

Former Nelson Man Dies in Michigan

John Henderson Bateman, one of the most highly respected residents in Oconto Falls, died in a hospital at Iron River, Mich., at 5 o'clock last Sunday morning.

Mr. Bateman left this city on Monday morning for the upper country to look over a tract of timber for the Holt Lumber Co. of Oconto, and was accompanied in his auto by his two sons, Kevin and Norman. On the drive north Mr. Bateman manifested signs of illness, and shortly after reaching Iron River he became seriously ill at the hotel. A doctor was called and he suggested that the patient be removed to the hospital as conditions for caring for him were better. He was immediately conveyed by car to the hospital, but was unresponsive before reaching that institution, and remained in that condition until five o'clock next morning, when he breathed his last.

Mrs. Bateman was informed on Friday evening of her husband's illness, but was assured that nothing serious need be feared, and the announcement at an early hour Saturday morning of his death came as a staggering shock to that lady. Accompanied by Undertaker W. A. Flatley of Oconto Falls, and Lincoln Leigh and Henry McParlane, the latter a cousin of Mr. Bateman, both of Oconto; Mrs. Bateman left on the noon train for Iron River, and the party returned the same night bringing the body of the deceased.

John Henderson Bateman was born in Nelson, New Brunswick, Canada, August 31, 1866. He came to the United States thirty years ago, and thirty-nine years ago entered the employment of the Holt Lumber Co. of Oconto. For twelve years he was woods foreman for that concern, and during the past seventeen years has been superintendent of the company's extensive logging operations.

He was married at Stiles to Miss Mary Marr, daughter of Mr. and Mrs. Cornelius Marr of the town of Oconto Falls, on September 27, 1899, and since that time has been a resident in Oconto Falls village and city. To this union were born four children, three of whom, Elva, Kermit and Norma, survive; the first born was a son, who died in infancy.

During Sunday and Monday forenoon the home of the deceased, corner of C. Hill street and Washington avenue, was visited by scores of people of Oconto Falls and other parts of the county, who came to pay their sincere respects to one whom they loved and respected, and whose character for sterling integrity, cooperation with his always cheerful and courteous manner, endeared him to his myriads of friends.

A brief service was conducted at the family home at one o'clock on Tuesday, after which the remains accompanied by a large number of friends, were conveyed to the Presbyterian church at Oconto, where the final services were conducted by the pastor, Rev. E. W. Wright, at the conclusion of which the funeral party moved to Evergreen cemetery and the body of the deceased was laid to rest beside his wife and children.

St. John Woman Almost Gave Up

Was so Weak had to be Helped Out of Bed—Gains Thirteen Pounds Taking Tanlac

Just think of it! Only a few weeks ago I was so bad off as to be almost helpless, but since taking Tanlac I have gained thirteen pounds in weight and am enjoying the best of health," said Mrs. Leonard Miller, 124 Water St., St. John's Newfoundland, a few days ago. "No one knows what I have gone through during the past nine years, for I have suffered from a complication of troubles," she continued. "My digestion was so bad that no matter what I ate it would disagree with me and keep me in misery for hours afterwards. I was troubled a great deal with heartburn and after every meal I would have a stuffy, distressing feeling. My heart palpitated so bad I thought I would smother, and I became so dizzy I had to catch hold of the nearest thing to keep from falling. My back was weak and lame and at times it pained me so I could hardly stand it. Severe headaches often came on and I was so restless and miserable I could never sleep good at night. My nerves were terribly upset and even the children playing would nearly run me wild. I was afraid to be alone, for several times I thought I was going to die. Then rheumatism set in and my hands and feet would swell up and pain me so I could hardly stand it. I gave up my household duties and was so weak that I cannot now understand how I held out as long as I did. "But now things are different, for Tanlac has overcome all my troubles and I am feeling like a young girl again. I enjoy my meals now, because I can eat anything I want and not suffer one bit afterwards with palpitation or heartburn. My back never bothers me in the least and the headaches are a thing of the past. My nerves are steady and I can sleep all night long as sound as a child. The rheumatism has completely disappeared and I work all back to doing my household work by myself. I feel stronger and better than I have in many years and I am overjoyed at what Tanlac has done for me."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

Majority for Prohibition Was 24,264

Official returns for the Prohibition Referendum held in this province on July 10, are published in the Royal Gazette. The majority for prohibition is stated as 24,264 and the majority against light wines and beers as 15,130.

The totals are: For Prohibition, 24,264; Against Prohibition, 15,130; For light wines and beers, 26,630; Against light wines and beers, 44,719.

The figures for Northumberland County are: For Prohibition, 2,689; Against Prohibition, 2,687; For Light Wines and Beers, 2,578; Against Light Beer and Wine, 3,310.

MOTHERS!

Watch your children's skins. As soon as you see the slightest trace of a rash of sores, apply Zam-Buk. This antibiotic ointment will protect the sore place from infection, prevent it from spreading and healing soon follows.

