CURRENT TRADE CONDITIONS. ONTARIO.

Two months ago it was predicted that prices of white pine lumber had reached the top notch for the present movement at least. Since that time the situation has steadily grown stronger, a few grades have advanced in price, and there promises to be witnessed a further appreciation in lumber prices generally. The flourishing condition of the country at large, and of manufacturing enterprises in particular, augurs well for a heavy consumption of lumber during the fall and winter months. This, coupled with the pronounced shortage of stock, is the basis of the present hopeful feeling in respect to the future of lumber. It would seem to be the wisest policy for buyers of lumber to anticipate their wants as far as possible for the balance of the year and place orders on the present basis of values, as a weaker market is extremely improbable. Western Ontario is now furnishing the bulk of the white pine lumber handled in the Saginaw valley, and dealers in that district are still in the market for stock. The demand for large blocks of lumber has this season been so heavy that dealers in car lots have found it extremely difficult to obtain the lumber required to supply their customers. Some Toronto dealers report that they have been compelled to refuse orders for this reason. There will doubtless be much activity in the woods this winter, with large blocks of stock taken out on contract for the purpose of supplying United States dealers.

Hardwood stocks are becoming reduced to a low point, and it is almost surprising that prices have not advanced to a greater extent. As the true situa-

tion becomes more generally recognized a sharp advance in some lines of hardwoods may be expected. The scarcity of basswood still continues.

QUEBEC AND NEW BRUNSWICK.

The spruce market is exceptionally strong. When the mills close down for the season they will be carrying very little stock that has not been contracted for. The low freight rates have enabled shippers to place lumber on the British market at a comparatively low figure. Prices of square and waney timber are unchanged. The figures showing the quantity which has reached Quebec this season will be found in another column. The proposed improvements to Quebec harbor, on which tenders have just been taken, will cost upwards of one million dollars, and will call for considerable large timber.

UNITED STATES.

The slight weakness incident to the summer months has passed away, and now that the harvest is almost over the demand for lumber is increasing and promises to assume large proportions during the fall months. The effect on the lumber trade of the abundant harvest of corn and the smaller grains overshadows all other features and assures another year at least of general commercial prosperity. It is evident from the volume of trade that this is the view taken by dealers and consumers. White pine leads all other classes of lumber. Sales are being made at the quotations last given, although a slight weakness has exhibited itself in low grade inch pine, and the better grades show a tendency to advance. It is not unusual for dealers to ask an advance of from \$1 to \$2 per thousand over list quotations on selects and uppers. At Toledo, Ohio, No. 4 boards show increased strength, while Norway is selling at an advance of \$1, and some dealers have advanced hemlock prices 50 cents. There is a tendency on the part of buyers of hemlock to want special widths and sizes instead of buying it merchantable, as has been the rule in the past. It is expected that Buffalo and Tonawanda dealers will put out a list within a week making an advance of 50 cents on hemlock, the supply of which seems to be growing shorter every day. The base price will then be \$15.50. Spruce continues in strong demand. Prices are unchanged, although the rush of orders now reported is likely to bring about an early advance. All grades of hardwood lumber are moving actively. A New York dealer reports that he is selling cull hardwoods at a higher price than ever before. Basswood and maple are holding the strong position they recently acquired, while there is less complaint of a shortage of oak than there was two months ago. The tone of the shingle and lath market is in line with lumber. The building trade throughout the Eastern States is exceptionally active and is consuming large quantities of shingle and lath as well as lumber. No. 1 white pine lath are quoted as high as \$4 at Tonawanda. In Chicago the price is given as \$3.50.

GREAT BRITAIN.

Steadiness characterizes the British timber market. Wet weather has interfered with house building and other out-

door operations, but the volume of business in lumber has been sufficient to maintain prices. Information recently received that prices of Swedish lumber had been advanced exerted a favorable influence upon the market. Prices realized at auction sales in August show conclusively that there is a strong demand for the better qualities of Canadian lumber. As imports for the balance of the season are expected to be light, it is believed that there will be no difficulty in holding the present range of prices throughout the year. Favorable reports are still chronicled regarding spruce lumber. Writing of the Liverpool market a correspondent of the Timber Trades Journal says: "The spruce market is still in the same firm position; some shippers are pretty well sold out, and what they possess they purpose holding until the autumn or winter shipments are to be made by the liners. Judging from advices we have from abroad and from the attitude here, the position of the spruce market is likely to be maintained for the remainder of the season, if indeed an advance is not made. This will certainly be the case for cargoes in sailing vessels as soon as the prohibition of carrying deck loads comes in vogue." In London the market shows signs of coming strength, current quotations for Quebec third quality spruce being £9 15s c.i.f., and for 3 x 7 and 8 £7 5s to £7 10s, according to specification.

STOCKS AND PRICES.

The retail price of pine shingles in the Buffalo market is \$1.50.

The steamer Rap is about to load deals at Cape Tormentine, N. B., for the United Kingdom.

The barque Kohola has sailed with lumber from the Hastings mills, Vancouver, B. C., for Delagoa Bay, South Africa.

The Bryan Manufacturing Company, of Collingwood, Ont., are reported to have purchased 1,000,000 feet of lumber from the Holland-Graves Lumber Company, of Byng Inlet.

Frank I. Alliger, of North Tonawanda, N. Y., recently purchased 3,500,000 feet of box and other minor grades of white pine in the Georgian Bay district, to be shipped to Tonawanda.

The Millar-McCool Lumber Company has been formed in Pembroke. They have purchased a limit on the Georgian Bay which they will operate during the coming winter, taking out a quantity of square timber.

