

RADNOR

A purely natural water, brilliant, pleasantly sparkling and delicate to the taste.

SEVENTEENTH YEAR

SAME OLD TRICKS

Date of Canada's Thanksgiving Day Changed.

THE SCHOOL DELEGATION

Has Arrived From Winnipeg to Confer With the Government.

Bill Some Troublesome Details of the Voted Question to be Arranged, so Mr. W. H. ...

Wanted to see the Schools of Office Seekers ...

to Get E. J. Langvin's Job—Sir Charles ...

to Tupper to Join His Father in Nova Scotia—General News From Ottawa.

Ottawa, Oct. 12.—(Special).—Three or four years ago ...

Government changed Thanksgiving Day to a day different from that on which it is celebrated in the United States ...

At 10-day's meeting of the Cabinet it was decided to proclaim Thanksgiving Day in Canada for Thursday, Nov. 24, the same date as observed in the neighboring republic ...

on which the change is made is based as there is a total suspension of business in the United States, which correspondingly affects Canada, there may as well be uniformity.

Another matter decided upon by the Ministers was to appoint Mr. E. A. Meredith, formerly Under Secretary of State, and J. B. Nason, head of the ...

to investigate and report on the affairs of the Kingston Penitentiary. Other commissions will be appointed to enquire into the administration of the other penitentiaries.

THE SCHOOL DELEGATION. Col. Bob Watson, Commissioner of Public Works for Manitoba; J. A. Cameron, Provincial Secretary, and D. H. McMillan, Provincial Treasurer, arrived here from Winnipeg this afternoon to discuss the school question with Mr. Laurier and his colleagues in official circles it is said that while a basis of settlement has been as good as arrived at between the Dominion and the province, there are still some troublesome details to be disposed of.

The school committee of the province saw Mr. Laurier to-night and made an appointment for to-morrow to meet the sub-committee of the council, which consists of Mr. Laurier, Mr. Scott and Sir Oliver Mowat. Mr. Laurier is in the course of a conversation with the Winnipeg despatch which has already been reached is decidedly premature. It is to finally dispose of this troublesome matter that the present conference is being held.

GOLD PROSPECTS GOOD. Mr. W. McInnes of the Geological Survey Department returned to the city to-day after his season's work in the Lake of the Woods region. Mr. McInnes made an extended exploration of the country in paying quantities very recently discovered. He states that mining development is rapidly taking place.

SWARMS OF OFFICE HUNTERS. The plight in which the Ministers find themselves is shown by the following paragraph in The Ottawa Free Press to-night.

"Office seekers are still swarming about the Ministers and the members of Parliament are lived a misery by the horde of applicants, who seek to secure a position to be found or made for them. It would be well for it to be understood that the spoils system which has been in operation by the Liberal leaders, who have very much to be said for it. Consequently the public service stands as it did, with the exception of reduction of interest of economy. Place hunters should remember this and govern themselves accordingly. No vacancies should be rung up on the departmental blocks."

The foregoing is The Free Press' reply to the Globe's statement that Deputy Ministers are to be fired.

ANOTHER REWIND. And now another good bill is to fall into the hands of one of the faithful. The latest report has it that E. Langvin, Clerk of the House, is to be superannuated and that Dr. Guay, M. P. for Levis, will succeed him. The doctor's name was mentioned by Assistant Clerk Rouleau's place in the Commons chamber, but he does not think good enough to be mentioned in a report to go to the Senate committee. He is to go to the Senate committee to see that the Government has no control over the appointments in the Upper House being on the recommendation of the Cartwright committee. The curious anomaly exists, however, that the Government can superannuate Mr. Langvin, but cannot fill the vacancy thereby created. If Dr. Guay cannot get this position then he will be satisfied with the wardenship of the St. Vincent de Paul Penitentiary.

BORING FOR OIL. Mr. W. A. Fraser, the oil expert, who has been boring on behalf of the Government at Athabasca Landing, has been there all summer, but owing to the late period at which the appropriations were voted this year, little has been done. The boring has been carried to a depth of 120 feet, and a steel casing put down to that depth. The intention is, if possible, to go out 200 feet lower, in the hope of striking a flow of oil. Gas has been freely piped since the casing was put down, but no oil as yet. If the experiment then does not prove to be a success a new location will be tried.

