Here's an Advantage

On any day of the week, excepting Wednesday, a "rush" order for poster work, etc., reaching the Reporter office in the morning will be completed and returned on the evening that one bettle of medicine, costing with a few cents, curad me."

With a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realise that I was well again, or believe it could be so after having suffered so long, but that one bettle of medicine, costing that one bettle of medicine, cost on the cost of the cost of

### A CENTENARIAN

On Tuesday of this week Mrs. Robert Lee attained her 100th birthday, and many ladies of the village united in bonoring the event. Shortly after noon they assembled at the hone of the aged lady and paid their respects. Mrs. Lee occupied a chair and seemed bright and cheerful. Both her sibt and hearing are somewhat affected, but otherwise there is little indication of her great age, as her mind seemed otherwise there is little indication of her great age, as her mind seemed clear, and she was able to recall dis-tinctly some of the salient features of her early life. After prayer by Mrs. Chassels and the singing of appropri-ate hymns, the following address was read and presented by Mrs. T. G. Stevens, accompanied by a purse of \$33, presented by Mrs. James Ross:—

ATHERS, Aug. 18, 1903.

Our dear sister Lee, -

It is with mingled feelings of rever-It is with mingled feelings of reverand awe that we enter your venerable
presence to day. When we think of
the long stretch of years that enables
you to gaze back over the scenes of a
century, our hearts are subdued into
calmness and praise over what God has
wrought. To the allotted years of
man He has given you thirty additional years. Not one in all our village
has God permitted to pass the one
hundredth milestone but yourself. It
is doubtful if one of all the number
who gaze upon your aged countenance who gaze upon your aged countenance shall ever attain the fullness of years shall ever attain the fullness of years which are yours. Surely you must be treading on the verge of the great eternity. The eyes so dim to mortal view will soon open to the beauties of the celestial city; the failing powers but indicate the opening of the boauties of heaven; the Christ of the Bible whom you love so dearly will soon call

whom you love so dearly will soon call
His child, weary with so long a journey, home to his embrace.

As pilgrims on this same journey
with yourself we meet together to-day
to celebrate with you this remarkable
birthday, the one-hundredth year, and in token of our love, esteem, and good wishes. we beg of you on behalf of of your many well-wishers of our village, to accept of this small purse of money, trusting that for many a day still you may live to enjoy the contents of it.

whom you love so dearly will soon call

Signed on behalf of your many Athens friends—

Mrs. Jas. Ross, Mrs. J. C. Alguire, Mrs. J. P. Lamb, Mrs. C. Elliott Mrs. A. Chassels, Mrs. H. H. Arnold.

Mr. G. W. Lee responded to the address, making suitable acknowledg. CENTRAL BLOCK Form IV. Medal—Byron C. Reyment for the honor conferred.

Cynthia Parish, was born at Milton, Vermont, a few miles from Burlington Vermont, a few miles from Burlington, and came to this country with her parents when only ten years of age, the family making the journey by oxteams. This section was then, of course, a wilderness, the only building on the site of Athens being an old log tavern which was situated near what is now the corner of mein and Floir is now the corner of main and Elgin streets. They settled in Lansdowne where her father, Mr. William Parish, Monday of an aged and esteemed lady
—Mrs. Mary Ann Bolton, relict of the

David and Jonathan .- 1 Sam. 20: 12-23 Commentary .- I. David's consultation with Jonathan (vs. 1-11). To save his life David had escaped to the aged prophet Samuel in Ramah. Here David was placed in the school of the prophets at Naioth, a part of Ramah. But Saul learned of his retreat and David was obliged to leave. It was then that David ap-pealed to Jonathan for assistance. on the day following, the festival of the new moon was to be celebrated (Num. x. 10; xxviii. 11-15), and David would be expected to be present. But he felt that it would not be not on him to make a convilue. safe for him to go; accordingly, asked Jonathan to make excuses to Saul for his absence and

learn how Saul felt toward him. David then said to Jonathan, "Who-shall tell me? or what if thy father answer thee roughly?" II. The covenant renewed (vs. 12-3). 12. Jonathan said — Jonathan alls God to witness that he would assist David by letting him know ex-actly what Saul's purpose was conactly what Saul's purpose was concerning him. Sounded my father—That is, when he had questioned his father. If there be good, etc.—The private dialogue which is here detailed at full length presents a most beautiful exhibition of these two amiable and noble-minded friends.

13.—The Lord be with thee, etc.—These words show that Jonathan

14, 15. That I die not, etc.—Convinced that David will succeed to the kingdom, Jonathan exacts a promise from him to show kindness to his posterity after his death as well as to himself during his life

These words show that Jonathan

expected David to occupy the thron

16. 17. Made a covenant-Namely 16. 17. Made a covenant—Namely, by obtaining from David promise to show kindness to himself and to his family forever. Shall require it, etc.—There is much difference of opinion as to the meaning of the second part of this verse. Benson explains it as follows: "If either Jonathan or any of his house shall prove enemies to David or to his house, let the Lord, the witness of the covenant, severely punish the the covenant, severely punish the violaters of it." To swear again — By this is meant that he again entered into a solemn covenant. Because she loved him—His great love cause she loved him—His great love to David made him anxious to main tain friendly relations between thei posterity.

18, 19. Seat.....empty—It seems that there was one table for Saul, John-than, David and Abner, Saul having the chief seat, and next to the wall,—Clarke. Stayed three days—Either with your family in Bethlemen. or wherever you find it convenient.—Jamieson. Go down quick—Y—a quick movement yould be necessary. -a quick movement would be nec pssary in order to avoid being de-tected. The business, etc.—Literally, "On the day of the business," refer-ring either to the incident recorded in chapter xix. 1-7, or to some un-known matter.—Cam. Bib. Ez the name of a stone near Gibea... well-known to Jonathan and David, but

unknown to us. 20 23. And I will shoot, etc.-Jona than thus provides for informing David of Saul's designs without making a personal interview between them necessary, as it might be hazardous to attempt to meet again. As touching the matter—This refers to the covenant just made, and the sign agreed upon.

he sign agreed upon.
He sign agreed upon.
Hi. Saul's intention tested.—vs. 24-B4. Jonathan soon discowered that his father was very angry against David and had determined upon his

IV. The parting (vs. 35-42). In the morning, which would be the third day since Jonathan left David, Jonathan took a lad and went into the between them. After the warning sigwas sent back to Gibeath, and find-ing no one near Jonathan seized the opportunity for one more interview with the one he loved as his own

Young women may svoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in Lydia E. Pinkham's Vegetable Compound.

"I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend achool, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. person, and have gained of flesh in three months.

"I recommend it to all young women who suffer from female weakness."—
Miss ALMA PLATE, Holly, Mich.—\$5000 forfar! if original of above letter proving genuineness sunnot be produced.

FREE MEDICAL ADVICE TO YOUNG WOMEN. All young girls at this period of life are earnestly invited to write to Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given; her address is Lynn, Mass.

Judging from the letters she is re-ceiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too mear the limit of their endurance now-adays to our public schools and cemin eries; less searning and more health

life. "And they kissed one another, and wept one with another, until David exceeded." At last Jonathan said to David. "Go in peace."
Thoughts.—Sau coult see plainty David's growing success, and how he was rising in the estimation of the people. He was also convinced of his own evil conduct in public affairs. But this did not humble him before God, and he therefore became filled with envy, pride, jaalousy and cruelty. These elements within his heart led to every evil way. When controlled by those he was pushed on by Satan into the most terrible excesses, without respect even to charby Satan into the most terrible ex-cesses, without respect even to char-acter or the most sacred obligations. He could not tell one moment what he should do the next. Saul began to reign as king in Israel with spec-ial, divine favors, both providential and spiritual. and spiritual.

Teachings.—Those who are thoroughly honest and upright in all their doings are glad to call God as a witness. True love is self denying and self-sacrificing; it stands by in the midst of adversity, and trial as well as in times of prosperity and blessing.

PRACTICAL SURVEY.

The moral character of the persons spoken of in the lesson is of the first importance, and that will be gained better by reading their history as presented in the Bible than by studying so short a portion as the lesson. It is evident that a person may be good in the Bible sense at one time, and may then backslide and become a very different man at another time. This was true of Saul, the father of Jonathan. At times the spirit of the Lord was with him, and at other times he would give way to a jealous disposition, even seeking the life of David, who was likely to succeed him on the throne, and whom the people began to think more of than of Saul himself. David felt grievously at one time, so that he was obliged to report as in dust and aches before the time, so that he was obliged to re-pent as in dust and ashes before the Lord, as all who sin against God must do in order to be restored to the divine favor. Afterward he became a man after God's own heart and is often called the sweet singer of Israel. Some men change so often as to cause the remark that God would have to take them quick, after they are reclaimed, if He wanted to save them in heaven.

This affection is paralleled at least, in the love which every Chris-tian has for Christ and His cause. least, in the love which every Christian has for Christ and His cause. As Christ laid down His life for them so they would, if necessary, lay theirs down for Him. This is not natural, but is the result of grace in the heart, and is the same as was manifested by their Saviour, when He came to make atonement for men. We lost it in the fall, and only obtain it again when it is shed abroad in the heart by the Holy Ghost (Rom. v. 5). It produces a stronger love than can be found among those joined by natural ties, for the ties of grace are stronger than those of nature, and the children of God are closer to each other than those of an earthly family. To be a member of God's family is to occupy a position that is more exalted than to be heir apparent to any earthto be heir apparent to any earth-

to be heir apparent to any earthly throne.

No one will say that the love that Jonathan bore to David was too great, however it was caused, for it led him to do no dishonorable thing. It was proper for him to withhold from his evil disposed father facts that might have jeopardized David's life. Thus we should love the truth and the principles of righteousness, so that we would sooner lay down.

and the principles of righteousness, so that we would sooner lay down our reputation or life than swerve from the path of rectitude. Our affinity for the truth must grow out of our relation to God, and not simply because "honesty is the best policy." George W. Coleman. We should, however, avoid the snare into which so many seem to fall, of loving the church more than the Lord. It is so natural to suppose that the one involves the other, but it is not always the case. It is all right to love a church when a majority of the members of that church layer the layer the state of the sound and suppose that the one involves the other, but it is not always the case. It is all right to love a church when a majority of the members of that church love the Lord, but it is a fact that a church may have started right an a church may have started right and may have drifted far away from God; It is not right to take it for granted that there has been no drifting, either in doctrine, experience or practice, merely because a church was right once. The question should be, Does the church now adhere in these respects to the Bible? If not, we should do as the Bible commands: "Those who have the form of godiness, and deny the power, from such ness, and deny the power, from such turn away." We must break away from everything that is not of God, however prosperous or landale or lacrative it may seem to be, if we would enjoy his smiles.

### A Lawless Age.

Lawlessness breeds lawlessness Lynching does not lessen even the most revolting of crimes; it doubtless tends to increase it, for it tends to the destruction of all restraint. When society is disorganized, the most brutal crim nality excuses itself. Murder by a mob is certainty no remedy for murder by an invalid No limits can be set to the measure of demoralization wrought by a of demoralization wrought by a single instance of mob violence. No matter how great the provocation, the leaders of a mob are the enemies of society, and the leaders of a lynching mob are murderers. The best of causes can only be injured by any lawiess violence on the part of its followers.

Lawlessness cannot be cured without the adequate assertion and mani-

Lawlessness cannot be cured without the adequate assertion and manifestation of the supremacy of law.
The sheriff, policeman or soldier who
dies defending the supremacy of law
is also the heroic martyr of liberty,
for without law there can be no
liberty. Lawlessness is not sectional. Most communities are lawabelians but the allower to fest the abiding, but the elements of violence are present in the most conserva-tive of them. Some of the most chocking of the recent manifestative of them. Some of the most shocking of the recent manifestations of lawlessness have been in intelligent, and hitherto respectable communities, and their moral insanity has not been confined to the ide, ignorant, victous, or dangerous classes of the population. The completity of prominent people is the most shameful pair of the mod violence at Wilmington, and Evansville. The growth of a furious mobile like the spread of a great confliguration. The contribution of a great confliguration.

