# Rockefeller for 12 Years Has Been Out of Standard

### Says He Himself and Declares He Thought Fact Was Well Known—Still He Dislikes Notoriety of Becoming a Witness.

New York, June 24.—The American publishes the following cablegram from Compiègne, France:

John D. Rockefeller was informed by the American representative of the purpose of the United States government to prosecute the Standard Oil officials as he came from the lawn of his chateau on his bicycle this morning. He dismounted and enquired the details. Calmly and without a word he remounted the wheel, leaving Dr. Biggar and the correspondent on the path. He seemed agitated, and after riding a hundred yards he dismounted again and rejoined the party.

Asked for a statement, he said: "I don't think I had better say anything." In response to repeated requests by the correspondent, he finally said: "I thought it was well known that I have had no connection with the Standard Oil Co. for 12 years and that I have not even been at its offices for seven years."

"I do not know anything about this proceeding, I have no information concerning any of the matters that it touches."

"Will it make any changes in your plans?" the correspondent asked.

"Absolutely none," he replied quickly. "I shall return to New York on the steamer America, which sails on July 30, as I originally planned. Meantime you must brush up on the subject for the trip back."

There is good reason to believe that the prosecution was not unexpected. For the past week Mr. Rockefeller has asked eagerly every morning for news from America, and especially concerning the passage of the rate bill. In particular he has inquired how the bill must escape service of a government subpoena if he returned to New York, but he said nothing and declined a further statement.

"You understand that in a government proceeding a subpoena can be served on you when the boat reaches Quatre?" the correspondent asked.

"Oh, yes," he replied.

"Why He Fears Witness Stand."

"Am I to infer from that," asked the correspondent, "that you are willing to testify?"

"The question I shall have to decide when I reach New York," he replied. "I have never had any other objection appearing in a court than that which is nature to other men. I do not like the notoriety of testifying, and I don't see why I should be called in matters concerning which others know much more."

Mr. Rockefeller is also having trouble with the authorities on this side. A city ordinance of Compiègne requires that each automobile be numbered on all bicycles. His wheels has neither, and for this there is a penalty of 30 francs. He was notified politely to-day to obey this ordinance by the chief of police.

The mayor of Compiègne is in receipt of hundreds of letters asking him to use his influence with Mr. Rockefeller to get money for the city. The mayor had to get an additional secretary to look after these letters, and Mr. Rockefeller smiled.

# POLICYHOLDERS' BATTLE TO REGAIN THEIR RIGHTS

### Z. A. Lash, K.C., is One of the International Committee—Program of Plans.

The World has received from Seymour Eaton, secretary of the international policyholders' committee, a statement of facts regarding its plans. Writing from 30 Broad-street, New York, he says:

"If the policyholders can be organized effort wrest from Wall-street and the discredited existing managements that are seeking to shield themselves by perpetuating their own control, the investment of their own savings they will deserve the commendation of all honest Americans and the work which was undertaken by Lawyer Hughes and the Armstrong committee will have borne permanent fruit."

The statement accompanying his letter, says:

"For the first time in their lives the policyholders of the New York Life and of the Mutual Life Insurance companies will be able to cast their votes which have not been chloroformed in advance. The Wall-street financiers must now look to the ballot-box for a continuance of their control and manipulation of nearly \$900,000,000 of insurance assets."

This is the brief statement made by the officers of the international policyholders' committee when they gave out for publication the names of the gentlemen who have consented to serve on what is probably the most distinguished committee ever organized.

The recently enacted New York laws fix definitely the conditions governing the elections of the directors of such companies. Each policyholder will have one vote, regardless of the amount of his policy or the number of policies held by him. The voting will be by ballot directly by mail. All proxies given before Oct. 18 are void, but no proxy is necessary. The polls open Oct. 18, and will remain open for three days. The ballot will be mailed to each policyholder, and may be marked and returned by mail.

Under the new laws the present insurance managements will nominate their candidates for directors on July 18. It is generally understood that in insurance circles that theirs will be "stand pat" policy; that the same men or their doubles will be renominated. The policyholders will have to cast their votes. Organizations of policyholders representing nearly every district in the United States and Canada, as well as the more important countries of Europe, have united in naming the international committee, a committee which will act with the policyholders in selecting men of recognized ability and of unquestioned integrity to serve as directors.

One Canadian is found among those who have consented to act with the policyholders in the selection of directors. He is Z. A. Lash, K.C. The other gentlemen are: Governor N. B. Broward of Florida, Governor N. C. Blanchard of Louisiana, Dr. Russell H. Conwell of the Baptist Church, President E. E. Clark of Ohio, Hon. Charles F. Johnson of Iowa, Cardinal Gibbons of the Roman Catholic Church, Judge George Grey of Delaware, Governor J. Frank Hansett of Ohio, Hon. John C. Hemphill of South Carolina, Harlow N. Higginbotham of Illinois, Governor J. A. Johnson of Minnesota, Hon. Nicholas Longworth of Ohio, Hon. Frederick B. Neiderhugh of Missouri, Samuel Newhouse of Utah, Fremont Older of California, Hon. Richard Olney of Massachusetts, Hon. Charles Emory Smith of Pennsylvania, General Benjamin F. Tracy of New York, Thos. E. Farnamaker of Pennsylvania, Herr Heinrich Wegener of Germany, nominated by German committee, and representative of English and French committees, who are in course of selection and will be announced later; Samuel Untermyer, general counsel, New York; Seymour Eaton, secretary; G. R. Sorugban, secretary, Ontario.

A meeting of the committee has been called to be held in the City of New York on July 10, at which time the committee shall perfect its organization and begin active work for the forthcoming elections for directors of both companies.

# Judge Wants to Widen Civic Enquiry

### Books Indicate More Irregularities

Market and Exhibition Building Contracts Said to Be Under Suspicion—Sensation in Promised at City Council Meeting This Afternoon—Authorities Take a Serious View.

There will be a sensation sprung at the city hall this afternoon, when the mayor will present to council a request from Judge Winchester, which The World has reason to believe, asks that the scope of the civic investigation be enlarged to include enquiry into some contracts for work on exhibition buildings and the Standard Building. The roofing has been mentioned. There are promises to be some startling allegations of irregularities, but the utmost secrecy is maintained as it is claimed that only four persons knew of the intention. They were His Honor Judge Winchester, his worship the mayor, Corporation Counsel Fullerton, and Crown Attorney Drayton, all of whom last night most emphatically refused to discuss the matter. His worship expressed warm regret that "The World had care of it. He did say that so far as he knew there would be no charge made against any member of the council. The feeling, as expressed by Mr. Fullerton, for keeping so quiet about it all is that the methods of book-keeping already exposed in connection with the civic investigation warrant it, and that parties suspected of wrongdoing should not be given an opportunity of making erasures and changes in the books, or stripping out such burking proper investigation."

