Town is Retaken.

On the western front, the allies are continuing their offensive. It is reported in London that the British have retaken Passchendaele, a town lying between Ypres and Roulers. If this be true, an important advance has been effected against the Germans who have exerted great strength to keep the French and English back in this region. Other official despatches are to the effect that violent naval bombardment by the British fleet is directed against the Germans along the coast.

At Zeebrugge, the seaport of Bruges, the Germans are said to expect an attack and have manned all points of vant ge with machine guns to repel any possible attempts to land forces

The Case of Bill.

"See that chap over there," remarked an officer, pointing to a husky private doing guard duty. "Fine looking soldier," we remarked. "He is that but he was a Johah three months ago." was the reply. Then the officer told the story of how the man doing guard happened to enlist. He never wanted to be a soldier. It was far from his intention, but one night when he had more liquor than his capacity allowed, when he got "half lit up," so to speak, he joined a regiment in Toronto. The next morning was a regular "morning after." He wanted to be struck off the rolls. The recruiting officer said this was impossible. He then told a story of a young wife and baby who had to be looked after. The recruiting officer then told him that if his wife lodged a protest he would liberate him. So the following day the embryo soldier brought his wife to the armories. Said he to the officer: "My wife is with me, sir. She will tell you that she needs me at home." "Is that right?" asked the officer of the young woman. "Did Bill properly enlist; is he going to war?" asked the wife. "Yes, he enlisted two nights ago." was the reply. "Well, take him with you," said the young woman. "He'll do more good serving the country than me. He never did anything for me anyway. He is nothing but a loafer." So Bill was forced to go and he is now quite contented and happy. He likes the life. He is a good soldier, always on the job and obedient.

The message received at the camp from Ottawa regarding the recruiting of the three additional battalions of infantry and the two extra squadrons of cavalry in this district states that "the regiments to be mobilized in this division will be liable in whole or part for overseas service." With a view to mobilizing these three new regiments, each of the twenty regiments in the military area of which Toronto is the headquarters, has been asked how many men it could furnish for overseas service, and a letter to this effect has been issued by Lieut.-Col. H. M. Elliott. The mobilizing of the new regiments will be a more severe drain than ever upon Toronto, because it is reported that recruiting in some of the rural districts is falling off. An official statement issued by the war office says:

"The Germans brought up to their eastern forces elx army corps and five cavalry divisions, parts of which were from the western front and the remainder new formations, enabling them to attack for eight days, to Dec. 5. But owing to the lack of cohesion, and as a result of their isson on the 5th, after suffering great losses, the Germans abandoned the attack.

"Fighting on the 5th around Lodz and Lowicz was characterized by an absence of German activity.

"Among other questions, the defence of Lodz remains to be revised, as the desire to retain that point absolutely would prove inconvenient in many important respects."

The foregoing statement is accepted here as confirming the German reports that Lodz has been captured. The further statement from Petrograd that the defence of Lodz "remains to be revised" is taken as additional evidence that the Germans now occupy the city and have made it one of the principal points in their line.

A very interesting lecture, entitled "The European War From a British Viewpoint." was delivered to the Men's Club of St. Aidan's Anglican Church hist night by W. D. McPherson, M.L.A. for West Toronto. There was a very large attendance, with President W. E. Orr in the chair.

Mr. McPherson dealt with the position between Servia and Austria arising from the assassination of the Archduke Ferdinand of Austria and the evident understanding between Germany and Austria as to the ultimatum which the latter country should present to Servia in deflance of Russia.

From that he passed on to a consideration of the growth of the German Empire and the dominating influence of the Prussian martial ideals.

He then referred to the Franco-Prussian war of 1870. Franco-Bismarchian diplomacy and the treatles respecting Belgium's integrity and neutrality.

Branch Library.

It has at last been definitely decided to open the east end branch library, which is to be located in the Y.M.C.A. on Dec. 15.

The securing of books has been the chief cause of delay, as many of them have to be brought from England. Several hundreds have been brought from the central branch. Two thousand books will be on the sheives when the opening takes place.

Careless Threshing of Grain.

Mr. Harding called attention to the careless methods employed in threshing grain thrucut the province. He referred to the way in which a thresher was moved about, carrying the foulest of weeds from farm to farm, and also blowing weed seeds over a wide area. The thresher moves from a dirty farm to a clean one and there discards the first few bushels in order to clean itself, with the result that wild oats and other noxious weeds creep into the most carefully looked-after farm.

