Bridges and Dams Carried Away by Swollen Rivers

MANY HOMELESS

Low-lying Land in Quebec Uninhabited; Stock Saved With Difficulty

BOSTON, Feb. 14.—Three deaths, injuries to four men by a gas explosion at Montpelier, Vermont, caused by the carrying away of a cellar wall, the destruction of bridges and dams, and the demolition of rail, telephone, telegraph and highway communication, were among the results of the floods and ice jams throughout New England during the last few days.

Many Left Homeless.

NEW YORK, Feb. 14.—Checked by the return of freezing weather, the floods which have swept through New York, New Jersey, Pennsylvania and New England, have passed their crest, and the high water which has run up a property loss of many thousands and left hundreds homeless, is receding.

Damage in Quebec.

QUEBEC, Que., Feb. 14.—From many places down river comes news that the recent heavy rains, ice, and high winds have been responsible for serious damage to property. Bridges have been washed away, low-lying lands inundated, and livestock saved only with great difficulty. Farmers have suffered heavy losses.

SENATE ADJOURNS UNTIL MARCH 10

Motion on Address is Adopted by Upper House Without Vote.

OTTAWA, Ont., Feb. 14.—(Canadian Press)—The Senate adopted the motion on the reply to the address last evening after four days of debate, without a division. The upper house will stand adjourned until Tuesday, March 10, at eight o'clock. The vote was notable for the fact that almost every senator taking part made reference to the proposal of the Premier to reform the constitution of the Senate.

"Come Get It" Say Rum Ships

ATLANTIC CITY, N. J., Feb. 14.—Mocking the coastguard cutters, three large tramp steamers just outside the 12 mile limit are flying pennants inscribed "come and get it" from their mastsheads. The new arrivals are loaded to the top with liquor and many cases are piled high on the decks. All carry the British ensign at the stern and are believed to be from Nova Scotia.

MAN'S LIFE SAVED IN RODNEY SLIP

Hubert McLaughlin Fell From Wharf—Captain Tower and Others Rescue.

Timely assistance given by Capt. Amos Tower of the schooner Avon Queen and of some workers in No. 5 shed near 12 o'clock last night saved a man whose name was given as Herbert McLaughlin from a serious predicament. McLaughlin fell over the side of Rodney wharf near where the Avon Queen is laid up in winter quarters. He managed to catch a fender of the schooner and clung to it at the same time shouting for help. There was about 10 feet of water. His cries were heard by Captain Tower and the workers and they managed to lower a man down over the side to him. After some difficulty, McLaughlin was landed safely on the wharf and after thanking his rescuers, made off. The action of Capt. Tower and the workers was the subject of much favorable comment in West St. John this morning.

THIS IS DANGEROUS

Magistrate Gives Warning to Boys Who Jump on Moving Street Cars.

"The practice of small boys jumping on moving street cars must cease and parents are warned of their responsibility in this matter," Magistrate Henderson declared in the police court this morning when a juvenile appeared before him on a report that he was hanging on to the rear fender of a street car. The magistrate said it was a dangerous proceeding, endangering the life and limb of youngsters in addition to causing much worry to motorists. He cautioned the parents of the boy who appeared before him and said he would let him go with just a warning, but if more such reports were made, he would have to make an example of someone.

MONTREAL, Feb. 14.—A wrecking crew, working yesterday amidst the ice-coated debris of a three-wheeled truck on Lemoine street, discovered an almost frozen cat, wasted with hunger, standing guard above the bodies of three kittens, dead from exposure.

LONDON TIMES RAPS CANADA'S WAR THREATS

Thinks British Shipping Men Should Have Been Consulted

"BIG STICK" TALK

Looked For Something More Substantial in Preston Combine Reports

Canadian Press Cable. LONDON, Feb. 14.—"Hopes are expressed in London business circles that, for the sake of Canada's credit, the Dominion Government has really something more substantial in the report of W. T. R. Preston on the North Atlantic shipping combine and the ocean freight rates situation, than the passages of it which have so far been made to this country, to justify the attack on shipping companies engaged in the North Atlantic trade," the city editor of the Times writes today. "The extraordinary feature of the whole affair," the Times adds, "is that the managements of shipping companies in this country, do not appear to have been invited to state their case before being threatened with the 'big stick'."

Suggests Investigation. The Times suggests that an impartial investigation of the ocean rates situation, which British shipping interests would have no reason to fear, would be infinitely more satisfactory than the report by the commissioner, which, thinks the Times, bears unmistakable evidence of a desire to prejudice public opinion.

JAPAN FEELS 'QUAKE

People in Silk Manufacturing Town Are Chased Into Streets.

TOKYO, Feb. 14.—A severe earthquake shock at 9:40 a.m. today sent the inhabitants of Mayebashi dashing into the streets to avoid injury by falling structures. There were no fatalities. Mayebashi, a silk manufacturing center, is on the main island, 70 miles northwest of Tokyo.

Many Chances For Trade In S. America

PHILADELPHIA, Pa., Feb. 14.—After finding her mother dead in bed, a 15-year-old girl today led a police raid on a saloon, where, she asserted, her mother had obtained a pint of liquor last night. The coroner announced that if the inquest disclosed the woman's death was due to alcoholism, the vendor would be charged with murder.

CHARLIE GORMAN GREAT FAVORITE

Late Report Says Local Skating Star is in Good Condition.

LAKE PLACID, N. Y., Feb. 14.—(Canadian Press)—Charles Gorman of St. John, N. B., leading Canadian contender at the skating meet here, is entered in both the mile, and half mile races, the two events for Diamond trophy contestants today.

Gorman is a great favorite with the Lake Placid racing fans, and is accorded an ovation every time he appears on the ice. He is reported to be in excellent shape, and his admirers are hoping that he will be able to fatten his score this afternoon. Ideal weather is promised. A number of Canadians are entered for the junior events including Wm. Logan, of St. John; G. Smythe, Moncton; Thomas, Tebo, St. John, and F. Logan, St. John.

SAYS WOMAN'S BEST CAREER MARRIAGE

Harvard President Emeritus Declares Race Suicide One of Greatest Evils.

CAMBRIDGE, Mass., Feb. 14.—Declaring "race suicide" one of the most formidable menaces to the future of civilized society, Dr. Charles W. Eliot, 90 year old president emeritus of Harvard scores the "new view" that marriage is not the most important event in life. "It is a discouraging fact that the number of children in a family is rapidly diminishing," asserts Dr. Eliot. I believe that marriage and the natural normal result of it, the birth of children, is infinitely the best career for women.

SAYS FRANCE ALONE WON THE GREAT WAR

Marin Declares Country's Heavy Loss Must be Considered in Debt Question.

PARIS, Feb. 14.—In a lecture before war veterans' last night, the majority minister Louis Marin again voiced views to the effect that France's heavy losses of life and other sacrifices in the war must be reckoned in any fair settlement of the inter-Allied debts. "The war, he maintained, had been won by France, and France alone."

FRANK M. ROSS TO MANAGE NEW CORPORATION

Big Amalgamation is Just Put Through in Montreal

BENEFIT HERE

Will Be Good For Dry Dock—Mr. Ross Retains Managership Here

A business announcement of keen interest, and important to St. John, was made by Frank M. Ross, manager of the St. John Dry Dock and Shipbuilding Company, on his return to the city from Montreal today. It is the amalgamation of the George Hall Coal & Shipping Corporation, of Montreal, the Glen Lines, Ltd., and the Glen Transportation Company—these known as the Playfair interests—into a large corporation which will control more than 40 steamships, large pulp interests and large coal properties.

Mr. Ross, Manager.

James Playfair, of Midland, Ont., is the president of the new corporation, and Mr. Ross is one of the directors, and will go to Montreal as manager of the large concern. He said this afternoon that this would in no sense mean his dissociation from the life at St. John. He would remain manager of the Dry Dock Company, and would simply reverse his order of proceedings and come to St. John every ten days instead of as now going to Montreal every ten days. He added the cheering word, as well, that this new combination matter would prove beneficial to the St. John Dry Dock enterprise. Mr. Ross said that the amalgamation had been put into effect within the last three days.

Works of Art Down Twice in Price

There is a brilliance in Bed Rooms at this year's Lay Away Sale that makes one remark on the very ambitiousness of the designs and the strange low note in prices. Works of art in the deep limplid hues of Walnut or Mahogany fashioned on classic lines, after the immortal masters of Furniture history.

With bow end bed as shown or a massive four poster of many turnings and wavy arches, here is Colonial Mahogany in its heyday, the Bed Room of an aristocrat. Built to serve at \$450, the Marcus buyers played their cards to bring it down to \$380—on top of this they have it reduced for the Lay Away Sale to \$304

Inlaid Louis XVI

Topped all through by a double row of bright Satinwood inlay centre by an insert of burled Walnut (cut from the dark curly grain of the tree root) here is a suite in the full glory of the Louis XVI period of Furniture. Fluted legs, loop handles of satinized Silver and full sweep mirrors. Natural price \$400. Marcus' buying methods brought it to \$315. Marcus 1925 Sale offers it for \$252

Genuine Walnut

MINERS REJECT PROPOSITION OF STEEL CO.

Decline Proposal of Suggested Probe That Would Bind Men and Company

CONCILIATION BOARD REPORT IS ISSUED

Declares Peace Can Be Achieved Only by Mutual Confidence.

SYDNEY, N. S., Feb. 13.—The miners have decided to reject the counter-proposal made by the British Empire Steel Corporation for the settlement of present wage dispute, it was announced here this afternoon.

The company, after refusing to accept the miners' programme for a four months' period of work at the old rate pending an inquiry submitted the following proposition:

"That the company and the U. M. W. of A. enter forthwith into a contract to continue until Nov. 30, 1925, providing that:

"An impartial committee of investigation be constituted by either one or two members being appointed by the representatives of the employees and the same number by the company, these representatives to agree on a chairman.

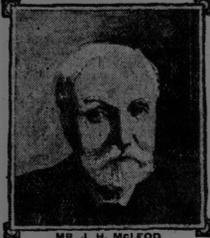

"Such committee so constituted to have to investigate:

"All matters in respect to the company relevant to the question what rates of wages the company can reasonably be expected to pay under existing conditions.

"All matters relating to the United Mine Workers of America, District 25,

A FREEMASON'S SUFFERING

"FRUIT-A-TIVES" WORLD'S BEST REMEDY FOR CONSTIPATION

"I was troubled very badly with Rheumatism and Constipation and tried a great many remedies without relief, until a friend of mine recommended 'Fruit-a-tives'. I took several boxes and was very soon completely relieved and am very grateful to 'Fruit-a-tives'. I think that 'Fruit-a-tives' is the best remedy in the world, and have recommended it to a great number of friends who have benefited by it."—J. H. McLeod, Nova Scotia Freemason's Home, Windsor, Nova Scotia.

Constipation is the great curse of old age. Yet day by day, more and more elderly people are enjoying vigorous health through 'Fruit-a-tives'. This natural medicine—made from intensified fruit juices—ensures the complete natural digestion of food for people of all ages. At your dealers, 25c and 50c.

inssofar as such matters may affect the present situation.

"Such committee to have power after such investigation by its report to establish a scale of wages to be effective from the date of the acceptance of this proposal until November 30, 1925, and the company and employees to respectively obligate themselves to accept such scale of wages.

"Pending the report of the committee and from the date of the acceptance of their proposal the company pay the 1924 scale of wages, less 10 per cent. After such reports such wages to be readjusted to conform to the rates thereby established.

"The report and recommendations of a majority of such committee shall for the purpose of this agreement, be deemed the report of such committee.

Conciliation Board's Report.

OTTAWA, Feb. 13.—The report of the Winfield Conciliation Board respecting the dispute between the Cape Breton coal miners and the British Empire Steel Corporation declares that "no permanent improvement in industrial relations can be expected until complete confidence is established between the operators and employees."

The board is unanimously of the opinion (a) that due to the unfortunate relations existing for many years between the operators and the employees, as set forth in the statement of the employees submitted to the Minister and further elaborated in the actual necessary cost of mining, transporting and selling coal, the ability of the companies to pay a rate of wages satisfactory to the employees, to earn a fair return on capital invested, and the bearing which the attitude and action of the operators have in relation to the efficient and profitable carrying on of the operations."

Only Partial Employment.

(b) That under prevailing conditions many of the employees are unable to obtain more than meagre part time employment, in the winter season, entailing serious far-reaching hardships, and that this deplorable state of affairs can probably be remedied by the company's being able to secure remunerative outlets for their product when access to the markets in central Canada is cut off by the closing of navigation, prohibitive railroad freight rates and other causes.

Ultra Vires.

Before the board was completed, however, information was received to the effect that a judgment of the Council had declared the act under which the board was constituted ultra vires.

The Government decided that the organization of the board be proceeded with, and communicated with the parties to the dispute to that effect, inviting their co-operation.

WILL SHOW WORK UNDER C. G. I. T. PLAN

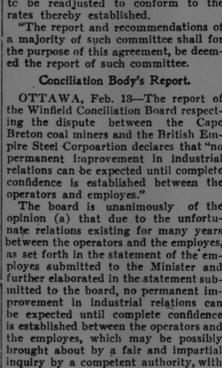

Plans Are Made For Demonstration Week—No Mass Meeting in St. John.

Demonstration week for the Canadian Girls in Training throughout the Maritime Provinces will be observed from Feb. 18 to 24, under the auspices of the Maritime Religious Education Council, to give to church and community a clearer comprehensive of C. G. I. T., and greater interest in its programme. At the same time giving all the C. G. I. T. members a sense of comradeship as they work together for the one end. It is hoped also that the demonstration week will be a missionary enterprise strengthening the advance of the C. G. I. T. movement through the financial support of the M. R. E. C.

No Mass Meeting.

In St. John the various C. G. I. T. groups are each working out their own plan for observing Demonstration Week, and there will be no general rally or mass meeting. The general scheme for observing the week as outlined by Miss Marjorie Trotter, maritime girls' work secretary, provides for a mid-week programme with pageant or play, chorus singing, an address explanatory of the C. G. I. T., physical drill, and short devotional exercises, and besides the mid-week programme a church service to be conducted as far as possible by the Canadian Girls in Training. The special offering for the M. R. E. C. to further the work of the C. G. I. T. will be taken at the church service. There are now between 20 and 25 active groups of the C. G. I. T. in St. John.

WINS CHURCH TEST

Miss Luella Sargeant Awarded Prize in Portland Elocution Contest.

An elocutionary contest was one of the chief items on the programme of the Young People's Society of the Portland Methodist church at its meeting last night in the schoolroom of the church and Miss Luella Sargeant was adjudged the winner. The judges were Rev. George Scott and L. H. Thorne and the competitors were Miss Nan McDougall, Miss Gertrude Harper, Miss Luella Sargeant, Miss Elsie Wilson and Miss Marie Tower. The programme was in charge of the citizenship department and Stanley Graham acted as chairman. Rev. H. A. Goodwin, the pastor, presented to Miss Sargeant the very fine book which was the prize for the contest. An excellent musical programme was also given and included the following numbers: Vocal duet, Mrs. George Hartshorn and Leslie Rowley; solos by Miss Cora Carr and Mrs. Robert McConnell. The accompanists were Stanley Goodwin and George Hartshorn.

