STEWART'S Home Made Bread,

THE BREAD MY DADDY LIKES.

Daddy is evidently not one of those back number lords of creation who believes that woman's place is in the home—and only there. His taste in a wife is an up-to-date woman who will prove herself a real companion. He knows that if she is a slave to her kitchen she can't enjoy the peace or have the interest in world affairs that a little extra leisure would make possible; and so he is pleased to eat MRS. STEWART'S HOME MADE BREAD—the loaf with the home made flavor.

The smiling, well-nourished kiddie doesn't look as though suffering because mother is progressive enough to buy good bread made by a bread specialist, instead of wearing out her life in the kitchen.

Eat Stewart's Home Made Bread. feb11,1m,fp

HE HAD TO BE PROPPED UP IN BED ON PILLOWS.

Wagner Was Afraid to Sleep On Account Of Awful Choking Spells - Tanlac Completely Restored Health-Gains 27 Pounds.

It was flat on my back and hadn't been able to do any work for four months when I began taking Tanlac. It completely knocked out my rheumatism and built me up. I have gained twenty-seven pounds. It was the remarkable statement made by Frank Wagner, Captain of the Three Rivers, P.Q. Mr. Wagner is a well-known mechanical engineer associated with George J. Miller, contractor. Mr. Wagner continued:

"I never thought I would endorse any medicine, but since my experience with Tanlac I've changed my mind as it would be wrong for me not to speak out. There are many who need this medicine just as I did. My trouble started with my stomach. Everything I ate disagreed with me and I lost weight. I had awful choking spells at times. At night I was afraid to lie down and would have to be propped-up with pillows to get any rest at all. The rheumatism got me in its clutches and in a short time made me as helpless as a baby. My hands and wrists were so swollen and hurt me so bad I couldn't raise my head. I had to have my face washed, my hair combed and be shaved, as I could do none of these things for myself. I suffered so much I often wished I could die so as to end my misery.

Russian Revolution Failing.

Soviet Government Able to Cope With Situation--Cable Ship Fired on and Crew Arrested--Drastic Action by U.S. Warship--Killings and Ambushes in Ireland.

KRONSTADT REVOLT.

LONDON, March 6. Admission that the revolt at Kronstadt has not been checked, is contained in a wireless message received from Moscow last night. The report, however, denies its importance. From military view says the despatch, Kronstadt is not dangerous, and may be put down by any moment. The entire situation of Krasnaya Gorka denounces the mutineers and is eager to fight them. Calm reigns in Petrograd, continues the message. Even workers in the few factories in which anti-Soviet meetings are held, now realize that foreign agents are attempting to intimidate the Soviet Central committee in unavailing efforts to bring about a reversion to the loyalty to the Soviets, while the mutineers demoralization is increasing.

NEWS SLOWLY COMING.

STOCKHOLM, March 6. Boat reports are being received from Russia in consequence of the breaking of telegraphic communication between Revil and Petrograd and Moscow. Advice received here states that the Communists are concentrating detachments of former German and Austrian war prisoners in Petrograd and Moscow to put down the trouble arising from the Kronstadt revolt.

EXTRAORDINARY HAPPENING.

MIAMI, Florida, March 6. The work of connecting the Western Union Miami-Barbados cable began yesterday, was abruptly halted late yesterday afternoon, when a United States sub. chaser appeared and opened fire on the cableship Robert C. Clowry and placed the entire crew under arrest. The entire cable took place on the high seas about four miles off the coast of Miami Beach, near a buoy that had been attached to the end of a cable which was laid from the three United States limit of the United States to Barbados by the British ship Colonia last summer. The Robert C. Clowry arrived off Miami Friday from Jacksonville, and had picked up the loose end when the submarine chaser arrived on the scene. Signals hoisted by the naval vessel, it is said, were disregarded by the cableship, after which a shot was fired by the sub.

Coffee May Harm You--

POSTUM

Cannot

And Postum is a fully satisfying meal-time beverage which all the family can drink with benefit--as many cups as desired.

"There's a Reason"

CONSIDERING GERMAN REPLY.

LONDON, March 6. A meeting of the Allied Supreme Council was held in the official residence of the Prime Minister in Downing Street to-night, for which Lloyd George and Premier Briand returned to town this evening. The German reply to the Allies' demands, an indication of which was gathered at yesterday's conference with Dr. Simons, German Foreign Minister, was considered.

KILLED IN AMBUSH.

CORK, March 6. Brigadier-General Cumming, Commander of the Kerry military area, was one of the two officers killed in an ambush of a military convoy in Clonbrin Saturday afternoon. General Cumming was President of the Court of Enquiry appointed to investigate the recent shooting of railway men in Malloy.

FOUR KILLED.

LONDON, March 6. Five hundred men took part in an ambush of a military convoy Saturday afternoon in Clonbrin, County Cork, in which a General, another officer and two privates were killed, says a Dublin despatch to the Central News to-day. The convoy consisted of five or six lorries and an armored car. The first two cars of the convoy were blown up by a mine and a fierce fight, which lasted one hour, ensued. According to the despatch, an armored car managed to reach Keatur, from which place reinforcements were sent to the scene of the ambush. The attacking party escaped into the hills.

MORE OUTRAGES.

DUBLIN, March 6. A daring attack was made on a military lorry at noon to-day in Dorset Street, off Farnell Square, causing great excitement. Bomb explosion and rifle fire reverberated, creating panic among crowds in the centre of the city. One bomb wrecked the interior of a store and two civilians are reported to have been wounded. Earlier in the day an attempt was made to ambush a military automobile near Clontarf, a suburb of Dublin, the automobile escaping, but a private car happening to pass was wrecked by the bomb. The driver of the car was killed and a passenger injured.

QUAKE RECORDED.

WASHINGTON, March 6. An earthquake, described as "pronounced," and at an estimated distance of two thousand miles from Georgetown University Sismological Observatory.

TAKING PRECAUTIONS.

BOSTON, Mass., March 6. The steamship Mongolia, with a thousand passengers from Hamburg and Antwerp, was detained at Quarantine yesterday, pending consultation in the case of a child in the steerage. The port physicians said the case had been diagnosed as German measles, and every other person aboard was well and clean and there was little likelihood that typhus would be found, but because of the possibility extra precautions were taken.

DARING HOLD-UP.