Careful mothers always keep Zam-Buk on hand for their children's injuries. It soothes, soothes, soothes and prevents any possibility of festering. Best for cuts, burns, sores, bruises, ringworm, scalp sores, eczema and itching rash. All dealers 50c box.

Matriculation And Leaving Exams

The Board of Examiners for the Matriculation and Leaving Examinations for 1920 report the following: There were 190 candidates for Matriculation and 29 for Leaving. Of the candidates for Matriculation 16 passed in the First Division; 96 in the Second Division, 28 in the Third Division, 33 in the Third Division Conditionally, and 17 failed.

Of the candidates for Leaving, 7 passed in the Second Division, 6 in the Third Division, 14 the Third Division Conditionally, and 3 failed. Following are the names of the North Shore candidates who passed in the First and Second Divisions, arranged in order of merit, with the name of the school where the student was prepared.

N.B. Jewelers Organize

The Jewelers of New Brunswick entered the Canadian National Jewelers' Association on Wednesday in St. John when an organization meeting was held and a dinner at Bond's restaurant tendered to the visiting jewelers. The organization is to be known as the New Brunswick Jewelers' Association. H. C. Page, was elected chairman of the provincial branch, which was divided into two districts, the St. John and Moncton districts. The dinner, which was attended by about fifty jewelers, was a great success and it was addressed by M. C. Ellis, of Toronto, president of the Canadian National Jewelers' Association, who was present to assist in the organization of the New Brunswick branch which is the last to enter the Dominion association. His Worship Mayor Schofield was present at the banquet and he welcomed the visiting jewelers to the city.

The first district, known as the Moncton district, includes Moncton, Campbellton, Bathurst, Newcastle, Chatham, Shediac and Port Elgin. The second district, to be known as the St. John district, includes Sussex, Fredericton, Woodstock, St. Stephen, Doaktown, St. Andrews and St. John. The following officers were elected: H. C. Page, chairman (St. John); G. Melanson, vice-chairman (Moncton); A. C. Clegg, secretary-treasurer (Moncton). The officers of the St. John district for the coming year are as follows: L. A. Sharpe, chairman (St. John); A. Shute, vice-chairman (Fredericton); Edwin A. Ellis, secretary-treasurer (St. John); J. A. Gibson, director (Woodstock). The officers of the Moncton district: C. F. Gilmore, chairman; H. R. Humphrey, vice-chairman (Campbellton); J. H. Brown, secretary-treasurer (Moncton); H. H. Williston, director (Newcastle).

Polish Situation Is Critical

England regards the Polish situation as extremely critical and presenting many difficulties here. On the one hand the Bolshevik envoys, Kamaneff, Krassin, M. Hutin and Rithstem are here declaring they have the fullest powers to negotiate not only a trade agreement, but also peace in the widest sense, including all of Europe. Kamenoff, who has seen Lloyd George, was simply told that no negotiations could be considered until there was an armistice in Poland. In Poland the Soviets are asking the Polish envoys to conclude peace in lieu of an armistice, though they know the envoys have no such authority for involving England and the Allies. The Bolshevik armies are already far beyond the line understood as the limit beyond which they were not to pass without bringing the Allied armies to Poland's support. The Red armies are still advancing and cutting across the Danzig corridor and menacing Warsaw. Britain is obligated to step in soon and end the invasion, though neither Britain nor Russia wants war, the former because it would again embroil Europe and the latter because of the condition of her urban population. The situation is deadlocked with no solution in sight. The result may be the capture of Warsaw by the Bolshevik when England and presumably France would undoubtedly send troops again to the front. If America would act in concert with them and blockade Russian ports they could effect this without troops.

New Position Offered Rev. W.D. Wilson

General Secretary of the N. B. Temperance Alliance

FREDERICTON, Aug. 10.—P. Esling, Donald Fraser of the New Brunswick Temperance Alliance, announced here last evening that Rev. W. D. Wilson, now chief inspector under the New Brunswick Prohibition Act, had been offered an appointment as general secretary for the alliance, a new position which it has been decided to create. Mr. Wilson's present position as chief inspector in a Provincial General Temperance Alliance, and it is understood that while he has not resigned he will do so shortly. Before leaving for St. Leonard's, last evening, to investigate thefts of aged alcohol in Madawaska County, he was asked as to his intentions for the future, and admitted he had been offered the new post, but would not state definitely whether he would accept or not. Rev. A. F. Boothroyd, who has been held secretary of the New Brunswick Temperance Alliance, and acted as organizer during the year preceding the recent provincial plebiscite, is retiring from his position with the Alliance, and will resume a secretary in the New Brunswick Conference of the Methodist Church. There is no intimation thus far as to who will probably be the successor to Rev. Mr. Wilson in the event of his retirement.

Children Cry for Fletcher's

CASTORIA

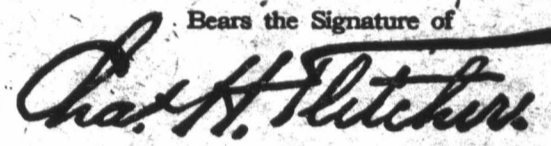

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

IMPROVE YOUR BAKINGS

By Using

BEAVER FLOUR

THE solution to the problem of—"How to improve your bakings and make bread, cake and pastry which are real food treats"—is simple—use Beaver Flour.