Four dollars for Carnol did what hundreds of dollars failed to do.

Mr. James Kenny of Ottawa, states very clearly the advantages of Carnol taken for stomach trouble, when he says, "No man or woman can be strong who suffers from stomach trouble and its associated troubles, indigestion and impaired nutrition. When the stomach is weak there is loss of nutrition from food, and food is the source of all physical strength. When a man, woman or child doesn't feel just, doesn't sleep well, has an uncomfortable feeling in the stomach, my advice is to take Carnol and get relief. If nervous or despondent and losing the nutrition to make strength, such a man or woman needs Carnol. It will do for you as it has done for me and many others, restore you to natural health and happiness."

Mr. Kenny then goes on to say, "I have been suffering from a bad case of nervousness and stomach trouble for two years. I suffered so bad that my hands and lips used to swell had a burning breath, couldn't eat, couldn't sleep, felt doped all the time. Even my sight failed and I had to pay fifteen dollars for glasses in order to continue my daily work. I tried every known medicine and only got relief for a while. I was just about discouraged when a few months ago, health knocked at my door with one of your little books on Carnol. I decided to try a bottle. I bought three more bottles. After taking half of the first bottle my coughing and spitting lessened and bad breath disappeared. I am now on my fourth bottle and feel like a new man. I have thrown off my glasses, have no pains or headaches and can do a day's work with any man. Have a good appetite, eat any old thing and sleep well. Before taking Carnol I was so cross and cranky I could not make any friends. I was called the crank, but now I am always ready for entertainment and fun. Carnol cannot be recommended too highly as I have spent hundreds of dollars on different medicines only getting temporary relief. I gladly say that the four dollars I spent for Carnol was the best investment I ever made."—John Kenny, 158 Isabella Street, Ottawa, Ont.

WHAT DO YOU GET OUT OF THE FOOD YOU EAT?

We eat for health and strength as well as for the pleasure and satisfaction it gives us. The blood supply must be replenished; muscles must be renewed; the wasted tissues in every part of the body must be replaced. This can be done, not by the mere quantity of the food we eat, but by the amount which our bodies are able to digest and assimilate.

That Father John's Medicine contains a vast store of food value and strength-building elements is proven by scientific tests and by the thousands of men, women and children who have regained their health by taking this pure, important feature of this prescription was the heavy proportion of pure cod liver oil which blended with other valuable ingredients by means of specially designed apparatus enables the system to easily assimilate the food and medicinal value. It is six times more nourishing than milk and contains 2 1/2 times the nutrient of the same quantity of beef steak.

These tests prove the great food value of Father John's Medicine for colds, coughs and body-building. Because it supplies the nutriment which you do not obtain from your food and supplies it in a form which the system most easily takes up and turns into tissue, muscle, flesh and strength, Father John's Medicine is the food tonic to be taken by those who are weak and run-down.

In our daily lives, we burn up a certain amount of energy or tissue and we must have a nourishing food-tissue builder to make good this daily wear and tear on the system. While the food we eat is changed into this tissue or energy if the digestive system is in healthy condition; when we become weakened, over-tired or run-down, we do not get the required amount of nutriment from our food, and it is at such a time that the wonderful strength-building tissue-forming elements of Father John's Medicine prove their greatest value.

Father John's Medicine is free of all dangerous drugs and alcohol. Originally prescribed sixty-nine years ago and constantly improved, it has helped men, women and children to build strength and combat colds all over North America.

### A GREAT GAIN—MORE TO FOLLOW.

The decision of the Ford Motor Company of Canada, Limited, to ship in future all its cargo for Australasian points through the port of Halifax instead of through New London, Conn., as heretofore, is the first triumph recorded for the all-Canadian transportation policy. It means, in the first place, the switching of many thousands of tons of freight a year from an alien port to one of our own, a gain which speaks plainly for itself. But in reality it means much more than that, for it is not only a striking example which many other Canadian shippers will undoubtedly follow, but it demonstrates how far-reaching and how valuable to Canada is the movement to bring before shippers of export freight, importers, transportation officials and business men generally the fact that we can use our own ports instead of foreign harbors, and that the gain in dollars and cents and the national prestige through developing and following this policy will be enormous. This is the sort of movement that will grow, and that will make Canada grow.

The change in the routing of the Australasian freight of the Ford Motor Company of Canada is of much greater significance than the ordinary layman will realize at a glance. Roughly speaking, it will mean that a great many trainloads will be moving over our own rails instead of being directed to a foreign port. That is the visible gain, but that is but to consider a part of the material effect of the change. The transaction involves much more than that, because it affords proof of the national profit arising from the policy of using Canadian railways and ports instead of devoting our traffic and our money to the building up of the railways and harbors of the United States.

It is to be noted that Mr. J. P. Doherty, Traffic Manager of the Canadian Government Merchant Marine, in a letter to the Ford Motor Company of Canada, published to-day in connection with this matter, says that the C. G. M. M. agrees with the Ford Company that Canadian traffic should move as far as possible from Canadian ports, that the Ford Company's decision to ship via Halifax has been taken up with other shippers, and that they have been notified not only that the Canadian Scottish, the February steamer for Australia, is to go direct from Halifax, but that all the Government line steamers both to Australia and New Zealand during the rest of the winter season will follow that route. Mr. Doherty congratulates the Ford Company upon their all-Canadian shipping policy, and says that the Canadian Government Merchant Marine will embrace that plan so far as it is practically possible. So the Ford freight brings much other cargo along with it.

Our sister port of Halifax is to be congratulated upon being the first to gain through this development of the right policy in routing freight, and undoubtedly this is but the beginning of a very great and permanent gain for the Maritime ports.

It must occur at once to business men who have been thinking deeply concerning this matter of late that if Mr. J. D. McKenna's interview with the Vice-President of the Ford Motor Company of Canada a short time ago has brought about such valuable results, an immense amount of other traffic might be taken from alien channels and brought into our own by direct approach to other shippers; and in this connection the public will wonder how much the Canadian National Railways might accomplish if it earnestly and sincerely directed all of its influence and all of its agencies towards securing all-Canadian routing of freight of all kinds, so much of which now goes to United States ports. It is very evident that old Grand Trunk influences, or the old habit of taking it for granted that no change in routing is possible or desirable, has resulted in the diversion from our ports and railways of a vast amount of traffic which should be flowing through Canadian channels. And it must not be forgotten that exports are tied up to a great extent with imports, inasmuch as tonnage naturally favors the ports where two-way cargoes are available.

The example of the Ford Motor Company will set the people to thinking all over this country. It is a fine proof of the rich benefits which would flow from a real Canadian transportation policy, and that policy can be, and must be built up not only through the education of shippers and business men generally as to its value, but also by action in Parliament not only with respect to freight rates but also by applying the British preference so that it will bring our imports through our own harbors instead of through foreign ones. As the matter stands to-day, the outlook is certainly most promising, and what has already been accomplished shows how much can be done in the premises through rightly directed publicity.

### WESTERN COUNSEL.

Hon. C. M. Hamilton, Saskatchewan's Minister of Agriculture, has been quoting Edmund Durke, and the quotation is worthy of thought, East and West, in connection with discussion of the problems which once were thought to be sectional but which on re-examination to-day turn out to be national, depending, as they do, for their solution upon national unity, justice and co-operation.

Mr. Hamilton—and the Edmonton Journal says that he gave expression to dominant Western sentiment—told a meeting of grain growers the other day that "although sometimes in our efforts to bring about a measure of relief we may be disposed to hold out the threat of separation and annexation, I am of the opinion that little is to be gained by expending our time and energy in this way."

Mr. Hamilton knows, doubtless, that while annexation is a dead cock in the pit, there will be talk of separation in various quarters unless Confederation is rounded out so that all of the provinces may march cheerfully together, sharing prosperity and contentment. He is one of those, and doubtless he is right, who looks forward to a happy solution of Canada's present problems, but he tells the West that it must not expect help from the East unless it gives the East help in turn. Contributions to national success must come from all the partners.

Mr. Hamilton urged upon the grain growers that the tariff and all other difficult problems should be approached in a broad national way, and he said if this were done "we could find some common ground between East and West."

As to Edmund Burke, the Minister commended to the grain growers Burke's statement that "Parliament is not a congress of ambassadors from different and hostile interests which interests each must maintain as an agent and advocate as against other agents and advocates, but Parliament is a deliberative assembly of one nation with one interest, that of the whole—where not local purposes, not local prejudices, ought to guide, but the general good resulting from the general reason of the whole."

That view of Parliament is worth thought not only by the grain growers but by all other Canadians. As a start along the right path, Mr. Hamilton suggested that the Grain Growers' Association, and similar bodies, might do much for themselves and for Canada by adopting and promoting the plan of giving a preference to the purchase of goods made in Canada—a sound plan, surely.

### SAFETY.

After all, while it is sometimes thought that the "Safety First" idea makes headway slowly, there is occasional and welcome evidence to the contrary and such evidence is most encouraging to those—a rapidly-increasing number—who realize that under modern conditions of life, particularly with respect to transportation, only concentrated and organized effort to cut down the number of preventable accidents can save civilized countries from maintaining records that are at once tragic and appalling.

The City of Toronto has been analyzing its record of motor accidents for the period from 1916 to the end of 1924. It is found that the number of people per thousand of population who died as a result of motor accidents increased from five in 1916 to a little more than ten in 1924. That looks bad upon its face, but, on the other hand, the number of victims was nearly two for each thousand city motor cars in 1916, but less than one for each thousand cars in 1924. Nor is that all. Although the area of the city is little greater than it was in 1916, the population has increased eighteen per cent. But, what is more striking, the number of motor cars in that time in Toronto has increased 442 per cent. In other words, while there are five times as many cars in a more densely populated city, the number of victims has increased in no such proportion. There are many thousands of visiting cars operating constantly in Toronto, and the street car traffic has grown immensely, yet where twenty-two people were killed in 1916 only fifty-five were killed in 1924. It was shown that the total number of victims had scarcely increased at all since 1919, although the number of motor cars owned in Toronto, which was 26,000 in 1919, is now 60,000. Of course Toronto is not satisfied with this record, but hopes steadily to reduce the preventable accidents, and is going forward consistently with various measures to give additional safety to the people in its streets.

In this connection it is of interest to note a bulletin just issued by the Commissioner of the Department of Motor Vehicles in Connecticut, a state which is credited with having the most efficient motor laws. The Commissioner points out that heavy motor

trucks should not be taxed as much when they are operated in cities upon pavements as when they run over suburban or country roads, on which roads, he says, they do damage altogether out of proportion to the taxes they pay. Indeed he says that a truck of several tons on a country road will do more injury in a short time than a hundred pleasure cars.

He has another suggestion. He advises legislation under which no motor vehicle would be registered unless the owner afforded satisfactory proof that he would be financially able to respond to any judgment recorded against him, in case he was found to blame for personal injury or property damage. He would compel those registering cars to obtain insurance from responsible companies, or to file a bond to secure those injured by accident. As a result of his experience he asserts that such a law would result in a considerable reduction of motor vehicle accidents. He appears to doubt whether the average Justice of the Peace is competent to decide upon finally the class of cases presented to him under the Connecticut laws governing motor vehicle traffic.

The weather having misbehaved again in Manitoba, the Winnipeg Free Press says this brings up the old problem confronting the newcomer in that part of Canada: "Whether overshoes or snowshoes are the warmer."

### Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

### Bloody Williamson

Williamson County, in Southern Illinois, is an old Nordic enclave, the seat of a spirited population. For forty years or more, before and after the Civil War, it practiced the vendetta. Under one name or another, Regulators, White Cappers, Night Riders, it indulged in the diversions of minding other people's business, shooting and being shot at. A lawyer who wrote the history of the feud fifty years ago reckoned among its fruits more than 1,000 grave crimes, including 285 murders. The "picturesque" character of some of its law officers is nothing new. I had a state's attorney who used to write letters to "prominent citizens" of the county, signed "Big Pete," threatening them with death. Then he would call on these threatened men and offer to have "Big Pete"—he knew who he was—put out of the way for \$3,000. He was doctor as well as lawyer, played on the fiddle and the horn,

and is said to have been a very moving preacher. Thus Williamson has a great tradition. Herrin was scarcely true to it in the mine riots of 1922. If nineteen men were killed, they were outsiders, "foreigners." There cannot have been the zest in those "executions" of outlander strikebreakers that there is in domestic assassination. Fortunately the Ku Klux Klan has filled admirably the place of its predecessors, and the Knights of the Flaming Circle became worthy rivals. Murder begins at home. Foreigners aren't worth a good killing. If there have been only thirteen murders in a little less than a year, they have all been the genuine home brew of malice domestic. Though Herrin is but a village, nobody there can suffer from cannibalism.

Endorse the Gas Way

There are in use in St. John today—

1,600 Gas Ranges

Truly, too, do the housewives of St. John bear testimony to the indisputable fact that, If It Is Done With Heat, You Can Do It Better With Gas—and Cheaper, Too.

We do not want the public to misunderstand our attitude towards Electric Ranges. Much has been said, by the Civic Power Commission and by Us, regarding the respective merits of Gas and Electric Ranges.

We have customers who use Electric Ranges and we are very glad to install them for others; but we have no hesitancy in recommending the use of Gas, for cooking, where it is available.

Last year, alone, in St. John, we installed 150 Gas Ranges—and this number is exclusive of those installed by other dealers.

The increase in the use of Gas Ranges, at the present time, even in localities where electric rates are extremely low—for instance in Ottawa, where the electric rate is 1/2 cent, or quarter the rate in St. John, is much greater than the increase in the use of Electric Ranges.

An important fact that must not be overlooked is the fact that the two-cent electric cooking rate in St. John is below cost and cannot be maintained.

While the Gas Rate will be reduced.

With the improvements now under way at our Gas Plant, which will be completed by the first of May, we expect to be able to make a material reduction in our Gas Rates.

Truly is the Gas Way, for cooking, the better way. The 1600 Gas Ranges in use in St. John bear this out. St. John housewives attest it.

Harte gambler and head of the Knights of the Flaming Circle. How do the movies make a living in Herrin? Glenn Young seems to have always seen himself on the screen. His estimate of his killings varied from 22 to more than 80. He loved trouble, was handy with his "gun" and not any more lawless than some Deputy Sheriff of Williamson. Young and Thomas can well be spared. Perhaps the Mayor of Herrin, who, like the Sheriff and some other eminent citizens, was put under military arrest last winter in connection with the murder of a constable, is too hopeful in predicting peace now that the heads of the Montagues and Capulets are gone. Feuds are transmitted from sire to son. These village broils, accentuated by the rigmarole of secret orders and romantic "oaths," seem likely to continue. Doubtless the majority of Herrin, of Williamson County people, would like to live in quiet; but town and county seem to be run by determined minorities. It would be useless for outsiders to offer any moral observations. If Williamson is to be pacified, it will have to do the job itself and wrench itself out of the clutch of tradition and heredity.

