> NEW YORK, Sept. 30 .- Altho the designated price of the Anglo-French five-year credit bonds has been fixed at 98 to the public, it developed today that virtually andyone who wished to purchase them in amounts of \$1000 and upward would be able to do so at 96 1-4, the net to the syndicate. At the same time a method to main-

tain the price by artificial means at 98 during the life of the underwriters' syndicate, or 60 days, has been adopted. This was done in anticipation of possible large offerings of the bonds on the market at prices below the figures designated by the underwriters. It was reported that the Anglo-French commission had insisted that this price be maintained until the entire issue

should have been underwritten. Bond houses, national banks, and financial institutions thruout the city, which have entered the syndicate, offered the bonds today to their clients at 96 1-4, by agreeing to include them at the underwriters' price.

Collapse of These Lines Will Be Acute Menace to Greater Part of Enemy's Position in the West-Germans Admit Loss of Important Point Near Massiges -Pressure on Russia is Relieved By Allied Gains in the West.

ONDON, Sept. 30. - While the Anglo-French troops in Artois apparently are now simply engaged in consolidating the ground won, and opposing the German counter-attacks, the battle for the German second line of defence in Champagne—the collapse of which would acutely menace the greater part of the German position in the west—is proceeding with the greatest stubbornness.

> It is believed here that, besides the gain of ground both in Artois and Champagne, and the improved position of the allies generally,

Already large reinforcements for the Germans are arriving on the western front, and their presence has already had the effect of slackening somewhat the allies' offensive. But there is a possibility of the offensive breaking out on some other section of this front. In fact, the correspondent of The Cologne Gazette at German headquarters announces that an attack was made east of Auberville, which, he says,

Field Marshal Von Hindenburg, while he claims to have made some progress in his operations against Dvinsk, is still a long way from that city. His troops to the southeast of Vilna, however, have had better success. They have broken thru the Russian position and captured a thousand prisoners. It is believed that this is the first stroke in his latest blow against the Russian right, and that he intends to advance southeastward in the direction of Minsk and endeavor to cut off the Russians retiring from Baranovitchi.

South of the Pripet marshes, in which Field Marshal Von Mackenzen and his troops are stuck, the Russians have been driven back across the Styr River, but along the Galician border they are still heavily hammering at the Austro-German armies.

BARTON TO APPEAL TO RAILWAY BOARD

Application for Water Accommodation Finally Turned Down.

Reported License Board Has Decided Upon Strong Legislation.

HAMILTON, Friday, Oct. 1.—In order to obtain a supply of water and sewerage accommodation from the City of Hamilton the residents of Earton Township will have to appeal to the Ontario Rallway and Municipal Board for an order compelling the city to grant the desired concessions. This action is made necessary because of the fact that the city council at a special meeting last evening decided to turn down the agreement prepared by a joint committee of the works committee and the board of control. The matter was brought to a disastrous conclusion for the Barton Township residents when the following resolution, moved by Controller Cooper and seconded by Ald, Nichols, was passed by a vote of 13 to 4: "That this committee disapproves of the agreement between the City of Hamilton and the Township of Barton respecting the city granting a water supply and sewerage accommodation to Barton Township."

Agreement a Joke.

did not state their views on the question during the meeting, but beforehand expressed the opinion that the agreement was a joke so far as the city was concerned, practically every clause in it favoring the township. Those who spoke against the passing of the bylaw claumed that it would be detrimental to the interests of the city. Many of the members expressed the opinion that it would be folly for the city to enter into an agreement whereby the to enter into an agreement whereby the township would be provided with all city. privileges and improvements and its population increased at the city's ex-

Controllers Morris and Robson and Ald.
Robson upheld the agreement and claimed that it would be a profitable piece of business to sell water to the township at an advance of the cost to the city and that it would also provide the people of Barton Township with accommodation. It was stated that the city tax and water rates would be reduced because of the fact that the city would be selling its water at a profit water at a profit.

Controller Morris pointed out that the citizens are now suffering because of mistakes that were made in the past and urged that the bylaw be passed so that the city could do planning at the township's evenes.

START IN SPRING IF SATISFACTORY

At yesterday's meeting of York Township Council, the township engineer submitted his report as to the cost of the proposed water main on Eglinton avenue and the twelve inch mains leading off to St. Clair avenue.
The cost is estimated at \$750,000.
Deputy Reeve W. M. Graham, interviewed regarding the matter said: "The city has promised to water and the York Township Council
will apply to Works Commissioner R.
C. Harris for a draft agreement stating the probable cost and the conditions upon which the water will be supplied Should everything prove satisfactory to the city and township authorities, the work will probably start is the spring," said Mr. Graham.

