SMITH—JESSAMIN

A very pretty wedding took place on the morning of the 22nd inst. at 8:30 o'clock at the residence of Mr. and Mrs. Alexander Jessamin, River View Farm, Douglastown, when their eldest daughter Miss Ida Elizabeth, one of the most talented and popular girls of the Miramichi, was united in the bonds of matrimony to Mr. Norman R. Smith, of Chatham, engineer of the steamer "St. George." The couple were unattended. Rev. F. C. Simpson of St. Mark's Presbyterian Church performed the ceremony in the presence of many friends and relatives of the contracting parties. The bride looked very charming in a suit of brown chiffon broadcloth with hat to match. The wedding party sat down to lunch at 9 o'clock, and amid showers of rice and best wishes, Mr. and Mrs. Smith afterwards drove to Newcastle to take the train for St. John, from whence, after spending a few days, they proceeded for the rest of their honeymoon to Boston, Medford and Dorchester, (Mass.) and New York. Returning they will reside in Chatham. The bride is a graduate nurse, and up to her return home about six weeks ago, had passed six years in Massachusetts hospitals, latterly being one of the head nurses in the hospital in Dorchester, Mass. The couple received a large assortment of handsome and valuable gifts.

Miss J. Keith of Olds, Alta., a trained nurse, who has had a wide experience of Zam-Buk, speaks of it as follows: "I wish to express my high appreciation of Zam-Buk. ROBBED IN CHATHAM

Some thief or thieves broke into the opera house Wednesday night after the Paul Gilmore Co. had left and succeeded in forcing open Manager Zoelner's trunk. About 20 shirts were taken and among other things an imitation diamond necklace with silver setting belonging to his wife, Adelaide French. The total loss was about \$60 and Mr. Zoelner was much inconvenienced by it. The police were notified and are at work on the case.—Chatham Gazette.

GRAND JURY REFORM

The Kings Co. Grand Jury on the 21st presented the following: To His Honor Mr. Justice White, of the Supreme Court of Kent County:

Whereas, it has been customary at every session of the Supreme Court to summon twenty-four men to serve on the grand jury;

And whereas, it frequently happens that there is not business to be brought before the said grand jury;

And whereas, it is often a great inconvenience for persons so summoned to be able to attend at the term and place so summoned to attend;

Therefore this grand jury hereby recommend that the law be so amended that a grand jury shall only be summoned when there is business to be brought before it and on the order of a judge of the Supreme Court.

Signed on behalf of the said grand jury,

W. D. GILLIES,

Foreman of said Grand Jury.

His Honor expressed his hearty concurrence with the recommendation and promised to bring the matter before the proper authorities and hoped that similar action by other grand juries would bring about the reform so much to be desired.

The mill was put at \$345,000, a very reasonable price, and there is no doubt but that it will be running ultimately.

The sixth annual seed fair promoted by the Northumberland Agricultural Society with the support of both the Dominion and provincial departments of agriculture, was held in Chatham on Friday and proved very successful, there being a very satisfactory display of exhibits to compete for the prizes offered which amounted to \$105 in twenty-one different classes.

In addition to the seed fair Seth Jones, the provincial poultry expert, delivered an address on Poultry Raising. Some pens of birds of different breeds were on view and the lecturer used these to illustrate the points he wished to make.

It's a Libel on The Men

Some self-accredited "student of human nature" recently stated that men were bad buyers when it came to purchasing articles for personal use.

We don't believe it. Our experience has been that men as a rule, are shrewd buyers, and point to the steadily increasing demand for "PROGRESS BRAND" CLOTHING as proof of our side of the argument.

Men recognize the kind of quality they always get in a "PROGRESS BRAND" Suit or Overcoat.

They know that the "PROGRESS BRAND" Label (shown above) stands for guaranteed value. And they look for this trademark in every garment they buy.

