A Serious Mistake.

The man who thinks he can put away \$100 for a year for \$3 and then draw out his \$103 is making quite a mistake. Just listen to our argument. He may put in 10 ten-dollar bills and draw out the same. BUT—his money has NOT the same value. One year ago \$100 would have bought as much general dry goods as \$85 buys to-day; as much groceries as \$78 buys to-day; as much railway transportation as \$87 buys to-day, and so on for every article required, so that the man who earns \$100 a month now is no better off than he was at \$70 a year ago. How then can your \$100 next year have the same value as \$100 has now? The answer is—place your money where it will INCREASE itself, in addition to paying you INCREASED earnings, so that \$100 put away now will become worth \$120 and upward in a year from now.

Do You Perspire Freely?

Many people are acutely sensitive to the odors arising from excessive perspiration, and yet under no circumstances is it wise to completely check perspiration for it is essential to health—many of the impurities of the body are gotten rid of by perspiration.

O'MARA'S PERSPIRATION DEODORANT does not unduly check perspiration, but when properly applied it keeps the body comfortable and sweet—it counteracts body odors.

COOKING IN COMFORT, AT LAST!

"WELL, no more coal or ashes to bother about now. And if my eyes hadn't been opened, you would still be cooking on the coal range all through the summer."

Husbands and sons—if you had to do the cooking, wouldn't you like to do it in the most economical, most efficient, simplest way possible? Save your wife or mother further fuel worries. Buy her a New Perfection Oil Cook Stove—it will mean better cooking, a cleaner, cooler kitchen and less work for her—and for you, economy, comfort and no waiting for meals.

Select the style now that suits the individual need of your home—one, two, three and four burner sizes. Be sure it's the stove with the Long Blue Chimney—and that it has the Cabinet and the New Perfection Oven. They make the stove complete for year-round cooking service.

Royalite Coal Oil gives best results.

CHAPTER VIII. THE SOMBER WOMAN.

Had been for a walk one afternoon, and returning by the road that leads past Ivy Cottage, a forlorn-looking little abode that appears to consist of some four or five rooms with a grass plot and a couple of stunted evergreens under its front windows, I am startled by the sudden appearance of a gentleman who, coming hurriedly out of the cottage, pauses for an instant at the gate—an iron grating set like a door in a high wall, with a spiked top, and which, inclosing the house and garden all round, gives it rather a prison-like aspect—shuts and locks it with the utmost deliberation behind him.

It is Mr. Warden! There is no possibility of mistaking that magnificent figure, those darkly, splendid tints of his handsome face, clouded just now by such a shadow of care, of pain, of utter weariness, as I should never have thought it capable of expressing.

He does not see me. He is evidently too much absorbed in his own thoughts to notice anything outside of them, as, slipping the key into his pocket, he turns on his heel and walks away, with his eyes on the ground, toward Hasbury.

"Did Mr. Warden ever tell you that he is acquainted with the mysterious Mrs. Lennox—the invisible inmate of Ivy Cottage?" I ask, a little later this evening, as I stand on the hearthrug, watching the rapid motion with which Addie's pen is travelling over a page of the long letter she is writing to Leonard.

"No, I think not. Why, dear?" she asks, in surprise.

To Keep Fit

The best work is demanded from all at this crisis in the world's history. We can't do our best when the system is full of poisons.

The liver and kidneys must be kept active so that the blood will be properly filtered. Dr. Chase's Kidney-Liver Pills are the most effective regulators of these important organs.

They will help you to keep well and active and to do your best work.

title of studio, bringing with him the astounding intelligence that if we think we can anyhow contrive to make room for him, Doctor Fuller has promised to pay us a visit in the course of a few weeks.

This is a prospect that strikes me as simply overwhelming, though Addie seems to take it very quietly. Had it been the Grand Mogul, or the Czar of Russia who proposed to pay us the honor of a visit, I could hardly have felt more astonished.

"Coming here!" I exclaim, with a gasp, as soon as I can command my voice sufficiently to speak. "Good gracious, Len, you don't mean to say that Doctor Fuller is coming down from his stilt of high and mightiness to such an extent as that? What in the name of wonder can he want here?"

"To see me, of course; hope you did not flatter yourself it was you," returns Len complacently. "He is going to stay two or three days."

"Oh, well, in that case I may as well make up my mind to be miserable," I return, with an air of resignation. "And what in the world we are going to do with a man like that—a somber giant, whose commonest civilities seem offered under protest, as if they were grudgingly given, I can't conceive."

"Upon my word, Lesley," exclaims Len, with one of his jolly little laughs, "one would think you were afraid of the doctor."

"I am," I reply, making the humiliating admission with a sigh that will not be repressed. "It is rather a novel experience to me, certainly; but I am afraid there is no disguising the melancholy fact that I stand in awe of Doctor Fuller. His terrible eyes and brusque manners are altogether too much for my nerves."

"How can you be so foolish, Lesley?" asks Adelaide reprovingly, taking my nonsense more seriously than usual. "As if we should not all be delighted to see Doctor Fuller, to whom we are under the deepest obligations. You are giving Mr. Warden a very poor impression of our sense of hospitality, I am afraid."

"Speak for yourself, Addie," I return. "It is all very well for you to like to see him. Doctor Fuller is more than half in love with you, I believe; but he has the bad taste to dislike me, and I know it."

"Why don't you return the compliment, Lesley?" Mr. Warden inquires, with rather an uneasy glance at Addie, who is bending over a heap of jonquils with which she is filling some vases, and trying to hide the telltale

flush any allusion to the tender passion seems always to bring to her face of late.

"I do," I return; "I detest him with all my heart."

"Don't believe a word of it, Warden," interposes Len, looking up from the sofa, on which he is stretching his long limbs in his own peculiar lazy fashion. "It is an unmistakable case of sour grapes, depend upon it. A woman's vanity is positively insatiable, no matter how many captives she may drag at her chariot wheels; and Lesley, innocent as she looks, has her share; she is sure to sigh for more, especially for the one that resists her spells. That is just Lesley's case. Doctor Fuller is a capital fellow, Warden; you will like him immensely when you know him. He has a good deal too much sense to give in to a woman's wiles, and, as a matter of course, there is not one of them but is ready to give her ears to get him."

"Any woman with ugly ears, you mean; but I ask anybody whether mine are not too pretty to be sacrificed for a man in creation?" I ask, turning a calmly defiant face upon my tormentor.

"You hear! What did I say? Ah! vanity, thy name is woman!" is the dramatic response; and, with one of his most provoking little grimaces, Len picks himself up from his recumbent position and strolls away to smoke a reflective pipe or put in a few judicious touches to the great picture that is destined to electrify the world of art from the walls of Burlington House by and by.

So far Mr. Warden's prophecy concerning our neighbors has not been fulfilled. Not a soul has called upon us yet; and so far as visitors are concerned, our quaint little parlor, over which we have spent so many hours of thought and toil, arranging in it all the prettiest objects in the way of old china and bric-a-brac the house contains, until it looks like the background of some old picture, remains empty and deserted.

May is not yet out, but the weather is like June. The sunlight, slanting down through the unshuttered windows of the exposed old house, is so full of light and gladness that yielding to its genial influence, I am rapidly forgetting the gloomy impression created on my mind by that first visit to Deepdene, and the appearance of that mysterious figure of which I have never yet spoken a word.

Fashion Plates

The Home Dressmaker should keep a Catalogue Scrap Book of our Fashion Cuts. These will be found very useful to refer to from time to time.

JUST THE STYLE FOR CALLING OR AFTERNOON WEAR.