In groping around for information of a definite character, The World approached officials connected with the market and exhibition buildings, but got no ground for suspicion from them. "The buildings are there, roof and all, to be inspected by anyone and everyone at any time," said Architect Geo. G. Goulton, referring to the exhibition buildings.

When asked if he knew of any irregularities in the contracts regarding the market and exhibition buildings, Mr. Goulton asked "What buildings?"

"Any buildings at all," he said. "I have heard nothing, and as to anything I should have heard something."

J. O. Thorn, manager of the Metallo Roofing Co., who did the contracting on the roof of the market building, was inquired as to the facts of the case relative to any suspected irregularities in the contract of the St. Lawrence Market roof. He has no knowledge whatever of any kick coming. He was sure that as far as he was concerned there was nothing doing.

One Canadian architect who was associated with architect Beaumont Jarvis, was ignorant of any mine that was going to be sprung at the city council in reference to the contract.

Mr. Jarvis, who has brought forward the matter, said: "If Mr. Jarvis knew of anything he would have let me know. There is nothing that I know should be investigated."

# MUTINIOUS MOSCOW TROOPS DISPERSED BY ARTILLERY

### For an Hour Heavy Firing Was Heard and the Worst is Feared.

London, June 24.—The correspondent at Moscow of The Standard says that the sound of intermittent firing of field guns and rifle volleys was heard for an hour to-night (Sunday) outside the town in the direction of Khodynka plain. He says it was impossible to secure details, but that it is believed an enormous meeting of discontented soldiers of the Moscow garrison was being dispersed by artillery.

# WHAT NEXT?

The request which Judge Winchester will make to the city council to-day, that the scope of the civic enquiry be widened to include an investigation into—as The World is given to believe—contracts having to do with the rebuilding of the St. Lawrence Market, and of buildings at the exhibition grounds, marks another phase of an enquiry that has had only one fault—its long continuance.

The cause of the enquiry has been almost lost sight of in the maze of other "irregularities," as they have been called, which have since been revealed. It was on Oct. 13 of last year that affidavits charging Aid. Lynch with receiving money corruptly for vote and influence respecting Puddy Bros' permit were laid before Mayor Urquhart and the investigation was opened by Judge Winchester a week later.

It soon developed that there were other things to be probed, and on Dec. 4, 1905, the scope of the enquiry was enlarged to "further investigate all charges of malfeasance, branches of trust, or misconduct committed in, before, or since the year 1893 on the part of any member of the council, and on the part of any officer or any contractor in connection with contracts for work on the city hall building then in course of construction, or for the furnishing of the said building, or in connection with a contract between the city and the Ontario Sewer Pipe Company, all of which, if proved, are matters affecting the good government of the city and the conduct of the public business thereof."

It would seem that the enquiries into the vast number of books and papers which Judge Winchester and Crown Attorney Drayton have had to delve into, and which have been partly responsible for the delays, have revealed irregularities in other contracts in which the city is interested.

They amount to The World cannot say, but it was whispered that some officials would likely be involved. The utmost secrecy maintained by the authorities last night would seem to indicate that something serious is expected to materialize.

# ONE MAN AT POINT OF DEATH RESULT OF FIGHT AT ISLAND REVOLVER AND RAZOR USED

### Wesley Spence Victim of an Attack Details of Which Are Obscure—Two Men Locked Up Charged With the Crime.

Wesley Spence, age 28, expressman, 29 Elm-street, is lying in St. Michael's Hospital, hovering between life and death.

Pietro Laber, age 21, laborer, 113 Centre-avenue, and Robert Kennedy, age 25, moulder, 288 Perth-avenue, are in jail on the charge of wounding Spence.

The affray occurred shortly before 10 o'clock Saturday night on the bridge across the lagoon leading to Turner's bath. The three men earlier in the evening had gone over to the sand bar, having with them a bottle of whiskey, which they had brought from the city. After drinking they commenced to wrangle.

Before the men were seen a revolver shot was heard by some of the cottagers.

Their loud talk and threats to each other attracted the attention of Mr. Chamberlain, who notified P. C. Johnson. Johnson called for the three men, who were met by Spence, who cried "Help! help! for Gove's sake, or I'll be dead in a few minutes."

Mr. Chamberlain, seeing the man was wounded, took him to Eddie Durnan's house, and Dr. Spohn was telephoned for at the Lakeside Home. He dressed the wounds.

Mr. Chamberlain took a revolver away from Spence when he met him and asked Spence if he was shot and how he came to have the revolver.

Spence replied he had taken it away from the fellow who attacked him.

Inspector Davis, who was in the vicinity of the row and was soon on the scene. The two companions of Spence had disappeared. They were subsequently picked out of the crowd and promptly arrested by Davis, who brought them to the city and locked them up in No. 1 station. When searched Laber had a razor in his pocket, but no razor, and his hands were covered with blood. The revolver, which was taken from Spence, contained three loaded and two empty shells. The small amount of powder in the revolver showed it had been recently fired.

The wounded man did not wish the others arrested. All refused to talk about the fight, and claimed there was a fourth man who did the cutting. They did not know his name.

Spence lost an immense quantity of blood. His coat was slashed in three places, and his clothing was saturated with blood. In St. Michael's Dr. Kiloran worked for three hours before a deep, ugly wound 8 inches long, extending from the top of and around the ear across the throat. There was another wound on the head, and a slash under the arm. He was resting quietly last night, but his recovery is still in doubt.

He escaped early death by that," said the doctor, and his fingers measured the space of a quarter of an inch.

One of our Minerva Autos ran to Montreal in twenty hours. Particulars at Mutual Street Rink.

# WM. KIRBY, AUTHOR, DEAD FULL OF YEARS AND HONOR

### Was Editor of The Niagara Mail in 1853—His Well-Known Writings.

Niagara-on-the-Lake, June 24.—William Kirby, F.R.S.C., Canada's oldest littérateur, born in 1817, and almost in his 90th year, died on Saturday. A native of Yorkshire, England, he has always been known as a strong advocate for British connection. Leaving England in 1832 he received part of his education in Cincinnati from a highly educated Scot, Alexander Kinmont, coming to Canada in 1835 he lived some years in St. David's, and afterwards married Miss Whitmore, whose mother was a daughter of the noted United Empire Loyalist, Daniel Servos.