COMPLETE WORK ON SPUR

Work on the new spur near Avenue road on the St. Clair avenue civic car line will, it is expected, be completed today when an extra car will run to and from the terminus at Yonge street to Avenue road in order to help the passenger traffic from North Toronto to the city by way of Avenue road.

The idea in general is to give all the residents of the township north of Eglinton avenue between, say Dawe's road, the eastern boundary, and Keele street on the west, water connection presumably with the city if terms can be arranged and the rates are not

prohibitive. It is proposed to instal a two-foot main on Eglinton avenue, connected by a twelve-inch main on such streets as Bathurst, Spadina, Lauder, Oakwood, Kennedy and two or three to the east of Yonge street running north, while the less populous streets would be served with smaller mains. In this way an enormous area practically un-served save by local wells would be afforded this privilege. Peabody and Dr. MacKenzie at Convocation Hall

Modern conditions and the modificaions which the minister of today must comply with, together with the spirit with which the Christian minister must be endowed when he goes forth from the theological college to preach the Gospel of Christ to the world, were touched on at the special meeting in convocation hall last night, when Rev. Clarence McKinnon of the Presbyterian College, Halifax; Prof. Francis G. Peabody of Harvard Divinity School, and President William D. MacKenzie of Hartford Theological

Seminary delivered forceful addresses. It was the dynamic rather than the static that Prof. Peabody set forth as the prime essential of every minister of the gospel. There was a new scope in the definition of religion, he said, with the conveying of a social message to the people. "The dynamic view of religion is adapted when the mind of man is turned to social ends." said Prof. Peabody. "The message of

Rev. Clarence McKinnon spoke of the Christian minister as the herald of the evangel. There was an insistent demand for the minister to be able to interpret Christianity in terms of everyday life. "Nothing stirs the human heart as much as the desire to right a social wrong," said the speaker, referring to an important phase of the work of the minister of today. The importance of the religious education of the minister was touched on by President W. D. MacKenzie in his address. It was forced home by the speaker that the minds of the theo-

In the Champagne, French troops have gained a footing at various points on the German second line of defence, the official statement adds.

The text of the statement follows:

the Artois district has been a very violent bombordment of our new positions to the east of Souchez.

Premier Venizelos was greeted enthusiastically when he entered the building. He said, in an address to the chamber, that mobilization of the Greek forces was indispensable, on account of Bulgaria's military measures. He stated that Bulgaria had explained to Greece that her object in mobilizing was to maintain armed neutrality and that she had no intention of adopting an aggressive attitude towards Greece or Serbia.

DOUBLE THE STANDING

Three Hundred Thousand Men Fitting Total for Dominion to Have.

The recruiting meeting held in front urged that Canada should double the number of recruits and bring it up to 300,000, and outlined the work being done by the Dominion Government to aid recruiting.

Of all the colonies of the empire, the percentage of recruits from Canada, according to population, is the lowest, declared the speaker. Great Britain has given eight per cent.; South Africa, four per cent.: New Zealand, three per cent., and Australia, two and a half per cent., while Canada has only given two per cent.

He did not think that Canada was

doing its duty as well as the other colonies, altho the Dominion is the most populous, the wealthiest, and nearest to the mother country of all the self-governing Dominions. In urging the young men of the city to enlist, Mr. Rowell pointed out that they would only be filling the places of those who had died for the empire since the war began.

day and night to supply the allies with PARIS. Sept. 30.-The number of Austro-German troops concentrated on the Serbian frontier is estimated by the Nish correspondent of The Temps at 500,000. He says that 350,-000 of these are Germans. The correspondent at Petrograd of The Correspondent at recognition of the Temps says that approval is given in influential quarters at the Russian capital to the idea of joint occupation of Macedonia by the allies. It is believed this would be an effective means of keeping Rulgaria and tive means of keeping Bulgaria and Serbia apart and of defeating German efforts to bring Bulgaria into the war while Austro-German forces are in-

vading Serbia.

Must Demobilize. The Temps says that the French Government has arrived at a certain decision as to what should be done to avert an attack on Serbia by Bulgaria. The indications are that Russia will assent to this plan that Italy will not oppose it and that England probably will give her adherence. The nature of the plan is not disclosed, but The Temps states that the situation in the Balkans requires that the prospective Bulgarian attack on Serbia shall be prevented by a demand on Bulgaria for immediate demobilization. This newspaper asserts it has reason to believe that the reports from Saloniki that Buigaria has definitely agreed to take the field on Oct. 15 are correct, and that delivery of the territory re-cently ceded by Turkey is contingent on action by Bulgaria against Serbia at that time.

