# Opportunities in Manitoba

## General Information

**AGRICULTURAL COLLEGE.** The Manitoba Agricultural College at Winnipeg was first opened in 1906. The College confers the degree of Bachelor of Science in Agriculture on those who have successfully pursued the five winters' course in Agriculture. The cost per year is \$120, as follows: Registration fee \$10, laboratory fees \$3.50, dairy and shop suits \$3, books \$10, laundry \$5 to \$10 and board and room in the dormitories at \$4 per week for 20 weeks. The cost of the 5 months' course for women in Home Economics is \$99.50.

**AGRICULTURAL TRAINS.** In connection with the Manitoba Agricultural College the province has established a system of agricultural trains equipped with a special staff of instructors and lecturers, which are run over practically every line in the province.

**AREA.** Total area of Manitoba to-day is 251,832 sq. miles. In 1912 the province was extended northwest to the 60th parallel and eastward to a line drawn from the northeast angle to the original boundaries of the province to the most northeasterly portion of Island Lake, thence northeast to intersect the southern shores of Hudson Bay in longitude 89 degrees. This district is 178,000 sq. miles, *i.e.*, over 4,000 sq. miles larger than the old province of Manitoba.

**AREA CULTIVABLE.** The province, exclusive of the northern area added in 1912, has over 30 million acres of land that can be cultivated to advantage, about 5 million of which is under cultivation. Total acreage under grain was 5,821,864 acres and total grain crop 160,232,487 bushels in 1911. In 1912 total acreage was 6,235,557 acres (see Grain Crops, page 12).

**CLIMATE.** Climate conditions are uniform throughout the province. There is much sunshine. Summers are warm. Winter starts suddenly in November or December. The cold is steady, with a clear, dry atmosphere.

Snow on the prairie averages 1 ft. deep. Chief rainfall is in June. According to the table compiled for Heaton's Annual by the Meteorological Office at Toronto, the mean annual temperature at different points is as follows: Brandon, 33.9; Channel Island, 30.9; Elkhorn, 33.7; Emerson, 35.9; Hillview, 32.7; Minnedosa, 34.1; Portage la Prairie, 35.2; Russell, 31.3; Sourisford, 33.8; St. Albans, 34.8; Stony Mountain, 33.8; Treherne, 34.9; Winnipeg, 34.9. See under "Rainfall" below.

**COST OF LIVING.** The following are retail prices at Winnipeg in March, 1912, as given in the Dominion Labour Gazette: Bacon 25c., beef 14c., bread 5c., butter up to 45c., cheese 20c., coal per ton (2,000 lbs.) \$7.00, coal oil 30c., coffee 40c., eggs (per dozen) 35c., fish, fresh, 15c.-18c., flour 4c., lard 20c., milk (per quart) 12c., mutton, 22c.-25c., pork (salt) 20c., potatoes (per bushel) 75c., rice 5c., sugar 6½c., starch 10c., tea 40c., vinegar 15c., wood (per cord) \$8.50, rent varies greatly. Average rent of a house in Winnipeg of 4 to 6 rooms is \$12.00 to \$25.00.

**DOMINION HOMESTEADS—HOW TO MAKE SELECTION.** Homesteads in the Prairie Provinces are being rapidly take up. It is, therefore, practically impossible to make a selection by correspondence. First visit in person the office of J. Bruce Walker, Commissioner of Immigration, near the C.P.R. Station at Winnipeg. Here maps can be consulted and definite information obtained of Dominion Lands unallotted to date, the character of the soil, and a description of any district. Choose a locality and make alternative selections of homesteads, then apply to the Dominion Lands Agent in that locality.

**DOMINION HOMESTEAD REGULATIONS.** The land is surveyed into townships 6 miles square, divided into 36 sections of 640 acres each. Sections 11 and 29 are reserved for school purposes; sections 8 and 26 belong to the Hudson's Bay. Other sections are available for homesteading. Any person who is sole head of a family, or any male over 18 years old, who is a British subject, or declares his intention to become a British subject, or a widow with minor children of her own dependent on her for support, may, on paying \$10, obtain entry for a quarter section (160 acres more or less) of Dominion Lands in Manitoba. Applicant must appear in person at the Dominion Lands Agency or sub-agency for the district. Entry by proxy may be made at any agency for a father, mother, son, daughter, brother or sister, if eligible, and when duly authorized by the prescribed form. Duties:

erection of a habitable house, 6 months' residence and cultivation of land in each of 3 years. A homesteader may live within 9 miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister, or upon a homestead entered for and occupied by them within the prescribed distance. Before applying for patent, homesteader must break 30 acres and crop 20, part of work being done each year. If residing in vicinity, as stated above, he must break 50 acres and crop 30 acres.

**EDUCATION.** A School District may be formed as soon as there are ten children of school age in a section. The Government grants to public schools consist of 65c. per day for 200 days' operation each year. In a number of cases the rural districts have been consolidated and children are conveyed to the schools from their homes. Greater efficiency is thus secured. In 1911 the attendance of the public schools was 80,848. There are in the province 8 free Collegiate Institutes, 16 free High Schools and 53 free intermediate schools. In 1911 126 teachers attended the Provincial Normal School at Winnipeg. In June, 1912, Manitoba University at Winnipeg had 12 professors, 2 assistant professors, 9 lecturers, 3 demonstrators and 746 students. See also "Agricultural College," page 3.