### "Gas Exposed Again and Again"

When proven wrong beyond any doubt or come-back, the Power Co. just believes in bobbing up for more trouble. Likely they hope enough people fail to catch onto their wiles to make it worth it to keep on "fooling the public."

The "Gas" Co. branded as false the statements in Hydro ads that Hydro cooking came cheaper than gas—statements backed up by the best ladies in St. John after meter experiences with both. Beyond that, Your Hydro produced the undeniable evidence of Gas and Hydro cooking bills in every type and size of family in four Ontario towns. Comparisons worked out on St. John Gas and Hydro rates and coming from concerns that sold both fuels. And still the "Gas" Co. wouldn't keep quiet.

They trotted out Toronto, Ottawa and Winnipeg. In all three cities they claimed Hydro cooking was scorned. One would almost believe them if one were satisfied to hear but one side of the story. Catch them giving both sides!

Here are both sides. Toronto gets a Gas cooking rate of 85c per thousand feet with a service charge of 50c. Compare that to what is charged here for gas. Toronto has a 45 year accumulation of gas ranges and a first class service that permits cooking away below the Toronto Hydro cooking rates. In spite of this Toronto enjoys seven thousand Hydro Ranges and would have more but can't get them because the current is all sold out. How's that?

The "Gas" Co. says the Ottawa Hydro cooking rates are one-quarter that of St. John Hydro. Wrong again! Wrong by half. Hydro Range permits in Ottawa are very restricted due to local power conditions. Yet Ottawa—which pays MORE to cook with Hydro as against Gas—has bought two thousand Hydro Ranges. Now for Winnipeg. The St. John "Gas" Ads shout out that Winnipeg showed her scorn for Hydro cooking by an increase in Gas Range sales of 217 p.c. (Over what period of time?). Let us look at the omitted side of the story, as sent to Your Hydro officially and to the Nov. 15 issue of the "Electrical News." Sales of Hydro Ranges in hardly ten months of last year increased by 424 p.c. over the full year before. Winnipeg cooks with 12,000 Hydro Ranges.

We have just taken the cities named in the Gas ads. We could go on steadily—naming one after another where Hydro Ranges are preferred even when more expensive to operate than gas—they're cheaper to run here by far. They're cleaner, handier, more economical, more efficient and NOT DANGEROUS TO LIFE AND HOME.

Yet another attack with "poison gas" that turns out to be Laughing Gas.

OBSERVE 67TH ANNIVERSARY IN FAIRVILLE

Methodist Congregation Plan Special Events for Week Beginning Sunday

HAVE OVERCOME GREAT OBSTACLES

Two Churches Destroyed by Fire—Names of Ministers Are Recalled.

The 67th anniversary of the Fairville Methodist church will be observed with special services on Sunday and during the week. Special music will be furnished by the choir. Rev. J. M. Rice is the pastor. Rev. Dr. H. E. Thomas of Sackville, editor of the Wesleyan, and formerly of St. John, will preach at both services on Sunday, and will give an illustrated lecture at an open session of the Sunday school in the afternoon. Rev. R. G. Fulton will give an illustrated lecture on Monday evening on the Centenary of Missions. Wednesday evening will be marked by congregational prayer service, led by the pastor, with music by the choir. On Thursday evening there will be a congregational reunion, with speeches, reports and music. On Friday the Mission Band will furnish an interesting programme.

Interesting History. The Fairville Methodist church has an interesting history. Service was originally conducted by Rev. Richard Smith. There was no church at that time, and the minister's house was used for services. Later a room over a barn was remodelled as a meeting place, and on Sunday afternoons preachers from St. John were heard. Among those officiating at that time were John Fraser, Walter Wilson and James Sullivan.

It was finally decided that a church was necessary, and the late Rev. Dr. Wilson started out with a subscription list. In his memoirs he writes that on making a heading for his list he thought that Lancaster was too indefinite a location for a church, and so he says, without consulting anyone he called it the Fairville church in honor of Robert Fair, one of the oldest inhabitants of the place, and an active member of the denomination.

Building in 1861. The first real building was begun in Main street in 1861, and completed in the following year. The first board of trustees was composed of Robert Fair, John Clark, Hon. J. D. Lewin, G. W. Hill, Alexander Barnhill, John Moore, William Beatty and George Kingston. On May 8, 1862, the church and parsonage as well as many homes in Fairville were destroyed by fire and a new building was begun in Church street in the following spring and completed May 16, 1863. At that time the late Rev. Douglas Chapman, D. D., was pastor of the church. The cornerstone of the new building was laid by Senator Lewin, who received a silver trowel as a memento of the occasion.

Second Fire. The building was well on toward completion but had never been occupied when it caught fire and was practically demolished. At that time there was no fire fighting apparatus in Fairville, and the heroic and successful work of the church members and other citizens who succeeded in saving the parsonage less than 100 feet distant is still recounted by older members of the congregation. After the second fire the congregation kept together, holding services in the Orange Hall until a new building was erected. This was dedicated on Jan. 13, 1867. The officiating ministers were Rev. Dr. Chapman in the morning, Rev. Mr. Corey, Baptist minister, in the afternoon, and Rev. Thomas Marshall in the evening. Three years after the church organ had been in use, a pipe organ was presented to the congregation by Hon. Mr. Lewin, who had all along taken an active part and given generously toward the support of the church.

In the early years of its history the Fairville circuit included Westfield, Grand Bay, South Bay, Lovellville, Musquash and Lepreau and for a time St. George. This was a very large district, but as the work prospered these outside sections secured churches of their own.

List of Pastors. A list of ministers and dates of pastorate is as follows:— 1859-1862—Rev. Robert Wilson. 1862-1863—Rev. Robert H. Taylor. 1863-1866—Rev. Job Shenton.

Pinnery. 1879-1881—Rev. W. W. Lodge. 1881-1884—Rev. Joseph Selars. 1884-1887—Rev. Thomas Marshall. 1887-1890—Rev. S. J. Rice. 1890-1892—Rev. W. W. Lodge. 1892-1894—Rev. Douglas Chapman. 1894-1896—Rev. John C. Berrie. 1896-1900—Rev. George W. Fisher. 1900-1913—Rev. G. Ross. 1913-1917—Rev. Gilbert Earle. 1917-1921—Rev. Thomas Marshall. 1921-1923—Rev. J. M. Rice. Of these, four ministers served two terms, as will be noted: Rev. Job Shenton, 1863-1868 and again from 1901-1902, when he died suddenly; Rev. W. W. Lodge, 1879-1881 and again from 1890-1892; Rev. Dr. Douglas Chapman, 1868-1870 and again from 1892-1894; Rev. Thomas Marshall, 1884-1887 and again from 1917-1921.

The present pastor is a son of Rev. Stephen H. Rice, who was minister of the circuit 1887-1890. He spent three years of his boyhood in Fairville as a member of the family at the Methodist parsonage. Mr. Rice will finish his present pastorate in June and will then assume his new duties as pastor of the Methodist church at Marysville, N. B. His term in Fairville has been helpful, and the finances of the church are reported gratifying. Under his leadership the church has made progress, is well organized and is prospering in its various activities. The present church is an up-to-date structure. The auditorium has a seating capacity of 300. It has a bright and cheerful school room; also a library, church parlor, and several class-rooms. It has a surplus choir of 16 members, and excellent music is furnished. During the last two years the church has undergone extensive repairs, which cost in the vicinity of \$3,000, the interior and exterior being renovated. On the north side of the front entrance a concrete block fence greatly adds to its outward appearance.

RECOMMENDATIONS TAKEN UP LATER

Civic Power Commission Receive Several Proposals—Regret at Fatal Accident. At the meeting of the Civic Hydro Commission yesterday afternoon a resolution of sympathy was ordered sent to the family of William McNulty, who lost his life through an accident while in the employ of the commission. Recommendations that a flat rate be adopted for hot water heaters, that a semi-monthly paper be published in the interest of hydro and that a permanent auditor be appointed were laid on the table for future discussion.

The chairman, E. S. A. McMullin, presided and Mayor Potts, Commissioner Harding and Messrs. J. N. Flood, James Lewis and A. M. Rowan were present. Report on Accident. The engineer reported that on Feb. 11, William McNulty had been shocked while at work on the line and later on that day died from internal injuries received by falling from a pole. On motion of A. M. Rowan it was decided that the members of the Commission attend the funeral and Messrs. Rowan and Flood were appointed a committee to draft a letter of sympathy to be sent to the family of the deceased. The engineer also reported that sheds Nos. 1, 2, 5, 6, West St. John, had been connected to the hydro lines. He recommended that a committee be appointed to confer with the directors of the Admiral Beatty Hotel about securing that load for hydro. This was agreed to.

A letter from Harley Knox, Millidgeville, asking when the hydro lines would be extended to Millidgeville, was filed. Flat Rate Considered. The committee, composed of Messrs. Flood, McMullin and Wilson, appointed to consider the matter of a flat rate for hot water heaters reported recommending that a flat rate of \$6 per month be made for this service when the heater was used in conjunction with a hydro range. Mayor Potts said he was opposed to the principle of a flat rate for any part of the service as he felt that every customer should be on a meter and the amount of current used measured. Consideration of this matter was deferred and the report laid on the table.

Hydro Paper. The secretary presented a proposition from a local printing office to print and distribute 3,000 copies a month of a publication to be called "The People's Own" devoted to hydro, at no cost to the Commission. Mayor Potts said he would like to see the proposition in writing and it was decided to defer action until the next meeting at which time the secretary will endeavor to have the offer in writing. The secretary recommended that a permanent auditor be appointed and this matter was referred to a committee composed of Messrs. Rowan, Flood and Harding.

CONVERSAZIONE AT U. N. B. IS SUCCESS

Brilliant Event in Arts Building at Fredericton Attended by Many.

FREDERICTON, Feb. 13—The annual conversation of the University of New Brunswick was held this evening in the Arts Building, when the students entertained great numbers of their friends at the most enjoyable social function of the college year. The guests entered the building through the side door and were received by Guy D. Scovill, the conversation president, and by the chaperones, Dr. and Mrs. Jones, Dr. and Mrs. Kerstead and Professor and Mrs. Harvey. Color Scheme. The main hall and the latin and mathematics classrooms were used for dancing. The general color scheme was pink and green. Over the orchestra stand was the U. N. B. crest, done in red and gold with a background of sable. The French classroom, which was used for sitting out, was decorated in red and white symbols of Friday the thirteenth. The mathematics classroom was scarlet with the red hearts characteristic of St. Valentine's Day. The latin classroom was done in rustic style with green arches and soft lights.

Supper Served. A running supper was served in the library between the tenth and twelfth dances. The tables were partitioned off by lattice work made of shabby and roses. Numerous students served the guests. Bridge was played at ten tables in the ladies' reading room and though most of the guests seemed to prefer to dance the tables were filled most of the time. St. John people attending included Mr. and Mrs. A. C. E. Wilson, Mr. and Mrs. W. I. Fenton, Miss Florence Warwick, Miss Vera Day, Miss O. Gregory, Miss Jean Johnston, Miss Winifred Black, Miss P. J. Dunham, Cecil Duclos, W. H. Estabrooks, Miss Thompson, Miss Jean Angus, Ralph Tennant, Leslie Jones, Audrey Anderson, Miss E. M. Anderson, Miss Ethel Bell, Miss Ethel Thompson, Col. W. B. Anderson and Mrs. Anderson, R. L. Bishop, Miss Frances Campbell, Carey Purdy and B. W. Winchester.

COURSE IS ENDED

Vocational Welding and Automobile Institution Here, Was Taken by 42.

The courses in oxy-acetylene welding and automobile electricity which had been carried on under the direction of the Provincial Vocational Board during the last six weeks closed last night after a very successful session. The total enrollment was 42, the majority being employes of garages or garage owners. All those who attended will receive an attendance certificate, said W. B. Main, who directed the courses, while certificates of proficiency will be issued later. Twelve men took the day course in electricity and ten that in welding. The remainder took the auto electricity course at night.

B. W. Kelly, of Fredericton, was in charge of the welding course and was assisted by A. M. Gimball and Murdoch MacKay. The day course in electricity was conducted by Mr. Main, who was assisted by F. W. Gunter, of Fredericton. Mr. Main conducted the night courses himself. DR. POOLE HOME FROM WASHINGTON. Rev. Dr. S. S. Poole, pastor of German Street Baptist Church has returned from Washington where he has been attending the World's Missionary Conference, and will occupy his pulpit tomorrow morning and evening.

Deaths

Martin Greenlaw. ST. ANDREWS, Feb. 13—Martin Greenlaw, a respected resident, passed away suddenly on Saturday last. Mr. Greenlaw had been at work when he was suddenly stricken. He was taken immediately to his home and medical aid summoned, but he failed to respond to all efforts and soon expired.

Mr. Greenlaw was 67 years of age, and was a native of Bay Side, but had resided in St. Andrews. He is survived by his wife, one son, Frederick, of St. Andrews; a daughter, Miss Emma Greenlaw, R. N., of Chicago; also two sisters, Mrs. Joseph Greenlaw, of Greenwood, and Mrs. Charles Mears, of St. Andrews; and two brothers, Joseph and Augustus Greenlaw, of Bay Side.

J. Scott Robinson. YARMOUTH, N. S., Feb. 13—The news has been received here of the death in Wehauken, N. J., of J. Scott Robinson, second son of the late Captain John Robinson, of Berwick, N. S. He was about 45 years of age, and in his early manhood showed marked literary ability. As a youth he started in newspaper work, and at one time was editor of the Weymouth Free Press.

William D. King. SUSSEX, Feb. 13—The death of William Duncan King occurred at his home here today. The funeral will be held on Monday at 2.30 from Trinity church. Interment will be made at Sussex Corner.

Charles E. Currie. FREDERICTON, Feb. 13—Charles E. Currie, aged 80 years, died last night at Scotch Lane. He was a resident of Bear Island.

SEES MUCH GOOD FROM TRADE MISSION

J. E. McAulay Speaks of Men Who Will Not Take Share Work.

The undertaking sponsored by The Telegraph-Journal and Times-Star in sending A. M. Belding and J. D. McKenna, M. L. A., into Quebec, Ontario and the west to spread the doctrine of the Maritime, J. E. McAulay, of Millstream, considered a very fine thing. It was the first time such a mission had been undertaken and he felt sure that much good would be reaped as a result.

Canada's Trouble. Mr. McAulay diagnosed the trouble with Canada by saying that 60 per cent of the men of the country were "home-wreckers." He did not mean this in the popular interpretation but rather in the sense that a man who, through shiftlessness, neglected his home and passed up opportunities to improve it and who, instead of putting a hand to the plow and assisting, sat back and "let George do it," was a home-wrecker. One of this genus in a parish affected the whole parish; one in each of a number of parishes affected the country;

LEOPARD FUR HAS BIGGEST ADVANCE

Sells at High Price of \$55 For Gain of 20 Per Cent. During Day.

