Lieut. Col. Parsons took the 85th Battalion out for a tramp through Kentville toward New Minas yesterday afternoon. The fine 85th Band with the Pipers and Bugle Band played alternately as they marched. They drew forth loud praises for their fine appearance and marching in unison. They are a well drilled and magnificent lot of men. One company is still in Halifax.

Lieut. (Rev.) J. G. Stones, who is in charge of the Berwick detachment of the 219th took the Sunday morning service in the Methodist Church here, and was enjoyed by all. In the evening Mr. Stones, addressed the congregation of the Baptist Church, and was rewarded by many demonstrations of pleasure from the people. As this was the last appearance of our soldiers in church here, (it being scheduled that they leave for Aldershot on Thursday or Friday) we all felt the solemnity of the occasion and our heartfelt wishes go out to them, and we wish "God Speed" to commander and men.—Ex.

What Teddy Thinks of Canada.

Canada has faced the time that tries men's souls and with gallant souls, and with gallant heroism she has risen level to the time's need. Mighty days have come to her, and she has been equal to the mighty days. Greatness comes only through labor and courage, through the iron willingness to face sorrow and death, the tears of women and the blood of men, if only thereby it is possible to serve a lofty ideal. Canada has won that honorable place among the nations of the past and the present, which can only come to the people whose sons are willing and able to dare and do and die at need.—Ex.

WEDDING BELLS

Cox—Blenus.

A pretty wedding took place at the home of Mr. and Mrs. George Blenus Wednesday, May 24th, when their eldest daughter, Evangeline Marion, was united in marriage to Charles Frederick Cox, eldest son of Mr. and Mrs. W. A. A. Cox, Upper Dyke Village.

To the strains of Mendelssohn's wedding march which was beautifully rendered by Miss Ethel Miller the bride entered the drawing room leaning on the arm of her father. The drawing room was very tastefully decorated with roses, ferns and evergreens. Rev. Dr. A. C. Borden of the Canning Methodist Church performed the ceremony. The bride looked charming in a gown of white duchess satin and silk net, trimmed with dainty white rose buds, and carried a bouquet of roses and carnations. About fifty guests, relatives and immediate friends were present. The bride was the recipient of many costly and beautiful presents consisting of silver, cut glass, china and several cheques.

After the ceremony delightful refreshments were served amid showers of rice and confetti the happy couple motored to Wolfville where they boarded the train to visit Halifax and other Nova Scotian towns. On their return Mr. and Mrs. Cox will reside at Hillaton.

A Very Successful Year—Notwithstanding the War

Commencement Exercises at Acadia.

On Sunday morning College Hall was well filled with friends of the institution who listened to a very able Baccalaureate sermon by President Cutten.

In the evening the address before the Y. M. C. A. was delivered by Rev. A. F. Newcombe of Fredericton.

Tuesday was a memorable day in the anniversary celebrations at Acadia university. The class day exercises of the senior class of the college were held in the morning. In the afternoon there were sports on the college campus, and the closing exercises of Acadia Seminary took place in the evening.

The past year has been a very successful one for the seminary. The total registration in all departments was 329 students, and the graduating class numbered 22. The graduating exercises were held in college hall and were witnessed by a very large crowd of friends and relatives of the graduates and of the institution. The cantata, "King Rene's Daughter," which was sung and acted by the Seminary Glee Club and soloists, was a notable feature of the graduation. The principal characters were taken by Misses Jean Mackie, Edith Gross, Gilbert and Kathleen Prescott. Essays were read by Misses Lena Keans and Marguerite A. WILL YOU VOTE FOR SUCH AN INCOMPETENT GOVERNMENT.

Why should the people of Nova Scotia vote to retain in power the Murray-Daniels Government?

Should they vote for them because they have given away all the Crown lands of the Province?

Should they vote for them because they have put the most valuable coal mines into the hands of monopoly?

