(LIMITED)
CONTRACTORS, — PLANING MILL, — BUILDERS
DRY KILN, DOOR AND SASH FACTORY
CAMPBELLTON, N. B.

MANUFACTURERS OF
SHEDS, STORES, OFFICES, CHURCHES, FITTINGS.
A handsome and durable material in all classes of buildings.
We carry a large stock in assorted sizes.
MAIL ORDERS.
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

WHOLESALE AND RETAIL DEALERS IN
CEMENT, LIME, COMMON, PRESSED, AND FIRE BRICKS, ROCKWALL, PLASTER, CALGINE, PLASTER, FARM TILE, DRAIN TILE, AND FITTINGS, NAILS, SPIKES, PAINTS, OILS, VARNISHES, STAINS.

Office is connected with the N. B. Telephone by two separate lines insuring prompt attention.
Office Hours—8 A. M. to 6 P. M.

THE POINT ABOUT OUR HARNESS.

are strength, best leather, lightness and superior workmanship. They mean harness that will wear like iron, that will stand any strain. They mean harness that will cost you little for repairs. A look will please you. A trial of a set will please you more.

Wm. Dickie, Shop McLean Building Opp. Bank of Commerce

GUN CARRIAGE FOR CANNON

Historic Cannon Will be Properly Mounted and an Ornament to Park.

Last week two gun carriages arrived here addressed to the Town Clerk and they were hauled to Riverside Park and placed in position there.

Later in the week town teams hauled the two historic cannon which were presented to the town some years ago and which have remained in the mud since the fire, to the park and they will be properly mounted with the muzzles pointing out over the waters of the historic Restigouche, guardians as of yore of its safety from the attacks of its enemies. The gun carriages were procured through the Militia Department from St. John.

This action by the town, after such a long delay, is being very favorably commented upon, and the members of the present Council are proving that they appreciate beauty and orderliness. Riverside Park will be in a few years be a beauty spot of which all will be proud. Mr. John Cameron has volunteered to superintend the planting of trees and other citizens from all sections of the town are taking a deep interest in the work.

Last week some of the visitors from Moncton were given a drive about town and greatly admired the site of the park and remarked what a spot of beauty it could be made.

ORGANIZED LODGE OF REBEKAH HERE

Moncton Ladies Here in Force Last Friday Evening—Many Join.

A Rebekah Lodge of the I. O. O. F. was instituted here on last Friday evening, Sept. 19th when upwards of forty members received the degree. The word was performed by the Pearl Rebekah Lodge of Moncton, the degree team consisting of twenty-two members who were accompanied by a number of others.

The lodge was instituted by Miss Kate Millican of Summerside, P. E. I., President of the Rebekah Assembly, Grand Master P. MacGowan of Moncton was also present for the occasion.

The new Lodge was named "Northern Light" Rebekah Lodge, No. 77. The following were the officers installed:—

Noble Grand—Mrs. Annie Ward.
Vice-Grand—Mrs. John Gilker.
Recording Secretary—Miss Hope Quinn.
Financial Secretary—Miss Blyth Smith.
Treasurer—Miss Winnie Delaney.
Treasurer—Miss Winnie Delaney.
Conductor—Mrs. Maude Kilham.
Warden—Miss Ethel Murray.
Chaplain—Mrs. Chas. McClintock.
Inside Guard—Miss Bertha A. Ferguson.

Outside Guard—Gordon Wallace.
R. S. N. G.—Mrs. D. B. Lawson.
L. S. N. G.—Mrs. Weir.
R. S. V. G.—Mrs. Sowerby.
L. S. V. G.—Miss Irene Murray.
Acting Past Grand—Mrs. Adam Black.

At the conclusion of the proceedings, refreshments were served and a social hour spent.

D. E. RICHARDS PASSED AWAY

Died At His Home Here Friday Morning—Was a Captain of Industry.

Campbellton learned with great sorrow last Friday morning of the death of Mr. Daniel E. Richards, which took place at his home between six and seven o'clock.

Mr. Richards had been ill for some time and his demise was not unexpected. During last winter he was not in good health and went to New York for medical advice, but despite everything which medical science could accomplish he passed peacefully away as above stated, surrounded by members of his family.

Deceased who was 52 years of age was the eldest son of the late Mr. and Mrs. David Richards, and was born here. Early in his life he went into the lumber business with his father, and to his careful study of that business is no doubt due the great success of various enterprises with which he was connected. He was president of the following companies: Richards Manufacturing Co., Ltd., Continental Lumber Co., Restigouche Lumber Co., Restigouche Log Driving & Boom Co., Restigouche Lumber Co.

He always took a deep interest in the welfare of Campbellton and for a number of years represented Ward 1 on the Council board. The various enterprises with which he was connected contributed much to the prosperity of our town. In 1910 when fire destroyed the town of Restigouche, he was one of the first citizens to render assistance and help in rebuilding, as well as using his influence in the Council and the various committees for the welfare of the community. Mrs. Richards, two sons, George and Ted, two daughters Kathleen and Gwendolyn, three sisters, Mrs. Mac, Moore, England, thence to France, where he served with the 25th Nova Scotia battalion for over three years.

We have not a doubt but that these young men will enjoy their full share of public patronage.

NEW FIRM IS OPENING HERE

Messrs. Ferguson & Wallace Will Open New Gents Furnishing Store Oct. 1st.

Campbellton is to have another gents furnishing store, and judging by past experience it will be an up-to-date one, as both the members of the new firm, W. M. Ferguson and G. A. Wallace, have had long experience in this line.

One of the stores in the Gloucester block has been leased from Mr. Gallagher, and the new stock is arriving daily. The formal opening will take place Wednesday, Oct. 1st.

Both these young men have had special training in the gents furnishing line.

Mr. Ferguson started with Mr. Jas. Killo and when Messrs. Fraser, Fraser and Co. purchased the business continued with the owners.

In 1910 Messrs. H. W. Ferguson and W. M. Ferguson established business under the name of Ferguson Bros. In 1914 upon the outbreak of the war Harry W. enlisted with the 25th Battalion and was killed in March 1915.

W. M. sold out the business and entered Restigouche Log Driving & Boom Co., listed in 1916, going overseas in the spring of 1917 and served in the C.F.C. until discharged in July 1919.

Mr. G. A. Wallace commenced his business career with the late D. J. Bruce, under whose masterful guidance he gained knowledge of the business. In later years caused him to be looked upon not only as an authority on men's wear, but as a most satisfactory salesman. After Mr. Bruce's death he was appointed manager of the business for the estate and continued in that capacity until its transfer to Mr. A. A. Andrew, when he became buyer for the store. On March 1915 Mr. Wallace enlisted, going to France, where he served with the 25th Nova Scotia battalion for over three years.

We have not a doubt but that these young men will enjoy their full share of public patronage.

NEW INSPECTORS ARE APPOINTED

D. A. Kean and Two Other Prohibition Inspectors for Restigouche.

Chief Inspector Wilson was in town this week and announced that D. A. Kean of this town had been appointed a liquor inspector for Restigouche with jurisdiction over all that part of the County, including the towns of Campbellton and Dalhousie, from Matapedia to Bellefleur River. He will be assisted by Mr. Dickinson, while Mr. LeClave of Grimmer will be inspector for L. N. R. points.

Mr. Wilson says he is determined to make Restigouche as dry as when Inspector Mann had charge.

Inspector Kean was recommended by the Local G. W. V. A. and hopes to have the moral backing of the institution, as well as all right minded citizens.

THE TRIBUTE OF MILLIONS.

It is estimated that more than two million persons have witnessed the stage presentation of the Harvard prize play, "Common Clay," by Cloves Kincaid and produced by A. H. Woods, under whose management it ran for a full year in New York, with Jane Cowell in the stellar role. Six companies played it throughout the United States and Canada and it has the record of having made two trips from New York to the Pacific Coast. It has earned a tremendous amount of newspaper discussion and formed the theme of addresses from hundreds of pulpits, because of the story itself but also because of the sure artistic interpretation of it by a specially selected cast of players, including in addition to Fannie Ward, the star, such well-known names as Mary Allen, W. E. Lawrence, Helen Dunbar, Andrew Arbuckle, John Barrows, John H. Carter, Peter Cowan and Eastern Waiters. They give a flawless performance of the seven-reel Pathe special which will be shown at the Opera House on Monday and Tuesday, next.

Living models at McKenzie's, eight to ten p. m. Friday, 26th Sept.

FOR THE HOTEL DIEU HOSPITAL

The Nash's Creek sewing circle forwarded a box to the hospital this week containing the following:—3 Damask table cloths, 1 dozen napkins, 2 sheets, 3 pillows, 1 pr. pillow cases, 1 pr. towels, 10 dish towels, 1-2 dozen cups and saucers.

All parcels of exhibits are to be sent to Mrs. J. R. MacKenzie on or before Sept. 25th, or as near that date as possible.

FOUR ARRESTS IN ROBBERY

C. N. R. Freight Conductor and Others Believed Implicated in Limited Robbery.

Quebec, Sept. 22—After five days of incessant work during which every possible clue was followed to the limit and practically every place in the province of Quebec was combusted, the police made four arrests in the robbery of the mail train between Laval and Montmagny on the morning of Thursday, September 18th. The men arrested are George Topping, a freight conductor on the Canadian National Railway, and J. Bonnardin T. Proseau, a former garage owner, who are believed to be the men who disguised with masks and carrying revolvers, entered the mail car and after robbing the hands and feet of the five mail clerks, ransacked the mail and got away with \$71,000 in five and ten dollar notes. The other two men arrested, who are held as material witnesses are George Lavasseur, a brother-in-law of Topping, and Napoleon Boulanger of Laval.

Money Not Located.

While the police have not located the missing money, they hope to be able to do so in a very short time, and in the meantime they have the mail used by the bandits when they made their haul.

See our new line of All Wool Men's and Boys Sweaters, the latest and best in town.

M. P. MOORES.

Do not miss seeing the Fashion Promenade of Living Models at McKenzie's, 8 to 10 p. m. Friday, 26th September.

Where are all the pretty girls going? To "The Fair".

HON. C. H. LABILLOIS VISITS I. N. R. SECTION

Says He will be Candidate in the Next
Provincial Elections—Found Country
Prosperous and Growing.

Kedgwick, Sept. 16.—After spending a couple of days at St. Quentin, generally known as Anderson, and addressing a meeting of over seven hundred people, Hon. C. H. LaBillois of Dalhousie, N. B., former Commissioner of Public Works, in the Tweedie government, spoke to a large gathering here during his visit.

The meeting was held in the Public School and was very largely attended, people having driven from the different settlements to be present. Councillor Alex. Gauthier presided.

Mr. LaBillois said that in speaking thus, he did not claim to be any better nor to have more education, than many others, who might be inclined to be candidates, nor would he say a

word against any aspirant. However, he said that he had to his credit what few men in N. B. possessed, if any, and that was thirty years of experience in the Legislative Assembly of his native province, sixteen years in the government, sixteen years as a member of the Board of Education, sixteen years as a commissioner of the Provincial Hospital, four years as head of the department of Agriculture, and from the success he had achieved in the administration of that department, he had been promoted, at the request of the late Hon. H. R. J. Emmerson, former Premier, to the great spending department, that of Public Works, and it was during his regime, that several steel bridges were erected in the county. Apart from his political and business experience, he was a native of Dalhousie, N. B., on account of the illness and early death of his parents, in his childhood days, he had been expatriated to the Province of Quebec, where he had learnt the French language and where he had become aware of the sentiments of the French people. It had also been his luck to reside in the old city of Quebec, he was there when the late regretted Sir Wilfred Laurier, had contested Quebec East, for the first time. Following his stay in Carleton, till the death of his late grand uncle, the late John Meagher, EX. M.P.P. for Bonaventure—Co., a few months in St. Germain, Bellechasse Co. where he studied French, a city of experience in charge of a department, in the Jacques Cartier House, Quebec, he had spent the two years previous to his return to his native county, in Sept. 1881, in New Richmond, Bonaventure Co., and there, having been in the employ of a lumber merchant, in the large general store of R. H. Montgomery Esq., and having lived in his home for that period of time, he was well acquainted with the aspirations of the English people. When he accepted the honor though very responsible position of representing the County of Restigouche in the New Brunswick Legislature, he felt that he had to live and let live principles necessary to represent the interests of a mixed population. His public career was before the people, and he was not ashamed of it. It was with these sentiments and even stronger since the great war, that he would ask the people of Restigouche County to again

HON. C. H. LABILLOIS

Mr. LaBillois spoke along patriotic lines. In connection with politics he said "That having been in the Legislature and Executive Council of N. B., when the charter was obtained for the construction of a line of railway between the I. C. R. at Campbellton and the C. P. R. at St. Leonard's, in order to secure the provincial subsidy for the road, the members for Restigouche Co. and Madawaska had used the argument, that the opening up of the country between the Restigouche and St. John Rivers, would permit of the settlement of hundreds and thousands of people, and that before long, parishes and villages would be established. The dream of that day had been realized, and he was astonished, that after eight or nine years, three had been such wonderful progress made. He congratulated the people upon their great industry and courage, and told them that he had already ascertained that with roads and schools they would soon be on a splendid footing of prosperity. He had been ask-

honor him with their confidence, when an opportunity offered for the local House.

