The Roschick's Colors.

The Roschick's colors seem destined to play a very prominent part in all the chief English races the coming season. Royce Roschick, who is one of the best drivers in the world, has a chance for the Derby in the hands of the Roschick's colors. He has a horse named "Futura" who is a favorite with the backers. Although their cars are stuffed with expert opinions to the effect that no horse so straight in front and heavy cut as Futura, a successful pace down the Epsom grandstand. It is some time since we saw the blue and yellow silk on Sir Beys, victor of a famous Derby which gave to that great horseman, Fordham, his heart's desire, says a London writer. Till that day Fordham's luck at Epsom was so awfully bad that his keenest admirers despair of ever seeing him score in the great race. At the present date it reads curiously enough that Lord Rosebery's representative is the Durand and that at the time been a few years married to a daughter of the house of Roschick with a fortune of several millions; but a long period elapsed before Lord Rosebery realized the rest of his triple wish expressed at Eton: to marry the richest heiress, win the Derby and be Prime Minister of England.

A candidate for the presidency of the Canadian Lacrosse Association, which holds its meeting in Kitchener this afternoon, April 2. Mr. O'Loughlin's long experience as secretary-treasurer of the association and as member of the judicial committee for many years eminently fit him for the highest office in the gift of the association. His election will doubly assure success to our lacrosse during his term of office, and he therefore gives him our best wishes in the coming contest.—The Midland Free Press.

Corbett's Sparring Partner, Daly, Endeavors to Mix Up with Lasky Hobbs in a Barroom Fight, but Declines the Offer to Stand Up for Three Rounds—General News and Gossip.

Buffalo, March 20.—There were wild rumors in the air yesterday among an alleged meeting between "Champion" Fitzsimmons and Corbett's friend, Jim Daly. Daly and his friends rounded Fitz up in the cafe of the Tilt House and Fitz had to threaten to break somebody's head in order to get out of the hole. "Finally the police warned Daly to keep out of the Tilt, where Fitz is stopping, on the penalty of being run in as a vagrant."

Fitz was told during the afternoon that Daly had made the remark that Fitz was afraid of Corbett's shadow. "Then they tied the Australian and he made an offer to mix Daly on at the Court-street Theatre to-night," says Fitz. "but he is trying to do that and mix with Brocky now and he'll give me \$500.00 if I'll give him something to Corbett's offer. If Daly will come up to see me to-morrow night I'll give him \$100 if he will stay in Buffalo for three miles out of one town, or I will give him \$50 if he can stay four rounds with Dan Healey. The Executive Committee will meet in Milton at a date to be fixed by the president and the secretary."

Oakville and Georgetown did not send representatives to the meeting, but they are wanted in the league, and it is also hoped that Burlington will join it.

The March 14 bylaw was made to shut out the professional riggers who caused so much trouble.

**THE ASSAULT ON REV. MR. MADILL**

Port Huron, Mich., March 20.—William McLaren is on trial to-day, charged with assault to do bodily harm less than murder on Rev. J. A. Madill and J. F. Mitchell, all of Sarnia. The complainant's testimony shows that McLaren called Madill from the cabin of the ferryboat and assaulted him. Mitchell interfered and was roughly handled. They did not see the knife used. They claim that the assault was wholly unexpected. Witnesses for the defence have not yet testified. After the assault McLaren apologized to the ladies on the boat for his conduct.

WHERE BRITAIN STANDS

THE QUESTION IS, HAS SHE JOINED THE TRIPLE ALLIANCE?

Her Sudden Policy in the Sudan Has Set People Thinking—Some Pertinent Remarks—Is France Out in the Cold?—Germany, Austria and Italy Consent to the Expedition.

New York, March 20.—A special cable from London to The Sun says: The question of the hour is, has Great Britain joined the Triple Alliance? The British Government has endeavored in several ways too obvious to be mistaken to create the impression with- in a few days that this great political combination is on the point of being consummated. The Nile expedition into the Sudan has been undertaken with the admitted object of helping Italy, as well as extending the Egyptian frontier. Mr. Curzon, in his official statement in Parliament on Monday, described Italy as "our main ally."