Should they vote for them because they have tied up millions of dollars worth of valuable coal seams with speculators and promoters who refuse to develop them?

Should they vote for them because they destroyed the gold mining industry of Nova Scotia?

Should they vote for them because they have allowed the rural population of the province to disband and emigrate because of the bad roads?

Should they vote for them because they have given all the valuable foreshores to speculators and thus debarred inhabitants of the sea shore from cultivating and fishing oysters and catching lobsters?

Should they vote for them because after 34 years of road administration and the expenditure of several million dollars the highways are in a worse condition than they were in 1892?

Should they vote for them because every year of their administration they have expended over \$530,000 more than the revenue of the province, which over expenditure is now added to the public debt of Nova Scotia.

Should they vote for them because they operate the public affairs of Nova Scotia in the interests of the few rather than for the benefit of the people as a whole?

Should they vote for them because their administration has given to their friends every natural resource and valuable privilege known to the government.

Should they vote for them because they have a road organization that employs a high priced commissioner, a high priced deputy well paid engineers, expensive inspectors, and a horde of 9,000 road masters and paymasters, all of whom must be fed out of the trough before one dollar can get to the roads?

Should they vote for them because in the 34 years of their administration they have evolved a road system conceived, not for the improvement and maintenance of the highways, but for the purpose of keeping the treasury of the Province in the hands of the present administration?

Should they vote for them because Premier Murray defied the courts and illegally paid \$48,500 to one of his political friends?

Should they vote for them because Attorney-General Daniels tried to get a slice of \$75,000 out of a public transaction involving the security held by the government as trustees for the people of the province?

Should they vote for them because Premier Murray claims in other countries than Halifax that he enacted prohibitory legislation and at the same time because he states that the liquor interests of Halifax that the prohibitory legislation was enacted by the opposition?

A DEGRADING AND INIQUITOUS PATRONAGE SYSTEM.

Wickwire as Crown Prosecutor Draws Heavily from the Government Funds

Why has the Murray-Daniels' government repeatedly resisted the efforts of Mr. C. E. Tanner, K.C., the Liberal-Conservative leader, to place an independence of parliament act on the statute books of this Province?

Why does Nova Scotia stand alone among all the provinces, in allowing members of the legislature to sell their goods and their services to the government control?

Why is it that the law of this province is so loose and accommodating, that members of both houses can accept appointment and positions of emolument under the government and continue to retain their seats?

How is it that last year thousands of dollars of public money were chequed out of treasury by the government to members of the assembly and of the council, in violation of the principles of the independence of parliament which are recognized and respected in every other part of his majesty's dominions?

How is it that Mr. Wickwire continues to draw many hundred dollars every year from the public funds as Crown Prosecutor in direct violation of the true independence of Parliament idea and yet shed hypocritical tears because A. deW. Foster allowed checks to pass through his hands in payment for horses which he was able to get the Government to purchase here so as to give our farmers some needed money to take the place of what they had failed to get from a poor crop.

The reason is, that the Murray-Daniels' patronage system so wills it.

It is the price the people of Nova Scotia are paying for leaving the "trusteeship" of the treasury in the hands of a third-of-a-century-old government.

It is because—as the Honorable George H. Murray once reminded the people, "Long holding of office has brought about

its inevitable consequences—jobbery and corruption in every branch of the public service!"

Dead Letter Law

In his manifesto, Premier Murray has much to say in respect to what his government has done for the workaday people.

He cites the factory act. But what are the facts about this piece of legislation?

It remained a dead letter on the statute book for three or four years until Mr. Tanner stirred the government up two or three times re the matter.

He also cites the workmen's compensation law.

Another dead letter act. During the season just closed Mr. Tanner and his followers urged him to put this act in force at once, but he refused to do so till 1917.

Why? He's afraid of the employers.—Citizen.

Drawing A Ring of Steel Around the Germans.

