ONE OF THE MESMERIZERS.

A few years ago the following story was overheard in the cars when between Albany and Buffalo. One of the conversants was a mesmerizer—a regular professor. He was dilating upon its rapid development—its astonishing cure for diseases—the extraordinary discoveries developed through its agency. Finally, he got upon his superiority as a professor—a congenial theme—and here he was at home. After narrating a variety of experiments—some of them astounding, of course—he spoke of the following with a gusto that was irresistible. Said he—
“Last week I was going through one of the streets of Rochester, and saw a person to whom I was anxious to speak. He walked too fast for me to overtake him without running, so I just straightened out my arms, concentrated my will, made a pass at him—thus—and he stopped quicker than lightning.”
“Wh-wh-wh, mister, y-y-you don't call that m-m-much of a trick, do you?”
“Yes, sir, I rather flatter myself, sir, that it was a pretty strong demonstration.”
“W-w-well, it don't b-b-begun w-with what I once did.”
“Then you are familiar with the science, sir, I presume?”
“S-s-some.”
“Might I inquire what was the case you spoke of?”
“Oh, c-c-certainly. W-hy, you see, I happened to be up in B-b-batavia once in winter. G-g-going down to the cars, I s-s-saw a m-a-m-a-man shovelling off snow. Pretty soon his f-f-foot slipped, and d-d-d-down he came. W-h-when he was about half-d-down I made a p-pass at him, and it s-s-stopped him quicker than powder. I c-c-came off without thinking a-anything more a-a-about it. If you are g-going to Batavia, I wish y-y-you would just let him down, for I p-p-p-re-sume he is hanging there yet!”
The professor handed over his hat.

SOMETHING THAT NEVER DIES.

Architects die, but their buildings live; the very works that they are the instruments of raising, seem to have an immeasurable existence when compared with themselves. Walk into Westminster Abbey; attentively survey the beauty of its architecture; notice that lofty roof, and those noble columns, and that fretted scroll, and gaze upon the tablets that surround these walls—placed there to the memory of men of literature and of genius, of a former age—and then reflect that those columns and that roof stood there ages before the date of the oldest tablet, and bid fair to stand for centuries yet to come, when generation after generation, whose deeds shall form subject matter for the future pages of our national history, shall have passed away.

Look again at the case of sculptures. Why, Dr. Layard is digging up sculptures in Nineveh now, on which it is not at all improbable that the prophet Jonah gazed, when he went to deliver his message there. Some sculptures exist in Europe, the admiration of generation after generation for two thousand years.

But, least we should think too much of ourselves, let us contrast the works of God in material creation, with the works of man. The cedar of Lebanon still flourishes, though the temple of Solomon which took some of its most beautiful timbers from the grove, has since passed away, and the Jews have been wanderers these eighteen hundred years.

Mount Zion still stands though the mosque of the Mahometan desecrates its summit. The pyramids of Egypt—some of the most ancient, and perhaps some of the most wonderful monuments of human skill—crumble and decay, through time and the elements; but the Nile flows at their base, in the same calm and untroubled flow as it did hundreds of years ago when the children of Israel were in captivity in Egypt.

ed a young man's conduct for life. How often has the quotation of a promise of scripture brightened the countenance and cheered the heart of the afflicted; while the word uttered by envy, and repeated in malice, has proved the seed of all uncharitableness.

In the one case, the power of language is like the breaking forth of the beautiful morning, dispersing the clouds of depression, and making the very tears of affliction glisten like dew-drops in the sunlight of creation; but in the other it is like the power of the electric fluid, scathing and blasting, and withering the pride of the forest.

Everything seems perishable in this world but thought—thought clothed in human language. “Heaven and earth shall pass away, but my word shall not pass away.”

MELANCHOLY SHIPWRECK.—The Cape Breton News states, that the Norwegian ship Deodata, Jorgenson, master, from Richibucto, bound to Great Britain, with a cargo of timber, struck on St. Paul's Island, (a small island to the northward of Cape Breton,) during a snow squall on the night of the 25th ult., and most melancholy to relate, the Captain and 10 men were washed overboard and perished; the Mate and one boy being preserved in a most miraculous manner from a similar fate, by a sea which washed 'tween in safety to the shore. In half an hour after she struck, the mate states, not a vestige of the vessel remained, the sea having completely broken her up.

CURIOUS CASE OF HYDROPHOBIA.

A Paris correspondent of the New York Express, relates the following case of hydrophobia, which is remarkable from the fact of the victim's retaining his consciousness to the last, and having made no attempt to communicate his awful malady to those around him. He was himself a physician, and when he was bitten in the thumb, by a puppy he was bringing up, immediately applied calstic to the wound. The puppy soon after died, and he burnt a scar with a hot iron, and no effects were for some time produced. He, however, grew melancholy, and always maintained that hydrophobia would be the ultimate consequence. On the night of the 9th of April, a month after he was bitten his predictions were verified, as he was seized with violent agitation and fever, accompanied with convulsive symptoms. Forty hours after the attack, he said to his physicians: “My limbs are one chaos of agony, but my mind remains in tact. No one need be afraid, for I shall bite no one, for I have never been of a cruel disposition, and I have no inclination to do any damage.” Every effort he made to drink produced convulsions, and he finally expired in great suffering, but without an instant's flickering of his intelligence. The more violent symptoms of the scourge had doubtless been allayed, and the milder form induced by the prompt application of caustic and the hot iron.