**FISHERIES.** The total value of Manitoba and Keewatin fisheries in 1910-11 was \$1,302,779, of which Lake Winnipeg contributed \$537,071, Lake Manitoba \$360,302 and Lake Winnipegosis \$186,724. The catch included whitefish \$326,347, pickerel \$378,396, besides pike, sturgeon, perch, tullibee, catfish, goldeyes, etc. It is expected that valuable sea fisheries will be developed in the Hudson Bay lately acquired by the province.

**FORESTS.** In Northwest Manitoba the true forest extends as far as Duck Mountains. There is timber for fuel and building on the Eastern slope of the first steppe, and fuel is found skirting the rivers and lakes. In the extreme east the forest extends 80 miles into the province and there are some sawmills. In the west there are small forest areas. Timbered areas exist on the Turtle Mountains and the Brandon Hills. The principal trees are white spruce, black spruce, aspen (or white poplar), balm of gilead, birch, jack pine and tamarac, also sparingly, basswood, green ash, Manitoba maple, white elm and burr or scrub oak. The Dominion lands are administered by the Department of the Interior. Area of Dominion forest reserves, 357 square miles.

## GENERAL INFORMATION

**FREIGHT RATES.** The following table shows difference in 1912 between freight rates per 100 lbs. on wheat to Port Arthur from points in Manitoba and from points in the Western Provinces, with equivalent per acre on a crop of 20 bushels:

|                            |                 |
|----------------------------|-----------------|
| Winnipeg, Man.—10c.....    | \$1.20 per acre |
| Boissevain, Man.—13c.....  | 1.56 per acre   |
| Brandon, Man.—13c.....     | 1.56 per acre   |
| Edmonton, Alta.—25c.....   | 3.00 per acre   |
| Lethbridge, Alta.—23c..... | 2.76 per acre   |
| Battleford, Sask.—24c..... | 2.96 per acre   |

The following figures show difference in freight rates per 100 lbs. on live stock between Western Provinces and Manitoba to Winnipeg Market:

Edmonton, Alta., 40c., Virden, Man., 19c., difference 21c. on an animal of 1,400 weight, \$2.94; Lethbridge, Alta., 43c., Deloraine, Man., 20c., difference \$3.22; Calgary, Alta., 45c., Melita, Man., 19c., difference 26c., or \$3.64.

**GRAIN CROP.** In 1912, 50,000 farmers garnered 182,357, - 494 bushels. For particulars see under "Agriculture."

**HUDSON BAY ROUTE.** From various expert opinions, optimistic and the reverse, it may be concluded that the Route is open for navigation from about the 15th July to about 15th Oct. The C.N.R. have built a line from Winnipeg to The Pas on the Saskatchewan River. From there the Dominion Government will build a line to Fort Churchill, 465 miles, or Port Nelson, 397 miles. This route will affect an average saving of 970 miles on the distance from the Western wheat fields to the Atlantic seaboard. Distance to Liverpool from Fort Churchill is 2,926 miles; from Montreal, via Belle Isle, 2,761, and via Cape Race, 2,927 miles; from New York, 3,079 miles. Write for pamphlet "Hudson Bay Route" to the Dept. of the Interior, Ottawa. See report Dept. of Railways and Canals, 1909.

### IMPORTATIONS OF AGRICULTURAL PRODUCE.

Statement showing value of importations from the United States into Manitoba as shown by Customs Returns at Winnipeg, for the fiscal year ending March 31st, 1912: Bacon and hams, shoulders and sides, \$573,569; vegetables and baked beans in cans and other air-tight packages, n.o.p., \$114,870; eggs, \$314,141; other meats, fresh, \$68,661; tomatoes and cooked corn in cans and other air-tight packages, \$8,343; mutton and lamb, fresh,

\$12,689; canned meats and canned poultry and game, \$21,712; other meats, salted, \$9,601; melons, \$8,502; butter, \$6,004; potatoes, n.o.p., \$28,092; dried and smoked meats preserved in other way than salted or pickled, n.o.p., \$3,216; sheep, \$61,262; cheese, \$1,996; tomatoes, fresh, \$30,093; horses, n.o.p., \$306,840; pork, barrelled, in brine, \$269; hogs, \$50; horned cattle, \$10,877; horses, over one year old, valued at \$50, or less, per head, \$2,311; extracts of beef and fluid extracts, not medicated, and soups of all kinds, \$17,905; poultry and game, n.o.p., \$67,452; vegetables, n.o.p., \$76,233. There is no record of interprovincial trade. All the above can be grown in Manitoba. The farmers have been too busy growing wheat.

