duty. Still another official is charged, but the name has not been given.

Evidence to be given by W. S. Hughes, inspector of prisons, will have to do when he was chief keeper at the prison for ten years. J. L. Whiting, C. C. Kingston, has been retained as counsel for Deputy Warden O'Leary and Dr. Phalen.

SIR ALFRED MOND ALL FOOD PRICES SPEAKS TOMORROW DO NOT ADVANCE

Will Explain Lloyd George's Sugar, Flour, Rolled Oats, Canned Raspberries Cheaper Than in 1890.

IS A RADICAL MEMBER FARM PRODUCTS GO UP

Head of Mond Nickel Works With Mines Near Sudbury.

But Not All Staples, Say Statistics Obtained by Grocery Journal.

The public has heard so much the last few years of everything in eatables being higher and higher, that one wonders whether anything, that goes on the table is an exception. The butter and egg prices of the good old days are recalled, 10 and 12 cents a dozen for eggs; 15 cents for the best butter you can get, as against 25 and 40 cents now. Porterhouse steaks at 30 cents are the latest contributions to the high cost of living.

There are some lines, however, that have not been tugged up with the rest, and The Canadian Grocer, in its fall number, has a very interesting comparison of the prices ruling on Oct. 1 for the last quarter of a century.

Sir Alfred Mond is a Radical member of the imperial parliament, a British privy councillor, and chairman of the board of directors of The Westminster, the most influential Liberal newspapers in England. He is also head of the Mond Nickel Company, which has extensive mines and works near Sudbury, Ont.

Of canned goods salmon is 20 cents a dozen tins above 1900, and 80 cents higher than in 1890. Canned asparagus are 40 cents lower a dozen than in 1890, and 60 cents below prices in 1890. Potatoes tend to be higher than in 1890, 10 and 12 cents a bag respectively, but are lower now than for many years.

It is in goods produced by the farmer that prices show the greatest advance. In 1895 the 28-cent butter of that time sold for 31, and in 1900 for 22 cents. Eggs now selling wholesale for 30 cents went for 21 in 1895, and cheese that is 14 cents on the board today realized 10 cents in 1895, and only 8 cents in 1890.

Meat Prices Soar.
Fresh and cured meats have risen enormously. Live hogs that were \$3.75 per cwt. on Oct. could be bought dressed in 1895 for \$5.75; a matter of about 8 cents or a little more on the hoof. Bacon at 20 cents now was 14 cents in 1890 and 20-cent hams of 1913 were 11 cents the earlier year. Lard is 5 cents higher.

Such imported goods as raisins, currants, lemons, oranges, have advanced, although the fluctuations have been extreme.

DEAF, AGED, KILLED BY RAILWAY TRAIN
Eli Stout, an Octogenarian, Struck While Walking on the Tracks.

GUELPH, Ont., Oct. 11.—(Special.)—Eli Stout, an old man of 50 years, was instantly killed while walking on the G.T.R. track near Rockwood this morning, when he was struck by the passenger train which leaves Guelph at 5.40. Mr. Stout, who resided at Rockwood, where he at one time conducted a hardware business, was found of walking, and at the time the train struck him he was crossing the bridge near Rockwood, and as he was very deaf, apparently did not hear the train coming. The deceased was well known in the district. He leaves five daughters, Miss Eliza and Mrs. Cox.

WALTHAM FARMER STARTS DEER FARM
MONTICELLO, Ind., Oct. 11.—Wiley F. Baker, a wealthy farmer near Idaville, is starting a deer farm. He has inclosed twenty acres of woodland with a ten-foot wire fence and will otherwise fit it to care for deer. Baker and one of his sons started a skunk farm near Idaville several years ago, but the neighbors objected and closed the farm by letting all the stock escape. They think, however, there will be no objection to the deer farm.

KING AND QUEEN ALMOST MOBBED

LONDON, Oct. 11.—(Can. Press.)—King George and Queen Mary, who attended a command performance at a London music hall tonight, had a narrow escape from being mobbed by suffragettes. The women, who had gathered in considerable numbers, made a lively dash for the royal carriage on its arrival at the theatre, shouting "Women are being tortured in prison."

They had almost reached the carriage when the police closed around, and, with defiant shouts of "Votes for women," were hurled back. The suffragettes had been treated roughly by the crowd, but managed to escape arrest.