THE NOVA SCOTIA KNIGHTS. Sir Charles H. Tupper left for Quebec this afternoon. He will be joined by his wife and family in Halifax, where they will then proceed to take part in a provincial Conservative Convention at Halifax on Thursday. Sir Hilbert Tupper expects to leave for British Columbia about the 1st of November. He has been retained as counsel for the owners of the Seward, Dolphin, Carolina, Anna Beck and Thornton, five of the American ships seized by the Americans as far back as 1858-7. It is understood that the department has the Claims Commission will meet on some day between the 10th and 15th of November. Hon. L. H. Davies, Minister of Marine

GRAIN MEN ARE NOW ON TOP

Grain Standards Disputes to be Left to the Board at Winnipeg—President Van Horne Consults Sifton.

Winnipeg, Oct. 12.—(Special).—The Winnipeg Grain Exchange has received a memorandum from the Dominion Government, which, it is understood, contains that the whole matter of the disputes as to the fixing of grain standards shall be left to the Grain Standards Board, which meets here in a week or so. It is certain that western men, having in the majority, will reduce the number of grades and recommend that the standard they fix upon this year be made permanent.

SIR WILLIAM MEETS SIFTON. Sir William Van Horne, who was here to-day on route to the Pacific coast, spent two hours this morning in consultation with Mr. Sifton, the prospective Minister of the Interior. What they discussed is the subject of considerable speculation. Sir William proceeded west this afternoon.

WANTS TO DIE. Pearl Wilson, a well-known Winnipeg courtesan, swallowed poison early this morning in the Main-street apartments of her paramour. She lies at the point of death and doctors say she cannot recover.

TO ENTER THE FIGHT. Young Conservatives May Hold a Provincial Convention—Where the Coming Cases May be Held in Toronto.

The motion of Mr. D'Arcy Hinds that a convention of Young Conservatives of the Province be held at an early date came up at the provincial meeting of the Liberal-Conservative Club and evoked some warm discussion.

All of the speakers favored the idea of the convention and recognized the benefits of such a gathering to the party in preparing for the coming provincial elections, but it was thought that the party should stand until after the coming caucus of the Conservative party.

Mr. Hinds stated that such a convention would enthrone the Young Conservatives throughout the province. He pointed out that the new Liberal Association in St. John's Ward was preparing for the party and in view of what they had recently lost through nothing more nor less than lack of organization.

President Robinson was of opinion that the time for a convention was opportune, owing to the Conservative view of the situation. He was generally concurred in by other speakers, and the motion was carried. Mr. C. E. Macdonald, modified his motion to read as follows:

"That a committee, consisting of the president, vice-president, secretary-treasurer and members be appointed for the purpose of considering the advisability of calling a convention of Young Conservatives of the Province of Ontario, the committee to report to the club."

The motion was carried unanimously. The coming caucus of the party was then discussed, and Mr. E. Dumas was elected to represent the party. He moved that the secretary be asked to apply to the club for a hall for presentation on that occasion and the motion passed.

The leading feature of the party will be offered the use of the club's premises for the caucus, and the secretary instructed to extend the invitation at once. The rooms would be most suitable for the meeting and no better adapted place could be found in the city. Should the offer of the club be accepted the smoking concert now under the last night the members of the caucus are in town.

Mr. McGie's motion regarding the election of the Senate was postponed until next week.

Tasteful and Effective. People possessing an appreciation and taste for the beautiful in personal apparel should examine Quinn's immense new stock of neck-ties before purchasing elsewhere. All the newest caprices are shown in exquisite colorings and designs, and with about them that is truly captivating. Although of some bright color, they are not the kind that are audible a block away. The low figure (90c) is the lowest in the same effect on the sale of these new put scarfs as that produced by the points of a spur on a mottled horse.

Federal furnishings—Cormally & Son—170 Queen St. West.

