ADDRESS TO THE REV. JOHN DUNN.

GRAND MANAN, Dec. 20, 1843.

At a Meeting of the Inhabitants of this Parish held this day in the School House, pursuant to Public Notice, Cochran Craig, Esq. J. P., being called to the Chair, the following Address to the Rev. John Dunn, their late Rector, was read and unanimously adopted, and forwarded to him with the signatures of the Church Warden and one hundred and seventy-one others:—

Reverent and Respected Sir,
We the undersigned, your late Parishioners in Grand Manan, beg leave respectfully to Address you on the (to us) melancholy occasion of your departure from among us, after experiencing the inestimable value of your services as our Pastor for more than eleven years, we deeply feel your removal as a heavy affliction.

Dear Sir, you will believe us when we assure you, your ministry among us was appreciated, and ever will be held in grateful remembrance after you are gone.

The tie that bound us together as Pastor and People for so long a period is now severed, but the remembrance of the sobriety which your precept and example established among the Population of our Island, the interest which you took in our social and domestic happiness, your unremitting attention to and kind relief of the wants and necessities of the sick and distressed in the hour of need, and high above all, the earnestness and zeal with which you enforced the truths of our holy Religion (that sure basis of all morality, here, secured you our lasting respect & affection, feelings which neither time or distance can ever efface from our hearts.

The memorial of your faithful services remains among us, stamped upon our whole society, in its improved condition, in the beautiful and substantial Building now dedicated to the service of our God, which you, Sir, and your excellent Lady so mainly contributed to erect on the ruins of that so unfortunately destroyed; in the Schools and Libraries, which by her exertions and your own have established in so many Districts. These are memorials to us of what you and Mrs. Dunn have done for us, which evidence in ourselves and will proclaim to our offspring, the debt we owe to you both, although these will continually remind us of our loss when you are gone.

We cannot, dear Sir, blame your removal, though we deeply lament it. Your memory is to us of what you and Mrs. Dunn have done for us, which evidence in ourselves and will proclaim to our offspring, the debt we owe to you both, although these will continually remind us of our loss when you are gone.

We cannot, dear Sir, blame your removal, though we deeply lament it. Your memory is to us of what you and Mrs. Dunn have done for us, which evidence in ourselves and will proclaim to our offspring, the debt we owe to you both, although these will continually remind us of our loss when you are gone.

At the house of Prayer, at the house of God, we may not again hear your voice raised in the Throne of Grace in supplication for blessings from above on ourselves and on our children; the dwellings of the poor, and of the sick, may want your consoling presence and considerate attentions; still we fervently hope that in the field of labor to which the Providence of God now calls you, your services may be as much and as lasting good as they did among us, and be as highly valued there as here.

In stating what we have, we are assured that we express the feelings and wishes of the Inhabitants of the Island generally; and in bidding you this sad farewell, we pray God to bless your ministerial labors with success, and yourself and family with happiness and peace.

To the Rev. John Dunn, late Rector of Grand Manan, County of Charlotte.

REPLY.

DOUGLAS, County of York, Jan. 8, 1844.

Esteemed Friends,

Your very kind and flattering Address reached me a few days since, and I beg to return to you my sincere thanks for this expression of your regard, and assure you an offering more grateful to my feelings I could not have received, although it renews in some measure the painful feeling which so deeply affected me in parting with the subjects of my first ministrations, to whom I am bound by many endearing associations and enduring remembrances. The peculiar situation of the Parish, the trying circumstances under which we have been placed, creating an intimate intercourse between us, have strengthened a more than ordinary degree the bond which united us as Pastor and People.

The generous confidence reposed in me, the warm kindness and grateful disposition so generally manifested towards me, have nourished that mutual attachment which should characterize the weighty relations which we have mutually sustained.

Although your feelings may have induced you to overrate the services of Mrs. Dunn and myself, yet it is most true, our ardent wishes and best exertions, (although imperfect), were, without respect to our personal convenience, unitedly engaged in promoting the temporal and religious welfare of the population, and especially that of the rising generation, for whose improvement in useful and religious instruction, provision has been made more amply than in any other country Parish; our exertions for this object, and in rebuilding the Church, and for the general advancement of the Mission, are abundantly rewarded by a sense of the Divine interposition blessing the whole undertaking, we were only the humble instruments, the design and

the result must be ascribed to the "Author of all good," who put it into our minds to ask, and disposed the hearts of so many benevolent persons in this and the mother land to contribute to our aid; to him are due our praises, to them our thanks.