Guestion of Surety.

Degarding the surety offered the city by Quinlan & Robertson, the commissionary asys:

"Tender No. 5 proffers bond for full amount of tender, guaranteeing the company to tendering and the corporation supplying the steel. This dual guarantee is not desirable. The London Guarantee & Agaident Company have addressed a letter to the board of control, advising their willingness to execute a bond for \$996.664.81, indemnifying the city in accordance with the conditions of the specification. In addition, the contractors and the steel company join the guarantee company in the bond."

The report also exhaustively covers the proposals in the concrete tenders, wherean some of them prescribe insufficient steel relinforcement, and says:

"No. not in those words," was the reply. "He merely intimated the government would back up they municipality of Toronto in raising money by possibly unusual means."

"If the government will contribute another \$100,000," replied the mayor. "And I think the federal government ought to contribute a third will not contribute a third will not contribute another \$100,000." That sum would render assistance only for hundreds thru the winter, whereas the city must provide for thousands!" interjected Stewart.

Controller McCarthy asked the speaker if the number of ragistrations at the civic employment bureau were an accurate criterion of the number of unemployed in Toronto. to which

proposals in the concrete tenders, where in some of them prescribe insufficient steel reinforcement, and says:

"Not one of the designs submitted for a concrete structure compiles with the requirements of the Ontario Railway and Municipal Board, and would not be accepted or approved by that body."

"I deem it unnecessary." concludes the commissioner, "to repeat the reasons which I have from time to time advanced in tavor of the adoption of the design as prepared by the department and approved by the Ontario Railway and Municipal Board and the city council, as against an entire concrete structure, inasmuch as an examination of the plans and surety of the tenders as outlined in this report furnish ample proof as to the correctness of my contentions."

Churches Object.

The members of the board of control will today inspect the site on which the commissioner intends erecting his car barns on Bloor street, near Dorval roal. The proposed erection of the barns has aroused a protest from the West Toronto churches.

The board of control yesterday morning again refused to supply uniforms for the Home-Guard at a cost of \$15,000. The controllers wanted to confer with Major-Gen. Lessard before voting any more for military expenditures.

To Straighten St. Ciair.

After the members of the assure as at the civic employment bureau were of unemployed in Toronto, to which Stewart replied no.

"Well, how can we get an adequate deas of what steps will be necessary to render as abureau were as specially provided?" asked the constroller.

"We have men holding tickets up to over No. 9000; we feel it is no use to register," said Stewart.

"I would be in favor of paying these men \$1 a day to drill for three or four hours a day, to drill for three or four hours a day to drill for three or four hours a day to drill for three or four hours a day to drill for three or four hours a day to drill for three or four hours a day to drill for three or four hours a day to drill for three or four hours a day to drill for three or four hours a day t

Members of the property committee yesterday afternoon refused to entertain the idea, of supplying bands in the civic free rinks. The commissioner had recommended a concert per week in nine parks, to cost \$675.

The members agreed to take over fro the works department, at a cost of \$7400, a 53-foot strip of land left over in the work of improving Brunswick avenue.

CARELESS DRIVER FINED.

In the police court yesterday Gordon Gooderham was fined \$160 and costs for carelessly driving a wagon at High Park avenue and injuring a boy named William Powell who was some time in the hospital after the accident. If the fine is paid \$150 will go to the boy and if not Gooderham will go to jail for forty days. He was given to Jan. 2 to

This Formula Really Makes Hair Grow

Some time ago I read in your paper a formula for a preparation which was claimed to destroy the dandruff germ and to strongly stimulate the hair and to strongly stimulate the hair growth. In spite of the fact that I had already tried many preparations without benefit, and my hair was thin and falling out very fast, I decided to give your formula a trial. Accordingly, I got my chemist to put up 6 ounces of Bay Rum. 2 ounces of Lavona de Composee and ½ drachm of Menthol Crystals, and applied to regularly were mentage and pried d dunces of Lavona de Composee and 'g' drachm of Menthol Crystals, and applied it regularly every morning and night, rubbling carefully into the scalp with the first application, the dandruff disappeared, the falling out of the hair stopped completely, and by the time I had used four bottles I had a finer, longer and more luxuriant growth of hair than I had ever had before. I have since recommended this formula to many of my friends with equally wonderful results. I understand that this formula can be prepared by all chemists and druggists, and I strongly advise all your readers who have not yet given it a trial to do so immediately.—T. H. P.