Why go shivering round when you can buy your hats in warm wool? At lowest cash prices, in all sizes, from 34 to 50-inch chest; also, perfect, made buckskin underwear. Those desiring to purchase should call at 35 King-street west.

Cook's Turkish Baths, 204 King W., evening 50c.

Arlington Hotel. 205

This most comfortable hotel offers every inducement to families as a permanent winter residence. Those desiring accommodation should make their arrangements as soon as possible, as the best rooms are being rapidly taken.

THE POPORATIC KITTEN.

It has already secured the western gudgeon, and is now after Billy McKinley's gold fish.

Flow" and handkerchiefs waved frantically every way. An hour the contributions continued. Now a cheque of \$500, now \$25 in pennies, the offerings of a child, excited applause.

Those who had no money began offering jewelry. Miss Shepard, one of the missionary workers, took a stand at one end of the platform. A diamond ring at the feet of Miss Shepard. A colored man handed her his watch, and she gave a cheap but neat iron watch to the man who had given her the ring.

It was impossible to count the money raised in rapid succession till the end of the meeting.

REACH \$110,000. Miss Shepard had seen such outbursts of enthusiasm at meetings before. To each who gave up a watch or an evening's time she presented an engraved on the back of which was "Gold for Iron, for Jesus' sake." Those who gave up their rings received an iron cross with the same inscription.

It was impossible to count the money raised in rapid succession till the end of the meeting.

IN INTERESTING GATHERING AT THE COLLEGE.

HISTORY OF SIXTY YEARS

Since the Famous Institution Got Its Government Charter.

President London, Principal Caven and Prof. Goldwin Smith Give Addresses.

The Result of Federation With Toronto University—Both Were Benefited—Many Prizes Awarded—Dr. Henry Hough, L.L.B., Reads an Interesting Historical Sketch.

Victoria University held its annual convocation in the chapel room last night, before a large number of students and friends of the college. Yesterday was charter day for the college, it being thirty years ago that the institution received its government charter.

A timely article appears in The National Review for October, from the pen of Dr. Dawson, director of the Geological Survey, on "Canada as a field for mining investment." The Dr. does justice to the Ontario gold region.

THE AWARDING PRIZES. The awarding of the scholarships and medals won by the students in the recent examinations last spring came next. On announcing these results, the Chairman said the success of the candidates was a source of great pride to the college.

The following are the medals, scholarships and prizes: The W. E. H. Gold Medal (first year honor class)—A. B. Scott. Special Gold Medal (first year honor class)—A. B. Scott. Aberdeen Gold Medal—A. M. Scott. Ames Medal (first year honor class)—A. B. Scott. Robertson Scholarship (first year honor class)—J. R. Wilson. Chown Scholarship (third year honor class)—J. R. Wilson. Clarke Prize (third year ethics)—G. J. Bennett.

These were presented by Prof. Badgley, Webster Prize (first year English)—Miss M. J. Palmer. This prize was presented by Prof. Fitch. Hodges Prize (first year English)—Miss E. B. Howson; presented by Prof. G. J. Bennett. Wilfrid Laurier Gold Medal in French Composition—donated by Prof. Fitch—Miss Ross.

VICTORIA'S HISTORY. The Chancellor then called on Dr. Henry Hough, L.L.B., to read an address on the history of the University. Young men, he said, were drawn by following sentiment to the denominational college of their choice. Were this sentiment to have been moved probably they would not have been educated at all. For this reason he had endeavored to give to the University a non-denominational character. Victoria began under such auspices, but from the very first the college's halls to all classes and all creeds. Naturally, therefore, the college had a wide representation in the student body, though there was no chair in theology there for 30 years after it was founded.

In 1829 the Methodist authorities began their agitation for an educational institution of their own. Cobourg, "on the old Ontario strand," was the first to be established. It was called the Victoria College and was founded in 1829. It was the first of the kind in Canada.