**LAKES.** The larger lakes in the province in order of magnitude are: Winnipeg, part, 3,536,000 acres; Manitoba, 1,163,000; Winnipegosis, part, 836,000; Dauphin, 128,000; St. Martin, 80,000; Shoal, 65,000; Swan, 54,000; Waterhen, 53,000; Dog, 41,000; Lake of the Woods, part, 38,200; Ebb and Flow, 25,000 acres.

**MANUFACTURES.** According to 1912 returns of the Dominion Census office the value of Manufactures in Manitoba was \$12,927,439 in 1900, \$53,673,609 in 1910— an increase of 315.19 per cent.

**MINING.** Cement is being manufactured at Babcock, s.e. of Winnipeg, Gloucester County. Good brick clays in unlimited quantity are obtainable from the shales of the Pierre Series. Cement materials east of Lake Winnipeg and near Arnold. Several seams of lignite or brown coal have been found on the northern flank of Turtle Mt. in the southwestern part of the province, but no active mining has been undertaken. Large deposits of gypsum have been found in the townships lying north of Lake St. Martin. The deposits have been worked by the Manitoba Union Mining Company. The crude gypsum is shipped from the mines (Gypsumville) north of Lake Winnipeg, where it is ground and calcined and sold as wall plaster. Salt is found at Salt Creek west of Lake Dauphin, Salt Point, south end of Lake Winnipegosis, at mouth of Swan River and many other places.

**MOUNTAINS.** The mountain elevations are the Porcupine, the Duck and the Riding Ridges in the west; the Turtle and the Tiger Hills in the south. The highest point in Manitoba is in the Porcupine Mountains, 2,500 feet.

**NORTHERN MANITOBA.** The new District added to Manitoba (see under Area) contains Port Nelson and

Fort Churchill, the only two ports of Hudson Bay. It is practically unexplored, but is known to contain large areas of clay land where vegetables and barley do well and wheat can be grown, also merchantable timber, pulpwood, iron, gold, copper, and other minerals. Write for pamphlets, "The New Northwest" and "The Hudson Bay Route," to the Secretary of the Dept. of the Interior, Ottawa.

**POPULATION.** According to the Dominion census returns, the population of the province was: In 1881, 62,260; in 1891, 152,506; in 1901, 255,211; in 1911, 455,614. Between 1901 and 1911 the rural population increased 70,511; the urban 129,892.

**RAILWAY TRANSPORTATION.** Manitoba had 1,900 miles of railway in 1910, over 4,000 miles in 1912. It is crossed by three transcontinental lines: the C.P.R., C.N.R. and G.T.P. (See also under Hudson Bay Route).

**RAINFALL.** According to the table compiled for Heaton's Annual, 1913 edition, by the Meteorological Office in Toronto, the average annual rainfall in inches at different points is as follows: Brandon, 17; Channel Island, 17; Elkhorn, 17; Emerson, 22; Hillview, 22; Minnedosa, 15; Portage la Prairie, 17; Russell, 17; Sourisford, 18; St. Albans, 17; Treherne, 17; Winnipeg, 22.

**RIVERS.** The rivers all run from the eastern and western sides of the province to the lower levels in the middle, draining into Hudson Bay. The principal rivers are: Red, Assiniboine, Winnipeg, Pembina, all having several tributaries.

**SCHOOL LANDS.** These comprise Sections 11 and 29 in every township in Manitoba. They are administered by the Dominion Government in trust for the province and can only be disposed of by sale at public auction to the highest bidder, subject to a certain upset price. The sales are held yearly, provided the conditions are favorable, the lands being first inspected and valued to determine the upset price. Terms: One-tenth cash, and the balance in 9 equal annual instalments with interest at 5%. Scrip or warrants are not accepted in payment. There are no settlement conditions. Grazing permits for these lands are also granted annually at the rate of 6c. per acre in Manitoba. Leases for coal mining are issued for a term of 21 years at a rate of \$1 per acre and subject to a royalty of 5c. per ton. The revenue from these lands is invested in Dominion securities and the interest thereon paid to the province yearly to be

used for educational purposes. Approximate area of school lands in Manitoba sold to 1st April, 1910: 588,427.21 acres.

**SPORT.** Antelope, at one time common, are no longer found in Manitoba. The black bear is common in wooded parts. Coyotes are abundant generally. Virginia, or white deer, are found across Northern Manitoba, weight about 300 lbs. Mule deer are only occasionally found in the province, average weight 275. Wapiti, or elk, found in the northwestern portion of the province, are said to be more numerous now than at any time during the past fifty years. The full-grown buck weighs 600 lbs. and occasionally over 1,000 lbs. The woodland cariboo is found in wooded districts in the northeasterly portion. It is intermediate in size between the elk and the white tail deer. Lynx and wild cat are found throughout the wooded parts. Foxes are abundant. Wolves are common. The Canadian goose, the North or Brant goose and the Wavry or White goose are the most common breed. Of duck, mallard, canvas-back, widgeon, teal, blue-bill, red head, merganser, and spoon bill are found in White Water Lake, White Mud Lake, Plum Lake, Maple Lake, Oak Lake, Lake Manitoba and Lake Winnipeg, as well as other waters. Prairie chicken are common. Partridge (wood grouse) are found in the wooded districts.