"What I want is a bright, short play," said Toole to the amateur, who had brought him a six-act drama, with lucid intervals.
"How do you mean—a bright, short drama?" said the author.
"Well, something with what the Americans call snap—a thing with point to it; I don't oare whether it is farce, comedy or drama, if it has effective situations and good, telling climaras." climaxes."

climaxes."

"Can you give me an idea of the sort of thing you mean?" asked the budding author.

"Oh, yes," said Toole. "I remember one of the shortest and certainly the best play of its kind imaginable; it was so cirect, you know, and yet left so much to the imagination."

"It was in one act.

"When the curtain went up two persons were discovered on a sofa:

persons were discovered on a sola; one was a pretty young woman, the other a nice-looking young fellow.
"They embrace each other silently; neither of them, you understand, sald a word.
"They actor opened at the back

"Then a door opened at the back and a traveler entered. "He wore an overcoat and carried

an umbrella.

"You could tell at once by his manner, and without looking at the programme, that he was the husband of the young woman; at least, that would be the inference of every intelligent playgoer present.

"The husband took off his coat, laid aside his umbrelle, and drew from his breast pocket a heavy Colt's revolver. "In the midst of a silent embrace of the hero and heroine, he fired.

the hero and heroine, he fired.

The young woman fell dead.

"He fired again, and the young man

was similarly disposed of. ...
"Then the traveler came forward, put on a pair of eyeglasses, and con-templated his sanguinary work.
"'Great Heavens!' he exclaimed, 'I am on the wrong floor,' "—Liverpool Post.

A THING WORTH KNOWING is the fact that Painkiller fluds more uses in a household than any other remedy. For all bowel com-plaints. External for cuts and wounds. Avoid substitutes. There is but one "Painkiller"— Pager David.

In the Country. Eugene Field.

It seems to me I'd like to go Where bel's don't ring, nor whistles blow, clocks don't strike, nor gongs sound, And I'd have stillness all around,

Not real stillnes, but just the trees Low whisperings, or the hum of bees;
Or brooks faint babbling over stones In strangely, softly tangled

Or maybe a cricket or katydid, Or the so

If 'tweren't for sight and sound and

Knew His Business

Pearson's Weekly.

'Now, here is a showcase." sale the commercial traveller, pointing to a peculiar looking specimen of his wares, "that is bound to become popular. It magnifies everything put in it to double its natural size." 'Can't use it in my business," replied the prospective customer.
"What I want is a case that will seemingly reduce the actual size of

its contents."
"What is 'your line?" asked the denier.
'My specialty is ladies' shoes, replied the other, with a half-sup pressed gria.

Good Advice. N. Y. Herald, JET" BUTTONS OF GLASS.

Some of Woman's Or are Made Now.

Jet buttons, so-called, are not je at all. They are merely glass, but they serve the purpose and look just as well and are much cheaper. Until recently nearly all of them came from Bohemia, but they are now made in this gountry, and American manufacturers are able compete with the foreign trade. The

compete with the foreign trade. The process used is a secret.

The process begins with long black rods of glass composition, from which the buttons are made. These rods are cylindrical, about four feet long and three-quarters of an inch in thickness. Three of them are taken at a time by the button-maker, held together and so placed on the bench that one end is kept constantly over a tongue of fire, the gas used being blown from a bellows worked by steam power and connected by pipes with each work bench.

With a little steel rod held in on hand the puttonmaker picks from the now molten mass of glass a large drop. This he skilfully holds in such a manner that a mould made in two sections, like an iron vise, shuts, catches the drop in its mouth, presses it into the shape of the dies and then swallows it. Upon being swallowed the button falls through

swallowed the button falls through a pipe two feet long into a pail. A feature of the pressing of the buttons is that an eyelet is press-ed into the button at the same time, it having been previously placed in the die. The buttons are washed in cold water, and then the rough edges from the moulds are cut off by boys with scissors. From here they are carried to the edgers— girls, whose work consists in giving the buttons a finish with emery

wheels.

The buttons at this stage have an appearance of an ordinary black let button. Polishing them on a wheel of some peculiar foreign wood, on the surface of which a prepara-tion is put, gives them a glassy appearance. The mourning of crepe effect is attained by the pattern of the die, and then by soaking the buttons in certain chemicals. With new and approved appliances over one hundred gross of buttons

over one hundred gross of buttons can be made on one press a day. The eyelets used are made of brass wire, which is run from a spool on to a small revolving rod. When taken off this it has the appearance of a long coil spring. This is placed in an enclosed mechanism and a circular saw of hard steel cuts it into as many little rings as there are turns in the wire.

From the manufacturing depart-

ment the buttons are taken to the carders, generally girls, who place them on cards and fasten them with needle and thread. The cards are

ready for market.

On a sapple card shown were glass and jet buttons of nearly every imaginable shape, color and effect, from the sombre crepe to one spackling with silver and gold.

### PUNISHMENT OF TANTALUS

Experient Which Will Give Amuse-

ment to Your Guests. Put an ordinary chair, front downward, on the ground; now ask some-one to kneel on the lower back bar and to recover with his mouth a piece of candy or small article placed on the back of the uppermost part of the chair.

It seems very simple at first, but If the person attempting the experiment is not very careful to crouch in such a way that the centre of gravity falls back of the chair seat the chair will give him an unpleasant timeles. ant tumble.

When trying this experiment have some one stand near to catch you in case you should fall.

A Potato Pinter.

The potato paster of to-day rould make the farmer of a genwould make the farmer of a generation ago sit up and rub his eyes. It requires that the potatoes be supplied, but will do all the rest on its own initiative. It picks the potato up and looks it over—or seems to—cuts it into halves, quarters or any desired number of parts, separates the eyes and removes the seed ends. It plants whole potatoes or parts thereof, as desired, as near together or as far apart as the together or as far apart as the judgment of the farmer on the driving part suggests. Having dropped the seed it covers it, fertilizes it, tucks it in like a child put to bed, paces of the next row with mathematical accuracy.

In Hymcn's Court In Hymen's Court two Cupils sac And one was false, the other true,
No difference between the two
Could be discrined, excepting that
One Cupid slyly passed the hat—
Shekels of every shape and sort
He gathered in. The other's dart
Flew out and struck home to each
heart.

LIVE WISELY, ALWAYS,

Lesson in Leo's Life for Those Who Would Tarry Here Below.

Frail in body and a semi-invalid all his life, Pope Leo XIII. supported the heavy labors and anxieties of the Vatican for 25 years, and lived to be more than 23 years of age. What is the explanation of this paradox of strength in weakness? A writer in the Scotsman says it is contained in two words—regularity, diet.

Six years ago, in a Latin poem ays the New York World, the Pop says the New York World, the Pope gave his own formula for longevity. The substance of it was regular and absteminous living. He recommended the sparing use of meat, and a reli-ance mainly upon a moderate allowance of eggs, milk ,honey, fresh vege-tables and ripe fruits. For a bever-age he recommended pure, light wine, much diluted with water, and a little coffee. His precept is better understood by reference to his practice. He ate so little that the average man ate so little that the average would call it fasting. His rule to eat only what he needed, not what he desired. He ruled his appe-

what he desired. He ruled his appetite and overruled his palate.

Many instances of delicate men who have lived long by similar abstemiousness in eating and drinking are familiar history. Cornaro, broken in health by dissipation at 40, observed a rigid regimen thereafter, eating little meat and lightly of all food, and lived to the age of 104. Isaac Pitman, the inventor of shorthand, was another man who never food, and lived to the age of 104. Isaac Pitman, the inventor of short-hand, was another man who never was robust. He ate no meat, drank

was retust. He ate no meat, drank no fermented liquors and lived to be considerably over 90. Cardinal Newman, who also achieved nonogerarian honors, was not a strict vegetarian, but his dietary rules closely paralleled those of Pope Leo, to whom he bore also a strong resemblance in physique.

The strength of will which enables a man to steraly overrule his own appetite fully accounts for his ability to face death with resolution and

a man to sternly overrule his own appetite fully accounts for his ability to face death with resolution and to almost seem, as in the Pope's case, to defy its summons.

The famcus Governor Bradbury, of Maine, who lived to be nearly 100, was asked how long life was best sought, and replied: "Get an lucurable aliment in your youth and nurse it till you die." He had left college as a young man with a malady pronounced incurable. An oll English proverb applied to always ailing but never dying persons says. The creaking farm gate never falls." The recson is that the farmer's strong gate is opened and shut carelessly, while the creaking one is always handled gently. Nevertheless, more robust and less careful people may lean wisdom from the many half-invalids, who, by eating and drinking little and wisely, live to great ages. "Most men dig their graves with their teeth," says the octogenarian, Dr. R. K. Pearsons, of Chicago, who opines that centenarians would be more plentiful if men consumed "less gross food and more fresh air."

GETS MUSIC FROM HIS LEG

a Cabinet Organ. (Chicago Chronicle.) Although it is said that a whistie has been made out of a pig's tail, Alexacter N. Alien, 256 Clark street north, is probably the first person who ever made a musical instrument out of his leg.

Put your hand anywhere on his left thigh, from the hip to the knee, and you feel vibrations just as if you were touching a cabinet organ. Connect his leg with your ear with a stethoscope and you hear the same

Connect his leg with your ear with a stethoscope and you hear the same musical murmur that you may hear by that means in the human heart. Indeed, when everything is quiet at night Mr. Allen can hear his musical leg without using the stethoscope. Many physicians, some of whom live in Chicago, have examined the case, and, after all Mr. Alledon tell'them about it, unite in saying that the case is an exceedingly

can tell them about it, unite in saying that the case is an exceedingly singular one.

"I am 88 years old," said Ma. Allen, "and fifteen years ago I was a clerk in a store in Oil City, Outone day in the store I had an open panknife in my hand and engaged in a friendly scuffle with another man. In jerking my arm away from him I ran the small blade of the knife into my thigh a distance of perhaps an inch and a half, and I suppose severed the femoral artery.

"When my trousers were removed the blood spurted ten feet every time my heart beat and in a few seconds I became unconsclous. There was no phlysician convenient and the people about me resorted to a number of primitive methods of stopping the hemorrhage, one of which was the application of a mass of cobwebs. The man who got the credit of doing the job, however, was a sort of odulist, who claimed that he stopped the bleeding with a 'charm.'

"At any rate, the flow of blood was stopped, the leg was bandaged, in the plainest manner and the artery healed. For a long time after I got about I could not straighten

in the plainest manner and the agtery healed. For a long time after
I got about I could not straighten
my leg. But gradually the limb relaxed and finally I walked on it
At present I walk on it all the
time, but I am sensible that it is
a, little weak, and I have been
cautioned that violent exercise of
any kind might be fatal.
"Doctors disagreed about the
case. Some sald I would die unless
I submitted to an operation and

case. Some said I would die unless I submitted to an operation and others said the operation would surely kill me. They are all pursied at the musical murmur. This general opinion is that the femoral artery was lacerated and great together in some was that obstructs the flow of the blood. But how a lacerated artery could even how a lacorated artery could ever heal under such treatment none them can understand. I discovered the musical sound as soon as I was able to stand on my feet."

WOMAN'S PERFIDY

The rest also muttered something about sudden departures, to all of which the poor lady could only murmur vaguely in return. It was a hurried and uncomfortable meal, for

everybody could not but feel that his absence was desired, and very soon carriages were at the door, and the Marquis of Nairne's guests, were tak-Most of the guests had departed, all except Gerald and May. It was his intention to conduct May to the major's cottage, that she might learn something of the cause of Elaine's mysterious flitting. May ran up the stairs, feeling very much inclined to cry, and Gerald stood in the hali

ery, and Geraiu swaiting for her.