Dr. Ryerson became president in 1842 and he held the position for a number of years. He was followed by Dr. Burwash, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. He was followed by Dr. London, who held the position for a number of years. He was followed by Dr. Smith, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. He was followed by Dr. London, who held the position for a number of years. He was followed by Dr. Smith, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. He was followed by Dr. London, who held the position for a number of years. He was followed by Dr. Smith, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. He was followed by Dr. London, who held the position for a number of years. He was followed by Dr. Smith, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. He was followed by Dr. London, who held the position for a number of years. He was followed by Dr. Smith, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. He was followed by Dr. London, who held the position for a number of years. He was followed by Dr. Smith, who held the position for a number of years. He was followed by Dr. Hough, who held the position for a number of years. He was followed by Dr. Caven, who held the position for a number of years. ENOUGH SAID.

What word more need be said of the Clothing we make up? They have stood the test in the past and will do so in the future.

MCCARTHY & CO., 203 Queen-st. E., (near Sherbourne.)

THEIR ANNUAL HUSTLE.

The Trinity Medics Had a Big Time Yesterday Afternoon, But There Were No Wicked Elevations.

"Trinity expects every Primary man this day to do his duty." Such was the historic speech, which, portrayed in good round characters, on the blackboard in the lecture hall of Trinity Medical School, yesterday, inspired the sophomore with an insatiable desire for more.

EARL RUSSELL'S UNHAPPY LIFE

Detailed by His Counsel in Bow-Street Police Court—Lady Scott Committed for Trial.

London, Oct. 12.—Lady Scott was arraigned at the Bow-Street Police Court this morning, in company with John Cockerton, a marine engineer, and Frederick East, a brewer, who are principals in the charge of criminal libel.

FROM THE LIMESTONE CITY

The Remains of Mr. Lewis Cartwright at Sir Richard's Home—A Dangerous Tramp.

Kingston, Ont., Oct. 12.—The remains of the late Lewis Cartwright reached here at noon to-day, and were conveyed to the Maple, the Cartwright family home, at 11 o'clock.

ROSEBERY'S RESIGNATION

In Still the Paramount Topic in Political Circles in England—Newspaper Comments.

New York, Oct. 12.—A special cable despatch to The New York Herald this morning says: Public interest is still intense upon the new situation created by Lord Rosebery's resignation.

NEWSPAPER COMMENTS.

The Westminster Gazette, a Liberal organ, says: "Looking at his speech as a whole, we have the liveliest hope that it will have the effect of stirring up right lines and strengthening the Government in making supposed concessions to the Armenians."

EAST TORONTO.

Brakeman's Son Killed at Chicago—Schoolboy's Death a Terrible Tragedy.

Likening a Boy. The family of J. Symon, a roundhouse employe at York Station, are mourning the death of a young boy named John, who was killed at Chicago last week.

THE SUPERINTENDENT OF PRESBYTERIAN MISSIONS TALKS ABOUT HIS TOUR.

He Attended the Meetings of the Synods of Manitoba, the Northwest and British Columbia—He Has Little Faith in the Northwest Settlers Who Filled in the Western States—The Outlook in the Mission Field is Bright.

Rev. Dr. Robertson, Superintendent of Presbyterian Missions, returned to Toronto on Saturday evening, in time to attend the meeting of the Executive of the General Assembly, Western Section, of the Home Mission Society, which began last evening and will continue in session the following days of this week.

IN THE MINING DISTRICTS.

The mining districts of British Columbia are the scene of a very active and profitable business. The production of the precious metals is increasing, and the demand for labor is correspondingly large.

AT THE TORONTO.

Paul Cameron came here yesterday comparatively unknown to theatergoers. Before the end of the week it is safe to say that he will have become a name in Toronto that will ensure him a hearty welcome.

THEY'RE SELF-HELPERS.

"The people of the West are endeavoring, in the face of adversity, to help themselves, and are looking for assistance from the church only when that is absolutely necessary."

THE MANITOBA CROP.

Manitoba's admirable little work, the "Star-Bat Mater," was given in Massey Hall by the Philharmonic Society last night before a large and enthusiastic audience.

NO BLAME ATTACHED.

To Anyone Over the Death of the Boy Joseph Johnson. Coroner Johnson yesterday afternoon held an inquest on the body of the little boy who was killed Friday afternoon near the intersection of the Danforth and Bay streets.