COTTON INTERESTS ABLE TO DO WITHOUT RELIEF

British Government Finds It Unnecessary to Take Special Measures

LONDON, Sept. 30 .- The British Government has not found it necessary to take measures to relieve American cotton interests, since Great Britain declared cotton contraband. Lord Robert Cecil, under secretary for foreign affairs, declared in the house of com-

mons this afternoon. The under secretary was asked if Great Britain had arranged to buy American cotton to maintain prices. He replied that the government did contemplate relief measures in the event of an abnormal depression of the American market, but that nothing

of conditions in England during the Deals Entirely With Society Evils in Its Various Forms.

> No longer can this city claim to be "Toronto the good," in the face of the report of the social survey commission, more commonly known as the "vice commission," which was presented to Mayor Church , yesterday by George A. Warburton, the secretary. The commission has been at work investigating Toronto's vice conditions since November, 1913, and during that time a careful study of the underworld in the city has been made.

> The report deals entirely with the social evil, which is put under the following heads: Houses of ill-fame. houses of assignation, individual prostitutes, illicit sale of liquor, street soliciting, conditions in hotels and restaurants, occasional or semi-professional prostitutions, cadets, procurers, etc., white slave trame and massage parlors.

> In dealing with houses of ill-fame it says: "When all the varieties are considered, the number is found to be exceedingly large, and from actual information in possession of the com-mission, the statements made about houses of ill-fame existing by hundreds are not greatly exaggerated when the various classes of houses are taken into consideration. The method of gaining access to these various places is outlined, and the business is characterized as one being conducted by "alert and up to the moment

It has been found that the illicit sale of liquor and houses of ill-fame usual y go together.

There is a startling amount of street soliciting at all hours of the day and evening by women and girls, ofte

very young girls.

Methods Are Known. The methods used by those engaged n this nefarious business have been carefully gone into by "observers." Hotels and restaurants are used as rendezvous, ice cream parlors and res-taurants often being used as a blind for the vile business being conducted. Regarding the white slave traffic the Mr. and Mrs. Joseph Taylor Surreport says "that no positive evidence has been secured of the existence in Toronto of a system of obtaining and retaining involuntary victima for the business of vice to an eatent that would warrant the statement that a white slave traffic flourishes here." Nearly all so-called massage parlors have been found to be houses of prostitution and worse, "the 'worse'

The report goes carefully into the legal aspects of the vice situation and says that the Canadian laws should not be repealed or relaxed. It con-demns segregation, and believes that street soliciting would not be so prevalent unless there was some indif-ference to it on the part of the police. The penalties imposed on offenders are criticized and a policy of total sup-

pression is urged.

Causes leading up to prostitution are given as poverty, poor housing, boarding houses with no room for recreation except the bedroom, feeble-mindedness, poor lighting of parks and public dance halls. The commission would close up all burlesque houses, and give the health department the right to queratine all persons with right to quarantine all persons suffer-

right to quarantine all persons suffering from sexual diseases.

In every portion of the report dealing with the social evil the investigators, after explaining conditions which they declare they have found, quote no evidence to substantiate their findings. They say the evidence is too difficult to obtain in order to prove the conditions.

wastes his life in wandering from the substantial, even the trivial, duties of ordinary existence, was the subject of th dinary existence, was the subject of the opening lecture of a course of six on Ibsen, by Edward Howard Griggs last night in the guild hall, McGill street. Peer Gynt never did anything good and never did anything good and never did anything bad, and was it neither for heaven nor hell. His potential self endured, in spite of all, in the faith, the hope and the love of Solweg. In the true woman, and the more truly she loved, there was always an element of motherhood, and it is this spiritual motherhood which Solweg represents in Ibsen's great drams.

Mr. Griggs laid stress on this element of the eternal feminine, ever leading upward, as a keynote in Ibsen, as well as in Goethe.

ward, as a keynote in Ibsen, as well as in Goethe.

While our minds were over-burdened with the world struggle and we recognized the infinite waste, not only of our material, but of our spiritual heritage, Mr. Griggs thought it worth while to turn asine to study the most significant figure in the literature of the last 100 years. Not that Ibsen's philosophy was without defect, but he had such an influence on his contemporaries that he had to be regarded, if not as an Olympian, at least as a Titanic figure. He was late and slow in his development. All but one of the works to be 'studied in Mr. Griggs course were produced after he was fifty years of age, and all his great dramas were written after that time.

He was born, like Tolstoi, in the year

time.