Waist-2500. Skirt-2504. Comprising Waist Pattern 2500 and Skirt Pattern 2504. Foulard, taffeta, batiste, dimity, dotted Swiss, organdy, shantung, crepe and satin are desirable for its development. The skirt may be made without the trimmings. The waist is finished with shaped vest portions. The sleeve may be made in wrist or elbow length. The Skirt Pattern 2504 is cut in 7 sizes: 22, 24, 26, 28, 30, 32 and 34 inches waist measure. The Waist 2500 in 7 sizes: 24, 26, 28, 30, 32, 34 and 36 inches bust measure. It will require 6 1/2 yards of 40-inch material for the entire dress in a 28-inch size. The skirt measures about 2 yards at the foot.

This illustration calls for TWO separate patterns which will be mailed to any address on receipt of 10 cents. FOR EACH pattern, in silver or stamps.

FOR AFTERNOON OR CALLING.

2502—Here is a smart and pretty model, easy to develop, nice for soft batiste, crepe or foulard, and just as good for satin, gabardine, serge or linen. As here shown, white voile was combined with cluny insertion. The girdle is of pale blue satin. The tunic is finished separate from the skirt, and could be made of contrasting material. White serge with braiding or embroidery would be nice for this model.

The Pattern is cut in 3 sizes: 16, 18 and 20 years. Size 18 will require 5 1/2 yards of 40-inch material. The skirt measures about 1 1/2 yard at the foot.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

LOYD GEORGE PRAISES FOCH.

LONDON, Aug. 7.
 General Foch, by his counter-
 stroke, had driven the enemy back,
 and although the danger was not over,
 he would be a sanguine man on the
 German General Staff who would not
 predict that Germany could obtain a
 military victory, said Premier Lloyd
 George to-day. The Premier charac-
 terized General Foch's counter offen-
 sive as "the most brilliant in the
 war." The Germans, declared the
 Premier, had attempted their land of-
 fensive because the submarine offen-
 sive had failed. Mr. Lloyd George
 stated that during the month of July
 300,000 American troops had been
 brought over, 185,000 of them in
 British ships. Since August, 1914,
 including those already with the colors,
 Great Britain alone, said the Premier,
 had raised for the army and navy
 6,250,000, for the most part volunta-
 rily. The Dominions had contributed
 1,000,000 men, and India 1,250,000 men.
 One hundred and fifty German sub-
 marines had been destroyed, Mr.
 Lloyd George announced, more than
 half of them in the last year. The
 Premier was speaking in the House of
 Commons, making a statement on the
 war situation. Until the Allies were
 defeated at sea, Mr. Lloyd George de-
 clared, Germany could never triumph.
 Mr. Lloyd George, in alluding to the
 subject of peace, said that the people
 who had made the war were still in
 evidence, and they could not have
 peace so long as they were predom-
 inant in the councils of the enemy.
 Everyone wanted peace, the Premier
 added, but it must be a peace that was
 just and durable, one with power be-
 hind it. In a further reference to the
 fighting in France, the Premier de-
 clared it was too early to say the Ger-
 man effort has been exhausted. The
 Germans still had powerful forces in
 reserve, he pointed out, but it was
 not too early to say that the chance
 which they had had on March 21st
 would not again present itself. The
 American army, said the Premier,
 would soon be not far short of the
 German army itself. The House will
 adjourn to-morrow until October 15.

FRENCH GAINS.

PARIS, Aug. 7. (Official.)
 In the course of the fighting near
 the Vesle the French occupied the sta-
 tion of City Salengne, just to the
 west of the head of the Vesle where
 it turns northward to join the Aisne.

REGAIN GROUND.

LONDON, Aug. 7.
 In an attack carried out this morn-
 ing southwest of Morlaucourt, the
 British regained the ground taken
 from them by the Germans yesterday
 along the Braycorbe road, north of
 the Somme.

CAPTURES OF MATERIAL.

WITH THE FRENCH ARMY IN
 FRANCE, Aug. 7. (By the A.P.)—
 The army of General Barthelet, whose
 operations had a marked effect in
 bringing about the retreat of the
 Crown Prince across the Vesle by
 breaking down the eastern pivot of
 his line southwest of Rheims, effected
 heavy captures of material during the
 fighting. In one wood alone three
 hundred thousand shells of heavy
 calibre were taken, in addition to im-
 mense quantities of other material.
 This army also captured several bat-
 teries of heavy and field guns, which
 are now being used against the en-
 emy. It's booty comprises likewise in
 addition to 373 machine guns, hun-
 dreds of light trench mortars. The
 army's bag of prisoners exceeded 2,000.

**GERMANS WILL NOT REMAIN ON
 THE DEFENSIVE.**

AMSTERDAM, Aug. 7.
 While the Germans have suffered
 an unpleasant interruption, they will
 not for long remain on the defensive,
 says General Von Ardenne, the mili-
 tary critic of the Berlin Tagblatt. A
 contributing factor in the revival of
 the offensive, he says, is that the ar-
 mies between the Aisne and the
 Marne were able to carry out their
 operations with their own reserves,
 without being obliged to draw upon
 the other reserves, the unrestricted
 possession of which secures the initia-
 tive to the German Supreme Command.
 Capt. Von Salzman, the military critic
 of the Vossische Zeitung of Berlin,
 takes the view that German opera-
 tions south of the Aisne are approach-
 ing a termination, and the great ad-
 vance on the Marne has come defini-
 tely to an end. He pictures the Ger-
 man forces as retiring into a strong-
 hold, whose gates are slowly closing.
 The new front upon which Capt. Von
 Salzman expects the Germans to stand
 and which he believes will be shortly
 held, runs from southwest of Rheims
 along the Vesle River, past Conde,
 and joining the old German front line
 north of the Aisne.

The Navy Department was to-
 day informed. The crew, who took to
 their boats, have reached shore safely.
 The submarine came within half a
 mile of shore, according to the brief
 report which reached the State De-
 partment. The Diamond Shoal Light
 Station is one of the most famous
 guides to navigation in the world, and
 has been the subject of many a story
 in verse and prose. Such vessels usu-
 ally are manned by greybeards and
 are of such a type as to be utterly
 helpless in the face of an enemy at-
 tack.

GERMAN SAILORS REVOLT.

LONDON, Aug. 7.
 Rumors of a revolt by German
 sailors at Wilhelmshaven, in protest
 against continuation of submarine
 warfare, are in circulation, according
 to a despatch to the Express from
 Amsterdam. It is reported that pro-
 pagandists among the men, incited
 sailors about to leave on submarine
 cruises to attack their officers and
 surrender to sink them and get them-
 selves interned in neutral ports. More
 than fifty submarines are said to have
 disappeared. Twenty-three leaders
 of the revolt are reported to have
 been arrested and sentenced to death.
 Many others have been arrested at
 Kiel and elsewhere, it is added. The
 correspondent who sent the report ad-
 mits the stories are conflicting and
 the facts difficult to ascertain. The
 account state, are revolutionary sailors,
 who for some time past have been
 conducting a propaganda with the
 object of stopping the submarine war
 because of the increased danger. The
 recent resignation of Admiral Von
 Holtzendorff as Chief of the Naval
 Staff, is declared to have been con-
 nected with the scandal. Emperor
 William, it is added, has abandoned
 an intended visit to the fleet at Wil-
 helmshaven this week, because of the
 ferment there.

LONDON, Aug. 7.
 The British casualties reported in
 the week ended to-day totalled 9,886,
 compared with an aggregate of 13,
 833 reported in the previous week.
 These are divided as follows: Killed
 or died of wounds, officers 106, men
 1,609, wounded or missing, officers
 374, men 7,778.