As to the formation of a ticket, he could not at this stage give any idea as to the future. The United Farmers were active, the laboring men were organized, and the women of our country, who had done so much during the great war, would be on the voters lists of New Brunswick, after Jan. 1st, 1920. He would therefore be a bold man, if he undertook to dictate to the people for the future. One thing he would tell the people and that was, that in view of our growing population, the great increase in our towns, our numerous industries, etc., the representation of the County of Restigouche at Fredericton, should be increased. He would accompany a delegation to the capital, before the next session of the Legislative Assembly, to impress upon the government the justice of adding to the representation of Restigouche County in the Local House. With at least another member, all sections and all interests of the county, would be fully represented. The population of the sections along the international Railway, formed about twenty-five per cent, of the entire population of the county, with prospects of increasing by leaps and bounds, and no doubt the industries and patriotic people of the new districts, would feel more at home if one of the members of parliament resided among them. The distances to the older parts of the county were great. If, unsuccessful in this undertaking of increased representation, then it would be the bounden duty of every elector in the county to give serious consideration to the situation, and to select two men, who would join with all the people in helping to develop the great heritage that had been handed down to us by a good Providence.

Mr. LaBillois concluded a long address, during which he was frequently applauded, by a patriotic reference to the grand work the people of the Co. of Restigouche, had done during the great war, the sacrifice of so many of our heroes, who had died on the battlefields of France and Flanders, that justice might reign over the world, and he trusted that the blood of our boys would not have been shed in vain. He appealed for harmony in all our dealings. Every body knew that he was a liberal. He was delighted with the wise choice that had been made at the recent great liberal convention. He knew W. L. Mackenzie King, personally. He had heard him speak, and followed his career, and he could assure the large audience, that he would prove to be a great leader of the liberal party and a great man for Canada. Although a liberal, Mr. LaBillois said that during his long public career, no conservative could say that he had done any injustice to any man because of his politics, religion or language. On the contrary, he had endeavored to do honor to the British flag, under which protection we should all be equal.

He had fairly puzzled the good villagers folk, had that clever ventriloquist, and now he was going to perform his last and greatest feat. "Ladies and gentlemen," he announced, with a grand bow, "I will proceed to sing that famous ballad 'Goodbye' in a lady's voice, which will appear to proceed from the empty chair above your heads."

The minutes passed. Looks of strain and agony, doubt and anger, chased one another across the performer's face, but there was no song.

Then a voice suddenly broke the silence.

"That's no good, guy-nor," it said, "I've bin an' lost the gramophone needle."

**Real
Help**

In every case of weakness, or wherever energy or vitality is less than it ought to be, in every case of convalescence, Hall's Wine gives real help. Hall's Wine proves its value quickly, you feel better from the first glass; you feel yourself growing stronger every day with strength that will last. "Hall's Wine," wrote a lady recently, "has strengthened me, more than I believed possible"; and another lady after being ill for over three years with anemia, wrote: "After taking half a bottle of Hall's Wine I felt new energy returning, and now, after the fourth bottle, I feel better than ever in my life!"

H. B. ANSLOW, MANAGER

A TOWN MARKET.

Many favorable comments have been heard in reference to the proposal to convert the Waverly Hotel into town offices and a market. The site is acknowledged to be ideal and the price at which the property can be bought is such that the lot is actually costing the town nothing.

Before voting should study this proposition carefully. We have long advocated a market, and such is necessary. We need town offices and a suitable Council Chamber, police, court and police cells, to say nothing of the other facilities the proposed plans would provide.

All these can be provided as well as an up-to-date fire station at only a little more than a half of the proposed bond issue.

Campbellton is growing, why not provide a suitable town building now?

BIG LUMBER CUT.

The Canadian Lumberman says: New Brunswick will next winter have the greatest lumber cut in history, according to all present indications. The Department of Lands and Mines is preparing for a hitherto unheard of sized cut of 250 million feet on the crown lands, and it is believed that the cut on privately owned lands will be equally as large.

Shipping is now being made available for lumber cargoes from New Brunswick to overseas points, and it is estimated that in one week more than twenty-five million feet of manufactured lumber has been shipped by New Brunswick firms across the Atlantic.

Recently when the general strike in the lumber industry on the Miramichi was called every mill with one exception had a steamer in the process of loading. The employees selected the psychological moment for their strike, but leading men in the lumber industry declare that the outlook for profitable operations were never better than today despite high prices for labor, supplies and everything that enters into production of manufactured lumber.

Returns have only just been completed for the last season's lumber operations on the crown lands of New Brunswick, and the figures have furnished some startling surprises. While the estimated cut of 200 million feet was said at the time to be extravagant even the officials of the department have been surprised to find that complete returns show 210 million feet of lumber actually cut on the crown lands and stumpage charged upon it. Included in this gross amount are some five or six hundred thousand railway ties.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oakbrook, Iowa. "For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

—Mrs. LIZZIE COURTNEY, 108 5th Ave., West, Oakbrook, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, without such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give Lydia E. Pinkham's Vegetable Compound a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

EDITOR'S MAIL

All letters addressed to the Editor must be accompanied by the name and address of the sender, not necessarily for publication, but as evidence of good faith. No notice will be taken of anonymous communications.

The Graphic, Campbellton, N. B.

I notice in this evening's "Tribune" that the Editor devotes nearly two columns in fault finding of town affairs, and uses some very strong language, such as "who is in charge of Town affairs," "the ring leaders of the little band" etc., the "promoters of the River Side Park" have captured two of Campbellton's guns," all of which is uncalled for, and misleading. I do not at this writing intend to use any unkind words, but I think it would be very unfair to the town readers, if the facts, or other side of the case were not given.

In May last the deplorable condition of the town park lands being used for a dirty dumping ground was brought before the Council by one of the members, and in the discussion, Councillor McKay, said he had secured an option on the Thompson lot, and said it would be a valuable addition to this property, an ideal place for a park. In motion he was instructed to purchase same, and a short time afterwards he was instructed to have this land levelled.

Since that time, a few hours work only have been done by the town horses, and a few men, at a cost of about ten dollars. So the readers will see that the cost that he complains about, is small indeed. As regards the hand stand, the Labor Day Com. and the G.W.V.A. selected River Side Park as a suitable site, for erecting booths and holding their revues, they would be placed above all other assets. If they have been lying in the mud for the last ten years, and no attempt made on the part of the School Board, or the M. C. Crockett, to place them where they should be, then the Council should be congratulated on their move in securing proper ground settings, and further placing them where they are to-day, in the only public park in our city. The writer will hope to see very soon a notice of our town when organized as a "Town Improvement Society" that will give first attention to the park, and make it a beauty spot, that will be a credit to the town. Any man or woman that would not approve of an up-to-date town having a public park, is at least fifty years behind the times.

Faithfully yours,
REBECCA JONES.

PROFESSIONAL.

MCKNIGHT-MILLER.

The home of Mr. and Mrs. John Miller of River Louisian, N. B., was the scene of a quiet wedding at 8 o'clock, Wednesday afternoon, Sept. 17th, when their oldest daughter, Catherine A., was united in marriage to Albert McKnight of New Jersey, N. B. The bride looked pretty in a dress of white silk poplin and wearing a bridal veil caught by orange blossoms, and carried a bouquet of sweet peas and southern wood. She was given away by her father. Miss Alice L. Miller, a sister of the bride, acted as bridesmaid, while Mr. Leslie Bell, a cousin of the groom, supported the groom. The ceremony was performed in the presence of about thirty relatives and intimate friends by Rev. F. L. Jobb of New Mills. The wedding march was played by Mrs. F. L. Jobb.

The bride received many beautiful presents of silver, linen, dishes and a sum of about one hundred dollars. After the ceremony a dainty supper of excellent taste was served, after which Mr. and Mrs. McKnight left on the evening train for Campbellton, Moncton and other places.

"SUNNYSIDE" A VERY PICTUREQUE PLACE

Charlie Chaplin and his assistants went far into the hills of California to find the little hamlet which was named "Sunnyside" and used in the First National Exhibitor's Circuit attraction of the same name to be seen at the Opera House on Friday and Saturday.

The funny side of country life, shown in the picture, is one of high artistic merit, for the hamlet, besides being a typical cross-roads, furnishes beautiful backgrounds.

The most beautiful of these were selected for Charlie's love scenes with Edna; the country maid with whom he is in love, and whom he fears will be taken by a city lad with a machine and fine clothes. Other beautiful rural backgrounds were selected for the sylvan scenes in which Charlie, in delirium, dances with some fair wood nymphs, whom he teaches some grotesque steps in classical dances.

EDNA PURVIANCE IN SUPPORT OF CHAPLIN

Edna Purviance, who is a necessary part of every good Chaplin comedy has been included in the cost of "Sunnyside." Mr. Chaplin's third million dollar production, which is being distributed by First National, and which will be seen at the Opera House on Friday and Saturday.

Miss Purviance is a striking blonde of delicate beauty, whose statuesque form contrasts pitifully with the small, closely-knit one of the little comedian. In "Sunnyside" she has the part of a country girl who is first kind, and then grows to love the poor little farm hand who gets little but cuffs and abuse from the hypocritical farmer who employs him as hired man.

Others supporting Mr. Chaplin in this picture are Albert Austin, Henry Bergman, Tom Wilson, Loyal Underwood, Tom Wood and Parker Jones. All the scenes are laid in a small hamlet chosen for its artistic backgrounds in which the film is particularly strong.

OBITUARY.

John Beaudry Jr.

On Saturday, the 13th inst., a sad accident occurred at the lumber camp of J. & A. Culligan at Benjamin River, New Mills, when John, son of Mr. and Mrs. John Beaudry of Belledune River met sudden death by being struck by a log rolling off the yards. An inquest was held by Dr. Ferguson of Dalhousie, a verdict of accidental death being returned.

The funeral which was held from his home on Tuesday, was largely attended, the pall-bearers being his young friends.

The deceased, a boy of but sixteen years, was of exemplary habits and highly esteemed by all who knew him. He leaves to mourn their loss, his parents, five sisters and four brothers, who have the sincere sympathy of all in their sad bereavement.

Upsalquitch, Sept. 16th, 1919.

Editor of Campbellton Graphic:—

Kindly allow me space in your valuable paper to state to your readers how I lost my election in the parish of Eldon on the 2nd day of September last.

To give your readers the facts I will give the returns in the votes:—

	No. 1	No. 2	Total
Murdoch Firth	36	25	61
James Chesser	29	25	54
Wm. Copeland	26	26	52
Wm. E. Mann	31	22	53

The reader will see that I am only one behind Chesser and three of Firth and Chesser's electors came out of the parish of Addison as they were returned soldiers and where brought to the pole at about three thirty and when our inside agent objected to them voting on the grounds that they did not belong to the parish, but the district clerk said he had legal advice on the matter and allowed them to vote, which I have found out after, was not right, and which I think is a very funny piece of work, for if we wanted we could have had hundreds of soldiers to vote and it would have been a County Election, instead of a parish election. As far as I am concerned I consider myself the choice of the electors in the parish of Eldon instead of Chesser for which I think the electors of Chesser for which I think the electors of Eldon.

I saw a Card in your paper of Firth and Chesser, thanking the electors of their support, but they forgot to thank their supporters of Addison.

Now I think that any fair minded reader will say that Mr. Copeland and myself did well with all the canvasses they used against us, and we did not have a tory atom from Addison to fetch the voters to the poles.

One of the canvasses they used against us was that we were Liberals, which pleased me the most as I have stood for the Liberal party for some time and cannot be bought over with a few dollars or a trip to Fredrickton.

Now as it is only two years till there will be a chance again, and if I am alive and in this parish, I will be ready to offer again. Again thanking the people for their support and two of a lead on Chesser in Eldon, thanking you in advance for this space.

I remain, yours
WM. E. MANN.

DALHOUSIE.

Dalhousie, N. B. Sept. 23.—Among the improvements made in Dalhousie during the summer is a big repair to the Breakwater which was built a few years ago, to protect the inside harbour from easterly storms. It unites Renfrew Street with Douglas Islands and is 1000 feet long. It is being filled with stone gravel, etc., to make a permanent job. The work is being done by the Federal Dept. of Public Works and is being handled by returned soldiers, of the shiretown, of Restigouche County.

Another grand improvement and one that is a credit to the congregation of St. John's Presbyterian church of Dalhousie, is the extensive embellishing done to their cemetery. Besides a general fixing up of the grounds, a very substantial job has been done with the embankment, which had been torn away during recent years by easterly storms during high tide. This is situated near what is known as Wallace's beach, and the protection work now should prevent any further damage being done.

The Dalhousie cattle show was held here on Saturday, but was not as great a success as last year. Little Marie Grant, who was astray in the Belledune woods, during several days sometime ago, is now attending the Sacred Heart Convent of Dalhousie. She is still very nervous after her terrible experience. Last week her father came to see her and she became so lonely, that he took her home for a few days.

Complaints are being made that children who should be attending school, are seen loafing on our streets. Some of our citizens have spoken to their parents.

Mrs. Alice Wallace has returned home after a delightful trip to the west, where she saw her daughter and the Wm. Wallace family at Fort William, Ont.