If you want to know more about these reliable clothes, ask to see the new spring styles in "PROGRESS BRAND" Suits and Overcoats.

THE CURSE OF THE NATION IS CONSTIPATION

"Fruit-a-lives" Alone Cures This Disease

A famous scientist states that Constipation, or non-action of the bowels, causes more deaths than all other diseases combined. Constipation inflames the kidneys, ruins digestion, is the foundation of Rheumatism, poisons the blood, causes Headaches, Neuralgia, Nervousness and Insomnia.

Constipation is caused by a weak or sluggish liver. Bile, the only purgative of the body, is secreted by the liver, which in turn should pour out into the intestines sufficient bile to move the bowels. Unless the liver is active, there cannot be enough bile to move the bowels regularly, and Constipation is the result.

"Fruit-a-lives", the famous fruit medicine, will always cure Constipation because it acts directly on the liver—relieves the congestion—increases the quantity of bile—and strengthens the bowel muscles.

MANY BILLS INTRODUCED IN THE LEGISLATURE

Important Resolutions Respecting Water Carriage of Lumber, Reciprocity, Etc.

Fredericton, N. B., March 21.—Hon. Mr. Burchill, seconded by Mr. Jones of Kings, moved his resolution respecting federal law relating to water carriage of goods.

Mr. Burchill said the resolution was of great importance to the lumber industry in this province, and it was on that account that he brought the matter up in the house. He said that it had been the practice for masters of vessels to give what is known as a clean bill of lading to shippers of lumber, and unless lost in stress of weather, this clean bill of lading made the master responsible for the delivery of all lumber that the bill of lading called for.

The clean bill of lading therefore acted as a receipt to the shipper and a guarantee to deliver to the consignee and could also be taken back and would serve as security for an advance of money on shipment.

The act passed by the parliament of Canada relieved the ship of any liability for any deficiency in measurement, and solicitors in England claimed that the shippers could not now be compelled to deliver the full amount of the bill of lading. The master of the ship has his remedy in his privilege to place sworn scalers on the cargo.

Section 18 of the act passed by the parliament of Canada last year had been incorporated without the knowledge of shippers, and the first he and many other shippers heard of it was from Liverpool. Just how this important legislation had been put through without shippers being notified he could not understand.

He read extracts from letters from brokers in England to show that buyers there declared they would not purchase hereafter except on a written guarantee that they would receive the quantity stated in the bill of lading.

In submitting the resolution to the house, he stated that it met the approbation of the Premier.

Mr. Robinson said he concurred in what had been said that the objectionable section of the act would effect lumber shipments, not only in England, but also all over the world.

Hon. Mr. Hazen moved, seconded by Mr. Robinson, that a committee of seven be appointed by Mr. Speaker to take up the proposed amendments to the elections act and report to the House. He said the object of the motion was to continue the work started last year for the purpose of finding a law to do away with corrupt practices which it was to be regretted were only too evident in elections in this country now. Messrs. Hazen, Slipp, Dickson, Robinson, Murray, Sweeney and Cogg were appointed the committee to act in connection with the attorney-general's resolution regarding the New Brunswick elections act.

Hon. Mr. Morrissey presented the petition of the town of Newcastle in favor of their bill.

Mr. Wilson introduced a bill to incorporate the New Brunswick Forest, Fish and Game Protective Association.

Fredericton, March 23.—The House met at 3 o'clock.

Hon. Dr. Landry said that a bonus had been promised to W. W. Doherty for a flour mill to replace that destroyed by the recent fire at Campbellton.

Mr. Burchill introduced a bill to incorporate the Chatham Masonic Hall Company.

Mr. Bryne introduced a bill to authorize the trustees of school district No. 2, Bathurst, to issue \$2,500 debentures.

Hon. Mr. Morrissey introduced a bill respecting motor vehicles.