GRAND TRUNK HOTELS.
The "Port Garry" Winnipeg's new mammoth hotel built by the Grand Trunk Railway, is rapidly nearing completion, and it is expected that it will be opened on or about Dec. 1 next. The power plant of the hotel has been started and the work of furnishing is being carried on night and day.

The hotel is built on the green-house on the roof, 14 storeys above the ground, which is now growing artificial flowers, which will grace the dining room. The plant is irrigated by the hotel, as well as supply the dining rooms regularly with fresh cut flowers.

The high standard that surrounds the "Chateau Laurier," at Ottawa, the first of the Grand Trunk chain of hotels, will be followed throughout in the complete chain now being built across the continent.

MONDAY MORNING OCT. 13.

STILL ON THE DOWN GRADE.
What a wretchedly bad case The Telegram has against Mayor Hooken is evident from the necessity it has to use misrepresentation and even direct falsehood in order to make any case at all. People who read no other paper than The Telegram may be misled for a while, but it cannot continue for ever. Exactly similar tactics were used against the hydro-electric proposals some years ago. Calculations were manipulated in the most brazen way, and "experts" and "engineers" were brought forward anonymously to propound the most absurdly untrue statements. It was solemnly assured that power would cost at least 75 per cent more under hydro methods and that Hon. Adam Beck had some sinister design in promoting the hydro proposals.

The Telegram has adopted all the methods it then reprobated and is using them in the most unscrupulous fashion. No one, except Controller Church, is ever directly quoted. Prominent citizens, city hall officials, aldermen, experts, and the like, all strictly anonymous, are made the dummies by which the wrath of The Telegram is poured out upon Mayor Hooken. One "W. D. Midmer" has a letter on Saturday contending that the purchase of the street railway would be a death blow to public ownership, this statement being made apparently without the slightest knowledge of the terms of the proposed purchase. But the letter meanders along, and cites the example of London, to warn Toronto from using trolley cars which are rapidly passing out of use. The Telegram, by the way, on the previous day supported the building of \$500,000 worth of new lines. It is said that motor buses will drive trolleys off the streets and that trolleys in London barely pay expenses. The Telegram neglects to inform its readers that there are no trolleys in central London, but only in outlying districts; that motor buses and underground railways naturally get all the central traffic, and that there is no parallel in the conditions at all. If the street cars were taken off the district included in the Belt Line and south to the bay, motor buses might have a chance in Toronto, but The Telegram knows that the trolleys are not coming out of Toronto's central district. Nor are motor buses any good for fast transit or in a Canadian winter. Mr. Midmer says if the city "allowed some of those who are anxious to operate them here to do so temporarily, with a view to public ownership of a system, there would be no need to negotiate for a short term franchise." There certainly would not, but Mr. Midmer does not seem to know that anybody who wants to start a motor bus system tomorrow can do so, and the city will not prevent him. If it would pay, such buses would have been running long ago. As a fact they are running in the only way they have proved profitable, for summer tourist traffic, and it has not required a large number to take care of the business.

This is a sample of the uninformed argument that is being used against the public ownership of the street cars. But The Telegram has other resources of misrepresentation. In its news column announcement of the fact that Mayor Hooken will today lay before the city council such information as is available about the proposed purchase, it tries to give the impression that Mayor Hooken is acting in bad faith. A journal that distorts its news for its own ends has sunk very low.

HUDSON BAY ROUTE.
This season's experience has been distinctly favorable to the new Hudson Bay route. Quite a number of steamers found their way to Port Nelson, the selected western terminus of the new railway, without encountering serious difficulty or suffering mishap. As the straits and bay are uncharted and unlighted this of itself was no inconsiderable achievement and strengthens the belief that the Hudson Bay route will prove invaluable as an outlet for western wheat. There appears to be general agreement too that the government has chosen wisely in deciding upon Port Nelson as the seaport. Churchill, the only competing point, is a little nearer Europe, but would have been more costly in construction besides requiring a longer railway line.

Good progress has been made with the Le Pas end of the road, and part of the cargo carried by one of the steamers consisted of a complete wireless apparatus to be erected at Port Nelson. Communication will in this way be effected with Ottawa by

means of a station at Le Pas. When this national enterprise is completed it will save the western grain growers 900 miles of land transportation and several transshipments. In the interval the Dominion authorities will have a thorough investigation made into the fishing resources of the bay, which are believed to be of a highly promising character.