Miss Isabella Devereaux, who resided in Dalhousie and Campbellton, in the past, and who during recent years, has been living in Minonnie, Mich., is on a visit to her Gloucester and Restigouche friends, was in town on Sunday with Mrs. Paul Doyle of Jacques River. They had been attending the ceremony of the laying of the corner stone of the new Hotel Dieu Hospital at Campbellton.

Lady Foster's death is very much regretted here. She spent several summers at the Inch Arrian House, and was much esteemed by all those who had the pleasure of her acquaintance.

St. Omer, P. Q., a new parish, situated about nine miles from Dalhousie, is making considerable progress, especially since the manufacturing of lumber began there near Stewart's Brook. Lately tenders were called for the enlarging and improvement of the parish church. The tender of M. St. Hilaire, contractor of St. Romuald, Lewis Co. P. Q., was accepted for the sum of about \$26,000. Materials will be prepared during the winter season, and work will be commenced in the spring. M. Peter Levesque, architect, Quebec, prepared the plans and specifications.

Several of our citizens motored to Campbellton on Sunday, to attend the laying of the corner stone of the new Hotel Dieu Hospital, and to the funeral of Campbellton's great citizen, the late Mr. D. E. Richards. Others, would have gone had automobiles been numerous in the shiretown. On all sides, we hear kind words spoken of the kind and unselfish disposition of the man who in the middle of an active and successful career was called to his long home.

Mrs. Fred Knight, Quebec, arrived here on Saturday's Ltd., after spending Sunday with Mrs. C. H. LaBelle, she left on yesterday's Limited for Moncton. Little Dorothy Leanos, of the Govt. Railway, staff, who is to be married to Horace Gross, Mon. on. Lit. C. Agency L. nov. who spent the summer months with her grand parents, Mr. and Mrs. C. H. LaBelle, went to Moncton with her aunt, and will be met there by her parents, who will attend the wedding.

On Saturday evening, Mr. and Mrs. Charles Blodreau, were surprised at the arrival at their home of several friends, it being the 15th anniversary of their wedding. A happy coincidence the date was the same as the 64th

IT REALLY DOES

end pain, prevent festering and heal. This is why those who have once used Zam-Buk will never use any other ointment.

Miss Viola Hubley, of Upper Gosport, N.B., writes: "My sister had sores on her foot that commenced like boils and then discharged. She suffered such intense pain that she could not wear her shoes and had to remain in the house. We commenced using Zam-Buk and the sores stopped discharging and before long the places were entirely healed over. We shall never be without Zam-Buk again."

For eczema, blood-poisoning and piles, cuts and burns Zam-Buk is equally good. All dealers, 50c box.

Zam-Buk

birthday of Mrs. Blodreau's father, Mr. Isidore Allain, who lives on the outskirts of the town, and who is one of our most popular farmers. Mr. Allain was presented by his children with a gold headed cane and Mr. and Mrs. Blodreau received several handsome gifts. A very appropriate address was read to them by Miss Mary Ann Allain. A very enjoyable evening was spent. A dainty supper was served.

Your correspondent has been reliably informed that the book "Treasurer Trove in Gaspe and the Baie des Chaleurs" by Margaret G. MacWhirter, is having a great sale in Gaspesia. The first issue consisted of one thousand copies. When the next publication takes place, it is probable that copies of the new book, will be offered for sale in Restigouche and Gloucester Counties. The French people, of Quebec, who have seen the work, have asked the author to have the work translated and to issue at least one thousand copies in French.

Miss Clarisse Morin, St. Martin, P. Q., was here on Saturday on her way to Carleton, P. Q., where she will spend a few months with her brother Mr. Eugene Morin, who is doing a successful business throughout Bonaventure County.

Rev. J. H. McLean, returned home last week from a holiday trip to Nova Scotia. Mrs. McLean and little daughter are expected this week.

Miss Myrtle Baillie, Fleurant's Point P. Q., who has been occupying a position as stenographer in Keene, N. H., was in Dalhousie on Saturday, returning from a short visit to Campbellton, went to her old home to spend sometime.

George H. LaBelle left on Monday's Limited for Montreal, where he expects to secure a position.

Miss Blanche Main, daughter of Mr. Philippe Main, who has been during recent months a popular clerk in "The Dalhousie Mercantile Co's" store, is to be married on Wednesday, to J. P. Wilfred Brown, a trusted employee of The Dalhousie Mercantile Co. After the marriage, which will be celebrated in the convent chapel and a rejoinder at the future bride's home, the intention is to go to Chatham, Fredericton and St. John. The future bride resided for a few years in Fredericton, where she has many friends. On their return they will reside in Dalhousie.

Mr. James Scott, manager Royal Bank of Canada at Edmundston, N. B., and Mrs. Scott, are spending a couple of weeks in the shiretown the guests of Mr. and Mrs. Thos. G. Scott.

Mr. and Mrs. David Carrier are being congratulated on the arrival of a baby boy at their home on Monday evening.

Gunner Clifford Shirley arrived home from overseas on Saturday, and was given a hearty welcome.

Miss Minnie Nadeau, daughter of J. T. Nadeau, who has been doing private nursing in St. John for the last year, has spent a very enjoyable holiday at home.

Mrs. Fred Knight, Quebec, arrived here on Saturday's Ltd., after spending Sunday with Mrs. C. H. LaBelle, she left on yesterday's Limited for Moncton. Little Dorothy Leanos, of the Govt. Railway, staff, who is to be married to Horace Gross, Mon. on. Lit. C. Agency L. nov. who spent the summer months with her grand parents, Mr. and Mrs. C. H. LaBelle, went to Moncton with her aunt, and will be met there by her parents, who will attend the wedding.

On Saturday evening, Mr. and Mrs. Charles Blodreau, were surprised at the arrival at their home of several friends, it being the 15th anniversary of their wedding. A happy coincidence the date was the same as the 64th

BEAVER FLOUR

Requires Less Shortening

And it makes lighter, flakier Pie Crusts, Tarts, Doughnuts and Cookies than you ever got with Western Spring Wheat Flours.

"Beaver" Flour is milled of blended wheat. It contains Ontario Fall Wheat (famous for pastry making) blended with Western Spring Wheat to add strength.

You save shortening—and you get a flour that is always the same in quality and strength—when you use "Beaver" Flour, the only kind of flour that is equally good for Bread and Pastry.

her home. She had now returned to Boston, where she will continue her work.

Miss M. J. Nadeau left on Sept. 13th, to attend the Sacred Heart Academy, Memramcook.

INSTANT ACTION

SURPRISES MANY HERE

This grocer's story surprises local people: "I had bad stomach trouble. All food seemed to sour and form gas. Was always constipated. Nothing helped until I tried buckhorn bark, glycerine, etc., as mixed in Adler's-Kidney-Spoonful, astonished me with its INSTANT action." Because Adler's-Kidney-Spoonful flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICK-EST action of anything we ever sold. A. McE. McDONALD, Druggist, Campbellton, N. B.

PASPERMAC WEST.

Mr. Cyril Hughes and Miss Hughes who have been visiting Mr. and Mrs. J. R. Hughes left for home on Monday, accompanied by Miss Flynn, sister of Mrs. Hughes, who has been visiting her sister for some time.

Mrs. E. A. Bouillon and Mrs. J. C. LeQueune spent a couple of days in Campbellton last week, returned home on Friday.

Jimmie Bissou who is relieving the station master of the Q. O. Railway at Matapedia, spent Sunday at his home and returned again on Monday to Matapedia.

Mr. M. O'C. Harris for several years manager of the Bon and Gaspe Telephone Co., has severed his connection with that company and is replaced by Mr. James Henderson of New Richmond. Mr. and Mrs. Harris expect to leave shortly.

Miss Mona Henderson of New Richmond has accepted the position of Secretary to the Bon and Gaspe Telephone Co., with headquarters at Paspebiac.

Miss Florrie LeGresley left on Monday for Montreal.

GIRLS' LEMON JUICE

IS A SKIN WHITENER

How to make a Creamy Beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon-skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whiteness and beautifier.

Just try it! Get the three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corn, callus, and "hard skin" on bottom of feet, then lift them off. When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin is healthy and never sore, tender or irritated.

MEDICATED WINES.

An Easy Road to Drunkenness
Mrs. Martha M. Allen.

(Continued from last week.)
Lady Henry Somerset who has done so much for the reformation of inebriate women warns especially against Wincarnis as dangerous for those trying to break from the drink habit.

It is true that some physicians advise the use of meat wines, even as some physicians continue to advise other alcoholic liquors in the face of all the scientific evidence against alcohol. It is interesting to know that a recent search for the names of shareholders in a concern manufacturing medicated wine revealed the names of twenty-three medical men. It is natural for liquor-dealing doctors to push sales of their own product. Another point of interest is made by a physician who asserts that liquor manufacturers have been sending young men to medical schools with a view to having them aid in stemming the medical tide against alcohol which threatens to overwhelm the business.

American physicians do not prescribe medicated wines much now, and they are omitted from the new Pharmacopoeia. In August, 1903, The American Journal of Pharmacy contained an article giving an analysis of many of these preparations, and showing how dangerous they are in setting up an alcoholic habit, and how valueless they are from the point of nutrition. In September of the same year The Journal of the American Medical Association said: "Physicians should see to it that the public is informed as to the very limited value of the Beef, Iron, and Wine mixtures, and they should attempt to offset the psychic attraction which the name possesses."

It was at one time thought that Beef, Iron and Wine seemed to meet the supposed requirement for a nutritive, a stimulant and a tonic. But scientific studies have shown that meat extracts have practically no food value, and what little it has is destroyed by coming into contact with alcohol. Meat extract, served hot, is stimulating, and is a useful vehicle for food when appetite is poor, but it is not food. Scientific study has shown, too, that wine is not a stimulant, but a real depressant of all the bodily functions. If iron is thought desirable it can be obtained much more cheaply separate from the dangerous alcohol. Meat wines made up with malt are no more useful than those with iron. Tonic malt extract is used as an aid to digestion, but its addition to an alcoholic solution destroys the digestive properties of the malt.

Dr. D. Wallace Smith of London says: "Medicated wines are not helpful to digestion. I have attended many cases of gastritis and enteritis caused by their use. They are not 'restoratives.' The net results of cases I have known has been depression, degradation, madness and death. They are not builders of the body; they are not constructors but destructors. They induce fatty conditions of the heart, liver and kidneys, and cause an unhealthy fat to take the place of firm muscle, thus producing fatty degeneration, which is premature old age."

That the name "Meat Wines" is misleading is shown by the fact that mothers give these to their children under the impression that they are concentrated meat, omitting the usual chop or steak as unnecessary because the drink supplied the food desired! Many cases of drink addiction due to these nostrums are reported. One is of a woman who had been an abstainer all her life until advised by her doctor to take Wincarnis. She became a hopeless drunkard. Another was a young wife who was persuaded to take a coca wine. Within a year she was dead from the combined poison of the alcohol and the cocaine. A third was a girl of rich family who at twenty-one years of age was a madman drunkard from meat and malt wines. These are but samples out of many.

Coca wines are the most dangerous of all medicated drinks. The name

NOMORE NERVOUS HEADACHES

Since She Tried "FRUIT-A-TIVES",
The Famous Fruit Medicine.

MISS ANNIE WARD
112 Haddon St., St. John, N.B.
"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine, 'Fruit-a-tives'. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried 'Fruit-a-tives'."

After I had taken several boxes, I was completely relieved of these troubles and have been unusually well ever since."

MISS ANNIE WARD.
'Fruit-a-tives' is fresh fruit juices, concentrated and increased in strength, combined with finest tonics, and is a positive and reliable remedy for Headaches and Constipation. 50c a box, 6 for \$2.50, trial size 25c. All dealers or Fruit-a-tives Limited, Ottawa.

Coca misleads some into thinking it is cocaine they are taking, a very different substance. Coca is derived from the coca bean, but coca is a plant from the leaves of which cocaine is derived. Those who ignorantly or otherwise consume coca wines are liable to both cocaine and alcohol habits.

A temperance man not long ago was telling his physician how much trouble he and his family were getting from the use of beef iron and wine mixtures. He seemed not to know or think that it was an alcoholic medicine he was using. The doctor explained to him that it was simply the temporary exhilarating action of alcohol which deluded him into thinking the "medicine" was doing good. As one medical writer puts it: "There is no use in studying the action of alcohol on ourselves, as it blunts our perceptions, and renders us unable to depend on our feelings. People feel that alcohol warms them, they feel the thermometer shows that they are really colder. People feel that they are doing more work when they are taking alcohol, yet the result shows they are doing less. People feel that alcohol improves their sight, hearing, and other senses; yet experience proves that it really injures them all. Alcohol not only checks healthy growth, predisposes to sickness, lessens the length of life, awakes hereditary cravings, and weakens the mental powers, but also deceives, making the injury an apparent improvement."

