BIG FRAUDS IN DUTIES.

One Firm Has Cheated U. S. Government Out of \$800,000 Yearly.

NEW YORK, Jan. 10.—The World says: Definite information has been secured that for ten years one firm has succeeded in defrauding the government of \$800,000 a year in duties. How much further the swindling has gone can only be guessed.

President Roosevelt today took prompt action. After a conference in Washington with Gen. H. L. Burnett, U. S. district attorney of this city, Sec. Gage and representatives of the Merchants association, he appointed W. Wickham Smith, counsel for the Merchants association, a deputy U. S. attorney general to prosecute the guilty.

"I have been asked," said Ex-Appraiser Wilbur Wakeman, secretary of the American protective tariff league, at his office today, "to give my assistance to the prosecution. I will willingly do so in my judgment of the United States has been defrauded of at least \$800,000 a year in duties. Beyond this it would not be wise for me at this time to discuss the matter."

So bold was the method of this firm that it absorbed most of the Japanese silk trade of the city, because it was able to drive out of business merchants who adhere to the letter of the tariff.

It was learned that an employee was in the habit of paying bribes to a custom house employee. Sometimes he handed him \$1000, once the amount ran up to \$2000. For this the man who passed on the firm's goods let them in at a less rate. A shipment was involved at much under its proper weight and passed the man who ought to have held it up.

From the frauds were unearthed because the examiners were suddenly changed about. Boxes that had hitherto been invoiced as holding 100 pounds of silk were found to contain nearly twice as much. Silks that had come in under a 90 cent duty were found to be in the \$3 class. The rest was easy.

UNSUCCESSFUL PLOT.

HELENA, Mont., Jan. 10.—A plot to secure the release from the penitentiary of L. C. Livingston, sent from Silver Bow County in April 1900, for forgery, has failed. The names of several prominent New York people were forged to the petition presented, that Livingston came from the distinguished New York family of that name, and had served as a Rough Rider in Cuba. Among the names signed to the petition were those of Theodore Roosevelt, August Belmont, Hugh J. Grant, Thomas A. Edison, Jerome W. Astor, E. D. Morgan and others in New York. Governor Toole's suspicions were aroused by receiving a letter from President Roosevelt last June, stating that he had learned of a clumsy attempt to forge his name to a petition for Livingston's pardon, and he, therefore, warned the governor. When the petition was received by the governor a few days ago, he looked up the letter and decided to write to Dr. Parkhurst, August Belmont, Hugh Grant and others as to the genuineness of their signature. All have replied, denying having signed the petition.

ROMANCE AND MISERY.

NEW YORK, Jan. 11.—The death of Mme. Adele Preveau, which occurred last night in a miserable shelter which she called her home, ends a career of romance and misery. She was born near Paris seventy-two years ago, and early in life married the Count de Doreau, at that time well-known and high in official favor. A dispute in a famous Paris club over a gambling debt resulted in her husband's death, and the young widow married a Frenchman, who came to this country to live. The young couple moved in the highest circles in Washington and were received in the diplomatic set. Later Mr. Preveau came to New York. It was here that Mr. Preveau died. His widow inherited from him considerable property, but the fund disappeared and the old lady, driven to the last resort of poverty, made application to a poor house. From this she was taken by a negro woman, and it was in the house of this woman that she died.

BOER RECRUITS.

NEW ORLEANS, La., Jan. 11.—Captain L. DeVilliers, of the Boer army, who is in the city, is in receipt of a letter from H. C. A. Arnold, of Bloomington, Ill., declaring that he has organized in Illinois a company of young men, all of whom served in the United States army during the recent trouble with Spain, who are anxious to serve with the Boers in South Africa and who want to know if Captain DeVilliers can make any arrangements for their transportation there. He replied that it is impossible to get men to Africa, although he has received numerous offers of this kind.

NIECE OF WAGNER.

NEW YORK, Jan. 11.—Fraulein Katha Brandt, a grand niece of Richard Wagner, a member of Her Conrieds Irving Place Company, who came here lately, submitted to an operation for appendicitis at a private hospital in this city, and it is feared, is dying. Frau Brandt was born in Berlin, where her father is prominently connected with the Holman theatre. Her grand uncle was Richard Wagner, the composer.

REV. MR. McODRUM CALLED.

MONCTON, N.B., Jan. 11.—At a large meeting of the congregation of St. John's Presbyterian church last evening a call was extended to Rev. Donald McODrum, Marlon Bridge, Cape Breton, by a decisive majority. Among other names before the congregation was that of Rev. W. F. Morrison of Bordeaux, Que.

GEORGE A. DAVIS,

Formerly a Well Known Barrister in St. John

Is in Washington to Have a Hawaiian Judge Dismissed From the Bench.

The San Francisco Sunday Chronicle of Dec. 29 prints an excellent portrait of Geo. A. Davis, formerly a St. John barrister and well-known resident of Carleton. Mr. Davis went some years since to the new American possession of Hawaii, and appears to have flourished. Mr. Davis was an aggressive lawyer in St. John, and is now engaged in the task of ousting a judge from the circuit court of Hawaii. The San Francisco Chronicle says:

An effort is to be made to oust from the supreme bench of Hawaii Associate Justice Antonio Perry, who has been a member of that high court since the United States took possession of the Hawaiian islands. George A. Davis, a leading attorney and former judge of the circuit court of Hawaii, is now here on his way to Washington to ask United States Attorney-General Knox to depose Perry.