London, May 29—The British Belgian and Portuguese forces, who have invaded German East Africa, are slowly drawing a ring around the Germans, while General Smuts, the Boer commander of the South African forces, is rounding up the Germans who are defending the Usambarra railway and has occupied Ipana, one of the important stations on that line, as well as other towns in the district, according to an official report issued today.

A British force under Gen. Northey has penetrated twenty miles into German territory on the front between Lakes Nyassa and Tanganyika.

The Germans have retired toward New Langenburg. The Belgians are advancing from the northeast, and Portuguese troops are occupying the southern frontier.

After I used the first two I sent for two more boxes, and I am satisfied, and also know, that Gin Pills are the best kidney remedy made.

PROVINCIAL LEGISLATURE.

Nomination Day, June 13th.
Election Day, June 20th.
Liberal Conservative Candidates for Kings County:
Lieut. J. D. Spidell, of Kentville, Officer 219th Battalion.
J. Everett Kinsman, of Centreville, Farmer.

POLITICAL NOTES

On Thursday evening Messrs. Spidell and Kinsman addressed a public meeting at Harborville.

Tonight (Friday) Messrs. Spidell and Kinsman will speak at Morden.

On Monday night a large number attended the meeting at Baxter's Harbor and heard the Candidates and Dr. John Miller, Mr. Robson acted as chairman.

Tuesday evening at Scotts Bay, Mr. Houghton presided over a large meeting in their fine new hall. The candidates made a fine impression.

Wednesday at Halls Harbor with Charles Watson as chairman. Candidates Spidell and Kinsman and Mr. C. R. Bill fully discussed the issues of the day. It was a most enthusiastic gathering.

On Saturday evening a double meeting will be held. Candidates Spidell and Kinsman and Mr. A. L. Davidson, M. P., will speak at Port Williams and North Alton. The speakers will be changed at the two places by auto giving all a chance of hearing the three addresses.

Meetings have been held in various places this week and the two Conservative candidates are making a host of friends by their straightforward canvass and the ring of genuine sincerity which pervades their addresses. All who have ever heard of these two men know that they stand for the best deals in public life and government. The people of Kings have been fooled too long by the Murray Government and its partizan and eaze loving representatives in this County.

Everywhere Messrs. Spidell and Kinsman are being most heartily received and they are receiving assurances of support from a large number of Liberals who think it is time for a change.

MILITARY NOTES

It is reported in London that the 64th Battalion has been made a reserve battalion and will be used to provide reinforcements for the front.

Wedding Bells

A quiet but pretty morning wedding took place at the residence of Mr. and Mrs. Fred J. Fielding, Kentville, on Wednesday morning, May 31st at nine o'clock when their youngest daughter, Miss Annie Fielding was united in marriage to Mr. Harry A. Williams of Kentville. The ceremony was performed by Rev. Peter Pollitt.

The bride wore a pretty traveling suit of navy blue serge, with hat of pearl grey, and carried a lovely bouquet of white carnations, and maiden hair fern. Only the immediate relatives of the family were present. After luncheon the young couple were driven by auto to the station and left for a short wedding trip to Yarmouth.

TALK FROM TEXAS

Cotton Farmer Better Off Than Some-times Appears

According to Mr. C. E. Nash, the president of a hardware concern in Fort Worth, Texas, the farmers should not hold all their cotton because of low prices prevailing as a result of the war. He says:

"It is said that a farmer cannot raise cotton at less than 10 cents per pound, yet many a farmer got rich, or at least independent, raising it at 7 cents, and that at a time when he sold all he raised at a lower profit than is the case to-day, while he paid more for what he purchased. We give you the following comparisons:

- He buys a hoe for 50c. that used to cost 75c.
- He buys a file at 15c. that used to cost 35c.
- He buys a singletree at 25c. that used to cost 50c.
- He buys a sweep at 3c. that used to cost 15c. per pound.
- He buys a plier at 75c. that used to cost \$2.00.
- He buys nails at 4c. that used to cost 5c. per pound.
- He buys wire at 2 1/2c. that used to cost 10c. per pound.
- He buys hames at 50c. that used to cost 75c.
- He buys traces at 45c. that used to cost 75c.
- He pays 60c. per day for picking when he used to pay \$1.00.
- He borrows money at 8 per cent. to 10 per cent. where he used to pay 12 per cent. and 15 per cent.
- He sells wheat at \$1.00 that used to bring 18c.
- He sells oats at 50c. that used to bring 15c.
- He sells corn at 75c. that used to bring 60c.
- He sells hay at \$14.00 that used to bring \$4.00.
- He sells turkeys at \$2.25 and sometimes \$4.00 that used to bring 60c. to 75c.
- He sells chickens at \$3.50 that used to sell at \$1.25 to \$1.50 per dozen.
- He sells a horse at \$150.00 to

\$225.00 that used to sell from \$50.00 to \$100.00.

A Happy Condition
We must, of course, recall that these prices are quoted for Texas and, as the writer points out, are possibly not absolutely correct, but accurate enough to show that the farmer is getting the best of the situation.

While most of these prices would not apply in Canada there is no doubt that the farmers of Canada are purchasing their hardware and similar supplies at lower prices than prevailed a generation, or even ten years ago, and are getting a better price. Texas wheat is quoted at \$1.00 per bushel, whereas wheat in Western Canada is selling higher than that. It would seem that farmers are more favored under the war conditions that prevail to-day than most of the other interests that go to make up the country. Certainly, farmers are much better off than mechanics, many of whom are out of work in our cities. Farmers to-day have no cause to envy the manufacturers, most of whom have to lie awake at nights trying to devise some means of making ends meet.

THE IDEAL CONSUMER

He Believes That What Helps His Fellow-citizen Helps Him

Buying abroad always hints at the inferiority of one's own countrymen. Yet the man who would be the first to deny that his "Made-in-Canada" goods had a superior abroad is often the first to buy on the basis that the other fellow's "Made-in-Canada" goods are inferior to those made in foreign countries. Then, every time you pass up your home products, unconsciously, perhaps you send the price higher for the man who buys at home. This very fellow, who may be on your list of customers is probably paying more for certain "Made-in-Canada" goods than he might have had to pay if you had also contributed to keep the cost down. He may, in his next purchasing move, pass yours and ours and another "Made-in-Canada" products up for the foreign articles, which are perhaps cheaper. And thus it goes. A meaningless purchasing attitude steers nowhere, and keeps Commercial Canada upside-down.

Petrograd, May 29—Russia will fight for twenty years if necessary, until Germany is forced to accept the Allies' terms of peace, Michall Rodzianko, president of the Russian Duma, told the United Press in an exclusive interview today. He scoffed at the danger of a revolution in the Czar's Empire.

"There is no peace party in Russia," said Rodzianko. "This is a German lie. The Duma is solid in its demand that Russia continue the fight until Germany puts her cannons in a pile and accepts the Allies' conditions. The Emperor, the Duma and the peasants of Russia are united in this. Tell this to the people of America as emphatically as you can."

M. Rodzianko has just arrived in Petrograd from the home provinces for the reopening of the Duma today.

"You need not accept my word exclusively," he said. "You are welcome to the floor of the Duma, where you can talk to anyone. All will tell you what I

have told you. "The Russian peasants know the meaning of German hegemony. They are for war. We will fight twenty years if necessary to abolish this menace. We will force the Kaiser to accept our terms. Peace on any other basis would be unthinkable. Russia would refuse to accept, even if the Allies would accept, and the Allies would not, Peace propaganda in circulation now is unfriendly to the Allies."

Two German Aeroplanes Brought Down

Paris—Two attacks were made by German troops advancing last night from Corbeux Wood on the Verdun front. The French war office report of today says these assaults resulted in failure. East of the Meuse the night was comparatively calm except for heavy artillery action in the vicinity of Vaux. Fifteen aerial encounters occurred and two German machines were brought down, one of them falling in flames.