TWAS A STUDENTS' FIGHT

Fearful and Prolonged Struggle at St. Andrew's Hall—Varsity Election

At St. Andrew's Hall last night the annual Varsity election scrap was in progress. Before 8 o'clock the unadvised onlooker would be surprised at the number of innocent-looking students in Engby suits, or divedst of all superfluous clothing, wandering around the hall without any apparent object in view. As soon, however, as the polls were declared open, a great change took place in the general aspect of the men and of the hall. Im- mediately the crowd divided into two distinct parties, and a vigorous fight was made by both to obtain possession of the hall-covered door.

AN EARLY MORNING VOTE

THE REMEDIAL BILL GETS ITS SECOND READING

The Government's Majority Was Eighteen when the Remedy Bill Was Read for the Second Time. The House of Commons on Saturday, March 20, passed the Remedial Bill, which is the first of a series of measures proposed by the Government to deal with the problem of the unemployed.

Imported Oscar Amannada cigars, 5c. Alvin Ballard. The Rev. Mr. Duff will lecture on Social Progress at the Forum Hall to-morrow afternoon. Rev. Samuel Carruthers has been inducted into the pastorate of Dovercourt Presbyterian Church, which he conducted as a mission for the past three years. The officers of the Tailors' Union deny the rumor that any of the men locked out have returned to work. They occupy precisely the stand they took twenty weeks ago. Chief Constable Lawrence of North Toronto received the reward until Monday of the men suspected of having burglarized the residence of Mr. Jacks of Deer Park.

Alliance Probably

The belief undoubtedly exists now in the Government circles of Paris, and probably in those of the British, that England has reached some sort of an understanding or alliance with the central powers, which would mean the end of the Egyptian situation. The French Government has been endeavoring for several months to secure a marked change in the Egyptian situation. England's first notification of her Nile plans called forth an ultimatum from France, the French Foreign Office, in language which, under diplomatic interpretations, was a distinct threat of war.

The Combats

All kinds of men were in the fight—great, muscular fellows, who glared in their own strength and did their duty nobly for their party; small, wiry men, who slipped round unnoted and clung to a stronger man, so that his strength was not available for his party.

The Fortune of War

The University party had the door the most of the night, though whether they had the greatest voting strength remains to be seen, as the result of the election will not be known till about 7 o'clock this morning. Both parties had refreshment booths in adjoining rooms, where coffee and sandwiches were served while the scrap lasted.

The Canadian Temperance League

is bringing Mrs. Frank MacKellin, the noted contralto singer, to take part in their meeting on Friday, March 27, at 7:30 p.m. at the Methodist Church, Toronto. The meeting will be held at 7:30 p.m. at the Methodist Church, Toronto. The meeting will be held at 7:30 p.m. at the Methodist Church, Toronto.

It is the fact that some people who went several times to see them in Ottawa have got

the best impression of their talents. The morning light is the best for seeing them. Remember Roberts' Art Gallery, 367 Adelaide St. W., Toronto. Rev. R. P. McKay, secretary of the Presbyterian Foreign Mission, has received a letter from Mr. J. H. McMurtry, of the Central India, Dr. Thompson, who only just returned from his mission in India. The letter states that he is in the work, and says that the missionaries are getting along well.

What Will France Do?

Great Britain, to-day notified the powers that this fund would probably be insufficient for carrying out her plans in the Sudan. There is good reason to believe that France will endeavor to extract a promise of the date as the Egyptian situation. It is likewise probable that Great Britain will refuse to give such a guarantee. It will then remain for France and Russia to decide whether to content themselves with a protest or interfere by force of arms.

The Jotal Grenadiers

Sergeant Estrella, the left half Battalion, was a "hammer" at the Varsity election. The sergeant of the corps gave a fine concert to the rank and file of the left half battalion. There was a very large attendance of men, and the officers present were Lieut.-Col. James Mason, Major Bruce, Capt. McKay (acting adjutant), Boyd, Lieuts. Willis, Craig, Sloan, and McLean, also Capt. Place, 26th Battalion.