The indictment against alcohol was summed up by Dr. Sewell in his testimony before the British Parliamentary Committee on Nostrums: "The peculiarity of the alcoholic nostrum is that it inflates actual injury upon at least 95 per cent of the people who employ it. Alcohol is not a remedy for any disease, and while it is able to mitigate for a short time the symptoms of mental depression, it does so at the cost of reaction, pernicious and damaging in a high degree. Let women beware of the false claims to 'tonic and restorative' power of all 'wines' medicated or otherwise. Alcohol is never useful in the human body; it is a dangerous poison. The old warning of the Bible is still needed, and should be heeded, 'Wine is a mocker, strong drink is raging, and WHOSEVER IS DECEIVED THEREBY IS NOT WISE.'"

"SUNNYSIDE" THIRD OF CHAPLIN SERIES
"Sunnyside," in which Charlie Chaplin is the star, and which will be seen at the Opera House Friday and Saturday is the third of the million dollar comedies which Mr. Chaplin has made since the organization of the Charlie Chaplin company, his own producing enterprise. The first one was "A Dog's Life," and the second "Shoulder Arms."

SHE HAD A LONG HARUG STRUGGLE

W. W. Paynter of 'North Rustico' Praises Tanlac, for Helping Him, and His Wife.

It is doubtful if there is a better known or more highly respected man in the vicinity of Charlottetown than W. W. Paynter, a general merchant and proprietor of the hotel at North Rustico, Prince Edward Island.

While on a business trip to Charlottetown recently, Mr. Paynter called at Reddin Brothers' drug store to make a purchase of Tanlac and stated that both himself and wife are using the medicine with wonderful results. When asked if he was willing for his experience with Tanlac to be published, Mr. Paynter said:

"Yes, indeed, for it was by reading the statements of others that we heard of it and were induced to give it a trial. I had suffered from a bad stomach, poor appetite and a general run-down condition for years. I could not digest anything properly and as a result I lost weight and strength continually. I was extremely nervous, slept but little and had that tired, no account, feeling all the time. This condition had existed so long that it was beginning to wear down my whole system. What I would eat nearly always caused me nausea, cramps in the pit of my stomach or some other form of indigestion. I also suffered from dizziness, listlessness and hadn't the energy to attend to business properly. I was not sick exactly; that is not sick enough to take to my bed, but was just about one half efficient and getting worse all the time."

"My wife was affected practically the same way I was and had gotten in this run down condition on account of the care and the worry of running the hotel. So after reading the high endorsements in the Charlottetown papers we decided to try Tanlac, and while we have only taken two bottles each there is all the difference in the world in our condition already. My

TOOK UP COLLECTION.

When Henry Ford, John Burroughs and Thomas A. Edison were in Tilton, N. H., on their vacation trip, they joined their rowd at a Salvation Army meeting just as a Salvation 'ladies' was about to pass the tambourine. Mr. Edison gently took it from her hand and took up the collection, getting unusually generous contributions from the townspeople, who recognized him. Seeing the tambourine full, Mr. Ford said: "Why don't you pass your hat now?" said Mr. Edison replied: "All right, Henry, if you'll spare me off with a good-sized contribution." Both Ford and Burroughs emptied their pockets than into Mr. Edison's hat. So did Edison himself, and then he turned to the Salvation Army a tambourine and a hat full of money—just how much has not been announced.

NEW COMEDIANS IN SUPPORT OF CHAPLIN

New faces are to be seen in support of Charlie Chaplin in "Sunnyside," which has been released by First National Exhibitors' Circuit, and which will be seen at the Opera House on Friday and Saturday. Besides Edna Purviance, leading woman in Chaplin productions, there will be Albert Austin, Henry Bergman, Tom Wilson, Loyal Underwood, Tom Wood, the "Lovable" "heavy" man in motion pictures, and Parks Jones in various roles.

Wife—I wish I knew what to do with this skirt. It's cool, but some what out of style.

Husband—Why don't you give it to the laundress?

Wife—Don't be funny, George. She's a good laundress, and I wouldn't offend her for the world.

Wife—My dear, I feel like a new person and so far why, I have no old time yips and energy back and am just feeling fine. Everything I eat agrees with me perfectly now, for I have no more pain or distress of any kind after meals, and my sleep is sound and restful every night. We are going to continue taking Tanlac for a while longer and I don't hesitate to recommend it for I have never run across a medicine that I consider in its class." Tanlac is sold in Campbellton by THOMAS WRAN, Druggist.

Miss Estelle J. MacKenzie is the guest of Senator and Mrs. Fred Perry, Charleston, N. H.

Mrs. Paul Doyle, Miss Bella Devereaux (Michigan), and Master Guy Doyle of Jacquet River were in town on Sunday attending the blessing of the corner-stone of the New Hotel Dieu Hospital, also Messrs. Thomas Hayes, Frank and Harold Hayes, Miss Greta Hayes, Nash's Creek; and Mr. John McDonald, Jacquet River.

Miss Mabel Culligan, R. N. of Jacquet River, late of St. Catherine's Hospital, Brooklyn, N. Y., is the guest of friends in town this week.

Miss Milla McLellan, of Toronto, is visiting in town the guest of Miss Asker.

Mrs. W. R. Fitzmaurice and Mr. Lawrence Fitzmaurice visited friends in Chatham this week.

Miss Florine Nelson, R. N., who has been in France with the American Red Cross Nursing Service has returned to New York. She will be the guest of Miss Doris N. Cutler, New Jersey, before leaving for Boston.

Mr. and Mrs. Robt. Dutch of New Mills motored to town last Thursday and visited friends.

Mrs. L. A. Long, mother of Mrs. W. Camp, has come to spend the winter with her. Her nurse, Mrs. Kerr came with Mrs. Long.

Miss Jean Payne, who has been spending her holidays in St. John the guest of Mr. and Mrs. Geo. M. Flood of 125 Duke Street, has returned home.

Mr. E. Hills has returned from a short trip to Montreal.

Miss Katie MacCallum of Matapedia has gone to Ste. Anne de Bellevue where she will attend MacDonald College.

Mr. and Mrs. Wm. McKay are visiting in Chatham the guests of Mr. H. E. O. Sandby. They also attended the Exhibition.

Mr. James Woodworth is attending the Exhibition in Fredericton.

Mrs. H. E. Mott of Dalhousie is the guest of friend in town.

Mr. Harold Mowat left on Tuesday evening for Toronto, where he will attend Toronto University.

Mr. Robt. Nealey of St. John was in town Tuesday this week on a business trip.

Mr. and Mrs. J. T. Mowat have returned from visiting in Prince Edward Island.

Mr. and Mrs. Jas. E. Miller who were also visiting in Prince Edward Island have returned.

Mr. Gordon Williams of Montreal was a recent visitor to Campbellton.

Mrs. John T. Reid is the guest of relatives in Boston, Mass.

Mr. Gifford Bruce left recently for Fredericton, where he will resume his studies at U. N. B.

Mr. and Mrs. Vernon Ramsey have returned from visiting relatives in Summerside, P. E. I.

Mr. Ingram McKenzie has gone to Fredericton where he will attend U. N. B.

Mrs. A. Allingham of Newcastle who has been the guest of friends in town has returned home.

The many friends of Miss Nan Synnot of Chatham, were pleased to welcome her to Campbellton this week as one of the artists of the Chautauque Entertainment.

Miss Ananda Quinn left recently for Fredericton to resume her studies at the University there.

Mrs. Thos. Scott of Dalhousie was the guest of Mrs. Thos. Matheson recently.

Miss Greta Hayes of Jacquet River spent Sunday in town the guest of friends.

Mrs. D. J. Bryce and Mrs. Barclay Gerard are in St. John attending the W. C. T. U. Convention.

Miss Margaret Fair of Oak Bay has accepted a position in Medicine Hat and left recently to take up her work there.

Major R. W. McKean of St. John is visiting Mr. and Mrs. Henry Currie.

Dr. Jos. Price is enjoying a hunting trip on the Kolgwick. He will be out of town until the 30th of this month.

Mr. Wesley McDonald spent the week-end at his home here.

On Monday evening a few intimate friends and relatives of Mr. and Mrs. Geo. McKenzie tendered them a delightful surprise party, the day being the occasion of their fifteenth wedding anniversary.

During the evening Mr. R. B. Rossborough on behalf of the guests, presented Mr. and Mrs. McKenzie with a beautiful cut glass water pitcher and half dozen tumblers to match. Both Mr. and Mrs. McKenzie were completely taken by surprise. There were some twenty-

five guests in the party and a very delightful evening was spent by all. Mr. and Mrs. B. A. Carr, Mrs. Geo. McKenzie and Miss Claire Mowat, who have been enjoying a motor trip to Prince Edward Island have returned.

Those in town to attend the funeral of the late Mr. D. E. Richards were: Messrs. Geo. Cutler (Boston), Fred Beatty (St. John), F. E. Neil (Chatham), F. E. Dennison (Moncton), H. H. Goody (Quebec), Geo. H. Wheeler (Sydney), and Messrs. W. D. Ginter, R. J. Ginter, D. Richards, J. Sanson and H. H. Richards of Fredericton.

Mr. J. G. Christie, manager of the Royal Bank of Canada, Campbellton, is attending the exhibition at Charlottetown, P. E. I.

Mr. Nelson Lathorneau has returned to River Glade after spending two weeks at his home here.

Mrs. Andrew Anderson spent last week in Montreal visiting her husband who is in hospital there.

Miss Jeanetta Smith and Miss Muriel Libby have returned from visiting friends in Moncton.

Mr. John E. McIntyre left on the Limited Friday evening for Guelph, Ont., where he will continue his studies in scientific farming at the Ontario Agricultural College.

Major McKean of St. John, H. J. Currie, Campbellton and T. J. Caldwell left this morning by car for a trip down the Gaspe coast.

Mrs. Henry McIntyre.

Mr. Vaughn Mott of Dalhousie, who spent a few days in town last week, left on Sunday for a short visit to Sackville.

Mr. Ritchie Henderson is also visiting in Sackville.

Major McKean of St. John, H. J. Currie, Campbellton and T. J. Caldwell left this morning by car for a trip down the Gaspe coast.

DALHOUSIE.

Dalhousie, Sept. 25.—Rev. G. E. Knight, who was here about eight years ago, when Rev. Mr. Kirk was in charge of St. John's Presbyterian congregation, is expected here at the end of this week.

On Sunday, Sept. 28th, he will speak under the auspices of the Christian Men's Federation of Canada, in the interests of the Scotch children, at Dalhousie Junction, in the Presbyterian Church, in the forenoon, at Eol River Crossing in the afternoon, and in the evening the Presbyterian Church, Dalhousie.

Mr. and Mrs. James Steele, Moncton, N. B., were visitors to Dalhousie, yesterday, and were guests at the Queen. It is Mrs. Steele's first visit to Campbellton and Dalhousie, and she is delighted with her trip.

Mrs. Estienne Poirier, Upper Balmoral, is spending the week in the shiretown, the guest of her sister-in-law, Mrs. Frank Synett.

Mrs. Poirier is an English bride, who has made many friends in Restigouche County since she came from England.

Corporal Peter A. Savio and Private Willie Copeland, Dalhousie soldiers, arrived home this week, from overseas. They landed at Halifax, N. S., from the S. S. Northland.

Miss Hilda Bernard, Sunnyside, Restigouche County, was married at Jacquet River, on Wednesday to Leg. Haugill, a trusted employee of the Sydney Lumber Co., Dalhousie. The happy couple arrived here last evening.

CAMPBELLTON'S FIRST FAIR SHOWS EVERY INDICATION OF BEING A SUCCESS

Large Number of Entries are Coming
in and Everyone Seems to be Work-
ing with a Will.

Campbellton is to have a Fair. Yes, a real Fair.
For years the men of the district, the Agricultural Society and
others have been talking of such an undertaking, but it remained
with the ladies to be the pioneers in this, to lead the way, and we
are sure that the success of the undertaking will be such as to put
to shame the feeble efforts of the men.

When the ladies took up the matter its success was doubly
assured, as the women of Campbellton have never taken hold of
anything which they could not put over.

And so we can assure our readers that The Fair will be a suc-
cess. We will stake the reputation of the Graphic as a news-
paper on it, and give all our readers the advice to attend The Fair
on the opening day or any other day if they want to see something
worth the money.

The Campbellton Skating Rink
is being transformed into booths
dining rooms, rest rooms, etc.,
and the big building will be filled
from front to rear with attrac-
tions which will be both amus-
ing and instructive.

To the housekeepers, farmers
and others, may we ask their
co-operation and their best pro-
ducts for the exhibition. The
honorary prizes will be some-
thing to show in future years, a
prize which was won at Camp-
bellton's first fair.

To the general public we wish
to assure them of the genui-
ness of the fair. It will be well
worth the price of admission, 25
cents and the funds go to a most
worthy cause. The ladies in
charge will make your visit as
pleasant as possible.

Plan to visit The Fair. Re-
member the days—Wednesday,
Thursday and Friday.

PATRONIZE OUR OWN.

The biggest argument in favor of
patronizing our local merchants is that
it is only by a spirit of co-operation
that our town can be built up. Why
is it that some cities in Canada are
in the neighboring Republic have
grown rapidly while others lagged be-
hind? It is not from natural ad-
vantages for one seaport town is suc-
cessful while another fails; one inland
town remains a village while another
grows to a city.

It is entirely the "Spirit" that an-
imates a town that makes a town;
just as the Christmas "Spirit" makes
Christmas.

