FINANCE DEPARTMENT,

OTTAWA, 28th December, 1880.

To the Honourable

Sir S. L. TILLEY, C.B., K.C.M.G.

SIR,—Herewith I have the honor to submit to you the Public Accounts of Canada for the fiscal year ending 30th June last, together with the usual comparative statements of the transactions of the last and preceding years since Confederation; these statements I have deemed it better to continue for the present.

The principal transaction during the fiscal year last passed was the placing in July, 1879, of a 4 per cent. loan on the English market amounting to £3,000,000 Sterling. This loan was taken up at about £95 1s 10½d, and out of the proceeds were retired maturing 6 per cent. debentures amounting to £1,268,800 Sterling. Payments were also made during the year on capital account, as follows:—

Welland Canal.....	\$1,252,924	75
Lachine Canal.....	369,566	74
St. Lawrence Canals.....	118,935	66
Ottawa Canals.....	301,257	15
St. Peter's Canal.....	80,120	54
Trent River.....	561	50
	<hr/>	
	\$2,123,366	34
Ottawa Public Buildings.....	8,730	50
Intercolonial Railway.....	\$2,048,014	60
Prince Edward Island Railway.....	16,539	82
Pacific Railway.....	4,044,522	72
	<hr/>	
	6,109,077	14
	<hr/>	
	\$8,241,173	98

The only other transaction of the year to be noticed is the large reduction which has been made in the Dominion 6 per cent. stock. This stock was created for 10 years certain, with 6 months notice of redemption, and as the period of each holding expired notice of redemption was forwarded to each holder, at the same time giving the option of converting into 5 per cent. stock: the effect has been to reduce the 6 per cent. stock \$3,699,044.68, being from \$4,121,197.25 on the 30th June, 1879, to \$422,152.57 on the 30th June, 1880; of this reduction, \$3,005,095.28 was converted into 5 per cent. stock, and the balance, \$693,949.40, was paid in cash.

The effect of these changes in the rates payable on the indebtedness of the Dominion has been to reduce the average rate on the gross debt from \$3.95 on the 1st July, 1879, to \$3.82 on the 30th June, 1880, and on the net debt for the same period from \$4.51 to \$4.37, and on the debt payable in London from \$4.57 to \$4.45

In connection with the reduction in the rate of interest payable by the Dominion on its indebtedness, I beg to draw your attention to the fact that there are certain amounts standing in the balance sheet which draw higher rates of interest than are now usually paid; I allude to the amounts due on account of compensation to Seigniors, and the Indian Fund.

The balance now at the credit of the Seigniorial Fund, \$335,840.31, bears 6 per cent. interest, and I propose to submit the papers relating to this fund to the Department of Justice, in order that an interpretation may be given as to the liability of the Government in regard thereto; and as respects the Indian Fund, which has increased some \$500,000 since Confederation, I would suggest that some enquiry be made as to whether the rate of interest thereon may be reduced. The balance of the Fund on the 30th June last was \$3,039,210.38, of which \$1,178,410.58 draws interest at 6 per cent. and the remainder at 5 per cent.

Having noticed the changes during the past twelve months, I beg to draw your attention to other matters in connection with the accounts now submitted, the most important being the amount of debt maturing between this date and the 1st January, 1885, the figures are detailed in the preliminary statements, and have yearly been so submitted, but I doubt whether except to experts, their importance has ever been generally realized.

I find that year by year Canada has to pay as follows:—

Year.	Payable in Canada.	Payable in London.	Total.
1881	54,100 00	1,321,300 00	1,375,400 00
1882	136,500 00	2,642,113 34	2,778,613 34
1883	120,250 00	1,639,580 00	1,759,830 00
1884	4,700 00	1,305,240 00	1,309,940 00
1885, January,	951,920 01	32,467,169 20	33,419,089 21
	<u>1,267,470 01</u>	<u>39,375,402 54</u>	<u>40,642,872 55</u>

in addition to the above, there is a ten thirty 6 per cent. loan, of Prince Edward Island, nominally due 1902 and 1903, but

which, I presume, will be redeemed in 1882..... 1,091,106 66

41,733,979 21

against these amounts is to be placed the Sinking Fund of the large loan due in 1885, which on the 30th June last stood at \$5,489,073.43, leaving to be provided for from that date (30th June), to 1st January, 1885, \$36,244,905.78; a small part of this, however, is held by the Dominion Government in investments, and as a portion of the Sinking Funds of other loans, the amount so held being altogether about \$1,300,000. If these investments were replaced by other investments in Dominion

4 per cent. loans, so much of the larger payment due in 1885 might be anticipated; however that may be I deem the maturing debt to be such an important factor in the near future as to demand attention at the present.

In close connection with the maturing debt is the question of the borrowing powers possessed by the Government—these powers are of two kinds, the limited and unlimited. I have very carefully gone over the limited part contained in statement of the loans authorized, issued and redeemed as it stands from 1869 to the 30th June last, and find, after revision, that on the 30th June last the Government had at their disposal the power to borrow the sums aggregating \$14,897,962.27, and made up as follows:

(a) Amount unissued for Intercolonial Railway.....\$2,433,333 33

I have retained this amount in the statement, although from the prospectus of the last loan making provision for the purchase of the Riviere du Loup Branch, it might have possibly been considered as then used.

(b) Amount unissued for the North-West territory..... 1,460,000 00

(c) Amount unissued for improvement of the St. Lawrence..... 1,500,000 00

Against this advances have been made from time to time to the extent of \$1,306.00.

(d) Amount unissued for improvements of Quebec Harbor 1,200,000 00

Advances have been made on this account to the extent of \$1,149,140.00.