Why? Beaver Flour is made from the finest of selected Ontario Winter and Western Hard Wheat. It contains the world-famed richness of the former, and strength of the latter. When scientifically blended, these grains produce a flour—Beaver Flour—which is unequalled for purity and baking qualities.

Let Beaver Flour prove to you that it will improve your bakings. Try it and note the difference in your bread, pies, cakes and pastry.

Sold by your grocer.

The Railway Freight Rates

Hon. Mr. Carvell Said U. S. Will Give Canada all Cars Possible

OTTAWA, Aug. 15.—The Railway Commission of Canada, this morning reserved judgement on the application of the American Railway Association for an increase of forty per cent on the Canadian portion of the freight rate on through lines.

Judgement will probably be given out this afternoon.

E. Geary, corporation counsel of the City of Toronto, had comments to make on the application which was approved by the Canadian roads because they feared that American roads might hold up coal supplies. There was even a veiled threat in the application that the United States might take a hand in stopping the shipment of coal to Canada. The board, he urged, should not allow itself to be influenced by a threat of the United States government.

Chief Commissioner Carvell, however, testified to the friendliness of the Interstate Commerce Commission of the United States.

The utmost willingness had always been shown, he said to give Canada all the coal possible.

A. B. Coyne, representing western boards of trade, said there seemed to be an effort on the part of the railways to stampede the board into granting the application.

The decision of the Interstate Commerce Commission had granted the increase of forty per cent on freight rates to American roads in July. Why had the application now before the board not been made immediately following that decision?

The railways were coming before the United States' increase, and representing themselves as being in a terrific hurry to line up on the through traffic.

He took strong ground that there should be no increase granted until the board decided the question as to whether the railways were or were not entitled to a general advance in rates.

High Cost of Lumber

The Canada Lumbermen tell why the price of lumber is high. In 1913 men's wages in the lumber industry were \$33 to \$32 a month; in 1919, they were \$70 to \$85 a month (both being in addition to board and housing), according to the New Brunswick Lumbermen's Association in counting for the high cost of lumber. In 1913, stumpage was \$1.50 and mileage \$8; today we pay \$3.50 stumpage, \$8 mileage and \$3.20 a mile for fire protection; also we have workmen's compensation for logging, river driving, rafting, milling and loading, with a separate rate

Pallid Cheeks Mean Anaemia

New Health Can be Obtained By Enriching the Blood Supply

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches and breathlessness and heart palpitation will confirm that she is anaemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further; but at once gives her daughter a course with Dr. Williams' Pink Pills which renew the blood supply and banish anaemia before it has obtained a hold on the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and you'll see how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Pitiful Appeal of Mackenzie King

Toronto, Ont. Aug. 10.—That R.W.E. Barnaby, U.F.O. candidate in North York against Hon. W.L. Mackenzie King Liberal leader, should withdraw from the field was the assertion made by Mr. King, speaking at a gathering at Oak Ridge, near here.

"If they get the U.F.O. and Liberals and other parties fighting throughout the country, then the Union Government will have a chance, he declared "and if they are elected again, they might carry on for another generation. I think the first thing to do is to defeat the Government".

Mr. King explained that he had declined a nomination in Glengarry, Ont. because he wished to leave the field open to a farmer candidate. Mr. Barnaby himself was present at the meeting and afterward spoke to Mr. King, but he did not state whether or not he would withdraw.

Standing of the Cadet Corps in the Province

Kiltie Corps of Moncton First in the Place for the Money Awards

The following is the standing of the Cadet Corps in the province as inspected by Lt. Col. A. B. Snow:

Corps	P.C.
Rothsay College	94
Knox Church	87
St. Andrew's Church	86
Kiltie (Moncton)	84
Grand Falls	82
Normal School	77
St. John High School	77
Fredrick High School	75
Aberdeen High School	79
Boys' Industrial Home	67
Dorchester High School	64
Sackville High School	64
King George School	60
Chatham Grammar	59
Woodstock	57
Sunny Brae	56
King Edward	55
Winter Street	53

KI-NOIDS

MADE BY SCOTT & BOWNE, MARKERS OF SCOTT'S EMULSION

Severe Thunder and Lightning Storm at Tracadie

Reports from down river show that a most severe thunder and lightning storm struck that vicinity Saturday Aug 7th, and an unusually large amount of damage was done.

The storm seemed most destructive between Tabusintac and Tracadie and several places were struck and in one instance two people had a very narrow escape from death.

At Tabusintac, a barn belonging to Mr. McLean was struck and burned to the ground, in the barn were thirty-five tons of hay, worth probably \$80 per ton, a large supply of grain and other foods. The only things the owner saved were two horses, which he was fortunate enough to get out in time to escape burning to death.