The latter will be charged with incompetency generally and specifically with violating the constitution of the United States in the conduct of a criminal case.

Justice Perry is barely 30 years of age, was born in Hawaii and is of Portuguese extraction. His father was a rich islander and found favor with the powers there. When Antonio Perry attained his majority he was made a judge of the district court of Honolulu, which tries police and justice court cases. A few years later he was made a judge of the circuit court of Hawaii and after annexation took his seat on the supreme bench with Chief Justice Frear and Associate Justice Galbraith.

Perry is a man of much dignity and is accused by some members of the Hawaiian bar of being like necessity, knowing no law. He has especially aroused the indignation of a group of Hawaiian lawyers, and Attorney Davis will express their sentiments before the attorney-general.

Davis is an old practitioner and has occupied a circuit court judgeship in Honolulu and been acting attorney-general of Hawaii in the past year or two. He says he is not on Perry's trail, and will never rest until he is forced to step down from the bench. Davis will go to Washington in a few days in company with Samuel Parker.

Davis said yesterday: "Justice Perry is unfitted for his position on the Supreme bench by his lack of training in legal matters, in the first instance—for, as a lawyer, he never tried a case in his life. His many blunders during the dying days of the Dole oligarchy have been severely censured by the Hawaiian attorneys, who have openly expressed their opinion of his unfitness. And yet upon the formation of the territory, this same judge was recommended by some persons of Honolulu of justice in Washington and secured his appointment as associate justice."

"One of the most serious blunders of Perry's judicial career, and one which I will make special mention of to Attorney-General Knox, was his sitting upon appeal in a case of the Territory of Hawaii against Oaki, a Japanese. As a circuit judge, Perry, under a peculiar statute, exercised the functions of a grand jury and found a true bill against the prisoner for murder in the first degree and certified that there was proper cause to try him. Then, as a circuit judge, he did try him and sentenced him."

"The trial of this prisoner and his conviction and sentence took place after the change of sovereignty. He was put upon trial without being indicted by a grand jury, in express violation of the provisions of the United States constitution. An application was made on behalf of the prisoner by myself and associate counsel to Judge Gear of the circuit court for a writ of habeas corpus. Judge Gear issued the writ, and the prisoner was ordered discharged from custody. Attorney-General Dole, in the absence of a statute allowing an appeal on behalf of the Territory, appealed to the supreme court of the territory. A protest was entered against Justice Perry hearing this appeal, but he overruled the protest, and, in express violation of the provisions of the organic act, heard this appeal and affirmed the sentence which he had himself uttered."

"I then made application to Judge Estee of the United States district court for a writ of habeas corpus, and Judge Estee over-ruled the decision of Justice Perry, affirmed the judgment of Judge Gear, and ordered the prisoner to be discharged. Now the attorney-general of Hawaii has appealed the case to the Supreme Court of the United States, and I am going on to plead for my client. I will present the facts of this case to Attorney-General Knox, and will ask him to oust Justice Perry."

"Associate Justice Galbraith of the supreme court of Hawaii, who rendered a dissenting opinion from Justice Perry and Chief Justice Frear, said:—'As an acrobatic performance, the court might admire the reasoning and decision of the majority of the supreme court, but as a solid conclusion of an appellate tribunal it is without precedent and without reason.'"

This adds new fuel to the judicial scandals which have raged in Hawaii since annexation. When the news of Davis' mission reaches Honolulu a pretty row will be stirred up, for it has been kept a secret so far.

IMPORTANT TRANSACTION.

Water Routes From Inland Ports in United States to Those in Europe, Secured.

LONDON, Jan. 11.—One of the most important of American commercial enterprises in Europe has just culminated here. It consists in the securing of all water routes for American cargoes of grain and other commodities from inland ports in the United States to inland ports in Europe, and embraces the purchase by American capital of several British and other canals. Frank W. Hawley, V. P. of the Erie canal traction company, has been on this side several months quietly securing concessions for the operation of European canals by electricity. The Erie concern today secured control of about five thousand miles of canals in England and the continent. As a result cargoes shortly be shipped on the same bill of lading from Duluth, Minn., to Brussels, Bruges, Ghent and Cologne, and later to many points in the United Kingdom, France, Germany and Italy. At the forthcoming session of parliament the British legislators will be asked to grant permission for the erection of central power stations, for the propulsion of traffic on at least two British canals. These will be operated with American capital, though their control will remain in British hands. Mr. Hawley said today to a representative of the A. P.:—"Yes, it is true that the company is making progress in securing all water routes by electrically operated canals throughout Europe."

SOUTH AFRICA.

JOHANNESBURG, Jan. 8.—Since noon yesterday 122 Boers have been accounted for. After making a night march, Major Cole-Brander captured a laager and a number of Gen. Delarey's men west of Rustenburg. The Boers' loss was 44 men killed, wounded and captured.