The statement was made last week that Hon. John Charlton had purchased timber limits in the Wahnipitaw district from Hale & Booth, of Pembroke. The limits purchased by Mr. Charlton were owned by Booth & Shannon.

The iron barque Weatherfield is loading a cargo of lumber at Montreal for Adelaide, Aus. The cargo will consist largely of pine from the Ottawa valley. The trip from Montreal to Australia will occupy over 100 days.

A Buffalo dealer furnishes the following prices of inch white pine in leading grades: Uppers, \$75; selects, \$79; fine common, \$60; No. 1 cuts, \$40; No. 2 cuts, \$25; No. 1 moulding, \$50; No. 1 shelving, 10 inches and wider, \$42; No. 1 dressing, \$35; shaly clear, 4 inches and wider, \$35; box, 6

inches and wider, \$17.50; 1x12 box \$20; No. 1 barn, \$26 to \$32; No. 2 barn, \$23.50 to \$26; No. 3 barn, \$19 to \$23; mill culls, 4 inches and wider, \$14 to \$14.50.

A. S. Kibbee & Son and D. L. White & Company, of Albany, N. Y., have just closed one of the largest timber purchases in the history of the Upper Peninsula of Michigan with Ferguson Bros., of Munising. The amount involved in the deal is about \$500,000. Ferguson Bros. are to cut the pine from a tract of timber of 20,000 acres on the Dead River, northwest of Marquette. It is estimated that there is about 50,000,000 to 60,000,000 feet of pine in the tract. The pine will be sawed at Marquette and distributed from there.

The following timber berths were sold at the Crown Lands Office, Fredericton, N. B., last week: S. W. of Crocker's Lake, parish of Derby, two miles, to Robert E. Parks, at \$8 a mile; Cain's river, two miles, to Wm. Richards Company, at \$8 a mile; Bass River, Gloucester county, three miles, to T. B. Winslow, at \$10 a mile; North branch, Newcastle River, two miles, to Sayre & Holly Lumber Co., \$9 a mile; East of Hazleton Settlement, S. W. Miramichi, two miles, to Thomas Parker, at \$8 a mile; Didegush River, two miles, to F. H. Todd & Sons, at \$15 a mile.

Of the Barbadoes lumber market Messrs. S. P. Musson, Son & Company, in their report of August 16th, say: "There have been no arrivals of either white pine or spruce within the fortnight. The demand, as usual at this season of the year, is very limited, but a small cargo of suitable white pine would probably bring fair prices. Spruce will not be wanted to any extent until later in the year, but a small cargo might be placed at about late rates. The only arrival in shingles is 134,000 by the "Resolute" from Gaspé, Que., of which 79,000 of Spruce Laying were sold at \$2.25½, and 55,000 Cedar Laying at same price.

SPRUCE IN NEW YORK.

The following reference to the spruce lumber market of New York is interesting: The spruce market perhaps more than any other is a shining example of present conditions in the wholesale market, while its prevailing features are based on actual conditions from sources of supply to consuming centres rather than on any outside

Birch and Maple	392,149	306,842	164,500

THE BOSTON MARKET.

The tone of the spruce lumber market at Boston is firmer, especially on vessel stock, which was especially low only a few weeks ago. Danger of a strike among the sawmill operative in the Bangor section gives a firmer tone to the spruce market. Here trade shows some improvement: Ten and 12-inch dimensions,

\$20 to \$21; 9-inch and under, \$18.50 to \$19; 10 and 12 inch, random lengths, 10 feet and up, \$20 to \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, \$18 to \$18.50; all other randoms, 9-inch and under, 10 feet and up, \$16.50 to \$18; 5-inch and up, merchantable boards, \$17; matched boards, \$18 to \$20; out spruce boards, \$13 to \$14; bundle furring, \$17.

Hemlock lumber is about steady, with offerings small: Boards, 12, 14 and 16 feet stock, \$1.45 to \$1.50 for good eastern; Vermont, \$1.30 to \$1.40; random eastern, \$1.30 to \$1.40; Pennsylvania, No. 1, \$1.60 to \$1.70; No. 2, \$1.50 to \$1.55.

The white pine position is very strong, with prices high: Uppers, 1 to 2 in. \$82.50 to \$85; 2 1/2 to 3 in. \$87 to \$88, 4-in. \$90, selects, 1 in. \$68; 1 1/2 to 1 3/4 in. \$70; 2 in. \$72; 2 1/2 to 3 in. \$80; 4 in. \$82; fine common, 1-in. \$62 to \$63; 1 1/2 to 1 3/4 in. \$65; 2-in. \$67.50; 2 1/2 and 3 in. \$72.00; 4-in. \$82.50; barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

Hardwood lumber is steady and unchanged: Quartered oak, \$61 to \$66; plain oak, \$41 to \$45; common and rejects, \$20 to \$25; red oak, no market; whitewood, \$42 to \$43; sap and common, \$30 to \$35; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$28 to \$30; end-dried white maple, \$38 to \$42; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; elm, \$29 to \$31.

Shingles are firmer, with most shippers asking 10 cents advance: Extra cedar, \$3.60; clear, \$3.10; second clear, \$2.55; extra No. 1, \$1.95 to \$2; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, \$2.75 to \$3.80; 18-inch, \$4.25 to \$4.50.

Clapboards are very firm and have just been advanced \$2: Clear, \$40 to \$42; second clear, \$37 to \$39; extra No. 1, \$22 to \$32.

Laths are firmer: One and five-eighths inch, to \$3.15; 1 1/2 inch, \$3.00.