Nearer Tracadie, a house belonging to Mr. Ferguson had the roof considerably damaged by a bolt, though no fire resulted. In another house two children were dazed by a bolt, one rendered unconscious for several hours and the other suffering a burning of the foot.

The lightning was as bright as daylight and very vivid. From the back settlements reports were received of several buildings being struck, though how much damage was done is not known.

Asks Farmers to get out of the way and Give Them a Chance in North York

Toronto, Ont. Aug. 10.—That R.W.E. Barnaby, U.F.O. candidate in North York against Hon. W.L. Mackenzie King Liberal leader, should withdraw from the field was the assertion made by Mr. King, speaking at a gathering at Oak Ridge, near here.

"If they get the U.F.O. and Liberals and other parties fighting throughout the country, then the Union Government will have a chance, he declared "and if they are elected again, they might carry on for another generation. I think the first thing to do is to defeat the Government".

Mr. King explained that he had declined a nomination in Glengarry, Ont. because he wished to leave the field open to a farmer candidate. Mr. Barnaby himself was present at the meeting and afterward spoke to Mr. King, but he did not state whether or not he would withdraw.

The Coat-Tail Hanger

"Be self-starter and don't have to be cranked," is the way of putting it in automobile language. There are plenty of men and boys who will go if they are cranked and started, coasted and pushed or pulled. It is said that the great characteristic of the American soldier is that he has initiative. He is a self-starter. We need the same thing all along the line.

There are boys and girls in school whom the teacher has to fairly drag along. They lack ambition, energy, initiative and enthusiasm. They just depend on somebody else, or the push or pull to get them along in their studies. They need to learn to do something for themselves. Some one has called them coat-tail hangers.

In business, in the factory, any where in active life you will find the coat-tail hanger. As its broad Men describe him, he is a clinging vine, and he clings with death grip. Eagerly lacking in initiative, he does the trail of the boss seeking orders, and whose orders are given he does not comprehend them. The more you know why the coat-tail hanger is a worth his salt on a work bench, the more you know why he is a man to be avoided with any thing and should be taken a good deal of the valuable time of the man higher up explaining to him a lot of ways and wherefore.

Summer Heat Hard on Baby

No season of the year is so danger-
ous to the life of little ones as is the
summer. The excessive heat throws
the little stomach out of order so
quickly that unless prompt aid is at
hand the baby may be beyond all hu-
man help before the mother realizes
he is ill. Summer is the season
when diarrhoea, cholera infantum,
dysentery and colic are most preva-
lent. Any of these troubles may
prove deadly if not promptly treated.

There is more Catarrh in this sec-
tion of the country than all other dis-
eases put together, and for years it
was supposed to be incurable. Doct-
ors prescribed local remedies, and by
constantly failing to cure with local
treatment, pronounced it incurable.

There is more Catarrh in this sec-

STYLES KEEP WOMEN YOUNG

Desire for Latest and Prettiest Things
an Evidence of Wisdom, Ac-
cording to Authority.
"Women has gained her political and
intellectual freedom," said Emil W.
Kohn in an address before the New
York Retail Jewellers' convention at
Saratoga. "She has declared in public
and in private that never again will
she be the slave of men. But I ven-
ture that she will remain the willing
slave of fashion.

The woman who declares she would
rather be dead than out of fashion ex-
presses a thought in every woman's
mind. As it is a man's privilege to pay
the bills, he may at times express dis-
pleasure. That man, however, who is
permanently and chronically displeas-
ed at or indifferent to his wife's dress,
becoming gown and beautiful jewelry
is a brute and should be caged with
other wild animals.

To be contented with the thoughts
and things of yesterday is to stand
still, and stagnation breeds decay. To
be sensitive to new ideas is to be
youthful. Woman's desire to possess
jewelry that is new and fashionable
and beautiful is an evidence of growth,
and growth is the law of life.

Safe Light for Miners.

Nowadays the up-to-date miner car-
ries a package of electricity about with
him while underground. It is a small
storage battery attached to the back
of his belt, and is connected by a cord
with a lamp fastened to the front of
his cap.

The lamp, provided with a reflector,
throws quite a flood of light in front
of the miner. But its chief advantage
is absolute safety.

In olden days miners (who must, of
course, have light) carried about with
them open-flame lamps. These caused
innumerable disastrous accidents
through ignition of coal dust or gases.

Sir Humphry Davy's invention of a
safety lamp whose flame was protected
by a wire gauze saved an immense
number of lives. It is in common use
today, but the electric mine lamp is
better and more convenient.

To Photograph a Star.

A discovery may be made photo-
graphically by some astronomer this
fall or winter in the constellation Gem-
ini, according to Isabel M. Lewis of
the United States naval observatory.
It will be a star of the fifteenth mag-
nitude in an elliptical orbit and has been
difficult to find and identify because
in the Milky Way there are countless
others that are brighter.

The orbits of all the planets ex-
cepting Mercury, are nearly perfect
circles, and discovery of a planet su-
perior to Neptune that moves in a
greatly elongated ellipse will strike
one more blow at the nebular hypoth-
esis, which assumes, says Miss Lewis,
that the planets' almost circular orbits
are due to the fact that originally they
were thrown off as rings from a con-
tracting solar nebula.