**WAGES.** Agricultural Laborers: Receive \$25 to \$40 a month with board in the summer months; \$5 to \$20 in winter. In harvest time skilled harvest men receive \$30 to \$50 or \$2 to \$3 a day, subject to deduction on account of wet weather. General Laborers: \$2 to \$3 a day without board. Lumbermen in logging camps \$30 a month with board. Mechanics: At Winnipeg as follows: Bricklayers and masons 67½c. per hour, with a 7 or 8 months' season; plasterers, 50c.; carpenters, 35c. to 45c.; sheet metal workers, 41c.; tailors, \$17 per week; compositors, \$3 to \$3.33 a day. Domestic: Cook, general, \$15 to \$35 a month, with board and lodging.

## Agriculture

**ALFALFA.** The Department of Agriculture has established 13 demonstration plots of half an acre each and upward in various parts of the province, with satisfactory results in every case. Many farmers are making this crop one of their staple products. In 1911, 3,521 tons were obtained from 3,902 acres. Apart from its value as a cured fodder it forms a most desirable pasture. See Alfalfa under Western Canada.

**BEEKEEPING.** The luxuriant vegetation, and the increasing cultivation of a number of varieties of clover, make bee culture easy and profitable. The market is large in the home cities. The highest record at the Provincial Department of Agriculture is 9 lbs. per day for 10 to 14 days, and 120 lbs. per year. The industry is largely on the increase.

**CATTLE.** There is an increasing demand for stockers. An immense crop of coarse grains and fodder is easily raised. With a greater supply of help greater attention will be paid to feeding fat cattle. The Manitoba Cattle Breeders' Association hold an annual sale of pure-bred cattle at Brandon. In 1911 there were 407,611 cattle in the province.

**CATTLE—CHAMPION STEER.** Glencarnock, the big Angus steer, declared the champion of the 1912 International Live Stock Exposition at Chicago, was reared by J. B. McGregor, of Brandon, Man.; weight 1,412 lbs. This steer was sold for 50c. per lb. on the hoof.

**DAIRYING.** Dairying is still on a comparatively small scale. In 1912 the output of creamery butter was 2,931,138 lbs.; value, \$820,718.64; average price per lb., 28c. Dairy butter, 4,333,905 lbs.; value, \$1,014,158.14; average price per lb., 23.4c. Cheese, 536,618 lbs.; value, \$69,760.34; average price per lb., 13c. Total value of dairy products, \$1,904,637.12. In 1911, the output of dairy butter was 4,547,827 lbs.; creamery butter, 3,090,579 lbs.; cheese, 560,725 lbs. The decrease in the 1912 output is accounted for by the increasing consumption of cream and milk, as such, in the city of Winnipeg, the value of which in 1912 was at least \$750,000.

**FLAX.** The high prices prevailing for flax have induced many farmers to sow more of it than in other years. In 1912, 196,315 acres were under crop as against 85,836 acres in 1911 and 41,002 acres in 1910.

**FODDER CROPS.** Of cultivated grasses the yield in the province in 1912 was: Brome, 47,337 tons from 25,152 acres, average 1.8; rye, 28,315 tons from 17,473 acres, average 1.6; timothy, 192,783 tons from 114,899 acres, average 1.6; clover or alfalfa, 13,806 tons from 6,572 acres, average 2.1.

**FRUIT GROWING.** Plums, currants, raspberries and strawberries do well. Crabapples are plentiful, and some varieties of larger apples have grown to maturity and do

well, producing good returns. Over 40 varieties are now grown at Nelson by A. P. Stevenson.

**GRAIN CROPS, 1912.** The estimate of the yield of the four principal grain crops of Manitoba, prepared from returns received by the Department of Agriculture of the province from about 770 correspondents, is as follows :

|                | Acres sown. | Bushels per acre. | Yield, bushels. |
|----------------|-------------|-------------------|-----------------|
| Wheat . . . .  | 2,823,362   | 20.7              | 58,433,579      |
| Oats . . . . . | 1,939,982   | 46.0              | 87,190,677      |
| Barley . . . . | 962,928     | 35.1              | 33,795,191      |
| Flax . . . . . | 196,315     | 13.6              | 2,671,729       |

In 1911 the total yields of the four grains were : Wheat, 61,058,786 bush., average per acre, 18.29. Oats, 73,786,683 bush., average 45.3. Barley, 23,999,239 bush., average 31.5. Flax, 1,205,727 bush., average 14.0. The total grain crop of 182,357,494 bushels in 1912 shows an increase of about 22,000,000 bushels over the total in 1911.

**HORSES.** The Clydesdale breed predominates. There are many Percherons, Shires and Standard Bred horses. Many horses are imported from Ontario. In 1911 the horses in the province numbered 251,572. Present prices rule high. A good pair of Clydesdales will fetch \$600.