NO HALL AVAILABLE. The district troop of Boy Scouts will not meet tonight because no hall has been found as a meeting place. The biggest advance today at the annual winter fur sale here. It averaged 20 per cent higher than last fall. Persian lamb, which went up ten per cent, was the only other to advance today. It brought \$8.50 for the best skins.

The selling began with the silver fox skins left over from yesterday, but the previous high price of \$15.00 was not exceeded by today's fur sale. Black bear sold to \$18 and polar bear to \$48. Blue fox dropped 20 per cent below the fall auction of the New York Auction Co., but touched \$115 for the best pelts. Cross-fox, which reached \$74, did not change. Monkey sold up to \$2.70 and Nutria closed \$5.50.

Fables On Health

SWEETS are not absolutely essential to health, Mrs. Mann of Anytown learned in her study of foods. In addition to laying the foundation for numerous ills, one of which is overweight, sweets destroy the appetite for the essentials. There are certain foods all healthy adults and children should have every day. Milk is one of these. A pint of milk a day is about the proper amount for a normal person. Other foods required are vegetables, one of which should be a leafy vegetable two or three times a week, at least some fresh fruit, and bread or cereal. Children should have probably three or four eggs a week. Health experts are not sure how big a place in the diet should be given to meat and eggs, but very few people are likely to omit them. It is known, however, that there is danger in eating too much of either meat or eggs.

Parisian Frock

The Frenchwoman is always true to the combination of black and white, no matter what new ones may be the vogue. Here is a typical Parisian street frock of moosehens with the fashionable high collar, long sleeves and pleated panels that are so smart. A few white buttons are added for good measure.

GRAY COMING ON

Gray is smart, becoming, in the class with the beige and tan shades when it comes to being smart.

Close to Home.

An examination was proceeding in the classroom. Inspector—"Can any boy tell me what comes in like a lion and goes out like a lamb?"

Silence prevailed for a few moments, then a piping voice from the back: "Out landlord, when he gets the back rent."

Gushing hostess—"That last little thing of yours was charming. I loved its wild abandon. Was it your own composition?"

Composer (scowling)—"No, madam; was putting a new string on my violin."

Gossip—"Mrs. Married girl was just telling me of the perfect treasure she has at home—"

Mrs. Wainter—"Oh, tell me where she got her. I need a cook."

"But it wasn't a cook. She was talking about her baby."

The prohibition law seem to be like a woman's secret, for few seem to be keeping it.

SLEEVELESS FROCKS.

The newest frocks for tennis are absolutely sleeveless and have wide, circular but very abbreviated skirts.

DIAMOND BUTTONS

Tiny diamond studded buttons are very smart for buttoning the new elaborate waistcoats.

Breathes there a man with soul so dead, who never to himself has said: "Tonight before I go to bed I'll solve that chess-board maze." Whose heart has not within him burned as dictionary-words he turned to find a synonym for "churned" all through the Cross-Word cross?—Passing Show.

Adventures of the Twins

BY OLIVE ROBERTS BARTON. BACK IN THE LILY POOL.

"If I were you I think I'd duck," advised the porpoise.

The Fairy Queen and the Twins could see everything from there they stood on the lighthouse.

The whale that had once been a goldfish swam by and they heard him telling his story to a porpoise.

"Yes, sir!" he was saying. "All I could see was flowers and water lilies and birds and the people who came to feed me. How much grander it is to ride the waves and see the world! Here comes a ship. They are coming to get a view of me."

"If I were you I think I'd duck," advised the porpoise. "One never can tell what they are after."

"I'll do nothing of the kind," said the whale. "If people want to see me I am not going to be mean. I'll stay where I am."

The porpoise dived from view, but the whale stayed on top of the water.

He was so busily thinking of his looks and of how high he could spout the water over his head, that he didn't see a small boat leave the big boat and row out carefully toward him.

He didn't see the coils of thick rope or the long spear-like thing called a harpoon that was fastened to the rope. Suddenly he felt a stinging pain in his side. Then he turned and saw the little boat—and the men and the rope and everything.

"Dear me! I believe I'm stabbed," he cried. And he darted away, swimming as hard as he could, although he felt very weak.

"I didn't know the ocean was so dangerous!" he gasped. "I wish I was back in my garden again with the birds and flowers and water lilies. It was so safe! No one even hurt me. My, but my side hurts. There! I guess I'll have to stop swim—"

Suddenly he felt very queer. It seemed as though he lost his senses for a minute. When he came to, there he was back in the Lily Pool again among his friends and the water lilies.

"Oh, my! I've had such a queer dream," he said. "I must have been asleep." And he told them about the ocean and the porpoise and the ship and the sharp thing that stabbed him in the side.

A big blue butterfly was just disappearing over the garden wall. On it were a fairy and two tiny children.

## MISS TOPPING HELD UP BY QUARANTINE

Cannot Take up Work on Peigan Reserve Until Epidemic Over.

Miss Louise Topping, who left St. John a short while ago to take up duties as missionary worker and matron of the Indian school on the Peigan Reserve, Alberta, is to see something more of the Indian reserve before she arrives at her destination, as word has come that the Peigan Reserve is now in quarantine with scarlet fever. Miss Topping was in Winnipeg when the news of the epidemic came in, and Dr. Westgate immediately made arrangements for her to proceed with him to the Black Foot Reserve school, which is about 200 miles north of Peigan.

Stay for Time.

She will remain at the Black Foot school until the quarantine is removed from Peigan and will have opportunity for rest and for obtaining an insight into the mission school work which will greatly aid her. Miss Topping passed the medical examination of the M. S. C. A. examining board with flying colors, and is now fully admitted as a missionary worker for the Anglican Church in Canada. She enjoyed a delightful visit in the Deane House at Toronto on her way west.

## The Hot Cup For a Cold Day

A cup of hot OXO on a cold day helps to keep up the circulation, and carries warmth even to the ears and fingertips. The rich nourishment of this concentrated beef relieves fatigue, and creates vitality.

Hot OXO can be made in a minute with an OXO Cube.

Try a cup of hot OXO between meals, and after the theatre or hockey game, and always the last thing at night. Any time is OXO time, and it keeps you always in trim. Use them in your cooking too.

The Great Beef Economy.

### NO INCREASES IN SALARIES AT G. P. HOSPITAL

Much Business Comes Before Meeting of Board of Commissioners

ACCOMMODATION OF BUILDING TAXED

Admission Had to be Refused Patients at Times in January.

Accommodation in the General Public Hospital was so much in demand during the month of January that at times admission had to be refused, it was reported at the meeting of the Board of Commissioners yesterday. Sessions were held in the afternoon and evening and much business was dealt with. It was decided to call the "Epidemic Hospital" the hospital "Annex" for caring for infectious diseases and authority was given for installing new plumbing, renewing old, laying tiles in the out-patient department and purchasing linen supplies. Five internes were appointed for the ensuing year after the medical college term closes.

**Report on Bylaws.**  
M. E. Agar, president, was in the chair. Others present were Commissioners Mrs. J. V. McLellan, W. E. Emerson, J. L. O'Brien and J. King Kelley and R. H. Gale, superintendent. Mrs. McLellan reported the by-laws were completed ready for publication and recommended the act relating to the hospital be issued later as an appendix.  
Dr. Howan's resignation as interne because of ill health was regretfully accepted.  
Applications for interne appointments were received from John H. Lindsay, Glasgow, Ont., J. Merrill Cruikshank, St. John, H. W. Clement, John A.

Stewart, Kilburn, Ont., all from McGill and Perry McG. Knox from Dalhousie. Mr. Gale recommended all five be appointed and this was agreed to. The report of the superintendent showed 150 patients remaining at the end of the month and an average of 146.6 per day with 68 operations in the operating room and 77 in the out-patient department where 490 treatments were given.  
The financial statement showed receipts \$19,853.51, including pay patients, \$5,039.45; X-ray, \$1,156, and city, \$7,330.64, and disbursements totalling \$3,488.86. Bills amounted to \$14,182.85. The hospital gets about \$1,600 a year as revenue from unexpended government balances at the time of Confederation which were funded.  
Paying Nurses.  
With reference to the payment of salaries of nurses absent through illness Mr. Gale was asked to find out what was the procedure elsewhere. The Board of Health was to be asked to report on the hospital's liability for care of a case where there were many typhoid patients in one family.  
It was agreed that in future the building which had been known as the "Epidemic Hospital" was to be called "The Annex for infectious diseases."  
The consolidation of the acts of the New Brunswick Legislature relating to the hospital were discussed and Mr. Ross of Kelley and Ross

tilling of the rotunda were submitted by F. Nell Brodie and met with much approval. The plans submitted would call for an expenditure of about \$2,000.  
Regrettably the Board refused permission to Dr. O. S. Peters to practice in the hospital as he is not resident in and practicing in St. John county.  
The purchase of an X-ray developing tank for \$200 was authorized. Miss Margaret Murdoch and Miss Belding asked two extra weeks vacation this year to attend the International Congress of Nurses in Finland. The request was ordered filed.  
A large supply of new linen was ordered, the purchase to be made by Mrs. McLellan in co-operation with

the commissioner of the month, superintendent and matron.  
Salaries were discussed. No provision was made in estimates for increases and none are to be made. A committee was appointed to act in the matter of purchasing tiling for the out-patient department corridor, which it is estimated will cost between \$1,500 and \$2,000 and will replace linoleum for which a \$519 refund has been secured.

Ford Co. Diverts Cargoes From New London To Halifax

FIRST CONCRETE RESULT OF MARITIME CAMPAIGN IS SEEN

Motor Company's Action Regarded as Fore-shadowing Like Steps By Other Manufacturers of the Dominion

THE Ford Motor Company of Canada, Ltd., will in future ship all its cargo destined for Australasian points through the port of Halifax instead of New London, Conn.

FIRM BELIEVER IN USING HOME PORTS

During his recent tour of Ontario to emphasize the necessity for routing Canadian goods through Canadian ports, J. D. McKenna, M. L. A., president of The Telegraph-Journal and Times-Star, had a lengthy interview with W. R. Campbell, vice-president of the Ford Motor Company.

ORDERED THROUGH OWN OUTLETS

Subsequent inquiries by Mr. Campbell elicited the information that the Ford traffic was diverted to New London about a year ago in the belief that there was a saving in time. This was found not to be the case, and instructions were issued to make future shipments through Canadian ports.

TEXT OF THE CORRESPONDENCE

FORD MOTOR COMPANY OF CANADA, LIMITED.

Dear Mr. Schlanders: I enclose herewith copy of letter received from Mr. J. P. Doherty, Traffic Manager of the Canadian Government Merchant Marine in connection with shipment by the east coast for Australasian points, and I would ask you to kindly pass this information along to Mr. McKenna, who called on me last week in this connection. I am not just sure of his address, but presume you have it available.

I have had a telephone conversation with Mr. Schlander today in which he advised me that he had discussed the matter with you, and following your conversation, he had taken it up with other shippers and has now come to the conclusion that it will be possible for us to despatch the "Canadian Scottish" our February steamer for Australia, direct from Halifax and all subsequent steamers, both to Australia and New Zealand, during the balance of the winter season can be handled likewise.

PROMISES CO-OPERATION IN PLAN.

We shall be very glad, indeed, to do our utmost to work out direct sailings from Halifax along these lines, and no doubt you will be kept fully posted by Mr. Schlander under this heading from time to time. I have said to Mr. Schlander, as I say to you, that we will be very glad to eliminate the New London call, and I have asked him to do everything that he can to see that this is brought about—always having in mind, of course, the necessity for the procuring of full cargoes as far as possible for our steamers.

I do not wish to lose the opportunity to congratulate you for the spirit which prompted you in saying, as far as possible, that all your traffic move from Canadian ports, and it certainly will be our policy at all times to do everything in our power to assist you in carrying out your plans.

Yours truly, (signed) J. P. DOHERTY.

Captain Klingenberg refused duty payments, contending that under an old Arctic law a trader was exempt. The schooner sailed under a convoy of a young mounted policeman, who disappeared. An investigation has been ordered.

Valentines of Yesteryear

THE WHY OF VALENTINE'S DAY.

Two Valentine's Days are really crowded into Howland, daughter of a Worcester (Mass.) stationer—the lovers' festival and the religious side. The ancients believed that the birds selected their mates on Feb. 14. Hence this date was observed as lovers' day among the Romans, some 2,000 years ago. As a lovers' festival, Valentine's Day reached its greatest popularity in England five centuries ago. The custom of sending valentines likely started with the ancient practice of putting names of unmarried young men and women in a box.

Vancouver Wants Support In Drive For Tourist Trade

By A. M. BELDING

SPECIAL REPRESENTATIVE OF THE TELEGRAPH-JOURNAL AND TIMES-STAR NOW TOURING WESTERN CANADA IN THE INTERESTS OF THE MARITIME PROVINCES.

VANCOUVER, Feb. 13.—The Vancouver Publicity Bureau desires the Maritime Provinces' support of its appeal to have the Dominion Government conduct a campaign to attract tourists to Canada, supplementing what provincial and other associations are doing.

Manager Davidson suggests that the Government advertise in 30 or more American newspapers and 20 or more magazines, with effective illustrations and news matter, inviting the readers to visit Canada and making the publicity drive right across the continent from Jan. 1 to May 31 with suitable advertisements for each province dovetailing in with its publicity work and that of transportation companies.

Would Spend \$200,000. The prairie and central provinces approve of the plan and prompt Maritime support is urged. It is suggested that \$200,000 be spent the first year. Vancouver's tourist budget last year was \$46,000, of which the city granted \$15,000. The expenditure by tourists in British Columbia last year is estimated at \$40,000,000.

Pictou Senator Says High Freight Rates Excluding Maritime Products

TAKES A FLING AT MACKENZIE KING

Asserts It Is Time To Cease Bewailing Defeat of Reciprocity With U. S.

OTTAWA, Feb. 13.—"It is not time to call a halt to this business of being dependent upon the United States and behaving as though we were an adjunct to that country? Cannot we stand on our own feet, or must we forever be grovelling on our knees begging for reciprocity?" These were some questions asked this afternoon in the Senate by Hon. Charles E. Tanner, Pictou, N. S., in the debate on the address in reply to the Speech from the Throne.

In Reply to Dandurand.

"But we will never do that if we continue to keep in the back of our heads the idea that we cannot sell our fish or our coal or that we cannot use our pulpwood, but must look to the United States to be our helper and aid in every contingency."

These remarks in Senator Tanner's speech were made in reply to a suggestion by a previous speaker in the debate, Hon. Raoul Dandurand, leader of the Government in the Upper House, that the fishing districts of Nova Scotia and Prince Edward Island so depopulated if reciprocity with the United States had carried in 1911.