Irregularities in the motion of Ne-
ptune indicate that the unseen planet is
drawing near to Neptune and during
this period of conjunction astronomers
hope to determine the mass of the new
body.

Reclaiming Waste Places.

Twenty years ago a news story from
Washington says land in the Louisiana
parish of Tangipahoa was worth 50
cents an acre and human life was
worth scarcely anything at all. It was
a case of cause and effect.

Then the immigrants came. They
were chiefly Italians and Hungarians.
They had lived at home on land that
was poorer than the Tangipahoa. They
practiced intensive cultivation. Today
their parish is one of the greatest
strawberry farming districts in the
United States.

Land that sold for 50 cents is now
worth \$100 an acre. And the school
authorities have practiced intensive
cultivation on the human products of
that land. Americanization has made
life worth more there than it ever was
before.—Binghamton News.

HUN FEELING IS UNCHANGED

German Clergy Still Talk of Day of
Triumph in Stars for the
Fatherland.

The Glasgow Herald prints from a
special correspondent some interesting
information regarding the views of the
German churches on the peace treaty.
What, asked the writer, in the guid-
ance offered by the churches at this
crisis in the affairs of the nation? We
are in no doubt as to its character. In
the Kreuz Zeitung recently Doctor
Conrad, one of the ex-bishop's chap-
lains, wrote a homily on the attitude
which religious men should adopt to-
ward the peace which is being "dic-
tated to Germany." He wrote: "Poss-
ess your souls and do not despair.
God in his good time will turn our
sorrows into joy. Is there a German
man with the fear of God in his heart
who does not realize that this humilia-
tion is but for a time and that before
long the dream of the new fashion-
ing of the earth will begin again?
When that time comes Germany will
rise supreme from the fire of her
trials. It was in 1870-71 that began
it; that was the prelude; we are now
at the close of the second act. The
coming third act will give us our final
place and God will be with us. All I
can counsel is this: Be patient. Our
hour is coming. Certainly, sign the
peace, for this will give us the breath-
ing time we require and also time for
reflection."

In the Kirchen Anzeiger there is a
sermon by Stadt-Pfarrer Brockhaus,
headed "What is Now Our Duty?"
The preacher after denouncing "the
evil and incredible terms" of the
treaty, goes on: "There is a revenge
which is holy and emboldens all those
who nourish it in their hearts. We
cannot sit down under the awful
humiliation. But we must wait God's
time. We must wait for him to dic-
tate our course. He who led the Ger-
man people from weakness to strength,
he who once blessed our efforts in
our world mission is punishing us now
for our sins, but he has great work
for us yet and he will see that we yet
stand on the peaks of our adver-
saries." All through these sermons
dealing with the peace and the present
situation generally the German
clergy continuously exhort their
flocks to be patient, to be steadfast
during the days of tribulation. In a
perfunctory sort of way they acknowl-
edge that tribulation has come upon
the people because of their sins and
shortcomings, but the sins and short-
comings have nothing to do with the
guilt of causing the war or with the
incalculable crimes committed by Ger-
many in the four years of its dura-
tion.

Amethyst Once Highly Prized.

On account of its fine color, play of
light and capacity for polish, the am-
ethyst once held a high rank as a de-
corative stone, perhaps next to the sa-
pphire, but by reason of the discovery
of large quantities in Brazil its popu-
larity declined in Europe and conse-
quently its commercial value declined
in corresponding ratio.
Of all the quartz varieties the am-
ethyst has been the most highly val-
ued, and the most frequently used
for the art of engraving. The deep shades
of its brilliant and for this reason
the artists of antiquity preferred the
lighter shades. Consequently the an-
cient intaglio occur almost invariably
on the light-colored specimens so that
engravings on the dark shade may be
suspected as modern.

Natural Enemies of Mosquito.

Dr. L. O. Howard, chief of the
United States bureau of entomology,
writing on his favorite theme, the
mosquito, in a recent bulletin reviews
the subject of the natural enemies of
this insect. Among them, he mentions
first the common goldfish and silver-
fish, which destroy mosquito larvae
and should be put in artificial ponds.
Top-minnows are great feeders on
mosquito larvae, and certain species
introduced from Texas and Hawaii
have proved their value, while a small
top-minnow of the genus Oligoneurus,
known in Barbados as "millions," has
been used successfully in other West
Indian islands. Many predatory equi-
librate insects feed on mosquito larvae.
Certain birds prey upon the adults, and
bats also eat them. Many plants are
popularly believed to keep away mos-
quitoes, among them being several spe-
cies of eucalyptus, the custard oil plant,
the chincherry tree, etc. Scientific ob-
servations have not confirmed the pop-
ular idea on this subject.—Scientific
American.

Swift Handling of Troops.