During the recent years of warfare
our patriotism has been developed and
our love for our flag increased. Let
us acquire an equal civic patriotism—
a spirit that will influence us to pro-
mote the commercial and industrial
growth of our own home town. Pat-
ronize our Campbellton Merchants in
preference to male order houses. Our
money may be spent here with equally
good, if not better results, and with
the additional advantage of seeing
what one is buying. As our local
merchants prosper and increase their
business so our town will grow and
progress as any town must, where that
proper spirit of co-operation prevails.

Your Dinner

SALVATION ARMY

The Salvation Army has survived
the acid test of the war, and has em-
erged stronger, more efficient and
more determined to accomplish its
great purpose in the world than be-
fore being put to this final proof.

A very large part of the Army's
activities were absorbed one way or
another by the abnormal requirements
of the past five years, and now the
demands of peace time are stronger
and more claimant than ever. The
Salvation Army's ordinary work of
reclamation must now forge ahead as
never before. Why? Because the
increase of favor that has come to it
has of course, brought with it corre-
sponding responsibilities and its work
is only possible when supported by
interested and generous friends.

The Jubilee Harvest Festival and
Thanksgiving Effort which is being
launched is one of the main channels
whereby sufficient means may be gath-
ered to enable the Salvation Army to
continue its well known economical
and efficient services.

It is interesting to note that this
year The Salvation Army celebrates
its Jubilee of Service to the world.

It is rather a far cry back to the
days when the Founder, the late Gen-
eral William Booth, decided in his own
mind that the masses could not be
most effectively reached by orthodox
method, and started out on his "open-
air" mission, which has resulted in
the organizing of that great world-
service Army.

The Christian Mission of the early
days took its stand as a champion of
the oppressed and off-cast: The Sal-
vation Army of to-day, or, as we would
call it for its very practical services,
The "Salvaging" Army (for it has sal-
vaged many a human wreck) still
rings true to the great Call which
brought it into being.

The main great reason why none
would care to scoff at The Army these
days is because, having long since
passed the experimental stage, it has
now become a recognized factor, in
truth, a leader in Social endeavors.

Everybody will be glad to wish The
Salvation Army many Jubilees of
love-labor.

"You seem gloomy, my friend. I
fear you are suffering from nervous
depression."

"I ain't naturally this way, doc. Just
been reading the literature in your
anteroom, that's all."

ROUGH HOUSE AT THIS WEDDING

Outcome a Law Suit Which
Resulted in Verdict For
Plaintiff.

Some time ago Alexis Cormier of
New Richmond sued Alfred Dee for
damages. Mr. Cormier, by his action
claimed that Alfred Dee had illegally
entered his house when Cormier's
daughter was celebrating her wedding,
and caused a disturbance therein,
breaking chairs, tables, etc., and caus-
ing a general disturbance.

Many witnesses who were at the
Court at New Carlisle. The plaintiff,
wedding were heard at the Superior
Court. Mr. Cormier was represented by the
Honorable John Ball Kelly, K. C., and
the defendant by Messrs. Bugeaud &
Cote, of New Carlisle.

By his plea the defendant admitted
that he had done wrong and deposited
the sum of \$100.00 stating that this
was ample satisfaction for the plain-
tiff.

The plaintiff's attorney refused this
offer and the case was proceeded with.
As a result judgment has been ren-
dered, declaring that the amount de-
posited was not sufficient, and the de-
fendant Alfred Dee has been condemn-
ed to pay \$75.00 representing the value
of the objects destroyed by him in the
house, and besides this to pay \$90.00
exemplary damages, the whole
amounting to \$165.00, besides the costs
of the action which will approximately
amount to \$50.00 making a total of
\$665.00.

This is a timely warning to other
young men in vicinity who are in the
habit of entering other people's houses,
when weddings and other enter-
tainments are taking place, and thus
causing a disturbance.

"SUNNYSIDE" COMES AFTER LONGEST WAIT

Since Charlie Chaplin flashed up
the screen as the world's greatest com-
edian, there never has been such a
long interval between releases of his
pictures as the just preceding "Sun-
nyside," his newest production for
First National Exhibitor's Circuit. It
has been many months since the re-
lease of "Shoulder Arms."

PTE. DIXON IS RETURNING HOME

His Sentence Has Been Com-
muted and He Will Come
to Canada.

The "Graphic" has, on several oc-
casions, referred to the case of Private
Allen Andrew Dixon, son of Mr.
and Mrs. Thomas Dixon, Broad-
lands, Bonaventure County, Que., who
was put on trial in England for mutiny
in connection with the riots which
broke out at Rhyl.

Those who were acquainted with
Pte. Dixon were greatly surprised
to hear that this had taken place and
were loathe to believe that he would
be mixed up in any such scrape. Dixon
is a good boy according to all re-
ports and his record has been of the
best. Unfortunately for him it would
appear that when his trial took place,
some of his friends who could have
testified on his behalf, had sailed for
Canada. Among other things, he was
charged with having thrown a stone
but this would seem to be impossible
as his right arm is practically useless.
The case was one of great hardship
and, as the boy had been sentenced to
three years penal servitude, his family
were unable to communicate with him,
excepting at long intervals and most
of their letters were returned unopen-
ed.

The case was brought to the atten-
tion of the Hon. Charles Maclellan, M. P.
for the Constituency, who took it up
with Sir Robert Borden, Sir Edward
Kemp, Overseas Militia, and Major
General Mewburn, Minister of Militia
and Defence, Ottawa. After con-
siderable correspondence and cabling
between England and Canada, Mr.
Maclellan received the following letter on
the 10th September from the Minis-
ter of Militia and Defence, Ottawa:

"In constitution of my letter of the
10th instant, according to a cable dis-
patch received this morning, Private
Dixon's sentence has been committed
to detention. He will probably
sail for Canada early in October."

It is more than probable that as
soon as Pte. Dixon arrives he will be
liberated. This will be good news for
all who were acquainted with him.

CAMPBELLTON'S FAIR

Is the attraction of
the week and we hope
to see many of our
friends from the
country districts in
town during its con-
tinuance. We also
hope that they will
call and visit our

A WELL KNOWN HUNTER IS DEAD

Phillip Selick Said to be First to
Breed Moose in Captivity.

Moncton, Sept. 12.—Phillip Selick, veteran hunter, well known throughout New Brunswick, died Thursday afternoon at the home of Spurgeon Steeves, Lutes Mountain. He was a native of Prince Edward Island and nearly ninety years of age.

Selick claimed to have been the first man in the world to have bred moose in captivity. Some twenty-five or thirty years ago he was a prominent figure at exhibitions and similar events where his menagerie consisting of moose, bear and other wild animals caught in New Brunswick forests, was shown. He was a daring and resourceful hunter, many times going into the woods remaining several weeks subsisting on game always, many thrilling experiences. Once while turning to civilization safely, despite many rules in the woods he caught a moose and wanting to bring it out alive built a raft and floated it down stream.

Two years ago he disappeared and friends feared that he had met with an accident in the woods. A widespread search was made for the missing man. Selick appeared on the scene later, much surprised to find that he had been the cause of anxiety. He had been merely calling on some old friends in Prince Edward Island. Selick settled here years ago. For years he was a resident of Irish town near the old reservoir and later he sold his property to the city and moved to Canan where he resided many years. His wife died about twelve years ago.

The gray-haired stranger bent over the desk. "Are you the society editor?" he asked.

"I am."

"Are you the person who wrote up the account of last night's reception?"

"I am. Anything wrong with it?"

"That's what I want to find out. Look here. You notice that in speaking of my daughter, you say 'She swooped about the room with one's attention.' Now, what was your purpose in writing that?"

"Why it struck me as a first-class opportunity for a neat compliment to her esteemed parents; that is all."

"You are sure you didn't mean to insinuate that her father laid the foundation of his fortune by selling brooms?"

"Certainly not."

"Because I did, you know."

"I didn't know it."

"Then that's all right. Good-day."

"I want to know," said the grim-faced woman, "how much money my husband drew out of the bank last week."

"I cannot give you that information," answered the man in the cage.

"Aren't you the paying teller?"

"Yes, but I'm not the telling payer."

Planning a Profitless Home.

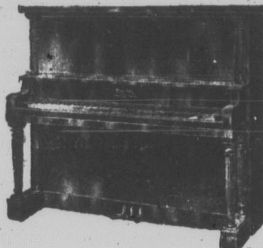

Architect—Have you any suggestion for decorating the study, Mr. Quickrich?

Mr. Quickrich (war profiteer)—Only that it must be brown. Great thinkers, I believe, are generally found in a brown study.

"Success depends on hard work."

"Yes," rejoined Farmer Cornstossel.

"I know a man whose farm got covered up with weeds and mortgaged while he was workin' terribly hard to be the best checker in the neighborhood."

What about
that Piano?

We have just the one you want in our show rooms. Call in and see it. We sell the best on the market.

FULL DETAILS OF TRAIN ROBBERY

Quebec, Sept. 18.—A bold robbery by which a silver consignment of \$75,000 was taken from the mail car of the Ocean Limited train on the I. C. R. near Harlake, Que., early today was committed by five masked bandits who held up the mail clerks, gagged and bound them hand and foot, went through the mails and jumped off the train when it pulled into St. Thomas, Montmagny. The money had been shipped from Montreal last evening and was consigned to Halifax. It seems the bandits came originally from Montreal and followed the shipment all the way down, riding in a passenger coach.

The mail clerks, when found at St. Thomas De Montmagny, were suffering from having been tied up. They lost no time in reporting the robbery and the wires were made hot with orders for the organization of posses that have been scouring the countryside since, but so far no trace of the highwaymen has been found.

The Ocean Limited does not stop at the small stations after leaving Levis; the first stop is made at Harlake Junction, where the engineer and train crew have to get orders before proceeding eastward. At Harlake the train barely had pulled out, according to the mail clerks foreman, when the back door of the mail car was crashed in and the five masked men, pointing automatics into the faces of the mail clerks, shouted the dramatic and business-like "hands up." The bandits quickly bound and gagged the mail clerks, then made a dash to the very bags containing the money.

All this while the train was racing the tracks at a sixty mile an hour clip. The Ocean Limited train is the fastest of the intercolonial service.

It is supposed the robbers had a motor car hidden in the bush back of the station with a confederate waiting for them ready to make their escape.

No one saw anything wrong on the train at St. Thomas, and it was only at Cap St. Ignace, the next stop that, the conductor of the train, passing on the platform of the station, noticed an extraordinary quiet in the mail car.

He rushed to the door. No one answered and he became suspicious and found the side doors locked. He rushed to the back door of the car and found it split and open. The bulks of five mail clerks piled up on empty mail bags quickly told him the full tale and all got busy. E. Rene, one of the clerks had to be taken to Quebec, he is suffering from nervous shock.

It is supposed that the robbers must, by this time, be beyond the border line and into the United States.

Water Street. Campbellton, N. B.

They probably rode over the national highway that runs from Levis to Jackman, Maine, by automobile.

The following statement was given to the Canadian Press at ten a. m. today, at the postmaster's office here:

"I. C. R. train No. 22, Ocean Limited, left Levis at 12.10 this morning. Mail Clerks Grosseau, Lacance, Veilleux, Rene and Dumont in charge of mail car.

"Passing in front of Dohan's Hotel, Levis, one of the clerks noticed a man who jumped on the railing of the side door and who sat there. Mail clerk did not interfere, believing the man to be a tramp stealing a ride and not daring to kick him off, for fear of killing him on the track.

"A little farther, the mail clerk saw other men jump on the train. He signalled them to stop, but they paid no attention and stood between the coupling of the mail car and the baggage car behind. At Harlake, where the train slows to allow the pushing engine to uncouple and return to Levis, two of the bandits entered the car, held the crew at the point of revolvers and rifled the mail.

"The robbers were well clad, wore automobile goggles and spoke English.

"The robbery was carried out by two of the robbers who entered the car while the other three guarded the doors. The two thieves enquired who was in charge, and Veilleux spoke out that he was. They removed the ropes from his hands and feet and his gag, and at the point of a revolver compelled him to indicate where the registered mail and money packets were. He tried to resist, but was forced to divulge. After rifling these packets the robbers again bound Veilleux, gagged him and rifled other mail, removing what valuables they could lay their hands on. A curious thing is, though, they did not touch the personal property of any of the mail clerks.

"It is a lucky thing that the robbery was committed this morning instead of any other day, for on some days the car used to carry sometimes upwards of \$200,000 in money shipments.

"No trace of the bandits has as yet been found."

The stolen money was soldiers pay going to Halifax for soldiers who are to land this week.

OTTAWA, Sept. 18.—Just how much the bandits succeeded in securing from the Ocean Limited will not be determined for some days. The post office department has been notified of the robbery by wire, and efforts are now being made to trace down the registered mail with a view to determining the loss. According to advices in the hands of the department, the car contained mail only, but what the volume of money and articles in the mail was officials here are as yet unable to say.

Quebec, Sept. 20.—The capture of four men suspected of being the bandits who looted the mail car on the Ocean Limited train, eastbound from Levis, Thursday morning, was reported here after 1 o'clock this morning. The arrests were made at Carrier Junction, Levis county, and it was stated that the police were bringing the men to Quebec and would have them here in the morning.

