You are Welcome To this way to white teeth

You see white teeth wherever you look today, for millions of people use a new teeth cleaning method. Leading dentists everywhere advise it.

Film dims the teeth The teeth's great enemy is film. It clouds their beauty and it destroys the teeth. Most tooth troubles are now traced to it.

A Gift A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

The method has now been found. Convincing clinical tests have amply proved its efficiency. And now the way is embodied, for daily use, in a dentifrice called Pepsodent.

Three unique results Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to dry by day combat it.

Two other new-day requisites are also found in Pepsodent. So this tooth paste in three ways brings whiter, safer teeth.

KILL DIRECTOR; LOCK UP STAFF AND ROB BANK

Seven Auto Bandits in Sensational Raid on a Maryland Institution. Rockville, Md., April 27—Seven automobile bandits shot and killed Francis M. Halliwell, a director, drove the clerks and officials at the point of revolvers into the vault, locked them in robbed the First National Bank of Sandy Springs, Md., of \$4,500 in cash, and escaped in their high powered car. Posses of citizens and detectives from Baltimore were searching for them last night. One posse came up with the bandits about dusk but after shots were exchanged the bandits were off again.

It was at the closing hour of the bank machine stopped by the action of the bank. Frank Miller, a clerk, was about to bolt the front door when he saw the big car stop. Five of the bandits dashed into the bank, brushed Miller aside and turned automatic revolvers upon the staff. Hands up, all of you, demanded the leader of the gang. Mr. Halliwell became deaf of deafness did not respond.

The other outlaws, interpreting his failure to obey as either defiance or an attempt at a subterfuge, fired. Halliwell, unarmed, rasping with pain, and fell dead.

After emptying cash drawers and putting the money in bags, the bandits hustled all the bank men and Miss Paul Brooks, a clerk, in the vault and escaped.

Bit of Storm in Debate — Report on Importation of Wines From France.

(Canadian Press.) Ottawa, April 27—Yesterday in the first reading of the bill providing for the importation of wine from France, a bit of storm in debate was given to a bill amending the animal contagious diseases act.

Second reading was given an amendment to the opium and drugs act, and the bill was considered in committee.

A stormy debate arose on a motion to go into supply. The government was charged with withholding information regarding the national railway and merchant marine. The minister of railways said that questions put by the opposition were for political purposes and private interests.

There were 899,808 gallons of non-sparking and 360,846 gallons of sparking French wines imported into Canada during the fiscal year from 1918 to 1919 inclusive. Joseph Archambault was informed by Hon. Martin Burrell. The non-sparking wine was valued at \$417,895 and the sparkling beverages at \$2,097,082.

His William Mackenzie's private car was not included in the rolling stock of the Canadian National Railway taken over by the government of William Lyon Mackenzie King as president of the railway company, enjoys the transportation privilege granted to all executives of railway companies, but no special privileges in the matter of running rights or transportation to lobbyists and solicitors are granted to anyone. By George! I Came Near Forgetting That Cake!

Pretty serious mistake to make when the head of the house asks the husband to do an errand and have him forget—as any experienced married man can testify. Especially when the orders are in the direction of bringing home something for the table with company due for the evening.

But it's never too late to remember to come here to this busy bake place for table things because we are open every night just for such emergencies.

So our friend up in the corner of this space may yet secure a reprieve for his near-crime and appease the wrath of the divinity that awaits him at home.

Everything that the palate could possibly demand in the baking line is here in wide abundance and made by a past master in the art.

Obeys that impulse!

THE CIVIC ELECTIONS.

The total number of names on the voters' lists in St. John is 16,789. Of these, 6,700 did not have their taxes paid. This left 10,084 qualified to vote. There were 7,988 votes cast yesterday for the majority candidates. That is to say, while a large proportion of the qualified vote was cast, it amounted to less than half the number of those who might have voted had all the taxes been paid. Certainly those who do not pay their taxes have no cause for complaint as to what those qualified may do on election day. It cannot be said that public interest in civic affairs is as active as it should be, although more was displayed in the final elections than two years ago. It may be that a revival of interest is now due. A feature of yesterday's result is the return of Dr. Frink to City Hall. The vote in view of the fact that he had no organization makes it clear that the electors regarded him as a desirable member of the new council. Mr. Thornton led the poll in the contest for commissionships, and has every reason to feel that he has the confidence of the people who have been watching his course as a member of the city council. Mr. McLellan came close to Dr. Frink that while defeated he cannot but regard the vote polled for him as an expression of a feeling on the part of many citizens in every ward that he would make a good member of the city government. Mr. Campbell, though 521 votes behind Mr. McLellan, and though he appealed solely as the candidate of Labor, made an excellent showing. In the majority contest Mr. Chealey suffered from the popularity of his younger opponent, and the fact that he had himself been so long out of public life in St. John that to the younger generation he was almost a stranger. In Lansdowne and Lorne wards, in the north end, where he was so well known personally by every resident in years gone by, he received more votes than any other candidate except Mr. Thornton.

THE NEW MAYOR.

Mr. E. Allan Schofield has received from his fellow citizens an expression of confidence that is at once a tribute to his business ability and his worth as a man. His term of office as mayor will be a period big with possibilities for St. John. Of paramount importance is the question of harbor improvement, and of making the government and the council realize that this port is vital to the trade and transportation system of Canada. Mr. Schofield's views regarding this vital question were expressed in one sentence at a recent meeting of the Commercial Club when a speaker observed that the path to Ottawa was a path strewn with broken promises. "We have not travelled it half often enough," interjected Mr. Schofield. There is also the question of housing, which must be grappled with in a larger way by the city council, for without more homes we cannot comfortably accommodate the present population, to say nothing of a hoped-for increase. There is also the question of attracting new industries, which is allied on the one hand with that of cheaper power and on the other with additional housing accommodation. The future relations of the city with the New Brunswick Power Company and with the water-power policy of the provincial government will call for serious study by the city council as well as the community at large. The questions of street improvement, improved water service, collection of garbage, matters relating to public health, recreation and social welfare, taxation and others of greater or less importance will call for serious consideration and wise decision. Above all, there is need of a progressive and confident leadership which begets confidence and commands support. This city, which is in so strong a financial position, ought first to know what it wants and then go after it with no fear of the future. Its pre-eminent position as a national port has been established, and with cheap power, which now seems to be in sight, and its facilities for transportation, there is every reason for a serene optimism concerning the future, if the people will but prove their faith and quality. Mr. Schofield has demonstrated in his own business that he lacks neither vision nor capacity. There are many who remember when as a young man he began business in one room on Water street, after having studied the paper business from the mill up; and from that small beginning there has grown a trade which requires a large office and sales and manufacturing building, and warehouses with large railway frontage for export trade. His fellow citizens and the people of the whole province revere Mr. Schofield's fruitful and unflinching activities during the war period; and the New Brunswick Game and Resources League is chiefly due to his initiative. He has grown accustomed to dealing with large matters in a large way. He is now to stand the test in a new field of effort, and he does so with the consciousness that his fellow citizens have given him a clear field, and an exceptional expression of their confidence.

MOVING THIS WAY.

