COLE UNDER CROSS EXAMINATION Was Not in the Least Confused—Verdict May be Reached Tonight.

PORTLAND, Me., Jan. 25.—Edward P. Cole completed his story of his relations with John F. Stevens, of whose murder he is accused when the superior court opened this morning. The direct evidence was all in within half an hour after the court convened and the cross-examination was then begun by Judge Philbrook, the assistant attorney general of Maine. Up to noon the vigorous inquiry into the details of Cole's story had been without result and the prisoner was standing the ordeal calmly.

Mr. Philbrook's cross-examination of the respondent was concluded shortly after the noon recess, and Cole remained practically unshaken in his story to the end. He was followed by a new witness, who had not been at the previous trial, an ashman, who testified to seeing Cole at the latter's home on the morning of April 12. The respondent was fixing a couch in the house at the time. The other witness of the day was all those who had been on the stand at the other trial, and their evidence brought out no new points. They confirmed Cole's story of April 12, and testified that he remained home and fixed a couch in the morning, and in the afternoon went to South Portland to tell a Salvation Army officer that he had money and that he was willing to buy boots for his wife, who was at the time collecting for Army funds.

KING ALFONSO IN GOOD HUMOR.

BIARRITZ, France, Jan. 25.—King Alfonso, travelling incognito as the Marquis of Covadonga, arrived here in an automobile this morning from San Sebastian and immediately visited the Princess Ena of Battenberg and her mother, at the Villa Mourisco, where they lunched together. His majesty appeared to be in a most joyful humor, graciously saluting the crowds along the roads. The proposal of marriage may occur Sunday or Monday, during the dowager queen's visit. In the meantime the king will visit the princess daily. The authorities have adopted the strictest precautions for the king's safety.

Poor Fitz! He got his made all a la John L. He got it just about the same way. And his money faded, too...

The country is getting in a bad way for heavy fighters from recent showing, and I am surprised that more men with meat in their bones don't get in and try for the money that is waiting for the man who will come along and fight in the god old way...

There's been so much monkey business that it might be hard for any scrapper to stay with the mid game, to hang out a sign as a fighter and stick to it...

What do you think would happen to a fighter who would come along at this time and do like John L. did?

The fact is, the ring is changing, but not for the better. They dance around more than they used to do, they don't hit so hard or so often as we did...

My kick is because I picked boxing out of the mud and gave the game standing and character because it was on the level and honest sport every way you took it.

THE SEMI-WEEKLY SUN.

ST. JOHN, N. B., JAN. 27, 1906.

SIR MACKENZIE'S SUCCESSOR.

It is announced by the Montreal Star that Sir Mackenzie Powell has refused to reconsider his decision to retire from the conservative leadership of the senate.

Among the conservative senators, numbering say one-third of the whole senate, the choice could easily be narrowed down to five or six.

Senator Ferguson, the former is a silent member who would certainly not accept the responsibility of leadership.

Senator Miller is the right hand man of the leader since the change of government and is competent by knowledge, capacity and experience.

Of the Nova Scotia delegation Senator Miller, the only survivor of those called at the time of confederation, is one of the ablest men in the chamber.

Mr. Oliver Asselin, editor of La Nationaliste of Montreal, a journal representing the views of the group of politicians whereof Mr. Bourassa is the most notable, is prosecuted for libel.

Mr. Asselin accused Mr. Holbrooke, who is a Hebrew, of some connection with a franchise syndicate, and the discussion led up to an open letter which Mr. Asselin closed with these words: "The day I enjoy your esteem I will regard myself as having committed some infamous act, and I will go on the instant to join the most illustrious of your compatriots, Judas Iscariot."

It is more than a year and a half since the suburban steamship Slocum was burned off New York and about 800 lives lost.

Mr. Chamberlain rises to remark that the government majority is larger than he expected, but that he is himself determined to fight for his own policy to the end.

SACKVILLE, N. B., Jan. 24.—Capt. Milner received a telegram today containing the sad news of the death of his only son, Wm. E. Milner, at Phoenix, Arizona, very suddenly.

DEFEAT OF AN ADMINISTRATION.

The alleged republic of Ecuador has experienced a change of government. It was brought about by the usual South American motion of want of confidence, the opposition having acquired part of the army of President Garcia at the capital and then beating the rest in a fight near Quito.