PERSONAL.

Mr. N. P. Nelson, St. Louis, is in town. Mr. Harry Jackson of Ottawa is in town. Miss C. Kirkpatrick, London, is visiting in town.

Another Wealthy District in British Columbia.

AN INTERESTING LETTER From a Newspaper Man Who Has Been Over the Valuable Country.

The C.P.R. Taking No Steps to Build the Crown's West Pass Railway Until the Government Takes Action—Big Stock of Mining Shares Sold—Saw Bill Ore on View in Hamilton—Profits in Rosland Stock—This Column is for Readers Who are Interested in Mining.

Sir William Van Horne is reported to have stated in an interview at Winnipeg on Saturday that the C.P.R. was doing nothing as regards the proposed Crown's West Railway, and would do nothing until the Dominion Government took action. Delays in the construction of the line are regrettable, and it is to be hoped the Government will see its way clear to ensure the building of the road at an early date. The railway will benefit the trade of Eastern Canada, while, at the same time, it will assist materially in the development of the British Columbia gold regions.

Yester day's news. This letter speaks for itself. Editor World: I have been a close and interested reader of the mining news which, for several months past, has occupied a prominent position in the columns of The World, and while I now write you a brief paragraph or two by way of what might call fault-finding, I must acknowledge the grand work which you and your staff and a very few other papers are doing for Canada in devoting space, energy and enterprise to the laudable purpose of endeavoring to impress upon Canadians the great importance of the vast mineral resources of their own country. It may seem strange to say that the people of Canada require such education, but it is, nevertheless, true; and while we as Canadians often laugh at the English and Americans regarding Canada, it is not so that there is yet much for the people of the cities and towns of Ontario to learn, not only of the great mineral wealth which lies in the mountains of British Columbia, a region through which it was held to be almost criminal to neglect, but also of the late Sir John A. Macdonald and his able colleagues, like Sir Charles Tupper, to build a railway, but also of the most westerly portion of this Province of Ontario traversed by the C. P. R.

The point that I wish to bring forward is the prominent belief just now to the Trail Creek district to the almost total exclusion of other equally important, not more important, sections. Paul is found by some that Toronto papers are giving such attention to British Columbia and neglecting Ontario. I think it would be unfortunate at the present juncture for any newspaper to spring up between the different Canadian fields for mining investment and to neglect the little room for complaint, as it has lately been coming in for its share of notices, and justly so, for mines like the Sawbill, the Suliana, and the Empress no longer leave any doubt as to the richness of that region.

What I find fault with is that Trail, Rosland, Nelson, and the Slocan are made to represent the whole of British Columbia, and equally as neglected. I am not referring now to the Littleport of Cariboo districts, or even to the Big Bend of the Columbia, but to the great region lying between Trail Creek and the Cascades in the same latitude. To-day I read in The World that the War Eagle was to be sold for \$300,000 on Oct. 15. How long have we been hearing about this dividend, which, like Christmas, was just coming, and yet I have failed to see mentioned in a single Toronto paper that the Cariboo Quartz Mines, the Camp McKinney, about 60 miles further west than Trail, which, with its ten-stamp mill, has been grinding out its monthly dividends for shareholders for the last two years, and in September paid a dividend of \$16,000, or 20¢ per share. This one mine has turned out \$200,000 in bullion, and yet here in the east the mine in which it is situated is never heard of. The World is the only paper in the east in which I have seen the name of this camp mentioned at all, and the first reference that I saw there was in your columns was a three or four-line item in the issue of the 19th, or thereabouts, stating that during the last 14 days of July the ten-stamp mill of the Cariboo Quartz Mines had cleaned up 334 ounces of gold, or, in round numbers, about \$80,000.

Also take the dozen or more mining brokers now doing business in Toronto, and with the exception of Campbell, Currie & Co., Sawyer, Murphy & Co., and perhaps two or three others who have heard about the mines, are scarcely any of them who know anything about Camp McKinney, or about the numerous rich camps on Boundary Mountain, which lies east of McKinney about 20 miles nearer to Rosland. Eminent experts who have examined that section say that the mines on Boundary Mountain will leave the Trail Creek mines in the shade once the railway reaches there, and that what most likely take place early next summer.