A COCKROACH IN TROUBLE.

Although cockroaches abound inconveniently at the Mauritius, it was not without pity I saw them consigned as they frequently were, to a living grave, by a wicked-looking insect much resembling a Spanish fly. It was impossible to witness his proceedings combined with his glittering blue and green dress, without imagining the elish demon of a pantomime leading an innocent victim to perpetual torment in some hunted cavern. Let the cockroach be moving never so brisk across the wall he has no sooner caught sight of the fatal insect—not a quarter of his size—than all energy leaves him and he stands stupidly resigned. The fly then walks up to him, looks him hard in the face, and presently, putting forth some apparatus which stands him in the place of a finger and thumb gently takes the cockroach by the nose, and leads him daintily along for a foot or two. Leaving him there he commences a thorough examination of the neighbourhood, beating the ground up and down like a well trained setter, and not finding what he wants, returns to the cockroach and leads him on a little further, when the same process is gone through, sometimes for hours until the whole wall has been examined. Chinks there are in plenty, but they do not suit him; he has taken the measure of the victim's bulk and means to lodge him commodiously. Presently a suitable hole is found, and the fly moving backward, gently pulls the cockroach after him into his last home. What horrors! to be thus treated! This recess cannot be more than surmised. The object undoubtedly is to engage him as a wet nurse. No doubt the poor cockroach is bored in some part or vital, and eggs laid in him—a purpose indeed, for which his succulent and motherly frame is peculiarly adapted. And, not improbably, during the vicarious incubation he is supplied with food, until the eggs with which he is pregnant being hatched, commence, in turn, for his services, to gnaw his bowels, their receptacle. It is in vain that during the scene above described, we urge the cockroach to seek safety in flight. The poke of a stick is disregarded; he seems dead to all hints; nay moves him to another part of the wall he waits there with the same

stolid indifference the return of his tormentor. Probably a sly thrust is given him in the first meeting of the two or some leprous distilment dropped in his ear, for he has entirely the air of being hounded.—[Frazar's Magazine.]

DESEDITION AND FRIGHTFUL SUICIDE.—In the Evening Mail of yesterday we gave a brief account of a “fatal accident” on the Western Railroad, near the East Brookfield station in which a young woman was literally torn in pieces by the passing train. The Worcester Transcript of this morning gives the following particulars:

“This sad event was a case of deliberate suicide. The name of the victim was Larra Lull, an American girl, aged 23 years. Her home was in West Brookfield, but she had been employed in this city for three or four years as a milliner, with the exception of a brief period during which she had worked in the bonnet manufactory of Mr. James Snow, at West Brookfield. She was a young woman of pleasing address, and, as far as we can learn, she sustained an irreproachable character.

In regard to her melancholy fate, there are rumors based upon her own recent admissions and upon known facts which leave no room to doubt that she was the victim of a cruel and heartless desolation. But of that we are not at liberty to say more this morning. An investigation which we understand was in contemplation yesterday may shed in possession of other facts which we can disclose in regard to the sad history of this case. Labouring as is supposed under a sensitiveness of disappointment and wrong inflicted upon her, she had visited the city on the morning of the fatal day, but only to find her last hope crushed.

Returning to the East Brookfield station she left the cars, and enquiring at what time the next train would pass up towards Springfield, (which would be in a short time,) she started on foot towards West Brookfield and disappeared beyond an adjacent curve. Very soon the train came up as before stated, and when the whistle was sounded she snatched a ring from her finger, gave them to a little girl who was walking by her side, telling her to haste up a bank out of the way of the cars. This done, she immediately laid down upon the track and almost in an instant was mangled and shapeless form. Thus with a frayed brain, and tortured beyond the bounds of consciousness, the unfortunate girl had sought refuge in this frightful suicide.—[Boston Mail.]

GOLD IN NOVA SCOTIA.

—Extract of a letter from Annapolis.—There is just now quite an excitement amongst our good folks, some specimens of gold having been found in the vicinity of the old Girl Mill, on the General's Bridge Stream. A California miner happened here on his way home to the Eastern part of the Province made this discovery; he says there is no doubt but there is Gold, but he cannot tell in what quantity without much washing and digging. He, however, says if the owners of the land will give him a license he will venture six hundred dollars in the speculation. Had he time he would have made a further search; many of our well-informed people are very sanguine as to the result.

FORGIVENESS.