"There is an idea abroad," continued Senator Tanner, "that practically all of the talk that comes from the Maritime Provinces emanates from Conservatives—that it is political propaganda. I am now going to give this House one or two items which I think will show that it is not partisan propaganda on this question of the fishermen of Nova Scotia."

Quotes Armstrong.

"I happen to have the report of an interview given in 1923 by Premier E. H. Armstrong, of Nova Scotia. It is true that he was in favor of reciprocity, and perhaps he is yet, but I wish to quote a report of this interview given in the Montreal Gazette in April of that year, which he happened to refer to the subject."

"In that interview Premier Armstrong said that the Fordney Tariff and high freight rates had disheartened Nova Scotia and Senator Tanner made much of the point that Premier Armstrong attributed the trouble not only to lack of assistance from the Federal Government but also to high freight rates."

Senator Armstrong admits that the Fordney tariff was not the only thing to be taken into consideration," said Senator Tanner. "When the fish of the Maritime Provinces is closed out from the United States markets by the Fordney tariff, we have a right to look to the markets of central Canada. As he points out, these matters which are within the control of Federal Government—excessive freight and export rates—have entirely eliminated the possibility of sending Maritime fish to the central provinces."

Quotes Liberal Paper.

Then Senator Tanner quoted the Halifax Chronicle of June, 1923, when it declared that the Maritime people must continue to fight for relief from high freight rates. He also quoted from the same paper of July, 1923, on that subject, and added: "That is the kind of sentiment that is being taught in the Maritime Provinces, as I say, by the leading Liberal newspaper and my honorable friend (Senator Dandurand) need not be at all surprised if there is discontent in regard to the conditions there."

"Never before in the history of Nova Scotia was there such a desperate state of unemployment as there has been during the last year or two. The conditions in the county of Pictou have been appalling."

In Cape Breton.

"In Cape Breton they have been practically as bad. And while my honorable friend was reading reports to this House in regard to employment, unemployment and the cost of living, I presume he had in his possession the printed statements which were presented to him and to the Government by the Associated Boards of Trade of the Island of Cape Breton in December last and which set out from a business and non-political point of view the actual conditions existing in the province of Nova Scotia."

Canadian Ports.

After referring to the demand of the Cape Breton Boards of Trade deputations for a protective duty against foreign coal, Senator Tanner said: "The desire to see the Canadian ports on the Atlantic and the Pacific used for Canadian purposes and Canadian railways

AMHERST, N. S., Feb. 13.—"If the Maritime Provinces stand together in a firm insistence upon their demands, they can win whatever they wish," is the statement made by Hon. Edgar N. Rhodes, of Ottawa, former Lumberland M.P., and once Speaker of the House of Commons, who has been in his home town for a few days.

Mr. Rhodes bases his views upon the successes achieved by the Western members of Parliament in their efforts to secure greater consideration for the Prairie Provinces.

Mr. Rhodes declared that British Columbia and Western parliamentarians stood shoulder to shoulder when any issue affecting their particular provinces was up for discussion. He urged that Maritime members of Parliament adopt the same tactics.

Mr. Rhodes makes his statement as a Nova Scotian, and not from any political standpoint. In the interest of economy, he says, the members of Parliament should voluntarily reduce their indemnities from \$4,000 to \$3,000 a year.

Official Sifts Report of "Wild Parties" in Atlantic City Bureau.

ATLANTIC CITY, N. J., Feb. 14.—Twelve young women and several men were questioned by Director of Public Safety William S. Cathbert, following reports of all night parties at which liquor flowed freely in the offices of the Electric Bureau where the municipal telephone exchange is located.

Those examined are employees of the bureau and include Frank Shinnen, city electrician, in charge. The investigation, it was said, followed complaints by several girl operators of "wild parties" in the bureau at night, in which a number of minor city officials took part.

French Peasants Hoard Large Sum and Refuse to Sell to Government.

PARIS, Feb. 14.—Buying bootleg French gold is making fortunes comparable to those of sellers of bootleg liquor in the United States. A French law forbids trafficking in gold. Peasants are estimated to have \$370,000,000 tucked away in 200-franc gold pieces and the government offer for such a gold piece is twenty paper francs approximately \$1 in value or \$370 in gold. The peasants refuse such a trade and are disposing of their hoards to illicit buyers who give them 40 or 50 paper francs for a gold piece and then dispose of each coin at a profit of about \$1.

BOOTLEG IN GOLD

carrying Canadian freight to Canadian ports instead of to United States ports is one of the matters which is interesting Nova Scotians and other Maritime Province people very much indeed."

Senator Tanner concluded his speech with some remarks on Senate reform.

Endorse Government Proposal.

A committee consisting of F. G. J. Comeau, Mayor Murphy, G. F. Pearson, Douglas MacGillivray, J. F. Fraser, R. J. R. Nelson and H. S. Colwell was appointed with power to name the Montreal delegates and the men to visit the Boards of Trade in Nova Scotia.

J. F. Fraser, it was announced, would visit Prince Edward Island. A resolution was passed endorsing the proposal contained in the Speech from the Throne, read at the opening of the Federal Parliament to the effect that it is the intention of the Government to equip the important ports on the St. Lawrence route and on both the Atlantic and Pacific coasts, so as to enable them to meet all requirements of modern navigation.

Text of Resolution.

The resolution passed by the meeting follows: Whereas it is in the best interests of the Dominion as a whole that the imports and exports of Canada should pass through Canadian ports in the greatest volume possible and, Whereas the proposal to restrict the application of the British preferential duties entirely to goods imported through Canadian ports is of vital interest to Canadian ports and for the general advantage of Canada and, Whereas the present session of the Dominion Parliament was opened with a Speech from the Throne in which the following passage occurs:

Part Equipment. "It is the intention of the Government so to equip our important ports on the St. Lawrence route, and on both the Atlantic and Pacific coasts, as to enable them to meet all requirements of modern navigation."

Therefore, resolved, that the Halifax Board of Trade strongly endorses the proposal contained in the Speech from the Throne above quoted, and urges upon Parliament the adoption of measures for immediately confining the benefits of the British preferential duties to goods imported through Canadian ports the principle of which has been formally accepted by Parliament and is embodied in the customs laws of the Dominion.

Then Senator Tanner quoted the Halifax Chronicle of June, 1923, when it declared that the Maritime people must continue to fight for relief from high freight rates. He also quoted from the same paper of July, 1923, on that subject, and added: "That is the kind of sentiment that is being taught in the Maritime Provinces, as I say, by the leading Liberal newspaper and my honorable friend (Senator Dandurand) need not be at all surprised if there is discontent in regard to the conditions there."

CITY COUNCIL PLANS TO DISCUSS GRANT

Business Men Endorse Government Plan to Improve Ports' Position.

BY A. M. BELDING.

SPECIAL REPRESENTATIVE OF THE TELEGRAPH-JOURNAL AND TIMES-STAR NOW TOURING WESTERN CANADA IN THE INTERESTS OF THE MARITIME PROVINCES.

VANCOUVER, Feb. 13.—The council of the Board of Trade here is sympathetic toward the proposal for a joint delegation to Ottawa in regard to a policy of Canadian trade through Canadian channels and raising the British Preference to that end, but asks a further expression of views and fuller discussion before taking definite action.

The council yesterday expressed high appreciation of my mission but wanted to be absolutely sure of their ground before sending representatives to Ottawa.

Canadian Press Despatch.

HALIFAX, Feb. 13.—Strong endorsement of the proposal, as made here yesterday by representatives from the St. John Board of Trade that a delegation be sent to Ottawa, representative of all Canada proceed to Ottawa to express to the Government the needs of the country, especially the coast provinces, was given at a meeting of the council of the Board of Trade here this afternoon attended by Mayor John Murphy, members of the City Council, F. C. Whitman, of the Canso Board of Trade, B. T. Smith, of the Windsor Board of Trade, and practically the full council of the board.

Council Meets Today.

Mayor Murphy announced that there would be a meeting of the City Council at noon tomorrow for the purpose of considering what financial aid could be rendered to the delegation.

It was decided to send two delegates to Montreal and Ottawa, one from the week, in company with a like delegation from St. John, to enlist the support of the Boards of Trade in those cities on behalf of the proposed Ottawa delegation. It was also decided to have representatives from the Halifax board visit the towns and cities of Nova Scotia and Prince Edward Island in order to secure the whole-hearted cooperation of the people of the two provinces.

Endorse Government Proposal.

A committee consisting of F. G. J. Comeau, Mayor Murphy, G. F. Pearson, Douglas MacGillivray, J. F. Fraser, R. J. R. Nelson and H. S. Colwell was appointed with power to name the Montreal delegates and the men to visit the Boards of Trade in Nova Scotia.

J. F. Fraser, it was announced, would visit Prince Edward Island. A resolution was passed endorsing the proposal contained in the Speech from the Throne, read at the opening of the Federal Parliament to the effect that it is the intention of the Government to equip the important ports on the St. Lawrence route and on both the Atlantic and Pacific coasts, so as to enable them to meet all requirements of modern navigation.

Text of Resolution.

The resolution passed by the meeting follows: Whereas it is in the best interests of the Dominion as a whole that the imports and exports of Canada should pass through Canadian ports in the greatest volume possible and, Whereas the proposal to restrict the application of the British preferential duties entirely to goods imported through Canadian ports is of vital interest to Canadian ports and for the general advantage of Canada and, Whereas the present session of the Dominion Parliament was opened with a Speech from the Throne in which the following passage occurs:

Part Equipment. "It is the intention of the Government so to equip our important ports on the St. Lawrence route, and on both the Atlantic and Pacific coasts, as to enable them to meet all requirements of modern navigation."

Therefore, resolved, that the Halifax Board of Trade strongly endorses the proposal contained in the Speech from the Throne above quoted, and urges upon Parliament the adoption of measures for immediately confining the benefits of the British preferential duties to goods imported through Canadian ports the principle of which has been formally accepted by Parliament and is embodied in the customs laws of the Dominion.

SAYS GRAIN RATES WILL STAY IN FORCE

Hon. A. B. Hudson Declares Position Cannot be Altered Now.

WINNIPEG, Feb. 13.—"I do not know what the Supreme Court will do, and I have no inside information as to what the Government intends to do with regard to the Crow's Nest Pass agreement, but I will say with all confidence that, so far as the grain rates are concerned, they will continue. I have no authority for saying that beyond my confidence that the position achieved in respect to these rates is such that it cannot be altered."

These statements were made by Hon. A. B. Hudson, K.C., M.P., on his departure for Ottawa last night.

Miss Alice King Sought \$15,000 For Alleged Stock Transaction.

NEW YORK, Feb. 14.—A jury in the Supreme Court returned a verdict for Mrs. Charlotte Fairchild, photographer, and Colonel Arthur W. Little, President of the publishing house of J. J. Little & Co., in a suit brought against them for \$15,000 by Miss Alice King.

Miss King testified that Colonel Little and Mrs. Fairchild had induced her to invest in the stock of Curtis Bell, Inc. They told her, she asserted, that they would reimburse her if she bought control of the company. Mrs. Fairchild, she alleged, wished to merge the business with her own. The defendants denied all of Miss King's allegations.

# GREATEST ECONOMY DECIDES ROUTE FROM PRAIRIES TO SEA

Reduced Rates on Canadian Railways Would Be Met By Lines in United States, Exporters Say

By A. M. BELDING.

Special representative of the Telegraph-Journal and Times-Star now touring Western Canada in the interests of the Maritime Provinces.

SASKATOON, Feb. 5.—(By Mail).—I have been taking a traveling course in the grain trade, and now know enough to know how little I knew when I left St. John. Certain points of interest appear to be established.

1.—The grain trade is extremely intricate, with the keenest competition in the world's markets, and a number of nations are in that competition to sell as well as to buy.

2.—The exporting business is done on a very fine margin, a mere fraction of a cent per bushel turning the scale.

3.—The trade is now carried through the most economical channels, or the competitors would have long since found it out.

4.—Only Government interference would cause a change in the routing of grain from Canada, and if exporters from Canada were limited to certain ports they would be at a disadvantage and the farmers would be up in arms.

5.—If the Canadian railways cut rates they would be promptly met by the New York Central and Pennsylvania, which have great terminal elevators of their own and a complete organization to handle the grain trade cheaply and expeditiously.

6.—The ports that can offer the greatest variety of tonnage stand the best chance of getting grain.

When the threshing season begins, preparations are made to move the grain as rapidly as possible. In our West it is first collected in country elevators of 30,000 bushels capacity each. There are 4,000 or more of these, owned by over forty companies. Among the latter are two controlled by the farmers. They are the United Grain Growers, with about 300 elevators, who operate in these provinces, and the Saskatchewan Co-operative Elevator Company, with over 400.

The latter not only collect grain but buys from farmers. It deals in grain

and sells on the market in Winnipeg, to a company or companies formed to carry on an export business.

The grain must be started toward the ultimate buyer as soon as possible after threshing. The country elevators are filled and emptied and the aim is to work the grain as far forward as possible toward the seaboard.

Must Keep Moving.

At the peak of the threshing activity as much as 7,000 to 10,000 bushels a day will be poured into a country elevator, and it must be kept moving to give space for more, since the threshing season lasts only from 27 to 30 days.

Everybody wants the grain to go forward. The farmer wants to get it where he can finance it. The storekeeper wants his money. The bankers want theirs. The railways and Lake steamers are eager for the business. The buyer of the grain wants it to be at the most advantageous position at the most advantageous time. It is worth more to him, for example, at Port William than at Winnipeg. Everything conspires to push the grain down from the prairies to tidewater.

of bidders for it if he desires to sell on this side. Much grain is sold for delivery before it gets to Fort William and Port Arthur, where there is a storage space of 63,000,000 to 65,000,000 bushels.

**AWAY ON MONTCLARE.**

Mr. and Mrs. G. C. P. McIntyre sailed yesterday on the Montclare for Scotland. They expected to visit in Scotland and England and to make a tour in Europe and planned to return to St. John some time in April.

**MORE LUMBER.**

Speaking of the lumber cut along the Millstream, John E. McAulay, former Warden of Kings county, said the total for this winter would be a little better than last year. Conditions had been good and the operators were get-

ting out more than they had at first planned. The floods would make it bad on the roads for a little time, but he did not think that they would have any effect on conditions in the woods.

# TWO CREAMS that give the line-free, lovely skin that Social Life demands

- Oiliness banished
- Clogged pores cleared
- Rough patches smoothed
- A dry skin softened
- The skin prepared for powder
- The complexion brightened

THE PRINCESSE MARIE de BOURBON

"The exquisite skins of beautiful women everywhere must be watchfully cared for, or, like fragile flowers, they wither, they fade."

"Happily, however, no woman's skin need fade if she faithfully uses Pond's Wonderful Two Creams."

MRS. GLORIA GOULD BISHOP

"The women of the younger set today never permit the strain of many engagements to mar the smooth delicacy of their complexions. Fatigue can leave no trace on the skin that is cared for by Pond's Two Creams. They are really remarkable."