Some Gunplay.

Post office Inspector Tanner Green, when asked about the capture of the bandits, admitted that there had been some gunplay at Carrier Junction, but he said that it was apparently some tramps who were making trouble and the station agent fired to frighten them off. Asked if any arrests had been made, Mr. Green stated positively "Not at all." No arrests were made.

May be \$100,000.

Quebec, Sept. 19.—According to unofficial news today the train robbery at Harlake yesterday morning on the I. C. R. Ocean Limited train, brought the bandits close to, or not more than, \$100,000. Two Quebec banks alone had sent more than \$30,000 in packets which were stolen. But they lose nothing, the insurance people being responsible.

No trace whatever has been raised of the bandits.

Halifax, Sept. 19.—The military authorities here say the government lost no money by the train robbery on the Ocean Limited, and if any funds were stolen, it was not money intended for the payment of troops. They do not see, they say, how any large amount was taken and if bank bills were stolen they were no good to the thieves.

Quebec, Que., Sept. 22.—The sudden and effective disappearance of the two masked bandits who looted the mail car on the Ocean Limited train between Levis and Montmagny on Thursday morning and got away with \$71,000 is still shrouded in mystery and while many rumors are current there is nothing available from either the police or the postal authorities to show that their deductions have led them to any positive clue.

The postal authorities are non-committal. Post Office Inspector Tanner Green remains at his office every night until after midnight keeping in constant touch with the men he has working on the case.

The latest development yesterday was the offer of a reward of \$2,500 for the capture of the culprits. The offer was announced by Mr. Green, who stated that he is authorized by those interested to advise the public that a reward of \$2,500 is offered to the person who furnished information which will lead to the apprehension of those who held up and rifled the postal car attached to the Ocean Limited on Thursday morning. Any person having information is requested to communicate it to the post office inspector, Quebec, by telegram "collect." Another point which came out yesterday is that the amount of money which was stolen has been definitely fixed. The sum of \$71,000 and is all in bank notes of five and ten dollar denominations of the Bank of Montreal, National Bank and the Banque Provinciale. The police have been supplied with the serial numbers of the missing notes.

The activities of the detective and police are becoming very general throughout the province.

CHAPLIN IS HOTEL MAN OF ALL WORK.

"Charlie Chaplin in 'Sunnyside,' his third million dollar comedy for First National Exhibitors' Circuit, which will be seen at the Opera House Friday and Saturday is man of all work to a farmer who keeps the 'Evergreen' Hotel, so-called because there is a generous growth of grass in its lobby. Charlie has many adventures, and a love affair with a pretty country girl.

"The Fair."
A big time coming at "The Fair."
"The Fair" will show the good housekeepers.

"Is the professor in?" she asked, entering the door of a court room by mistake.

"What professor?" asked the attendant.

"The professor of music, of course. I've come to have my voice tried."

"Well, you'd better not have it tried here, ma'am. This is a court of justice."

MISSING NUMBER MANY THOUSANDS

Allies Will Not Take Enemy's Word That All Prisoners Have Been Returned—Some Striking Disappearances.

Perhaps the saddest of all the reports that come from the battlefield is that of "missing." Those for whom it records the fate of a dear one have their misery long drawn out, an aching pain that is less merciful than the swift stab that announces a death in action. In this war there are thousands of soldiers whose fate can only be guessed at. They were seen going into action and then all trace of them was lost. Germany has announced that she has no secret prison camps, and that every allied prisoner who is able to leave the country has been sent home. This in a measure—but only a measure, since the word of no German is relied on—relieves the fears of thousands who believed that those near to them who had been reported missing might eventually be found hidden out of sight in some remote fortress. In France no fewer than 314,000 officers and men have been listed as "missing"; in the British army the number is almost 360,000.

Hope will not completely die in the breasts of those who recall the fact that many years after the Franco-Prussian war, in some cases fifteen years, French soldiers who had been mourned as dead returned to their homes. They had been captives when the war ended, but for some petty breach of discipline had been cruelly sentenced to imprisonment. In that war, of course, Germany was the all-powerful conqueror, and could do almost as she pleased with the unfortunate Frenchmen in her hands. To-day she would hardly dare to play any such tricks. It has often happened that men are missing in action and remain missing for years because of some accident that befalls them, such as the temporary or indeed permanent loss of memory or of reason. It is quite probable that there will be found an unusually large number of men incapacitated in the present war on account of the terrific effect of artillery upon the nerves.

However, it has been announced that the commissions of the Allies will make a thorough search of every hole and corner in Germany in which prisoners might be concealed. Nothing is taken for granted, for it is recalled by Culliffe Owen that at the treaty of Frankfurt the German government pledged its word that all French prisoners taken in the war of 1870-1 had been sent home. German savagery has never revealed itself more starkly than in the German policy with regard to prisoners in this war. Germany consistently refused to give the Allies information about Allied prisoners that was volunteered about German prisoners. In some cases searching and specific enquiries were made, and all knowledge of the fate of the missing men was denied. For example, Lord Farnham, who had figured among the dead for more than a year, turned up the other day, having been released from a German prison camp. When he was reported missing enquiries were made through King Alfonso and the Vatican, but nothing could be learned of his fate. It now transpires that he spent the time in a pestilential prison camp.

The Fate of Earl of Erne.

A remarkable case of disappearance is that of the Earl of Erne, who was a favorite equerry of King George, and as such well known to the Kaiser. He was also a man of striking appearance standing six feet four inches. One morning in the recess from Mons he rode back along the road to bring in a group of men whom he supposed to belong to his own regiment. He was seen to ride up to them and then the group closed round. Not a shot was fired, but Lord Erne was never seen or heard of again, though the most diligent search was made and requests for information laid before the Kaiser. His death has now been judicially assumed in England. Several other British officers of title and great estates have been listed with the missing, and judicial decisions have been necessary to permit their presumptive heirs to take their places. There may be some of the missing perhaps who have chosen to disappear for one or other of a dozen reasons that might suggest themselves. War offers great opportunities to those who seek this solution to problems of life that otherwise appear insoluble to them.

KLARK-URBAN COMPANY.

Opera House Oct. 1st and 2nd—Opening Play "The Fortune Hunter."

Idea of every description have been written and presented on the stage, and have enjoyed a certain amount of public favor, but none have created the furor credited to "The Fortune Hunter" which took all New York by storm.

It is whimsical and novel, presenting pictures of real life and characters that everybody knows. The story of the play is virtually a miniature history of a young man "Down and Out" and how he finds not only himself but happiness, fortune and a beautiful wife. Nat Duncan is the young man. He has been a failure in everything and has just about lost his nerves. Happily he meets a good friend who agrees to stake him until he can make "Good" but he must follow certain iron-clad rules and promises faithfully not to shrink them.

One of the rules is that Nat must begin his career in a small, country town, which the friend selected for him. Nat promises and in the second act we see him carrying out the friend's plan, in a dinky town in Pennsylvania. Most of us are familiar with villagers struggling towards the dignity of a town. The dilapidated drug store, with dusty shelves holding a few begrimed and sticky bottles, with nothing in them. The ancient idea of a soda fountain with one faucet and the only syrups vanilla and lemon. We have known the village characters too. The druggist, the barber, the ivory man's son, the oldest inhabitant, the town tailor, the prettiest girl, the richest girl, are all in "The Fortune Hunter."

Nat secures a job in old Sam Graham's drug store. Sam has neglected his business to potter over an invention and the banker is about to foreclose on him, but Nat pays the notes and saves old Graham and his pretty daughter from being turned into the streets. The banker's daughter falls in love with Nat and of course so does Graham's daughter. Nat induces old Graham to let him fly up the store and he soon makes it the most attractive and paying business in the town. Graham's invention really has merit, and is sought by a New York firm who tries to buy it for less money than its worth. Nat again comes to the rescue and takes the matter in his own hands; the representative of the New York firm turns out to be the friend who loaned Nat the money, and starts him anew, and of course his arrival in the village creates a stir. Nat becomes engaged to the banker's daughter, but when Nat is suspected of being an absconding bank cashier she throws him over and he finds his own happy destiny in the love of Betty Graham.

Old Graham's invention turns out to be a success. Nat's friend releases him from his agreement and Nat decides to spend the rest of his days in the village with the girl of his heart.

HICKSON-HAMILTON.

The home of Mr. and Mrs. Neil Hamilton at Black Lands, was the scene of a very pretty marriage on Wednesday August 27th, when their daughter Catherine M. Ethel Hamilton was united in marriage to Charles H. Hickson of Stonehaven, Rev. F. L. F.A., of New Mills officiated.

Miss Hamilton who was given in marriage by her father, looked charming in a dress of champagne silk, her bouquet being of yellow flowers. Her sole attendant was her little sister Jennie.

The bridal couple stood beneath a prettily designed and decorated arch of greenery and cut flowers in the presence of about twenty relatives.

After the ceremony a dainty tea was served. The popularity of the bride was well shown by the many handsome and valuable gifts.

Mr. and Mrs. Hickson left on Saturday morning for Stonehaven, later they will proceed to Boston, where they will make their future home.

Her going away suit was of old rose trimmed with black, with hat to match.

The out-of-town guests were Mrs. Hickson, Miss Alberta Hickson, Miss Maie Hickson, Mr. Harvey Hickson, of Stonehaven, Mr. and Mrs. Jas. Dickie, and Mr. Edward Hamilton of Moncton.

A remarkable case is that of Frederick Fernor-Hesketh, son of Sir Thomas Fernor-Hesketh. Early one Sunday morning he crossed from Holyhead to Kingston, and there vanished as though the earth had swallowed him. He was a young man of unusual stature and grace, and his father spent a fortune in an effort to solve the mystery of his fate but it remains to this day a mystery. It is also worth recalling that the present Earl of Aberdeen owes his title and estates to the fact that his elder brother, the seventh Earl, disappeared in 1863 and he was last heard of as a sailor before the mast bound for Boston to Melbourne. A similar break in the succession some fifty years or so ago, when Lord Edward St. Maur vanished in India, diverted the title and great estates of the Dukes of Somerset to the father of the present Duke. Many years later a man turned up in England claiming to be the missing peer, but he turned out to be a fraud.

BRITAIN AT WAR ON 24 FRONTS

"The Sun Never Sets on the British Flag"—Here's Where British Flag—Here's Where Our Men Fought.

In connection with the war services of officers engaged in the various theatres of operation during the war of 1914 to 1918, as published in the Canada Royal Gazette, recently, these war services will be recorded in the Canadian Military List and all officers concerned should submit a certified statement of their services in accordance with the procedure laid down. It will be interesting to note in this connection that the British Empire carried on operations during the great war on twenty-four fronts and in many other minor engagements. This information has only been brought to the ears of the authorities very recently and the general public will be able to realize more fully the authority for the quotation "The Sun never sets on the British Empire."

In other wars throughout the history of the world in which Britain has been engaged, it has fulfilled her part and played it successfully, but in the recent great war she has not only protected her own subjects, but has protected other civilized nations from Prussian militarism that threatened the entire world in 1914.

The following is a list of the fronts where operations of war were carried on and the dates:

August 5, 1914, to November 11, 1918—France and Belgium.
November 2, 1917 to November 4, 1918—Italy.

October 5, 1915 to November 11, 1918—Greek Macedonia, Serbia, Bulgaria, European Turkey and the Islands of the Aegean Sea.

April 25, 1915 to January 9, 1916—Gallipoli Peninsula.

August 5, 1914, until present date—Russia.

November 5, 1914 to March 18, 1916—Egypt.

March 19, 1916 to October 31, 1918—With the Egyptian Expeditionary Force. This theatre of war is the operations carried on in Palestine.

November 5, 1914 to October 31, 1918—operations in Hejaz.

March 16, 1916 to November 23, 1916—Darfur operations.

August 5, 1914 to November 25, 1918—In British, German and Portuguese East Africa, Nyasaland and Northern Rhodesia.

August 20, 1914, to July 9, 1915 Operations under General Botha in German South West Africa and on the adjacent borders of the Union of South Africa.

August 24, 1914 to February 18, 1916—In Kamerun and Nigeria.

January 5, 1917 to May 15, 1917—Nigeria.

August 7, 1914 to August 26, 1914—operations in Togoland.

November 6, 1914 to October 31, 1918—operations in Mesopotamia.

November 6, 1914 up to date—operations in Persia and the Persian Gulf Operations in Trans-Caspia since July 19, 1918.

July 3, 1915 to October 31, 1918—operations with the Arab Field Force.

November 10, 1914—operations at Shaik Sa'id (South West Arabia).

November 28, 1914, to March 27, 1915—operations in the Tech Valley and Derajat.

The operations against the Mohmands and Swatis were as follows:

Under the command of Major General C. F. G. Young, near Hafiz Kor in April 1915.

Under the command of Brigadier General N. G. Woodruff, in August 1915.

Under the command of Brigadier General W. G. L. Benyon, C. B., D.S.O., on the Lamakai Ridge, in August, 1915.

Under the command of Major General F. Campbell, C. B., D.S.O., in the vicinity of Hafiz Kor and Shabkadar from August to October, 1915.