As he did so, a small, wiry-looking as he did so, a small as he did so he man with sharp eyes entered by the front door, and stood looking round. "The Marquis of Nairne?" he said,

uiringly.
Lord Nairne has left the Castle.
e to London, I believe," said Gerald Locke.
"Gone!" muttered Inspector Saunders in a tone of surprise and disap-

pointment.
But at that moment Gerald saw
the marquis coming down the stairs.
Saunders, hat in hand, went to the
notion of the stairs and waited for

hottom of the stairs and waited for him.

The marquis, pale and haggard, came straight down without hesitation or pause, and nodded with a smile to Gerald Locke.

The small man waited until the marquis was within reach, then, respectfully, but firmly, said:

"I arrest you, Lord Nairne."

The marquis nodded acquiescently, but Gerald Locke, after a moment of stupefaction, started forward, and, with lawyer-like promptitude, exclaimed:

claimed:
"Arrest! On what charge?"
Saunders glanced at him, and, seeing a mere youth, smiled, but not quite: then, glancing at the marquis, as if apologetically, replied:
"On a charge of murdering Captain Charles Sherwin."

harles Sherwin." Gerald Locke started, and turned

"Murder!" he gasped; then he re-overed himself. "Your warrant,

Saunders gravely held out the document, and Gerald Locke scanned it.
"It's in due form," he ejaculated. "Marquis!"
The marquis looked at him with a wan smile.
"You cannot help me, Locke," he

a wan smile.

"You cannot help me, Locke," he said, gently. "I am ready, Saunders."
A brougham stood at the door.
Gerald Locke stared at the two men Gerald Locke stared at the two men' as they entered it, amazed and be-wildered for a moment, numbling, "Murder! I cannot help you—eh?" Then, shaking himself, he seemed to recover from his stupor, and ejaculating, "That remains to be seen!" caught up his hat, and, forgetting two May stered after the inspect

tor and his prisoner.

CHAPTER XXVIII. CHAPTER XXVIII.

Elaine and the major reached the cottage. Scarcely a word had been spoken, but he had held her hand sympathetically. He felt bewildered and confused by the sydden blow which had shattered al! his hopes; and muttered over and over again the marquis' injunction, "Take her away, far away!" It was all terribly mysterious and unsatisfactory, and the poor old man wondered whether under the circumstances it would not be better to follow the marquis' advice. He could not yet bring himself to abandon all hope of

bring himself to abandon all hope of being the father-in-law of the present Marquis of Nairne and the pos ent Marquis of Nairne and the pos-sible graudfather of the next.

If Elaine would only confide in him, and tell him all that had hap-pened. But Elaine lay back in her corner apparently incapable of corner apparently incapable of speech. She had recovered somewhat by the time she reached the cottage, and managed to conceal her white, sorrow-drawn face from the astonished Bridget, who ran to meet them with an ams-sed welcome. Eksipe went straight to her room.

meet them with an amssed welcome. Figure went straight to her room, and the major dropped into a chair, and tilting his hat onto the back of his head, tried to disentangle the puzzle working round and round in shapeless confusion in his mind. There was a lovely pile of bills waiting for him on the table, and the sight of them increased his misery. There would be no Marchioness of Nafrae to pay his bills and lift him out of the slough of debt and difficulty into which he had sunk. He rose at last and went upstairs to Elaine's room. She was sitting, half lying, on the bed, her outdoor clothes still on; but she rose as he

the major, whose white, terrified a face moved every heart to pity. It is only a faint. She will come clothes still on; but she rose as he entered, and looked, not at him, but far and looked, not an answer, he went on, "Elaine, what is to be done? You can't expect me to remain in ignorance, it's too much. You are going to tell me about it all?"

The shock her head, and then let it fall on his shoulder.

"I ennant," the breathed. "You must not ask me, papa. It—it would do no good; nothing can do any good, or change, things!"

"You—you mean that—that you and the marquis have broken off for good?" he said, almost inarticulately.

He felt her quiver and shudder, and needed no other answer. Well, then-what are we going to do? It will be dreadful to stop here -in this place-and feel that every one is talking about us and staring

He had some money, and the sight of the bills on the table made his eager to leave Barefield for a time He convinced himself that a trip to ondon would serve to cheer Elaine. The proposition was welcomed by

her, and they took the ten o'clock train for the metropolis.

Here they spent a few days at an old hotel in Jermyn street, where he was accustomed to put up on his oc-casional visits to the city. The change, however, did not improve Elaine, either in body or mind, and they went to Paris. The gayety of the French metropolis, instead of cheering the suffering girl, had a depressing effect, and the major took

er to Lucerne Even on the margin of the beau-tiful lake, Elaine seemed to fade slowly, and several of the guests at the hotel noticed and comment ed upon her apathy, her ghastly features, her sorrow-laden eyes, and to one another said that she was surely drifting into consump-

The major one day overheard some of these remarks, and be ome of these remarks, and became so alarmed that he sent for a physician. He declared that there was no organic trouble; that to him it seemed a case of mental depression, and that there was no need for anxiety.

The major was all attention to her, spending most of his time at her side. One day she said to him "Why don't you go and amuse yourself? I am well enough, and can spare you a little recreation.
Why not try to entertain yourself at billiards, as you used to do,
or at some other pastime?"
The major shook his head, and

"I feel as if I'd forgotten how to make a carom!" he said, dole-fully "I think I'll go and get a paper. I haven't seen one since we left England, and I think there's a

Times or Telegraph knocking about. I shan't be long."

They had been resting in an arbor in the grounds, surrounding bor in the grounds, surrounding the hotel. He got up, and went off slowly; all his old sprightli-ness seemed to have left him. Elaine leaned back, and closed her

The major on his way to the house met a waiver, and asked for a paper, and the man, with the respectful alacrity which distinguishes the Swiss waiter, responded with a "Paper, sare? Journal of noas? Yes. sare."

and dushed off; and the major strolled stowly in. Five minutes later, Elaine saw the waiter standing in front of her, with the Telegraph in his hand. 'Pardon, mademoiselle!" he said.

"The majore he want a journal of noos. It ces 'cre, volla!"

again. Presently she took the paper up, and began to read the front page, absently and listless;; then with a sigh she let it fall on her lap. It scemed to her that the advertisements were all about a world which she had left forever, in which she should never more take the faint-

est interest. As it dropped it opened at the mid-

dle pages, and her eyes fell upon it mechanically, Then suddenly they distended and became fixed upon the page with hor-ror in them. Then she caught up the paper, and rose, looking round wild-

ly, her lips moving.

ly, her lips moving.

The major heard her cry out, a terrible wail of fear and anguish, and, running up to her, found her lying on the ground with the paper clutched in her hand.

He shouted for help, and had got her in his hands before the waiter and half a dozen of the visitors came running up. Among them was a doctor, and he ordered them to carry her to her room.

"Don't be alarmed," he said to the major, whose white, terrified face moved every heart to pity. It is only a faint. She will come to directly. Something startled her. What was it?"

"I-I don't know," stammered the major. "I left her for a few moments—only a minute or two—and came back to find her on the ground."

herself, the . Ricken girl's friend and nurse. and nurse.

Elaine opened her eyes, looked round wildly; then, seeing her father, cried out faintly:

"Papa—papa—lose no time! Not a moment! The paper—the paper!"

Then she went off into a delirium, and the doctor sent the major out of the room.

and the doctor sent the major outof the room.

He went down the stairs and, in a
bewildered fashion, back to the arbor, and there the newspaper lying
on the ground recalled Elaine's
wild cry.

He took it up, and his face became

as white with terror as here had done, for in big type there stared at him the sensational heading:
"The Marquis of Nairne Charged with Murder. More Details!"

CHAPTER XXIX.
The hougham with the inspector

CHAPTER XXIX.

The brougham with the inspector and his prisoner bowled quickly along the road to Perilugton. The marquis teaned back with folded arms, his face, though pale and haggard enough for any criminal, was calm, and there was no trace of either fear, or the bravado which tries to mask fear, in his dark, sombre eyes.

re eyes.

"I am going to Porlington, my lord,' he said. The marquis started as if aroused from deep thought, and inclined uis "Where you please,"

"Where you please, calmly."
There is better accommodation there my ford. I have seen Colonel Ward, of the prison,"—he spoke the word as delicately as possible—"and he will make every arrangement. The warrant was issued by Mr. Hodge—he is one of the quiet ones, and will keep his own counsel for a time. I shall, after—after I leave word—go on to Sir Edmund and for a time. I shall, after—after leave you—go on to Sir Edmund and ask him to arrange for an early ex-

The marquis no.ided.
"Do whatever you think best."
Saunders eyed him with covert

"It's not my place to say thing, my lord," he said, after pause: "and it's my duty to you that anything you say may be used against you. You know that a well as I do, my lord; but—but if you sak him to arrange for an early explanation, I shall take it as a favor. don't lik personal favor. We don't like being on a wrong scent, as you can understand, and I've got a notion that—in short, my lord, that you can heip me to come at the truth

responded the marquis quietly. "As you remind me, anything I say may be used against me. I suppose most persons in my case are silent, are they not?"

Yes, when they're guilty, my Yes, when they're guirty, my ord," assented Saunders laconically. The shadow of a smile flickered on the marquis' face. "Then I shall lave to let you consider me guilty, am afraid, Saunders," he said. Nothing more was said until they came in sight of the town, and Saunders, when they are in sight of the town, and Saunders, when they came in sight of the town, and Saunders, when they are the said.

lers remarked quietly.
"All the ladies and gentlemen have left the castle, I suppose, my lord? I saw a brougham drive away quite

early this morning?"

"Yes, it contained Major and Miss Delaine," said the marquis promptly. He had expected the question, and had prepared the answer. "The major was summoned abroad on important business" ant business.

Saunders nodded.
"One thing more, my lord—we'r's
nearly here—will you let me have
the keys? I shall have to institute search, and there is no occasion

"The majore, he want a journal of noos. It cos 'cre, voila!"

Eaine took it, and thanked him, with a faint smile, at his broken english, and the waiter, with a grin of respectful admiration for the lovely "English mess," darted off again.

of heat waves. The air between the intre thick door.

'If you require anything, I can yet roasting would proceed all the same. Roasting also is a less rapid method of cooking than is baking. Saunders and the governor went out, The door clanged to, and a pair of theavy holts shot into their sockets with an ominous thud.

The colonel, followed by Saunders, went into the office.

"Well, eclosed? in uired Saun

"Yes, c. 19.5" in the covernor raised his eyebrows and shrugged his shoulders.
"You know your business, Saunders," he said; "put——" And he gave another shrug.
Saunders drew his 1 ps together stared out of the window, with his eyes narrowed to slits.
"Yes, I know my business, colone,"

Yes, I know my business, colonel, assented, slowly. he assented, slowly.

"I said so," retorted the old soldier, with saiden heat; "but I was going to add that you'll ind it a thundering lad business. That gentleman is no more guilty than—than I am."

Saunders' eyes disappeared alto-gether, and his lips stretched them-selves into two tuin lines.

"I've known men bung on half the evidence I've got, colonel," he said quietly. "I'm off now to Sir Ed-mund."

The colonel nodded curtly.

"Very good," he said, as if he discaimed even any knowledge of the detective's proceedings. "I've got to do my duty and I shall do it, but—" He swung round and turned his back, and Saupders, after another prolonged stare out of the window, walked out.

walked out.

The marquis sank into the chair and leaned his head on his hands. He had read of the first impressions made—stamped—upon the mind of a man placed in his position, and he was trying to realize them, but he found it difficult. It all seemed a hideous, confused blank at present. The realization of impressions would come later.

Presently the door opened, and the olonel appeared.
"A visitor, my lord," he said. "A visitor, my lord," he said.
The marquis shook his head.
"I can see no one," he sald, more sternly than the colonel had spoken.
"It is your lawyer."
"My lawyer," said the marquis.
"There is some mistake."
(To be Continued.)