OF the greatest importance to all women who want to keep their youth and beauty is the Society Woman's choice of a way to care for her skin.

With the leisure and money to test the best products and with the determination to use only those that give effectual results, she has turned to just Two Creams.

They afford so simple, so sure a way of keeping her complexion flower-like, fresh. Now she's telling all her friends about this wonderful method of skin care:

**First, the Refreshing Cleansing.** At least once a day, always after any exposure, she spreads Pond's Cold Cream thickly over her face and neck. She lets it stay on long enough for its pure oils to sink down into the pores and bring up the powder, dust, excess oil with which they have been clogged.

Then with a soft cloth she wipes off all the cream—noting how much dirt comes, too. Once again, she creams and wipes her face, finishing with a dash of cold water or a rub with a bit of ice.

If her skin is inclined to be dry she puts

Pond's Cold Cream on again before retiring, and lets a little stay on all night.

The glow of roses is in her cheeks and throat now. Her skin looks—and feels—clean, invigorated.

**Next, the Delicate, Protective Finish.** She smooths into her skin just the lightest fluff of Pond's Vanishing Cream and sees it instantly absorbed—for it is greaseless. She notes what a soft pearly glow it brings to her skin. How velvety-smooth the finish it gives.

**The Last Touch—a soft Pearly Glow**

And then she powders—and rouges—re-marking how well the rouge and powder blend and how smoothly they cling over this delicate foundation cream.

And when she goes out, Pond's Vanishing Cream is an invisible cloak that protects her from winter wind and cold and the sooty air of the city.

You, too, may have this rejuvenating cleansing, this soft finish and protection for your skin.

Read what the beautiful women of the most exclusive Society of two continents have said of Pond's Two Creams. Then buy your own in any drug or departmental store and begin to use them, proving that all these words of praise are true. The Pond's Extract Company.

THE DUCHESSE de RICHELIEU

"The woman whose life is given to society must always appear with a complexion fresh and radiant. Care of her skin can best be obtained by the daily use of Pond's Two Creams. They keep the skin exquisitely soft and lovely."

THE PRINCESSE MATCHABELLI

"American women do not allow the effects of exposure to mar their complexions. Indeed their charming youthfulness is due largely to their clear, fresh, beautifully cared for skins. Women everywhere can acquire the same perfection with the use of Pond's Two Creams."

### BUDGET OF RED CROSS GOES TO MARCH MEETING

Sum of \$6,100 Tentative for Hospital Supplies and Administration

R. G. McINERNEY IS NEW TREASURER

Miss Jarvis Unable to Carry on Relief Work Because of Provincial Duties.

A budget of \$6,100 was tentatively adopted for hospital supplies and provincial administration for the ensuing year by the New Brunswick Red Cross Society yesterday but because of the small attendance at the meeting, it was decided to refer the budget to the March meeting further consideration will also be given the sending of a request to the Central Council for grants of \$5,400 for Junior Red Cross and \$2,500 for home nursing classes.

R. T. Hayes, M. L. A., president, was in the chair. The meeting elected as treasurer, Ralph G. McInerney, who succeeds C. B. Allan, whose resignation was respectfully received. A vote of thanks was extended to Mrs. W. H. Shaw for the use of her house for the tea at the annual meeting.

Letters of thanks for assistance and a letter from the St. Stephen branch saying it would carry on through the ensuing year its public health nursing work with Miss Murray as nurse were read.

hospitals and orphanages in the province. Miss S. Barrington, organizer, reported 19 home nursing classes had been formed of which seven were in St. John.

Miss Ethel Hason Jarvis, secretary, had notified the St. John Red Cross that because of provincial work she could no longer administer its relief work. During the month there had been 133 relief cases to deal with. For emergency supplies the I. O. D. members in St. John had undertaken to do special work.

Work at Port. The port report showed six ships arrived, 195 children, 23 infants and 145 women cared for in the nursery where 11 treatments were given. Sixty follow-up cards were sent out. Three families were given boxes of food.

The treasurer's statement showed receipts \$118 and expenditures \$1,359.66, including administration, \$158.49; Junior Red Cross, \$239.53; home nursing, \$75.55; campaign, \$30; hospital committee, \$50; and sewing committee, \$133.30.

### ATTENDANCE IS CUT BY SICKNESS

THE CITY teachers have much to combat in their strenuous work of imparting knowledge, and sickness this year is proving one of the greatest hindrances. The mumps epidemic depleted classrooms earlier in the season and now the epidemic of grippe is having almost as devastating an effect. From one class which normally has 45 there were 19 missing yesterday and in another class of about the same size there were 13 absentees. The very changeable weather is being blamed for the present inroads of grippe. Fortunately the present epidemic is not appearing in virulent form and except in rare cases is quite mild.

### Scarlet Fever Closes

CHARLOTTETOWN, Feb. 13.—Students of Prince of Wales College will take an unexpected vacation of three weeks owing to an epidemic of scarlet fever which has interrupted the school year. FREDERICTON, N.B., Feb. 13.—Premier Veniot is to leave Quebec on Monday for Quebec, where he will meet the Quebec Government regarding the bill before the Legislature of that province providing for the necessary rights for the New Brunswick Electric Power Commission to secure storage facilities in Quebec territory in connection with the Grand Falls project.

From Quebec the Premier will go to Montreal to confer with Sir Henry Thornton, respecting the St. John Valley Railway matters. Later Premier Veniot will visit Ottawa to head an inter-provincial delegation which will ask for a renewal of Federal aid towards the construction of highways.

### SCHOONER NETTIE C. IS PICKED UP

Vessel Owned Here Had Been Abandoned After Storm Buffeting.

The tern schooner Nettie C., owned by John Spence, of St. John, and abandoned by Captain Z. H. Richards, Halifax, and crew several days ago, was located yesterday morning at the Muir Ledges, Grand Manan and was later towed to Wood Island by the Life Saving Station crew of that place, and is now safe at anchor. Captain N. A. Wilkie will proceed to Wood Island this morning to look after the wreck in the interest of the owner. The Nettie C. is a schooner built at Saultville, N. S., in 1919, is 150 feet in length, 33.3 feet beam, 13.1 draft and 449 tons register.

Was Distressed. She sailed from City Island, N. Y., on Saturday, January 24, with a cargo of 947 tons of coal consigned to R. P. and W. F. Starr, Ltd. Two days out the weather became dirty and all went well until Friday morning, January 30, when a heavy gale of wind and rain set in. Then when about 15 miles off Mount Desert, the force of the seas caused the spring stay to snap and the mainmast as broken off clean at the base. In its fall it crashed against and smashed the mizenmast, both masts fallen across the cabin and smashing to atoms the life boat the vessel capsized. The crew cleared the deck of the wreckage and were then obliged to use the hand pump to keep the vessel from filling with water, the engine pump had become frozen and was useless.

On Wednesday morning the three-masted schooner Fieldwood, Captain Forsythe, en route from Philadelphia to Halifax with a cargo of nitrates, hove in sight and bore down on the disabled craft. There was a high sea running but a lifeboat from the Fieldwood was successful in taking on board Richards and his crew of six men, and landed them at Halifax last Sunday evening.

### More Treasures Are Added To Local Museum Collection

Documents, Books and Other Items of Interest Are Presented.

Having but one thing in common, their interest for folks in general, the many gifts received at the Natural History Museum in the last few days represent a great contrast in periods of time and are products of widely separated countries. They include old documents, old books, modern postcards, a Roman needle and the shell of a painted turtle.

The post cards form a series of about 100, showing pictures of the uniforms of the British army and giving the sketch of the history and traditions of each regiment, its badge and its battle honors. William Hawker has presented the postcards to the Natural History Society and they were given to him by W. H. Fox, who formerly resided in St. John and is now living in East Orange, N. J. Mr. Fox, an old soldier, would be very pleased to have a series of postcards and Mr. Hawker has wished to have others share in his pleasure.

### Home-made, but Has No Equal for Coughs

Makes a family supply of really dependable cough medicine. Easy to prepare, and saves about \$2.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with a cough and you want quick help try this reliable old home-made cough remedy. Any druggist can supply you with 8 1/2 ounces of Pinex. Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing. There are many worthless imitations of this mixture. To avoid disappointment, ask for "Pinex" and the best known means of overcoming severe coughs, throat and chest colds. Invitation Card. Mr. Sears has also presented as a loan the invitation card received by Lieut. W. C. Sears to attend a ball at the Masonic Hall in St. John on Nov. 3, 1827. The ball was given by the officers of the First Battalion of the St. John County Militia. With the invitation card Mr. Sears has also loaned to the society a receipt discharging Thatcher Sears' indebtedness to William Jenkinson of St. John. The receipt is dated Feb. 19, 1793.

William Kirkpatrick, of Rothesay, has presented to the society a copy of the Bible printed in London in 1839 which will be a valuable addition to the museum collection of Bibles and has also given a copy of the works of Rev. James Hervey, A. M., which was published in London in 1825.

A Turtle Shell. The shell of the painted turtle was presented to the society by George Smith, of 19 Lombard street. It shows admirably the bright coloring which was responsible for the name of "painted" being given these turtles that certainly were not guilty of applying cosmetics to their shells. On the back of the shell each panel has an edging of pale yellow, while there is a fancy frill of red and black along the entire edge of the shell both on the top side and the under side. The under side of the shell has a very beautiful arrangement of the colors and is rather more vivid in hue than the upper side. The painted turtles are found along eastern North America as far north as this province and they spend their life submerged. They cannot feed unless they are under water. Often they are kept as pets but they are not desirable in aquariums as they prey on little fish.

### NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable Compound

Sarnia, Ontario.—"After my girlie was born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pains. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I told him about it. I am very thankful to say that I was soon able to take a few boarders for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman these last few months and I certainly would not be without a bottle of your medicine in the house. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me." Mrs. ROBERT G. MACGREGOR, R. R. No. 2, Sarnia, Ontario.

A recent canvass of women users of the Vegetable Compound report 98 out of 100 received beneficial results.

### DON'T FUSS WITH MUSTARD PLASTERS

Musterole Works Without the Blister—Easier, Quicker.

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plaster, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia). 10c. and 75c., at all druggists. The Musterole Co. of Canada, Ltd., Montreal.

American Can, Up Half a Point, Breaks Top Record of 177.

FEW PRICE CHANGES  
IN MONTREAL LIST

Atlantic Sugar Preferred the Strongest Spot—Tuckett's Most Active.

NEW YORK, Feb. 14.—Uneven price movements characterized the opening of today's stock market. American Can moved up half to another record top at 177, and initial gains of a point or more were recorded by Crucible Steel, American Chiclet, Air Reduction and Dupont. United States Steel common, General Motors and St. Paul paid, opened fractionally lower.

Steel Shares Heavy.  
Steel shares turned heavy as trading progressed, presumably in reflection of the poor showing made by the Republic Steel Company, in its 1924 report, which has just been published. Losses of 1 to 1 1/2 points were registered by United States Steel common, Republic and Gulf Steels. Bullish demonstrations were conducted, however, in several specialties. United States Cast Iron Pipe soared 3/4 points to 290, Dupont climbed 3/4 to a record top at 150, and American Smelting Tobacco preferred, Bayuk Bros. and National Supply sold 2 to 3 points higher. Baidiff fell back 2 points, and Marine preferred 1. Oils were slow in responding to another increase in Pennsylvania crude prices.

Foreign exchanges opened reactionary, demand sterling selling below 477 and French francs falling nearly 12 points to 515 cents.

Montreal Trading Active.  
MONTREAL, Feb. 14.—Trading was fairly brisk on the local stock market during the first 15 minutes today, but price changes, with one exception, were fractional. Atlantic Sugar preferred was the strong spot with an advance of a point to 78. The common was up 3-4 at 29-3-4. Tuckett's Tobacco was the most active issue, and lost a quarter to 69 1/2. A new high was established by Twin City, which rose a half to 65 1/2, as did also National Breweries to the same figure.

The balance of the list was firm. Cable Transfers.  
MONTREAL, Feb. 14.—Cable transfers, 4:77 1/2-4.

NEW YORK MARKET.  
Stocks to 12 noon, NEW YORK, Feb. 14.

Table with columns: Stock Name, Open, High, Low, Close. Includes Atlantic Sugar, American Can, etc.

Current Events  
NEW YORK, Feb. 14.—Houston Texas predicts \$2.50 for Gulf Coast crude. The West Coast follows \$2 to 25 cents advance in Rock Mountain crude. Youngstown Sheet and Tube directors authorize \$4,000,000 expenditure. January earnings for American Petroleum \$5,338,000 largest month in history. Armour & Co., year ended Dec. 27, net after interest, taxes, depreciation and preferred dividend, \$2,225,000. Dunsen exports 408 failures this week against 471 last week, and 428 last year.

Brokers' Opinions  
NEW YORK, Feb. 14.—Houseman & Co.—"We continue to feel that the long side of oil is attractive, in fact this group we believe is the most attractive group for trading purposes. Would buy Pacific Oil, Un. of California, and Standard." Tobey & Kirk—"Good oils appear to be well taken after the recent trend should be noted in this group." Hutson & Co.—"The highest grade oils have had the least rise in price. N. Y. C. Atlantic Coast, U. P. and Josephine & Co.—"Believe that oils have seen their period of profit taking. We still maintain our bias in low cost producing copper." Hornbrow & Weeks—"Despite the apathetic action of rails new moves seem to occur, all of which spells activity in rails in near future. The action of motors continues impressive and we expect that their movement will be extended considerably further. Strength in Studebaker indicates possibility of the stock has about been completed. Hudson, Maxwell and Pierce are bought."

NO LAY, NO PAY.  
Buttons (arousing the guests)—"Get up! Get up! The hotel's after!" "Thriftly sort—'Right, kiddie, but if I do, mind ye, I'll no pay for the bed."

Fraser Bonds  
A Popular Investment

Since Fraser Companies' bonds were first offered to the public, they have been favourites with Canadian and United States investors—because they have been backed by a sound, old-established business, with ample assets and good earnings under varying trade conditions.

The new issue of 6% First Mortgage 25-Year Sinking Fund Bonds should be as popular as the previous issues which are now being redeemed and which have been profitable investments for their holders.

If you are looking for a sound investment at a satisfactory interest rate, send for our circular describing Fraser First Mortgage 6%.