"Proportional representation," says the Toronto Globe, "has been brought nearer the stage of practical politics in Ontario by the prime minister's promise to refer the question to a committee of the legislature for inquiry into a report. It was introduced in the form of a bill by Mr. H. P. Hill, the Conservative member for West Ottawa, who contended that the experience of other countries had vindicated the system triumphantly." Mr. Hill did not have to go far afield for an argument. He was one of five candidates and got only one-third of the total vote, yet he was elected. The Times recently gave illustrations from Nova Scotia and British Columbia, as well as from Ontario, to show how election results gave the defeated party little or no representation in the house. The decision of the Ontario government to appoint a committee to investigate the matter follows the adoption of proportional representation in Manitoba. In the last municipal elections in Ireland the system worked well. Now the city of Montreal is taking up the question, and the Herald says: "At the meeting of the charter commission on Wednesday there was a discussion as to providing in the new charter for the city of Montreal that all elections shall be held under the Hare system of proportional representation. A decided preference for the adoption of the system here was shown, and the commissioners are to listen shortly to an exposition of it."

PLANT A GARDEN.

The problem of increased production in the United States is made more difficult by a shortage of farm labor. The secretary of agriculture fears it will be as acute as in 1918, and business and college men are again being appealed to, to spend their vacation on the farms, especially in harvest time. Reports to the department indicate that the supply of farm labor is only 72 per cent of the normal, compared with 84 per cent last year—and this in spite of an advance of 15 to 25 per cent in wages. One result will be a large acreage turned into grass and other crops requiring the least labor. Such a condition in a great food producing country emphasizes the need of preparing for as large a production as possible in Canada, and in this will help. The little garden that produces a few potatoes and other vegetables will be no less important a factor for this year than in the war years, for supplies are still at a very low level. It is not wise to trust to luck in the matter of food. There is a vital need for greatly increased production, which is the only thing that will bring prices down. The peace garden is as essential as the war garden, and may be made to yield great service, for the aggregate yield of gardens all over the country will add in a very notable way to the total quantity of produce made available during the coming crop season. A survey of the public and separate schools of Toronto shows that more than 400 pupils are afflicted with defective eyesight. The matter was discussed at Government House last week, and the Globe says: "Mrs. C. W. Holmes of the Canadian National Institute for the Blind told in detail of the results obtained in the public schools of the United States where special teachers are supplied for these handicapped children. There had been restoration of impaired sight, a decided gain in the scholarship of the pupils and an improvement in their physical condition, due to the removal of nervous strain caused by weak eyes." As a result of the discussion it was decided to appeal to the Board of Education for special classes in Toronto. Classes for defective pupils, whether it is merely their eyes or whether they are mentally below the normal, are a necessity in every city.

OUR DAY. I know not what tomorrow's dawn may bring along my way; perhaps by then I may be gone from this cheap ball of clay. This day, however, is my own, the day that's now on deck; and I will chase the shining bone with bells around my neck. I'll do a dozen helpful stunts before the night arrives; assist some weak, despairing runts, and brighten up their lives. I've played a lot of knaish tricks for which I should rot, and now I should my record fix; for this day is my own. I cannot bink on any day that hasn't yet had birth; before it comes and slides away I may fall off the earth. But at this writing I am sound and full of joy, and now I am full of life, I care around with high and buoyant step. Tomorrow they may measure me for monumental stone; today I'm busy as a bee, for this day is my own. So while I am a dweller here you'll find me on my job; today I'll rid the widow's tear, and can the orphan's sob.

SLAYING 260 AMERICANS.

On April 26, 1913, York—as we know it now—Toronto—was captured by a fleet of Americans who had crossed the lake from Sackett's Harbor. General Dill was in command of the attackers and after the fortunes of the day had resulted in the defeat of the British under Sir Roger Sheaffe he marched his army into the place near evening. The British were in retreat towards Kingston. General Pike had marched his army of about 1,700 men into York and was talking with some of the British when an appalling explosion took place within the fort. It was the second of the day, one having occurred before the British evacuated the place. This disaster was in the powder magazine and as a result General Pike was almost instantly killed with 260 of his men. This perished a man who had done wondrous work as an explorer in the Rocky Mountains and one who had given his name to a lofty peak of that range. The cause of this explosion is just as much a secret now as it was at that time. It was the national records in the affair provoked great indignation among the United States troops, as the buildings with all their contents were consigned to the flames in spite of the protests of the Rev. Dr. Strachan who was acting as a peace negotiator.

CALMER AND BETTER DAYS.

(Yorkshire, Eng. Post.) We who believe that Anglo-American friendship is full of hope and promise for all the world must realize in the strain which will be imposed on the relations between the two countries during the next eight months. The treaty might be discussed as a constitutional issue which raises in its most acute form the division of sovereignty between president and senate. It will not be so discussed. It might be discussed as a political issue, as an instrument defining the principles whereby America is to shape her conduct towards all other states. Again it will not be so discussed. In nine out of every ten of the millions of speeches which will be delivered between now and the elections the treaty will be discussed as an Irish issue. Men talking about it will denounce British tyranny, and as party feeling runs higher and higher, and effects can more conspicuously be obtained by the most blatant, emotional appeals, these denunciations will become more abusive. This is the prospect we had in mind when we put in our plea for tact, patience and good temper. Happily the election will be held in November and the new administration will not take office until the following March. There will be time to discuss the treaty before the League of Nations again becomes a matter of practical discussion between the American executive and European governments. Not till then will it be possible for Europe to address itself to the sincere political discussion of the American people—that very quality which, rightly directed, will become the very mainstay of international concord.

FEW MARRIED PAUPERS.

(San Francisco Chronicle.) Notwithstanding the jokes on the married man, he is nearly 100 per cent proof against the kind of adversity that casts the individual on the rocks of disaster and makes him a human derelict. This is the statement of Brigadier General Reid, in charge of the Salvation Army's industrial home. According to Reid, the men compelled by just showing that less than 1 per cent of the men seeking shelter and refuge in the industrial home are married. Reid accounts for this by the fact that the married man through the responsibilities carried by him declines to drift into the single man falls in. "I have talked to hundreds of men coming to the home and find the cases pretty much the same," said Reid. "Something stifles the man's ambition in great measure, and he is content to develop his spark of initiative strong enough to make it withstand adversity. Consequently the German who has here are men whose homes have been broken up. They are comparatively easy to get on their feet, and the single man is his hardest problem, and even he is capable of redemption if we can find a sustaining interest to engage his attention."

FEWER GERMANS THAN NOW.

By a strange irony, San Remo, the meeting place of the entente premier, is, or was, a veritable German "stronghold." Although on the Italian Riviera, and a queen among the watering places, which stretch from the little frontier town of Ventimiglia to Genoa, it was practically "discovered" by the former Kaiser's parents. Here Kaiser Frederick spent some of his latter days, and there is a tablet that took effect outside the building in which he took up his residence. Consequently German visitors here more frequently on the promenade than English. The British who visited San Remo, before they ventured out to a hotel of their choice, and tried to convince themselves that the Germans were more or less innocents. The Germans returned the compliment. Albasia, the "Niece of the Adriatic" facing Fiume, is another case of a German "discovery" on a soil which, though not Italian property, has strong Latin associations. The "discovery" in this instance was the former Kaiserin, who made several annual visits there. In those days, Albasia had its full showing of royalty, and to see the former King of Roumania and his queen, Carmen Sylva, afoot on the promenade or seated on the terrace of their villa, was by no means an uncommon occurrence.

WHEN BOYS WENT TO SEA.