Camp McKinney is an older camp than Trail Creek, and I want to tell you even a little about the difficulties of transportation against which the mines there and on Boundary Creek have had to contend who would wonder that a dividend had been paid at all, much less have been turned out monthly without any flourish of trumpets, while dividends from the leading mines of Rosland are heralded half a year ahead and speculated upon for months before they are distributed to shareholders.

The World, The Globe and The Mail and Empire have not only neglected the west, and not one of them has written a letter from McKinney or Boundary, or in any way shown that they have gone near these parts. Is it any wonder, therefore, that the readers have but an imperfect idea of the extent and richness of the mines of British Columbia? Would it tell your readers a little of what these press representatives might have seen if they had trusted themselves to the hurricane deck of a canoe for a week's journey across the mountains to the mining centres of the Kettle River, Boundary Creek, McKinney and the lower Okanagan districts? Was my lot to do in a journalistic capacity some four years ago, before there was any boom, or even the appearance of one, but I know that your space would not permit.

In the above I do not wish to be understood as having any desire to depreciate the Trail Creek district. On the contrary, I have good reasons for wishing it the greatest measure

TORONTO MINING AGENCY.

We have at our office a block of "YALE" which we will sell at 40¢ Per Share.

"YALE" has been taken off the Rosland market and the amount of the public will have to purchase at this low figure, as when the stock is again offered it will be at a very high price.

"YALE" is a working mine, with a good location, and is destined to be a money-maker. Do you want to share in the profits? Special 2000 shares Deer Park at 30¢ 3/4.

Cor. Toronto and Adelaide-sts. Tel. 2012. Open evenings 8 to 9.

of success, and am willing, like the Queen of Sheba, to add my belief that the half has never been told about it, in spite of the fact that it has been so industriously bragged about, and very often and with a view to the public, are accused of any selfish interest in trying to boom Cariboo stock, for I don't own a share of it. Let other sections which are equally as rich as Trail Creek, Nelson or the Slocan, and equally as deserving than these, be done equal justice to by those making a pretence of telling the people of the East about the mines of British Columbia. A. Mcgraw.

Winton, Oct. 9. I say "quartz" because people in the East are in the habit of calling the proposed Crown's West Railway, and would do nothing until the Dominion Government took action. Delays in the construction of the line are regrettable, and it is to be hoped the Government will see its way clear to ensure the building of the road at an early date. The railway will benefit the trade of Eastern Canada, while, at the same time, it will assist materially in the development of the British Columbia gold regions.

Yester day's news. This letter speaks for itself. Editor World: I have been a close and interested reader of the mining news which, for several months past, has occupied a prominent position in the columns of The World, and while I now write you a brief paragraph or two by way of what might call fault-finding, I must acknowledge the grand work which you and your staff and a very few other papers are doing for Canada in devoting space, energy and enterprise to the laudable purpose of endeavoring to impress upon Canadians the great importance of the vast mineral resources of their own country. It may seem strange to say that the people of Canada require such education, but it is, nevertheless, true; and while we as Canadians often laugh at the English and Americans regarding Canada, it is not so that there is yet much for the people of the cities and towns of Ontario to learn, not only of the great mineral wealth which lies in the mountains of British Columbia, a region through which it was held to be almost criminal to neglect, but also of the late Sir John A. Macdonald and his able colleagues, like Sir Charles Tupper, to build a railway, but also of the most westerly portion of this Province of Ontario traversed by the C. P. R.

The point that I wish to bring forward is the prominent belief just now to the Trail Creek district to the almost total exclusion of other equally important, not more important, sections. Paul is found by some that Toronto papers are giving such attention to British Columbia and neglecting Ontario. I think it would be unfortunate at the present juncture for any newspaper to spring up between the different Canadian fields for mining investment and to neglect the little room for complaint, as it has lately been coming in for its share of notices, and justly so, for mines like the Sawbill, the Suliana, and the Empress no longer leave any doubt as to the richness of that region.