Against the Swatis carried out by the Malakand Movable Column, which advanced from Chakodra Camp, October 27, 1915.

In the Masnad operations between March 2, 1917 and August 10, 1917.

Against the Maris between February 18, 1918 and April 8, 1918.

September 23, 1914 to November 7, 1914—operations at Taing-Tau.

The operations against the Gorman Pacific dependencies were as follows:

September 11, 1914 to September 27, 1914—operations in New Britain.

Sept. 16, 1914 to October 15, 1914—operations in New Ireland.

ADVERTISEMENT THE CURE OF THE WORLD

(By Dr. Frank Crane.)
The remedy for what ails the world is Advertisement.

Advertisement is simply information about what you are and have and what service you are prepared to render.

The root of all troubles between man and man, nation and nation, is ignorance.

Another name for it is provincialism.

Out of provincialism grows the dark disturber of mankind, which is egotism.

The more you know about the other fellow, or the other race, the less you are apt to think more highly of yourself than you ought to think.

We have spent recently, we humans, some two hundred billion dollars in blowing each other up and destroying one another's provisions.

This is a colossal sacrifice to our stupid misunderstanding of one another.

If I were running the Peace Conference, and could compel the nations to do as I say, I would order something as follows:

"Our greatest concern here is to stop war, and to render future wars impossible, as far as we can."

"We have tried one way, the way of rival armaments, each nation trying to make itself strong enough to conquer other nations. That has not worked. We may be reasonable sure it never will work. So let us try something else."

"First we will take one billion dollars, just one two-hundredth of what we have expended in war, and put it into the schools. Millions of people cannot read or write. They live in darkness."

"Let us first of all make it possible for the people of earth to know what is going on. Ignorance is the breeding of superstitions, race hates, violence and unrest."

"Then let us see that newspapers are circulated to the ends of the earth. When the inhabitants of Mexico, China and Siam are kept informed every day they will cease to be the fools of vicious disturbers."

"Then, we will take another billion or so and build railroads everywhere. Travel cures prejudice."

"Then, we will send delegates from every nation to travel throughout other nations and lecture so as to familiarize one people with another."

"To this we will add Moving Pictures, so that, in this best of all forms, people may get acquainted with each other."

"We have spent two hundred billions on war, and ended in a grand wreck. Now we will spend twenty billions in advertising, and see what happens."

"We can hardly do worse than we have done."

Kaiser Wilhelm's land, on September 24, 1914.

Admiralty Islands, November 21, 1914.

Nauru, November 6, 1914.

German Samoa, August 29, 1914.

Officers are entitled to war service if they have seen military service of any nature during the war of 1914-1918, provided they have held or have subsequently been appointed to commissioned rank in the Canadian Expeditionary Force or Canadian Militia, in England, Canada, Bermuda, St. Lucia, Siberia or the United States.

Certain regulations govern these returns sent in by officers who are entitled to war services. They should be countersigned by a senior officer who when possible should certify that he has knowledge of the claimant's service; the sphere of operations and the period of service in each he stated; the date when an officer has been wounded and when a casualty was listed should also be stated. These returns should not be limited to officers under their present commanding officers, but includes the whole of their services throughout the war.

The publication of the theatres of operations during the war is in connection with the war service returns, but is of special interest to the Canadian people to know on how many different fronts the mother country carried on operations and were successful in same.

NOT MANY SO SMALL.

The fellow who stops his paper because he becomes offended at some item that does not suit his fancy, always imagines he is getting even with the publisher, but he is never ridged. This only happens occasionally for there are only a few people in any community who imagine a paper should contain nothing but what they approve of.

WOULD IMPROVE OUR CLIMATE

Closing of Straits of Belle-Isle Would Divert Cold

(By R. T. Elliott.)

Modern ingenuity has discovered a most efficient mode of heating houses in winter—that of hot water. Furthermore, caldrons are sometimes, in the case of hospitals or other large buildings, placed at a distance from the apartments to be warmed. In such cases pipes conduct heated water into the radiators, and back again when cooled. Thus, cool water is continually entering the bottom of the caldron while heated water flows from the top. It is now proposed to apply the warm waters of the Gulf Stream to the eastern portions of Canada, and the United States, that such regions might enjoy a more even temperature throughout the year and permit a more luxurious vegetation.

The closing of the Straits of Belle-Isle, thereby shutting out the Labrador current, the harbinger of Arctic blasts and the reason why St. Lawrence ports are closed during the winter months, would divert the "Cold Wall" to the Atlantic and allow the warm waters of the Torrid zone to circulate freely around eastern shores. Such a change, it is thought, would increase the value of lands and natural resources by billions of dollars; would greatly improve living and public health conditions; would release vast quantities of fuel, now necessary for heating purposes, to be used in industry; would be the means of augmenting the populations, commerce and revenues of Canada.

Project Feasible.

The project has been pronounced free from engineering difficulty. The cost would be great, but nothing in comparison to the results to be gained. The saving in fuel alone in the benefited areas, it is thought, would repay the entire expenditure.

The Labrador current sends a large volume of water through the Straits of Belle-Isle; thence southwesterly along the coast of Nova Scotia, New Brunswick and the United States, creating a cold current technically known as the "Cold Wall" between the Gulf Stream and the North American Coast.

The climate effect of this Labrador current on Canada covers a wide extent of territory. It brings winter earlier; makes spring later, and materially lowers the winter temperature.

In the Province of Prince Edward Island, a province of Canada, situated in the Gulf of St. Lawrence, having an area of 2,184 square miles, and a population of about 100,000. The only disadvantage this fertile island laborer under is its long winter and its insolation during winter, owing to the piling up of ice in the Gulf of St. Lawrence under the low temperatures caused by the Labrador current.

The portions of the Province of Quebec having water frontage on the estuary of the River St. Lawrence, the Gulf of St. Lawrence and the Strait of Belle-Isle, including the Laurentian Highland region, a substantial portion of the valley of the St. Lawrence and the Island of Anticosti, the Bird Islands and the Magdalen Islands. Throughout all these areas the winters are long and cold and the summers short and hot.

The Province of New Brunswick having an area of about 28,000 square miles and a population of about 400,000. The winter conditions throughout the entire province are rendered more difficult by the influence of the Labrador current.

The Province of Nova Scotia having an area of about 22,000 square miles and a population of about 500,000. In explanation of the certainty which is stated of benefits resulting from the bringing inshore of the Gulf Stream current, one may, as a particular instance, refer to the case of Atlantic City, New Jersey, which owes its world wide fame as a winter resort entirely to the there local effect of the Gulf Stream.

The stream may, by way of average, be stated to pass 20 miles offshore at Cape Hatteras; sixty miles off Nantucket Shoals, and 120 miles southward of Nova Scotia; the warm waters of the Gulf Stream being there shut off from the Canadian coast by the "Cold Wall" of the Labrador current, through which so heat can pass.

We have a supply of Grammar School scribbles now on hand. They are the biggest and best on the market for 5 cents.

LET PROFITERS PAY GRATUITIES SAY VETERANS

Dominion Executive of Grand Army of Canada Passes Resolutions.

Toronto, Ont., Sept. 15.—The Dominion Executive of the Grand Army of Canada in special session Monday night passed the following resolutions:

"We are in favor of a \$2,000 gratuity to men who have seen service in any theatre of war, and that all men who have served in England be granted a gratuity of \$1,500, and that all men who have served in the C. E. F., R. A. F. (Canada), or any other unattached unit in Canada only, i. e., served in uniform, drawing pay and allowances be allowed a maximum gratuity of \$1,000. The said gratuity for service in Canada to be on a graduated scale."

Further that all imperial soldiers sailors or airmen who were legitimate residents of Canada at the outbreak of hostilities be granted gratuities on the same scale as paid to men of the Canadian forces.

"Furthermore, that no man be eligible to draw gratuity unless he has served six months in either army, navy or air force except he has become a casualty and is recognized as such on his records."

"Further that any sole dependent of a soldier, sailor or airman be granted the same amount of gratuity as the soldier, sailor or airman would have been entitled to had he been spared to return to Canada."

Another resolution passed was as follows:

"Be it further resolved that a Royal Commission be appointed to investigate war profiteering and to recover such moneys as have strayed from the Treasury, and in that way raise funds to pay the above mentioned gratuities. We are convinced that enough money can be recovered to more than pay the increased gratuities above referred to."

W. T. BLAIR, Superintendent, Experimental Station, Kentville, N. S.

FALL PLOWING IN THE ORCHARD.

(Experimental Farms Note.)

After the apples are harvested there is generally a slack time when orchard plowing can be done to advantage. Experience has indicated that shallow plowing is advisable in orchard practice and that it is unwise to go deeper than five or six inches and that the area close to the base of the tree should not be plowed deeper than three to four inches. There is as a rule little cultivation after the first of July, and from that time on even if cover crops are not grown, a natural growth of some sort will have been made. This growth when turned under affords practically as good mulch as if left on the surface, and the fact the ground has been loosened up tends to prevent as deep freezing as if left compact, for the more compact the soil the deeper will frost penetrate it. Where root killing of trees is liable to occur, it may be wise to leave the cover crop much undisturbed as it assists materially in holding snow and as a result will give a better cover than if plowed in the fall. Other than this there does not appear to be any disadvantage in fall plowing as to possible winter injury from root killing. The great advantage is that a certain amount of work is out of the way for the next spring, and should the spring be unfavorable for working land, the disking may be delayed much longer than it would be wise to delay plowing. Early orchard cultivation is of prime importance, and as it is usually necessary to plow once to work under accumulated vegetation, this should as far as possible be done in the fall, this facilitating early spring work and hastening bacterial activity next spring.

PERCE.

(By Rev. W. Camp.)

The first thought on reaching Perce is to go straight to the famous rock, Mount Joli, opposite the rock, affords a splendid view but to reach it one must cross a field, and this field is private property. The writer asked permission of the owner "may I walk across your field to the rock?" With that politeness that characterizes our French brothers he replied "You are very welcome to do so." The view of "Pierced Rock" from this point of advantage is most inspiring. There it lies just before you, the huge sleeping giant of the sea, which might be aroused into action at any moment, for it seems to possess the instincts of life. At Mt. Joli, the rock seems very near, although it is 300 feet away. Looking at it from this angle it has the appearance of a large man-of-war ship whose decks have been swept by the storm and with bow facing you. As you look at it, its bigness grows upon you. No human being has scaled its sides or walked upon its green level top. But to reach the top would not seem an impossible feat. Before the Niagara was spanned different schemes were tried to get a line across until one day a boy's kite flew across, that kite carried a siren thread, that thread a cord, the cord a rope; the rope a chain; the chain a cable; the cable a bridge across which now thunders the traffic of two mighty nations. So the kite could carry a string; the string a rope; the rope a ladder along which one could easily pass to the top. Or what is more likely to happen, in the very near future, the aeroplane will enable

over sea and land. But next morning on lifting the curtains from her window there before her stretches the great ocean. Almost overcome by the vastness of the sight she cries "Thank God there is something there is enough of." Away in the distance is ship head light at the end of the Gaspé Peninsula, known as the Cap des Rosiers, nearer is Plateau light on Plateau Island opposite Pt. St. Peter. At night these revolving lights—one white and the other red—gleam with wondrous beauty over the vast expanse of blue water. Lying beyond the far-famed rock and to your right is Bonaventure Island. On three sides of this island the coast is high and steep, in many places the rock resembling "Pierced Rock". On one side the land runs down to the sea. On this side are about a dozen houses where there are a number of comfortable homes with considerable cleared land. The fishermen who live there can raise vegetables sufficient for their needs and cut grass and grain sufficient for the stock they need to keep. This is good catches of fish and they are as independent as lords. A sail around the rock and out around the island is one of the most attractive outings one can take. The large gasoline boats can carry a dozen people as easily as rowing. And if the wind is blowing the sea-capped billows will be all the ordinary land-lubber cares to have. One end of the island is inhabited by sea-gulls and the other by gannets. The air is filled with these beautiful creatures whose graceful movements are a constant delight, while upon the ledge upon the shore they sit immovable, reminding one of the early

entertainment and of the reasonable rates which are charged. One gentleman said to the writer: "the tourists to this place always return." Your scribbles for the first time in his life a number of the ladies after dinner, light their cigarettes and enjoy a comfortable smoke. At first the strangeness of it brought a shock, but on another thought why should not a lady smoke cigarettes as well as a gentleman? Let the men who do not like to see a woman with a cigarette in her mouth set before the fair sex the right example.