The necessity for our separation I deeply regret, but it is a source of satisfaction to me to feel that over its cause you had no control, and that our feelings of mutual regard remain unimpaired. Heartily do I lament your present destitution, being fifty miles distant from any religious ministrations; a situation, considering the state of the Mission, calculated to excite the deepest Christian sympathy, which I trust, (under the Divine direction,) will lead to the speedy provision of a faithful Pastor.

I will avail myself of your readiness to be influenced by my parting counsel, and exhort you to continue trusting in the goodness of God, steadfast in your faith, doing good, preserving peace and union upon the true basis, "the love of God, and the truth as it is in Christ Jesus;" and let me assure you, that wherever the Providence of God may lead me, or however wide the space which separates us, my grateful remembrance of you all, and my interest in your welfare and happiness shall not cease, or my prayers fail to be offered, that you and your families may be blessed with temporal prosperity and the fruits of the Spirit, brotherly love and the peace of God. And although no longer your Pastor, beg to subscribe myself

your faithful Friend,

JOHN DUNN.

FROM CANADA.

The Canada Gazette contains a proclamation proroguing the Provincial Parliament to the 24th of February, when a dissolution will probably take place.

It will be seen by the following letter published in the Montreal Times, and directed to Mr. Fabre, that His Excellency the Governor General has subscribed to the fund in aid of the convicts:

Government House,

Kingston, Jan. 12, 1844.

Sir, I am directed by the Governor General to transmit to you a check for £100, as a contribution on his part towards the funds now in process of collection, to be sent to the unhappy individuals now in the Penal Colonies, about to return home.

Some have already received the gracious pardon of Her Majesty, and in relation to the others, His Excellency entertains a lively hope that the Royal pardon will be also granted to them.

I have the honor to be,

Sir,

Your very humble servant,

J. M. HIGGINSON.

The Montreal Times says it is understood that Mr. Donegan refused an offer on the part of the Governor General, of one thousand pounds per annum for his mansion, better known as Chateau St. Antoine, formerly the property of Madame Selby.

From Bermuda.—We have received papers from Bermuda to the 9th instant, but they contain little news. Captain Eugene Brock, and Lieut. and Adjutant Smith, of the 29th Regt. recently died at Bermuda. The Royal Gazette of the 6th says:

The American Brig Despatch, alluded to in our last as having cut away her mast, whilst at anchor in the Hogfish Cut passage, was brought into port, on Wednesday.—Mr. Groebe, late Mate of the D., was unfortunately lost overboard from that vessel, in a gale of wind on the 27th ultimo. The vessel was scudding at the time and could not be brought to the wind, and the sea was so high that a boat could not live, so they were compelled to leave him to his fate.

Turks' Islands.—We learn by a recent arrival from Turks' Islands that the Sylt Ponds have at length been finally disposed of, some by tender others by public sale. Those secured by tender have been obtained at a low rate—in many instances for half a dollar a share—whilst some put up at auction went as high as \$12.—The Commissioner, we are told, has given general satisfaction, in the manner he has acted in the disposal of the ponds.

HOME MANUFACTURE.—We perceive by the St. John papers, that a person named Myers, has established a manufactory in that city, from which the Province can be supplied with that indispensable article for domestic purposes, viz: the pail. It has been too much the habit of late, of importing quantities of wood-ware from the neighbouring republic, which could be supplied at home, provided sufficient encouragement was given.—When Mr. Eastwood first commenced manufacturing blankets, &c., the people of that city would not buy them, because they thought it impossible that an article manufactured in the Province could be equal to that imported, but time has shown them the folly of such a supposition, for Mr. E.'s blankets are now

proved to be equally as good and cheap, as any ever imported, therefore he receives due encouragement. If persons would encourage home manufacture more than they do, and not leave it to the House of Assembly, (the members of which, last session turned a pair of carding machines, that were left for their inspection, into whisker combs, and gave the party making the article nothing in return,) the Province would be more prosperous to-day, than it really is.—*H. A. Herald.*

A BRETON FARM-HOUSE.

The lonely farm houses of the Bretons betray at once their extreme poverty, and that negligence of personal comforts which always marks the condition of a people given up to the oppressive doctrine of necessity and the reveries of superstition. The farmhouse, built on the naked earth, without cellarage, but sometimes with a scanty granary overhead, is the residence of the family and the cattle. The stable is generally at the end of the habitation, divided from the principal apartment by a partition wall, with a door communicating from the one to the other.