(Occasional in Halifax Recorder.) The call of the sea came to the boys of St. Water Street when very young. This old seaman-stevedore informed me that he was watered away in West India brig when he was but fourteen years of age. The boys became expert seamen so far as shunting out sails and stowing them aboard, before they ventured outside of the lighthouse. Their play grounds were on the water front, among fish and molasses. They moored from a school, climbed the rigging, and were taught by the mates of the vessels in port to lend a hand, after a wet day, to shake out the canvas, and when dry, clew up and furl it. The boys would divide themselves into watches, under a mate, who would direct the operation, stowing the top-gallant and royal sails in a secure, neat and shipshape manner. To illustrate the desire of the school boys of fifty years ago for the sea, the old waterfront building related incidents connected with his early school life. He related how, upon the morning assembly would mention a certain name, and an answer would come back, "outside the lighthouse, sir," from a schoolmate who was in the secret of the absent lad's disappearance. In this manner many boys became seamen, returning with quaint stories of far off ports and strange peoples. These things happened on the days when masts distinguished the shipping—no funnels.

BEGINNING TO TALK BACK.

(Regina Leader.) Owing to the violent anti-British and anti-Canadian campaign being conducted in the Hearst newspapers throughout the United States, the Leader Publishing Co., Ltd., has decided to bar the following Hearst publications from the advertising columns of The Morning Leader: Cosmopolitan, Harper's Bazaar, Good Housekeeping, Motor Boating, Hearst's Motor, and The Leader. This action on the part of the Leader Publishing Co. will entail a considerable loss of revenue at a time when every newspaper is striving to make revenue catch up to advancing expenditures, but we feel that any such loss will be more than offset by the knowledge that our action is in the interest of British solidarity, and will be heartily endorsed by our thousands of readers throughout Saskatchewan.

IMMIGRATION OF ENEMY ALIENS.

Some interesting light is thrown on the workings of Canada's immigration policy by the character of the incomers during the first year or two of the war. From April 1, 1914, to March 31, 1915, enemy aliens—Austrians, Bulgarians, Germans, Hungarians and Turks—totalled 8,664, found entrance into Canada. This was just four times the number of Canadian officers and men being killed in the war up till Nov. 30, 1915. Even more surprising perhaps are some figures as to naturalization. Up to Nov. 30, 1915, the total Canadian casualties of all ranks were 50,017. During the approximately parallel war period of 1914 and 1915 Canadian naturalization was given to 13,065 incomers from central and southern Europe, of whom 8,988 were avowedly Austrians, 1,296 Germans, 821 Hungarians and 580 Turks. Truly we have a Canadian melting pot. These figures are from "A Study of Canadian Immigration," by W. G. Smith, shortly to be published by the Ryerson Press.

HOW FOREST FIRES START.

The rise in the price of lumber has awakened all Canadians to the fact that the forests comprise one of Canada's greatest resources. The land on which our forests stand is in the majority of cases not fit for farming, and consequently, the time when our forests are growing thereon represents a dead loss.

Forests cut down grow again with comparative rapidity, but areas burned over by fire are slow to reproduce, and when trees come on again they are likely to be of inferior kinds. Thus there is every inducement to save our forests for the use and to save them from fire. Yet in Canada eight or ten times as much timber has been burned as has been cut over governments and lumber companies are now fighting forest fires, but they still take a terrible toll. Fires start from many causes, but camp-fires left alight by tourists and hunters, and cigarette stubs and burning matches thrown carelessly into the underbrush are among the most prolific. It is to the advantage of every citizen, young and old, to aid in keeping down the forest fire evil.

RECENT WEDDINGS

William Ira Woody of this city and Miss Arlath G. Gillette, also of St. John, were united in marriage at 4 o'clock yesterday afternoon at the residence of the officiating clergyman, Rev. F. S. Dowling, 88 Duke street. The bride is a daughter of Mrs. Gillette, matron of the Old Leader Home, Broad street. They expect to reside in the city.

Moncton, N.B., April 26.—A quiet wedding was solemnized at St. Bernard's church this morning when Miss Hazel Dawson, youngest daughter of Peter Dawson, became the bride of Harry Day, son of Michael Day, Rev. Father E. J. Savage officiated. Mr. and Mrs. Day will reside in Moncton.

Miss Julia Lorena Brown and George R. Morell were united in marriage April 14, in Hatfield's Point, by Rev. J. E. Gosline.

Captain R. N. Winslow, formerly of Fredericton, and a graduate of the University of New Brunswick, was united in marriage recently in Chicago to Miss Eleanor Van Vliet.

RECENT DEATHS

The death of Sir Malachy B. Daly, K. C., M. G., former lieutenant governor of Nova Scotia, took place at his home in Halifax last night after an illness of several weeks. He was a prominent lawyer in Halifax and for several years was a member of the house of commons and for ten years held the appointment of lieutenant governor of Nova Scotia. He was president of the Charitable Irish Society for two years, and on New Year's day, 1900, he was knighted for his services in the Order of St. Michael and St. George. He leaves one daughter.

Mrs. W. G. White died at her home in Bathurst last night after a short illness from influenza, leaving her husband, one little daughter and her mother.

William Hood died at his home in Aceton, April 23, at the age of eighty-three. He leaves four sons, including William of this city, three daughters and two brothers.

Porter M. Brown died at his home in Pitt street Sunday after a brief illness, leaving a wife, four brothers and one sister.

Joseph Lantagne died at his home in this city Friday after a lingering illness. He was a government employe for thirty-three years, and leaves a wife and one son, also father and mother. The body was taken to Moncton for burial.

James Dickie, for many years truck foreman, residing at Moncton, died at his home in that city yesterday morning after a long illness. He leaves his wife, two sisters and one brother.

Mrs. J. W. Starkey died at her home in Houlton, Me., April 26, in the ninety-fourth year of her age. She leaves five sons, including S. A. Thorne of this city, eleven grandchildren and one great grandchild, Miss Bertha Thorne of this city.

SKELETON FOUND AFTER 20 YEARS

Girl Had Disappeared While Patient in Hospital.

Indianapolis, April 27.—A mystery of twenty years standing was cleared up yesterday when the skeleton of Miss Carrie Salvage, who disappeared while an inmate of an Indianapolis hospital on March 11, 1900, was found in the attic of the building formerly occupied by the hospital.

Miss Salvage had returned to her room after a walk with her nurse. She asked the nurse to get her some milk and when the attendant returned the patient had vanished. A country-wide search was made. The discovery was made when the building was being altered to convert it into a garage.

DEMAND FOR LADIES' OVERALLS IN BOSTON.
Boston, April 27.—Two fair pioneers from the middle west were responsible for the demand here Friday for ladies' overalls. Miss Jane Livermore of Chicago and Miss Edith Johnson of Evanston, Ill., were first to take advantage Thursday of a local theatre's offer of free seats for women who appeared in overalls.

Several Boston young women followed the example of their western sisters and attended the play seated in denim overalls, jumpers and caps of various colors. One young miss said she is "sick and tired of trying to keep stocked up with silk stockings and Georgette crepe waists. These are cheaper and, honestly, quite comfortable."

New York's Milk Price.
New York, April 27.—A settlement of the controversy over the May price of milk was reached yesterday when it was agreed that members of the Dairywomen's League will receive \$2.25 for 100 pounds from the distributors. This is the same price the dairymen are receiving for April.

BEREAVED ARE ROBBED

Reported Victimized Out of at Least \$1,200 in the Fake Sale of Eyeglasses.

(Boston Globe.)
The Boston and New York police, as well as special officers of the American Railway Express Company, are looking for two of the meanest bunco men in the city. They do not know the names of the men, neither do they have any description of them. The bunco men have defaced many poor people of this city and New York.

They are wanted for larcenies, which, it is said, will total at least \$1,200. The bunco men, for that is what the police call them, have been operating about five weeks and it is thought they have left the city, being convinced their fraud has been discovered.