He was born, like Tolstoi, in the year 18'8. Tho born in Norway he had no Norwegian blood, but was Danish, German, and largely Scottish. The revolution of 1848 caught his imagination in the middle of his work as apprentice in a drug store. Ole Bull, the great violinist, picked him out to be director of the little theatre at Bergen, which Bull established there as the beginning of a national theatre. At 29 he married and went to Christiania to take charge of the National Theatre there.

mational theatre. At 29 he married and went to Christiania to take charge of the National Theatre there.

Left Norway.

In six years he left Norway in connection with the war of Prussia against Denmark. He wroce a poem to arouse Denmark. He wroce a poem to arouse Norway and Sweden to assist Denmark. Norway would not fight unless France and England did, and these powers, doubtless to their present regret, refusdation of their present world war.

Ibsen was so disgusted with his own people that he shook the dust of his native land from his feet, and betook imself to Italy. Here he wrote "Brand," the most scathing indictment of a nation ever penned. Norway accepted the omposition, recognizing its justice. He ecurs to the Danish war in Peer Gynt, and the 4th act, where his caricature of he German is a remarkable anticipation of the present day. The German annexes Peer Gynt's yacht simply because it is full of gold and he needs it. He utters this line, an interesting anticipation of the mood of the present kaiser: "I, my gigantic Fatherland's kulture.

my gigantic Fatherland's kulture spread over earth and sea." After "Brand" there followed "Peer Gynt," the most illuminating treatment of human character Ibsen had yet given to the world. The play was based on a real character of recent Norwegian tradition.

Such wild and inconsistent conduct as

Such wild and inconsistent conduct as comes from living in a world of fantasy was Mr. Griggs' explanation of Peer Gynt's rape of Ingrode, and the wild scene with the Satyr girls on the mountains was a parallel of the Walpurgis Night in Faust.

So to conduct oneself as to realize one's self appeared to Ibsen as the greatest possibility of human nature. Mr. Griggs held, that perfect self-realization was utterly incompatible with selfishness. If one is sufficient to oneself it is impossible to attain self-realization. The two are antithetic. Troll life ignored all outer claims and cut itself off from the rest of the world. It was living not a human life but troll life to isolate oneself from the rest of humanity. Ibsen applied the story to Norway. Mr. Griggs remarked, amid audible smiles, that his audience might apply it where they pleased.

Next week Mr. Griggs will speak on Ibsen and feminism, taking "A Doll's Rouse" as a text.

The Indians of Simla also entertained Lord Hardinge. Speaking at the huge gathering Raja Sir Harnam Singh alluded to the viceroy's keen desire to have the soldiers of India fight side by side with British soldiers in Europe. Lord Hardinge, he added, had given to Indian aspirations a weight and a dignity to which they had never before attained, and his name would be recorded in national history as one who had assisted towards the attainment by the people of India of their rights as citizens abroad and the full constitutional development of their citizenship in India.

Lord Hardinge, in the course of his reply, said that his earnest desire had always been to contribute to the material welfare—and development of his fellow Indian subjects. And he had endeavored, he added, by thoughtful consideration of their needs and aspirations to raw them closer to the government.

Malfeasance Charged Against

Bellingham Woman Sues for Recovery of Twenty-Five Hundred Dollars.

VANCOUVER, Sept. 30 .- The first harge of malfeasance against trust charge of malfeasance against trust company directors in the local courts is being heard before Justice Morrison in the suit which Miss Bertha Kory, of Bellingham, has brought against the directors of the Trades Trust Company. Miss Kory is suing for the return of \$2500 which she alleges was improperly dealt with by the directors in the dying days of the company. The directors are Thomas Duke, president of the company, and a well-known politician, C. G. McLean, Kenneth Lamond, R. S. Lewington, John Thomson, Alex. Graham, A. N. Daykin, H. G. Scott, F. E. Elliott and C. E. Pitblado.

Sir Charles Tupper, for the plaintiff, charged that Pitblado assured Miss Kory that the company was guaranteed by the Bank of England, and that he would see that her money was invested for her in good mortgages. As a matter of fact, the money was used to pay off a pressing creditor.

Three Million Dollars More for September Than Same Month Last Year.

By a Staff Reporter. OTTAWA, Sept. 30 .- The increase in the Dominion revenues for September promise to be even greater than was anticipated. They are likely to be at least \$3,000,000 more than for the corresponding month last year. The customs revenue for the month just closed was \$8,029,665, as compared with \$5,919,273 a year ago, an increase of \$2,110,391. For the first half of the fiscal year the customs revenue is \$44,760,830, an increase of \$1,715,000, but that increase will be considerably increased in the latter half of the year. FRIDAY MORNING, OCT. 1.