HARD ON THE BABIES.

One of the first effects of a hot he number of deaths of infants. Even in the open country the suffer-ng of the helpless little ones would move the hardest heart. Stomach trouble and diarrhoea are the foes most to be dreaded at this time, and every mother should appreciate the necessity of careful diet and attention at the first nigh of these troubles. Medicine should never be given to sheet diarrhoea every mon the

bles. Medicine should never be given to cheek diarrhoea except upon the advice of a physician. A diet limited almost entirely to boiled milk and the use of Baby's Own Tablets will cure almost any case and keep baby in health. Mrs. W. El Bassam, of Kingston, Ont., writes:

"When my little girl was about three months old she suffered with vomiting and had diarrhoea constantly. I did not find any medicine that helped her until we began giving her Baby's Own Tablets. After giving her the Tablets the vomiting and diarrhoea ceased and she began to improve almost at once. Since then whenever her stomach is out of order or she is constipated we give her the Tablets, and the result is always all that we desire. They are

always all that we desire. They are the very best medicine I have ever used for a child."

Baby's Own Tablets are sold by all dealers in medicine or will be sent post paid, at twenty-five cents a box, by the Dr. Williams' Medicine Comany, Brockville, Ont.

A PLEA FOR ROASTING.

Superior to the Baked Article.

a search, and there is no occasion to damage locks."

The marquis took his keys from his pocket and handed them to him. "Any others you may want, Mrs. Inchier, the housekeeper, or Mr. Ingram, the steward, will give you, he said.

The brougham stopped at the prison, and a couple of polleemen quietly placed the uselves on each side of the carriage door.

Saunders motioned them back, and shook his head, and did not offer to lay his hand on his prisoner.

A white-haired old gentleman, whose face and figure proclaimed the soldier, met them in the lobby, and bowed to the marquis, whom he now howefully in the past are now absunced as imply to save trouble. The modern cook, or the person who calls fixered is used, attenuity in a series in the good oid-tasnioned way in a series in front or the fire, commonly ignores her instructions at every possible opportunity and puts the joint in the oven. The introduction of the "kirchener," or the closed range and of the gas cooker probably accounts for the preference which is given to baking while it does away with the necessity of basting and other little but important carefully.

"Eight," he said to Saunders; then

ward, said the marquis, loding out his hand; then remembering that the old soldier might not relish shaking hands with a suspected assassia, he colored, and drew it back. The colonel affected not to have seen the extended hand.

"Step this way, please, my lord," he said, taking a bunch of keys from a warder.

He unlocked the door of a cell, and with grim courtesy signed to the marquis to enter.

The marquis looked round. The aspect of the cell struck with the usual chill on his nerves, but neither the colonel nor Saunders saw him wince.

"Do you house all your prisoners as comfortably, colonel?" he inquired.

oma. It has been shown that the more inspection of good tempting focds start the digestive machinery and immediately excites the flow of the gastric. It is, therefore, and finish is a case out of the ordinary. It am afraid you won't find it too comfortable."

"You will not hear me complain, at any rate," responded the marquis. The colonel stood, and seemed to be hesitating. Then he said, with a flush on his grave face:

"Would you —I'm afraid I must all would you —I'm afraid I must ask you to empty your pockets, my lord."

The marquis inclined his head, and placed the contents of his pockets on the plain deal table, which, with an iron camp bed and a deal chair, formed the furniture of the place.

The colonel bowed.

"Thank you, nfy lord. You will like to have writing materials?"

But the marquis shook his head.

"No. thanks, I have no need for them."

The colonel pointed to the grating in the thick door.

"If you require anything, I can beginn also is a loss to be a loss of the same."

Too you for the plain deal table, which, with an iron camp bed and a deal chair, formed the furniture of the place.

The colonel bowed.

"Thank you, nfy lord. You will like to have writing materials?"

But the marquis shook his head.

"No. thanks, I have no need for them."

The colonel pointed to the grating in the thick door.

of the scarcity of chickens. At the present time six cents a pound live weight is offered for hens by a large produce company in Toronto; eight cents a pound plucked weight is paid in Montreal. In several months live chickens can be bought by the produce merchants for the above rates, or for a small insection in them. If duce merchants for the above rates, or for a small increase in them. If the hens are held until fall they will not realize as great a profit as they will this month, owing to the reduction of the market price for fowls and the foss of flesh in moulting. Hens should be sold when they are two years old. All male birds should be sold in the summer, and cockerels used for breeding the following season.

PULLETS FOR LAYING—The advantages of retaining the early pullets for fall and winter egg production have been repeatedly stated. Early pullets will lay in their first year five times as many eggs as old nons. The cost of feed will be practically the same for the pullets as for the hens. The profits from the pullets will be correspondingly greater. The most promising utility-type pullets should be selected now, fed liberally so that early winter laying may be encouraged, and later on placed in comfortable winter quarters. Transferring mature pul-PULLETS FOR LAYING-The quarters. Transferring mature pul-lets to a strange pen defers egg pro-

UTILITY-TYPE FOWLS .- For pcu'try farming the utility type of breeding fowl should be selected. This type of fowl can be had in the proper breeds, Plymouth Rocks and Wyandottes. Utility-type fowls should be broad, blocky and of med'um size and weight (nature weight, cock, seven to eight and a half pounds; hen, five and a half to seven pounds). The breast should be full, broad and carried well forward. The legs should be set well ward. The legs should be set well apart, short, white or yellow in color, and without leg or foot feathering. The utility-type fowl corresponds to the shorthorn type in

and the state of t The following practical poultry ad-loe is given by Mr. F. C. Hare, Chief SALE OF CHICKENS.—From 11 to vice is given by Mr. F. C. Hare, Chief of the Poultry Division of the Dominion Department of Agriculture:

SALE OF FOWLS—It is most profitable to dispose of old hens before the moulting period. There is then a ready market for fowls on account of the scarcity of chickens. At the present time six cents a pound live weight is offered for hens by a large croduce company in Toronto; eight cents a pound plucked weight, and ready weight is offered for hens by a large croduce company in Toronto; eight cents a pound plucked weight is paid in Montreal. In several months live chickens can be bought by the produce merchants for the above rates.

stand fruit growers who place staple articles on the market before the regular supply is aviiable. CRATE-FATTED CHICKENS. —The increased consumption of chickens in Canada is due to the improved quality and appearance of the chickens that are offered for sale This improvement has been established through the business of crate-fattening chickens introduced by this Department of Agriculture, and to the methods of killing, plucking and shaping the chickens before they are marketed. Every farmer in Canada should be in possession of the details of the crate-fattening lungings, that on the details of the crackers.

Ing business. It is a business that
can be managed by any member of
the household; the required number of crates are easily constructed; the chickens will gain from one and a half pounds to three pounds cach during the 21 days fattening, and the cost of feed per pound of gain in live weight will average from five cents to six and a init

FALL FAIRS.-Fowls that are to be exhibited at the fall fairs should be shaded from the sun during moulting. This will provent the be shaded from the sun during moulting. This will provent the new feathers having a faded or mottled appearance. Breeders of fancy fowis are very particular in this respect, and cover the tops of the yards used by the moulting birds with old carpets, lumber, etc. The fowls are given liberty during the late afternoon and evening only. Animal food and vegetables are necessary for moulting fowls; the animal food, such as waste meat or raw bones, will increase the supply of protein or albumen for the growth of feathers; the vegetables are useful in regulating the system.

Another ponderous volume, issued by the London County Council, brings down what is known of the world's greatest city to the end of March, 1902. The metropolis, within the administrative county of London, contained then 571,768 inhabited houses, in which there dwelt 4,556,541 men, women and children. Of greatest moment in these figures is the population per house, and in this respect the return is disappointing. In 1831 the number was 7.74 per house; in 1901 it was 7.93. Apparently the people are increasing more rapidly than habitations are provided. The industrial workers of London and of large towns generally form about onedown what is known of the world's

towns generally form about one-fourth of the whole. In London they aggregate 1,013,077, of whom rather less than three-fourths-746,863—

less than three-fourths—746,863—were males.
Despite its huge population, London is healthier than any other of the cleven large towns in England, except West Ham, Bristol and Bradford. It had a greater mortality in the past ten years than Amsterdam, Brussels, Copenhagen, Stock olm and Berlin, but healthier than Paris, St. Petersburg, Vienna and New York. Akin to these facts are those relating to the housing of the working classes. A continual displacement of the population is going on by extension of rallways and public works, and with this process the accommodation provided barely keeps pace. The County Council has spent £3,148—315 in clearing unwholesome areas

Ings for 41,614 persons.

Intimately associated with these matters is the subject of locomotion, in which a state of transition prevails, owing to the extension of tramway lines, and the adoption of electric power. The present report anticipates that before 1904 "the council will own, in addition to any new tramways or light railways that it may construct itself, a total of 108 1-2 miles." During 1901 a gross profit was earned on the metropoli-108 1-2 miles." During 1901 a gross profit was earned on the metropolitan tramways of £148,797. During 1901 passengers by tramcars numbered 337,730,626; by the General Omnibus Company, 202,024,222, and by the Road Car Company, 67,909,537. All kinds of locomotion show an increase.

537. All kinds of locomotion show an increase.

In some respects the least satisfactory of these returns are those relating to crime. On the whole, offences against the law "have considerably diminished during the last ten years, but drunkenness is a notable exception, the figures showing an almost continuous increase since 1890." Prosecutions have risen from 537 per 100,000 population to 846—over 50 per cent. "Crime in the metropolis is somewhat higher than in the country, generally, but much

the country, generally, but much less than in some of the other large towns—Manchester and Liverpool, for example."
Silently and almost unobserved, the wealth of London has shown by its ratable value, is always growing. It has almost exactly doubled in the last twenty years. In 1871 the value for rating purposes was £19,963,285; in 1891 it was £33,769,069. Of this amasing increment nearly £12,000,000 was due to new buildings. sion of railways and public 'works, and with this process the accommodation provided 'barely keeps pace. The County Council has spent £3,148-315 in clearing unwholesome areas and creeting dwellings. Schemes carried out by the Council and the late Board of Works have provided dwell-

# SHE NURSED THE SICK AND RUINED HER HEALTH

For Months Mrs. Myles Lay a Helpless Sufferer From **Nervous Prostration and Gradually Grew** Weaker and Weaker

Mrs. John Myles, sen., of South Woodslee, Essex Co., Ont., is well known throughout the surrounding country because of her work among the sick and suffering and it was on account of over exertion in this regard that her health broke down and she lay weak and helpless, a victim of nervous prostration. Doctors could not help her and she resolved to try Dr. Chase's Nerve Food. As a result she has been the property of the presence of the work among the sick and suffering and it was on account of over exertion in this regard to health and in looking back can say that the improvement has been something wonderful. I used in all forty boxes of this preparation and feel it a duty as well as a privilege to recommend it to all who are suffering from nervous disorders. Several persons to the property of the propert

solved to try Dr. Chase's Nerve Food. As a result she has been the means of bringing back health and happiness to many a weakened and discouraged sufferer from discases of the nerves.

Paid For It.

▲ kind hearted Washington woman paid a visit to New Orleans while the hipping season on the river was at its height, and as the loading or unloading of a big river boat is one of the most interesting things imaginable to watch she went one day to the levee where a steamboat, one of the largest afloat, was discharging its cargo. The mate of the vessel stood at the gangplank and directed the operations of the ne-gro roustabouts. He was loud voiced, as a mate should be, and he bellowed and roared and swore and now and then whacked some unusually slow or stupid negro with a spar. One negra received so many blows that the Washangton woman's sympathies were aroused. When she could endure the mate's brutality toward him no longer, she walked over to where the negro stood and spoke to him, "Why do you allow that man to strike you and curse you as he does?" she asked. The negro-looked at her in surprise and then showed all his teeth in a grin. "Law, miss," said he, chuckling, "I don't mind him. He's paid for doin' that, same as I'ze paid for doin' this."