The Canadian national railways re-
cently broke a speed record in the
transportation of troops from one
side of the continent to the other. The
troopship Olympic docked at six
o'clock in the evening with 4000
returned soldiers aboard. Eleven spe-
cial trains were made up to take the
soldiers to their destination points in-
land. The first of these special trains
started at 7:30 o'clock. The other
special trains of average tonnage of
1500 tons, with their loads of troops,
left the coast at their own pace at
the regular time.—Binghamton News.

First Showing of New Fall Garments.
The women of Newcastle and along the Miramichi are invited to see the advance styles we are now showing in New Coats and Dresses for Fall Wear.
You will like these New Garments for they are the most pleasing and attractive models we have ever shown.

Salmon from British Columbia Fisheries
Unloading Salmon from Sloop, Westmaster, British Columbia.
These are salmon and salmon, but the finest specimens of this sporting fish come from the waters of British Columbia. There is a variety of salmon on the Atlantic coast which is highly prized as a delicacy, but the supply is very limited, the catch on the Pacific coast is about thirty times as large, and also very fine in size and quality.
Salmon canning is one of the principal industries of British Columbia and the Fraser River catch is now almost locked upon with heavy taxes to the Dominion Government of the nation which is the State of Wash-
ington, where the famous variety called "sockeye" once abounded in Puget Sound in such enormous quan-
tities. It is now feared that unless the United States Government pro-
hibit fishing in Puget Sound the
salmon industry will suffer.
To date the State of Washington has failed to accede to the Canadian proposals for a joint control of the Fraser River and Fraser River fish-
eries, but the Dominion Government is again taking the matter up, pro-
posing a joint protection for fifteen
years.
The season for salmon fishing is short, being about 45 days in the Fraser River and about 35 days in-
cluding Skeena, for the northern canners. The British Co-
lumbian catch runs about 1,200,000
pounds of 45 pounds each a year.
There are two varieties—sockeye, averaging 9 pounds, maturing in the fourth year; Quinn, 12 to 30 pounds, sometimes reaching 100 pounds, maturing between the fourth and sixth year; Silver, 3 to 6 pounds, maturing in three years; Pink, 3 to 5 pounds, maturing in two years, and Chum, 10 to 15 pounds, maturing at three to six years.
All these fish return once or in-
tervally to spawn in the stream where they were hatched, and both sexes die after spawning. The Quinn fish-
eries are on the Fraser River, Skeena River, Nass River, Stikine River and around Vancouver Island. The fish
are brought in all ways and means
and by trailing.

PAINS SO BAD STAYED IN BED

Young Mrs. Beecroft Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Hamilton, Ont.—"I have suffered for three years from a female trouble and consequent weakness, pain and irregularity which kept me in bed four or five days each month. I nearly went crazy with pains in my back, and for about a week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator and I took it. Now I have no pain and am quite regular unless I over-work or stay on my feet from early morning until late at night. I keep house and do all my own work without any trouble. I have recommended the Compound to several friends."—Mrs. EMILY BEECROFT, 239 Victoria Ave. N., Hamilton, Ontario.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs. For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

Going Up

One of the statements made by a witness before the Dominion Railway Commission on Wednesday caused Chairman Carvell to exclaim:

"If the railway wants to charge the Canadian public \$100,000,000 in order to pay trainmen for working five hours a day, I should like to know something about it."

He said that he would require all the facts before he would grant the application for increased rates. This statement was drawn from Mr. Carvell by testimony indicating that some men were receiving \$5.56 for a five-hour day.

The chief witness said that costs of labor and materials were still on the upgrade and going fast. The railways and many other corporations continue to pile up their expenditures in every direction, and in some cases it appears to be shown that the advances are unavoidable. It all comes out of the public in the end, and the unorganized Canadians whose incomes are insufficient to meet the very gravely enhanced cost of existence are greatly troubled by the situation thus created. They have to rely upon the government and bodies like the Railway Commission to examine all the facts and to consider what must be the effect upon the great mass of Canadians to whom these rising costs are passed along from time to time. The proposed increased rates would add very greatly to the burden already carried by most Canadians, and the

STOPPED HER HEADACHES

Years Of Suffering Ended By "Fruit-a-lives"

112 HARRIS ST., ST. JOHN, N. B.
"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine 'Fruit-a-lives', made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried 'Fruit-a-lives'."

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since". Miss ANNIE WARD, 50c. a box, \$ for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Commission should proceed with both caution and courage.

BLISSFIELD

The weather for the past week has been very favorable for haying.

Mr. Willie Bergin and Ernest Murray were the guests of John Sutherland Sunday evening.

Misses Pearl and Emma Mercereau spent last week in Chipman they were accompanied home by their sister Mrs. Moore.

Mrs. Eve and Bemas is spending a few months with her parents Mr. and Mrs. Zac Gilks.

Mr. Billie Withersall and Roy Eutherford spent Sunday evening at Mr. Marney's.

Mr. Charles Weaver was the guest of C. N. Kenyon one night last week.

Misses Minnie and Sadie Weaver spent Friday evening with Mrs. Thomas Holmes.

Mr. Duncan Campbell was calling on James C. Weaver Sunday evening.

