BURNED OUT,

Manzer Thornton Loses His Property.

A disastrous fire occurred at Rockland last night, and Manzer Thornton is a heavy loser. His house, which included dwelling and store, and barn and ware-house were completely destroyed. About 10 o'clock W. A. Hayward noticed that Mr. Thornton's flue was burning out—the flames shooting out the chimney at a great rate. Suddenly it ceased, and a very few seconds later he noticed flames in the attic window. It was plainly evident that the flue had burst. Alarm was quickly given, but it was too late to save the buildings. The organ was all that was saved of the house furniture but a considerable quantity of the stock in the store was rescued, more or less injured. There was \$1000 insurance in the Hartford, J. M. Queen, agent. Mr. Queen was here at the time of the fire and this morning drove out to view the situation.

Mr. Thornton and family were in Hartland spending the night having been to Woodstock yesterday and did not learn of it until early this morning.

The buildings were new, Mr. Thornton having built them last fall. The dwelling which was over the store was just completed and carpeted. He was working up a splendid business. The loss is far in advance of the amount of insurance. Mr. Thornton has the heartfelt sympathy of his many friends.

Avondale Death.

Mrs. John Whitney, of Avondale, for a long time an invalid died on Sunday and was buried Tuesday. She was 65 years of age. Her husband left for Klondyke a few weeks ago.

MANILA SITUATION,

WASHINGTON, May 12.—Hong Kong, May 12.—To the Secretary of the Navy: There is little change in the situation since my last telegram. I am transferring to transports steel breech-loading rifles from sunken Spanish men-of-war; also stores from the arsenal in my possession. I am maintaining a strict blockade. Add Argos to list of destroyed vessels.

(Signed) DEWEY.

This despatch came to Secretary Long late this afternoon, and shows cable communications has been restored with Manila Bay.

NEW YORK, May 13.—A special cable to the World from Neuviatas, Cuba, says chaos reigns at Comaguay and fear and famine at Neuviates. Two thousand soldiers guard the entrance of harbour. General Lapezreico says Spain cannot fight the United States without fighting. Their war is our war. The Spaniards lost 900 men in four days march to the sea.

WASHINGTON, May 13.—Secretary Long has ordered Com. Schley to sea in search of Spanish squadron.

At Porto Rico

The Was Fighting Yesterday.

PORT AU PRINCE, May 12.—The American fleet under Rear Admiral Sampson bombarded San Juan, de Porto Rico, today. The following are the details of the bombardment thus far received: The bombardment began this afternoon. Rear Admiral Sampson with nine warships arrived before San Juan just about sunrise. As a signal the battleship Iowa fired the first shot, which took effect. Then the battleship Indiana opened fire, and in a few minutes Morro Fort was reduced to a heap of ruins. The fort made little effort to respond, and was silenced almost immediately. The Spanish steamer Rita was captured by the United States auxiliary cruiser Yale, which took her crew on board.

MAERID, May 12, 8 p. m.—The following despatch has been received from Havana: "Early yesterday morning four American warships fired repeated cannon shots at Cienfuegos. In the meanwhile several steamboats, towing eight large boats loaded with arms and ammunition for the rebels, approached the shore. Several battalions of infantry, drawn up on the seashore, fired upon the boats, which speedily retreated. At the same time the batteries of the forts and others along the coast fired upon the Americans, who retreated, but again attempted to make a landing on the banks of the river Tremoa. The Spanish again repulsed them by heavy volleys, inflicting heavy losses. Fourteen Spaniards were wounded."

LATEST!

[Special to the ADVERTISER.]

ST. THOMAS:—Sampson's fleet attacked, but failed to silence. San Juan ports. American loss: two killed, seven wounded. Spanish loss unknown. Madrid despatch from Martinique to El-Heraldo confirms the arrival of Cape Verde fleet at Fort Des France.

WASHINGTON, May 13.—While the navy department will not officially admit the fact, a strong intimation is made that the Cape Verde fleet is west of Martinique.