Mr. Robinson resumed the debate on the budget, and in closing he moved the following:

Resolved, That all words after the word That be struck out and the following words substituted in lieu thereof:

This House desires to take this early opportunity of expressing its opinion that the ratification of the reciprocity agreement, now before parliament, would greatly promote the prosperity of the people of this province; and

Further resolved, That it is desirable that there should be an increase in the British preference to fifty per cent. of the general tariff.

Fredericton, March 24.—Mr. Burchill read a resolution passed by the Northumberland county council as follows:—Resolved that the legislature be memorialized by this council to enact a law that will give this council the power to impose an annual license not to exceed \$500 for each automobile, such license fees to be devoted to road purposes and also to give this council power to make better registration than now exists for the protection of men and women from injury in consequence of the frightening of their horses by automobiles.

Mr. Legere, Westmoreland, thought that foreign cars coming into the province should be compelled to comply with the registration provisions of the Act, and should have the number placed on the same part of the machine as was required in this province.

Hon. Mr. Morrissey thought that the bill extended so as to cover these things.

Progress was reported.

DALHOUSIE

We notice that the Town Council of Dalhousie are craving legislation for the issue of new bonds to the amount of \$12,000. This sum is required for the proposed granting of a free site and improvements to Messrs Chappell Bros. in accordance with the mandate given the Council recently, when the election voted favorably in the plebiscite.

We are however of the opinion that the town should move very cautiously in the matter, and ask first of all, "As a business proposition, will it pay?"

If the answer to that question is satisfactory, then we ask still to delay, for the following reasons, 1st, the increased burden of taxation will fall on the shoulders of the property owners; not the working classes, and due regard should be given their interests, even going the length of having a vote of the property owners taken, who after all, are the only persons who should be qualified to vote in a case of this kind.

2nd, It does not seem a square deal that industries already established in the town should be assessed on higher figure in order that a rival in trade may have the benefit of a privilege, enabling them to under-sell on what should be open markets, in other words giving a preference to a new firm which has all to gain and nothing to lose.

3rd, On a business basis it is not good policy to overload the town with debt, WHEN NO PROVISION IS MADE FOR A SINKING FUND for the redemption of even the present bonded indebtedness.

4th, It is a very open question whether the town will benefit or not by any increased influx of labour. The cry of "Buy at Home" so far has been but a by-word, and the home-spending proclivities of the average man, are limited by the length of his purse and the breadth of his tastes. The average merchant thinks you should buy from him but allow him to buy his supplies in St. John, Montreal or Toronto, as he likes.

These are a few thoughts which appeared to us in passing, but doubtless there are many persons in Dalhousie who can speak on this subject with more power than the Graphic. Taking a broad view of things we do not see the necessity for the Town of Dalhousie going hat-in-hand to any large corporation pledging for their support, promising free sites, free water, free everything else, and free passes to Heaven, pardon, bodies corporate don't go there! No Sir.

Let Dalhousie wake up and do a little boosting for itself. Let the provinces know what are the resources and facilities of the town, get a hustle on and get that main line through the town instead of the junction, then there will be no necessity to go bowing and scraping to crave the doubtful benefit of any industry unable to stand on its own feet without the prop of municipal beneficence.

BOOSTERS

Hardly a day passes but we meet one, He may be only one of the common garden variety boosting a brand of tooth paste or he may be a professional boosting a big proposition and backed by organized and determined business men.

Their trails are everywhere, in print and out—boosting everything and every place. They and a wisely generous city council boosted Sydney, N. S., into the possession of a great dry dock industry. It looks as if they were about to do the same for St. John. They've boosted cities into existence in western Canada.

Now why don't we hear a few real genuine, enthusiastic boosters lifting Campbellton? Do any live here? What's the matter with this? It looks good to us doesn't it? Then let's get someone else.

Opportunities for manufacturing of all about us. Living conditions and educational advantages one will search long to duplicate are ours. Let's get some more to share them!

