AT THE WAY IN THE WAY This admission should be borne in mind when the Boultons, Sherwood and Prince are charged with hestility to the Genadian French. Some of the independent Democrats like Mr. Holmes voted for the Bill. To say that he was wrong in so doing, we should have it in our power to read the future, and be able, upon such knowledge, to declare that the increase to the representation worked unhappily. Those whose arguments can only be confuted by the unfaithfulness of their predictions. be confuted by the unfaithfulness of their predic- purpose, tions, enjoy great latitude in the debate. If we eed that Lafontaine's Bill was the only road by which we could reach elective prinviples, we should have voted alongside Mr. Holmes. Let us come now to the gist of the question; The people complain that they have no control over the House, and to court favor with the masses, Lafontaine fishes with the Representation Bill. It must be self-evident to every reflecting man, that the responsibility cannot be obtained by swelling the list of representatives.

Last, but not least, let me notice that the proposed terms of admission are on a scale not to bring, as Punck would say, the Theatre home to every man's fireside, but to each any man to subject the Drama, enable any man to enjoy the an

The defect exists in the vicction law—in the partial and unjust provisions of that law. If we had vote by ballot, universal suffrage, and the eligibility of every citizen—no matter how poor, if honest—be elected to the highest offices—Canda would be better cared for by a House composed of twenty Members, than by a House of 180 Members—the people sak a change in the electeral law, which will preclude she possibility of bribery or inlimidation—he spurchases votes in the House by giving situations to the Members—the people sak a change in the electeral law, which will preclude she possibility of bribery or inlimidation—he surchases votes in the House by giving situations to the Members—the people say that no office-holder ought to occupy a seat in the House, not even the Ministry, Canada would gain nothing by adding 100 or 500 Members to the Assembly—she would be certain to suffer to the extent of their claims for wages and mileage. The House is large snough to contained the houset politicians in the scantcy, but the mass of the people have ne control over the representatives. Here is the defect which, if Lafounine were sincers in his professions; he would remody. But if the instens upon retaining the partial working of the election law, let that partiality be elevated above the miserable money distinctions which now prevail. The conduct of the Government in reference to the controversy growing out of the Greek question, appears to engross the attention of the English press and public, almost to the exclusion of every other sublice.

and public, almost to the exclusion of very subject.

The London Times is lending its vast influence in opposition to the Ministry, and closes a powerful article on Friday with the prediction, that:

"Whatever mey be the ultimate effect of these events on the Government of this country, we hold it to be a moral impossibility for Lord Falmerston to restore the foreign relations of England to their natural, peaceful, and honorable condition, and as long as he holds the seals of that office, most wholesome and important duties will remain in abeysnee."

The Liverpool Journal, of Thursday night

Lord John Russell dealt the worst blow to the Peers which they have ever yet received. His superb, open, unequivocal contempt for them, and his haughty, democratic denial that the voirs of his haughty, democratic denial that the voirs of superb, open, unequivocal contempt for them, and his haughty, democratic denial that the voirs of the upper house can constitutionally have the slightest influence upon the Executive Government, were very effective. He said he did not say this willingly. He would sever have alluded to them, or to their resolution, had a distinct question not-been put to him. He did not contest that they might amuse themselvas in passing votes of censure; but they were soles in the abstract, and have nothing to do with the realities of the Executive Government. When he and his colleagurs were censured by the Commons, then he would begin to think of resigning, but certainly not before. His allusions to Lord Palmerston acre the allusions Achates might have made to Achilles. "Come, and take to us here on own ground, and their hear what any noble friends, will say to you." This was a point which told immensly with the House, and, perhaps, Lord John, in his whole public life, never spoke in such a theorough English strain, as when he declared that so long as he continued the Minister of England, he would not an as the Minister of Austria or Russis, (immense cheering,) but would, with his ability, direct the foreign policy of the country as the Minister of England. (Enthusiastic cheering.) Certainly the love of office for mere office sake, or the pride of the Palmerston policy must be strong, when an anistocratic of the house of Sections and with the gasto of a equilibrium centre all constitutional control in the Representatives of the Commons. The few words of the Commons Premier rander the woole proceeding of the Lords on Monday ludicarous and contemptibles. He deals with Europe gusto of a temperaturalives of the Commons. The few words of the Commons Premier remote the whole proceeding of the Lords on Monday ludic-rous and contemptible. He deals with Europe on masse at a more debating club, whose decisions are innocuous; and he dealt with Aberdson and Stanley as more tools of despatie, intrigues, accuring them broadly of being seemins of England. The Greeian squabble has assumed a new complication. Further papers have appeared in the shape of lotters from Mr. Wyne and Lord Normanby, which throw the charge of had faith on Baron Gross, and of falsehood on General De la Hitte, in representing that Mr. Wise was informed of the London Convention at the time when he renewed the blockade, and in consequence, the feeling of the

Analysis of Mineral Water of Point du Jour.