He next became the editor and proprietor of The Niagara Mail, in 1853, and his first poem, "The United Empire Loyalist," was published in the paper, the greater part of the work it is said, having been done by himself. On his retirement from The Mail he became collector of customs, which office he held for many years.

His greatest work, "Le Chien D'Or," perhaps the best Canadian historical romance ever written, has won for its author deserved fame. The story of the writing and publishing, the loss of the manuscript for nearly three years, its final rescue from the Grand Trunk baggage room, Toronto, and its subsequent adventures is a romance itself. His poems, "Canadian Idylls," "Queen's Birthday," "Dead Sea Roses," "Kirby Wilkie," "The Hungry Years," etc., give us many stirring incidents of Canadian history, all breathing an intense loyalty, while his translations of French and German poems show his linguistic as well as poetic powers.

His latest work, "Annals of Niagara," gives many almost forgotten stories of early days in the old capital.

He was made a fellow of the Royal Society, and tho his reserve and modesty kept him from being as widely known as he might have been, still by the highest in this and other lands his merits as a man and a poet have been acknowledged. The Princess Louise, Ottawa, conveyed to him the pleasure the late Queen Victoria had had in reading "The Golden Dog." The story from Lord Tennyson, the Duke of Argyll and many noted persons attest the esteem in which he was held.

For many years reeve and magistrate of the town, he lived lately a quiet life of retirement.

He leaves a son, John Kirby of Toronto, and a grandson, Eric Kirby, now in England.

A good constitution enabled him to give the disease which attacked him more than a year ago.

### CONSPIRACY CHARGE FAILS.

Former U.S. Senator Alleged to Have Bribed Official.

Washington, June 23.—The jury in the case of ex-State Senator George E. Green of New York and Willard D. Doremus of this city this afternoon returned a verdict of not guilty on both the charges of conspiracy and bribery.

The acquittal marks the climax of a trial that has consumed four weeks in the district supreme court. They were tried under indictments charging conspiracy and bribery in connection with the sale of stamp cancelling machines to the government for the postal service.

These were the only charges against the defendant, Doremus. Mr. Green was tried some time ago on charges of conspiracy in connection with the sale of time recorders to the postoffice department, and was acquitted.

The charges under which Messrs. Green and Doremus were tried, and of which they were found not guilty, were based on the allegations that they entered into a conspiracy with George W. Beavers, former chief of the division of salaries and allowances in the postoffice department, by which they agreed to pay him \$25 for each cancelling machine manufactured by the Doremus Machine Company, and sold to the government for the postoffice department thru the procurement of Beavers.

### TWO SETS OF TRIPLETS BORN

Texas Increase Families With Three Children at a Time.

Dallas, Texas, June 23.—Triplets, and all boys, were born to J. Hagler and wife of Vernon, Texas, on June 20. At the preceding birth twins were born to them. They have now 15 children. Mr. Hagler is a prominent citizen and cat-herd of Vernon. A telegram was sent to-day to President Roosevelt by Mayor Hall, informing him of the new arrivals.

At Plano, Texas, Mrs. R.H. Crawford, wife of a prominent citizen, gave birth to-day to triplets, two girls and one boy. One girl and a boy lived for a few hours after their birth. Mrs. Crawford gave birth to twin girls about three years ago, who are still living.

### CUDAHYS CLOSE PLANT.

Can't Stand Newspaper Criticism and Adverse Legislation.

Louisville, Ky., June 23.—The Louisville Packing Company plant, owned by the Cudahy Packing Company, was closed to-night for an indefinite period because of "newspaper criticism and adverse legislation."

The company, which was established in 1882, employed 350 men and had an annual output of 10,000 sheep, 20,000 cattle, and 300,000 hogs. The plant and its equipment are valued at \$800,000, and furnished 60 per cent. of the local meat supply.

# STRENGTH FREE TO MEN

How to Regain it Without Cost Until Cured

Strength of body—strength of mind! Who would not possess it if they could? It is nature's greatest gift—our most valuable possession. Without this strength we are a failure, with it everything is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly or used it up excessively, leaving the body exhausted, the nerves shaky, the eyes dull and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever they were if they would only turn to the right source. Electricity cures these weaknesses. It gives you back the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who writes to me a full and complete description of his condition, and I will furnish you with the Belt to use, and if it cures you pay me my price—in many cases not over \$5.00. If you are not cured or satisfied, return the Belt to me and that ends it. As I am the originator of this method of treatment and have made it a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varicocele, etc., but I also give my Belt on the same terms to sufferers from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles.

Call or write for a Belt to-day, or, if you want to look into the matter further, I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

### DEVELOPS MURDER IMPULSE.

While Shaving Son, Negro Prisoner Goes Raving Mad.

New York, June 23.—William Herman, a negro, who was held with his son Luther in the jail at Freehold, N.J., as witnesses in a murder case, went raving mad to-day, seriously wounding his son with a razor, slashed his face and fought the jailers till he received mortal injuries.

Herman, while shaving his son, developed a murderous impulse and drove a razor across the boy's throat. Luther managed to break away from his frenzied father, when the latter ran to the second tier of the jail and began to slash himself about the face and neck.

Keeper Sherman and his aids rushed to the man, but kept them at bay with their razors. At last Sherman, after a desperate fight, succeeded in flooring the madman by heavy blows to the head. Luther was taken to a hospital in a serious condition.

### QUEEN HELENA'S DUTY.

Insists on Being With King Victor If Danger Exists.

Rome, June 23.—Recent arrest of several anarchists at Ancona, together with the discovery of bombs and other explosives, which, it was believed, were intended to be used in an attempt on the life of King Victor Emmanuel, who will arrive there tomorrow, has led to the departure of the king to-night for Ancona, an interesting event. Queen Helena, accompanied by a retinue of 150, is to accompany him. When she was cautioned against making the trip, she said: "I do not believe that danger exists, but the more I think of it, the more I feel that my duty is to be there beside the king."

### THREE VESSELS SUNK.

All on Board Yacht and Two Schooners Drowned.