—It was rumored on Saturday that forfeited in this city to the amount of from \$17,000 to \$20,000 have been discovered. The parties are well known in this community, but we do not learn that any legal measures have been taken in the matter.—[The paper is in the hands of several of the banks.—Boston Post.]

CAPE OF GOOD HOPE.

Sir Harry Smith has arrived in England. A gratifying reception was given him at Cape Town previous to his embarkation, showing that the colonists appreciate his services better than the home government. Sir Harry considers that the coup de grace has been given to the Caffre war by the late operations, but it would seem by the latest advice from the seat of war, that the enemy are as active as ever. Col. Eyre had had a severe action with a body of Caffres, in which he lost one chaplain and several men. The 12th Lancers also had a smart brush with the enemy. Major Gen. Cathcart, the new governor, had arrived at British Columbia, and commenced operations where Sir Harry left off. Nothing can be known of his success in the field for another month or two.

If it is consistent with a due observance of the “Maine Law” to attend to some of the minor laws, the respectfully suggest that the boys or men who destroy or mutilate fresh posted Bills, should be dealt with as they deserve, and as the laws direct. Things are coming to a fine pass when a decent Handbill cannot stand for a day, unscathed, and the nuisance should be abated.

A mind occupied, becomes fortified against the ills of life and is braced for any emergency.

European Intelligence.

The steamer Baltic arrived at New York on Sunday last, with Liverpool dates to the 24 inst.

The crops throughout England are luxuriant, between Liverpool and London the country is clothed with the richest verdure, and similar accounts reach us from other parts of the island and from Ireland. The wheat crop is especially thriving. Other grains look well, and so do potatoes.

The floor of a building used temporarily as the Liverpool corn market fell on Tuesday, June 1; about 100 persons were in the room at the time, all of whom were precipitated to the cellar. Two men were killed and many severely injured.

At a meeting of the shareholders in the British North American Bank, held in London on Tuesday, a dividend of 6 per cent per annum was declared.

Sir J. Gaspard Le Marchant, present Governor of Newfoundland, is appointed to succeed the late Sir John Harvey as Governor of Nova Scotia.

The Lobos Islands continue to be a subject of interest in commercial circles. The English admiral on the Pacific station is said to have expressed an opinion that these islands are as much an integral part of Peru as the Scilly Islands are of England. This opinion is strongly controverted by the commercial press. The decision of the right of sovereignty in this case, is regarded as the more important as it is believed there are other guano islands in the Pacific to which the decision will form a precedent. Meanwhile vessels are being despatched from England to load there.

Submarine communication between Holyhead and Dublin is expected to be made in the course of this week. There are three companies now at work to communicate telegraphic communication between England and Ireland.

The Pope has confirmed the translation of Dr. Cullen to the Roman Catholic bishopric of Dublin.

INDIA.

A telegraphic despatch by last steamer announced the fall of Rangoon and Martaban, and the capture by the British of 150 pieces of cannon. Martaban was stormed on the 5th of April with comparative ease, the troops having landed under fire from the ships, and advanced rapidly in concert with the artillery on the works of the enemy. A conflict of four or five hours duration ensued, and the place was taken. The Burmese garrison was about 3000 strong. After driving the enemy from Martaban the troops recommenced and proceeded to join the forces on the Rangoon river.

On Easter Sunday, April 11th, the entire squadron proceeded up the river, not intending to commence operations on that day, but coming within range of the batteries they opened a fire, and action became unavoidable. The steamers threw their broadsides on the face of the Burmese works on both sides of the river, and after a heavy cannonade and shelling, silenced them. The outer batteries were then stormed and occupied by sailors and marines from the ships. The Burmese, this day, Sunday, also suffered a heavy loss by the explosion of the powder magazine, which was struck by a shell.

Monday, the 12th April, was occupied by landing the main body of the troops, and in capturing a stockade a short distance from shore. The Burmese fought gallantly, and the loss on both sides was considerable. On Tuesday, the 13th, the heavy guns were landed. On Wednesday morning, the 14th, the entire force broke ground, and pressed on towards the enemy's stronghold, the great Pagoda stockade. The fighting here was pretty severe for some hours. At noon a general assault was made by all arms on the angle of the stockade, which was carried, and the enemy gave way at all points. An open gap here permitted the troops to rush in and occupy the place, and all the fighting was over by 2 P. M. During the engagement the heat was so excessive that several officers and men died from that cause. The British had not more than 150 men put hors de combat, and captured about a like number of guns. The enemy's loss in killed and wounded was great. It is said that two lacs of rupees were found in the city. The troops are now occupying Rangoon.

Cholera has broken out among the British since the capture of the city. It is said that the governor general has claimed from the Burmese monarch the sum of £250,000 for the expenses of the war up to the 31st March with a notification that he will be charged £10,000 per day until he accepts the terms dictated by the British.