CHICAGO, March 6. Five armed robbers in an automobile last night held up a mail truck, kidnaped the driver, drove the truck through the crowded streets to an outlying section of the city, picked out six pouches of registered mail and escaped, leaving the driver locked in his own truck. The pouches taken are known to have contained receipts of several postal substances and the value of their contents was estimated at from a few thousand to an amount not exceeding one hundred thousand. The inspectors declared it would be impossible to give the exact sum until it was found out if the missing pouches contained any bank remittances. The hold-up took place scarcely a block from the police station, the truck being stopped as it was coming from an alley behind a postal station.

Schooner Still Missing.

Tug Returns to Port. After a futile search of Trepasser Bay for traces of the missing schooner Tipperary, the tug Ingraham returned to port yesterday. It is presumed that the schooner sank when the ice opened up during Friday night. Captain McLennan and crew of the abandoned schooner arrived here by the Ingraham. According to the captain the Tipperary was in a very bad condition when abandoned. For several days the schooner had been in the ice and her bows were cut through; she had been leaking for some time and when the crew left her there was seven feet of water in the hold. Captain McLennan thinks the vessel went down shortly after being abandoned.

AWARDED CERTIFICATE. - Mr. Reginald Kean was on Saturday awarded an ordinary Master's Certificate by Captains English and Major. Congratulations.

Produce and Provisions.

(From Saturday's Trade Review)
Codfish--The total shipments from Newfoundland this week amounted to 9,284 quintals as follows: 4,992 qtls. from S. Harris, Grand Bank, in the schooner Roberts Ray to Gibraltar for orders, and from St. John's, 712 qtls. from the Newfoundland Labrador Export Co., in the S.S. Canadian Sapper for Barbados; 600 in the same ship from the same firm for Demerara; 800 qtls. by the S. S. Lady of Gaspe to Boston from Williams & Co. and 2,772 quintals from A. E. Hickman & Co. in the schooner Optimist for Barbados.

Cod Oil--There is nothing new to report in the Cod Oil situation. The S. S. Lady of Gaspe took away 2,075 gallons this week in New York, where there are indications of an improvement in the demand. As soon as the leather manufacturers are in full swing, more Cod Oil will be wanted. The price, however, is not likely to be such as will protect the holders of last season's cod oil from financial losses, seeing that most of the oil was bought at \$200 to \$240 per ton last fall.

Cod Liver Oil--The Norwegian fishery returns so far indicate keen competition for Newfoundland Cod Liver Oil this season with the product of that country. We are in a better position, however, since the war, inasmuch as we have been putting up such a splendid quality of medicinal oil, and strict inspection that its merits bring it on a level with the best Norwegian. The price to-day unfortunately is well under a dollar per gallon with small prospects of betterment.

Pork--There is absolutely no change in the pork situation this week. There are ample stocks held here to meet present requirements. Short supplies are still in evidence and this, together with a lack of purchasing power, keeps the market in a dull position. Unfortunately, stocks held locally were for the most part secured at high prices and holders will be forced to meet sharp losses in order to compete with the recent arrivals of cheaper pork. This applies especially to ham butt; spare ribs are \$39.00, mess pork \$26.00, and ham butt \$46.00, short cut and fat back \$40.00.

Beef--The beef market shows a weakening tendency in spite of reported short supplies. This weakness is attributed to the general prevailing slackness in demand, European poverty, the aftermath of the war, is responsible for the present dull condition of the provision market. Relief can only come by stabilizing the industries of the war ridden countries and bringing back to the market normal purchasing power. The local quotations are, Libby's Special Family, \$39.00; Extra Plank, \$36.00; Family, \$35.00 and Boneless, \$31.00.

Flour--The markets have been without important change this week. Our old friend the "Hessian Fly" is, we notice, coming to the assistance of the wheat speculator. He generally appears between seasons before flour prices become stabilized for the spring. A well known and popular Curb Broker who has been long known as the herald of this "useful" little insect, has no doubt, received advance information. The "Hessian" fly has done good service to wheat speculators, but it is time now to change the fly, so to speak, and get a new one, say the Josty Miller. Lower prices are looked for, however, as well as to best local authorities. The tendency of purchasers is to hold off for more favorable prices.

Molasses--Reports from Barbados indicate a very great shortage in the crop. Local prices of old molasses have fallen to \$1.00 a gallon for fancy, and 90 cents for choice. It looks like a loss of about 90 cents a gallon or \$300 a puncheon on Molasses imported last year.

Sugar--Raw sugar markets continue firm. Many dealers express the opinion that the lowest point has been reached. The reports from Cuba indicate that the crop will be below average. This winter a million tons of the Cuban sugar crop has been sold to South America, which is roughly about one-fourth of the product. It is likely that market has passed its lowest point. Unhappily we are unable to share in the present attractively low prices of sugar at point of shipment, and by the time our local regulations are lifted, sugar prices may then be high again. The sale since Feb. 19th, according to the F.C.B. figures is 825 barrels. Stocks remaining, 6,376 barrels.

Potatoes--No "Local" to be had the past week owing to bad roads. Farmers were unable to get to town and owing to fear of frost little or none are coming on the railway trains. P. E. L's hold the market therefore at \$5.20 per sack of 180 lbs. and \$2.60 for a half sack of 90 lbs. We expect to see the price go higher in a few weeks owing to scarcity, and the fact that what are in stock will have to be picked over. There is a limited supply of "foreign" in as importers did not stock heavily.

Hay--Hay is weaker, but local prices are unchanged except in case of some small consignments lots off the wharf that came in last month and selling at five dollars under the regular price. Lower prices all round however, may be looked for in the course of the spring. Several importers who speculated heavily on hay last September and October are likely to lose heavily. The local demand from the outports

L'ARVEY & COMPANY, LIMITED.

St. John's, N.F.

was poor the past three weeks owing to blocked roads and interrupted railway services.

Oats--The market is weak but not quotably lower. The imports since New Year have been large and are about 50,000 bushels as against 27,000 this time last year. Mixed oats are selling at \$4.20 to \$4.30 per sack, white \$4.40 to \$4.50, and black are maintaining the high rate of \$5.20 per bag, owing to scarcity of this particular quality.

Feeds--By the S. S. Rosalind last trip 600 bags of feed and 1,300 sacks of corn meal were brought in, so that the supply is well kept up. The prices of the different qualities are unchanged, viz: \$3.30 to \$3.50 per sack, except bran, which is \$3.25 and is rather scarce in the market, with a shorter demand than in previous winters. The expectation of dealers is that prices of all qualities will ease off in the course of the spring.

A Win for the Opposition

MEANS DISRUPTION OF THE GOVERNMENT.