Who's game to join the boosters? Just say the word and we're on.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and an enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

SERIOUS CHARGES AGAINST SCHOOLS

London, Ont., March 21.—Charges of revolting immorality in clubs and in schools of London were made by a deputation from the W. C. T. U. to the Ministerial Association yesterday.

"In several city clubs," said Mrs. Thornley, "not only is liquor drunk but gambling goes on, and not only gambling but the social evil is practiced. Why, there are pictures there which are indescribably filthy, and books are exchanged which should never have been printed."

Regarding schools Mrs. Thornley said: "In London we are no worse than they are all over the province, but the conditions are terrible to consider. Improperly starts in the primaries and runs right through our schools." A representative committee was named to investigate the matter of the clubs.

N. B. ORANGEMEN HAVE GOOD YEAR

St. Stephen, March 22.—At the meeting here of the Grand Lodge of the Province of N. B. Deputy Grand Master George E. Day commended the Loyal True Blue Orphanage at Picton, Ont., to the members, telling that only the previous Thursday from St. John, four children whose father had cruelly deserted their mother, had been sent there.

The report of N. J. Morrison, grand secretary, after welcoming the members, declared the past year was one of the most prosperous in the history of the organization.

The new lodges organized during the year were:
Centreville No. 63, at Centreville, Carleton county.
Drummond, No. 81, at Burnt Church Northumberland.
Midgie No. 119, at Midgie, Westmorland.
Beersville, No. 138, at Beersville, Kent.
Fleming, No. 85, at Beechwood, Carleton.
King's Crn, No. 140, at Dipper Harbor.
No. 96, at Belyea's Cove, Queens.

Two dormant lodges were re-constituted—McArthur, No. 115 and Cape Rooks, No. 128. During the year four lodges were incorporated.
Returns have been received from 134 primary, 1 district, 15 county lodges, and 12 scarlet chapters, with 11 primary, 2 county and 5 scarlet chapters to hear from. These show that there were:

The grand secretary commended the Orange Sentinel to the members and commended the Campbellton brethren for their energetic efforts following the fire.

A very strong resolution was adopted condemning the church of Rome for its attitude re mixed marriages and its declaration re persons married by Protestant ministers, and calling upon the Legislature to enact a special law which will make it a criminal offence for any minister of any denomination, who, in the exercise of his duties, disturbs the peace of families or seek to annoy any British subject in the full exercise of his civil rights, or from doing that which the laws of Canada permit him to do, under a fine or imprisonment.

The following also passed: "Resolved that this Grand Lodge of New Brunswick put itself on record as being strongly opposed to said reciprocity as now before the parliament of Canada. In the opinion of this Grand Lodge such treaty would tend to weaken the tie that binds to the mother country.

COST OF BRITISH ELECTION.

The recent general elections in Great Britain and Ireland cost \$3,750,000. The cost to the candidates was \$6,481,510. In addition, there were enormous expenses footing up close to \$2,500,000. "Nowadays" numerous societies and leagues, such as the Free Trade Union, the Tariff Reform League and societies specially advocating this and that measure, send out battalions of speakers, engage halls and flood the country with leaflets and posters.

Yes, I wear a **BUCKLEY**, the hat with a real guarantee!

Every man who recognizes the importance of being well-dressed will surely welcome the announcement of the Buckley Hat guarantee. By reason of this guarantee, you may figure safely on the life of your hat as four months at least—provided you wear the "Buckley." No chance of additional hat outlay—the guarantee treats you to a new hat if the Buckley you buy to-day isn't perfectly good four months hence.

Even accident is provided for in this all-embracing Buckley guarantee. No matter how badly a Buckley hat is damaged—if nothing remains but the label and the guarantee slip—these alone will entitle you to a new hat, provided the date on the guarantee shows the hat to have been less than four months in use.

But it's not the guarantee feature alone that should induce you to select the Buckley. There's another vital feature in hat selection—style is just as important.

