In the year 1848, the year in which Chief Sweenie's parents brought him from Glasgow to Chicago, he was apprenticed to a saddle and harnessmaker. The following year saw him a member of a volunteer hose company. In 1856 he was elected first assistant engineer, and two years later was made chief of the volunteer department. Against bitter opposition in 1858 he organized the first fire company under full pay, and which was called the Atlantic engine company, No. 3. In 1861 he was made foreman of Liberty engine No. 7, and in 1867 was given command of the new engine, "Fred Gund," the buying of which was regarded as an epoch at that time by the citizens of Chicago. In 1873 the fire department of Chicago was re-organized, and Foreman Sweenie became Assistant Chief under Chief Matt Benner. In 1879 he became Chief. His first care in assuming the command of the Fire Department was to put it on a business basis. In an American city like Chicago, where everything in the nature of a public service takes on a political bias, this was a hard thing to do, but he suc-

The flames swept all around them, and finally scorched and I blistered, they had to turn and run for their lives, leaving their engine behind to become a prey to the fire and the general ruin. Sweenie and his men took possession of another engine over in Michigan street and then fought the flames by retreating him to talk of his achievements and a block at a time in front of the roaring mass of fire. While Chief Sweenle's work of an executive nature had been far reaching in its results, he was better known for his personal work as chief in command at all the fires of any importance that had occurred for twenty-five years. Night or day the breaking out of a fire that made a second call for engines necessary, brought him to danger's spot. Spectators at fires have stood breathlessly watching the flame and smoke until suddenly the firemen fighting back the destructive conflagration seemed to take on a fresh enthusiasm and attack with redoubled vigor the destructive besom, and the word would go around in the crowd, "the old man has come." The "old man" is a term that could be used to conjure with at Chicago fires, and it stood for only one person, and that one person was Chief Sweenie. GRANDPA'S WAY.

My grandpa is the strangest man! C. course, I love him dearly; But really it does seem to me He looks at things so queerly.

He always thinks that every day Is right, no matter whether It rains or snows, or shines or blows Or what the kind of weather.

When outdoor fun is ruined by A heavy shower, provoking, He pats my head and says, "You see, The dry earth needs a soaking."

And when I think the day too warm For any kind of pleasure, He says, "The corn has grown an inch-

I see without a measure."

And when I fret because the wind Has set my things all whirring, He looks at me and says, "Tut! tut! The close air needs a stirring!"

He says, when drifts are piling high, And fence posts scarcely peeping, "How warm beneath their blanket

Sometimes I think, when on his face His sweet smile shines so clearly, It would be nice if every one

Could see things just as queerly.

The little flowers are keeping!"

HE REPENTED. (Dumb Animals.)

A story comes from New Haven about a black spaniel that abstracted a feather duster from his owner's house, and while playing with it tore out all the feathers. The dog, after When I was a child, in a little town, being shown the featherless handle, was given a whipping. He then disappeared and about an hour afterward walked bravely into the house with a brand new duster in his mouth. He walked up to his mistress and meekly deposited the new brush at her feet. By the mark on it she saw that the dog had stolen it from a neighboring store.

THE BOY WHO WHISTLES.

I know a lad across the way ... Who whistles all the livelong day; I pause to listen, glad to hear His shrill crescendos, sweet and clear.

He's all a boy, a sturdy lad, He's always gay and always glad, For care and trouble dare not stay-He simply whistles them away.

He has his daily tasks to do, His morning chores, his lessons, too, And yet he whistles like a lark From early morn to falling dark.

The First Communion and Confirmation of 150 pupils of Loretto was a celebration. Mass was celebrated by and Donovan. Communion was given to one hundred and fifty children. In the afternoon the children assembled to renew their Baptismal Vows, receive the Scapular and be admitted into the League of the Sacred Heart. In the evening Confirmation was administered by His Lordship. Before the ceremony the Bishop gave a most impressive and instructive address. A very large congregation was present and the church was most beautifully decorated for the event.