Railroad detectives seem to be more anxious to catch the men than the police, although the latter squads have been on the lookout for the men.

The other day railroad police were two on duty in catching them in a house on St. Stephen street in the Back Bay. They were equally tardy in locating them a few days later in a house on Huntington avenue.

The men have posed as proprietors of the "Easy to Read With Boston and New York Lens Company." So far as is known they had no Boston or New York office; neither did they have a room anywhere in particular, so far as the police are able to find out.

Families bereaved by recent deaths have been the victims of the two men. Five dollars was collected in all by the stances according to the detectives.

The story as related to a Globe reporter is that while the men were in Boston they would buy New York newspapers and look over the death notices.

About one week after the burial of the dead person the bunco men would send a small package to the home of the deceased. The name of the dead man would appear on the package, which, when opened by a member of the family, contained eyeglasses.

The package would call for \$5 cash on delivery. Usually, or at any rate in most cases, the wife of the dead man or some of his children would not know of the glasses, having been ordered, would pay the \$5.

The glasses, some of which are in the press Company, are not worth more than ten cents.

The bunco men made sure that only men of middle age and past it, would be picked out, as younger persons perhaps would not require reading glasses. Some of the glasses were rimless, others spectacles and some of the lenses were large and of yellow hue.

The money which the express messenger would collect would find its way to the proprietors of the "Easy to Read With Lens Company." Two weeks ago more than a dozen eyeglasses were returned to the express company, the dead man's wife believing it was a fraud.

The piling up of the returned packages caused the railroad detectives to discover the fraud.

INTERESTING CONTEST.

In an electionary contest for the juniors and seniors of the Centenary church, J. Hunter White presided and Major Stanley Weyman, A. H. Wetmore and W. Edgar Campbell acted as judges.

Miss Florence Heminger gave the singing of the contestants and Rev. H. A. Goodwin gave a short address. Mrs. Hilda Rayworth, Mrs. L. M. Curran and Miss Elizabeth Good took part in the programme.

In the junior group Miss Mary Mahoney recited "Hide and Go Seek" by H. C. Bonar. Miss Alicia McCavour gave the reading "Arrival" by Rudyard Kipling and Miss Rita Brittain gave at her number "Why He Could Not Sell the Farm" by Alphonse Daudet. Miss Rita Brittain was the prize winner of the group.

The senior group recitations were given as follows: Miss Stella McAlpine, "Church Missions," author unknown; Mrs. Vincent Mahoney "Golden Shoes," author unknown and Miss Ella Tait "Hard Luck Henry," by Robert Service.

Mrs. Mahoney was the prize winner of this group.

INDIAN NIGHT ENJOYED.

The members of William McIntosh's Bible class gave an entertainment last evening in Portland street Methodist church hall, the subject being "A Night With the Indians." Mr. McIntosh gave an address and Miss Madeline Daley, Miss Nita Bell and Miss Olive Hankins took part in the programme. Several Indian tableaux formed part of the programme.

Those taking part in the tableaux were Miss Annie Bosance, Miss Corbet, Miss Jennie Day, Miss Sadie Jones, Mrs. Burton, Miss L. Kirpatrick, Miss Elsie Logan, Rishah Mahony, Mrs. Marley, Miss Otty Maxwell, Mrs. Walter Miller, Miss Eva Mitchell and Miss Rita Tapley.

The stage managers were Miss Harriet Wright and Miss Annie Williamson. Those who had charge of the ushering and hall arrangements were Mrs. Gilchrist, Miss Etta Bell and Miss Greta Gray.

A BRUSH IN CITY COUNCIL.

Montreal, April 27.—Verdun city council staged a very pretty set-to last night when the mayor ordered Alderman Colin out of the room and threatened to have him put out by the police when he refused to go. The incident arose when the alderman said the mayor was not a gentleman and although the other aldermen insisted that his worship bore all the hall marks of gentility, the mayor would not be calmed until Alderman Colin had withdrawn his remark. The alderman refused and finally the mayor won by having the alderman's name entered on the minutes as having technically been put out.

Funeral of Hon. A. G. MacKay.

Toronto, April 27.—H. H. Dewar, M. P. P., and Samuel Clarke, M. P. P., will represent the Liberals of the Ontario legislature at the funeral of Hon. A. G. MacKay in Alberta, formerly Liberal leader in Ontario, who is to be buried at Owen Sound.

**THE RED CROSS
IN NOVA SCOTIA**

Programme Is Published —
Col. F. V. Woodbury to
Organize Traveling Clinics.

The bulletin of the League of the Red Cross Societies published in Geneva, Switzerland, for March, 1920, has just reached Nova Scotia and greatly to the

encouragement of the Nova Scotia provincial branch of the Red Cross records in full detail the programme of the province adopted by the executive last November, and later published in the Canadian Red Cross Society Bulletin. An excellent public health course for nurses outlined in this programme, organized under the auspices of Dalhousie University in co-operation with various other bodies in Halifax and financed by free scholarships granted by the Red Cross is about to be very greatly supplemented, according to announcement just made, for carrying out the fifth clause of the working plan adopted last autumn. Colonel Frank V. Woodbury, who has recently been demobilized from the Army Medical Service, has been appointed by the executive of the Nova Scotia branch of the Provincial Red Cross, to devote his entire time to the

organization, selection of staff, and working out details of equipment and transport for two traveling clinics that are to go throughout the province during July and August.

These clinics are to be organized on a semi-military basis and will carry with them trained specialists with operating room outfit and complete equipment for removing tonsils and adenoids and correction of other remedial defects found in school children in remote sections of the province; a dentist with chair and outfit for cleansing and putting in hygienic condition the mouths of school children unable to get such service; a tuberculosis specialist who will co-operate with the family doctor in helping to determine the diagnosis where the local physician seeks advice; an eye specialist to give advice and to fit or prescribe lenses where they may be advisable; a nursing corps to assist the doctors in their operative procedures, some trained to go into the homes of the tuberculous to establish such sanitary reforms as may be required; some of the doctors and some of the nurses to be trained in health teaching. The entire personnel will co-operate closely with the local family doctor.

The plan of the Red Cross even contemplates carrying with these traveling clinics facilities for impressing sanitary lessons by educational moving picture films and in communities where moving pictures may not be shown, graphic lessons by projecting lanterns; the lecturers with the party being trained to elaborate and supplement such graphic lessons.

It is believed that the traveling clinics plan for Nova Scotia will have very far reaching effects throughout the province and throughout Canada, both in promoting public health and in relieving life handicaps in isolated communities, such as the smaller fishing villages.

The Red Cross Society is planning facilities for keeping full diaries of the experiences of those associated with the traveling clinics and of forwarding data from these diaries to the press as the clinics travel about Nova Scotia.

**Package of Jewels
to Provide Mission**

(Toronto Globe.)
Canadian Methodists may establish a mission in India as the result of a gift of a package of jewels, valued at \$300,000, to the church as a thank offering by a lady who had two sons in the war, one of whom was killed. The donor, who is anonymous, stipulated that the jewels were to be sold and the money used for foreign missionary work, preferably in India.

This matter was considered by the executive committee of the Canadian Methodist church yesterday, and as the Canadian Methodist church has no mission in India, the jewels suggested in the offer would be a good time to start one. The idea was very favorably considered, but nothing was decided in the meeting. The committee decided to spend the sum of \$1,250,000 on maintenance this year. The sum of \$300,000 was received for mission work from the Forward Movement fund; half of this will go to home mission work.