CROSS THE VESLE.

PARIS, Aug. 7.
 American and French troops have
 crossed the Vesle, east of Braine, and
 held their positions, notwithstanding
 furious counter attacks by the Ger-
 mans, says the French official com-
 munication issued to-night. North of
 Rheims the French have pushed back
 the German line more than 400 yards.

SAYS GERMANS MISINFORMED.

AMSTERDAM, Aug. 7.
 In the August issue of the Prus-
 sian Jahrbuch, Professor Delbrueck
 utters another of his periodical gentle
 complaints that the German people
 are being sadly misinformed on the
 intrinsic truth about America's part-
 icipation in the war. He goes so far
 as to say that the German people are
 being led by the nose, and willingly
 so, by a large section of the press,
 which is continually hammering on
 the fallacies that America entered the
 war to save her investments, or to
 arm against Japan, or merely be-
 cause "blood is thicker than water."
 Professor Delbrueck argues that Am-
 erica and Germany are virtually
 agreed on one of the most important
 issues in the war, namely, the free-
 dom of the seas, as shown by Imperial
 Chancellor Hertling's acceptance of
 February 25, of President Wilson's
 "four principles" enunciated on Feb-
 ruary 11th. "Why, then," he asks, "do we
 not have peace negotiations begun?"
 He supplies the answer by saying,
 "because the others do not want
 peace." True, but why don't they?
 America is far on the road toward an
 agreement on peace with us, and
 England realizes that even if the for-
 tunes of war turn in her favor, the
 pre-eminant sea power for which
 she is fighting is dwindling away. He
 suggests somewhat timidly, "Are the
 others alone to blame, or is not our
 own policy somewhat at fault for the
 fact that we cannot get together to
 talk about peace?"

ANOTHER NEW GOVERNMENT.

KANDALASKA, Russian Lapland,
 Monday, Aug. 5. (By the A.P.)—The
 new Government of Archangel in-
 cludes in its supervision the Murman
 territory, and it is prepared to assume
 relations, diplomatic, financial and
 industrial, with foreign nations for
 the "region of the north." The head-
 quarters of the Government, which include re-
 presentatives of the Russian northern
 provinces, are members of the group
 which proclaims itself to be working
 for the restoration of real democracy
 in Russia.

RUSSIAN FORCES MOVING.

HARBIN, Manchuria, Saturday,
 Aug. 3. (By the A.P.)—General Sem-
 enoff, leader of the anti-Bolshevik
 forces in Siberia, has withdrawn some-
 what on the trans-Siberian line to-
 wards Vladivostok, his corps now
 being between Krailar and Manchur-
 ia station in Manchuria, near the
 trans-Baltic border. They are await-
 ing the arrival of the Czechoslo-
 vaks, who appear to be great satisfac-
 tion with the co-operation of General
 Semenov and that of General Kal-
 nino, which they believe gives as-
 surance of large Cossack reinforce-
 ments when once an advance is be-
 gun. Austro-German reinforcements
 are reported arriving on the Manchu-
 rian and Nikolai fronts. Magyar cav-
 alry is especially active, but the pros-
 pects of active co-operation against
 the Germans is uniting the Russians.

WANTS ECONOMIC PEACE.

ZURICH, Aug. 7.
 (Havas Agency)—Albert Ballu
 and Herr Holzendorff, directors of the
 Hamburg-American steamship line,
 have resigned as members of the Ger-
 man economic council, says a des-
 patch received here from Hamburg.
 At a meeting held in Berlin on July
 26th, leading members of the German
 economic council proposed that there
 should be co-operation in the re-
 establishment of commerce. It was
 declared also that Germany should
 enforce an economic peace in Europe.
 The council, it was proposed, would
 drop politics in trade. It was re-
 ported that Herr Ballu had been made
 a member of the preliminary commit-
 tee.

**NYLD, CREW SUNK BY SUB, AND
 SCHW BOBBED.**

A CANADIAN ATLANTIC PORT,
 Aug. 6.—The Nfld. three-masted schr.
 Gladys J. Hollett was sunk by an en-
 emy submarine fifteen miles south-
 east of Ironbound Island, LaHave. The
 crew landed at LaHave, N.S.

Capt. A. T. Cluett and his crew of
 five of the Nfld. three-masted schr.
 Gladys M. Hollett, which was sunk by
 an enemy submarine off this port, ar-
 rived at LaHave to-day in the ship's
 boat. To the Canadian Press to-day
 Capt. Cluett said that he was bound
 from Twillingate, Nfld., with a cargo
 of herring for New York. Yesterday
 morning, at 10 o'clock, when he was
 fifteen miles southeast of LaHave,
 Ironbound Island, he sighted a sub-
 marine about three miles away. The
 U-boat tore down on him at full speed
 and signaled for him to heave to. This
 he did immediately, and the subma-
 rine came up within hailing distance.
 The commander of the under-sea craft
 ordered the captain to send a boat to
 the submarine. This was done and
 the German skipper and two of his
 men, heavily armed and laden with
 bombs, were taken on board of the
 schooner. "They ransacked my ship
 from stem to stern," said Capt. Cluett,
 "and even took my own clothes, watch
 and nautical instruments. There was
 scarcely anything movable left on
 the vessel after they got through, and
 we were allowed to take nothing but
 the clothes we stood in." Capt. Cluett
 said that the Germans after robbing
 the ship, put bombs in her hold and
 ordered the Hollett's crew to row
 them back to the submarine. The
 crew of the schooner then started to
 row towards land, and a few minutes
 later they heard a loud explosion and
 saw their ship turn over on her beam
 ends, in which position she remained
 when they lost sight of her. An hour
 after they reached the Ironbound
 Bell Booy at 11 o'clock Monday night
 and made fast to it until this morn-
 ing, when they rowed into LaHave.
 The Gladys M. Hollett was a schooner
 of 160 tons net, and built in Shel-
 borne in 1917. She was owned by
 W. & T. Hollett, of Burin, Nfld.

Cable Taxation.

The trouble between the Government of Newfoundland and the Commercial Cable Company, which was the cause of the suspension of communication between Port aux Basques and Canoe, on August 1st, has caused much comment, and it is quite possible that, as yet, the whole public have not yet thoroughly grasped the position. The following article, specially written for The Telegram, will materially aid our readers in getting at the facts as they appear. We offer an expression of opinion, at the present moment, on the matter, deeming the publication of the article referred to sufficient for the purpose of explaining the circumstances, which led up to the "grounding" of the cable on the date mentioned.

In the Legislative session of 1904, an Act was passed giving the department of the Post Master General control of the telegraphic services of the Colony, subject to the existing rights of the Anglo-American Company. At the end of that year the monopoly which that Company had previously enjoyed expired. It continued, however, to have the right to operate its cables to and from this country, and its existing land lines.

In 1905, an Act was passed imposing a tax of \$4,000 on every telegraphic cable worked by or on behalf of a Company "carrying on any telegraphic or telephone business in or from this Colony." This in reality applied at the time to the Anglo-American Company only, though it was not so expressed.

After the enactment of the taxing act the Government entered into an agreement with the Commercial Cable Company for the maintenance and operation of the Government cable from Port aux Basques to Canoe, and for the transmission of telegraphic messages to and from the Colony. This agreement was ratified by the Legislature on the 6th day of May, 1906. It contained a provision that at any time after ten years it could be terminated upon the expiration of six months previous notice in writing. It came to an end at midnight on the 31st day of July last.