The Use of English.

Ruskin has said somewhere in the "Fors Clavigera" that extreme nicety onunciation and the use of words At any rate, to prefer a fine word to a plain one or common one and to say what you have to say in a so called fine style rather than in a natural style is a sure sign of small culture and of no taste at all. If a speaker or a writer is up to his work, he will trust for his effects to his clearness of thought, strength of argument, force of imagination and power to use the Eng hish language easily, directly and with on sense correctness. Grammar. diction and style are the three things which make the difference betwee good writing and bad. The grammar of the language must of course be adhered to, but adhered to not in the way in which a servant obeys orders by doing simply as he is told, but as a man ho knows in himself what he has to

Inhabitants of Unhappy Bulgaria Persecuted For Months.

errible Category of Murder, Terture, Incendiariem, Pillage and General Oppression-People Terrerised and Ruined-Appalling Cruelty-People Tertur-ed With Red-Het Irons-2,000 Bul-

Sofia, Bulgaria, Aug. 17.—The Bulgarian Government has presented a memorandum to the powers setting out at great length the condition of affairs in Macedonia during the past three months, since the Turkish Goverament undertook to inaugurate the promised reforms. The most precise details, places, dates and names of persons are given in the memorandum, the whole constituting a terrible category of murder, torture, incendiarism, pillage and general oppression committed by the Ottoman soldiers and officials. These particulars were obtained entirely from official sources, such as the representatives of the Bulgarian Consuls and agents of the Bulgarian Government, and, in many instances, the reports made by Turkish authorities. The Bulgarian Government guarantees the absolute truth of every statement and challenges the Porte to disprove a single charge made in the memorandum. erament undertook to inaugurate the

andum.

The memorandum begins by stating that during the past three months the Ottoman Government has taken a series of measures with the alleged intention of inaugurating the era of promised reform and of assuring peace and tranquility to the Bulgarian population of European Turkey, but which have had the centrary effect of further exasperating this population and reviving the revelutionary movement. Instead of proceeding solely against persons guilty of breaches of the public order, the military and civil authorities have sought every possible pretext to persecute, terrorice and sought every possible pretext to per-secute, terrorize and ruin the Bul-

secute, terrorize and ruin the Bulgarian inhabitants.

Wholesale massacres, individual murders, the destruction of villages, the pillaging and setting fire to houses, arrests, ill-treatments, tortures, arbitrary imprisonment, banishment, the closing and disorganizing of churches and schools, the ruining of merchants, the collection of taxes for many years in advance, such, proceeds the memorandum are among the acts of the Ottoman Administration of the vilayets of Salonica, Monastir, Uskub and Adrianople.

The memorandum

ople.

The memorandum says that in the town of Salonica itself, the Bulgaritown of Salonica itself, the Bulgaritown of Salonica itself, the Salonica itself, town of Salonica itself, the Bulgarian professors of the university, the students and shopkeepers, in fact, all intelligent Bulgarians in the city, have been cast into prison. One hundred and twenty soldiers entered the village of Gorna-Ribnitz, May 19, and tortured to death five men and two women. During the first three weeks of July. 25 villages in the district of Tikvesch were subjected to depredations of the Turkish soldiers and Bashi-Razouks. The villagers were beaten and tortured; the women violated, and the houses plundered while the Administrative authorities looked on.

In the vilayet of Monastir, artil-

thorities looked on.

In the vilayet of Monastir, artillery bombarded and razed the flourishing town of Smerdesch. At the beginning of July, two Greek bands, with the connivance of the authorities, pillaged Bulgarian villages and murdered many of their inhabitants. In the vilayet of Viskub the entire Bulgarian population has been system. In the vilayet of liskub the entire Bulgarian population has been systematically persecuted since last May. The director of the Normal School at Uskub was imprisoned because his library contained the "revolutionary" works of "Othello" and "Les Miserables." In the districts of Palanka, Koschani, Koumanovo and Gostigar, the prisons are filled with Gostigar, the prisons are filled with Bulgarian priests, schoolmasters and

During June, the soldiers and Bashi-Bazouks terrorized the inhabitants of the Schtif district, torturing the people with red hot irens. Similar atrocities were perpetrated in the vilayet of Adrianople are cited,

Altogether, the memorandum gives particulars of no less than 181 individual and general cases of excesses vidual and general cases of excesses and outrages committed by the Turkish authorities. In summarizing the specific details of the outrages mentioned, the memorandum declares that wholesale massacres were perpetrated by regulars and Bashi-Bazouks in the Town of Salonica and in several villages, while the scenes of carnage, pillage and incendiarism were very terrible. At Smerdesch, over 2,000 Bulgarians were shet, killed with swords or burned to death, Ovthe churches and schools were set on the churches and schools were set on er two hundred and fifty houses and the churches and schools were set on fire and pillaged, the property taken being sold by the soldiers and Bashi-Bazouks in the neighboring places. Similar scenes occurred in four other villages. The villagers fled to the mountains. Over 3,000 men, women and children fled from the Sanjek of

Seres, and even more from the Sair-jak of Kirkklisze. On the slightest pretext the Bulgarians were forced to sell their lands to the Turks at any price the latter chose to pay. Burdened with taxes, liable to perform statute labor for the Turkish land owners, the population is reduced to a state of population is reduced to a state of seridom. This is one of the principal causes of discontent, and when is added the exactions of the tax gatherers, it is not difficult to understand why the wretched people should rovalt from such a description.

### CRAND TRUNK PACIFIC.

The Piece de Resistance in the House of Commons For the Past Week-Names of Those Who Spoke.

Ottawa, Aug. 10.—This was the one hundredth working day of the session, and the House of Commons displayed commondable energy and promptitude in the despatch of public business. The bill incorporating the G. T. Pacific was given its final stages, after a discussion lasting about an hour, several amendments being lost on division. The Government bill establishing a railway commission and consolidating the law relating to railways was also passed after an amendment by Mr. W. F. Maclean, fixing the maximum passenger rate at two cents per mile, had been voted down. Hon. Mr. Fitzpatrick's bill making provision for the requirement of Judges was also passed and sent up to the Senate. The requirement of Judges was also pass-ed and sent up to the Senate. The last of the supplementary estimates for the year, which ended in June last, were concurred in and a supply bill founded thereon passed.

Ottawa, Aug. 11.-On the opening of the House to-day, after some formal business, Sir Wilfrid Laurier moved that the House go into Committee of the whole on the Grand Trunk Pacific resolutions. Hon. Mr. Blair, former Minister of Railways,

4 repaired.

Orders were given on the treasurer

years, has gone to Ireland to live with her uncle. She was a favorite and will be much missed by her many friends, Before she left the ladies went to Mr. Wiltse's house and pre-sented her with the following address: Orders were given on the treasurer as follows: Fred Hayes, for arranging with Mr. Hall and road overseers recrushing stone, \$11, and for expenses building bridge in division No. 6, \$91.09; James Keyes for repairing road in division No. 4, \$25.75.

Council adjourned until Dec. 15th, inless sooner called by the reeye. R. E. CORNELL, Clerk.

### **FULTON-HILL**

scholars, together with your neighbors, have much pleasure in asking you to accept this trunk as a small token of their respect and esteem, thinking that it may not only be useful to you on your journey, but help to keep you in remembrance of your friends. We thank you heartily for your very efficient assures as a coverage in our Sund Winchester Press: "A pretty wedding was celebrated last evening (Aug.12) at the home of Mr. and Mrs. J. B. Hill, when their only daughter, cient services as organist in our Sun-day-school. We will miss you there as day-school. We will miss you there as well as in our every day life. We wish you a safe voyage and hope you will find a pleasant home beyond the sea and be a solace to your aged relative in his declining year, and that, by the grace of God, you may continue to lead a good and useful life.

Maude E. was united in marriage to Mr. Alexander Mackenzie Fulton, B.A. of Chesterville. The ceremony was performed by Rev. S. J. Hughes, M.A. in the presence of only the immediate relatives of the contracting parties, after which the company sat own to a recherche repast. The gift of the groom to the bride was a beautiful pearl sunburst. The bride was also the recipient of many other costly and beautiful presents. Mr. and Mrs. Fulton left by the local express at 8 o'clock amid a profusion of rice-throwing from a large crowd of friends who had gathered to see them off. They went to Brockville where they took a steamer for Montreal and a trip down the St. Lawrence. Both bride and groom hold a high place in social and intellectual circles. The former was at one time on the staff of the Brockville Public school and late was principal of the Winchester Public school, while Mr. Fulton is a cleyer and rising barrister at Chesterville.'

The bride is held in pleasant remembrance by many Athenian friends and with them the Reporter joins in wishing Mr. and Mrs. Fulton long life and happiness.

### BROCKVILLE CHEESE BOARD

The offerings were 1429 colored and 874 white.

The subscriber, in returning thanks to his many patrons for the liberal patronage given him in the past, desires to recommend to the public Mr. Frank Kirst, a skilled mechanic in the wood working department who has leased my workshop. All work and repair The market showed an improved ing given him to do will be done faith fully and well. He has also been in tone. The cable quotations were in advance of last week—48s for white and 49s colored. This stronger tengiven authority by me to sell in my dency was evidenced by action of the bsence the remainder of my carriages. buyers who readily met the views of the salesmen and took the bulk of the make at their own price. Bidding opened at 9½c, and advanced to 9 13-16c. which commanded their first call by Mr. Bissel. He could not get a which every function of their bodies salesmen let their lots go to their epends.

Diminished vitality is early indications also amounted to 754 white and 1118 ed by loss of appetite, strength and colored. Only 435 remained unsold endurance, and Hood's Saraparilla is when the President declared the board adjourned.

### WISS PLORENCE LESTER

Respecting the death of Miss Florence Lester, of Renfrew, sister of Miss Bertha Lester, of Athens, the Rideau Record says: "About a year ago her friends noticed her becoming pale and listless. Previous to that she was a bright, wionome girl. The disease had laid hold of her and carried her off before she had scarcely more disease." her off before she had scarcely more than stepped upon the threshold of maidenhood. Miss Lester was a young lady of very amiable disposition and was beloved by all who knew her. There is much sympathy expressed for her sad and untimely demise and for

### THE I.O.F.

Mr. T. S. Kendrick reports the session of the High Court of I.O.F. for Eastern Ontario, held at Smith's Falls last week, to have been in every respect very successful. Dr. John Herald, high chief ranger, reported that during the rast year there were instituted in his jurisdiction eighteen mains for our citizens to second his enterprise with all necessary encouragement, and in a short time the term "in darkest Athens" will no longer be applicable to our pretty village. Under his guidance, Mr. Arnett is considering the whole subject, and it is probable that in the near future the proposal will be laid before the neonle in a definite, practical form. treasurer, also presented his report showing total cash revenue of \$6,054. 75 with a surplus of \$697.03.

### ANNUAL CAMP-MEETING

For several days past preparation Athens, on Monday, 10th inst., at one of the Holiness Movement for the annual camp meeting on their beautiful grounds at Lake Eloida. Since the first of these meetings, held five years ago, the interest in this annual gathering has breadened and deepened blanks filled as follows: County rate, \$797.31; township, \$1,000; railway bonus, \$831.45; high school, \$931.50; general public school rate, \$1,896.18; S.S. No. 2, \$75; No. 3, \$100; No. 5, \$17.75; No. 7, \$150; No. 8, \$85; No. 12, \$130; No. 13, \$160.

A halom to make the trivial of the capacity of the cottages of the capacity of the cottages. throughout all the churches of the large "living" tent where visitors in excess of the capacity of the cottages can be accommodated; then, many visitors bring their own tents, and so the large attendance is comfortably provided for. Last year there was an average attendance, apart from transient visitors, of about 314; this year it is expected that there will be even a larger attendance.

even a larger attendance.