Among the conservative senators, numbering say one-third of the whole senate, the choice could easily be narrowed down to five or six.

THE QUEBEC-MONCTON END.

The following interesting statement is taken from the Montreal Witness. The thought which it expresses may be the descendant of a wish, but it is worth the attention of New Brunswick readers:

"Survey work on the Quebec-Moncton section of the National Transcontinental Railway has been suspended since spring. There is a feeling in railway circles that this portion of the work will be abandoned on the ground that it ought never to have been taken on to the enterprise.

Mr. Asselin closed with these words: "The day I enjoy your esteem I will regard myself as having committed some infamous act, and I will go on the instant to join the most illustrious of your compatriots, Judas Iscariot."

FINANCES OF WESTMORLAND CO.

Are, According to Reports, in Satisfactory Condition

Scott Act Reports Show Small Balance

Change in Personnel of Board of Health.

MONCTON, Jan. 25.—The financial affairs of the county of Westmorland, as revealed by the report of the auditor submitted at the Council meeting this week, continue to be in a satisfactory condition.

The Scott Act report for the county shows a balance of \$20.55 to the credit of the act on last year's operations, the receipts having been \$29.70 and the expenses \$73.25, including the inspector's salary of \$100.

A change has been made in the composition of the county board of health, Dr. Myers of Moncton and Dr. Calkins of Moncton being dropped, and Dr. Belliveau of Shediac and Henry Fawcett of Sackville put in their places.

The members of the old board did not agree among themselves, and the change would likely result in greater efficiency.

FRANCE STEADILY LOSING GROUND

Her Claims on Morocco Not Strongly Supported

ALGERIAS, Jan. 24.—The confidentially expected news going on among the representatives of the powers in the Moroccan conference disclose the extreme difficulty of arranging an agreement that both France and Germany would accept.

France virtually enunciates in a modified form the principle of the Monroe doctrine in Northwest Africa. She has acquired and holds a position which makes equal political equality with other powers impossible.

Germany insists on political equality with even more tenacity than she does on the question of economic equality.

The real struggle, however, is over the political Morocco. France would rather withdraw from the conference than tie up the political destiny of Morocco by international control.

France therefore may strive for a negative result so far as political questions go, accepting fully a commercial equality and joining in the effort to reach just economic conclusions, but refusing suggestions for the internationalization of any of the public services of Morocco.

Germany will press for the internationalization of the police. It should be understood that this question of police does not refer to the French force for the maintenance of local order, but in the larger sense to the semi-military body which is to exercise a power of general control.

France still counts upon Great Britain, Russia, Spain and Portugal, but her earliest hopes that the United States would be with her are beginning to diminish.

Germany believes that her view as to international control has been accepted in principle by the United States, Austria and Sweden.

The position of Italy is one of uncertainty. Italy naturally inclines towards equality of privileges, and besides she is the ally of Germany; yet according to her secret agreement with France in 1902, France will vote for the Congo question to the agreement to side with her, but Italy hesitates.

Belgium is non-committal through fear that either France or Germany will raise the Congo question to an international issue after the conference if either should consider itself offended.

KINGS COUNTY CIRCUIT COURT

HAMPTON, Jan. 25.—The adjourned session of the Circuit Court, Judge Landry presiding, opened at ten o'clock. An adjourned case, Abram B. Crawford vs. Sara Crawford was called and the jury was about to be summoned when Mr. Jonah, who appeared for the defendant, a son of the plaintiff, objected that proper notice had not been given so the jury was dismissed and the case proceeded as a non-jury one.

In the afternoon Mr. Jonah put in evidence taken by commission of James W. Freese, justice of the peace, who is alleged to be in such a state of health as to be unable to appear in court.

White called George G. Scovill, who testified that M. M. Freese, in 1897, went to his store with the deeds referred to, which he sent to the registrar, paid the fees for recording, which were afterwards repaid by him to Mr. Freese.

Mr. White objected to the evidence of Mr. Freese on the ground that he is suffering from paresis, and therefore is unreliable.

Mr. White moved that a noli prosequi be entered or judgment be given for the defendant. The deeds pasting the property to plaintiff were voidable because they were voluntary deeds.