From the north west frontiers of India advices are less satisfactory to the British. The revolted hill tribes keep up a harassing war force on the outposts. An insurrection against the government of Dost Mahomed has broken out. In Cabool his troops have been worsted. The state of the Nizam's territory is as bad as can be. Government credit is at an end; there is no revenue, and the country is covered with predatory bands. This state of things is favorable for the absorption of the territory by the English.

FRANCE.—The commission of the budget have exhibited an independence that was scarcely looked for, by rejecting the president's demand of 23,000,000 francs to defray the expense of the 31,000 men that have been added to the army. This refusal will reduce the effective force for 1853 to 309,000 men, of which it consisted previously. The commission also declined to grant the credits demanded for a new ministry of police, and further, they express regret respecting the confiscation of the Orleans property.

THREE DAYS LATER FROM ENGLAND

The Royal Mail steamship Europa arrived at New York on Wednesday last, with 51 passengers, dates to the 5th of June.

The commercial news is satisfactory. Money continued abundant. The Austrian loan has been taken at 53 premium, principally by Paris orders.

The steamship for Australia, on leaving Plymouth, ran against the pier and was so much damaged that she had to put back.

From France there is nothing of importance except that some eminent men are dying from the country. Victor Hugo is the last.

Capt. Chas. Tyndal, of the navy, has arrived in Galway for the purpose of viewing and reporting on the capabilities of that port as a Transatlantic Steamship station. Each of the three Government Commissioners will separately visit the harbors of Limerick and Galway, and send in their respective reports.

The Stratheden, arrived from Sydney, brings 9136 ounces of gold, valued at £35,000.

The Hobart town Gazette, of Jan. 24, just comes to hand offering £2000 reward for the apprehension of Meagher.

Both Houses of Parliament re-assembled on Thursday night, but the proceedings on that and the succeeding nights were wholly devoid of public interest.

The first correspondence relative to the wrecks even in the ice off Newfoundland in May 1851, and supposed to have been Sir John Franklin's ships, is published by order of the Admiralty. The only new fact disclosed is, that two water-lugged ships are reported to have been seen near the spot and about the same time by the Dutch Brig Kneips which arrived at New York May 4, 1851. The accuracy of the Kneips report has still to be investigated.

FRANCE.—The political news is uninteresting. Public opinion appears to be in favor of a reduction of the army and the non-employment of a minister of police.

A rumour is revived for the third or fourth time that the Orleans confiscation are about to be compromised.

The London Times is authorized and requested on behalf of Gen. Changarnier to make a formal protest against the assertion that Changarnier made a proposal to the provisional Government of 1848 for the military invasion of England.

M. Hubner, the Austrian Minister in Paris, it is believed, is shortly recalled at the instance of the Emperor of Russia, who considers him too zealous an agent of Prince Schwartzberg's policy to be trusted near Louis Napoleon.

SWITZERLAND.—The Swiss Journal Bond denies that proposals have been signed by the great powers to deliver up Neuchâtel to Prussia. On the other hand the independence of the Helvetia is asserted.

RAILWAYS IN THE PROVINCES.—Considerable excitement has been caused in London by the publication of a letter from Mr. Francis Hincks, agent of the Canadian government, to Sir John Pakington, Secretary for the Colonies, reproaching him for not having the Canadians know positively that they could not hope for aid from the home government in the construction of the North American Railway. Mr. Hincks says that Canada did not come to England as a suitor for aid, but was invited there to co-operate in the construction of a great national work.

The London Times thinks that Sir John Pakington the Colonial Secretary has committed a most serious blunder in refusing to complete the arrangements entered into by his predecessor, and the North American Colonies in their projected lines of railroad. It fears that the Colonies will now seek and receive aid from the United States to the detriment of British interests in the Colonies. "A more biting reproof and a more indignant remonstrance (adds the Times) has scarcely been addressed to a Minister of the Crown since George Grenville himself kindled that portentous quarrel which convulsed the North American colonies; and we must add that we see with deep regret such language elicited from a man who is, like Mr. Hincks, warmly attached to the British connection."

TWO WEEKS

LATER FROM CALIFORNIA.

The steamship Illinois arrived at New York on Saturday morning, from Aspinwall, in 7 days and 5 hours, bringing California papers of the 16th ult. She brought the mails, 525 passengers, and \$1,608,161 in gold dust, of which \$550,000 is in the hands of passengers.

Stocks of goods were not very heavy at San Francisco, and the news being good from the mines, a brisk demand was anticipated. One of the papers, however, dreads excessive imports from ships on the way, and heavy losses. The crops promised abundantly.

In consequence of serious trouble at the mines between Chinese and Americans, and the resolve of the miners to remove the former, the principal Chinamen had sent home circulars advising no more of their countrymen to emigrate. There are now 12,000 Chinese in California. It is suggested that the Chinese at home may not feel any increase of friendship toward the Americans in view of this exclusion from the mines.

Sixteen state prisoners escaped from the jail at Sacramento on the 15th, and on the 16th the prisoners on board the prison brig at Angel Island, San Francisco, rose upon their four guards, and Williamson, a prisoner, was killed in the melee, but they were all secured.