**POULTRY.** In 1911 farmers disposed of 134,097 turkeys, 64,407 geese, and 743,277 chickens. Insufficient eggs are produced for home consumption; imports from Ontario and Minnesota are large. Some turkeys and chickens are imported from Ontario. Of hens, Plymouth Rocks, Wyandottes, Rhode Island Reds and Orpingtons are best adapted to withstand the Western winter; of ducks, the Pekin, Rouen and Indian Runner do best; of geese, the Embden and Toulouse, and of turkeys, the Mammoth Bronze are the most commonly raised.

**ROOTS AND VEGETABLES.** Potatoes, parsnips, carrots, cucumbers, cabbages and cauliflowers grow to a very large size. Root crops are not largely grown for feed. In 1912, 10,734,612 bush. of potatoes were grown from 51,878 acres, an average of 206 bush. to the acre. Of other roots, 3,895,118 bush. were grown from 14,109 acres, an average of 276 bushels to the acre. Crop is much neglected.

**SHEEP.** It is doubtful if there are more sheep in the province than there were 20 years ago. This is attributed to the loss from prairie wolves, and the expense of proper fencing, which necessitates the maintenance of large flocks. The Winnipeg market is supplied chiefly from the Western

ranches and New Brunswick, Shropshires and Leicesters are the popular breeds. Total sheep in province, 37,227 in 1911. Average annual wool clip, 135,500 lbs.

**SWINE.** With the development of mixed farming more hogs are being raised. In 1911 the number of hogs in the province was estimated at 192,386. The daily average received at Winnipeg is about one-sixth of the capacity of the four packing houses at Winnipeg, which partially supply the requirements of the province. The most common breeds are Berks, Yorkshires and Tamworths.

**THRESHING OUTFITS IN OPERATION.** In 1912, 3,686 threshing outfits were employed in the province, as compared with 3,193 in 1911.

**WHEAT.** The predominant variety is Red Fife, which grades hard, and is known as "Manitoba Hard Wheat." It fetches a higher price than any other variety grown. Fall wheat has been grown in some districts, but not to any great extent. The fall weather generally is too dry. For crop and acreage see Grain Crops. See also Western Canada, Winter Wheat, and Wheat Profit per acre.

# Boards of Trade Register

When Writing to a Local Reference, Mention  
Should be Made of Heaton's Annual

*This Gazetteer is revised every year and includes certified official returns from local Boards of Trade and the municipal authorities of towns where no Board of Trade is established. Information is given generally as received. The Editors reserve the right to use information obtained from other reliable resources and to edit the returns made, but they cannot, for obvious reasons, from their own knowledge, vouch for the absolute accuracy of every detail in each case. As a general rule, entries in this Register are confined to towns over 400 population in the West. Exceptions are made in special cases. Where possible, a reliable local reference is given, who will supply further information upon request.*

**ABBREVIATIONS.**—Tel., Telegraph; Ex., Express; m., miles; Pop., Population according to Returns of Census, 1911; Pop.\*, estimate of Mayor or local Board of Trade. Alt., Altitude—ft. above the sea level. Altitudes are given as furnished by the Dominion Meteorological Office at Toronto.

**POPULATION STATISTICS.**—The rapid settlement of Western Canada makes it extremely difficult to give accurate population statistics. As a rule the last Dominion Census figures are given. If these are misleading, wherever possible the figures are taken from local estimates, based on Assessment Returns or a Special Civic Census.

### ANNOUNCEMENTS

*Announcements concerning lands will be accepted only from responsible firms of recognized standing, personally known to the Editors. The Editors reserve the right to edit matter received. For descriptions of districts referred to in the headings of these Announcements, see above.*

NOTE.—The Government of Manitoba is not responsible for announcements under this heading.

**CANADIAN PACIFIC RAILWAY LANDS.** *Mixed farming may be carried on under ideal conditions in Manitoba, which, in addition to grain-growing lands of the richest quality, has all the important factors necessary to the successful raising of live stock. The Canadian Pacific Railway Company has for sale at very reasonable prices several hundred thousand acres of land in this province, and map and prices may be obtained on application to J. S. Dennis, Assistant to the President, C.P.R., Dept. of Nat. Resources, Calgary, Alta.*

**CORNWALLIS MUNICIPALITY—BRANDON DISTRICT—ROBERT E. DENNY.** *We have for sale at fair prices farm lands in the celebrated Brandon District, with its splendid possibilities for grain growing, mixed farming and horse and cattle raising. Fine scenery. Good market at Brandon, and a network of railways giving access to all points east and west. This district has won numerous prizes at Canadian and International Exhibitions. We have had several years' experience here and will furnish full information. Robt. E. Denny, P. O. Box 1014, Brandon, Man.*

**RED RIVER VALLEY.** *This famous district, 40 miles broad by 65 miles long, comprises the municipalities of St. Vitals, Macdonald, De Salaberry, Ritchot, Montcalm and Franklin. Write to Dept. Agriculture, Winnipeg, for pamphlets issued by the Southern Manitoba Red River Valley Association.*

**WALLACE MUNICIPALITY—ELKHORN DISTRICT—R. DE W. WALLER.** *I have raw lands for sale in this district at moderate prices and on easy terms, within 3 to 7 miles of Elkhorn town, on main line of C.P.R. Also improved farms, served by creamery. Elkhorn District has won numerous prizes for wheat in competition with the Province. My experience of 20 years in the district is at the disposal of intending farmers or investors. Correspondence invited. R. de W. Waller, Elkhorn, Man.*