Another British column captured 35 burghers in the northwest part of the Orange River Colony, and the Thirteenth Hussars captured eleven near the Oliphant's River blockhouse line.

General De Wet is reported to be moving south before General Elliott, who is following him up the Wilge River. Gen. De Wet has little chance of using the guns he has captured against the blockhouses. The British columns being in close touch, the area in which he can move is being circumscribed.

The military situation is generally good. There are an increasing number of surrenders.

Since January 1st, 160 prisoners have been brought to Bloemfontein, they having been captured by the different columns operating in the Orange River Colony. Gen. Elliott, working to the northeast, captured nine Boers on Jan. 5, and also discovered and destroyed a Krupp gun.

Ninety burghers of the Orange River Colony have lately taken the oath of allegiance.

Colonel Du Moulin, after a night march, recently surprised a party of Boers under Commandants DuToit and Saul Sarens, to the southeast of Jagersfontein. The two Boer leaders and twenty-six men were made prisoners. DuToit is known to have shot lately some native "boys." Du Moulin's prisoners are a mixed lot, and belong chiefly to the Ackerman, Joubert, Coetzee, Booders, and the Krogh commandos. His captures include 58 rifles, 2,000 rounds of ammunition, and 100 horses.

Large parties of determined fighters, under the immediate command of Botha, Melotjes, Tallyard, Steenkamp and Bucknill, are now lying in ambush about the district waiting to attack small columns.

BRIEFS BY WIRE.

OTTAWA, Jan. 11th.—The minister of public works favors the establishment of Marconi's station as a government work rather than a private enterprise. It is understood that the system of wireless telegraphy will be installed on the fishery protection vessels.

NEW YORK, Jan. 11.—John P. Pidcock, president of the Georgia Northern railroad, who underwent a surgical operation at the White House, N. J., about three months ago, was very weak today, and his physician said death was expected at any moment. Complications, one of which was dropsy, followed the surgical operation, and hope of recovery was abandoned several weeks ago. Mr. Pidcock was married on the day the operation was performed.

IS A PROFESSIONAL.

CAMBRIDGE, Mass., Jan. 11.—O. R. Cutts, right tackle of the Harvard Football team of 1901, whose athletic standing before the subject of exhaustive inquiry before the game with Yale last November, is declared a professional in a statement made public today by Prof. Ira N. Hollis of the Harvard Athletic committee. Evidence has been brought to light that while teaching at Haverford he gave private lessons for pay.

INSTANT OBEDIENCE TO POLICE.

ST. PETERSBURG, Jan. 11.—Owing to recent evidence of a disposition on the part of the populace to demur at the demands of the police, General Kiegel, the prefect, has caused notices to be posted ordering imperatively instant obedience to any orders of the police, failing in which the delinquent is punishable by imprisonment for three months or the payment of a fine of 500 roubles.

INCREASED OUTPUT.

JOHANNESBURG, Jan. 11.—The chamber of mines has issued a report showing that the output of the mines for December was 52,897 ounces of fine gold, against 39,075 ounces for November.

ST. JOHN STAR.

ST. JOHN, N. B., JANUARY 11, 1902.

A FAILURE, BUT STILL A SUCCESS.

John Redmond, chairman of the United Irish league, has announced that William Redmond and Joseph Devlin will soon sail for the United States to complete the work of organizing the league on this side of the water. There is evidently much need of organization. John Redmond's recent tour was not a startling success. Commenting on it the London Telegraph says:

In spite of the pretences to the contrary, Mr. Redmond's American mission has been a failure. No similar enterprise has ever received less notice from the press of the United States or from American public men, or has led to such inadequate financial results. Upon his return the pompous disclaimer of the verbal treason which he will never lift a little finger to put into practice was met at Cork by a more meagre mob than upon any previous occasion of the kind. Throughout the land all efforts have hitherto failed to raise the wind of popular subscriptions. In Hibernian politics a dull party is a bankrupt party. That is the reason which makes Mr. Redmond and his followers crave for exciting action on the side of the chief secretary.

But Mr. Redmond himself considers his trans-Atlantic tour in a different light. In an address which he delivered on his return, he remarked, after referring in grandiloquent terms to his reception in the United States, that "the most potent force in moulding the destinies of the universe was the enlightened public opinion of a free people. If Ireland could claim, as he believed they could, having on her side the enlightened public opinion of this great free nation, she had a power greater and more potent for the future than all the armies and navies that might be at the disposal of Mr. Chamberlain and Lord Salisbury. Their experience in America was extended to Canada. There they found a country where to obtain their rights as they in Ireland were claiming, the people rebelled and with arms in their hands they were conciliated by the concession of self-government. Canada today was pointed to by England as one of the most loyal and devoted portions of the empire. But what was his experience there. The prime minister of Canada, Sir Wilfrid Laurier, was amongst the first to extend the Irish envoys the assurance of his sympathy and his goodwill. Therefore he (Mr. Redmond) said to the Irish people that, in the second branch of their work, namely, enlisting the sympathy of the people of America upon their side, they had achieved an unlooked for and glorious success."