Earlscourts Past and Future Earlscourt is agitated, and reasonably so, over the problem of park accommodation. We are not specially concerned with the merits of one or another piece of property, but with the principle involved. Here the Earlscourt people have legitimate right of complaint. People who never move out of their own ward, or their own street for that matter, cannot understand what a tremendous municipal problem Earlscourt presents to the civic authorities. Parkdale, North Toronto, East Toronto, the Beaches, Seaton Village, none of these localities have offered more complicated or

more pressing problems for solution. The chief trouble is that any settlement that can now be made must be of the nature of a compromise, a patching up of a defect in our civic administration which constantly faces the city under our present methods or want of methods. Prof. W. D. Mackenzie Discusses Growth of Irreligion in Modern Times.

Dr. John Watson, professor of moral and mental philosophy at Queen's University, subjected German philos sophy to a scathing fire of criticism in his address before the Knox Colege alumni yesterday, on "German Philosophy and the War." The fallacies of the famous German thinkers, such as Nietzsche, Schopenhauer and Harnaek, were exposed before the Presbyterian alumni with such directness that great enthusiasm was aroused. It was the philosophy of Germany and the wretched diplomacy of her rulers that brought on the great European war, Prof. Walson assert-ed. The fact that such an influence as philosophy never acts directly or immediately was emphasized by the speaker, who said that there was a danger of overestimating its importance, or, on the other hand, of neglecting its importance.

ing it altogether.

Theology is Lost.

"The Germans have no longer a theology," asserted Prof. Watson, "by which I mean a reasonable philosophy of religion. For nearly one hundred years they have devoted all their energy to fitting and their energy to fitting and their energy. e years they have devoted all their energy to fitting and classifying facts. During that time they have not produced a genuine philosophy of religion." Tracing the successive steps of Germany's progress along these lines, the lecturer paid considerable attention to Bismarck and the preparation of the military era.

"The pity of it all is that German philosophy, in its popular form, has lost all rational belief in love and righteousness, and has enthroned in righteousness, and has enthroned in its stead the fetish of force and fraud and frightfulness," said Dr. Watson.
"This phase extends from the year "This phase extends from the year 1888 to the present day. It is lamentable that a nation of thinkers should be misled by the sophistry that states that, because each state has power to enforce its own decrees on its own citizens, therefore it may coerce all other nations in its own interests."

ford Theological Seminary discussed the question of the intellectual spirit of the day and its challenge to the ministry, in an address that impressed the Knox College alumni with the breadth of his thinking.

"The most remarkable thing of modern times," said Dr. Mackenzie, "is the growth of irreligion, and it seems to be supported by definite principles of thought. It is astounding how many respectable, clean-living people have no use for religion."

DR. ADAM LYND PASSES AWAY.

Board of Control Brought Up Matter, But Failed to Reach Decision.

When the question of housing soldiers at the old General Hospital came diers at the old General Hospital came up at the board of control meeting yesterday, Mayor Church made another attack on the government regarding military matters. "They ought to be ashamed of themselves for putting men in the old General Hospital, considering its filthy condition. The German Government wouldn't do such a thing," declared the mayor when the question was being discussed. According to the mayor, the hospital question was being discussed. According to the mayor, the hospital authorities have refused to open the building to the military until the city agrees to pay the monthly rental of \$750. Two thousand soldiers are to be housed there shortly and Colonel Caldwell is desirous of getting the keys at once so that he may go on with the work of getting the buildings which the mayor says are in a disgraceful condition, ready for the men. His worship demanded that the patients at the Reception Hospital, occupying one of the buildings in question, be moved, and his reference to the Reception Hospital as the "Detention Hospital," was objected to by W. W. Dunlop of the provincial secretary's department. "It is a reception hospital where incipient cases of insanity may be treated, and there are friends of yours there," said Mr. Dunlop in addressing the mayor. The building will be taken over by the city for the militia, and the military authorities will be asked to allow the Reception Hospital patients to remain on condition that a high board fence enclose the building they use.

G. Frank Beer Retires.

At yesterday's meeting of the Citizens' Recruiting League, the resignation of G. Frank Beer, as chairman of the executive committee, was accepted and a report on certain changes in the organization, which it is hoped will prevent overlapping of the work, was adopted. The work of the league has been going along splendidly and the changes proposed will, it is thought, make the work even more efficient. Mayor Church will retain the presidency and Dr. Norman Allen was made vice-president and chairman.

TWO BRITISH GENERALS FELL IN OFFENSIV

Sir Thompson Capper and Major-General Thesiger Killed in Action.