Port Monmouth, N.J., June 23.—An unknown yacht and two trading schooners were sunk, and it is believed that all on board were drowned in a terrific storm which struck this coast to-day. The yacht, with a crew of five, was on the coast when the vessel was struck and capsized, sinking instantly.

All three vessels were more than a mile off shore when struck. The storm broke suddenly and soon attained the proportions of a cyclone, blowing up a heavy sea and, according to statements of persons along the shore, causing several water-pouts.

### A Coming Attraction.

The Grand Trunk Railway System Exhibit Car, which has just concluded its tour for the present summer, is now visiting some of the principal towns and cities along the main line of the Grand Trunk. It will be open for inspection of visitors at the Union Station at this place on Tuesday and Wednesday, June 26 and 27; on Tuesday from noon until 3 p.m. on Wednesday from 9 a.m. until 9 p.m.

All who can make it convenient should not miss this opportunity of seeing a novel and instructive art gallery on wheels, in which is found an extensive collection of large photographic prints depicting scenes in the many famous summer resort districts reached by the Grand Trunk road. The special features of the car are interesting to the tourist, sportsman or angler. Magnificent specimens of mounted fish and game are included in the exhibit.

### AGED WOMAN A WARY WITNESS

#### WITHSTANDS 'THIRD DEGREE'

Frantically Denies Accusation That She Killed Daughter and Declares Man Was to Blame.

New York, June 23.—Exasperated at the persistence of Coroner Robert F. McDonald and Assistant District Attorney Cordova, in the continuation of the coroner's inquest into the murder of Mrs. Alice C. D. Kinn in her Washington-avenue home, Mrs. Louise Malcolm Stenton, her aged mother, this afternoon made startling admissions.

"There was a man at the house that night," she said, "but I didn't know him."

Incensed at Mr. Cordova's continued sharp questioning as to who the man was, she cried out:

"I won't tell! I won't tell!"

"Why won't you tell who he was?" persisted the examiner.

"Because he would die."

Then Mrs. Stenton broke down and a long recess was necessary before she could return to the witness-stand.

Several times in the course of the session Mrs. Stenton ran briskly from the witness chair and tried to get away.

"Show us how you killed Alice," said Mr. Cordova.

With a wild scream the aged woman made a dash for the door crying:

"I didn't murder her! I didn't kill Alice! I didn't murder her! I didn't kill Alice!"

The ordeal was too much for her and she fell in a faint again.

The days of the "third degree" method of wringing confessions from criminals were outdone to-day in the coroner's court as the witness passed away. Nowdays, the classic style is in favor. We have it in furniture and bank buildings, and we have it in pianos. A new method of gouging has just been turned out by the firm of Gourlay, Winter & Leeming, which is more than ordinarily artistic. Indeed, all the Gourlay cases are beautiful, but this latest style bids fair to win great popularity with all whose tastes are in any way artistic. The curves are harmonious and graceful and the carvings on the polished fall-length music desk exceptionally delicate and chaste. The tone of the instrument has all the rich quality which has brought the Gourlay piano to the front rank of high-grade pianos manufactured in Canada.

### NEW RURAL PHONE LINE.

In Operation in Leeds Co.—Gets "Bell" Connection.

Brockville, June 23.—(Special.)—The Village of Lansdowne and vicinity in Leeds County is becoming quite up-to-date in the matter of telephone service. The local telephone company, with an independent telephone line, and the service is controlled by the Lansdowne Rural Telephone Company, which was recently organized. Part of the service was ready for use last week. The company then had eighty-six subscribers, or shareholders, consisting of business men in Lansdowne, and farmers in the locality.

The service has a radius of ten miles and will prove a decidedly big convenience. Shares in the company are \$50 each, payable in five years, at the rate of \$10 per annum. Each subscriber is a shareholder, so that the cost of using a telephone each year of the five will not be more than \$10. The promoters say that at the end of five years they expect to operate at a cost of \$2 to \$5 per year per telephone to each shareholder. The other main feature of the line is that long distance connections have been assured over the Bell Telephone Company and the North American Telephone Company. Besides, the Lansdowne Company has the privilege of using the North American poles four miles east and four miles west.

### FOUND WITH HEADS CRUSHED

Mine Owner and Operator Believed to Have Been Murdered.

Connellsville, Pa., June 23.—The mutilated bodies of two men with their heads crushed as if with an ax were found to-night on Nellie Hill at Vanderbilt. It is believed the men were murdered. One body has been identified as that of Thomas Bosley, a miner. The other man is believed to be F. Clark, a telegraph operator of this city.

Early this evening Bosley and the man found dead with him were seen in the mine. They were seen with a Slav. The Slav is said to have refused a drink with the two and a quarrel followed. Bosley, together with his companion left the place. A short time afterwards a foreigner, who was walking along a path on Nellie Hill, found the mutilated bodies and notified the authorities.

### JOHN D. HEARS NEWS CALMLY

Oil King, When Told of Prosecution, Says He is Out of Standard.

Campagne, June 23.—John D. Rockefeller apparently had not heard of the contemplated prosecution by the government of the Standard Oil Co. when asked concerning it to-day. He received calmly the news that action was about to be begun for rebating and conspiracy, but his face became very grave.

"I thought it was well known," he said, "that I had no connection with Standard Oil for some 12 years. I have not even been in the office for seven years."

"I don't know about this proceeding, but it will make no change in the plans I formed to return to America July 20."

### TO REHABILITATE 'FRISCO.

New Organization to Have Charge of Stricken City.

San Francisco, June 23.—The relief commission, a new body to take charge of the relief work and rehabilitation of this city, to-day perfected its organization. Dr. Devine was elected chairman.

### DOMINION DAY RATES.

The Canadian Pacific Railway will sell return tickets at one-way fare for Dominion Day, between all stations in Canada, and to Buffalo, Niagara Falls, N.Y., Detroit, Mich. Tickets good on Friday, Saturday, Sunday and Monday, June 25, 26 and 27, and 28, good returning on or before Tuesday, July 3. This gives five days of low rates, an exceptionally long limit at a time when it will be appreciated by holiday makers. Tickets and information at all C. P. R. offices and stations.

### PLES

A SOUNDING PHRASE.

The Real Essence of "Metropolitan Ornamentation"—A Study in Humor.