In many instances this partition is only a bare board, amongst the poorest class men and beasts herd together. The furniture is in a *cuite*—beds, formed out of a sort of narrow chest, in which the sleeper is nearly stifled, a table, opposite the only entrance, along the sides of which run wide benches, brightened with lard; a dresser, on which are ranged wooden or earthen bowls, delf plates, large spoons, and scoured basins; a wooden chest; a trough near the fire; a box for keeping eggs, milk, and butter; a recess, with an image of the Virgin in delf, dressed gaily on fete days, and at the sides, or hung between the beds, two or three images of Saint Anne or Saint Genevieve of Brabant. Upon the table lies a knife, shaped like a scythe, and a black loaf, covered with a cloth, over which is placed a mat, for the purpose of protecting the bread from the smoke, and from the clouds of flies which the close neighbourhood of the stables brings through the open door in the warm season.

The fire-side is the grand centre of attraction, with benches at each side of the hearth, and the inside of the chimney garnished with an enormous pot-hook, trevets, gridiron, and a resin torch, fastened in a block of wood, the labourer and his children sit throughout the long winter evenings, relating legends, or talking under their breath about apparitions, or the voices of the dead that come waiving to them on the night-winds.—*Foreign Quarterly Review.*

The Profane Driver and the little Girl.—As a driver on the Erie Canal passed, filling the air with oaths, a little girl, trembling with fear, modestly asked, "Will you please have a tract, Sir?" He received it, read the title and laid it in his chest. For a week he could not banish the title of the Tract from his mind. At length he said to himself, "I cannot live so. I will read the Tract and see what it is in." He read, and was convicted of sin. He sent for pious friends, and received their instructions and prayers; and at length he cast himself at the foot of the cross, and found joy and peace in believing. And that Tract?—Remember the Sabbath day to keep it holy"—presented by that child, was the means employed by the Spirit of God in his salvation. That once profane driver is now fitting for college, with a view to the Gospel ministry.

Every Sabbath-school child who is old enough to hand a Tract to another, is old enough to do good. God loves to employ such humble instruments in doing good, to show that the "excellency of the power is of himself and not of us."—*S. S. Visitor.*

Successful culture of Silk in Maine.—See what a lady can do.—Two or three years ago, Mrs. Bowen, lady of Dr. James Bowen, of Bloomfield, in Somerset County, conceived the idea of commencing the culture of silk, on a small scale; supposing that it might be a pleasant if not a profitable business.

In order to obtain more practical insight into the business than she could gather from books or papers, she made a tour into Massachusetts and Connecticut, and personally visited all the silk establishments she conveniently could, and enquired minutely into the practical details of their operations. She became convinced that if the business could be properly attended to, it offered a fair remuneration; but like all other business it could not take care of itself, nor suffer neglect from those who pretended to carry it on, without a loss. She procured the hardiest variety of mulberries that she could find, and we are happy to hear that, by following and the determinations of her judgment and common sense, she has succeeded. Her trees have withstood the severity of our winters without any protection, and the proceeds of her establishment will this year amount to seventy dollars, thus affording a fair equivalent for the labor bestowed. This is the true way to make the silk business flourish, viz., by strict personal attention of that class of our citizens who are not calculated to perform heavy and severe labor, and not by great companies and salaried agents, to oversee others, none of whom feel any interest in the success of the undertaking.—*Maine Farmer.*

Awful Situation.—A notorious tippler, in a town, not forty miles from Boston, returned home last washing-day, with a jug of rum, and staggering into his wife's domain, mistook a tub of well warmed water for a settle, and suddenly *settled* himself into it, so that its surging sides leaped merrily about him—he being a first prisoner. In this predicament he called lustily for Nabby. His "gude wife," seeing his deep interest in her affairs, seizing the jug, danced around the philosopher, pouring its contents over his head—disregarding his prayerful look, outstretched arms, and beseeching appeal of "Nabby, save it! Save it Nabby!" to which she replied, "Go it Joe—long life to your honour," &c.—*Ibid.*

SUMMARY OF NEWS.

Important from Cuba.—Letters from Havana of the 23d ult. describe attempts at insurrection in various parts of the island, suppressed in one instance, with great sacrifice of life.