ALL FOR LOVE OF TOMMY.
The Star admits that a strong case can be made for the view that Controller Church is boss of The Telegram, but it still adheres to the theory that The Telegram manipulates Controller Church. The Star asks if Controller Church would permit it to take the position it does, the effect of which is to leave him a solitary unit with scarcely Controller Foster to depend upon for support, so that he is "out of it" in all things of civic importance. Superficially this may seem conclusive, but is it fair to regard Controller Church in this superficial way? We believe Controller Church must be searched deeply, very deeply indeed, to discover his true aims. He is not concerned with the mere popularity of a cause or he would never have patronized The Telegram. The Telegram itself regards him as having no other thought than representing the voters who elected him, and The Telegram has as good as said that if he did not represent the voters it had no use for him. If The Telegram discovers that Tommy has misled it, or is deceiving it, it will no longer consent to be bossed by Controller Church. But he has told The Telegram that he sways the electorate, and if it follows him, it will have the satisfaction of electing the next mayor. This was always the goal of The Telegram's ambitions, and Controller Church knew just the proper string to pull in the editorial mechanism.

Unless one understands how much The Telegram loves "Tommy," as it affectionately calls him in private, the resenting with jealous wrath any such familiarity on the part of outsiders, like Mayor Hooken, the sacrifices The Telegram is prepared to make for Controller Church are unintelligible. In all the ardor of its young affection for "Tommy" The Telegram has made many sacrifices, and allowed itself to be bossed most dreadfully. But when the dream of love is over, and The Telegram awakens to find what a gay deceiver "Tommy" really is, there will be a lively settling of accounts.

The Star must not be misled by superficial ideas such as that hatred of Mayor Hooken has led The Telegram to abandon its common sense. The true motive is love for "Tommy."

THE CITY ARCHITECT.
Alderman McBride has arranged a little campaign in opposition to the board of control's recommendation of Prof. Wright for the position of city architect. Ald. McBride's campaign is not for the advantage of the city nor the credit of Mr. Price, whose promotion to an office for which his qualifications are scarcely adequate, will not really benefit him. The intention is the promotion of Ald. McBride's influence in ward politics, and the aldermen who are considering the interest of Toronto will act accordingly.

SIR ALFRED MOND ALL FOOD PRICES SPEAKS TOMORROW DO NOT ADVANCE

Will Explain Lloyd George's Sugar, Flour, Rolled Oats, Canned Raspberries Cheaper Than in 1890.

IS A RADICAL MEMBER FARM PRODUCTS GO UP

Head of Mond Nickel Works With Mines Near Sudbury.

But Not All Staples, Say Statistics Obtained by Grocery Journal.

The public has heard so much the last few years of everything in eatables being higher and higher, that one wonders whether anything, that goes on the table is an exception. The butter and egg prices of the good old days are recalled, 10 and 12 cents a dozen for eggs; 15 cents for the best butter you can get, as against 25 and 40 cents now. Porterhouse steaks at 30 cents are the latest contributions to the high cost of living.

There are some lines, however, that have not been tugged up with the rest, and The Canadian Grocer, in its fall number, has a very interesting comparison of the prices ruling on Oct. 1 for the last quarter of a century.

Sir Alfred Mond is a Radical member of the imperial parliament, a British privy councillor, and chairman of the board of directors of The Westminster, the most influential Liberal newspapers in England. He is also head of the Mond Nickel Company, which has extensive mines and works near Sudbury, Ont.

Of canned goods salmon is 20 cents a dozen tins above 1900, and 80 cents higher than in 1890. Canned asparagus are 40 cents lower a dozen than in 1890, and 60 cents below prices in 1890. Potatoes tend to be higher than in 1890, 10 and 12 cents a bag respectively, but are lower now than for many years.

It is in goods produced by the farmer that prices show the greatest advance. In 1895 the 28-cent butter of that time sold for 31, and in 1900 for 22 cents. Eggs now selling wholesale for 30 cents went for 21 in 1895, and cheese that is 14 cents on the board today realized 10 cents in 1895, and only 8 cents in 1890.

Meat Prices Soar.
Fresh and cured meats have risen enormously. Live hogs that were \$3.75 per cwt. on Oct. could be bought dressed in 1895 for \$5.75; a matter of about 8 cents or a little more on the hoof. Bacon at 20 cents now was 14 cents in 1890 and 20-cent hams of 1913 were 11 cents the earlier year. Lard is 5 cents higher.

Such imported goods as raisins, currants, lemons, oranges, have advanced, although the fluctuations have been extreme.

DEAF, AGED, KILLED BY RAILWAY TRAIN
Eli Stout, an Octogenarian, Struck While Walking on the Tracks.