Married in Lodge.

Winnipeg, April 27—Wedding, said to be the first one ever held in a lodge in Canada, was solemnized here recently when Miss Nellie T. Brown, a True Blue, and H. J. Wares, an officer of the lodge, were united in marriage in open lodge of Assiniboine Lodge, Orange Lodge 2708, with all the members in full regalia, presided over by the officers of the lodge.

**MADE A QUICK
BID FOR PRINCE**

Offer of Marriage From Owner of Millions Before Six Weeks in States.

Regina, Sask., April 27—"Before I had been six weeks in America I had received an offer of marriage from a woman reputed to be worth \$11,000,000," said Prince Ion Paleologue, Roumanian commissioner for Canada, a recent visitor here. "This is a peculiar country," continued the prince. "I had not been long in America when I attended a social function in New York. During the evening a lady approached me, and much to my astonishment told me that I had not only made an impression on her sister but that I could have her hand in marriage and all her wealth for the mere asking. I may be a prince—that is purely an accident—but I am the most democratic prince in the world. If I had been offered \$11,000,000 I might have considered the matter. But they don't do things that way. When a European prince marries an American girl of wealth he simply becomes an ornament in the family. He is no more wealthy than he was before," he declared. "I was not having any, and as an actual matter of fact I married a girl who had not a cent."

**ALLEGED PROFITTEERING
IN HAY IN EDMONTON.**

Edmonton, Alta., April 27—Police reports reveal profiteering in hay sales in Edmonton, according to Mayor Clarke. There was clear evidence that hay had been sold here at exorbitant prices, he declared. Instances were recorded where one firm on an investment of \$250 had made a profit of \$244. The police discovered that another firm made a profit of \$27 a ton on hay brought in from British Columbia, while another netted a gain of \$29 a ton on an inferior grade. It is also reported that the police discovered hay had been brought from Calgary at \$32 and \$35 a ton and turned over here for from \$70 to \$85.

The Economical Covering for Your Furniture is Craftsman Fabrikoid

ARE you the mother of kiddies whose romping about the house has played havoc with the furniture? Upholstery torn, cut, stained? Frames good, but coverings in a horrible state? Craftsman Fabrikoid will replace the old coverings and make the furniture good as new—in fact it will probably outlast the furniture itself. Half the furniture you have seen covered with what you believe to be leather was Fabrikoid. It is difficult to distinguish between the two as far as appearance is concerned, for Fabrikoid is grained, pebbled and colored the same as leather. But it has advantages that leather does not possess. Leather must be accepted as it comes from the cow—Fabrikoid is built up to a fixed standard. Leather is hard in some spots, soft in others, absorbs grease and water, becomes stained and frequently rots and tears. Fabrikoid is uniformly the same, yard after yard—pliable, tough and absolutely impervious to water or grease—and above all, costs far less.

Make your furniture upholstery permanent with Fabrikoid. Save money and make the chairs, cushions, lounges and couches kiddie-proof with this attractive covering. Your furniture dealer can supply it—he can do the work. Write us for further information about Fabrikoid and what can be done with it in your home.

TRAINING DIRECTORS FOR LUNCH ROOMS.

The University of Chicago was one of the first institutions to recognize the importance of training women for administrative positions in food service. For ten years Miss Cora C. Colburn, director of the university commons and assistant professor of institution economics, has been in charge of the activities involved in feeding the community group. These activities have been made the basis of the courses offered in this department, and the problem of feeding the student body thus has an educational as well as an economic aspect. Five dining halls are maintained, serving on an average 3,000 meals daily. All breads and pastry are made at a central bakery, and all meats are provided from a central market. These activities, together with the storeroom, are housed in Lexington Hall, formerly the women's building.

A feature of the institution work which is of special interest is the apprentice system. Opportunity is offered to a limited number of senior college and graduate students who have completed the necessary institution courses to serve as apprentices in the various departments of the commons and gain the practical experience so essential in training for administrative positions.

Some of the positions filled by graduates of the University of Chicago include those of director of lunchroom and member of the faculty, Lincoln School, Columbia University; director of lunchrooms and instructor in institution economics, Indiana University; director of lunchrooms and member of faculty, Lewis Institute, Chicago; teacher of home economics and director of lunchroom, Chicago Normal School; and director of residence halls, Lake Erie College, Ohio.

Professor Colburn, who has had charge of the official survey of living conditions at Vassar College and the University of Wisconsin, is in constant demand by industrial and educational institutions for expert advice regarding problems of food organization, equipment and management.

END CAREER OF ACTIVITIES FOR SOLDIERS

Catholic Army Huts Here Close This Week

A. E. O'Leary Has Been Efficient Secretary — A Review of Some of the Work That Has Been Done for the Men.

The end of the present week will see the close of the office of the Knights of Columbus Catholic Army Huts in Canterbury street. It has been of such valuable assistance to returned soldiers upon and after their demobilization. Of late the activities of the officials in charge of the huts have been concentrated upon comforts for the lads in hospital, under treatment of the D. S. C. R., and for the helping discharged soldiers into positions. This has been done with favor to none because of past rank, social standing, color, race or creed.

Many a "Johnny" who found himself "strapped" in St. John has been helped unobtrusively by the K. of C., and sent on his way rejoicing and blessing that organization. Through its local office some 200 returned men have been placed in positions with local and provincial employers.

A. E. O'Leary has been the efficient secretary of the K. of C. huts for some time, and his services have been regarded as entirely satisfactory. He has taken a keen practical interest in the work and has always striven for the betterment of the condition of the returned men.

Sympathetic and kind-hearted, he had their confidence, and many of them sought his services to get information regarding pensions, to help in applications for positions, adjustment of payments in pensions and gratuities, and this was at all times gladly and freely given. One of the most notable achievements of the K. of C. in providing comfort for the disabled soldiers in hospital has been the furnishing of a large motor boat, fully equipped, and a "recliner" canoe for the military hospital at Fredericton in addition to indoor baseball outfits, gymnasium equipments, magazines and other things to help relieve the strain of hospital life.

Some Accomplishments. The returning soldier by train or boat was always met by workers from the K. of C. huts. Two hundred and thirty thousand three hundred and eighty cigarettes, 13,449 boxes of matches, 11,500 sandwiches—these are just a mere detail of what was given out to the boys returning at various times. No charge was made for these comforts, the expense being met by the fund raised throughout Canada for the work.

In addition to the three items already quoted, a summary of the work done at the desks and tables includes the free distribution of 1,774 chocolate bars and 155 pounds of other candies; 300 quarts of milk, 1,350 pounds of fancy cakes, and 20,605 cups of tea or coffee, in addition to many incidentals necessary for such work, such as post cards, free mailing of letters, fruit, ice cream, etc. The booth, at West St. John, it will be recalled, was in the large immigration shed. It was splendidly equipped and steaming hot tea and coffee was ready at all times for the men as they arrived from the ships. The booth was conducted by ladies and gentlemen who always managed to leave their other duties aside when workers were needed to cheer the newly arrived lads in khaki. That the hospitality of the Knights of Columbus at the port of St. John was appreciated has been proved by the receipt of letters from all over Canada.