Another Indian expedition had been planned in El Dorado, there being further Indian troubles in the north.

From the Sandwich Islands, April 24, we learn that the parliament was opened at

Honolulu on 13th, by a speech from the king in the native language. His relations with foreign nations are amicable, except France. A new constitution was under discussion by both houses. There was a severe gale at the island on the 16th, with damage to houses and fences. There was an earthquake in Hawaii on the 15th, and a new eruption broke out.

THE STANDARD.

WEDNESDAY, JUNE 23, 1852.

THE RAILROAD.—We are happy to announce, that the work at Katie's Cove will be resumed at once, and that there is a prospect of steady employment on the Railroad for the laboring population of this County. The gentlemen who have contracted to complete the line to Woodstock, are determined to push forward the works as rapidly as circumstances will permit. We beg leave to direct attention to their notice in our advertising columns for Henlock Timber.

EXCURSION TO ST. JOHN.—The new steamship "Passenger" will make a pleasure trip to St. John this day, leaving St. Andrews at 1 o'clock, and returning from St. John tomorrow (Thursday) at noon. The fare is placed so low (\$1) that all desirous of visiting St. John can do so at a trifling expense.

EUROPEAN AND NORTH AMERICAN RAILWAY.—We learn from the "Courier" of Saturday, that there is a probability of the European and North American Railway being commenced next fall. A meeting of the Directors of the Railway was held on the 19th inst., at which a communication from the Hon. Mr. Chandler was submitted, enclosing a copy of the proposals by Wm. Jackson, Esq., on behalf of himself and associates, for building the European & N. A. Railway through New Brunswick to Maine. A resolution was passed to the effect, that the Directors would co-operate with the Provincial Government in carrying out the undertaking. The Courier also states, "upon authority," that the Government have taken the responsibility of accepting the Railway proposals, without calling an extra Session of the Legislature. This may be "all right," and we heartily trust the present negotiations will be carried out, and the work go on. It must be admitted, however, by every candid person, that railroads are easily built on paper, and at a cheap rate; but the friends of the European line will yet learn, that even to make a commencement will require more labor and a greater expenditure of money than they had any idea of. Surveys, re-surveys, and final location, are things they have yet to go through.

A boat was picked up in the narrows at Chatham, on Friday last, bottom up and at anchor. Plans are entertained for the safety of Mr. R. R. Stone, who left here in the boat on Monday week last, for his residence at Muscaroon, as he has not since been heard from.

THE WEATHER, which has been unusually dry for the season, has undergone a desirable change; on Monday night and Tuesday occasional showers of rain fell, which will be of infinite service to the grain crops generally, as they were suffering from the long drought.

The following proceedings of the Local Committee of the New-Brunswick Society, have been handed us for insertion:

NEW-BRUNSWICK SOCIETY.

At a Meeting of the Local Committee of the County of Charlotte, appointed by the "New-Brunswick Society," for the promotion of its design of having a general Exhibition of the Industry of the Province at Fredericton in October next, held at the Office of Alexander T. Paul, at St. Andrews, 16th June, 1852:

The Hon. H. Hatch was called to the Chair, and Alexander T. Paul was appointed Secretary to the Meeting, and after some discussion the following resolutions were unanimously passed:

Resolved, that the proposal of the New-Brunswick Society to hold a general Exhibition of the Industry of the Province at Fredericton in the month of October next, meets with the cordial approbation of this Meeting, and that this committee will use their best endeavors to effectually promote the objects of the Society in relation thereto.

Resolved, that the following gentlemen be and hereby are requested to act as members of this committee, viz:—G. S. Grimmer, W. H. Maxwell, St. Stephen, James, Stevenson, St. David, A. J. Weir, K. G. Robinson, St. George, G. M. Kay, St. Patrick, John McLeod, Jr., St. James, John Farmer, Campo Bello, and Ingersoll, Daniel McLaughlin, Grand Maran, John Alexander, J. A. Henry, West Isles, and Simon McCarroll, Penfield.

Resolved, that the Hon. H. Hatch be appointed Chairman of the Committee, and Alexander T. Paul, Secretary and Treasurer.

Resolved, that five members of the committee shall constitute a quorum for the transaction of business.

Resolved, that it is expedient to appoint a Sub-Committee of seven members for the promotion of the business of the Local Committee, in carrying out the objects of the "New-Brunswick Society," and that said Sub-Committee shall report their doings at the next meeting, and that the following gentlemen compose said Sub-Committee, viz:—Hon. Col. Hatch, Hon. J. Brown, A. J. Weir, Mr. J. G. Stevenson, Henry Frye, John Farmer, and Joel Ingersoll.

Resolved, that the members of the general Committee for the County, are hereby requested to solicit subscriptions in money in their various localities, in aid of the funds required to carry out the approaching Exhibition successfully; and also to make every effort to have such contributions sent from this County as may tend to place the County in a proper position at the Exhibition; and to report their doings at a general Meeting of the Committee to be held at the office of A. T. Paul, in Saint Andrews, on Saturday 31st July next, at 11 A. M.