The camp opens en Wednesday,
August 26th, and will continue for
eight days. Rev. R. C. Horner, B.
O., of Ottawa, and Rev. Mr. Anderson, of Watertown N. Y., will be
present, as well as ministerial and lay representatives from all the churches of the district, viz.: Athens, Lyn, Algonquin, Bishop's Mills; Newboro, Pine Grove, Warburton.

There will be four sessions each day

at 8 and 10 a.m. and at 2 and about 7.15 p.m. It is expected that arrange ments will be made to run a free 'bur between Athens and the camp ground for the accommodation all who take a sympathetic interest in the meetings.
All such are cordially invited to attend

### G. T. Fulford. G.T.R. City Passeng

Fulford Block, next to Post Office Court House Ave Brockville.

But stay on in Russia and learn to know Ivan thoroughly; go often into his home in the town and the village, upon workdays and holi-days; find out what are his oppor-tunities, his achievements, what has been his history since he ceased to be a slave in 1861 and became a citizen of the great Russian Em-pire.

Let us suppose that Ivan elects to stay in the village and does not aspire to change his condition or that of his sons. He can have them taught to read and write, a little geography, and mathematics in the village school. It is his fault if they do not when the sons are old enough to school. It is his fault if they do not go When the sons are old enough to go into the towns to work. Ivan takes care of their land as well as his own; their wives live in his home and are subject to his authority; the sons send a certain sum of money home cach month, and if they fail on account of bad habits Ivan can force them to return and work in the fields.

If they are sober and industrious the family community will always have plenty, and the sons can return in their old age with money in the bank, a plot of ground to call their own, and a comfortable cottage. If the sons are numerous—and industrious and sober—it may happen, as it often has happened, that the family is able to buy the estate of an impoverished noble and become masters in the place where they had been slaves.

The work in the fields in the summer is long and hard, but scarcely If they are sober and industrious

The work in the fields in the summer is long and hard, but scarcely a, week passes without its legal holiday, and sometimes there is more than one, besides the Sunday, of course. And you will find that Ivan takes his holidays in the village and the sons take them in the town, with generally an extra day or two as generally an extra day or two as well, although the wheat may suf-

well, although the wheat may suffer and the factory be seriously crippled thereby.

Visit the village one day and see the feast the moulik prepares for a great fete, of which there are twelve caring the year. He has white bread, fish, meats, cakes, tea, and vodka for himself and his friends. He drinks all day, all night, all next day. His old master, still his friend and counsellor, remonstrates in valu. day. His old master, still his friend and counsellor, remonstrates in valu. He will have his vodka; he will have his holidays. When the vodka and the holidays overcome him Ivan is poor. But otherwise he need not be poor—in nine cases out of ten. In winter he has his own wood, and he is never cold—unless he sells the wood for vodka, as he often does. If he cannot get work in town he can always return to the village and his own home.

Supposing Ivan is ambitious.

own home.
Supposing Ivan is ambitious for his sons. They can have two years of schooling in the village school and then go to another village for four years more, then into the university or technical school. The only difor technical school. The only difficulty is that Ivan must pay for the first year of the gymnasium about 75 roubles, besides furnishing board and lodgings. Sweeping as the statement may appear, it is nevertheless true that Ivan will seldom be without the money if he has been as industrious and sober as he should

Once started in the gymnasium his son will generally be able to keep on without an outlay from his father if he is sufficiently intelligent and, diligent to impress his worth upon his teachers. There are scholarships to aid him, and numerous kind people to give him a heldping hand. If he finishes the university he can, if he wishes, become a professor, a doctor, almost anything but an official in the Government, whose doors are still closed to all but the classes.

If the boy gets thus far it will of course, be by dint of strenuous effort, great sacrifice from himself and his family, and the outlay of some money. But it can be done Once started in the gymnasium his self and his lamily, and the of some money. But it can be done if the father and the son work, as hard as they should—and leave voda a alone. The boy will have discouragements, he will suffer on the souragements, he will suffer on the souragements. couragements, he account of caste, but much less than he would in England or Germany. For the Russian aristocracy, never sufficiently well established in lineage, wealth or power to be domineering, is now broken and ruined, with ho hope for a change of forture, and by nature willing, as well as by circumstances forced, to recognize ability in the peasants.

If Ivan's son wants to go into the army he can do so by passing

the army he can do so by passing examinations, taking courses in the military schools, and paying the small dues. He can become an officer and thus a member of the aristocracy, debarred from the orack regiments perhaps, where the officers must have a large private allowance and where caste is

If the boy is practical and wishes to have a technical education it will be more difficult than the professions or the army, because there are too few technical schools and the examinations are unusually severe. But even here he will have fewer difficulties than if he were competing in Germany or Engiand, for the reason that the Russian student is notoriously lazy and superficial.

What has Ivan the Moujik done his liberation? The nero o late Russian-Turkish war, Gen. Skobeloff, was the son of a peasant. The great Metropolitan, Philip of Moscow, was the son of a pea-sant. Before the liberation there came the son of a moujik, Lomonos soff, whose genius threw off the servility of the French influence in Russian literature and founded

SUPERIOR TO

on Schtapkin, who brought liberty to the Russian drame, divorcing it permanently from the French, in the very period of the serf libera-

THE REDRESSEE ADMINISTRAL

tion.

The greatest writer in Russia today after Tolstol, is Gorki, son of a
seri, and himself a peasant. The
greatest singer of Russia is Theofore
Schaliapin, born in a moujik's family
in the Ural Mountains of Siberia,
whose magnificent voice is one of
the wonders of the century, although
as yet unheard out of Russia.

When the Russians built the beautiful Christ Cathedral at Moscow to
commemorate their escape from the
Napoleonic conquest, they chose
the son of a moujik to decorate it,
Sarokin, whose wonderful freecoes

Sarokin, whose wonderful frescoes are the delight of artists. In the University at St. Petersburg you can find Professor Effimor, son of a peasant; in the University of of a peasant; in the University of Moscow, there was until recently, the celebrated Professor Kovelin, son of a peasant, whose death was lamented throughout the land. The Siberian University was largely founded by Sebiriokoff, a peasant, who also gave large sums of money for explorations. In contemporary Russian literature, unintroduced as yet be youd the country itself, there are the names of Niketin Colzoff, Shewellenkl, Sourekoff, known to every educated Russian as among the most educated Russian as among the most important names of his present day literature—all of whom, are sons of moujiks; slaves until 1861.

moujiks; slaves until 1861. Pondering upon the opportunities of the peasant, his position as a small landed proprietor to begin with, his assistance from the nooles, who are in general poorer than he; the hospitals, schools, theatres, established for his benefit, and for which he pays nothing—not very many nor very good, perhaps, but too often not patronized—pondering also upon his extraordinary adaptability and intelligence when aroused upon his lazy habits, as a rule, his fifthy per son and the stream of vodka which son, and the stream of volka wine-runs down his throat, you ask: "Doe he deserve all the sympathy ne ha commanded?"—Rebecca A. Insley, 11 London Mail.

Same years ago a clever Ameri can professor was asked by

can professor was asked by a voung lady for a ciphor thist could be easily worked without being too difficult to read, whereupon he penned the following:

[U O a O, but I O U;
O 0 no O, but I O U;
O no O, but I O U so.

But give O I I O U so.

When the key to this is obtained it lilts like a love song. The secret of it lies in the facts that a naught is a ciphor and that it is casy to make this word "sigh for" whenever required. It reads phonetically with perfect ease, but the written form is perhaps more readily intelligible:

readily intelligible:
You sigh for a ciphor, but I sigh
for you;
O sigh for no ciphor, Rut O sigh O sigh for no cipher for a cipher go,
O let not my cipher for a cipher go,
But give sigh for sigh, for I sigh
for you so.
—Chicago Chronicle,

### Ginger Beer

An excellent ginger beer may be prepared in the following manner: Take two ounces of bruised ginger, two ounces of cream of tartar, two pounds of lump sugar, two lemons cut in slices with the rind left on; put all these into a large pan or pitcher and pour two gallons of bolling water on them. Let this stand for several hours, strain it, and when quite cold add a tablespoonful of brewers' yeast and let it remain in the ginger beer for twelve hours. Then skim off the yeast and bottle the beer. Press the corks very firmly down and tie them. It will be ready for use in a week.

Lord Avebury read a paper at the meeting of the Geological Society, London, on the formation of the mountains. According to the report in the London Times, he said that experiments had been made long ago by Sir J. Hall, and afterwards by by Sir J. Hall, and atterwards by Daubree, Ruskin, Cadell and others, by arranging layers of cloth, clay, cement, etc., and studying the folds and fractures which resulted they were compressed. In all these experiments, however, the pressure was in one direction only, whereas it was obvious that if mountains were due at any rate in part to the contraction of the earth, in quent pressure took place from all sides.

Lord Avelury said that he, therefore, provided himself with a square case compressible on all four sides at once. In the central space he arranged layers of sand, cloth, etc., and compressed them, thus throwing them into folds. He then took in them into folds. He then took in each experiment four casts in plaster of paris, beginning from the top and these casts were exhibited to the society. They presented an interesting analogy of the actual mountain district, though, of course, they did not show the results of subsequent denudation due to rain and rivers. It had long been observed that mountaineus districts showed two sets of Enes at right angles. two sets of lines at right angles

two sets of lines at right angles to one another.

Any one who would glance at a map of Scotland would see this clearly. One set was represented by the Great Glen, with the lochs and valleys parallel to it, such as many others; the second series at right angles to it by Loch Shin, Lock Moree, the Sound of Mull, etc. This characteristic of mountain regions has long been known, whether the characteristic of mountain regions has long been known, whether the servility of the French influence in Russian literature and founded the native literature which flourishes to-day. There followed him another moujik's son, Michael Simultaneous'y.—Scioac 4

Dying of Bright's Disease, Dodd's Kidney Pills Cured Him.

cent Deaths of Prominent Men from the Most Dreaded or all Maladies Recall the Fact that Dodd's Kidney Pills have Conquered it.

Ottawa, Ont., Aug. 1.7-(Secial) The recent numerous deaths of prominent men from Bright's Disease recalls the case of George H. Kent, of 408 Gilmonr street, this city.

'Mr. Kent, who is still living here, strong and hearty, was dying of Bright's Disease. He had lost the use of his limbs and his whole body was swollen to a terrible size. Three doctors were positive that he must cite.

die.

hWile watching at his bedside his wife happened to read an advertisement that said Dodd's Kidney Pills would cure Bright's Disease. They were sent for as a last resort. From almost the first dose Mr. Kent says he felt benefited by them. After taking four boxes he was able to sit up. Seventeen boxes cured him completely.

Mr. Kent's cure caused great excitement at the time. People who

citement at the time. People who had heard of it came from far and near to see him, and all went away convinced that Dodd's Kidney Pills will cure Pright's Disease. This conviction is strengthened by a number of other cases reported

throughout the country where this great Kidney remedy has been used, and Bright's Disease vanished.

Chicago Post. "Do you think it's wrong for a girl to permit a man to kiss her?" he asked.
"Well," she replied, "I think it's a good deal better for the man not to

vait to get permission.' SPOTS AND BLOTCHES on the face and neck are often signs of foul blood. Apply Weav-er's Cerate to the inflamed skin, and take Weaver's Syrup to riff the blood of pollution.

### In Poland the patriots are now en-

deavoring to popularize the following enrious version of the Lord's prayer "Our Father, who art in Heaven restore to us the kingdom of Poland. Deliver us from slavery. Give us this day our daily bread, but not steeped in blood and poisoned through the wickedness of our enemies. Pardon us for the sins which are engraved on our swords. Suffer us not to fall into the temptation of becoming traitors, to Poland, and deliver us traitors to Poland, and deliver us from the domination of a foreign power, since that is our worst evil."
Thousands of Poles have learned
this prayer by heart, and invariably
use it instead of the old and familiar

Cheering Up the Patient.