Relatives in Michigan

Timothy McMahon left his home in Ireland 60 years ago and went to Australia. He was a soldier in the British Army and served in the Crimea. He was a very brave man and was killed in action at the battle of the Alma. He was buried in a military cemetery in the Crimea. His relatives in Michigan are Mr. and Mrs. J. H. McMahon, of Detroit.

Mr. Balfour announced in Parliament

to-night that consent had been obtained from Germany, Austria, and Russia. No reply had been received from Russia. The attempt by Mr. Labouchere to draw an explanation from Mr. Curzon of his language describing Italy as England's ally failed in its purpose. There is another motive in addition to the obvious ones for England's sudden move into the Sudan at the most unfavorable season of the year, which is to believe that the advance of the French and Belgian expeditions across the Nile is getting uncomfortably close. There has been little public intelligence from there, its day for a long time, but the English Cabinet has good reason for placing British troops within measurable distance of the Nile in order to keep the other foreign flag too near. The situation is daily increasing in importance, according both to the English and Continental estimation. It will probably assume a new phase within a few days, for European crises are now almost regular weekly occurrences.

Summer Carnival at Halifax

Halifax, N.S., is preparing for a grand summer carnival, to be held July 28, 29, 30, 31, and with the extensive program offered and the many attractive sights in this grand city by the sea, it will be a delightful opportunity to spend a few days' vacation and escape the heat of that season of the year and enjoy the fresh cooling breezes which sweep in from the broad Atlantic. It is really a chance to see a city of Europe (reached in a few hours) with its regiments of soldiers, hundreds of sailors from the ships of the British North Atlantic squadron, which has its summer headquarters there, its detachments, etc. Among the carnival features will be single-screw and four-oared races, for large prizes, in which the best oarsmen in the world are expected to compete; yacht races, competitions between crews from the various regiments; a magnificent illumination of one of the finest harbors in the world, with a procession of the Queen's Own Band, with music by military bands, horse races, bicycle and athletic sports, by electric light, and many other attractions. Any information will be gladly supplied by R. T. Macleirick, secretary, P.O. Box 303, Halifax, N.S.

The Apollo Smoker

The Apollo Club had its first annual smoker at the club rooms, Pythian Hall, last evening. There were over 250 present. The program was conducted by a number of well-known artists in the smoking concert line, the principal events being a boxing bout between Michael Crockett, open Smith (New York), Messrs. Goldman and Heron and others; mesmerism by Dixon and W. K. Barker, and songs by R. C. Palmer, Giles and Wentworth. A very interesting and laughable theatrical performance, which was presented by the club, was the feature of the evening.

The Daily E.S. Item

Scranton, Pa., March 20.—At Forest City, six miles north of Carbondale, a man was killed last night. The man who was killed was Edward Davis, 35 years of age, who was employed as a helper on the Erie Railroad. He was killed by a train of passenger cars, which was passing the station at the time. The man was struck by a falling beam, which had become loose from the trestle. The man was killed instantly.

The Dominion and the Provinces

London, March 20.—The Judicial Committee of the Privy Council has granted to the Dominion and the Province of Quebec leave to appeal from judgments rendered by the Supreme Court of Canada, the Province of Ontario is the respondent in both these cases, which arise from decisions affecting arbitration between the Dominion and the provinces in relation to the payment of bounties to Indians.

A Novelty in Blacksmith Shops

Whisky From Beets and Beets From Whisky

THE WORLD'S WONDERS.

FRANKS OF NATURE WHICH Baffle AND PERPLEX THE PEOPLE.

The Coming to Toronto of a Woman Who Has Three Separate and Distinct Heads and a Man Whose Forehead is a Marvel—The Longest and Finest Reptile in Captivity.