Many of the fishermen and business men of the South West Coast have written appealing messages to their friends in St. John's and Harbor Main asking them to use all the influence in their power to elect JONES and LEWIS, the Opposition candidates. They realize how Coaker and Squires used the Bay-de-Verde election results as an excuse to enforce more arbitrarily the disastrous fish regulations which caused practically every business man of the country who had been identified with the fishing and export business of the Dominion to become bankrupt. This bankruptcy is felt not alone by the suppliers concerned but by every fisherman as well; as the fishermen are to a very great extent dependent on the supplier for short term Spring credit to enable them to undertake the work of catching and marketing their produce. The paralysis of trade which has resulted from Coaker's insane fish regulations must not be permitted to continue, for if it goes into effect for another season there may be fish to be caught, but no one in the country will be foolish enough to engage in catching it. In every civilized country in the world the product of a man's labor is his own. In Canada the farmer grows his wheat and corn and is permitted to market it at the best advantage, relying, of course, on the well-established economic system of supply and demand. The same system obtains in the United States, but in this Coaker-ridden land a man's substance belongs, not to himself but to his family, but to Coaker, who attaches it the moment it is ready for market, and undertakes to market it for him, regardless of existing economic conditions, regardless of the system which in every country in the world is depended on as the sound basis of trade, viz. supply and demand. This man Coaker has always been regarded as a dreamer, a

Same Squires: Same Methods.

The leopard cannot change its spots and Hon. R. A. Squires, though Premier of Newfoundland, shows the same supreme indifference to the rudimentary principles of all that make for political decency and manliness, as he did in the days before he became Premier, when there was nothing too hot or too heavy for him to attempt, to gain his political ends. The latest example of this sort of thing was the publication on Thursday night in the Advocate of a lithographed copy of a letter sent by Dr. Jones, one of the Opposition candidates for Mr. Main, to Mr. Squires, as Colonial Secretary, a few weeks ago, notifying Mr. Squires that hereafter Dr. Jones would not treat pauper patients in Harbor Main District for less than a dollar a visit, the existing rate being fifty cents. Although that was sent to Mr. Squires in an official capacity, it was apparently photographed, sent away and turned into a block, got back here and is now printed as a political document with the idea of injuring Dr. Jones. The incident proves several things. In the first place it proves how utterly unscrupulous Mr. Squires is, when a document addressed to him in his official capacity, is used in the attempt to injure a political opponent. In the second place, it shows that Mr. Squires, despite his protests that he is not taking an active part in the Harbor Main election, is doing his best, under the surface and by discreditable means, to secure the return of his candidates. In the third place, it shows the stupidity of self-vaunted men of brilliancy because Mr. Squires overlooked the taunt that could be flung at him most effectively with regard to the letter in question: That is, Dr. Jones had quite as much right to double the fee he would charge the Government for attending pauper patients as Mr. Squires had to double his own salary as Premier and also his own salary as Colonial Secretary, for serving the public in these capacities. The country will have to pay the bill in both cases—Mr. Squires' salaries and Dr. Jones' fees.

The Advocate suggests that Dr. Jones' action shows his heartlessness towards the people, and that they will resent this and reject him on Saturday next, but Mr. Squires and all his satellites, who are talking in this fashion, are themselves the recipients of largely increased emoluments for every service they give. Dr. Campbell, who is Mr. Squires' "Man Friday" in the present contest, is getting \$4,000 as Minister of Agriculture, while the man who was in the position before him got \$2,000. According to Mr. Squires and Dr. Campbell, it is quite all right for them to double their fees, but it is all wrong for Dr. Jones to increase his charge in the same way. Dr. Campbell, like Dr. Jones, is a medical practitioner. He is

attending patients in various public institutions in St. John's. The charge has been made that he has neglected these patients and been indifferent to their needs. No definite answer is made to this charge, but yet the people of Harbor Main are asked to reject Dr. Jones, because he raises his rate from fifty cents to a dollar, and elect the candidates of Squires, Campbell, et al: who have increased their own salaries from two thousand to four thousand dollars. Hypocrisy could not well go further than this attempt to utilize the case of the poorest people in Hr. Main to make a little political capital against Dr. Jones. All over this country to-day there are sick and suffering, needy and afflicted people, for whom not a finger has been lifted by the Squires-Coaker Government. Thousands are in want because of hard times, other thousands are facing the prospect of no supplies and no chance of prosecuting the fishery. Aged people, who were promised a pension by the Squires-Coaker Party, are without it, the widow and the orphan have had no advance made in the paltry pittance given them from the public chest, but Squires and Coaker, Campbell and Hibbs, and all the rest of the crowd now in control of public affairs are raking in the dollars by wholesale, and yet they expect to fool the people of Harbor Main by pretending to be outraged at the action of Dr. Jones.

Food Control Board.

The Squires-Coaker organization is working desperately hard to try and represent to the people of Harbor Main District that the Food Control Blundersers are not really responsible for the mess they made about the importation of sugar, and for the fact that our people have to pay twenty-five cents a pound for this article to-day, when across Cabot Strait in Sydney, it can be bought for ten cents. It is argued that in England and other countries on the Continent of Europe people are worse off in regard to food matters than we are, but of course all of these countries have suffered very much more from the war than Newfoundland has, and to compare this country with them is not at all a proper method. A much fairer standard is the neighboring countries of Canada and the United States, which in regard to the war are in virtually the same position as our own country, and there we find that food control had been abandoned for a couple of years, that the people are back to normal conditions, and that the cost of living is very much lower than it is with us in Newfoundland. The people are also told a cock-and-bull story about the Food Control Board getting the price of flour reduced two dollars a barrel about a year ago, but this is all nonsense. No such thing ever happened, and it is fortunate for our people that the Food Control Bunglers didn't meddle with the flour situation or else, bad as things are at present, they would be very much worse off and we would probably have to pay twice as much for flour as we are paying.

It is all very well to talk about how prices have been reduced and how the cost of living has been cheapened since the Squires-Coaker Party came in, but every man in Harbor Main District can ask himself what about the prices of things which he has to sell—what has happened to them? What can the South Shore man get to-day for his potatoes and other vegetables, his beef and mutton and all the other articles which he brings or sends to St. John's for sale? When he takes the money he gets for these articles and starts out to buy provisions, clothing, and other necessities for himself and his family, what does he find? How far will the money go compared with what it did in the days when the late Government was in power, when

there were high prices for everything, and the price of flour and other articles was little, if any more than it is to-day. It is quite easy for the Squires-Coaker Party and their friends to make out that the cost of living is reduced greatly. They can quite easily pay for everything they require, because their salaries have all been doubled and they have been able to get any amount of pickings from the public chest week after week and month after month, since they attained office, but the people of Harbor Main and of the other districts around the Island have not the same advantages. They have to bear the hard end of it. They cannot fall back on the public chest. They have to pay for what they require out of their hard earnings, and they know what little reliance to place in the talk of the Squires-Coaker newspapers and talkers, and how heavily the high cost of living still bears on themselves and families.