Mr. White replied at length, taking up the plaintiff's right of curtesy and introduction as an issue. The defendant should be evicted and possession given to plaintiff.

Mr. Jonah asked that if the claim of the plaintiff be granted he should be granted costs up to that point.

His Honor took a few minutes to look over the evidence, and then allowed the plaintiff to amend his claim.

LOCK CANAL WILL PROBABLY BE BUILT

WASHINGTON, Jan. 23.—A lock canal at a cost of \$147,000,000, and not more than eight years to build, or a sea level canal of about \$250,000,000, and from twelve to fifteen years to build, were the two proposals discussed today by the senate committee on inter-oceanic canals.

The opinion was expressed by Mr. Stevens that a lock canal would supply all the needs of commerce.

The construction of a central lake to receive the waters of the Chagres river, it is said, would permit steam vessels of the largest type to pass through the lake under the present locks.

It is expected Mr. Stevens will complete his statement tomorrow.

FEEDING FACTS

In ordinary feeding the steer consumes about 34 of its ordinary feed; the balance is undigested or wasted. This undigested balance can be made to give 1/2 to 1 lb. extra gain per day, and at a profit, by adding the "salt, pepper, and gravy" to its food to make it "tasty."

Clydesdale Stock Food

"mouth water." It is equally good for Horses, Sheep and Hogs. Nothing injurious in it and can be fed without harmful effects.

RECENT DEATHS

Alderman Millidge Died Yesterday Morning.

Principal Sheraton of Wycliffe Has Also Passed Away—He Belonged to St. John.

The death occurred Wednesday morning after a lingering illness of Alderman Thomas Millidge, the representative of Dufferin ward in the city council. Ald. Millidge has been ill for some time, and death was not altogether unexpected.

The death occurred Wednesday morning after a lingering illness of Alderman Thomas Millidge, the representative of Dufferin ward in the city council. Ald. Millidge has been ill for some time, and death was not altogether unexpected.

Mr. Millidge comes of a family of sixteen children, twelve of whom reached maturity. Those now living are as follows: Rev. James W. Millidge, rector of Oak Bay, Charlotte Co.; Mrs. E. C. Hamilton, wife of the late Geo. A. Hamilton, M. D., of this city; Frank of Milwaukee, Wisconsin; Mrs. Sarah de Biola, living at Winnipeg; Frederick, Cecil and Arthur Hamilton, who are farming in Manitoba, and Louis de Biola, B. Vickers and Harriet Marjion living in St. John; Mrs. Brown, wife of John C. Brown, and Miss Florence Millidge, formerly of this city, were sisters of the deceased. Mr. Millidge was unmarried.

The late Mr. Millidge led a busy life and took part in public affairs in many ways. He has been for many years an alderman, and was from 1900 to 1904 chairman of the water and sewerage board. In this connection the report of the board may be quoted from the report of that board in the year 1900.

"It is worthy of note in this connection, that the present chairman represents a family, which for three successive generations has taken an active interest in the water works of the city. Thomas Millidge was one of the incorporators and a director of the first company, which met on Sept. 5, 1828. He was also one of the incorporators of the new company under the act of 1852. His son, Thomas E. Millidge, purchased the Little River reservoir property from John W. Scott and wife in the year 1849 and then conveyed it to Jardine & Duncan, who acted on behalf of the water company. Now a son of Thomas E. Millidge presides over the water and sewerage board."

The late Mr. Millidge was admitted an attorney on February 10, 1868, and barrister on June 9, 1869. He appeared before the privy council in England in a suit connected with the part of the property on which the I. C. R. elevator now stands. He was best known as a chamber lawyer, and as such was regarded by the younger men of the profession as a capable critic, often being consulted in regard to cases in which they were retained. He was for a number of years in partnership with A. H. Hanington and afterwards with A. A. Wilson also. Some years ago, however, he retired from active practice, and in regard to the cases which he had always kept separate from his own money.

A number of witnesses were examined who testified that since his appointment drunkenness had been much less prevalent in the district than before, and that this was due to his carrying out the duties of his office. After all the evidence was in, which was not very sensational, and the argument of counsel, the commissioner pronounced the proceedings closed. A decision will be given by the government after Mr. Jones submits his report.