The world's wonders are ever increasing it is almost daily that one hears of something new in the nature of a previously supposed impossibility that tends to render less the memory of the wonders known to all readers of scriptural and historical works. The astonishment which followed the various applications of these wonders has, in turn, given way to wonder at the numerous other startling developments of the past several years which have brought to the people of Toronto a woman, alive and well, who has three separate and distinct heads, each the exact counterpart of the other; and a man whose forehead is formed and beautiful to look upon.

The most wonderful freak of nature yet brought to the attention of the public, and it is as wonderful as the other. Throughout Europe, where the woman has been exhibited, she has attracted the attention of the most distinguished scientists of the continent. Her existence is a mystery to them, and she is regarded as the greatest of all great wonders of recent years.

As has been previously announced in these columns, Miss Gessler will be seen at the Crystal Palace during the week commencing Monday evening, and on Tuesday afternoon she will appear at the American Grand Opera House, where she will doubtless prove one of the direct attractions of the season.

The lovers of comic opera will have each the opportunity of-day of hearing "Madeleine, or the Magic Kiss," which will be given in two farcical presentations at the Grand Theatre this afternoon and evening by Camille D'Arville and her company.

ON STAGE AND PLATFORM

Current and Coming Attractions at the Local Play House and Concert Halls.

The Sidewalks of New York, next week's attraction at the Toronto Play House, is the latest sensational comedy drama eliciting public approbation. It comes with all the rustic of scenic splendor and rustic melody of modern life. It is a play of no ordinary kind, but a play of no ordinary kind. It is a play of no ordinary kind.

There will be three great features in the Curio Hall of the Crystal Theatre next week, none of which has been seen here before. The first is a play, the second a play, and the third a play.

At the production of "The Messiah" on Monday night, Madame Albani, the greatest Canadian soprano, will sing for the first time in oratorio in America.

PRAYER AND LIFE'S WORK

GUIDING PRINCIPLE AND SECRET OF CHRIST'S POWER.

The Canon DuMoulin tells of the necessary preparation for successful work—how Jesus became a Master in His day. Jesus and the Sabbath—Divine Example for Daily Life.

The Canon DuMoulin's topic at yesterday's noon service in St. James' Cathedral was the "Secret of Christ's Power."

It is evident to everyone who studies the life of our great Lord and Master that there was a wonderful, wonderful power underlying and supporting, influencing and animating that whole blessed life.

On your birthday, on the day when you have formed a partnership, signed the deeds and entered upon a great business, when your friends are gathered, on the first day of your official duties in some important office, when you are appointed to your marriage day, on the death of some dear friend or relative, on any eventful day in your life, have you followed the example of the Master, Christ Jesus?

Men will be interested in the display of spring styles of fashionable footwear in the department at the Toronto Play House, which occupies the entire north gallery on the first floor.

SECURITY GIVEN TIME TO WALK.

He Was Enticed Across the Line From Canada by His Bondsman.

Chicago, March 20.—Sydney A. Slocum has 10 days in which to walk to Canada. He started last night, and carries with him a certified order from Judge Grosscup giving him immunity from arrest for that length of time.

Slocum was a fugitive in Canada. He was arrested here, and his bondsman recaptured him, and turned him over to the Federal authorities.

Slocum said he had no money, and would probably have to walk back to Canada, so he asked for some order showing him a reasonable time in which to walk the distance.

He is now in the hands of the Federal authorities, and is being held in the County Jail.

MONCTON, N.B., IS THRIVING

A BRIEF VISIT TO THE CENTRE OF THE INTERCOLONIAL SYSTEM.

The City Now Has a Population of 10,000

How the Government Railway is Controlled—Who the Officials Are—The Leading Commercial Institutions and Hotels of Moncton.

There is one thing in particular that a sketch or history of Moncton can never be written without, and that is the Intercolonial Railway system, for this is its centre and radiating point, and through it Moncton has gained the growth and achieved the importance it enjoys to-day.

From the northwest the main line enters from Quebec, on the southwest from St. John, N.B. To the east and south the lines extend to Grand, Halifax and Sydney, while a branch also runs east to Point du Chene.