Pointers.

Saturday, March 12th. Harbor Main Day! 1921. 1-|-9-|-2-|-1-|-13. Unlucky number and unlucky year for the Government. Western Districts are looking to Harbor Main to avenge them for the losses suffered on account of the Fish Regulations.

Harbor Main electors will not do any vote splitting on Saturday next. Their straight ticket is JONES and LEWIS. No others need apply.

The Star on Saturday says editorially that it does not care two straws whether the Government wins in Hr. Main or not. Then why all the splurge?

Harbor Main will also show Messrs. Campbell, Hibbs, et al: that they resent the implication made by these men that they can be bought at so much per head. The money to be spent next summer by the Road Commission is being urged as a sop to influence the Southern section of Harbor Main to vote for Government candidates. Futile promise.

Harbor Main men will not let it be said that they will allow themselves to be ruled by Mr. Coaker and his satellites in the Government. Coaker is moved by the spirit of revenge against everything south of Bacallan, and his threat to make grass grow in the streets of St. John's is nearing realization.

Labor is unrepresented in the ranks of the Government, which is made up of so many sorts and conditions of impetuous individuals that it was found necessary to raise their sessional pay from \$200 to \$1,000. Just five times the sum paid by Bond and Morris. Think it over men of Harbor Main! and TURN THE RASCALS OUT!

Advice to the Government.

Wednesday last was Nomination Day in Harbor Main for the bye-election to fill the vacancies in that District caused by the unseating of the two representatives elected in the fall of 1919. Messrs. M. Hawco and C. Furey are the Government's candidates, and Dr. Jones (who was elected at the general election), and Capt. John Lewis, are those of the Opposition. The four candidates are residents of the District, and the contest should be conducted by the electors independent of all outside influences. To have men from other Districts canvassing and working for the candidates possesses many disadvantages as well as advantages to the one side or the other. The people should decide the question as to the men they wish to have represent them, freely and uninfluenced by outside agents. Reading the daily papers and seeing both sides of the argument one is at a loss to size up the situation though some of the catch cries of the opposition are most absurd, and there seems to be too much instruction given to the people as to what they shall do, rather than that calm reasoning that appeals to the common sense of the ordinary voter.—Harbor Grace Standard.

Someone

Has said that "the eye is the window of the soul." Certainly the eyes can be expressive and indicative of character. Weak or inflamed eyes should have immediate attention. H. B. Thomson, Opt.D. Optometrist and Oculist. Office hours: 10 to 12, 3, 5 to 7 to 8.

"Star" Begs the Question Addressed by His Grace the Archbishop

The Star had a lot to say on Saturday in reply to our exposure of its duplicity in the matter of the Harbor Main edition of the former literary journal. Of course, to excuse itself, the Star must make a deliberate misrepresentation, a by no means unusual thing for our contemporary to do. We agree with the Star that it wishes to issue a Harbor Main special that is its own affair. Nor would we expect the Star to issue it any other way than it has done, viz: in secret. What we do object to is the glaring and lowdown hypocrisy of that excellent specimen of the yellow press in telling the people of St. John's that it was keeping out of the political arena, whilst at the same time, it was sending out to Harbor Main an edition containing personalities which outrival even its political best work. The Star editor is undoubtedly a wily bird. He avoids a fight in the open and while he is preparing his delightful Harbor Main special, he will hold up his hands in holy and abject horror at the mention of politics and says "Oh dear, is there really some election on? Now we shall have some more of these nasty politics in the Opposition press!" It is bad enough, at times, to have one's character assailed in the open, but when done in such a way as to give one no opportunity of replying, is the essence of villainy. If, as the Star says, the Government is not worried about the two seats in Harbor Main, then why does it take the trouble to issue the Special? Surely, if the Government has such a superciliousness, it can easily spare those two. Think what an act of self-sacrifice it would be committing. Imagine the great acclamation with which such an act would be received. But then, what's the use? We have only the Star's word for it and what does that amount to? Precious little, we fear.

Chaucer, Shakespeare, Milton, Tennyson, Alfred the Great, Richard the Lion Heart, Henry the Fifth, Raleigh, Gilbert, Grenville. What names! The St. George's Society recalls them and you again live over the times in which they lived and moved.—mar7,11

McMurdo's Store News.

MONDAY, March 7, '20. Some people prefer a tooth paste of a particular flavor, and for those who prefer a Mint- or Wintergreen-flavored dentifrice, Nyal's Tooth Paste, offers an easy means of securing what they want. And Nyal's is a good tooth paste, sold at a moderate price. Ask for whichever flavor you prefer—we have both. Price 35c a tube. In Kesson and Robbins Compound Starch of Zinc Powder is by many preferred to talcum powders. Light as feather, impalpable almost as air, its application to inflamed and abraded surfaces is followed by instant relief, and in toilet room and nursery it will be found of very great service. Price 40c a tin.

Hockey Notes.

Elks vs. City.—The postponed game between the Elks and the City will take place at 7:30 to-night. A great deal of interest is being taken in this game for both sides are fairly evenly matched and Nyal's is a good tooth paste, sold at a moderate price. Ask for whichever flavor you prefer—we have both. Price 35c a tube.

Sneak Thieves Active.

Can nothing be done to put a stop to the prevailing epidemic of sneak thieving? Nearly every day some household finds that a thief has entered his house and made off with anything he can lay his hands on. This state of affairs has gone on too long and unless steps are immediately taken to put an end to it, it may spread to such an extent as to make it impossible to be put down.

WELL DRESSED AT SMALL COST.—If you do not intend to get a Suit or Overcoat for the holiday season, you can at least be well dressed by having your clothes Cleaned and Pressed at SPURRELL the Tailor's, 365 Water Street, and it will cost you about \$1.50. Do you need a new Velvet Collar on your Overcoat?—m,w,11

MINARD'S LINIMENT RELIEVES DISTRESS.

The Star R. R. & B. Committee will hold a Card Tournament in the T. A. Armoury this evening at 8.30 o'clock. Good Prizes offered.—mar7,11

Obituary.