Incidentally, as it were, not having any direct connection with what seems to have been its main purpose, it was provided in the Agreement that the Government would grant to the Company the right to land any of its through cables at Newfoundland, on terms and conditions as favourable to the said Company as those under which other cables, present and future, are granted landing rights by the Government of Newfoundland, save and except any special privileges now enjoyed by the Anglo-American Telegraph Company, inclusive of the

right of the said Anglo-American Telegraph System."

About the end of 1908, apparently, negotiations were entered into between Sir Robert Bond and the Commercial Cable Co., which resulted in an Agreement, dated February 18th, 1909, for the purpose of extending the Agreement made in 1905, to 1934, and of adding to the matter contained in that Agreement certain provisions in relation to the landing of cables of the Company, which it was proposed to cut at Flemish Cap, and bring in to Newfoundland. This Agreement was signed by the Governor, but contained no provision for its ratification, nor was it, in fact, ever ratified by the Legislature. The Government of Sir Edward Morris refused to adopt the Agreement, and by a judgment of the Privy Council delivered in 1916, it was decided that the Agreement was not binding upon the Government, on the ground that it had not been ratified by the Legislature.

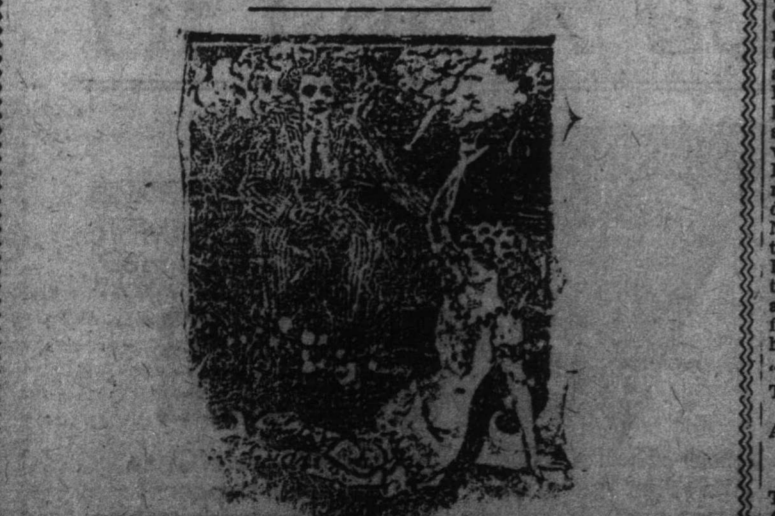

This unratified agreement provided incidentally that the Company should transmit all Newfoundland messages to and from Europe over its cables, instead of via Canoe, over the Government cable, and during any interruption of the latter should transmit Newfoundland messages to and from America and Canada over its own cables. For this facility, the Company was to receive annually the same amount as the tax it would pay on one cable, and it was agreed that the existing cable should be treated as one only, not as two, one in and one out. The Anglo cables are connected across country by land wires, and therefore each through message uses what is regarded as two cables, for taxation purposes. The provision referred to, therefore, gave the Commercial Co. a preference as compared with the Anglo Co.

During 1909, two transatlantic cables of the Commercial Cable Company were cut at Flemish Cap and brought into Newfoundland, through which, ever since, messages between East and West have been relayed. In 1910, claiming that each relayed cable constituted two cables, one going East and one going West, the Government brought an action against the Commercial Cable Co. for \$16,000, as taxes of \$4,000 on each of four cables for one year; that is to say, the year ending June 30th, 1910. This action was decided adversely to the Colony, in 1912, by the Privy Council, which held that the taxing act, 1905, did not apply, for that the Commercial Cable Co. did not come within the meaning of "Company" in that Act, as one "carrying on any telegraphic or telephone business in or from the Colony." The Commercial Cable Company did not in fact do any business to or from the Colony by its own lines, but used its landline rights in the Colony for the purpose of facilitating the passage of business between places outside this Colony.

Pending the result of litigation, no amendment was made in the Taxation Act, but in the last session of the Legislature an Act was passed declaring that the word "Company," in the 1905 Act, included any Company owning or operating any cable landed on this Colony, and that every through cable should be deemed to be two distinct cables. This Act was made retrospective, as if it had come into force on the 1st of July, 1910. An action was brought by the Government against the Commercial Cable Co. a few weeks ago, for \$12,000, the taxes for 1911-1912, or seven years, at \$18,000 per year. A decharge has been entered, and the action will proceed in due course.

"Blue Puttee" Boys Home.

A RIGHT ROYAL WELCOME EXTENDED - THOUSANDS CHERISHED RETURNED HEROES.

Some thousands of citizens, who had congregated on the wharf, and on Water Street, witnessed the arrival of the "Blue Puttee" Boys this morning. At a quarter to ten, the s.s. Kyle, laden with her precious burden, docked at the Furness Wharf pier, and the boys soon after landed. Steamers and tugs blew their whistles as the Kyle neared the wharf, as tokens of welcome, while the regimental bugle band, which was stationed on the pier, struck up a popular military air. Squads of soldiers and police were stationed around the wharf and entrance thereof, to prevent a rush, so anxious were impatient relatives to see their boys once again. Shortly after landing, the returned men repaired to the large yard, just off Water Street, and near the entrance to the wharf, where the automobiles were arranged in crescent shape. A large platform, decorated with gay bunting, was within the circle of spectators, and from it, Hon. W. W. Halyard, Colonial Secretary, spoke, extending to the "Blue Puttee" Boys a right royal welcome. Briefly he reviewed their achievements and movements, and he voiced the sentiments of the general public in saying that he was proud of them. Mayor Gosling was the next speaker, and he also spoke briefly, welcoming the boys home once more. Mr. Harold Mitchell, President of the War Veterans' Association, on behalf of that body, gave a hearty welcome to them, and spoke of the efforts made by the Association in getting them home. Mr. Halyard then called for cheers for the soldiers which were heartily given, after which the men were driven to be entertained by the Governor. From thence they were conveyed to their respective homes in the city. Those belonging to outports will entrain for home to-day, if possible. The Telegram extends a cordial welcome home to the draft.

What's in a Hat?

Editor Evening Telegram.
Sir—My attention was diverted by the News of this morning to a letter bearing the significant heading: "A Hat Study." I perused it and found it very interesting, it dilates on the dispensing of the "Sons of Christy's Hats," for whom Mr. G. F. Kearney is sole agent. Now, sir, we are asked by Shakespeare: "what's in a name?" What that name is, I do not know, but if you had the name of an early riser you could sleep in bed all day. "What's in a Hat" is a question I would ask, and if we look at the length of years which Christy's Hats are on the St. John's market we are proud to think with Keats, the poet, that "nothing is so beautiful as a hat." Christy's Hats are beautiful and no mistake. The contributor in this morning's News signed "One of the Old Stock" refers to Hon. Patrick Morris as having sold Christy's Hats. More for the information of the writer I would tell him that the father of our present energetic Commissioner of Charities, R. O'Dwyer, Esq., sold Christy's Hats. Those hats were, no doubt, largely worn by the returned men and others of St. John's in the days gone by. Mr. O'Dwyer advertised those Christy Hats. He said "when dilating on his shop goods, 'I have a consignment of ten cases of Christy's Hats which will be sold at first cost and clear.' In those years Mr. O'Dwyer did a thriving trade on Water Street, his place of business stood at the western corner leading down to Bowring's Cove, which brings to our mind the coincidence we see to-day. Mr. George F. Kearney selling U.S. same hats at the corner of Beck's Cove, not more than one hundred yards from the place where they were sold by Mr. O'Dwyer over eighty years ago. The men of the past were stylish in their attire and it must have been a pleasing sight on more than one occasion to have seen our fathers dressed in their stylish habiliments and wearing the Christy Hat.