IMPORTANT—On enquiry we learn that druggists everywhere keep this formula put up ready for use under the name of Lavona Hair Tonic, and give with every bottle their signed personal guarantee of satisfaction or money back—genuine evidence of its marvelous properties.

It is know, for over three years. I tried remedy after remedy, and doctor after decorporation in gent such relief as I received was only temporary. Finally I found a remedy that cured ine completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

"I want every sufferer from any form of rheumatic trouble to try this marvelous had before. I have since recommended this formula to many of my friends with equally wonderful results. I understand it will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it—one dollar; but understand I do not want your money unless you are perfectly satisfied to send it. Isn't that, fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. MARK H. JACKSON. No. 572A, Gurney Building. Syracuse, N. Y.?"

OF LONDON RAILWAY ONTARIO REVENUE A MILLION SHORT

But Officials Are Glad Be-Cause They Thought It Would Be More.

SOME ADDED REVENUE

Increased Sources of Revenue Saved Situation—Succession Duties Large.

In spite of the trying financial conditions, the Ontario treasury will not suffer as materially in the year's showing as was at first feared. It is estimated that there will be an approximate shortage of one million in the year's revenue. This will be discussed year's revenue. This will be discussed at the approaching session of the legislature. The amount of this shortage which immediately results from declining revenue in the majority of the departments is regarded among those in touch with provincial finances as rather an encouraging feature than otherwise in view of the difficulties which had to be faced. Matters would have been much more serious had not which had to be faced. Matters would have been much more serious had not new sources of revenue been authorized at the last session and brought into operation during the year. Altho official figures are not yet obtainable the total provincial revenue, including borrowings, will reach approximately \$19,577.414. This sum is exclusive of last year's balance. The ordinary revenue, however, which does not take into account British loans or similar sources will reach only eleven millions.

New Succession Duties.

On the spending side of the account the approximate, exclusive of capital expenditures, is \$11,939,000, and the total expenditure of all kinds amounts to twenty millions. One of the factors

total expenditure of all kinds amounts to twenty millions. One of the factors which has proved of immense assistance to the government this year is the 'new Succession Duties' Act, brought down in the house last session by Hon. I. B. Lucas, and put into effect shortly afterwards. This has brought large sums into the treasury by increasing the dues from estates. In illustration of this point the case may be quoted of a huge estate now under probate. Whereas formerly under probate. Whereas formerly the government chaque thru the succession duties department would have approximated \$240,000. it will now reach \$495,000. The multiplication of such instances has made this department one of the highest earning under the government. Altho its return last year was the highest of years, there will be a still further increase for 1914 of \$95.734.

There will be an increase of nearly \$432,000 in the supplementary revenue branch and this would have been much branch, and this would have been much greater but for the rebellion of insurance companies against paying the new taxes. There is at the present time many accounts outstanding, and it is understood that in view of present circumstances the government is not pressing as hard for the money as it might.

Movie Revenue Up.

The education and game and fisheries departments show small increases, and insurance because of the new \$3 fee which has been instituted will show an increase of \$19,000. The moving picture branch, which has been thoroly organized, shows a return of \$19,000 above that of last year, and \$103,000 more will come from the hydro-electric commission than before. hydro-electric commission than before This latter is in the shape of additions

Interest, representing a greater capital investment during the year. The most serious decrease will be OLD MAN FOUND D

registered by the crown lands department, and it results from the heavy blow given the lumber industry by war conditions in the last four months. The drop here will reach \$671,900.

A decrease of \$15,000 will come in the provincial secretary's department and one of \$41,000 from the liquor likense branch. The closing of the stock markets and the falling off of business in brokerage offices is reflected in the report from the stock transfer offices. Here a drop of \$17.000 will be reported as the result.