Fraser Companies, Limited, is one of the largest manufacturers in Canada of bleached and easy bleaching sulphite pulp, spruce lumber and cedar shingles. The business has been in successful operation for nearly 50 years. The Company owns valuable leases of timber limits, which— together with timber areas owned in fee, aggregating about 210 square miles— total over 2,189 square miles, situated on watersheds of the St. John, Restigouche, Tobique, Miramichi, Madawaska and other rivers tributary to the Company's principal plants in Quebec and New Brunswick. Timber areas are estimated to contain 1,892,000,000 feet b.m. of spruce, pine and cedar saw logs and 4,998,000 cords of pulpwood.  
Mill properties include a bleached sulphite pulp mill at Edmundston, N.B., of 42,000 tons annual capacity; an easy bleaching sulphite pulp mill at Chatham, N.B., of 16,000 tons annual capacity, and 12 modern sawmills— situated in the eastern portion of Quebec and New Brunswick— having an annual manufacturing capacity of 124,000,000 feet b.m. lumber, 158,000,000 shingles, 200,000,000 laths and 100,000 railway ties.  
The Company has recently acquired 250,000 shares of no par value Common Stock, being all the outstanding capital stock of Stetson, Cutler & Company, Limited, giving it control, subject to \$2,500,000 of outstanding 7% First Mortgage Bonds, due 1942, of a valuable and extensive lumber business operating approximately 2,100 square miles of leasehold timber limits in the Provinces of Quebec and New Brunswick, and several sawmills, with a capacity of approximately 60,000,000 feet b.m. per annum.  
Fraser Companies' timber limits, plants, properties and other fixed assets have a book value, after deducting depreciation, depletion and First Mortgage Bonds, of \$8,136,887.72, or 4.17 times the amount of 7% Preferred Stock now being issued. Net current assets as at December 31, 1924, including proceeds of this financing (but exclusive of investments having a book value of \$930,017.70) are certified by George A. Touche & Co., Chartered Accountants, to be \$3,511,873.31. Combined fixed and net current assets, after deducting First Mortgage Bonds, are therefore \$11,648,761.03—equivalent to over \$97 per \$100 share of 7% Preferred Stock.  
Average annual net earnings, based on the annual earnings after deducting operating and maintenance expenses, all taxes, bond and bank interest, and after deducting depreciation of fixed assets and depletion of timber limits, but before depreciation of inventories written off during the deflation period of 1921 and 1922, and available for dividends for the six years ended December 31, 1924, as certified by George A. Touche & Co., amounted to \$410,504.13— equivalent to three times the annual dividend of \$136,500 on shares of this issue outstanding as above.  
Net earnings, after operating and maintenance expenses, all taxes, bond and bank interest, depreciation and depletion, for the year ended December 31, 1924, are certified by George A. Touche & Co., as \$336,917.48.  
Having purchased these Shares, we offer them for delivery if, as and when issued and received by us and subject to the approval of our counsel of all proceedings, at—  
97 1/2 and accrued dividend, to yield 7.18%  
Application will be made in due course to list these Shares on the Montreal Stock Exchange.

The Company owns valuable leases of timber limits, which— together with timber areas owned in fee, aggregating about 210 square miles— total over 2,189 square miles, situated on watersheds of the St. John, Restigouche, Tobique, Miramichi, Madawaska and other rivers tributary to the Company's principal plants in Quebec and New Brunswick. Timber areas are estimated to contain 1,892,000,000 feet b.m. of spruce, pine and cedar saw logs and 4,998,000 cords of pulpwood.  
Mill properties include a bleached sulphite pulp mill at Edmundston, N.B., of 42,000 tons annual capacity; an easy bleaching sulphite pulp mill at Chatham, N.B., of 16,000 tons annual capacity, and 12 modern sawmills— situated in the eastern portion of Quebec and New Brunswick— having an annual manufacturing capacity of 124,000,000 feet b.m. lumber, 158,000,000 shingles, 200,000,000 laths and 100,000 railway ties.  
The Company has recently acquired 250,000 shares of no par value Common Stock, being all the outstanding capital stock of Stetson, Cutler & Company, Limited, giving it control, subject to \$2,500,000 of outstanding 7% First Mortgage Bonds, due 1942, of a valuable and extensive lumber business operating approximately 2,100 square miles of leasehold timber limits in the Provinces of Quebec and New Brunswick, and several sawmills, with a capacity of approximately 60,000,000 feet b.m. per annum.  
Fraser Companies' timber limits, plants, properties and other fixed assets have a book value, after deducting depreciation, depletion and First Mortgage Bonds, of \$8,136,887.72, or 4.17 times the amount of 7% Preferred Stock now being issued. Net current assets as at December 31, 1924, including proceeds of this financing (but exclusive of investments having a book value of \$930,017.70) are certified by George A. Touche & Co., Chartered Accountants, to be \$3,511,873.31. Combined fixed and net current assets, after deducting First Mortgage Bonds, are therefore \$11,648,761.03—equivalent to over \$97 per \$100 share of 7% Preferred Stock.  
Average annual net earnings, based on the annual earnings after deducting operating and maintenance expenses, all taxes, bond and bank interest, and after deducting depreciation of fixed assets and depletion of timber limits, but before depreciation of inventories written off during the deflation period of 1921 and 1922, and available for dividends for the six years ended December 31, 1924, as certified by George A. Touche & Co., amounted to \$410,504.13— equivalent to three times the annual dividend of \$136,500 on shares of this issue outstanding as above.  
Net earnings, after operating and maintenance expenses, all taxes, bond and bank interest, depreciation and depletion, for the year ended December 31, 1924, are certified by George A. Touche & Co., as \$336,917.48.

AMHERST, Feb. 13.—While the operation of the Amherst Boat and Shoe Co., Ltd. showed a small operating profit for the last year, it was decided at the 58th annual meeting of the company that individual conditions did not warrant a resumption of dividends that were paid regularly over a long period until last year. The dividend has now been passed for two consecutive years.  
Conditions in the coal and steel industry in Nova Scotia were reported as having had serious effect upon the boat and shoe trade, while trade conditions in the western provinces, where the local industry established a branch some years ago, were also declared to be bad. Company officials expressed themselves as optimistic concerning the future. Percy C. Black, of Amherst, was re-elected president. The board of directors was also re-elected.

ST. JOHN BOYS FAIL TO WIN ANY EVENTS AT LAKE PLACID MEET

FRANCIS ALLEN LEADS SKATERS IN BOTH EVENTS

Gorman, Logan, Tebo And Snodgrass Win Places

LAKE PLACID, N. Y., Feb. 14.—Francis Allen, Chicago skater, who won the international amateur outdoor speed skating crown, put his right skate foremost here yesterday in a quest for the National diamond and won both events on the American Diamond Trophy program, Lac 220 yard and one mile race.

Farrell Wins Race. O'Neil Farrell, also of Chicago, started in to help Allen make it in all Chicago meet, winning the 220 yard event in the Lake Placid trophy contest, aided by Roy McWhirter, Chicago, who placed third. His plans were upset, however, when Leslie Boyd, New York, won the two mile race in the Lake Placid trophy contest, and Eddie Murphy, Chicago, had to content himself with third place.

Shows Way To Gorman. In winning the 220, Allen showed the way to Charles Gorman, St. John, the title holder, who placed second. Joe Moore, New York, was third, after making the crowd think he had the race tucked away for his own uses. The time was 20 seconds flat.

Allen's victories gave him 60 points for the title. Gorman and Donovan had 20 each, and Moore and Balls 10 each. Joe Moore was in leading position for the Maxwell 300-point trophy, with 290 points. Gorman has 240, and the others trail afar.

The Diamond Trophy events scheduled for today were the two mile and half-mile races. The Lake Placid trophy card included the half mile and one mile events.

The Summary. American Diamond trophy, 220 yard—Won by Francis Allen, Chicago; second, Charles Gorman, St. John; third, Joe Moore, New York. Time 20 seconds flat.

One mile—Won by Allen; second, Richard Donovan, Saranac Lake; third, Valentine Bialis, Lake Placid. Time, 8:06 4-5.

Lake Placid trophy, 220 yards—Won by O'Neil Farrell, Chicago; second, Bobby Hearn, New York; third, Roy McWhirter, Chicago. Time 19 4-5.

Two miles—Won by Leslie Boyd, New York; second, Eddie Meyer, Chicago. Time 6:00 3-5 seconds.

Intermediate, Boys of 18 and under, 440 yards—Won by Carl Parody, Lake Placid; second, Wm. Logan, St. John; third, Edgar Snodgrass, Fairville, N. B. Time 38 4-5 seconds.

Junior, Boys of 16 and under, one-half mile—Won by Edward Jacobson, Chicago; second Thomas Tebo, St. John; third, C. H. Smyth, Moncton. Time 1:31 4-5.

Junior, Boys of 14 and under, 440 yards—Won by Floyd Bissonette, Malone; second, D. Mahoney, Malone; third M. Diet, Saranac Lake. Time 45 2-5 seconds.

Junior, Boys of 10 and under, one-sixth mile—Won by Bobby Mussen, Saranac Lake; second, William Nutter, Saranac Lake; third, Charles Fay, Lake Placid. Time 40 3-5 seconds.

Maritime Amateur Boxing Bouts Promise To Furnish Many Thrills

Along the Sport Trail

By RAY HANSEN

ACCORDING to late reports from New York betting was even on the two world's champions, Willie Hoppe and Bob Cannefax, who were scheduled to get away this afternoon in their three-cushion billiard series. A few weeks ago Hoppe, king of the ballgame, was a favorite over the three cushion star 6 to 5, but after the latter's decisive victory over Welker Cochran the betting shifted and Cannefax ruled a favorite. However, Willie Hoppe came ahead with sensational plays during the last few days and another change took place and even money was prevailing. Cochran, who has frequently played Willie Hoppe at 18 1/2 ballline and who was defeated by Cannefax recently, said the breaks would decide the issue between the cue experts. He refused to predict a victory for either. Welker has played them both and should be able to pass an opinion. It will be surprising if Hoppe does win for three-cushion billiards, until recently, were not in his line. He specialized in ballgame play and held the world's title for many years.

DOUG. MCKEAN is certainly making a great showing in the Canadian badminton championships in Ottawa. He eliminated the Canadian champion Dr. H. T. Douglas of Ottawa and today was to compete in the semi-finals. Here's hoping he brings the title to St. John.

BRITISH turfmen are apparently apprehensive concerning an invasion of United States and French crack runners in the coming season, which is scheduled to open at Lincoln about the end of March. Judging from reports published about the English turf, racing there is as vigorous as ever it has been. The records show that 4,836 horses participated in different meets last season and that their owners netted over \$3,500,000 in purses. French owners, who had a number of victories last year, have entered several horses for the Lincoln handicap and the big races at Ascot. They have 12 of their best runners in the Ascot Gold Cup, which is booked for June 18. Judging from articles appearing in some of the English sport sheets an American invasion is more greatly feared than the French. Already this season, A. K. Macomber, who took over the late W. K. Vanderbilt's establishment in France, is said to be the chief menace. He has entered 11 colts in this year's Derby, eight in the St. Leger and nine fillies in the Oaks. From this it will be seen that there are good reasons to fear exceptionally keen competition.

THE RESULTS at Lake Placid yesterday were disappointing from a local standpoint. The best Charlie Gorman could do was second in the 220 yards, while the seniors in the Lake Placid events failed to place. Willie Logan and Tommy Tebo took second in their races. Conditions may be more favorable today and the St. John contingent may turn the tables on their Chicago rivals. Joe Moore looks like a certain winner of the beautiful Maxwell cup as he only needs 10 points to complete the required 900. Gorman with 240 points will have to take two firsts to make up the necessary total.

EDDIE COLLINS, conceded to be the leading second sacker in the American league for many years who was appointed manager of the White Sox, is apparently worried over a marked weakness at short. He recently admitted that his pitching staff is not as strong as he would like, but said that shortstop is his greatest worry. Realizing that this is the greatest weakness on his team he is keen to secure a likely candidate to fill the gap. He will play Kamm at third, Sheely at first and will hold down the keystone sack himself. There is a golden opportunity awaiting some young player for it would be hard to break in with a more brilliant strategist than Eddie. Perhaps Collins will be able to make a trade before the season opens, if not he will have to keep a sharp eye on promising youngsters at the Spring training camps and depend on "dame fortune" to guide him in his search.

CANADA WILL BE REPRESENTED IN BOXING TOURNEY

Clonie Tait Selected to Compete For Lightweight Title

NEW YORK, Feb. 14.—Canada having failed to nominate a contender for the lightweight championship tournament sponsored by the New York Boxing Commission, the commission yesterday announced that Clonie Tait, of Toronto, Dominion champion, would represent Canada in the competition for Bennie Leonard's discarded crown.

George Chaney, of Baltimore, will meet Tommy O'Brien of Milwaukee and Jimmy Goorick, of Buffalo, will face Eddie (Kid) Wagner, of Philadelphia, at Madison Square Garden, Feb. 23rd, in the opening matches of the tournament.

Word was received from the French Boxing Federation that Lucien Viniz would represent France in the tournament.

The Buenos Aires municipal boxing commission officially notified the commission that Luis Vicentini will represent South Africa in the tournament.

The Board of Boxing Control of England has named Harry Mason and Ernie Izzard, both of London. These two will meet within a short time.

Leo Flynn, manager of Jack Renault, Canadian heavyweight, filed a challenge with the commission from Hot Springs, Ark., where he is wintering. Flynn seeks a match between Renault and Jack Dempsey.

"BRICK" MORRISON MAY BE SUSPENDED

Prince Edward Island Boy Starts Fight in Boston During Hockey Match.

BOSTON, Feb. 14.—As a result of a fracas between "Brick" Morrison, a native of Prince Edward Island and a member of the Maple Hockey Club, and Irving Small of the Boston Athletic Association, at the conclusion of a United States Amateur Hockey Association game last night, Morrison may be suspended from amateur hockey in the United States.

It is expected that good competition will result, helping to put the St. John Y. M. C. A. to the front in international honors this year. Last year, the St. John Association won the Canadian Hexagon, and are out to win the international this year.

Gordon Wilson's team consists of Forrest Allan, Drew Mincey, Newton Farnjoy, George Price, Alfred Whittier, Clarence Smith, Norval Lambert, Leon Small and Stan Atherton; Eddie Yeomans' team consists of Arthur Gillen, Arnold Lingley, Vernon Waters, Doug Angwine, Walter Pollard, Colin Thomas, Ralph Millet, Frank Webster and Stan Goodwin; Ron Pattison's team consists of Ralph McCready, Donald Kelly, Alan Whittaker, George Turner, Orford Morrison, Iker Fownes, Charlie Barker and Arthur Beckett.

The Pireside team consists of Kenneth Nelson, Andrew ("Beef") Malcolm, Gordon Malcolm, Jack MacGuray, Alan MacGowan, Douglas MacGowan, Harold Sterling, Ken Sterling, Clerey Hollies, Royden Christopher and Ron Shaw.

This contest is open to the public and any person is cordially invited to attend. No admission is charged.

Dogs at Westminster Show

Dogs of all kinds, sizes, colors and dispositions are competing for prizes at the annual national dog show of the Westminster K. C. now being held at Madison Square Garden, New York. At the left is "Hero Queen Chum," one of the biggest St. Bernards at the show, who kindly consented to furnish transportation for "La Rex Doll Pon Pon" and "La Rex Doll Snowflake," two of the tiniest Chihuahuas at the show. And on the right is "Sergeant Jiggs," pride of the U. S. Marines, and a real "Devil Dog" himself.