Resolved, that the Editors of the respective Newspapers published in St. Andrews, be requested to give publicity in the proceedings of this Meeting through their columns.

H. HATCH, Chairman.
ALEX. T. PAUL, Secy.
St. Andrews, June 23, 1852.

MR. CHASE.—The Washington Telegraph says: "Exaggerated reports have been circulated with reference to the condition of Mr. Chase. During the past two or three days he has appeared more robust than at any previous time; but no decided indications are to-day evinced. A friend who has seen him today informs us that he regards his hour of departure as near, and positively proposes when called."

Charles Baucher, of Barriere, District of Montreal, Canada, died lately, at the advanced age of 106. He was married to three wives, by whom he had 69 children! He leaves to deplore his loss 43 children, 66 grand-children, 13 great-grand-children, 28 nephews, 70 grand-nephews, and 18 great-grand-nephews.

A PHENOMENON IN HEMLOCK.—On Tuesday morning about 8 o'clock, while the workmen were engaged in pulling down the walls of the old Eagle Street Theatre, a portion of the wall came down, falling into a pool of water hard by, to the height of from 200 to 300 feet. So great was the force that a distance of 60 feet from the pool, Mr. Ladd, who was superintending the removal of the dirt, was thrown a distance of 15 feet, and lodged in a pile of bricks. The wall crossed Eagle street, throwing down 12 feet of fence surrounding Mr. Arthur's garden, besides doing considerable other damage. Fortunately the torrent somewhat checked by a large pile of bricks on Eagle street, but for which more serious consequences would have ensued. Mr. Ladd, though not seriously injured, is considerably bruised. (Chicago Commercial.)

Fire.—On Sunday afternoon, between 5 and 6 o'clock, a fire broke out in a barn owned by Thomas M. Callery, at the upper end of King Street, which, for some time, threatened destruction to many of the buildings in the neighborhood, but as there was very little wind at the time, it was at length subdued with less damage than at first expected. The building in which the fire originated was destroyed, together with the frame of a new barn and very serious damage to two dwelling houses on King street, one of which is owned by Mr. M. Callery, and the other by J. Donagan.

The several City Magistrates, together with one belonging to the Ordnance Department in charge of the Military, were in view of the fire, and every branch of the Fire Department showed an efficiency which does credit to the City. (Head Quarters.)

TORONTO, 17th May.—A gentleman who passed through Kingston on Monday last, the anniversary of Her Majesty's birth day, informs us that upwards of 750 persons from the opposite side of the water citizens of the United States, had come over to participate in the joyous celebration with Her Majesty's subjects in Kingston. They said Queen Victoria was as popular on their side as on ours. There is a remarkable difference between the present feeling, and that which existed at the time when Vanhousht flourished.

We understand there is a great revival in Kingston since the opening of the Rome and Cape Vincent Railroad and we sincerely hope that the present liveliness may be the commencement of a career of prosperity in the sister city and neighbourhood, surpassing the expectations of the most sanguine among them.—Colonist.

FIRST ARRIVAL OF RAILROAD IRON, TORONTO.—We understand that six hundred tons of iron for the use of the Northern Railroad, left New York recently, of which quantity only hundred and 20 tons arrived and were delivered at the Queen's Wharf here on Thursday last. The remainder is expected to follow very shortly. Thus we have every prospect of a commencement of laying the rails of this road within the period specified some time ago and a consequent hope that the cars will be speedily running out of the city of Toronto.—Id.

THE REVEREND ROBERT, IRVINE.—This gentleman, who has for several years officiated at the Presbyterian Church in Great George's Street, and has now removed from the City, received on Saturday last at presentation and address from the Bible Class under

his supervision on his retirement from their connection; to which the Reverend gentleman made a most suitable and feeling reply. He left Saint John, on Monday last in the steamer Creole, for Toronto, in Canada, whither he proposes taking up his future residence and pastorate of a congregation in that community.

SERIOUS ACCIDENT.—As Messrs. James Hegan of the firm of J. & J. Hegan, and Albert Venning (Beard and Venning) were taking exercise on horseback yesterday morning about 7 o'clock, near the residence of John Howe, Esquire, their horses were instantly stopped whilst trotting at a rapid pace, by a cow suddenly crossing the road, when the riders were thrown off and seriously injured. Mr. Hegan is considered out of danger, but we regret to say, that Mr. Venning, owing to the violence of the fall is yet in a critical state, a concussion of the brain being feared by his medical attendant.—Id.

ST. ANDREWS AND QUEBEC RAILWAY.

CONTRACTOR'S OFFICE.

THOS. JONES, Sheriff of Charlotte.

Sheriff's Office, St. Andrews, 26th May, 1852.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT, FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

DO NOT NEGLECT IT. Can be and as been cured in thousands of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before been discovered that will certainly

CURE CONSUMPTION.