Out of the field of ordinary expenditure appears the item of \$280,000 expended in securing flour and shipping it as a gift to the old country. ound dead in bed at 966 West Queen street at 4.30 yesterday afternoor with a two-ounce bottle of laudanu with a two-ounce bottle of laudant almost empty and bearing the name Dr. Rowntree. Nearly 200 persons have fallen ill with foot and mouth disease. Rather, I might say that many cases have been recognized by skilled observers. How many have escaped discovery the Lord alone knows: Certainly herdsmen, stock breeders, cowboys, cowgirls and others in long and intimate contact with ill animals acquire the malady, go to some family physician, and receive an incorrect diagnosis, instead of the precise name, foot and mouth disease.

At the recent convention of the American Association of Clinical Research, held in Baltimore, notice was served on the public the 5th of November by the doctors there assembled to boil all the milk used in the thirteen states where the foot and mouth aliment prevails.

If mothers will boil the milk, even from tuberculin-tested herds or the milk usually certified and supposed to be hyglenic, they will make no mistake. This ensures protection to the infant, as well as any others who may imbibe this snowy ambrosial nectar. Very delicate persons and infants not nursed at the breast are peculiarly susceptible to this newest of modern plagues.

In a remote fashion a few of the various symptoms of this dread cattle sccurge resemble Biblical leprosy. It is, however, more inflammable, decidedly more contagious, and less chronic in its course. Furthermore, the microbe of leprosy was identified a score of years ago, and is known as the leprosy bacillus. On the other hand, the parasite of foot and mouth plague is so tiny that the ultra-microscope, as well as all of the

One in every ten individuals go to their happy hunting grounds, while many others never regain complete health after an attack. That is to say, the mortality rate rises as high as ten in the hundred. Meat does not transmit the unseen, super-ultra-microscopic animalcule responsible for hoof and mouth infections. Warnings issued against eating meat during the present epidemic are, perhaps, wise from economic reasons, but not for hygienic ones. Cattle and other animals suspected of harboring this plague are destroyed, not for the safety of humanity so much as for economic and husbandry purposes.

Once this arch demon of bovine distempers invades the human tissues, isolation is necessary, disinfection with appropriate medicaments of the sores and eruptions must be carried out; hexamethylenetetramine and citrate of soda are to be given internally, and the usual measures made to raise the heat and

School Authorities Waited Two years for a Canadian,

A letter was read at the meeting of the industrial advisory committee of the board of education, charging the main contractor for the Central Technical School with paying his men much lower rates than the prevailing rate of wages. The writer of the letter will be given a hearing before the consulting committee, at which the Norcross Bros. will be asked to attend.

A representative of the Siemens Company of Canada appeared before the committee, and declared that it was a British, and not a German, company, and was, therefore, entitled to share in the contracts. He read a letter from Lord Kitchener to the English branch of the firm, complimenting them on the good work they were doing in supplying munitions of war to the British Government. Another letter stated that over 520 employes of the Siemens Company had joined the British forces.

The architects reported that work on the Central Technical School during the past menth slackened down considerably on account of the fact that most of the plastering has been completed, and the building is now in the process of drying out. The rest of the work is progressing rapidly towards completion.

Trustee Vokes' motion, that the architects be requested to submit specifications and a list of hardware, with samples, to the consulting committee for approval, and tenders be awarded to this committee, after much discussion was carried.

to get the council to endorse the recommendation of the board of control in accepting the report of the commisson of Montreal at the price of \$947,-

There were ten tenders in all subnitted to the commissioner. The analysis of these has occupied since has been lost in unnecessary delay. The facts as brought out in Mr. Harris port leave no room for doubt that best tender has been chosen. The concrete tenders have been rather a disappointment after all the protestafurnish a proper guarantee, and the engineering evidence points out the instability of the designs. Moreover, there is almost as much concrete in T. Malone, K.C.; C.W. Properties on Toronto, held its annual installation of officers last evening. The installing master, R.W. Bro. W. C. Wilkinson was ably assisted by the designs. Moreover, there is almost as much concrete in T. Malone, K.C.; C.W. Properties on the invaders.

instability of the designs. Moreover, there is almost as much concrete in the steel plans accepted as in the lowest concrete tender, the figures being respectively 44,394 and 48,873 cubic yards. Of the two steel tenders which furnished the proper bonds and guarantees there is a difference of some \$300.000 in favor of that which is recommended to be accepted.