Those were the days when the "Lovely Mary," "Castilian Maid" and "Scottish Lass" were bringing the best of goods from the Old Country, and when Cork butter, Cumberland bacon and the Irish potato did ample justice to the larder of our sires. "One of the Old Stock" omitted to mention the many outings and balls held when the Christy Hat was the favourite, how after a hair cut in the most modern London style, by John Andrews, they looked the pink of perfection as they swung their fair partners to a dance within the historic surroundings of Furlong's Long Room. Maybe your readers are not aware that Mr. Andrews was the first tonorial artist in Newfoundland to bring to this country the system known as shampooing. I assure my readers it is so, and further that Mr. Andrews seemed to be an adept in composing verses, as we find the following lines from his pen, he said:

"When you desire a shaving treat To Andrews walk, on Water Street, And there you may obtain A lather clean and razor fine To shave the human face divine, Nor give the slightest pain.

Then, gentlemen, if you love ease And want a shave that's sure to please Call in at Andrews' place; You will not find and although you rove From Riverhead to Maggoty Cove So good a shop for giving a smooth shave.

With a clean face, a frock coat, polished shoes and a Christy Hat I tell you what, Mr. Editor, the "old stock" must have "looked out of sight." To-day among the best looking men in St. John's the Christy Hat is seen. It has stood the test down through the years and like "Johnnie Walker" is still going strong.

Having said this may interest your readers, and that Mr. Kearney may be prosperous in the sale of the Christy Hat, I remain, yours truly,
HISTORICUS.

Here and There.

MORE FLORIDA WATER.—Only one case was heard in court this morning, that of a drunk, who was fined \$2 or 7 days.

TUBERS SCARCER.—There is a big scarcity of potatoes in town and very few can be obtained. Those that can be bought fetch the fancy price of 50 cents a gallon. New potatoes, if it is rumoured, will cost 80 and 90 cents a gallon.

MORE DIPHTHERIA.—Yesterday a case of diphtheria was reported and the sufferer, a young boy of Springdale Street, was removed to Hospital. Another case was reported this morning, and the patient, a young girl of the Lower Battery, was removed to Hospital.

EAST BOUND PASSENGERS.—Following first class passengers joined the east bound express at Port aux Basques this morning: J. R. Marchant, Mrs. Dave, Mrs. W. H. French, Miss and Mr. J. P. Partridge, Miss A. Hayward, Major Chessman, Mr. C. Scovour and child, Miss H. Scovour, G. Grant.

TO LAUNCH SHIP.—The Harbor Grace Shipbuilding Co. are now erecting ways to launch their new 250 ton flat bottomed wrecking steamer.

Hr. Grace Notes.

Mr. and Mrs. H. Fynn left on this morning's train for St. John's to meet their son, Pte. Clinton Fynn, who is among the returned soldiers.

Miss J. Godden, of Bell Island, who has been visiting here for the past week, goes to St. John's by this evening's train where she will spend a few days before going to her home.

Owing to the illness of the Rev. F. S. Coffin, there was no service held in the Kirk yesterday.

A large number of people were present at the passing of the resolution in the Town Hall yesterday afternoon. Flags were flying from many of the residences.

Mr. Geo. Yetman, son of Mr. M. Yetman, returned last week from New York on a brief visit. He left again this morning on the return trip home. George has offered his services several times for army work but has not been accepted.

When a young man visits the home of his fair one and allows his dog to remain on the door step, it is a good way to advertise. You may be breaking that other girl's heart, or giving some young man heart failure if you do not keep that dog home.

Some of the traps did well again today, getting several boat loads of very fine codfish.

Mr. J. J. French, of the Evening Telegram staff is in town on a brief holiday visiting his friends.

Mr. James Ash, son of Mr. J. A. Ash, of this town, is here from St. John's on a two weeks' visit to his parents and friends.

Requiem Mass.

The annual Requiem Mass was celebrated in the Mortuary Chapel, Belvidere, at 10 o'clock yesterday morning by Rt. Rev. Mons. McDermott, assisted by Rev. Dr. Carter and Rev. Fr. Savin. His Grace Archbishop Roche was present, as also were Rev. Dr. Kitchen, Rev. Frs. Pippy, Sheehin and Conway. The congregation was an unusually large one, the church being crowded while numbers knelt outside. Many improvements have been made at the churchyard of late and the grounds are now in a splendidly kept condition. That those resting at Belvidere are remembered by the relatives and friends still living was evidenced by the many floral tributes decorating the graves.

NOTE OF THANKS.

Rev. Charles Jeffery, Mrs. Jeffery and family, the Parsonage, Whitebourne, desire to thank most gratefully the Rev. Canon Smart, R.D., Rev. F. E. Law, Rev. Captain Clayton and Rev. J. Stead for their kindly ministrations, on Thursday, Aug. 1st, at the Memorial Service, held in the Church of St. John the Baptist, Whitebourne, on that date, for their beloved youngest son and brother, Lieut. Edward Jeffery, who made the supreme sacrifice, of his young life, on Sunday, July 28th; also the Rev. E. A. Bellier, Sandy Point, Bay St. George, where a Memorial Service was also held for the above. They also extend heartfelt thanks to those kind friends, too numerous to mention individually here, who so kindly sent most comforting letters and messages of sympathy in their time of sorrow.

Too Many Old Clothes.

By RUTH CAMERON.

Say what you will, there is a certain psychological influence exerted by clothes over the people who wear them. Some people may be strong enough to nullify this influence, but I am sure our old friend, the average man or woman, is not. I have been reminded of this fairly familiar truth, by my experience with a pair of shoes. It was an old pair of common-sense, rubber-heeled, tan shoes left over from last summer. The leather was much marred and rubbed, but they were whole, and the soles and heels were in fairly good condition. So, at the beginning of this season, I had them shined up, and as a conservation measure for myself and the leather market, decided to make them do for housework shoes for the summer. Unfortunately, I am one of those unlucky people who are constitutionally hard on shoes; in a month those shoes had grown much more shabby and sloppy, and I found that I subconsciously dread putting them on. The sight of them under the chair displeased me. I caught myself inventing reasons why I should not wear them this morning or that, but should put on my afternoon shoes. And still I felt as if I ought to make them do.

It Put New Heart Into My Work.

And then I came to my senses. I don't know just why. I went to town and bought a good pair of white canvas Oxfords. The next day (after combating the temptation to save them for afternoon because they looked so clean and nice when I got them home) I put them on and went about my work in them. And, believe me or not, the feeling and the sight of those new, respectable shoes put new heart and efficiency into my work. I really think that the psychological influence of those sloppy, shabby old shoes had been holding me back on my housework.

The same is true, and even more true I think, of mental work. If I am tired and my mind is working badly, nothing helps me like bathing, put-

ting on fresh underwear and a gown that I like.

A Tonic When One Is Tired.

Or if I have not time to do all that, just getting up from my work, washing my face, combing my hair and putting on a fresh collar will often put me into a better mood.

Of course there are people who think too much about clothes, but I think there are also people who do not care enough about them. Do not underestimate and make use of the psychological effect of outward conditions on mental states.

I bought a horse with a supposedly incurable ringbone for \$30.00. Cured him with \$1.00 worth of MINARD'S LINIMENT and sold him for \$35.00. Profit on Liniment, \$5.

That Wail From the Rhine.

(From the New York Herald.)