The man who coined the phrase "metropolitan ornamentation" was an artist. No English words express more accurately the style of decoration which piles gew-gaw upon gew-gaw with absolute disregard of artistic effect. There is a touch of humor also in its resounding fulness, a quiet irony which indicates that the time for that sort of decoration has long since passed away. Nowadays, the classic style is in favor. We have it in furniture and bank buildings, and we have it in pianos. A new method of gouging has just been turned out by the firm of Gourlay, Winter & Leeming, which is more than ordinarily artistic. ### GOD AND MAMMON.

Rev. Dr. Perry Continues His Sermons on Timely Subject.

At the Jarvis-street Baptist Church last evening Rev. H. Francis Perry, D.D., pastor, occupied the pulpit. Dr. Perry took for his subject: "Mammonism; the Worship of the God of Wealth."

"Idolatry," he said, "holds sway over the myriad of men in this western world. Mammon is personified by the machine—a big Panhard—while the other master of souls.

"Undue love for wealth and the undue quest of wealth and unrighteous acquisition of wealth is the worship of mammon.

"In this feverish age commercial prosperity has turned the heads of not a few. There is a peculiar danger of mammon worship in a new rich country, for no soil is better for the growth of mammon. No aristocracy is more than a molded aristocracy."

Concluding his remarks the minister said: "In the last analysis the whole matter resolves itself into the question of Jesus. We cannot serve God and Mammon. We must curb mammonism out of the sacred precincts which it has invaded. All men who love God and humanity must write against this unbrotherly God-forgetting spirit which thinks that gain will satisfy the soul."

### BY FOUR INCHES IS SAVED

#### A PLUNGE OF 150 FEET

New York, June 24.—Turning a somersault in the air, John H. O'Brien, fire commissioner, was hurled out of an automobile when it hit a heavy truck on the Williamsburg Bridge yesterday afternoon, struck the guard rail as he fell, and missed the 150 foot plunge into the river by a scant four inches. He lay insensibly by the wreck of the machine—a big Panhard—while nearby Charles Curry, his friend, a wealthy manufacturer, was found unconscious. Alfred Johnson and P. L. Quigley, who completed the party, were also thrown out, but escaped injury, as did the chauffeur.

### A Coming Attraction.

The Grand Trunk Railway System Exhibit Car, which has just concluded a most successful trip of three months through a portion of the United States, is now visiting some of the principal towns and cities along the main line of the Grand Trunk. It will be open for inspection by visitors at the Union Station at this place on Tuesday and Wednesday, June 26 and 27; on Tuesday from noon until 9 p.m. on Wednesday from 9 a.m. until 9 p.m.

All who can make it convenient should not miss this opportunity of seeing a novel and instructive art gallery on wheels, in which is found an extensive collection of large photographic prints depicting scenes in the many famous summer resort districts reached by this up-to-date railroad. The special features of the car are interesting to the tourist, sportsman or angler. Magnificent specimens of mounted fish and game are included in the exhibit.

### TEXT BOOK COMMISSION.

One of the most important announcements to come this week from the government will be the names of the commission to look into the school text book question.

It is expected the cabinet will make the appointments on Tuesday, York shrewdly.

The three members for York County in the legislature will meet on Tuesday to discuss the vacant shrewdly. A West Yorker observed on Saturday that there was no truth in the statement that everything had been arranged to give the office to a North York man. He said a strong fight was being put up by Hon. J. W. St. John to secure the place for one of his supporters and that this was the way it would go if the three members failed to agree.

At any rate the matter is not yet up to the cabinet. "We have not even considered it," said Premier Whitney, in answer to The World.

LET ONTARIO MOVE.

The Manitoba government has ordered an investigation into the condition of the provincial abattoirs. The inquiry is being conducted by Dr. Simpson, chairman of the provincial board of health.

This move on the part of Premier Roblin has been dictated by the state of public unrest caused by the revelations of packing house enormities across the line. It has been suggested by the Canadian cattle raiser, the Canadian packer and the Canadian consumer, and does not argue that things are not as they should be in the abattoirs.

Ontario is not unlike Manitoba in this matter, and may follow Premier Roblin's lead without doing harm to any interest. Within the past two months, signs that the consumer is suspicious of the meat he eats have not been wanting.

The local health officers in this province are men of fine character and admirable capacity, but the nativism that grips most communities in Ontario does not conduce to the fullest and freest publication of the abattoir conditions these officers may find after a cursory inspection.

The provincial health officer, however, is not bound by nativism and is responsible only to the central government. He can deal with these matters in the large, and can afford to disregard local influences.

Canada will watch with interest the progress made by the international policyholders' committee with offices in New York, which is co-operating with other life insurance policyholders' committees in rendering public service.

The Toronto-Ottawa passenger traffic is steadily growing, and the more direct and quicker the route the larger it will grow.

RECENT NAVAL MANOEUVRES WERE THOROUGHLY GRATIFYING

Everything Went to Show That Empire's Confidence in Fleet is Well Placed.

London, June 23.—British naval authorities express themselves as thoroughly satisfied with the manner in which the first stage of the naval manoeuvres, which ended Saturday night, was carried out.

Whether considered as a test of the fleet for sudden mobilization or for the purpose of seeing whether the naval establishment could cope efficiently with an unexpected call upon their resources, or regarded as a trial of the arrangements for defence at the naval ports, the results in every case have been most gratifying.

Everything has gone to prove that the confidence of the nation in the organization of its fleet does not rest upon flimsy foundations and that the British people need have no apprehension lest the glorious traditions of the navy should not be upheld.

It may be mentioned that there were one or two occurrences not in the programme of the manoeuvres. The commander-in-chief, Lord Charles Beresford, was instructed that he might attack at any hour after 9 on Tuesday morning, and it was assumed that he would follow the hands of the red commanders by an act of war.

Information of what he had done reached the admiralty just after midnight Thursday morning, and the order to mobilize, which was immediately despatched to all ports, was received a few minutes after two, and before 2 the fleet was turned out of the naval depots and marine barracks, the mobilization of the machinery was in motion, and the crews were being taken off to their respective ships in gunboats, launches and other small craft.

Before noon many of the ships were ready for sea and by Thursday night all had been mobilized. The mobilization was carried out just in time, as at midnight, Friday night, Sheerness and Portsmouth were attacked by flotillas of destroyers from the blue base at Alderney and Friday night further attacks were delivered at Devonport.

It is, however, the defensive arrangements that have been carried out, in every case, the attack is adjudged to have failed. The attacking vessels were detected by the searchlights of the fortresses and were subjected to a heavy gunfire from the defence ashore and afloat. The manner in which the arrangements were carried out at each port for placing the harbor in a state of defence was thorough.