I have GREAT hopes that this latest Mission, opened by the Bishop of Northampton, will, in due course, become a great Mission. But outside help is, evidently, neces-

May I not hope that they will, too, cast a sympathetic and pitying eye upon me in my struggle to establish an outpost of the Catholic Faith in this-so far as the Catholic Faith is concerned -- barron region? May I not hope, good reader, that you, in Wagner your zeal for the progress of that Faith, to you with all earnestness to come to my assistance. GRAND UNCLE TIMOTHY

Alma was plainly dissatisfied. "1 hate a collar band that's too wide!" she muttered, critically inspecting the neatly made waist, the result of her mother's three days of patient labor. These sleeves aren't half full enough, and I wanted hooks, not buttons; I never get what I want."

Weary Mrs. Boyce, however, paid no heed. An open letter fluttered from her hand. She dropped limply into the nearest chair. "It's your Grand Uncle Timothy!" she gasped. "Dead?" asked Alma.

"No," replied Mrs. Boyce. "He's coming to spend six weeks with us.' "Is it our turn?" asked Alma.

"Yes," said Mrs. Boyce, "it's past our turn."

Poor Mrs. Boyce was greatly perturbed. She had spent a trying morning with grumbling Alma, and although trying mornings with that inconsiderate young person were no novelty, their frequent recurrence made them no easier to bear. Grand-Uncle Timothy's news found the poor badgered lady quite unfitted for the receiving of unexpected evil tidings.

Indeed, close association with Alma, when the girl was having her wardrobe replenished, would have unfitted he looked at Ruth and said, anybody for anything. In the first place, there was choosing of the goods, a fearfully trying process, was precisely the shade that Alma had set her affections on. Mrs. Boyce, who had supposed herself, until disillusioned by Alma, fairly skillful with ways brutally frank old man, eying they made him ill, and for twelve her needle, always did the family The Course of Instruction in this Academy embraces every Branch suitable to the education of young ladies.

In the ACADEMIC DEPARTMENT special attention is paid to Modern Languages, Fine Arts, Plain and Fancy Needlework.

The Studio is affiliated with the Government Art School, and awards Teachers' Certificates.

In the Collegiate Department pupils are prepared for the University, and for Senior and Junior Leaving, Primary and Commercial Certificates.

Note the ducate distribution in this Academy dress-making. For sweet-tempered, easily pleased Ruth, two years older than Alma, the task was a genuine pleasure; but sewing for the younger girl was a burden almost too great to be borne.

During her small girlhood Alma had been delicate, and, it must be confessed, decidedly ill-tempered.

As she grew older she grew stronger, but, unfortunately, so did her temper. There were moments—usually when she was among strangers er girl was a burden almost too cle Timothy's wry countenance. It

"Are you going to make it like my blue taffets?" Ruth had asked. "No. Alma says she doesn't like plaits, that she won't have tucks, ruffles or bias folds, and that off-theshoulder effects are going out."

'What does she want?" At that moment a pevish voice had floated down the stairway. "Mother" it wailed, fretfully, "did I hear you say you were going to make tomato soup for dinner? I'm just sick of tomato soup!"

'What kind do you want?'' asked far too tolerant Mrs. Boyce.

"Oh, I don't know!" Alma had reurned, impatiently. "Anything but tomato or bean or pea soup or mutton or-'

"How would you like potato soup?" "I hate potato soup. Isn't there some kind we've never had?"

Afterwards, for almost two hours, Mrs. Boyce, with fashion plates and Provinces, excepting 8 and 28, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Stage People as Catholics