**WINNIPEG DISTRICT.** *Free homesteads of 160 acres each may be had within 125 miles of Winnipeg, with government and school lands at from \$3 to \$6 per acre. Excellent mixed farming country, being the bed of a prehistoric ocean; the land is very fertile and produces large crops without fertilizer of any sort. Average yield of bushels per acre in 1911: Wheat, 21; oats, 47; barley, 31. Excellent grass for hay grows wild and costs about \$1.25 per ton to put up in stack. Winnipeg's 200,000 people, with 20,000 added in suburbs, affords excellent market for all produce. See under Descriptions of Towns. Maps and full information furnished free by Chas. F. Roland, Commissioner Winnipeg Development and Industrial Bureau, Permanent Exposition of Industries and Resources, Winnipeg, Man.*

### Yale to the Coast

At Yale he feels the balmy air of the Pacific. At Spence's Bridge he saw a curious Indian cemetery, with rudely carved birds perched even on the Cross, the totem intruding on the Christian symbol. All down the canons he has seen occasional natives fishing for salmon or wash-

ing for gold, and at Agassiz he finds a fine government experimental fruit farm, while five miles away to the north is Harrison Lake with its hot sulphur springs, the visitors at which stay at Harrison Springs Hotel.

At Mission Junction he can, if so disposed, change to the branch line, that runs to the international boundary and there joins the Seattle and International Railroad. By this route he reaches Seattle and makes connection with the Shasta route for San Francisco and all the Pacific states. The mainland, however, keeps on past

Westminster Junction, the station for New Westminster, and arrives at the terminus of the Canadian Pacific Railway at Vancouver.

There he finds his long journey ended and himself on the shores of Burrard Inlet, one of the finest harbors on the Pacific. If the inducements of Vancouver and the Canadian Pacific Railway Hotel Vancouver do not tempt him to stay, he can embark at the very railway station on steamers that will take him to the ends of the

earth. The Canadian Pacific Railway Empress steamers will transport him swiftly and comfortably to Japan or China, the Canadian-Australian line runs regularly to Honolulu, Fiji, Australia, and New Zealand, while if such long journeys do not suit his pleasure, he can sail by a Canadian Pacific Railway daily steamer to Victoria, on Vancouver Island, or take longer coasting trips to Skagway or to Seattle.

For Vancouver has a fine harbor, landlocked, well-lighted and safe, to which resort besides the liners already mentioned freighters from all parts of the world. They bring silks and teas from the Orient; they take away the lumber and canned fish of British Columbia and the wheat and flour of the Northwest; and they make the port one of the most important of the Pacific Coast.

The city, though only nineteen years old and burnt to the ground in 1886, now numbers 30,000 and is the centre of flourishing industries. Of these the most important is lumbering, the preparation for the market of

"toothpicks," 112 feet long by 24 inches square, from the splendid Douglas firs of the province. Other industries there are in plenty and Vancouver has everywhere the appearance of a rapidly progressing community. Its well-built, wide streets add to the impression, and the extremely picturesque surroundings of the city make it pleasant as a residence and delightful to visit. On either hand distant mountains shut in the view and the waters that nearly surround the city add much to its picturesqueness. Stanley Park is its crowning glory, in the depths of

which the Douglas fir and giant cedar are seen in all their magnificence and nature is allowed to display her unspoiled beauty.

A few hours steam from Vancouver is Victoria, the capital of British Columbia. Across the straits of Georgia daily plies the fast, new Canadian Pacific Railway steamer, "Princess Victoria," passing through a world of small islands, comparable to the Thousand Islands of

the St. Lawrence, though with infinitely finer timber. Victoria itself is a city of lovely homes, and the seat of the Provincial Government, its Parliament buildings being one of the handsomest piles on the continent. Beacon Hill Park, 300 acres in extent, is no less beautiful than Stanley Park.

From it, too, are to be seen on the mainland, the snow-capped summits of the Coast and Olympian Mountains. Along the open valley after Yale, even in Vancouver or on the delightful steam across to Victoria, the tourist is with the mountains still. They do not close him round, as they have since he traversed The Gap; they are not close, insistent, compelling admiration and awe for their majesty and might; but they are ever in sight, lining the horizon with an array of heights that will keep him in mind of all he has seen on his eventful journey. Across Burrard Inlet to the north the Coast Range shuts in the prospect, while Mt. Baker to the south-east raises a lofty crest towards the heavens. Snow-crowned, pure and wonderful they stand, changeless and immovable, and as the traveller watches the sun's rays steal from one peak to another, tinging this with golden light and tinting that with all the colors of the rainbow, he feels that even the beauties of the plains are as nothing to those of the hills.

# Canadian Pacific Hotels

While the perfect sleeping and dining car service of the Canadian Pacific Railway furnishes every comfort and luxury for travellers making the continuous overland through trip, it has been found necessary to provide places at the principal points of interest among the mountains where tourists and others might explore and enjoy the magnificent scenery.