Had Mr. Redmond watched affairs in Canada a little more closely he would not have been so greatly surprised by his success in obtaining Sir Wilfrid's assurance of sympathy and goodwill. In the fight which he and his party are making against the integrity of the empire, he is thus certain of the distinguished consideration and sympathy of the prime minister of Canada, William J. Bryan, the rejected, of the United States, ex-President Kruger, who departed from his country along with the money bags, and a host of other worthies, who are not so well known. But though Mr. Redmond is thus assured of the active goodwill of these gentlemen, he cannot expect much material assistance. In giving expression to these sentiments Sir Wilfrid does not voice the opinions of the loyal people of Canada. But nevertheless he speaks for the man who was one of the central figures in the jubilee celebration, a man who stands at the head of one of the great colonies of the empire. Sir Wilfrid Laurier's position, as made clear by Mr. Redmond, is mischievous in the extreme. No one would expect other sentiments from W. J. Bryan and Paul Kruger, but it would naturally be supposed that the premier of Canada would not thus give the weight of his name and public position to private opinions of this kind.

THE CLAM AND OYSTER QUESTION.

Yesterday's dispatch contained the following in regard to oyster fishing: "The development of the clam industry in New Brunswick and P. E. I. is likely to have a serious effect upon the oyster fishing, hard shell clams now being greatly sought after. It seems that in raking them up during the close season for oysters the latter are injured. The fisheries department is contemplating placing a restriction upon clam fishing during the close season for oysters."

The finding of clams and oysters in the same beds is a rarity. Excepting in a very few places, clams are found in a different kind of soil from that in which oysters grow, and fishermen dig instead of raking for them. The bivalves spoken of in the paragraph as hard shell clams are supposed to be those familiarly known as quahogs, which are often found in oyster beds. These as well as other shellfish are raked up with the oysters, but in the past as no great demand for them existed they have not been considered of any special value. And even should the demand increase it is improbable that fishermen will care to work during the close season in raking them, especially as this will tend to injure the oyster beds in which they are found.

THE JAMAICA SERVICE.

So far as assurances of good will are concerned, the new Jamaica steamship line has no cause for complaint. The next requirement is for St. John shippers and importers to consider in what practical way they can aid the line by providing cargo. Fish, potatoes, oats, hay, cheese, butter, meats and lumber are items that can be supplied from this province. Doubtless some lines of our manufactured goods might also find a market there. It would of course be unwise to make shipments at hap-hazard, but our merchants can very soon get into close touch with the Jamaica market, and learn what it will pay them to ship. The greatest care should be taken to study quality in making initial shipments, to take care that local ideas to the kind of packages be not overlooked. There is great advantage in making a good first impression.

ANNUAL MEETING.

At the annual meeting of the members of the Leinster street Baptist church, held last evening, Clerk A. A. Wilson read the first communication received from Rev. E. W. Kelly, missionary in Burma, since the call sent to him by the church several weeks ago. The letter was dated at Rangoon and in it Mr. Kelly, while expressing his gratification at the call and the pleasure it would give him to accept, said that the way at present seemed closed to him. He promised to write definitely by the next mail, a week later, and his definite answer is expected in a few days.

The election of officers for the ensuing year resulted in the appointment of E. L. Rising as treasurer; A. A. Wilson, clerk; Leland L. Heustis, financial secretary; deacons, J. E. Vincent, R. G. Haley, J. W. Sully, T. L. Hay, J. G. Dean, H. D. Creed; trustees, A. A. Wilson, L. A. Hopper, E. L. Rising, A. W. Sully, N. C. Cameron, Isaac Erb, W. V. Barbour and N. C. Heustis; ushers, H. D. Creed, T. L. Hay, J. Bennett, L. A. Hopper, Andrew Stammers, J. Erb, E. L. Rising, A. W. Sully, A. A. Wilson; auditors, W. V. Barbour and J. Erb; music committee, W. V. Barbour, Mrs. J. E. Dean, Mrs. Alex. Thomson, Mrs. H. L. Everett, Mrs. Clark, A. A. Wilson, R. G. Haley.

Votes of thanks were passed to Miss Drake and Miss Appleby for their valuable services in connection with the church choir.

LEFT LAST NIGHT.

The recruits for the army medical corps were sworn in yesterday afternoon and left last night for Halifax in charge of Mr. Carmen. A large number of the men accompanied them to the train.

At a meeting of No. 8 Bearer Corps in their armory in Oddfellows' hall last evening, the members testified their esteem to Mr. Carmen by some valuable presentations. From the officers of the corps he received a wrist watch and bracelet, from the non-commissioned officers a Smith & Wesson revolver and from the men a well filled purse. The presentations were made by Sergt. Major Willis in a neat address, to which the recipient gratefully responded.

The many north end friends of Fred McMullin were unable at so short a notice to treat him in a like manner, but express their intention of sending over a delegation to Halifax next week to present him with some substantial token of their regard.

TECHNICAL SCHOOL TO BE OPENED.

The Currie Business University
To the Front.