What I find fault with is that Trail, Rosland, Nelson, and the Slocan are made to represent the whole of British Columbia, and equally as neglected. I am not referring now to the Littleport of Cariboo districts, or even to the Big Bend of the Columbia, but to the great region lying between Trail Creek and the Cascades in the same latitude. To-day I read in The World that the War Eagle was to be sold for \$300,000 on Oct. 15. How long have we been hearing about this dividend, which, like Christmas, was just coming, and yet I have failed to see mentioned in a single Toronto paper that the Cariboo Quartz Mines, the Camp McKinney, about 60 miles further west than Trail, which, with its ten-stamp mill, has been grinding out its monthly dividends for shareholders for the last two years, and in September paid a dividend of \$16,000, or 20¢ per share. This one mine has turned out \$200,000 in bullion, and yet here in the east the mine in which it is situated is never heard of. The World is the only paper in the east in which I have seen the name of this camp mentioned at all, and the first reference that I saw there was in your columns was a three or four-line item in the issue of the 19th, or thereabouts, stating that during the last 14 days of July the ten-stamp mill of the Cariboo Quartz Mines had cleaned up 334 ounces of gold, or, in round numbers, about \$80,000.

THE EMPRESS MINING CO. OF ONTARIO, LIMITED.

Incorporated Under Ontario Laws. Total Number of Shares 1,000,000 of \$1.00 each.

Shares at 10c each (Original Issue) 450,000 Treasury Shares, to be sold at 25c each 150,000 Shares left in Treasury 400,000

Shares of this company are non-assessable and free from liability. 1,000,000

DIRECTORS: President, Walter Ross, Rat Portage Geo. A. U. the son, Fort William Geo. Clavet, Port Arthur John T. Horne, Port William Stock Transfer Office, Trusts Corporation of Ontario, Toronto. Solicitors, Blake, Lash & Cassels, Toronto. Brokers, Emilius Jarvis & Co., Toronto

LOCATION: The Empress Mine is on location No. R 569, situated on Jackfish Bay, Lake Superior, about four miles from C. P. R. Station, and two miles from navigation. The property contains 160 acres.

PRESENT PLANT: The mine is in active operation and is equipped with a 10-stamp mill, double-track tramway, storehouse, blacksmith shop, boarding-house and waterworks, and is daily turning out gold.

INCREASED CAPACITY: The results shown from the workings on this location have been so gratifying that the directors feel warranted in doubling the mill capacity, putting in compressor plant and chlorination plant, and pushing further development, to pay for which the shareholders have authorized the sale of 200,000 Treasury Shares at 25 cents on the dollar.

Stock to be listed on Toronto Stock Exchange. As all the regulations and requirements called for by the Toronto Stock Exchange to establish the bona fides of a mining enterprise have been complied with, application was made to list the stock, which application has been accepted and shares will be listed at an early date.

Meanwhile Subscription Books will be opened at the office of the Undersigned at Noon on Monday, the 12th day of October, for the 200,000 Treasury Shares, at 25 cents on the dollar. Shares will be allotted in the order subscriptions are received.

Intending purchasers of mining shares will please note the following features of this enterprise:

- 1. Incorporation is under Ontario laws. 2. The company is not in the experimental stage, but an established enterprise extending its operations. 3. The directors are well-known citizens of Ontario, favorably known to all leading bankers. 4. All the evidences of bona fides required by the Toronto Stock Exchange have been complied with. 5. The stock will shortly be listed on Toronto Stock Exchange and receive a daily quotation. For Prospectus and further particulars apply to the undersigned.

EMILIUS JARVIS & CO., 23 King-street West, Toronto, Ont.

Juliet Gold Mine Is Now Under Operation. First assay showed \$28 to the ton at a depth of six feet. This stock will be sold for a short time at 12 cents. S. J. SHARP, Broker, 15 YONGE STREET.

Preserve Your Hair and you preserve your youth. "A woman is as old as she looks," says the world. No woman looks as old as she is if her hair has preserved its normal beauty.

Ayer's Hair Vigor. The hair is the crown of glory, and it is the first thing that shows the signs of age. Ayer's Hair Vigor restores the hair to its natural color and growth.