All the small defensive craft—the scouts, destroyers, and submarines—were sent to their proper places to patrol the harbors and the appearance of any of the enemy's ships. Furthermore, all vessels coming into port were submitted to a search, so that all the conditions that might prevail in case of actual hostilities should be carried out faithfully.

It was not only with that portion of the naval authorities, but the military garrisons manned their forts, remaining by the guns ready for action all night and with their searchlights prepared for use in case, as actually happened, the enemy attacked after dark.

In addition to the arrangements for mobilizing the ships in reserve and defence of the ports, these operations were made in the dock yards for victualing the arsenals, yards, and hospitals for dealing with the inevitable results of great naval engagements. All the workshops and store depots everything was put in readiness to cope with a surprise call; and preparations were made so that the workmen could be rallied upon to be on the spot at any hour of the day or night when their services might be required.

Many vessels also went into port which were supposed to have been captured from the red side. These were taken off and fresh British crews put into them, and they were then commissioned and sent to sea once more to do duty on the red side.

When the patients reached the hospital arrangements had been completed for dealing with 5000 cases. The teams with cards indicating that they were supposed to have received injuries which incapacitated them were provided with beds and surgeons made ready to examine them, and the necessary material for dealing with each case was planned in readiness for use. Other men whose wounds were of a less serious description were treated accordingly and everything was done to test the efficiency of the hospital arrangements. The prompt manner in which the medical staff grappled with the unexpected call upon its resources was worthy of the highest praise.

Those responsible for the manoeuvres scheme seem to have forgotten no single department which was liable to be called upon for an effort should the country become involved in a naval war. The victualing yards were tested by sudden orders to provide provisions for the crew of a battleship of about 700 to 800 men for 30 days, and the ordnance departments were similarly required to supply complete ammunition for a battleship of about 700 to 800 men for 30 days, and the case was previous notice given, but all

KAISER SO CONSIDERATE. Invites Princess Eitel to Meet Mrs. Nicholas Longworth.

Kiel, June 24.—Emperor William, when he was certain of the day on which Mr. and Mrs. Longworth would arrive here, telegraphed to Princess Eitel Frederic, asking if she could not come to Kiel so that Mrs. Longworth could be entertained aboard the Hamburg, the emperor's improvised yacht. The princess complied at once, arriving here Saturday evening with Prince Eitel and Mr. and Mrs. Longworth, who were invited this morning to dine with the emperor tonight.

WOMAN'S QUICK WIT. Telephones and Saves Lives of Two Boys in Peril.

Sandwich, Ont., June 23.—The telephone saved two lives yesterday Mrs. Lloyd, at her summer residence a few miles down the river, saw a small overturned rowboat with two boys clinging to it floating down the river, which is a mile and a half wide there. No assistance being at hand, she telephoned by way of Windsor and Detroit to Smith's coal dock on the American side, opposite her home. The big freighter Manilla was just leaving the dock. The captain was notified of the boys' peril, and he rescued them and took them to the American shore. They were almost lifeless from cold and exhaustion.

INVESTIGATION SOLICITED Canada Permanent Mortgage Corporation Head Office, Toronto Street, TORONTO

National Trust Company LIMITED... 22 King St. East, Toronto

World Office. Saturday Evening, June 23. The market at New York has undergone little change for the week. A fair sample of the regular manipulation in prices has occurred, but the net changes have not amounted to much. If the market could improve on favorable developments it certainly should have done so this week.

The loan on this one of the premier American railroads required several weeks to accomplish. The difficulty experienced is certainly not suggestive of an average state of financial conditions while the market in Europe demonstrates the congested state of the domestic investment market.

The steel shares are not at all enticed under such conditions and are certainly best left alone until they present a more substantial foundation. Of the general market there appears no reason to expect that higher prices can be immediately available.

The cut in southern iron prices of \$1 a ton has drawn attention to the trend of metal prices. It has been thought for some time that the price in copper was becoming difficult in holding up the quotations in this commodity, and the later slumping in prices had a similar effect.

It is perhaps more to hint that the increase in the dividend of Baltimore and Ohio was made to aid the marketing of the new stock of this road, put out earlier in the year, but such has been rumored.

Between the Russian situation, the investigation proceedings started against the Standard Oil and the crop and money outlook, the stock market has enough difficulties to contend with for the present.

On Wall Street. Marshall, Spader & Co. wired J.G. Beatty (King Edward Hotel), at the close of the market yesterday, the market displayed a fair tone during the earliest trading, but pressure was brought against the more active speculative issues in a way to indicate lack of confidence by larger investors and also perhaps a disconcerted feeling brought about by the proposed prosecution of Standard Oil officials.

The market during the past week has recorded substantial advances in some leading railroad stocks, such as Southern Pacific, C.P.R., B. & O. C. & O. and Norfolk and Western. The market during the past week has recorded substantial advances in some leading railroad stocks, such as Southern Pacific, C.P.R., B. & O. C. & O. and Norfolk and Western.

The only issues in the market to show decided firmness are two of the navigational stocks, B.C. Packers, Northern and Lawrence in the navigations are easily leading their own, and in the case of Pacific and Lawrence, there are no signs of weakness. These stocks are in the main held by investors and are therefore not under the influence of speculative turns.

### INJURED BY FLYING ROCK GETS \$25,000 DAMAGES

#### Jury, After 20 Minutes' Consideration, Awards Against Railway Contractors.

New York, June 24.—A jury before Justice O'Gorman yesterday awarded Mrs. Henrietta Cobb of Meriden, Miss., \$25,000 for injuries resulting from a Pennsylvania Railroad tunnel blast three years ago. She had sued for \$35,000.

Mrs. Cobb, with her husband, Elliott Cobb, who is now at the Murray Hill Hotel, was visiting in New York at the time. Her husband is a wholesale lumberman. Mr. and Mrs. Cobb, with their three-year-old daughter, visited Mr. Cobb's cousin, Jesse W. Reno, who has a wood working mill at Thirty-third-street and North River. The factory is at the edge of the deep shaft of the Pennsylvania railway tunnel.

The Cobbs were visiting the factory on July 14, 1903. They were on the third floor, and were close by a heavy door, which was opened only for the admission of lumber hoisted from the ground below.

It was closed on this day, when a blast was exploded by the employees of the United Engineering & Contracting Co. sinking the shaft to the tunnel.