The whole of the Gaspé peninsula is full of interest and attractiveness. More and more the people from Upper Canada and the Western States are finding their way down the Gaspé Coast to enjoy their summer holiday in these cool and health giving spots. At Gaspé the Baker House has been full of guests during July and August. At Perce the Perce Rock Hotel has been full and the proprietor has had to refuse more than three hundred people whom he could not accommodate at his hotel and cottages which he had secured for the summer. Increasingly the stream of summer visitors grow as more is learned of the wonderful country whose cool and bracing climate is an antidote to many forms of illness. Mrs. McWhirter has written a most attractive book on the "Restigouche and Bonaventure, The 'North Shore' and the Gaspé Peninsula" are made most attractive by her fascinate pen, but she has not over-drawn the picture. And besides, her book contains some fascinating legends which add charm to this wonderful country. Let the tourist remember that not only in July and August are these places attractive, but even so in Sept. and Oct., when the forests as well as the sky are filled with rich and beautiful colors. Many beautiful and attractive summer resorts are open to the present day traveler, and among them are the northern sections of New Brunswick and the ever fascinating Gaspé Peninsula, and until one has seen Perce the beauty and glory of our province's summer lands has not been

ANOTHER INDUSTRY FOR GASPÉ COAST**Asbestos—Cheap Shipping Facilities.**

During the past year or so, some very interesting mineral discoveries have been reported in this province. Quebec, however, is naturally an asbestos yielding province, although such deposits are more or less confined to certain districts. It is now reported, that some large attractive asbestos deposits are located in Gaspé, and it is known that efforts are at present being made to have these deposits worked in a commercial way. There is some advantage in the location of the potential mines, inasmuch as a saving could be made on transportation to the various markets.

A syndicate of Montreal business men headed by Sydney A. Ogden, is at present planning an asbestos development situated on the Gaspé Peninsula, on the Baie de Chaleur. Mr. Ogden, who lives in the city at the present time, having spent the summer months at the property, says that the asbestos deposits which his syndicate control, while not by any means a new discovery, have never been developed except for inch fibre, and that effort was abandoned some fifteen or sixteen years ago. He describes the deposits as being a large low-grade proposition with an extensive available supply of excellent milling stock, and some 2,000,000 tons are in sight and available to the mill.

The asbestos runs in quality all the way from No. 2 Crude down the scale. It is the lower grades of asbestos, however, which, in the opinion of the syndicate, hold out the greater possibilities for development. As the deposits are on the mountainside and are represented by outcroppings, it is said that a commercial working would prove quite feasible, inasmuch as the ore would be carried the short distance to tidewater by gravity cable carrier. Thus, with excellent shipping facilities, including good harborage, the ore could be loaded directly on vessels for shipment either overseas or to the United States markets.

This, it is pointed out, would enable the operators to make shipments, preferably in smaller vessels, say of 100 ton capacity, at extremely low cost as compared with high freight rates from the inland workings to the American and overseas markets. It is also pointed out that there is available within a short distance, sufficient necessary raw materials to enable the operators to begin an asbestos manufacturing industry which would take in cement, asbestos, brick and other asbestos products. Water power is also available.

With excellent and cheap shipping facilities, and a sufficient supply of good labor on hand, it is thought that the operators will prove successful. Mr. Ogden says that he has carried out preliminary exploration work at the property and is convinced that proper working of the mine will prove profitable.

In connection with shipping by

LIST OF PRIZES FOR FAIR EXHIBITS**List of Articles For Which Prizes Will Be Given At The Fair.**

All articles must be entered under some one of the sections in the list when possible, when not, may be entered as extra.

Prize colors 1st. Blue 2nd. Red 3rd. Green

Highly commended White. Prizes (Honorary) will be offered in the following classes:

Fowlry:—Hens, Chickens, Geese, Turkeys, Ducks, (living or dressed) Eggs:—White and Brown. Dairy Produce:—Butter, Cheese. Garden Vegetables:—Beets, Beans, Cabbage, Cauliflower, Carrots, Celery, Corn, Cucumbers, Onions, Parsnips, Peas, Potatoes, Radish, Squash, Tomatoes (ripe and green), Turnips, Garden Herbs.

Fruit:—Apples, Crab apples, Plums. Horticulture:—Plants in Pots, Cut Flowers, Honey.

Fine Arts:—Painting (oil and water colors) Stencilling, Brass work Basket making.

Women's work:—Blankets (home made Rugs (hooked and braided) Stockings (knitted) Socks (knitted) Gloves (knitted) Shawls (knitted crocheted) Sweaters (knitted, crocheted) Bed-room Slippers, Bed-room Sox, quilt, Plain Sewing, Embroidery, crocheting.

Household:—White Bread, Science:—Brown Bread, Nut Loaf, Pound Cake, Fruit Cake, Sponge Cake, Doughnuts, Puff pastry, Blue-cake, Milk rolls, Canned fruits, vegetables, Meats, and Fish, Preserves, Jellies, Pickles, and Candy.

Amateur Photography:—Best group of six (6) scenic snap shots.

Special prizes for children under 12 years will be given. Give age of contributor.

All donations will be sold for the benefit of the Hospital. The management have also made arrangements to hold a Baby Show, "Batter Babies" is the watchword of the day and all mothers should take an interest in this part of the programme. Points to be considered:—Healthy appearance, good looks, cleanliness and neatness of dress. Costly apparel not called for nor considered.

Visitors may feel assured of finding in the building everything necessary to the convenience and comfort of all during the entire time. An ample restaurant will serve meals and refreshments in the building during the days of the fair.

COME ONE, COME ALL.

means of small schooners with auxiliary gasoline power, he says that return cargoes from New York to Nova Scotia points and coal from there to Gaspé will be assured, so that cost of operating such vessel would be more or less small. In this manner, the operations could be carried on at a respectable saving.

The discovery is within a short distance of Port Daniel, which is about 60 miles west of the town of Gaspé. A 1200-ton mill is at present spoken of with a minimum output of 63 tons a day.—Montreal Star.

Two women of uncertain age, who had long been rivals in love, quarreled over a trifling gift which the object of their adoration had indiscreetly bestowed on one of them.

"He intended those flowers for me," the elder woman said to the lucky recipient. "You waylaid him on the road to my house and shamelessly robbed me of his offering. Your guilty face tells tales."

The other woman shrugged her shoulders as she sniffed at the pretty bouquet and answered sweetly: "O' well, my dear, have it your own way. At any rate no one will accuse you of having a telltale face. It's so very difficult to read between the lines!"

And now the deadly breach between them has widened beyond repair.

Popular Mechanics.

Scientific Parent (on a stroll)—You see out there in the street, my son, a simple illustration of a principle of mechanics. The man with that cart pushes it in front of him. Can you guess the reason why? Probably not. I will ask him. Note his answer, my son. (To the Coster): My good man, why do you push that cart instead of pulling it?"

Coster—"Cause I ain't a hoss, you old thickhead."

De Smythe had been waltzing with his host's only child daughter, and was now in a corner repairing damages. Here his would-be-papa-in-law espied him, and—

"D'you know," he remarked, referring to De Smythe's late partner, "that girl is the flower of my family, sir!"

"So it seems," answered the young man. "But it's a pity she comes off so. Isn't it?" he added, as he made another vigorous rub at the white spot on his coat sleeve.

ENCOURAGE THE SHEEP INDUSTRY**Inducement to Use A Pure Bred Ram at the Head of Your Flock of Sheep.**

The New Brunswick Department of Agriculture are co-operating with the Dominion Live Stock Branch in encouraging the use of Pure Bred Rams.

Persons Eligible.

Any sheep raiser who purchases a pure bred registered ram and who has not before at any time used a pure bred ram in his own flock shall be entitled to a premium of ten dollars the first year; five of which will be paid by the New Brunswick Department of Agriculture and five by the Dominion Live Stock Branch and an additional premium of five dollars the second year, payable by the Live Stock Branch. Applications for premiums to be sent in to Live Stock Division, Department of Agriculture, Fredericton, not later than December 1st.

Co-operative Purchasing of Pure-Bred Stock.

The Dominion Live Stock Branch will pay the travelling expenses to any point east of Fort William, Ontario, of any accredited man appointed by a Society group of Societies or group of farmers who have orders to purchase at least twenty-five pure bred rams for farmers never having used a pure bred before. This same person has the privilege of making purchases of other live stock or rams for any farmer while on the trip, so long as the minimum of twenty-five rams are purchased as outlined above.

Grading of Pure Bred Rams in New Brunswick.

The services of Professor Sisk's of Ontario Agricultural College, have been secured to visit each pure bred breeder in the province, and classify the rams offered for sale into three grades, superior, average and common. By purchasing your rams in the province farmers can write any breeder of pure bred sheep and be sure of getting the class of ram he applies for. Now Brunswick is the first province to adopt this classification system. Breeders and Purchasers stand to gain by it. The number of rams for sale together with the price and grade will be listed with the local Live Stock Division.

Boys and Girls Sheep Clubs.

In order to create a deeper interest among our farm boys and girls in the business of sheep raising, arrangements have been completed to organize Sheep Clubs in the province. Members must be between the ages of ten to eighteen years. Ten members will constitute a Club. Two grade Shearling ewes will be the number allotted to each. Members can get profit from any bank for purchase price of sheep for one year at 6 p. c. interest. The Department will exchange a fair at which prizes will be given. The Department will loan a pure-bred ram to any Club with twenty ewes. For information on any of the above policies, write:

Live Stock Division,
Department of Agriculture,
FREDERICTON, N. B.
Hon. J. F. Tweeddale,
Minister,
FREDERICTON, N. B.

A young Scotsman who married an English lady, and some time afterward he paid a visit to a bachelor uncle.

"Well, Sandy I hear ye have gotten a wife," said the old man.

"Yes, uncle."

"What can she dae?"

"Dae? What do you mean?"

"Weel, the uncle went on, "can she sew an' knit? Does she mend your clothes?"

"No," the young man admitted.

"Humph!" commented the uncle.

"Weel, does she cook? Can she make parritch?"

"O, no, uncle," the young man explained. "The servants do all those things. But you should hear her sing. She has the most beautiful voice you ever heard."

"Sing!" repeated the old man, scornfully. "Man, could ye no have gotten a canary?"

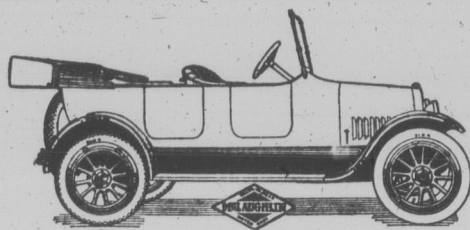

Her Only Rival.

"How nicely you have ironed these things, Jane," said the mistress, admiringly, to her maid. Then, glancing at the glossy linen, she continued in a tone of surprise: "Oh, but I see they are all your own."

"Yes," replied Jane, "and I'd do all your just like that if I had time."

NO STRIKING THERE.

The ship and mill men strike, the carpenters strike, the millmen strike, the railroad employees strike, but the country editor plugs right along. He had hard enough work getting people to pay their subscriptions as it is. What would happen if he struck for higher wages?—And as for shorter hours—when he has to serve all positions from office desk, to editorial chair, he'd rather strike for longer hours, but that's impossible for there are only twenty-four hours in a day.

PECULIAR MOTOR

ACCIDENT TO ARTHUR
BELL OF CHATHAM

Chatham, N. B. Sept. 22—Arthur Bell, the popular accountant of the local branch of the Bank of Nova Scotia, son of Mr. Robert Bell, of Napam, met with a strange and severe accident while motor cycling on Sunday afternoon last. He was in the vicinity of Black River when, as far as ascertained, he was thrown from his machine and struck his head violently, affecting the brain so that for more than a day he altogether lost his memory and even yet cannot recall the event that led up to his accident. The blow did not render him unconscious and he wandered about in a dazed condition for over an hour before he was seen and taken to his father's home. Mr. Bell is recovering slowly though in a satisfactory manner.

CHAPLIN DRESSES FOR
EFFORT IN "SUNNYSIDE"

In "Sunnyside," his third million dollar comedy, in which Charlie Chaplin will be seen at the Opera House on Friday and Saturday, the world famous comedian in tries to beat a Chesapeake Bay fisherman. Charlie is an uncouth farm hand who loves a pretty country maid. A city dandy comes to the hamlet and threatens to steal the affection of the girl. Then Charlie dresses up. Those who never miss a picture in which Chaplin is seen can guess the rest.

THEY ARE EXEMPTED.

A lawyer in a court room may call a man a liar, scoundrel, villain or thief, and no one makes complaint when court adjourns. If a newspaper prints such a reflection on a man's character there is a libel suit or a dead editor. This is owing to the fact that the people believe what an editor says.

KLARK-URBAN CO.
COMING TO OPERA HOUSE

"The 13th Chair," a mystery melodrama by Bayard Veiller, will be the seven night's bill of the Klark-Urbain Co's engagement and will be presented at the Opera House on Oct. 2nd. The story tells of a young man, Will Crasby, a son of wealthy parents who is engaged to Helen O'Neill, a young woman of poor parentage, but who is accepted by the young man's parents.

"Philip Wason a friend, thinks that Helen is guilty of a murder that has been committed, and summons Madam Rosalie La Grange, a clairvoyant to be present at a party at the young man's home and try to fathom the mystery.

At the party Madame La Grange attempted to solve the mystery of the murder. Seated around her are a dozen people hanging on her words. A detective seeks the murderer, little thinking that he will be the next victim. Stricken down by unseen hands, a scream in the darkness, and another life has fled, that of the man in the 13th chair.

"Thrills, suspense follow closely, and no one can guess the solution until near the finish of the last act.

"Discharge that press agent immediately!" thundered the theatrical manager.

"But," protested the financial backer, "he has gotten some wonderful publicity."

"That's the point. If the actors read all he has written they will become so impressed with themselves that there will be no hope of meeting salary demands."