The design conforms to the city's plans and has been approved by the railway board, and there is nothing now to prevent the work being proceeded with at once but the endorsation of the city council. This, we trust, will be given at a special meeting, which is expected to be held on Friday. There is absolutely no reason for further delay, and the commencement of the work will be of importance to the control of the work will be of importance to those who are looking forward to a LUNATIC'S WIFE GIVEN chance of employment in the near future.

Hamilton and Dundas have declared with fairly plain speech that Sir James Whitney was the strength of The master in chambers at Osgoode the Whitney government. The lesson for the existing cabinet must be for the present, until some other personality has developed and taken hold of the imagination of the people, that the government must establish itself, and government must establish itself, and specifications of the people of the imagination of the people of th government must establish itself, and can only establish itself, as Sir James Whitney himself did, by the adoption of forward policies, by striking out in new directions, and by consulting a month from PUnion St. Joseph du Despatches early in November rein new directions, and by consulting a month from l'Union St. Joseph du ported the death of General Von Meyer the wishes of the people in regard to legislation.

Sir James Whitney succeeded because he carried out the wishes of the convention of 1904. It is not too soon, perhaps, to have another convention. another stock-taking, and a revision of the party program. The things that have been done and agreed to cannot be kept on the program as things that are going to be done. Premier Hearst will prove his strength by finding the new way as Sir James Whitney found it. To be successful in Ontario politics it is still necessary te do pioneering work.

Fish as a Food.

In these days of tight money and restricted incomes people should become more alive to the value of fish as an adjunct to Canada's meat supply. December number of Conservation, the monthly bulletin of the Dominion poorer in protein (nutritive nitrogen) pound for pound than meat, its uniso good a showing in the matter of units of energy, but properly supplemented by cereals and vegetables, foods which are rich in heat-producing elements, it makes an excellent substitute for meat, at the same time adding wholesome variety to human diet.

From another article in this number it is learned that during the fiscal year When such a comparatively large 1912-13, Canadian inland and deep meertaking as the Bloor street viaduct sea fisheries yielded fish valued at is to be constructed it is well to have \$33,389,464. British Columbia alone every possible care taken in arranging contributed \$14,455,488 of that amount, used. It is regrettable that so much of the salmon and halibut industry of valuable time has been occupied with that province. Another promising an indication of the value and extent overcoming objections, with settling source of supply is that of Hudson the location, with determining the Strait and Hudson Bay. But Ontario's Revenue for Race Tracks Exceeds All Records.

Altho Ontario has not yet taken any action towards restricting the consumption of liquor during war time, the returns of the liquor license department for the year register a heavy decrease in drinking over the bar. This is shown by the marked decrease in revenue which this department yields. There will be an approximate decrease of \$41,000 for the year, based largely on the 5 per cent. tax on bar receipts. The government revenue from race track meetings shows an increase of \$15,000 over any returns of the past.

Crown Has Determined to Penalize False Pretences in Business.

Found guilty of obtaining credit by false pretences from the Sheet Metal Products Campany, in the general sessions yesterday, a young married man named Samuel Snider was sentenced by Judge Coatsworth to two months' imprisonment. Before giving him credit the company asked Snider for a statement of his liabilities, but in tendering it afterwards he omitted to place on the sheet a mortgage which he claimed in examination was against his business. In asking for punishment, County Crown Attorney Greer said the court would have to put a restraining influence on offences of this kind, and it was essential that a firm stand be taken. On another charge of obtaining credit from Solomon Breslin by fraud, Snider was found not guilty.

EMPIRE MUSIC AND TRAVEL

The Empire Music and Travel Club is an organization composed of musi-clans writers and composers and per-sons interested in the art of music. It is not an exclusive organization, the sole condition of membership being the payment of an annual fee. This freedom as to enrolment has, however, not prevented the club from being recruited by musicians, students. teachers and singers of the highest re-putation throughout the Dominion. The primary object of the Empire Music and Travel Club is by united action to promote the interest of writers and composers to publish their works and provide a means of large circulathereby assuring substantial There are many writers and com-

posers in Canada whose works strong-ly merit publication, but who refrain from incurring the necessary expense, knowing that unless there is some means of advertising and providing a large circulation the returns would not be sufficient to cover the cost of copyright, plates and printing. Appropriate club rooms have been opened at 26 College street. Toronto, where members will have the opportunity of meeting their friends and other musicious contractions. Similar club rooms will be opened in

CYCLE KILLS BOY ON ROLLER SKATES

Ross Hogan, Eleven Years Old, Was "Stealing" Ride on Wagon.