LONDON, Sept. 30 .- The British casualties in the recent offensive action on the western front included Lieut.-General Sir Thompson Capper and Major-General G. H. Thesiger, both killed.

Cases of contagious disease reported to the medical health department totalled 338 during September as compared with 241 in the same month last year.

Rains Heap up Expense.

Owing to the heavy rain storms of this summer, it has cost the city some \$20,000 to make repairs on 75 unimproved streets. Yesterday Works Commissioner Harris recommended to the board of control that these streets be paved, but the board decided that it would be better to deal with each street separately, as the total expenditure involvd would be too heavy to put thru at one time.

General Capper, who was born in 1863, commanded the 13th Infantry Brigade from 1911 to 1914 and then was appointed an inspector of infantry. He had been awarded the Distinguished Service Order and several other medals for his gallantry.

Six Hundred Thousand Men Now Said to Be in the Field.

NEW YORK. Sept. 30.—Serbia has an army of about 600,000 men in the field to resist invasion of that country by the Teutonic allies, according to information received by the Serbian agricultural relief committee from Prof. Losanitch of the University of Belgrade. The professor estimates that Serbia has lost about 120,000 men since the war began and that about since the war began and that about one in every five who were wounded died. The army includes, he says, practically all the able-bodied men between the ages of 18 and 60 years.

Authorities Await Reply From Britain to Proposition on Matter.

By a Staff Reporter. OTTAWA, Ont., Sept. 30 .- That the Canadian shell manufacturers are doing vitally important services in doing vitally important services in support of the great offensive just begun by the British, French and Beltians on the western front is indicated by the way in which they are now helping to feed the British guns, and the success of the allies depends on the sustained effectiveness of their artillery. Canadian workshops are producing one million empty shells per month and 17,000 shells per day with month and 17.000 shells per day with fixed ammunition. The latter will be increased to 50.000 per day in the near

If the munitions department accepts the Canadian proposition for the manufacture of big guns the part played in the war by the workshops of the Dominion will be very largely increased. No reply has been received yet from England. If the reply is favorable, the first thing to be done will orable, the first thing to be done will be to obtain necessary equipment and machinery for making the guns. The workshops concerned will naturally require some time to do this.

It would seem to our way of thinking that this is a trivial matter to throw out two teams over, and the Scottish put the onus, on the Manitoba Association when they asked for protection. There must be something more behind that matter and some more disclosures are looked for.

The D.F.A. rule No. 4, section A, says:
"An amateur must not compete with or against professionals," and an underlined foctnote to this adds: "Wages paid by an amateur club to a trainer are training expenses within the meaning of this rule."

Our interpretation of this rule would make it seem that the Winnipeg and District Association is in the fault, not

Queer Quirks Of Baseball

PHILADELPHIA, Sept. 30.— Three members of Pat Moran's champion Phillies are laughing themselves sick. champion Phillies are laughing themselves sick.

They are Al Demaree, the well-known cartoonist; Milton Stock and George Whitted. McGraw considered the latter pair drift-wood, so he cut them loose last season while the Giants were leading the league with every prospect of finishing first. Stock and Demaree were pretty peevish, as they figured they were being cut out of a world's series melon. When the Giants didn't win they snickered audibly. And when McGraw traded them to a winner, they're guffawing outright.

Whitted's case is almost the same. George was sore when Stallings sold him last winter to the Phils in the Magee deal, for the Braves looked sure to repeat. Now that the Phils will figure in the October ple cutting, George has joined the chortling chorus. ST. MICHAEL STAR **OUT AT ROSEDALE**

Coaches McEvenue, Coyell and Foulds had a squad of 40 working for over two hours, and the Scullers will start the season in tiptop shape. Jack O'Connor Everett Smith, Freddie Mills, Patterson Beecher Gale, Dutch Heuther, and practically the whole of the old guard were on hand. Polson, from the Beach, is showing up well at centre scrimmage.

T.R. & A.A. had another good practice at Victoria College last night. Ted Whale is working hard, and Freeman, the boxer, is going to make Burkart and Moore hustle for the outside wing jobs.

The Black and White squad will go up to Hamilton on the 1.15 train Saturday to tackle the Tigers. T.R. and A.A. will nardly be in the best of shape Saturday owing to the late start, but will give the Tigers a good argument.

Joe Canfield, of last year's St. Michaels team, is studying to be a priest in a Montreal seminary and will not be seen on the football field this year.

Argonauts will practice on St. Andrew's College campus on Saturday at 2.30 p.m.