Hospital Work. The K. of C. Army Huts committee has, of late, devoted most of its attention to the men in the hospitals and a summary of what has been done there to date is also available. Gramophones and records have been furnished the hospitals at East St. John and Lancaster, as well as a great variety of current reading matter, magazines, etc., cigarettes, games, ice cream, fruit, pipes, tobacco, etc.—in fact whatever the men have expressed a wish to have which could be procured. After much discouragement, she finally

Constipation or Costiveness

Constipation, although generally derided as a disease, can never exist unless some of the organs are deranged, which is generally found to be the liver. There is nothing more provocative of general ill health than constipation of the bowels, and a regular action is absolutely essential to general health. One of the most common, painful and troublesome troubles caused by constipation is piles, and unless the bowels are kept open by the use of a good laxative such as Milburn's Laxa-Liver Pills, the whole system will be poisoned and many different complications of diseases arise, so if you would be well, keep your bowels regular.

Mr. A. Roder, Hastings St. E., Vancouver, B. C., writes—"I desire to express my thanks for what Milburn's Laxa-Liver Pills have done for me. I had been suffering from constipation for two years, and also had a bad cough and headache. I tried all sorts of cures and remedies, but got no relief until I was advised to try your pills. I got great relief after the first few doses. Get Milburn's Laxa-Liver Pills when you ask for them or send 25c, and they will be sent by return of mail by The T. Milburn Co., Limited, Toronto, Ont.

SAYS HE HAS SCHEME TO KEEP HOUSES WARM

Winnipeg, April 26.—That he has devised a means of solving the housing problem through the use of electrical power was the contention of J. W. Dorsey, assistant professor of electrical engineering in the University of Manitoba. "It will not be necessary for people to construct costly houses with a great deal of expensive material for the purpose of keeping out the cold. I believe I have discovered something that will eliminate all the drawbacks of cold," he said. "People will not have to consider the climate to anything like the extent they do now and they will enjoy conveniences that are not possible now." Professor Dorsey expects to have some dwellings constructed here this summer which will demonstrate the efficiency and value of his invention. Details of the invention were not given out, as he is preparing to obtain patents.

MARY PICKFORD SEEN AT HER BEST IN 'JOHANNA ENLISTS'

Mary Pickford in "Johanna Enlists" is a very delightful comedy-drama and without doubt one of the best she has ever presented was shown at the Unique yesterday. The story is based upon the mobilizing of "Johanna" by Rupert Hughes. It is the last Aircraft picture made by Miss Pickford. "Johanna," as the story goes, is a rather uncouth country girl whose sole love affair has been a long-distance flirtation with a freight brakeman. The war comes and a regiment camps near her father's farm. Johanna prays for a beau and is answered by the devotion of hundreds of men. Go see how Mary captivates a regiment of soldiers. The picture will be appreciated.

worded to the hospital at Fredericton in addition to cigarettes and other supplies. The hospital committee of the army hut made regular visits to the local hospitals and take plenty of good cheer with them. In addition to this work the Y. M. C. I. privileges were secured by the army huts for the use of the returned men, irrespective of creed or race, and entirely free of charge. This put at the disposal of the returned soldiers the athletic swimming, bathing privileges, etc., of the institute, which was freely taken advantage of. Because of heavy expenses it was found necessary to make a charge at the canteen in the Y. M. C. I. for cigarettes, but coffee, tea, cakes, etc., were given free. The Y. M. C. I. was a much appreciated privilege and one which was freely taken advantage of by the returned men.

ANITA STEWART IN PRETTY ENGLISH PLAY

"Mind the Paint Girl" Gave Imperial Patrons a Fine Two-Hour Entertainment.

Anita Stewart is shown in practically two characters in "Mind the Paint Girl," a First National feature which is being shown at the Imperial Theatre this change. First she appears as the little slum girl, who sweeps out her father's shop and runs errands and does any handy work to help make ends meet for her parents, who are very poor. As the shop girl, she is shown in more or less ragged calico dresses, with her hair hanging down her back and hats of impossible styles. Ignorant and untutored, yet she has a strong heart and battles her way among the roughs of the neighborhood who are very much in love with her pretty face, and try to steal kisses as chance presents itself. Full of ambition to get out of the sordid neighborhood and to win to the better things of life, she takes the opportunity of her father's death to move. Then she applies for a place on the stage. After much discouragement, she finally

If You Are A Skilled Workman You Will Appreciate The C.C.M. Bicycle

Not only because it will take you to work easily and speedily— Save you time— Save you car fare— But because your trained eye can see the skilled workmanship that has been put into its manufacture. You would see the most modern methods of treating metals, of enamelling and nickelling. For instance, you would find that C.C.M. parts remain in the nickel baths two hours instead of the twenty minutes or so allowed for cheap nickelling. Improved Machinery You would find here the most improved machinery for making and finishing the various parts of a bicycle. Batteries of the famous Gridley and Acme automatics. A complete equipment of inspection gauges for measuring and checking up the accuracy of every bicycle part. Watch-Like Precision There are 1,761 parts in a C.C.M. bicycle. Many of them are made to even closer limits than the time fuses on shells. With such watch-like precision in manufacturing it is any wonder that a C.C.M. bicycle runs so easily, so smoothly, and so quietly? Canadian workmen who take pride in and know the value of skilled Canadian workmanship have every reason to purchase C.C.M. bicycles. See the 1920 models at the dealers'. BOXING BILL FINDS FAVOR

Proposed Ontario Athletic Commission to Consist of Five Members.

(Toronto Globe) A meeting of the sporting men representing different organizations and clubs, etc., in Ontario, was held in the parliament buildings last night, to agree on the draft of a bill to appoint a commission to govern boxing and wrestling in Ontario. The meeting was practically unanimously in favor of the bill as submitted.

The Grand Army of Canada representatives voted their displeasure in regard to the bill, they believing that the preference in handling the boxing shows. It was, however, decided to present the bill with slight alterations to the Ontario legislature. The personnel of the commission was not discussed. One of the commissioners will be nominated by the soldier organizations, but the government will take the entire responsibility of appointing the commission.

The commission is to consist of five members—three members are to govern boxing and wrestling entirely, and two members, nominated by amateur organizations in Canada, are to look after the encouragement of amateur sport. The bill provides that 15 per cent of the gross receipts from all attractions will be deducted to pay the expenses of the commission. It also states that the moneys over and above the expenses of

NEARLY EVERY GIRL CAN MAKE HERSELF PRETTY AND ATTRACTIVE

SOME WHOLESOME TRUTHS EVERY GIRL SHOULD THINK ABOUT.

Probably you know just such a girl. Perhaps she is sister—just to look at, and pretty—quite interesting because she reflects the grace and charm that give promise of happiness to herself and others. But she is not strong. The color in her cheeks, once so rosy, has faded away—her eyes are listless—the buoyancy of spirit and vigor she once possessed are sadly lacking. Parents need that their blood may be renewed—needs funds this girl needs Ferronone—needs it to restore the nerve force that grows and the development of her fresh youth have exhausted. This girl will become a queen with Ferronone—which will restore her color—bring back her old-time energy—give brightness to her eyes and vivacity to her spirits. In Ferronone every girl finds strength—then she can do things. In Ferronone there is endurance—that drives away morning sickness and languor. For the girl or woman that wants to be happy, healthy, winning—who values rosy cheeks, laughing eyes and abundant good spirits, nothing can compare with Ferronone. 50c per box or six for \$2.50. The commission are to be spent for the encouragement of sport in the schools of the province.

The meeting was one in voicing their appreciation to Lieut.-Colonel Carmichael, D. S. O., M. C., minister without portfolio in the Ontario government, for the interest he has shown in promoting sport in the best interests of the province. A standing vote of thanks was given to the colonel.

An act to provide for an athletic commission in Ontario.