MOTORCYCLIST INJURED

Lad Attempted to Cross Street-Was Struck From Behind.

The dangerous practice among boys of hanging onto the rear of fast moving wagons while roller skating, caused the death of Ross Hogan, 11 years, of 73 Shanly street, yesterday afternoon. Seeing a wagon coming south on Delaware avenue, about 4.15 south on Delaware avenue, about 4.15 p.m. yesterday, Hogan, who was roller skating, took hold of the rear of the wagon. When opposite 275 Delaware avenue, he let go and turned to coast across the road. Almost at that moment he was struck by a motorcycle driven by Richard Mayne, 18 years, 354 Concord avenue.

Hogan died two hours later in his home. Mayne received such injuries

club, other American League magnates have been endeavoring to arrange a new alignment in this city. Col. Ruppert was approached thru Cincinnati friends and found receptive to a proposition to purchase the New York club franchise.

To Buy the Yankees.

President Frank J. Farrell and Wm. S. Devery, the principal stockholders, are understood to have placed a value of \$500,000 on their holdings.

It is understood Col. Ruppert has offered \$400,000 for the club and agreed to erect a new stadium for the Yankees if he gets the franchise.

President Johnson, while he did not deny that the American League was negotiating with Col. Ruppert, stated that the deal had not been consummated and might yet fall thru.

It was reported there would be a meeting of the American League in this city on Friday at which time transfer of the Yankees would be considered from all angles and the deal possibly completed if suitable terms would be agreed upon.

The National League magnates failed to disclose any similar sensations, but a number of interesting resolutions were adopted at the first meeting of the senior organization magnates, in which a policy of financial retrenchment was clearly discernible.

ARGONAUTS TURN OUT STRONG SQUAD

A surprise every minute is the order the Arena. Argonauts had their inisquad of stars that should go a long way. Jack Gooch, from T.R. & A.A.; Jack McCamus, St. Mikes, and Webster and Aird of Varsity were a few of the well-known ones on the job. Parks, from Brampton juniors; Adare, P.C.C., and Leonard, Sherbrooke, are new men that should help to round out the team. Gilbert, goal; Waugh, Sanderson, Trebilcock and Ken Crane are players of last eason's team that worked last night. This makes a strong looking squad, and Ernie Laidlaw promises some more ones for the next practices.

Surprise number two was the appearance of Gordon Meeking and Frank Heifernan with Toronto Rowing Club. A well-posted hockey fan is the authority for the statement that these two have passed up the O.H.A. senior champions. T.R. & A.A. had rather a slim squau out and T.R.C. had a lively time with the same bunch as was out on Monday, with the addition of Meeking and Heifernan.

Bill Hyland turned out with Riversides, and they had a fair looking bunch that worked fast. The preparatory colleges. St. Andrews and Upper Canada, showed up with enough men each to make three teams.

St. Michael's College will hold their first practice at the Arena this after-

ARMY MEDICAL SERVICE HAS GALLANT HISTORY

The war up to date was brought very vividly before the members of the Women's Canadian Club yesterday afternoon, when Lieut.-Col. J. T. Fotheringham, A.D.M.S., told them of the work of the 'Medical Service in a Modern Army,' traced the development of medical service in the field from the time of the traveling of Moses and the Israelites, touched incidentally on the Siege of Troy, as described by Homer, then to the days of the great Mariborough, when the military surgeon was simply a barber drawing the sum of fourpence a day.

Florence Nightfugaie, he said, laid the foundations for the system in use in the British service, which owes something also to the changes brought about by the experiences of Dr. Letterman In the American Civil War. The Treaty of Geneva, held in 1866, gives all attendants in the field the immunity they now enjoy, or are supposed to enjoy.

On the battlefield the medical corps works in three zones, the collecting area in which casualties may occur, the evacuating zone from which the sick and wounded must be quickly dispersed, and the distributing zone, from which the men are distributed to convalescing centres.

SPORTS AT EXHIBITION GROUNDS.

Two league games of soccer football were played off at the Exhibition grounds l'uesday at 12.30, the men going without their dinner in order to engage in the games.