The negroes in the country give a great deal of trouble. They rose a day or two ago upon the estates of the Aldamas and the Alphonso. It appears that there was an extensive conspiracy, in which the best slaves engaged. Nearly five hundred negroes, in arms, were killed, and a large number of prisoners were taken. The Americans residing at Matanzas have asked for an American prison-of-war to be in that port, in case they are compelled to flee the island.

It is said that about four thousand negroes, in the vicinity of Matanzas, had planned an insurrection; they were organized, and officers appointed, and designed to march into that city, where they were to be joined by two thousand more. On Friday of last week, their plans were detected, and in the evening about twenty of the ringleaders were arrested, tried, and will be probably executed.

Important from Mexico.—By an arrival New York, dated from Mexico to the 31st December, have been received. The Express says, that information has been received of a decree issued by the Mexican government, compelling all Americans to leave California. This order was issued some months since, but was concealed from the United States Minister at Mexico, until recently, when he received information of its existence from another source. Gen. Thompson demanded an explanation from the Mexican government, which was withheld, and the mail of the 30th brought to Vera Cruz intelligence that Gen. Thompson had given the Government a stated time, when, if not satisfactorily explained, he will demand his passports and leave the country. He was expected at Vera Cruz at all events in a few days, to embark for the United States on a visit to his family.

A letter received from Vera Cruz states, that the order was given by the Mexican Government in July last, to the Governors of California, Sonora, Chihuahua, and other North Western States, to expel all Americans residing there.

The African Guano Islands.—It is stated, that the famous product of Guano is keenly exciting the spirit of adventure among speculators, and that between forty and fifty vessels have sailed from England to bring guano from the rocky islands on the west coast of Africa. The West India planters, it seems, have begun to use it freely for their sugar canes, and so successfully, (it being supposed that they would require large quantities) that numerous vessels have been sent to procure loads of it for the West India market.

Immense beds of Guano are known to exist on two of the islands lying on that desert and unlighted coast, which stretches from the southern point of the Portuguese possessions at the Cape, and as rain rarely if ever falls along this coast, it is probable that the guano will be found to have been collecting in the same manner on this whole islands along it for centuries.

From Hayti.—We learn from the New York True Sun, that Captain Baker, of the sloop, Council arrived at that port on the evening of the 23d ult. He states that there was great rejoicing on New Year's day and night over the election of the new President Remyer. Markets good for all kinds of American produce.

NEW POST OFFICE REGULATIONS.

We take the following extract from an article in the *Loyalist* upon the new regulations in the Post Office Department.

Without saying much for or against the new regulations in the Post Office Department, we have waited until we have given them a fair trial, and must express ourselves highly dissatisfied. The adious custom, which was for some time driver who carries the mail dare take a parcel for an individual. This formed one of the principal grounds of complaint when the question was taken up by the House of Assembly last year. Now then, since the publisher of a newspaper is obliged to send his papers by mail, let us see what the "great reduction" amounts to—how much his condition is ameliorated. Formerly the publisher was obliged to pay, for the papers he chose to mail, 2s. 6d. per annum for each copy, out of which he received a drawback of 10 per cent. Thus the annual postage on 1000 copies amounted to £100. Under the new regulations either the publisher or subscriber must pay a postage of 1-2d. a number, or for a weekly paper 2s. 2d. per annum; as no drawback is allowed the postage annually on 100 copies amounts to £108 6s. 8d. or eight pounds six shillings and eight pence more than under the old law. This is the benefit the weekly publisher receives; on those who publish 3 or 6 times a week the regulation operates with increased severity. But if this difference were all, we should be content; but formerly publishers were allowed the privilege of exchanging with each other without being subjected to postage;—now, however, we are obliged to pay one halfpenny on every Colonial paper we receive, and sometimes an additional penny collected to defray the postage of the American paper on the other side of the line.

Water Company.—We regret to state that a very serious accident occurred to the Steam Engine of the Water Company yesterday morning. The water having become very low at the City Reservoir, it was found necessary to start the engine, for the purpose

of pumping up a supply—but owing to the contraction of the iron work of the engine by the intense frost, the working beam and connecting rod broke, and some other damage was sustained. Our City is, therefore, at this moment deprived of a supply of water, and we recommend to all persons the utmost caution with respect to fires, as an extensive fire now, would be fatal to the city.