The Company has erected at convenient points hotels, which, by their special excellence, add another to the many elements of superiority for which the Railway is famous.

## ALGONQUIN HOTEL,

at St. Andrews-by-the-Sea, the popular Atlantic Seaside Resort, is situated on a peninsula five miles long, extending into Passamaquoddy Bay, which is seventeen miles long by six miles wide. Good deep sea and fresh water fishing may be enjoyed; the roads are perfect, making driving and cycling most enjoyable. The facilities for yachting and boating cannot be surpassed and there are golf links that have no superior in Canada. The attractiveness of St. Andrews-by-the-Sea bring people seeking rest and relaxation from different parts of the Continent.

The Algonquin Hotel, on which a large expenditure has recently been made in improvements, offers every modern accommodation for tourists.

The hotel rates are from \$3.00 per day upwards. Special rates to those making prolonged visits.

## McADAM HOTEL

is situated at McAdam Junc., N.B., and offers the visitor in search of sport a choice of routes through the whole province. It gives him, too, an outing at a summer retreat, free from the heat and crowds of the fashionable resorts, whence the hunting and fishing grounds are easily accessible.

The rates are from \$2.50 per day upwards.

## THE CHATEAU FRONTENAC,

at Quebec, the quaintest and historically the most interesting city in America, is one of the finest hotels on the continent. It is fireproof, and occupies a commanding position overlooking the St. Lawrence, its site being, perhaps, the grandest in the world. The Chateau Frontenac was erected at a cost of over a million of dollars. Great taste marks the furnishing, fitting and decorating of this imposing structure, in which comfort and elegance are combined to an unequalled extent.

Rates, \$3.50 per day and upwards, with special arrangements for large parties and those making prolonged visits.

For view of Chateau Frontenac, see page 11.

## THE PLACE VIGER,

at Montreal, is a handsome new structure in which are combined a hotel and station. The building which faces Place Viger is most elaborately furnished and modernly appointed, the general style and elegance characterizing the Chateau Frontenac, at Quebec, being followed.

Rates, \$3.00 per day and upwards, with special arrangements for large parties or those making a prolonged stay.

## THE KAMINISTIKWIA,

at Fort William, the western terminus of the Lake Route and of the Eastern Division of the C.P.R., is an excellent, well-appointed hotel in every respect, which offers many unique attractions as a vacation home for those in pursuit of rest and recreation in the picturesque region at the head of Lake Superior.

The hotel rates are from \$2.50 per day upwards, with special rates to large parties or those making an extended visit.

## MOOSE JAW HOTEL,

a new hotel erected at Moose Jaw, in the Canadian North-West, at the junction of the Soo-Pacific road with the main line of the C.P.R. The hotel is modernly appointed and elegantly furnished.

Rates, \$3.00 per day, with reductions to those making prolonged visits.

## BANFF SPRINGS HOTEL,

at Banff, in the Canadian National Park, on the eastern slope of the Rocky Mountains, is placed on a high mountain promontory 4,500 feet above the sea level, at the confluence of the Bow and Spray rivers, and is a large and handsome structure, with every convenience that modern ingenuity can suggest, and costing over half a million of dollars. While it is not intended to be a sanitarium, in the usual sense, the needs and comforts of invalids are fully provided for. The Hot Sulphur Springs, with which the region abound, vary in temperature from 80 to 121 degrees, and bathing facilities are provided by the hotel. The springs are much like those of Arkansas, and the apparently greater curative properties of the water are no doubt due to the cool, dry air of the mountains.

Game is plentiful, and Lake Minnewanka, not far away, a mile or two in width and fifteen miles long, affords excellent sport in deep trolling for trout.

Swiss Guides are stationed here and at the Lake Louise Chalet, Field and Great Glacier House to accompany tourists to points of attraction.

The hotel rates are from \$3.50 per day upwards, according to the rooms. Special rates to those making prolonged visits.

## Canadian Pacific Hotels—Continued

### THE LAKE LOUISE CHALET.

This quiet resting place in the mountains is situated on the margin of Lake Louise, about two miles distant from the station at Laggan, from which there is a good carriage drive, and is an excellent vantage point for tourists and explorers desiring to see the lakes and the adjacent scenery at their leisure.

The rates are \$3.00 per day. Apply to MANAGER, Mount Stephen House, Field, B.C.

### MOUNT STEPHEN HOUSE

is a pretty chalet-like hotel, recently enlarged, fifty miles west of Banff in Kicking Horse Canon, at the base of Mount Stephen—the chief peak of the Rockies, towering 8,000 feet above. This is a favorite place for tourists, mountain climbers and artists, and sport is plentiful, Emerald Lake, one of the most picturesque mountain waters, being within easy distance. The newly discovered Yoho Valley is reached from Field.

The rates are \$3.00 per day and upwards, with special arrangements for parties making prolonged visits.

### EMERALD LAKE CHALET

is a Swiss Chalet situated on margin of Emerald Lake, near Field, and affords splendid accommodation for those wishing to remain at the Lake, or who intend visiting the famous Yoho Valley, to which excellent trails lead from this point.