The next famous thing about Moncton is what is known as "the bore"—but this natural phenomenon has been so ridiculously exaggerated in so-called guide books and other publications that it has degenerated into what its name implies—indeed, it can scarcely see for what other reason it could have such a name. From an average height of 60 feet, it is now placed at less than six feet. It consists of a tidal flow up a narrow channel of the Bay of Fundy, and the Pettaucadie River, which flows into it.

It is said that the winter season is not the proper time to interview his boreship, and that in the spring the tides rise much higher, some say over 30 feet sometimes and the view is then much more imposing.

By the Act of Incorporation in 1876 the city government of Moncton has invested in six councillors from each ward, and a chairman elected by them. The act has since been amended, and now there is a mayor, elected by the people, and the councillors are styled aldermen. No salary attaches to these offices. All public expenses must be ordered by the voters. The council prepares each year a detailed estimate of the coming year's probable expenditure. The voters meet and discuss each item at a public meeting called for the purpose, and their decision is binding. The council cannot expend more than \$100 in excess of the amount voted by the voters at that meeting. No debt can be incurred by the issue of bonds without the sanction of the voters. The council also authorizes an ordinary expenditure not included in the estimate annually submitted by the council.

**Moncton's Population.** Moncton's population is now about 10,000. It has electric lighting and a fine system of waterworks, and claims all the rights of a city.

There is room for more population, too, for the country is wide and flat, and plenty of space in which to grow. But until then, there are two classes of people that are in excess, and that are lawyers and doctors. There are about 20 of the former and something like 30 of the latter, rather a strange condition of things when you consider that the people are not fond of either law or medicine, and regard them as similar evils, besides Moncton is a healthy and law-abiding place.

There are some very fine public buildings here, particularly the post-office and Customs House building, the City Hall, the new theatre, and a large brick building near the station containing the general offices of the Intercolonial. This is the most important building in Moncton, and from here the operations of the Government's railway system are directed and controlled.

**Intercolonial Officials.** Mr. Pottinger is the well-known and experienced general manager. C. Colquhoun being his private secretary, and Mr. Thomas Evans chief clerk. Mr. J. M. Lyons is general passenger agent, having as his chief clerk Mr. Price, who also acts as traveling passenger agent. Mr. Archibald is the efficient chief engineer. Mr. F. K. Brown, who was formerly with the Grand Trunk Railway at Montreal, was appointed mechanical superintendent in 1892 and through him many improvements and stock is being built, and modernized as rapidly as possible. Mr. Grant Hall is general locomotive foreman. At the station Mr. J. D. McKnut is chief train dispatcher.

The Intercolonial is represented in Toronto by Mr. W. Waterston, who is Western freight and passenger agent, with offices at 33 York-street, the Rossin House, and the Merchants' information and time-tables, folders, etc., will be cheerfully furnished upon application.

The two principal newspapers of Moncton, which publish daily and weekly editions, are the *Transcript* and *The Times*. The proprietor and editor of the *Transcript* is Mr. J. T. Hawley, who formerly resided in Toronto, having been connected with the *Leader* and the *Globe*. Mr. Hawley is also quite a politician, with pronounced Liberal views.

The *Times* is owned by a company, nearly every member of which appears to be mixed up in some other business. Mr. E. C. Cole, however, is president, with Mr. J. S. Boyd as editor.

Moncton has also two weekly papers, the *Orange Truth* and *The Hornet*. The latter is a lively sheet, and sometimes hits some of the good people of Moncton pretty hard.

From the collector of customs, Mr. J. W. Binney, I gained the information that the annual imports and exports show a steady increase. The following outposts are tributary to Moncton, Shediac, Hillsboro, Harvey and Alma.

**Leading Commercial Institutions.** Mr. H. G. Marr has the leading millinery business. He has a large trade, and imports direct from the principal European firms up to the latest fashion in New York the other day, he secured a large portion of the goods for the spring trade. One of his milliners is now in Toronto getting all the new styles in millinery.

The Moncton Carpet and Furniture Company is now owned and managed by Mrs. McSweeney, and a fine class of goods is always kept in stock. A large order was being given to a Toronto firm while the World representative was there.