#### Flying Rock Hits Her.

A rock four inches thick came flying thru the three-inch panels of the right side, knocking her down. Mr. Cobb made an involuntary effort to catch her as she fell. He thrust out one leg and his wife fell heavily upon it, striking on her right breast, bruising and cutting it.

Dr. Lewis J. Lipkie was summoned and found Mrs. Cobb had three ribs broken, and he set the ribs and dressed the wounded breast.

Mrs. Cobb suffered for three years from the injury to her breast, and last April, after consultation with Dr. Hoffman of Washington, Drs. Simon P. Goodhart and Bence B. Galiaudet of this city and others, went to Chicago, where Dr. William E. Danford agreed with all the others that the injury had developed a cancer, and an operation was necessary.

#### Famous Surgeons Testify.

This was the story developed by B. W. Slade, counsel for Mrs. Cobb, the witnesses, including all these physicians and surgeons.

F. W. Johnson, in behalf of the contracting firm, entered no denial of the blast and the accident, but contended that the cancer and the shattered nerves from which Mrs. Cobb is now suffering were not due to the injuries received by being knocked down by that rock.

Dr. Charles Phelps, the famous surgeon, whose operations in bone grafting were watched by the whole medical world a few years ago, particularly in the case of the Philadelphia lad, William Getchus, and his dog, was called as an expert by the defence to support this contention.

Dr. Emily Dunning Barringer also testified for the contractors as to Mr. Cobb's nervous trouble.

The jury was out only 20 minutes and brought in a verdict for \$25,000 damages.

### CHIDED AS FAILURE; ENDS ALL

#### Son of Capt. Hoffman of Brooklyn Shoots Himself.

New York, June 24.—Hermann Henry Hoffman shot and killed himself yesterday in the home of his father, Capt. Henry Hoffman, at No. 2099 Bedford avenue, Brooklyn, where there have been many brilliant social gatherings.

Young Hoffman visited his father yesterday, and it is said quarrelled with him because he had been out of work since his marriage to Miss Ella Nicholson, ten years ago.

"Have you anything to do yet?" Capt. Hoffman is said to have asked his son.

Young Hoffman flashed back some hasty answer, ran upstairs, and pulling a revolver from his pocket, leveled it at his head.

"Good-by, mother; good-by all!" he cried.

A moment later his body pitched half way down the stairs.

Young Hoffman's marriage, it is said, was not a happy one. He lived at No. 308 Wynona-street. Five weeks ago he took a position with the White Star line as weighing master, but he kept it only a month. He was 33 years of age.

#### DE KOLA AT HANLAN'S.

In the new vaudeville theatre at Hanlan's Point this week one of the principal attractions will be De Kola, the man of myth and mystery, who made the people marvel two weeks ago. Another splendid feature will be La Adolina, the graceful and dainty Parisian danseuse. Others who will make up the excellent program are the famous Alvin Bros., the daring gymnasts; Tana, the comedy juggler; Massey and Kramer, vocalists; the Princess Theatre orchestra, who play at both afternoon and evening performances.

According to the American Department of Commerce a Springfield (Ohio) firm has introduced a motor sleigh, which it claims has carried 27 people ten miles an hour thru the snow.

### YORK COUNTY AND SUBURBS BRETHREN ATTEND CHURCH

#### Special Services Held in Toronto Junction and East Toronto—Man Arrested on Serious Charge

Toronto Junction, June 24.—The Rev. Beverley Smith is leaving on Friday next for an extended tour of the old country. Rev. Mr. Davis, son of the Dean of Huron, will have charge of the parish during his absence.

About 4 o'clock Saturday afternoon two citizens, F. C. and R. A. Burgess, were locating and locating over some building lot at the north-east corner of Keele and Bloor-streets they found the body of a new born male child about three or four days old. They notified the chief of police, Dr. Clendenan had the body removed to Wm. Speer's undertaking rooms awaiting further developments.

A wedding was solemnized on Saturday afternoon at St. John's Church when Alice Mary, daughter of Nelson Keel of Winnipeg and granddaughter of the late W. C. Keel of Toronto Junction, was united to Mr. Herbert Mercer of New York. The bridesmaids were Miss Kempt and Miss Killally, and the maid of honor Miss McCreary. The groom was assisted by Mr. Ascroft, and the ushers were Messrs. C. Keel, J. T. Kempt, L. Jennings and R. C. Power. The ceremony was performed by Rev. Beverley Smith. There were 67 cars of stock in the Union Stock Yards for to-morrow's market.

The West York license commission met on Saturday night to consider applications for transfers from John Bailey of the Central Hotel, Weston, to Lorenzo Wynn of Toronto Junction, and George H. Hays of the Islington Hotel to Martin Nolan of Toronto. In the Bailey case the commissioners decided to grant the application on condition that the licensee makes certain improvements satisfactory to the commission, the matter to be finally settled on July 7. It was also decided to grant the transfer to Mr. Nolan, the same to be advertised and finally settled on July 14.

#### EMPIRE HOTEL.

#### Weston.

The annual church parade of L.O.L. 218 was held to-day at St. Philip's Church. There were 100 of the brethren in line, headed by the five and drum band of Toronto Junction. Rev. Beverley Smith delivered the address and the church was crowded, and a large number of the public had to remain outside.

#### Deer Park.

The pulpit of Deer Park Presbyterian Church last night was occupied by the Rev. J. R. L. Starr, who will shortly enter the pastorate of Berkeley-street Methodist Church. The address was a masterly one, and was listened to with the greatest attention throughout. The occasion was marked by the farewell of a large number of the pupils of U. C. College, who, during the session, have been in attendance at the church. At the conclusion of the service, the Rev. Dr. C. Hossack, received into membership 30 new members.

#### King Township.

King City people are having their annual civic holiday on July 2, when a splendid program of sports will be held at the park by the Queen's and Orchestra of Toronto, and a Highland piper from London, and a concert of unusual merit in the evening.

#### Norway.

The 13th anniversary of the festival of St. John the Baptist was fittingly celebrated in St. John's Church yesterday. In the morning the pulpit was occupied by the Rev. Edward Cayley, rector of St. Simon's, and in the afternoon by the Rev. Canon Sweney of St. Philip's Church. At each of these gatherings the sacred edifice was filled to the doors. A feature of the service was the presence of the choir in surplice for the first time.