GUELPH, Ont., Oct. 11.—(Special.)—Eli Stout, an old man of 50 years, was instantly killed while walking on the G.T.R. track near Rockwood this morning, when he was struck by the passenger train which leaves Guelph at 5.40. Mr. Stout, who resided at Rockwood, where he at one time conducted a hardware business, was found of walking, and at the time the train struck him he was crossing the bridge near Rockwood, and as he was very deaf, apparently did not hear the train coming. The deceased was well known in the district. He leaves five daughters, Miss Eliza and Mrs. Cox.

WALTHAM FARMER STARTS DEER FARM
MONTICELLO, Ind., Oct. 11.—Wiley F. Baker, a wealthy farmer near Idaville, is starting a deer farm. He has inclosed twenty acres of woodland with a ten-foot wire fence and will otherwise fit it to care for deer. Baker and one of his sons started a skunk farm near Idaville several years ago, but the neighbors objected and closed the farm by letting all the stock escape. They think, however, there will be no objection to the deer farm.

ROBBER OF WATCH IN STATION ROOM
Havelock Man Was Held Up While Awaiting His Train.

While waiting in the C.P.R. Station at Parkdale for a late train to convey him to his home at Havelock, Ont., Joseph O'Brien was suddenly set upon by two unknown men, knocked down, and relieved of a valuable watch. The robbery occurred about 9.30 Saturday night.

According to O'Brien, who was able to give a fairly good description of his assailants, they were roughly dressed, and apparently laborers. By the time O'Brien had summoned a constable both men had made their escape down the tracks. Detectives are working on the case.

TWO HORSES BURNED.
Two horses were burned to death in a fire which broke out at 4.30 yesterday afternoon in the frame stables at 254 East Queen street. The stables are jointly owned by R. C. Gavin and Joseph Garitano; each lost a horse in the conflagration. The damage to the building is \$50, and to contents, including horses, \$450. What part of this is covered by insurance is not known. The cause of the fire remains a mystery.

THE PHILOSOPHER OF FOLLY
THE COLONEL'S HUNTING.
Oh, Theodore, oh, Theodore, and must you go away once more to roam thru tropic swamps and glens where strange creatures weird and strange dwell. The dark Brazilian forests stirred with fear at this latest word, that you and your unerring nose as climb the depths we run. The anacondas slip around filled with a sense of dread profound; the pelicans are ill at ease; they chatter shrilly in the trees; the box constructor's frightened scream is heard up every tropical stream. In jungles African you slew the hippopotamus and gnu, and other creatures weird and strange you slaughtered cords of crocodiles, you carted home a hundred sacks of lamas, jungle aaks and yaks, and other creatures weird and strange who come within your deadly range. No wonder that the beasts in droves flee madly thru the tangled groves, and climb the trees and hide in caves to save themselves from early range—they've heard the news, O Theodore, that you are on the trail once more.

ANGLICAN S.S. CONFERENCES.
To Be Held This Week at City Parish Houses.
Commencing today and continuing daily until Friday evening, a series of Sunday school conferences are to be held at various parish houses in Toronto diocese, under the auspices of the Sunday School Commission of the Church of England in Canada. The meetings will be called to order each evening at eight o'clock. The meeting places are as follows:
Tonight—St. Stephen's School House.
Tuesday—St. Simon's Parish House.
Wednesday—St. Monica's School House.
Thursday—Holy Trinity Parish House.
Friday—St. Anne's Parish House.
Swankling & Co. have been instructed by the fire insurance companies interested to sell the complete stock of the Holladay Co. by auction in detail on Wednesday and Thursday next. The Holladay Co. are well known manufacturers of ladies' waists, belts, neckwear, etc. All the manufactured stock will be sold, as well as the unmanufactured goods. The company being the occupants of the three upper floors of the building at 46 Wellington street, the lower part of which was gutted on the 27th September, had only a small smoke damage, no water having reached their floors. The show tables, display racks and office furniture will also be sold, and as in all salvage sales, everything must be sold.