In the first contest, between "F" Company, 20th battalion, and "C" Company, 19th battalion, "F" Co. won 1-0.

In the second contest the Q.O.R. were beaten by "A" Company 3-0.

Two indoor baseball games were played off at the Exhibition grounds. "G" Co., 19th, were defeated by "C" Co., 20th, 36-19. "A" Co. team No. 1 of 19th battalion defeated "A" Co. team No. 2, 16-10. Two good games of volly ball proved to be very popular with the men.

onto Rugby and Athletic Associa-nave dropped out of senior hockey his year at least. While no reason

At a meeting it was decided to enter a Goderich team in the Intermediate O. H. A. series this winter. The line-up will contain the names of many of the same men wha played before, as a number of them will be back for the winter. Officera of the club were elected, as follows: President, John Wiggins; secretary, E. R. Wige; treasurer, W. H. Robertson; manager, Dave Thompson; committee, Frank Doty, Harry Belcher and Dan Wiggins.

Just by way of letting off surplus steam, and possibly with the idea of keeping his batting eye in shape for winter's strenuous duties, the redoubtable Minnie McGiffin, the erratic forward of the Toronto hockey team, has been playing golf and playing it well.

Jack Marshall, manager of the world's champions, is showing friends in Montreal clippings from California papers which set forth that Rby McGiffin recently captured the state handleap golf tournament. McGiffin defeated a number of good golfers in the tourney.

McGiffin is not the only hockey player who golfs as a summer pastime. Odie Cleghorn of the Wanderers is an unusually clever golfer, and Art Ross can drive a ball as far as the next man. Incidentally, Jack Marshall thinks that McGiffin is one of the most misunderstood players in hockey. "He's a good little fellow, and wouldn't hurt a fly," says Jack. "When he swings at a player's head, he always knows that the player is well out of range. He does it

Bidmonton Bulletin: Carried away by the announcement that the Pacific Coas Hockey League would credit assists to all players making passes that figure in the scoring of a goal, Billy Isherwood of the Calgary News-Telegram, goes the Coast scribes one better, and says he will make up a box score of all hockey games taking place in Calgary this winter. Bill is either "kidding" his readers, or storing up a lot of worry for the cold winter evenings.

"Ish!" will score "goals," "assiste" and "errors," and will also compile averages for the season. The following list shows what comprises errors, and the writer would advise the Cargary sport scribe to go very easy when charging players with No. 4. No player in this broad world likes to be called "Yellow," and unless Bill has provided himself with a suit of nine-inch armor plate to wear at games he should have a care about charging up a lot of No. 4's against a team, and then casually strolling into the dressing-room a week later to ascertain the line-up. A hockey stick, when efficiently wielded, makes a deadly weapon, as witness the prowess of Newsy Lalonde and Bad Joe Hall.

Following are the things Calgary players must NOT do, on penalty of being box score:

1. Lose puck thru using dirty tactics.

THE CHRISTMAS MAIL.

Barly next week the messages which are to reach Great Britain for Christmas must leave Toronto. Owing to the presence of the Canadian contingent there, it is expected that both the parcel and the letter mails will pass the record. Following the precedent of lest year, the great Christmas mail message service will be held in the Massey Hall next Sunday afternoon. At half-past 2 there will be an organ recital by Healy Willan. F.R.C.O., and the singing will be led by the Toronto Phitharmonic Society, under Albert Downing. Many members of patriotic societies will attend. Six city clergymen will take part, and the Rev. S. D. Chown, D.D., will give the only address.

Carroll, Brockville; second vice-president, P. S. C. Roberts, Montreal; hon. secretary R. E. Melville, Montreal; hon. secretary R. E. Melville, Montreal. The union passed a resolution whereby they will suggest that a rules commission be appointed by the Canadian Union to revise and make some changes in the rules, the commission to be composed of two from each of the unions, with power to make changes they see fit. It is also thought that such a commission would be the means of bringing the Intercollegiate in with the other governing bodies, and bring about a uniform playing rule.

WANT MINING STOCK

Canner and Cutter Class Were the Feature of Yesterday & Market.

TRADE WAS VERY QUIET THINKS PUBLIC WILL

Butchers, Ready to Buy, Couldn't Get What They Wanted.