John Stirrett, vice-president of the Argonauts, visited Niagara camp yesterday to make arrangements with Jack Maynard to bring over his soldier team on Thanksgiving Day. Dr. Norman Allen interviewed Col. Logie to get the necessary leave for the players.

The following members of the Capital 36-pound team are requested to turn out to practice tonight at 7 o'clock at Jesse Ketchum Park: Hunt, Hughson, Martin, Stocky, Carrington, Bailey, Conacher, Lebar, Garnett, Halpern, Mullen, Varnell, Dunn, Higgins, Montgomery, Harding, Thomson and Armstrong. The team will be picked from this practice.

The Elizabeth Intermediate Rugby team, champions of the City Playgrounds, 1914, would like to arrange a game for Saturday with any team, averaging 115 lbs. Manager Duke Sanson would like to hear from one or two good half-backs. Practice tonight at Elizabeth Playground, or phone M. 5128 between 6 and 7 o'clock.

A Montreal despatch says: It has been finally settled that there will be no senior McGill football team of any kind this season. At a meeting last night of the students' council it was decided not to participate in senior Rugby this fall. A proposal to run an intercollegiate series for patriotic purposes was also discussed, but the meeting decided that it was impracticable.

It is not likely that the O.R.F.U. sen-or season will open before Oct. 16.

AD FINE BABY SHOW

Beautiful Town in Holiday Attire, and Large Crowd on the Grounds.

COBOURG, Sept. 30.—The beautiful Town of Cobourg, with its wealth, magnificent parks, palatial residences with large and well kept grounds, was all in holiday attire to mark the last day of their big fall fair. The day was 3. Daingerield, 107 (Loudes), 108 (Loudes), 109 (Loudes), Horse entries were above past years, with ca tle about as good as previous fairs. Fruit and vegetables were goo exhibits; poultry exceptionally good.
In the class for heavy harness horses
J. W. Walker of Welcome was the
winner, with Fred Daley, Cobourg,
second. For single road horse R. C. 2 to 1, 6 to 5.
2. High Mark, 109 (McTaggart), 5 to 1, 2 to 1. even.

Second. For single road horse R. C. Simmons, Welcome, won with a very fine animal, with S. Palmer, Osaco, and George Beatty, Port Hope, second and third. The red ribbon was awarded to W. Davidson, Port Hope, for pair of road horses. Road mare and foal, James McCague, Cobourg, was

pair of road horses. Road mare and foal, James McCague, Cobourg, was first; E. Johns, Cobourg, second. Honors for saddle horse went to T. Onyon, Colborne, first; Miss L. A. Livingstone, Cobourg, second. For heavy draught team. William Lingard, Cobourg, secured the red ribbon with a fine pair in their class; heavy draught 2-year-old awards were Fred Roberts first, James Brey second, both of Cobourg; heavy draught mare, J. Ough first, F. Parker second.

A baby show was a very interesting feature, over 30 handsome youngsters being present for the honors. It was a difficult task to settle the winner, but the final summing up resulted in a popular victory for Mrs. Vincent Dawe, with Mrs. R. D. Niles second. A novel attraction was added in a tug-of-war between ten men and a team of horses. The first pull went to the horses, but the second time the rope was gradually drawn the other way. There was a rumor that some extra assistance was given the men. The horse racing was well contested with close finishes. Following are

Cattle Market Was Without First Grades in This Class.

BUTCHERS' ARE SLOW

Trade Held About Steady and Practically Over by Noon.

The receipts of live stock at the Union Stock Yarus on Thursuay totalled 60 cars, including 525 cattle, 48 caives, 1096 hogs, 1986 sheep and lambs and 63 horses.
Burchers' cattle: There were no choice heavy steers on sale yesterday, so Wednesday's prices will have to stand for this class. The buttoner cattle present were slow and just steady. Canners and cutters and bologna bulls were barely active at easy mid-week prices. The market, except for odds and ends, passed the weighmaster by noon.

Stockers and feeders: The frade in this division closed weak and slow yesterday for anything but choice selected animals. Straight loads must be quoted life to 25c off, common and eastern grades feeling the break the most.

Milkers and springers: Many local dealers this week bought and shipped out cows to Quebec and Ontario points and could have handled more of the choice kinds. Market closed active and firm.

Lambs, sheep and calves: The top price for a straight deck of lambs on Thursday was \$8.65 per cwt. This was 10c lower; the heavy lambs also reverted the same amount. Sheep were steady and choice veal again was recorded firm to 11½c per lb.