BOARD OF WORKS. A GREAT CONVENTION.

Engineer Healy's Son Dismissed—A Motion to Censure a Couple of Corporation Officers. The Board of Works met at 10 o'clock yesterday in order to enable the council to meet in the afternoon. Aid. J. Graham was the only absent member.

The City Clerk and Solicitor reported in reference to the petitions for brick pavement on Spencer-avenue. First there had been three petitions in reference to the matter. The first asking for a pavement was sufficiently signed by the second petition the names of sixteen were taken off the list, and the third petition, which favored a foundation of three inches of concrete, was the only one remaining.

TO CENSURE OFFICERS. A report from the Street Commissioner and Chairman of the Board of Works, in reference to the responsibility for an accident, which occurred in Queen's Park in December last, was read. It was a serious injury to two parties who obtained heavy damages from the city, was read.

IN SPITE OF MR. LAMB. There was a protracted discussion upon the proposal to put a strip of the Arthur-street pavement three feet wide in proper repair. The proposal was to put a strip of the Arthur-street pavement three feet wide in proper repair. The proposal was to put a strip of the Arthur-street pavement three feet wide in proper repair.

THAT BIG WATER MAIN. At the previous meeting of the Board, Aid. Lamb strongly opposed the proposal to lay a 24-inch main on Front-street, from Simcoe to Church-streets. He now more strongly supported the proposal, and the money could be raised by a special rate.

CANADIAN CAPITAL TIMID. It was then, after proving to the public that natural gas was really to be had in this locality, a motion was made to interest Canadian capital but after repeated fruitless attempts to get the part of the local capitalists it was decided that either Canadian capitalists were asleep to their own resources or afraid to speculate with the resources of their own rich country.

THE GAS EXPORTED. During the gas boom eight or ten years ago the intention was, when gas was discovered in sufficient quantity, to pipe it to Welland, St. Catharines, Niagara Falls, and even Hamilton, to be used for both domestic and manufacturing purposes. The difficulty, however, of obtaining money to meet the schemes and the tremendous expense of piping put an end to the cheap fuel dreams of the Canadian towns.

GAS BECOMING EXTINCT. The consequence is that the gas is becoming extinct, and, in the opinion of some experts, it is only a question of a few years before the fields are exhausted, although west of the Canal there is a very large extent of territory unexplored.

BORING FOR OIL. Two years ago, while exploring new territory for the Provincial Company found traces of oil. This was with a profound secret for some time, but the company were not to be in the property in the vicinity. Since the time they have expended over \$30,000 in search of oil in various places, but have not succeeded in wells, but have not succeeded in wells, but have not succeeded in wells.

ARE OUR WELLS DRYING UP? The Flow on the North Shore of Lake Erie Decreased by One-Half. Compared With What It Was a Few Years Ago—How the First Wells Were Sunk—Gas Was Exported to Buffalo Instead of Keeping It in Ontario—It Meant the Employment of Men—Boring for Oil.

Port Colborne, Oct. 12.—(Special.)—Exhaustive literature relative to the gas wells on the northern shore of Lake Erie has been circulated through the press since the first paying strike was made about ten years ago, but for the past few years the public has heard but little news from the fields. Occasional rumors floated abroad that many of the wells were drying up, but the statements were never corroborated with any definite facts.

THE FIRST WELL. During the great oil boom of thirty years ago, when the earth was being pierced all over the province in hopes of making a strike, it was estimated that about a mile west of this place, Great prospects, indeed, were speculated during that short and exciting period, but the result was, after going to the depth of about 800 feet, where the gas was expected to be found, only a pitance of natural gas, which made a small flame when lighted, the trifling gas affair was almost forgotten, but a few local business men, who were not so easily discouraged, were looking for gas in the district.

At the present time, the wells are being drilled to a depth of 1000 feet, and it is expected that the gas will be found in sufficient quantities to justify the cost of the wells. The wells are being drilled to a depth of 1000 feet, and it is expected that the gas will be found in sufficient quantities to justify the cost of the wells.