by the ancient Puritan prejudice, united with French superstition, the dramatic fraternity, which embraces actors, playwrights, managers and stage-directors, have a deep and abiding respect for the Catholic Church and for religion in general. They are simple folk, like all craftsmen who live apart from the world. They see only the picturesque and the beautiful in the Church and in religion, are not given to close study of modern books, have little concern for other interests, and are therefore easier toplease than most people. It is an immense pleasure to contrast the simple and vigorous faith of a man like Frank Keenan, leading man in The Girl of the Golden West, with the sneering spirit of the late Lord Actorfor example; the latter had all the opportunities for the development of a sublime faith, and the former belongs to the despised and supposedly immoral stage; yet Frank Keenan diffuses among all his acquaintance love and respect for the Church, is a real missionary of Christ, while the humble Catholics who read Lord Acton suffer tremendous temptations against the faith. This contrast was made more emphatic for me the other day after listening one hour to Keenan and the next to an insufferable creature, who reminded me that the Catholic body was made up of the poor chiefly, that the Catholic possible men that history had a good case against the Church, and that the clergy lacked the culture required of good leaders. It was needkeep society going; useless to tell "Where's Uncle Timothy?" asked the him that he knew nothing whatever returned traveller, who appeared much about the Catholic colleges; or, that history is being rewritten; or, that the American clergy are the superiors of any American class in the knowledge of logic, philosophy and theoloof the time. He had been brought up in the shadow of the Church, close to the Sacraments, and this was the result of the fondest care that could be bestowed on a human being. Frank Keenan had endured thirty years of stage-life, which is supposed by the virtuous to be highly demoralizing, yet confessed the faith more firmly than at the beginning of his career. The other burned with the carping spirit of Lord Acton.

Schools are built and maintained to give their children a Catholic education, the greatest benefit that can possibly be bestowed on them. The priest himself is theirs. He is ordained for them; he is at their disposal at all times; when they call him in the silent hours of the night, while the world sleeps, he rises from his couch and out into the blinding storm he hastens to them. The horrors of contagion have no terrors for him, nor does certain death affright him when duty calls him to their bedside. Like his Master he is to give his life to them if necessary. The priest is your steward and your friend. He rejoices with you in your prosperity, sympathizes with you in your adversity, grieves with you in your sorrow. When you are down he encourages you to rise and hope, and reminds you that often the darkest hour is just before the dawn. Every morning he stands for you at the altar. He puts all your sorrow and troubles into the chalice and offers them to the Eternal Father as an atonement for your shortcomings. From his hands comes to you the bread of life. You pour into his ear secrets withheld from your nearest and dearest friends, from the partner of your life-tales of sorrow, remorse and sin that weigh down your very lives, and when the tale is told he fills the vacuum left Praise for Intercolonial Railway and words of forgiveness, and bids you go in peace and sin no more. Death of Mr. Wm. Casey, Hamilton

An old and much esteemed friend and subscriber of the Catholic Register is gone to his reward in the person of Mr. Wm. Casev of Hamilton. That the deceased gentleman was respected and admired in an unusual degree was shown in many ways at the time of his illness and death, Curran, M. McNamara, A. Ferry, A. and the press of Hamilton in every instance made editorial mention of this Irishman who was "of the best type-generous, warm-hearted, highminded and in all his dealings fair and open as the day." Mr. Casey was ill only about a week, heart failure being the cause

Deceased was born in Limerick County, Ireland, in November, 1833, and was therefore 73 years of age. He received an English education in the National School and when eighteen years of age came to Canada resolved to strive for a fortune in the new country. In 1851 he arrived in Dundas and became an apprentice in a planing mill.

Full of ambition a few years later he entered into business in a contractor and builder partnership with the late Mr. Mercer, who died a year ago. The firm was known as Mercer and Casey, and continued until 1876, when fate frowned and they lost a fortune of several thousand dollars.

Still undaunted Mr. Casey went to work in the Bowman mills as foreman and later became a member of the firm until the partnership was disolved in 1884. Shortly after he removed to Hamilton and entered into business with his sons, the firm being known as Casey & Sons. Among the buildings he erected were the Dundas Cotton Mills and the Wesleyan Institute, which afterwards became the House of Providence. He also completed the work on St. Paul's Church, Hamilton. About twelve years ago he was appointed Government Inspector when the bay was being dredged, and he was also inspector of the present Dril! Hall. At the time of his death he was employed as foreman of construction at the Waterworks.

On November 17, 1857, deceased was married to Mary Kelly. Mrs. Casey died two years ago, this coming August. Mr. Casey was a staunch Conservative since the days of Hon. Robert Spence. For seven years he was a member of the Town Council of Dundas, also chairman of the Separate School Board. Mr. Casey was a man of sterling qualities and kin'dy Special Prize for Catechism- Miss disposition. Those who knew him best respected him most. Eight sons and two daughters survive.