TRENTON, N. J., Jan. 23.—The crusade against Sunday liquor selling in this city has worried a prosperous saloon-keeper who has five marriageable daughters. The cause of his anxiety is explained in a communication sent to a newspaper by one of the young women.

ALMA. ALMA, N. B., Jan. 23.—Mrs. A. E. Smye has gone to Boston to remain several months. Mrs. Gordon Hatfield left today for her home at Port Greville, N. S.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations—Many Women Suffering from Like Conditions Will be Interested.

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it is of course a frightful blow.

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed.

Victims of Lily Lake Tragedy Rest Side by Side in Fernhill

Side by side the remains of Frank Wheaton and Walter Kay, the two boys who went down to their death in the icy waters of Lily Lake on Monday afternoon, were yesterday laid away to rest in Fernhill cemetery.

That the peculiar sad circumstances of the death of these little comrades has excited in an unusual degree the sympathy of the community was evidenced by the very large attendance at the double funeral held from Leinster street church yesterday afternoon.

Long before the services began the body of the church was crowded, many people being unable to secure admittance. The galleries were opened and those too were quickly filled.

Rev. Mr. Taylor, pastor of Leinster street church, made a feeling prayer, after which Rev. Dr. Gates, pastor of Gormain street Baptist church, where young Wheaton attended Sunday school, preached the funeral sermon.

Dr. Gates referred to the insecurity of life and urged the boys and girls present before him to so live that they might be as ready as were their dead comrades when the call came for them.

COUN. G. W. PALMER  
ELECTED WARDEN  
And Salary of Treasurer  
City is Increased.  
Annual Session of Kings County  
Council - Change In Salary of  
Sheriff - Health Reports.

HAMPTON, N. B., Jan. 23.-The annual meeting of the municipal council of Kings County opened its sessions this morning at ten o'clock, Warden S. H. Flewelling in the chair. After the reading and confirmation of minutes, the council unanimously elected Councillor G. W. Palmer warden for the current year, and he at once entered upon his duties, appointing committees on finance, printing, buildings and meadows.

Communications were read from C. F. Gibson, a printer of Sussex, complaining that public printing had not been put up by tender and asking for some consideration for his establishment and from Sir Wm. Mulock asking for information in regard to telephone systems and service in operation in the county, and as to their satisfactory workings. The communications were laid on the table.

Three grand jury presentations were read and referred to the jury committee. Councillor Peatman introduced two resolutions relating to the salary of the sheriff first asking for the repeal of the existing regulation by which separate salaries are paid to the sheriff and deputy sheriff, and providing that the amount be paid to one sum to the sheriff, who shall appoint and pay his deputy.

The second resolution called for the appointment of a committee to confer with the sheriff in regard to the amount of salary he will need under the new regulations. Both resolutions were adopted and councillors Peatman, Farlee and Myles were named as committee.

On motion of councillor Peatman the salary of Secretary Treasurer City was increased from eight hundred dollars to one thousand and many very pleasant and complimentary things were said as to the very satisfactory manner in which the business of the county has been done since it was placed in the hands of Mr. Otty.

The latter was not in court during these personal matters, and his report was greeted with cheers and clapping of hands.

He made suitable acknowledgment of the council's consideration and good will. The Hon. G. Hudson Flewelling, County Auditor, submitted his report, showing amount on hand January 1st, 1905, \$8,629.08. Receipts to December 31st, \$12,216.82. Disbursements, \$12,932.21. Balance on hand, \$12,938.69, of which \$4,829.22 belongs to Highway fund.

The buildings committee reported some repairs on the gaol and the purchase of coal.

Dr. F. H. Wetmore, chairman of the Board of Health, reported during the year twenty-two cases of contagious diseases, of which nine were of diphtheria, three typhoid fever, three scarlet fever and nine measles. One death each occurred from diphtheria and typhoid fever.

The report was adopted. The report on pauper lunatics brought up the question of support of some of these claimed by the asylum as chargeable to the respective parishes from which they came.

The Municipal Council reported at 2 p. m.

A poll tax collected from Fred Freese, a minor, for two years, by the collector for Cardwell, was ordered to be paid back to him.