WASHINGTON, May 13.—At 7.20 this morning navy department received following despatch from Sampson. It is dated St. Thomas May 12 "A portion of the squadron under my command reached San Juan this morning at day break. No armed vessels were found on seaport. As soon as it was sufficiently light I commenced attack upon the batteries, and ports of city near. Batteries replied but without effect. One man killed on New York, and seven slightly injured in the squadron. No serious damage to any ships resulted.

ST. THOMAS, W. I. May 13.—On best authority it is reported here that fortifications at San Juan de Porto Rico have been bombarded by nine American ships. Private messages say the shells are falling over the city.

The alleged extraction of gold by a secret process from seawater at Lubec Maine, is one of the greatest discoveries or one of the most gigantic attempts to deceive and defraud the public of this century. The originators propose, it is said, to form a company with a capital of many millions and there are those who are uncharitable enough to surmise that it is from the pockets of their prospective stockholders that they expect to extract their wealth. The company have 250 extracting machines in operation: 160 tons of water goes through each machine per day and the alleged result is \$1.26 in pure gold from each machine. Nine shipments of nuggets have been made to the United States Assay office, the total value of which was about \$9,000. It is claimed that when the machines turn out a dollar of gold or more each, per day, a large percentage of profit is afforded. The new mill which is under construction will contain 5000 machines the daily output of which is expected to be from \$5,000 to \$6,000 in gold. The discoverer of the process the vice president of the company, P. F. Jerningham, is a young Baptist clergyman. If the ideas of Mr. Jerningham are well founded the world's supply of gold is unlimited; if it is unlimited, its value sinks to zero, for it is valuable only because it is rare and practically it is worth less than its weight in iron, copper or tin or even wheat, oats or potatoes. It seems as if ultimately science would give us without much manual labor, nearly every article of necessity or luxury that we require, but when that time comes it is a question if men and women will be any happier than when they dressed in homespun, lit their fires with flint and steel, and read their bibles by the light of the fire place or a tallow dip.—Gazette.

The anniversary of the Queens Birthday draws near, and it is opportune to consider whether or not the village shall close up shop on that day. It will be remembered the occasion was mildly celebrated last year, and why not more so this? Get your bunting ready, and let your clerks take a holiday.

The Archbishops of the Catholic Church in the United States have agreed upon a letter addressed to the clergy and the laity directing prayers to be offered up daily at mass for the victory of American arms over the Spaniards.

Highest Place In The Temple Of Fame.

Paine's Celery Compound the Hope of the Civilized World.

A MARVELLOUS CURE IN ST. JOHN'S, NFLD.

Another Proof that Paine's Celery Compound Cures When the Doctors Fail.

To gain admittance to the Temple of Fame, honor, reputation, worth and wonderful achievements must be some of the necessary qualifications.

Paine's Celery Compound has gained all of these in its work of life-saving in the world. It has saved husband, wife, sister, brother and child to the family after the best physicians proved unavailing.

Paine's Celery Compound is doing its grand work every day, bringing joy and happiness to thousands of homes.

The cure of Mr. E. Landy, of St. John's, Nfld., is worthy of all sick and suffering people. The results as described by Mr. Landy should induce every suffering man

and woman to use Paine's Celery Compound at once.

WELLS & RICHARDSON Co.,

GENTLEMEN:—With great pleasure I make known what your Paine's Celery Compound has done for me. Last December I was sick and suffered from a heavy cold. My doctor said I was run down, and advised me to give up my work (the tailoring business) as he thought it was not conducive to my health. He gave me medicines for my trouble, also for indigestion and nervousness. The medicines, however, produced no good results, and I was reduced to a mere skeleton, and came to the conclusion that I was going to die.

Through the influence of an old friend

who came to see me I was prevailed upon to use Paine's Celery Compound, which he said would soon set me on my legs again. After using the first bottle, and the pills that go with the compound, I had such good results that I continued with the medicine until I had taken seven bottles, when I found myself as strong and healthy as ever before in my life. I am able to work at my trade as well as in former days, and see no necessity for giving it up. From the results that have blessed my efforts with Paine's Celery Compound I would strongly advise every sick person to use the great medicine which has no equal in the world.