Receipts of five stock at the Union Yards on Tuesday were 190 carloads, comprising 1275 cattle, 2248 hogs, 1049 sheep and lambs, 174 calves and 13 horses. Good to choice catthe were very scarce, nearly all of the outerings being of the canner and cutter classes.

Trade was very quiet, light butchers' steers and helters being hard to sell, and prices for them were easier.

Good butchers' steers and helters were readily bought, but there were few of them. One straight load, weighing 1090 lbs., was sold by Corbett, Hull & Ougalin at \$8.

Stockers, feeders, milkers and springers, as well as caives and hogs, sold at unchanged values, but lambs were saluby some to be cheaper, while others

For the fiscal year ended October 31 last, the Quebec Bunk reported net profits of \$296,659—a decrease of \$12,669 from those of last year. The bank's annual meeting was held in Quebec yester-

ers, as well as caives and hogs, sold at unchanged values, but lambs were salued by some to be cheaper, while others again said they were nearer. The trouble was that the quality of the lambs was not as good as on Monday.

Butchers' Cattle.

The best butchers' steers and heifers sold at \$5 to \$8.10, \$7.75 to \$8; medium, \$6.75 to \$7; common, \$6 to \$6.50; choice cows, \$6.75 to \$7; good, \$6.10 to \$6.50; medium cows, \$5.50 to \$6; canners and custers at \$3.75 to \$4.60; bulls, \$5 to \$7, and two or three at \$7.25 to \$7.50.

Testerday a meeting of all the members was held. It was decided to make see of the entire charter, which calls for trading in any securities. The decision was unanimous. It has not been definitely decided upon as to what day this how business will be commenced. It has been left with the directors to decide that. There are a few details in connection with the proposed idea which must be gone into, but it is definitely stated that within a few days the matter will be adjusted, either in making a full open market, or in only participating in a portion of it.

"We have weathered the storm," said President Lorsch last evening, "and there hasn't been a failure. Our members are in good thancelal shape and feel inclined to favor the wider market. In that case we would deal in all and any securities. Our charter is wide and allows us to do that Our exchange was the first to open with restrictions and the first to do away with them. The matter has not been definitely decided, and other securities than mining will not be called right away."

Inquiry. Canadian Press Despatch.

NEW YORA, Dec. s.—Sentiment in financial circles was considerably heart-ened today by the decision of the stock schange to resume restricted trading in tooks on Saturday. This feeling was accentuated, not so much in the volume of business for bonds and stocks, which fell under the recent high level, but in the filmer tengency shown by nearly all classes of securities. Moreover, the day's list of stocks submitted for publication beyond control additions to that

MORE SOCK ORDERS COMING TO CANADA Repeat Orders Will Keep Factories Busy Until Spring.

Canadian manufacturers of hosiery are among those whose business has not suffered from the war, says Bradstreets. For some weeks past large orders for this class of goods have been placed with Canadian firms on behiaf of both the Imperial and Canadian Governments. A repeat order for 750,000 pairs of socks to be completed before the end of March, recently issued by the British authorities, together with orders already on hand, will keep Canadian firms working well up to capacity till the spring. The fast that repeat orders for woolen underwoar as well as socks are coming from the United Kingdom shows that the goods already furnished are satisfactory and may be taken as a sign that further orders may be expected.

DEMAND CONTINUES **BUT SHIPPING POOR** Exporters of Manitoba Spring Wheat Hard Hit by High

Rates. Canadian Press Despatch.

MONTREAL, Dec. 5.—There continues to be a good demand from foreign buyers for Manitoba spring wheat and some fair lots of No. 1 hard were on hand to be shipped to London at 47s and 47s 3d, but owing to the high rate of freight demand from Portland to this port it was impossible for exporters to do any business.

There was no improvement in the domestic demand from country buyers for Argentine and American ports. Trade in mill feed and oats is active, with prices firm Local trade in butter is still quiet, but there is a steady enquiry for cheese from over the cable. Demand for eggs is good.

Quarter Toys in the Christmas Show

"When people will get down at 8.30 a.m. to buy twenty-five cent toys, the values must be quite extraordinary," said a man who was en one of the 8.30 elevators to the Fourth Floor Christmas Show—and when he looked into the matter, he found it was even so! He saw before him many dollar toys with a twenty-five cent ticket on them. His youngsters will get about four times as good toys as he expected to give them this Christmas!