For years St. John has been in need of a school for the purpose of teaching the technical parts of different trades, and in May last Council No. 2 of the National Engineers of Canada addressed a letter to the common council urging consideration of establishing a school of this kind, but no action appears to have been taken in the matter.

The management of the Currie Business University, however, have had this matter under consideration for the past two years, and would have come to the front long before this had it not been for the difficulty experienced in procuring a man qualified not only in technical knowledge but in practical experience as well. The management now consider themselves fortunate in securing the services of Cecil Travis, from McGill University, who has had a large and varied practical experience, and is at present draughtsman for the St. John Iron Works.

It is the intention of the management to give courses of instruction in the various technical branches enumerated below, and as this department is opened for the accommodation of the trades, instruction will be given at night only. In the matter of hours for study the management will, as far as possible, endeavor to accommodate its patrons.

You Breathe It

If you sprain your wrist, do you treat your ankle? When your head is hot with fever, do you put cold water on your arm? No, indeed. You put the cure as near the sick spot as you can, don't you? That's just what Vapo-Cresoleine does. It takes the remedy right to the sick place.

You inhale it. Breathe it right into your throat, bronchial tubes and lungs. It kills the germs, relieves inflammation, and healing promptly takes place. If it's a child, there is no trouble about drugs upsetting the stomach. Even while sound asleep the work of healing goes steadily on.

For whooping-cough, croup, asthma, bronchitis, diphtheria, and scarlet fever, it is the most pleasant and most certain of all remedies.

GENTLEMEN.—Kindly send me immediately, one Vapo-Cresoleine complete. I yesterday lost a case of whooping-cough, that I am almost sure, with my previous experience with Vapo-Cresoleine, I could have saved. Having lately moved to this place, our druggist did not have it.
I have used Cresoleine in five different cases with splendid results each time.
Yours very truly, WM. R. EDGAR, M.D., Lyons, Ohio.

A STEAMSHIP'S EXCITING TIME.

The Spanish str. Ballesterono, from Bilbao, which arrived at Philadelphia the other day, had a most exciting time of it, according to advice just received from the mouth of the bay. The steamer was short of coal off Halifax, and the captain decided to put in there for a fresh supply. The weather was thick, which rendered this impossible. The steamer followed close to the land, the captain intending to go to Yarmouth. The first thing he knew the vessel was ashore at Meteghan, and neither Captain nor crew knew where they were. Fortunately it was low water when the vessel took ground, and at high tide she floated. The services of Thomas Geran were secured, and he ran the steamer to Westport. Here 140 tons of soft coal just landed by the schr. Bobs was obtained and along with it some 50 tons of hard coal. Thus replenished in this regard the steamer started for her destination. It is said coal never brought such a high price at Westport.

HIS THRILLING EXPERIENCE.

Thomas Walker, one of the crew of the tug Neptune, had a thrilling experience in the harbor at noon yesterday. The boat was steaming down the harbor at a rapid rate, when Walker fell overboard. His cries attracted the attention of the rest of the crew and the boat at once stopped. A life-belt was thrown in the direction of the man, but he was so heavily clad that he could not reach it. The tug was turned about as quickly as possible, and when she got near Walker he sank. Capt. Clark with a pole caught hold of Walker's clothing and pulled him to the surface. The man was, Capt. Clark says, three or four feet below the surface when the hook caught in his clothing. Walker was pulled aboard and the usual restorative steps taken. The man revived after a bit, and was soon comfortably established in a bunk, where hot drinks were administered. Walker suffered greatly from the cold, but will be all right again in a day or two.

MONCTON.

MONCTON, Jan. 10.—The city council met tonight and passed estimates for the current year, \$48,385, compared with \$46,889 last year. It also voted to apply for legislation to issue bonds to the amount of \$50,000, of which \$15,000 is for improved water service, \$5,000 for sewer outlet, \$5,000 for macadamizing, and \$5,000 for asphalt sidewalks. About forty moulders and apprentices employed in the Record Foundry and Machine Works went on strike today. Representatives of the Moulders' Union went to the manager on Monday to ask for a new wage schedule, but the manager refused to recognize the union, though he said he might deal with individuals. It is claimed that some half dozen members of the union were subsequently discharged, and this morning the men walked out. It is understood the union asks for an increase of 20 per cent. for piece workers and a minimum of \$2.50 per day for work hands, instead of the \$10 and \$12 now paid.

GERMAN PARLIAMENT.

BERLIN, Jan. 10.—During the course of the debate on direct imperial taxation, references were made to Mr. Chamberlain's remark concerning the German army, when the British colonial secretary delivered his famous speech in Edinburgh. Herr Sonnenberg, radical anti-Semite, made a long and violent speech, and indulged in the most bitter invectives against Mr. Chamberlain and the British army ever

heard in the Reichstag. He characterized Mr. Chamberlain as the most wicked man on God's earth. This expression called forth a stern rebuke from the president of the house. But Herr Sonnenberg, unabashed, assailed the British government, classing it as a mob of thieves and robbers, unfit to be compared with the glorious Germans. The speaker's remarks called forth further censure from the president.

Porter and Samuel Cook. It was voted to fix the rate per day at \$2.50 for single teams and \$4 for double teams. This increase is more than offset by the high price of oats and feed.