Mr. Leigh McConnell spent Sunday at Ronald Hurley's.

Mrs. Miles Maroney spent last week in Blackville and Derby.

Mrs. John Simmonds spent Sunday in Chatham.

Mrs. Thos. Holmes arrived home Saturday evening from Hotel Dieu Chatham very much improved in health.

Mrs. B. Washburn was the guest of her parents Mr. and Mrs. Matthew Bowers on Sunday.

Miss Bessie Gilks will leave for the west in the near future to teach.

Mr. and Mrs. Chester Connors and family spent Sunday with Mr. Ronald Weaver.

Miss Ruby Storey spent a few days with her cousin May Waris.

CASTORIA

Always bears the Signature of *Dr. J. C. Williams*

Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently damages the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt-Book author will not fail you in the hour of need.

One pill a day, one box at all dealers or send to Dr. J. C. Williams, 112 HARRIS ST., ST. JOHN, N. B.

Diseases

HAW, HAW!

"Do you believe in transmigration of souls?" asked the Little Man.
"Sure," replied the Big Man. "Why?"
"Nothing," replied the Little Man. "But it says here that there are birds in Africa with bills a yard long."
"Well, what about them?" demanded the Big Man.
"I was just wondering if those birds are not the spirits of departed plumbers," replied the Little Man.—Cincinnati Enquirer.

Time Enough.
"You know, old man, I was going to ask you to dinner with me tonight but I just heard Smith remark that you were going to eat with him."
"Oh—what time do you eat?"
"Six o'clock."
"Well, that's all right, old boy, Smith doesn't eat till seven."—Judge.

Beyond His Limits.
Ben Sals—What's the matter with Ben All, the whirling dervish? He's all tied up in a knot.
Ben Yusuf—He was out taking his morning spin on the road when an American band came along and he tried to whirl to jazz music.

NO TROUBLE.
"Have any trouble with your daughter's beaux?"
"No, I use this 'Stop-Go' signal in the parlor."

The Lightning Pioneer.
If old Ben Franklin in his day had ceased to letter and to laugh and only worked eight hours a day we would have had no telegraph.

May Days.
"Do you make a wish when you see a load of hay?" asked the superstitious girl.
"Not if it's my hay," replied Farmer Corntassel. "With hay at present prices a man with a load of it doesn't have to wish. He's already got his."

Not a Chance.
Miss Letover—Aren't you afraid to marry on so short an acquaintance? You know they say, "Marry in haste, repent at leisure."
Miss Hurray—Dear thing, when I marry my husband won't have any leisure in which to repent.

The Big Consideration.
"You have taken a lofty position in this momentous matter."
"I have," replied Senator Sorghum. "And I feel a little like an aviator. I can't stay in the air forever. The big consideration is how I'm going to alight."

Blessings of Imagination.
Jack—The trouble with you women is that you have too much imagination.
Gladys—I don't know. If we didn't imagine you men were a lot better than you are, none of us would ever marry you.—London Answers.

Try Vegetable Jokes.
Funny Editor—I'm very sorry, but I can't buy these jokes from you. Why, there's no meat to them.
Jokester—Well, I can't write jokes with meat to them because I'm a vegetarian.

Main Question.
"The young man seems to admire you, girlie."
"He says if he had me he'd never want another thing on earth."
"But will he hustle for the things you want?"

WHERE THE FAULT LAY.
Hubby—Isn't your skirt outrageously short?
Wife—No, indeed, it is just that the floor doesn't come up any higher.

Sky Traffic.
When in our airship through the crowd we journey east or slow,
We'll find a cherub on a cloud to signal "Stop" and "Go."

The Needy One.
"Do you think the motion picture stars will form a union?"
"Why should they? It would be more suitable if their employers organized."—Film Fun.

Opportunities.
"Ours is a country with opportunities for all. Even in Boston you don't have to operate a book store."
"Oh?"
"You can run a library."

Crust Intermission.
Miss Ogdin—The first lover I had was when I was ten and—
Miss Ogdin—What a wonderful memory!—
Miss Ogdin—Have you got to be that

W. J. HOGAN

The Present Cost and Selling Price Of Hogs

When a man states that there is no money in hogs he bases his contention largely on more or less accurate records of feeding costs, and feeding costs only. If the market hog cannot even pay for his feed, what then of interest on investment, labour, risk, losses, marketing expenses, etc. etc.

The feed cost to produce one hundred pounds of pork may be calculated by including the cost of maintenance of the breeding stock responsible for the market hogs. Applying this method, one hundred pounds of pork would require about 600 pounds of meal. American farm survey figures indicate even a higher meal cost—615 pounds. Valuing meal and grain at \$70.00 per ton which is conservative enough the herd feeding charges per hundred pounds of pork would amount to \$21.00 on the 6 to 1 basis. Even this does not cover all farm costs.