Obliging

At a certain church in a Jersey town it is the invariable custom of the clergyman to kiss the bride after the ceremony. A young woman who was about to be married in the church did not relish the prospect and instructed her prospective husband to tell the clergyman that she did not wish him to kiss her. The bridegroom obeyed the instructions given.

"Well, Harry," said the young woman when he appeared, "did you tell the minister that I did not wish him to kiss me?"

"Yes."

"And what did he say?"

"He said that, in that case, he would charge only half the usual fee."

Mrs. William McNeil passed away on Saturday, 20th at her home, near Kingston, after a lingering illness of consumption. Only a few years ago the deceased came to Nova Scotia as a bride, and by her kindness of heart and winsome disposition had won many friends, who sincerely regret her early death. Her husband has the sympathy of all in his affliction as well as the faithful mother, and sister, left to mourn their loss.

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

St. JEAN DE MATHE, Jan. 27th, 1914.
"After suffering for a long time with Dyspepsia, I have been made well by 'Fruit-a-tives.' I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives' and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, I am fully recovered, thanks to 'Fruit-a-tives.'

Russian Aviators at Constantinople, It is Reported from Athens

Paris—A Havas despatch from Athens says it is reliably stated there that two Russian hydro-aeroplanes operated over Constantinople on Monday night.

A German aeroplane flew over the island of Imbros, in the Aegean Sea, yesterday, throwing bombs at the lighthouse on Point Kephalos. No serious damage was caused, however.

London, April 27—The British submarine E-22 has been sunk in the North Sea, the Admiralty announced this afternoon. Only two of her crew were saved.

The E-22 was a submarine built from an Admiralty design. She carried four torpedo tubes, had a surface speed of sixteen knots and a submerged speed of ten knots and her full complement was sixteen men. Fourteen lives have been lost with her sinking.

Success of the Russians.

Petrograd, via London.—The official communication, issued from general headquarters today reads:
"East of Riga, in the Kurten region, the enemy artillery repeatedly bombarded the railway. Our aerial squadron bombarded the enemy electric station at Komey, northwest of Lake Narozs region."
"Caucasus front: The fighting in the Rivanruza region continues, Kurds, who attempted to attack our convoys, were dispersed in a successful action by our troops, notably a detachment of forty-four Cossacks who surprised a Kurdish bivouac near the village of Zova and surrounded and killed 150 Kurds, including a Molloch, safely rejoining their regiment with the loss of only two killed and one missing."

Horse Breeding

The Secretary for Agriculture at Truro is in receipt of a telegram from the Canada National Live Stock Records in which he is urged to do everything in his power to get farmers to raise all the horses they can this year. Ottawa authorities claim that everything points to a big shortage in horse flesh ere long and they therefore strongly advise farmers to get ready by breeding as many colts as they can.

Household Hints

Tomato skins will clean such kitchen ware as the sheet iron frying pans that have become blackened with use so that they will look like new.

To polish aluminum make a mixture of borax ammonia and water. Apply with a soft cloth. Lightning Stroke—If the patient is unconscious apply artificial respiration at once and continue for a lengthy period—if necessary, for one or two hours—until natural breathing is resumed. Remove all clothing quickly and dash the body with cold water; then dry the patient and place him in bed. Apply hot-water bottles and warm cloths, especially to the pit of the stomach. When consciousness returns, administer brandy or aromatic spirits of ammonia.

To Clean Brass—An excellent way of cleaning brass flower pots or trays is to rub them well with a piece of lemon. Then pour boiling water over them, and finally polish them with a dry cloth. You will find that the juice of the lemon will remove all the stains from the crevices in the brass.

To clean a corset make a suds of hot water borax and a tablespoonful of ammonia. Scrub the corset clean, rinse in hot water, then in cold, and hang on the line in the sun to bleach and thoroughly dry.