CHATEAUGUAY LOST TO LIBERALS

(Continued From Page 1.) Against a majority of six for the late Liberal member in 1911: St. Jean Chrystiote, which includes the village of Aubrey, the Conservative candidate's home town, recorded 53 majority for Morris. The electoral district went against him at the last election. In Howard, Morris was defeated by 21 two years ago, and on Saturday he polled two more, one than Mr. Fisher. On September 21, 1911, the three polls in the parish of Chateauguay were 53 for Morris, 71, while these same polls were carried on Saturday by Mr. Morris by 19, his majority in Chateauguay being 18, and at Woodlands 46, Mr. Fisher having a majority of 45 in Chateauguay village. Two years ago Mr. Morris' majority in St. Martin, a mixed English and French speaking centre, was 49, and this year the new voters' list, with the one man, one vote principle applying, was much smaller than two years ago, which accounted for the loss of ten votes.

Borden Policy Approved. The successful candidate motored through three of the principal villages of the riding after the election. An interview here stated he believed the result an approbation of Premier Borden's entire naval policy and record.

The race cry which was touched upon by speakers for my opponent, he said, had no effect whatever on my French speaking friends. For two weeks, he said, he had seen evidence of crookedly justified entering protest. I consider the men accompanying Sir Wilfrid Laurier, who hurriedly insinuated right and left as well rebuked by the electors. Mr. Fisher said he considered the election one of the most corrupt in his experience. For two weeks, he said, he had seen evidence of crookedly justified entering protest. Table with 2 columns: Candidate Name and Votes. Includes St. Jean Chrystiote, Chateauguay, St. Ubaldo, St. Charles, St. Sacrament, St. Martin, St. Antoine L'Abbe, St. Philomena, Aggregate Majority, and Majority for Morris.

The detailed vote by polls is not available, except in two or three instances. In three polls of Chateauguay parish, which the Conservatives expected Mr. Fisher to carry by good majorities, Mr. Morris had a majority of 19, carrying Chateauguay village and Woodlands respectively by 18 and 46, while Chateauguay village gave Mr. Fisher a majority of 45. In St. Martin at poll 19 Mr. Morris had a majority of 26 and at poll 30 a majority of 41.

ACCUSATION OF RITUAL MURDER

STIRRING RUSSIA TO DEPTHS

Government is Apprehensive Because of Outcry in Europe and America Over What is Regarded as Unfair Treatment of Accused Jew—Conservative Leaders in Arms.

Special Cable to The World. Copyrighted by The Toronto World and N.Y. World. ST. PETERSBURG, Oct. 12.—A meeting of influential Conservative leaders was held Saturday, at which the "ritual murder" trial at Kiev was discussed. At the close of the conference the Toronto World correspondent was informed by the leaders of those people that they are prepared to institute enquiries as to the Russian Government's aims and purpose in maintaining the ritual character of the murder.

Archbishop Sergius, orthodox primate of the Russian church, has expressed his indignation at the trial of Yushinsky, a man charged with the murder of a Jew. He has declared that the trial is a malignant legend, that the dowry charges of Russia, which is staying there, have influence in favor of the trial.

An exhausted party of about 100 men taken aboard the "Volturno" by the crew of the "Trinitopol" in the night, the ship hospital threatened to be swamped. He told his story to Mr. Spurgeon before the court. He said that he and his crew had been exhausted and had been taken aboard the "Volturno" by the crew of the "Trinitopol" in the night.

Inspector Porgosky, a young official, could not remember whether he found a pistol of a plow case, which the prosecution alleged was discovered in the pocket of Yushinsky's jacket or whether he found Yushinsky's belt in the case nor could he describe the clothing on the body. He admitted that he had been four years in the police service and had never heard of ritual murders being practiced by Jews.

Ordinsky, a newspaper writer, gave an account of a meeting in a restaurant between several newspaper men, a former detective named Vigneron and Vera Teberliak, the alleged leader of a band of thieves, who were reported to have murdered Yushinsky for the purpose of procuring a mortgage in Kiev. He heard Vera say that Yushinsky was killed by relatives. "No one present," he said, "endeavored to persuade Vera to confess that he was guilty."

At the request of the prosecution the court ordered the production of two rare books on ritual murders from the library at Vilna, one published in 1648 and the other in 1702.

KIEV, Oct. 11.—(Can. Press.)—The first sensation in the trial of Mendel Yushinsky, charged with the murder of the boy Yushinsky, occurred towards the end of the sitting tonight, when a woman witness directly charged the defendant with having attempted to induce a boy witness to perjure himself and give false testimony against Bellis.

The witness swore that on the first day of the trial, while in the witness room, she heard Vera Teberliak, magistrate, say to a witness named Eugene Teberliak and Yushinsky, "We will give you a hundred rubles if you will play in a brick field Bellis chased them, seized Yushinsky and dragged him away from the witness stand."