His majesty, by and with the advice and consent of the legislative assembly of the province of Ontario, enacts as follows:

(1) This act may be cited as the Athletic Commission Act.

(2) For the purpose hereinafter mentioned there shall continue to be a commission of five persons appointed by the lieutenant-governor-in-council, three of the said five commissioners to be named in authority over professional boxing and wrestling, who shall be a body corporate under the name of the Ontario Athletic Commission, referred to hereinafter as the commission.

(3) The majority of the persons so appointed shall form a quorum for the transaction of any business of the commission.

(4) Every person appointed to the commission shall hold office during pleasure and the lieutenant-governor-in-council upon the death, resignation or removal from office of any member of the commission, may appoint some other person to fill his place.

(5) The lieutenant-governor-in-council may from time to time designate one of the commissioners to be chairman of the commission.

(6) Each of the commissioners shall hold office without remuneration, but shall receive his actual disbursement in discharging his duties.

(7) The commission may appoint a secretary and such other accountants, officers or servants as may be deemed requisite.

(8) The salaries or other remuneration of the secretary or other persons so appointed shall be fixed by the commission, subject to ratification by the lieutenant-governor-in-council, and shall be payable out of the fund to be levied for that purpose as hereinafter provided.

(9) For the purpose of providing a fund for the remuneration of the secretary and servants appointed or to be appointed under this act, together with office and traveling expenses, and for carrying out the purposes of the commission as hereinafter mentioned, every person, corporation or association conducting a professional boxing or wrestling contest or exhibition shall pay to the commission an amount not exceeding 5 per cent of the gross gate receipts, received by such person, corporation or association in respect of boxing or wrestling contests or exhibitions.

(10) The total of such amounts and the license fees collected, less the amount of such fund remaining unexpended at the end of any year and not required for such maintenance, shall be used by the commission to assist, encourage and promote sport and recreation in such way and by such manner as the commission may decide.

(11) The commission shall have the power to prescribe the rules, regulations and conditions under which professional boxing and wrestling contests and exhibitions may be conducted in Ontario, and no boxing or wrestling contests nor exhibitions shall be conducted nor participated in except by a person, club, corporation or association duly licensed by said commission, and every license shall contain all provisions that all professional boxing and wrestling contests and exhibitions conducted thereunder shall be under the rules, regulations and conditions from time to time prescribed by the commission or by the lieutenant-governor-in-council, and every violation thereof or whenever the continuance of such license shall be deemed by the commission contrary to public interest or not conducive to the interests of legitimate boxing and wrestling.

WEDS A NIECE OF PRESIDENT OF FRANCE Pittsburgh, April 27.—Ward received here is that Ernest G. Richards, son of Mrs. Lena Richards of this city, a traveling salesman for the Carpenter Morton Company of Boston, and Miss Louise Stearns, niece of President Deschanel of France, have been married in New York city. Richards, a former sailor and sergeant, later in the 5th Engineers, overseas, was nursed back to health by the pretty French girl, who was an ambulance driver. He came back with his outfit, was mustered out and went to work on the road.

In October his bride came here with her uncle, who was commissioned to paint a portrait of ex-President Taft. The wedding was continued at the home of Mrs. J. Williams, 375 West End avenue, New York city, who is an aunt of the young woman. In October Mrs. and Mrs. Richards will sail for France on their honeymoon.

MUCH LIQUOR BEING SMUGGLED INTO STATES Winnipeg, Man., April 26.—Smuggling liquor across the border into the United States is being carried on very extensively, liquor men say, and every effort is being made to put a stop to the practice. A liquor warehouse in Kenora has had its permit cancelled by the Ontario license board, pending investigation of a large shortage in its stocks. There is also information that considerable quantities of liquor are being taken across the line from Gainsborough, Estevan and other western towns in automobiles.

New Winnipeg Schools. Winnipeg, Man., April 27.—Building operations on three of the eight schools to be erected here this year have been commenced. There will be in the three schools of twenty-nine class-rooms and two assembly halls. They will cost approximately \$180,000.

Some Things That Make Hudson's Bay Company Anniversary Celebration Important.

Winnipeg, Man., April 27.—The celebration of the 250th anniversary of the Hudson's Bay Company in May, as being developed by Louis E. Wilson of London, will take on the character of a national memorial.

"The Hudson's Bay Company," said Mr. Wilson, "was the pioneer of Western Canada. Under its charter signed by King Charles II. on May 2, 1670, it owned in fee simple practically all Western Canada to the Rocky Mountains. British Columbia came under its domination after the company's amalgamation with the North West Company in 1821. At the zenith of its power, the Hudson's Bay Company ruled three-fourths of the North American continent. For two centuries prior to 1870 when it surrendered its territories and authority to the Canadian government, the history of Western Canada was the history of the Hudson's Bay Company. In consequence, the celebration of the company's 250th birthday will be the commemoration of an epoch in the nation's progress."

"The anniversary celebration will be held in Winnipeg, Edmonton, Calgary, Vancouver and Victoria. It will open in Winnipeg on May 8 and close in Victoria where it will be merged with the celebration of Empire Day on May 24.

"An historical pageant on Red river will present a flotilla of York boats and birchbark canoes manned by Indians of a dozen tribes and trappers in pioneer costume. It will start from the site of old Fort Garry and end at Lower Fort Garry eighteen miles down stream. Sir Robert Kindersley, governor of the company, will take part in the procession and at the lower fort will smoke the peace pipe with the Indians and honor the anniversary. The ceremonies will close with a banquet when Governor Kindersley will reply to addresses by Indian orators.

"Street pageants will be held in the four cities. Floats will picture romantic episodes in the company's history and the development of the west. Vanier and the development of the west, cowboys, dog teams, Red river carts, Royal Northwest Mounted Police, government officials and civic bodies. In all the cities moving pictures taken on a special expedition to which spent several months in the north and illustrating every phase of the fur trade, will be exhibited free to the public."

MINARD'S LINIMENT RELIEVES NEURALGIA. VANIER EXONERATED FOR KILLING MAN

The Arrostook county grand jury has returned no bill against Ernest J. Vanier, United States customs officer, who shot and killed Candide Dumais, of Van Buren, a returned convict and medalist, who lived his life at Madawaska, opposite Edmundston, early in March. The shooting occurred during a fight over a load of liquor. Vanier was injured in the head and a companion of Dumais shot in one hand.

A double wedding at Leominster Monday will take away the two hostesses of P. A. Whitney—Katherine Agnes Farrell and Sarah Jane Lavin—one of whom has worked for him for nine years and the other for a few years less.

"TIZ"—A JOY TO SORE, TIRED FEET

Use "Tiz" for itching, burning, puffed-up feet and corns or callouses.

Good-bye, sore feet, burning feet, swollen feet, tender feet, feet that hurt, blisters, corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonous "Tiz" and wear smaller shoes. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel.

Get a box of "Tiz" now at any drug-gist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

To Relieve Catarrh, Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises, will be glad to know that this distressing affliction can usually be successfully treated at home instances have effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises and hard of hearing, or who may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective. Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears should give this recipe a trial.

NUXATED IRON

Increases strength of delicate, nervous, run-down people in two weeks' time in many instances. Used and highly endorsed by former United States Senators and Members of Congress, Health Officers and former Public Health Officials. Ask your doctor or druggist about it.

WAGONLOAD OF COIN TO BUY BEEF STEW

One Dollar Is Worth 240 Rubles—Russian Money Greatly Depreciated.