Slattery Gets Decision From Jack Delaney in Slashing Bout

NEW YORK, Feb. 14.—Jim Slattery, Buffalo's dancing middleweight, shaded Jack Delaney of Bridgeport, Conn., in a slashing six-round match at Madison Square Garden last night, the Buffalo lad scoring his second victory of the indoor season over his middleweight opponent.

The fight was a bitterly contested boxing and slugging match between two past masters at both arts. The pace was furious from the start, Slattery forcing the fighting except periodically when Delaney, driven to cover, took the aggressive as the best means of defence.

Delaney's face, then crossing with a pile-driving right which added missed, Slattery established a maddening pace, but Delaney trailed along, never badly behind but just shaded and beaten to the punch. It was one of the most spectacular matches ever seen in the historic garden outside of the championship circle.

Delaney seemed content to trail Slattery until the closing minutes of the match, when he opened up an offensive that threatened to cripple his dancing opponent, but by clever use of his arms Slattery weathered a fury which had been brewing for five rounds. It was a clean fight.

NOVA SCOTIA TO BE REPRESENTED IN MANY CLASSES

Championships Attract Class Array Of Performers

From present indications the Maritime amateur championship bouts, which are to be staged in St. Vincent's Auditorium next Monday and Tuesday evenings, under the auspices of the Y. M. C. I., will be teeming with thrills. Every class has star performers entered, and competition for premier honors promises to be keen. In addition to the St. John boys seeking the various titles there are a number of entries from Halifax, five from Glace Bay, N. S., one from Moncton and one from Amherst. Up to this morning there were six entries in the 112 pound class, six in the 135 class, four in the 147, four in the 126, two in the 155 class, and two in the 118 class.

It has been decided to hold the trials and semi-finals on Monday evening, and the finals on Tuesday evening. In addition there will be special attractions on both evenings between class performers from Boston and Montreal.

An efficient committee is handling the bouts, and arrangements will be perfected so that there will be no delays. As soon as one couple leave the ring others will be ready to enter. As a result there will be something doing all the time, and fans are assured of two stellar cards.

The following is the official list of entries received up to this morning:—

112-Lb. Class. James McKillip, Y. M. C. I. Murray Young, Y. M. C. I. Alex. Fitzgerald, St. Mary's Club Halifax.

118-Lb. Class. Herbert Lee, St. John, unattached. Harold Sullivan, St. John, unattached. Harvey Lunney, St. Peter's Y. M. A. Pat Whipple, St. Peter's Y. M. A. Jas. Sand's, Y. M. C. I.

### LOOK OUT! BAD GRIPPE ABOUT

Take care when cold weather changes into mild or mild into cold. Then's the time an epidemic of colds and La Grippe catches people off their guard.

The type of La Grippe now on the go is a specially violent one, a type that brings on complications quite close to pneumonia.

For the small money involved every home ought to be ready to stop such troubles at the start. Trying to effect a cure later on is a tedious business.

You'll do mighty well to have one or two of the following on hand ahead of time.

## TOURIST MEET IS PLANNED FOR BEATTY IN JUNE

N. B. Association Arranging For Annual Session There.

### GOVERNMENT IS ASKED FOR \$5,000

From Vancouver Comes Project for Dominion Campaign for Tourists.

There is a project afoot to hold the 1925 convention of the New Brunswick Tourist and Resources Association in June at the Admiral Beatty Hotel here. The association is now considering the matter, so C. B. Allan, secretary-treasurer, said this morning. The association, Mr. Allan says, has received assurances that the big structure will be ready to handle the convention about the second week in June.

#### Save Government.

Mr. Allan recently returned from Fredericton in company with C. C. Avard, Sackville, president of the association, he appeared before the Provincial Government seeking a grant of \$5,000 to advertise the province and thus boost the tourist trade. In former years, the Government has made a grant of \$2,500, but with the success of last year in respect to tourist traffic in mind and with the opening of the Dominion Government, the association executive felt that an extra effort should be made in this direction. "We do not look on this as a grant to the association," Mr. Allan said, "it is an investment on the part of the province that will pay rich dividends."

#### Vancouver Plan.

In connection with the plans to advertise the province, Mr. Allan has received a letter from J. H. Davison, secretary of the Vancouver Publicity Bureau, advocating a scheme whereby the Dominion Government would undertake a national programme for the development of the tourist traffic.

The Vancouver proposal is for a co-operative effort throughout Canada by various government departments and other bodies and backed by an advertising campaign in the best papers and magazines of the United States from January 1 to May 30. The advertising copy would not only present Canada's vacation attractions, and tell of transportation, accommodation, etc., but would also tell of the country's resources and the opportunities for the farmer and for the investor in agricultural and industrial development. Such a campaign as planned would cost, they say, \$200,000 for the first year.

#### Features of Project.

The plan calls for dovetailing the Dominion campaign with that of the Canadian National, Canadian Pacific, Canada Steamships, and linking up with advertising by the provincial governments, and some of the cities. The campaign as proposed would entail the establishment of information bureaus with maps, guides, etc., tourist camps where needed, the provision of necessary ferry services, improvement of highways and parks, and arrangements for various attractions such as appeal to the tourist public.

## SUCCESSFUL TEA IN WEST ST. JOHN

Pleasant Event in Held at Residence of Mrs. Norman P. MacLeod.

Mrs. Norman P. MacLeod opened her home at 300 Watson street, West St. John, for a very successful Valentine tea on Friday afternoon, held under the auspices of the Women's Missionary Auxiliary Society of the Charlotte street Baptist church, of which Mrs. MacLeod is president. Mrs. George Malling was general convener and assisted Mrs. MacLeod, who received the guests in her drawing room, which was gay with valentine decorations. Miss Betty Cowan ushered the guests to the dining room, where the table was most inviting with spring flowers and lily little Cupids, surrounded by hearts and arrows and other pretty things suitable to the season. Red and white sweet peas gave a new touch in the floral decorations for the centre of the table.

#### Took Part.

Those presiding and otherwise assisting in the dining room were Mrs. Joseph Taylor, Mrs. William Belyea, Mrs. LeBaron Clark, Mrs. Freeman Gardner, Mrs. A. Bennett, Mrs. P. E. Webb and Mrs. E. Demings. Mrs. W. P. Hoyt and Mrs. John Nicie replenished. The tickets were in charge of Mrs. Claude Seely. Candy was sold by Miss Ella Clark, Miss Nellie Rogers and Miss Enid Grace Hutchinson. Mrs. Hedley Blissett and Mrs. LeBaron Clark were responsible for the artistic decorations.

### Are Boosting Foods Made In Canada

The Canadian Manufacturers' Association have taken up the buy-at-home campaign and have gotten out circulars which they are sending around to merchants for display. They are attractively printed and bear the following message:

Buy Canadian-Made Goods Give More People Work Make Better Times.

A copy has been received at the local Board of Trade office with the advertisement that they assist in placing the advertisements. The local board has gone on record as being in favor of first buying Maritime-made goods, then Canadian-made and then Empire-made goods.

## Postmen Find Valentine Day Observance Revives Here

Many Letters and Cards Are Added to Their Packs.

It would appear that the spirit of St. Valentine's day, observed today, had quite a revival in St. John. Postmen on their walks this morning carried thousands of pieces of love-laden correspondence. The universal postal card seemed the most popular form of celebrating the occasion though even the old-fashioned paper lace conceits had a bulky place in the mail.

#### Kiddies Enjoy It.

It was amusing to note the fun the youngsters had in sending around those antiquated caricature valentines which have been somewhat coming back from almost total obscurity as a form of good-natured rivalry. Twenty-five years ago gaudy grotesques were at the height of their boldness and many a person became "homed" at some acquaintance whom he or she suspected of sending one of these "digs."

Home-made valentines is a growing fad as a household art, though generally speaking an under-developed one. Among our children it is pastime encouraged by kindergarten work. It teaches ingenuity and observation as in the selecting of pictures and neatness in lettering.

## Local News

#### ILL IN HOSPITAL.

Friends of Daniel J. Daley will regret to learn that he is quite ill in the General Public Hospital. He took a severe hemorrhage recently, but is now considered out of danger.

#### ELEVEN ALL.

Seven marriages and 22 births were recorded with the deputy registrar of vital statistics for the week ending today. Of the births 11 were boys and 11 were girls.

#### VESSELS REPORTED.

The wireless direction finding station at Red Head had the following reports this morning on steamship movements: 6 a.m., S. S. Concordia passed out, bound from St. John to Glasgow; 9:30 a.m., S. S. Bosworth, 80 miles south, bound to St. John.

#### TO LOOK AFTER SCHOONER.

Capt. N. A. Wilkie, representing J. Splane & Co. Ltd., left this morning for the General Hospital. He took charge of arrangements there in connection with the saving of the schooner Nettle C, which was towed to Wood Island and consigned to the life saving crew of the island.

#### DEATHS NUMBER 17.

Seventeen deaths were recorded by the Board of Health for the week ending today, as follows: Senility, three; accident, two; asthma, apoplexy, pneumonia, myocarditis, acute nephritis, cancer of bowel, carcinoma of stomach, premature birth, shock and collapse, multiple neuritis, intestinal obstruction, acute dilatation of stomach, one each.

#### HYDRO STAND-BY PROJECT.

The eastern end of the Musquash hydro line has been suggested as the place for the location of the proposed steam plant for the New Brunswick Electric Power Commission, and Moncton and Sackville have been mentioned as sites. It is understood that New Brunswick coal will be used in any event and that it is possible the government may take over the Minto mines for use at the steam plant.

#### IN THE MARKET.

The housewife was greeted by a good supply of materials for the Sunday dinner in the country market this morning. Prices ranged about the same as for the last few weeks. Fresh killed fowl and chickens were in abundance, the former selling for 35 cents and the latter for 38 cents. Eggs were a little cheaper, being quoted at 65 cents for fresh firsts. Butter was selling for 35 to 45 cents a pound.

#### NO WORD YET.

The depot restaurant is still in abeyance so far as public information goes. There is no notification yet received by local people interested concerning a report that the Canada Railway News Co. was to take over the concession in St. John. In operation of Canada this corporation conducts government dining rooms. The restaurants operated in government stations in this section are St. John, Moncton, Sackville and Newcastle. Truro has for a long time been under corporation management.

#### AGREEMENT REACHED.

A case of assault against William Williams was dismissed by Magistrate Henderson in the police court this morning when Samuel Thompson, the complainant, agreed not to press the charge on Williams' making a satisfactory apology. This was agreed. Williams and Thompson gave evidence, each contradicting the other. The magistrate said possibly an amicable settlement had been reached and this was done. E. J. Henneberry appeared for Williams.

#### WAS NIGHT OF PARTIES.

Friday being the off-night for school children in their studies and also the eve of St. Valentine's a great number of household parties were held throughout town last night. Miss Winnifred Tracy, No. 3 Carleton street, entertained in an original manner with St. Valentine as the keynote of decorations, prizes and surprise ideas. Miss Gertrude Kinneer, 194 Queen street, was another youthful hostess, and following the basketball game between the Woodstock Broadway girls and the Y. W. C. A. Rovers a dancing party was held in the Y. W. C. A. building, King street East. There were several skating parties, also, which were followed by refreshments at the homes of those who organized them.

## SHOWS ST. JOHN AS NATIONAL PORT

Harbor Scene Busy One With Varied Character of Cargoes.

The national aspect of St. John as a shipping centre was emphasized in a scene at the Government pier, Long Wharf, yesterday afternoon when the C. G. M. M. steamer Canadian Commander was loading cattle for Great Britain on one side of the dock ahead, whilst a train load of automobiles in big cases was being stowed away for Europe in the Canadian Raider on the other side of the dock. With the steamers loading at Sand Point, a sugar boat in at the refinery wharf and the usual activity in the harbor generally, it was a busy, sunlit scene and would have made a moving picture of which any seaport might be proud.

## CHILDREN'S HOUR

Hear Travel Story and Enjoy Other Features in City Centres.

More than 125 children took advantage of the story-telling hour at the armory this morning, when Mrs. W. Edmond Raymond gave a bright account of one of her trips across Canada. Fascinating pictures were shown by Dr. William MacIntosh. Mrs. Raymond gave each child a valentine and asked them to sing "The Maple Leaf Forever," "O Canada," and "God Save the King." This they did with hearty good-will. Dr. MacIntosh also received hearty thanks from Mrs. Raymond for his assistance. Miss Mary Gunn, primary teacher, was in charge of the children.

Rev. F. J. LeRoy, rector of the Church of the Good Shepherd, was the story-teller at the children's hour at the Public Library this morning. About 40 children were present. St. Vincent's this morning Miss Pauline King was the story-teller. Miss King entertained the children with humorous recitations.

## ASSISTING Y. W. C. A.

Chain Teas Are Being Made Source of Income and Pleasure.

Chain teas are being made a source of income for the work of the Y. W. C. A., and are giving much pleasure at the same time. The ladies in West St. John have formed sets of four, who take turns in entertaining. Those who were hostesses at their respective homes last week were Mrs. E. P. Driscoll, Mrs. George Hare, Mrs. H. A. Seely and Mrs. W. A. Carcaud. Mrs. Gerhard DeGeer was one of the hostesses this week. There will be a continuation of the chain next week, when several ladies in Fairville will be hostesses. The decorations were quite simple, but very pretty, and the ladies who entertained received praise from their guests and much gratitude from the institution they are assisting.

## Hiram on Tour

EDMONTON, Feb. 7.—Well, sir, who do you s'pose I seen to-night? Will Brown—he he has a brother Walter over here in Carleton—an' folks everywheres. He hed his brother Walter over here to his summer place in Jasper Park—an' he hed a great time. Then I run up agin Tom Fitzgerald. He's with the C. P. R. here, an' he says he used to carry despatches to the old St. John Sun when you an' Jim Berry was workin' there. Then who comes along but Fred Tapley, an' he said if I didn't come over to see Jasper Park he wouldn't speak to me agin. I told him we wanted the C. N. R. to make a Jasper Park in the maritime provinces—an' he said they didn't need no ornamentation. He said a mouthful, at that. Well, sir, they was all glad to see me—an' I seen fellows from Nova Scotia an' the Island—all of 'em doin' well. Charlie MacKevie that lived in St. John for a swell an' used to sing in a quartette—he's the head of a big fruit company here. He s'posed I guess I won't get home afore hayin' time if this keeps up.

HIRAM.

## Many of our February Bargains

Have been picked up during the past week, but there are still a number left in each of the departments.

We would like to draw your attention to our Bedding Department, where we are showing odd beds, springs and mattresses at substantial savings. We invite you to come in and make a careful study of the values offered.

Our sale of Odd Chairs has been particularly successful. In Chesterfields and Odd Chesterfield Chairs we still have a few outstanding bargains.

In the Dinig-room and Bedroom Suites we also have a number of high grade suites at prices below the inferior qualities.

We would be pleased to show you through at any time.