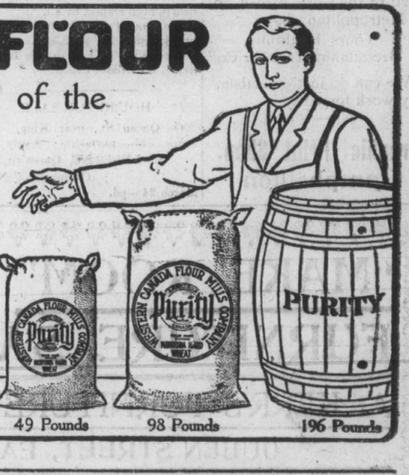

There again the Buckley claims your serious consideration. Although English in make, these hats are built on American lines—and more graceful, more becoming lines, you never yet saw in a hat.

In both material and workmanship, the Buckley excels all others. UNION MADE, and with highest grade felt, they have the wear in them to warrant the remarkable guarantee of their makers. Sold at all leading hat shops at \$2.50.

Other hats may give satisfaction—the Buckley simply must.

WILL FARMERS GAIN OR LOSE WHEN CANADA'S DOOR IS OPEN?

Is the United States Market Worth the Price that We Must Pay for it Under Reciprocity?

A Question for Farmers
From The Canadian Century.

When we allow vast quantities of food from Australasia and the twelve favoured foreign nations to come freely into Canada how are we going to prove to American customs officials that the farm products we are trying to send across the United States boundary were really produced in Canada?

Ask your neighbors this question. We may be sure that the farmers of the United States will insist upon customs regulations that will prevent Canada becoming the back door entrance to the United States for all the great food exporting countries of the world. The enforcement of these regulations will be very annoying. The necessity of proving that every consignment of food imported into the United States from Canada is actually Canadian will scare American buyers. They will naturally pay lower prices for Canadian farm products when they have to take the risk of disputes with customs officials as to whether they are genuine Canadian or come from countries overseas.

Prices are always fluctuating in the United States, and while a consignment of Canadian butter or eggs is being held up at the United States customs awaiting proof of genuineness the price may go down.

Australasian Food for Canada.
During the fiscal year ending March 31, 1901, there came to Canada from Australia and New Zealand 688,989 pounds of butter, 1,149,979 pounds of fresh mutton and lamb, 107,383 pounds of canned meats and small quantities of other meats. In view of the fact that such quantities are imported under the present tariff, what may be expected when the duties on butter and cheese are abolished and the duties on meats greatly reduced as a result of the Reciprocity Compact with the United States.

Farm products from Australia and New Zealand came in by way of both the Pacific and the Atlantic. New Zealand frozen lambs coming in by way of Vancouver have been sold as far east as Winnipeg. A large consignment of lamb carcasses from New Zealand suffr hatched St. John, N. B.

The New Zealand steamship "Aorangi" is now on its way to San Francisco with 5,000 carcasses of New Zealand mutton and large quantities of butter. They cannot pass into the United States without payment of the high customs duties. It is not probable that such cargoes will be diverted to Canadian ports when the Reciprocity Agreement goes into effect. There is nothing in the Reciprocity Compact binding the United States to admit farm products free or at reduced rates from Australia, New Zealand and the twelve foreign countries that have favoured nation treaties with Canada.

He Loses His Bet.
A New Brunswick farmer writes to The Canadian Century as follows: "There may be something in what you say about the danger of competition from great food exporting countries like Australia and Argentina, but I'm willing to bet that not one pound of food will come to Canada from Switzerland, which is one of the twelve countries you mention as entitled to the privileges of the Reciprocity Agreement. What do you say to that?"

You lose your bet. During the fiscal year ending March 31, 1901, 227,954 pounds of cheese were imported into Canada from Switzerland. The Canadian customs tariff on cheese was three cents per pound. Is it not reasonable to suppose that when Swiss cheese can come into Canada free the quantity imported will increase rather than diminish?