The rates are from \$3.00 per day upwards. Special rates to those making prolonged visits.

### GLACIER HOUSE

is situated in the heart of the Selkirk, within thirty minutes' walk of the Great Glacier, which covers an area of about thirty-eight square miles.

The hotel, which has recently been enlarged several times, to accommodate the ever-increasing travel, is in a beautiful amphitheatre surrounded by lofty mountains, of which Sir Donald, rising 8,000 feet above the railway, is the most prominent. The dense forests all about are filled with the music of restless brooks, which will irresistibly attract the trout fisherman, and the hunter for large game can have his choice of "big horns, mountain goats, grizzly and mountain bears." The main point of interest, however, is the Great Glacier. One may safely climb upon its wrinkled surface, or penetrate its water-worn caves.

The rates are \$3.00 per day and upwards, with special arrangements for parties making prolonged visits.

### HOTEL REVELSTOKE,

at Revelstoke, B.C., in the basin of the Columbia between the Selkirk and the Gold ranges, and a gateway to the West Kootenay mining region. The hotel is perched on a mountain bench directly above the railway station, and is surrounded on all sides by majestic mountains. Immediately opposite the hotel, and fifteen miles away, lies the Begbie Glacier, one of the grandest in British Columbia, amongst the highest peaks.

The rates are \$3.00 per day, with special arrangements for parties making prolonged visits.

### HOTEL SICAMOUS,

at Sicamous, B.C., a fine new structure, built on the shores of the Shuswap Lakes where the Okanagan branch of the C.P.R. leads south to the Okanagan Valley and the contiguous mining country. The hotel is handsomely furnished and has all modern appointments and conveniences. A houseboat for sportsmen and tourists can be obtained here.

Rates \$3.00 per day and upwards, with reductions to those making prolonged visits.

### THE FRASER CANON HOUSE,

at North Bend, 130 miles east of Vancouver, is situated on the Fraser River, and is managed with the same attention to the comfort of its patrons that pervades all branches of the Company's service. The scenery along the Fraser River is well described as "ferocious," and the hotel is a comfortable base from which to explore.

Rates \$3.00 per day, with special arrangements for those making prolonged visits.

### HOTEL VANCOUVER,

at Vancouver, B.C., is the Pacific Coast terminus of the Railway. This magnificent hotel, now being enlarged, is designed to accommodate the large commercial business of the place, as well as the great number of tourists who always find it profitable and interesting to make here a stop of a day or two. It is situated near the centre of the city, and from it there is a glorious outlook in every direction. Its accommodations and service are perfect in every detail, and excel those of the best hotels in Eastern Canada or the United States.

Rates \$3.00 per day and upwards, with special terms for those making prolonged visits.

Enquiries as to accommodation, rates, etc., at any of the Canadian Pacific Hotels will be promptly answered, by addressing Managers of the different hotels, or communicating direct to

# The Canadian Pacific Railway

THE WORLD'S HIGHWAY BETWEEN THE ATLANTIC AND THE PACIFIC  
THE MOST SOLIDLY CONSTRUCTED AND THE BEST EQUIPPED  
TRANSCONTINENTAL ROUTE

SPECIAL ATTENTION IS CALLED to the PARLOR, SLEEPING and DINING  
CAR SERVICE—largely added to recently—so important an accessory  
upon a railway whose cars run upwards of THREE  
THOUSAND MILES WITHOUT CHANGE

These cars are of unusual strength and size, with berths, smoking and toilet accom-  
modation correspondingly roomy. The transcontinental sleeping cars are fitted with  
double doors and windows to exclude the dust in summer and the cold in winter. The  
seats are richly upholstered, with high backs and arms.

The upper berths are provided with windows and ventilators, and have curtains  
separate from those of berths beneath. The exteriors are of polished red mahogany and  
the interiors are of white mahogany and satinwood elaborately carved; while all useful  
and decorative pieces of metal work are of old brass of antique design.

Stateroom cars are run in connection with Canadian Pacific Trans-Pacific Steamships.  
No expense is spared in providing the DINING CARS with the choicest viands  
and seasonable delicacies, and the bill of fare and wine list will compare favorably  
with those of the most prominent hotels.

OBSERVATION CARS, specially designed to allow an unbroken view of the  
wonderful mountain scenery, are run on transcontinental trains during the Summer  
Season [from about May 1st to October 13th].

THE FIRST CLASS DAY COACHES are proportionately elaborate in their  
arrangement for the comfort of the passengers; and for those who desire to travel at a  
cheaper rate, TOURIST CARS, with bedding and porter in charge, are run on stated  
days at a small additional charge; and COLONIST SLEEPING CARS are run on  
overland trains without additional charge. The colonist cars are fitted with upper and  
lower berths after the same general style as other sleeping cars, but are not upholstered,  
and the passenger may furnish his own bedding, or purchase it of the Company's  
agents at terminal stations at nominal rates.

The entire passenger equipment is MATCHLESS in elegance and comfort.