CAPT. LEVI DIAMOND. At the ripe age of 87 years, Capt. Levi Diamond "crossed the bar" yesterday morning. Though more or less confined to his home during the past year because of infirmities inseparable from old age, his final illness was of only a few weeks duration, and he maintained his mental faculties right to the end. His passing severs one of the few remaining links with the past. In the city few men were wider known or more highly esteemed than Capt. Diamond, who for over forty years had carried on a successful business as tinmith on Water Street. Born in Catalina, in his early years he followed the sea, and after obtaining his Master's certificate in Greenock in 1870, sailed under the flags of Walter Greive and Co. and Rogerson. He was also a successful seal-killer, commanding the steamers Leopard, Bear and Wolf, the latter ship being lost while he was bringing her in from a second trip heavily loaded. With all his other activities Capt. Diamond found time for society work, and he was a faithful and ardent member of the Masonic fraternity, and the British Society. As a Mason he was affiliated with Lodge Tasker, and for years President of the Masonic Insurance Company. A zealous member of the Methodist Church, he was for many years a member of the Quarterly official Board of Gower St. Church, and at yesterday's services in that Church references were made to his long and faithful service. Captain Diamond is survived by four children, Arthur, now at New Aberdeen, N.S., John at Edmonton, Alberta, Alexander in the business here and one daughter, Mrs. D. Cameron, who has resided in the parental home. His wife predeceased him about two years ago. The funeral takes place to-morrow at 2.30. The Telegram joins with the community in offering sincere expressions of sympathy to the mourners.

MARY ANN BISHOP.

Our obituary column to-day records the death of Mrs. Mary Ann Bishop, widow of Canon G. H. Bishop who for a number of years had been Rural Dean of Fortune Bay. Mrs. Bishop, since her husband's death, resided with her son, C. Way, Esq., ex-Magistrate of Hr. Breton, and accompanied him on his removal here. She had for some time been in failing health but her illness did not assume a serious aspect until about five days ago, and yesterday morning she passed peacefully away. The late Mrs. Bishop spent about thirty seven years in the mission of Hermitage Bay and her demise will be regretted by the residents of that part of the coast. She is survived by two sons of a previous marriage, Mr. C. Way, of St. John's, and Mr. M. Wai, sub-Collector of Hermitage; three sisters, Mrs. Elizabeth Wiseman, Miss C. White, Miss Sarah Dewling, and one brother, Mr. Chas. Dewling of this city, to all of whom the Telegram tenders condolences.

NFLD. ST. ANDREW'S SOCIETY AND LADIES' AUXILIARY.—Card Party for members and friends (ladies and gentlemen) will be held in Club Rooms, Wednesday, March 9th, commencing at 8.15 p.m. Tea will be served by members of Ladies' Auxiliary. Tickets 50c.—mar7,11

One of

FREEMAN'S ENGLISH FOODS

The Irish Question.

Editor Evening Telegram.

Dear Sir—We ask your permission to reproduce the following article from "The Statesman" in the column of your valuable paper. It is from the pen of the Rev. J. B. Dollard, Litt. D.

THE VERDICT OF HIGHER CIVILIZATION.

"There can be no doubt in the mind of any educated man that literature and art are the highest flowering of the civilization of a country. When, therefore, we want the supreme and permanent impression of the mind of a contemporary man on any political or historical phase, we go to the art and literature of that period. The poets and the novelists, the historians and the painters, crystallize for all ages contemporary ideals and thoughts. Their approval is a veritable canonization, their condemnation is a sentence of eternal reprobation. It is good, therefore, to know that British rule in Ireland, at present, has been tried and condemned before this inexorable and terrible tribunal. A large body of English artists, historians, poets and professors have got together, and have set the mark of the horror and reprobation on the work of Lloyd George's and Hamar Greenwood's Black-and-Tan mercenaries in the unfortunate sister isle. The following is their protest against the wanton savagery of the forces of the Crown:—

"We, the undersigned, practicing the arts, the human letters, and the abstract sciences, or belonging to the churches and the learned professions of this country, being neither active nor interested politicians, view with profound humiliation the present state of the Kingdom of Ireland. We see our country, which in the past, and until very lately, made great sacrifices, thinking that it made them for the cause of oppressed peoples, now presenting to the world the aspect of a land hardly equalled in the past for ignominious and unavailing coercion—that coercion being practised upon a nation that co-equally with ourselves has inherited our traditions of individual liberty.

"This is not because of any native ferocity, greed of gain, or thirst for rapine in our people, but because of irresolution, incapacity and misreading of facts by those who hold the reins of our Government.

"We therefore call upon the present Ministry to find immediate means of arbitration or mediation between ourselves and the people of Ireland.

"And if the organized shedding of blood, whether by the natives of Ireland or His Majesty's forces, or arson, robberies and requisitions, by either party shall continue, we demand the resignation of H. M. Government, and declare ourselves resolved in that case to leave unmade no effort to substitute one that will have for its first and most urgent business that of finding the means of mediation until permanent peace shall be restored to the sister kingdom."

"The following," says Dr. Dollard, "are the names of the distinguished Englishmen and women who have signed this humane and historic memorial:—Professor Charles Raymond Beasley, University of Birmingham, Arnold Bennett, Edwin Boyan, W. Lyon Beasen, Wilfrid Seaven Blunt, Bernard Bosanquet, Fellow of the British Academy, Edward Carpenter, G. K. Chesterton, Margaret Llewellyn-Davies, W. H. Davies, Walter de la Mare, G. Lewis Dickinson, John Drinkwater, Havelock Ellis, Arthur Evans, E. H. Forster, Roger Fry, Fro-

GIN PILLS
FOR THE STOMACH

On Another Tack.

Editor Evening Telegram.

Dear Sir—The Reverend Dr. Jones in his lecture on "The Religious Fool" delivered at Canon Wood Hall on Thursday night to the members of the Llewellyn Club, which was largely attended, is reported in yesterday's papers to have referred to the Atheist, and others, as fools. In my opinion to call a fool a person whose opinions differ from yours is most unbecomingly and not conducive to the promotion of peace on earth and good will towards men. An Atheist is an Atheist because his convictions are as they are. In this country especially, where most of the people are professing Christians, an Atheist or an Agnostic, which some claim to be the same thing, is up against the great majority of the people. He runs the risk of being ostracized socially and boycotted in his calling in life whatever that may be. In other words he is up against the here and hereafter. A person does not take such a position as that without being absolutely convinced that he is right which gives him the strength to stand against all the inconveniences which his convictions may occasion. He is certainly a brave man and as such is entitled to respect. He is an atheist because he thinks that he is right. The atheist has as much right to call Dr. Jones a fool as Dr. Jones has to call the atheist a fool. If everybody starts in calling a fool everybody who does not agree with him Judge Morris and the lawyers may expect to be busy. Assault cases will be more popular than moonshine cases. In a free country every one should be permitted to hold his or her opinion without being insulted either publicly or privately. Lloyd George and Lord Morley do not think as Dr. Jones thinks and only a fool would call either of these gentlemen a fool. Let every one say his little say and let the one with the best argument win. Truth is mighty. There is no necessity for insult.

