

LEGISLATIVE ASSEMBLY

Ministers and Leaders of the Opposition Face Disqualification Under New Rule.

Hydraulic and Dredging Operations Open to Alens—Debate on Address Resumed.

The places of the Provincial Secretary and the President of the Executive Council... The Speaker took the chair at 2 o'clock, and prayers were read by Rev. Dr. Campbell.

ly more than had been ever expended within its borders... MR. SMITH (Lillooet) had words of hearty appreciation for the mover and seconder of the reply, and found little to complain of in the speech itself.

know our position in regard to these matters... Turn to the speech, Mr. Helmecken said he was sure that members on his side of the house were glad to know that there were several measures which would be brought down and discussed and given careful consideration.

of duplication. Before giving direct consideration to the address of His Honor, he felt bound to resent one statement made by the mover of the reply—the declaration that the late government had failed to carry out the law with regard to the exclusion of Chinese from the coal mines of the province.

that gentlemen's course some few years ago when he himself introduced a resolution to impose the tax on the workers in both coal and metalliferous mines—this being on April 23, 1897—the resolution being ruled out of order.

If the salmon interest alone were considered he thought that his resolution would be justified, but there were also the halibut, sturgeon and other deep sea fisheries. He was convinced that it was possible to contemplate the present position of the fishing industry in British Columbia in the terms of union under which the province entered confederation.

MR. HELGENSEN differed from his leader, and endorsed the resolution as in the right direction, and calculated to strengthen the hands of the members of the Commons.

MONDAY, Jan. 16, 1899.

COMMITTEE REPORTS.

Mr. Higgins presented the second report of the private bill committee, stating that the rules were complied with in the cases of the Ashcroft Waterworks Co., and Vancouver & Victoria Railway bills. The report was received.

COL. BAKER WITHDRAWS.

MR. BAKER, on a question of privilege, asked the house to listen to a few remarks from him on the subject of the interpretation of the law of elections, or rather qualifications. It was to be seen from the case of the member for Vancouver City, Mr. Tisdall, how small a matter might be regarded as a violation of the law, and it therefore behooved each and all to be exceedingly careful.

DEBATING THE ADDRESS.

MR. MACPHERSON requested permission to introduce a private bill respecting the Vancouver, Northern and Western railway. The Speaker refused that this was not in order until the reply to the speech had been proceeded with, it being first on the order paper.

HON. MR. MARTIN, continuing the debate on the reply to the speech of His Honor, said that, as he had already intimated, he held no time for a further discussion at any length this speech from

MR. HELMECKEN prefaced his remarks by paying his compliments to the mover and seconder of the reply to the speech, and to the mover and seconder of the reply to the excellent speeches. It was news to him that the speech from the throne had become a mere formality, a matter of ceremony.

MR. HELGENSEN referred to the general prosperity of the country and traced the history, position and present prospects of his own constituency—old Cariboo. He denied that any assistance needed anyone to teach them mining, and maintained that the greater proportion of the miners of British Columbia were not American, but Canadian.

MR. HELMECKEN prefaced his remarks by paying his compliments to the mover and seconder of the reply to the speech, and to the mover and seconder of the reply to the excellent speeches. It was news to him that the speech from the throne had become a mere formality, a matter of ceremony.

THE NEW CITY COUNCIL

Mayor Redfern Delivers His Annual Message on Civic Affairs to the Aldermen

A Change in the Constitution of the Committee on Public Works.

The newly elected city council met for the first time last night, the principal feature being the annual address of Mayor Redfern, who referred to a number of the questions that are of special importance to the city. He made one radical change in the appointment of the whole council as a committee on public works, instead of the small committee of three that has been the vogue in former years...

Gentlemen,—At this first meeting of the council for 1899, which your promises to be an eventful one in the history of Victoria, not only on account of the expectation of coming prosperity, but also because of the increase of interest taken by the citizens in municipal government, which has resulted to the formation of a committee of fifty, composed of citizens representing the different wards of the city, having for its objects the effecting of certain reforms in municipal government and the promotion of the public interest...

Street Improvement.—As the amount available for the improvement of the streets is only about \$30,000 or \$40,000 per annum, and the half of that sum is reserved for maintenance, it is impossible for the council to undertake any permanent work in that direction out of that revenue which can only be done on the local improvement account. The council in 1898 has completed the arrangements for paying Fort Street from Government money...