Visits from Allied airplanes are not realized by the people of the Grand Duchy of Baden. So long as bombing from the air was confined to German operations against English and French cities and towns, the Badenites led the chorus of rejoicing over "mighty victories" which consisted in the slaughter of women and children, but now their chorusing confines itself to the cry "Kamerad." Running true to Teutonism, they call upon the Berlin Government to bring about the abandonment of air raiding—and imagine that Berlin can comply with their request! It takes two to make a bargain, and nothing is further from the thoughts of the Allies than abandonment of the present policy of air reprisal. If for a time its wisdom was doubted, the howl now raised in the Rhine cities, remove all doubt. Nothing can be more certain than that the quickest way to win this war is to carry its horrors into the heart of Germany. The German people, at one with their Government in bringing this scourge upon the world, must be given full understanding of what war means. Instead of being called off, air raids by the Allies will be increased. For in the air, as on land, we have just begun to fight!

DR. JOHNSON'S PICTURE COW.

Got a silver in my hand, An' I hurt 't beat the band, An' got white around it, too. Then the first thing that I know It was all swelled up, an' Pa Said: "There's no use fussin' Ma, Jes' put on his coat an' ha'." Doctor Johnson must see that. I was scared an' yelled, because One time when the doctor was At our house he made me smell Something funny, an' I fell fast asleep, an' when I woke Seemed like I was gulping 't choke. An' the folks who stood about Said I'd had my tonsils out. An' my throat felt awful sore An' I couldn't eat no more, An' it hurt me when I'd talk, An' they wouldn't let me walk. So when Pa said I must go To the doctor's, I said, "No, I don't want to go to-night." 'Cause my hand will be all right." Pa said, "Take him, Ma," an' so I Jes' knew I had 't do. An' the doctor looked an' said "It is very sore an' red— Much too sore to touch at all. See that picture on the wall. That one over yonder, Bud. With the old cow in the mud?" "Once I owned a cow like that, Jes' as brown an' big an' fat An' one day I pulled her tail An' she kicked an' knocked the pall Full 't milk clean over me." Then I looked up there 't see His old cow above the couch. An' right then I hollered 'ouch."

"Bud," says he, "what's wrong with you. Did the old cow kick you, too?" An' he laughed, an' Ma said, "Don't Never mind, now, it's all done." Pretty soon we came away. An' my hand's all well to-day. But that's the first time that I knew Picture cows could kick at you.

THE BENEFIT OF VENTILATION.

Few women will realize that a bushel basket of vegetable contains bright eyes, a clear complexion and rosy lips.

Not a single dinner should be served without at least one fresh vegetable. Beets are among the best and can be served with butter and seasoning, cold with vinegar, minced with cabbage or lettuce salad. They are also quite palatable when eaten with a little salt sprinkled over them.

While canned beets do not actually take the place of fresh ones, still they may be substituted when fresh ones cannot be secured.

When visiting the vegetable market do not allow the man to top the beets. These tops make an ideal vegetable when cooked in the same manner as one cooks spinach. While beets tone up the complexion they also are very nutritive and have a decided action to right any kidney order that may exist.

Spinach is also invaluable as a vegetable, carrots as well both being quite appetizing in fact, all sorts of "boiled greens" act directly upon the system and blood, which in turn brings about a better complexion.

No dinner should be considered complete without some greens, said. It is far better to omit the sweet dessert than the salad if but only one can be afforded. Olive oil dressing should be used on the salad as it is both nourishing and wholesome. While olive oil has a flavor that requires cultivation it is valuable as a tonic.

Plenty of fruit should be eaten for breakfast and also during the day when real hunger assails one. Each individual must be his or her own judge and eat only such fruits as agree with their digestive organs.

Tragedy of Bolshevism

TERRORISM IN PETROGRAD.

The following are extracts from a letter recently written to a Russian officer by his mother, who is resident in Petrograd:

So many horrors happen and have happened here that really one doesn't know where to begin. I think God that you and your wife and children are abroad. My heart is lighter knowing that some of my children have escaped these terrors.

The peasants, with Bolshevik and German leaders, have taken all from us. Our agents and servants in the country have barely escaped with their lives. We have been pillaged and robbed of everything. I tried to save some of the horses, but they hanged and then burnt most of them; but your favorite horse G. is alive in their hands. I have sent the last money that I had left in case I had to escape from P. to pay these people to leave your horse, knowing how hard it would be for you, to lose him. We are now without a penny.

Food is nearly impossible to be found. So we starve. One can buy a few things at mad prices, which we can't afford. In the streets they rob, undress, and kill people, so it is terrifying to go out.

Your two youngest brothers (officers) came back from the front, and are here with their wives. Your sister M. went through a terrifying time in K. The Bolsheviks came into her house, tied her to her bed, and robbed her of everything. They would have killed her, but her little daughter ran and brought help in time. Your brother A. was commanding a brigade near Y. He tried till the last moment to make his soldiers fight, but he could do nothing against the Bolshevik influence, and was taken

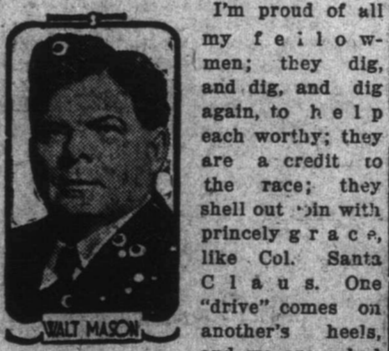

prisoner by the Germans. It is two months since I had any news of him. Your brother D. was at S. during all the terrible massacre of naval officers, but, thank God, I had a few lines from him the other day, and he is still alive. Where your father is I don't know—they say at C.

We live here on the money we receive from the sale of our household things. Otherwise, we would long since be dead of hunger. From the fact that no one can get any money, so God knows what future awaits us.

You can understand that all this has a very bad effect on me in my old age. I go out very little now, as in the trams the Bolsheviks are very rough and rude, and walking tires me too much. I am so sorry, my dear boy, that I can send you no money, but I have none myself.

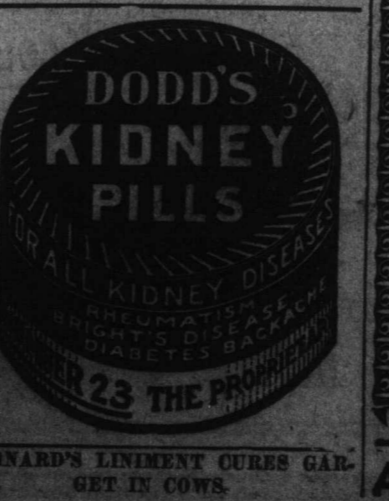

Describing in these few words our difficult life, I must still say we don't lose heart. We hope in God and believe life won't abandon us. He will save us. I thank God for the faith He has given us. He is our only consolation these terrible days. God help us all—send us calm—and save us and our country from our internal enemies. Poor Russia!—The Times.

THE GIVERS.

WALT MASON

I'm proud of all my fellow-men; they dig, and dig, and dig, and dig again, to help each worthy; they are a credit to the race; they shell out 'em with princely grace, like Col. Santa Claus. One "drive" comes on another's heels, and we are asked for many wheels, that we may squelch the Hun; and men who haven't much to spare, whose shelves are perpetually bare, keep digging up the men. We have to cut out this or that, a car, a picnic, or a hat, that we may buy a stamp; we have to make the kind of noise one makes when helping out the boys in far-off field and camp. The man who earns his meagre pay by toll so hard it makes him grey, will split his little pile; the woman who goes out to scrub, or works around a steaming tub, chips 'in, with beaming smile. I know a man who wrought for years like Adam's yoke of sorrel steers, that he might own his shack; at last, the final payment made, he wept some joyous tears and laid the burden from his back. And then upon his mind it dawned that every man should buy a bond, and in our struggles share; and so he sought the loan craft man, and out the mortgage on again, and laughed to see it there. The proper spirit is abroad; no loyal man will hide his wad, while there's a Hun about; we do not contemplate a strike; the more we give the more we like this thing of shelling out.