In the afternoon the members of Cambridge Lodge, S.O.E.B.S., East Toronto, accompanied by the G.G.B.G., marched in a body to the church, where the Rev. Mr. Fotheringham conducted the exercises, after which the members visited the cemetery and assisted in decorating the graves of deceased comrades. The rector, Rev. W. L. Baynes-Reed, assisted at all the services throughout the day, and the Rev. Mr. Osborne, St. Saviour's, East Toronto, during the afternoon.

#### Unioville.

The Queen's Hotel has been refurbished and under the management of John Hemingway, the present proprietor, bids fair to become a popular summer resort. The Queen's will in future be conducted as a strictly temperance house, and the fact that a limited number of summer boarders can be accommodated renders the opportunity to secure an outing at reasonable rates an exceptionally favorable one. Unioville is less than an hour's ride from the city on the line of the Midland Railway, and is in the centre of one of the finest agricultural sections of Ontario. For rates and all information address John Hemingway, Queen's Hotel, Unioville.

#### North Toronto.

John D. Price, milk dealer, Balliol-street, lost a valuable mare yesterday morning from acute inflammation.

Rev. Geo. M. Brown of the Davisville Methodist Church preached his farewell sermon yesterday. Mr. Brown is transferred to the Sherbourne-street Methodist Church, Toronto.

The Sunday school of Davisville Methodist Church picked at High Park on Saturday afternoon. It is reported that there was not a drop of rain in High Park while North Toronto and vicinity had a deluge, which interfered with the school at Whitton's Grove. First the picnic was postponed and the band sent home, but later the picnic was held after all, but the pleasures and enjoyments were marred by the frequent rainstorms. Another effort will be

### NOT A MILLIONAIRE'S FAULT SOCIAL SYSTEM VICTIM

#### Bernard Shaw Takes Up Cudgels in Defence of the Assailed Packers.

London, June 23.—In spite of his vegetarianism George Bernard Shaw is not disposed to sympathize with the general public in shuddering at the Chicago meat packing revelations. Mr. Shaw asked: "Why condemn the beef magnates in particular? Every millionaire is guilty of some crime of equal hideousness."

"But the fault does not lie with the millionaire. The poor millionaire cannot help himself. The present social system forced his crimes upon him. He is in business as a millionaire and the spirit of the times dictates that he shall succeed. If there is competition he is compelled to grind down the competitor. It is not the fault of the millionaire, it is the fault of the system."

"A business which affects the people's welfare should not be in the hands of private individuals, but in the hands of the public. The state or municipality, not syndicates running for profit, should control the people's food supply."

#### Laws of No Avail.

"You may have as much legislation and appoint as many inspectors as you like, but the same state of things will go on as long as an industry is a question of private and not public profit."

"In spite of everything President Roosevelt can do, the only safe prophecy is that at the end of a few years a number of the inspectors will be able to retire on ample fortunes, then perhaps there will be another outcry and another set of inspectors will be given an opportunity of amassing wealth."

"You cannot control trusts nor make them honest. If you want to be rid of the evil trusts, the only course is to wipe out the trust altogether."

"It has to be proved that the Chicago system of meat packing results in much harm to the consumer. I am not convinced that sausages made from cats are really injurious. I will go so far as to say that every customer of the big hotels and restaurants eat things which are accounted great delicacies that are far more harmful to their constitutions."

#### Leprosy in British Ship.

"I remember some years ago the whole of London was greatly disturbed because it was found that a leper was working in a London meat market. Finally it was discovered that he only served meat to poor people, so no one of importance troubled himself any more about it."

"I am convinced that if this matter is impartially investigated it will be found that our slaughter-houses are conducted in quite as beastly and disgusting a manner as those in Chicago."

"Why not attack the canners of vegetables? After all, they are whole-sale arsenic poisoners. Yet they do not live in vain. The English woman is famous thruout the world for the beauty of her complexion and I am convinced that the emulsi she enjoys in that respect is simply due to the amount of arsenic in tinned vegetables she consumes."

"Trusts will always be enemies of the people. No law can hold them in check. The only way out is to nationalize all great industries."

#### FOOLED BLOODHOUNDS BY CHEMICAL ON SHOES

Raleigh, June 24.—Acting under orders of Governor Glenn, Sheriff Biddle of Craven County brought Joe Bailey, negro, the alleged murderer of John M. Lancaster, a merchant of Vanceboro, to Raleigh to-day for safe keeping. The killing of Lancaster aroused public indignation and poses were organized, bloodhounds were secured, and the swamps were searched. By the use of a chemical concoction on the soles of his shoes, the negro threw the dogs off his trail when within 200 yards of him, but he was captured while crossing a bridge.

### I Can Give You Correct Vision in Both Eyes.....

Almost everybody finds that one eye is worse than the other. The poorer eye should see as well as the better one, or the better one soon becomes as bad as the poorer one, and the poorer one becomes poorer still. I can bring the vision of the poor eye up to the standard of the good one, or if the good eye ought to be better, I can improve the sight of both eyes and make both eyes see alike. You can trust my skill. I am a graduate optician from three optical institutes; have mastered ophthalmometry, and have had twelve years' practical experience.

If you realize the value of your eyes and the advisability of avoiding the risks of unskilled or careless sight adjustment, you will come to me. My prices are the most reasonable.

### OTHER MAN'S HAPPINESS INCREASED HIS LONELINESS

#### Suicide at Niagara Falls Left Farewell Note to "Father of Beautiful Twins."

Niagara Falls, N.Y., June 24.—(Special.)—There is a possibility that the aged man, who committed suicide by shooting himself at the brink of the Horseshoe Falls on the Canadian side late Friday night, was Horace Bell of Memphis, Tenn.

It has been learned that the man arrived in this city Thursday night and registered at R. C. Owen's Clifton Hotel. He was much taken up with the little twins of Mr. and Mrs. Owen, and in a farewell letter found in his grip he refers to them. The letter, addressed to "the man with the beautiful twins," reads as follows:

"If I do not return, know nothing with your babies. Give the little I will be none asked. I am alone. No friends. I cannot live this way. May God bless you. You are now with your babies. Give the little I have to anyone that needs them." Coroner Kellam of Niagara Falls, Ont., has charge of the case. He has not communicated with Memphis.

In view of the fact that the man took great pains to eliminate all marks of identification from his articles in the valise, it is thought that the name "Horace Bell" on the register may be fictitious.

The valise contained two elaborately patterned aprons, but the names of the lodge and other marks of identification had been cut out.