To whiten the skin make a paste of buttermilk and oatmeal (not rolled oats); cover the face and neck just before bedtime and allow to remain on all night. Wash off in the morning with tepid water. Repeat till face is sufficiently bleached.

Poisoning

In case of sickness from eating poisonous berries or impure food, send for a physician promptly. While he is coming, give the patient an emetic at once. A teaspoonful of ground mustard dissolved in a cupful of warm water is most satisfactory; but plain salt water or lukewarm water alone in large quantities is also effective. After vomiting has taken place, let patient swallow the white of several eggs or some sweet oil to help absorb the poison. Also give a simple cathartic, such as castor oil, and follow with a good enema of warm water after the cathartic has acted. Let the patient drink plenty of water, and keep him on a diet of milk and toast for twenty-four hours.

When Laying Matting

When you put down a new matting, do not cut it to fit corners, wet it thoroughly with a soft brush or cloth dipped in hot water to which a cupful of salt has been added. When thoroughly soaked the matting becomes pliable as rubber, and can be turned without breaking. This makes a neater finish than cutting, and also saves the matting for use in a different shaped room.

Ink stains are almost impossible to remove from the hands with soap and water, but if one will dampen the head of an ordinary match and rub it over the ink stains, they will disappear as if by magic.

STINGING NEURALGIA

The Trouble Due to Nerve Starvation for Lack of Good Blood.

An eminent medical writer has said that "neuralgia is the cry of starved nerves for better blood." The one great symptom of this trouble is pain, fierce, stabbing pain, that almost drives the sufferer frantic. The one cause is poor blood; the only cure is to enrich the blood. Heat applied to the inflamed nerves will give relief, but does not cure. Dr. Williams' Pink Pills furnish the blood all the needed elements, and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through a fair use of Dr. Williams' Pink Pills in this way neuralgia, sciatica and other nerve disorders are promptly cured, and the whole system benefited and strengthened. Mrs. M. Gleason, R. R. No. 1, Uxbridge, Ont., who was a great sufferer from neuralgia says: "I suffered intensely from neuralgia for four years. My blood was thin and I was completely run down. I suffered intense pain all the time. At different times I consulted three doctors, but their treatment did no more than give me temporary relief. Then I tried different medicines, but the result was the same—they seemed no good in my case. I was growing steadily worse, and finally could not leave the house nor do a bit of work. The last doctor I consulted could do nothing for me but give me morphine tablets to ease the pain, and by this time I had about resigned myself to a life of pain. Then one of Dr. Williams' almanacs came to our house and I read of similar cases cured through the use of Pink Pills. I got three boxes and before they were all gone the pain began to decrease, and I began to have a better appetite. By the time I had taken six boxes I was again a well woman, and my neighbors could hardly realize such a change could be made in so short a time. Later I was bothered with eczema and Dr. Williams' Pink Pills cured me. I have found these Pills worth their weight in gold and I cheerfully recommend them to all who are ailing."

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

USE

"Corona" Dry Arsenate of Lead

for
Spraying Orchards and Potato Plants.
"CORONA" dry is not an experiment, it has been used by many of our leading farmers for years.
One pound of "CORONA" will do the work of from two to three pounds of Arsenate Paste, and be more effective because:—
It is a perfect, dry, fine white powder, and does not contain 50 per cent water.
It is pure and contains nothing but Lead Oxide and Arsenate Oxide, the only two chemicals essential of an Arsenate of Lead.
It gives an even application, covers more thoroughly, and sticks to foliage longer.
It mixes easily and readily in water, no working up to prepare for the spray tank. No straining. It is only necessary to shake the proportional amount into the spray tank.
By using the same weight each time you spray, your mixture is always the same strength.
No sediment, no lumps, no water, never clogs spray nozzles.

CORRESPONDENCE

Mr. Editor:
I attended the Liberal Convention at Kentville on the 20th inst. and heard the speeches of Mr. Wickwire and Mr. Campbell, candidates nominated to contest the County in the Liberal interests at the coming Provincial election.