At the hospital it was stated that the witness in a very serious condition as a result of coming into contact with the wire on Montreal street at Kingston Junction. They are H. E. W. Nicholson, G. R. St. Martin, his wife and daughter, and Thomas Phillips, a baker employed by R. H. Toys, who died shortly after 9 o'clock, while the others were on their way home from church.

"KING OF TRAMPS" IS ARDENT SUFFRAGIST

COREY, Pa., Oct. 11.—"A No. 1" commonly called the "king of tramps," and who has traveled all over the United States and more than a half million miles as a self invited guest of American railroads, is now an ardent pro-suffragist.

Mr. A. Mush, who lives in Erie, Pa., was out driving her motor car with three other women, and bowled the famous tramp over as he was crossing the street. He was not seriously injured, but he has traveled in and under and atop every sort of railway conveyance.

A badly bruised tramp picked him up and announced that his hat was off to the women for they had done what a regiment of railroad men could not do.

Cadets Victory Over Varsity The Big Surprise in Rugby

WEEKEND M.A.A.A. SQUAD Unable to Stop Ross Binkley's Plungers and Double Blue Ran Up the Score.

By their performance at Rosedale on Saturday, Argonauts convinced the public that they have a splendid chance for the Interprovincial championship. They were never any doubt as to the outcome of the game with Montreal. Argonauts were favorites before the game, and were at ways in the lead. They were superior from all angles, a strong line, a fast and more effective back division, and wings that were speedier and classier than the opposition. Despite the downpour and the uncertain footing it was a game worth watching. The crowd of fans were undoubtedly satisfied. The final score was 22 to 0 in favor of the Argonauts.

There was no one particular department in the Argonauts which was the key to the game. The team was well balanced and worked together beautifully, like a well-oiled machine. The back division was especially effective. This was the end of the square for the Montreal boys. They were not every point by rattling good playing.

Local Gridiron Battles In the Rain on Sloppy Fields

DOPING OUT RUGBY LOOKS LIKE MCGILL'S CHAMPIONSHIP

Three Corner Fight in Big Four With Chances Good for Argonauts—A Review of Saturday's Gridiron Battles.

It seems like taking a long chance in doping out the Rugby championships at such an early date. Saturday's games had caused considerable guessing, so there is apparently no harm in joining the contest. In the Intercollegiate series it looks very much like McGill again. McGill gave the Presbyterian a terrible drubbing. It was probably the most lopsided score that has been recorded in Canadian football history among the senior teams. Of course, this was expected. But it was not expected, however, that Varsity would fall before the cadets in Kingston.

Of course, Montreal is completely out of the running as far as the Interprovincial championship is concerned. In fact, it is out of the running as far as the championship is concerned. In fact, it is out of the running as far as the championship is concerned.

Stratford Lost Final to Hamilton

WILMINGTON DEL. Oct. 11.—Great Britain gained a narrow victory over the United States in a women's national golf tournament which began Monday on the links of the Wilmington Country Club.

The British-Canadian team took four matches to three for the Americans. The result of the contest practically hinged upon the performance of the women's national champion, Mrs. Lillian Hyde of New York.

THE HOLIDAY MARATHON

The R.C.B.C. ten-mile marathon takes place on Thanksgiving Day, Monday, Oct. 20. Scarborough Athletic Grounds being the starting and finishing point. Entries close Oct. 15. In past seasons this event has always proved to be one of the most successful of its kind, and beyond doubt the 1913 grid will be the keepest and most interesting witnessed. The prize number between 30 and 40 are the finest ever competed for and will on exhibit here on week commencing Oct. 13, in the windows of Washington & Johnston, southwest corner of Broadview and Queen.

MAYNARD TO PLAY SOON

Jack Maynard, captain of the Varsity Rugby team, had his collar-bone severely wrenched in the game at Kingston, Monday, and will be two weeks at least before he will play again. At first it was feared that the bone was broken, but further investigations have not brought to light any fracture, possibly outside of a hematoma, or a bad sprain, he will escape without serious injury. The wounding during the game will be a severe setback to the blue and white, as Maynard is the mainstay of the team. Saturday, while on the following Saturday, Queens will tackle Varsity at the stadium.

LAWSON WILL PLAY

Smirle Lawson announced in Ottawa that he would start hard work on Monday with the Argos and will be in against the Argos next Saturday against the Ottawa combination.