Prices in the United States.
Even if the Reciprocity Agreement did not let in Australia, New Zealand and twelve foreign nations besides the United States, even if the favored nation treaties could be got rid of so that Canada could open its markets to the United States alone, the majority of Canadian farmers would gain nothing by Reciprocity, while they would take very great risks.

Anyone who makes a careful study of the markets in the United States will note that the prices vary in different sections of the country. Boston, New York, Philadelphia, Buffalo, Detroit, Chicago, St. Paul, St. Louis, New Orleans and San Francisco all have different prices; and there is a still greater variation in prices in small cities, towns and villages throughout the country.

The Canadian farmer should compare the prices he obtains for his products in a small village near his farm, not with the prices in Boston, New York, Chicago or some other large city in the United States, but with the prices obtained by farmers in small villages in the United States equally distant from the great centres of population. He must take into consideration not only the cost of transportation to the big cities of the United States, but also the middlemen's profits.

A table of comparative prices in Montreal and Boston the week the Reciprocity Compact was made was compiled by The Montreal Herald, a Liberal newspaper, with the assistance of a number of prominent produce dealers and food experts. Cheese, eggs, live poultry, carrots, celery, lettuce, onions, squash, tomatoes, beans, and cranberries all commanded higher prices in Montreal than in Boston. The best creamery butter was 11 cents per pound higher in Boston than in Montreal, while storage creamery butter was one cent higher in Boston. Dressed poultry averaged about the same in the two cities. Hay and oats were considerably higher in Boston.

Since then butter prices have declined in most of the markets of the United States. A leading produce dealer of Montreal received the other day a telegram from Chicago offering him 300 tubs of September creamery butter, cold stored, at 18 cents, Chicago. At the time this telegram was received the same kind of butter was worth 24 cents to 25 cents in Montreal.

Mr. Gage, President of the Toronto Board of Trade, recently prepared a table of prices in Toronto and New York, comparing the Toronto market reports with the New York market reports as given in the New York Commercial Bulletin. The table follows:

Product	price	price
Best creamery butter		
in prints, wholesale	—26c	—26 1/2
Prime chickens	18—20	—15
Prime turkeys	20—22	—18
Ducks	18—20	15—16
Geese	15—16	—14
Bacon	16—16 1/2	—16 1/2
Hams	13 1/2—15	—14

50 VICTIMS OF CARELESSNESS AND GREED

Fire Destroys Many Lives in New York Factory, where Girls Worked For \$3 a Week--Inadequate Protection

New York, March 26—One hundred and fifty persons—ninety of them Jewish and Italian girls from the east side—were crushed to death on the pavements or smothered in smoke or shriveled crisp in a factory fire yesterday afternoon in the worst disaster New York has known since the steamship General Slocum was burned to the water's edge off North Brother Island in 1904.

One hundred and forty-one bodies have been removed from the ruins at midnight last night and seven of the fatally injured had died in hospitals. Two more were found today.

Mothers, fathers and other relatives, literally mad with grief, stormed the police lines at the morgue all night and today, shrieking, sobbing and in some cases fighting with the officers in their frenzy. Hysterical women fell writhing in the streets and had to be carried away in the already overburdened ambulances. Among the bodies are more than fifty burned beyond all semblance of human form and they will perhaps have to share a common grave as unknown dead.

Seven hundred hands, 500 of them women, were employed by the Shirt Waist Company. They sat in rows at their whirring machines, the tables before them piled with shiny cloths, the floors littered with lint, the air itself full of flying, inflammable dust. The first rush of flame was almost an explosion. Operators died in their chairs, their lungs seared by inhaling flame. Others were crowded into the elevators shafts after the cars had made their last trip. Still others were pushed off the inadequate fire escape.