Figures available from the Experimental Farm System vary closely with those obtained in farm survey reports i. e. that approximately 78% of the cost of pork production is for feeds and the remaining 22% to cover farm costs exclusive of shipping charges. To produce 100 pounds of pork under average Canadian conditions requires from 450 to 500 pounds of grain or the equivalent. At \$70.00 per ton for meal this would represent a feed cost per cwt. of pork of \$16.82 which figure represents only 78% of the total cost. One hundred per cent of the feed plus the farm charge would amount to \$21.88 per cwt.

The above figure may appear startling. There are hundreds of small feeders who can feed a litter or so of pigs on a much cheaper basis. Otherwise there would be very little pork produced. Why can a few hogs be raised comparatively cheaply on the farm? Simply because of the fact that a considerable proportion of the feed is in the nature of a by-product or perhaps home grown. Multiply the swine activities on the farm and it is necessary to purchase more meal and grain at market prices. The cost to produce mounts alarmingly. So with the farm, seek of poultry.

What shall we feed hogs? Grain mill feeds and by product feeds are becoming scarcer than ever. Wheat by-products are practically off the market. The feed market of the future are most discouraging in prospect. The wholesale price of hogs has not appreciated correspondingly. The man who can feed hogs profitably today MUST HAVE A COMPARATIVELY CHEAP PRODUCT OR BY-PRODUCT to replace meal as largely as possible. Such are scarce. Milk products form the greatest of all. City and hotel refuse is another. Green feed intelligently used, soiled or under the right conditions, pastured, is a third. Barley is one of the best of Canadian hog feeds, too little appreciated. Elevator screenings, if of standard quality, may be utilized wherever available. The man who is raising young pigs, who plans to feed them almost entirely on a grain ration, who has little or no milk or green feed available, will almost certainly be forced to place a high valuation on manure and expectance if he is to get an even break next fall.

EAT What You Want
 without disturbing other effects. There is no reason why you should not, now that you know there is a medicine that will unfailingly counteract dyspepsia and other stomach troubles.

Premier to Speak At Truro N.S.

Hon. Arthur Meighen, Prime Minister, and Hon. Hugh Guthrie, Minister of Militia and Defence, are billed to address a meeting at Truro, N. S. Tuesday evening, in the interest of F. B. McCurdy recently appointed Minister of Public works in the Meighen Cabinet.

Empire Press Delegates in Evangeline's Land

(1) Delegates taking a bucket of water from Evangeline's well.

(2) The Statue of Evangeline just after the unveiling by Lady Burnham.

Five continents were represented at the unveiling of the statue of Evangeline, Grand Pre, Nova Scotia. Nearly all those present belonged to the Imperial Press Conference party, and the unveiling ceremony was performed by Lady Burnham, who said:
 "Evangeline is the beautiful conception of an American poet whose verses we learnt to read on both sides of the Atlantic when we were children. History has shed another light on the Acadian story. We see today that British policy was not as black as it was painted. Whatever may be the truth of the story, as a woman, and an English woman, I shall always regard it as one of the most painful episodes in our annals. Thank God these cruel old days lie behind us forever, and from the fate of Evangeline has sprung a great wave of sympathy which has been carried on the healing hand of time. It is a good omen that the beautiful sun, God's healing hand, should be resting upon us all today, who are here to do honor to that sweet woman who under those rays in your wonderful land so full of beauty and promise, the old hatreds died. I have now the great honor and privilege of unveiling the statue of

The statue, which is of bronze, is the work of Henri Hebert from a model by his father the late Philippe Hebert, a descendant of the Acadians of whom Evangeline was one. It is a magnificent work of art, and was presented to the Park at Grand Pre by the Dominion Atlantic Railway, which is now part of the C. P. R.

THE CITY OF VICTORIA

Parliament Bldg., Victoria

The charming city of Victoria, on Vancouver Island, the portal to the Pacific, the ocean gateway to the Orient, is one of the most favored spots in the world in beauty of situation, equability of climate and magnificence of scenery. Surrounded by water on three sides, the city is situated in a setting of low-lying wooded hills, in a foreground of the latter ranges of the Island Cascades. Across the Georgian Straits, the Olympian range is distinctly visible, the growing glory of the scene being Mount Baker, which lifts its towering cone in solitary splendor to a height of 11,000 feet.
 Victoria is recognized as possessing one of the finest climates in the world. The winters are very mild and the summers cool. In May and June Victoria is especially delightful with the gardens of roses, heliopsis or sunset, masses of yellow lilies, in the stable groves, the air is laden with the perfume of the pines.
 The city is approached through a chain of wooded islands. On the left stretches the harbor, sheltering craft from all winds. Directly in front, backed by a crescent-shaped peninsula, the city extends to the water's edge. The city is surrounded by forest and gardens. This steady, C.P.R. line could not better have interpreted the city's beauty than the lovely

Scene - Beacon Hill Park, Victoria

house and enclosed gardens, is one of the most picturesque winding driveways in the city.
 To the southeast, Victoria is the gateway to the land of pleasure, for Vancouver Island is entered by miles of excellent roads and pleasant beaches. From the coast, the road leads to the heart of the island, where the big ocean plant at Tod Inlet