Bilberry and Hickory Stick Win Point-to-Point Features

POINT-TO-POINT RACES IN RAIN

Good Crowd See Cross Country Meet of Hunt Club at Steele's Corners.

Despite the inclement weather, a fair-sized crowd assembled at Green Bush, on Yonge street, to view the annual point-to-point races of the Toronto Hunt Club Saturday afternoon.

The course was beautifully laid out in the shape of a double "u" and, despite the fact that rain had been falling practically all day, the ground was in very good condition.

A program of five events had been arranged, including the races for the Minto Cup, the John Hendrie Challenge Cup, the Alfred Rogers Challenge Cup, as well as the competition for farmers' horses and the hunters' flat race.

FIRST RACE—Minto Cup, novice half-horse handicap, 1 1/4 miles: 1. Laddie, 165 (Clifford Stilton Jr.), 2. Gold Crest, 16 (Frank Proctor), 3. Lord Grey, 165 (Aemilius Jarvis Jr.).

SECOND RACE—John Hendrie Challenge Cup, handicap steeplechase, 2 miles: 1. Bilberry, 165 (Frank Proctor), 2. Leomond, the only other horse entered, did not finish.

THIRD RACE—Hunters' flat, distance 3/4 mile: 1. Hickory Stick, 154 (Frank Proctor), 2. Irish Duke, 155 (Thomas Case), 3. Saintly, 140 (George Elliott), 4. Earl Fisher, 156 (Ralph Scheibe), 5. Pearl, 140 (George Elliott).

FOURTH RACE—Competition for farmers' horses, for geldings and mares 3 years old and upwards, likely to make good hunters or saddle horses: 1. Mr. Jerry, 2. Mr. Dougherty, 3. Mr. Lawrence.

FIFTH RACE—The Alfred Rogers Challenge Cup, a handicap for half-breds and novice thoroughbreds, distance 2 1/2 miles: 1. Lady Nora, 156 (Frank Proctor), 2. Hampton Prince, 15 (H. Hodson), 3. Twilight, 165 (H. E. Hodson).

The World's Selections BY CHESTNUT, LAUREL.

FIRST RACE—Ortyx, El Mahdi, Bulgard, My Fellow, Little Jupiter, Mary Ann K. My Fellow. SECOND RACE—Barbara Lane, Bonnie Biddle, J. H. Houghton. THIRD RACE—Water Welles, Phyllis Antoinette, Sherwood. FOURTH RACE—Silent Pilot, Noble Grand, Abdon. FIFTH RACE—Altamaha, Royal Messager, Afterglow.

Unusual Activity West End Athletics

This season at the West End Y. building is one of advance in all departments. The physical department is running at full power. The classes are larger than ever, the average for the past week being over 100 swimmers. The boys' classes are also larger than the same month last year.

Basketball—The Senior House League game being called at 8.15, the second at 10.15. There are eight teams in this league, so both gyms will be used every practice on Wednesday night at 7 p.m. It looks that this season will be a great one for this form of sport.

Swimming—Geo. H. Corson, who is now teaching at the building every Friday night, will be a great help to all members of the association. The Wednesday night swimming meets are the means of interesting the swimmers.

Wrestling—This season E. Lapponen, who made such a great showing against the Buffalo representative in the championships last fall, will instruct the members who are interested every Friday night. There is no doubt that this season will have a good class.

Athletics—The senior weekly handicap Running High Jump and 100 yard dash on track. Special ribbons will be given for each event. These handicaps will start after the regular class.

C. B. Baldwin, mechanical engineer, formerly with the Interstate Automobile Company, Anderson, Indiana, has joined the engineering forces of the American Cyclecar Company, as engineer.

Stricken With Paralytic Stroke. Stricken with a paralytic stroke while walking on Dundas street on Saturday afternoon James Harrison, aged about 35, of 197 Yarmouth road, fell to the sidewalk and was later rushed to the Weston Hospital, where he lies in a critical condition.

PETER VOLO BEST OF BABY TROTTERS

Latest Marvel Another Proof of What Scientific Breeding Will Accomplish.

Peter Volo is the greatest young trotting horse the world ever knew. In 1911 he trotted to the world record of 2:09.4 to high wheels on the strong ground there have been developed such champions as Nancy Hanks 2:04, and Ulian 1:58, but all students of the racing game never have conceded that any was as phenomenal a trotter as was Volo.

In the juvenile division of the Kentucky Futurity at Lexington last Monday Peter Volo reduced the world's record to 2:04.4. When the season opened last July the record for a colt of this age was 2:09.5, and even now the record for a three-year-old is 2:04.4.