New York Daily News.
Patient—Tell me, candidly, doctor,
do you think I'll pull though?
Doctor—Oh, you are bound to get
well. You can't help yourself. The
Medical Record shows that out of 100 cases like yours one recovers in-

variably. "That's a cheerful prospect."
"What more do you want? I've treated ninety-nine cases and every one of them died. Why, man alive, you can't die if you try. There's no humbug about statistics!"

### A READY-WOMAN.

Helped Her Lover Out Even to Getting the License.

There was a pause, then Ingram spoke again. "Sabina," he said, "it is because I love you that I am going to send you away. I cannot marry you now that I am crippled."

"It's just why you can," replied Sabina. "You really need me now. Beakles, I think I prefer your not being able to do things to your doing them so badly."

The words were said laughtugly to lighten the situation, and neither she nor Ingram realized their truth. He disregarded the remark altogether. It's very noble of you, dear, to be so pitiful," he murmured," but I cannot let yourself."

"I love you" said Sabina

dear, to be so pitiful," he murmured," but I cannot let you sacrifice yourself."

"I love you," said Sabina.
Ingram picked up his crutches, and, leaning on them, dragged himself to his feet. It was herole, although he did not know it. He took a few ungainly steps, his humped form more resembling some grotesque quadroped than a man. "Look at me well," he said, bitterly. "Do you enjoy the spectacle?"

"I love you said Sabina.

"It would not only be when we were alone," he went on, pitllessly, "In the streets the people look at me and turn away, the children laugh—even the dogs seem to look at mc curiously. Is that the sort of husband you would be proud to walk with?"

"I love you," said Sabina.

of husband you would be proud to walk with?"

"I love you," said Sabina.
Cingram sank down into the chair again; it was very hard.

"Oh, Sabina," he almost groaned,
"You don't understand. You don't understand, dear, that you'd be giving up everything. Your life would be empty. You'd miss the greatest joys in a woman's life."

"I'd have you," whispered Sabina. diagram shook his head. "I cannot let you do it."

"I don't think you can help it," Sabina said, sweetly. She gianced

Sabina said, sweetly. She glanced at the clock.

The action recalled Ingram to the immediate necessity. "Go home! go home at once!" he cried; "they may not have missed you yet."

She sat down. "They won't miss me at all," she sald, "because they think I'm, staying with the friends where I dined. That's why I waited until to-night, six whole days, for this is the tenth, and we came at the clock. ed until to-night, six whole days, for this is the tenth, and we came back on the fourth. By the second post to-morrow my cousin will get a letter from me telling her where I really am, but by then we'll be safely married."

Ingram felt as though the room were turning around him. "But, my dear whild," he urged, Jeebly, "it takes time even to get a special license."

"I have one," said Sabina. - E Ayrton, in July Lippincott's:

Minard's Liniment Cures Distemper The Editor and the Preacher. Yellow Jacket.

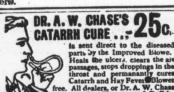

A preacher came at a newspaper man in this way: "You cditors do not tell the truth. If you did you could not live; your newspaper would be a failure. The editor replied: "You are right, and the minister who will at all times and under all circumstances tell the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand, with and the pulpit go hand in hand, with whitewash brushes and pleasant words magnifying little virtues into big ones. The pulpit, the pen and the gravestone are the great saint-making triumvirate." And the great minister went away looking very thoughtful, while the editor turned to his work and told of the surpassing beauty of the bride, while in fact when was as howely as mud fence. was as homely as a mud fence

### LORDS PASS IRISH BILL.

Goes Back to Commons to Discuss Ameudments.

London, Aug. 17. —The House of Lords has passed the Irish Land Bill, which now goes back to the House of Commons for the consideration of the amendments added in the Upper House. One of the most important amendments was added at the instance of the Irish landlords. It increases the provision made for their creases the provision made for their legal expenses out of the British ex-chequer. The amendments will un-doubtedly be adopted by the House

Ottawa, Ont., despatch—A cyclone struck the town of Rockland yester-day afternoon, leaving descruction in its wake. One woman and two children are seriously injured. Sixty houses, barns and outbuildings were shattered, in some cases carried completely away. Animals were killed in the fields, and great trees that have stood for centuries were uprooted or torn down and hurled through the air. of Commons.

Prior to the third reading of the bill the Duke of Devonshire said that while he was unable to forecast the action of the House of Commons on action of the House of Commons of the House of the House of Commons landlord's amendments adopted by the House of Lords, he was confident that the position of the Government in the Lower House would not be altogether irreconcilable. Lord Abercorn, on behalf of the landlords, thanked the Duke for his courteous reception of the amendments, and said he believed the bill would benefit the whole of Ireland. He trusted that the trusted the the state of the landlords and said he believed the bill would benefit the whole of Ireland. He trusted that the amendments would be received by the House of Commons in the same spirit as they had been passed by the Lords.

### TOOK OUT GIRL'S HEART.

Bemarkable Operation Performed by

St. Louis Surgeons. St. Louis, Aug. 17 .- Surgeons at the St. Louis, Aug. 17.—Surgeons at the bospital on Saturday removed the heart of Alma Toomey, a 13-year-old girl, who had been stabbed by her aged lover. Thomas Barnes, laid it upon her breast and examined it, found it uninjured, and replaced it without injury to the patient. It is said to be the cleverest operation of the kind in the annals of surgery. The operation was accomplished by ing operations conducted in Tober-mory Bay, Mull, by which the recov-ery was effected of certain pieces of ordnance forming part of the arma-ment of the Admiral of Florence, one of the kind in the annals of surgery. The operation was accomplished by cutting through two ribs and pushing the lung haside. A hole was found in the perteardium made by the man's knife, and after cutting—a half inch more, severing several minor arteries, the heart was ready to come out. The heart continued to pulsate regularly while it was exposed. After the heart was put back lite arteries which had been cut were bound up. It is feared the girl will die.

### BARRIER TO IMMIGRATION.

British Commission Urges Exclusion

Cundesirable Aliens. London, Aug. 11.-The Government commission appointed to inquire into the question of alien immigration has issued its report. It finds that there has been a great increase in such immigration in recent years, the excess being mainly composed of Russians and Poles, mostly of the Jewish faith. is in the native population.

Provision is made for the deportation of immigrants, who may be proved to be undesirable, within two years of their landing, and the vessel importing them will be compelled to repatriate them without compensation. The proposed medical inspection is similar to that in the United States. The penalty for supplying false data to the immigration in-

tion. The proposed medical magnetic similar to that in the United States. The penalty for supplying I false data to the immigration inspectors is deportation.

The immigration department may specify certain overpopulated areas as prohibited territory for fresh immigrants. In the case of the conviction of an immigrant for follony or misdemeanor, the dourt may licitude deportation as part of the sentence.

### FIRED ON POACHER.

American Fish Tug Would Not Stop

When Ordered.

Erie, Pa., Aug. 17.—The fish tug
Silver Spray arrived in port this
afternoon riddled by bullets alleged by the captain to have been fired
by the Canadian cutter Petrel.
Captain Shaw, owner of the tug,
claims that the cutter was not
justified in opening fire on him,
and will report the matter to the
Secretary of State. According to
Captain Shaw's statement, he was
cruising near the line when the
Canadian vessel came on him before he was aways of her suppressely When Ordered. Canadian vessel came on him be-fore he was aware of her approach She signalled for him to stop, and put her head to starboard. Thinking ing that the cutter intended to ram him, the captain turned his

ram him, the captain turned his helm to port and the vessels passed. Remembering the fate of other tugs which have fallen into the hands of the Petrel, the Silver Spray put on full steam and made for this port. The cutter followed, and after signalling again opened fire with one of her guns.

Ten shots took effect on the cabin and rigging of the tug. No one was injured, although one of the crew was scratched by splinters, and one shot passed within a few inches of the captain's head.

The tug proved to be the faster boat, and after pursuing her for a mile the cutter gave up the chase.

### THE POPE QUITE WELL.

Several Millions of Francs Found in Late Pope's Room.

Rome, Aug. 17.-The Pope, feeling quite well to-day, took a long drive and walk in the Vatican garden, and then received the Austrian Ambas-Mgr. Caglano, the major Domo, accompanied by Cardinals Rampolla and Mocenni, opened the apartment of Pope Leo this morning, breaking the seals put on at the time of the Pontiff's death. They found a considerable approximation of the pontiff's death. found a considerable amount of money, it is stated several millions of Trancs, begides other valuables. Cardinal Cretoni, Prefect of the congregation of Sacred Rites, was not present, having left Rome.

### TWO SISTERS' SUICIDE.

An Extraordinary Spectacle on Berlin Street.

Berlin report-A double suicide which occurred recently in Luetzow Strasse, one of the main streets of the west end of Berlin, has created a profound sensation. Two sisters, named Gutknecht, one 43 and the other 45 years of age, took a room one afternoon in a well-known penone afternoon in a well-known pen-sion. One was a teacher and the other a portrait painter, and things have gone Ill with them for some time past.

The excuse they made when the

A crowd collected, and, fearing what might happen if the ladies fell three storeys into the street, someone suggested spreading out some beds on the pavement. Beds not being forthcoming, the house porter brought out a carpet, but the crowd had not the courage to hold up the four corners.

The police telephoned for a fire-escape, but the fact that the ladies door could be broken in was over-looked. An anxious quarter of an hour passed, during which the sisters

hour passed, during which the sisters manifestly hesitated, when at last the fire escape appeared.

One sister then jumped out of the window and the other immediately followed her. They fell on the granite pavement side by side on their faces, one being killed outright, while the other died shortly afterwards, fearful injuries being received.

### CANADA'S ADVICE.

The Irish Times Thinks That it is Unnecessary.

London, Aug. 17.-The Irish Times London, Aug. 17.—The Irish Times to-day says that Canadian advice to Britain on the home rule question is unnecessary. The King should be advised solely by responsible Ministers. The Freeman's Journal says that had the resolution been in favor of preferential tariffs the Colonial Office would have made rapid and full use of it.

The Daily Independent fails to see how Chamberlain can ignore the can-did and outspoken views of the Can-

### LINER ASHORE.

Another Accident in the St. Lawrence Gulf.

Montreal, Que, Aug. 17. — The steamship Manchester Trader, of the Manchester Line, is aground two miles to west of southwest of

Anticosti.

When the Manchester Trader sailed for sea she was drawing exactly 23 feet of water, and the report received to-day as to the accident asserts that the vessel went ashore in 18 feet of water, and that she is leaking in her deep tank. The report further states that the elimatic conditions prevailing at the time of the mishap to the steamer were favorable to navigation, as the sea was calm and the weather fine. The vessel and cargo are heavily insured, and reports this afternoon are that she is likely to be a total loss.

Assistance will be immediately sent the disabled steamer in hopes that the cargo or part of it may be saved in case the vessel goes under. The Manchester Trader has on board 391 cattle, 446 sheep, 10.000 bushels of oats, 10,000 bushels of corn, 4,650 boxes of cheese, 2,-245 packages of butter, 275 standard deals, as well as a large amount of other sundries.

### THE POWERS OF RADIUM.

Results of Further Experiments by French Scientist.

London, Aug. 13 .- The Times outlines some results of further experi-ments by M. Carle, the French sci-catist, with radium, which he has just communicated to the French Physical Society. These show that there is no longer a doubt either of the quantity of heat evolved by rad-lum, or of the fact that the rate of omission is apparently greater in liquid hydrogen than at any temperature from that of liquid air up to that of an ordinary room.

M. Curie also announced the curious discovery that a freshly prepared sail of radium has comparatively leading of these times of the sail o

pared sait of radium has compara-tively leeble power of giving off heat at all temperatures, but its power steadily increases with age until about a month from its preparation, when it reaches its maximum activ-ity, which it afterwards maintains apparently indefinitely.