From Mr. Hunt's Analysis of the Water of the Mineral Spring at Point du Jour, near L'Assomption, I infer that it will prove a valuable addition to those already discovered in Canada.

It appears to be well adapted to cases of scrofula, diseases of the akin, gout, rheumatism, and dyspetite complaints generally,

Mineral Water to be useful should be taken for some time, and when it seems to less its effect, that from another spring should be substituted; and one not agreeing with an individual, another may act kindly and effectually. Weak and delicate persons should seek the advice of a physician with regard to the employment of these waters.—It would be a great blessing to the society if these productions from the laboratory of nature were to supersede the vile and heterogenous compounds, with which the world is cursed, under the name of "Patent Medicines."

I certify that I have used the Point du Jour Spring Water in my practice and have found it to act as a mild purgative and alterative. From the quantity of Iodine it contains, it will, I doubt not, be found useful in scrofulous diseases and in some form of syphilis, in addition to other remedies. R. L. DATSON'S INDELIBLE INK, for Marking LINEN, SILK, or COTTON, with a Common Pen, without a Preparation.

This Ink is worthy the ATTENTION OF DEAL-ERS, for the following reasons, viz.:—
CONVENIENCE—It is so portable, and convenient to use, that many will purchase it who would not use the old kind, on account of the trouble attending it.

rouble attending it.

Dubability.—In this respect this Ink is fully equal to the best in use.

LEARAGE.—Ink with a preparation is very apt to leak after it has been put up a year or two; and so are also most kinds without a mordant; but this Ink is scarcely more liable to leak than

common liquids.

BREAKAGE.—This is wholly avoided, whereas
there is hardly any thing more liable to break in
transportation than the common kind of Indelible Ink.

Frather — As this Irik weight less than one pound to the dozen, or only one quarter as much as the old kind, the saving in freight is worthy of

consideration.

General algent for the B. M. A. Colonies.

THE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the Rates of Premium quite as LQW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:

The peculiar Benefits ascured to the Assured by the principle of the LOAN Department.

One hiff of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Policy on the death of the Assured.

Insurers can at all times demand, as a right, a Loan to the extent of twaching the amount of the part of twaching the amount of the wastered to the Assured.

Insurers can at all times demand, as a right, a Loan to the extent of twaching the amount of the part of twaching the part of the part of twaching the part

of the Assured.

Insurers can at all times demand, as a right, a Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through pecuniary emberrassment, to let their Policies lapse, and at time such a provision is absolutely needed for their families.

No Charge for Stamp Duty, nor for Medical Examination.

No Charge for Stamp Duty, nor for Medical Examination.

The Bonuses divided Annually, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured, whichever of these three ways the Assured may each year desire, after being a Policy holder for Four Years, at which period a Bonus is payable for the Four Years—Annually afterwards.

THETY DAYS allowed after each Payment of Premium becomes due, without Forfeiture of Policy.

The General Agency for the British North American Colonies being established in Montreat, RISKS will be accepted by the General Agent and Temporary Policics at once granted.

The Local Board meet regularly at the Office, and by them the business of the Colonies conducted, thereby affording to the Assured every facility.

LOANS will be Granted, and LOSSES PAID, at the General Agency, without referring to London.

Pamphlets, Blanks, and all requisite information, may be had on application at the MONT-REAL OFFICE, or to the AGENTS throughout the Province, through whom proposals for Assurance will be transmitted.

HALBEY:—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I land at the point of death, with Bropsy, Piles, and Asthma. My Physicians had given me over as past cure, and my family had lost all hope of my recovery. While in this deadful stustion, your Forest Wine and Pills were procured for me, and before I had finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were greatly assolten, became sensibly reduced. Hopes of my recovery began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age. I ascribe my recovery entirely to the use of your medicines. Several of my neighbors hive also used them with similar success in obstinate complaints, and I can cheerfully recommend them to the public. Yours, respectfully, Newark, Dec. 19, 1847.

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING! NEW YORK, Jan. 9, 1848.

TEN YEARS STANDING!

NEW YORK, Jan. 9, 1848.

DR. HALSEY—DEAR SIR:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which a lave suffered severely for upwards of ten years; and, having adhered ct sely to the directions which accompany the Medicines, I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundre's who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertised ments. But, what a pity it is that the deception used by others should be the means of dissuading many laboring under disease, from making trial and being cured by your excellent remedies. Humanly speaking, they have faved my life; when I commenced making use of them, I was in a wretched condition, but began to experience thair good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cured, and had increased filteen pounds in weight, having taken one box of the Pills and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies!

Dr. David Marvin, celebrated Practitioner of New York, declared publicly, that one bottle of Halsey's Forest Wine contained more virtues than fifty of the large battles of Sarsaparille. Measrs.