Broodmares expect that the day will come when a two-year-old would top a four-year-old, especially since the four-year-olds have made such wonderful progress during the last decade.

CORSAN AT WEST END Y.M.C.A. Geo. H. Corson, who is without doubt one of the best if not the best swimming instructor in North America, gave his first instruction to the West End senior members on Friday night. The first half hour the non-swimmers were under his charge, their lesson being to learn to breathe, to learn the crawl, and to learn to improve their stroke.

HAMILTON BEAT ST. KITTS. ST. CATHARINES, Oct. 12.—By two kicks to the dead-line early in the game, the Hamilton Y.M.C.A. Junior G.F.C. 1st Regiment outwitted the St. Kitts. The score was 7 to 5. In the second half the play was even. The line-up: St. Catharines (S)—Full back, Ireland; right half, Lovelace; centre half, Hendrick; left half, Finn; quarter back, McLeod; scrummen, Solway, Gayler and Gible; scrummen, Solway, Gayler and Gible; scrummen, Solway, Gayler and Gible; scrummen, Solway, Gayler and Gible.

Athletics Beat Giants With 12 Men Against 20

World's Champions Lead In Team Batting .264 to .201

Each Mackman's Bit \$3,300 To Each of the Giants \$2,250

ATHLETICS VICTORIOUS BY FAST FIELDING AND VICIOUS HITTING

Mathewson Lacked the Wonderful Offensive and Defensive Support Accorded to Plank and the Mackmen Took an Early Lead That the Giants Failed to Recover.

By Canadian Press.

NEW YORK, Oct. 11.—The Philadelphia Athletics won the baseball championship of the American League today by defeating the New York Giants 4 to 1 in the fifth and deciding game of the series...

Mathewson did not respond as promptly to the demands upon him as Plank and, lacking that wonderful offensive and defensive support which the Athletics accorded to their twirler, failed to do enough in the opening innings of the game to give the Athletics a lead...

Eddie Murphy, the first batter to stand at the plate, drove Mathewson's twirler into a corner by a single. Oldring attempted to sacrifice but forced Murphy...

Not satisfied with this, the Athletics gathered in two more runs in the fifth. Murphy again opened the inning with a single thru short. Oldring followed with a smash at Doyle...

Some 35,000 fans were now rooting in the case after such a mix-up. McLean was a bit full of himself as he came to bat. He tried to deliver the smash to left-center...

If the Athletics intended that they did not permit the ball to be hit off the bat, they were disappointed. McLain hit a line drive to left-center...

When the Athletics and Giants faced each other in the initial game of the world's championship battle of 1913, the Athletics collected six runs, Mathewson and Beaman for New York...

Difficulty in hitting Mathewson with any consistency. Aside from Sedano, three of the four men in the upper section of the Athletics' batting order were the only ones successfully to solve the delivery of "Big Six"...

FALLING OFF IN COBALT OUTPUT

Shipments for Week Exceptionally Low in Tonnage and Value.

COBALT, Oct. 12.—(Special.)—Shipments from the Cobalt camp were exceptionally low during the past week.

The La Rose sent out four cars of low-grade during the week, the heaviest low-grade shipment in a week from the property since the contract with local consumers concentrator was signed, several years ago.

The ore shipments tabulated as to high and low grade were as follows:

BEAVER SECURED BY TRETHERY

Silver Mountain Property to Be Worked on Property's Option

COBALT, Oct. 12.—(Special.)—The West Beaver property in the Port Arthur district which has been known for many years as the Silver Mountain property, has been secured by the Tretthey company.

WALL STREET CLOSE

NEW YORK, Oct. 11.—The market closed weak. Evidence that industrial support was being withheld, pending the clearing up of various uncertainties of the market, was the chief factor.

BIG RECEIPTS AT FARMERS' MARKET

Citizens' Empty Autos Crowd Farmers Out Into the Rain Saturday.

Receipts of farm produce at St. Lawrence Market were liberal, 15 loads of 600 bushels of grain and more wagon and buggy by about 30 than could be packed inside the north market building.

Now that the farmers have returned to patronize the Saturday St. Lawrence Market a steady flow of produce is to be expected from the city of Toronto to give some sort of proper attention and accommodation to the city automobilists.

It was one of the largest and best patronized markets that has been held in the City of Toronto, in many years, but was not good support. The market closed nervous, 1/4 to 3/8 off.