A meeting of the Directors of the Company was held yesterday afternoon at 4 o'clock, to devise means for raising the necessary funds to repair the damage; as the finances of the Company are in a very low state, owing to the income barely meeting the contingencies.—*New Brunswick.*

Fire.—On Saturday last the people of Fredericton were alarmed by the cry of fire! It was soon ascertained that the Sentinel Office, in the building usually denominated the "Tank House," was the scene of devastation. No person belonging to the office was present, and those who first arrived having broken open the door and entered, discovered a pile of old newspapers on fire on the floor, and the flames were rapidly extending to the frames and cases. Fortunately, however, the devouring element was soon got under.—*Loyalist.*

Highland Society.—We learn from the *Gleaner* that the Highland Society of New Brunswick dined together at Hamilton's Hotel, Newcastle, on the 17th ult., being the anniversary of the battle of Culloden, and death of Sir John Moore. Twenty two loyal patriotic toasts (but which we are obliged to omit for want of space)—were given from the Chair, besides several volunteers; and the company at length separated highly gratified.

Scarcity of Bibles.—At the recent annual meeting of the Connecticut Branch of the American Tract Society, a Rev. gentleman stated that in one town in Florida a Justice of the Peace sent a constable all over the town to find a Bible on which to swear some witnesses, and not one could be found.

COMMUNICATION.

To the Editor of the Standard.

Sir,—A circular has been handed me, from an association in the City of Saint John, calling themselves "the Provincial Association of New Brunswick," and purporting to have been established for the amelioration of the condition of our provincial farmers and fishermen. I am under the impression Sir, that the promoters of that document intend by it to draw the "World" completely over the eyes of our provincial farmers and fishermen, and under a land-bill pretence of encouraging both, the association have it in contemplation to increase the duty on the actual necessities of life. I am led to this opinion, from the proceedings of the Mill owners, of the City of Saint John and its vicinity, who during the last sitting of our Provincial Legislature, and within a few days of the termination of the Session, had a petition laid before that Honourable House containing upwards of one thousand signatures, and among the rest the names of these worthy Gentlemen, who have been styled the "President and directors of the Provincial Association of New Brunswick," of course Sir you will suppose that all this has been done for the purpose of advocating a duty on foreign wheat, so as to enable the provincial farmers to get a remunerating price for their wheat. I can assure you Sir that it was for no such thing. All this fuss getting the signatures of the Ragged and Bobtail of the city of Saint John, (as some Honourable Gentlemen would be pleased to style many of the signers of this Petition) was for the express purpose of putting one shilling and three pence additional duty on every Barrel of flour imported into this Province.—It is this provincial association would call the attention of the Home Government to the high rate of duties paid in the United States on various articles exported from this province into that Country, among which may be classed various descriptions of Lumber, Potatoes, Smoked Pickled and dry fish with a view to the reduction of such duties, thereby giving us a direct trade with the United States, which would compensate us in some measure for the loss of our West India trade, the association would thereby confer a more lasting benefit on the province in general, than by increasing the duty on a yard of Grey Cotton for the protection of Manufactures. Let us have the manufactures first and protect them afterwards.

In reference to our Fisheries the adoption of two measures appear requisite—viz the prevention of encroachment on our Fishing grounds by American vessels and the granting of a suitable bounty. Both of these measures appear to be equally necessary. With respect to a bounty there are a variety of opinions, some asserting that the best means of encouraging the vigorous prosecution of this useful branch of business is by protection of the fishing grounds, without bounty; others that bounty on the tonnage of the vessel to be say from 10 to 100 tons is the most desirable—while perhaps, the majority are in favor of a bounty on the fish caught, whether in boat or decked vessel. This last method seems the most equitable, provided that some way could be devised to prevent imposition on the part of the claimants for bounty. But that protection and encouragement are absolutely necessary to prevent a total abandonment of this valuable source of commerce—were it only the ground of competing with the fishermen of the United States, who receive protection as well as bounty from their Government, which have been the means of withdrawing many of our best fishermen from our own shores.

I am, Sir,
A QUODDY FISHERMAN.

OPENING OF THE PROVINCIAL LEGISLATURE.

FREDERICTON, THURSDAY, FEBRUARY 1, 1844.

This being the day appointed by Proclamation for the Meeting of the Legislature, at two o'clock His Excellency the Lieutenant Governor came in the usual State to the Council Chamber, and being seated on the Throne, commanded the attendance of the House of Assembly, when His Excellency was pleased to open the Session with the following Speech:—

Mr. President, and Honourable Gentlemen of the Legislative Council.
Mr. Speaker, and Gentlemen of the House of Assembly.