Sullivan Too Much for Patsy Sweeney.
MANCHESTER, N. H., Jan. 10.—Twin Sullivan was awarded the decision here tonight in a 15-round bout with Patsy Sweeney. There was one knock down in the seventh, when Sullivan went to the floor and stayed till five were counted. He got a good one on the solar plexus.

MOUNTED RIFLES

Had an Imposing March Out at Halifax.
HALIFAX, Jan. 10.—Halifax people this afternoon saw the most imposing cavalcade ever witnessed in this city. Except a few men necessarily left at the concentration camp on guard duty, the full strength of the Canadian Mounted Rifles paraded through the city. The march was led by Colonel Evans, and behind him came 310 mounted horsemen with rifles slung at their backs, bayonets at their sides and wearing the full accoutrements. The regiment marched in sections from the camp to the common, and there they formed en masse. From this formation the rifles moved off in column of troops from the right and formed fours for a parade through the principal streets. Thousands of citizens saw the march and occasionally a cheer was raised. On returning to the barracks squadrons D, E and F and the 4th troop of squadron A, who also go on the Manhattan, at once began getting the saddlery ready for packing in saddle boxes for shipment by the transport.

In the forenoon the Rifles had been inspected by Gen. O'Grady-Haly. The men were dismounted and asked formally if they had any complaints to make. Of course there were none. Then the men stowed their rifles in the rooms, took off their bandoliers and side arms and went to the stables, from which every horse in the camp was led singly past the general. He made no address to the force, but after the inspection was over the officers were introduced to him, when the general said he was glad to see them. He wished them good luck and the opportunity to win honor and distinction in South Africa.
WINNIPEG, Jan. 11.—Ex-Corporal Woodhouse arrived here yesterday from the Yukon; Ex-Constables Tweedie, Boyd and Arnold, also from the Yukon, joined him here today when all four will proceed to Halifax where places have been kept for them on the South African contingent.

ALL ON STRIKE.
SAN FRANCISCO, Jan. 11.—Twenty-six mechanics who have been working at the Union Iron works, filling the places of some of the American iron workers, who are on strike for a shorter working day, have been called out and have quit work. The Japanese were ordered out by the officers of the Japanese Association of America, an organization with which all the residents of that nationality are affiliated. This action was brought about through the efforts of the chief iron trades council.

THE NEW DRILL SHED.

In accordance with a recent resolution of the common council Mayor Daniel today forwarded a letter reminding Hon. Mr. Borden, minister of militia and defence of the promises made to St. John relative to a new drill shed for this city.
It will be remembered that last year, when the city put forth its claims for a new armory the estimates had passed and the minister claimed the government was not in a position to make provision for St. John. As parliament will convene in about a month the agitation is being renewed in an opportune time this year.
Hon. Mr. Borden has expressed himself favorably to the justness of St. John's claim, and the department, it has been announced, has had plans and estimates prepared for an armory to suit the needs of the city.

Schr. Lizzie D. Small, built at Camden, N. J., in 1886, and overhauled in 1890, was sold at auction at Brooklyn, New York, on Dec. 30 by U. S. marshal. She was purchased by Pendleton Bros. for \$425.

St. John Trade and Labor Council met in Moulders' hall last night. The following organizations were represented: Printers, painters, carpenters, moulders, bartenders, machinists, freight handlers and cigar makers. The council will meet on the second and fourth Fridays in every month. Almost every conceivable effort has been made to float the schooner Bobs, Capt. Sterling, which went ashore on the northwest side of Peters' Island some days since. The str. Westport has had hold of her several times, but it was without success. The schooner's keel is twisted and she is full of water. It is thought the vessel will be sold.

A number of gentlemen were entertained by Capt. Brown at dinner on the mail steamer Ionian yesterday, and a very pleasing affair it proved to be. Capt. Brown made an ideal host, and those present will long remember the event. Among those who were honored were James F. Robertson, Ald. T. B. Robinson, James O'Brien of the C. P. R., A. W. Adams, A. McMillan, W. E. Foster, A. O. Skinner and P. W. Thomson.

An address on Anglo-Saxon Unity by W. Watson Allen, K. C., will be given next Monday, 13th Jan., at 8 p. m., at the Unity Club in the Unitarian church. A musical programme has also been arranged, and it is confidently believed that the evening will prove very interesting and profitable. As this will be the first entertainment since the reorganization of the Unity Club on the 2nd inst., it is hoped that all the members will be present. A cordial invitation is also extended to all others.

Tomorrow Rev. Dr. Fotheringham begins the twentieth year of his ministry in St. John Presbyterian church, having been inducted into the charge on January 8th, 1883. The Lord's Supper will be dispensed at the morning service, and the sermon in the evening will be appropriate to the occasion. The annual meeting of the congregation, at which reports from all the organizations connected with the church will be presented, takes place on Wednesday evening next.

MR. CAMPBELL'S POEM APPEARED.