L. Higgins & Co. have an extensive wholesale and retail shoe and rubber goods store, with a branch at Halifax. Mr. McLeod has Moncton's fashionable custom tailoring establishment.

J. Flanagan has one of the largest and oldest established grocery stores in Moncton. The other leading dry-goods merchants are William Cowling and J. M. W. White. The Evanses, who also have fine stores on the main street.

man, and also physician for the Intercolonial. J. Connors has the Main-street restaurant.

The Principal Hotels. A description of Moncton would not be complete without notices of the principal hotels, and they are both convenient to the station.

The Hotel American is owned and managed by Messrs. Casson and Chisholm, and, as they are thoroughly versed in the hotel business, the American will find everything that a first-class hotel should be—with well-furnished rooms, a first-class table and large sample rooms for commercial travelers.

The Hotel Brunswick, the proprietor of which is George McSweeney, is nearly opposite the general offices of the Intercolonial. It will be found first-class and very particular. It is finely furnished throughout with large reading and writing rooms, also sample rooms for travelers.

Mr. F. Gallagher, another well-known hotel man, and owner of the Queen's here, and formerly running the Commercial, has now taken charge of the fine new hotel at Dorchester, where he will be found the same pleasant, agreeable and well-served as the former one. He is glad to meet his many friends and guests.

Toronto travelers and readers of the World generally cannot make any mistake in giving these hotels a call, and they will find this paper now on file at all of them.

The Georgetown Herald says it is understood here that between 20 and 30 applicants for the Milton Postmastership. It gives the names of S. H. Hamilton, J. Henderson, E. D. O'Connell, W. C. Beatty and William Clements, local men, but judges that D. Christie of Toronto is the man-in-law of the present member, has a good chance.

Mr. Harry Gardiner of North Cayuga was driving home from Dunnville on the Grand River with a heavy load of corn when the ice gave way. The horses remained on solid ice, but the sleigh was overturned and half a ton of corn went to the bottom. Gardiner's home was at night, and next day went and fished up the balance of his load.

Mr. B. H. Duffin, aged 55, from his house and flogged him, threatening to take him to the bottom of the river against any of them. He was sent to the hospital, and then back to London, Ontario, where he died. The matter is being investigated.

A prominent Torontoian sends us the following item from the Argonaut, San Francisco, March 16, 1896: There has been much interest excited lately by a peculiar kind of steam-boat which is being run in the Bay of Fundy. The boat is built by the local company in that country one from the other.

Tracks connect the lakes, and the boat will be able to run up the river and on ways upon the tracks, and then goes under her own steam across the bay to the other shore.

RYCKMAN'S KOOTENAY CURE

CURED HIM ACCORDING TO HIS SOLEMN SWORN STATEMENT.

After Throwing Away Money for Years the Great "Kootenay Cure" Appeared and He Cured Dependence on Mechanical Appliances to Rise in Bed.

Dominion of Canada, County of Wentworth, Province of Ontario, To-wit: I, Charles Sayer, clerk of the City of Hamilton, in the County of Wentworth, Province of Ontario, residence 119 Han-nah-street west, do solemnly declare that I have suffered severely from Sciatica and Rheumatism for over 20 years. I have been attended by medical men and have taken many kinds of patent medicines and in all having expended about \$130 without being benefited.

I have used four bottles of "Ryckman's Kootenay Cure," and now feel that I am cured of Rheumatism and Sciatica. My general health has improved wonderfully, and I may state that for several weeks before taking the medicine I was unable to raise myself in bed without mechanical appliances.

I recommend the "Kootenay" remedy with the greatest confidence for Rheumatism and Sciatica. It is certainly a glorious tonic for building up the system generally. (Signed) CHARLES SAYER.

I make this solemn declaration, conscientiously believing it to be true and knowing that it is of the same legal effect as if made under oath and by virtue of the Canada Evidence Act. Declared before me at Hamilton, in the County of Wentworth, this 22nd day of February, 1896. (Signed) W. FRED WALKER, Notary Public.