Suffering Vanquished.**A Nova Scotian Farmer Tells How He Regained Health.**

Had Suffered from Acute Rheumatism and General Debility—Scarcely Able to Do the Lightest Work.

From the Acadien, Wolfville, N. S.

One of the most prosperous and intelligent farmers of the village of Greenwich, N. S., is Mr. Edward Manning. Anyone intimate with Mr. Manning knows him as a man of strong integrity and veracity, so that every confidence can be placed in the information which he gave a reporter of the Acadien, for publication the other day. During a very pleasant interview he gave the following statements of his severe suffering and recovery:—“Two years ago last September,” said Mr. Manning, “I was taken with an acute attack of rheumatism. I had not been feeling well for some time previous to that date, having been troubled with sleeplessness and general debility. My constitution seemed completely run down. Beginning in the small of my back the pain soon passed into my hip, where it remained without intermission, and I became a terrible sufferer. All winter long I was scarcely able to do any work and it was only with the acutest of suffering that I managed to hobble to the barn each day to do my chores. I appealed to medical men for help but they failed to bring any relief. At last I decided to try Dr. Williams' Pink Pills and with their use came a complete and lasting cure. I had not used quite three boxes when I began to feel decidedly better. I continued using them until twelve boxes had been consumed, when my complete recovery warranted me in discontinuing their use. I have never felt better than since that time. My health seems to have improved in every way. During the past summer I worked very hard but have felt no bad effects. The gratitude I feel to Dr. Williams' Pink Pills, none but those who have suffered as I have and been cured, can appreciate.

An analysis shows that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, nervous prostration, all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health, to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature. Sold by all dealers or sent post paid at 50c a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Mrs. McKinney's Death.

Funeral—Letter of Condolence—

The sad death of Mrs. Harvey McKinney a native of Benton but who was residing at Hartland at the time of her decease was received here on Friday last. Mrs. McKinney was 38 years of age and a well respected person, and well known to the residents of Benton who mourn their sad loss. Mrs. McKinney leaves three brothers, Wm. Anderson of Benton; Sandy Anderson, Benton; James and Frank of Lowell Mass; also two sisters Mrs. Leslie Mills of Benton and Mrs. Chas. Swan of Lowell, also a sorrowing mother, and a family of two girls and three boys together with a heart broken husband to mourn their sad loss.

The remains were interred at Benton on Sabbath May 8th, the funeral rites were conducted by Rev. H. Harrison of Benton, who also tendered Mr. McKinney with the following letter of condolence on behalf of the Loyal Orange Lodge of Benton.

Brother Harvey McKinney:—We, the members of the Loyal Orange Lodge of Benton, wish you to accept in this sad hour of bereavement, a few words of fraternal sympathy and condolence.

With very deep sorrow we learn of the decease of your beloved wife and life companion, causing an incalculable loss to both you and your sorely stricken family. Yet dear brother, do not allow sorrow to cast a shade over your life, knowing that a few short years at most will necessitate the reunion of father and mother, husband and wife together with the beloved offspring of your sadly stricken family beyond the silvers mists of Jordan where parting shall never be.

Think of the pains and woes of this sad world in comparison with that world of life and joy, into which the spirits of the blessed shall enter, then who could call back one who has tasted of the joys of bliss to again enter this “vale of tears.”

Dear loyal brother, asking you once more to look beyond the hour of death to that happy meeting and reunion of the sadly stricken family around the judgment throne of Christ we remain as ever your faithful brothers in tribulation, trusting that the affectionate hands and cordial feelings existing between the members of this Lodge in which you proved yourself to be so worthy a member can only be broken by the severing of the silvery cords of life and reasoning.

Asking permission to join hands in sharing your deep sorrow, we remain the sorrowing members of the Loyal Orange Lodge of Benton.

Signed