At the time of the visit of the Duke and Duchess of York to this city they were presented with many addresses from various sources. Among the many was one from the Loyalist Society, a poem from the pen of Charles Campbell. It bore the precept "A welcome to His Royal Highness the Duke of Cornwall and York by the city loyalists, presented with the loyal compliments of the Loyalist Society of St. John, New Brunswick."
On Thursday Mr. Campbell received from R. S. Barker, Lieut. Governor of the Loyalist Society, a letter that had been forwarded to his honor through the secretary of state's office from the colonial secretary, stating that His Royal Highness had been pleased to receive the poem.
As the poem had been presented by the Loyalist Society and not by Mr. Campbell, the latter at once wrote Mr. Barker fully explaining the matter. While Mr. Campbell is pleased to accept all credit as the author of the poem, he does not wish to take to himself the honor thrust upon him of presenting the welcome to the Prince of Wales, and which rightly belongs to the Loyalist Society.

TOO GRATIFYING.

There is today in the Seamen's Mission one man who carries a feeling of regret at the annual entertainment given to the sailors last night proved so agreeable. This man, who is somewhat afflicted with a dislike of hard work, but who is blessed with a most gratifying capacity, indulged his appetite last night and partook freely of the many good things provided. He is now resting comfortably in bed, imitating the customs of snakes, which always sleep after a hearty meal. No great anxiety is felt in regard to his condition.

SAILORS' ANNUAL SOCIAL.

Highly Enjoyable Entertainment at the Seamen's Mission Last Evening.

The most enjoyable social and entertainment ever held at the Seamen's Mission was that of last evening. A splendid programme was carried out, and over one hundred sailors were present. The president, H. C. Tilley, on behalf of the managing committee, welcomed the sailors to the Mission. He stated that this was their usual annual Christmas entertainment, but it had been thought necessary this year to hold it a little later for several reasons. He hoped the men would make use of the Mission while in port, and that they would always find a welcome while there.

The following took part in the programme: Miss Eva McNicol, Miss Nellie Thompson, Miss Lester, J. N. Rogers, A. W. Baker, Miss Lillian McGorman, John Salmon, Mrs. D. McLean, Herbert Nash, Mrs. J. Seymour, George Price, Hugh Campbell, S. J. McGowan, Miss Baillie and L. P. D. Tilley.

The missionary, Mr. Cosman, was then presented with a handsome chair by the managing committee and some of the sailor boarders. Mr. Cosman referred feelingly to the great kindness of the management in remembering him. He had always tried faithfully to do his duty, and although at times he had to use harsh measures, yet what he had done was for the best interests of the men and the Mission. After the programme a number of young ladies served refreshments to the sailors. A committee of ladies then distributed comfort bags, socks, mittens, etc., to each man present.

The men in the Shelter on Water street were not forgotten, and a committee was detailed to take down to them coffee and cake. A number of those taking part in the sailors' entertainment upstairs went down to the Shelter and gave the men a short programme, which was very much enjoyed. There were about 25 men in the Shelter last night.

The managing committee wish to take this opportunity of thanking the young ladies of the city for an abundant supply of thoroughly well equipped comfort bags, which they have been busily making for some time past, also the numerous friends who kindly sent in donations which helped to make the entertainment pass off so pleasantly.

The Seamen's Mission Society wish to acknowledge with thanks the following subscriptions for December: Boys' class, St. Stephen's S. school, \$2.25; Miss Jane Barlow, \$4; Mrs. A. C. Lester, \$2; James Manchester, \$10; cash, \$10; friend, \$1; W. A. McDougall, sailor, \$1; George Barbour, \$1; Alex. Watson, \$1; Mrs. Radnor, \$1; A. I. Trueman, \$1; M. L. POLICE COURT.

A Native of Several Countries, Makes His Regular Appearance.

John Walsh is cosmopolitan in his tendencies and liberal in his patronage of the police court. On November 28th, when he was twenty-eight years of age, he was arrested for being drunk on Water street. The fine was four dollars or ten days, and after allowing for a period of rest equal to the term of imprisonment John blossomed forth again—this time on King street, and was rewarded with a similar punishment. Upon the second occasion he paid his fine, but the Christmas festivities proved too much for even his capacity, and on Dec. 25th he fell into the arms of Sgt. Caples on Prince William street. During all this time, Walsh was a citizen of the United States and as his age and notoriety were becoming well known and appreciated in the court his reward for drunkenness was doubled, and John paid eight dollars. This appeared to have been a lesson to him, for among the good resolutions made before getting drunk on New Year's Eve, four days after his discharge from custody, was one to the effect that as the United States had failed to protect and shield him from the merciless arms of the law, he would forswear the land of his adoption and at once become a Scot. This he did, changing his age at the same time from twenty-eight to thirty-two, with the vain hope that years would add dignity to his appearance. His plan met with a certain measure of success, for upon his appearance on January 2nd he was not treated as a vagrant, but was let down easily with four dollars.

John has since decided to give the north end force a share of his patronage, and having renewed his youth has forgotten Scotland and the United States, his two birthplaces, and is now a citizen of New Brunswick. Last night on Mill street he was drunk and was arrested by Officers Merrick and Flamm. Walsh became violent and while resisting arrest managed to kick Officer Merrick so severely that that officer is now confined to his house. Officer Hamm appeared today to give evidence against Walsh, and the prisoner was fined eight dollars for drunkenness. On the charge of resisting and injuring Officer Merrick he was remanded.