If the housewife in Siberia should happen to have a few silver dollars in her possession on a shopping tour and should attempt to spend them for food the chances are she would return to her home with a basket full of Russian rubles and her marbling in her pocket—that is if the wearing apparel of women in that part of the far east has pockets. At any rate, she would have a whole lot more money in quantity than she had when she began the shopping tour, according to a letter received in Seattle from E. L. Matteson, agent for the Pacific Steamship Company in Vladivostok.

Mr. Matteson says a silver dollar is worth 240 rubles in Siberia, and it was not uncommon for him to purchase some article worth 40 rubles and receive 200 rubles in change for one of Uncle Sam's coins.

And if you make purchases in Siberia with either gold or silver you must receive your change in rubles, according to Mr. Matteson. The new Russian government is determined to keep the American gold and silver in the country, if it can, and has issued an edict to the effect that change must be made in rubles. It has also decreed that shippers must put up the full value of the goods they purchase in gold and force them to sell only for rubles.

Mr. Matteson said he had just completed a trip from Vladivostok to Harbin and was forced to take bedding and food along for the entire round trip. "Food is so high in the interior that it takes a wagon load of rubles to buy a beef stew," said Mr. Matteson. "I was in Harbin on March 1 and found all the hotels crowded and the thermometer 25 degrees below zero. There is a terrible mix-up in money. Everybody seems to have a different kind of coin, and it keeps you guessing. The old Romanoff government's rule is about the only one that will buy anything and I found that if there is a hole in the coin as

Farm

at Nauwigewauk

Seventeen Miles from City

The above property consists of two hundred acres, seventy-five of which is clear. There is a good house—also a new house partly finished and two large barns, twenty-six by thirty-six. Two and one half acres are ploughed for spring crop and two thousand strawberry plants were set out last year. There is also a young orchard of fifty trees which will probably bear this year. There is an almost unlimited supply of wood, including hardwood, soft wood, considerable cedar and logs. The farm is capable of cutting seventy-five tons of hay, or more. The distance to the station is but two miles. This is a farm in splendid working shape and exceptional value at the price asked, \$4,000.

Weak, Thin, Nervous People Should Take Bitro-Phosphate

What It Is And How It Increases Weight Strength and Nerve-Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms and neck, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

When the Nerves Give Out

Perhaps you have never fully realized the immense influence of the nervous system for pain and suffering when exhausted or for health and happiness when properly nourished.

Starved nerves produce brain fog, headache, sleeplessness, indigestion, and weakened functions of all the vital organs.

In healthful condition, the nervous system supplies the energy to run and control the whole machinery of the body.

The helpless, pitiable condition, mentally and physically, of the sufferer from extreme nervous exhaustion is the warning which tells us the importance of maintaining at all times the vigor of the nervous system.

As a restorative for the nerves there is no treatment so popular and so satisfactory as Dr. Chase's Nerve Food.

The proof of this statement is found in such letters as are quoted below

Headache: Mrs. R. H. Code, 103 John St., East, Smith Falls, Ont. writes: "For the last few years I had been suffering from headaches and sleeplessness, and could feel that I was in a nervous, run-down condition. The children at times would cause me a great deal of trouble, and sometimes if they were noisy, it would seem as though I could not stand it. For a long time it was impossible for me to go to church or anywhere there was a crowd, because I would get almost blind and feel very dizzy, caused by weakness of the nerves. Some months ago through reading your Almanac, I was induced to try Dr. Chase's Nerve Food. I secured some and found that in a very short time I was being benefited, so I continued the treatment. Now I feel fine, can go to church or in a crowd anywhere without any difficulty. I can highly recommend the use of Dr. Chase's Nerve Food to anyone suffering from nervousness, sleeplessness or run-down condition."

Twitching Nerves: Mrs. Amy Cooper, Carnegie St., Ingersoll, Ont. writes: "Some three years ago, my daughter, who was then about thirteen years of age, seemed nervous and run-down. I gave her some medicine, but she did not get entirely well. Later, she got worse, the nervousness taking the form of a twitching and shaking of the arms, limbs and even her face at times. Sometimes these attacks would be so severe she could hardly hold her knife and fork while eating. I tried some of Dr. Chase's Nerve Food for her, but was so anxious about her that I did not give it a chance to do any good, but took her to the doctor. He gave her some pills, and some time later, as I did not see much difference in her condition, I said I thought the Nerve Food would do her more good, so I started her using it again. After using a few boxes, she was completely cured of her nervous troubles. She has grown, gained much in weight, and is looking fine and healthy. I am very grateful to Dr. Chase's Nerve Food for what it has done for us."

NEW ECONOMIC BIRTH DESIRED. (From the London Advertiser) An Englishman writes to the Nation (London) with reference to the huge profits in woolen yarn: "The scandal of these huge profits ought not to be charged against the trade-economic concentration or second birth which happened to be in a position to profit. It was due to the system by which all human effort is an effort first of all to make money, and only incidentally to make things useful to the community. Spinners are trying to make the Congregational Church at Barra, Vt., fortunes, not clothing. So long as we are content with the system, we must put up with its evils, of which profligating is the only one. There is some sense in this. Much good is done in this country about the world, but the point of view of the Englishman quoted is more clearly seen when we meet with her. An economic concentration or second birth is required, of which Christianity certainly gives the hint, but which the pulpit uses not often preach. James E. Griffin has been pastor of the Congregational Church at Barra, Vt., for twenty-three years, and was married a Sunday.

AMERICAN FIGHTER MISSING

Paris, April 23—"Blink" McCloskey, an American pugilist who for the last nine or ten years has been prominent in fight circles of Europe, has been missing since March 8, and friends fear he may have been the victim of foul play. McCloskey left his hotel on March 8, having \$200 on his person, which he told Johnny Coulton and "Big" Mackay, also American fighters, he intended to convert into francs.

Big Offer to Leonard.
New York, April 26—Benny Leonard has been offered \$100,000 for three bouts in Jersey City under the management of Dave Driscoll, and negotiations between the latter and Billy Gibson are now going on. Driscoll would have Leonard meet Georges Pappin in one bout, Mike O'Dowd, middleweight champion, in another, and Ritchie Mitchell or Johnny Dundee in a third. All the bouts would be twelve rounds in length. One of the bouts, the one with O'Dowd, would probably be an open-air affair.

Stopped Him in Seventh.
Montreal, April 27—Last night Kilt Thomas stopped K. O. Clay in the seventh round.

O'Dowd Victor.
Philadelphia, April 26—Mike O'Dowd, middleweight champion, outclassed "Knockout" Samson of New York last night by a wide margin, and the bout was stopped in the fourth round by the police.

Twelve Rounds.
Bridgeport, Conn., April 27—Louis Bogash of this city, was given the decision over Dave Falits of Hartford at the end of a 12-round bout here last night. They are welterweights.

Big Bout on May 6.
Halifax Recorder.
Mike McTigue and Billy Kramer will meet at the Armories on Thursday, May 6, and it should be a great contest. Kramer is but twenty-four years of age, 5 feet 10 inches, and has a reach of 72 inches. He has been boxing for seven years, and in 1915 went to Australia, where he participated in several bouts.

AN HEROIC ACT.
To the Editor of The Times.
Sir,—In reading over the columns of this paper regarding my attention was drawn to an article referring to two St. John men who were honored for bravery in rescuing human lives from a watery grave. In this connection I would like to mention the name of a Carleton young man, G. Reuben Carleton, who rescued a young lad named Peterson who fell into a slip near Driscoll's mill and who also, in my opinion, should be remembered for such a heroic act.