An order was passed to print a full list of the officers appointed by Council in the Kings County Record, and that slips thereof be supplied to each councillor.

The committee on sheriff's duties and salaries reported, recommending that the salary be \$750 per year, that the office of sheriff and deputy sheriff be amalgamated, and that the sheriff appoint his own deputies.

The salary of the auditor was increased to \$200; he was instructed to print and distribute the duties of collectors, and the latter were ordered to report to the auditor their collections every quarter.

A full quarter's salary was ordered to be paid to the widow of the late Sheriff Hatfield to Oct. 15th, 1904.

The buildings committee recommended that the suggestions of the grand juries be carried out; the excavations be continued as was done in 1903; to point up the walls of court house and jail, and to provide proper and satisfactory sanitary and hot water systems. The cost will be in the vicinity of \$3,000, and it is proposed that the payments shall be carried over three years, the warden being authorized to effect an overdraft on the bank for the immediate amount required.

The report was adopted and the necessary authority was given to the warden and houses of commons to do all that is needed to complete the work.

Papers filed with regard to the laying out of a road across the Dibble farm in Norton, calling for an assessment for damages and cost of laying out, was resisted by Edward S. Dibble and others, and as there seemed to be some irregularity in the notice and warrant of the commissioner, the matter was laid over for a year to enable the other side to be heard.

One Alton of Sussex was relieved from the payment of \$12 taxes, on report of the Sussex councillors.

The pay of constables while attending court was raised from \$1.25 to \$1.50 per day.

The buildings committee were allowed travelling expenses when attending to repairs on the public buildings.

Adjourned till 9 a. m. Wednesday.

### Ghosts are Old Fashioned Now-a-Days.

LONDON, Jan. 23.-The Psychological Research Society has just issued a statement calling attention to the fact that ghosts are out of date. There is not a play running anywhere which has a good, old-fashioned ghost, unless it be Shakespeare. As for ghost stories without which in the good old fashioned days no Christmas annual could be complete-they certainly have no place in this year's holiday literature.

### A Trip That May Never Be Equalled in Navigation Of the St. John River.

Tug Lord Kitchener With Guests of John E. Moore Went to Public Landing Wednesday, Forcing Her Way Through the Ice - Saluted All Along the River.

Had the record of January 16th, 1892, been broken, or has it not? In the question which is now troubling the minds of those who took part in the memorable midwinter excursion up the St. John River.

During the past two weeks or so these citizens have been noting with interest the continuance of soft weather, and have been awaiting an opportunity to go up river again and beat their old record. They did not want to start and be stopped by ice within a mile or two of their old landing place, but determined either to equal their previous trip or not to go at all.

So they have been making enquiries every little while, two or three times a day, as to the state of the ice, and were repeatedly informed that it was solid down to Carter's Point, while they wanted to reach the Public Landing or Belyea's, as it is sometimes called. They did not go, but while they were waiting for a loosening of the ice in the Reach another party got in ahead, and from the accounts brought back the January 16th, 1892, record has been beaten, although the members of the original party cannot be made to believe it. If it is true, they say, it will not be beaten for very long, but the old record will get together and go on a second trip, which may only be ended at the bridges at Fredericton.

Wednesday afternoon John E. Moore, owner of the ocean going tug Lord Kitchener, invited a number of friends to the very unusual entertainment of a midwinter excursion on the St. John River. The idea of going was partly for the novelty of the trip and partly to do what had been done fourteen years ago. It was believed that the Lord Kitchener could make a better impression on the ice than did the Lily.

A few minutes after one o'clock the guests assembled at North wharf and started on a trip which will probably never be equalled in the history of St. John River navigation. As a matter of record the names of the party are given.

### FOURTEEN HURT IN COLLISION

Train Going 65 Miles an Hour Ran Into Another That Was Standing Still.

LOS ANGELES, Cal., Jan. 24.-Fourteen persons were injured in a collision yesterday at Glendora, between the Santa Fe limited westbound train and a local train. All the injured were passengers on the local. The limited was running 65-miles an hour when the collision occurred, according to Engineer Carman who was at the throttle. The engineer struck to his post and was uninjured. His fireman also escaped injury. All that prevented a more serious wreck was the fact that the local train was not in motion when the crash came.