Yours sincerely,
GEO. W. B. ATRRE.
March 6, 1921.

The Sugar Situation.

Editor Evening Telegram.

Dear Sir—I am sure you will accord me the use of your columns to correct a correspondent in the Daily News signing himself "Water Street." He says the sales of sugar since February 15th were 525 barrels. If he will refer to the slip sent out, he will find the figure is \$25 not \$25. The total sales to date since January 1st are 2655 barrels which makes an average of about 1700 barrels per month in the very slackest months in the year. With the increased demand in April and May it can easily be figured out that by the end of May the date of decontrol should be in sight. In normal times the consumption is 3000 barrels per month.

I should also like to say that thirty days notice will be given the Trade before control is lifted, thus they will not be caught with stocks on hand. Thanking you for space, I am,
Yours truly,
ALEX W. MEWES,
Chairman Nfld. F. C. B.
March 7 1921.

Oporto Market.

The annexed table of comparison of Newfoundland and Norwegian consumption in Oporto for the weeks ending February 29, 1916 and Feb. 28, 1921 should prove interesting in the light of all the wonderful things the Coaker Fish Regulations were to do for this country. Then the Norwegians were nowhere. Now they have captured the situation entirely.

Harbor Master's office notes.

February 29, 1916:	British stocks	62,215
	Consumption	2,820
	Norwegian Stocks	410
	Consumption	790
February 28, 1921:	British stocks	51,428
	Consumption	3,028
	Norwegian stocks	23,148
	Consumption	6,457

PILES

Ayre's Elegy.

The skies are dark and drear at close of day,
The spitting arc-lamp's gleam we scarce can see;
Through drifts of snow we plod our weary way
And give the newsboy his accustomed fee.

And when at home we're finally at rest,
And we are warm and all the world seems fair,
We open up the sheet and—Lord be blest!
"Another letter sent by Mr. Ayre."

Is there a preacher speaks a word of blame?
Is there a Judge denies the charge with us?
Or "Bank of Newfoundland"—'Tis all the same.
Whatever happens 'tis a chance for him.

To seize his trusty pen and flood the press,
With column after column without end;
(Whole dictionaries plundered to express)
But serving only to conceal, his trend.

It may, indeed, be that 'tis his intent
(For George is strong on intricate designs)
To help us in this holy time of Lent
To do a fitting penance for our crimes.

Has he, perchance, a darker, deeper end
In view, by all these literary squalls
To boom the price of newspaper and to send
The unemployed to working at Grand Falls?

Now it would be indeed a worthy act
To help the out-of-work by doing thus;
The plan's worth testing; but, to be exact,
I wish he wouldn't try it out on us.

A Division of Forces.

This morning's regular train to Carbonear, carried a contingent of Government warriors en route to Harbor Main District. The officers commanding were the Prime Minister who takes charge of the Manual Section, R. Hibbs Esq., who will marshal his forces at Kelligrewa and Doctor Campbell who will invade the Opposition camp at Avondale and vicinity. There will be big doings all this week, but no amount of Government spell-binding can change the sentiment of the voters. Their rallying cry is JONES and LEWIS, and VICTORY for the Liberal-Labor Progressive Party.

Brick's Tasteless is the best preparation known for children who are delicate. Taken in half to one teaspoonful doses it works marvellous results. Try a bottle and convince yourself.—Jan 27/11

Men's Mission Closes.

The mission for men held at the R.C. Cathedral during the week, closed yesterday afternoon. His Grace the Archbishop addressed the congregation after which Father Coughlan preached a lengthy sermon at the close of which he thanked the Cathedral clergy for assistance during the week and the men of the parish for their attendance in such large numbers. The offertory collection amounted to over \$2,900.00. The number of people present was the largest ever seen in the Cathedral and it is estimated that approximately 5000 men were present. In other words practically every Catholic adult in the Cathedral Parish.

What a Shame

To put glasses on a child! Yes, but it is a greater shame to let the child suffer for early negligence. It is better that the child wear glasses during school life and protect the eyes for the future. Many can abandon the glasses after the eyes have grown stronger. H. B. Thomson, The Family Optician and Optometrist, 336 Duckworth Street, near Geo. Neal's.

Seals Near Quirpon.

According to messages received recently in the city, numerous old seals were seen in the vicinity of Quirpon on Feb. 28th, presumably making their way to the whelping ice. A big voyage this spring is predicted by experienced sealers.

Hints to Home Decorators.

The decorating of the home is a fine art, the best results can only be obtained by careful study of surroundings the following hints may be helpful:

If your room faces North use a Warm Coloured Paper such as Brown, Yellow, or Red.

For rooms which get a good deal of sunshine, paper of cooler shades such as Greys and Blues may be used.

Care should be taken to Harmonize Your Wall Papers with the Paints. Fawns and Tans usually blend nicely with natural wood finish or grained doors and wood-work.

Remember Green is Nature's Colour for a Decorative Background, and Green Papers of the softer shades usually contrast well with rugs, curtains, and pictures particularly if the latter have gilt frames.

Small Rooms may be made to look larger by the use of Striped Papers.

On low ceilings only use a narrow bordering, or perhaps better again a drop ceiling of white paper which joins up almost unnoticeably with the white ceiling, and so gives the room the appearance of more height than it really has.

It is important to buy your Papers at TEMPLETON'S who keep a Splendid Selection of the newest Patterns at Prices which defy Competition.

The C. L. March Co., Ltd

Corner Water and Springdale Streets, St. John's.

Cold and Color.

It is not a matter of fashion, or as some think—that dirt will not show so easily, that for winter wear dark colors are chosen.

Experience, quiet apart from scientific color knowledge, has proved to us that dark clothing is the warmest. Black will absorb all the heat possible from the sun's rays, and will not, like white, throw off the heat.

Next to black, in point of warmth, comes violet or purple, then blue, green and red. Yellow and white are at the bottom of the list.

If two pieces of cloth, one white and the other black, are laid upon snow, the curious effect can be observed that in a few hours the snow under the black cloth will have melted, while there will have been little or no change under the white.