Sports at Topsail.

Yesterday the C. L. B. Camp had their annual Camp Sports Day at Topsail. Large numbers of people were out to see the lads, and all had a very enjoyable and interesting time. In the morning His Excellency the Governor inspected the Brigade. The weather was then slightly disagreeable owing to a misty rain which was falling, but this nowise lessened the interest or enjoyment of the event. In the afternoon the boys were through various sports, which were creditably performed, the chief of which was the seniors' race to Martins. The boys are enjoying themselves immensely in camp, and all of boy life under canvas. They will return to town on Friday, at the regular hour, between 6 and 8.

Holiday Notes.

The morning, 1 and 2.30 p.m. out ward trains were filled to capacity yesterday. Over three hundred people joined the inward train at Irvine Donovans, Kanes Valley and Mount Pearl stations. A number of troutmen fishing in the vicinity of Irvine Station, secured some fine catches yesterday afternoon. The waters in and around Brigus Junction, Nine Mile Post and Hodges water, were visited yesterday by a large number of troutmen, and the usual "big catches" accounted for. Kelligrews and Marzetti appear to be the most popular summer resorts this season. Rooming and boarding accommodation at these places is a present difficult to secure. Quite a number of people from the city visited Bell Island yesterday and were shown through the mines by the officials of both companies.

Man Missing.

The Deputy Minister of Justice received the following message from Lewis yesterday: "My named Peter Connors, of this place, left his home yesterday morning; has not returned; search parties out; no success." This morning the following message was received from the same place: "Peter Connors, missing for two days, returned home safe last night."

B. I. S. DEFEAT RED LIONS.

The Red Lions went down to defeat before the B. I. S. on last Tuesday evening by a score of 6 runs to 4. There was a large gathering of fans and the game was an exciting one throughout. Carey pitched a shut-out game for six innings, but in the seventh some few errors and two safe hits brought in four runs, for the Lions. He had strike-outs and allowed but two walks. McNamara, the Lions new southpaw, did very well having eight strike-outs to his credit and allowing but one base-on-balls. Williams and Doc Power played their positions in regular "big League" style and were responsible for quite a number of the put-outs. Kieley, Buckingham and Quick also played their positions well. Good catches were made by Power, O'Reilly and Quick. Features of the game were the three-base hit by Grace and a double play, French-McGrath.

The Umpires were Messrs. Chesman and Montgomerie and the scorers Messrs. Channing and Mullings.

The score by innings was as follows:

B. I. S.	0	0	0	0	4	X
Red Lions	0	0	0	0	4	X

four strike-outs to his credit and allowed seven walks. The fans thoroughly enjoyed themselves and many hope to see a return game. The Umpires were Messrs. Chesman and Montgomerie and the scorer Mr. C. Morner.

The score by innings was:

Regt.	1	0	1	3	0	0	5
City	1	2	2	0	0	0	3

The line up was as follows:

Regiment	Pitcher	City
Canning	Catcher	Murphy
Williams	1st Base	O'Reilly
Oilphant	2nd Base	Hartnett
Grace	3rd Base	Duggan
Leverman	Short-stop	Power
Lehr	Left-field	McCrindle

THIS EVENING.

The game this evening will start promptly at 7 o'clock. The contestants will be the Red Lions and Wanderers. At good game is assured and who attend. The line-up is as follows:

Red Lions	Pitcher	Wanderers
McNamara	Catcher	Melaseac
Hills	1st Base	Britt
Kieley	2nd Base	Hartnett
Buckingham	3rd Base	Brien

YESTERDAY'S GAME.

The game yesterday morning between the Regiment and a City nine was fairly well attended. The City won out in the 7th inning by a score of 8 runs to 5. There was some very good play throughout all the game. Good catches were made by Roberts and Edwards of the Regiment and McCrindle and Power of the City. Canning pitching for the Regiment had thirteen strike-outs and allowed four walks. Murphy, the City pitcher, had

Electric Lighting For Outports!

For a number of years there has been a growing demand for a satisfactory electric lighting system for use in the outports. There are dozens of so-called "farm lighting systems" on the market. Almost without exception they are unable to produce a steady, flickerless current, without first charging storage batteries and then taking the lighting current from the batteries. In using this system they are up against many difficulties:—batteries of fair capacity are expensive; they require constant attention. When they are new, about 15 per cent. of the current is lost when passed through batteries; after one or two years this proportion rapidly increases; this means that a large proportion of the current is wasted; batteries that will produce 110 volt current are very expensive; therefore the manufacturers of most battery systems use what is known as low-voltage. A low-voltage current will only give a satisfactory light when used close to the battery. If the current is carried by wires to other buildings a short distance away, a great deal of energy is lost and it gives a poor light.

Low-voltage systems cannot use standard lighting equipment such as lamps, electric fans, electric irons, electric toasters, etc., but require special low-voltage apparatus from the factory.

After comparing the various lighting systems on the market, we found one that overcomes all these difficulties. It is known as the Unielectric Lighting Machine, which is the only machine for electric lighting purposes, directly attached to a special dynamo and electric governor. This outfit will produce a steady flickerless 110 volt current without having to depend on batteries; it will use all standard equipment in common use. Wires can be run from the engine in any direction up to two thousand feet without change.

Three of these lighting machines have been in use in Newfoundland from one to two years and are giving perfect satisfaction. Monsignor Reardon, Placentia, Lights Church and Presbytery; Rev. Father Maher, St. Lawrence, Lights Church, Presbytery, Convent and School; G. C. Fearns & Son, Placentia, Lights their shop, office, fish stores, saw mill, blacksmith's shop and ship yard. We have also ordered for them an electric boring machine to be run by current from Unielectric machine and to be used in shipbuilding.

We are now installing the Unielectric Lighting System for Mr. Fred Ayre in his country residence. The Unielectric Corporation of Detroit are doing their best to supply the demand for these machines, but do not expect to be able to furnish them at present prices except for a very short time. They have promised us three more machines at present prices if orders are sent in promptly.

Anyone interested in the best country lighting system ever made will receive one of our catalogues and full information by writing us.

The Unielectric Engine is built for continuous service. The engine is equipped with the sliding sleeve valve and is guaranteed for five years.

A small inexpensive battery can be attached to wires to allow the use of a few lights when machine is not in operation.

Sun Burned Skin

You want a healthy summer tan. But sometimes you get it too quickly and then there is a few days of suffering.

The application of Dr. Chase's Ointment takes out the stinging and burning and leaves the skin delightfully soft and smooth.

Because it is equally effective in relieving stings of insects and ivy poisoning as well as chafing and skin irritations it is invaluable in the summer camp.

Big Fire on Mundy Pond Road.

Yesterday morning, the house and barn of Mrs. E. Moores, of Mundy Pond Road, were totally destroyed by fire. The buildings and furnishings were covered by insurance to the amount of \$4,000. An alarm was sent in through the Ropewalk at 4 a.m. and when the Fire Companies arrived, the property was beyond all help. However, a supply of water from the nearby pond was obtained, and turned on the fire, which failed to quench the same. Mrs. Moores states that about half-past eleven Tuesday night three tramps appeared at her house, and asked for admittance, which she refused, and the tramps went away. About 3.30 she was awakened by the smell of smoke, and quickly arousing her two young sons, she left the house as the barn was burning fiercely, and the house was endangered. Some of the neighbors were quickly on the scene, but could do nothing to save the dwelling. It is supposed that after failing to gain admittance, the three tramps set fire to the barn. Mrs. Moores cannot identify the tramps, but the description given by her corresponds with that of some well-known hoboes, and it is likely that some arrests will soon be made.