Halley Bros. reported for allowing a lumber wagon and sled to remain on the street at night were excused.

LETTERS FROM THE PEOPLE.

To the Editor of the Star:

Sir,—I see the employment which the board of health gave my husband did not fit him. He ran enough danger while in quarantine. If the board of health would take the barrels of refuse out of his yard I would be thankful. He did not accept the employment because I did not think it fit for him. Frank Boone got the groceries, but he did not get the clothes yet, that I know and can prove. If you don't believe me come and see for yourself. Yours,

MRS. E. J. HEMES,

SCORES THE CHIEF.

Magistrate Ritchie Says W. Walker Clark Showed Remarkable Alacrity Bringing Prominent Citizens Into Court.

Chief of Police Clark was hauled over burning coals in the police court this afternoon by Magistrate Ritchie when the case or reports against local clubrooms came up.

The court room was crowded, and the magistrate declaring he was not responsible for having brought prominent citizens into court without the slightest cause, said:

"I find before me on my desk a memo. which does not contain the truth. It reads:

As per your order the following persons were notified to visit court on Jan. 11 at 2 p. m.

"Here follows the names of a number of prominent citizens. No charge has been made and no reason is given why these persons are summoned, except that it is by my order. This is absolutely untrue. There are some things which occurred here and which being of small importance are passed over with the remark that it will be all the same a hundred years from now. But this is of more importance, inasmuch as several of our most prominent and best citizens are concerned. This memo is signed by W. Walker Clark, chief of police.

"Some days ago, during the hearing of a complaint made by Mr. Jack in regard to the Woodbine club in which H. S. Keith appeared, I stated that in consequence of the manner in which Mr. Keith put the case the matter would be adjourned for a week in order that the police might have more opportunity to secure information in regard to such club. The most wonderful part of the thing is the marvellous alacrity displayed by the official whose name appears on this memo and who had his men notify these respectable citizens. I never gave such an order, and the statement that I did so is absolutely untrue. I cannot see any earthly reason why this official should twist my remarks into an order to summon those citizens. If ever I am fool enough to give such an order as this you can be sure that no time will be wasted in letting the public know that I have no such authority."

Here the magistrate read the report of the previous proceedings, as published in the Globe, stating that certain portions were untrue and in regard to other parts the magistrate stated that the Globe reporter did not get the information from him. He also stated that the Globe is a fair paper, and that much of the report was correct. Continuing, he said:

"If the police had gone to work and taken the proper order this affair would never have happened. I never gave any such order to the police. Every week things of this nature occur here. If I ever happen to make a remark about the order prevailing in the city, it is at once taken up as a 'scoring' of the police."

"When several of these gentlemen were notified to attend the court, they spoke to me on the matter and I told them not to pay the least bit of attention to the police notification, as I had never made any such order, and had no reason or authority for doing so."

Chief Clarke:—"Your honor, will you allow me to make a statement?"

The Magistrate:—"No, I don't want to hear a word from you up here at all. We will now take up the case against the Woodbine club."

During the magistrate's address Sgt. Hipwell requested several times that he should be allowed to make a statement, but was refused by the magistrate.

COMPULSORY VACCINATION.

D. R. Jack to Test the Board of Health's Power to Enforce It.

D. R. Jack, who has been summoned to appear in the police court for refusing to comply with the board of health vaccination regulations, has retained J. B. M. Baxter to defend him and will test the board's power to enforce compulsory vaccination.

The case will come up on Monday.

T. F. Regan, who has also been summoned by the board of health, told the Star this morning that he was an advocate instead of an opponent of compulsory vaccination. He had been vaccinated some time ago, and had informed a board of health physician of the fact.

CHURCH DEDICATION.

St. Clements, the new church at Millidgeville, will be formally dedicated tomorrow. It is a handsome and convenient little building, and reflects credit upon the builder and the people of Millidgeville. For the present, Mr. Unkoff, curate of St. Luke's, in which parish the church is situated, will be in charge. Rev. F. W. Bacon, of Musquash, will preach tomorrow and services will be held throughout the week at which clergymen from the city will take part.

At the Orange Hall today Mrs. E. C. Elkin, Mrs. S. D. Scott and Miss Stockton were busy sorting the large amount of clothing sent in for the quarantined people.

Wm. J. McDonald was arrested today on arrival of noon train by Detective Killen for desertion from Royal Canadians at Halifax last July.

THE HOCKEY OUTLOOK.

The outlook for some good hockey games this season is excellent. Manager A. J. Tufts is paying particular attention to one team, the Mohawks, of whom A. L. Fowler is captain. They have two practices each week, and it is their intention to become so fit that any team going up against them will have no picnic. It is expected that the

first game will be played early in February with a team from Sydney. Communications have been received from other outside teams, and it is expected that some exciting matches will be played. There is talk of some of the old hockey players, who did great work a few years ago, forming a team and playing a series of matches with the Mohawks. If this were done it would prove very interesting to all lovers of the sport.