Police and Fire Department.—The difficulties in the way of carrying out the improvements contemplated by the council of 1898 having been removed and the lots on which the buildings are to be erected have been sold, some alterations will have to be made in the plans for the new building to provide accommodation for the new apparatus at present housed in the Yates street hall, and also for the new engine house...

Accident on Imperieuse.—A fatal accident occurred last evening on the H.M.S. Imperieuse, a member of the crew being killed by the bursting of a steam pipe. Two others were badly scalded and had to be taken to the naval hospital. Full reports will be given in another issue.

Admiral For This Station.—London, Jan. 14.—Rear Admiral Lewis Beaumont, director of naval intelligence, who married a Boston woman, will go out in H.M.S. Warspite to relieve Rear Admiral Henry St. Ledger Bury Palliser, commander-in-chief of the Pacific station since 1896...

Mr. Rhodes' Project.—South African Magistrate in London Promoting Railway from Cairo to the Cape. London, Jan. 14.—Mr. Cecil Rhodes, former premier of Cape Colony and managing director of the British Rhodesia Company, arrived in London to-day from Capetown. There is considerable interest in his visit, which is connected with the scheme of joining the Cape to Capetown by railroad. He will endeavor to get the government to guarantee the interest on the bonds of a railway from Bulawayo to Lake Tanganyika.

A cargo of parrots that arrived in Leth, Scotland, was bought up at once by a firm of whisky manufacturers. The birds were taught to cry, "Drink Black's whisky," and were then distributed in gift cases to Liverpool saloon passengers.

A POINT IN HYGIENE.

Drinking Plenty of Water Essential to Health and Prevents Infection.

There are many people who are particularly fastidious about their bodies, and fastidious about their diet, and fastidious about their clothing, changing it frequently, who are nevertheless fastidious about their health, and fastidious about their habits, and fastidious about their habits, and fastidious about their habits...

The exercise of the involuntary body functions and every voluntary act, mental as well as physical, gives rise to waste, and is practically, tissue wear. This waste gives rise to waste substances, which are eliminated by the various excretory organs...

Without abundance of water, the excretory organs cannot carry off the waste, used-up substances. And so it is with the skin. The pores of the skin, which are essential to the surface bath, "Water is not only useful to prevent these affections, it is also useful to wash our faces, and to wash our bodies, and to wash our bodies, and to wash our bodies...

The best authorities contend that for the most part the improved health of the people is due to the increased supply of water, rather than from any "medicinal" ingredients in the water. The water of the sea, which is so abundant, is not only pure, but it is also pure, and it is also pure, and it is also pure...

The water of the sea, which is so abundant, is not only pure, but it is also pure, and it is also pure, and it is also pure, and it is also pure, and it is also pure, and it is also pure, and it is also pure, and it is also pure, and it is also pure...

NEW YORK'S QUEER LAWS.

Exhibition of Sparring Stopped by Police While Real Fights Go Unmolested.

New York, Jan. 14.—A large crowd went to the opera house at Mount Vernon to-night to see the exhibition sparring match in which George Dixon and Tom Sharkey were to appear. Dixon and Sharkey were both on hand, but they were never able to enter the ring. Chief of Police Tully, who was in charge of the police, decided to enforce the law, and the exhibition could not be held.

Chicago, Jan. 14.—George Kerwin, the "Mystery" has been matched to meet Joe Gans, the champion of the world, in a contest, which is for 20 rounds, will be before the Lenox Athletic Club of New York.

It is easy to find a big bill if you go to the Nica Axle Grease. It's a box and learn why it's the best grease for your axle. Put it on an axle, and learn why.

B. C. STEAM DYE WORKS. 141 Yates Street, Victoria. Ladies' and gents' garments and household furnishings cleaned, dyed or pressed quick to new. Tel. 410-426

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr. J. Collis Browne was a man of high character and high ability, and that the whole story of the defendant Freeman was literally untrue, and he recommended that the defendant be acquitted.

What better can you drink than JOHN JAMESON & SON'S (DUBLIN) WHISKEY. "Own brand" very old Black Bottle.