Mr. Wickwire closed his speech by saying, "We all do wrong sometimes but I only did what I was obliged to do." To what was he referring? Was it an attempt to justify his action in having me dismissed from office or was he referring to the recent appointment to the Legislative Council. It would appear in both cases he was "obliged to do it." But by whom? There was nothing from a legal standpoint that obliged him to first obtain the two affidavits and send them to the Supreme Court and there insist that I should have my commission taken from me without an investigation; as far as I know the most dastardly act, in the dismissal of a public official ever perpetrated in any country governed by British laws.

Very high praise was given by him to Dr. Covert for one reason, I suppose, that he assisted in my dismissal. If there was any other act ever done by him in reference to any matter which has assumed public importance, it has never been made manifest. What one can hear if he puts his ear to the ground in reference to Dr. Covert is that the party has done a good deal more for him than he ever did for the party. Mr. Wickwire said, "He was a man that could be depended upon every time, when he said yes he meant it, and when he said no he meant it." And he could have added—when he made a threat he carried it out, and compelled others to assist him in doing it. Such representation of a county standing for all this does in a righteous and moral sense is anything but flattering to say the least.

I did hear though from Mr. Campbell a different kind of reference to Mr. Wickwire than I heard from him in 1906. "He stands Four square," were his words. I would ask of Mr. Campbell to tell us how he stood in 1906 and previously "Four square" I suppose. To stand "four square" is a very high commendation. It is putting a stamp of approval on all his past acts, the stand he has taken against temperance reform, and reformers; my dismissal, his "obliged to's" and his praises of Dr. Covert. Cannot Mr. Campbell see that this is the prime object of his being accepted as a candidate with Mr. Wickwire. If he does not, the public are not so blind; What are we coming to. Ye Gods, how times do change.

Since the delegates at this convention made Mr. Wickwire their unanimous choice and this in the light of what was sworn to in an affidavit of Mr. George Blenus, contradicting the alleged charge in the Illsley affidavit of what were my words, and that Mr. Blenus was in hearing. Also in the face of my own emphatic and repeated denial of it all, there can be but one inference to draw from the Convention, and course for me to pursue. If these delegates believed I was wronged, as they must, and do as they did, how can the consciences of such men be regarded.

On the other hand, if there was a doubt in the mind of any one as to the righteousness of my protest, and appeal of upwards of two thousand voters to the Government for fairplay, and cast their vote for the nomination of a man who stood against granting a hearing or investigation into the charges made, as Mr. Wickwire has, the crime is equally serious and condemnatory.

I am a Liberal in principal and my association with the Liberal party of Kings County dates back forty-five years, during which time I have endeavored to do what I could honestly in support of the party. I have made large sacrifices both

financially and otherwise for Ally of Britain. Hon. Dr. Covert one in my position, yet can I cast my vote for Mr. Wickwire? Would he expect me to do so? Can I vote for Mr. Campbell any more quickly after pronouncing himself as he did, and who is now soliciting votes for Mr. Wickwire? I did so on both of his previous campaigns, and no doubt my voting for him and Prof. Sawyer, which I did conscientiously had very much to do with the action since taken against me. As far as I can see I cannot cast my vote for either of these men on June 20th.

With Mr. Wickwire re-elected and Dr. Covert elevated to the position of Honorable — (to be spelled with a very large H) in recognition of the part taken in securing my dismissal, as no other reason is known; it would be as much within the bounds of reason or justice to further carry out the suggestion of Chief Justice Townshend that I be deported to Russia as being unfit to live in a British Country, as what has already been done. The awkwardness of the situation might be that Russia is now at war as an

And now Mr. Editor I beg to say in closing that I am not the first victim of the liquor interests, and I may not be the last, I still have friends, and true ones. I have confidence in the future that I will have justice done me, and that the people who have tried to degrade me will have justice done them.