"Although the situation of the Province did not require that I should convene you before the usual period of the year, I am not insensible that there are important interests at this time depending on the result of your deliberations.

"The birth of another Princess, since I last met you, has been a source of increased happiness to Her Majesty, and of gratification to Her loyal subjects.

"The general tranquility now happily prevailing and the relations subsisting between England and the remotest parts of the World, are highly favourable to British enterprise, and I congratulate you on the participation of this Province in the revival of General Commerce.

"The severe pressure to which all classes have been so long subject, although not wholly relieved, has been materially alleviated. The favorable harvest of the last year has given occasion for renewed thankfulness, and will lead the people to regard the pursuits of Agriculture as a primary source of their prosperity.

"Considering the vast extent of the unappropriated Lands of the Crown, I invite your attention to the means of facilitating their Settlement.

"Some Legislative provision is also required for the management of the Indian reserved Lands, constituting some of the most valuable tracts within the Province, and from which a fund may be derived, adequate to meet all the expenses incidental to the present condition of the Indian population.

"Looking to the claims of a new Country to support in those branches of enterprise which are essential to its prosperity, I recommend to you to afford such encouragement as may be practicable to Agriculture, the Fisheries, and to Domestic Manufactures.

"The liberal appropriations you have made for the support of Schools, attest the importance which you justly attach to the Education of the People. As the Act for the support of the Parish Schools will expire in 1845, a careful inspection during the present year of the whole of the Parish Schools, throughout the Province, would, with the aid of a Training and Model School, facilitate the adoption of an improved and comprehensive system for their more efficient management.

"The salutary effect of the regulations which were framed in the last year for the Penitentiary at St. John, of which the reports will be laid before you, encourage me to recommend that they may be applied so far as may be practicable in the other Provincial Prisons.

"Some alteration is called for in the Laws for the regulation of Savings Banks, and for the due protection of the funds of the industrious classes deposited in them.

"Her Majesty's Government having consented to the passing of an Act for the Consolidation of the Departments of Revenue, I recommend to you the adoption of such arrangements as will increase the efficiency & diminish the expenses of the local Establishments.

"The Act of the last Session relating to the collection of a reduced Duty on Timber and other Lumber, will, I hope, admit of such alterations as will obviate the objection which has been found to apply to it.

Mr. Speaker, and Gentlemen of the House of Assembly.
I am gratified in being able to inform

you that the Revenue in the last year has materially improved, and from the revival of the Public Credit I anticipate an early relief from the financial difficulties of the Province.

"When the Accounts and Estimates are laid before you, I hope it will appear to you, that attention has been given to Public Revenue, and that it will be found practicable, without increasing the public burthens, to afford that support to public undertakings, and especially to the opening of communications, which are so essential to the settlement of the Country.

"An important Instruction from Her Majesty's Government, on the subject of Differential Duties in the Colonies, will be laid before you.

Mr. President, and Honourable Gentlemen of the Legislative Council.
Mr. Speaker, and Gentlemen of the House of Assembly.

"The settlement of the Boundary between the British Provinces and the United States, by the Treaty of Washington, having renewed the question of the limits of New Brunswick and Canada, a correspondence has ensued with Her Majesty's Government and with the Government of Canada, which it is hoped, will lead to an early and satisfactory adjustment of the claims of the two Provinces.

"In the correspondence of Her Majesty's Government, which will be laid before you, in reference to the measures of the last Session, you will recognize the desire of the Queen to uphold the principles of the Constitution, and I rely with confidence on your just appreciation of the blessings, which, under Providence, it has been the means of conferring on the people, for that support which will enable me to give effect to Her Majesty's Gracious intentions for their welfare.

On the Members of the House of Assembly returning to their seats the first business that came before the House was a notice of the return of three Members since the last Session, viz: Mr. Wilnot for York, Mr. Hazen for St. John and Mr. Street for Northumberland. Mr. Wark then moved for leave to bring in a bill to enable Members to vacate their seats in certain cases.

The Speaker then read the Governor's Speech when Mr. End moved that a Committee be appointed to prepare an address in reply.—Messrs. End, Brown and Allen were appointed for that purpose.

On motion of Mr. Allen the following Members were appointed as a standing Committee to whom will be referred all matters appertaining to the privileges of the House, viz:—Messrs. Allen, Fisher, Hill, End and W. H. Street.

Mr. Barrie then moved that 200 copies of the Governor's Speech be ordered to be printed.—Granted.