Side Talks by Ruth Cameron

TWENTY MINUTES FOR MANNERS.

There is a certain type of person who is always suggesting some addition to the school curriculum. If he were listened to, reading and writing would soon be crowded out of the child's school day by the various new studies and exercises he would have the

who, by his parents' help and his own ability, raises himself into a society where small courtesies and gracious customs are the natural background, has to learn the rules for himself and often, in learning, makes painful mistakes and suffers agonies of embarrassment.

In many a family where every resource is strained to give the child a high school or college education, not even the slightest effort necessary to teach him the forms of good breeding that may double the value of that education.

Mothers Ought to Help. Of course the mother may not know all the rules herself. But the chances are that she knows they exist, and what could be simpler than to get some good book and supplement her knowledge from that?

It seems to me a step toward the truest kind of democracy to have this study of manners introduced into the schools. For it is the sense of his own ignorance along such lines that cuts off the poorer from the richer child quite as often as a difference in clothes or a lack of pocket-money.

Twenty Minutes a Week. In this golden mean, it seems to me that a recommendation by the Teachers' Council of twenty minutes of school time every day should be devoted to instruction in manners.

Household Notes. In winter, the stock pot can be kept standing on the back of the kitchen range. When there it is always convenient to dip into when stock is needed.

Split peas boiled tender, put through the colander and mixed with a little good stock, butter and seasoning, makes a delicious and nourishing soup.

When preparing eggs for dipping croquettes or oysters, add two tablespoons of boiling water to each egg. Stir the egg constantly while adding the water.

When you wish to make a stone door step or brick porch, bright and clean, dissolve one tablespoon of washing soda in a pail of boiling water and scrub with a stiff broom.

Memorial Memory of Some "Break." Do not know just what the Council meant by "good manners," but I believe that many hundreds of children who have at some time in their lives suffered mental agonies through ignorance, they were of some offense against good manners, will applaud that proposal.

PARSONS' Household Ammonia, Medium and Large Bottles.

Fresh Supply "BLUE NOSE" BUTTER, 2 lb. Prints. CRANBERRIES by the barrel and 90c. gallon. PIPPED PLUMS, 25c. lb. EVAPORATED APRICOTS, 28c. lb. GRAPE PINEAPPLE, 2's, 35c. TOMATO SAUCE, 8 oz. tins, 8c.; 90c. dozen. Large Bottle LIBBY'S SWEET RELISH, 2 oz. j., 40c.; \$4.50 dozen.

(Conducted by Philatelia.)

THE STAMPS OF NEWFOUNDLAND.

THE CARIBOU ISSUE.—In 1918, shortly after the Armistice was signed, the Postal Authorities decided to commemorate the work done by our Regiment in the Great War by a special issue of stamps.

It was further decided that all the stamps of the issue would bear the same design, a new departure for Newfoundland, at least, that is since the peace issues.

The design chosen was the head of a Caribou, the emblem of the Royal Newfoundland Regiment, and at the foot of each stamp it was decided to have a tablet bearing the name of a battle, different in the case of each stamp, in which "our" Regiment participated. The stamps, with a few exceptions, bear the inscription "Trail of the Caribou" in a scroll above the tablet, and extending on both sides of it. Four of the stamps, however, commemorate the work of the Newfoundland Royal Naval Reserve and contain the inscription "Royal Naval Reserve" and the word "Ubique," designating that their work was performed everywhere, in the tablet below the head. The values bearing this inscription are the 2c., 5c., 8c., and 12c.

The names of the battles commemorated on the other values are: 1c.—Surva Bay, 3c.—Guedecourt, 4c.—Beaumont Hamel, 6c.—Monchy, 10c.—Steinbeck, 15c.—Langemark, 24c.—Cambrai and 36c.—Comblies.

The Caribou head, which formed the greater part of the design, was taken from a drawing by Mr. J. H. Noonan, late of H. M. Customs, and the work of engraving and printing them was given to Messrs. Whitehead, Morris and Co., Ltd.

On January 4th, 1919, the issue was first placed on sale in the St. John's post office. They proved a thing but a pretty set, as the Caribou head took up the bulk of the stamp, and the colouring was not by any means as good as it might have been. If the centres had been printed in one colour and the frames in another the appearance of the stamps would have been greatly improved.

One thing worthy of note about this issue is that it was, I think, the first Victory Set to be issued. Beyond the large number of shades of the lower values, there are no minor varieties in the stamps of this set. There is, however, a pronounced double impression of the 3c. I have only one copy which I got on the first day the stamps were issued and it was not until it was too late, to obtain more that I discovered this variety. The shade varieties in the 1c., 2c., 3c., 4c. and 5c. are enough to try the patience of the keenest specialist. Their name, in fact, is legion. It was not until the summer of 1920 that I began to discover these varieties. The first to come to my notice was what I took to be an aniline brown of the 3c. I happened to be in an outpost at the time and I discovered that a supply of 3c. stamps just received at the local Post office were all of this peculiar shade. It was not an aniline variety, however, but in some manner, the margins of every stamp on the sheets had become smudged with the brown ink. What to call this variety I do not know, but it is undoubtedly an interesting one. The finding of this peculiar shade variety led me to inspect the other stamps in stock and I discovered then, that the 1c. and 2c. were both different in shade to those in my collection. So pronounced, indeed, was the difference in the 2c. that I am almost convinced that the second printing must have been lithographed. For the new supplies of the 2c. and 3c. arrived to take the place of the provisionals of September last, I noticed that the 2c. was printed on a rose-tinted paper, similar to the brown-tinted paper of the 3c., which I have previously mentioned. The 3c. stamps were this time printed on white paper, but there was a pronounced shade difference between this new lot and the first lot printed on white paper.

Another interesting fact in connection with the 2c. and 3c. stamps is that there were two plates for both these values. I have blocks which contain the figure 1 on the left hand margin and 2 on the right hand margin and can only conclude that there are the plate numbers.

There are some minor shade varieties in the 4c., but in the 5c. stamps there are two very distinct shade varieties, one being ultramarine and the other almost a prussian blue.

One variety in this issue which I have not yet mentioned is the 1c. printed on laid paper. I have but one pair with this variety.

In connection with the 6c. and 8c. of this issue, which are now obsolete and have been so for some time, there seems to be no reasonable excuse for doubting that somebody cornered the lot in an attempt at speculation, for otherwise no reason can be found for there having been sold out so quickly, since just as many of these values were printed as of the other high values. Although the prices quoted by Messrs. Stanley Gibbons, Ltd., in their 1920 catalogue are very low, being but a small percentage on face value, people here have been offered

ing them at 65c. for the 6c. and 30c. for the 8c.