The most strongly marked and developed cases of Pulmonary Consumption where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy.

It is a compound of medicines which are peculiarly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough, and assists nature to expel from the system all diseased matter by excretion, producing a most delightful change in the breathing and chest, and, this, after the prescriptions of the very best medical men and the inventions of kind sorrowing friends and Nurses, has failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived, in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for ulcerated lungs. It contains no deleterious drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, pains in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.

Caution.—This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT.

For the cure of Founder, Split Hoofs, Hoof bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on horses.

CARLTON'S RING BONE CURE.

For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Bots, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretive glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. Remember

and ask for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES.

For the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strengthen weak limbs, and is also used for sprains, bruises, saddle galls, swollen legs, sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, liverymen, stage proprietors and others, with the most marked and decided success.

CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both adults and children. It cannot harm the most delicate infant or strongest adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within the reach of all, and all parents who are without it are wantonly exposing the lives of their children to those tell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the wrapper of each bottle.

Comstock's Nerve and Bone Liniment, is warranted to cure Rheumatism, Gout, Contracted Cords, and Muscles, or stiff joints, strengthen Weak Limbs, and embrother those who are crippled to walk again. Comstock & Brother, Proprietors, New York, and none genuine without their name on the wrapper.

TOOTHACHE.

Dr. Kline's Drops, for the cure of the Toothache. It is with confidence that we can recommend it as an infallible cure in all cases, without any injury to the teeth or gums. Price 25 cts.

CARLTON'S LINIMENT FOR THE THROAT, &c. It is now used in the principal hospitals, and in the private practice in our country by an immense number of individuals and families, first and foremost certainly for the cure of the THROAT, and also extensively and effectually as to battle credulity unless where its effects are witnessed. Extraordinary in the following complaints:—

For Whooping Cough, Croup, Sore Throat, Acute or Chronic, giving immediate ease. Sore Throat, by Caners, Ulcers, and over the chest. All Croup, Spasms, and Burns, Curing in a few hours. Sore and Ulcers. Whether fresh or long standing, and fever sores.

Its operation upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception.

CAUTION.—All of the above named articles, sold only by Comstock & Brother, No. 9, John Street, New York, and no other.

Sold also in St. Andrews, by Odell & Turner, D. Clarke, S. L. Tilley, St. John; L. Ryder, S. Stephen; J. W. Brayley, Fredericton; B. Ferguson, Woodstock; C. Spear, Robinson; also by our Agents in every Town in New Brunswick. Enquire for Comstock's Almanac for 1852 which is given gratis.

Grocery & Provision Store.

JOHN B. BALSON,

Respectfully announces to the inhabitants of St. Andrews, and vicinity, that he has opened the store next Pheasant's Hotel where he has received a full supply of Groceries and Provisions, suitable for this market—consisting of—

SUPERFINE FLOUR, in bags and Barrels; Fancy Biscuit, Meal Tea, Coffee, Brown and Crushed Sugar Molasses, Mould and Dip Candles, Brown and Fancy Soap, Fine and coarse Salt, BARLEY, Mustard, Pepper, Ginger, Allspice, Salsaparilla, Nutmegs, London Pickles, Pepper Sauce, Lemon Syrup, CONFECTONERY, Dates, Tobacco, Cigars, Snuff, Pipes, Starch, Button Blue, Blacking, Baking and Washing Soda, Beans and Shoes, Raisins, Brooms, &c. Which, together with a great variety of other articles, will be sold at the lowest prices for cash.

ALSO, in Store, Coils of CORDAGE, a lot of Grind Stones &c. &c.

St. Andrews, June 17, 1851.

FRUIT TREES.

THE NURSERIES and ORCHARDS of the Subscriber, consisting of nearly Forty Thousand Trees, are now offered for the inspection of the Public and for Sale. Persons planning these Trees may be assured of success, as every possible precaution has been used in the selection of varieties; all that have not proved hardy, have been at once discarded, and those which have not yet fruited here have been propagated with the advice of the most distinguished cultivators of New England and Canada.

The Subscriber flatters himself that his assortment is unrivalled for this climate, as it contains nearly all the varieties of Apples and Plums which have proved valuable in cold and extreme climates, with many new and splendid sorts lately brought from Russia, England, Germany, Canada, and the Northern States.

Price of Grafted Apple Trees, assorted, one shilling each.—Any person or number of persons ordering 1000 or upwards in one lot may, if desired, have a credit of two or three years for half the amount, and receive the trees free of freight at any place within the Province.

FRANCIS P. SHARP, Woodstock, Oct. 22, 1851.

BLANKS

HEALTH where 'tis SOUGHT.

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, Andros, Scotland, dated the 15th of January.