Committees were then formed for various purposes.

The subject then came up as to what date the reception of petitions on the part of the House be limited, when it was finally settled that no petition be received after the 26th day of February.

Mr. W. H. Street offered a resolution to the effect that the House name an early day to go into Committee of supply, supporting the same by saying that it was highly necessary they should ascertain early in the session the amount of their resources, and also discuss the subject of the Provincial Revenue.

Mr. Partelow objected to Mr. Street's resolution, on the grounds that it was contrary to the practice of the House to enter upon any such business on the first day of the Session.

Mr. Fisher.—Mr. Speaker, I am anxious to know what are our resources, and what means must be taken for raising a revenue, at an early day, and not go blundering on with out knowing what we are doing.

(Here the discussion was interrupted by the announcement of a message, which proved to be the official returns of the Sheriffs of York, St. John, and Northumberland. Mr. Allen was then appointed to see that Mr. Wilnot was qualified to take his seat. Mr. Partelow was appointed to perform the same duty for Mr. Hazen, and Mr. Wark for Mr. Street, who having attended to that duty, and reported the three gentlemen above-named duly qualified, they were presented to the Speaker, and took their seats.)

Mr. W. H. Street then rejoined in reply to Mr. Partelow, by urging the necessity of discussing the Revenue Bill at an early day, and that it be printed so that people might read it, and express their opinion on the matter, observing that the Revenue Bill of last year—and which has given rise to so much complaint—was brought forward almost at the last hour, and hurried through the House without any time for consideration.—The motion was then agreed to, and Tuesday next named as the day.

The House adjourned at an early hour until ten o'clock the next morning.

FROZEN UP.—We observe by our American papers that the harbours of New York and Boston were frozen up, and that a meeting was held in Boston last week, for the purpose of cutting a channel through the ice. Several hundred dollars were subscribed and a large channel was cut, through which the Royal Mail Steamer Britannia proceeded to sea on the 3d inst.

TURN ABOUT, &c.—We issued free numbers of the *Standard* within the last month, January—and altho' the present month is the shortest in the year, our contemporary the *Courant* will issue free numbers of that journal during the month.

The Toronto Patriot of the 19th ult states

that it was reported in that town the previous evening, that the Hon. Henry Sherwood had been appointed Solicitor General.

THE FISHERIES.—We have seen two petitions, now in course of Signature, one from the Parish of Grand Manan and West Isles, the other from this Parish, praying the Legislature to take into consideration the present state of our Fisheries, and pointing out in forcible terms, the necessity of fostering this important branch of business, by granting a bounty to the fishermen. We trust that they will be generally signed, and the prayer of the petitions may be complied with.

☞ We copy the following extract from an English paper—would that he had some of that weather:—

The weather was so remarkably fine at Alnwick on Christmas Day, that a number of boys were seen bathing in the River Aln, near that town. Several persons were angling, numerous insects were on the wing, the song of some warblers was heard, and the whole had more the appearance of spring than winter.

Provincial Loan.—We understand says the *Head Quarters*, Tenders of the needful have been received from these parties:—The Bank of British North America at 5 1-2 per cent, the Bank of New Brunswick at 6 per cent, and a Mr. Samuel at Miramichi at 6 per cent. We may therefore infer the Bank of B. N. America's will be accepted.

Fire at Woodstock.—On Sunday evening the 14th inst., six buildings (3 houses and 3 barns) were burned. The whole loss is estimated at about £455, no insurance was effected on any part of it. The following are the names of the sufferers, with their respective losses.—James McCann, £300; E. W. Tweedle, £50; Thomas Brownlow, £40; Thomas Brown, £40; Stephen Tracy, £25.

According to the New York True Sun, it is believed that the Legislature of Pennsylvania will not adjourn without making some provisions for the payment of the interest on the state debt.

The Richmond Warg, contains a letter from a correspondent at Washington, dated January 15, which states that it is currently reported in that city, that the friends of Mr. Van Buren have in their hands a letter from him, requesting his name to be withdrawn as a candidate from the Presidency.

ERRATA.—In the letter, published in last week's paper, addressed to the Rev. J. Alley &c. the intelligent reader will discover a few errors, the most material of which, he will correct as follows:—

Macassar Oil, though I confess with but little
hope of success. After the use of one bottle, I
found my hitherto bald head covered with a soft
down, continuing the use of the Oil, much to the
satisfaction, I have now