The Caribou issue is still current, but as it was really only a temporary measure it ought shortly to be replaced by a permanent issue. Up to the New Year, however, nothing had been done in connection with a new series.

CHECK LIST—FEB. 14.

- 1c.—Blue Green
- 1c.—Yellow Green
- 2c.—Scarlet
- 2c.—Rose
- 2c.—Vermilion (probably Lithographed)
- 3c.—Brown
- 3c.—Yellow Brown
- 3c.—Brown on tinted paper.
- 4c.—Mauve
- 4c.—Light Mauve
- 5c.—Ultramarine
- 5c.—Prussian Blue
- 6c.—Grey
- 8c.—Purple
- 10c.—Deep Green
- 12c.—Orange
- 15c.—Indigo
- 24c.—Pale Buff Brown
- 36c.—Sage-Green.

THE U.S.A. PILGRIM STAMPS.

I have to thank Mr. F. J. Cracknell of Boston Mass., for a set of the new U.S.A. Pilgrim stamps. Mr. F. H. Wills has also kindly sent me a cover, containing the three values of this set, 1c., 2c. and 5c. A more extended notice will appear next week.

TO CORRESPONDENTS—J. G. W. Bonavista

I am answering your question by post.

(Owing to the space occupied by the article on the Caribou stamps, several items have had to be held over.—Editor.)

Fun for Women to Diamond Dye

Buy "Diamond Dyes," no other kind, then perfect results are guaranteed. Each package of "Diamond Dyes" contains simple directions to diamond-dye worn, shabby skirts, waists, dresses, coats, gloves, stockings, sweaters, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods, new, rich, fadeless colors. Druggists have "Color Card."

SIMPLICITY.

Our thoughtful president-elect has wisdom in him by the mile; he doesn't think it quite correct, in times like these, to put on style. And when to Washington he goes to climb the presidential chair he wants no costly furbelows, no bunting swishing in the air. "Cut out the pomp," says Warren G., "to all vain fuss attach the can; simplicity looks good to me, for I'm a common, corn-fed man. At Marion, where I abide, I do not travel on a float, or in a circus wagon ride, when I go forth to seek my goat. I am: no Caesar, I'm no king, I do not head a captive train, and I won't ride around, by jing, upon a gaudy, gilded wain. I do not hail with snobbish glee the plaus that hint of pomp and state; my flapper's good enough for me—three cylinders are hitting great. To Washington—effoons I'll track, and march along the storied street, a singham shirt upon my back, old fashioned gaiters on my feet. I'll wear my long limawinger coat, the same I wore when I was wed; I will not ride upon a float, or have punk carlards on my head." And over all the smiling land the voters say, "He's safe and sane! His sentiments are fine and grand! There are no cluck-bugs in his brain!" For what the country wants and needs is thrift in every form and guise; economy! the nation pleads for that with wet and woody eyes.

Shoemaker's Day.

In Berkshire and Hampshire the first Monday in March, which falls on March 7 this year—was the day when shoemakers in the country ceased to work by candlelight, and it used to be customary for them to meet together in the evening for the purpose of "wetting the block." On these occasions the master either provided a supper for his men, or made them a present of money or drink; the rest of the expense was defrayed by subscriptions among themselves, and sometimes by donations from customers. After the supper was ended the block candle-stick was placed in the middle, the shop candle was lighted, and all the glasses being filled, the oldest hand in the shop poured the contents of his glass over the candle to extinguish it; the rest then drank

DODD'S KIDNEY PILLS

Baking soda used in the following proportions makes a good gargle to prevent colds in the head and throat: Dissolve ½ teaspoonful of baking soda in ¼ of a glass of boiling water, then after it is dissolved fill the glass with cold water. Gargle with this every night.

Household Notes.

Pumpkin custard is good if when taken from the oven hot, a layer of halved marshmallows are placed over the top and the pie returned to the oven for a few minutes.

To thoroughly cleanse spinach of sand, each plant should be torn apart so that every leaf and stem is separate. Then wash in deep water so that the sand can sink to the bottom.

Reliable Dry Batteries and Flashlights last longer, give better service, but cost no more than ordinary make.

Jan. 4, 5, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1921.

A Lay of Hr. Main.

Which is dedicated by the author to Dr. Campbell with profound apologies to Horatius Coles, and also to the shade of the great Macaulay:

The Premier's brow was sad, The Premier's speech was low; He saw the writing on the wall With in a blaring glow. Said he "What can I do now To win at Harbor Main? Is there a man whom I can trust The fight for me to gain?"

Then out spoke brave 'Doc' Campbell, The man who made the farm: "I wish you were a fairer man; Cease all show of alarm; You know our party 'can't lose' The fight at Harbor Main, Whilst there are men about, who have My quantity of brain.

"So if you want assistance, Why I am here to serve; And with two more to help me Of almost equal nerve, I'll go to Harbor Main, Sir, And save the day for you—I pray you show you'll with me go. Produce the other two!"

Then out spoke M. E. Hawco, A machinist fair; was he: "Lo! I will go and win the show In Harbor Main with thee." And out spoke Carolus Furey, (Cognomen "Furion") "I'll take a hand, and with you stand, And what can then daunt us?"

"Go, Campbell," quoth his leader, "For what'er thou say'st must be" So out to Harbor Main then went The brave and dauntless three. For Squires, in his quarrel, For others had no heed; He did not care who else would bear The brunt of his ill-deed.

But when they reached the district, And saw their awful task; They found they'd paid a huge price In Squires' smiles to ask. They saw they had opponents, Full thrice as great as they, Who'd win the fight without a doubt And put the dauntless three to rout— It killed them with dismay.

For Hark! the cry is LEWIS, Lo! See him now advance! And DR. JONES comes also, And with him takes his stance. Now Campbell's ample shoulders Are quivering with fear, He looks about and tries to shout, But can do naught save glare.

The people of the district, Now gazed on him with scorn; They'd not vote for the party Which this man did adorn (?) So Campbell saw "was useless, And sadly wren away." And Hawco left, turned with a sigh To Furey, he was heard to cry, "I fear we'll be left high and dry Upon the polling day."

—TOUCHSTONE.

The Week's Calendar.

MARCH—3rd Month—31 Days.

7.—MONDAY, St. Perpetua, Shoemaker's Day. St. Thomas Aquinas died, 1274. J. R. Green, historian, died, 1883.