POWER'S COURT GARDEN PARTY.—There was a large attendance at the Garden Party at Power's Court yesterday which proved a splendid success. Rev. Fr. Kelly and his energetic committee had made elaborate preparations for the comfort and amusement of their guests.

PUBLIC NOTICE!

The Committee in charge of the defence of the City of St. John's has drawn up the following for the guidance of the public in the event of an attack on the city by an enemy raider, and the same has received the approval of the Government.

- In the event of an attack on St. John's by an enemy raider, an alarm will at once be sounded.
- The signal in case of alarm will consist of 15 strokes to be repeated at least three times on the fire alarm bell at the Central Station and at the West End, and on St. Thomas's Church bell and St. Joseph's bell for the East End.
- In the event of the alarm sounding it is recommended that everyone out of doors should seek shelter, all others remaining indoors; but they should not go down into cellars.
- This course does not apply to anyone detailed for some definite work in connection with the Red Cross or Civic control, or other defence measures.

DAYTON Money Weight Scales!

After deciding to locate in Newfoundland, we wished to obtain agency for the best computing scale made. We visited all the leading cities of the United States and Canada as far west as Chicago. We visited three computing scale factories, all of which offered us their agency. We talked with hundreds of users of various types of computing scales. The result of our investigation showed us that the Dayton Money Weight Scale was absolutely the best computing scale made, and that it would outwear any two computing scales of the swinging pendulum type.

We therefore closed the contract for the sale of Dayton Scales and have sold a number of them in St. John's and the various outports. Every scale sold is giving perfect satisfaction.

We are also agents for the Dayton Silent Meat Slicer and Dayton Cheese Cutter.

Goodyear Quality Lowers the Cost-per-Mile

Goodyear Value does not stop at fair prices—or rather, it does not begin at any price.

Long mileage is the first aim of the Goodyear factories and excess mileage is the aim of Goodyear Service Stations and Dealers everywhere. We believe that there is not another tyre manufactured today that will give so low a cost-per-mile as the new type Goodyear.

We believe it from our own experience, and because we have seen it proven by figures gathered from many sources.

You can make your decreased tyre-cost-per-mile, through fitting Goodyears to your car, offset your increased petrol-cost-per-mile.

GOOD YEAR

Shoes play a very important part in the dresses of the moment.

After fruit is safely in the jars the latter should be turned upside down and if any juice leaks out the cover should be tightened.

The ends of candles are useful in kindling the fire. Cut them in small pieces and distribute among the kindling. The fire burns up much more quickly.

Thoughts Upon the Times

(By PATRIOT.)

The "Welcome Home" extended to the "Blue Puttees" boys and other returned heroes of "Ours" by the people of St. John's was genuine and enthusiastic and serves to illustrate the loyal and patriotic spirit of the people.

Now that the Minister of Militia is about to return home to take up the duties of his office, it is to be hoped that all business connected with the Regiment will be co-ordinated and consolidated under one head. The matter of pensions and separation allowances should come under the Militia Department. There is no longer any necessity for returned soldiers entitled to pensions to have to beat from office to office looking for the various parties who constitute the present Pension and Disability Board. This work in future will have to be performed by the Militia Department. Besides, the present Chairman of the Board has not the confidence of the public or the Regiment to justify his permanent appointment. Let this important work be placed under the management of the Department to which it really belongs.

The time has now come for the people of St. John's (and by the people I refer to the two-thirds of the population who cannot afford to pay down the cash for their winter's supply of coal) to take whatever steps they may consider necessary in their own interests to provide themselves with a cheaper fuel than Sydney soft coal at \$18 per ton. They should begin by respectfully, but firmly, insisting that His Excellency the Governor use his prerogative to remove the matter of coal supply out of the hands of the present Minister of Shipping entirely. In fact it is doubtful if the public interests would not be better served if the Ministry of Shipping was abolished altogether. What good has it done for the public, anyway? There are many who have come to look upon it as only a shield and protection to the profiteer.

The high freight rates on all our produce to England is still a matter of serious concern to the trade. Nothing apparently has been done by the Government or the Ministry of Shipping to have the rates reduced. We have received no better treatment in this respect from England than have Norway or Sweden. After all we have done by our efforts to keep the old flag flying, we are entitled to better consideration. But if our own authorities are content to let matters in this respect drift we may rely upon it conditions are not going to improve.

It is very strange that the Advocate, which claims to be the personal organ of the fishermen, says nothing about the opening price of new fish. A day or two ago it announced that the price of fish in Lunenburg, N.S., was \$12.75 per cwt., against \$9.60 for corresponding period last year. If our Newfoundland fishermen get the same increase in price this year it will mean that new fish will be anywhere from \$13.50 to \$14.00 per cwt., which will only correspond with the increased cost of living. The silence of the Advocate and Mr. Coaker on this important matter is very remarkable and the fishermen as far north as Quirpon are anxious to know what has happened the Advocate. It keeps so silent on this burning question.

The Herald Editor boasts of his patriotism and all he has done to help win the war. When one remembers that up to April last the Herald Editor did his best to prevent conscription, and was apparently satisfied to see the Royal Newfoundland Regiment go under for lack of recruits, one is tempted to question the loyalty of his particular brand of patriotism. From a personal and financial standpoint the Editor of the Herald has certainly benefited himself by his connection with patriotic and other work. His is the brand of patriotism that pays but not to boast of. The people of this country certainly do know him, and if he has any doubts on this score, let him visit some of the outposts on either coast and he will have the fact demonstrated to him in a manner which he will never forget.

"CANTON" Account Registers!

Merchants everywhere realize that to be successful, and to get best results from their business, they must do the largest possible volume of business with the least help. This is the reason why so many Computing Scales, Cash Registers, Oil Tanks, Meat Slicers, Cheese Cutters, etc., are being sold. All these specialties are expensive and it pays to buy the best made. Bookkeeping in any business is an expensive proposition. Any system which will make bookkeeping easier and avoid mistakes is of great value. Many Account Registers of various styles have been placed on the market, they have proven very valuable in saving time and avoiding mistakes. It was found however that in order to be of real value, any account register must be kept in a fireproof cabinet.

At present the market is flooded with so-called "fireproof" cabinets containing Account Registers. The walls of most of these cabinets are so thin, they cannot possibly resist an ordinary fire. Some of them have glass covers which are easily broken. Some have different compartments requiring transfer of accounts from one compartment to the other, all of which takes time.

The "Canton" Register has recently been placed on the market which overcomes most of these difficulties. It consists of a strong, well-made metal cabinet. The walls are made of special heat-resisting material, and are double, with one inch air space between; this gives much better fire protection. It contains compartments in which may be filed account slips or in which a separate book may be kept for each customer. No index is required and only one writing is necessary. These cabinets are made in different sizes. For instance: our one hundred account cabinet contains space for one hundred steady customers, also for an equal number of transient or occasional customers. This cabinet occupies a counter space of 13 1/2 by 20 inches and is 24 inches high. They are built in six sizes at following prices delivered to your store:

100 account	24 inches	\$187.00
200 "	36 "	\$188.00
300 "	36 "	\$232.00
400 "	36 "	\$235.00
500 "	38 "	\$240.00
600 "	38 "	\$290.00

To give an idea of the substantial construction of these registers we might state that our 200 Account Register weighs about 265 lbs. This Register was patented November 21st, 1918, and is the last word in fireproof cabinet construction. Any standard pads or sale book can be used.