Hogs: The light run of hogs caused competitive bidding among the buyers and some fancy prices were paid. The best evidence, however, shown in straight sales would lead one to believe that 25c per cwt. advance over last week was the established market at the close. But pork, live-weight, is in a strong market. Butchers' cattle: There were no choice

and choice veal again was recorded from the 11½c per lb.

Market Notes.

H. P. Kennedy received from the border of Parry Sound District five of the choicest thorobred Hereford calves seen on this market in some time. 3. Rowntree bought them to feed for the winter show, at \$53 each. They would weigh now about 500 lbs., and showed excellent care on the breeder's part; their prospects under similar care and feeding are fine.

New York Stock Market Develops Fresh Interest in Metals.

REVIVAL IN UTILITIES

Sinking of American Ship in White Sea Caused Temporary Panic.

NEW YORK, Sept. 30,-There was further heavy speculation in stocks today but the complexion of the market underwent a marked change. War shares were less prominent, altho some of those issues, particularly Westinghouse, Crucible Steel, Lackawana Steel, Conental Can and American Can, ributed materially to the day's total. a whole, however, these specialties

Total sales of stocks amounted to 1,550,-000 shares.

Contrary to general expectations the war loan has yet made no change in rates for money. Approach of the third quarter of the year also was without effect on local monetary conditions. Bonds were irregular for a time, but lardened later. Total sales, par value, 45,225,000.

Quietness Prevailed in Bulk of Industrials on Montreal Market.

MONTREAL, Sept. 30.—The local stock market was rather quiet today. A few special stocks showed strength, Canadian Car opening strong at 110, relapsed to 106½, but closed at 109. The preferred closed at 1½ higher at 120½. Dealings in both stocks were on a larger scale than recently, about 800 shares of the common and 200 shares of the common and 200 shares of the preferred changing hands.

Carriage Factories rose 2½ to a new high of 40½ and Lyall was fairly active at its high record of 33½.

Apart from Iron and Scotia, the foregoing were the more active features of going were the more active features of the market. Iron moved along much the same as on earlier days of the week, rising about a point, and then surrendering the gain. The range was 46½ to 47½, with the close at 46%, or ½ up for the day. Scotia showed early strength vising 1½ to 29 but weekened for the day. Scotia showed early strength, rising 1/2 to 89, but weakened to 87% and finished there with a net loss of 11% for the day.

C.P.R. closed at 160, about 11% lower for the day. Total sales, 4331 shares, and \$15,250 bonds.

Smelters Has a Five Point Movement and Mackay Common Sells Higher.

The Toronto stock market had no broad buoyancy yesterday, but in a couple of instances there was a discouple of instances there was a display of strength. Smelters outsteped others in the list. After opening up a point, a further advance of four points was made and practically held. Mackay made a point, but the transactions were only for broken lots. The steels were irregular, and Steel of Canada was the weak sister, with a decline to 34 1-4. N. S. Steel advanced over 39 but slipped back in the later business. Steel Corporation was steady, and some further announcesteady, and some further announce-ment of new war orders obtained by this company is expected. The mar-ket generally was one of investment

Directors and Engineer of Nipissing Inspect New Gold Find at Beaver Lake.

Messrs. David and Alex. Fasken, members of the law firm of Beatty, Blackstock & Co., together with E. P. Earle and R. A. Watson, have left to ect what is report gold discovery north of Le Pas. The find is near Beaver Lake, and four days are consumed in getting to the property after leaving the train. In that E. P. Earle and D. Fasken are director sof the Nipissing Company and Mr. Watson, the company's engineer, it is thought that the Nipissing company might be contemplating investing in the gold property, which was located by Jack Hamill and others. The gold dyke is reported to be 60 feet wide and to assay about \$26 to the ton.

GOULD BUYS IN MUNRO.

SEPTEMBER WHEAT **JUMPS SKYWARD**

Big Rush to Buy at Closing Minutes of Chicago Pit.

ELEVEN CENT RISE

Hardening Tendency Developed Right at Start, But Advance Belated.

CHICAGO, Sept. 30 .- In the last few inutes in which wheat could be bought or September delivery the price of the September option today jumped sky-ward. Some belated shorts who had taken extreme chances in waiting for an improbable decline were forced to pay \$1.151/4 a bushel for September, an advance of 11%c, as compared with 24 hours before. Other months were but

Corn showed strength with wheat, but the advance was unimportant except for September. The squeeze against corn shorts in that month was mild, too, compared with the late tightness of wheat. Oats held within a narrow range. Trading was correspondingly small. Provisions broke sharply owing to announcement that virtually all of the big eastern markets had been closed to shipments of live stock from Illinois. Support from packers, tho, kept prices here from becoming demoralized.