### BIG SHARK IN THE NET.

Was 16 Feet Long and Had a 300 Xound Seal in its Stomach

Machias, Me., Aug. 17.—What is said to be the largest shark ever killed on this part of the coast was captured at Roque Bluffs last week by Charles and Morey Watts, who own a fish weir pear Pond Cove Island. The shark was sixteen feet long, of the blue or mud shark variety. When it was found in the weir it was decided by the owners to leave it and give it a chance to escape at high water. The big fish, lowever, failed to move out of the weir on the next tike, and as nothing would go in while the shark was there the Watts brothers returned in their boat and killed the intruder after a struggle.

When cut open the shark's stomach was found to contain a seal that it was estimated would weigh 300 pounds, and which had been swallowed in three pieces. The weir where the shark was taken contains about ten feet of water at low tide, but as no attempt was made by the fish to escape the property was not damaged.

### LOST ON THE MOUNTAIN.

Experience of Wealthy New Yorker i Canadian Rockies.

Vancouver, B. C., Aug. 17.—After being out all last night and up to noon, a searching party organized by Dr. Harry Brett and Thos. Wilson, of the Canadian Pacific Railway son, of the Canadian Pacific Railway, Alpine guides, succeeded in finding Charles U. D. Reid, a wealthy New Yorker, who early on Thursday morning became separated from his companions, F. Filiger, of Winnipeg, and O. M. Sanford, of Pittsburg, while the three were attempting an ascent the three were attempting an ascent of Cascade Mountain, near Banff. Becoming exhausted when half way up the mountain, Reid started to reup the mountain, Reid started to return alone. A storm came on, Reid lost his bearings, and when the air cleared he discovered a family of mountain goats, which he followed into the wilderness of peaks. He was found in the thick forest of Stoney Squaw Mountain almost exhausted. Squaw Mountain, almost exhauster from hunger and fatigue.

Tramp Had \$100 Bandage.

Hespeler, Aug. 17.-The local chief of police here on Sunday arrested an Italian beggar, around whose leg he found a hundred dollar bandage The man had a \$100 U. S. bill con-cealed in an old handkerchief, which was tightly bound around his right A quantity of silver cha and coppers was also found on the beggar's person. The police locked him up in the cells and are looking up his career.

Exhibition.

To: onto, Aug. 17. — The interest that King Edward is taking in the bominion Exhibition is shown in a statement made at the meeting of the Exhibition Board, held yesterday afternoon. Mr. Thomas Christie, agent for the Victoris and Abert Museum, and who is in charge of the immigration of certain classes, and when they were making up the packaggs of jewels, and, are specially from enaster. Entrope, the minimaration should be resulted of the stabilisation of the gifts, it was found that they could be compressed into fifteen class three feet by six feet and three feet by s For Dominion Riflemen.
Ottawa, Aug. 17.—The trophy presented by the British Palma team to the Dominion Rifle Association has reached the city, and is in the hands of the D. R. A. officers. The new trophy which is of bronze, represents an equestrian statue of Earl Roberts. surrounded by the four guards—Baden-Powell. French. Buller and Lord Kitchener. Each is depicted in a striking iffe-like attitude. The statue of Lord Roberts stands in the centre of the others on the four corners of the ebony base. For Dominion Ruflemen.

# DOUK WOMEN DISCARD CLOTHES

### Buffalo Man Predicts His Own Death and **Provides For Funeral.**

Winnipel, Man., Aug. 17. - Ever since the Doukhobor outbreak a year ago, when over 2,000 fanatics started off on a pilgrimage in search of Jesus, only to be called to a halt by the mounted police, run into a corral and hundled off to their homes in closely guarded trains, the religious excitement has been smoldering in far away villages of the colony of

far away villages of the colony of this strange Russian sect.

Several times it has blazed forth in small crusades, but the presence of the police on guard and the grow-ing influence of the more enlighten-ed of the Doukholors have prevent-ed a repetition of a crusade of equal magnitude.

About a week ago a woman agita-tor named Sophia Storboloff man-aged to secure a following in one of the settlements behind Swan River.

of the settlements behind Swan River.

The men were away at work in the fleids some miles from their homes, and in their absence she wrought up the women to such a pitch that they all discarded their clothing and prepared to follow her on a journey to Christ.

Word was sent to the men at work and they followed the women to bring them back. Words were of no avail, and resort was had to force. The men used the whips they had for their horses and oxen, and the naked ranks were soon broken and homeward flight. Death Follows Prediction.

Buffalo, Aug. 17.—Predicting his death almost to the moment, Herbert H. Thompson, 50 years old, 1817 Cherry street, died on Sunday in the Hahnemann Hospital, Philadelphia. Early in the afternoon while walking with William J. Doyle, a friend, he said; "I have a feeling that death is

coming my way, Rill, and I don't Webb, and want you to be surprised, if I should body ashore

be a corpse within two hours."
As Thompson had always been As Thompson had always been in apparent good health, Doyle told him that he was foolish to think that

andmire - scody

that he was foolish to think that he was going to die.

"That's all right; you may think I am joking," answered Thompson, "but I had a premonition that I am to die to-day, and I don't want to be buried in potter's field. I want you to take this \$20 bill and use it toward defraying the expenses of my funeral."

toward defraying the expenses of my funeral."
Doyle accepted the money and will use it in carrying out Thompson's request. The latter, after leaving Dole, returned home, where he became ill. He was taken to the Hahnemann Hospital, and died there about two hours later. The case was reported to the coroner for inwas reported to the coroner vestigation and Doyle appeared at the inquest as a witness. The autopsy showed that Thompson died from natural causes and a ver-dict to that effect was rendered.

Kent Stow Dead.

Buffalo, Aug. 17.—Kent Stow, who killed his wife and then shot himself, died at the Sisters' Hospital at 7 oc'lock last Might, and the body of the suicide and uxoricide was brought home at 10 o'clock and laid beside that of his wife in the room where he killed her.

To Swim the Rapids. Buffalo, Aug. 17.—On Friday after-roon, "Jack" Genister, who claims to be the champion swimmer of the world, will swim from the foot of Main street to the International

Bridge.
On Sunday afternoon, at the same tour, Glenister will attempt the hazardous feat of swimming "Rapids Run," through the Whirlpool Rapids. Glenister is to jump from the Cantilever Bridge, and enter the waters which in 1885 enguled Capt. Webb, and five days later east his body ashore.

Succession Mrs. Lillian Stewart, of Duluth, is supposed to have committed suicide in Toronto.

Turkey is buying great quantities of ammunition, including cordite, rom England. U. S. Government is making inquir-

ies about the seizure of a fishing tu from Dankirk by the Canadian Gov The Macedonian insurgents have

blown up a bridge sixty yards long near Gievgvell, on the Salonica-Us-kub Railway. It is learned in Berlin that the Czar will visit Emperor Francis Joseph after the Kaiser has, con-cluded his September visit to Vienna.

Louis Gallion, a French soldier, has been condemned to death by the court-martial at Oran, North Africa, for having flung his cap at his cap-tain. The cone in the crater of Mount Vesuvius has been split by the emp-tions that have occurred, and lava will issue now probably from the south side of the volcano.

Three hundred Achinese were kille Three hundred Achinese were killed in a recent battle with the Dutch troops at the village of Poeloctengah, Sumatra. The Dutch lost an officer and six men killed and fifty mon wounded. They captured the village. ### Portion | EVER LOOKS FOR TROUBLES

Man With a Chip on His Shoulder is to be Commiserated.

The really unhappy man, whose unhappiness is his own fault, is the one who is forever carrying "a chip

upon his shoulder." Perhaps his happiness is his unhappiness, for when he is not engaged in a personal altercation, he is broading over some fancied slight and awaiting a favorable opportunity to give vent to his wrath.

orable opportunity to give vent to his wrath.

The man with the chip on his shoulder is easily recognized, and his society by wise people is carefully avoided. He can go nowhere without trouble following in his wake. If he attends a theatre he is either annoyed by the usher or someone in the audience or at the man in the box office for not having sold him a seat bought long before he appeared at the window. He is the bane of the car conductor and on the railroad train he succeeds in embroiling himself in a row with the brakeman, conductor, Pullman car porter and the passengers. Each flying cinder from the locomotive is aimed especially at his eyes and he succeeds in stirring up the spirit of mutiny in the hearts of the travellers.

There are some women similarly constituted, who manage to be in trouble from the morning till they close them in sleep. These people are indeed, to be pitted, if, indeed, they are not cordially hated. This quarrelsome habit of mind can be so fostered that the petulancy grows to be a malignant disease and leads sometimes to the insane asylum. Parents who notice in their children this fret-

who notice in their children this fretwho notice in their children this fretful, quarreling disposition can easlly find a measure. They may not
agree to the measure-simply a
good, sound thrashing. Everyone has
heard of the story of the child who
was continually whimpering and
quarrelling. In despair the mother
cried: "Are you sick? What do you
want?" Gravely the child answered.
"I think, mamma, I want a whipping." She received the whipping, and
there was a marked improvement in there was a marked improvement her temper.—San Francisco Post.

### CAN MAKE THEMSELVES ILL.

Many Men Have the Faculty of Becoming Sick When They Please.

coming Sick When They Please.

"Do you know, I believe there are men in the world who can get sick on very short notice?" said a man who wears glasses and a college look, "and I say this without pretending to believe in the philosophy, which teaches that many of the aliments are altogether of the mind. I have never taken much stock in the preachings of this cult, but I have come across a few cases of men who were capable of actually marshaling a quick pure pulse and other febrile symptoms on very short notice. They get sick all of a sudden. There does not seem to be any malice in it and really they are not dishonest. They have fever and they can prove it by the most advanced thermometer in use. It is a physical fact. How do they do it? I do not know. They just simply do it. I suppose it is very much like people catching certain allments from patent medicine advertisements.

"The most remarkable case that advertisements.

advertisements.

"The most remarkable case that ever came under my observation was that of a man who could have a fit whenever he wanted to. With him it was simply a question of needing a fit. If he needed one to protect him from a task he would simply tumble over. If he didn't want to perform some task assigned to him he would fall over in a heap on the floor, convulse and go through all the physical movements of a genuine fit. There was no play about it. I have talked to physicians about the matter after the fellow was brought around all right, and they have in every instance affirmed that there was no sort of question about the was no sort of question about the genuineness of the article. Getting sick in short order is not, therefore, necessarily faking. The man is sick and can prove it. How he works himself into such a state is another question and one I am not prepared to deal with."—New Orleans TimesB. C. Red Cedar and other Shingles

very much Large congregations very much enjoyed the sermons delivered in the Methodist church by Rev. Thadens Lewis Wiltee on Sunday 1:st. At the evening service, on invitation, all related to the preacher by birth or marriage stood up to be counted, when it was found that there were over one hundred persons present who were connected in some way with the Wiltes family from which he descended. Mr. Wiltee is a finished speaker who has travelled extensivly, both in this country and in Europe, and his addresses show him to have been a close student.

Mr. R. B. McGregor, North Ham mond, N. Y., among several interest-ing items to W. S. Hough, states that his dairy yield is as good or better than ever before. One of his Holstein cows pails 70 and 72 lbs daily and a number of other cows are very close to her; he says this is from grass alone. He has not or is not giving any provender or grain. He is evidently a well qualified judge in the case, and selects his renewals with care from New York importations.

# Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondence.

spondency.

"I was taken ill with kidney trouble, and became so weak I could scarcely get around. I took medicine without beneft, and finally decided to try Hood's Sarsaparilla. After the first bottle I felt so much better that I continued its use, and six bottles made me a new woman. When my little girl was a baby, she could not keep anything on her stomach, and we gave her Hood's Sarsaparilla which cured her." Mas. Tamas Inms, Wallaceburg, Ont.

Hood's Sarsaparilla Cures kidney and liver troubles, re-lieves the back, and builds up the whole system.

# **Reduction Sale**