Sir—Your valuable Pills have been the means with God's blessing of restoring me to a state of perfect health, and a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could for me, stated that they considered my case as hopeless. I ought to say that I had been suffering from a liver and stomach complaint of long standing which during the last two years got so much worse that every one considered my condition as hopeless. Last summer, got a Box of your Pills, which soon gave relief and by persevering in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and right side—I have by their means alone got completely cured, and to the astonishment of myself and every body who knows me.

(Signed) MATTHEW HARVEY.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. Smith, of St. Andrews, dated the 12th, 1851.

To Professor Holloway—Sir—I beg to inform you that for nearly five years I have been in a state of debility, and health suffering from extreme weakness and debility, with constant nervous headaches, dizziness, and sickness of the stomach together with a great depression of spirits. I used to think that nothing could benefit me as I had been to many medical men some of whom after doing all that was in their power informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured, however I soon found my sufferings by taking them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH.

(frequently called EDWARD.) CURE OF ASTHMA, OF TWENTY YEARS' STANDING.

Extract of a Letter from Mr. J. K. Heydon, 78 King Street, Sydney, dated 10th of November 1849.

To Professor Holloway—Sir—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One is that of a Lady residing near the "Razorbuck," who after having for twenty years been unable to make any slight exertion, suffering very much from shortness of breath, coughing, and spitting, but is now, to use her own expression, able to run up to the top of the mountain. Another case is that of Mr. Cairns, of St. John, New Brunswick, who was confined entirely to his bed-room for six months, prior to his commencing with your Pills, and attended regularly by his medical man, who pronounced him to be dying, and who, by the use of your Pills, and rubbing your Ointment night and morning into his chest

(Signed) J. K. HEYDON.

ANSTON'S CURE OF THE EAR.

By this Miraculous Medicine I have cured every case of Earache, and means had failed.

A Copy of a Letter from the Earl of Aldborough, dated Villa Messina, Leghorn, 21st Feb. 1845.

To Professor Holloway—Sir—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for more, and at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent had not been able to effect; and I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.

I remain, with much respect, Your obliged and devoted servant.

(Signed) ALDBOROUGH.

TIME should not be lost in taking this Remedy for any of the following diseases:—

Ague Consumption, Rheumatism, Gout, Tumour of Uterus, Piles, Bilious Complaints, Dropsy, Head-aches, Sore Throat, Venereal Affections, Blisters on the skin, Dysentery, Indigestion, Scirrhus, or King's Evil, Worms, Scalding, Erysipelas, Inflammation of Bowels, Female Irregularities, Jaundice, Stone and Gravel, Colic, Liver Complaints, Secondary Symptoms, Weakness from whatever cause, Lumbago, Constipation of Bowels, Fevers of all kinds, Pains in the Throat, &c. &c.

These Medicines in England are sold at 1s. 12 2s. 9d. 4s. 6d. 11s. 22s. and 33s. each Box and Pot. There is a considerable saving by taking the large size.

Sold by all Vendors of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and

ODELL & TURNER, St. Andrews.

SURROGATE COURT.

COUNTY OF CHARLOTTE.

In the matter of the Estate of Daniel Cunningham late of the Parish of Saint David in the County of Charlotte, deceased.

WHEREAS Lachlan Doon, administrator of all and singular the goods, Chateles, and credits which were of the said Daniel Cunningham, deceased, at the time of his death, hath this day filed his Account with the said Estate, and hath prayed that the Creditors and next of Kin of the deceased, and all persons interested in the said Estate, may appear and attend the passing and allowance of the said account.

NOTICE thereof is therefore hereby given, to all the Creditors and next of Kin of the said deceased, and to all persons interested in the said Estate, and they are hereby cited to appear before me at a Court of Probate, to be held at the Office of the Registrar of Probates in Saint Andrews, in the said County of Charlotte, on Saturday the Tenth day of APRIL next, at the hour of one in the afternoon, to attend the passing and allowance of the Account of the said Administrator.

Given under my hand and the Seal of the said Court, this tenth day of December A. D. 1851.

(Signed) H. HATCH, Surrogate Judge.

Geo. D. Street, Registrar of Probates.

NEW BRUNSWICK.

HOUSE OF ASSEMBLY.

The following were adopted as Standing Rules in the Session of 1851.—

37th.—That no Bill of a private nature or petition for money or relief, shall be received by the House after the fourth day from the opening of the Session, both inclusive; and that the Clerk of this House do, on Monday previous to the meeting of the Legislature, cause fifty printed copies of this Rule to be sent to each of the Clerks of the Peace in the several Counties for distribution, and cause the same to be inserted in the Royal Gazette, and two Newspapers in such County where Newspapers are published.

38th.—That this House will entertain no application for allowances to Teachers of Common or Parish Schools, unless it shall be certified by at least two Trustees of Schools for the Parish where such School has been taught, signing the time actually taught—the Teacher to be licensed—the cause why such Teacher was not certified to the Sessions in the ordinary way—and that such Teacher was not compelled to discontinue his or her School on account of any improper conductor.