A HORRIBLE STREAM
In such a horrible stream did the bodies overflow from the windows that the fire nets, stretched by the first companies to arrive, were soon gorged beyond its capacity. Twelve bodies weighed one net to the bursting point, but the bodies kept on raining to the pavement, through meshes that could no longer support them.

When the first breath of flame curled over the edge of a pile of shirting on the eighth floor, five minutes before quitting time, hundreds were in line before the cashier's window. In the office building across Washington Place scores of men detained beyond office hours, worked at their desks. One of them saw a girl rush to a window and throw up the sash. Behind her danced a seething curtain of pallid flame. She climbed to the sill, stood in black outline against the light, hesitating, then, with a last touch of futile thrift, slipped her chateleine bag over her wrist and jumped. Her body went whirling downwards through the woven wire glass of a canopy to the flagging below. Her sisters, who followed, flamed through the air like rockets, their path could be followed but hardly heard. It was 85 feet from the cornice to the ground, about 95 feet from the cornice of the roof, and the upward rush of the draught and the crackle of the flames drowned their cries.

MORGUE TOO SMALL FOR DEAD
The regular morgue was far too small to accommodate the dead and the so-called charities pier bore the bulk of the charred burden. The bodies were ranged in long lines down both sides of the pier, each in a brown stained wooden coffin such as the city provides for its pauper dead.

Nearly all, if not all, the victims were employed by the Triangle Waist Company on the eighth, ninth and tenth floors of a ten-story loft building at 23 Washington Place on the western fringe of the downtown wholesale clothing, fur and millinery district, the partners of the firm, Isaac Harris and Max Blank escaped unscathed from the office on the tenth floor, carrying with them over an adjoining roof Blank's two young daughters and a governess.

How the fire started will perhaps never be known. A corner on the eighth floor about the point of its origin and three upper floors only were swept. On the ninth floor fifty bodies were found; sixty-three or more were crushed to death by jumping, and more than thirty clogged the elevator shafts. The loss to property will not exceed \$60,000.

DUE TO NEGLECT
Fire Chief Croker said: "This calamity is just what I have been predicting. There were no outside fire escapes on this building. I have been advocating an agitation that fire escapes be put on buildings just such as this. This large loss of life is due to this neglect."

Scenes at identification were heartrending. A cutter identified his dead sweetheart by their engagement ring and her purse. It contained her week's wages, \$3.00. Two sister's bodies horribly mangled, sat propped up in their coffins while a sobbing brother left them to search for his aged mother, who, he thought, had also perished. The fire had left him without a relative.

NOTHING MORE HORRIBLE
There will be a thorough probing and a fixing of the blame, if blame there be, and it can be fixed. District Attorney Whitman said: "If what Chief Croker tells me is correct, then somebody is criminally liable, and whoever it is whether it be one or a dozen, shall be prosecuted. I never saw anything more horrible in my life."

B.; George Paget Owen Fenwick, N. B.; and Randolph Chester Burns, Milton, N. B. The graduating class numbered twenty-four, and is the largest in the history of the Law School. MOUNT ALLISON.

"Seniors" At Home at Mt Allison on the 3rd of March. The whole of the preceding week was spent in preparations, consequently it was a "howling success." Besides the halls, Y. M. C. A. parlor, Eucharistic hall, Reading room, etc., all of which were tastefully decorated, there were twenty five other rooms attractively fitted up. The students were assisted in their programme by an orchestra chosen from the citizens band. Refreshment were served during the least topic. The Seniors proved themselves excellent hosts and their efforts were greatly appreciated by a large number of undergraduates, graduates and friends. The officers of the class are Mr. W. A. Pickup, president; Miss Daisy L. Gass, vice-president; Mr. E. Bains, secretary.

Bishop Richardson of Fredericton, who preached in the Church of England Sunday the 5th, lectured to the students of the University and Ladies' College Monday night. His lecture was very clear and practical, and he deserved the hearty vote of thanks which was presented him at the close of the meeting.