(e) Amount unissued for Quebec Graving Dock..... 500,000 00

The advances on this account amount to \$125,000.00.

(f) Amount unissued for Pacific Railway and Canals 4,866,666 67

Being made up of the Imperial Guarantee £600,000, and a balance unissued of £400,000 out of £8,000,000, originally authorized. The bonds bearing the Imperial Guarantee are held as a reserve for the Dominion note circulation.

(g) Balance unissued for other purposes..... 2,937,962 27

It will be necessary, therefore, if any action is to be taken towards meeting the maturing debt, and otherwise to pay for capital expenditure, that Parliament should grant to the Government additional borrowing powers, and assuming that such powers will be given, I beg to suggest that for the reasons of the sums being nearly

all spent or advanced, it would but be fair to include in the general purposes power the amounts authorized for the construction of the Intercolonial Railway, the improvements of the St. Lawrence, and of Quebec harbour, and for the construction of the Quebec Graving Dock, retaining, however, the extent to which advances may be made for these purposes. The better course, however, would be to cancel the present balances and grant a specific sum for all purposes.

In making this suggestion, I beg further to recommend that provision should be made for issues of stocks, and that a limit be assigned to such issues. At present power has been granted to create a 4 per cent. stock, but the power has never been exercised, and as the 5 per cent. stock list is closed practically, there is with the exception of the Savings Bank, of which I shall treat in the next paragraph no means by which a person, resident in Canada, may invest in Government securities.

Regarding the Savings Banks I find that no limit to the borrowing power has been placed in the Post Office Savings Bank Act, nor in the Act 34 Vic., c. 6, which governs the Savings Banks worked by this Department. This does not much matter as the balances allowed to be placed at deposit by single depositors are strictly limited, but I beg to submit for your consideration the desirability of investing the Savings Bank deposits, after certain limits, in Dominion Government securities, and in this connection it might not be out of place to draw attention to the large increase in Savings Bank deposits during the year, amounting to \$1,800,000.

In my last report I submitted, for the consideration of the Public Accounts Committee, that in my opinion the time had arrived when it was proper that the balance sheet should be carefully revised, and that all items therein contained which were doubtful, should be subject to examination, and that if necessary should be adjusted. Action on this, for good reason, never took place. I now again recommend this matter to the favourable consideration of the Public Accounts Committee, and I also trust that ere the present fiscal year closes, the long unsettled accounts between the Dominion and the Provinces of Ontario and Quebec will be adjusted and removed from the balance sheet. I had hoped that in the year just closed this settlement would have been effected, but owing to my illness the matter had to remain over. Shortly, however, after my return from England, I was requested personally and by letter by the Treasurers of the respective Provinces, to furnish full accounts since Confederation, and I have been enabled to comply with the demand. These accounts are now I believe being examined by the officers of the Treasury Departments of each Province, and the respective debits and credits are being duly apportioned either to Ontario or Quebec as the case may be. That this matter is of the utmost importance to be early settled is shown by stating one simple fact, which is: after the present half year the balance of the Clergy Reserve Fund, Upper

Canada, will be exhausted, and that consequently some arrangement must be at once made to pay the pensions to the annuitants.

I am glad to be able to inform you that since my last report I have been enabled to comply with the 48th section of the Audit Act, and render to the Auditor-General those other statements besides appropriation accounts which are to be examined if the Minister of Finance so requires; and that now, as far as the Finance Department is concerned, the provisions of the Audit Act have all been fully carried out with but one exception. This exception I fully anticipate will be remedied during the present fiscal year, and as it relates to the "Interest on Public Debt" Service, I beg to explain it fully.

I found, when I took over charge of the late Department of the Receiver-General that the financial agents in England were, and are still for that matter, in the habit of charging the full amount of interest payable on the public debt, and that for some time previously the coupons had not been regularly sent out to Canada. I thought it best to get these coupons out and endeavour to find out what interest was outstanding. This took some time, and when the books were fully written up, I found that one house had sent out with the cancelled coupons lists of all outstandings, whilst the other house had not. I then had lists made out from our own books, intending to send them to England to be compared, but shortly afterwards I became seriously ill, and the matter remained in abeyance. When I was able to resume work, I went to England, and found that it was customary with many houses to charge the full amount of interest payable on each due date, that practically within a short time the whole of the coupons were paid, that the unpaid coupons on bonds domiciled at Messrs. Glyn, Mills & Co. amounted only to somewhere over £100, but that at Messrs. Barings the amount was between £2,000 and £3,000. This last amount did not seem to me to represent lost coupons, but in all probability represents interest charged in London on bonds converted into stock in Canada. I requested that the amount should be placed to the credit of the Receiver-General in the general account, but I was asked to have the matter deferred until Messrs. Baring closed their books on the 31st December, when the outstandings would be credited to the Receiver-General, and full lists be sent out. I thought it desirable to have the matter closed at a definite period, and consented thereto, and, as a consequence, on this point for the present the examination by the Audit Office has been delayed, but, as I have before stated, it will be rectified during this present fiscal year.

I think I have noticed all matters calling for remark in the Public Accounts, but connected with the Finance Department is a matter requiring a little attention. I find that the provisions of the Act 34 Vic., cap. 4, establishing one uniform currency for the Dominion of Canada, have not been extended to the newer Provinces, and I would suggest that legislation be procured during the present Session to amend the Act in that direction.

I have only further to mention that I have received from the officers of the Department generally steady and constant support in carrying out the administration of its affairs, and that I am greatly indebted to many of them for most zealous and efficient help, given at a time when it seemed very possible that I should never again be able to return to duty.

The whole of which is respectfully submitted,

J. M. COURTNEY,

Deputy Minister of Finance.
